OFFICIAL PAPER OF CITY OF PERRYTON, TEXAS.

OFFICIAL COUNTY PAPER OF OCHILTREE COUNTY

PERRYTON, OCHILTREE COUNTY, TEXAS, FRIDAY, OCTOBER 5, 1923

NUMBER 35.

CONTINUE ALL THIS WEEK

Annual Perryton Fair opened Tuesday morning with exhibitors exceeding the departments of the most optimistic Fair boosters. The recent prevented many exhibitors to enter their stock, as the hog and cattle sheds are full to capacity. On account of the big rains on Wednesday and night it has been decided to keep the Fair open one week, closing on Saturday morning of Thursday. This is the many to see the wonderful exhibits which are on display in the big school and the parade scheduled Wednesday will be held this morning at 10:30. At 1:30 p.m. the track meet will start. The fair have been received in the Perryton football game played at the fair grounds. It is not attempted to go into details of the fair, but a complete list of the exhibitors and ribbon winners will be given in the future. Many favorable comments have been made by visitors to the various departments. Cultural exhibits are without the equal of any ever seen in the Panhandle. The various divisions of the fair are all filled with a trip through these rooms worth your time. It is as well as interesting to visit each and every exhibit.

TOON NEWS

late for last week.) Community received another Sunday night, which was of the school truck and pupils being late. Black spent Sunday with his family. Tipton came home Sunday after a long stay at the hospital. Smith and family, and Mr. Sunday at Alfred Black's. Little King of Spearman, is Mrs. Alfred Black. Smith and R. D. Ford went on business Saturday. Mrs. Ralph Adams of Alameda, enroute to California, week-end with Mrs. Adams. Mr. Emberson, and Mrs. Lawson. Mr. Hurter was absent one school last week on account of illness. Mrs. Nelson, their daughter, spent Sunday afternoon with Mrs. J. H. Lawsons. Mr. Hurter is teaching in the room this morning, on the absence of Mrs. Hurter. Mr. Z. Thomas spent Sunday at home of Mr. and Mrs. R. Adams. Services were conducted by Alice Thomas at the home of Mr. and Mrs. R. Adams, Sunday night. Mr. Adams is going to leave for Wednesday, where he will be the winter. The young people of this town went to a pie supper at Lone Tree last Friday night. The report a good time. The Teachers Association met last night for the purpose of electing new officers. Mrs. Holcomb was elected president and Mrs. Adams was elected secretary. Two visitors at school Friday were Miss Fay Taliaferro and Mrs. Jim Depew. Mrs. Adams went to Beaver Creek to visit friends. Mr. Adams went to Perryton Friday and returned Sunday. Woodward of Baton, New Mexico, was in Sunday for a visit with friends in this city. He is connected with the National Bank of New Mexico, one of the banks in the state.

HAS YOUR SCHOOL THESE THINGS

Below are a few of the things that some communities have helped to get for rural schools. Work towards having them in your school.

1. The schoolhouse, furniture, and equipment clean and in order for the opening of school, and provision for them to be well kept.
2. A painted schoolhouse, properly repaired.
3. Plenty of desks.
4. Good blackboards.
5. Good jacketed stove or basement heating system.
6. Plenty of pure drinking water, handy to the schoolhouse.
7. Individual drinking cups or sanitary drinking fountain.
8. Adjustable window shades.
9. Pictures for the schoolhouse walls.
10. A pupils library for each room, in a bookcase.
11. A good playground of at least one acre, well equipped and well kept.
12. Two good outhouses, well cared for.
13. A schoolhouse free from unsightly cuttings or markings.
14. A teacherage, near the school building.
15. A competent teacher who is worthy for the pupils to imitate and who is a leader in community activities.
16. Suitable maps, globes, charts, pointers, crayons, erasers, etc.
17. A state flag and a national flag for each school.
18. Hot lunches for pupils.
19. Pencil sharpener, and tables and bulletin board.
20. Wash basin, mirror and towels.
21. A dry place for wood or coal.—The Progressive Farmer.

BLACK SCHOOL NEWS

(Too late for last week.) The Black school did not have a very large attendance last Friday because most of the students went to the fair at Spearman. A light rain fell in the Black community Monday night, but was not badly needed after the four-inch rain last week. Edward Cain had a spell of sickness the first part of this week, but is recovering slowly and will be able to attend school soon. Gordon Fuller and Roger Pearson, of this community, left for Canyon Sunday, where they will attend school this year. Mr. and Mrs. L. P. Brown and family were guests at the home of Mrs. McCoy Sunday. Mr. and Mrs. Orrill attended the fair Friday afternoon. Misses Nadine, Grace and Irene Burge were absent from school last Monday, Tuesday and Wednesday. Miss Ruby Bishop is absent from school today. Guy Fuller visited school Monday. Walter Lucht started to school last Monday. Dan B. Pearson was out to his farm Sunday. A few of the young folks attended the charivari and party at Mr. Burges' Thursday night.

