

British Land In Iraq And Ships Shell Libya

Contingents In Oil Areas May Threaten Air Base At Habanya

By The Associated Press

Great Britain landed more troops in the rich Mediterranean oil kingdom of Iraq today, turned the big guns of her fleet on Axis columns in North Africa and virtually completed the removal of 48,000 B. E. F. soldiers from the last campaign in Greece.

The London radio said the arrival of a second British contingent in Iraq had provoked "certain movements on the part of the Iraqi army which might be regarded as a threat to the security of the British air base at Habanya."

"The Iraq administration is being pressed by his majesty's government to move these troops as soon as possible so as to avoid the risk of any incident," the radio said.

Britain has heavy investments in the Iraq oil fields, which might become the target of a Nazi attack to provide fuel for Adolf Hitler's mechanized armies.

The British admiralty announced that the fleet executed a "successful bombardment" of Axis troops and supplies in the Ain El Gazala area of Libya, 30 miles west of the beleaguered British garrison at Tobruk.

Britons Still In Greece

A communique by the British Middle East command indicated that at least some of the 9,000 remaining men were still being removed from the bullet-spattered beaches of the Grecian Peloponnese.

Informed military circles in London freely predicted that a grand-scale Nazi assault on Egypt and the Suez Canal, by way of French-mandated Syria and Palestine, would break within 10 days.

At the same time, these sources said, other Axis columns striking from Libya would join in a giant pincer movement.

Premier Mussolini's high command asserted that Axis scouts had put the British to flight and seized armored equipment in the region of Salum, Egyptian frontier post, just over the Libyan border.

Predicts Special Tax Payment Plan

WASHINGTON, May 1—(AP)—Secretary Morgenthau announced today the treasury was "working on a plan" to enable citizens to prepay their taxes under the heavy rates being considered by Congress.

He said he could not give details, but "generally the treasury was thinking of selling a special kind of security which could be used by taxpayers to pay their taxes instead of paying cash."

Thus, a man expecting to pay \$120 income tax could prepare himself by buying a \$10 security every month of the preceding year. When tax time came around, he would turn over the securities, and avoid the necessity of borrowing money or disturbing his personal budget in order to meet his tax bill.

House Measure Would Clear Proration Law

AUSTIN, May 1—(AP)—Awaiting consideration on the House of Representatives calendar today was a bill intended to clarify the oil proration law.

The measure was reported favorably by the oil and gas committee last night following a public hearing.

Rep. Lester Clark of Breckenridge, author, said the bill would require the state railroad commission to limit oil production to the reasonable demand of the entire state instead of individual pools.

He declared it was intended to prohibit selective buying.

U. S. Navy Ships May Sail In Indian Ocean

WASHINGTON, May 1—(AP)—The rapidly developing Axis threat to Britain's position astride the strategic Suez Canal caused speculation today in diplomatic quarters on the likelihood of U. S. Navy patrol operations in the Indian Ocean along the lanes traveled by shipments of lease-lend supplies that may be bound for Egypt via the Gulf of Aden—Red Sea route.

The belief was expressed that such shipments were highly probable in view of the known British needs in the middle east.

ONE KILLED AND SIX INJURED IN COLLISION

GALVESTON, May 1—(AP)—John E. Waldrop, 25, of Hammond, La., was killed and six other persons were injured seriously today when two automobiles collided at Texas City.

The five men and one woman injured were at Galveston hospitals.

Senators Hurry Large Navy Bill To White House

Measure Includes Over Billion To Speed Work On Vessels Under Way

By The Associated Press

WASHINGTON, May 1—The Senate sent to the White House today a \$3,415,521,750 naval appropriations bill containing \$1,515,000,000 to speed the construction of 729 vessels of all types under way in the two-ocean fleet program.

Adopting a conference report previously approved by the House, the Senate provided for an expenditure of \$434,550,000 on naval aviation, of which \$350,372,000 would be available for payments on 7,129 planes now on order.

Included in the measure were funds to provide an increase in enlisted personnel from 232,000 to 258,000, with 26,120 officers, as well as raising the enlisted strength of the marine corps to 650,568.

A total of \$142,000,000 in cash and \$150,000,000 in contract authority was provided for alterations and repairs to fighting ships, including the modernization of the aircraft carriers Lexington and Saratoga.

Congress wrote into the measure a limitation of 2 per cent on commission payable on land purchase contracts. It also provided for the purchase of Argentine canned beef and other foreign products by the navy where domestic articles of satisfactory quality could not be obtained at reasonable prices.

Patman May Enter Race For U. S. Senate Seat

WASHINGTON, May 1—(AP)—The Texas senatorial race was the chief topic at a luncheon here yesterday of the Texas congressional delegation.

With two members of the delegation, Rep. Martin Dies and Rep. Lyndon Johnson, already seeking the place left vacant by the death of Morris Sheppard, there was talk that another member might soon start campaigning for the place.

Rep. Wright Patman, chairman of the delegation, has been mentioned as a likely candidate. Yesterday he asked his colleagues to appoint a vice-chairman, and they obliged by naming Rep. P. E. Thomson of El Paso.

Behind The Headlines

By DeWitt MacKenzie

Associated Press Staff Writer

One of the most extraordinary documents of the war is the "abstract exploration" of peace terms published editorially by the Japan Times-Advertiser of Tokyo, an influential newspaper which repeatedly speaks often with the tongue of the Japanese foreign office.

The terms are in the language of the Axis.

Napoleonic in scope and definitely those of conquerors. The United States and Britain in effect are relegated to the position of defeated nations, the newspaper calmly blinking the fact that this country is a non-belligerent.

That this is an Axis-sanctioned peace-feeler is obvious. Were there any question about the Japanese government's interest in the venture it would be removed by the fact that the great news agency, Domei, broadcast the text of the editorial to the whole world.

Easy Out For Axis

Naturally Japan wouldn't countenance such a move unless Fuehrer Hitler had nodded acquiescence. The way the thing is done, however, makes it easy for the Axis to disavow the idea if it produces and adverse reaction.

The "exploration" coolly, and without so much as "by your leave," divides the world into spheres of influence on the principle that "to the stronger powers must go the greatest opportunities for developing the world." Might makes right, or words to that effect. The paper uses Hitler's spheres of influence for the triple alliance—Germany, Italy and Japan—as the basis for its speculations.

The powers which would rule the world are Germany, with Italy as "junior partner," whatever that means, and one can only assume it forecasts a hard back-seat for Rome, Japan, Russia, the United States and the British Empire. France, crushed and helpless, is no longer a power. On thumb-nail the suggestions in part run something like this:

Northern Africa To Hitler

Europe, the Near East and Northern Africa would be assigned to Herr Hitler. England would remain the seat of the British Empire, but authority would be transferred gradually to Canada—England presumably being shunted into the position of a fourth-rate power.

Britain would clear out of the Mediterranean altogether, leaving it to the Fuehrer and his "junior partner." The great British naval bases in the Mediterranean and the Far East would be demilitarized.

The American bases in the Pacific also would be demilitarized. Our sphere of influence would be the Western Hemisphere, but Germany, Japan and Italy would be granted an open door to South America. There would be naval parity all around.

Three Airplanes Will Soar Over Defense Sectors

The Provisional Searchlight Battalion will intensify its 360-degree defense of Midland when it adds a third bomber target to maneuvers tonight.

Officers said the use of three planes will be practically unique in U. S. military history.

The pilots are from Brooks Field. They are Lt. S. B. Gimble, Jr., Major J. H. Nedwed, and Lt. Thornquist.

The use of three planes adds to the responsibility of the chief of the record section. He is responsible for the flight of the planes at three different air levels, and directs radio messages to the bomber pilots in three and one-half hours of the flying mission. First Lt. W. R. Langston is charge of the record section.

Radio messages direct the flight of the target bombers and prevent accidents between target and commercial planes in the defense zone. The bombers fly from 8,500 feet to 11,500 feet.

The radio central location is at the objective light on the football field. It is handled from a radio truck. Communication with the officers at the Petroleum Building is maintained.

British Official Says U. S. Flier Tried To Stop Anti-Nazi Action

LONDON, May 1—(AP)—R. A. Butler, undersecretary of foreign affairs answered "yes" in the House of Commons today to a member who asked him whether Charles A. Lindbergh had not "consistently, always used his influence to prevent effective action against Germany."

His questioner was conservative member S. V. T. Adams.

The brief discussion involving Lindbergh brought a statement from Butler that the American flier's views on the strength of the Soviet Union about the time of the Munich pact in September, 1938, were considered of "no due significance" by the British government.

The House cheered this declaration.

Butler refused to answer Laborite Ellis Smith's query whether Lindbergh had used his influence "along with a well-known lady member of this House."

Cool Mine Workers On Job After Strike

By The Associated Press

Back to the mines was the order of the day in the soft coal industry following a month's idleness occasioned by a wage dispute.

Southern mine operators and officers of the CIO United Mine Workers agreed yesterday on temporary wage schedules, including a basic increase of \$1 a day, which permitted immediate resumption of coal digging. Northern operators had perfected their arrangements with the union earlier, and half the northern mines already were at work.

