

# Note Retirement Marks Red Letter Day For City

Friday was a red letter day in the annals of City Hall as they were able to pay off a \$100,000 debt which has loomed like a dark cloud over the heads of the City Council for more than nine months.

In April of 1979 councilmembers authorized the execution of a short term loan with the City National Bank to put the city's general fund in the black at the end of the fiscal year.

This was necessitated by the city charter which states the general fund must be in the black at the end of the fiscal year and budget figures indicated an estimated deficit of about \$80,000.

This amount was borrowed to close the books at the end of the fiscal year. Then as of May 1 an additional \$100,000 was authorized on a short term loan and the first loan of \$80,000 was repaid leaving a balance of \$40,000 to meet operating expenses in the coming months.

The interest rate on the loan was established at eight percent.

The council, anticipating the deficit at the end of the fiscal year had allotted \$115,000 transferred from the water and sewer fund into the general fund for 1979 budget.

The general fund operates on tax revenues and includes fire, po-

lice, street, sanitation and parks departments.

Through the combined efforts of City Manager Ray Mason, City Secretary Brenda Tarter and councilmem-

bers, it was decided that if the note could be paid off sooner than originally scheduled, many dollars could be saved.

"Because the city re-

## Cotton Count Hits 87,355

The gigantic Mitchell County cotton harvest began coming down the homestretch this week.

A Friday afternoon report from the eight county gins revealed that they had processed a total of 87,355 bales and had 3,550 on the yard for a total of 90,905 bales. Of these figures, 78,505 of the bales processed had come from Mitchell County fields and 2,800 of the bales in the yard had come from this county.

This makes for a grand total of 81,305 bales harvested from this county as of Friday afternoon.

A breakdown of the gins and their bales processed is given as follows:

Buford Co-Op Gin reported 9,075 bales processed and 410 on the yard. Most of their remaining cotton will probably be coming in module form.

China Grove Co-Op reported 10,600 bales processed and 1,500 on the yard for a total of 12,100 bales. Half of this figure has come from Mitchell County for a total of 6,050 bales from Mitchell County fields. They said that this would be about all of the cotton that would be coming in.

Colorado Gin Company reported 4,494 bales processed and none on the yard. They expect to receive about 400 more bales.

Farmers' Gin and Supply Company reported 6,600 bales processed and none on the yard. They also expect the remainder of their cotton to be coming in module form.

Co-Op Gin of Lorraine reported 17,428 bales processed and 1,390 on the yard for a total of 18,818 bales. They do not expect to receive much more cotton.

Mitchell County Gin reported 11,785 bales processed and 50 bales on the yard, all in module form for a total of 11,835 bales.

Westbrook Gin reported 19,888 bales processed and 10 on the yard for a total of 9,898 bales. They expect to receive from 300 to 500 more bales.

Producers' Co-Op Gin reported 13,935 bales processed and 200 on the yard for a total of 14,135 bales. They expect to receive about 500 more bales.

## China Chooses U. S. Cotton

Prospects for Mitchell County and the State of Texas in the cotton market look increasingly good.

With Red China's agreement to purchase 3,000,000 bales of United States cotton the market has tightened and the price held as harvest continues.

Mills are asking for more and more cotton since the supply of oil has driven the price of synthetics even higher.

The current market value of cotton is anywhere between 47 cents and 65 cents. Futures are going up.

Texas produced over half of all the cotton grown in the world this year and Mitchell County producers grew 80,000 bales of that total.

"If our micronaire was better we would be in still better a position. There is no discount on cotton with a micronaire between 3.5 and 4.9. This in Mitchell County is averaging between 3.0 and 2.7 and even some below that," Elmer Martin, a farmer, rancher and cotton buyer commented.

"China is a new customer and with the price of oil going up cotton is again in competition with synthetics in the market place," Martin said.

"We have been extremely lucky here this year. We got the moisture and rainfall at just the right time. The boll weevil infestation was light.

"The winter rains and snows gave us two to three feet of subsoil moisture on which cotton, as a deep rooted plant, thrived," he explained.

Don Stewart, executive director for the Agricultural Stabilization and Conservation Service indicated his office anticipates very few disaster payments will be made this year. To date only two such claims have been filed with his office.

Yield reports are slowly beginning to come into the ASCS Office as gins begin to catch up with the flow of cotton. Most producers still have a few bales or remnants yet to be processed, he noted.

## Area Residents Beat Deadline For Paying Property Taxes

Thursday was the final day to pay property taxes in Mitchell County without a penalty tacked on.

If your taxes come in during this month (February) the penalty will be an increase of 1.5 percent of your tax bill.

If you wait until March, another 1.5 percent will be added and so on.

A check of the various Mitchell County tax offices revealed, however, that the vast majority of area residents have already come across with the taxes they owe.

The collections have been coming in especially well for the City of Colorado City.

City Secretary Brenda Tarter said Thursday that up to that point there had been \$193,322.50 out of a total tax roll of \$224,343.44 collected.

This represents about 96 percent of the tax roll. Mrs. Tarter said that probably 97 to 98 percent of the taxes would eventually come in.

For nonpayment of the city taxes the amount is increased by 1.5 percent from now on.

