Shamrock Woman Dies in Accident

A Shamrock woman who grew up at Samnorwood died in a car-pickup collision 3.5 miles north of Lutie on Highway U.S. 83, and a man living nearby is in serious condition in Shamrock General Hospital of injuries he received.

The accident occurred about 6:30 a.m. Tuesday, June 8.

Odessa Stice Glazner, 31, was pronounced dead at the scene by Beatrice McKinney, justice of the peace. She was the wife of Eugene Glazner, who also grew up in the Samnorwood area, and the daughter of Mr. and Mrs. Noah Stice of Samnorwood.

John Stages III, 27, was reported suffering from cuts and abrasions and other possible injuries.

Both were en route to work and both were riding alone.

Mrs. Glazner had been employed at Wellington Industries, Inc., since it opened in August 1980, according to Brenda Marple, company secretary. Prior to that she worked for Southwestern Rail Products.

Stages was employed at the Ashland Carbon Black Plant east of Shamrock.

Department of Public Safety Officer John James, who led the investigation, said the accident occurred when Stages pickup pulled away from a stop sign on a county dirt road onto US 83 in front of the southbound car driven by Mrs. Glazner.

James said the first person to reach the scene was Stages father, John Stages, Jr., who was driving about one-half mile back, but did not see the actual collision due to a hill

Service Set Thursday for Odessa Glazner

Funeral services for Mrs. Eugene Glazner of Shamrock, the former Odessa Marie Stice, of Samnorwood will be conducted Thursday, June 10, in Glen Davis Memorial Methodist Church at Dozier.

Mrs. Glazner died in a car-pickup collision 3.5 miles north of Lutie early Tuesday as she was enroute to her work at Wellington Industries, Inc.

Officiating at the service will be Jerry Rockwell of Dallas, assisted by the Rev. C.R. Hankins, pastor of the Dozier Church.

Burial will be in Shamrock Cemetery under the direction of Richerson Funeral Home.

Pall bearers will be Doug Darrow, Gary Oldham and Max Paschall of Samnorwood; Stanley Oldham of Amarillo; Mike Woods of Clinton, Ok., and Russell Bockman of Lefors.

She and Mr. Glazner were married Feb. 2, 1973 at Samnorwood. She had lived

One-Mile FM Road Approved

The Department of Highways and Public Transportation Commission at its regular meeting on May 27 passed an order which designates a Farm to Market Road extending from FM 338 north one mile to State Highway 203. Cost of the project was set at an estimated $40,000.

It is located along a section line road one mile east of US 83, and in fact, lies parallel to the US 83 across the town section. It passes by the Farmers Co-op Gin.

Word of this action came from Lewis H. White, District Engineer, Childress to County Judge Bob Watson on June 2, the day that Judge Watson resigned from that office and was succeeded by Judge Zook Thomas.

The Commission minute order is subject to the condition that Collingsworth County will furnish the right of way clear of all obstructions, free of cost to the State, and acquired in accordance with applicable Federal and State laws.

Although the county has 90 days in which to accept the designation, the Commissioners Court is expected to act on the measure when it holds its regular meeting Monday, June 14.

'82 Wheat Crop Begins Rolling In

The county's 1982 wheat harvest opened over the weekend, before many farmers could get all their cotton planted.

At this point, with the wheat harvest just opening, there is no way for growers or elevator operators to determine their yields, nor are most of them staying in town long enough to discuss prospects.

Most of the wheat now coming in has had hail damage ranging from "just a little," to 50% or more, say those who have commented on it.

The first load of wheat delivered to a Collingsworth county elevator was delivered to Farmers Co-op Enterprises at Dodson, John Barton, manager, reported.

It was brought in Wednesday, June 2, by Tommy Scott, who farms in the west part of Harmon County.

Barton reported this was "real good wheat." "The yield on that particular field was 31 bushels," he said.

"We're just getting started. Yields where there was no hail should be 20 to 25 bushels per acre."

Barton said that the hail loss suffered by farmers in the Dodson trade area was not nearly as bad as last year, and the total harvest for the area served by that elevator should be better than last year.

"Wheat is coming in like wildfire," Dodson merchant J.C. Howell reported Tuesday morning.

He said that on a trip to Hollis, the road was full of combines and trucks along the 12-mile route. "They're running this way," he commented.

Much of the wheat being delivered at Dodson is coming out of Oklahoma.

Glen Warrick of Warrick's Inc., reported the first wheat delivered Monday, after several samples were brought in late last week.

Much of the wheat coming in is "sampling mostly," Warrick said.

"It's just starting and we can't get a feel for it yet."

The wheat is pretty well ready all over the county, Warrick said.

Harvesting costs seem to be about the same as last year.

After the first wheat delivered Monday, several growers delivered loads in quick succession: Carthel Lewis of southeast of Wellington, Mike Belew from Loco, Dan Langford from south of town, George Porter from Loco, John Coffee and George Barton from east of town and D.C. Lacy from west of town.

None of these had finished a patch by Tuesday.

Quality of the wheat is good, testing 60 lbs. and grading No. 1.

This year's crop is a few days later than last year and about 10 days later than the average year.

This is attributed to wet weather and variety changes amoung county growers. Most popular this year is Tam 101, a wheat variety developed by A&M University.

Raymond Barton, manager of Singley Mill and Elevator, reported his first load brought in Tuesday about 4 p.m. by Farris and Joe Wood. They brought in another load and Jim and Kent Clark brought in one load. All of this was hail damaged. Kent Clark estimated their field would make from 15 to 17 bushels per acre and they had received a 51% hail loss.

Quality of these three loads was good, with moisture content of 12.2 and tested 61 pounds per bushel.

Barton said, moisture content of 13 is acceptable.

Extension Agent Don Reeves estimated that very few wheat fields in the

2nd Primary Vote Unusually Light Saturday

Only around 175 votes were cast in the Second Democratic Primary Election Saturday, June 5.