City Police Get Phone Installed

The Midland police department was functioning today under full speed, Chief L. P. McCasland said. A telephone was installed at the desk in headquarters at city hall. Citizens desiring to call an officer should telephone Number 800.

Military police of the Provisional Searchlight Battalion, will operate from the same headquarters.

An officer will be kept on duty at the desk night and day, the chief stated. A light atop the Petroleum Building will signal patrolmen at night if an officer is wanted.

City officers arrested four men last night. They were charged in city court with drunkenness.

Gulf I-F University Is West Texas' First Oiler Below 10,000-Ft. Level

By Frank Gardner Oil Editor

Gulf Oil Corporation No. 1-F University, Eastern Crane Company wildcat, today indicated it might give West Texas its first production below the 10,000-foot level as it showed some free, high-gravity oil through long column of fluid while swabbing with water.

This morning the prospect was swabbing 6,500 feet from the surface, recovering one per cent oil and the rest circulating water. It had 75 pounds pressure on casing and some gas was present. The well continued swabbing operations through 2-inch tubing set at 10,652 feet. Total depth is 10,658 1/2, approximately 30 feet in the Ellenburger, lower Ordovician. The well is reported to have headed four to five barrels of 46.2-gravity oil yesterday when casing was opened preparatory to pulling plugged tubing. Tubing at that time was set at 10,643 feet and was re-run to a slightly lower point. No. 1-F University is located 900 feet out of the southwest corner of section 22, block 31, University survey. If commercial production is attained it will be the deepest in the State outside of the Gulf Coast area.

The northeast sector of the Tubb deep Permian area of the Sand Hills field in Western Crane was extended another one-half mile farther east today by Gulf No. 21 W. N. Waddell et al. After last core from 4,568-78 feet, returned eight feet of porous lime, operators took an 18-minute drillstem test from 4,528-78 feet. The well started flowing oil after 14 minutes and had a maximum gas volume of 670,500 cubic feet per day. Five and one-half inch casing from was cemented at 4,420 feet with 475 sacks and No. 21 Waddell is standing while cement sets.

Teague To Re-Perforate

Continuous swabbing through 2 1/2-inch tubing set with packer at 6,700 feet failed to lower fluid below 3,000 feet from top in Magnolia Petroleum Company No. 1 N. E. Teague, deep test in Northern Martin County. Fluid was described as salt water, probably of bottom-hole origin. Operators set retainer at 6,710 feet and squeezed off 60 gun-perforations in 5 1/2-inch casing from 6,723-53 feet with 100 sacks of cement. They later will re-perforate casing in a slightly higher horizon.

Yesterday the well had shown a slight amount of oil and gas while swabbing at 2,000 feet from surface.

Continental Oil Company and others No. 8 J. S. Todd unit, new Strawn, deep Pennsylvanian, producer in the Todd Deep pool of North Central Crockett County, is preparing to acidize after swabbing 12 barrels of oil in six hours through 2-inch tubing. It is bottomed at 5,889 feet in shale, probably of Strawn, lower Pennsylvanian age. Examination of samples from 5,851-89 feet showed them not to be Simpson, middle Ordovician, as was first thought. The well topped Strawn crinoidal lime at 5,833 feet.

It proves a one-quarter mile south and east extension of the pool.

Maritime Commission Plans Fifty Vessels To Work Out Of Zone

By The Associated Press

WASHINGTON, May 1—In quick response to President Roosevelt's request for ships for this country's "all-out aid to the democracies," the Maritime Commission made plans today to place 50 American tankers in the service of the British within the next few days.

All operators of American tankers of over 5,000 gross tons are being called on for aid in the program.

The tentative plan does not call for a transfer of registry of tankers to the British, but for their use outside the war zone for the direct benefit of the British.

Under the proposal the tankers would be operated from oil-producing countries along the north coast of South America to United States North Atlantic ports.

At the North Atlantic ports the oil would be transferred to British tankers for the remainder of the trip.

Transfer Not Difficult

Shipping experts said the transfer of a cargo from one tanker to another is not a difficult operation, such as would be involved in the transfer of general cargo from one vessel to another.

The commission was asked by the President last night to begin rounding up 2,000,000 tons of shipping to carry abroad "vital war materials."

President Roosevelt, himself, was reported ready to order the prompt requisitioning of refugee vessels in United States ports.

Requisition of 60 Axis and Danish vessels, aggregating 300,000 tons would provide—as a starter—approximately 15 per cent of the 2,000,000 tons the President called for "at the earliest possible moment" to transport the raw materials required by American defense industries and the war supplies needed by nations resisting aggression.

House Passes Merit System Council Bill

AUSTIN, May 1—(AP)—Speeding ahead in a clean-up drive on major legislation, the House today finally passed, sending to the senate, a measure creating a merit system council for employment of two important social welfare departments.

The bill, recommended by Governor W. Lee O'Daniel as necessary to forestall possible discontinuance of federal aid for old age assistance, was approved with one dissenting vote.

After moving this measure toward final enactment the lower chamber approved a resolution appropriating \$25,000 to the comptroller's department for preparation in collecting new levies in the \$22,000,000 omnibus tax bill which was expected to reach the governor's desk later in the day.

Measure which would become effective today if signed by the governor was expedited.

The merit council system approved by the House would apply to employment of the public welfare department and Texas unemployment compensation commission.

Work was begun by the Senate on reenactment of the road bond assumption law. It took up a House bill which would return the surplus in the road bond assumption fund to the highway department.

U. S. Chamber Asks Strikes Moratorium

WASHINGTON, May 1—(AP)—The United States Chamber of Commerce called on the nation's "patriotic labor and industrial leaders" today to declare a moratorium against all strikes which would interrupt defense production.

Approving a resolution proposed by its resolution committee, the chamber declared it to be "intolerable" that anyone should threaten to interrupt defense production "for purposes of coercion" and added that "such acts are offenses against the public safety, and offenders should be subjected to the penalties of the laws they violate."

Johnson Comments On Reappointment Denial

WASHINGTON, May 1—(AP)—In the opinion of Hugh S. Johnson, President Roosevelt's action in denying a renewal of his commission as a brigadier general in the reserve corps was "neither very wise nor very consistent with what at least used to be a very close and precious friendship."

The 58-year-old newspaper columnist yesterday made public a letter he wrote the president to that effect. Johnson declared the White House had given "misleading, so-called reasons" for the non-renewal.

A BIBLE THOUGHT FOR THE DAY

DO OUR LIVES SHED LIGHT OR DARKNESS?
In Him was life and the life was the light of men.
—John 1:4.

Aliens, Too, Must Choose

These are days when men must choose. Days of drift and dream are over. Now, under a proposal by Secretary Hull to Congress, aliens too must choose.

Some have been drafted into the armed forces, probably without anybody's giving the matter much thought. Several foreign countries have objected, and properly so. We would certainly object if American citizens in Germany or Britain were drafted into those armies. It works both ways. So Secretary Hull is quite right in suggesting that Congress pass an amendment to the Selective Service act which would permit aliens thus called up after registration be exempted at their request. It should be done, for it is no more than we would demand for our own nationals in other countries.

But the secretary suggests this additional proviso: that such an alien, having asked and received exemption, should never thereafter be allowed to become a citizen of the United States.

So aliens, too, must choose, if they are called up in the draft. If they are merely temporary residents in the country on business, they will, of course, ask and receive exemption. Such people do not ordinarily expect to become citizens anyway, so no hardship will be worked.

But thousands of aliens are in a different case. They have come to the United States vaguely expecting at some time to become citizens and fully identify themselves with the national life. Such a man should no more be exempted than a citizen. He benefits daily from the security and conditions of the national life. He expects to benefit from them for an indefinite time in the future. He should bear his share in preserving them.

It would be unfair indeed for such a one to refuse armed service, to watch American citizens serve and perhaps die to preserve free conditions, and then, the emergency over, apply for and receive the benefits of citizenship.

To bar forever from citizenship a man who was unwilling at time of crisis to bear the burden that citizens bear is no injustice. It is elementary fairness that at times like this aliens, too, should be required to choose.

Mutual System Makes Agreement With ASCAP

NEW YORK, May 1—(AP)—The Mutual Broadcasting System announced today it had reached an agreement with American Society of Composers, Authors and Publishers on a proposal that may return 1-250,000 ASCAP-controlled songs to its airways shortly after an absence of four months.

Declaring the end of the radio music war appeared imminent, Mutual said terms of the agreement had been mailed to its 175 members and affiliated stations for approval, with the stations being offered their choice of two plans to be effective for any period up to Jan. 1, 1950.

Planning Board Says Southwest Needs Repair Job

By J. B. Krueger
Associated Press Staff Writer
The southwest is a young land, rich in resources, peopled with persons younger than the rest of the U. S. can boast of—but it needs its face lifted.

A roomful of experts sat down at a table in Dallas this week to ponder these thoughts and polish up a years-long plan to increase the contentment and prosperity of Oklahoma, Texas, Louisiana and Arkansas.

