Two-Year Aid Bill Passed By Senate

WASHINGTON (AP)—The Senate today voted for a two-year, two-billion dollar program of foreign development loans to be financed by direct appropriations from Congress.

It was a compromise, offered by the Democratic and Republican leaders, of a hot issue that had developed between the Eisenhower administration and influential members of the Senate Foreign Relations Committee.

The Senate accepted it by a voice vote.

While the total amount is greater than President Eisenhower had advocated, the Democrats yielded to his view that the funds should be handled as appropriations, subject to congressional review.

Sen. J. William Fulbright (D-Ark), chairman of the Foreign Relations Committee, and others had wanted a five-year, five-billion-dollar program to be financed by simply authorizing the foreign aid administration to borrow the money from the Treasury.

Eisenhower had originally proposed a one-year, 700-million-dollar loan program, but had indicated he would go along with a larger program based on direct appropriations.

Sen. Everett M. Dirksen of Illinois, the Republican leader, had presented the administration viewpoint in contending that the borrowing plan amounted to "backdoor raids" on the Treasury.

The compromise washed out a scrap which saw the administration win a 48-42 initial vote Wednesday night.

Sen. Francis Case (R-SD) raised a point of order that an authorization for direct Treasury borrowing had the effect of appropriating money in a legislative bill. He contended that was improper in the foreign aid bill under consideration.

Case ran into stiff opposition from other senators who contended that if his point were upheld, it could be raised also against housing, rural electrification, farm subsidy and other programs also financed without direct appropriations.

But backers of Eisenhower — supported by Democratic opponents of foreign aid spending — defeated a motion to kill the point of order when Case appealed a parliamentary ruling against him.

The Senate votes today directly on the point Case raised. If sustained, it would scuttle the five-year, five-billion-dollar program of development loans the committee proposed to provide direct from the Treasury.

Chairman J. William Fulbright (D-Ark) and other members of the committee blocked a vote on the point Wednesday night after losing on the preliminary effort to kill it. They wanted more time to muster strength.

The fight brought into sharp focus the issue between the Democratic-controlled Congress and the Eisenhower administration over what Republican leader Everett M. Dirksen of Illinois calls "raids on the Treasury" and "backdoor financing."

Lake Thomas Level Hiked By 1½ Feet

More than three billion gallons of water has already rolled into Lake J. B. Thomas as a result of heavy rains in the lake's watershed since Tuesday night.

The Bull Creek channel, which was still feeding the lake this morning at a rapid pace, was putting water in the lake at the rate of more than half an inch an hour.

The lake's elevation shortly before noon today was 2,252.96, or about five feet below the service spillway level, and it was still rising.

During a period of five and one-half hours this morning the lake gained .28 of foot, while it had gained more than half a foot from 11 p.m. yesterday to 7 a.m. today. From 7 a.m. yesterday to 11 p.m. there was a gain of .73 of a foot.

Total gain of the lake from the rains so far was 1.54, or about 10,000 to 11,000 acre-feet.

Jack Dunn, pumper at the Snyder pump station at the lake, said the lake began to get water from the Colorado River yesterday first, but it ran down rapidly, with the Bull Creek channel beginning to rise as the river slowed its pace.

The biggest one-hour rise in the lake recorded was .9 of a foot between 7:30 and 8:30 a.m. today. Readings were not taken by the hour between 11 p.m. yesterday and 7 a.m. today, however. Between 10:30 and 11:30 a.m. today there was a rise of .5 of a foot.

Deep Creek ran high most of the day yesterday, covering the Twenty-eighth Street low-water bridge for several hours and running across one end of the Twenty-sixth Street bridge for about an hour.

The creek today had only a small stream.

The Twenty-eighth Street bridge, open only a few weeks, was damaged only slightly. Roy Dunlap, city manager, said water got under a curb at one point but that it can be repaired easily. He estimated total damage to the bridge at $30.

Showers continued intermittently in the Snyder area yesterday and today, with some areas getting an inch or more since yesterday.

Total rainfall for the two days, up to 7:30 a.m. today, was 2.36 in Snyder. Another shower fell this morning after that reading.

Some parts of this area have had as much as six inches of rain during the two days, with the heavier rainfall coming in the northern parts of Scurry County, while there was more than seven inches in one part of Borden County.

High water in the Midland-Odessa area blocked U. S. Highway 80 in three places yesterday. The highway was under water a mile east of Midland, just west of Midland and a half a mile east of Odessa.

Rainfall reports included 3.8 in north Mitchell County, 2.5 in north Tom Green County, 1.7 at Ballinger, 1.4 at Sterling City, 1.18 at Colorado City, 1.1 at Brady, 1.02 at Christoval, an inch at Winters, Miles and Blackwell, .81 at Robert Lee, .5 at Rowena and .09 to .5 at San Angelo.

WEATHER

SNYDER TEMPERATURES: High Wednesday, 73 degrees; low, 66 degrees; reading at 7:30 a.m. today, 70 degrees; precipitation, .79.

East Texas: Partly cloudy through Friday with scattered thundershowers mainly in south. No important temperature changes.

South Central Texas: Partly cloudy through Friday with scattered thundershowers mainly in north. No important changes.

North Central Texas: Partly cloudy through Friday with widely scattered showers and thundershowers mainly in south. No important temperature changes.

Northwest Texas: Partly cloudy through Friday with scattered showers and a few thunderstorms. A little warmer today.

Southwest Texas: Partly cloudy through Friday with scattered thunderstorms. No important temperature changes.

Houston Prepares Integration Plan

HOUSTON, Tex. (AP) — Plans for integration of what is now the nation's largest segregated school system will be ready for review by a federal judge next week, school officials have indicated.

U.S. Dist. Judge Ben C. Connally ordered the Houston School Board Wednesday to report to him by Aug. 17 on steps taken to comply with a 1957 integration order.

The 1957 ruling did not specify a date for integration, saying such action should be "with all deliberate speed." Parents of two Negro children asked Connally May 20 to reopen the case and set a deadline.

Dr. John W. McFarland, superintendent of schools, said Connally's order represents "nothing new or alarming or unexpected."

"The board attorney and I will have a conference about the matter next week," McFarland said. "Then he will submit to Judge Connally the report that was asked for."

The Houston district has 170,000 pupils.

The board attorney, Joe Reynolds, declined comment on what sort of plan will be presented to Connally. Reynolds prepared the latest of three desegregation plans which have been drawn up.

The Reynolds plan calls for a referendum, required by state law, on a proposed liberal transfer policy under which no Negro child would be forced to attend a segregated school and no white child would be required to attend an integrated school.

Desegregation would begin on an area basis.

The board has agreed to call a special election on the issue, provided 49,961 qualified voters sign petitions asking for the election.

Petitions have been circulated since June 8, but have been signed by only 784 persons, McFarland said.

Should the district integrate without voter approval, state law requires suspension of state aid.

The May 20 request for the case to be reopened came from Marion Williams, father of Beneva Williams, and Mrs. Mary Alice Benjamin, mother of Delores Ross.

Building Has Second Best Half Year

Snyder had its third biggest half year in building this year.

During the first half of 1959, cost estimates on building permits issued by the city planning and zoning department totaled $1,552,270.

That was exceeded by last year's $1,643,955, and by the record 1950, which had $2,057,958 during the first six months.

June's $416,985 was the second highest ever recorded by the city for that month. Highest was the $701,410 last June.

Leading the field for June was school building. Two permits for addition and improvement were issued to the Snyder schools for a total of $214,335. Those included the remodeling of the Travis Junior High School gymnasium and the addition to the school administration building.

Next in line was residential building. There were only nine permits for new residences during the month, but cost estimates totaled $97,500 for a high average of more than $10,000 per residence.

Six permits were issued for additions to residences for a total of $4,450.

There were four permits for new business buildings, totaling $96,200, as a big year in business construction continued. Another permit for a motel swimming pool for $2,000.

Additions to churches accounted for the other $2,500 in two permits.

The city so far this year has issued a total of 168 building permits. Of those, 86 were for new residences.

Strikes Cut Oil Purchases

TULSA (AP)—The Indiana Oil Purchasing Co. has halted all crude oil purchases in southern Arkansas and northern Louisiana and reduced buying in the Louisiana-Texas coastal region and the Scurry County, Tex., area.

President R. L. Pielsticker said the action was necessary because of strikes at American Oil Co. refineries at El Dorado, Ark., and Texas City.

A purchasing shutdown in fields supplying the El Dorado plant was necessary because of a lack of storage space there, Pielsticker said. Purchases in the area normally average between 36,000 and 38,000 barrels daily, about 80 per cent coming from Arkansas.

Two Prisoners Flee State Farm Today

HUNTSVILLE (AP)—Two prisoners fled the Eastland state prison farm early today.

A state police alert identified them as Harold Lisco, 21, of Channelview and David Height, 21, of San Antonio.

Abducted Girl Found Alive

SPRINGDALE, Ark. (AP) — A 6-year-old girl, abducted a block from her home as she was returning from a grocery store, was found alive by police early today.

The child, Barbara Ann Wentz, was crouched frightened on the floor board of a car driven by a man whom Sheriff Hollis Spencer identified as Vernon Estep, a 36-year-old truck driver of nearby Rogers, Ark.

Barbara was unharmed except for bruises on her neck where she apparently was choked, Spencer said. She was examined at a hospital and then taken home.

Works On His Speech

WASHINGTON (AP) — Soviet Deputy Premier Frol R. Kozlov suddenly called off a scheduled trip to Maryland this morning in order to devote his time to a major address to be delivered later in the day.

Kozlov's decision came in the wake of sharp exchanges with administration leaders Wednesday which apparently jolted the Soviet official.

Kozlov and his party had planned to tour the Agriculture Department's experimental farm at nearby Beltsville in the morning in advance of his appearance before the National Press Club.

Cancellation of the trip seemed to emphasize the importance Kozlov attached to the speech.

There appeared to be no other explanation for the sudden change in program. Automobiles were lined up outside the Soviet Embassy ready to take the party to Beltsville, but Kozlov made no appearance and American sources on hand said he had called off the trip.

Kozlov engaged in a sharp duel of words with Vice President Richard M. Nixon on a variety of subjects.

It had been considered possible that if Kozlov had something new to offer the United States on outstanding issues, such as Berlin, he might not take the time to visit Beltsville. Until this morning, however, there had been no hint that he intended to do so.

In fact, the results of Kozlov's talks with administration leaders had created the impression that there would be nothing offered.

