

9-Day Crude Flow Pattern For December

AUSTIN (AP)—The Railroad Commission ordered today a 9-day producing oil pattern during December in Texas. The calendar day allowable will be 2,519,379 barrels, an increase of 131,302 barrels.

The Bureau of Mines forecast of demand for Texas crude next month is 2,615,000 barrels, based up 75,000 over November. Purchaser nominations total 2,616,945 barrels a day, 12,783 less than in November.

151 Children Die In Fire At Damascus

By FAROUK NASSAR DAMASCUS, Syria (AP)—The worst fire disaster in memory killed 151 children in a movie theater at Amnude, 400 miles northeast of here on the Turkish border.

Almost every family in town lost at least one child in the roaring blaze Sunday that started with an explosion in the projection room. It quickly spread through the wooden ceiling and walls of the movie theater, where the children had gathered to see an educational film at a special showing.

The panicky shrieks of children trapped inside mixed with the cries of their parents trying to save them. Many parents dashed frantically through the flames, plucking children to safety, press reports said.

U. N. Pulling Katanga Units

ELISABETHVILLE, Katanga (AP)—U.N. troops, menaced by growing bands of hostile tribesmen, began pulling out of danger areas in northern Katanga today.

Woman Hurt In Traffic Mishap

Edna Wells of the Lubbock Highway was being treated in the emergency room at Cogdell Memorial Hospital at noon today following a truck-car collision at the intersection of Thirteenth Street and Avenue S. Extent of injuries and damages were unknown. She was carried to Cogdell in a Bell ambulance.

SHOOTING PROBE GOES IN REVERSE

SAN ANTONIO (AP)—Police were working backwards today in a shooting case. They had the gunman but couldn't find the victim.

The victim, identified as Jesse Santoy, 25, was shot shortly before midnight at a tavern near Ft. Sam Houston. He and the gunman had fled by the time officers arrived.

WINTER PLAYLAND—Even if the winter visitor is not prepared to swim in the Gulf of Mexico, visitors to South Padre Island usually have to at least get their feet wet.

Capsule Snagged By Proud Airmen

By HENRY HARTZENBUSCH HONOLULU (AP)—The U.S. Air Force did it again Monday, plucking a Discoverer satellite capsule out of the skies for the second time.

The Air Force, which calls the gigantic recovery area a "ball park," could point to a climbing fielding average.

Kennedy To Arrive In Texas Tomorrow

AUSTIN (AP)—President-elect John Kennedy will arrive here Wednesday at 4:30 p.m. for a 24-hour conference with Sen. Lyndon Johnson. Kennedy will leave at 5:30 p.m. Thursday, Air Force officials said.

New Orleans Teen-Agers In Integraion Protests

NEW ORLEANS, La. (AP)—Policemen repulsed 100 or more teen-agers today trying to break into the grounds of McDonogh No. 19 public school, one of two integrated Monday for the first time.

The teen-agers defied police orders to stay on the opposite side of the street from the three-story school.

Parr Ranch Property On Auction Block

SAN DIEGO, Tex. (AP)—A historic South Texas ranch goes up for auction today, and prospective buyers will need a lot more than pocket change.

On sale to satisfy creditors of political boss George Parr—with the advance stipulation that bidding start at \$1 million—is the 55,700-acre Dobie ranch.

Five Firms Burned Out In Knox City

KNOX CITY, Tex. (AP)—Five businesses on the main street of this North Texas town were burned out today. The fire was going strong when volunteer firemen reached the scene shortly after 3 a.m.

25 Congressional Seats To Shift

WASHINGTON (AP)—Texas will not take effect until the 1962 election. 16 states will lose seats as a result of the 1960 census, the government said today. This will give Texas 23 representatives.

Robots May Spot Candidates For Disease Among Students

Dr. Williams said Dr. William told the autumn meeting of the National Academy of Sciences Monday that information on the particular, "pattern" of a given individual, if fed into a computing machine, conceivably could strongly indicate whether he was susceptible or resistant to a given malady.

At the William Frantz school, several children walked along the opposite sidewalk carrying signs reading "We don't want a federal dictator" and "Keep the niggers (sic) away."

No Action On Petition

No action was taken by the City Council last night on a petition calling for an election on proposals to amend the city charter.

The council received a report from K. O. Pitter, city secretary, certifying that 419 names on the petition had been determined to be qualified voters in the city. The total number of voters in the city is 4,709.

Thus, the petition as submitted last week fell 52 short of the 10 per cent required.

The council first had a motion to deny the election, but tabled that motion in favor of one to delay action for one week. The first motion was tabled after three women representing the petitioners asked for an opportunity to check the petition.

Frantz school and hustled him away. Officers said he was carrying a concealed weapon but it turned out to be a toy pistol.

TEXAS TO GAIN ONE

California will be the biggest gainer, adding eight seats to the present total of 30. Florida will get four new seats, making the new total 12. There will be gains of one seat each by Arizona, Hawaii, Maryland, Michigan, New Jersey, Ohio and Texas.

The biggest loser in the prospective reapportionment will be Pennsylvania which will lose three of 30 seats. New York, Massachusetts and Arkansas will lose two seats each and the following states will lose one each: Alabama, Illinois, Iowa, Kansas, Kentucky, Maine, Minnesota, Mississippi, Missouri, Nebraska, North Carolina and West Virginia.

By law, the number of House seats are reapportioned every 10 years on the basis of the regular census. The reapportionment is worked out mathematically at the Census Bureau, then is sent to the secretary of commerce who transmits it to the president.

When Congress reconvenes in January, Eisenhower will inform the clerk of the House of the number of seats to which each state will be entitled in the 88th Congress which will be elected in November 1962.

Monday, came back today to take their children's books from the school.

Spring Weather Endures In State

By THE ASSOCIATED PRESS WARM, moist air continued to envelop most of Texas in springlike weather Tuesday.

It was cloudy in all sections and light rain or drizzle fell around Lubbock and San Antonio before dawn. It was foggy in the Beechmont and Houston areas on the coast and also at Wink in far West Texas.