They are members of the regional advisory committee of the national resources planning board. Their job will be to apportion among themselves further study of long-range planning, a task which the federal government has been working on since the days of Herbert Hoover.

The national planning board and its regional Dallas office have just brought out a brand-new report on what should be done in the various states to make their people healthier, wealthier and wiser. The regional advisors, who helped with the report, will carry on from there.

They haven't overlooked much. The report recommends efforts to reduce land-tax delinquency, halt aimless farm migration, conserve soil and water on erodible land, get the most out of forest lands, protect life and property from floods through reservoirs, floodways, levees and dams, insure irrigation waters for the Rio Grande Valley, build super-highways, devise a larger system of airports, and control mosquitoes and rodents.

The board winds up with an overall indictment:

"Faced now with recurring droughts, inadequate water control, over-grazed pastures, uneconomic farming units, tenancy, substandard housing, low incomes, inadequate medical, sanitary and educational (in the vocational field particularly) facilities, a substantial portion of the people of the region merely exist."

Red Army Displays Mammoth Forces

MOSCOW, May 1—(AP)—The Red army showed mammoth new motorized mechanized forces in its traditional May Day parade today, with truck-borne infantry and masses of motorized artillery filling Red Square.

Two mortars mounted on trucks were among the new machines adapted to modern lightning war.

A warning by Defense Commissar S. K. Timoshenko that Soviet Russia is ready "to offer an annihilating rebuff to any encroachment by imperialists" ushered in a great display of the Red army's might. Timoshenko's warning was issued in a special order of the day acclaiming Russia's achievements during the past year and emphasizing steps taken to reorganize her armed forces "in the light of experience and modern warfare" at the behest of Joseph Stalin.

He declared that it is the Soviet government's intention to adhere to a peaceful policy, but asserted soberly that "the present international situation is pregnant with all kinds of surprises."

Wash Clothes Are Boon To Small Budget

By Alicia Hart

NEA Service Staff Writer

The girl who is determined always to have that crisp-as-lettuce look in spite of a limited wardrobe, knows the joy of owning clothes which may be washed.

Since she can have only two blouses to wear with her spring suit, you don't catch her buying fragile ones. However, pretty, which cannot be washed and ironed and packed in a hurry, in case an unexpected invitation to go out of town comes along. She leaves blouses which have to be dry-cleaned to women who can have more than two in any season.

IMPORTANCE OF THE SPIC-AND-SPAN LOOK

During summer months, she has at least two dresses which may be washed and ironed without trouble. She doesn't buy white or pastel gloves, cotton or otherwise, unless she is perfectly sure that they will stand being frequently laundered.

She knows that a daily bath, a weekly shampoo and the habit of putting on fresh underwear every morning are part and parcel of her determination to maintain the all-important spic and span look.

KEEP YOUR BEAUTY AIDS AT HAND

Furthermore, she never puts layers of fresh makeup on over stale. She carries a tube of cleansing cream or a compact of special cleansing pads in her purse and always cleans her face before making up. She carries an extra handkerchief, too. She washes her powder puffs often. In her desk at the office there's a pair of clean gloves and a pair of stockings as well as a box of cosmetics.

She spends an hour or so one day a week going over the clothes in her wardrobe—replacing hooks or snaps, straightening sagging hemlines, washing white gloves and collars and cuffs, cleaning suede shoes. She allows another hour once a week for removing superfluous hair on legs and under arms, repairing chipped nail polish, removing straggling hairs that mar the smooth line of her eyebrows. She doesn't tweeze her brows into hard, unnatural lines. But she does keep them neat and tidy and well-groomed.

Detroit Police Hope To Finish Baby Probe

DETROIT, May 1—(AP)—Police officers and members of the Wayne County prosecutor's staff hoped today to climax their two-month investigation of a group of persons suspected of "buying and selling" the babies of unmarried mothers. Lt. Coolidge said unwed, expectant mothers apparently were given hospital care and sums of money, averaging \$50, for their babies who were sold to childless couples for amounts as high as \$1,000.

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass out 3 pints a day. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there's something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Food Prices and Profits

A Statement of Safeway Policy

THE forces of market disturbance, fear, and speculation, are at work. Prices for some basic commodities have already gone up. Increases in Safeway's retail prices on these items reflect the rise in wholesale cost, over which Safeway has no control.

It is a fundamental Safeway policy to earn only a small profit on each sale. Safeway pledges that during the period of war emergency it will not change this policy; and that in the future, as heretofore, it will make every effort through improved methods to reduce distribution cost—the difference between what the farmer gets and the consumer pays. You will always be able to buy from Safeway at the lowest prices available anywhere.

Consumers may assist materially in preventing unwarranted price increases by continuing their purchases on a normal scale. There are adequate supplies of foodstuffs for every American. Hysterical buying which strips retail and wholesale stocks creates artificial scarcity, which pushes prices to abnormal levels.

Machinery exists within the government to control production, storage and release of commodities, imports, exports, quotas and prices—if it should become necessary to employ these methods to protect the economic welfare of the country.

Safeway further pledges complete cooperation with the governmental agencies and with farmer producers in all efforts to stabilize prices; discourage profiteering; and maintain orderly facilities for food distribution.

Prepare Batch Of Cookies To Send Draftee

By Mrs. Gaynor Maddox
NEA Service Staff Writer

The army boys eat well. In fact, far better than a large proportion of our American citizenry. But the Army diet doesn't go in very heavily for sweets. Fruit cobbler, rice pudding, banana pudding, ice cream, some cake and doughnuts are the usual desserts. If you plan to send your draftee son or husband, brother or sweetheart a box better make a batch of cookies. Chocolate is the most popular flavor with men.

Select recipes that will produce good flavor, stay fresh a long time and be easy to pack.

CHOCOLATE CHIP SQUARES

One-half cup sifted flour, 1/2 teaspoon combination baking powder, 1/4 teaspoon salt, 1/2 cup sugar, 1 egg, well beaten, 1 teaspoon melted butter or other shortening, 2 teaspoons hot water, 2/3 cup broken nut meats, one 7-oz. package semi-sweet chocolate chips.

Sift flour once, measure, add baking powder and salt, and sift again. Add sugar gradually to egg, beating thoroughly. Add butter and water; then nuts and chocolate chips, mixing thoroughly. Add flour gradually, mixing well. Turn mixture into 8x8x2-inch pan which has been greased, lined with waxed paper, and again greased. Bake in slow oven (350 degrees F.) 25 to 30 minutes. Cool. Remove from pan. Cut in squares.

COCONUT CHOCOLATE CHIP COOKIES (About 50 Cookies)

One-half cup butter or other shortening, 1/2 cup granulated sugar, 1/4 cup brown sugar, firmly packed, 1 egg, well beaten, 1 cup sifted flour, 1/2 teaspoon salt, 1/2 teaspoon soda, one 7-oz. package semi-sweet chocolate chips, 1/2 can southern style coconut, 1 teaspoon vanilla.

Cream butter, add sugars gradually, and cream together until light and fluffy. Add eggs and mix thoroughly. Sift flour once, measure, add salt and soda and sift again. Add flour in two parts and mix well. Add chocolate chips, coconut, and vanilla, and mix thoroughly. Drop from teaspoon on greased baking sheet, 2 inches apart. Bake in moderate oven (375 degrees F.) 10 to 12 minutes. Pack in tin box.

MENU

BREAKFAST: Sliced bananas, crisp bacon, "enriched" bread toast, jam, coffee, milk.

LUNCHEON: Canned corned beef hash, hard rolls, sliced fresh pineapple with sliced oranges, tea, milk.

DINNER: Casserole of veal chops in Spanish sauce, baked potatoes, spinach, stewed rhubarb, chocolate chip cookies, coffee, milk.

Crane Girl Honored On Seventh Birthday

CRANE, May 1—(Special)—Dorothy June Crittenden, daughter of Mr. and Mrs. D. L. Crittenden was complimented with a party Tuesday afternoon on her seventh birthday, from 3 to 5 o'clock.

Charles Raye Miller won the prize for guessing the correct number of beans in the bottle, and second prize went to Geraldine Fonato. Various other games were played.

Balloons, whistles, and small flags were favors. Wild flowers were used in the floral theme, and the "happy birthday" theme was carried out in pink and white of the candied cake, and table appointments. The guests gathered around the table singing the theme song, and while refreshments were served, the many gifts were opened.

In attendance were: Norma Jean Pettit, Henry Plate, Sherrill Edwards, Emmett, Dave Crittenden, Jr., Bettie Lou Fields, Clarence Miller, Eva Mae Miller, Darrell Lee Vines, Pattie Sue Paris, Jeanette Price, David Price, Norma Crittenden, Gene Hester, Joe Rowell, Jerre Lou Nibbling, Buck Whitley, Yvonne Cantrell, Sammie Joe Paris, Carmelita Russell, Billie Jean Russell, Charles Miller, Geraldine Fonato, Donald Ray Coleman, Duane Warren, Jan Masters, Delores White, Jerre Jones, and the honoree.

Doylene Breedlove, Patricia, and Barbara Brown, and June Rost sent gifts.