Well-informed sources reported that while Kozlov is pushing the theme of friendly coexistence during his visit, there has been a notable upsurge in the Soviet press of propaganda bearing a distinctly anti-American zone.

This has led to a conclusion by some experts that there would be no major Soviet offer and that the Soviet public was being prepared for the possible failure of East-West negotiations.

Kozlov's hour-long speech and press conference was slated for nationwide telecast on National Broadcasting Co. NBC-TV at 12 noon, Eastern Standard Time.

He had no further appointments for formal talks with U.S. leaders during his 16-day U.S. tour.

Kozlov talked Wednesday with President Eisenhower, Nixon, Secretary of State Christian A. Herter and leading senators. The outcome: a standoff.

Authoriative sources reported that in his 70-minute White House conference, and in an hour-long session with Herter, Kozlov only repeated the Soviets' familiar theme at the deadlocked Geneva talks on Germany.

Eisenhower and Herter countered with the American stand: that the Allies are going to stand firm against what they say is Moscow's threat to oust them from Communist-surrounded West Berlin.

The 50-year-old Soviet leader's unexpected joust with Nixon erupted at Nixon's reception for Kozlov Wednesday night, at the President's guest house. The verbal battle could resume tonight, when Nixon will be Kozlov's guest at a Soviet Embassy reception.

Nixon, with Herter's help, admittedly scored at least one round in the debate.

Kozlov had complained to Eisenhower earlier about America's attitude toward the Soviet Union. For example, he said, the United States forced the Soviet Union to pay in gold for famine-relieving food sent the U.S.S.R. after the Bolsheviks seized power late in World War I.

PICKETS INJURED—Two steelworkers were injured, neither seriously, when this truck drove through a picket line during a wildcat strike at Republic Steel Corp.'s Cleveland plant. The truck driver was taken into custody after mounted policemen escorted him and his truck through a crowd of angry pickets at the gate. (AP Wirephoto)

Senators Anxious To 'Run' With Tax Bill

AUSTIN July 2 (AP)—Senators strained at the starting blocks today to begin running with the House-passed tax bill. The Senate has the job of pumping up the measure enough to cover state spending in 1960-61.

House members passed 102-42 yesterday a bill which again is far short of the anticipated need of 175 million dollars. It raises $111,035,000 and is not expected to be highly controversial in the Senate.

Some House employes worked through the night to compile and print the bill so that the Senate could have a crack at it today.

Legislative Budget Board Director Vernon McGee predicted it will be nearly impossible to have the bill in the senate before tomorrow.

The central question seems now to be whether the House will accept Senate amendments raising the bill to a sufficient level to match spending. It overwhelmingly rejected a joint conference tax report at the last session which largely was a Senate measure.

Several Senators freely predicted the Senate will add its own natural gas and other selective sales taxes in jig time without public hearings. Some said a floor report or a committee of the whole may be used to speed action.

The bill's passage by a two-thirds margin means it can go into effect immediately if approved by the Senate. The first vote on final passage ended 98-49 and it took two more votes before the necessary two-thirds majority appeared.

The bill has no provision for increasing the tax on natural gas. A "luxury sales and use tax" on items above $50 also was knocked out of the original bill.

"This is a two-thirds sales tax bill," said Rep. Dean Johnston, Houston. "Last time we sent the Senate a 50-50 measure (half on business, half on sales tax) and got back a 75-25 bill. This time we may get back a bill that is 95 per cent sales taxes."

Liberals and members who have consistently voted against any tax bill voted "no" on final passage.

The bill, originally containing $176,695,000, includes 21 million dollars by raising the tax on cigarettes a penny a pack; 19 million dollars on a new tobacco tax, including cigars; five millions from increasing liquor and wine taxes; 26 millions from an increase in corporation franchise taxes; and 16 millions from a hike in motor vehicles sales taxes.

CITY PREPARING FOR A HOLIDAY

Saturday will be a holiday in Snyder.

It will be Independence Day, and merchants in Snyder will have their stores closed. Also to be closed will be local, state and federal government offices.

The holiday is one of those recommended by the Chamber of Commerce merchants committee. The committee, indidentally, took two polls of merchants on whether they will close on this holiday, and the majority indicated they favored it as a holiday.

Woman Is Killed By Her Own Car

MULESHOE, Tex. (AP) — A West Texas woman died yesterday when her car ran over her.

Mrs. M. D. Gaddy, about 55, of Progress had stopped at her rural mailbox. The car was left running and officers say the transmission apparently slipped into reverse.

She was knocked down and run over twice, the car circling twice before coming to a halt on the opposite side of U.S. 84.

Company's Plane Crashes; 10 Dead

By BERNARD H. GOULD

MARION, Ohio (AP) — Search crews fanned out through a nearby wheat field early today, looking for the remaining seven victims of an airliner crash that left little doubt all 10 aboard perished.

The plane, owned by the Continental Can Co., carried eight top company executives and a crew of two. It hurtled out of an overcast sky late Wednesday and crashed with such tremendous impact that bits of wreckage were showered over a 300-yard area.

The plane literally dug the graves for most of them. Only parts of three bodies were found. The others evidently were buried under the earth.

Eight were top executives returning to New York, where the firm has its headquarters, after a meeting of company officials in Chicago, Continental Can said.

The plane, carrying a crew of two, was believed to be a twin-engine B26 Martin. It was demolished almost beyond recognition. The wreckage was spread over an area 150 yards in diameter, a sheriff's deputy reported.

The aircraft hit with such impact that only one engine was found, said the deputy, Robert Obenour. The other engine presumably was buried with the victims.

The plane crashed shortly before 6 p.m. on the farm of H.F. Smith, six miles east of this north central Ohio city.

Smith was in his barn when he heard the aircraft approaching from the north. He said he thought it was going to hit the barn, but it passed over and crunched into the wheat field 100 yards away.

It was raining lightly at the time, a midafternoon thunderstorm having blown itself out.

The pilot had reported by radio to Marion Municipal Airport a short while before that he was flying over Findlay, in northwest Ohio. He said he was trying to skirt a thunderstorm north of Marion, and that he would report again when he reached Mansfield, 74 miles to the southeast.

He traveled about half that distance when, unexplainedly, the craft lunged out of the cloud-covered sky and crashed.

Alvin DeVore, a service station operator, said he watched as the plane soared over his station at 700 to 1,000 feet altitude, then suddenly dipped down and nosed into the field half a mile away.

In Chicago, a B26 Martin took off from Midway Airport at 3:30 p.m. This undoubtedly was the doomed craft. The pilot, in making out his flight plan, gave his name as Dunham, and his destination as Baltimore, Md.

Continental Can identified the pilot of its plane as John R. Dunham, Madison, N.J. His copilot was Donald Martin, Dover, N.J.

All the passengers, except one, lived in the New York metropolitan area. One resided in Baltimore, and it may have been that Dunham was going to take him directly home before continuing to New York.

Prince Albert Weds Giggling Bride

BRUSSELS, Belgium (AP) — Prince Albert of Liege, heir presumptive to the Belgian throne, today married a beautiful blonde Italian princess who broke down with giggles midway through the glittering church wedding.

The radiant 21-year-old bride, Dona Paola Ruffo di Calabria, was asked by Joseph Cardinal Van Roey, the officiating clergyman, "Have you come here of your own free will to engage in marriage?"

"Yes," she replied in French—and then suddenly halted, giggled and couldn't go on.

She blushed, raised her left hand to her lips and finally smothered her laughter. Her solemn, 25-year-old bridegroom, kneeling on her right, gave his bride a sympathetic look. This seemed to steady her.

With only an occasional faint trembling smile she completed the long ceremony performed amid medieval pageantry and splendor in the Roman Catholic church of Sts. Michael and Gudule.

When she took communion, she broke down and cried, her long hands once more flying to her face.

The bridegroom, younger brother of bachelor King Baudoin, was grim and nervous through the long ceremonies that began with a civil marriage service in the royal palace.

Riding in an open car along the procession route from the palace to the church for the religious ceremony, the bride waved gaily. The crowds loved it with excited cries of "Paola!"

Albert looked nervous and glum, giving only an occasional salute. Just before reaching the church, his pretty bride moved closer to her handsome husband in the back seat and squeezed his arm.

She wore a gorgeous high-necked ivory satin gown with a long-trained veil of snow-white Brussels lace. Albert wore a Belgian naval commander's dark blue uniform.

Cardinal Van Roey, during the church ceremony, called her a "lovely princess" and said Italy "sends you to Belgium as a ray of its beautiful sun and a reflection of its ardent soul."

Threatening skies failed to curb the enthusiasm of the crowds for the show of medieval splendor—trumpets blending with booming cannon and pealing church bells. Ancient Brussels was festively decorated.

New Postal Record Set

Postal receipts were in their seventh straight record month in Snyder during June.

Receipts for June totaled $15,230.07 at the Snyder post office a new record, according to Postmaster Dawson Moreland.

This was 32 per cent higher than the previous June's $11,693.91 which had been a record. Receipts for June, 1957, were $11,156.19.

So far this year receipts total $82,531.56, which is 34 per cent higher than the six-month total of $61,586.91 last year. Total for the first six months of 1957 was $61,652.03.

Contract Let On Gail School Job

GAIL — Garner Jones, Lamesa contractor, has been awarded a contract by the Borden County School District for general construction on a new classroom wing as an addition to the existing plant at the high school at Gail.

Jones was low bidder on the general contract with $223,360. Garner Bros. of Odessa got the mechanical contract on a bid of $46,396, and Odessa Electrical Service is electrical contractor on the job for its bid of $17,067.

The three contracts will make a total of $286,823 for the improvement project.

Other bidders included J. D. Jones Construction Co. of Big Spring, second low on general construction with $228,312.

S. P. Stewart, superintendent at Gail, said the general contractor was making plans to begin work within about a week, provided weather does not hold up the beginning. Estimated time for completion is 375 days.

The classroom wing will be a separate building, joined to the main plant by a covered walkway from the north entrance of the school. It will have 10 classrooms and will be of brick construction.

The addition will have a 650-seat auditorium and athletic and physical education classrooms. It will be to the south and east of the gymnasium, and the same entrance will be used for the auditorium and gym. The gymnasium now serves as an auditorium for the school. The addition will also be of brick construction.

Stewart said preliminary estimates had been that the improvements could be built and furnished for about $300,000. Construction and architectural fees, however, are going to run just above the $300,000 voted by the district in a bond election several months ago. The buildings must be equipped from funds out of the regular budget.

The Lubbock firm of Brasher, Spencer & Goyette prepared plans and specifications.