This low number was attributed to there being no local or district race at stake in the second primary and because none of the state candidates had generated much interest here.

Only two absentee ballots were cast.

Candidates and the votes each polled were:

Attorney General: John Hanna 98, Jim Mattox 70.

Commissioner, General Land Office: Garry Mauro 74; Pete Snelson 89.

Judge, Court of Criminal Appeals, Place 1: Charles F. "Chuck" Campbell, Jr., 80; John E. Humphreys, 74.

Judge, Court of Criminal Appeals, Place 2: Bill Black, 67; Chuck Miller 84.

Thomas Sworn In As County Judge

In a special emergency meeting of the Commissioners Court Wednesday morning, June 2, Collingsworth County Judge Bob Watson presented his resignation after three and one-half years in that office.

In the next action, the commissioners passed a motion naming former County Judge Zook Thomas to fill the six-months unexpired term. Judge Thomas was sworn immediately with Charles Darter, county attorney, administering the oath of office.

At that time, Judge Thomas will begin his regular term in that office, to which he was elected in the First Democratic Primary.

Judge Watson had told the Commissioners at the May 10 meeting that he would resign to accept an appointment as Director of Law Enforcement Training for the 15-county South Plains Association of Governments headquartered in Lubbock.

The new work carries a considerably higher salary than the Collingsworth County judges's office.

National Motosport Qualifying Race Here

A full day of motorcycle races are on tap Sunday, June 13, as Wellington hosts the National Motosport Association qualifying race at Big Bluff Motocross.

Practice runs will start at 7 a.m. and races will begin at 8 a.m. When the action ends about 5 p.m., motorcycle racing fans will have seen more than 60 races, with an estimated 200 riders competing, said Auther Jones, who is in charge of the event.

Only one more qualifying race will be run before the National Motosport Association finals in Ponca City, Ok., later in the summer.

Wellington people are urged to come out and watch the daylong racing events, Jones said. Those who are motorcycle race enthusiasts will see some of the best action in the Panhandle for the season. Others will find many thrills in the races.

Riders will begin arriving about noon Saturday and will continue to come in all Saturday night.

These racers, with their families, travel in motor homes, and trailers.

Breakfast will be served at the track Sunday morning. A concession stand will offer luncheon foods that include barbecue sandwiches, hot dogs and nachos, as well as pop, said Linda Jones, who is helping her husband with race plans.

A large contingent of racers is already assurred from the Midland-Odessa area and from the Dallas-East Texas area and Oklahoma.

Scorekeepers will include Mrs. Jones, Judy and Mike Naylor of Memphis and Marlene Alexander of Miami.

Five qualifying races are run in each of the 30 regions and a rider trying for the nationals must compete in three and must be in the top 10 riders in total points in order to go to the Ponca City Nationals.

The Wellington race Sunday is the fourth qualifying race in the Panhandle Region this summer. The fifth will be at Lawton, Ok.

Other races in the Panhandle region have been held in Lawton, Midland and Lefors.

Texas has two regions, the Panhandle, covering West Texas and the Texas Region covering the remainder of the state.

Yamaha Motorcycles supports the finals.

Trophies will be awarded to 33% of each class.

Racing Sunday will be a teen-age veteran, Jay Jones who will be entered in the 125 stock expert, 125 modified expert and the 100 modified senior classes.

He is the son of Mr. and Mrs. Auther Jones.

Two other young riders will compete: Kevin Martin, son of Mr. and Mrs. Leon Martin, in the peewee division; and Tony Maxwell, who graduated from Wellington High School this spring. His parents are Mr. and Mrs. Eddie Maxwell.

Airport Work Under Way

Work on 1982 improvement of Marian Airport has started and with favorable weather conditions, this phase should be completed in 30 days, City Manager Glen Taylor said Monday, June 7.

Base material will be laid on the widening and extension of the present runway to 4500 feet.

Taylor said he will try to get a road contractor to come in and put down the topping, rather than for the work to be done by city employees.

After the top is put down, airport lights will be installed and this will finish the second phase. Cost of this year's work is $100,000.

The third phase of the airport improvement to be approved by the Texas Aeronautics Commission is due in 1983 and will include building a new 2400' north-south runway on the west side of the airport.

This was originally planned as a two-year project but had to be extended to a third year by the TAC.

LOTS OF SPUDS

Wellington is going to produce Irish potatoes in abundance, if this sample from Mrs. Frank Gulley's garden is an indication. She dug up the vine with young potatoes in her garden at 1009 Floydada St. Only about half of the little potatoes can be seen here.

FM ROAD—

comes in the 1981-82 Texas Farm to Market Road Program, and upon completion of construction, the state will take over maintenance of the road.

Judge Thomas pointed out that the right of way has already been acquired and that the county road department under the direction of Earl Parker, road superintendent has built up the road to the point where the dirt base has been laid.

Only the topping remains to be laid.

Securing approval of this road by the Department of Highways and Public Transportation has been a major goal of the Commissioners Court for several years. Strong support has come from farmers living south and east of Wellington. Upon completion of the road, it will no longer be necessary for farmers driving loaded trucks, pickups pulling cotton trailers, or trucks with cotton modules coming from the south-east to move onto US 83 to get to either of Wellington's cotton gins.

Likewise, farmers hauling wheat will be able to reach the elevators without coming onto US 83.

between him and the highway.

The front of the Glazner car stuck the left front quarter panel of the Stages pickup, the highway patrolman said. Both vehicles were totaled, he added.

Kenneth Martindale, Samnorwood School Principal, also a reserve deputy, was the first officer at the scene, James Said. They were joined in the investigation by Sheriff Kenneth Maxwell and Deputy Gene Denton.

A Shamrock ambulance, sent to the scene, developed mechanical problems at the accident site and the two Wellington Volunteer Ambulance Service ambulances answered the call.