Review Of Mozart Opera Heard At Jr. Music Club

Outstanding feature of the program presented at the Robyn Junior Music Club meeting at the Watson Studio, 210 W. Ohio, Wednesday afternoon, was a review of "The Marriage of Figaro" by Mozart, given by Marjorie Barron. She attended the opera in Dallas last week.

Wilma Dee Vaughn played "Sonatina" by Clementi and Lois Dee Eiland played "A Plantation Frolic" by Richter as piano solos.

Patsy Charlton was in charge of the program.

Presiding officers were Matilda Abbott, president, and Eileen Eiland, secretary.

Patsy Charlton and Patsy Riley were at the attendance card.

Jeannette Barnett was introduced as the guest of Patsy Riley.

Fourteen children were present.

VISIT IN AUSTIN

Mrs. L. M. Freels, Miss Margaret Smith, and Mrs. Velma Johnson, will visit in Austin over the weekend to attend the state Interscholastic League Meet.

Town Hall Lecturer Lives Her Own Books; Talks At Auditorium

"I live all the books I write," says Bertita Harding, author of "Phantom Crown" and other biographies, who will address Town Hall Club members and guests at the high school auditorium at 8 p. m. tonight.

"With Carlota in 'Phantom Crown,' I went a little insane; with Elizabeth in 'Golden Fleece,' there was the restlessness which drove me across Europe following the paths she travelled. . . . If writing were, with me, a mechanical trade, these things would not have happened—nor could my pages live."

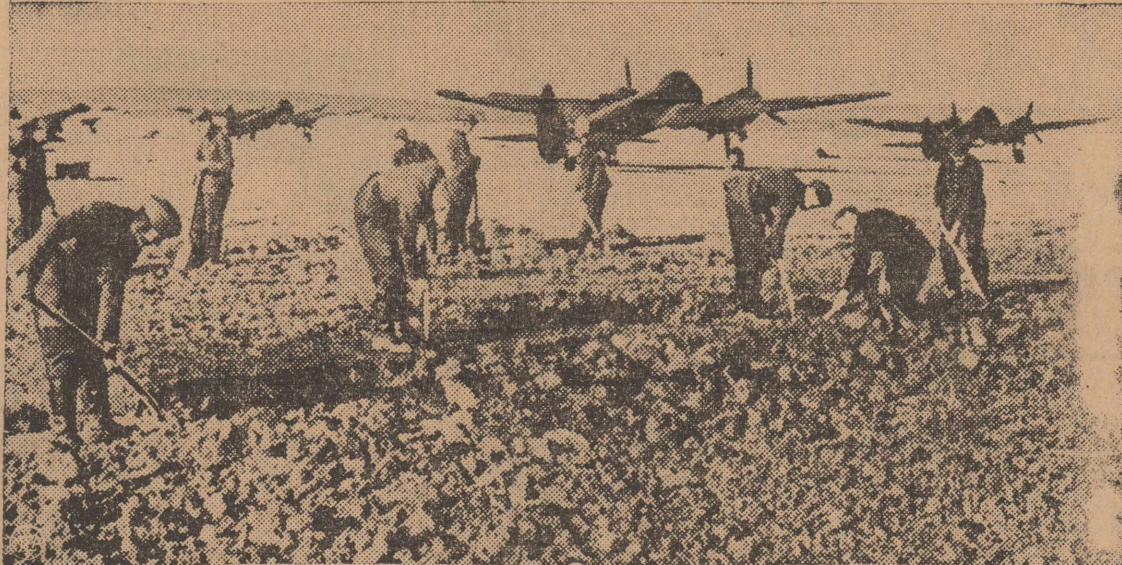

Mrs. Harding, author of a trio of noted biographies dealing with such personages as Maximilian and Carlota, and the Emperor Franz Josef will speak on "The Power of the Pen."

Her family background and early training are steeped in the traditions of royalty.

Mrs. Harding who arrived here today will autograph copies of her books at the book stall on the mezzanine of Hotel Scharbauer from 3 until 5 p. m. today.

Her lecture tonight will close the

Vice-President Predicts Issue Of 'Slavery Or War'

NEW YORK, May 1—(AP)—Vice President Wallace says the issue of "slavery or war" may soon be forced upon the United States.

Nazi agents, he told the New York Young Democratic Club last night, are already stirring up "conflict and confusion so as to soften us in the United States for easy conquest, as they have softened and conquered other free nations."

Draft Office States Majority Of Rejected Men Still Can Serve

A substantial percentage of registrants rejected for full military service on physical grounds have remediable defects which, if corrected, would permit training of the men in the armed forces, state selective service headquarters announced.

Reporting on an analysis of 37,132 physical examination blanks, Lt. Col. J. W. E. H. Beck, chief of the medical division of the selective service system in Texas, said that of 30,285 white registrants examined 71.20 per cent classified as qualified for full military service, and of the 6,849 negro registrants 64.59 per cent were classified as qualified for full military service.

Of the total number classified, Col. Beck said 70 per cent were qualified for full military service, 12.72 per cent for limited service only, and 17.28 per cent were classified as unfit for any military service.

The principal causes for classifying these registrants as unfit for military service are: Eye defects, 1306; defective teeth, 817; hernia, 861; cardiovascular disease, 701; tuberculosis, 278; diseases of the nervous system, 776; syphilis, 1982. Texas' boards have been requested to notify every registrant disqualified because of physical defects the reason for his rejection, and to suggest that he report at once to the physician or dentist of his choice for treatment.

Soviet Ambassador Leaves Turks' Capital

ISTANBUL, Turkey, April 30 (Delayed) (AP)—The Soviet Ambassador to Turkey was reported today to have left the Turkish capital for an undisclosed destination.

The embassy refused to confirm or deny his departure, while Turkish political quarters attached much importance to the report that a large number of German troops had landed in Finland.

The reported departure of the ambassador lent support to the belief in some quarters that the Turks and Russians are in close consultation on the possibility of a Nazi attack on either or both.

SERIAL STORY

LOVE POWER

BY OREN ARNOLD

COPYRIGHT, 1941, NEA SERVICE, INC.

YESTERDAY: Carolyn convinces Bob that the X-999 is safe in the laboratory. One of the thieves is caught, but doesn't talk much, except to confirm Carolyn's story of the substitution of rocks in the boxes. Then Carolyn chatters a plane, steals the X-999 from the lab and places it aboard. She returns to kidnapping a man. She wishes it might be an elopement.

ESCAPE TO ARIZONA

CHAPTER XVI

CAROLYN was at a telephone. "Hello! Hello, Ken? Listen Ken, I've got to talk to somebody. I—I want you to be my guest at lunch. . . . No, I'll pay or I won't got I asked you first, and I'm famished."

She liked Ken Palmer immensely. Good old Ken. He earned all of the \$135 a month he got, keeping books. Once that had been \$45 more than her own salary. Now, though, she was in a fantastic sort of job where money and work and—yes, adventure—were all too plentiful. She had to be nice to Ken.

They met in Grosso's, a favored side street spot, and as she herself had warned him, Carolyn was full of conversation. She talked between salad bites. But she talked intelligently.

"Ken, don't ever tell a soul," she admonished, "but our little trick worked to a T! My hunch was right. Somebody did try to get that shipment. Robbed the freight train and stole the dummy box!"

He was excited. "I saw the papers this morning. Tried to call you. Gosh!"

"Yes. It's a good thing we substituted rocks. Bob is so grateful he was in tears. The—stuffs—the chemicals—I mean, were rather valuable to him. Ken, will you take pay for that? A reward?"

His lips tightened. She hastened on.

"I know you won't. I didn't mean to hurt you, Ken."

"Carolyn, I'd do anything for you. Always!"

She dropped her eyes, and answered that in a low tone. "I know it. Now I think I'd better tell you something. Something important."

"Surely."

"Ken, I love Bob Hale. I'm—off the deep end!"

HER eyes filled with tears then and he saw it when she lifted her head. Ken didn't say anything for a long while, but his face was a study. He had stopped eating. Finally he nodded ever so slowly. "All right," he whispered. "I'm glad you told me, Carolyn. These things—have to be!"

They understood each other; they didn't need to talk. Both knew Ken had loved her and hadn't ever said so in words.

"Ken, you're the nicest somebody in the world."

He nodded again. "I understand, I won't forget. In fact, Carolyn, I already knew."

"You knew?"

"Yep. A man isn't blind. You let little things slip. And no woman would do what you have been doing for him unless—unless—"

Well, power to him! And Carolyn, I'll always be around. Always!"

She wanted to cry then. She wanted to hug Ken and kiss him in sheer admiration and sympathy, but she ate silently for two minutes or more to cover her emotions. You can't just break down and bawl in a restaurant, she told herself.

"Ken," she began anew, presently, "things are going to change for me. I might as well tell you that Bob Hale loves somebody else."

"He does? Why the poor stupid!"

"Hush. It's partly sympathy for her. But she is handsome! And she's a genius and she's a genius and they're like that, I suppose. But he's hungry for love and he reveals it when he is given half a chance, Ken! Sometimes I just want to kidnap him!"

She was becoming a bit vehement and she realized it. "I'm being shameless. Forgive me, won't you? And just let me talk myself out."