Statuesque Blonde Chucks Beauty Title

BALTIMORE, Md. (AP) — A statuesque blonde who stands 5 feet 9 gave up her Miss Maryland title after a reign of only 4½ days Wednesday because she didn't want to try for more starry heights.

"Since the excitement has died down, I don't desire a very glamorous career," said 25-year-old Marie Litz.

The right to represent Maryland in the Miss Universe contest at Long Beach, Calif., went to the runner-up in the state contest, 24-year-old Diane White, a brunette who's only 5-4½.

Both women are secretaries. Miss Litz, who measures 36-24-36, is a divorcee but said that had nothing to do with her decision.

Sponsors here said being divorced was no bar to entering the Miss Universe contest. The West Coast event was thrown into turmoil two years ago when Miss Maryland, Leona Gage Ennis, turned out to be a Mrs. with two children after winning the title of Miss U.S.A.

Miss Litz also said she didn't want to "deprive Diane of an opportunity to go into the movies or theater."

Miss White, whose vital statistics are 35½-24-36, was overjoyed.

"I still can't believe it," she cooed. "I wanted to be Miss Maryland so badly and still do."

The new beauty queen will fly to California July 15.

Invalid Couple Has Baby Girl

ROCHESTER, N.Y. (AP) — A couple confined to wheelchairs by an incurable disease have become the parents of a baby girl.

Doctors said the couple will have to decide whether to try to keep their daughter with them or to place her in a foster home.

Alexander Quadrozzi, 34, has had to use a wheelchair for the past two years; his wife Janice, 21, for eight years.

They both have muscular dystrophy, a progressive weaking of the muscles.

Doctors said the chances that the baby, born last Monday, will have the disease are greatly increased by the fact that both her parents have it.

Both mother and daughter were reported doing fine.

White Man Admits Raping Negro Girl

HOUSTON (AP)—Police said today a 33-year-old white man has admitted the rape-murder of a Negro girl, 10.

The body of Mattie Louise Mitchell was found early Sunday in a park a block from the home of her parents, Mr. and Mrs. Albert Mitchell.

The man being held was arrested after having been seen near the park.

An autopsy report said the girl had been struck in the face, raped and strangled. No charges have been filed.

Shutdown Of Refinery Is Continuing

TEXAS CITY (AP) — The big American Oil Co. refinery gradually closed down operations today as its union employes left their jobs in a contract dispute.

A complete shutdown was expected by 4 p.m. today. A union spokesman said picket lines will go up as soon as the orderly shutdown is completed.

The walkout began with expiration of the Oil, Chemical & Atomic Workers Union contract. Members of the union quit work as their respective units suspended operation.

A union spokesman, Al Grospiron, said job classification and their effect on job security was the principal issue. He also listed wage adjustments for some classifications, and fringe benefits as other issues.

He said the union expects "a long hard fight."

"We are miles apart," he said today.

The plant manager, B. F. Babin, said the controversy centered with the management's right to organize and direct the refinery work force for efficient operation.

The plant employes about 1,700 persons, 1,250 of whom are OCAW members.

One Crewman From Bomber Is Rescued

MADRID, Spain (AP)—A British freighter Wednesday night rescued one of the four crewmen of a U.S. Air Force bomber which crashed into the Atlantic off the Azores.

The 16th Air Force said the survivor, Capt. Stephen Carter of East Hartford, Conn., was reported in good condition. He was transferred from the British ship, the Loch Gowan, to a U.S. Navy ship to be taken to Lajes Air Force Base in the Azores.

An intensive hunt for the other plane went down about a mile from Lajes, and Portuguese on Flores Island said they saw three persons jump by parachute.

Carter was the plane's navigator. Others aboard were Capt. Roy E. Fromm, 35, the aircraft commander, of Watertown, Wis.; 1st Lt. Gain Carithers, copilot, Oklahoma City; and S. Sgt. Hal B. Sanson, crew chief, Marathon, Tex.

All were stationed at MacDill Air Force Base, Tampa, Fla., where the wives and children of Fromm and Carter live. Sanson and Carithers are single.

The B47 jet bomber had left the American air base at Zaragoza, Spain, for McDill. Just after refueling in the air over Lajes, the plane started a 30-degree turn to proceed on course. Then the pilot was heard calling "Mayday, mayday," the international distress call.

14 Prisoners Are Burned

KOYLIO, Finland (AP)—An insane convict set fire Wednesday night to an old wooden wing of the Koylio prison and 14 prisoners burned to death before they could be released from their cells.

Of 48 other convicts in the wing, 21 were injured and three escaped. County Police Commissioner Jyrki Levon said all the injured would recover and he expected the missing men to be captured soon.

The firebug was among those killed in the roaring fire, which burned the building to the ground in less than 90 minutes.

Police and firemen kept the fire from reaching other prison buildings housing about 150 convicts.

The prison is in an isolated location outside Bjorneborg, on the west coast of Finland.

Space Clock Being Built

LOS ANGELES (AP)—A space clock accurate within one second in 1,000 years, is being built to test Einstein's theory of relativity.

The clock is designed for an orbiting satellite. Whirling around the earth, it will be compared with a similar clock on the ground.

By comparing the two clocks' performances by radio, theories on relativity can be tested, according to Dr. Harold Lyons, head of the Hughes Aircraft atomic physics department directing the project.

Lyons said the space clock should run slow compared with the ground clock for orbits below 2,000 miles and fast above 2,000 miles.

The launching of a clock satellite is expected to be several years off.

Danger From Fireworks Is Decreasing

BOSTON (AP)—This may be the Fourth of July when the nation may escape even a single fireworks fatality, Percy Bugbee, general manager of the National Fire Protection Assn. said in a statement today.

"As far as fireworks are concerned, we have almost reached the 'Safe and Sane Fourth' so long campaigned for," he said.

In 1939, the record was 5,573 fireworks casualties. There were 13 deaths, 177 eye injuries including blindness, 41 losses of fingers and hands, 37 fractures and internal injuries, and 5,305 cases of burns and lacerations requiring hospital treatment.

And this was by no means the worst year, he emphasied. In the preceding year such accidents totaled 7,951. By 1939, some states had already adopted the model fireworks law developed by the National Fire Protection Assn. as a result of more than a quarter century's campaigning for adequate regulation.

Today, Bugbee stated, only seven states—Louisiana, Mississippi, Missouri, Nevada, Oklahoma, Texas and Tennessee—along with Alaska and Hawaii, do not control the sale and use of fireworks on a statewide basis.

HOSPITAL NOTES

COGDELL MEMORIAL

ADMISSIONS — Janice Thompson, 2503 Avenue U; Sue Lindersmith, 1607 Twenty-eighth Street; Bobby Staton, Route 2; Jerry Cowart, 2409 Twenty-sixth Street; Katie Phipps, 1105 Thirty-third Street; Dorothy Zimmerman, 124 Twentieth Street; Rosa Kingsbury 1905 Coleman; France Kaiser, 222 West Jackson Street, Pensacola, Fla.; Kathleen Lawrence, 1501 Valencia Street, Oceanside, Cal.

DISMISSALS — Gloria Glass, Snyder; Lizzie Harmon, 3212 Avenue U; Cyril Clayton, Route 1; Jack Spruiell, 418 Thirty-third Street; Empress Bowers, 2506 Thirty-first Street; Ella Labenske, 2707 Avenue R; Mrs. Donna Early and baby, 2201 Fortieth Street; Rufus Carr, Snyder.

BIRTHS

Mr. and Mrs. James Thompson, 2503 Avenue U, are parents of a son weighing six pounds, eight and one-half ounces, born at 7:30 a.m. yesterday in Cogdell Memorial Hospital.

Girls Recreation Program Popular

More than 450 girls are now enrolled in the girls summer recreation program, which has a full program of indoor and outdoor activities five days weekly.

Girls can still sign up for the program, according to Mrs. Janet Wesson, director, who said it is open for girls who will be in the third grade this fall up through high school age. They can register at the high school any weekday for 25 cents.

Averaging about 105 girls daily participating, the program is conducted at the high school, Central Elementary and in Towle Memorial Park and includes all types of table games, the popular trampolin, ping pong, badminton, deck tennis, croquet, volleyball, track, and the girls softball program, which is preparing to begin play on Tuesday and Thursday nights.

Among activities in the program is a ping pong tournament which will begin Monday. It will have divisions for junior, intermediate and senior ages and will be conducted at the high school and Central Elementary.

About 160 girls are signed to take tennis during July and August, and a local tournament is planned for later. The local group will also have entries in a tennis tournament to be staged by the Sweetwater girls recreation program.

Track practice has begun and is held at the high school track at 6:30 daily except Wednesdays, Saturdays and Sundays.

Soon the program will be registering girls for the second session swimming lessons, which will cost $2 for 10 lessons. The last session had about 150 girls.

Working with Mrs. Wesson in the program are Wanda Kelly at the high school and Irene Mauldin at Central Elementary, assistants, and James Wesson, tennis and softball director. Guy Sullivan is volunteer track coach.

The girls recreation program board is composed of Mrs. R. E. Patterson, chairman, Mrs. John Boren, secretary-treasurer, Mrs. Fred Beaty and the Rev. Elton Wyatt.

Smokey Fire Routs 200 In Pentagon

WASHINGTON (AP)—A smokey fire, smouldering behind walls, routed about 200 employes at the Pentagon today. Several firemen were overcome by smoke.

The blaze apparently began in defective wiring behind the false ceiling in the concourse area—a section devoted principally to shops and used as an entrance to the giant building.

A half hour after the fire was discovered officials said it seemed to be "slowly spreading," but that there still was no visible evidence of flames to the hundreds of Pentagon workers who watched the fire fighters.

In addition to government fire equipment, fire trucks came from nearby Ft. Myer, Arlington County and Falls Church.

The District of Columbia Fire Department sent four ambulances to the scene.

At least one shop—a branch of the Woodard and Lothrop Department Store—closed as smoke seeped into its showroom.

As the fire continued to smoulder despite efforts of fire fighters several main corridors of the building became smoke-choked.

Guards held back crowds and ordered evacuation of all offices in the fire area.

36th Steps Up Training

NORTH FT. HOOD (AP)—Texas' 36th Infantry Division stepped up its summer training today with more work on weapons.

Mortars, tank guns, artillery and lighter weapons went into action on the ranges of this Central Texas Army post yesterday.

Attention also centers on chemical, biological and radiological warfare developments and improved communications.