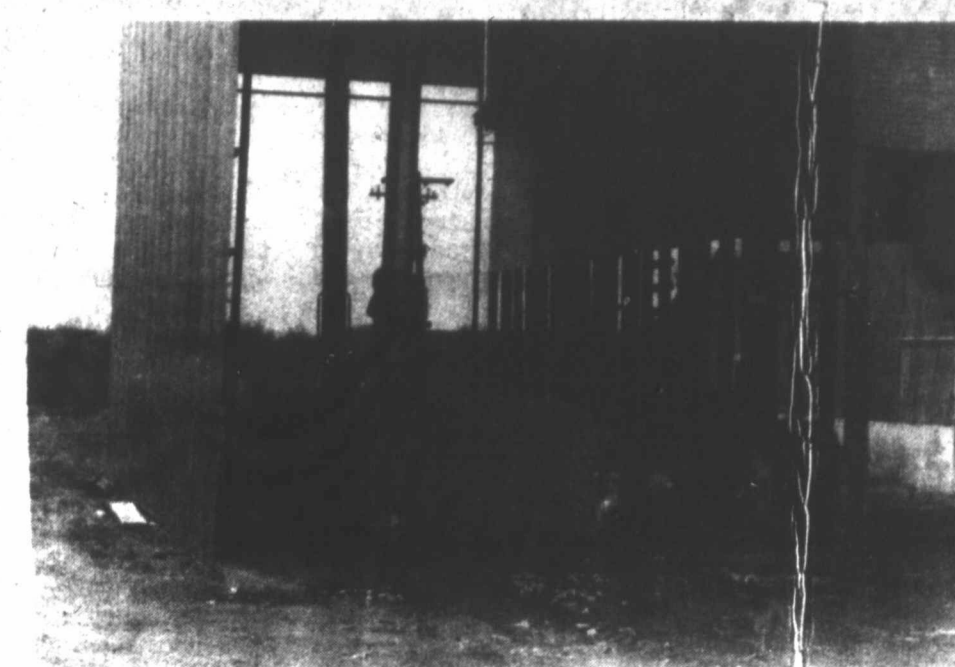

Mitchell County Tax Assessor-Collector Mike Burt was also contacted.

He said that as of Jan. 1, 1980, there had been about 78 percent of the total tax roll of \$1,344,958.58 received which would mean there had been about \$1,048,000 collected up to that time.

Since Jan. 1 there have been about \$150,000 of the city taxes collected which would bring the percentage to about 90 percent.

He added that he expected to collect about 95 percent of the taxes.

Mitchell County citizens are reminded three times that their county property taxes are due. They are reminded in October when the taxes first become due. They are reminded again in March and they receive

THIS COTTON MODULE being processed at the Farmers' Gin is one of many still coming in from Mitchell County fields. More than 87,355 bales have been tagged by area gins as of Friday afternoon. Only slight problems have been reported due to inclement weather conditions. As modules are lifted for processing, heavy mud clings to the bottom of the compact cotton slightly reducing its quality.

## Game Warden ..... Rabbit Ranger Or A Real Life Hero

By DONNA WATSON

"It's all over but the crying," this quote was heard as a final lament to hunting and trapping season which ended Sunday (today).

For the past few months one of the busiest men in the county has been Game Warden Ronnie Aston as the continual ebb and flow of hunters coursed through the county taking their toll of wildlife.

One often repeated phrase heard during this period is "Oh, he's just a Game Warden."

But what does being just a game warden entail?

For one thing he takes a lot of ribbing. A game warden seldom enters a public establishment without hearing joking

mimics of an illegally killed doe or a quail trap. He is referred to as a squirrel sheriff, possum police, rabbit ranger, deer detective and fish fuzz.

While being one of the lowest paid state peace officers, he remains on 24 hour call and surveys reveal he is eight times more likely to be killed in the line of duty than any other law enforcement officer in the United States.

A recent questionnaire revealed 86 percent of game wardens declined higher salaried employment because of a desire to be in the service.

Perhaps a little background on the Texas Parks and Wildlife Department purpose, and

history will begin to explain that position.

The foremost purpose of the department is conservation and enforcement of the state's hunting, fishing and boating laws.

Wardens are acquainted with problems of range management and the intermingled competition of domestic livestock and wildlife.

Legislation enacted in this field and events in Texas history affecting conservation were, in the beginning, prohibitive.

Seasons were closed and certain methods of taking game were prohibited.

Next, transplanting and substitution were tried. Carp, exotic big game animals and rainbow trout are just a few species which have been introduced with varying degrees of success.

Conservation education became popular and research into the many facets of this growing science continued.

The first game law in Texas was passed in 1861. It specified a two year closed season on bob-white quail on Galveston Island.

In 1874 and 1879 fishing laws were passed to protect the species and a Fish Commission to enforce the laws was formed.

In 1909 the first hunting license law was enacted and 5,000 licenses were sold during the first year.

The year 1923 saw the legislature turn over the entire game fund to the department and 43 game wardens were hired.

The program grew to 80 game wardens by 1928 and in 1936 the National Wildlife Federation was organized at Washington, D.C. by See HERO Page 9

## Chamber To Meet Monday

The renovation of the rodeo arena, the arts and crafts fair and a number of items are on the agenda for the monthly meeting of the Colorado City area Chamber of Commerce board of directors Monday night.

It will be the first meeting with the Chamber's new manager, Starr Greenblatt, who officially begins her duties here tomorrow (Monday).