"Eat your lunch," he commanded, practically. "I think you need it. You're jittery."

"I do need it. But I'm going away." She suddenly squeezed his hand. "A million thanks, boy friend. And goodbye!"

She got up abruptly and left him, paying both checks at the desk. He thought he understood why; her eyes had gone misty again. He didn't try to follow her.

SHE went immediately to find Dr. Hale at state police headquarters, but both he and Miss Sormi had gone. In a taxi again, then, she raced back out to the laboratory.

She had no idea what to expect next but she knew she had to continue her rather desperate, audacious action. Bob, of course, had told Leana Sormi about Carolyn's outwitting the train robbers.

"She'll know I'm wise to her even if Bob isn't!" Carolyn half whispered, to herself. "At least she'll suspect plenty and be scared."

And—she'll fight back somehow!"

Urges Reduction Of Purchases By Public

WASHINGTON, May 1—(AP)—Chairman Marriner S. Eccles of the federal reserve board declared today that in the interest of financing and expediting the defense program the public should cut down on purchases of automobiles, houses and other consumer goods.

In a speech to the United States Chamber of Commerce, Eccles endorsed the treasury objectives of raising \$3,500,000,000 in new taxes, saying that this not only would help bear the costs of defense but like a cut in the purchases of consumer goods, would also act as a brake on inflationary tendencies.

The 7 a. m. bulletin had said his condition was "unchanged" and that he had not yet fully regained consciousness. He suffered a skull fracture and other injuries.

Sorority Observes Founder's Day

Members of the Midland chapter of Beta Sigma Phi observed Founder's Day with a formal banquet in the private dining room of Hotel Scharbauer, Wednesday evening.

Beta Sigma Phi Holds Founder's Day Banquet

Initiation And Ritual Of Jewels Features Of Program

Beta Sigma Phi Sorority held its annual Founder's Day banquet in the private dining room of Hotel Scharbauer, Wednesday evening.

Initiation rites for one pledge, Mrs. John Porter, were held preceding the banquet and the Ritual of Jewels for two members, Mrs. Cecil Waldrep and Mrs. Buford Bain, followed the banquet.

The meeting opened with singing of "In the Gloaming" and "America the Beautiful."

Mrs. Riley S. Parr toasted the outgoing officers and Mrs. Ralph Guyer made the response.

Toast to the incoming officers was offered by Mrs. Waldrep, with Mrs. S. R. McKinney Jr. giving the response.

Mrs. T. J. Potter presented the history of the sorority.

Miss Alma Heard presided as mistress of ceremonies.

Yellow roses, the sorority flower, were used with calendulas and wild-flowers on the banquet table. Place cards were the Beta Sigma Phi crest in black and gold.

A four-course banquet was served. Present were: Miss Marguerite Bivens, Mrs. Guyer, Mrs. Potter, Mrs. Waldrep, Miss Dorothy Hamilton, Mrs. McKinney, Mrs. Parr, Miss Lou Annice Reeves, Mrs. M. D. Chorus Concert Receives Encores

An audience that filled the auditorium of the First Christian Church last night heard a 40-piece mixed chorus of Texas Christian University of Fort Worth present a concert.

Several encores were called for during the program, of religious, classical and popular music.

W. J. Marsh directed the group, on a concert tour.

Upon their arrival yesterday, the group was greeted by the hostesses, Mrs. G. B. Randolph Jr. and Mrs. W. P. Z. German, and assigned rooms in private homes.

At 7 p. m. last night, visitors and a few church members acting as hosts were served a banquet at the Crawford Hotel through the courtesy of the First Christian Church.

R. Z. Dallas presided as master of ceremonies. Forty-nine were present.

After staying overnight, the chorus departed this morning to visit the McDonald Observatory and to sing in Pecos.

It's Smart To Be Sure Of Self

By Alicia Hart
NEA Service Staff Writer

It's all very well to be an amiable girl who can and will take constructive criticism, but the woman who tries to carry out every suggestion every friend makes about her hair, makeup and clothes is likely to end up far short of having a distinctive appearance.

There's no sense in consulting a good hairdresser as to what kind of coiffure best suits your face if you are going to brush out the waves and otherwise change the lines of the hair-do an hour after you leave the shop—simply because the first friend you meet says he doesn't like it. Wear your hair the way it is for at least three days, whether the friend likes it or not. Then make a final decision.

Nobody's Business But Your Own
If, after weighing the pros and cons for weeks and weeks, you go ahead and have your hair dyed to cover up the few gray hairs, never mind asking several members of your family and half a dozen friends whether they liked it better when it was streaked with gray. If you like dyed hair better than gray hair, it's nobody else's concern.

If you feel that silly hats suit you better than conservative ones, by all means stick to the silly varieties. Let your friends laugh, and laugh with them, but don't let the laughter make you unsure of your taste in bonnets.

All of which is not to say that it's smart to be so sure of yourself that you refuse to take any suggestions for self-improvement from anybody. If you want advice, ask for it, by all means. But ask someone who is likely to know more about the subject than you do.

New Farm Agent Takes Over Post

I. O. Sturkie, former vocational agriculture teacher at Rochelle, assumed duties today as county agricultural agent of Midland County.

He replaces V. G. Young, who was inducted in active military service. Sturkie is a graduate of Texas A&M in 1936. He taught vocational agriculture at Roscoe for one year and has been at Rochelle, in McCullough County, four years.

His FFA club boys won area and state honors at Rochelle in livestock judging. They were first in area contests and fourth in the state this year. Sturkie developed four American Farmers from his students at Rochelle and ranked third in the state in the number of American Farmers in one area.

Sturkie is married and has two children. His family will come here from Rochelle as soon as the school term is completed.

The new agent has called a 4-H club meeting at 2:30 p. m. Saturday in the courtroom.

He arrived in Midland late yesterday and started work immediately.

Guffey Demands Convoy For Ships

WASHINGTON, May 1—(AP.)—The Senate heard a demand today from Senator Guffey (D-Pa.), that the American Navy be assigned to convoy duty, while Senator Tobey (R-NH) announced that he would obtain a roll-call vote on his anti-convoy resolution by offering it as an amendment to administration legislation.

Guffey, an administration supporter, told his colleagues that cargo ships must be convoyed "at least within the limits of this hemisphere." He added that it "certainly does not make sense" to put war materials into ships which are to be sunk en route to Britain.

RETAIL BUSINESS IN TEXAS SHOWS INCREASE

WASHINGTON, May 1—(AP.)—Texas retail merchants enjoyed an increase of 6 per cent in their business during March as compared with the same month last year according to the census bureau.

El Paso led the state, its retailers showing an increase of 47 per cent. Motor vehicle dealers ranked first among merchants grouped according to their types of business, their gain being 20 per cent. Jewelry stores followed with a gain of 19 per cent; grocery stores, without fresh meat, showed a gain of 17 per cent, and furniture stores, 12 per cent.

British Laborites Ask Replacement Of Cabinet

LONDON, May 1—(AP)—Three independent labor members of parliament offered today a resolution in the House of Commons calling for replacement of the present cabinet by a "National Government" which would "appeal to the peoples

of Europe under Nazi rule to support peace on a basis of a socialist Europe."

The resolution was in the form of an amendment to the resolution proposed by Prime Minister Churchill of confidence in the government's policy in Greece, the Near East and its conduct of the war generally. This is to be debated next week.

Aunt Lizzie Would Have 10th Wedding At Age 110

SAPULPO, Okla., May 1—(AP)—If "Aunt Lizzie" Deever wasn't in bed with influenza, she'd be celebrating her 110th birthday today by walking down a church aisle—a bride for the tenth time.

The brightly-eyed witty little Sapulpan, feeling "fresh as a daisy" and itching to be up and about, admitted she was in love again, this time with John Knight, a 77-year-old neighbor.

It Happens In Regulation

By The Associated Press.
CAMP ROBINSON, Ark. — A squad was in a tent taking instructions in chemical warfare. The tutoring officer broke several vials of tear gas and ordered: "Take off your masks and run."

Sergeant H. P. Grounds, former Haskell Institute football player, was the first to reach the narrow door. But there his progress ceased. He was stuck, with half his 220 pound bulk inside and the other half in the great outdoors.

The other men, tears coursing down their cheeks, formed a flying wedge, rushed forward and—umph—the sergeant popped out like a champagne cork on New Year's eve.

CAMP WHEELER, Ga. — The award of the week, with leather palms, went to a New England trainee. He arrived, on a sultry day, with a pair of ice skates.

CAMP BLANDING, Fla. — General Luther Gore took his place in the ranks of the rookies at this post with a wide grin.

General—That's his given name and not an army title—commented: "I may be a buck private at camp, but I'm still General to the folks back home in Pinellas County."

CAMP BARKELEY, Tex. — During a lull in a 45th Division maneuver, Capt. William E. Rabb sprawled on the grass to rest.

Presently he experienced a strange sensation. He glanced along his length uneasily. He saw a snake, four and a half feet long, wriggling across his legs.

He remained still until the reptile had completed the crossing; then arose—persuaded, very probably, that peace has its perils, too.