Training is directed from a security-conscious command post which includes the tents of the chief of staff, operations officer, intelligence section and radiological center. Armed guards patrol the area and require identification and registration of visitors.

Troops of the 9,500-man outfit are bivouaced over a 10-mile area. Emphasis is on camouflage, with National Guardsmen working to utilize the scrub oak and cedar which cover much of the terrain.

Bread Count Is Adequate

HOUSTON (AP) — Grocers reported adequate supplies of bread today despite a strike at five major bakeries by 538 union sales drivers.

Grocers and housewives lined up at loading docks at the bakeries to purchase bread produced by supervisory personnel.

Only one grocer said he had run out and had no hope of obtaining a supply.

The driver-salesmen began picketing the plants at 12:01 a.m. yesterday when their contract expired. They are seeking a five-day work week with no cut in pay. The bakers offered a $10 weekly pay boost but want to keep the six-day week.

The bakers normally supply 95 per cent of the bread sold in metropolitan Houston and a large portion of the supply in surrounding counties.

Snark Makes Round Trip

CAPE CANAVERAL, Fla. (AP)—A Snark intercontinental guided missile shot 1,000 miles over the Atlantic today, then turned around and came back to the cape, the Air Force said, terming the round-trip flight highly successful.

The sleek, 69-foot rocket dropped smoothly onto the cape landing strip 4½ hours after it was launched. Special skids and a parachute that popped from the tail eased the missile's landing.

This particular missile successfully made the trip on two previous launchings this year. On each recovery, crewmen prepared it for a repeat performance.

Earlier rockets dropped dummy warheads on target near Ascension Island, 5,000 miles away. These rockets were not designed for recovery as is the Snark.

The Snark, which cruises at a comparatively slow 600 miles an hour, can zig-zag and dodge in flight to elude enemy defenders. The missile has an inertial guidance system which steers it and checks its accuracy by the stars.

Taken To Sweetwater

Mrs. M. U. Vernon of Hermleigh was taken yesterday afternoon by Bolger ambulance from her home to Young Medical Center in Sweetwater.

SAVORY FISH SANDWICHES—If you are planning a fishing trip, these tasty fish sandwiches can be made from your first catch. Top off the meal with a mouth watering sweet-sour accent of Fisherman's Delight.

Caught In A Heatwave? Try Fisherman's Delight

Outdoor eating is fun because it is informal and irresistible, especially if the menu centers round savory fish sandwiches. Tasty fishburgers, are perfect for that cook-out which follows a big day of fishing. But these hearty sandwiches can be concocted in the backyard too, with fish fresh from the market. Your favorite fish whether it be ocean perch or whitefish, is painted with a splash of savory sauce of dairy fresh butter well blended with instant minced onion, mustard, nutmeg and garlic salt. The fillets are wrapped in foil and tightly sealed to insure retention of the butter sauce. They are then cooked over hot coals ten to fifteen minutes, or until they flake. The cooking time depends on the heat intensity of the fire you build. Minutes before the fish is completely cooked, split frankfurter buns should be generously brushed with melted butter and toasted. Then cuddle the fish in the buns and serve to hungry campers.

There is nothing that better compliments Savory Fish Sandwiches than fresh from the field corn swished in a dish of melted butter, and fresh, crisp greens in variety. Quench thirsty palates with cups of cold milk.

For the finale use an old boy scout favorite, with a new twist, aptly titled Fisherman's Delight. They are crisp graham cracker squares spread with dairy sour cream, then topped with chocolate candy squares and plump marshmallows which have been toasted on green sticks. The hot marshmallow melts the candy just enough to coat the crackers perfectly. The sour cream adds a just right tang to what otherwise might be a "too" sweet dessert.

Camper's confidence: For easier washing, soap the outside bottom of skillets and kettles before using over the coals.

SAVORY FISH SANDWICHES
3-4 servings

½ cup (1 stick) butter, softened
2 tablespoons instant minced onion
1 tablespoon prepared mustard
¼ teaspoon nutmeg
¼ teaspoon garlic salt
1—1—¼ pounds boned fish
Salt
4 frankfurter buns

Blend butter with instant minced onion, mustard, nutmeg and garlic salt. Spread generously all over fish. Wrap individual servings in heavy duty aluminum foil, sealing edges tightly. Place on grill over hot coals for 10-15 minutes. Open foil package and brush melted butter onto frankfurter buns and toast quickly on the grill. Place fish inside toasted bun.

FISHERMAN'S DELIGHT
4 servings

1-3 cup dairy sour cream
8 graham cracker squares
2 1-ounce plain chocolate candy bars
4 marshamallows, toasted

Spread sour cream on graham crackers. Break chocolate candy bars in half and place each half on a cracker. Cover candy bar with a toasted marshmallow and top with graham cracker (sour cream side in) to make a sandwich.

NEWS FROM IRA

By AVA MORAN

Mr. and Mrs. Jack Clark of Dallas is spending a few days with Mrs. D. E. Clark, J. L. Clark and other relatives.

Mr. and Mrs. E. H. McCright of Sweetwater, Mr. and Mrs. Wes Perry of Midland, Mrs. Tee Griffin and Gay of Vincent and the B. R. Watson family of Duncan, Okla. were guest of Mrs. Ava Moran last week.

Mr. and Mrs. Hubert Clements visited Mr. and Mrs. J. G. Suiter Sunday evening.

Ronnie Suiter was in Lubbock Monday for the entrance exam at Texas Tech College.

Judy Franks of Houston is spending the summer with Doris Halladay and other relatives here.

Mrs. Fay Lewis of California and Laynette Patterson of Fluvanna, were wisiting relatives and friends here this week.

Mr. and Mrs. J. L. Clark have moved in their new home. They were honored with a house warming Sunday by a host of friends and relatives.

Mrs. Lewis Hem and Jerry are visiting her mother this week.

Mr. and Mrs. Leon Ford and Susan of Snyder visited Mr. and Mrs. A. P. Wishert Sunday.

Visitors in the J. L. Byars home recently were, Mr. and Mrs. Jim Botzman and daughter of Fort Worth.

Mr. and Mrs. Charles Martin and children of Tucson, Ariz. visited in the J. L. Byars home recently. Other guests included Mr. and Mrs. Clyde Baldwin and grandchildren of Dunn.

Mr. and Mrs. Donald Grant and children of Snyder visited Mr. and Mrs. E. E. Grant recently.

Mrs. Oleta Westbrook and children of Stamford are visiting Mrs. W. R. Ashmore this week.

WOMEN

Gal Sports Editor Rates High In A Man's Domain

LEVELLAND, TEX. (AP) — Jean Howell, a pretty girl who proudly bears the title of sports editor, does all right in what is generally a cigar chewing, masculine world.

The 23-year-old sports editor of the Levelland Daily Sun-News does admit to a few problems, though.

"My biggest problem is getting acclimated — in other terms to believe I'm a sports editor."

The brunette admits male sports writers have only one advantage: "They can often get good quotes in the dressing rooms following a game."

One other problem, she allows: "Of course, I [illegible] to make out like I didn't hear something that's said in the press box."

But otherwise, she does all right.

"She's better than any sports editor we ever had, except one, and sometimes she uses better judgment than he did," says Forrest Weimhold, publisher of the Sun-News.

Mrs. Howell says she long dreamed of writing sports, but reached her goal more or less by accident.

"It's kind of like woman suffrage — except that sports writing is a last frontier to be held almost exclusively by men," she says. "I'm a woman who's just barging in."

She said sports writers in the area now accept her, somewhat to her surprise.

"I majored in journalism at the University of Texas, but I didn't write sports because the men students didn't approve of girls invading their domain. I did hang around with sports writers, however, and discuss sports with them."

After graduation a year ago, she came to Levelland with her husband, a petroleum engineer. The Levelland paper was putting out a large special edition and she was hired to help write it.

"I was lucky," she says. "The sports editor left and they gave me a chance at the job."

Designer Shows Help Busy Routine

By DOROTHY ROE
Associated Press Women's Editor

The models twirl with practiced ease in the showroom.

A hundred buyers scan each new fall costume, make small notations.

Members of the metropolitan fashion press eye the clothes for photographic possibilities.

A tiny figure in a modish suit and a white organdy hat at the microphone says:

"This is the way a woman wants to look this fall. Smooth, correct, well put-together, all-of-a-piece. The look of dignity and pride of possession."

Slender suits of supple fabrics, trimmed in precious furs, parade by. Beautiful costumes to see a woman through any occasion. Glittering theater and dinner outfits. Then comes the applause. The small designer is hidden in the rush of buyers and press eager to offer congratulations.

Adele Simpson accepts the plaudits like a prima donna after a triumphant opening. Then she hurries across the salon to grasp the hand of a large and well-scrubbed lady wearing a severe black hat and a plain dark coat.

"How did you like it, Jenny?" asks the designer anxiously.

"Very nice, mum," says the lady.

"You do understand what goes on here now, don't you?" continues Mrs. Simpson. "You do see why I can't always get home to dinner on time, and why I sometimes don't have time for breakfast?"

"I begin to see," admits the lady, breaking into a broad smile. "Now don't you worry, mum. I'll keep dinner hot for you."

The designer seeks out a thin young man standing near the door.

"Did you see it, Edward? Did you like it?" she asks.

"Yes, madam. And very interesting it was, too. Different from London. Much more efficient, I'd say."

In her office, the designer drops into a chair and confides?

"That was my cook, Jenny Lind, from Norway. The man was my chauffeur. He's been here only two weeks.

"I invited both to the showing, so they could see why I can't always be on time.

"Both are treasures — real treasures. I couldn't bear to lose them.

"But now you see what a busy woman has to do to keep her help."

DRESS IT UP

Use minced scallions (green onions) to pep up tuna or chicken salad; be sure to add some of the green tops.

WOMEN'S CALENDAR

THURSDAY

St. Elizabeth's Altar Society will meet in the cafetorium of Kathrine Ryan School 7:30 p.m.

Plan vegetable cooking time so that the vegetable is served soon after it reaches the "just-tender" stage.

Lift the lid a few times while cooking broccoli to retain a bright green color — and don't overcook.

Cherry Sauce.

Cantonese and Scandinavian recipe books feature many fruit and meat combination dishes. Fruit sauces add texture and glamor to every-day meat dishes. Here is a cherry sauce recipe that will perk-up ham, tongue and lamb: Put 1 cup crabapple jelly, ¼ cup red wine, ¼ teaspoon cinnamon, ¼ teaspoon cloves and ¼ teaspoon curry powder in a saucepan over a low flame. Stir well and cook slowly until jelly is melted. Add 2 cups pitted sweet cherries, heat, and serve.

