MOOSE SPRING CONFERENCE OPENS — B. W. Lard of Miami, governor of the Pampa Moose Lodge, is shown seated at his desk in Moose Home this forenoon, registering the first delegates to arrive for the three-day conference of the Texas Moose Association. The delegates, left to right, are Louis Gentry of Dallas, Mooseheart representative; Lynn Hurt, Winston Sharp and Randy Brennan, District 5 vice president, all of Baytown, Texas. (Daily News Photo)

Soviets Accept U.S. Offer Of 'Hot Line' From Capitols

Delegates Are Arriving For Moose Convention

First delegates arrived in Pampa this forenoon from Baytown to attend the three-day state-wide spring conference of the Texas Moose Association today, tomorrow and Sunday.

By tomorrow afternoon some 200 delegates and state officers from the 21 Moose lodges in Texas are expected to be in attendance, according to Tom Beard, secretary of the local lodge, which is hosting the conference.

Registration got underway at noon and will continue through tomorrow morning.

"Among dignitaries expected to arrive during the afternoon were Ray Landy of Fort Worth, state president of the association, who will preside over all business sessions. Samuel Simon of Fort Worth, state secretary, and Hamilton T. Murphy of Amarillo, representative of the Supreme Lodge of the Loyal Order of Moose.

President Landy will be in charge of all conference business sessions which will be held in the Moose Lodge Home, 401 E. Brown.

St. Entertainment sessions also will be held there.

On the program starting at 8 p.m. today are an enrollment ceremony and ritual by the state champion degree staff from Amarillo. Jim Shelton, deputy supreme governor, will act as master of ceremonies and President Landy will be the guest speaker tonight.

At 9 a.m. tomorrow ritual competition by degree teams is scheduled at Poole's Steak House, across the street from the Moose Home.

Beginning at 10 a.m. there will be a state board meeting in the Moose Home and the first business session. Governor W. B. Lard of Miami, head of the Pampa Moose Lodge, will give the address of welcome. Various committee and officer reports are scheduled and a number of awards will be presented.

A ritual school is scheduled at 4 p.m. tomorrow in Poole's Steak House and there will be a buffet dinner in the Moose Home at 6:30 p.m.

Tomorrow night's program is highlighted by a dance in the Moose Home. Presentation of awards for ritual competition will be made during the evening.

Closing session of the conference will be held at 10 a.m. Sunday when the principal address will be given by Gilbert Marx, national ritual judge.

The conference will adjourn in time for all visitors and delegates to attend church.

Officers of the Pampa host lodge at the conference include Governor Lard of Miami, Secretary Beard, Bobby Helm of Pampa, Treasurer, Charles M. Webb of Pampa, past governor and Bob Jacobs of Pampa, prelate.

The Pampa Moose lodge has approximately 160 on its membership roll.

John and Ted Gikas, proprietors of the Coney Island Cafe, 114 E. Foster, saw the pictures of the pair yesterday and said they definitely were the man and woman they saw in the cafe around 11:30 a.m., but they could not state definitely on what date.

The pictures also were identified by Mrs. Bessie Foster, a Coney Island waitress, who served the couple.

The tax office was robbed between 12 and 12:30 noon on March 13.

City Manager Harold Schmitzer yesterday definitely identified a photograph of Bezek as being the man with whom he talked in the City Hall lobby a couple of hours before the tax office was robbed of nearly \$350 in cash.

Tension High As Police In Berlin Clash

BERLIN (UPI) — Tension rose abruptly in Berlin today when East-West police clashed along the border wall and the Russians blocked a British television star from flying his plane in the air corridors leading to the West.

The West considered the Soviet veto of the flight a serious violation of the Western Allied right of access. It was the first time in the four-power occupation of the city that the Russians prevented a Western flight in one of the vital air lanes.

The border clash broke out when Eastern police fired 10 shots at two refugees scaling the Berlin wall and captured one. The other, a 21-year-old East German, made it safely across.

Communist police hurled bricks at two Western policemen who went to investigate the shooting. The Western police drove back the Communists by throwing four tear gas grenades over the wall. No injuries were reported.

Tomorrow night's program is highlighted by a dance in the Moose Home. Presentation of awards for ritual competition will be made during the evening.

Closing session of the conference will be held at 10 a.m. Sunday when the principal address will be given by Gilbert Marx, national ritual judge.

The conference will adjourn in time for all visitors and delegates to attend church.

Communication Link Should Help Prevent An 'Accidental War'

By JOHN D. PARRY
United Press International

GENEVA (UPI) — The Soviet Union today accepted the American proposal for a "hot line" communications link between Moscow and Washington to ease the threat of war by accident.

Soviet chief delegate Semyon K. Tsarapkin made the acceptance at today's session of the 17-nation disarmament conference.

"The Soviet Union is ready to accept a direct communication link, either telegraph or teletype, between governments," he said.

American delegate Charles C. Stelle said his government "warmly welcomes" the Soviet initiative and called for informal private discussions to work out the details.

First Step Forward
The Russian acceptance of the U. S. proposal for a "hot line" was the first forward step made by the Soviets here in more than a month.

It came just after East Germany, in a note to the conference, offered to sign a disarmament agreement with West Germany which it said would "materially contribute" to the cause of world disarmament.

The United States first proposed the direct communications link in its draft outline of a treaty on general and complete disarmament presented here on April 18, 1962. The offer was renewed last December.

President Kennedy himself has spoken favorably of the idea and so has Soviet Premier Nikita Khrushchev, but the Soviet Union never formally accepted the plan until today.

Pentagon to Moscow
The United States has said it would like to see its end of the communications link in the national safety center in the Pentagon. The Soviets have not said where they would like to have their end.

Tsarapkin said today that each government should be responsible for the maintenance of its end of the link and the dissemination of information from it "to the responsible organs."

Stelle, renewing the U. S. call for such a link last week, said the line should be a teletype but constructed in such a way that voice communications also should be possible over it.

Tsarapkin accepted the American plan after relaying East Germany's offer to sign a non-aggression and disarmament pact with West Germany as a way to get general European disarmament on the way.

Featured speakers will be Jerome J. O'Brien, director of the Office of Oil and Gas, U. S. Department of the Interior, Washington, D. C. and L. D. Webster, vice president for public relations of Lone Star Steel Company in Dallas.

Final arrangements for the convention will be under the direction of Billy B. Davis, Lefors Petroleum Company, President of PPROA, and John W. Chisholm, Cabot Corporation, PPROA Treasurer and Convention Chairman, both of Pampa.

The program will include a number of other prominent speakers on topics of current interest to the oil and gas industry and open seminars on industry problems by PPROA's standing committees conducted by J. W. Collins, Amarillo Independent, chairman of the Gas Committee; Lawrence R. Nagy, Amarillo Independent, chairman of the Legislative Committee; and Frank Storm Jr., Amarillo Independent, chairman of the Oil Committee.

Advance registration will begin May 5 and the meeting will adjourn with a banquet on the evening of May 8.

Special: Brakes adjusted by Lloyd Kuntz Salsair MO 4-7161 (Adv.)

Coal Miners Continue Strike
PARIS (UPI) — Rebellious coal miners in northern France shouted down their union leaders' cries of "treason" today and refused to end a 36-day strike on terms of a union-government compromise.

But most of France's state-employed coal miners went back to the job with the complete work force in the major miner center of Lorraine, in eastern France, responding to the unions' call.

Kewanee, founded in 1871, is the oldest independent oil producing company in the United States. Its executive offices are in Bryn Mawr and operating offices are in Tulsa, Okla.

Voter Spotlight Turns To Pampa School Board Election Tomorrow

Voters in Pampa's Independent School District will go to the polls tomorrow to elect a school board member to serve a three-year term.

There will be only one voting place in the 400-square-mile school district. It is located in the Pampa Junior High School gym at the corner of N. Cuyler and Browning.

Argentine War Danger Averted

BUENOS AIRES (UPI) — Agreement early today on "preliminary" requirements for a settlement of Argentina's three-day-old revolt appeared to have pulled the nation back from the brink of virtual civil war.

The Defense Ministry announced the tentative agreement, saying details would be worked out later. The terms of the proposed settlement were not made public immediately.

Showdown Averted
At least 25 persons had been killed and more than 30 wounded in the revolt. Today's agreement was expected to avert a showdown battle which could have multiplied the casualties.

An estimated 25,000 government troops were advancing on the heavily fortified Puerto Belgrano naval base, a rebel stronghold 350 miles southwest of Buenos Aires, when the agreement was reached.

Most of the warships of the high seas fleet were at anchor in Puerto Belgrano, adding the threat of their big guns and jet planes to the strong shore defenses manned by the base's 8,000-man garrison.

Families of the Belgrano garrison were ordered Thursday to vacate housing on the base in apparent expectation of early air attack.

Food Price War Creates Traffic Jams In Lubbock
LUBBOCK (UPI) — The food prices sounded like 1933.

Top sirloin steak was selling at 59 cents a pound. Oleomargarine sold for 5 cents a pound. Eggs 29 cents a dozen. Avocados a penny each, ice cream 15 cents a half-gallon and salmon 39 cents a can.

The reason for the "good old days" food prices was a hot price war between Lubbock supermarkets. The food battle reached a climax Thursday and police reported traffic jams around the major supermarkets.

The major competitors were Furr Food Markets, Piggly Wiggly Supermarkets, United Supermarkets and Safeway. There was no indication when the price war might end.

Twenty Laotians Killed In Political Faction Fighting

VIENTIANE, Laos (UPI) — Premier Prince Souvanna Phouma told newsmen Thursday that 20 Laotian soldiers were killed during six days of fighting between two political factions in the Plain of Jars.

Souvanna did not disclose which factions were involved but as far as is known only his Neutralist and the pro-Communist Pathet Lao have any forces in the plain. The Pathet Lao had shared its stronghold with the Neutralists during the Laotian civil war.

Neither would the prince say whether the clashes were linked with the assassination Monday of Foreign Minister Quim Pholsena, Quim, nominally a member of Souvanna's Neutralist Party but a close ally of the Pathet Lao, was shot down in front of his home in Vientiane when he returned with his wife from a party.

He declined to speculate whether Quim's death had any connection with the slaying last November of Col. Kersana, a Neutralist army commander.

Padre Island Bill Is Signed
AUSTIN (UPI) — Gov. John Connally signed a bill into law Thursday that would allow the federal government to create Padre Island national seashore.

Son Bruce Reagan of Corpus Christi and Rep. Menton Murray of Harlingen sponsored the bill. Reagan said the government may begin surveys of the island soon.