Temperatures before dawn ranged from 52 degrees at Dalhart and 53 at Amarillo to 75 at Alice, Brownwood and Corpus Christi. Most other readings were in the low 70s.

Forecasts promised continued warm weather and scattered showers everywhere except North and West Texas. Southwest Texas, where it was expected to turn a bit cooler by Wednesday.

One federal official, asking that his name not be used, said earlier that "if we are going to have violence, it'll come Tuesday."

WEATHER

SNYDER TEMPERATURES—High today, 79 degrees; low 58 degrees, reading at 6 a.m. today, 66 degrees.

North Central Texas—Considerable cloudiness and humid this afternoon and tonight. Scattered showers Wednesday. Low tonight 65 to 70. High Wednesday 75 to 80.

South Central Texas—Considerable cloudiness and humid this afternoon and tonight. Scattered showers Wednesday. Low tonight 65 to 70. High Wednesday 75 to 80.

Southwest Texas—Partly cloudy and warm with widely scattered showers this afternoon and tonight. Clearing and cooler late tonight and Wednesday. Low tonight 60. High Wednesday 70 to 75.

Say Nixon Cool To Appointments

By MARVIN L. ARROWSMITH
PALM BEACH, Fla. (AP)—President-elect John F. Kennedy was reported today to have discovered that Vice President Richard M. Nixon has reservations about the idea of Republicans taking key positions in the new Democratic administration.

A key to any reliance on Nixon's support in the Kennedy administration is underlining top positions under Kennedy to have sounded out the Kennedy-appointed vice president on this matter at their history-making conference Monday at Key Biscayne, Fla., where Nixon is vacationing.

Kennedy returned to his headquarters here immediately after the 45-minute meeting and prepared to confer at lunch today with a Democrat who may get a Cabinet post or some other top position in the Kennedy regime. He is Connecticut Gov. Abraham Ribicoff, a key adviser to Kennedy during the campaign.

Kennedy told a news conference after his session with Nixon that he did not offer the vice president a post in the new administration.

But sources in a position to know said Kennedy discussed with Nixon the possibility of naming some Republicans to important positions, particularly in the fields of foreign policy and national security.

Nixon, it was understood, did not speak flatly against the idea. But he is known to question whether the possibility of naming some Republicans to important positions, particularly in the fields of foreign policy and national security.

FARM BUREAU QUEEN—Kay Botard, 17, an attractive Jim Wells County girl from Alice is crowned queen of the Texas Farm Bureau in Dallas by J. H. West, of Bishop, president of the organization. Miss Botard is a freshman at Texas Tech in Lubbock, majoring in home economics education. She is the daughter of Mr. and Mrs. Ernest Botard. (AP Wirephoto)

Panel Divided On Mission To Congo

—The U.N. Congo advisory committee remained split today on what to do about dispatching a conciliation commission to the chaotic African state.

—The Congo advisory committee failed after haggling for four hours Monday night to decide when to send its mission to the new African state.

public to try to bring warring factions together. It will meet again Wednesday.

One element in the committee it is reported, contends there is no sense in sending a 15-member mission all the way to Africa to try to bring President Joseph Kasavubu and his arch rival, deposed Premier Patrice Lumumba together since Kasavubu is in New York.

The Congolese president came here last week to claim the Congo's empty seat in the General Assembly. The United States put a resolution through the credentials committee naming Kasavubu as head of the Congo delegation, but the recommendation is expected to run into bitter opposition in the assembly where the Soviet bloc and many Asian-African states favor Lumumba.

Some members of the committee are said to favor bringing Lumumba to New York while Kasavubu is here and try to effect a reconciliation on the spot. This suggestion did not gain much headway, informants said.

The United States, it is reported, wants the assembly to meet this week but the credentials issue has not made any move to call for a plenary meeting.

Western delegates believe they can muster enough support from the Latin American bloc and members of the African French community to seat Kasavubu.

The United States could run into another defeat, however, if the 45 Asian-African nations team up with the nine-nation Soviet bloc as they did last week when they adjourned the Congo debate over American opposition.

Jaja Wachuku, chief of the Nigerian delegation, has made known he would oppose the credentials committee's recommendation to seat Kasavubu. Other African delegates have indicated privately that if the issue is brought to the assembly floor, they will vote for another postponement.

MARKETS May Resume Doctor Draft

WASHINGTON (AP)—Drafting of doctors, unnecessary for nearly four years, will be resumed unless more young physicians volunteer for military service.

The Defense Department notified more than 4,500 hospital interns who it said Monday have ignored application forms. They were given until Dec. 1 to complete the forms.

Dr. Frank B. Berry, assistant secretary of defense for health and medicine, said the volunteer program started in 1954 seems to have worked so well that many young doctors no longer think a draft may be in store for them.

But Berry noted that the doctor draft law extends into 1963 and said the department will not hesitate to draft 650 doctors next spring if it has to.

NEW YORK (AP)—Cotton was 18 to 20 cents a bale lower at noon today. December 37 1/2, March 32 1/2, May 32 1/2.

Demos Gain In Canvass

The Democrats gained and the Republicans lost in the canvassing of Sevier County voters by the Commissioners' Court Monday, with a good number of write-ins.

Southwest Snyder, one of three county voting boxes to go Republican in the Nov. 8 election, showed a gain of 10 votes for the Kennedy-Johnson slate, while the Nixon-Lodge ticket lost 8, making the official tally 751 not 741 for the Democrats and 884 not 893 for the Republicans.

Both tickets lost 5 in the Hermitage voting box along with Governor Price Daniel and William Stearns.

Bob McAlister and Art Blanchard led for the most votes in the write-in campaign with McAlister getting 4 votes for congressman and 3 for state representative and Blanchard receiving 6 for district judge and one for county attorney.

Most popular spot for write-ins was that for district judge with the votes for Blanchard and Edgar Taylor, R. W. Webb, James Rossiter, Carl Dillaha, and Gene Dalaney.

