**MORRISON LOOKS OVER MATERIAL SATURDAY; SCHEDULE HARD**  
(Special To The Journal)  
DALLAS, Sept. 9.—Head Coach Morrison of Southern Methodist University, will take his first look at the 1927 Mustang possibilities Saturday morning when he begins training camp opens.

Morrison arrived at Mustang training quarters last Friday and expressed himself as highly pleased with the general layout of Armstrong field and Ownby stadium, as the result of improvement work done during the last two years.

**Schedule Not Easy**  
"We've got a schedule ahead of us this year that's no easy thing," Morrison said, "and everybody realizes it's going to take a lot of work to build a team that can go over the top."

If the men put heart into training however, and work with a determination to make good, there is no reason why we shouldn't go over as we did last year."

Morrison expects at least forty men to report, and it is believed the number will include at least seven letter men. Southwest conference rules permit training to begin September 13 and 25. It will have lost no time. The men will be issued full equipment Friday afternoon, and the first actual training work will start at 10 a. m. Saturday.

Russell McIntosh, line coach, who was severely injured in an automobile accident near Texarkana, while returning from a vacation several weeks ago, is reported much improved. He will be perfectly able to take part in the first instructions to the football squad.

Coach Morrison said, and in first class condition by the date of the opening game of the Mustang schedule with the Denton Teachers college, September 24.

## DEMPSEY POPS QUESTIONS TO SPORT SCRIBES

### TUNNEY FOREGOES HIS BOXING TODAY WHILE HIS EYE HEALS

(By Associated Press)  
LINCOLN FIELDS, CHICAGO, Ill., Sept. 9.—The novelty of a scheduled daily interview with Jack Dempsey, after the White House manner, proved a bit too bizarre in the initial meeting, even to such veterans of the interview as Dempsey and the sports writers.

The half hour conference yesterday made both sides better acquainted, but as Dempsey himself asked most of the questions, the newspapersmen filed out with little more than the statement that Dempsey's former champion expected to take full advantage of the accidental cut over Gene Tunney's eye when they meet at Soldier field.

**Delighted With Workout**  
Both Dempsey and Manager Flynn were delighted with the results of the first workout in private, with only newspapersmen and a few notables, including George Ade, clustered around the ring.

Dr. Joseph Russell, representing the Illinois state athletic commission, confirmed Dempsey's own view of his condition, pronouncing the former champion physically perfect. Jack weighed 198 when he got on the scales for the doctor, about four pounds more than he plans to weigh September 22.

## Champ Takes Third Day In Rest Period

LARGE VILLA, Ill., Sept. 9 (AP)—Gene Tunney decided today that he would not box after all and would give his injured eye at least another day to heal properly.

The respite marked the third day the heavyweight champion has rested since Chuck Wiggins, Indianapolis light heavyweight opened a cut in Gene's eye lid in a sparring session Tuesday. Tunney would not say when he planned to put on the 16 ounce training gloves again, although it appeared probable that workouts would be resumed tomorrow.

Having no worries over his physical condition, Gene is not disturbed by the break in training and scoffs at Jack Dempsey's intention of playing for the injured eye in their return battle at Soldier field September 22.

## RUPTURE

**Expert & Authority**  
**HERE WITH THE Famous Huston Truss**

Dr. Huston, of the Huston Truss Co., New York City, will personally be at the Lubbock Hotel, Lubbock, Saturday, only September 10th, 9 a. m. to 6 p. m. and offers for the first time to the people of this section the internationally known Huston Truss. This justly famous Truss is universally considered the one perfect and satisfactory Truss for the relief of all kinds of reducible rupture, producing results without the use of surgical operations or medical treatment of any kind. Instantaneous relief is apparent the moment Truss is placed in position—contraction of the opening is manifest in a few days and the rupture soon disappears permanently in the average case.

## SLEEP IN IT—BATHE IN IT

No leg straps, elastic webbing or bulky pads are used in its construction. Nothing to wear out, clean and sanitary; moisture proof and will not chafe. Can be put on or removed in five seconds. No other instrument has ever met these demands with such universal endorsement. Guaranteed not to break.

This Truss is not sold by mail as each part is selected, assembled and fitted by Dr. Huston especially for each individual case. No guess work, but a scientific fitting of a scientific Truss.

It cannot be obtained in any other way. The pad on this Truss will hold any rupture and will not slip regardless of position or body strain of the subject.