Robbers Got \$900 In TV And Radio Equipment Here

Four television sets and a quantity of radio tubes all valued at \$900 were stolen last night from an unlocked panel truck parked in the driveway at the home of Ray Keelin, 1125 Crane Rd.

Keelin, a television repairman, reported the theft to police at 7:40 p.m.

The stolen articles included a tube worth of television tubes in a tube rack, two portable 17-inch RCA teevee sets, one table model 21-inch Philco set and one 21-inch table model Sylvania set, each valued at \$100.

Keelin told police the television sets were some that had been traded in and he had repaired them for resale.

LEMNITZER VISITS BELGIUM
BRUSSELS, Belgium (UPI) — Gen. Lyman L. Lemnitzer, Supreme Allied Commander in Europe, arrived here Thursday on his first visit to Belgium since he took over the NATO command from Gen. Lauris Norstad.

Mrs. Stella O'Neal, 20, gave birth to a son in a helicopter Thursday while being taken from a remote Coast Guard station to an inland hospital.

Mrs. O'Neal, wife of Coast Guardsman Edward C. O'Neal Jr., was put aboard the helicopter at the request of an attending nurse at the Ocracoke lifeboat station on North Carolina's outer banks.

Halford's father and his attorneys filed the motion for a habeas corpus hearing March 27 and Judge W. J. Oxford of Stephenville set a hearing on the plea for today in the Palo Pinto County courtroom.

The father said his son was a former mental patient and his illness needed immediate treatment. The younger Halford had served a previous term for rape from Palo Pinto County.

NIKE Intercept Is Announced
WASHINGTON (UPI) — The Defense Department announced Thursday the Army's Nike Zeus anti-missile missile "recently" intercepted an Air Force Titan missile over the Southwest Pacific.

It was the fourth announced successful intercept of an intercontinental ballistic missile by a Nike Zeus fired from Kwajalein Island. The Defense Department did not say when the intercept occurred.

Pinching's OK, But Necking Is Out
ST. PAUL, Minn. (UPI) — "Driving is a full-time job and people should leave the necking for later," argued Rep. Richard Richie.

"The way the bill reads it's all right if you want to pinch a girl's leg," Rep. Robert G. Renner countered.

The debate in the Minnesota House of Representatives Thursday was on Richie's bill to make it illegal for a driver to put his hand around a passenger or vice versa.

C. R. Hoover Oil Company Hit By Thieves

Burglars hit the C. R. Hoover Oil Co., 801 W. Brown last night and made off with \$345.74 in cash.

Marvin Harris, 1029 Terrace, an accountant in the office, reported the burglary to police shortly before 7 a.m. today.

Entrance to the building was gained by breaking a glass in the door and reaching through and unlocking it.

Police Captain Denny Roan, who investigated the case, said the money was taken from the middle drawer of an office desk.

Several checks wrapped with the money by a rubber band were not taken, according to the police report.

Baby Boy Born In Helicopter

ELIZABETH CITY, N.C. (UPI) — Mrs. Stella O'Neal, 20, gave birth to a son in a helicopter Thursday while being taken from a remote Coast Guard station to an inland hospital.

Mrs. O'Neal, wife of Coast Guardsman Edward C. O'Neal Jr., was put aboard the helicopter at the request of an attending nurse at the Ocracoke lifeboat station on North Carolina's outer banks.

Officers not pictured are Judy Kitto, historian-reporter; Elizabeth Trotter, Avril Doucette and Carmen Butler, parliamentarians.

Graphoanalyst Guest For PEWS Luncheon

Mrs. Eugene Leigh, a graphoanalyst, will be the featured speaker at the Petroleum Engineers' Wives Society luncheon Tuesday at 11:30 a.m. in the Coronado Inn with Mrs. Russell Talley serving as hostess.

Mrs. Leigh, a certified handwriting graphoanalyst, has spent eight years studying for the degree she received in formal graduation ceremonies in Oklahoma City four years ago. She is presently working on an advanced degree from the International Graphoanalysis Society in Chicago. She began her study in Springfield, Mo., and has studied in Ft. Worth, Lubbock and Oklahoma City, in addition to doing a great deal of correspondence work.

"Graphoanalysis is not fortune telling," points out Mrs. Leigh. "I can tell you a great deal about character traits, moodiness, and even color preference, but I know nothing of the future."

Mrs. Leigh does some of her work through the schools, analyzing handwriting of "problem children," and also has worked with

large companies in personnel counseling and vocational analysis. Some of her work has also brought her in close contact with law enforcement agencies, where she detects forgeries and has analyzed handwriting of several criminals.

"The basis for graphoanalysis is,

Mrs. Coy Holman Hostess To Club

CANADIAN (Spl)—The Hobby Club held their regular monthly meeting Thursday evening in the home of Mrs. Coy Holman.

Mrs. Lawrence Berry of Miami gave a demonstration on firing details on china.

Refreshments of coffee, tea and assorted desserts were served to guests Mrs. Berry, Mrs. Bill Overturn of Glazier, Mrs. C. H. Burton, Mrs. Cleo Jahnel and Mrs. Melvin Walser and members Mrs. Ernie Davis, Mrs. Ned Jolly, Mrs. Vernon Morse, Mrs. Warren Pickens, Mrs. Don Schaefer, Mrs. J. D. Vandiver, Mrs. Bill Sargeant, Mrs. Jim Mash and Mrs. James Carpenter and the hostess.

of course, psychology," states Mrs. Leigh. "It is surprising how much can be revealed by careful study of a person's handwriting. Graphoanalysis is not fraudulent in any way. It is an accepted science and often court cases are settled on the basis of the graphoanalytical study. It has been proven 98 per cent accurate."

Mrs. Leigh will speak on the history of graphoanalysis and will demonstrate some of the more common characteristics of different personalities as revealed through this type of study. Following the demonstration, she will give a brief analysis of the handwriting for each member who would like to participate. Because of the time element, these analyses will be very brief and basic. Following the program, a short business meeting will be conducted.

Dear Abby....

Old Goats Like

To Nip Waitress

By ABIGAIL VAN BUREN

DEAR ABBY: I am a widow of 27. I must eat so I must work. My figure is good and so is my face. My job is waiting on tables and my problem is the male with the urge to pinch. I first became aware of him when he nipped me. I let him have one between his mustache and beard. Then he called me a name, so I gave him a second clip in the chops. That did it. He got loud and the manager appeared. He sided with the creep so I quit. Now I ask you, Abby, must a girl put up with those old goats in order to hold a job?

LOOKING FOR WORK
DEAR LOOKING: A sock on the puss is worth two on the foot. No respectable girl has to work in a place like that. With your qualifications, you won't be looking long.

DEAR ABBY: My husband is insanely jealous of Dr. Ben Casey. You wouldn't believe a grown man could carry on like that. We've been married for six years, and Ben is the only man my husband has ever been jealous of. What should I do?

CRAZY FOR BEN
DEAR CRAZY: Start going to Dr. Kildare.

DEAR ABBY: We plan to put our house up for sale. I've been

GM Science Show Gives Guidance Demonstrations

"Liquid sunshine" powered a portable radio. A small boat-shaped vehicle hovered on a cushion of air. And a "misbehaving" suitcase illustrated principles used in modern guidance systems.

Pampa High students saw these and other interesting demonstrations when the famed General Motors science show, Previews of Progress, appeared at the school Thursday afternoon.

"We seek through Previews to inspire more young people to make science and engineering their career and provide the trained talent America must have to keep pace with the promise of the future," John F. Gordon, president of General Motors, said.

Jerry Bishop and Bruce Schrofel of General Motors Public Relations Staff presented the 45-minute, non-commercial presentation. They are one of seven teams that take the show to more than a million students each year.

One of the highlights of the show was a fuel cell, a device that converts chemical energy into electrical power. Potentially one of the most significant scientific developments of the century, the fuel cell manufactures electricity with much greater efficiency than is now obtained from conventional power plants.

During the show, a few drops of "liquid sunshine" added to the cells provided enough energy to operate a portable radio.

Another example of solar energy, the amazing Sunmobile, was demonstrated. The 15-inch model car depends on eight photoelectric cells for its operation. The button-like cells on the hood of the car convert light rays into electricity which drives a small electrical motor inside the car. A 300-watt lamp was used to simulate the sun's rays during the show. As the light struck the cells, the Sunmobile moved smoothly across a table.

Another Previews sequence illustrated principles used in modern guidance systems. A student volunteer manipulated a suitcase with "a mind of its own" as the lecturer, Jerry Bishop, explained how today's planes, ships and missiles are safely guided along predetermined courses.

Students also saw the "Exploding Wire Phenomenon." Using the principle of stored energy, a 10-watt power supply furnished about 30-million watts in an instant to demonstrate the electrical disintegration of a fine wire. This phenomenon may someday propel space vehicles.

Other Previews demonstrations included examples of the wonders

of modern chemistry and a capsule history of jet propulsion traced from 200 B.C. to futuristic gas turbine power.

Previews of Progress has already been seen by more than 25-million American students and adults. The demonstrations, constantly updated to keep pace with recent technological advances and presented in easy to understand non-technical language, have proved to be a big hit with students around the globe. Nearly six-million persons in Latin America, Europe, Africa, Australia and New Zealand have seen the show.

At the request of the U. S. Department of Commerce, GM recently equipped and trained special units of the show for appearances at five International Trade Fairs in South America and the Near East.

Mrs. Brille Warton, Pampa, disobeying traffic signal, guilty, fined \$5.

Clarence E. Powell Jr., 2234 Christine, muffler violation, guilty, fined \$1; also speeding, guilty, fined \$5.

Mrs. Helen Rexroat, Skelton, town, failure to yield right-of-way, guilty, fined \$15.
John K. Draper Jr., 316 N. Faulkner, disobeying traffic signal, guilty, fined \$10.

Ernest L. Mathis, 533 Harlem, speeding, guilty, fined \$10.
William W. Gray, 1909 Hamilton, improper right turn, guilty, fined \$10.

William T. Wittwood, 627 N. West, operating unregistered motor vehicle, guilty, fined \$3.
Danny C. Cox, 1508 Alcock, following too closely, guilty, fined \$15.

Alligator trapper, snake charmer, tree killer and worm gatherer were among unusual pursuits recorded in the 1950 U.S. census occupational index.

Obituaries

Mrs. Fuller Barnett

Funeral services for Mrs. Fuller (Goldie) Barnett, 902 Jordan, will be held at 10:30 a.m. Saturday in the Duenkel-Carmichael Funeral Chapel with Dr. E. Douglas Carver, pastor of the First Baptist Church, officiating.