West Germany Rift Is Far From Healed

By HERB ALTSCHULL

BERLIN (AP) — Konrad Adenauer's Christian Democratic party voted solidly Wednesday for the old Chancellor's choice for the West German presidency. But the wounds inflicted by the bitter struggle within the party before the election are far from healed.

Despite the election of Christian Democrat Heinrich Luebke to the nation's figurehead presidency, the opposition Socialists are talking optimistically about their chances of winning control of Parliament in the general election in September 1961.

When Luebke's election was announced, perhaps the least disappointed person in Berlin's East Prussia Hall was his Socialist opponent, Carlo Schmid.

Schmid, a 62-year-old writer and scholar, was openly uninterested in winning the powerless presidency. He hopes to be his party's choice for Chancellor if the Socialists win in 1916.

"The Christian Democrats are in trouble," a socialist leader remarked after the presidential vote. "They're not going to get over their intraparty struggle for a long time."

Gerhard Schroeder, Adenauer's interior minister, sidestepped when asked if he thought Luebke's election was a success for Adenauer.

"It was a success for the Christian Democrats," he said. "It proved the unity of our party."

Independent observers felt the solid party vote for Luebke showed a general Christian Democratic desire to keep the Socialist, Schmid, from getting the presidency. But it was considered significant that Adenauer's opponent in the recent bitter party squabble, Economics Minister Ludwig Erhard, got a heartier round of applause when he cast his ballot than did the old Chancellor.

Erhard was all set to succeed Adenauer as chancellor after the elder statesman announced in April that he would step up to the presidency. Then Adenauer reversed himself, decided the choice of his successor and then keep control of the government. He decided instead to continue as chancellor. At the same time he cast slurs on Erhard's ability. A furious storm inside the party followed.

A serious peace was restored after Erhard accepted a mild apology from Adenauer. The party united behind Luebke.

The Socialists are thinking that has only been patched over, not healed. They expect the party to divide again in 1961 when the question of Adenauer's successor comes up again.

The Chancellor will be 85 by then. He told an interviewer recently he would retire after the 1961 voting.

He could change his mind again and try to stay on. Erhard, and probably other Christian Democrats, undoubtedly would challenge that. If Adenauer does retire, his choice of a successor is not likely to be Erhard. Next time the economics minister is expected to fight for the chancellery.

One Killed In Crash Of Train And Truck

SUFFOLK, Va. (AP)—A speeding passenger train smashed into a truck loaded with bricks Wednesday, killing the truck driver and injuring 10 persons. Four were hospitalized.

Killed was C. N. Rountree, a driver for Roanoke Webster Brickyard near here. The injured included the engineer, fireman and postal clerk on the train, a Seaboard Air Line Railroad unit en route from Raleigh, N.C., to Portsmouth, Va., with 25 to 30 passengers.

The Diesel locomotive and six of the seven cars were derailed.

These Experts Hope Their Figures Will Be In Error

CHICAGO (AP)—The National Safety Council is one group of experts which hopes its predictions are 100 per cent wrong.

Among its tasks in the field of safety, the 47-year-old organization includes estimating the nation's traffic death toll on major holidays.

For the July 4 weekend the council estimates 350 persons will die in traffic accidents and 13,000 others will suffer disabling injuries.

"But our goal is no accidents at all," says an NSC spokesman.

"All we are doing is telling people there is extra traffic, extra danger and therefore, extra accidents, and we are asking them to be extra careful."

Using mass communication media—newspapers, radio, television—the council pounds at the populace urging them to be careful.

Has it been successful?

The council spokesman said definitely yes. "Who can say what the toll would be if this were not done?" he asked.

Still, the final tolls usually come close to NSC estimates.

Holiday estimates are based on a complicated formula applied to previous records for these holidays, current traffic volume trends, current toll trends, nature and length of the holiday and finally, the weather.

The council was formed in Milwaukee in 1912 at a safety session of a steel industry convention. Now its Chicago headquarters has a staff of 350 statisticians, writers, artists and traffic and industrial engineers. More than 300 other councils are affiliated in some way.

Actually, the traffic safety problem accounts for no more than a third of the council function of gathering and distributing information about the causes and ways to prevent accidents.

The NSC divides its work into four principle classes: work, home, motor vehicle and public accidents, the latter including accidents at play, such as drownings.

The council operates on a 5¼ million-dollar budget, ninetenths of it supplied from membership fees paid by industrial concerns and from the sale of its posters, films data sheets and technical information.

The council also publishes 13 national magazines with a circulation totaling more than 1¼ million.

The rest of its money comes from contributions.

The organization's president is Howard Pyle, former governor of Arizona and former presidential aide.

Administering the staff activities is Gen. George C. Stewart, executive vice president.

Rogers Says Legal Profession Too Slow

ASHEVILLE, N.C. (AP) — U.S. Atty. Gen. William P. Rogers says the great weakness of the legal profession is that it is chronically slow.

In an address Wednesday, Rogers said, "The public can't understand why it takes so long to get a case tried."

He chided lawyers for having done what he called a bad job on the picture they have given the public of the administration of justice.

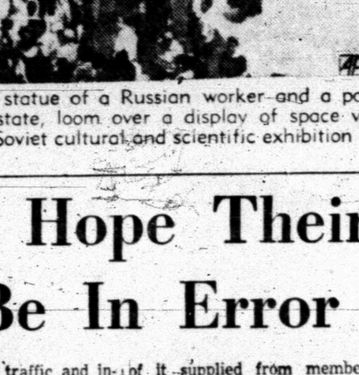

"We lawyers have a solemn duty to improve the administration of justice," he said.

The Snyder Daily News

BUCKIN' THE LINE

By BUCK FRANCIS
News Sports Editor

IT'S ONLY IN THE preliminary stage but big things are expected on the local baseball scene the week of Aug. 10-15.

Already scheduled here that week is the state Little League baseball tournament, Aug. 14-15.

And now the Graduate Pony League is going after the Regional Tournament which, in a sense, is a state tournament. The regional GPL tournament consists of all GPL teams in Texas and some in Oklahoma.

Local GPL officials are hoping to line up the regional tournament for Aug. 10-11-12-13.

Official word probably will be forthcoming within the next few days as to whether Snyder will be awarded the Regional Graduate Pony League tournament.

W. F. McMennamy, president of the local GPL, was conferring today with A. H. Keever of Lubbock, the Regional GPL director on the possibility of setting up a meeting here to discuss the regional tournament.

There are 19 Graduate Pony League teams in this region. This list will be boiled down to five teams for the regional competition. District playoffs will be held to determine the regional field.

The host team for the regional tournament automatically draws a bye in the district tournament into the regional.

In other words, there are four districts in this region with the host region having two teams and the other three one team.

Three Teams In Local District

There are three teams in this district, Childress, McCamey and Snyder. Last year there were only two teams in the district, Snyder and Childress, with Snyder winning in a best two-out-of-three series to qualify for the regional tournament that was held in San Antonio.

Snyder lost its first game in the regional tournament last year, won the second game and then lost again in the third game of the double - elimination tournament.

In the event Snyder lands the Regional GPL tournament, Childress and McCamey would meet in a playoff for a berth in the tournament with Snyder automatically qualifying for the tourney. If we don't get the tournament, then Snyder, Childress and McCamey would battle it out for the right to advance to regional warfare.

Little League Single Elimination

The state Little League tournament will have four teams. They will be the winners of the four sectional tournaments held around the state.

There are three steps to be taken before reaching the state tournament, area, district and sectional.

The State Little League tournament will be a "sudden death" affair with one loss eliminating a team. With four teams competing, that would mean that three games will be played in the state tournament, two games the first night and the two winners playing for the title the second night.

If Snyder succeeds in getting the regional GPL tournament, then local baseball fans will be in for a real treat the middle week in August. They will be seeing the state's best in the 9-12 year old group and the 15-16 year group.

Conley Continues On Comeback Trail

By ED WILKS

No doubt about it, long Gene Conley is the No. 1 contender for Comeback of the year honors in the National League. And he's doing it the hard way—as a winning pitcher for Philadelphia's last-place Phillies.

The 6-foot-8 right-hander, who couldn't win a game last season underscored his selection to the All-Star staff by pitching his second shutout Wednesday night, beating Pittsburgh 1-0 with a five-hitter.

It was the sixth victory in 10 decisions for Conley.

In the only other NL game, the Chicago Cubs defeated St. Louis 6-5. Milwaukee's game at Cincinnati was rained out, leaving the first-place Braves with half-game over the San Francisco Giants.

Conley, 28, walked but one and struck out eight while gaining his sixth complete game and lowering his earned run average to 2.80. Dick Groat had two of the Pirates' hits, all singles.

The Phils had six hits, using just one to score in the third inning against loser Ron Kline (6-6). Joe Koppe walked, stole second and came home on Richie Ashburn's single.

The Cubs overhauled a 5-1 Cardinal lead with four runs in the eighth, then won it in the ninth when Ernie Banks singled, moved up on an infield out and scored on Bobby Thomson's single. Don Elston (5-1) was the winner after a perfect relief job in the ninth. Lindy McDaniel (6-9) lost it in relief after giving up a two-run single by Al Dark that capped the Cubs' comeback in the eighth inning.

THAT'S COOL, MAN—Willie Miranda, Baltimore shortstop, tells Trainer Eddie Weidner that the iced cabbage leaf feels mighty cool. The Orioles wore the leaves under the caps in the near-100 degree weather against the New York Yankees in Baltimore, but the trick didn't help enough: the Yanks won 4-1. (AP Wirephoto)

White Sox Whittle Indian Lead To 1

By ED WILKS

If somebody's going to grab the American League pennant from those New York Yankees, the rest of the clubs better stop squabbling over who is to do it.

Take Cleveland and Chicago, the two most likely to succeed.

The White Sox dropped the Yankees to fifth last Sunday, with a three-game punch. But while they scuffled through two games with the Indians, the Yankees jumped back to third.

The second-place White Sox split the series at Cleveland with a 6-5 victory Wednesday night, cutting the Indians' first-place edge to one game. More important, it also trimmed the Indians' lead to three-games over the Yankees, who beat Baltimore 4-0 behind the four-hit pitching of Ralph Terry.

Detroit, one percentage point shy of New York, beat Kansas City 5-4. Washington whipped Boston 4-1.

The White Sox won on Jim Landis' ninth-inning sacrifice fly and a clutch relief job from Turk Lown. Woody Held's two-run homer, his 15th, chased Gerry Staley, second Sox pitcher, in the ninth, but Lown then retired the side. That saved it for starter Barry Latman (2-2).