Flashes Of Life

By The Associated Press.
PLEASANTVILLE, N. Y. — Mr. and Mrs. Charles Chamberlain have been living here for nine months, but until today didn't know their address.

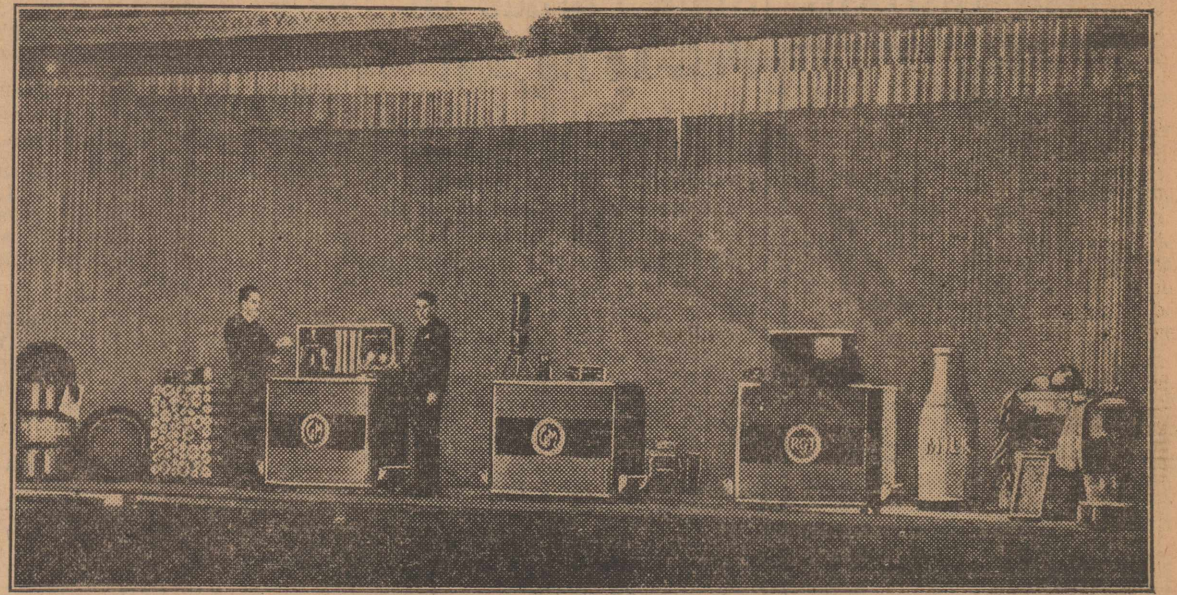

Their four-block-long street bore the names Charlmont Drive, Bedell Place, Rock Way and Pierce Drive until the Chamberlains' plea to the village board resulted in abolition of the first three.

HUNTINGTON, Ind. — Charles Payne, 63, walking by the Wabash river, saw a dog struggling in mid-stream, weighed down by a collar and chain.

He took off his coat and shoes, put a pocket knife between his teeth, swam out and cut the collar off.

The dog, freed of the weight, swam to the bank with Payne.

Famous Exposition Of Research Will Be In Midland

The General Motors Previews of Progress, free stage exposition of research, will be presented Monday and Tuesday at 8 P. M. in the high school auditorium. The exhibit is sponsored by the Junior Chamber of Commerce.

Governor Proclaims Defense Bond Week

AUSTIN, May 1—Governor W. Lee O'Daniel, honorary chairman of the state committee for the Defense Savings Staff of Texas, has issued the following proclamation:

"WHEREAS, The United States of America is faced with a grave emergency in the light of international developments; and

"WHEREAS, It is of the utmost importance to the preservation of our system of government and to the protection of the very lives of our people that we strengthen this 'citadel of democracy' and be prepared to meet any challenge which the future may bring; and

"WHEREAS, Such security cannot be provided nor maintained except by the loyal and sacrificial service of every man, woman, and child in our great nation; and

"WHEREAS, Our government has found it desirable and necessary to issue defense bonds and savings stamps for the purpose of financing this national effort, such securities to be offered to the people for investments, backed by the faith and the strength of the entire United States;

"NOW, THEREFORE, I, W. Lee O'Daniel, governor of the State of Texas, and honorary chairman of the state committee for the Defense Savings Staff of Texas, do hereby proclaim the week beginning May 1, 1941, as Defense Bond and Savings Stamp Week in Texas and do commend to the people of this State the plan of purchasing United States defense bonds and savings stamps both as a sound investment program and as a help to our National Government in the stupendous task of providing for the total defense of America."

General Motors' Big Exposition Will Show Here

The General Motors Previews of Progress, famed exposition of science and research will be brought to Midland High School auditorium at 8 p. m. Monday and Tuesday, May 5 and 6, it was announced today by the Junior Chamber of Commerce which is acting as the exhibits sponsor.

This free stage show is the same one that thrilled millions during 1939 and 1940 at the New York World's Fair. Not an automobile show, the exhibit makes no attempt to advertise any of the company's products. Rather it attempts to tell the romantic history of American industry and American research. The stage of the high school auditorium will be converted into a research laboratory and visitors will see reenacted the experiment which led to the discovery of the telegraph, an exact copy of Edison's first electric light will be demonstrated as well as a duplicate of Bell's first telephone.

In order to present properly the latest developments of research as well as the discoveries of the past, Charles F. Kettering, vice-president of General Motors in charge of research, selected from his staff in the research laboratories Ernest L. Pease who is director and chief commentator. This young man from way down east, Portland, Maine, is not only an accomplished speaker in his own right but is also a research engineer who thoroughly understands the principles behind the various experiments which he performs.

Cook Egg On Paper.
An egg will be fried on top of a copy of a newspaper. To make it even more amazing ice cream will be frozen directly underneath. Music will ride a beam of light across the stage to a photo electric cell. The latest developments of research in the field of plastics will also be presented.

Designed to convince the public that this country is as far behind 1960 as the stage coach days are behind us, the coming of the Previews of Progress to Midland offers the citizens of this community an opportunity to enjoy an entertaining, educational evening.

Civic Theatre Closes Season With "Margin For Error"

Midland's Civic Theatre closed its second season Wednesday with presentation of Clare Boothe's "Margin for Error" at the Yucca Theatre.

The night performance of the anti-Nazi satire was viewed by an audience of approximately 350 people.

Walter Wilkinson in the character role of Moe Pinkstein, Jewish policeman detailed to guard Karl Baumer, the German consul was outstanding. Sterling performances were given by other members of the cast including J. A. Deffeyes, C. G. Cooper, John Skinner, Helen Armstrong, Joe Mims, Evelyn Atkinson, U. A. Hyde, and Lieut. Thos. L. Tempest.

Mrs. Wilmer B. Stowe was director.

Mrs. N. A. Lancaster, president of the Civic Theatre, entertained the cast at her home, following the performance.

FEMININE FANCIES

By Kathleen Eiland

Shantung, which is an old love of ours among dress fabrics, is headlining fashions ads in Texas' biggest city newspaper. We're glad to know that this thoroughly practical material is again in favor (if indeed it had ever been out). Shantung is not only comfortable and neat for summer wear but it launders beautifully and has iron-like wearing qualities that commend it to all kinds of budgets.

Also, shantung is now being made up into hats with wide brims that droop gracefully, not to speak of the shadow they provide from our sometimes too-ardent Texas sun.

We are hoping to see shantung soon on our snoopings about the dress-goods counters of Midland stores.

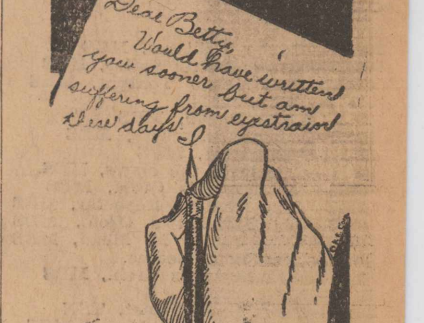

Speaking of practicality, our applause also goes to seersucker which this year is being used in rather delightful little suits for general day wear, as well as one-piece dresses. We still remember with gratitude the seersucker dress which we tubbed repeatedly last season to find that it came up crisp and unfaded out of the suds and was ready, with the wee-est bit of pressing, to be worn as soon as dry.

Note for Miss America looking for a party dress or Miss Career Girl looking for a crisp new blouse: White organdy sprinkled with red and blue embroidered stars provides coolness, a dash of color, and the proper patriotic motif for a care-free summer evening gown or a chic little blouse.

We've always realized that California was the advertiser de luxe among the states. We never knew to what degree her enthusiasm extended until we noticed in a Midland store the other day that certain gay and colorful printed luncheon cloths were accompanied by a package of California wildflower seeds!

We suppose it is something to be so entirely "sold" on one's state as to think that even the roadside weeds should be propagated among outsiders. But after all, even such a good thing as advertising may be carried to extremes. Or so we think.

And then!

EAST-WEST P.A.R. Defeat
any adverse game contract. 1

This is the 12th of a series of 16 articles on World Bridge Olympic hands, giving the committee's par.