PHILATHEA CLASS MEETING

The Philathea girls of the M. E. Sunday School had a business meeting Monday afternoon and the following officers were elected. Marie Kent, president. Mary Garrett, assistant teacher. Louise Garrett, secretary and class treasurer. Mabel Cutter, local treasurer. Mary Ragan, Etta Mae Garrett and Ola Mae Wright, class reporters. Myrtle Rogers, Pearl Ragan and Gladys Holland, missionary committee. Nora Richardson, Maggie Bridges and Grace Spencer, social committee. Allie Mae Bridges, Edna Bridges and Fay Oliver, hustle committee.—Reporters.

M. A. Shuler of the Gray community, is here at the fair with a fine exhibit of hogs. Mr. Shuler is one of the leading breeders of Poland China hogs in the Southwest.

Editor Oran Kelley of the Spearman Reporter, was through Perryton on Tuesday of this week enroute home from Rotan, Texas, where he was called on account of the death of his mother. Brother Kelley has the sincere and heartfelt sympathy of the office in his loss.

POLAND CHINA SALE AT FAIR GROUNDS

We wish to call your attention to the advertisement which will be found elsewhere in this issue of the Pete Sanders & Sons sale of pure bred Poland China hogs. This offering will consist of 34 head of the big bone proper type of the following blood lines, Liberator, Peter Pan, Cap Jones and Orange. The sale will be held in the show ring at the fair grounds at 1:00 o'clock today, Friday, October 5th. The sows and gilts to be sold are prize winning stock and includes the Grand Champion Sow of the 1923 Beaver Fair, The Herd Boar, Peter Pan 2nd, one of the best sons of Peter Pan, Sire of the pigs that won the "Get of Sire" at the Beaver Fair, will also be sold. There are also three other good hogs to be sold. The auctioneers are Col. Ed. Littleton, Perryton; Col. Johnnie Jones, Beaver and Col. Bob Kirkbride of Alva, Oklahoma.

PERRYTON "HI" WINS ANOTHER GAME

Perryton "Hi" are progressing right along on their march to an all-victorious football season. On last Saturday they took the strong Follett team into camp by a score of 48 to 0. The boys report that the Follett school has a much faster line-up of gridiron warriors than last year. The next game will be played at the fair grounds this afternoon with the Beaver "Hi" team. This game will be one of the fair features.

FREIGHT RATES ON GRAIN

If you were to believe our radical politicians, the farmer's troubles would be forever solved if his freight rates were reduced. None of these "Voices of the People" ever raises his voice without alluding to this stumbling block in the road to prosperity of the farmer. Looking up the old files of the Courier, the market reports showed that June 30, 1922, cash wheat in Chicago brought \$1.15, and on the same date this year it sold for \$1.05. The freight rate had not been changed during that period, and the fluctuation during that year was greater than even the wildest eyed demagogue proposes to cut freight rates. In other words, if freight rates had been cut in two this summer, the farmer of Illinois having wheat to sell would still get less for this product than he would have a year ago. Then there is corn. What would you say the effect of freight rates cut on that product? On June 30, 1922, cash corn sold in Chicago at 63 cents. A year later the quotation was 81 cents. During the year, with freight charges remaining the same, wheat declined ten cents a bushel in price, and corn improved 19 cents. If the decline in wheat price is due to the freight rate, why not also grant that the gain in corn is chargeable to the same influence? How can a freight rate work in opposite directions at the same time? The politicians are riding into office on a whoop and hurrah campaign in which the farmer is to get relief from the oppression of the railroads. Boy, the railroads may be guilty of all the mean things said about them, but the real nigger in the woodpile is something entirely different. Cruelty to the railroads or shooting them at sunrise or turning them over to the government for operation will not alter the fact that wheat went down 10 to 15 cents a bushel in a year and corn went up approximately 20 to 25 cents in the same time, and under precisely the same transportation conditions.—Editorial, Urbana (Ill.) Courier, July 19, 1923.

It is timely suggested that the law of supply and demand may have a hand in the price of farm products or any other commodity. George Butterbaugh, Editor of the Texhoma Times, has been here this week playing in the orchestra which is furnishing music for the American Legion dances. Mr. Butterbaugh, in addition to being an excellent newspaper man, is one of the best musicians in his locality.

R. H. Pierson of Woodward, Oklahoma, has been here this week taking in the fair and doing some advertising for Majority Flour, which is manufactured by the Enid Milling Co. of Enid, Oklahoma.