Warning—You are cautioned against elastic webbing, or the old style Truss with under leg straps, such Trusses press in the wrong place, often causing strangulation and death. OVER THIRTY-FIVE YEARS OF SCIENTIFIC STUDY OF RUPTURE WARRANTS THIS STATEMENT.

Do not miss this opportunity to have this famous truss made for you—it may not come again. No charge for advice or demonstration. Remember the date and Hotel—Ask for Dr. Huston. Permanent address: Huston Truss Co., 25 Church Street, New York, N. Y.

## Roberts Selects Kane And Hill As Series Officials

(By Associated Press)  
DALLAS, Sept. 9.—President Doak Roberts of the Texas league announced Friday that Harry Kane and Hunter Hill were the Texas league umpires chosen to officiate for the Texas organization in the Elkie baseball series between Wichita Falls and the winner of the Southern association pennant.

The two umpires have been instructed to go to Wichita Falls after Sunday and officiate in a six game series in West Texas between the Spudders and an all-star team headed by Jim Alloway of Beaumont.

President Roberts also announced Umpires Tom Erwin and Carson to be the Texas league officials in the Waco-Tulsa series. Umpire George Barr of the Texas league whose home is near Tulsa has been suggested by Roberts to the Western league officials as one to represent that organization in the series.

## Held Takes Lead In Western Open Golf Tournament

(By Associated Press)  
CHICAGO, Sept. 9.—Eddie Held, St. Louis amateur, who has to his record the first national public links championship and the trans-Mississippi crown, today took the lead in the western open golf championship at Olympia fields by setting a course record of 63, three under par, for the number 1 course.

This spectacular performance, including an eagle and five birdies, with only four holes in one over par, gave the St. Louisian a total of 143 or just half of the record score of 286 for the national open held by Chick Evans.

John Brodemus, San Antonio, Texas, lacked only one stroke of equalling Held's record score. He cut two strokes off par with a 74 but he had an 85 on the fourth course yesterday, and was on the ragged edge of remaining in the tournament, tomorrow with 155.

## TECH GRID MEN SLOWLY DRIFT BACK TO CAMP

### WHITE TO RETURN AND WOOLDRIDGE GETS UNIFORM TODAY

The Matador coaches were all smiles today shortly before noon with the news that 'Dope' White will be here for training with the Tech crew Monday morning. Then to top that off here came Floyd 'Woody' Wooldridge, quarter-back of the 1925-26 club and who was voted the most valuable man to the Matador machine of last season.

Wooldridge was signed into the camp and will appear at this afternoon workout. 'Doc' Harris, one of Freeland's linemen, also busted into the recruits this morning. It was all smiles among Ewing Y. Freeland, Grady Higginbotham, and Vic Payne.

Numerous other recruits were added to the list of Matador grid-ers this morning with the arrival of 'Duck' Marr, who was a teammate to 'Al' Jennings on the John Tarleton Plowboys during the 1925 season. Marr's position is quarter-back and for two seasons successfully piloted the John Tarleton machine through the grid contests.

Jacques Hardy, brilliant spot of the Matador football crew who has been acclaimed by Paul Tyson, coach of the Waco high school club as the best high school quarter-back in the state has joined the Matadors training and looks good to the Matador trio.

Other recruits that were issued uniforms today were: Jack Maddox, reserve material; J. M. Schumann, Ft. Worth; F. A. Spann, Archer City; Carl Stultz, Dallas; Thornton Larkin, Archer City; C. L. Douglas and Tom Barber, both of Athens. The total number now listed in the Matador camp is sixty-two. Percy Walker, 'Red' Smith, Westerfelt, and Calloway are the remaining four yet to report that are expected by Coach Freeland.

## Dempsey Called Off Training To Appear In Court

(By Associated Press)  
CHICAGO, Sept. 9.—Jack Dempsey knocked off training today to appear in court where arguments were begun on a petition to restrain him from boxing Gene Tunney for the heavyweight championship September 22.

An extra detail of deputy sheriffs was summoned hurriedly to control the crowd which quickly gathered when it became known that the former champion was going to make a personal appearance in the county building.

**Smiles Broadly**  
Dempsey smiled broadly during the arguments when Ralph Rosen, attorney for E. E. Clements, who seeks to halt the Soldier Field battle, explained that Dempsey could not be replaced after failing to complete a contract to box Harry Willis "because of the boxer's unique ability."