Bill Love led the write-in nominees for sheriff with 4 votes, with

Little Change In Eiland's Condition

Condition of Bill Eiland, Snyder city councilman who was injured in a traffic accident Saturday, was reported virtually unchanged this morning.

It was reported that Eiland showed some sign of recognizing members of his family, but apparently had not completely regained consciousness.

Pleas Heard In Court Here

Two pleas of guilty and three of innocent were heard in county court this week.

H. O. Wells pleaded guilty to a charge of stealing a 22 automatic Beretta from George M. Hale and was sentenced to 90 days in jail. The gun, stolen Nov. 3, was valued at \$25.

Esmal Gonzalez received a 30 day sentence after pleading guilty to unlawfully carrying a pistol.

Johnny Deboys and Gurelleme Deboys pleaded guilty to charges of aggravated assault with a knife upon the person of David De Lacruz on Saturday night. Bond was set at \$1,000 each.

Leon Floyd Walker of Slaton pleaded not guilty to a charge of DWI with his bond set at \$750.

C-City's Liquor Vote Set Dec. 10

COLORADO CITY—City voters here will decide Dec. 10 whether the legalized sale of liquor for off-premises consumption will be permitted in Colorado City.

The Mitchell County commissioners court set the election date Monday in response to a petition bearing the names of 455 city voters.

NEW TEMPEST

AMERICA'S ONLY FRONT ENGINE REAR TRANSMISSION CAR
155 H.P. FROM FOUR CYLINDERS*

The new-size Tempest is primed to scoot on less gas! Five hot versions of the Trophy 4 engine. 110 to 155 h.p. Any choice will move out in a hurry, sail up a steep hill in high gear, has the power for quicker, safer passing.

Front engine is balanced by rear transmission. (Standard shift or extra-cost automatic.) Takes weight off the front. Easy steering. Longer tire life. Adds ballast in the rear. Improves traction and braking. No big floor hump. Foot room and leg room for six men. Independent suspension at all 4 wheels. Most other cars only have it in front. Wide-track, too. The Tempest wheels are set farther apart than the wheels of other new-size cars. Gives a solid station. Secure cornering. There's a 4-door sedan and a station wagon.

Prices come close—of even beat—the tags on the compacts. If you're figuring on a new car—figure on a new Tempest.

U. S. I. S. Has Program To Recoup Scientific Ranking

BY INEZ ROBB

MILAN, Italy. — Now that the scars of political battle are beginning to heal at home, I don't want to open any old wounds.

Still, Uncle Sam has an exhibit in Milan aimed at bolstering or refurbishing the old, pre-Sputnik image of the United States as not only first in war and first in peace, but also first in scientific progress and know-how.

It is a small exhibit that aims at getting its message across subtly rather than with force and more than a table model producing solar energy. When the sun, streaming through a window in the headquarters of the United States Information Service, strikes a certain part of the model, the mechanism begins to operate and wheels turn.

The model is simple and inexpensive. But the multitudes of Italians who use the U.S.I.S. library and its supplementary service, and who must pass the model in the lobby, are sure that Uncle Samuel's hand hasn't lost its cunning.

Seven or eight years ago, if it is doubtful if the government would have ever considered such an exhibit. At that time, America's position of leadership in the scientific world was so taken for granted — at least in Washington — that U.S.I.S. librarians were ordered to get rid of their technical and scientific sections.

It was then reasoned that America's scientific eminence was so widely acknowledged it was wasteful to emphasize it when other sectors of life in the United States could be highlighted with more benefit to all concerned.

Now, Uncle Sam is once more technical and scientific books and publications as well as all kinds of professional journals from engineering to medicine, so popular is this department, now reborn, with scientific groups as well as with individuals that the material must be read in the library itself and is not available on loan as are other books in the library.

But there is great irony in an Italian footnote to the history of Sputnik I that rocked American scientific prestige. All the newspapers in the city, including the Communist sheet, came to the U.S.I.S. for pictures of American rockets with which to illustrate follow-up stories on Sputnik and the new age of space it inaugurated.

Russia has released no pictures of her rockets, with the result that pictures of American rockets, all duly identified as such in print, were used by Italian dailies during the first days of Sputnik I.

I ran into the solar model when I went to the U.S.I.S. to see what it possessed — Leonardo da Vinci, whose "The Last Supper" draws millions of tourists like myself to Milan. Time has dealt brutally with the great painting, but it is a miracle that its noble wreckage was miraculously spared during World War II when the ancient refectory that housed it was almost totally destroyed by bombing.

It's Still A Small World

MIAMI, Fla. (AP)—Judge Frederick Barad took a long hard look at a traffic offender who appeared before him Monday.

"Where are you from?" asked Barad, a native of Czechoslovakia who served with Czech guerrillas during World War II.

"From Hungary," replied Arthur Schindler, 39, North Miami Beach.

This confirmed Barad's belief that he had once had Schindler in a slave labor camp. Barad had observed the camp and the workmen while on a detail to blow up a railroad bridge.

Barad told Schindler he was glad to see he had made it through the war. Then, putting memories aside, Barad returned to business and fined Schindler \$10 for going the wrong way on a one-way street.

But there's much more of Leonardo, the most gifted of Renaissance men in Milan than "The Last Supper." This city houses 1,700 of his magnificent drawings, extraordinary not only for their beauty but for their wide range of subject matter and their scientific scope.

Leonardo, an intuitive scientist whose drawings foreshadowed by centuries such recent Russian inventions as the horseless carriage and the flying machine in miniature at the U.S.I.S. although it baffles this child of the 20th Century.

But it does seem a bit fateful that Leonardo should have led me into the U.S.I.S. where I chanced upon a mechanism that is part of a program to recoup the United States' scientific reputation.

Questions That Lead To Trouble

By HAL BOYLE

NEW YORK (AP) Questions that only lead to trouble — if you don't watch your answers.

"Will you have one more for the road?"

"My little boy tells me that your little boy has been bragging that his father can knock the wheel off my little boy's father."