CITY LOWERS WATER AND LIGHT RATES

At the last meeting of the City Council it was decided to lower the rates now in effect, the lower rates going into effect on the first day of this month. Substantial reductions have been made on current for both light and power and also on the water. The new rates are as follows: Lights—Commercial and Residence Minimum rate \$2.00—12 1-2 k. w. Next 40 k. w. 15c per k. w. Next 50 k. w. 12 1-2c per k. w. All above 10c per k. w. Power—Minimum Per Horse Power Connected Load 10 horse power and above: First 1,000 k. w. 4c per k. w. Next 4,000 k. w. 3 1-2c per k. w. All over above 3c per k. w. 5 horse power to and not including 10: First 75 k. w. 9c per k. w. Next 75 k. w. 8c per k. w. All over and above, 7c per k. w. 1 horse power to and not including 5: 10c per k. w. Water—Minimum Rate \$2.00 2500 Gallons Next 2000 gallons, 75c per 1000. Next 6000 gallons, 50c per 1000. All over above at 30c per 1000.

EDUCATION AN INVESTMENT

Many boys and girls do not attend college because they think the cost too great. As a matter of fact, the cost of an education is often the best paying investment parents can make for their children as are prepared to enter college. We say "investment" since the time spent in college by a diligent student should more than double his earning capacity by the time his course is completed. Statistics gathered some ten years ago when a day laborer's wage was \$1 showed that the actual income of such a laborer was \$300. The annual income of men who had only passed through the common school was about \$600. When the worker was a high school graduate, his income was about \$1,200 a year, and when a college graduate, it was \$2,400. But the money value of an education is not its highest value. The real measure of an education is the increased power of service and the higher standard of manhood and womanhood that results from an education that brings culture and usefulness.—The Progressive Farmer.

A SOCIAL

Mrs. Ed Morgan and Mrs. Claude Jones were hostesses on Wednesday afternoon, September 26th, to the Women's Missionary Society of the M. E. Church. The report of our District Missionary Conference, Amarillo District, at Texline, was given by Mrs. Ernest Williams, one of our delegates. The vote was unanimous that Mrs. Williams made a most excellent report which was enjoyed by all present. The books for our new Study Course 1923-24, "The Child and America's Future" were given out to our Study Circle.

Delicious refreshments consisting of nut chocolate cake, caramel cake, pimento sandwiches, and hot chocolate, were served to the following guests: Mesdames Fred Butler, T. P. McLain, Ernest Williams, Thompson, Jas. Shearer, D. C. Shearer, J. H. Neufeld, B. B. Kent, Ed McMillen, J. H. Moore, Mrs. Riley, C. E. Forbes, Mrs. Terry, Miss Nellie Perry, J. M. Buell, Fred Hook.

A Guest.

DAZZLING AUTO HEADLIGHTS

Driving into the dazzling lights of an oncoming car is dangerous business—dangerous alike to the dazzler and the dazzled. And it is so unnecessary. To dim the lights of a car is so simple, and easy a task, that it seems that the danger involved by not doing so would compel the motorist approaching another car at night to take this simple precaution against the possibility of accident to his own car as well as the cars of others. It should not take a law to bring about the dimming of headlights. Common decency demands that a motorist practice this simple rule of night driving etiquette, for it is etiquette, and good manners are just as essential in the road as in the ballroom.

Politicians will average up in dishonesty with other people.

HOW TO KNOW YOU ARE EDUCATED

When is one educated in the best sense of the word? A professor in the University of Chicago is said to have told his pupils that he should consider them truly educated when they could answer affirmatively these 14 questions:

1. Has your education given you sympathy with all good causes and made you espouse them?
2. Has it made you public-spirited?
3. Has it made you a brother to the weak?
4. Have you learned how to make friends and keep them?
5. Do you know what it is to be a friend yourself?
6. Can you look an honest man or a pure woman straight in the eye?
7. Do you see any thing to love in a little child?
8. Will a lonely dog follow you in the street?
9. Can you be high-minded and happy in the meaner drudgeries of life?
10. Do you think washing dishes and hoeing corn just as compatible with high thinking as piano playing or golf?
11. Are you good for anything to yourself? Can you be happy alone?
12. Can you look out on the world and see anything except dollars and cents?
13. Can you look into the mud puddle by the wayside and see anything in the mud puddle but mud?
14. Can you look into the sky at night and see beyond the stars? Can your soul claim relationship with the Creator?—The Progressive Farmer.

NEW HOPE NEWS

(Too late for last week.) Everybody is smiling over the fine rain we had last week. The framers are all busy cutting feed and sowing wheat. C. R. Cudd has some broomcorn to pull this week. J. L. Jones motored to town Sunday morning and brought out his car which has been in the garage for some repairs. Rev. Hitchcock and Judge Grigsby took Sunday dinner with W. G. Yeary and family. Rev. Hitchcock preached at the New Hope schoolhouse, Sunday evening. Jess Cudd and family spent Sunday with C. R. Cudd and family. Evelyn and Viola Glaspie are on the sick list this week. E. C. Cudd, Mr. and Mrs. Albert Cook and son, Thomas, and daughter, Mrs. Andy Conley, returned home Saturday from Plano, Texas, where they attended the funerals of Mr. and Mrs. Cook's fathers, T. N. Tillery and Z. H. Cook. Both were old pioneers of Texas and died thirteen days apart. Mrs. H. G. Riley spent Monday with Mrs. J. W. Cook while the men attended Mr. Randolph's sale. Mr. and Mrs. A. L. Allen motored to Dodge City Kansas, last week to look after their farm. Clifford Glaspie spent Sunday with homefolks.