Plans will be discussed to finalize renovation of the rodeo arena in preparation for the AJRA rodeo set for the See RODEO Page 7

The difference between fusion and fission may mean the difference in a prosperous tomorrow or a tomorrow without energy.

At last someone in Washington is using his head. The chairman of a house energy panel, Rep. Mike McCormack, called for a \$20 billion crash program to achieve large scale generation of electricity from nuclear fusion before the end of the century.

Recent research and production subcommittee studies indicate breakthroughs in the past 18 months which show that goal is within reach.

"We are now confident we can have a fusion plant generating electricity on the line before the end of the century," McCormack said.

Development of this type program is estimated to cost \$500 million this year. It is reported President Carter has budgeted \$405 million for fusion.

Under Carter's current program, a plant using fusion to produce commercial electricity would be developed by 2010 or 2015.

McCormack's fusion machine (to test design principles) could be built by 1986 if money is allocated this year.

Fusion is an inexhaustible reaction within the stars. It releases energy in the form of heat.

Scientists, who have learned how to confine the reaction within magnetic fields holding a plasma of hot ionized hydrogen gas, expect to show soon it will yield more energy than it takes to heat the plasma.

Fusion creates only short-lived, non-volatile waste products.

The fusion reaction released energy in the form of heat when the nuclei of hydrogen atoms fuse to form helium and a high energy neutron.

Hydrogen that fuels the machine can be derived from water.

Weibler's defines fusion as the act or operation of melting or melting together—a blending—nuclei of light chemical elements uniting with a release of energy (hydrogen bomb).

Fission is defined as a cleaving or breaking into parts, a spontaneous division of the body into two or more parts each of which grows into a complete organism, the splitting of an atomic nucleus, as by bombardment with neutrons—resulting in the release

MONDAY'S ICY WINDS extended into the week, producing freezing temperatures. Tiny stalactites slowly formed around this silent sentry located on the corner of Austin and 15th Streets as minute drops of moisture from a leak, previously unnoticed, were caught by freezing winds.

## School Lunch Menus

**COLORADO CITY LUNCH**  
**MONDAY:** In-Service Holiday.  
**TUESDAY:** Corn dogs, baked beans, mixed greens, Rice Krispie bars and milk.  
**WEDNESDAY:** Bar-b-que beef, home made

buns, potato rounds, lettuce, apple wedges and milk.

**THURSDAY:** Fish sticks, blackeye peas, tossed salad, toasted cheese, lemon cake and milk.

**FRIDAY:** Fried chicken, potato au gratin, green beans, hot rolls, sliced peaches and milk.

**LORAIN BREAKFAST**  
**MONDAY:** Cereal, 1/2 apple and milk.  
**TUESDAY:** Cinnamon rolls, grape juice and milk.  
**WEDNESDAY:** Biscuits, sausage, juice, jelly, butter and milk.  
**THURSDAY:** Oatmeal, apple juice, toast and milk.  
**FRIDAY:** Cheese toast, tomato juice and milk.

**LUNCH**  
**MONDAY:** Meatballs, English peas, mashed potatoes, hot rolls, applesauce, syrup, butter and milk.  
**TUESDAY:** Hot dogs, French fries, tossed salad, peaches and milk.  
**WEDNESDAY:** Hamburger meat and beans, carrot ambrosia, potato salad, onions, corn-

bread, brownies, butter and milk.

**THURSDAY:** Vegetable soup, crackers, sandwiches, tossed salad, jello with whipped topping and milk.

**FRIDAY:** Corn dogs, mustard, tater tots, green beans, cobbler and milk.

**WESTBROOK BREAKFAST**  
**MONDAY:** Rice Krispie bars, orange juice and milk.  
**TUESDAY:** Biscuits, sausage, butter, honey, apple juice and milk.  
**WEDNESDAY:** Oatmeal, toast, jelly, orange juice and milk.  
**THURSDAY:** Hash browns, apple juice and milk.  
**FRIDAY:** Frosted Flakes, orange juice and milk.

**LUNCH**  
**MONDAY:** Chicken fried steak, gravy, creamed potatoes, pea salad, biscuits, butter, pear on lettuce leaf and milk.  
**TUESDAY:** Hot dogs with chili meat, baked potato, lettuce wedge, Jello and milk.  
**WEDNESDAY:** Roast beef, gravy or sliced turkey, steamed rice, green beans, batter bread, strawberry cake and milk.  
**THURSDAY:** Tacos, taco sauce, lettuce, tomatoes, cheese, baked beans, sliced bread, peaches and milk.  
**FRIDAY:** Beef stew with vegetables, cheese or peanut butter sandwiches, applesauce, cinnamon rolls and milk.

## Baptists Have New Pastor

Ronald (Ron) E. Davis is the new pastor of Central Baptist Church in Colorado City. Bro. Davis, his wife, Jennett and two daughters, Marcia and Tricia, said that they are really glad to be a part of this community.

Ron has been a pastor in several churches in Texas in his early ministry including Baptist Temple in Paris and a church in Mineral Wells.

He recently moved to Colorado City from Gillette, Wyo. where he has been a pastor for the last several years.

Ron and Jennett have attended the University of Wyoming in Laramie, Wyo.

He stated, "I hope me and my family will be a blessing to the people of Colorado City."

## Birth

Enrique Renee, daughter of Mr. and Mrs. Arturo Pineda, City, was born January 29 in Root Memorial Hospital weighing 5 pounds.