"Do you want me to see if I can fix your television set? I'm no expert, but it's probably just a loose connection, so if you'll just get me a pair of pliers, a hacksaw and a hammer, I'll be glad."

"Really, this time I want your honest opinion. What do you think of my new hat?"

"Where d'ya think you're going — to a fire?"

"Oh, it's only midnight. Don't you want to stay for just one more hand, and recoup your losses?"

"If your young daughter likes to see kittens, why don't you bring her by our house this afternoon? We have six new-born ones."

"It is okay then if we put you down to play Santa Claus at our annual Christmas party? I can tell you now, you'll have the time of your life."

"If you think these martini aren't quite dry enough, perhaps you'd help me make the next batch."

"Don't you think if you gave the wheel a sharp turn to the left, you could squeeze the car in there without tearing off that guy's bumper?"

"Are you the father of the little boy who has been going around the neighborhood demonstrating his new slingshot?"

"Every time you come home from a college reunion you start talking about that girl you dated when you were a sophomore. Just what did she have that I don't have?"

"Gee, what do you think of the idea of inviting mother to spend the winter with us?"

"The hand instructor says junior has natural musical talent. Is it all right if I let him start taking tuba lessons?"

"These dress does the most for me — the \$125 corduroy or the \$38 tweed?"

"Are you just going to stand there and let that big bully insult me?"

"Just who do you think you're pushing Mac?"

"If something happened to you, you would want to leave your dear ones amply protected, wouldn't you?"

"Daddy, would you mind showing me how you used to turn a cartwheel when you were a boy?"

"Mind you, I don't like you men. What's your frank opinion of how I'm running the department?"

"If you think it should be easy to run a movie on the money you give me, how would you like to try it yourself for a week or two?"

"Just for the fun of it, how'd you like to act as umpire for Little League games this season?"

"All right, big month, just tell me what you think your life would have been like if you hadn't married me."

In the early days of America, the Potomac River played a large part in new world commerce. In fact, Potomac is an Algonquian word meaning "trading place."

Admiral, Wife Killed In Plane Crash

By CARL ZIMMERMAN
 MANILA (AP)—Two U.S. Navy plane crashes at approximately the same spot today claimed the lives of 10 persons including the admiral commanding the base at Subic Bay.

Killed along with Rear Adm. Arthur T. Spring, 52, was his wife, Clare, 52.

Also killed were the admiral's aide, Lt. (jg.) Karl Ziegenhagen, Gary, Ind.; the pilot, Lt. Cmdr. Wade K. Smith, Clinton, Tenn.; the copilot, Lt. (jg.) Kenneth Cowles, whose father, Frederick, lives in San Marino, Calif.; and Airman Cecil G. Johnson, whose father lives in Kansas City, Mo.

Four more men, including a U.S. Marine and three Philippine constabulary personnel, were killed when their helicopter crashed shortly after noon near the wreckage of the ill-fated amphibian carrying the Spring party.

Their names were not immediately disclosed.

They were among eight aboard the helicopter, which was dispatched from the carrier Hornet to the spot where the amphibian had crashed.

Of the eight, the pilot and copilot were uninjured. An American Navy doctor was slightly bruised and a U.S. enlisted man suffered minor burns.

Two U.S. Air Force paratrooper medics later jumped to the remote area where the admiral's plane crashed and found the victims. There were no survivors.

The Springs attended a military dinner-dance at Manila Monday night. They were flying back to Subic Bay.

The wreckage of the Albatross was found about 2,700 feet up

Mount Marivictas on Batjan Peninsula, overlooking Subic Bay where the United States maintains its key base for supporting 7th Fleet operations in the South China Sea.

Spring was generally recognized for having promoted friendly relations with Filipinos.

He presided at the turnover of the town of Olongapo, formerly operated by the U.S. Navy, to the Philippine government.

He was given the title of honorary mayor of Olongapo, and was recently cited by the governor of central Luzon as the outstanding American of 1960 in the Philip-

pines. Spring, from Laconia, N. H. started in football and lacrosse at Annapolis, where he was graduated in 1930.

He won the Navy commendation ribbon while a gunnery officer on the cruiser Louisville off Guadalcanal in World War II and later

commanded the heavy cruiser Helena. He assumed command at Subic in February 1959, after serving as chief of staff of the 7th fleet.

The Springs had a son, Lt. (jg.) Arthur T. Spring, who is stationed at the navy nuclear power plant school in Windsor, Conn.

Murder Trial Is Into Second Day

HOUSTON (AP)—The murder trial of Clarence (Sack) Collins, accused trigger man in the Wilma Selby murder case, went into its second day today.

The Snyder (Texas) Daily News, Tues., Nov. 15, 1960.

Maggie Morgan, a Negro, has been given a death sentence for her part in the slaying.

Autopsy Ordered In Death Of Pair

HOUSTON (AP)—An autopsy has been ordered to find the reason why a Houston man and woman died in a frame cottage.

ry Isomonde ordered the autopsy after the two decomposed bodies were found Monday.

The dead were identified as Jack Sullivan, 30, and Ellen Reid, 25. They were free on bond on charges of smuggling marijuana from Mexico.

The bodies, both fully clothed, were on a couch. Sullivan's stepfather, Johnny Shiro of Alameda, said the windows were closed and several gas heaters were burning.

Stewardship Drive Is Set

Members of Colonial Hill Baptist Church have scheduled their annual Loyalty Dinner for 7:15 p.m. Wednesday in the high school cafeteria.

The dinner will be held in connection with the church's stewardship drive. Pledge day at the church has been set for next Sunday, with a budget goal of \$61,000 for the coming year.

Inspiration speaker at the Loyalty Dinner will be the Rev. Billy Barber, pastor of Arnett-Benson Baptist Church in Lubbock. Special music will be presented by James Carraway, a full-time evangelistic singer.

Stanley Noah is chairman of the stewardship campaign.