THE BIG LITTLE THING

After all, it is the little things that count—the little things that are not little, but are big. And those who make them big do not realize—or they would not be big. The large dining room of a local cafeteria was filled—for the most part with soldier boys of '61. They were tired—it is not easy, this greeting the old comrades and tramping about. And the tall, grizzled soldier with the sunflower in his buttonhole was hungry. The little helper with painted cheeks, plucked eyebrows and bobbed hair took his tray. She found him a small table next a window. She turned and smiled: "Would you like to sit here?" Wearily he nodded assent and sank into the chair she drew for him. She arranged his food before him. Then she hesitated. He still had on his hat. But she hesitated only a second. She bent toward him and gently, almost caressingly, said: "Now, I'll just take off your hat and hang it right here." As a mother to a child, so spoke the little flapper-waitress to the veteran "boy." Gratefully he smiled, and those who looked on smiled and blinked back the tears. It was such a little thing and such a big thing.—Milwaukee Journal.

American brewers are reported to be swooping down on Mexico—by hops and bounds, as it were.

FORTY-NINE ENTRIES IN MAJORITY CONTEST

The contest staged by the Perryton Equity Exchange and the Enid Milling Co., manufacturers of Majority Flour, at the Perryton Mercantile Co. on last Tuesday morning was a complete success in every way, a total of 49 entries being made in the various divisions. 700 pounds of flour was awarded to the successful contestants, as follows:

Bread—

1st—Mrs. J. E. Rhodes.....100 lbs.
2nd—Mrs. W. B. Lilly.....100 lbs.
3rd—Mrs. R. H. Gamel..... 50 lbs.

Biscuits—

1st—Mrs. J. E. Rhodes.....100 lbs.
2nd—Mrs. C. E. Pattison..... 50 lbs.
3rd—Mrs. W. B. Lilly..... 25 lbs.

Cakes—

1st—Mrs. Clarence Zirkle.....100 lbs.
2nd—Mrs. S. R. George..... 50 lbs.
3rd—Mrs. S. E. Sellers..... 25 lbs.

The judges in this contest were Mesdames M. R. Coffee, J. M. North and R. T. Shindler of this city. The prize winning products in this contest were entered in the regular exhibits at the fair.

ATTORNEY HOLMES TAKES A BRIDE

We are in receipt of the announcement of the marriage of John A. Holmes, state attorney for this District, to Miss Velma Sue Green, daughter of Mrs. Donna B. Green of Amarillo, on last Monday. Johnnie, as we all know him in this country, is one of the most popular and efficient District Attorneys that we have ever had in this responsible office. The Herald extends heartiest congratulations and best wishes for a long and happy married life to Mr. and Mrs. Holmes.

END OF THE RAINBOW

"The sweetest grass is on the other side of the fence; the prettiest girls are over in the other village; the best farm land is in some other community; the only chance the farm boy has to go to the city, and the only hope for the city man to get ahead is to go on the farm." This is the belief of many people, says the Farm Journal. "Where is the best country in the whole world? Where are the opportunities to get ahead the greatest? Where are conditions just right for successful farming and happy living? Where should the young man go in order to make the greatest success? The answer is easy and quickly told; he shouldn't go at all. The best opportunities, and the best people in the whole world are right at home. "The best section of the country is the one where you reside at this moment. It has taken you half a lifetime to make your many friends and establish your reputation for honest dealing. Your neighbors are the ones you grew up with and one old friend and neighbor is worth a multitude of strangers. The loneliest place in the whole world is in a crowd where you are unknown. Heart-breaking loneliness abides in the great city and never in the country. The best land is the land you are familiar with. The best methods of farming are those you grew up with. Eastern methods will surely fail in the west; northern methods are failures in the south and vice versa. "Opportunities are all around you; success awaits you right at home and not at the end of the rainbow."

CARD OF THANKS

We wish to thank our kind neighbors and friends who helped us during the long illness of our dear father and grandfather. Mr. and Mrs. E. C. Cudd and family. Mr. and Mrs. A. R. Cook and family. Mr. and Mrs. J. W. Cook and family. Mr. and Mrs. W. G. Yeary and son.