## KEYS TO ANSWERED PRAYER

Rev. Bobby Chaney  
 Pastor  
 Christian Fellowship  
 E. Hwy. 80

Jesus said to Peter in Matthew 16:19 "And I will give unto thee the keys of the kingdom of Heaven: and whatsoever thou shalt bind on earth shall be bound in heaven: and whatsoever thou shalt loose on earth shall be loosed in heaven." There are many keys to the kingdom of heaven. One of the keys is prayer. Prayer is a must in the kingdom of God. God desires to communicate with His children. And if we are in the kingdom of God, He has a desire to communicate with us. Many people get discouraged because they feel their prayers are "not getting through" or go unanswered. The bible is full of instructions on how to communicate and receive answers to our prayers. We will call these instructions keys to answered prayer.

The first key to answered prayer is faith. Because of faith and the revelation of God, Peter received the key of the kingdom and a key to answered prayer. Jesus said, by faith you have authority (in the name of Jesus) to bind and loose on earth all hindrances of the enemy, and to loose the very angels from heaven.

In Mark 11:22-26, Jesus states that the key or condition to answered prayer is forgiveness. If we are not willing to forgive, then our Father in heaven will not forgive our trespasses; thus breaking down communications. We are instructed; when we bring our gift to the altar and that we have fought against our brothers, to leave the gift, go and make it right, and then come and offer our gift. Is there anyone you haven't forgiven? It will definitely hinder your prayer life.

God told the children of Israel in 2 Chronicles 7:11-15 if they should find lack of communication and problems arising, they could reach Him. He would hear, and answer by their humbling themselves, by seeking His face, and turning from their wicked ways. Our land today will be healed, when we begin to use the key. Paul urges us to always pray, especially for our nation and the leaders whether city, county, state or national. We should be praying for them and not cursing them. 1 Timothy 2:1-2.

Another key is to simply ask. We will have a problem, complain, and wonder why God hasn't taken care of it, when we haven't even asked. We say and quote He knows my need even before we ask, but the word of God exhorts us to ask to receive, seek and find, and knock and it will be opened. He has set a law in motion of ask, seek, knock to receive. You have not because you ask not. James 4:2.

An answered prayer comes with the request that the Lord shall receive all glory honor, praise, and thanksgiving. Our motive can not be selfish or for our gain of glory. You ask and receive not because you ask a miss; that you may consume it upon your own lusts. James 4:3.

When we pray, the Holy Spirit should be allowed to intercede for us. Jesus also is making intercession for us. Romans 8:26-27; 34 tells us this fact. The Holy Spirit knows how to ask more sufficiently and will pray through us according to the will of God. Also in Ephesians 6:18, Paul encourages us to pray in the Spirit.

Finally, we must listen and hear God speak instruction that will cause the answer to come. He may say "This kind comes by fasting, or call for the elders and let them anoint you, or get someone to agree with you, (Matthew 18:19). He may tell you to go wash in the pool of Siloam or Jordan. He could day wait and be patient; the answer is on its way. He could say see a doctor or take an aspirin. We must be willing to hear and do.

If you are sitting there wondering about your prayer, try a key; it could be the one that fits the door!

Next Week Sermon: Rev. Roy Byrd, First Presbyterian  
 Radio Devotion: Rev. Monte Jones, All Saints Episcopal  
 8:45 A.M. Monday Through Friday  
 Lodge Services: Rev. Monte Wike  
 Royal Valley Fair-3 P.M., Sunday  
 Kristi Lee Manor, Inc.-3:45 P.M. Sunday

## Phillips Accepts Position

Mrs. Sandra Phillips has accepted the Chairmanship of the Spring Bike-A-Thon on behalf of the Cystic Fibrosis Foundation. She will conduct the Bike-A-Thon to raise funds which will support research and care for Cystic Fibrosis children.

Cystic Fibrosis, the number one genetic killer of children, is inherited by one of every 1,600 babies born in the United States. Approximately one in every 20 Americans is a symptomless carrier of the recessive CF gene.

At the present time there is no cure for Cystic Fibrosis.

Mrs. Phillips will be conducting the Bike-A-Thon in Lorraine. For further information call 737-2933.

## Minchew Dies In Odessa

Charlie Minchew, 63, of Odessa, formerly of Colorado City died Tuesday at his home after a sudden illness.

Services were at 10 a.m. Friday at the Hubbard-Kelly Funeral Home Chapel in Odessa and burial was in the Colorado City cemetery.

Born Nov. 27, 1916 at Pittsburgh, Tx., he was married Oct. 1, 1941. He and his wife, Luline, moved from Colorado City to Odessa in June of 1957.

He was a member of the Crescent Park Baptist Church of Odessa. He was a retired employee of the T&P Railroad.

He was a Mason in the McFarland Lodge and was also a member of the Moose Lodge.

Survivors include his wife, Luline; two sons, Don of Odessa and Roy of Georgetown; a daughter, Mrs. Charlie Callaway of Fort Worth; a brother, Clyde of McCaulley; a sister, Mrs. Syble Oden of Graham and seven grandchildren.

## Stoneman Dies In Florida

Lottie E. Stoneman, 84, formerly of Westbrook died earlier this week in Palm City, Florida.