As Dempsey's automobile swept through the streets, the throngs recognized him and began cheering and following along. When the for-

mer champion got to the county building, 5,000 persons were in his wake.

In the court room Dempsey occupied a chair in the unused jury box while Judge Otto Kerner read over 45 pages of the appeal for an injunction and the court room full of men and women craned their necks to see him.

**Uzudun Fights To Draw With Heaney**  
NEW YORK, Sept. 9 (AP)—The first weight elimination bout leading to Tex Rickard's winter tournament in New York has failed to establish either Paulino Uzudun or Tom Heaney as a really serious contender. The Basque wood chop-

per and the champion of New Zealand battled 15 rounds to a draw last night at Madison Square Garden. It was their second meeting, Paulino having been awarded a more or less unpopular decision in the first.

Credit, as granted by modern business houses, is intended as a convenient method of settling for your purchases on a monthly basis. ### Excavation Soon Will Start On Sanitarium Plans

Excavation for the construction of a \$100,000 addition to the Lubbock sanitarium building will start within the next few days. It was announced by the officials of the institution, after the awarding of a contract to the Underhill Construction company of Big Spring last night. The Big Spring company, lowest bidder for the job, contracted to construct the wing for \$78,475.

The necessary enlargement of the building plant to meet requirements of the increased space will necessitate the immediate construction of the left wing before cold weather arrives. It was pointed out this morning.

The highest bid on the job was from J. M. Morgan, also of Big Spring, who bid \$87,312.

The Underhill Company built the Herring Hotel in Amarillo and other large buildings in West Texas.

Contract for the electrical work was let to the American Automatic Appliance company, of Amarillo, for a bid of \$4,000. The heating and plumbing contract was not let but it is understood that a local concern will do the work.

The total cost of the building with fixtures and equipment will be more than \$125,000.

### Problem-Project Teaching Method Talked By Hosc

In the summation of his lectures on the problem-project method of teaching, Dr. John T. Hosc pointed out some potent factors governing successful application of presenting problems to students. This morning at 9:30 in the college gymnasium.

"One important factor in the relationship of teacher and student is the right social environment," Doctor Hosc said. "The teacher should be a human being; he natural, he himself. The successful teacher should be able to promote a congenial atmosphere among the students of his class."

"There is no object which is not

the product of human thought and every product of human thought can be presented to the class through the project method. Therefore, every subject can be taught by this new plan," he said.

The two ways to proceed in the solution of any problem, as mentioned by Doctor Hosc, are to have the student solve it by other people's method, and to have him solve it himself.

The afternoon's program closed, the institute, Doctor Hosc delivered his final address, followed by Dr. Paul W. Horn, president of Texas Tech, who spoke on "Teaching of Civics."

After the adoption of resolutions the annual institute closed with a business session.

### Addition Ordered For Negro School

Preparing for an enrollment of about 100 pupils, trustees of the Lubbock public schools have ordered the construction of a 25 by 30 foot room as an addition to Dunbar negro school, to be ready for use when the 1927-28 schedule opens Monday.

Last year more than 125 negro pupils, classified in the various grades, crowded into the one room of the Dunbar school so that it became necessary to conduct classes in a church building near the close of the term to accommodate an increased enrollment.

You know, folks, we got lots of real, genuine fun out of watching the hundreds of our little friends get free souvenirs.

It was a wonderful sight to behold their bright, intelligent faces—see the smiles as they met their former playmates—and how they enjoyed our little tokens.

For unselfish reasons we enjoyed the event more than they did. After all there's a great deal of satisfaction in making for a happy event. For more fun than making sales.

Naturally, we have to make sales in order to be able to do anything worthy.

**WALL STREET TRADING**

NEW YORK, Sept. 9 (AP)—Opening price changes in today's stock market were narrow and irregular. General Motors, U. S. Steel common, Radio Corporation, Hudson Motors and a number of other standard industrials opened unchanged. Commercial Solvents opened 2 points higher. Several blocks of 1,000 to 3,000 shares changed hands in the first few minutes of trading. Selling pressure increased as the session progressed, despite the efforts of pools to maintain bullish enthusiasm by bidding up several specialties. Wright Aeronautical fell back 2 points, presumably on liquidation inspired by the growing agitation against trans-oceanic flights and General Railway signal showed an early decline of 3 1/2 points. Such recent favorites as U. S. Steel common, American Can, General Electric, General Motors and Postum sold down a point or more below yesterday's final quotations. On the other hand, Mackay companies jumped 4 points and Simmons company, Mullins Body and Rossia Insurance were lifted to new peak prices. Foreign exchanges opened steady, with demand sterling around 24.85 15-16 and French francs just below 2 1/2 cents.