Stages condition Tuesday morning was reported as "a lot better." He is suffering from facial cuts and a concussion, but no broken bones or internal injuries have been found, said his father-in-law, Marvin Knoll.

Golf at Willow Creek

BY MARY SANFORD

June 2 was the first day for playing hours change for the summer. The women of Willow Creek Golf Association of Wellington Country Club, teed off at 9 a.m.

We were short on players, long on enthusiasm and high on scores.

Eugena Sherman hit a nice long tee shot, Betty Cochran and Lynna Hurst hit good fairway shots, Ivabell Mauldin hit a good approach shot and I hit two good shots in the water.

And that was just on the first hole.

After that they all took turns hitting good and bad balls and I took turns hitting the ball and the ground.

We all tried to make a hole in one on No. 7, like Vicki Parker did recently but found out you have to get on the green to do it.

Following this fantastic 9 holes of play, the women had a covered dish luncheon and business meeting.

Fortunately, this part of the day went better than the golf.

Warrick Attends Texas Boys State

Austin, June 5 - The Forty-second annual American Legion Boys State sponsored by the State of Texas American Legion, and held on the campus of The University of Texas at Austin is under way as 942 high school boys from all parts of Texas are registered, State Commander Lee Guy of Breckenridge announced.

Registered from Wellington is Jim Warrick who was sponsored by Frank King American Legion Posts.

Following registration, each citizen was assigned to one of two political parties - the Nationalist or Federalist. Each citizen then functions as a member of his party, he attends its precinct, county and state conventions and votes in its primary.

Boys State is one of the most successful youth programs in operation today. Each year, Posts select thousands of students throughout the nation to attend these civic workshops where each boy participates in the practical functioning of local, county, and state government.

Boys State helps to develop civic leadership and pride in American citizenship. This program arouses a keen interest in the detailed study of our government. These civic workshops stress the importance of maintaining our form of government and brings about a better understanding of our national traditions and beliefs to the more than 28,000 young men throughout the nation who are participating this year.

Speaker highlights include an address by Governor William P. Clements, Jr. on June 8 at 11:00 a.m. and an address by National Commander Jack W. Flynt on June 9 at 6:30 p.m. both in Hogg Auditorium. Congressional Medal of Honor recipient Sgt. Roy P. Benavidez will speak on June 10 at 8:00 a.m.

Another highlight of Boys State will be a trip to the Capitol on Friday morning where each elected Boys State Official will be given an opportunity to serve in his respective office for a day.

Texas Boys State enrollment this year brings the total to 25,672 high school juniors who have attended since 1940, when Boys State was first inaugurated in Texas.

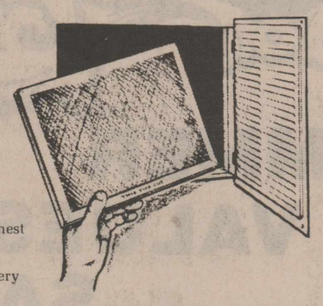
YOU
can control your use of electricity and your bill by using energy wisely.

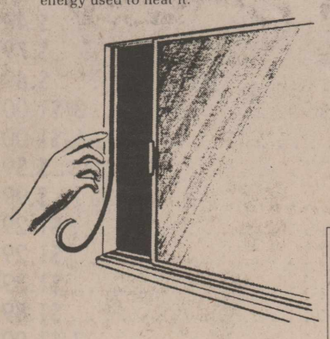
Higher fuel prices and inflation have pushed electric costs higher in recent years.

But YOU still are a key factor in determining the size of your electric bill. Because only you can control the amount of electricity you use, a large part of the control over your bill is in your hands.

We offer these wise-use suggestions as a guide for getting the most out of every dollar you spend for electricity:



- Make sure your house has insulation equal to at least an R-19 rating in the ceiling and R-11 in the walls. Insulation pays for itself within a few years in reduced heating and cooling costs.
- Weatherstrip windows and doors, then keep them closed.
- Eliminate excess heat with draperies, storm windows, reflective films, window shades and overhangs.
- Set air conditioning thermostat at the highest comfortable setting, around 78 degrees.
- Clean or replace air conditioner filters every month or—even better—every two weeks.
- Have leaky hot water faucets repaired immediately; they waste both water and the energy used to heat it.
- Check the temperature control on your water heater. For most needs, the correct setting is 135 degrees; water heaters used for baths only may be set at 110 to 120 degrees.



By following these tips, you should be able to control your use of electricity—and the size of your bill.

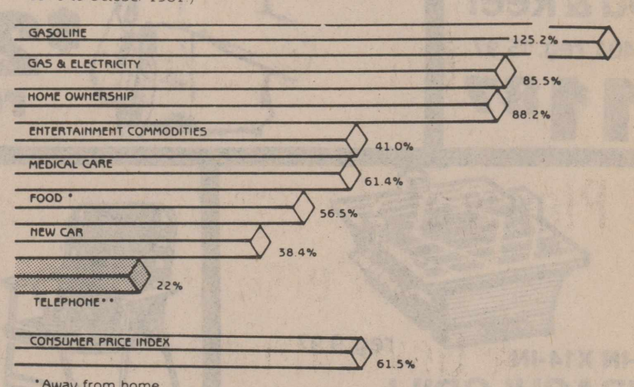
YOUR TELEPHONE SERVICE - A REAL BARGAIN

All things considered, talking is a real bargain. The chart below shows how your telephone costs compare against other goods and services you use daily.

(Figures based on data gathered from U.S. Bureau of Labor Statistics from October 1976 to October 1981.)



*Away from home
**Basic local service in GTSW's Texas exchanges

Frequently, the convenience of the telephone is taken for granted.

For instance, a few things you use your phone for:

1. Shop ahead, save gas.
2. Make appointments (doctor, sales calls, lawyer, preacher)
3. Emergencies (police, fire, ambulance)
4. Talking with loved ones in other towns
5. Conducting business via long-distance, save on travel cost
6. Calling scout troop, civic club, little league team, etc.
7. Visit with a friend across town.