Chapel service will be Monday at 2 p.m. in the Kiker - Seale Funeral Home. Burial will be in the Westbrook Cemetery.

She is survived by a sister, Anna Beal of Colorado City.

## When a hydraulic hose breaks...

## ...you can't afford to wait.

**WE CAN CUSTOM-MAKE HYDRAULIC HOSE ASSEMBLIES IN MINUTES, RIGHT IN OUR OWN SHOP.**

When half the crop is in and your equipment is sitting idle in the field, you don't have time to wait for the factory to send you that needed hydraulic hose assembly. With our Gates Power Crimp machine, we can crimp both straight and bent tube stems from 1/4" to 2" in diameter using one- or two-wire braid hose.

We'll make a factory-strong assembly and have you back on the job in hours, not days. No waiting, no special orders from the factory, no costly delays. Whether you need one assembly or 25, let us make them fast and dependable with Gates Hydraulic Hose and Fittings. You can't afford to wait.

**CITY.** From Page 1  
ceived more income from water during the summer months, we were able to make larger payments during that period," Mason said.

The city paid \$8,000 in June, \$15,000 in July, \$38,000 in October, \$17,000 in November and \$7,000 in January.

This month with 96 percent of taxes collected, the city was able to pay off the remaining \$15,000 on the note plus only \$3,835.62 in interest as opposed to the full years interest of \$8,000.

"This represents a savings of \$4,164.38 to the city," Mason said.

"We are not out of the woods yet. It is going to be tight for the next few months, but if we watch our expenses we can make it," Mason said.

The general fund as of Friday totaled \$66,585.21. The delinquent tax roll figure stands at \$76,824.20 (much of this figure is carried over from year to year).

The city anticipates revenues of about \$225,500 from sales taxes, gross receipts, fines, sanitation sales, leases, civic center income and delinquent taxes during the remainder of this fiscal year which ends April 30, Mrs. Tarter said.

Average monthly expenses are between \$57,000 and \$60,000 which indicates about \$180,000 in expenditures during the next three month period. This leaves a balance of about \$45,000 to begin the new year barring any unforeseen disasters, she noted.

#### TAX. From Page 1

Beginning with that month, the penalty increases to 11 percent of the tax bill and the increase is .5 percent every month thereafter.

Colorado School Tax Assessor-Collector J.S. Craddock Jr. said that as of Thursday there had been collections of \$1,283,513 of the school property taxes out of a total tax roll of \$1,628,513.

Craddock added that there had been \$620,000 collected in the month of January and that the percentage of the tax roll collected now stood at about 79 percent.

He went on to say that most of the large taxpayers such as Texas Electric pay in two parts and the second part would come in sometime in June.

School property taxes also increase 1.5 percent every month beginning with February until July when it jumps to 11 percent.

Loraine School Tax Assessor-Collector Jane Andrews when contacted Thursday said that the Loraine School District had a tax roll of about \$176,000 and that \$161,249.93 of this had come in. This represents about a 92 percent collection figure, which she said was about average.

Westbrook School Tax Assessor-Collector Alvah Ruth Hollis reported collections of over 98 percent Thursday.

She said that the school had a tax roll of \$417,083.72 and that there had been collections amounting to \$410,250.25 which is about a 98.3 percent rate. She added that she expected a collection rate of over 99 percent.

Loraine City Secretary Brenda Lee said that the city had, as of Friday, received \$29,477.31 in taxes out of a total tax roll of \$37,876.29 for about a 75 percent collection rate. She said that this was somewhat below normal or average.

## Loraine Board To Meet

A discussion of salaries will highlight the agenda of the monthly meeting of the Loraine School Board at 7 p.m. Monday at the school.

Among those whose salaries and contracts will be discussed will be the school principal, the coaches, the band director and bus drivers.

The board will also set the time, place and date for the upcoming school board election and will appoint an election judge and an absentee election judge.

A final item on the agenda will be the appointment of a board of equalization.

**COLUMN.** From Page 1  
of enormous quantities of energy when certain heavy elements as uranium and plutonium are split (atomic bomb). This process produces the problem waste factors.

I recently read reports indicating Congress had budgeted \$46,000 to determine how long it takes to prepare breakfast and were considering another \$160,000 for a similar study to find out how long it takes to prepare lunch and dinner.

They have spent \$27,000 to provide a study to determine why inmates want to escape from prison and \$3.4 million on an advertising campaign to interest Americans in writing more letters. They then spent \$775,000 to study the effects of the campaign.

These figures alone total \$4,408,000. I am sure some of these studies are not as ridiculous as they sound but it has come down to a question of priorities in this century. If we, as a nation, take our future seriously, we can change the course of events by changing the direction of our government.

But, in order to bring about this change, we must become involved as individuals first.

In a recent report, State gubernatorial energy advisor Ed Vetter said 90 percent of this nations energy is now provided by oil and gas and that figure needs to be reduced to 60 percent by 1990.

"The president keeps calling us the Saudi Arabia of coal. The only problem is we can't burn it...somebody said that coal is our only renewable energy resources, that God is making it faster than the federal government is letting us burn it," he commented.

Vetter advocates a severance tax on oil and gas exported from the state.

"Texas would be penny wise and pound foolish if they don't consider levying a severance tax on oil and gas exported from the state," Vetter said.

These are things that affect us, our children and our children's children. We all have an opinion. Express it. Contact your representatives in the state capitol and in Washington, D.C.