Mrs. Fuller, who had been employed as a bookkeeper for the Overton Clinic for the past 14 years, died at 12:55 a.m. today in Highland General Hospital after a lengthy illness. She had resided in Pampa since 1921.

Born Oct. 2, 1903 in Mangum, Okla., she was married to Fuller Barnett on Feb. 6, 1929 in Pampa. She was a member of the First Baptist Church and of the Naomi Sunday School Class.

Survivors are her husband, Fuller of the home; one daughter, Mrs. Anna McBride of Midwest City, Okla.; a daughter-in-law, Mrs. Joyce Mayo of Deadwood, Ore.; one brother, John W. Lee of Pampa; one sister, Mrs. Pinky Boyd of Hobbs, N. M.; her mother, Mrs. Dred Lee of White Deer and seven grandchildren.

Interment will be in Fairview Cemetery.

Otto Wade Stanford

Services for Otto Wade Stanford of Miami, a real estate broker, will be held at 10 a.m. Friday in the First Methodist Church in Miami with the Rev. Carl Hudson, pastor, officiating.

Mr. Stanford, born Sept. 2, 1900 in Nocomo, died unexpectedly at 7:20 a.m. Wednesday in his home. He had moved to Miami from Springfield, Colo. and had been in the cattle and real estate business for 19 years.

Survivors are his wife, Pearl of the home; three daughters, Mrs. J. H. Snyder of Canadian, Mrs. M. J. Coffee of Higgins, Mrs. Jack Phillips of Gravette, Ark.; two sons, Paul of Pampa, Charles, stationed with the USAF in Belton, Mo.; two brothers, the Rev. E. Lee Stanford of Dimmitt, Leonard of Wichita Falls and 15 grandchildren.

Interment will be in the Miami cemetery under the direction of Duenkel-Carmichael Funeral Home.

Legislation Proposals Are Discussed By PTA Panel

An informative discussion of the legislative program as proposed by the National Congress of Parents - Teachers was conducted Thursday night in Travis School by a panel composed of Mrs. James Lewis, member of the PTA state executive board; Tom Snow, a local attorney; and Jack Edmondson, city superintendent of schools.

Panel moderator was L. K. Roberts, a petroleum engineer. The policies set up by the National Congress of PTA as related to federal aid to education and the United Nations and its attending agencies relating to child welfare was discussed by the three panelists.

Balloting on the issues will be made during the April PTA meetings with the entire membership of the six local units, Lamar, Wilson, Houston, Horace, Manr, Stephen F. Austin and Travis, eligible to participate. The PTA units of B. M. Baker and Robert E. Lee Junior High Schools have elected not to participate in the local balloting.

Totals from the six units will be sent to the state PTA headquarters in Austin where a board of eight, four members-at-large from the membership, three persons from the state board of managers and the state parliamentarian will tabulate the votes of the approximately 7,000 PTA units in the state of Texas.

The "yes" or "no" wishes of the majority of the Texas units will NMU GRANTS SCHOLARSHIPS

NEW YORK (UPI) — The National Maritime Union (NMU) announced Thursday it will award nine \$10,000 college scholarships annually beginning this year to children of NMU seamen.

White Deer Bucks, Dalhart Are Favored In District 1-AA Track

WHITE DEER (Spl) — Colie Huffman, the rotund sad man of area track, when asked at the Amarillo Relays which team would win the 1-AA district meet at Dumas Saturday, snapped out a one-word answer — "Dalhart." This, despite the fact that the Bucks had outscored the Wolves in every meet they had competed in, although only by one point at Panhandle, and had won both the Lefors and Panhandle Relays and placed a close second to mighty Iowa Park at Amarillo.

Thursday, Huffman, who is perpetually pessimistic and perpetually successful in track, answered the same question by replying that not only Dalhart, but Shamrock and Stinnett would probably beat the Bucks. Huffman would only admit that Spearman and Boys Ranch would be underdog to White Deer, although he insisted that both teams would score points.

The reason for Colie's being even unhappier than usual was the week's scholastic report, which had knocked three varsity men off the track team, half a mile Mike Reynolds, Rondal Cisco and Larry Reynolds. This despite the fact that none of the trio have placed in any meets this season.

Fresh Lost

Huffman also bemoaned the fact that several freshmen had also been lost who were picked to win places in the junior high events.

Groom Favored For 7th Straight

PANHANDLE (Spl) — Groom is a cinch to win the 1-B district track title here Saturday, insists Claude coach F. G. Crofford, while Tiger coach Dwain Currie insists that the Mustangs are the team to beat.

Both agree that there will be little competition from the rest of the loop, as Quail and Hedley concentrate mainly on baseball and Samnorwood and Dodson don't even field track teams.

Seven Straight
Past records bear out Crofford's claims however, as Groom has won the district title seven years in a row, with Claude finishing second every time.

Claude has several outstanding boys and excellent sprint and mile relay teams, but does not have the depth that Groom has.

Despite the fact that four of Groom's returning loop winners were lost this season due to injuries, and state finalist Bob Ruthardt has been plagued with illness off and on all season, Groom has had some excellent times and places in track meets, while the Mustangs have yet to break the point barrier in a meet.

Ruthardt Favored
Ruthardt finished fourth in state in the 880 this year. Although he has been slowed by illness, the big senior is still figured as the top man for the district honors in that event.

Freshman Alton Vaughn has done well in the sprints, and veterans Bob Nickleson in the weights; Jerry Quirk in the sprints and field events and Dan Craig in the sprints are expected to lead the way for the Tigers. Groom will be sending 20 men to the meet overall, and the Tigers should win on sheer depth.

Mitchell Claude Ace
Top man for Claude is junior Dena Mitchell, who has gone to regional in the hurdles events the past two years. Mitchell's top time in the lows is 21.7 and 16.2 in the highs.

Freshman miler Jimmy Clark has been clocked in 5:07, and is expected to win that event.

The sprint relay team of Mitchell, Denton Fox, Kenneth Burton and Mike Chamales have

(See GROOM, Page 5)

win the Lefors Relays, but Shamrock was a good second with 78 points and Stinnett closed with a rush to take third. At Panhandle, White Deer squeezed out a 75-74 victory over Dalhart as the Wolves won the last three events in a row to almost overcome a huge Buck lead, while Shamrock finished third, with Stinnett down the list. At Amarillo, White Deer was second in the small school class with 20 points, and Dalhart sixth with nine tallies.

White Deer missed the Greyhound Relays at Gruver, but Dalhart finished second to Triple-A Perryton, with Stinnett fifth. Spearman was also at Gruver, but failed to scratch.

Boys Ranch has not tangled with any of the district teams this season, but scored 28 points to finish fifth at the Tucumcari Invitational Meet. Leading the Cowboys are their mile relay team, which has been clocked in 3:42. Kenneth Williams in the 880 and Bobby Wallan in the 440.

Relay events in the meet will have three of the fastest sprint and mile relay teams in White Deer, Dalhart and Shamrock. Shamrock has a 44.2 clocking in the sprint relay, and Dalhart and the Bucks each have run 44.9. White Deer's mile relay team has run 3:31.8, Shamrock's 3:30.5 and Dalhart 3:33.0.

Campbell In 100

One good piece of news for Huffman was that Curtis Campbell will be able to run the 100-yard dash. The little speed demon was clocked in 9.7 at the Panhandle preliminaries, but pulled leg muscles doing it. Although he was able to run out the relay teams in the finals and at Amarillo, he was unable to come out of the starting blocks for the 100. His closest competition will be Louie Allred of Dalhart, a 10.3 man.

Allred, who ran a 22.1 at Gruver, should win the 220, with Bobby Dodd and Curtis Reimer of Stinnett his closest competition.

John Colquitt of Dalhart should be favored in the 440, with Jimmy Thurmond of White Deer on his heels.

Both low and high hurdles will be conceded to Carroll Russell. The Buck hurdler has one of the fastest small school times in the state this year in the highs, 15.3, and 21.3 in the lows.

Relays Will Decide
Colquitt, Thurmond and Russell will battle it out in the broad jump. None of the contestants has placed in a high jump this year. The pole vault will be a lockup for Tommy Elliott, who has won or placed in every meet and is defending district champion with 11'3".

Ronnie Rainey of Shamrock will be the outstanding shot and discus man in the meet, having won both events at Lefors and Panhandle.

With most of the individual events having one top man, the district title will probably be decided in the relays, with any of the top three teams able to take the crown in those events.

LEE EIGHTH GRADERS — Lee Junior High and Pampa Junior High's eighth and ninth grade teams will participate in the Borger Invitational Track Meet tomorrow. Eighth grade thinclads for Lee include, from left, sitting: Terry Troxel, Barry Price, Ronnie Sanders, Rob Clements, David Harris, Kneeling: Gary McCarrell, Mike Pursley, Red Porter, Davis Smith, Jan Farley, Larry Taylor, Standing: Jack Thompson, Doc Cornett, Jack Williamson, Teddy McIlvain, Bruce Raines, James Matney. The team is coached by Don Myers and Lester Ramsey.

FRIDAY, APRIL 5, 1963

Record Entry Field In 36th Texas Relays

AUSTIN (UPI) — A talent-deep record field of entries opens the 36th Texas Relays today with records in almost every event in danger before the final match Saturday afternoon.

University of Texas' Memorial Stadium will be covered by some 1,400 tracksters vying for medals. There are no team championships.

The big attention is going to the invitational mile event at 4 p.m. Saturday when Texas may see its first sub-four-minute mile in history.

Nine top distance men, headed by sub-four-minute miler Dyrrol Burleson and Bill Dotson, will be going after the magic figure in that event.

Burleson, the Oregon star who was America's first four-minute miler, and Dotson, who ran a 3:59 flat last year, were rated a tossup in eighth annual mile feature. Dotson is a former University of Kansas star.

Final events will be held tonight and Saturday afternoon.

Others in the mile feature include John Camien of Emporia, Kan., Teachers, winner of last year's 1500-meter run here; Brian Turner of Southern Illinois, Ralph Lingle of Missouri, James McLatchie of Lamar Tech, John McNeal of Kansas State, Cal Elmore of Wichita and Larry Shirey of Louisiana State.

One of the featured sprint events will pit Roger Savers of

Omaha, Neb., against defending 100-yard dash champion Ray Knaub of Nebraska. Savers has run a 9.4 century during the past year.

Also in the 100-yard dash are such speedsters as Dennis Richardson of Abilene Christian, Billy Foster of Southern Methodist, T. J. Bell of Texas Southern, Bob Timons of Houston and Bill Kemp of Baylor.

Bob Glover Signs With Texas Tech

DALLAS (UPI) — One of the most sought after Texas high school basketball players, Bob Glover of Dallas Thomas Jefferson, said Thursday night that he will attend Texas Tech on a basketball scholarship.