By Wm. E. McKenney
America's Card Authority

You can see that a three no trump contract by North and South would easily be defeated with a club opening. I thought that the defense which must be employed against the four-spade contract is unusually interesting and yet not really difficult.

With West's weak hand, his marked opening is the deuce of diamonds. The tendency on the part of most East players would be to win with the ace, return a diamond for his partner to ruff hoping to get back in with the ace of trumps and maybe give West another ruff. But the word "may be" isn't in a good bridge player's vocabulary.

East should reason that South must have at least five spades, other wise he would be playing the contract at three no trump. Therefore, West can have but two spades, so that it will be impossible for him to get two ruffs.

But West might hold the king of hearts, even the ace. If he holds the ace, he won't lose it, but the king of hearts would have to be established quickly for West.

East's correct play, therefore, is to return a heart, and even though South jumps up with the ace, East wins the first trump lead with the ace of spades, leads back a diamond for West to ruff, and now West can cash the king of hearts and the contract is defeated.

ORIENTAL FASHIONS FOR EVENING

Oriental fashion trends show up most attractively in evening wear. At the Mocambo in Hollywood recently Irene Dunne, screen actress, wore a dramatic dinner ensemble—a simple, long-sleeved gown of chartreuse and emerald floral print combine with grape-colored crepe, a free panel at the center front emphasizing the slim lines of the skirt. Over this she wore a loose-fitting Chinese type jacket with raglan sleeves of the same vivid print, lined with matching plain crepe. Her necklace was two large canary diamond leaves suspended on a gold rope. Carrying out the Oriental theme, Miss Dunne wore a pompadour coiffure with clusters of flowers behind each ear.

Mustang Leaders State Parade Of Pets To Be Best

More features and entries for the Mustang Pet Parade, postponed a week because of bad weather, will make the event Saturday one of the best in its history, officials believe.

The boys' event is scheduled to begin at 11 a. m. with the blast of a laundry whistle, the signal to send hundreds of boys and their pets parading in downtown streets.

More than 150 boys and three hundred pets and personalities will parade. Prizes will be awarded the best all-around entry, the funniest entry, the best impersonation, the boy with the most pets, and the

boy with the most kinds of pets. Kenney was 1940 Winner. A mystery entry—"The Dead Cook" is attracting interests, officials said.

Jack Kenney impersonating a prospector won the prize last year.

A squad of boys will boost cleanup week, which opens here May 4, calling attention to the campaign.

Eighty boys attended the Mustang Club meeting here last night. Moving pictures of last year's parade were shown and enthusiastic support of the pet parade was displayed, leaders reported.

Midland merchants are co-operating to help stage the event and will donate prizes to winners. Special bargain attractions will be featured by various businesses.

Americans Buy Bonds, Stamps

WASHINGTON, May 1—(AP)—Urged by President Roosevelt to participate in the nation's "all-out effort to perpetuate democracy," Americans young and old stepped out to post office and bank windows today to begin investing in defense savings bonds and stamps.

Public sale of the new securities started throughout the country today. The President led the way last night, launching the bond sale program in a national broadcast address. He announced he was buying a bond of \$500 denomination, the White House said later) for Mrs. Roosevelt, and 10 defense saving stamps (25-cent denomination) for each of his grandchildren.

County Agent Speaks To Crane Lions Group

CRANE, May 1—(Special)—The Crane Lions club had 38 in attendance Tuesday when H. L. Adkins, county agent, spoke on "The Relation of Nutrition and National Defense."

Paul Heard and J. W. Stowell, New York City, and J. B. Masters, Crane, also were guests.

Also on program was the Lions' quartette composed of John J. Watts, Rev. Max Wilkins, Jerry Kethley, and Don Chaney.

The Junior Study Club will assist the Lions in staging a home talent circus.

Railroads Plan More Efficient Service

AUSTIN, May 1—A bill sponsored by Rep. Henry G. Lehman of Giddings, requiring the railroad commission to issue certificates to railroads permitting them to transport goods by truck in the territory served by their lines, is before the State House of Representatives.

A companion bill, sponsored by Senator Olan R. Van Zandt of Tioga, has been introduced in the Senate.

These bills provide that such certificates shall be issued only after the railroad commission has conducted hearings and has been convinced that the granting of this right would be in the public interest.

Railroads point out they are not seeking to enter a new field of service but only to substitute a more

Stevenson Prefers Legislative Recess

AUSTIN, May 1—(AP)—Lieut. Gov. Coke R. Stevenson thinks it might be a good idea for the legislature to recess instead of adjourn. He corrected Senator Houghton Brownlee of Austin when Brownlee referred to adjournment of the legislature May 13.

"You mean we're going to recess, don't you?" Stevenson inquired. Brownlee smiled, asked whether he was merely joking, Stevenson said: "No, I wasn't joking at all, but I don't know how the Senate feels about it."

If the legislature decides to recess, instead of adjourn, at the end of its 120-day session 12 days hence, it can reconvene without the call of the governor.

Team To Limber Up On Austin Track

Relay Team Is Ready For Preliminaries Of State Meet Tomorrow

A quartet of fast stepping West Texas high school boys—Midland's sprint relay team will work out today on the cinders of Memorial Stadium in Austin in preparation for tomorrow's preliminaries of the Texas Interscholastic League meet.

Coach L. M. Freels and his team—Windell Williams, Cletas Hines, Ken Williams, J. M. White, and alternate Ivan Hall, left early today. They will arrive in Austin in time for an afternoon workout.

The tracksters took a light limbering up drill yesterday afternoon. Ken Williams bested Ivan Hall in a 100-yard try-out for the fourth relay slot. Hall was injured in a spring football game.

Hines will enter the 100-yard dash, 220-yard dash, and run anchor on the relay. W. Williams will dash the century and furlong, put the shot, and run third lap on the sprint relay. J. M. White will run the dashes and lay the third lap of the 440-yard relay event. Ken Williams starts the relay.

Will Close Season
Midland will close a successful track season at Austin this week-end. The team won the District 31 and Regional 8 championships, placed third in the Barnhart Relays, second in the San Angelo meet, third in the Midland Invitational, and first in a practice meet, with Odessa.

The sprint relay team is undefeated this season. It was clocked in 44.9 at the region just; 45.5 in the district meet here (against the wind); 45.2 in the Angelo meet; and 46 flat in the invitation set-to here. Cletas Hines, co-captain and sprinter, whose nickname is "Sea-biscuit," won the region 100 in 10 seconds flat. He was clocked in 9.9 seconds in a preliminary heat. Hines topped the 220 there also, won the district century in 10.8 against the wind and led the field at San Angelo in the 220, setting a record of 22.5. The MHS sprint ace won second in the 100 in 10.6 time at the Barnhart Relays but came back to win the 220. His time was 10.8 in winning the Midland invitation meet. It was 10.6 in the Odessa-Midland dual meet.

Competes In Seven Events
Windell Williams won two seconds in the dashes at the region and district meets. He was fourth in the 220 at San Angelo. Williams won second in the shot put at the region and district, second at San Angelo, first at Barnhart and the Midland invite contest. He has scored points in the high jump, broad jump, and discus throw besides running laps on the 440-relay.

J. M. White set a new record of 24.7 in the low hurdles at Barnhart. He won second in both hurdles at the district contest and the Midland invitation. Ken Williams won the 440-yard dash in the district; placed in hurdles events of several meets; and won the quarter at the Midland invitation. He has run on the winning 440-relay team on several occasions. Ivan Hall has placed in dash events of the season and run on the winning 440-relay team.

Amateur Tourney May Have Field Of 100 Shooters

BEAUMONT, May 1—(AP)—With 69 entrants already registered for the qualifying round today for the thirty-fifth annual Texas Amateur Golf Championship, the Beaumont Country Club hopes for a field of more than 100 players before the deadline reached this afternoon at 2 o'clock. Qualifying over the treeline course, in tip-top condition, will begin this morning at 8:30 o'clock.

Par was threatened yesterday but never conquered as the well-known par busting brigade, comprised of Bill Coffey, present defending champion, Bobby Riegel, 1938 winner, Jack Timm, present Dallas City Champion, but who now registers from the Braeburn Country Club in Houston, Joe Worthington of Kingsville, the 1940 runner-up, Iverson Martin, Fort Worth shot-maker who captured four invitations last year in a row, Ed Anderson and Jack Burke, Jr., both of Houston, swung out in championship fashion for early tune-up rounds.

Other Lesser Knowns
Other lesser knowns in the firing line today include Dick Martin and Bill Becker of Dallas, O. L. Finley, Bill Gibbs, John Anderson and Jack Menefee, all of Lufkin, and who incidentally will represent the Lufkin team brigade, Jack Denike of San Antonio, Earl Shelton of Austin, Fred Shultze and Dave Clark of Galveston. Beaumont's local talent is comprised of Tyrrell Garth, Jr., former Beaumont County Club champion; Mark Moore, Bobby Wolff, Kyle Alfaro, present Municipal champion; Bert Parker, city-wide finalist, F. E. Ames, present city-wide champion and state Muny runner-up, Percy Lyerly and A. J. Doyal, who both register from the Orange Country Club, Conroe Flowers, also a member of the Orange Club, but a resident of Port Arthur, and at sometime or other has held every divot title Port Arthur had to offer.