#### Fort To Preach At Wolffarth Sunday

Rev. G. R. Fort, circuit pastor of the First Methodist church, has re-

turned from a visit to Arkansas, and announces that he will preach in Wolffarth Sunday morning at 11 o'clock. At the same hour, in the Slide community, Rev. Ed Phillips of Siloam Springs, Ark., will open

week's evangelistic campaign, Mr. Fort stated.  
Mr. Fort was accompanied to Arkansas by his daughter, Miss Anabel Fort, and they visited friends and relatives in Harrison and Lincoln. The pastor reports that cotton, all along his route from Oklahoma City to Harrison, is practically a total loss, due to the depredations of worms.

#### Hale Exhibit For Plains Fair Here Being Assembled

Maury Hopkins, secretary of the Plainview Board of City Development is working hard on the agricultural exhibit that will represent Hale county at the Panhandle South Plains Fair here Sept. 27, 28, 29, 30, and Oct. 1.

A five dollar prize is being offered for the biggest and best pumpkin that is brought to the office of the Board of City Development at Plainview, before Sept. 25 and judging from the number of fine pumpkins grown in Hale county and the unusual interest taken in exhibits and fairs by Hale county folks, it is likely that the office will be fairly well filled with prize-winning pumpkins within the next few days.

An exhibit will be shipped to Amarillo for the Tri-State Exposition which opens Sunday. The exhibit that will be shown here will be shipped out to Dallas for the State fair after the close of the fair here.

Hale county has won a lion's share of the blue ribbons at state and regional fairs in the past several years and crops in the county this year despite exceptional dry weather show promise of taking off a good portion of the blue laurels this fall.

North American continent and Asia. After that they must negotiate a 1,440 mile flight to Honolulu and another of 2,490 miles to San Francisco.

#### Ask Flight Be Stopped

Fear that the fliers would fail to survive in the dangerous flight from Tokyo to Sand Island prompted an appeal from friends to the navy department to halt the flight. Mrs. Schlee, wife of the co-pilot aboard the Pride of Detroit, at Detroit said she felt the two men would be flying into the face of certain death to attempt this hop of their journey.

Meanwhile no word came to light in the apprehension of the fate of the Old Glory, bearing Lloyd Berland, James D. Hill and their passenger, Philip A. Payne, managing editor of the New York Daily Mirror, or of the Sir John Carling, bearing the Canadian fliers, Captain Terry Tully and Lieutenant James Medall.

#### Toll Now Twenty

Should none of these brave adventurers be found, the death toll taken by long distance ocean flights since last May will have mounted to twenty, in addition to seven persons killed since last September in

preparation for such flights. Liners traversing the north Atlantic route were still combing the sea at last reports for some trace of Old Glory or of the rubber life-boat with which the three men aboard her were equipped. The keen anxiety over their fate lent extra interest to the test of a collapsible boat at Toms river, N. J., by Boatswain Mate Alva F. Starr, who failed in an attempt to inflate and launch the rubber contrivance after a parachute drop of 1,500 feet from the airship J-3. The failure was attributed to a faulty valve.

# DOG SERGEANT AT HUNTSVILLE GETS HIS MAN

## AUTHEN HASN'T LOST PRISONER DURING 25 YEARS OF SERVICE

(By Associated Press)  
 HUNTSVILLE, Sept. 9.—Twenty years ago as an employee of the prison system and never lost sight of the record of Tom Cauthen, dog-sergeant of the state penitentiary here.

Cauthen has had dogs under his command all his life, especially the wrinkled face canines which make him so successful as a dog handler. He is one of the most successful handlers of "man-dogs" to follow a pack of hounds after a convict for the Texas system.

Biren is Bounded  
 When a convict escapes the huge whistle is started to warn all the guards that a prisoner is being chased. Sergeant Cauthen immediately straps on his large pistol and his dog pen and unlashes the "dog-sergeant" who are known as "Boss Tom," "Axe Man" and "Yellow Dog."

"Besides the human race," Sergeant Cauthen said, "I love my dogs first, and then my horses, because they are the best and truest friends that a man has."

and the incentives to keep the prisoners from trying to escape as they know that the swift blood-hounds will soon track them down.