Glover, two time Class AAAA all-tournament selection, signed a pre-enrollment application with Gene Gibson, Red Raider coach. Gibson said the 6-7 Glover was the "recruiting plum of the year. He's the finest prospect I've seen since I've been coaching."

Gibson said Trenon Bonner, 6-3 from Graham; Danny Davis of Lubbock, and Ronnie Rainey, a 6-1 center from Shamrock, had announced their intentions of attending Tech.

Flying Queens In Semifinals Of Girls AAU

ST. JOSEPH, Mo. (UPI) — Defending champion Nashville, Tenn., scored an easy 59-39 victory over Houston, Tex., Saturday night in the quarter-finals of the Women's National AAU Basketball Tournament.

All America Joan Crawford, one of four all-Americans on the Nashville squad, pumped in 23 points before the coach sent in the substitutes just after the second half started.

Linda Puckett was high for Houston with 10 points.

Plainview, Tex., had no trouble in knocking off St. Joseph Pepsi-Cola 41-34. Betty Scott and Laura Switzer paced the winners with 12 and 11 points respectively. Luty Davidson topped the St. Joseph offense with 13.

Silverton, Tex., the team which meets Nashville in tonight's semifinals, downed Topeka, Kan., 48-40. Linda Wagner hit 20 points for Silverton and Barbara Ilines led Topeka with 16.

Hawks Bounce Back To Defeat LA Lakers

ST. LOUIS (UPI) — The coach of the year, St. Louis Hawk Harry Gallatin, today is working toward making his squad "team of the year."

Gallatin's club bounced back after suffering two defeats at the hands of the Los Angeles Lakers on the West Coast to win their first game here in the NBA Western Division playoffs.

"We blew them off the court," was Gallatin's comment following his club's 125-112 victory Thursday night.

The game was a hard-fought, bitter contest with technical fouls being called on both coaches. Gallatin and Laker Fred Schaus, along with Laker trainer Frank O'Neill, who was ejected from the game.

Prior to the contest, Gallatin was presented a trophy naming him UPI "coach of the year."

NBA President Maurice Podoloff and Leo Soroka, UPI St. Louis bureau manager, were on hand for the presentation.

The fourth playoff game will be here Saturday. Following that contest, the playoffs will move back to Los Angeles and then come back to St. Louis if necessary.

Dons, Rebs Co-Choices

Palo Duro and Tascosa will battle it out for first place, Pampa, Amarillo and Monterey for third place, the Lubbock teams could be the dark horses, and Borger and Plainview will be at the bottom of the heap, was Pampa track coach Norm Phillips' prediction for the District 3-AAAA meet in Amarillo tomorrow.

On the basis of last week's Amarillo Relays results, the Dons are considered the top team, although previous to the meet, Tascosa was considered the top team in the loop.

Tascosa has tremendous depth and speed, having won almost every meet they have entered this year, but PD proved to have even more depth as they won four events and placed at least one man in 11 of the 12 events in last week's meet, to score 41 points to the Rebs' 32.

Pampa finished fourth in the meet, and has usually placed close behind one of the two teams in meets this year.

Dogs, Borger Show Little

Neither Plainview or Borger have competed regularly in the same meets as the top three, although Amarillo High has, showing little. Plainview scored more points than Borger in the Lubbock Invitational, with their sprint relay team being clocked in 44.1 at the meet. Larry Haydon in the 220 is the best Plainview individual threat. The Bulldogs finished ninth in the Wichita Falls meet and Borger 10th. Lubbock Monterey was third in the meet. Amarillo fourth and Lubbock High fifth, with Pampa, in one of their poorest showings of this season, seventh in that particular meet.

Neither Borger or Plainview scratched in the Amarillo Relays. Tascosa, with one of the fastest sprint relay teams in the state (42.4) and also mile relay (3:18.4) will be favored to take those events, with Palo Duro (3:22.9), Pampa and Amarillo right behind them in the sprints, and Palo Duro and Pampa in the mile relay.

Lubbockers Stiff

The Lubbock teams showed well in the San Angelo Relays, Monterey finishing third and the West-erners fifth. Jerry Singleton and Greg Moore of Lubbock will be the top milers in the district meet.

Floyd Burke of Palo Duro is expected to win the 100- and 220-yard dashes, with Henry Frizzle taking the pole vault. He and Pampa's Bill Martin, both of whom have jumped 6'3" this year and finished one-two at Amarillo, will battle it out in the high jump. Tascosa's Mark Yarborough should cop the 440.

Pampa's Randy Matson of course will be an odds-on favorite to take both the discus and shot put. The "Pampa Monster" will also be entered in the 100-yard dash, where he was clocked in 10.3 in his only outing in that event.

Fletcher Hurt

Biggest worry for the Harvesters is the condition of Curtis Fletcher.

Fletcher, a consistent point man in the 440 and a member of both relay teams, pulled a muscle in his leg earlier this week. Phillips said he believed Fletcher would be okay, but would see what happened in the 440-yard dash preliminaries tomorrow morning. If Curt's leg is still bothering him, Phillips will scratch him and will enter Matson in his place with Kenny Hebert, Travis Tucker, Ralph Palmer on the sprint relay and either Keith Griffith, San Williams or Danny Heil in the mile relay with Palmer, Tucker and Jimmy Jamieson.

The meet will begin at 9 a.m. In addition to his regulars, Phillips has entered a number of sophomores and juniors, especially those who showed well at the Lefors Relays, both to give them experience and for team depth.

Large Entry

Larry Johnson and Hank Henry will be in the pole vault; Matson, Carl Clark and Glen McCathern in the shot; Matson, Carl Johnson and Larry Hopp in the discus; Martin, Heil and Williams or Larry Wainwright in the high jump; and Tucker and Griffith in the broad jump in field events.

In track events, Wayland Bullard, Martin and Randy Smith will be in the high hurdles, and Bullard, Hebert and Eugene "The Bandit" Madrid in the low hurdles.

Hebert, Matson and Tucker will be in the 100; Griffith, David McDaniels and Williams in the 220; Palmer, Fletcher and Jamieson in the 440; James Allen, Tommy Brewer and Randy Scott in the 880 and Shaun Hills in the mile.

Probable Pampa point producers in the track events, in addition to the relay teams, will be Bullard in the high hurdles; Hebert and Matson in the 100; and Palmer in the 440, as all have placed in meets this season.

Netters Split, Open Loop Play

Pampa split four tennis matches with visiting Spearman in the Harvesters last match play yesterday before entering today's district tournament at Amarillo's Memorial Park.

Jerry Thomas, seeded number one in district A boys singles, again disposed of Bill Blackburn, 6-2, 6-1, for his 14th win against two losses this year.

Coch-Roy-Kieval switched his girls teams in an effort to stop the strong Spearman lasses, but the maneuver didn't work as Ginger Hestand dropped the singles match to Sandy Miller, 6-2, 6-4, and Sharon Cook and Phyllis Patterson of the Lynx dropped Jerry Edmondson and Mary Roberts in doubles, 6-2, 4-6, 6-1.

Gene Eads and Joe Fischer pulled the match out of the fire with a doubles win over Burton Williamson and Lynn Gibner, 6-0, 6-1.

Starters for Pampa this afternoon were Thomas in A boys singles, Fischer and Ronnie Thomas in A boys doubles, Mary Roberts in A girls singles, Jerry and Ginger in A girls doubles and Gene Eads in B boys singles.

The preliminaries, quarter-final and semi-final rounds will be played today, with finals beginning at 9 a.m. tomorrow.

Groom

(Continued From Page 4) been clocked in 40.6, and the mile relay team of Mitchell, Fox, Chamales and Jimmy McGowan in 3:43.

Groom Depth

While Crofford admits that the Mustangs have a good chance of picking up first places in these four events, he points out that the rest of the district teams will offer little competition and the Tigers, who will probably place at least one man in every event, could pick up enough points on places to win the meet without even a first in any event, and at least four of the Tigers will win in the running events, while they should dominate the weight events almost completely.

DOUBLE TROUBLE—Ronnie Thompson (right) volleys one back across the court as partner Joe Fischer comes in to back him up. The duo will compose Pampa's A doubles team in the District 3-AAAA tennis meet which started today at Amarillo. Charles Ashby and Gene Eads were originally slated to be the A doubles team for the Harvesters and Fischer and Thompson in B doubles, but Ashby has been out of school this week and coach Roy Kieval made a quick switch, moving up Ronnie and Joe and moving Eads to B singles. (Daily News Photo)

Rangers Win In Net Play

CANYON (Spl) —Perryton and Phillips won a pair of championships each yesterday on the West Texas State courts in the District 1-AAA tennis tournament.

Sam Hergert and Joe Goetting of Perryton defeated Bobby Griffin and Donald Leverett of Dumas, 6-2, 7-5, 6-8, 4-6, 9-7, for the boys doubles crown.

Sharon Flinn and Judith Windel of Phillips won the girls doubles championship with a 4-6, 6-2, 6-2 win over Hereford's Judy Wiman and Connie Renfro.

Perryton's Don Collins captured the boys singles title with a 6-4, 7-5, 6-1 win over Larry Lewis of Phillips. Mary Jo Krejci of Phillips defeated Sue Malaney of Perryton, 6-0, 6-4, for the girls singles crown.

CULPEPPER TO SPEAK

LAREDO, Tex. (UPI) — All-American Pat Culpepper, who played football for the University of Texas, will speak at the Laredo Boy's Club awards dinner Wednesday night.

Memphis, Wellington Top Grade Tennis

LEFORS (Spl) — Memphis and Wellington shared honors in the District 2-A elementary schools tennis matches here yesterday as each team won two events.

Wellington took the girls doubles match as Charlotte Allen and Rebecca Brewer of Wellington topped Shirley Vinson and Judy Barnes of Lefors, 6-2, 6-1. Vicki Welch and Kay Parr of McLean were third and Carol Chamberlain and Christina Moore of Clarendon fourth.

Joe Wood of Wellington beat Mike Pounds of Memphis in the boys singles finals, 6-1, 6-0. Dwight Alwine of Memphis was third and Mike McCulley of Clarendon fourth.

In boys doubles, Memphis beat Memphis as Gary Ray and Sammy Bruce downed Randy Driver and Sport Weddell, 6-2, 6-4. Arthur Dwyer and Drew Fuller of McLean were third and Wes Henson and Pete Campbell, Clarendon, fourth.