Talk is cheap and also a real bargain. For a true picture, divide your basic local service rate by the days in the month. For just pennies a day, excluding long distance and special services, you have your town at your fingertips.

Silver Anniversary Reception Honors Mr., Mrs. Leon Myers

Approximately 125 friends and family members joined Mr. and Mrs. Leon Myers of the Abra community when they observed their 25th wedding anniversary Sunday, June 6. The celebration was held in the home of Mr. and Mrs. Rudie Tate.

Receiving the guests were Mr. and Mrs. Myers and their two sons, Bobby Myers and Dwayne Myers; Mr. and Mrs. Tate; and Mr. and Mrs. Otis Tate, Mrs. Myers parents.

Penny Massey of Lubbock and Leslie Brandvik registered the guests. An arrangement of blue carnations in a new vase, marked with figures "25" accented the registry table, and other appointments were of silver.

By contrast, the arrangement of daisies, gladiolas and baby's breath on the reception table was held in an antique vase, 75 years old or more, which was given by Mr. and Mrs. Evan Sitter of McLean, to Mr. and Mrs. Myers at the housewarming when they moved into their new home four years ago.

A white lace cloth covered the table.

Stacy Knoll served the coffee and Sally Seymour the punch. Crystal Breeding cut the cake.

Other members of the house party were Mrs. Joe Knoll, who was also a bridesmaid at the wedding, and Mrs. Jimmy Breeding, Mrs. Butch Tate, Mrs. Tom Tate, Mrs. Otis Tate, Mrs. John Stages, Jr., Mrs. John Stages, III, Mrs. Ray Dwyer, Mrs. Zeldon Jenkins and Mrs. Noble Elder.

Guest called between two and four in the afternoon.

Leon Myers and Bonita Tate were married June 8, 1957, at the home of her parents, Mr. and Mrs. Otis Tate of Abra. One of their classmates, Charles McAnear, now of Houston, officiated. The best man was Ralph Davis of Amarillo, who has undergone surgery and could not attend Sundays festivity. Her sister, Mrs. Jim Massey of Lubbock, was her wedding attendant and was present at the anniversary celebration Sunday.

MR. AND MRS. LEON MYERS

Others who took part in the wedding were there for the anniversary celebration. Mrs. Rudie Tate (Karen Breeding), in whose home the anniversary celebration took place, and Mrs. Joe F. Knoll (Lois Amerson), served at the wedding reception and Mrs. Ralph Davis registered guests.

And the anniversary reception was held in the same house as the wedding reception, then belonging to Karon Tate's parents, Mr. and Mrs. W.R. Breeding.

A special guest Sunday was Miss Maudie Coffee, who taught both Leon and Bonita Myers and their older son, Bobby, but retired the year before Dwayne Myers started to school.

Leon Myers drew his first pay check as a hand on the Hess Ranch when he was 9 years old, working after school and on Saturdays. The family lived on the Hess Ranch, and he continued to do ranch work for Farris Hess for "20 plus" years.

Nine years ago he became self employed as a farmer and rancher, but the family continued living on the ranch. Four years ago the couple built their new home at Abra. Moving from the Hess Ranch, where Myers grew up and where they had lived their married life, was not an easy matter. They agree it was one of the hardest decisions they have made. Myers is a graduate of McLean High School and a member of the Dozier Church of Christ and president of Samnorwood Lions Club.

Bonita Tate Myers attended Samnorwood ISD 12 years and after her younger son, Dwayne was in school, she enrolled in Clarendon College. Four years later, in 1974 she received her degree from West Texas State University.

While she was commuting to Canyon two days a week, she was working as an aide at the Samnorwood School three days.

With just 9 college hours left to finish her degree, Bonita began to wonder if she could go on. Then Samnorwood Supt. Rex Peeples phoned one day. If she would finish the 9 hours necessary, there would be a place as teacher waiting for her when school started that fall.

WTSU was co-operative, too, and made it possible for her to complete the 9 hours in extension classes being held at Pampa.

Before she started to college, Mrs. Myers wrote the Abra News for The Wellington Leader.

Mrs. Myers, like her husband, is a member of the Dozier Church of Christ. She is also a past president of Parent-Teacher Association and of Samnorwood Young Homemakers, and former treasurer of the County Unit, Texas State Teachers Association. She belongs to Samnorwood Young Matrons, Delta Kappa Gamms, and the National Education Association.

At present the Myers' younger son, Dwayne, is attending TSTI, Amarillo and will graduate in August, Bob, the older attended Clarendon Junior College from 1977 to 1979, and this fall he will attend West Texas State University.

Mrs. Myers sums up her goals of her family: "I try to help in any way to improve 'my' school and community."

This last year Bonita was sponsor of the Samnorwood graduating class of 9. Four of the 9 came to the reception.

Mrs. Mitchell Honored Thurs.

Quail Friendship Club met Thursday, June 3, when they honored Mrs. Monty Mitchell with a birthday dinner in the Quail Booster Club Building.

Each member brought a covered dish.

The program was presented by Lorene Jenkins, president of Wellington Garden Club, who returned recently from a trip to Australia.

She showed slides relating to Australia and others of Wellington yards.

Present were Mrs. Pat O'Hair, Mrs. O.L. Hartman, Mrs. Emma Robinson, Mrs. Roy Peggram, Mrs. Jennie Oatman, Mrs. Pearl Hays, Mrs. Mary Clay, Mrs. Ira Morgan, and guests, Mrs. Cora Taylor, Mr. and Mrs. W.A. Gollihugh, and Mrs. Ethel Oatman.

Mr., Mrs. Leslie Moore Celebrate 50th Wedding Anniversary Sunday

One hundred and eight friends and relatives joined Mr. and Mrs. Leslie Moore as they celebrated their 50th wedding anniversary Sunday, June 6, in the Heritage Room.