## CISD Board To Hold Teacher's Talks

The Colorado School Board will hear the last of the presentations from the faculties of Kelley and Hutchinson Elementary Schools at a special called meeting at 7 p.m. Tuesday at the Administration Building.

Six faculty members will make presentations and they will include Deborah Blair, physical education teacher; Trina Taylor, music teacher; Clarice Fowler, Title I reading teacher; Ruben Parris, Title I

math teacher and Dorothy Fowler and Sherri Long, Plan A teachers.

As part of an ongoing program, the teachers will discuss with the board their objectives and goals for their students and whatever problems they may be having.

After the presentations, the board will make an evaluation of what they have heard over the past several months from the elementary school teachers.

## RODEO.

From Page 1  
final weekend in July. Also to be discussed will be setting dates for the annual Railroad Arts & Crafts Round-up.

Other items to be considered by the board will be a membership drive, a proposed tractor pull, discuss the annual Chamber banquet held in January and to make other plans for the coming year.

Among those plans is a proposal to print C-City dollars to be given in lieu of gift certificates, a flea market for the downtown area and make plans for the rodeo parade in conjunction with the AJRA rodeo.

## Hospital Board Is To Meet

Mitchell County Hospital District Board will convene at 7 p.m. Monday in the board room at Root Memorial Hospital to hear an annual audit report from accountant Joe Morren.

The meeting originally scheduled for last Tuesday was postponed due to inclement weather conditions.

Also on the agenda to be considered by board members is the possible sale of the medical building.

Coach Mike Hart's Colorado Wolves trailed Merkel for the better part of three quarters Friday night in Wolf Gym but eventually managed to put together enough offense to ease past the Badgers 56-53.

The Wolves led early in the contest but Merkel pulled into a 11-10 lead with 2:18 left in the first quarter and held that lead throughout the rest of the first half and until the last minute of the third quarter.

Merkel led 16-13 after the first frame and 24-21 at halftime.

At the end of the third quarter Colorado had a 38-36 margin and they held from a two to five point margin through the final quarter.

Clay Hammond hit five of six crucial free throws in the last period to insure the victory.

Charles Jackson led Colorado in scoring with

13 points while Steve Feathers had 12 and Chuck Claxton had 10.

Hammond had nine points, Russell Noel had six, Victor Jackson had five and Jay Green had one.

The Wolves hit 23 of 46 attempts from the field for an even 50 percent and had 10 of 21 free throws for 48 percent in that category.

Colorado was out-rebounded by Merkel in the game 24-17.

The Wolves are now 2-0 in the second half of District 6-AA action.

xxx  
Anne Marcom put through 19 points for Coach George Martin's varsity girls Friday night and they made a good run at Merkel before finally falling by a 54-48 score.

Colorado led 10-9 after the first quarter, trailed 20-18 at halftime and again pulled into a 33-32

lead after the third frame.

Sherri Uselton had nine points for the Wolves while Karla Herm had eight, Darlene Mitchell had six, Sareesa Mitchell had four and Brenda Smith had two.

The Wolves hit 18 of 47 attempts from the floor for a 38 percent mark in this category and had 12 of 17 attempts from the free throw line for a 70 percent mark in that category.

xxx  
The Colorado junior varsity boys' team raced past Merkel Friday night by a 41-19 score.

The Wolves led 11-4 after the first frame, 19-8 at halftime and 33-13 after the third period.

Dwight Staats had 11 points for the Wolves, Stacey Tarter had nine, Michael Scott had eight and Randy Uselton had six.

xxx  
The Colorado junior varsity girls took a one point 36-35 win over Merkel in Wolf Gym Friday night. The game was tied 5-5 after the first frame and was also knotted at 13-13 at halftime. Colorado had a 24-23 lead after the third quarter.

Tomika Randle had 11 points for Colorado. She was followed by Della Ausbie and Melissa Wright with eight points each and by Stacy Hamrick and Carolyn Green with four points each.

xxx  
Westbrook's varsity girls' basketball team, who won the first half of their zone in District 10-B, began the second half Friday night with a home win over Ira by the score of 52-18.

Rose Lopez led the way for the Wildcats with 18 points and she was aided by Teresa Dorn with 12 and Sharla Rollins with 10. Jana Shackelford came in with eight and Beth Geiger had four.

Westbrook took a 10-7 lead at the end of the first quarter and never headed. They led 20-14 at halftime and completely blanked Ira in the third quarter to hold a 30-14 margin at the end of that frame.

Westbrook's varsity boys, who also won their first half of their zone, dropped a 49-38 decision to Ira Friday night.

## Russell Is New Pastor

Rev. Gene Russell is the new pastor of the First Assembly of God on 17th Street. He has a wife, Connie and three children, Gene Jr., 17, Kathy, 15 and Troy, 14.

The Russells came to Colorado City from Franklin, Texas where he was a pastor for two years. He was assistant pastor at the Valley View Assembly in Fort Worth before that.

Bro. Russell stated, "the people of Colorado City are so nice and I feel that the Lord has sent us here."

Victor Cutting Equipment  
**Cory McDonald  
Welding Supply**  
1110 College Ave.  
573-5329 Snyder

## McDonald Welding Supply Can Also Outfit Farmers, Rancher

You don't have to be a professional welder to benefit from the wide variety of supplies and the expertise of the folks at McDonald Welding Supply. Owner Gayle McDonald says, "We can outfit a farmer or rancher with a portable welding and cutting outfit, mounted on a trailer, for a very reasonable price."