The Allis-Chalmers Manufacturing Co. is putting on a demonstration of their tractors and farm implements at the fair this week. R. N. Cunningham of the Liberal Branch, represents the factory. Ollie Bell and Ed Puls, the Booker dealers, and Chas. Brookhart of the Spearman branch are here. The local dealers, Leatherman & Cook, are also participating in this demonstration.

tion.

Presidents are born—not made.

Some people think Ford is too use-
ful a man to be President.

When you turn things upside down
the dregs will come on top.

Georgia is in the midst of a big tax
equalization campaign.

American tourists will spend \$700-
000,000 in Europe this year.

State crop insurance is another
political fad to unload on the tax-
payer.

Speaking of commissions and boards
the latter are defined as long, nar-
row and wooden.

A one-crop farm like a one-man
town is a hard place to produce
prosperity.

Riches certainly have wings when
invested in a limousine flying ma-
chine.

France and Germany still like the
war game about as well as children
do ice cream cones.

How well do you know your own
town and its industries? Or your
own state and its industries?

War on industries, nations or
classes never yet benefited anyone
permanently. It is great to be
peaceful.

A young man going to call on his
sweetheart can't go fast enough.
If she is in the car he can't slow it
down enough. Such is life.

A scientist suggests that the male
boll weevil could be lured into traps
by means of certain perfumes. Pos-
sibly the females could be attracted
by boxes of poisoned candy or some-
thing like that.

While the rest of the country was
pledging thousands of dollars for the
earthquake victims of Japan, there
was a row over here over the man-
agement of the relief campaign it-
self. The American Red Cross
jumped into the breach within a few
hours after the first news of the dis-
aster reached the United States, but
along came Herbert Hoover, with the
veteran organization which he used
in Europe as the American Relief Ad-
ministration, and wanted to take
charge. Both organizations demand-
ed the limelight and there was con-
siderable shoving and wrangling and
ill-feeling until an amalgamation
was effected—but Hoover gets his
name in all the communiques issued
to the press by the Red Cross.

A Georgia man who drives a car
is "stone blind." That's the way lots
of people up this way seem to drive.

When a man has a quarrel with
a woman he gets no more justice in
the newspapers than a street rail-
way.—E. W. Howe.

Sacramento real estate men sold
more than \$1,000,000 worth of prop-
erty to tourists using the municipal
camp grounds this year.

Our country has successfully bat-
tled past the deadline of demagogues
for nearly 150 years and we gamble
it will last a few years longer.

"Pi," the pet canine of K. U. stu-
dents, is missing. Myabe they will
get him back if they offer a reward
of about \$3.1416.

So long as 50 to 100 men will
gather on any street corner on the
slightest provocation to idleness
there is no apparent scarcity of la-
bor.

A shortage of 700,000 homes in
this country is estimated, but no one
yet has had courage to estimate the
garage shortage.—Pittsburg Gazette-
Times.

W. E. Hould, of Kewanee, Ill., bank-
er, proposes that the government buy
outright 100,000,000 bushels of wheat
and believes that action would send
the price up to \$1.25. But the gov-
ernment would have to sell it again
sometime. Then what would happen?

The Chicago News says that li-
quor is the biggest single business,
legitimate or otherwise, in the United
States. Yet this business is posi-
tively prohibited by the Federal
Constitution and state laws. The
trouble is, so many people vote dry
who drink wet and think wet.

The New England pie myth has
been shattered—meaning that Pres-
ident Coolidge doesn't eat pie for
breakfast. His breakfast menu is
the old-fashioned American Stan-
dard: Ham and eggs. One of his fa-
vorite breakfast companions is Sel-
don P. Spencer, the Missouri Sena-
tor who is sure there will be a rev-
olution in this country unless Congress
lets the people have plenty of beer
and wine.

A married man hugs his wife. A
single man hugs delusions.

Marie—The one with the engage-
ment ring on it shows that you've
been working.

A hick town is one where they
have more faith in men and not so
much in belts.

The biggest scandal in Washing-
ton just now is the story of the wild
corn liquor parties in the offices at
the Capitol reserved for Congress-
men. One of the parties waxed so
violent that a young man had his
head mashed. To put a stop to the
gayety, the authorities are closing the
House Office Building to all visitors
after five o'clock in the evening.

Edith—Do you think my hands
show any signs of toil?

People are urged to take "Excel-
sior" for their motto, but many of
them prefer "When do we Eat?"

A boy never really likes his new
fall suit until he has rolled with it
in the dirt at least three times.

SUBSTITUTES FOR COAL

Newspaper dispatches from all parts of the country show increasing use of fuel oil in homes, apartment houses, factories and public buildings, instead of coal. For several years the public has been subjected to a periodical coal famine with resulting hardships from lack of fuel and reasonable prices. The public interest in the coal industry has apparently been lost sight of by both the operators and the miners. The day when lack of coal can cripple a whole nation is drawing to a close. The public is sick and tired of the annual outrage.