Reception hosts were their sons and daughters-in-law, Mr. and Mrs. Harold Wayne Moore of Wellington, and Mr. and Mrs. Don Moore of Longmont, Colo. Joining them were the grandchildren, Debbie Moore, David Moore and Dione Moore of Wellington, Mr. and Mrs. Dickey Moore of Wheeler and Melissa Moore of Longmont.

Mr. and Mrs. Moore received the guests after they were registered by Dione Moore and Mrs. Dickey Moore.

The reception table was covered with a whitelace cloth over gold. The centerpiece was of gold carnations and white daisies arranged in a gold footed bowl. Silver and crystal appointments were used.

An adjacent table was accented with an arrangement of gold chrysanthemums and held a silver coffee service.

Debbie Moore and Melissa Moore presided at the refreshment table, and Mrs. Fred Yarbrough showed the gifts.

Friends called between three and four-thirty o'clock.

Thomas Leslie Moore and Colvin Pearl Adams were married in Wellington, June 11, 1932. Their home is at 1901 El Paso Street.

Mrs. Moore is the daughter of the late W.R. and Mary Jackie Dickey Adams.

She was born here and grew up east of Wellington, having attended Grassbur School until fourth grade, and Wellington the remainder of the time. She graduated in 1931.

Besides her family, much of Colvin Moore's activities have centered around her church, First Church of the Nazarene. She has served on the church board and Christian life board.

MR. AND MRS. LESLIE MOORE

"I have taught Sunday School classes most of my adult life, also worked with the PTA and band during the boys' younger school life," she recalls.

Leslie Moore has special ties with The Wellington Leader, having worked for the newspaper for several years as a young man. As long as The Leader kept its old press, he would come back on occasion to help the paper out of a bind.

He was born at Tolbert in Wilbarger County and came to Wellington in 1910 with his parents, the late T.W. and Jessie Anna Coleman Moore.

Moore attended Fresno and Beanhill Schools before coming to Wellington for the remainder of the time.

"I carried the mail as a substitute for 28 years and farmed for 46 years," Moore sayd. "I drilled water wells and repaired them."

A member of the First Baptist Church since 1920, Moore has taught Sunday School classes and worked with the Baptist Brotherhood as secretary and treasurer, and served as an usher. Moore also has served on various committes and belonged to the Wellington church 62 years.

For many years he and his family lived east of Wellington. Then, some years ago, he developed the Moore Addition in the south part of Wellington and this is where Leslie and Colvin Moore now live.

The couple have two sons, Harold Wayne Moore of Wellington and Donald Leslie Moore of Longmont, Colo. There are 5 grandchildren: Debra Moore of Childress; Dicky Moore of Wheeler; David Moore and Dione Moore of Wellington; and Melissa Moore of Longmont, and one great-grandchild.

Out of town guests here for the anniversary celebration included Jim and Reta Adams of Albuquerque, N.M., Mr. and Mrs. Don Moore and Melissa of Longmont, Colo.; Mr. and Mrs. Richard Morris and Clay of Stinnett; Mr. and Mrs. W.H. Minton of Amarillo;

Guests registered at a small table covered with a white linen cloth bordered with embroidered lace. A bud vase held pink carnations and lilac daisies.

Guests were served from a table covered with a hand made white cloth of alternating bands of material and white crochet in an intricate design. Crystal appointments were used, and the centerpeice of pink carnations and lilac daisies, had brass candle holders with white tapers at each side.

School Finances

The second session of the 67th Legislature passed, among other things, a constitutional amendment to be voted on this fall, that would exempt all farm machinery from property taxes.

Although the amendment should make bookkeeping in the tax offices tidier, it won't provide much relief for farmers in districts such as Wellington ISD.

While farmers here will pay a little less, landowners and homeowners will pay a little more and every farmer is a landowner or homeowner.

That is, unless the losses are replaced from State funds. State Representative Foster Whaley has said that he will attempt to have the losses replaced by the state, but we don't know what his chances of success are.

The questions raised by the amendment merely point to the larger question of how Texas public schools should be financed. A student in a Texas public school may, by the good fortune of living in a wealthy district, find himself surrounded by the very best that money can buy. Or, in a poor district, he may find himself in a crowded classroom with barely enough money to pay the utilities.

This is not to say that money totally equates to the quality of education. But we value almost every other segment of our society through money and it is unreasonable to assume that there's not some correlation in education.

The next session of the state Legislature should take a long, hard look at Texas public school funding.

Senator Bill Sarpalius Reports

CAN WE STOP EXPLOSIONS?

AUSTIN -- We talked in earlier columns about grain elevator explosions, which have caused the death of at least 39 Texans since 1976 and have cost the grain industry millions of dollars.

The last Legislature charged the Senate Agriculture Subcommittee, of which I am chairman, with trying to find a way to stop these explosions. We think we may have found a way.

While grain elevator explosions are complicated chemical reactions which can be caused by any number of circumstances, they all have four things in common. They all require an enclosed space, fuel (the dust), oxygen (in the air) and a heat source. The heat source can be a broken light bulb, welding sparks, a short circuit, or any of a number of things.

Nearly all the solutions we have seen try to take away the fuel source by controlling the amount of dust in the air. Presently, most elevators have a system of vacuums, fans and filters to suck up the dust and dispose of it. This system is not only not dependable, but it costs a fortune and uses tremendous amounts of energy to run all the electrical equipment needed.

There may be another way. Recent research has shown that adding an oil compound may have the dual benefit of decreasing the explosions and preventing weight loss of grain.

The idea of adding oil compounds to grain is new. It was first proposed in 1972 by Harry Barham of Lubbock. The oil Barham uses is edible, and is not detectible by normal testing methods. He uses about 200 parts of his oil compound for every million parts of grain.