Terry (3-5), reacquired by the Yankees from the A's May 26, walked only one and struck out six for his first victory and complete game since May 3. Billy Gardner doubled and singled for half of Baltimore's hits. Hec Brown lost it.

The Tigers beat Ned Garver (6-7) with a four-run seventh. Eddie Yost's single broke a 1-1 tie, and a double by Harvey Kuenn and singles by Charlie Maxwell and Gus Zernial put it away with two out against reliever Johnny Kucks. Paul Foytack was the winner for a 7-7 record.

Right-hander Camilo Pascual had Boston blanked on two hits with two out in the ninth. Then singles by Vic Wert and Frank Malone sandwiched an error for an unearned run, leaving him with a four-hitter and a 7-7 record.

Norm Siebiern and Gil McDougald homered for the Yankees, who had eight hits. Siebern's 10th came in the second inning, but Brown (5-3) then blanked the champs on one hit until successive singles by Yogi Berra, Bill Skowron and Hector Lopez made it 2-0 in the seventh. McDougald homered in the ninth against reliever Billy Loes.

Mickey Mantle returned to the New York line-up after a day's absence and played 7⅓ innings. He had two hits.

Casey Adds Ted To AL All-Stars

BOSTON, Mass. (AP) — The American League announced its All-Star squad today and the name of Ted Williams was on the roster—for the 15th time.

Williams was not selected by his fellow players on the basis of performance.

But Casey Stengel, who will manage the AL Stars, said through Joe Cronin, league president: "If you hadta look down the bench for someone to hit forya, who'd ya like t'have?"

Stengel's decision to select Williams came two days after Fred Haney selected Stan Musial, veteran star of the St. Louis Cardinals, who, like Williams, is having a rough year.

Haney, Milwaukee manager, will pilot the NL Stars in the interleague match of baseball's best July 7 at Pittsburgh.

Williams, although hitless in the 1957 and 1958 All-Star games, has compiled a .317 average in the 14 years he played on the American League team. He has hit four homers and driven in a dozen runs.

Williams will replace Jim Lemon of Washington in the second-line outfield, which also includes Mickey Mantle of New York and Harvey Kuenn of Detroit.

Stengel made one other change. He named Gil McDougald of the Yankees as an infielder in place of Rocky Bridges, runner-up for shortstop.

Stengel explained through Cronin: "McDougald gives me three players, you could say. I can use use him at any of three positions."

As pitchers, the manager's prerogative, Stengel selected Jim Bunning of the Detroit Tigers, Bud Daley of the Kansas City Athletics, Ryne Duren and Whitey Ford of the Yankees, Billy Pierce and Early Wynn of the Chicago White Sox, and Hoyt Wilhelm of the Baltimore Orioles.

The team selected by the players has Bill Skowron of the Yankees at first, Nelson Fox and Luis Aparicio of the White Sox at second and short, Washington's Harmon Killebrew at third, and Rocky Colavito and Minnie Minoso of the Cleveland Indians, and Al Kaline of the Tigers in the outfield and Gus Triandos of the Orioles catching.

Stengel added Ygoi Berra, Yankees, and Sherm Lollar, White Sox, as catchers. Lollar was runner-up in the player poll to Triandos.

Stengel also added to the infield Frank Malone and Pete Runnels, Red Sox; Vic Power, Indians; and Roy Sievers, Senators.

For coaches Stengel chose Harry Craft, manager of the Athletics, and Tony Cuccinello of the Chicago White Sox.

Tough Field At Flint

FLINT, Mich. (AP) — The strongest professional field of the year tees off today in the first round of the $52,000 Flint Open Golf Tournament.

Led by defending champion Bill Casper Jr. of Chula Vista, Calif. the huge field tackled the longest course on the 1959 tour, the par-72 Warwick Hills Golf and Country Club. The course measures 7,280 yards.

Casper will be trying to shake off the letdown that came after his victory last month in the U.S. Open. He failed to survive the cut in last week's Chicago Open.

The winner of that one, Ken Venturi of San Francisco, was on hand for the Flint event along with Doug Ford, winner of the recent Canadian Open.

GPL MEETING HERE TONIGHT

A meeting of Graduate Pony League managers, and officials will be held tonight at the high school cafeteria, starting at 6:30, according to W. F. McMennamy, league president.

Purpose of the meeting is to discuss the possibility of hosting the regional tournament to be held in August.

McMennamy invites all interested persons to attend the meeting.

Opening Game Set In Girls Softball Loop

Weather permitting, the girls softball league will open its season tonight at the Girls Park in Towle Park.

The Girls League is sponsored by the Girls Recreation of Scurry County.

Three teams make up the league with a fourth team being sought.

The three teams already organized and their managers are:

H. C. Densor Fireballs — Dub Edwards.

American Legion Legionettes — Orville Hooker.

Mixon Tire and Supply Queens-C. J. Yoast.

Games will be played each Tuesday and Thursday night's starting at 7:30.

Any girl from the sixth grade through high school interested in the league are asked to call director James Wesson at 3-9914 after 5 p.m. or at 3-6303 during the day.

Strikeouts — Wynn, Chicago, 97; Score, Cleveland, 96.

Spring For Sale But Not For Cash

DALLAS (AP) — Jack Spring, the Dallas Rangers' left - handed pitching star, is up for sale but not for money. Club owner J. W. Bateson wants three good AAA players in exchange for the southpaw hurler.

Spring, who has a 10-6 record with the Rangers, was purchased for an unannounced sum from the Red Sox.

Bateson said that Dalas' problem is not money but players.

"If somebody offered me $75,000 for Spring today, I'd turn it down," Bateson said.

Ingo's Training Methods Have Fight Managers Wondering

By MURRAY ROSE
Associated Press Sports Writer

NEW YORK (AP) — Ingemar Johansson's sensational knockout of Floyd Patterson for the world heavyweight championship may revolutionize the training methods of American boxers.

From now on managers are going to have a tough time convincing their fighters that the spartan, monastic life is necessary to prepare for a fight.

Johansson lived in a luxurious ranch house just off the grounds of the plush Grossinger resort on the Catskill Mountains. He had most members of his immediate family and his fiancee, gorgeous, 22-year-old Birgit Lundgren with him.

He golfed, he swam and he danced.

True, he worked out about 15 rounds daily, including seven or eight rounds of boxing.

But as far as American, as well as most foreign observers were concerned, he might just as well skipped rope or punched the bag.

For in the ring he held back his vaunted right, the right that was mockingly called the "mystery" right. Most experts didn't believe he had it. If he did, why didn't he use it?

"I don't want to hurt my sparring partners," Ingemar patiently told one interviewer after another. "What good are they to me on the floor?"

In addition, Ingemar looked so terrible in the sparring you had to wonder if his record was a hoax. His sparring partners outpointed him daily.

"It was Ingemar's underlying over-all top condition that served as a backbone for his fight with Patterson," said Dr. Gosta Karlsson, Johansson's private physician.

"I think that Ingemar was better trained than Patterson. In America I think they train according to old fashioned methods. Working yourself up to a fine peak just isn't the way to do it."

"What really counts is the basic condition of the boxer. Ingemar has it for he trains 12 months of the year. I don't mean the boxing part of it. But he keeps a rigid scheduled of roadwork, runs at least one hour daily, summer or winter."

Johansson himself says roadwork and relaxing were important keys to his success.

"It's a matter of relaxing," he said. "People laughed when I said I stopped working five or six days before a fight. But I always do that. My muscles feel loose. I feel the power in my arms. Every day it gets stronger. I know I will have the power when I need it. It has not failed me yet."

How are you going to argue against success?

NEXT: Johansson's personality and his future.

P'view Leaves Soph Cellar

By The Associated Press

Plainveiw climbed out of the cellar while Hobbs, leader of the North Division of the Sophomore League, took a double victory Wednesday night.

The Athletics pulverized the Carlsbad Potashers, 12-2. The Hobbs Cardinals helped Plainview by downing the Artesia Giants 6-4 and 3-2. The losses jammed Artesia into fourth place in the North Division.

There was no action in the South Division Wednesday night. West grounds forced postponment of the Midland-Alpine and Roswell-Odessa games.

Jack Hanes gave up four hits as he went the distance for Plainview. He added seven strikeouts to his league-leading total.

Chris Krug's home run in the seventh gave Geno Parent a victory in the first Hobbs-Artesia game. Parent gave up four singles.

Thornton Signs As Palestine Coach

DALLAS (AP)—Luke Thornton, head coach at nearby Wilmer-Hutchins, resigned yesterday to take a similar post with Class AAA Palestine.

Thornton, who won district championships in 1956 and 1957, will succeed Weldon Bynum, who resigned to become superintendent of schools at Groveton.

13th Inning Homers Win For Amarillo

By The Associated Press

Two home runs in the 13th inning Wednesday night gave Amarillo a 4-2 victory over San Antonio and brightened the Gold Sox' chances of climbing out of the Texas League cellar.

The Sox advanced to only one game behind fifty - place Tulsa which absorbed a 6-4 beating from Corpus Christi. Second - place Austin trounced the leading Victoria 6-4. The Rosebuds remained a safe three games ahead of the Senators in the league race.

Amarillo and San Antonio batled scoreless through three innings, then the Missions went ahead with two runs in the fourth. Amarillo tied it 2-2 in the seventh and remained tied until Chuck Smiley and Jerry Adair knocked back-to-back homers in the 13th.

The Senators built up a 5-run lead in the first two innings and were in no danger until the Rosebuds threatened in the ninth. Charley Gorin replaced Ross Carter on the mound to nip the Victoria rally.

An early flurry of runs and pitching by Gaylord Perry accounted for Corpus Christi's victory. Perry had a shutout going his first homer in 15 innings.

Dallas Takes Lead In Tight AA Chase

By The Associated Press

Minneapolis, on the verge of a runaway in the American Association's Eastern Division, makes it look easy.

The Millers stopped second place Louisvile 4-0 Wednesday night to run their bulge to 6½ games over the Colonels.

That's the Millers' biggest advantage of the campaign although they led once before by the same span.

Third place Indianapolis also lost ground, falling 3-2 at St. Paul. The Indians now trail Minneapolis by eight games.

The Western Division got a new leader as Dallas displaced Fort Worth. The Cats lost to Omaha 1-0 in 11 innings as Dallas dumped half - game off the pace.

Denver shelled Charleston 14-3.