Electricity, fuel oil and gas are coming substitutes for coal in the average home and factory. Public utility plants operated by coal, will use oil or operate their own mines to the great advantage of the public. Coal mining will get the same lesson that is eventually meted out to any industry that in its operation loses sight of the public interest. A substitute that gives better service will take its place.

RED MILLION AND A HALF

The committee on citizenship of the American Bar Association estimates that there are in our country 1,500,000 Reds.

One and a half million radicals, all the way from red-mouthed anarchists to parlor Bolsheviks and socialistic professors.

These figures are based on detailed returns from the Secret Service department and include the I. W. W. and all constitution overthrowers.

It is estimated that \$3,000,000 was spent last year on radical propaganda, and that 5,000,000 read radical newspapers and magazines.

There can be no doubt that the world war stimulated the development of lawlessness, and the millions who disregard the Volstead act and Eighteenth amendment swell the armies of discontent.

The radical movement in our country will have to be checked by the common sense and patriotism of the masses of the people and by the enactment of less freak laws and better enforcement of all laws.

John R. Commons of Wisconsin University says the wage earners "manifest dogged determination not to accept any cut in wages," but that

they are less revolutionary than a few years ago.

The teaching of the Constitution of the United States should be required by law in every school in the land. A thorough understanding of our own government is the best way to beat the Reds.

FOR SALE—Tulsa touring car in excellent shape. See Paul F. Stewart, Perryton, Texas.

FROM COAST TO COAST

When an Army flier made the distance from Atlantic to Pacific in one hop, taking only a little more than an entire day, and when another beginning as the sun arose over Long Island failed of landing beside the Pacific before sundown of the same day only because of a minor accident a few hundred miles from his goal, when the sun was still high in the heavens, the question of bringing San Francisco and New York into substantially twenty-four hours of each other was definitely and finally settled.

A daily mail between New York and San Francisco, arriving only about a day later, will be worth all it costs to the business interests of the

country. It will be worth the vast outlay for 500,000,000 candle-power beacons, and the lesser lights installed to guide the fliers at night. It is

the natural, the logical and the splendid refinement of that wonder of twenty-five years ago, the rural free delivery.

Your Smallest Expense

Look over that sheaf of bills for last month—or for any month.

What did you buy that was worth as much to you or had as many uses—as telephone services?

That necessary service cost you but a few cents, as it was used, but the bills show that you paid out dollars for things that were not essential to your welfare.

If telephone service should cost you dollars instead of cents—as is the case—that service could be of no more value to you than it is. For it is indispensable.

FALL SUITS AND OVERCOATS HIGHER, BUT DON'T BLAME THE MERCHANT

About this time of the year the purchase of fall suits and overcoats begin, and manufacturers have already indicated that there will be increases in the prices of both "to absorb the increased prices of wools and other materials." In addition to the tariff of 31 cents per pound in scoured wool, which it is estimated ultimately cost the consumer 86.6 cents, the prices of wools and worsteds have been twice advanced since 1922 and twice in 1923. At the time the eastern woolen mills yielded to the demands of their employees and granted a slight increase in pay, the New York Tribune, a Republican newspaper, reported that these increases ranged from 12 1-2 to 37 1-2 cents a yard. Some of the mills boosted prices from 25 to 35 cents a yard, and jobbers and other middlemen added their advance and pyramided it.

It is unfortunate that the first resentment of the public caused by the increased price of woolen clothing should be manifested against the retailer, who in most instances, is in no wise to blame. Primarily the blame rests with the Woolen Trust in whose interest the high rates on wool were levied. The only other persons to profit from the wool schedule are a few wool-growers and their profits are only temporary as is shown by the fact that since 1867 the price of wool in the American markets has been virtually on a level with the price of wool in the world market at London.

Retail merchants would gladly welcome a reduction in the wool tariff as well as consumers because it would in no wise decrease their profits but would greatly add to the volume of trade.

THREE PARTIES TO A LEASE; LANDLORD, TENANT AND LAND

Uncle Henry Wallace of Iowa was fond of saying that "there are three parties to a lease contract: the landlord, the tenant, and the land." He felt that the land was due even more consideration than either the tenant or the landlord, for, while the two animate parties of the lease soon finished the race of life and passed from sight, the land was something that remained after them to affect the lives of countless generations for good or evil according to its degree of fertility.

Of the evils of tenancy, that which has brought about less fertile soils is of greatest concern. It is true that common equity demands that we also concern ourselves with the favorable conditions under which the tenant lives. But in the final analysis the fortunes of the tenant, the owner and the land are inseparable. There can be no prosperous tenantry unless the rented land is productive and likewise the solution to our tenancy problems will be pretty nearly solved when we devise a leasing system that will not only provide fully for the rights of landlord and tenant but also for the right of the soil to a reasonable degree of fertility.—The Progressive Farmer.