The oil treatment system now faces a stumbling block in Washington. While the oils are used in very small quantities, the Federal Grain Inspection Service has graded grain treated with Barham's vegetable oil compound "commercially objectionable foreign odor." Barham also has a mineral oil compound, which does not affect the grain's grading, but the Food and Drug Administration has not approved it for food use.

So even though this new product may be very beneficial to the grain industry, it cannot be used right now. However, we are very hopeful that this compound, or another method to stop grain elevator explosions, soon will prove to do the trick.

This good idea came from a man from Lubbock. Good ideas come from all over, and we know some of them could come from you. Please write Senator Bill Sarpalius, P.O. Box 12068, Austin, Texas 78711.

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams
TEXAS PRESS ASSOCIATION

Austin—The Texas Legislature made quick work of its special session agenda, heading home after only a week and leaving political observers to sift through the aftermath.

In five days of work, the Legislature passed four constitutional amendments, two appropriations bills and scores of resolutions memorializing everything from railroad pensions to asking Poland to end marshal law.

Included in those constitutional amendments was the state property tax repeal, which was the reason Gov. Bill Clements called the Legislature back into session in the first place.

Texas voters will get a chance to pass judgment on the property tax repeal when they go to the polls Nov. 2. If the repeal is approved, 17 state colleges and universities that do not participate in the Permanent University Fund will be without a dedicated source of construction funding.

Other constitutional amendments passed during the brief special session and which will be on the general election ballot include measures to increase the amount of interest the state can pay on water bonds, to clear up the intent of legislation exempting farm tools from local property taxes and to correct an error in an earlier amendment setting a limit on welfare payments.

The two appropriations bills provide nearly $200 million to tide the colleges over until the Legislature can find them a permanent source of funding in 1983 and to speed construction of new prison units to ease the overcrowding that caused the Texas Department of Corrections to refuse to accept new inmates last month.

Officials have estimated that the special session cost taxpayers some $60,000 per day, meaning the five-day extravaganza ran up a bill of about $300,000.

The voters' decision on the constitutional amendments in November will tell us whether it was worth it.

Insurance Rates

Homeowners may be getting a break on their insurance soon if the State Board of Insurance approves a rate reduction recommended by its staff.

The SBI staff has asked the board to cut homeowners rates by an average of 16.3 percent. However, an insurance industry group has asked for a reduction of only 2.9 percent.

Under the staff recommendation, homeowner policies would go down about 20 percent and extended coverage policies would go down some 15.1 percent. Fire insurance alone would go up about 11.2 percent.

Insurance industry spokesmen say the SBI staff did not take into account the damage caused by hurricanes when it calculated its recommendation. Those officials admitted that some reduction is justified, but not as much as the staff wants.

While rates for those who own their own homes might be going down, persons who rent can expect a substantial increase in their insurance bills.

The SBI staff has recommended that tenant homeowner policies go up by about 22 percent.

The board has not yet made a final decision on the new rates.

Bid Rigging

The State Highway and Public Transportation Commission has suspended 17 highway contractors accused of rigging bids on state highway contracts from competing for future construction projects, and those contractors say they may sue the highway department.

The commission placed 17 contractors who have either pleaded guilty or no contest to federal bid rigging charges or who are presently facing similar charges on indefinite suspension under emergency rules adopted earlier this year.

Many of those contractors already have agreed to pay damages to the state and are cooperating in the ongoing investigation. They say the suspension could put them out of business and adversely affect their ability to pay the damages they agreed to.

Attorneys for at least two companies — Schwabe and Mikes Paving Co. of Shiner and Stafford Construction Co. of Lubbock—say they will file suits against the commission to stop the suspension.

The alleged bid rigging activities reportedly occurred before the commission adopted the new suspension policy, those attorneys say.

The commission not only suspended the contractors from bidding on future projects, but also refused to award some $2 million in contracts for which those companies were the low bidders.

Agriculture Commissioner

The Republicans have finally found a candidate to take on Democrat Jim Hightower in the agriculture commissioner's race.

Waller rice farmer Donald Hebert has stepped aside and Texas A&M University poultry specialist Fred Thornberry apparently will pick up the GOP banner in that race.

The Republicans have been searching for someone to replace Hebert since the May 1 primary. Hebert had been the only Republican to file for that post but was considered to be too little known by the GOP leadership.

Democratic party officials have been crying foul, claiming the GOP is abusing the state's election laws by substituting candidates after the primary.

The Democratic complaints should offset similar complaints made earlier by Gov. Clements and other Republicans when Democratic candidates began dropping out of the runoff races to avoid divisive campaigns.

The GOP also has been shopping around for a replacement for state treasurer candidate Millard Neptune.

THOMAS ROLL CALL REPORT

Your Congressman's Votes Reported Each Week

WASHINGTON-
Here's how area congressmen voted on the fiscal 1983 budget master plans that were on the House floor last week.

THE REPUBLICAN BUDGET This was the alternative backed by the White House, even though floor amendments had added many provisions distasteful to President Reagan.

Reps. Samuel Hall, D-1, James Collins, R-3, Ralph Hall, D-4, Phil Gramm, D-6, Bill Archer, R-7, Jack Fields, R-8, J. Marvin Leath, D-11, Jack Hightower, D-13, Richard White, D-16, Charles Stenholm, D-17, Tom Loeffler, R-21, and Ron Paul, R-22, voted "yea."

Reps. Charles Wilson, D-2, Jim Mattox, D-5, Jack Brooks, D-9, Jake Pickle, D-10, James Wright, D-12, William Patman, D-14, Kika de la Garza, D-15, Mickey Leland, Dp18, Kent Hance, D-19, Henry Gonzalez, D-20, Abraham Kazen, D-23, and Martin Frost, D-24 voted "nay." The plan was defeated, 192 for and 235 against.