Rev. Barber is a graduate of Baylor University and attended Southwestern Baptist Theological Seminary. He has held pastorates in Weatherford and in Archer City in addition to the Lubbock church. He is now serving his third term as moderator of the Lubbock Baptist Assn., is president of the Lubbock Baptist Pastors' Fellowship and is a member of the District 9 Executive Board.

Committeeman Is Freed Of Charge

LOS ANGELES (AP)—Municipal court has freed Camille F. Gravel, former Democratic national committeeman from Louisiana, of an intoxication charge arising from an incident aboard an airplane last July 1.

The complaint was dismissed Monday after the prosecutor told the court that he did not have a strong case.

Gravel, who had pleaded innocent, was arrested when he alighted from an airliner to attend the Democratic National Convention. The pilot had radioed a report that a passenger was drunk.

TICKET SALE SET FOR HERMLEIGH-CLINT TILT

Plans for a pre-game sale of tickets for the Hermleigh-Clint bi-district football game were completed here Monday afternoon at a meeting of Chamber of Commerce and Hermleigh School officials.

Hermleigh, the champion of District 5-B, will be host to Clint, champion of District 5-A, in the bi-district clash at 2 p.m. Saturday in Tiger Stadium.

The pre-game sale of tickets will begin as soon as the tickets are printed, probably Wednesday.

Prices of the tickets will be \$1.25 each for adults and 50 cents for students in the pre-game sale. The tickets will be on sale at the Chamber of Commerce office until 5 p.m. Friday.

At the gate Saturday, the tickets will cost \$1.50 each for adults and \$1 each for students.

The Snyder Chamber of Commerce will award a trophy to the winner of the bi-district game. The Chamber of Commerce also will have charge of operating concessions at the game Saturday afternoon.

Grid Coaches Move Into Press Boxes

By JACK CLARY
Associated Press Sports Writer
Mark up another trend in college football. The coach is deserting his sideline spot for the higher altitudes of the press box.

It hasn't become widespread but many coaches to put under consideration for next year. Those who have tried it have mixed and varied reaction.

Buff Donelli, Columbia coach, first tried it during his team's 44-8 victory over Cornell, and has spent at least half a game in the press box.

"I think a coach is more effective when he can get away from the hectic activity of the bench," Donelli said. "You can communicate with the team just as effectively with the phone. But to me the most important thing is that you get away from the great emotional strain. You're not so apt to explode when something goes wrong."

During last Saturday's 16-6 victory over Penn, Donelli spent only the first half in Franklin Field's press box.

"They didn't do anything differently in the second half than they showed us in the first, so I felt my place was on the bench," he said. "I could also tell our quarterbacks what I wanted them to do, and perhaps a little more forcibly than if I had to talk to them by phone."

Oregon State's Tommy Prothro spends the entire game up there. "Principally it gives you better vision of what is happening," he said. "The big disadvantage is loss of personal contact."

The Snyder Tigers stepped up the tempo of their drills following an open date as they prepared for their final District 3-AAA game of the season with the Lakeview Chiefs here Friday night.

Meanwhile, all junior high teams were hard at it in preparation for the intra-city clashes set for Thursday night. The Travis and Lamar teams will close out their respective seasons by tangling with each other on the high school field.

The seventh grade teams of the two schools will kickoff the activity at 5 p.m. with eighth grade and ninth grade games following, in order.

Only the high school B team was absent from the practice field Monday. The B team completed its schedule last Saturday night by walloping Big Spring B, 24-6.

The charges of Coaches Jim Stehley and Jimmy Gafford won six and lost three over the season. They dropped their first three matches and then won six in a row.

Missouri In No. 1 Spot By Landslide

By JACK HAND

Associated Press Sports Writer
The unbeaten Missouri Tigers, winners of nine straight, have taken over the No. 1 place in the weekly Associated Press college football poll by a landslide vote of the 48-20-200 of sports writers and sportscasters.

Missouri became the fifth team to hold the lead in the nine weeks of the poll, after running second for two weeks. When Minnesota, the defending No. 1 team, fell before Purdue 23-14, Missouri took over. Earlier in the season Mississippi and Iowa each led for three weeks. Syracuse and Minnesota each had one week on top.

After crushing Oklahoma 41-19 at Oklahoma, Missouri's only one more hurdle to clear. The Tigers' last regular season game will be played Saturday at home against Kansas.

The Iowa team upended by Minnesota a week ago bounced back impressively with a 35-12 victory over Ohio State and moved into second place. Iowa received six first-place votes to five for Mississippi, still unbeaten but tied once. Ole Miss advanced a peg to third by thumping Tennessee 24-3.

On that occasion, Yale took a 3-0 lead on Captain Mac Aldrich's field goal. But a long punt return by Harvard's Charlie Buell set the Crimson in motion for a 4-touchdown plunge by George Owen on the second play of the final quarter. Owen later dropped kicked the clinching field goal.

Harvard thinks it has the answer to Yale's big, mauling line of punning offense. The Crimson will lean on a stubborn forward wall of its own plus outside speed and some passing.

"We're preparing for Yale the way we did for Brown—with the idea of winning," said Harvard Coach John Youvsein.

Bob Blackman at Dartmouth says they've got about eight men who could play for any team in the country. Penn's John Stieg-

Bi-District Tilt At Ira

IRA - Blackwell and Flower Grove have decided to play their bi-district six-man football game on the Ira Gridiron Saturday night. Blackwell won the District 8 title while Flower Grove is the champion of District 7.

The two teams agreed to meet on the neutral field at Ira, since the Ira gridiron is designed for six-man play and is about half-way between the two competing schools.

Admission prices for the game will be \$1 for adults and 50 cents for students. Starting time is set for 7:30 p.m.

Yale Figures To Win, But Recalls Disaster Of 1921

CAMBRIDGE, Mass. (AP)—

Yale's dedicated players today issued a stern warning to upstaged Harvard. The Elis are out to prevent football history from repeating.

Yale has quite a bit of extra incentive to win this 77th meeting in a time-honored Ivy League rivalry, not the least of which is a chance at its first undefeated season in 37 years.