WHOLESALE PRICES 156 POINTS ABOVE 1913 LEVEL

Wholesale prices began to take another upward trend in the middle of September and touched the highest level reached since last June. They stood on September 15 at 156 points above the level of 1913. This was an increase of 16 points over the index number of January 1, 1922.

Republican propagandists are telling the farmers of the country that their condition shows great improvement and that the prices of their products are some 15 per cent higher as a whole than they were a year ago. The fallacy of this statement is capable of demonstration.

Wholesale prices represent commodities which the farmer has to buy and those which have left his hands. The most recent figures indicate that they are now some 12 per cent higher than they were on January 1, 1922. In April last they were about 22 per cent above the level of January 1 1922.

It is pointed out, therefore, that if there has been an improvement in the prices of agricultural products it has been accompanied in the rise in the farmer's cost of living, so that his gains have been taken from him by the trusts and monopolies which are so generously protected by the Republican profiteers' tariff.

The farmer's dollar is worth only 69 cents when he attempts to exchange it for commodities which he requires but doesn't produce.

ABE GREEN, City Clerk

FALL BUILDING

The United States Weather Bureau forecasts an early fall and winter for 1923. Those planning fall building or construction work should take advantage of these fine days.

No matter what your plans may be, we can supply you with best materials at lowest prices.

Our lumber is selected A1 grades, and is a complete assortment of lengths, which makes possible the least waste.

In finishing of doors, windows, sashes, shingles and hard woods we offer particularly pleasing prices.

For heavy construction, such as barns, silos, cribs, etc., our materials are the standard for this territory.

We furnish plan books and offer our experienced services in helping you to build.

Summers-Hood Lbr. Co.

PERRYTON, TEXAS

WHAT IS SUCCESS

What is success? And whenever asked this question, I always think of Canon Farrar's declaration: "There is only one failure possible and that is not to be true to one's own knowledge." We may say, the only success consists in being true to what we know—the best we know in our work and in our conduct. This success is within the reach of every body. It doesn't depend on genius, natural ability. It is just a matter of resolutely, persistently, unceasingly making the best of opportunities as they come to us. Only real success, like the only

real failure, is inside a man. "He who fails bravely has not truly failed but is himself also a conqueror."

To be true to the best we know in our work and in our conduct—that, in short, is the one ever-open road to success that anybody can travel, regardless of wealth or health or talent or race or creed or color. Somebody once tried to sell a farmer a book on modern agriculture. "I don't need it," answered the farmer, "I already know how to do a great deal better than I do do." That is the trouble with most of us. It is not lack of opportunity so much as failure to use the opportunities that are really ours.—Clarence Poe, in The Progressive Farmer.

HALF TAXED—HALF UNTAXED

Advocates of public ownership schemes use as one of their strongest arguments, the statement that states, counties or cities can borrow money cheaper than private companies because their bonds are "tax-exempt." In addition public property pays no taxes.

The income from some \$30,000,000,000 of such tax-exempt bonds now goes tax-free and the rest of us pay additional taxes to make up this loss to the government.

If public ownership was extended to various lines of industry as advocated by two constitutional amendments proposed in Georgia, the tax assessment roll would shrink and the burden of taxation on remaining taxable property would grow heavier and heavier as city, county and state functions were enlarged.

Advocates of public ownership will find that it will be impossible in this country to maintain right of property for half the people while taking over under public ownership the property of the other half.

Ultimately we would face a situation where the principal business of those holding office would be how to collect tax revenue from those not holding office in order to meet the public payroll.

MUST WORK TOGETHER

No town can grow as it should unless its people work together in its upbuilding. The history of every city that has had rapid and substantial growth will show that united and enthusiastic work of its people had the greatest part in making it grow. In towns where few live men boost and work the town's upbuilding and many are indifferent and do nothing, the work of city building is exceedingly difficult and the results slow in coming. If all boost and help to build up the town it is an easy matter to make the town push forward.

Formerly the woodlands were full of the footprints of game, but now the principal trace of wild life is the refuse left by last summer's picnic parties.

A crack marathon runner is to be a delegate to the American Legion convention in San Francisco—one reason why the Legion is getting ahead so fast.

THE BIG SALE AT

The Star Clothing House Is Now On In Full Blast

SEETHING WITH EXCITEMENT

The crowds which packed our Store every day since The Big Price Slaughter Sale started were seething with excitement when they came face to face with the remarkable values of this sale and undoubtedly you have heard of the crowds being here en-masse.

Such terrific buying is unparalleled in the history of this county. The thousands of customers who attended this sale will gladly testify that this is an unusual Sale, as they were all astonished at the Big Sacrifice we are making on this splendid stock. We had big cash economical buyers come for 75 miles and they certainly went home loaded down with goods.

We are cutting the heart out of this high grade stock, Mens and Boys Clothing, Furnishing Goods, Hats and Caps, Ladies Coats, Suits and Dresses. Shoes for the whole family, and other lines of quality and it is all being mercilessly slaughtered.

