Lions To Hear Dist. Governor

Ladies Night dinner for Talco Lions Club members and their wives will be held Oct. 19 in the school cafeteria, where Roger Burned, Lion governor of District 2-X2, will be the speaker.

Plans for the banquet were announced at the dinner meeting, also in the cafeteria last week when dates for the benefit turkey shoots were listed as Oct. 31, Nov. 21 and Dec. 19. Proceeds from these go toward buying eyeglasses for underprivileged children, and Christmas baskets for needy families. In charge are Frank Sloan, H. L. Shoffner and M. L. Barron.

The speaker was Glenn Chapell, Paris, Social Security Board representative, who showed a film on this agency and answered questions on the subject.

President Jerry Swarts called attention to the large concrete block sign, advertising Talco's Lions Club and Future Farmers of America, which has been erected on a lot owned by Mrs. Opal Morris at the junction of US 271 and Farm Highway 71.

Groundbreaking Pat Mayse Dam

The formal groundbreaking for the \$8 million Pat Mayse Dam and Reservoir in northwestern Lamar County will be held October 28 at a point overlooking the future reservoir.

Congressman Wright Patman will assist Mrs. A. G. (Pat) Mayse, widow of the late and beloved publisher of The Paris News, in turning the first spadeful of earth for the lake which her husband envisioned before his death.

The dam and reservoir are named for Mayse, long a driving force behind the growth and improvement of the Red River Valley. He died in 1955.

Ceremonies are planned for 2:30 p. m. on October 28. The ceremony site is less than a quarter-mile from Powderly and U. S. 271, and will be easily accessible by auto.

Completion of the dam and reservoir—which will have a water surface area of 5,450 acres and will provide 55 million gallons of water per day for City of Paris—is expected in December, 1966.

Titus County Tax Rate Set at 95c

Titus County Commissioners Court Monday set the county's tax rate for 1964 at 95c per \$100 valuation, thus leaving the rate the same as it was last year.

A total of 80c of this tax goes for operating funds of the county with 15c toward debt retirement. As the county neared the end of its fiscal year, County Judge Cecil Franklin described the county's financial picture as much better than a year ago.

Baptist Church in Mt. Pleasant gave the sermonette. At noon 100 veterans, wives and veteran widows enjoyed a bountiful meal in the Sun Room. After lunch separate business meetings were held in the game room.

Austin—Gov. John Connally has given new emphasis to the long drive to abolish the state property tax and leave the revenue source to local governments.

In two speeches during the past week—to county judges and commissioners and to the Texas Municipal League—the governor called for a "phasing out" of the ad valorem levy by the state. That will require a constitutional amendment and, what Connally termed, a "period of readjustment."

Although the tax provides only 2.7 per cent of the state's revenue, the Legislature, usually hard pressed to balance the budget, has been slow to act on abolishing the \$40,000,000 a year revenue source.

"There will never be a convenient time," acknowledged Connally. "All we need is the extra courage to do what should be done."

This step, he said, "is the most tangible way I know to put meaning in our plea for more local self-government."

Connally also told municipal officials that the city problem should be solved at the local level. He warned against continued search for solutions at the state capitol level.

The Municipal League, as expected, recommended still another source of revenue for local government.

City officials told their TML board of directors that legislation authorizing cities to levy a municipal sales tax, subject to local voter approval, should be considered.

Directors in a mid-December meeting here will consider this proposal and almost certainly adopt it as one of the League's top legislative projects for 1965.

TEACHER PAY RAISES BACK-ED—State Board of Education has thrown its weight behind teacher pay raises.

Proposal was one of 11 legislative objectives agreed on at a meeting here. Texas State Teachers Association is pushing for a \$45-a-month raise for classroom teachers. Board of Education did not specify any dollar amount.

PRESIDENT'S AUSTIN OFFICES EYED—Offices being readied for the President in the new federal building at Austin became a campaign issue last week.

F. Clifton White, national director of Citizens for Goldwater-Miller, charged that the ninth floor layout added \$2,500,000 to cost of the building.

General Services Administration reported original contract price was \$7,300,000 and cost has risen to "just under \$8,000,000" due to "change orders" and a labor strike. GSA, however, refused to permit reporters to inspect the premises to check White's story of a Taj Mahal-type luxury, a 10-foot fireplace and teak panels. Some newsmen managed to get by guards and inspect the place anyway. One found it nice but not particularly lavish. Under his tape measure, the fireplace shrank from 10 feet to 52 inches.

Johnson's staff frequently

works at a hotel in Austin while he is visiting at his LBJ ranch nearby. The government provides office space for former Presidents Eisenhower, Truman and Hoover.

CARR REPORTS ON ASSASSINATION—Atty. Gen. Waggoner Carr's report on the assassination of President Kennedy criticized over-zealous news coverage of subsequent events in Dallas and concluded that law enforcement agencies should improve their methods of exchanging information.

MENTAL HEALTH AGENCY URGED—A 26-member group, planning improvement in Texas mental health services, recommends a central State Department of Mental Health.

Under the proposal submitted, all mental hospitals and clinics and present State Health Department services in the field would be transferred to the new agency. The full 112-member Mental Health Planning Committee scheduled an October 16 meeting here to complete its work and make recommendations to the next Legislature.

DOUBLE CONTRACTING TARGET—Legislation to correct "double contracting" abuses is being drafted on recommendation of the Texas House General Investigating Committee, and is backed by at least 10 trade associations.