Sandy Saye of Memphis wore down Pat McDowell of Lefors in the toughest match of the meet, to win the girls singles. Vickie Kunkel of McLean was third and Re-

RESULTS 1963 Mobil Economy Run

...demonstrate long mileage performance of Mobil gasoline in new cars

Mobil Economy Run—America's Mileage Classic

Conducted and supervised by the United States Auto Club

36 CARS* IN 8 CLASSES AVERAGED OVER-ALL

21.84

MILES PER GALLON

This year entries in the classic Mobil Economy Run traveled over 2,500 miles from Los Angeles to Detroit. They were driven over mountains, across deserts, on six-lane highways and through crowded city streets demonstrating the long mileage performance of Mobil gasoline in new cars! The Run is conducted and supervised by the United States Auto Club. Cars are entered by automobile companies and dealers, but picked at random by USAC officials who then seal and impound the cars until the Run starts.

No special equipment is permitted... only normal tune-ups are allowed. Stop-watch timing demands driving at regular highway speeds.

The kind of performance listed in the tabulations below is your mileage potential to try for. So keep your car in good condition, drive properly and remember, America's auto makers have for many years put their confidence in the mileage results of the Mobil Economy Run.

Try Mobil today!

The Holy Week Of Jesus Christ

Choir To Present Cantata Sunday

Church Page

By LOUIS CASSELS
United Press International

Jesus Christ lived among men for about 33 years. But his public ministry lasted only two or three years at most. And the climactic events of his brief career were crammed into a single week.

The momentous week occurred more than 19 hundred years ago. But such was its impact on the hearts and minds of men that it is still being commemorated in all the world as "Holy Week."

The 1963 celebration of Holy Week begins Sunday.

The first day of Holy Week is called "Palm Sunday." The name comes from the royal welcome which Jesus received from the people of Jerusalem when he arrived in the city for the first time.

Fame Precedes Him

His fame as a teacher and a healer had preceded him from the hinterlands of Galilee, where most of his ministry was conducted. Many people thought He was coming to Jerusalem to lead a revolt against the Roman army of occupation. So they greeted Him as a king. In our day we roll out a red carpet for visiting royalty. In the first century A.D., the custom was to pave His pathway with palm branches.

Jesus was not elated by His reception. He knew that the fickle crowds would turn against Him when they learned that He was not the kind of deliverer they wanted. He had already warned His disciples that He was going to Jerusalem, not to be honored, but to be executed.

The disciples found that prophecy hard to believe. But they were to witness many strange things before the week was out.

Speaks In Temple

Jesus spent Monday and Tuesday at Jerusalem's hilltop temple, trying to make clear by words and deeds the true nature of the "kingdom of God" which he had come to proclaim. When He talked to plain people, He illustrated his points with homely little stories called parables. When theologians and lawyers tried to trap Him with loaded questions, He quoted their own scriptures and law books to them. Once He got angry at racketeers who had set up carnival-like booths in the temple courtyard to bilk tourists. He seized a whip and drove them out.

By Wednesday, Jesus could see that He was making few converts and many enemies. He left Jerusalem and spent the day with some old friends who lived in a suburb called Bethany. Meanwhile, leaders of organized religion and respectable men of property met secretly in the city and decided that this Galilean trouble-maker must be gotten out of the way. They made a deal with a disgruntled disciple named Judas Iscariot to serve as finger man for the arrest. Judas sold out his Master for 30 pieces of silver.

Last Supper

On Thursday evening, Jesus celebrated the Jewish feast of the Passover with His disciples in the upstairs room of a private home in Jerusalem. The supper of un-

leavened bread and wine was spread on a low wooden table. Jesus heard some of his disciples squabbling over which of them was most important. To teach them a lesson in humility, He took a towel and basin of water, and washed the grime from their sandals. It was a task usually performed by slaves in the homes of the rich. Jesus told them that in the kingdom of God, the only great men were those who served others.

The word that Jesus spoke when He distributed the bread and wine gave that Last Supper a special significance. He said the bread represented His body, the wine His blood. He told His disciples that the body would soon be broken and the blood spilled because He loved them, and because only by suffering on their behalf could He "ransom" them from sin and death.

Things moved fast after that. Jesus was arrested, tried in the middle of the night, found guilty of blasphemy for acknowledging that He claimed to be the Son of God. He was hustled before the local representative of Roman authority, a wishy-washy fellow named Pontius Pilate, who yielded to the demands of a noisy mob and condemned Jesus to death.

After being tortured for several hours, Jesus was taken, shortly before noon on Friday, to the top of a hill named Calvary. He was stripped of His clothing and made to lie down on a crude wooden cross. His arms were stretched out on the crossbeam and wooden nails were hammered through His hands. Other nails were driven through His feet to attach them to the central post. Then the cross was raised upright and its bottom end was dropped with a rending jolt into a hole in the ground.

"My Heart Is Glad," an Easter Cantata by David Williams Thornton, will be presented Sunday at 4 p.m. in the sanctuary of the First Christian Church.

The chancel choir, supplemented by members of other Pampa Church choirs, will be under the direction of Miss Rosemary Lawlor. Mrs. John Gill will be organist for the presentation.

Soloists include Mrs. Malcolm S. McDaniel, soprano; Mrs. Bruce W. Riehart, mezzo-soprano; Miss Judy Pemberton, contralto; James B. Dailey, tenor; Charles W. Beard, tenor; and Eugene Barrett, bass.

A reception will be held in the Fellowship Hall, immediately following the performance. Mrs. D. V. Burton, president of Christian Women's Fellowship, is making arrangements for the affair.

No religious services are being held in connection with the presentation, and no offering will be received.

TO SING SUNDAY — The Easter Cantata, "My Heart Is Glad," to be presented at the First Christian Church Sunday afternoon, will feature six soloists. They are, left to right, (bottom row) Mrs. Malcolm S. McDaniel, Mrs. Bruce W. Riehart, Charles W. Beard; (top row) James B. Dailey, Miss Judy Pemberton and Eugene Barrett. The performance, scheduled for 4 p.m. will be followed by a reception. (Daily News Photo)

First Christian Church Slates Raymond Berry Youth Rally

The Raymond Berry Youth Rally is set for Saturday night, April 6, in the First Christian Church at 7:30 p.m.

The All-Pro Baltimore Colts line-man and his wife, Sally, arrive at the Amarillo Airport Saturday at 11:12 a.m. from Dallas. On hand to meet them will be Pampa church youth and their sponsors. A motorcade leaves Pampa at 9:30 a.m. for the drive.

The caravan will escort the Berrys back to Pampa.

A hamburger fry luncheon will be held at 1:30 p.m., and a special dinner at 5:30 p.m. for adult sponsors of youth activities in Pampa. The Rally will feature Berry, who holds all Baltimore pass receiving records. He joined the Colts in June, 1958, following graduation from Southern Methodist University. In his senior year, Berry was Co-Captain of SMU's Mustang football team.

Mrs. Berry, a native of Tyler, will appear with her husband. They are both active in similar youth efforts in many parts of the country during the off season.

Sunday at 7:30 a.m., the Pampa Key Club honors the youth leaders of Pampa Churches with a breakfast at Coronado Inn Hotel. Berry will be featured in a round-table discussion. The Chris-

tian Youth Leadership Breakfast is planned for all youth leaders in Pampa churches. Key Club has invited one youth and one adult sponsor from each church as their guests. Other young people who wish to attend the Breakfast may make reservations by calling MO-48851, Raymond Nance.

The morning Sunday school and worship hours will be shared with the First Christian Church. In the afternoon, the football squads of Pampa Schools will meet with

Berry at the Youth and Community Center. Following the visit with Berry, football players will swim in the youth center pool.

The Berrys return to Amarillo mid-afternoon Sunday for their return flight to Dallas.

Berry graduated from Paris High School, where his father has been head football coach since 1938. The younger Berry made All-State in his final year in high school, and went on to become one of SMU's greats.

Church Of Brethren Will Conduct Holy Week Services

Beginning on Sunday evening the Church of the Brethren, 600 North Frost Street, will conduct a series of Holy Week Services. The services one hour, beginning at 7:30 p.m. The Rev. Bryce Hubbard, a native of this community, will preach each evening. The church choir, under the direction of Russell G. West, Jr., will sing at each service. Each family of the church has been assigned a

personal card on which to register the number of visitors the family brings each evening. All Sunday School classes and teachers are cooperating in an effort to have each family in attendance at each service. Elsewhere on this page you will find a display ad which gives a list of sermon subjects.

On Sunday at 11 a.m. o'clock, the pastor, Rev. Russell G. West, Sr., will preach on the statement in Romans 12, "BE YE TRANSFORMED." Following the morning service there will be a brief Business session conducted by Mr. Wayne D. Irwin, the church Moderator. The Deacon body of the church will enjoy a fellowship meal at the Church at 12:30 p.m.

Following this meal they will make plans for an Easter Communion Service.

This coming Sunday is "Visitors' Day" in the Sunday School. Each family in the Sunday School is asked to fill a bench for the opening service at 9:45 a.m. A nursery will be provided at all services for babies and small children. The public is cordially invited.

Rev. John Dyer Will Conduct Sunday Services

Rev. John Dyer, pastor of Hobart Street Baptist Church will be preaching from 2:15-29 Sunday morning using for his sermon subject, "The Thyatiran Jezebel." This is the fourth in a series from the letters to the seven churches as recorded in Revelation. The regular service begins at 11 a.m. Sunday School begins at 9:45 with departments and classes for every age group. The Sunday school lesson is taken from Mark 14:15 entitled "Jesus Fulfills His Mission." Youth choir rehearsal is Sunday at 4:30 p.m. Youth fellowship will be at 5:30 p.m. and Training Union at 8 p.m.

There are departments and unions for all ages and a beautiful, modern, well-equipped nursery is open for all services to care for your babies.

The pastor has chosen Proverbs 21:1-8 for his sermon text Sunday night at 7:00 o'clock preaching on the subject "The Righteous In Heart."

Monday at 7 p.m. there will be church-wide visitation, and Wednesday 7:30 p.m. prayer meeting will be held. Thursday morning at 9:30 church-wide visitation is scheduled.

Hobart Street Baptist church is completing plans for an Evangelistic Campaign beginning April 28 May 5. The city of Pampa is urged to attend services which will be held each morning at 10 and each evening at 7:30.

REV. RUSSELL G. WEST, SR., PASTOR

Dr. Bratcher Will Conduct Sunday Service

Dr. Hubert Bratcher, pastor of the First Methodist Church, will be conducting the two morning services on Palm Sunday, The 8:45 a.m. service is broadcast over radio station KPDN and the 11:00 a.m. service is broadcast over radio station KBMF-FM.