Two singles sandwiched around an error provided Omaha the game's only run at Fort Worth.

Dallas moved into the driver's seat in the West with its third straight victory. Keith Little had three of the victors' 11 hits and helped pitcher Joe Kotrany stop a three-game personal losing streak.

OUR VIEW

Danger Lurks On Highways

Modern technology has provided a multitude of time-saving devices and instruments capable of making life more enjoyable. Yet ironically, the same achievements endanger lives when they are mishandled, or involved in accidents.

Liquified petroleum gas has brought vast benefits to humanity. On a darker note: it was the death instrument for 20 persons (at the last count) in Alabama when a railroad mishap resulted in a horrible fire.

Just two days later, a jet fighter plane crashed into a [illegible] in Oklahoma, taking a similar toll of lives and property.

The Alabama train wreck, which sent flaming gas into a river filled with pleasure-seeking people, could have happened anywhere, even in some places where the death toll would have been far greater. So could the jet plane crash, despite the fact that subsequent investigation indicated that the pilot had taken every precaution to divert the plane to an uninhabited area before he bailed out.

Jet planes, or planes of any type for that matter, provide vital, swift transportation for both military and civilian benefits. But there is tragedy when one gets out of hand.

That brings us to the modern automobile. It's benefits to the American people are well known, but like the other products of our technology, it can become an agent of destruction when misused.

The National Safety Council has predicted that 350 persons will die in traffic mishaps over the July 4 weekend in the United States. The Department of Public Safety has forecast a toll of 26 in Texas.

"July 4 is a time to celebrate life, liberty and freedom, but it will mean death, destruction and sorrow if the people of Texas do not slow down and obey the traffic laws," said Gov. Price Daniel, who expressed alarm at the traffic death trend.

The highways will be danger-ways over the weekend.

Ike's Silence May Hurt Nixon Chance

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — Once again, as in 1956, President Eisenhower refuses to say whether he wants Vice President Richard M. Nixon chosen for high office. It was rough on Nixon once. It may be again.

Nixon, a man with many friends and many enemies [illegible] and despised.

In 1956, although he had some opposition within the party, he was front-runner all the way for the Republican vice-presidential renomination, yet the latest book on him indicates he must have had grave doubts about his chances.

Newspaperman Earl Mazo — in "Richard Nixon, a Political and Personal Portrait" — says Nixon three years ago, because of Eisenhower's reluctance or delay in endorsing him, seriously considered getting out of politics.

Now once again Nixon looks like a front-runner, this time for the Republican presidential nomination in 1960.

But Nixon never had in 1956—as he does now—anyone of the stature or popularity of New York's Gov. Nelson A. Rockefeller throwing a shadow across his path. Rockefeller isn't officially in the race—yet.

Wednesday, Eisenhower — in what sounded like an echo of 1956—told a news conference he will keep hands off the choice of the 1960 Republican presidential candidate.

Both early and repeatedly in 1956, Eisenhower refused to say yes or no to wanting Nixon as his running mate again. At the same time he denied reports his advisers had urged him to "dump" Nixon.

Eisenhower said he would be "happy" to have Nixon on the ticket with him. But he said it only after Nixon had received a large number of write-in votes in the New Hampshire primary.

Now comes some inside light on those days in Mazo's book which, the author acknowledges, was written with considerable help from Nixon.

Although Eisenhower denied the dump-Nixon report, Mazo says the President asked Nixon whether it wouldn't be wiser for him—if he wanted to run for president in 1960—to step aside and take a Cabinet job.

And Eisenhower, Mazo says, told Nixon [illegible] while Herbert Hoover moved into the presidency from a Cabinet job, no vice president in 100 years had been directly elected to the presidency.

Mazo says one of Nixon's friends told him Eisenhower's "reluctance to come out flatly and ask Nixon to be his running mate was one of the greatest hurts of his (Nixon's) whole career."

Even if Nixon is Eisenhower's personal choice for president in 1961, Eisenhower would be sticking his neck out if he said so now. The reason is simple enough.

A lot of things can happen—some of them to Nixon's dismay—between now and the Republican convention next summer. Besides, Eisenhower has no way of telling now how the convention delegates will feel by that time.

By next summer Rockefeller may be in the race up to his neck. And, while professional Republican politicians may be indebted to Nixon for many favors of one kind or another, they are still professionals.

If by convention time they think they can win with Rockefeller and would lose with Nixon, they're apt to forget the Nixon favors. But at least Nixon, working on the inside, will have a year to try to nail down the nomination.

Cowherd Is Named

RICHMOND, Va. (AP) — The new chairman of the State Board of Agriculture and Immigration is Roderick G. Cowherd of Gordonsville. Cowherd is a cattle farmer.

Building Goes On At A Record Pace

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — That old joke "New York would be a nice city if they could ever get it built" is now applicable to most of the nation.

Construction for the United States as a whole is proceeding today at a record pace.

It's likely that the entire year will set new peaks. Two things that might prevent that are a steel strike—structural steel is one of the products in shortest supply—and a tightening money situation that could cut off mortgage funds.

But the construction industry is confident for the long run. America's backlog of needs for homes, offices, highways, schools, hospitals and various public buildings seems to grow faster than builders can put new installations into place.

The Labor and Commerce departments report that the value of construction put in place in June set a record for the month. For the first half of the year the spending is put at 25 billion dollars, or 3¼ billion more than in the first six months of 1958, and a record setter.

Much of the increase over last year has been in home building—10¼ billion dollars this year against 7¾ billion last. Many construction industry analysts expect this pace to slow. One of them, George Cline Smith, economist of F. W. Dodge Corp., however, says, "I don't expect the decline to be severe."

But another form of building is expected to pick up after a year of contraction. That is industrial building. During the recession it was apparent that many industries had built facilities beyond the demand at that time for their products.

With the recovery and the indications that a new business boom is starting, the excess of capacity is expected to disappear. A new industrial expansion will start—if construction industry experts are right.

Public construction spending has been increasing. In the first half of 1959 it is put at 7½ billion dollars, nearly one billion more than in the like period last year.

Recent large flotations of state and local bonds indicate that the construction of state and civic facilities to meet past population growth will continue. And since all signs point to still greater population growth, the construction industry expects to be kept busy for years to come.

Woman Is Stabbed On Detroit Street

DETROIT, Mich. (AP) — A young woman was stabbed to death on a city street Wednesday night, second slaying of its kind within six weeks.

Police identified the victim as Lorraine Sharon Smentowski, 20. She was found dying on a lawn with 16 stab wounds in her chest, back and arms.

The killing was in the same general area where Mrs. Patricia Cioffi, 27, was stabbed May 21. A 15-year-old boy has admitted killing Mrs. Cioffi. He is being held.

Police said they had not determined whether Mrs. Smentowski had been raped.

Arising From Bed Is Test Of Will

By HAL BOYLE

NEW YORK (AP) — Curbstone comments of a Pavement Plato:

Mankind's hardest industry is getting out of bed every morning. It is the greatest test of the human will.

Civilization only makes the problem worse. In caveman days, a man got out of bed for only one reason — he was hungry. It made sense for him to arise rather than lie there and starve.

But today everybody is on a diet. It is fashionable to starve. Therefore it makes more sense to stay in bed. Why starve on your feet when you can starve comfortably lying down?

The worst demand of civilization is that a man get out of bed every morning — or at least five days a week — at the same hour. It is inhuman and unnatural. Can you name any other animal in nature that gets up every day at the same time?

Bears don't. Tigers don't. Rats don't. Mice won't. Even at a racetrack the starter is unable to wake up all the horses at the same moment — particularly the horse you have bet on.

Man's normal attitude toward a bed is very simple. It is the last thing he wants to go to at night — and the last thing he wants to leave in the morning. He fights sleep as long as he can. But once he surrenders, he surrenders all the way.

Now and then you hear a fellow brag about how he likes to leap out of bed, nimble and clear-eyed, eager to greet the rising sun and meet the fresh challenges of another day. I always feel a bit sad when I go to these fellows' funerals later — cut off, as they so often are, in the very prime of life.

Getting out of bed is a real test of character. Obviously, anybody who can jump easily and merrily out of bed has no character. And that's what eventually mows them down in the stern strain of living — lack of character. Also lack of strength. They wear out all their strength leaping out of bed in the morning. By noon they are hollow-eyed. By 50 they are dead, and unmourned.

Junior Editors Quiz on MAGIC

QUESTION: Who were the first magicians?

• • •

ANSWER: A magician today is an entertainer who pulls rabbits out of hats and makes things seem to change or disappear. But it was not always that way. In the olden days, a magician was a man of great importance who was believed to be able to control the mightiest events.

Right from the earliest days of recorded history, there were men supposed to have supernatural gifts whose only job was to use their magic to make it rain or cure people by casting a spell or even injure people by sticking pins in little statues.

Traces of this old belief in magic still exist today. We call it superstition. If you regard a black cat or Friday the 13th as unlucky, or if you think finding a four-leaf clover will bring good fortune, then you still have some belief in magic.

Amateur and professional magicians today belong to groups that have branches in principal cities all over the world. They take an oath never to reveal the secrets of magic to non-members.

• • •

FOR YOU TO DO: Here is a picture of a magician in ancient Egypt mystifying a boy by making a strange bush grow right before his eyes. Color the picture, using bright colors for the magician's clothes.

• • •

(Mark Reynolds of Richland, Wash., wins $10 for this question. Send your question on a postcard to Violet Moore Higgins, AP Newsfeatures, in care of this newspaper. If duplicate questions are received, Mrs. Higgins will select the winner.) 7-2

Colonel Urges Parents To Stay Home

TOKYO (AP)—A U.S. Air Force colonel is urging parents in his command to stay home and take care of their children.

Col. Charles W. Johnstone, of Sacramento, Calif., commander of the 6000th Support Wing, said he is deeply concerned with some parents' shirking of moral responsibilities for child guidance, child training and child discipline.

"A large number of children have been for all practical purposes deserted by their parents," he stated in the wing's weekly newspaper.

"There have been many serious incidents involving American children which can be traced directly to a lack of parental control. Almost invariably, the parents of the children were not at home at the time of the incident."

Johnstone did not elaborate but, there have been reports juvenile delinquency by American kids. Last April, five youths were sent back to the United States after an 18-year old Japanese girl said she was raped by nine Americans.

"No maid however competent can be expected to properly control and discipline her employers' children," Johnstone said. "No maid should be expected to accept this responsibility.

"The combination of low-priced entertainment in the military clubs and low-priced domestic help in the homes (in Japan) has given many couples the freedom they have missed since their first child was born."