Rep. Bill J. Parsley of Lubbock, committee vice chairman, will sponsor the legislation. Double contracting basically involves misrepresentation of down payments on residential real estate.

HARD-DRINKING YOUTHS—Texas Liquor Control Board reports that the increase of reports of consumption of alcoholic beverages by minors is "startling."

In 1959, spokesman said, only 1,314 criminal cases were filed against boys and girls under age 21 by buying, consuming or possessing alcoholic beverages in a public place. In 1963, the TLCB filed 4,848 such cases.

Liquor Administrator Coke Stevenson Jr. said, "We've been concerned about the increase in juvenile drinking at public places, such as beaches and dances, and we are constantly reminding our agents to be on the lookout for such violations."

WATER—Source of water supplies for Texans in the year 2000 will be the subject of a massive hurry-up research job by the Texas Water Commission and other cooperating state agencies and consulting engineers.

Report will be complete November, 1966, if the Legislature provides \$1,135,000 needed for the work.

Governor Connally, moving water to top priority along with higher education, gave the Commission \$46,000 from his emergency fund to get the work stepped up. The Commission already has switched 12 of its engineers and geologists from regular duties to planning work.

Connally will urge the Legislature in January to provide the necessary money for water planning.

LBJ 'Expertly' Charms Congressmen's Wives

By ROSEMARIE T. BROOKS (Washington Correspondent)
WASHINGTON — In a discussion of what's IN and OUT on the status ladder, NOTHING is more IN than a White House invitation, and it causes a ripple of excitement even for the experienced congressional wife.
Mrs. Charles C. Diggs, who resides in Detroit joined her Congressman husband in town last week for the fifth, and next to the last reception for House members and their wives.
It was a great occasion for the native born Washington lawyer, as March 5th turned out to be her fourth wedding anniversary as well!
With some excitement, she showed her dimples when she said, "I danced with the President twice! He's an excellent dancer!"
At an earlier reception, Mrs. Augustus F. Hawkins (D-Calif.) was just as delighted with the new Texas charmer as was Mrs. Diggs. Mrs. Hawkins, or Pegga as her friends call her, met him for the first dance in a unique way.
She was dancing with a young military officer, who

Negro Spiritual Show in Moscow

MOSCOW — (UPI) — The United States opened its 1964-1965 cultural exchange agreement with the Soviet Union with a "smash success" performance in Leningrad of the Oberlin College Choir.
A Negro spiritual — "Sometimes I Feel Like A Motherless Child" — by Joy Blackett was described by a U. S. embassy official as the "stopper" of the show.
The performance in the large hall of the Leningrad Philharmonic Auditorium was the first American performing arts export under the new accord signed on Feb. 22.
The agreement provides for exchanges of teachers, performing artists, musicians, scientists and exhibits.
The choir, according to the official news agency Tass, "masterfully executed" the directions of conductor Robert Fountain and "earned loud applause."
The Oberlin Choir was to come to Moscow March 8 and then tour the Soviet Union until April 19.
In addition to vocal numbers, the choir's orchestra offered Bach chamber music and members of the ensemble presented American folk songs and dances.

LBJ, Southern Born, Dances with Negroes in White House—Sets Shocking Example of Race Mixing for Youth of Nation!

Negro Women — "Delighted With Texas Charmer" Think "Southern Drawl is Just Precious"!

This is FACT, not fiction. As you can see, America's only Negro daily reported it on March 12, 1964. How would you like your son or daughter following this example set by the President of the United States? Even responsible Negro leaders are against social integration of the races. If we do not put this Machiavellian out of office, how will we answer our young people when they say... "But mother, don't be old fashioned... the President does it. Swing and sway with LBJ!" Is mixed dancing part of the "Great Society" President Johnson tells us so much about?

DO YOU BELIEVE EVERY CHILD HAS A RIGHT TO A PUBLIC EDUCATION?

Nearly all Texans and most Americans believe that every child rich or poor should have a chance to receive an education; BUT NOT THE REPUBLICAN CANDIDATE FOR PRESIDENT; LISTEN TO HIM:

"The Government has no right to educate children. The parents, you and I, have that responsibility. The Child has no right to an education. IN MOST CASES, THE CHILDREN GET ALONG VERY WELL WITHOUT IT."

Sound like a statement out of the dark ages? Not so. This is the REPUBLICAN CANDIDATE, Goldwater, speaking in Florida on October 3, 1960, as quoted from the highly responsible Louisville Courier-Journal.

Goldwater has gotten "along very well without it," at least financially and politically. But Goldwater's contempt for education and his own glaring lack of scholarship is a cause for grave concern as we approach the November 3rd election.

FOR THE RECORD: Goldwater attended Phoenix High School—failed his courses in his first year—transferred to Stauton Military Academy. In 1928 he entered the University of Arizona—dropped out at the end of his Freshman year to work in the family store.

In the book Goldwater from A to Z, Arthur Frommer writes that "Goldwater's friends are now frank to admit that the cause of his leaving school was not the death of his father; — but his own general disinclination for academic studies.

Fortunately for the Republican candidate for President, his father and grandfather were both Millionaire Merchants. He could afford not to have an education; but your child may not be this fortunate.

Support the Democratic Candidates — Johnson - Humphrey and Yarborough — who believe in and support the cause of public education. President Johnson and U. S. Senator Yarborough are both Native Texans — they understand the problems of our people —