The special music for Palm Sunday for the 8:30 a.m. service will be by the Junior High Choir along with an octet from the Sanctuary Singers, who will present the anthem, "Hosanna, Blessed Is He That Comes," by Gregor.

For the second service at 11:00 a.m. this anthem will be sung again antiphonally, by the Junior Choir and the Sanctuary Singers. These two choirs will also present another antiphonal anthem, "To Zion Jesus Came" by David H. Williams.

Sunday evening fellowship will begin at 6 p.m. with a light supper for the entire family in Fellowship Hall. At 6:30 p.m. children, youth, and adults will separate for one hour of Fellowship Group activities according to interest and needs. The Adult Fellowship will meet in the church parlor.

The Sunday night worship service at 7:30 will be conducted by Rev. Rodney Williams, Associate Pastor.

April 10, the official board will meet at 8 p.m. in Fellowship Hall. Commissions will meet at 7 p.m. with the exception of the Education Commission which meets early.

Two Services Will Be Held On Palm Sunday, Easter

There will be two services of Morning Worship — on Palm Sunday and Easter, at the First Presbyterian Church. One will be held at 8:30 a.m. and one at 11:00 a.m.

The Pastor, the Reverend Donald S. Hauck will preach at both services and his sermon, "Triumph or Tragedy" will be based on the 21st chapter of Matthew.

Evening prayer and the Youth Fellowships will meet as usual.

At 2 p.m. the Session will meet to receive adult members and at 3 p.m. the Youth Communicant Class will be received into the membership of the Church. All of these new members will then be

Bible Lesson Will Be Read Sunday

A Bible Lesson stressing the emptiness of material goals will be read this Sunday at First Church of Christ, Scientist, 902 N. Frost. The subject is "Unreality," with the following Golden Text: "Forsake the foolish, and live; and go in the way of understanding" (Prov. 9:6). Related readings will include this passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (p. 238): "He who leaves all for Christ forsakes popularity and gains Christianity."

Central Baptist To Hold Pre-Revival Activities

The coming week brings pre-revival activity to Central Baptist Church. Their revival will begin Easter Sunday morning, April 7, and will conclude the following Sunday, April 14. Plans are being made for all the activities of the revival.

The Sunday School teachers and officers have teamed together in two's for a 15-minute prayer time each day next week for the revival. A full day of prayer is planned for Saturday, April 13. On Easter Sunday and again on April 21, goals for attendance in each department have been set. These will bring the highest attendance in the history of the church.

Dr. O. Byron Richardson, of Dallas, Texas is to be the evangelist. Music for the revival will be directed by Hugh Sanders, and Richard Johnson. Each night, Monday through Saturday there will be choir meetings for children ages 4-5, 6-8, and 9-12. These choirs will sing on song each night at the beginning of the service.

Sunday services will include two worship services, at 8:45 and 11 a.m. The pastor, Rev. T. O. Shaw, will speak at both services. The subject of his message will be "Destiny of the Unredeemed." Sunday School meets at 9:45 a.m. with provisions for all members of the family. The 31 departments care for every age. The subject of the lesson Sunday is "Jesus and His Disciples."

Evening services include choir rehearsals for children and youth. Union meets at 6 p.m. A special study concerning the way the

'Mormons' To Televis Conference

The "Mormons" are to televise their 13rd annual conference, Channel 10 in Amarillo will be the broadcast Sunday April 7th from 7-11 p.m.

The Prophet David O. McKay, President of the Church of Jesus Christ of Latter Day Saints will be the presiding and conducting officer of the 13rd annual conference of the "Mormon" Church. The program will feature remarks by the Prophet McKay and others of the Quorum of the Twelve Apostles and special musical numbers by the world famous "Tabernacle Choir."

Sections of the 3-day conference will be carried through the media of TV and radio throughout the North and South American continents, Europe, Australia, Samoa, South Africa and parts of Asia. There are 15 TV stations in Texas carrying the Sunday morning broadcast, and it is expected that a potential of 50 million Americans will "attend" the conference through this media.

"Not only will the conference have a wide dissemination by radio and TV, but it will attract a great international congregation to the Tabernacle on historic Temple Square. There will be representatives from all sections of the earth."

Two Services Will Be Held On Palm Sunday, Easter

There will be two services of Morning Worship — on Palm Sunday and Easter, at the First Presbyterian Church. One will be held at 8:30 a.m. and one at 11:00 a.m.

The Pastor, the Reverend Donald S. Hauck will preach at both services and his sermon, "Triumph or Tragedy" will be based on the 21st chapter of Matthew.

Evening prayer and the Youth Fellowships will meet as usual.

At 2 p.m. the Session will meet to receive adult members and at 3 p.m. the Youth Communicant Class will be received into the membership of the Church. All of these new members will then be

EVANGELIST HERE FOR REVIVAL — Rev. Jean Beams of Los Angeles, Calif., left and Anna Mae Brunk of Sterling, Ill., are the evangelists at the Revival Center Church at 1101 South Wells St. Services will be held nightly at 7:30 p.m., except Monday.

These public spirited firms are making these weekly messages possible — and join with the ministers of Pampa in hoping that each message will be an inspiration to everyone.

The Weekly Message Of Inspiration

Attend The Church Of Your Choice

ELDER JAMES WALDROP

The Church of Jesus Christ of Latter Day Saints

Probably no generation of people, have faced the universal fear, that man faces in this day and age. With all the wisdom we have among great men today, we do not find a man, who can offer a plan, that gives any real hope, of reducing the tensions we live under. Of course the fear the world lives under, today, is caused by a bomb, that is capable of destroying all mankind. Yet the real threat, is not actually the bomb. The real threat is that some world leader, may be evil enough to use the bomb to further his own selfish purpose. The world's problems have always been caused, by the selfish desires of people. Things, are not evil of themselves. It is man's way of using things that brings evil upon mankind. The atomic theory could be a great blessing to man, if, man would only remember and put into practice, the simple teachings of Jesus Christ, who nearly two thousand years ago said, "Thou shalt love the Lord thy God, with all thy heart, and with all thy soul, and with all thy mind. This is the first and great commandment and the second is like unto it. Thou shalt love thy neighbor as thyself."

If the world were wise enough, to live these two commandments, we would have no need to fear. It doesn't take a great deal of wisdom to understand those two simple laws. It does take a great deal of strength to put those laws into practice in our daily lives. We need more of the strength that Christ had when he stood in kingly Godly silence while being mocked and scourged. The great example of Jesus Christ, has long stood before us. The Christ that gave his life, that we might all be partakers of salvation, IF, we would accept him, and apply his teachings in our individual lives.

The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the gift of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others. Freedom is self-control, no more, no less.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

SUBSCRIPTION RATES

Price per single copy 5¢ daily, 10¢ Sunday. No mail orders accepted in localities served by carrier. Published daily except Saturday by The Pampa Daily News, Atchison at Somerville, Pampa, Texas. Phone MO 4-7232. All departments. Entered as second class matter under the act of March 9, 1879.

School Election Tomorrow

Exercising the privilege of voting is one of our most important duties.

Pampa will have another election tomorrow. This time it is to pick a man to fill the all important post of school board trustee.

Two men are running for the job. One is Herschel Wilks, general manager of Celanese Corp., a former member of the Pampa city commission who also has had wide experience in school administration. He was president of the Kingsville school board for four years.

The other candidate is Dr. R. M. Hampton, Hampton currently is president of the Pampa Independent School Board and is seeking re-election.

Voting in a local school election is just as important as voting in a city, county, state or national election.

The Pampa News hopes voters will make their choice of the two candidates and then be sure to register that choice at the polls tomorrow.

There will be one voting place. The location is in the Pampa Junior High School gym at the corner of N. Cuyler and Browning.

The voting place will be open from 8 a.m. to 7 p.m.

Public Planners Panned

We've seldom seen a more devastating description of tax-paid "planners" than "And on the Eighth Day," a 1961 book by Richard Hedman and Fred Bair Jr., which has come to our attention.

"And on the Eighth Day" is full of fun-poking at the planners and consists of clever caricatures by Mr. Hedman and devastating prose by Mr. Bair.

The authors do not explain their title, which apparently refers to the Biblical history of the world having been built in six days, followed by a day of rest, with the planners then taking over.

An opening description of the authors fails to give their background, but it sets the pace for this delightful production. About the authors, it says: "Mr. Hedman and Mr. Bair are both planners. Mr. Bair is older than Mr. Hedman. Mrs. Hedman is younger than Mr. Bair. Mr. Hedman can draw. Mr. Bair can spell. Previous works: 'A World History of Planning in 73 permanently sealed volumes.' Also noted is that the work was 'compiled hastily' because it may already be too late."

And that it was "printed over the objections of the Falcon Press, Philadelphia."

The planners would provide milk and honey for everybody, we are told. In fact, "Through a system of rigidly enforced freedom and compulsory equality Utopia would be accessible, indeed, mandatory for us all."

To show the authors are familiar with "Planning" they have a series of "Notes on Planning Objectives," describing the thinking of the master planners through the years. In 1905, the plan for 1925 provided for integrated city growth according to conditions as they then existed; in 1935, views had changed, and the planners were advocating sending folks to the suburbs by 1955; and in 1950, the "master planners" were trying to solve "urban sprawl."

A look to the future (1980), has the planners looking for a re-build after bomb destruction "in accordance with accepted principles of concentrated dispersal."

If it is true that satire is the most effective weapon against self-inflated egos, Messrs. Bair and Hedman have provided a near perfect armament for those who are fed up with bureaucratic controls.

We're not in favor of any form of compulsion. But if we were, we'd advocate making "And on the Eighth Day" required reading for all who would attempt to plan the lives of others.

'DID US FAVOR' Uncommon View of Common Market

By GEORGE BOARDMAN, Ph. D.

As socialism continues to thrive and prosper throughout the world, the crime rate continues to climb. I believe criminality and socialism, in all its forms, are tied together inexorably. When governments try to pretend it is moral for governments to steal for the purpose of redistributing wealth and what was once private property, it doesn't take too long for those who are not in government to rationalize private or gang thievery and that is exactly what has happened. Government creates committees to examine a condition for which government is basically to blame. Logically, the guilty will do everything possible to avoid placing the blame where it belongs.

Before socialism began its insensate march with such renewed vigor shortly after the first world war, our courts functioned with a reasonable degree of efficiency and our judicial system, generally, could be viewed in a relatively favorable light. Today our system of law enforcement, our judicial system and the constantly increasing crime rate present an unhappy picture to say the very least. I believe the fact that the idea of crime prevention has been replaced by more emphasis on law enforcement has contributed something to the situation as it now stands.