You have never seen such wonderful Values—never will again. I am here, Folks, to sell this Merchandise, and sell it I will.

These values beggar description, and unmatched in its Low Priced Fury.

COLEMAN QUICK-LITE LAMPS AND LATERNS

There are three reasons why Coleman Quick-Lite Lamps and Lanterns are the favorite lights in more than a million homes:

1. They are of highest quality of manufacture, through and through
2. They are guaranteed to give a beautiful pure white light—a light that is easy on the eyes.
3. They sell at a fair, honest price—easily within the means of all.

It took many years of faithful work and study by lighting experts to perfect this light that gives you 20 times more light than an old style oil lamp or lantern.

Think of the difference—the great improvement over the old oil lamp or lantern! The Quick-Lite ends the oil lamp drudgery for the housewife. Just note the Quick-Lite's simplicity! Note the many superior features of the Quick-Lite. Easy to see why it is a better light. Nothing at all complicated about the Quick-Lite. And it's beauty—it is an ornament in any home.

You should have a Quick-Lite in your home.

RETAINING GOOD LOOKS IN A CAR

You are proud of the appearance of your new car, but you are often ashamed of its appearance before it is a year or two old. It often loses its luster or is scratched or marked while mechanically every part is good for several years.

It pays well to refinish your car when it has been scratched, worn bare in spots, lost its luster, etc. There are special paints, varnishes, auto finishes, etc., made by perfectly reliable paint manufacturers for renewing your car, and the work is now simple, quick and economical.

A car often goes dead in color—just simply loses its luster. Wash the surface of the car thoroughly, removing all dirt. Remove all grease and oil with gasoline, wait until the car is perfectly dry and then apply a coat of varnish specially made to use on automobiles, carriages, etc. This varnish will produce a high luster, form a waterproof coating from which dust, dirt, and mud can easily be washed, and stop rust.

Cars are often scratched, marred and worn bare in spots. After all dirt is removed by the use of gasoline and old rags, the damaged parts should be retouched. If the car is black, for instance, retouch the damaged spots with a black auto finish, using a small, soft brush. Let the car dry for about 12 hours, and then sandpaper the retouched spots carefully, bringing the edges smooth with the rest of the surface. You are then ready to go over the car with auto varnish, which, if carefully applied, will make an even coat.

A good plan to follow is to remove all mud, grease, and oil. Allow the surface to thoroughly dry and touch up the worn or scratched parts with the color to be used. Allow the car to dry for about 24 hours, and then sandpaper the entire surface until it is smooth, and dust carefully. Next apply an even coat of varnish with a soft two-inch hair brush. The car will be ready for use in about 24 hours.

Only one coat is necessary when you refinish with the same or a similar color; however, if there is a distinct change in color, it will be necessary to use two coats. Where two coats are applied, the first coat should be lightly sandpapered with "0" sandpaper. Then dust off thoroughly and apply the second coat.—C. H. Alford, in the Progressive Farmer.

HOW FROST IS FORMED

Frost, as the term is commonly used, means a temperature below freezing at the surface of the ground, and if the point of saturation of the atmosphere is reached below 32 degrees moisture will be changed from a gas to a solid in much the same way as snow is formed, except that the frost will be deposited on those objects that are good radiators of heat and close to the surface of the earth, while snow is formed at the higher altitudes and falls to the earth through the influence of gravity. The great regulator of temperature of the air is moisture, and the change between the temperature of the air in the daytime and at night depends in large measure on the relative amount of moisture present. As stated before, the air increases its waterholding capacity as it rises in temperature, and it has been determined that as the air is cooled its capacity for holding water vapor is diminished, and at a certain temperature it reaches a point of saturation which is called "dew point." At this temperature the moisture in the air will change from a gas to a liquid in the form of dew or fog, or to a solid in the form of frost or snow, but in making this change it will give up the great amount of heat that it took up when it evaporated, and this latent heat given off will tend to warm the air, and the temperature will not fall much lower.—C. H. Alford, in the Progressive Farmer.

PERRYTON, TEXAS

FRIENDS!

October 2-3-4 are the Three Days Set Aside For The Perryton Fair

We believe that it is a great thing for the people of a county or perhaps counties to come together in this way and complete with each other in a friendly way, to bring together the products of the farms, the hogs, cattle and all kinds of live stock from the ranches, in fact anything that can be raised or made on the farms or in the towns.

To this end we are going to have on display a Modern Poultry House, Hog Feeder, and one of the new Samson Hayatt Roller Bearings Self Oiling Windmills.

We cordially invite you to make the Panhandle Booth your headquarters during the Fair and you want to feel at home there.

OUR AIM:—As always is to Help Improve The Panhandle

Yours for a big successful fair,

Panhandle Lumber Co.