Youthful Linksmen Tee Off In Tourney
DALLAS, May 1—(AP)—A large field of teen-age linksmen teed off today on the muddy Cedar Crest Country Club course in the annual Texas High School Open Golf Tournament.

Leading the pack was slim Robert Lee of the Polytechnic high school of Fort Worth, who posted a 73 yesterday to win medalist honors. A sure putting touch aided the 17-year old senior in putting together rounds of 37-36 on a course slowed considerably by recent rains.

Dodgers Keep On Winning, Losing In Percentages

By Judson Bailey
Associated Press Sports Writer
The National League race is in its typical spring squeeze, tighter than the cover on a baseball.

The Brooklyn Dodgers climbed into first place Monday by winning their seventh straight game. Tuesday they won their eighth and slipped into a tie. Yesterday they won their ninth in succession and dropped into second place.

This would seem to be going full speed forward in reverse and that may be just as clear as trying to explain the actual jam now involving the Dodgers and the St. Louis Cardinals.

Brooklyn has won 13 games and lost 4 for a .765 percentage while St. Louis has record of 10 and 3 for .769. Actually, on the basis of games won and lost, the Dodgers are in front of the Redbirds by a full game, but because the Cardinals have played fewer games, and lost less, they have an advantage in percentage.

Johnny Vander Meer put the brakes on Brooklyn for seven innings yesterday, scattering three singles and striking out eight while his teammates routed Kirby Higbe for a 3-0 lead. But in the eighth inning Dixie Walker and Joe Medwick hit home runs, sandwiched around a walk, to tie the score and in the ninth Mickey Owen and Pee-wee Reese smacked a pair of doubles for a run to win 4-3.

Cards Get Dozen Hits
The Cardinals hopped on Hal Schumacher for a dozen hits, including homers by Country Slaughter and Johnny Mize, to whip the New York Giants again 6-4. Young Sam Nahem kept out of trouble till the eighth, when Babe Young homered with two on. The Giants got only six hits.

The Chicago Cubs clustered four run in the first and four more in the eighth to blast the Boston Braves 9-4, with the help of four Boston errors.

Cy Blanton, a castoff of the Pittsburgh Pirates, kept ten hits scattered and struck out six as the Phillies punned the Pirates 8-4.

The Cleveland Indians extended their winning string to six by overtaking the Philadelphia Athletics 6-5 on Ken Keltner's two-run homer with two out in the ninth inning.

The Detroit Tigers finally roused from their hitting slump to roar out with 18 hits and subdue the Boston Red Sox 12-3.

The Chicago White Sox held onto second place in the junior circuit by beating the Washington Senators 5-1, scoring four runs in the eighth when Ken Chase blew up and walked three.

Joe Gordon and Marius Russo led the New York Yankees to vengeance against the St. Louis Browns, 7-1.

Mack Says Chicago Sox Are Dangerous

CLEVELAND, May 1—(AP)—"Don't overlook the White Sox," Manager Connie Mack of the Philadelphia Athletics said last night in a banquet speech.

Discussing the American League pennant race, the 78-year-old leader added Chicago has "what a pennant-winning team must have—pitching."

"I am not making predictions this year," Mack declared, "but I will say this: The team with the best pitching staff will win the pennant, we used to figure pitching about 70 per cent of a ball club's strength. I would say now that 90 per cent isn't too much."

New Drivers License Law Is Explained

AUSTIN, May 1—With few exceptions, every person who operates a motor vehicle in Texas must have a license under the new driver's license law, effective last week, Col. Homer Garrison, Jr., state police director, said.

There are now three types of licenses—private operator, commercial operators, and chauffeurs. A person holding a chauffeur's license may drive any commercial or private vehicle without any other license. A person holding a commercial license may operate under this license either as a commercial or private operator, but not as a chauffeur.

Persons in the service of the United States, when operating vehicles in that capacity, are exempt, as are operators of road machinery or farm implements on the highway.

A non-resident of Texas, if he is at least 16 years old and has a valid license from his own state, is entitled to drive a private vehicle in Texas. A non-resident may drive as a chauffeur in Texas if he is at least 18 years old and has a valid chauffeur's license from his own state. However, if he is driving for a Texas person or firm, he must be licensed in this state.

For Blitzkrieg?

Al Espinosa exhibits pistol-shaped handle putter designed by himself. Balance is so perfect shaft remains upright by itself if club head is placed on ground. Putter permits ball to be struck, not pushed. Veteran Akron Portage pro insists it is legal.

Missions Defeat Fort Worth Cats

By The Associated Press
It's been so damp this year that Texas League players complain they haven't been able to get the mildew off their uniforms and pitchers claim they have to rub the moss off the ball before hurling it in the direction of the batter.

The Dallas at Houston and Tulsa at Shreveport games were called off last night because of a continuation of the daily plague which the heavens have released hereabouts.

However, the San Antonio Missions, who managed to play one of their first eight home games, got underway and squeezed out a 2-1 victory over the Fort Worth Cats on the latter's ground. The Oklahoma City Indians, who have to make up three rained-out contests, eased through with a 1-0 win over their hosts, the Beaumont Exporters.

Our Boots, Porter's Cap, Dispose, Or Whirlaway, Take Your Pick For Derby Winner And \$75,000 Pay-Off

Phillips Will Throw Ball Sending 80,000 Clubs Into Tournaments

ENID, Okla., May 1—(AP)—Any public official can toss out the first baseball and start one game, but Gov. Leon C. Phillips will fire his best pitch across the plate here Sunday and send 80,000 semi-pro teams into action on 40,000 diamonds.

Phillips, a former University of Oklahoma athlete, will take his signal from George H. Sisler, once a pretty fair ball player himself and now National Semi-Pro Commissioner.

Actually, the governor's heave will open a game between the Champlin Refiners of Enid, national semi-pro champions, and an Oklahoma City team.

But the game has been designed the key contest for official launching of the semi-pro season from coast to coast.

From the 80,000 teams will come the 32 survivors of district eliminations, which qualify for the 1941 National Tournament at Wichita, Kas., Aug. 15 to 27.

The reason: Texans have done a deal of talking about how good their amateurs are and the fans would like to see for themselves now that they will have the chance to witness a National Open in their own state.

As Larry Nabholz, veteran pro who has played against the best of them in the Open, puts it, it behooves all Texas golfers to see their entries go in, regardless of whether they intend to compete in order to boost the total.

Because it is the entry list that sets the allotment for sectional qualifying.

The more places allotted to Dallas and Houston, sites of the sectional qualifying, the more chances there are of having a flock of top amateurs shooting for the big prize at Colonial Club in June.

There will be plenty of Texans in the field if only the pros are considered. There are such big names as Ben Hogan, Ralph Guldahl, Lloyd Mangrum, Byron Nelson, Dick Metz, Ray Mangum, Henry Ransom and Bob Byrnes.

On its first meal as an adult, a fly can drink twice its own weight.

Phillips Will Throw Ball Sending 80,000 Clubs Into Tournaments

By Orlo Robertson
LOUISVILLE, Ky., May 1—(AP)—There's a horse named today as this horse loving community plunged headlong into its annual guessing game.

The daily papers still head-lined the news from abroad but along the main drags, in hotel lobbies, barber shops, and taverns the No. 1 question did not concern war. It was: Who will win the \$75,000 Kentucky Derby over Churchill Downs' classic mile and a quarter late Saturday afternoon.

Eleven three-year-olds, survivors of an original field of 112, are expected to answer the call to "boots and saddles" around 5:45 p. m., Eastern Standard Time, before some 75,000 fans but there's not a Bimblech, Johnstown or War Admiral among the lot.

Our Boots Won Belmont
There's Our Boots, winner of the rich 1940 Belmont Futurity which never has sent its victor on to capture the Derby; Whirlaway, top money winning two-year-old of last year; Dispose, good enough to whip Flamingo at Hialeah Park and Porter's Cap, who showed they way home in the \$50,000 Santa Anita Derby and Chesapeake Stakes at Harve De Grace.

All but Dispose figure to be high in the wagering—Our Boots because of his fine showing in the Bluegrass Stakes at Keeneland; Whirlaway because of his fast closing second to Blue Pair in Tuesday's Derby trial and Porter's Cap because of his Santa Anita and Chesapeake triumphs and the Ownership of Chas. S. (Lucky) Howard. Lady Luck has been running for Howard since the West Coast automobile dealer purchased Seabiscuit a few years back and there are many who think she'll be on hand again to help Buddy Haas boot the Cap home.

Britain Lands Second Contingent At Basra
LONDON, May 1—(AP)—An authoritative source said today the British had landed a second contingent of troops at Basra despite the assertion of Iraq authorities that Britain was not entitled to do so until troops previously landed had passed through the country.

This source said the British considered there was no foundation for the Iraq assertion inasmuch as the terms of the British-Iraq alliance provided Iraq should furnish "all facilities and assistance" in its power for the transit of British troops.