But it is 39 years—1921—which is on the minds of Yale athletes. The similarity between 1921 and 1960 Yale football borders on the fantastic.

In both cases:
1. Yale played its first eight games of the season in New Haven.
2. Yale came to the Harvard game with a perfect 8-0 record.
3. The site, Cambridge, Mass.
4. The date of the game: November 19.

Yale had lost to Harvard the previous two seasons.
5. Yale had scored 199 points going into the 1921 game with the Crimson, Yale has tallied 214 facing the Crimson this Saturday.

The history Yale men don't want repeated—Harvard won 10-3 in 1921.

On that occasion, Yale took a 3-0 lead on Captain Mac Aldrich's field goal. But a long punt return by Harvard's Charlie Buell set the Crimson in motion for a 4-touchdown plunge by George Owen on the second play of the final quarter. Owen later dropped kicked the clinching field goal.

Harvard thinks it has the answer to Yale's big, mauling line of punning offense. The Crimson will lean on a stubborn forward wall of its own plus outside speed and some passing.

"We're preparing for Yale the way we did for Brown—with the idea of winning," said Harvard Coach John Youvsein.

Bob Blackman at Dartmouth says they've got about eight men who could play for any team in the country. Penn's John Stieg-

man says it's the best Yale team he has ever seen. But we feel we've got a good chance to win."

Sparkplug quarterback Charlie Tavener and captain John Perry Leizner have been sidelined by knee injuries. Yale suspects they will be in action. Youvsein says he's making his plans on the assumption they won't.

Yale has been in the short end of a 63-0 point deluge by the Crimson the past two seasons. The Yale seniors—and there are 10 of them on the first club—never have tasted victory over Harvard, even as freshmen.

"Home Of Quality"

Everybody's GROCERY

35th. & Big Spring Highway

FOR 37TH STRAIGHT MONTH Rambler Sales Smash Records!

Setting records because the compact Rambler offers three sizes to meet every purpose... and help every purse!

37 straight sales records over year-previous months. Compare '61 Rambler American with other economy compacts—all new styling, 6-passenger wagon, 50% more luggage space in sedans, 23% more cargo space in wagons, proved economy king, 90 or 125 horsepower.

Compare '61 Rambler Classic 6 or V-8 with old "low-priced" field—get the Best of Both: Big car room, compact car economy—priced far lower. Compare '61 Ambassador V-8, the high-performance luxury compact, with other luxury cars.

DUPREE MOTORS—2211 Avenue S

Highest Quality at Lowest Cost!

RAMBLER AMERICAN
Deluxe 2-Door Sedan

Drive the good economy with... with all-new styling for '61. And more compact—easier to turn, park and handle... traffic at all times! Get Rambler American and save!

Oilmen Told To Keep Eye On Demands

By MAX B. SKELTON
 CHICAGO (AP)—Oil producing states were warned today the federal government will step in with controls unless crude production is limited to market demand.
 R. M. Williams of Bartlesville, Okla., said the oil states must equip themselves to deal with the industry's problem of oversupply.

Williams, assistant general attorney for Phillips Petroleum Co., said too many oil states have no market demand proration statutes and existing laws in other states need to be strengthened.

Williams commended Texas for its efforts to limit output to demand but said Texas more than any other state needs a proper well-spacing law.

He told a division of production group session at the annual meeting of the American Petroleum Institute that inadequate well spacing laws are hindering the domestic industry's ability to compete with low priced crudes from the Middle East.

Williams took part in a panel discussion on how domestic operators might lower costs and increase profits.

Minor Jameson Jr. of Washington, D.C., said the current slowdown in domestic demand may be temporary but warned there is strong evidence of a fundamental change.

Jameson, executive vice president of the Independent Petroleum Association of America, said the potential for oil to capture additional markets from coal has been largely exhausted.

The trend toward smaller cars, he said, appears to be contributing to a basic change in the rate of growth in total domestic demand for oil products.

Jameson said products demand increased 3.3 per cent a year from 1945 through 1955. Since 1955, he said, the annual increase has been only 2.1 per cent and he expects a gain of only 2 to 2.5 per cent annually the next three to five years.

Williams said Texas, Oklahoma, Louisiana, New Mexico, Kansas and North Dakota have reasonably adequate market demand proration laws. He listed Utah, Colorado, Wyoming, Montana, Mississippi and Illinois as among oil states without such statutes.

"Texas for six consecutive months has restricted its basic allowable to eight producing days a month," he said. "Some of the states, however, may not have operated as fully as they could or should."

He said market demand statistics merely provide a means of determining what the market is and limiting production to that market.

"Excess supply merely chokes the market," he said. "The best place to store excess oil is in the ground."

A majority of United States oil wells, Williams said, are being drilled under spacing regulations calling for one well to each 20 to 40 acres.

About 575,000 United States wells currently are producing 7 million barrels of crude a day—only 12 barrels per well.

Daily Crude Flow Rises

TULSA (AP)—Texas and Louisiana advances helped raise the daily average oil production 11,885 barrels to 8,964,370 during the week ended Nov. 12, the Oil and Gas Journal said today.

Texas gained 18,000 barrels to 2,460,200 and Louisiana was up 9,650 to 1,106,150. Oklahoma was off 5,000 to 508,600. The Journal estimated 1960 production at 2,222,097,400 barrels compared to 2,225,338,300 a year ago.

Colorado was up 1,960 to 132,660; New Mexico, 1,300 to 296,700; and Arkansas, 100 to 77,475.

Newsman Invited To Reception By JFK

PALM BEACH, Fla. (AP)—President-elect John F. Kennedy invited newsman covering his headquarters to the home of his parents today for a swim and a reception.

The party at the Kennedys' ocean-front estate was described by the host as purely social.

Missile Sub Set To Roam

CHARLESTON, S.C. (AP)—The nuclear powered submarine George Washington, armed with 16 Polaris missiles, was ready today to begin roaming the Atlantic.

The sleek sub, its missiles armed with hydrogen bomb warheads, was scheduled to depart from placid Charleston harbor at about noon.