As I've mentioned a time or two before, it doesn't take a great deal of thinking to find many areas of the contemporary scene which deserve criticism. When you start looking for logical solutions to the problems you're in trouble before you start because all of those who are connected with trying to find cures, believe they are doing everything which can be possibly

done. Unfortunately, all of the major effects engaged in research in this field are plagued by the idea that government criminality can reduce criminality among the victims of government's dedicated immorality.

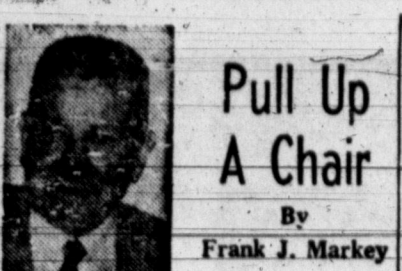

The thief who steals five hundred dollars from you doesn't pay for his crime even if he's caught except in rare instances when he's caught with your money in his possession and even in such rare cases, it may be many months before your money is returned to you. If the thief is found to be guilty and if he is sentenced to jail or prison, we are charged with his board and room and medical care, dental care, and a host of other charges which vary with the place and circumstances of his incarceration. For the length of his sentence, the thief can enjoy security, even if he must remain within the confines of his jail.

A few years ago we had a medium-priced motion picture camera stolen from us. The thief was apprehended a few hours later for a traffic violation which brought to light the fact he was only recently released from prison, was driving without a license and had a car full of goodies, the possession of which he found it difficult to dream up a good explanation. I identified the camera at a hearing, attended a trial, was not needed at the next trial and almost a year later I was able to obtain the camera slightly the worse for wear and tear. About the same time a camera store in our neighborhood discovered there were three cameras missing from the shelves. I asked the owner if he had reported the loss to the police and he told me he couldn't afford it and I knew from experience what he meant. My \$200 camera was worth about

\$50 when it finally was released. The time and travel involved in two trips to court plus another trip to pick up the camera amounted to a very conservative \$50. In addition, the thief had been returned to prison and all of the taxpayers would be paying for his care and keep for several more years. Now, maybe this makes sense to you but it doesn't make a lick of sense to me.

The idea of private enterprise courts to handle criminal cases is a little too much to digest at one sitting but I hope you will keep one important point in mind: This line of reasoning does not envision a revolutionary change which would toss aside our present system overnight. In line with previous discussions of the philosophy of freedom, you will find here the prospect of gradual, evolutionary change. I do not believe anything of this kind has ever been attempted but it appears to me that change for the better will require previously untried methods and history is on my side.

Good health and good luck to you, in Freedom.

Pull Up A Chair

By Frank J. Markey

Don't let anyone tell you that talk is cheap because it costs the nations of the world about \$100 million a year to carry on their extensive overseas radio broadcasting. Moscow tops them all with a schedule of more than 1,000 hours a week, or 2,000 including her satellites, and fills the air waves with 49 languages. The Voice of America has 800 hours of broadcast time weekly and Red China is third with 750. Britain, with 600 hours on the air, is fourth but is being challenged for that position by Western Germany and Egypt. The entire globe hears these broadcasts in all tongues. Although one-half of the world's population can neither read nor write, they listen in on 400 million radio sets in all lands. Music is the No. 1 choice of the illiterates, with dramatic presentations close behind and news a bad third. The Communists naturally blend their propaganda line accordingly.

Sign on Miami Beach swimming pool: "If you drink don't dive."

Country Editor speaking: "The poets tell us that in spring a young man's fancy lightly turns to thoughts of love. Apparently they knew there was no closed season for the young ladies."

Britain has an unwritten law — no stage humor at the expense of the Royal Family. Recently the Lord Chamberlain banned a sketch based on the Queen's departure for Australia. This satire had the Royal Barge sinking in the Thames as the marine band played "God Save the Queen" and the royal party swam ashore.

Warning from the Nora Springs, Iowa, Advertiser: The bonds of matrimony cannot be classed as redeemable securities.

Lent, which ends Saturday, April 13, is the old Anglo-Saxon word for spring. Until the 4th Century it was observed for a few days but after that period it was extended to commemorate the 40-day fast of Christ in the wilderness.

Latest publicity stunt, probably dreamed up by a smart manufacturer, is the rocking chair marathon. It started in Florida and is bound to spread. Contestants must keep rocking night and day until only one is left awake. Then a houseful of furniture goes to the winner.

A dispatch from Australia says that Mr. OH married Miss NG in Melbourne — both are Chinese from Malaya.

The price of silver continues to advance because American mines are only producing one-third of today's silver needs. Today's gag: Patient: "This is my first operation and I sure am nervous." Doctor: "I know just how you feel — it's my first, too." — Armed Forces Press.

There is an old-fashioned candy store in Greenwich Village with a modern angle: Children of all ages walk around with small shopping baskets and may select nearly 200 kinds of penny sweets, including two favorites of our childhood — buttons on paper and sour balls. Wish we had some on hand as we type.

Bingo and raffles brought in more than \$43 million to charitable, fraternal, church and civic groups in New Jersey during the year of 1962. These games of chance, licensed by the state, are run by about 5,000 non-profit organizations. Sign in a public gym: "We make young Colts out of old 45s."

The company which nationally distributes a line of soft drinks containing no calories started business aiming only for the patronage of diabetics. But it found so many Americans are trying to keep down their weight that its market was vastly expanded.

Between the Bookends

POLITICAL WILDLIFE
ALONG THE NEW FRONTIER
Is there an "extremist fringe" in America today?

A new book, "The Fringe On Top," proves conclusively that there is such a menace — but perhaps in different form than most people realize. Written by M. Stanton Evans, the book was published by American Features Books, 150 East 35th St., New York, N.Y. (\$2.00).

The book points out that the fringe that threatens to undo America is not clamoring to get into power; it is already there. That is why it is so dangerous.

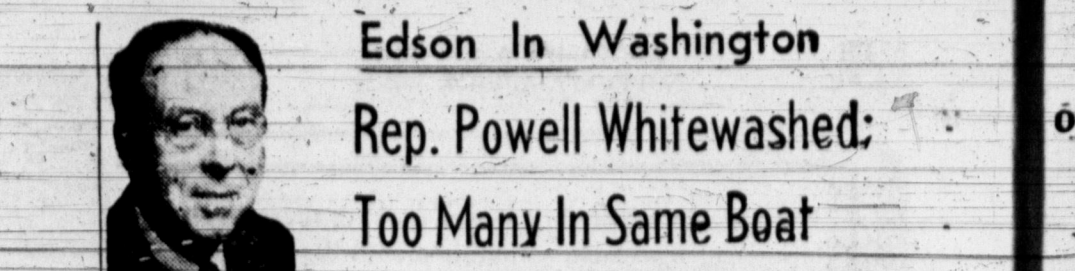

Identity of Fringe
The present administration in Washington apparently relies heavily on a small, but influential, organization called Americans For Democratic Action. It is the extreme left wing of modern American "liberalism." Its members are spotted everywhere in the administration, and have exerted a strong influence on its policies.

By the time the book was published, the "ADA" had already landed three cabinet posts, placed 31 key House aides, and had 31 key administrators in vital areas of finance, labor, civil rights, public works, power, housing and foreign policy.

The mere fact that one organization has so many people in government is not necessarily evidence of a conspiracy to capture control of government. But it does mean that what ever the common denominator that brought these people together in one organization, it is also the common denominator of our present day national government.

So a look at the program and ideas of the ADA is in order. And that look reveals a strong bias against the private enterprise system that created this country's great abundance. It also shows a program of conciliation toward the Soviet Union — a vague hope that we will become more collectivistic and the Communists more "liberal" — until one day there'll be no difference between us.

Reader Cautioned
"The Fringe On Top" is an enlightening — but frightening —

Edson In Washington Rep. Powell Whitewashed: Too Many In Same Boat

By PETER EDSON

WASHINGTON (NEA) — House Democrats have done a complete turnaround in the case of Rep. Adam Clayton Powell, D-N.Y., chairman of the Committee on Education and Labor.

The majority party has closed ranks in support of its often-far-and-awayward colleague, and the case is closed. He gets off without even a slap on the wrist.

True, funds for operation of the committee he heads have been cut by about 40 per cent to \$200,000 for this year. And the chairman has been limited to control over a mere \$50,000.

But the cuts can be restored next year after all the furor is forgotten.

When Sen. John J. Williams, R-Del., first recited chapter and verse into the Congressional Record on the New York congressman, it looked as though the Democrats had a first class scandal on their hands.

To maintain any kind of a reputation for ethical conduct and clean party government, an example would have to be made of Powell. This was freely discussed in party councils, although there were no very firm ideas of what punishment would fit or how it would be administered.

Then it began to be apparent there were a hundred or more congressmen who also were guilty of the more spectacular old charges Williams had enumerated — travel abroad on government-furnished foreign currencies and putting relatives on the government payroll.

Since that time the Congressional Record has carried a number of reports from both Senate and House committee chairmen, listing in great detail the foreign moneys spent in each country visited by their members and staffs.

So far there has been no case of a congressman's conscience bothering him to such an extent that he has refunded these advances. But even forced confessions are good for a legislator's soul and make good reading.

But if one congressman were to be made the villain for free and easy ways with public funds, then all would merit the same treatment.

ment. No one has been chastised. Or will be.

Democrats in both the Senate and the House came to the support of their errant club member as a great leader of his people — with an awful lot of power and seniority. So ignore the whole business, and just hope that the taxpayers and the voters will soon forget if not forgive.

Oh, there are several efforts being made to remove the cause of this temptation by bringing counterpart travel funds for congressmen under a little tighter control next year.

But along with that, Congress also is talking about raising its own pay, increasing its own U.S. travel allowances, increasing each congressman's staff and giving his top assistant a raise, too. So what is gained?

There also was a move on to split the 31-member Education and Labor Committee into two committees of 25 members each. This was proposed by Rep. Phil M. Landrum, D-Ga., third ranking member of the present committee.

But the House Rules Committee, which has first say on such matters, has just decided to defer action. Because, as its chairman, Judge Howard Smith, D-Va., announced, "We just didn't want to hurt anyone's feelings."

This touch of tenderness from the usually hard-boiled Rules Committee is a trait few Washington observers seem to have known was there.

It must be recognized, of course, that Powell is not only a congressman from Harlem, but also is political boss of his district and a big man to all voters of his race.

The Democratic party needs those voters. It needs them especially in New York state; it can use them anywhere.

The national leadership of the party is doing everything it can to get more Negro voters registered in the South and see that they vote.

The long run objective, obviously, is to hold the South for the party, even if the day should ever come when a majority of its present voters should go all the way Republican. That's politics.