Rockefeller Hunts 'Czar'

ALBANY, N.Y. (AP) — Gov. Nelson A. Rockefeller begins a search today for three commissioners to replace George P. Monaghan, ousted as New York state's "czar" of racing.

Monaghan, appointed by Thomas E. Dewey five years ago to clean up the then gangster-ridden sport, was voted out of office Wednesday amid a scandal that hurt his own reputation.

At Rockefeller's request, the Legislature, meeting in special session, passed a bill substituting a three-man agency for Monaghan's one-man rule.

Less than an hour after the session adjourned, Rockefeller signed the measure into law. The changeover must be made by Sept. 1.

The lawmakers also voted to end the multimillion-dollar state subsidy for harness-track expansion, a program that Monaghan administered, and elected a speaker of the Assembly to succeed the late Oswald D. Heck.

The new speaker is Joseph F. Carlino, Long Beach, Republican. Monaghan has been accused by state investigators of accepting free meals, liquor and other favors from the tracks he supervises. Rockefeller asked him to resign but he refused, denying any wrongdoing.

George Liberace's Wife Asks Divorce

RIVERSIDE, Calif. (AP)—"We just live different lives," George Liberace's wife said after suing for divorce Wednesday.

She told reporters that George—violin-playing brother of pianist Liberace—"is away so much of the time. I tried to keep up with him, but it was impossible. My health suffered."

Mrs. Jayne Shields Liberace's complaint charged mental cruelty. Its only specific allegation: "He comes in late and frightens affiant."

She asked $1,135 monthly temporary alimony and said the violinist earned $60,000 last year. A hearing on her alimony request will be held July 17.

Star Fails To Show For Judo Match

HOLLYWOOD, Calif. (AP) Lawyer Arthur Crowley waited, but television star Wayde Preston didn't show up Wednesday night for a judo match.

Crowley commented, "The whole thing was very foolish anyway."

He said they were to have met at his office.

Crowley said previously the Japanese style encounter was agreed to Sunday night during an argument at a party. He said they bet $5,000 on the outcome.

Warner Brothers studio notified Preston, star of Colt .45, Tuesday that he must not go through with the match.

Boy Electrocuted By Worm Catcher

MERIDIAN, Idaho (AP) — Eleven-year-old Jan Reynolds was electrocuted while demonstrating a device used to bring fishing worms to the surface of the ground.

Police said he stepped barefooted on a water-flooded lawn at his home while demonstrating the electrical gadget to his companions.

LEGAL NOTICE

The Snyder Consolidated Independent School District invites bids on the following:

Cafeteria foods by 12 noon July 10.

Printing of school forms by 12 noon July 10.

Instructional supplies, practical drawing, by 5 p.m. July 14.

Interested bidders contact school business office for bid list.

E. D. Flynn
School Board Secretary.

Pope In Appeal For 'Truth, Unity, Peace'

VATICAN CITY (AP) — Pope John XXIII appealed today to the leaders of rival nations to "try every approach" for peace because a war with nuclear weapons would destroy victor and vanquished alike.

The Pope also appealed for Christians to unite. He urged the press, movies and television to counteract what he called a spreading tendency toward falsehood and immorality.

"Truth, unity and peace" were the subjects of his first encyclical letter to the bishops since his coronation eight months ago.

The encyclical began with the words "Ad Petri cathedram"—"Near Peter's chair." It was dated June 29, feast day of St. Peter, and was released for publication today.

The pontiff warned that if nations do not aim at "fraternal unity which must rest on the precepts of justice and be nourished by charity, conditions of gravest crisis remain.

"As a result, all prudent men complain and grieve that it seems to be uncertain whether the same events are moving toward the establishing of a solid, true and genuine pace, or are slipping in complete blindness toward a new and frightful warlike conflagration.

"We say in complete blindness: a new war breaks out, nothing else will await or confront all peoples, (such are the dreadful armaments which our age brings into play) but appalling destruction and ruin; and this, whether they are victor or vanquished.

"We therefore ask all, and statesmen in particular, that they ponder these matters prudently and earnestly before God the Judge; and, as a result, with genuine good will, be ready to try every approach which may lead to the essential unity. This harmony and unity, by which alone, we say, the joint prosperity of nations will undoubtedly be increased, will be able to be restored only when minds are at peace and the rights of all recognized, and due freedom shine forth for the church, for peoples, and for the individual citizen."

The Pope urged the leaders of nations to remember that "God created men not as enemies but as brothers."

He warned repeatedly and in plain language of the ruin which will result "if the fires of discord are set ablaze" again in a world which he said already has seen too much of war.

"Why prepare death dealing weapons against our brother?" he asked. "Already there has been enough strife among men. Already too many cemeteries of those fallen in war cover the earth's surface and solemnly warn that all should be, at long last, brought back to harmony, unity and a just peace."

In the first section the pontiff wrote of the search for truth. He referred specifically to the responsibilities of the press, the movies, and television.

In the second part, he wrote of unity in the desire for peace on and social classes.

In the third section he mentioned the Ecumenical (universal) Council of the Roman Catholic Church which he has called. He said this council would contribute to the unity of the church.

The Pope said the Roman Catholic Church is "the father house of all Christianity" and that its doors are open for all to re-enter.

More Items On Week's Bargain List

By The Associated Press

Three more new food items in especially good supply and at in-season prices at Texas markets this week were listed by the Agriculture Marketing Service.

It said the items are limes from Mexico and Florida, peaches from Texas, Arkansas and California, and bell peppers from Texas and California.

Held over on the list of plentiful foods were bananas, cantaloups, sweet corn, cucumbers, okra, field peas, plums, tomatoes, medium yellow onions and watermelons.

Only a few items on the Texas markets were considered higher in price over last week.

In the other direction, the same number of items were considered lower in price than last week. These were celery, red and white new crop potatoes and strawberries.

Unchanged in price from last week were cauliflower, carrots, grapefruit, lemons, oranges and nectarines.

New shipments reaching Texas markets were bing cherries from Washington pole beans from Alabama and North Carolina, and eggplant from the Houston area.

Texas Broilers have increased in price since last week but are still considered a bargin. Eggs are also slightly higher.

Hope For Balanced Budget

By JACK BELL

WASHINGTON (AP) — Senators Everett M. Dirksen (R-Ill) and Harry F. Byrd (D-Va) agreed today there is a good chance that the federal budget will be balanced this year.

Dirksen, Senate Republican leader, said that if this is done, President Eisenhower will deserve most of the credit.

Byrd, chairman of the Senate Finance Committee, disagreed on that point in a separate interview. He said that rising revenues—rather than actions by either the President or the Democratic Congress—will account for any balance reached.

Eisenhower told his news conference he is working not only to balance his 77-billion-dollar budget for the current fiscal year but to build a surplus from which the country can start paying something on its debt.

Byrd tabbed this as a laudable objective, but he said any balance is going to be a tight one, with little surplus.

"If the budget is balanced, and I think it may be, it will be balanced by increases in revenue brought about by improved business conditions," Byrd said. "I would like to see it brought about by reductions in expenses because that is the solid way to do it. You can't always depend on the upward trend in tax receipts being sustained."

Dirksen said congressional approval of some longrange spending programs could threaten future budgets.

"If we get a balance, the lion's share of the credit should go to the President," he said. "The President led the efforts to take this issue to the country and the country has responded."

Perfect Frosting

Add a couple of tablespoons of orange juice and some grated orange rind to currant jelly and use as a filling between white cake layers.

Uranium Upgrader Set To Continue

SAN ANTONIO (AP) — John Milton Addison, facing federal, county and state suits and court orders, says he'll remain in business with a machine he claims can rejuvenate uranium mines.

The 31-year-old promoter said yesterday "The conspiracy cannot completely put me out of business." He acknowledged the series of actions is making it difficult to operate.

Addison returned here yesterday to post $10,000 bond on the latest indictment returned against him by the Bexar County Grand Jury.

The indictment alleges Addison has been selling securities without a license.

Addison said he plans to move from his $180-per-day hotel suite to the homes of some of the people who have loaned him money for development of the "Benson Upgrader."

State and local officers claim the loans total more than a million dollars.

Addison said the latest indictment "is some more of that harrassing I was talking about. They can make it harder but when you get straight, honest people like I've got behind me mad at you, you've got a formidable opponent."

The action came after he was served in Dallas with a summons for a Federal Court hearing July 10 and a Federal Court order to cease soliciting loans and to refrain from disposing of his assets.

Another Dallas development was the announcement by the Internal Revenue Service that a $400 to $600 assessment is pending against Addison.

James M. Cooner, chief of the IRS intelligence division, said two agents are working on the case and citations will be served soon.

Hot Weather Due In South During July

WASHINGTON (AP) — The the eastern heat wave will break this week. But they expect July will average warmer than normal for the southern half of the nation.

They issued the following report today:

"The Weather Bureau's 30-day outlook for July calls for temperatures to average above seasonal normals over the southern half of the nation, below normal over the northern third and near normal in between. The first week of the month will see a break in the current heat wave over most eastern portions of the nation.

"Precipitation is expected to exceed normal over most of the northern third of the country, while subnormal amounts are predicted over the lower Mississippi Valley and in the far Southwest. Near normal rainfall is indicated in unspecified areas."

TEC Set To Move Into New Building

AUSTIN (AP) — The Texas Employment Commission will begin transferring 686 employes and 11,000 items of furniture and equipment to its new building July 16.

The commission said 11 downtown offices here will be shifted to the building north of the capitol.

The commission said 48,499 individuals got jobless pay checks last week.

State payments totaled $846,975, down from $852,608 the previous week and $1,524,463 for the corresponding week a year ago.

. . . CONSTANT IMPROVEMENT IN GASOLINE QUALITY, CLIMAXED IN OUR GREAT NEW CHEVRONS

There *is* a big difference in gasolines -- and it's refining that makes the difference . . . . Besides the finest crude oil, our new Chevron Gasolines contain special ingredients, perfectly blended by the most modern machines and methods, to add to your car's life and performance -- save you money in the long run.

Ordinary gasolines without these additives may seem like a bargain, but only a gasoline with *all* the performance qualities your car needs can give you full value for your motoring dollar.

Yes, it's safer -- and smarter -- to "go first class" in the fuel you buy for one of your most expensive and prized possessions . . . This weekend, try a tankful of one of the true-quality gasolines you'll find At the Sign of the Chevron . . . You'll *really* be driving a bargain.

NEW BLUE CHEVRON SUPREME