In the words of Rear Adm. K. M. McManes, Sixth District commander, the killer-sub will be on "a mission of good will for all those who want that."

He said the 390-foot sub carries a destructive capacity "equal to all the bombs dropped during World War II."

The George Washington will be followed within a few weeks by the Patrick-Henry, and later, a dozen more already authorized subs. By 1965, the Navy hopes to have 45 Polaris-armed subs available.

The vessel is expected to stay at sea for about two years, returning then for a new nuclear reactor. In the meantime, it will patrol undisclosed areas with alternating crews.

Each Polaris missile carries explosive power of megaton magnitude.

Prestige Is 'Like Health'

SALT LAKE CITY (AP)—British humorist Malcolm Muggeridge says the rich and powerful are always disliked and Americans, because they don't like being disliked, have done "such absurd things as take opinion polls to find out how your prestige is." He said prestige is like health. "The moment you start thinking of it you probably haven't got it."

"The fact is, the American way of life you have created has become what practically everyone in the world wants—even though I think they are somewhat misguided," Muggeridge, a former editor of the British humor magazine "Punch," said at a lecture here Monday night.

Rooney Asks For Lower Alimony

LOS ANGELES (AP)—Actor Mickey Rooney has asked superior court to give him some relief from his alimony payments.

The actor petitioned Monday for modification of terms of a property settlement with ex-wife Elaine Mahken, 39, his fourth. A hearing was set for Dec. 8.

Rooney claimed a 1959 court order for him to pay her \$1,750 a month was unfair and inequitable. The actor recently claimed that he is broke. He said his current tax liens and debts total more than \$87,000.

Red Leaders Are Nervous

By WILLIAM L. RYAN
Associated Press

For a week world Communist leaders have been meeting at the summit. All the secrecy surrounding their sessions cannot hide a growing nervousness.

One basic point of cleavage worries them more than any other. It is not the question whether war is inevitable, nor the question of how Communist-ruled nations should develop internally. These are side issues.

The big quarrel concerns expansion of the Communist movement. This pits the leadership of Red China, Albania and possibly even the East Germans, backed by

some chieftains from parties outside the Soviet orbit, against Nikita Khrushchev and most of the Kremlin's inner circle.

Black limousines have been seen backing and forth between the Kremlin's hurried gates, leaving Communist chieftains to and from summit sessions. One gets the impression there is tough talk going on which will result in publication of a new manifesto.

The new pronouncement will be loaded with platitudes about the unbreakable solidarity of the Red camp under Moscow. But indications are that the leaders are making little progress toward patching up the main differences among them.

The big argument is this: Red China, backed by some dissidents from other Communist parties around the world, objects to Khrushchev's economic aid plans, especially with respect to underdeveloped countries. The Chinese resent any aid which tends to lend political stability to any government which is not Communist-oriented. Throwing Lenin's words at Khrushchev, the Chinese insist that only violent revolution can lead to dictatorships of the proletariat.

Khrushchev's men urge patience and caution. They promise to use Soviet economic policy as "a main influence for world revolution," but protect their program over 20 years. They promise to unfold this program at the next—22nd—Soviet Communist party congress, probably early in 1961.

TIPRO Asks For Higher Allowable

AUSTIN (AP) — An oil men's association says Texas oil production has dropped 44.6 million barrels this year while imports increased 13 million and other states boosted production 36.7 million barrels.

The Texas Independent Producers & Royalty Owners Assn. urged Monday that the Railroad Commission, at its monthly production hearing Wednesday, grant the highest possible oil allowable for December.

"If Texas had not cut back 44.6 million barrels, would total supply have increased by that amount this year or would major company purchasers and refiners have forced other supply sources to hold the line along with Texas and kept total supply down to the amount actually provided?" the group asked.

A statement was filed with the commission by TIPRO president J. F. West.

West said excess stocks may not exist and if only isolated sources of supply, such as Texas, reduce production to lower stocks, purchasers will go elsewhere. West suggested Texas establish a stockpiling system to measure and locate excess stocks and the companies responsible.

A statement was filed with the commission by TIPRO president J. F. West.

Budget For Prisons Set

HOUSTON (AP) — The Texas Board of Corrections will ask the Legislature to underwrite the prison system's \$1,968,787 annual budget for the next two years.

The board, meeting here Monday, voted to ask the Legislature to back the budget—and to ask an emergency appropriation of \$600,000—because of a poor cotton crop on prison lands and an increase in prison population.

O. B. Ellis, general manager of the prison system, said wet weather has cost the system one-third of its cotton crop, or about \$750,000.

B. W. Fierson, assistant general manager in charge of agriculture, said the prison system has so many more inmates now that it soon may be unable to raise enough livestock to feed them.

He said the system is selling calves and buying cheaper meat with profits.

Fierson said the system used to make about \$1 million a year on livestock sold after the inmates had all they needed.

Capsule From Atlas Found

CAPE CANAVERAL, Fla. (AP) — A power-packed intercontinental range Atlas missile streaked 5,000 miles down the Atlantic missile range early today.

The Air Force reported the Atlas, America's most potent military rocket, achieved all test objectives in plunging its nose cone on target near Ascension Island in the South Atlantic.

Two hours after launch, a recovery vessel retrieved a data capsule that ejected from the 11-ton cone and parachuted into the water.

The cone was coated with improved materials designed to afford better protection for hydrogen warheads carried and operational Atlases now stationed at bases in California and Wyoming.

The German Tourist Office says West Germany is so prosperous that it must import foreign labor to meet manpower needs.

Court Rules Out Boundary Juggling

WASHINGTON (AP)—The Supreme Court has issued a warning that states may not chop up the boundaries of cities on the basis of color of residents.

By unanimous vote the high tribunal condemned as a violation of the Constitution's equal protection clause the city's shape now resembles a sea dragon.

The legislature's action put outside of Tuskegee all but five of the city's 400 registered Negro voters. No white voter or resident was affected.

Lower federal courts threw out the Negroes' complaint, holding that they had no authority to act. Frankfurter said this ruling was clearly erroneous.