It's Up To You

by HOWARD KERSHNER
L. H. D.

At least one bureau in Washington is paying its way. Last year FBI secured convictions in 12,700 cases and took in a total of \$200 million from fines, savings, and recoveries.

This shows a substantial surplus over the \$126 million it cost to operate FBI for the year.

Among other things an international narcotic ring was smashed and \$20 million worth of illicit drugs seized. Stolen automobiles recovered reached a total of 19,000. Intelligence information on more than 100,000 items were supplied to other law enforcement agencies. These resulted in recoveries amounting to \$32,500,000.

In his report Mr. Hoover emphasizes the continuing threat of the Communist Party, USA. He says, "During even the most critical moments of the Cuban crisis, the Party openly proved its loyalty to the international Communist cause. Its members stood unwaveringly opposed to our country's efforts to stop the Soviet Union's build-up of offensive military equipment in Cuba and to reassure the removal of such weapons already there."

FBI supplied witnesses and information resulting in conviction of the Communist Party and the levying of a fine of \$120,000 for failure to register with the Attorney General. Top Party officials, Gus Hall and Benjamin J. Davis, Jr., have been indicted and are awaiting trial for violating this Federal Statute.

During 1962, the FBI laboratory conducted nearly 236,000 scientific examinations of evidence at the request of authorities in all 50 states.

Mr. J. Edgar Hoover reports that last year diplomatic officials of Communist countries assigned to the United States made a total of 193 speeches in our country. These men are highly skilled in presenting Marxist propaganda. They actively seek speaking engagements, but few and far between are the Americans who are permitted in public address to uphold free enterprise and capitalism in public meetings in Russia and her satellite countries.

Mr. Hoover tells us, "Never in the history of the world has espionage been emphasized as it is today by the Communist nations. In addition to the use of official representatives for intelligence purposes, Communist bloc powers are training professional undercover spies, to carry on clandestine operations. Likewise, Communist officials are constantly seeking contacts with Americans, contacts they can exploit."

Mr. J. Edgar Hoover and the organization he has built up are deserving of the thanks of the American people for their diligence in preserving our institutions.

World's fourth largest oil producer is the sheikdom of Kuwait, a desert country smaller than New Jersey.

Railroad Featherbedding

End Will Help Economy

By ED DELANEY

The U.S. Supreme Court has ruled that the railroads of this country may begin the routine operations to end "featherbedding" which means the elimination of unnecessary jobs. In the next five-year period the railroads will drop from their payrolls between 165,000 and 180,000 workers. A large percentage of these will be locomotive firemen, as they are still called, who go along for the ride on the big Diesels of freight trains that do not need firemen.

By eliminating unnecessary jobs the railroads will be saved an approximate \$600 million annually. This could be reflected in lower freight rates on thousands of commodities and perhaps return a fractional per cent more in dividends for the millions of people who own stocks in the railroads. In other words it will be a marginal help in the nation's economy.

No sooner was the decision of the Supreme Court announced than a spokesman for one of the railway unions let it be known that if the railroads start ending the featherbedding jobs, the unions will have no alternative but to go on strike. That will pose a problem for Atty. Gen. Bobby Kennedy. He was quick to interpret another Supreme Court order, which was not supported by a federal law, as his excuse to send troops into Mississippi. Now we have a Supreme Court ruling which is in accordance with the will of Congress and decisions of lower courts. It holds that the railroads have a legal right to dispense with superfluous manpower. But in carrying out elimination operations some union bosses may rebel. Being mindful of votes, Bobby Kennedy may find it awkward to placate the unions and still comply with the court order if a strike should be called.

Such reduction of jobs of certain classifications is the inevitable result of what we call industrial progress. Every new development, invention or innovation invariably creates new jobs. But very often the new engineering or scientific development renders obsolete some other devices of equipment and eliminates the workers who operate them. It

has been the same for centuries. Many of us recall the days when horses and even oxen were the motive power for hauling various commodities on the roads of this country. It would be a mistake to call them highways. Still today in many parts of Europe, horses and oxen supply much of the power for cultivating farms or moving produce to markets.

When the American public, and to a lesser extent people of all western civilization, showed a preference for the automobile as a means of transportation, instead of the horse and buggy, it practically ended the business of concerns making carriages, harness, buggy whips and horse shoes. Because of changing conditions many found there was no longer any work for them. But the craze for that gas buggy instead of a pair of fine horses, was not just a fad, as some predicted. The gasoline engine revolutionized the world's transportation. It has created millions of jobs and services that bring handsome revenue to many millions more workers than were ever employed by the livery stables, wagon works or carriage makers. Today none sheds a tear for the fate of those who were forced into new occupations by the advance of progress.

The steam engine supplanted the horse for long distance transportation. To a large extent it was the railroad builders who opened up new territories and developed this country, particularly the Far West. But the steam engine has been replaced on all the major railroads by the more economical Diesel locomotive. They do not require the services of a fireman. It is the same in other fields of industry where science and inventive genius have brought us labor-saving machines and appliances. Improved TV sets and tranquilizers.

Union officials must realize that in the advance of progress it is unavoidable that some jobs be done away with. But there is the consoling thought that undoubtedly equally as unnecessary jobs will be found in the ever-expanding federal bureaucracy being created by the trek toward the New Frontier.

Word in the Vocabulary
"Cab" is a much-used word in the vocabulary of many city dwellers. It is a colloquial abbreviation of the French cabriolet, originally a passenger vehicle drawn by two or four horses. It was introduced into London from Paris in 1820. London not only turned cabriolet into cab (a word which became officially enshrined in an act of parliament, the London Cab act of 1896), but further invented for it the terms "four-wheeler" and "growler."

CHRYSLER / AMERICA'S NEWEST PACE-SETTERS

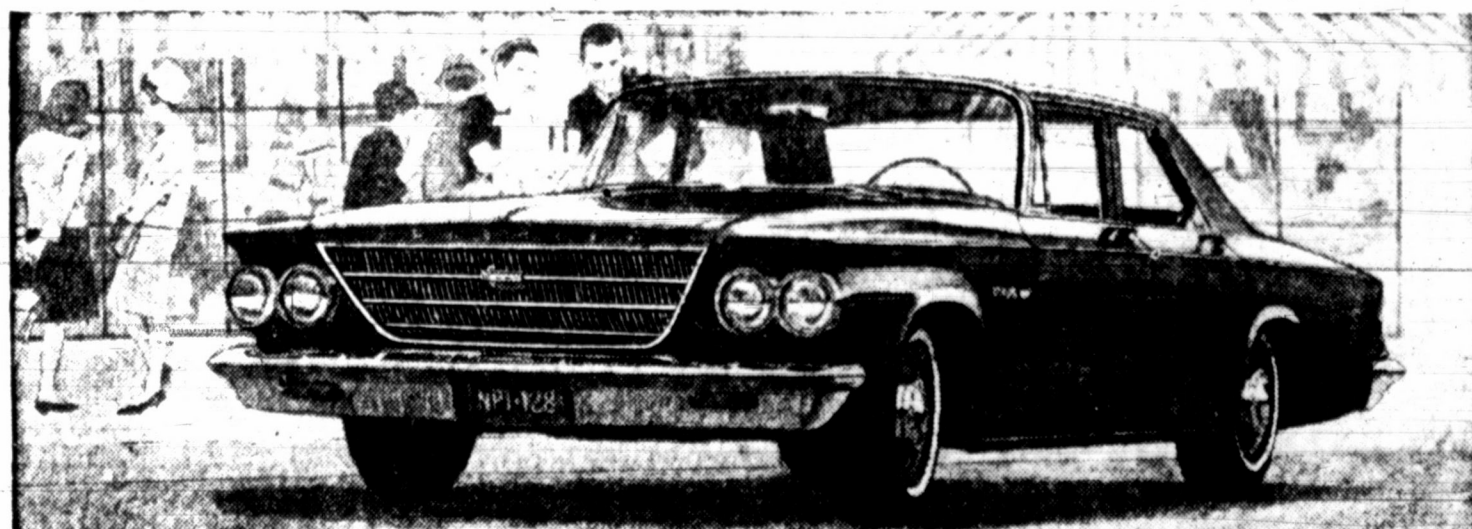

Sports spectacular—with a 5-year or 50,000-mile warranty!

When the Chrysler 300 sets out to do a performance job, it does it with flying colors. It's been chosen (with complete justification) to pace the field at the famed Indianapolis "500" on May 30th.

It's already known as the No. 1 American rally car. Successes include top awards in the Continental Divide, Daniel Boone and Abominable Snow rallies.

With a 300—crisp, custom styling, bucket seat luxury plus the power and handling of a true performance car are all yours to enjoy.

And, there's the most surprising extra of all—your Chrysler dealer's 5-year or 50,000-mile warranty. Little wonder Chrysler's setting the hot pace wherever performance cars are being talked about.

Value spectacular—with a crisp, custom look

When Chrysler sets out to pack a full-size Newport with value, others take a back seat. Here's value that surprises many who figure the crisp, custom beauty of Chrysler ought to be priced much higher. Consider the solid way this beauty is built. The complete way it's powered and equipped with a Firebolt

V-8 that performs on regular. Torsion-bar suspension that levels the roughest roads. Expensive decorator fabrics. Six-way adjustable seats. Thick, door-to-door carpeting. Then there's America's longest and best new-car warranty, 5 years or 50,000 miles. Chrysler Newport—only \$2954.* See your dealer today.

*Manufacturer's suggested retail price of Newport 4-door sedan, exclusive of state and local taxes, if any, and destination charges. White wall tires extra.

Price authorized Chrysler Dealer's Warranty against defects in material and workmanship on 1963 cars has been extended to include parts replacement or repair, without charge for required parts or labor, for 5 years or 50,000 miles, whichever comes first, on the engine block, head and internal parts (transmission case and internal parts excluding manual clutch), torque converter, drive shaft, universal joints (excluding dust covers), rear axle and differential, and rear wheel bearings, provided the vehicle has been serviced at reasonable intervals according to the Chrysler Certified Car Care schedule.

Over A Barrel

MONROE, La. (UPI) — A federal regulation requiring that Bourbon whiskey be aged in "new charred white oak barrels" is partly responsible for the start of the first white oak "tree farm" in U.S. history.

Since the barrels may not be used a second time for aging Bourbon, the country's natural population of tall white oaks, the type best suited to making "whiskey," is dwindling. The trees are being consumed much faster than they can reproduce themselves, unaided, because it takes the tiny acorns 60 to 100 years to grow into fully matured oaks.

Schenley Industries, Inc., is planning on its "farm" near here in a planting upwards of 10,000 seedlings on a long-range conservation program.