Located at 1110 College Ave., McDonald Welding Supply has the most complete line of welding equipment that you'll find in the area. And featured at the top of the list are the latest in portable welding machines manufactured by Miller.

All Miller portable machines are equipped with built-in power plants that enable the user to run any type of A.C. tool or appliance. McDonald pointed out that this feature would be very valuable if a tool such as a drill, grinder or saw is needed where no electricity is available. He also noted that the power plant on the welder will run an electric air compressor.

The firm has been custom building and outfitting trailers with welding and cutting units. Also available are tool boxes that can be

mounted on the trailers.

McDonald made the point that for no more money than a homeowner would spend for a backup light plant, he can have a Miller welding machine with a generator built in.

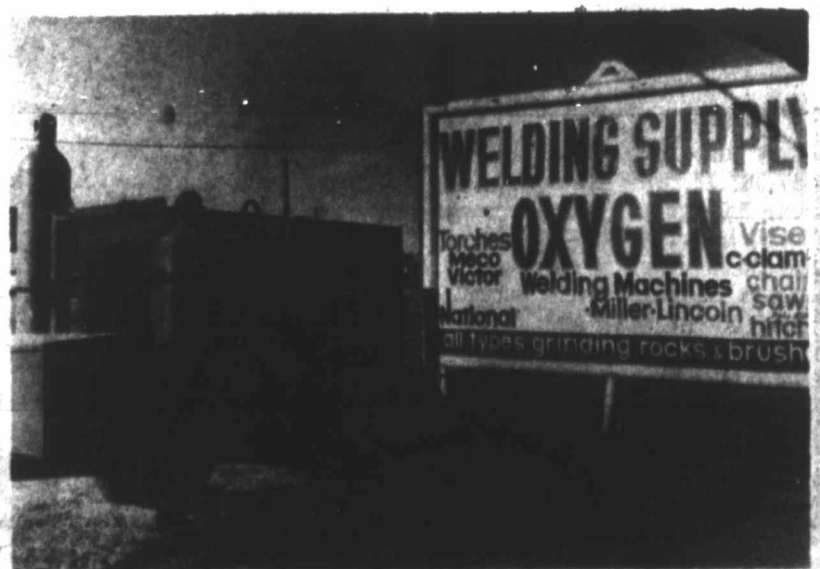

The firm makes available the Milwaukee line of heavy duty electric tools and grinders, as well as Williams hammer wrenches and heavy tools, Victor and Uniweld welding and cutting equipment, and Wilton vises.

Safety equipment of all

types is stocked including goggles, first aid kit, refills, arm guards, hard hats, liners and fire extinguishers.

In addition, they stock chains, cable, tubing, and a complete line of steel. Chain hoist and blocks as well as all types of pulleys may be added to the list along with medical oxygen and all types of gases.

McDonald's list of supplies goes on and on, so stop by and visit with Gayle or Jack and let them demonstrate the flexibility that the machines offer.

**WELDING SHOP ON WHEELS** - Shown here is one of the custom built and outfitted trailers done by McDonald Welding Supply. Regardless of the size of your operation, McDonald's has a machine to fit your needs and budget.

HERO, From Page 1

Franklin D. Roosevelt. In the 1940's harvesting of game as one of the products of the land was accepted.

The first game warden school began in 1946 and a statewide program of conservation education started.

More than \$165,054,000 were spent by Texas sportsmen in hunting and fishing in 1956 when the first economic survey was taken.

From the 5,000 licenses sold in the first year, 1909, the number grew to 382,249 hunting licenses and 417,914 fishing licenses sold in 1957. That year the total state population was estimated at 9,127,000 persons.

The year 1958 saw 80 counties under the authority of the Game and Fish Commission's bag limits, etc., instead of legislatures.

In 1960 this advanced to about one half of the counties in the state.

The Commission was reorganized in 1961 and 20 district headquarters were established.

When 1962 rolled around there were 129 counties under full or partial regulatory authority of the department. This was a complete reversal from 1883 when 130 counties claimed exemptions from all game laws.

By 1964 the number of hunting licenses sold had increased to 571,058 and fishing licenses to 527,210.

During this time continual conservation research and planning controls had been implemented and utilized. The deer population in 1966 was estimated to be 3,200,000 and 13 different species of exotic mammals were counted.

By the year 1969 there were 283 game management officers in the field to enforce game laws.

There were 233 counties under the department's regulation by 1973.

An all-time high figure of 1,011,530 licenses brought a total of \$13,898,057 into the department's funds in 1979.

What kind of qualifications do these men have who carry the title "Game Warden?"

The procedure for selection involves employment by the state, a general aptitude test, board interview and personal background research similar to that of any other state law enforcement personnel.

From 500 to 600 persons take this exam each year, but the department usually has only about 20 vacancies.

These men have to meet physical requirements, as well as educational requirements.

Schooling is conducted by the Game Warden Training Center in Austin.

They are required to take three wildlife science courses in management and fisheries. The aspiring game warden also takes a professional man's speech course and the standard Red Cross First Aid course.

Training is never completed for the game warden. There are fre-

quent in-service training schools that he must attend to keep abreast of new laws, court decision and policies.