Captures Many in Break  
 During the big Ferguson farm break in June when 35 convicts cut out a hole in the building and escaped. "Boss Tom" with his three faithful hounds captured more of the fleeing prisoners than any other one man. He ran down and caught five. Among them were Ed Crowder, serving 35 years from Houston, and Alvin Ireland who last year with five other comrades shot his way out of the Ferguson farm, killing R. J. Rader, a guard.

Speaking of his most dangerous race Sergeant Cauthen related, "I have chased only one man in my life that I knew had a gun, and that was some years ago. The man escaped early one morning and I had been on his track about two hours when I heard a gun fired some place ahead of me. In about two minutes I came upon my dead dog lying on the ground shot to death. I had no sooner mounted my horse when I heard another shot, and going on ahead I saw that the man had killed another one of my hounds. I knew I was getting pretty close upon the man because the way my dogs were running, so after giving chase about five minutes I came upon the man sitting up in a tree with a double-barrel shot gun in his lap. I called the dogs and the prisoner came down. I searched him and found a pocket full of ammunition for the shot gun and a six shooter loaded all around. I have often wondered why that man did not shoot me when I rode up."

## By Gilbert Patten

Chained in his tracks by terror that caused his face to blanch and a sickened, helpless feeling to benumb him, Watties stonily watched the lion that appeared to be charging at him. He couldn't flee, even though he felt that in another moment the appalling beast would leap upon him. "Look out!" shouted one of the pursuing men. Then the lion galloped past Lizard.

Almost unable to realize that he hadn't been touched, Watties turned and stared after the lion. "He never touched me!" he gulped. "I believe he's after Duke!"

Glancing backward over his shoulder, Saunders saw the lion come round the corner. The big boy's heart leaped into his mouth, and he tore along the street.

"Help! help!" bellowed Saunders, straining every nerve in flight. His wild cries startled the few early risers who were astir in that part of the town. What they saw made them take to their heels and seek cover. All but one. Hesitating barely an instant, Jack Lockwill snatched a whip from an abandoned poultry wagon, and dashed into the middle of the street. (To Be Continued)

**Flog-Rule**  
 The courts of the south are moving in the right direction toward the breakup of this flog-rule we've been hearing so much about. Stiff sentences are the remedy.

**THE PLAINSMAN**  
 Says:

What are you going to do about the fair booster trips? There can be but one answer to that question if you are awake to the possibilities attendant thereto. That the fair is given great stimulus over the trade territory through the media of these trips has been proved in the past. The fair needs them but that is but one angle of the question. The other, and probably more important phase, is that Lubbock needs to get in closer touch with her neighbors, and these annual visiting jaunts are by far the best way to bring about friendliness between our city and the others in this immediate vicinity.

Look at the question from a personal point of view. Suppose you had a neighbor whom you had been favoring for a number of years. You called upon him, at his home, intermittently, throughout each year. Wouldn't you expect him to return the call at least once throughout the twelve months, even though he might be terribly busy with his own personal affairs? Of course you would. If he didn't, you'd be offended, and rightfully so. You'd feel that he didn't appreciate you as a friend, a patron and a neighbor and before long you'd likely turn your attention and your friendship toward some other who showed that he appreciated you and your efforts to help him. The same thing holds good with municipalities and communities.

Plan to go on at least one of the fair booster trips. To do so may mean the loss of one day from your business but it will be a day well spent. You'll have an opportunity to add to your list of friends and acquaintances who, even though they reside in another place, are trying to make a home for themselves and their families—trying to get ahead in the world—and who are trying to do their part in building this great new empire of commerce, just as you are. The humbug hermit has never been noted for his progress and a community hermit will never find itself in the same predicament.

Some "bedrooms" may have originated from the old custom that a newly married man waits upon his wife but it is such in the case the present situation merely proves that the first shall be last and the last shall be first.

A bill providing for the selection of county superintendents in this manner, is to be brought before the Texas legislature in the coming session. Speak or write to Senator W. H. Hodges and Representative Emmett L. Whitaker in behalf of the plan. Texas needs it.

That man on Avenue Q, whose boss only let him off a week this summer is philosophic. He says half a loaf is better than no vacation.