DEMOCRATS' BUDGET This projected a 1983 deficit of about $105 billion, higher taxes yet lower defense spending that called for by the GOP budget, and higher spending for domestic programs than proposed by the GOP plan. It was defeated by vote of 171 for and 253 against.

Wilson, Brooks, Pickle, Wright, Hightower, de la Garza, White, Gonzalez, Kazen and Frost voted "yea."

Sam Hall, Collins, Ralph Hall, Mattox, Gramm, Archer, Fields, Leath, Patman, Stenholm, Leland, Hance, Loeffler and Paul voted "nay."

BI-PARTISAN BUDGET Sponsored by Rep. Les Aspin, D-Wisc., and backed gets. Its tax increase and domestic cuts fell in between the Republican and Democratic plans. It was rejected, 137 for and 289 against.

Brooks, Pickle, Wright, Gonzalez and Frost voted "yea."

Sam Hall, Wilson, Collins, Ralph Hall, Mattox, Gramm, Archer, Fields, Leath, Hightower, Patman, de la Garza, White, Stenholm, Hance, Loeffler, Paul and Kazen voted "nay."

BLACK CAUCUS BUDGET Sponsor Walter E. Fauntroy, the Democratic delegate from the District of Columbia, said his alternative was weighted heavily toward human needs at the expense of the Pentagon, the very wealthy, and the corporate sector. This budget was defeated, 86 for and 322 against.

Mattox, Leland, Gonzalez and Frost voted "yea."

Samuel Hall, Wilson, Collins, Ralph Hall, Gramm, Archer, Fields, Brooks, Pickle, Leath, Wright, Hightower, Patman, de la Garza, White, Stenholm, Hance, Loeffler, Paul and Kazen voted "nay."

THE LIBERALS' BUDGET This was the budget alternative most concerned with using federal spending to create jobs. It proposed high spending for such public works projects as bridge repairs and sewage plant construction, and it emphasized increased education spending and federal job training programs to teach American workers new technological skills that would help the country to compete better in the world economy. The alternative was rejected by a vote of 152 for and 168 against.

Leland and Frost voted "yea."

Sam Hall, Wilson, Collins, Ralph Hall, Gramm, Archer, Fields, Brooks, Pickle, Leath, Wright, Hightower, Patman, de la Garza, White, Stenholm, Hance, Gonzalez, Loeffler, Paul and Kazen voted "nay,"

Mattox did not vote.

PAY-AS-YOU-GO This was the most innovative of the several budget plans. It froze spending at 1982 levels, and required that any new program or line item expenditure be financed by higher taxes or spending cuts in the amount of the new outlay. It was defeated, 181 for and 225 against.

Sam Hall, Mattox, Brooks, Pickle, Wright, Hightower, Patman, de la Garza, White, Gonzalez, Kazen and Frost voted "yea."

Wilson, Collins, Ralph Hall, Gramm, Archer, Fields, Leath, Stenholm, Leland, Hance, Loeffler and Paul voted "nay."

NO-DEFICIT BUDGET This budget offered the quickest solution to the nation's economic woes -- a balanced budget in fiscal 1983, achieved by freezing virtually all spending at 1982 levels while continuing in full force the supply-side tax cuts that the other budget alternatives would have softened. The plan was rejected by 182 for and 242 against.

Sam Hall, Collins, Ralph Hall, Gramm, Archer, Fields, Leath, Patman, White, Stenholm, Hance, Loeffler, Paul and Kazen voted "yea."

Wilson, Mattox, Brooks, Pickle, Wright, Hightower, de la Garza, Leland, Gonzalez and Frost voted "nay."

Tim Taylor Receives WT Scholarship

WTSU--Tim Taylor, a graduating senior at Hedley High School, has been awarded a Campus Services scholarship for $800 to attend West Texas State University during the 1982-83 academic year.

As one of 10 freshman students who receive the scholarships, Taylor will serve as an official host of the university to take visiting students and parents on campus tours and to assist with campus activities. He will work in the office of Keith Winter, director of development.

Winter interviewed more than 100 high school seniors from Texas, New Mexico, Kansas and Oklahoma for the 10 scholarships.

To be eligible for the scholarships, students must have a score of 21 or above on the American College Test or 902 or above on the Scholastic Aptitude Test college entrance examinations, must have exhibited leadership qualities, have a record of participation in extracurricular activities, a "B" average or above in high school and two letters of recommendation with one of the letters from the high school counselor.

A competitive scholarship of $200 or more at WTSU waives out-of-state tuition which often is 10 times higher than in-state costs.

At Hedley High School, Taylor has been involved in basketball, the senior play, the yearbook staff, as reporter and vice president for Future Farmers of America and class president.

He has received the Daughters of the American Revolution Award for excellence in history and is the salutatorian in his graduating class. He also has received several honors from students. He formerly attended Quail School.

Taylor, who is the son of Jim and LaJean Taylor of Route 1, Hedley, is interested in computer science at WTSU.

The announcement was made by WTU President Glen D. Churchill following a meeting of the company's directors Monday morning.

Welch will succeed Dick Brooks, who will move to Corpus Christi to become vice president of engineering for Central Power and Light Company.

Welch, a native of Stamford, has been an executive assistant to Brooks since February 1 after serving at WTU's district manager at Stamford for a number of years. As a vice president he will be director of Customer Services, with executive supervision over WTU's district operations, merchandise sales, customer technical services and area development.

Welch, 42, graduated from Stamford High School in 1957. He attended North Texas State University for two years, then joined WTU as a groundman in a distribution line crew at Stamford in 1959.

He served in the Army from 1961-63, and was discharged as a sergeant. He worked as a clerk-draftsman for WTU in Stamford until 1964, as a serviceman in Aspermont from 1964-67 and as a local manager at Aspermont from 1967-70. He moved to Wellington as local manager from 1970-73, then to Alpine as local manager from 1973-76.