The way is now open for the Negroes to return to U.S. District Court in Montgomery to offer proof that the Alabama Legislature redistricted Tuskegee for the purpose of preventing Negroes from voting in the city.

Excluded from Tuskegee by the legislature was Tuskegee Institute for Negroes.

Alabama Atty. Gen. MacDonald Gallion said he did not represent the state in the case, but added: "I cannot help recalling that gerrymandering originated in Midwestern and other Northern states. I'd like to see how they explain the difference between Negro voting and Democratic and Republican constituents which was the basis for gerrymandering."

Frankfurter's opinion cited various earlier Supreme Court decisions and then summed up the Tuskegee case with these words: "When a legislature thus singles out a readily isolated segment of a racial minority for special discriminatory treatment, it violates the 14th Amendment."

Justice Whitaker, in a separate opinion, said he agreed with the court's judgment but added he thought it should have been based on the 14th Amendment clause guaranteeing equal protection of laws. It was on that clause that the Supreme Court, in 1954, based its decision outlawing compulsory racial segregation in schools.

Justice Frankfurter, delivering a long opinion, said the Alabama Legislature had changed the shape of Tuskegee from a square to a "bizarre... enough" 28-sided figure.

Negroes fenced outside the city by the new boundaries said the city's shape now resembles a sea dragon.

The legislature's action put outside of Tuskegee all but five of the city's 400 registered Negro voters. No white voter or resident was affected.

Lower federal courts threw out the Negroes' complaint, holding that they had no authority to act. Frankfurter said this ruling was clearly erroneous.

CHIMP AT WORK—Candy, one of three Chimpanzees that went to work today at a Houston furniture factory, zips up a cushion and then moved on to the next cushion. Ben Friedman, owner of the furniture factory, says the chimps may eventually change the make-up of the labor force on assembly lines around the industrial world. (AP Wirephoto)

Pete Going Back Home

SPOKANE, Wash. (AP)—John Daniel (Pete) McKenzie, 37, who said he was lonesome for his Texas prison home, was ordered back there Monday.

Judge Ralph Edgerton signed an order returning McKenzie over to Texas authorities. He was told they were already en route to pick up the ex-convict.

The Texan was arrested in September and charged with attempted robbery and second degree assault in a shooting at a suburban tavern. A deaf mute was wounded in the leg after he tried to disarm McKenzie.

McKenzie's parole from two life sentences for murder in Texas was revoked following his Spokane arrest.

The court was told that McKenzie apparently attempted the robbery in an effort to be returned to Texas and prison. He had several hundred dollars in his pockets.

Although eyeglasses are said to have been invented in the 13th century, the Roman emperor Nero carried an emerald lens which he used as an eyeglass while watching chariot races.

Traffic Deaths Decline In State

AUSTIN (AP)—Traffic deaths are down 7 per cent so far this year, the Department of Public Safety reports.

About 1,838 fatalities have been recorded since Jan. 1, compared to 1,972 a year ago. There have been 1,492 accidents in which death occurred, compared to 1,643 last year.

Soviets Laud 'Heavy' Ruble

MOSCOW (AP)—The Soviet Union declared today that its new heavy ruble will be worth more than the dollar. Western economic experts in Moscow said the chief motive probably was prestige.

Under a decree the official rate of exchange will be changed Jan. 1 from four rubles for \$1 to one ruble for \$1.11. The Soviet government said the new rate would reflect a fourfold increase of the ruble to be put into effect on that date.

However, the ruble that will be put into circulation at that time is being exchanged for equal the present rubles.

The official Soviet news agency Tass said in its announcement of the currency revaluation that the state bank was instructed "to increase the rate of exchange of the ruble with the currency of other capitalist countries in conformity with the higher gold content of the ruble."

That content is going from 22 grams in the old ruble to 96 grams in the new.

Western economists here said prestige was more likely one of the motives for the currency revaluation because of the weakness the dollar has shown recently in foreign markets—a weakness that

has led to such things as the pushing up of the price of gold on the London exchange.

They said the actual effect of decreasing the dollar will be worth only 90 kopecks—there are 100 kopecks in the ruble—instead of four rubles is made into convertible currency which can be freely changed into other money in international commerce. At present the ruble has an arbitrary set value which bears little relation to world or domestic prices.

No mention was made in the announcement of the present special tourist rate of 10 rubles to \$1.

Firemen Schedule Annual Banquet

Snyder firemen will hold their annual Thanksgiving banquet tonight in the Central Elementary cafeteria starting at 7 o'clock.

Special guests of the Snyder Fire Department will be city and county officials.

Now Many Wear FALSE TEETH With More Comfort

FASTTEETH, a pleasant alkaline (non-acid) powder, adds false teeth more firmly to eat and talk in more comfort. Just sprinkle a little FASTTEETH on your plates. No sticky gooey, pasty taste or feeling. Checks false teeth (denture breaks). Get FASTTEETH at any drug counter.

Some secrets its owner can't keep!

We wouldn't go so far as to say that your life is an open book when you're seen in the company of a new Cadillac car.

But we will admit that at least a few of the pages have been turned.

For a Cadillac indicates—with unmistakable clarity and eloquence—the personal virtues that lead a man to the "car of cars".

Beautiful, distinctive and substantial—it reflects his eminence in his field of endeavor... and testifies to what he has made of his years.

Gracious, spacious and luxurious—it denotes his desire for comfort... and his concern for the well-being of his family and passengers.

Practical, sound, and desired—it evidences his

awareness of the true aspects of value and quality.

And if a Cadillac has historically cast such credit on its owner—how much more grandly it will do so in 1961!

For the car now offers more of everything to inspire the respect of those who behold it.

Its styling is graceful as never before. Its interiors are remarkably generous in every dimension. And its performance and ride make every journey a miracle of motion.

You ought to inspect and drive this 1961 Cadillac. Your dealer will be delighted to accommodate you. And we wager you'll quickly see the wisdom of letting the "car of cars" reveal a few discreet secrets about you.