Nearly all of the cuts made in the paved streets when the gas mains were laid have been repaired. The Plainsmen wishes to call the attention of gas company officials to the fact that many Lubbock people have to traverse unpaved streets and that most of those have been left in a terrible condition. Bumping over poorly filled ditches is not only hard on cars but is also hard on tempers. It seems only fair to think that streets should be repaired in one-tenth the time it took to tear them up.

Business men—the hard-headed type—evidently are not gentlemen. A recent survey made in the interests of efficiency in the office, indicates that the majority of the captains of industry questioned consider blondes "too temperamental, too independent, inclined to keep irregular hours, tactless bluffers and inefficient." All that may be so but don't they make wonderful secretaries?

You can tell the powers that be your story about liking coffee with cream and sugar. I'll tell them that that slation of coffee with cream is found as nauseating.

We'll get a decision on our troubles. Maybe they'll rule that the world will have to eat lettuce with mayonnaise and that all coffee should be taken black. We'll each have scored a point.

Thus the world and everything in it eventually will be regulated. And the only books we'll have left to read will be the tome of edicts by the censor.

Well, tell you what to print in that paper of yours!

That, according to the testimony was what one of the Soper-ton, G. Rogers told H. M. Flanders, editor of the Soper-ton News. The editor was flogged but evidently he can print what he pleases hereafter, just as before, for one of the men was sentenced to three to five years on a charge of assault with intent to murder.

The courts of the south are moving in the right direction toward the breakup of this flog-rule we've been hearing so much about. Stiff sentences are the remedy.

**Al And Jim Are Sure To Get The Votes Of The Brass Founders, Anyway, Says Dutcher After Ballot Survey**

**By RODNEY DUTCHER**  
 NEA Service Writer  
 WASHINGTON, Sept. 9.—If the Democratic presidential nomination goes to either Senator James A. Reed or Governor Alfred E. Smith, the 3128 sentiments of the brass industry will be easy to predict.

For if either of these gents comes to live in the White House there is going to be a demand for a large supply of such brass receptacles as are seen most often in male smoking rooms and male barber shops.

Reed and Smith are two rugged, fighting big-boys. One of them peddles fish and newspapers on city streets in his youth and the other hoed corn and pulled weeds on a farm.

This is no case for astonishment to find them today the two foremost exponents in national politics of the many art of expectation. Each has an enviable private fortune and a reputation for salubrious achievement.

Some impulsive persons will promptly suggest that here lies an excellent method of choosing a presidential candidate, which otherwise is going to be a messy and heart-breaking task. Let Reed and Smith shoot it out, and may the best man win.

That quite aside from the fact that William G. McAdoo is altogether too dry even to have any ammunition and that Governor Ritchie's ability is totally unknown, there is another objection to this plan.

**THE FUTURE CRIMINAL:**  
 The News regrets to say that there are some parents in Portales who are due for many heartaches and disappointments, and who will in a few years have to face the criminal courts as the parents of the defendants in serious criminal actions.

There are some children ranging the streets of Portales who are getting a criminal education almost equal to that of the street wails of Chicago and New York. Boys under ten and twelve years of age have developed a criminal tendency that will soon lead them to a life behind the prison bars.

Parents are altogether too indifferent about their children. Many parents we find leave their children at home by themselves for a half day and sometimes days, and they may stay at home and they may not, but at least they are liable to be thrown into company with some folks whom you would be shocked to know that they have been associating with.

Recent years have brought the safety movement to a high state of publicity, but its efficiency has been somewhat doubted as accidents and accidental deaths continue to mount in number.

**Veterans Of Oil Industry To Get Honors At Meet**  
 (By Associated Press)  
 TULSA, Okla., Sept. 9.—Thirty seven veterans of the oil industry, pioneers in the great enterprise of finding the "black liquid gold," have been nominated to receive the recognition of the great petroleum industry, when it gathers here during the fourth International Petroleum exposition from September 24 to October 1.

**Fought Big Odds**  
 All of these thirty seven pioneers who fought against tremendous odds to wrest the precious fluid from the bosom of the earth and establish an industry which has made possible many modern comforts have followed the thrilling and fascinating "game" for thirty years or more. And some have reached riches, while to others the fate has left nothing but memories.

 LAMESA, Sept. 9 (AP)—An 85,000 pounds of calcium arsenate has been distributed to Dav county farmers to fight boll weevil. The poison is distributed through farm owners and saves them at \$1,000 on every 30,000 pounds. Dawson county farm bureau station is the distributor.