By the very nature of his job, the game warden punches no time clock and keeps no specific hours.

During the hunting season, the officer "meets himself coming and going."

In a recent article written by Curtis L. Jones, game warden, Abilene, he noted, "Duties vary according to the area worked, so there is really no average yearly load. The start of the fiscal year in September sees the beginning of dove season. Doves are probably hunted by more individuals in Texas than any other game bird. Wardens contact more hunters during dove season than during any other hunting activity."

Quail, deer and turkey seasons follow on the heels of dove season. Fur-bearing season must be included in this list especially since the value of pelts has risen during the past few years.

One of the duties of the game warden include checking licenses, means and methods of hunting and monitoring legal seasons, hours and bag limits.

The department now has full responsibility for registration of all motorboats in the state and it is the responsibility of the game warden to check for proper registration and enforcement of various requirements for boats used in public waters.

There are currently 319 game wardens in the State of Texas.

Their operations and number have grown and increased over the years.

"We are always conscious of our duties to the public. We are careful how we use the au-

thority we have been given and try not to abuse it," Game Warden Ronnie Aston said.

Hello  
World

Peter Ryan, son of Jim and Esther Goss, of Chireno, was born January 31, weighing nine pounds, two and one-half ounces.

Maternal grandparents are Mr. and Mrs. Emeterio Campos of Colorado City. Paternal grandparents are Mr. and Mrs. T.J. Goss II, also of Colorado City.

## We'll Be Happy To Explain Value and Economy For Your Tire Dollar

Every Michelin "X" tire is backed by a 40,000 mile warranty for tread wear on domestic cars. That's just about twice the mileage you'd expect from a conventional tire under the same driving conditions. Also, because of its radial design the Michelin "X" rolls with less road resistance than conventional tires, and that means you can save up to 10% on your present gas consumption (pretty good considering today's fuel crisis.) Plus, every Michelin "X" tire gives you all the distinctive radial tire advantages over conventional bias-ply tires: smoother ride, easier handling, better traction and firmer road holding. And, they add up to a lot of comfort and safety. Invest in better driving. Stop in and have a set of Michelin "X" radials installed today.

-8 p.m. Colorado varsity boys' basketball vs. Ballinger, here.

Coach Linda Mathis' Colorado seventh grade girls' A basketball squad raced past Coahoma 32-9 Thursday afternoon in a game played in Coahoma.

Anita Silva led the Wolves with 18 points and Christina Aguilar chipped in with eight. Sherri Morris and Debbie Alvarez had two points each and Norma Rodriguez and Teresa Garcia had one each.

The Colorado seventh grade girls' B team dropped a 10-6 decision to Coahoma Thursday. Vangie Martinez, Yvonne Molina and Amanda Ornelas had two points each for the Wolves.

xxx  
The Colorado seventh grade boys' A&B squads dropped two contests to Coahoma in Wolf Gym Thursday.

The seventh grade A boys dropped a 37-30 decision to the Bulldogs despite 19 points by Doug Chitsey. Colorado and Coahoma were locked into a 13-13 tie at halftime.

Colorado's seventh grade B boys lost a close 16-14 decision to Coahoma. David Crow led the Wolves with six points. The halftime score was 7-6 in favor of the Bulldogs.

xxx  
Teresa Browne scored eight points for the Westbrook Junior High girls against Ira Thursday night in Ira and the Wildcats took a 21-18 victory.

Westbrook trailed 10-9 at halftime but pulled into a one point 13-12 lead at the end of the

## Archers To Meet Feb. 6

A film, "The Oldest Game," will be presented by the Colorado High School Archery Club at 6 p.m. Wednesday in room 118 of the high school.

The film will concern the hunting of whitetail deer with a bow and arrow as it is done in the forests of Pennsylvania.

The program is free and everyone is invited.

Those having archery equipment may bring it along as there will be a practice session at the school after the program.

## Lone Wolf Electric Co-op Salutes

**Deanie Elliott**  
Few Can Match Her Dedication  
To Rural Electrification

Few people in Texas have been more dedicated to rural electrification than Lone Wolf Electric Cooperative's office manager, May M. "Deanie" Elliott. Deanie started her career in rural electrification on March 9, 1948 when she went to work for Lone Wolf Electric Cooperative as a cashier. From the cashier post she was promoted to assistant bookkeeper, then to bookkeeper, and she became the system's office manager three years ago.

What has been the greatest change witnessed by Deanie during her more than 30 years of service to Lone Wolf EC and its members?

"The greatest change has to be in the number of members we serve and the more complex system necessary to dependably serve these members," says Deanie. "Also, I remember the day, back in 1949, when it was announced that our monthly billings for electric service exceeded the \$5,000 mark. Now, because of constant system growth, progress, and the fact that electricity costs more than ever before, our monthly billing nears the \$120,000 mark."

Deanie is a member of the First Assembly of God of Colorado City. She and her husband, Wesley, a painting contractor, reside in the Colorado City area.

A special honor was paid Deanie in April, 1978, when she was recognized for her service to rural electrification by the Texas Electric Cooperatives Accounting Association. The honor was bestowed by the Association during its annual meeting in Galveston.

All told, Lone Wolf EC extends a sincere thanks to Deanie Elliott for the many years of past service and those many more to come.

Please watch the Record in future months for information about other employees of Lone Wolf Electric Cooperative.