DON WELCH

While at Alpine, Welch earned a degree in business administration and pursued graduate studies at Sul Ross State University. He returned to Stamford as assistant district manager in 1976 and was promoted to district manager in 1977, succeeding the late Russell Crownover.

Welch has been a vice president and director of the Stamford Chamber of Commerce, a director of the Texas Cowboy Reunion, a director of the Industrial Foundation and vice chairman of the Parks Board. He is a past-president of the Stamford Country Club, and the Stamford Rotary Club. In Wellington, Welch was president of Collingsworth Chamber of Commerce.

He and his wife, Merina, have two children. They are Lynette, 16, a sophomore at Stamford High School and Matt, 10, a fifth grader. The Welchs are Baptist.

Due to the lack of quorum the regular meeting of the City Council on Monday, June 7, was postponed, according to Mayor Ralph Owens.

A special meeting will be called for later in the week, the mayor said.

OIL & GAS

A lease covering one section of land located in the northwest part of the county has been filed with oil, gas and mineral rights to begin at 4,000 feet from the surface and extend downward to an unspecified depth..

It is one of the first leases, if not the first, which covers rights beginning at this depth. Other leases in that part of the county have specified depths from the surface of depths of approximately 2,200 to 3,000 feet.

The lease, dated May 15, was given to TRD, Inc., Ft. Worth, by members of the Hess Family, including F.J. Hess and wife, Leta Mae; Margaret Coleman and husband, J.O. Coleman; Ruth Magee and Mary Dwyaer.

Information on the transaction is contained in two leases and contract filed in the clerk's office.

At this time TRD, Inc., is leasing 640 acres more or less, out of a 17,200 acre tract with a primary term of one year. Metes and bounds of the one section are not given.

The contract provides that upon proof an oil well has been developed, TRD, Inc., has the option to lease the full 17,200 acres (28½ sections) with a bonus of $50 per net mineral acre.

A separate lease stipulates the landowners are to receive 3/16 royalty. TRD, Inc. has three months in which to exercise its option.

Two sections of the land are located in Donley County and 26½ sections in Collingsworth.

Collingsworth land includes sections 6, 7, 8, 9, 18, 19, 20, 21, 31, 32, 33, 34, 35, 44, 45, 46, 47, 48, 87, 95, 96, 112, 114, 121, 122 the N/2 section 88, E/2 section 61, E/2 section 71, W/2 section 60 and W/2 section 70, all in block 22. Donley County land are sections 13 and 22, block 22.

An oil, gas and mineral lease was assigned by Synergy Petroleum Co. to Booth Creek Investment, Inc., of Arlington, covering the NE/4 section 4, block 23, also in the northwest part of the county.

This tract was leased by William G. Hawkins and wife, Artie, to Universal Royalties, Inc., in 1971. A year after it was acquired by Drilco of Dallas which in turn sold it to Lone Star Petroleum, which went into bankruptcy. A bankruptcy court directed the sale to Synergy.

A.W. Hmbree to Joe H. Loving and wife, Margie, and Peggy L. Harrell and husband Charley: N/2 N/2 section 88, block 10.

Three assignments of oil, gas and mineral leases covering a half section of Collingsworth County land have been made to the University of Alabama at Tuscaloosa.

Making the assignments were E. Gregory Pearson of Huntsville, Ala., J. Steven Mobley of Huntsville, Ala., and Paul Frebreck of Huntsville. The lease covers the SW/4 section and NE/4 section 61, block 16. This is 17 miles north of the northeast corner of Wellinton.

Another assignment conveys 100 percent of the assignors right, title and interest of oil, gas and mineral leases of Frederick, Pearson and Mobley, an Alabama General Partnership, to the University of Alabama at Tuscaloosa. This includes two producing wells, the No. 1 and 2 Wischkaemper.

Assignment of oil and gas lease: Wheeler Oil Co., to Jack Davis, Trustee, Less 1/8 royalty and 1/16 of 8/8 overriding royalty interst on SE/4 section 10, block 17.

Oil and gas lease: Virginia Hill, Barbara Gilbert and Harald Lynn Hill and Gary Mike Hill to Panhandle Drilling Co.: NE/4 section 75, block 12, to a depth of 4,000 feet. with 3116 royalty.

MARILYN VAN PETTEN - BILL MOSELEY - JUDY FORRESTER

Wellington State Depository For the Harrington Center

As of this week, Wellington residents can participate in a unique plan to invest in their own economy and still contribute to a very worthy cause. Bill Moseley, president of The Wellington State Bank, has announced a cooperative agreement between the bank and the Amarillo Area Foundation on behalf of the Don and Sybil Harrington Cancer Center.

The plan, which is called the Endowment Fund Agency Agreement, is being implemented throughout the Panhandle, Moseley said. It calls for banks (or savings and loan firms) to serve as depositories for the Harrington Cancer Center Endowment Fund.

Banks may establish the funds by pledging .02 of 1% of current deposits over the next three years, Moseley explained. Then area residents can contribute to the funds through their local banks.

Those donations (the principal) are held intact and invested by the banks; income from the investments goes to the Amarillo Area Foundation, which acts as custodian of the Endowment Fund for the Cancer Center.

The Foundation, which manages funds for many area non-profit organizations, holds the Cancer Center Endowment Fund in trust and disperses the income earned to the Center.

There are several advantages to such a plan, Moseley said. First of all, the Cancer Center, which provides a vital service to citizens throughout the Panhandle, is assured of ongoing funds to cover operational costs, research projects, equipment, and support program.

Local banks and the community's economy also benefit from keeping the money at home, and contributors have the convenience of working with their own banking institutions.

All gifts, including memorial contributions, can be held in Wellington's endowment fund. The Wellington State Bank informs the Cancer Center of all memorial contributions received, so that proper acknowledgements to the donor and family can be sent.

For additional information on the Endowment Fund plan contact The Wellington State Bank or Marilyn Van Petten, director of development, Harrington Cancer Center 806/353-3571.
