about dimmitt
and castro county

BY BMN

We have stated here before, and we repeat, that we don't appreciate getting anonymous letters from our readers. We do, however, welcome and appreciate letters from people who have courage of their convictions to the point that they will sign their contributions, fact of the matter is that we would like to receive more "signed" letters from our readers for publication. The anonymous letter this week was well-written and deals with a question that is of interest to all Dimmitt School District tax payers and patrons. The letter follows:

"That was good news of the school trustees purchasing the property for school expansion which we all know is badly needed. What really caught our eye was at 'an undisclosed price.' That statement is usually a polite way of saying it is none of our business. Now, we are pretty sure that the money being used for the purchase is the tax payers money and if so, why isn't it our business? If the whole block was purchased it probably included some houses and if so, this could amount to a considerable sum of money.

"While we do not question the integrity of the members of the school board, the taxpayers are entitled to full and complete information relative to the school's business so that they will have an idea of what is being done and what is to be expected of them to meet the demands of this fast growing community."

Sincerely,
John Q. Taxpayer
—adacc—

We don't believe that the questions posed in the above letter could, or are intended to, offend the feelings of any member of the school board, nor do we believe that the questions are unreasonable. Certainly every citizen of the school district is entitled to know every detail relating to the operation and business of the school. This information should be made available to the public at the earliest possible date allowing for the proper amount of discretion always necessary in the transaction of business, especially in real estate deals. It is our opinion that the school board delayed releasing the amount of money involved in the particular transaction under question due to the fact that they were dealing with more than one seller in the purchase of the property, and until all details of the deal were complete the board probably thought it would be prudent to withhold the amount involved in the transaction. Contracts in a total amount of \$29,204.89 have been completed by the school board and the three property owners, in the sale of the city block involved in the trade. The sellers were Joe Cowen, Mrs. Ola Murphy and Stub Jones. Vacant lots were purchased from Cowen and residential property was purchased from Mrs. Murphy and Jones.

—adacc—
The rapid enrollment growth in the local school is creating complicated problems for the district so far as housing facilities are concerned. The immediate and pressing need, it appears, is for more grade school classrooms and tentative plans are for the construction of a new grade school building and cafeteria on the newly acquired property. When the impact of the large grades comprising the elementary and junior high departments hit the high school it will be imperative that a new high school building be provided by the district, and that will be at most within the next two or three years.

For the Dimmitt District to satisfactorily solve its building and expansion needs it will be necessary for the closest cooperation between the officials of the district and the patrons to be maintained at all times, and this can best be done by everyone being well informed about all phases of the school business. The News will try to work in close cooperation with the board and the public to see that just that shall be done.

—adacc—
We received a cartoon of Life Savers as an award for our hole-in-one made recently on the Hereford Golf Course. A letter accompanying the award stated that the company that makes Life Savers have something in common with us, as it is their business to make holes-in-one, in fact it stated that they had made about a hundred million holes-in-one. Sort of reduces the imaginary honor attached to the feat.

—adacc—
In the absence of a formal proclamation from the Mayor by its usual asbeforementioned, aforesaid, whereas and to-wit clauses, we are acting on a request from Mayor Wright to pass on to you a proclamation, official in every

Sunnyside to Give Minstrel Show Friday

A Negro Minstrel Show will be presented Friday night at 8 p. m. in the Community Center at Sunnyside.

The 25-character cast will be made up entirely of Sunnyside residents and will feature songs of the Old South. The program will be under the auspices of the Rural Progress Club.

After the program free ice cream will be served to members of the audience. Officials of the club extend a cordial invitation for everybody in the county to attend. Admission is 25 and 50 cents.

Last Rites Held For Mrs. Starkey In Springlake

Funeral services were held Tuesday for Mrs. Minnie May Starkey in the Springlake Church of Christ.

Mrs. Starkey died at 1:20 a. m. Sunday in the Castro County Hospital in Dimmitt. She was the wife of Mr. Andy Starkey of Springlake. Funeral arrangements were under the direction of Dennis Funeral Home in Dimmitt, and interment was made in the Earth Cemetery. She was born February 14, 1901 in Mineral Wells, Texas.

Besides her husband, Mrs. Starkey is survived by five sons, John W. Starkey, Ft. Smith, Ark.; Andrew Starkey, Ft. Lewis Washington; Jack Wilson Starkey, Germany; Franklin H. Starkey, and Jess Davidson Starkey, Springlake; and two daughters, Mrs. Maudie Mae Zarkou, Cuba; and Naomi Dae Starkey, Springlake. She is also survived by four brothers, one sister, and nine grand children.

Heavy Rains Soak County Sunday Night

Heavy cloudbursts Sunday night deluged Castro County in near-record rains that left some crops north of Dimmitt washed out and filled dry lakes.

Highest rainfall was apparently in and around the Arney Community in the northeast of the county. Unofficial reports from there said the rainfall ranged from 5 to 9 inches. Scattered hail in the Arney and Jumbo regions was also reported.

Other strictly unofficial reports gave up to five inches in the Easter Community, 40 to 2 1/2 inches at the Bethel Community, Nazareth caught about 2 inches and Hart received 1 1/2 inches. The south part of the county reported up to 3 inches.

Heavy hail south of the Sunnyside Community ruined several crops in that area. One witness said he saw two small twisters between Dimmitt and Sunnyside, but no damage was reported.

Local Girl Gets WTS Scholarship

Miss Monette Kenmore, Dimmitt High School graduate, has been awarded a scholarship to attend West Texas State College this fall. The award is for \$100 and covers tuition and fees and part of other expenses.

Daughter of Mrs. F. H. Kenmore, 210 North West 3rd in Dimmitt, Miss Kenmore plans to major in Business Administration at WTSC to prepare for a teaching career.

An outstanding worker in the field of Dramatics, Miss Kenmore was a member of both the junior and senior play casts and was selected to the All Star Cast at the Regional One Act Play Contests.

A participant in many school activities, Miss Kenmore was a member of the High School Choir and the High School Band. She was Student Assistant to the Band Director and was a member of the National Honor Society.

Miss Kenmore

Clean-Up, Paint-Up Campaign for Dimmitt Begins Sunday, Stores to Close Thursday

The annual Dimmitt Clean-Up Campaign gets under way Sunday and is slated to get into high gear Thursday when most of the city's business houses are expected to close and clean up their premises.

Anyone having piled up trash to be picked up during Clean Up Week should call the City Manager's office at 135. Businesses agreeing to close Thursday will be given placards for their windows announcing the event.

In varying degrees, the clean-up program has proven successful over the years in Dimmitt. Castro County Chamber

of Commerce secretary Glenn Youts said the city management had agreed to extend every cooperation during the drive. The City sanitation department will furnish trucks and drivers to pick up trash and chopped weeds.

The Town and Country Garden Club has scheduled a city-wide inspection tour Saturday and present prizes to those homes showing the most improvement and presenting the neatest appearances. An anonymous committee will do the judging.

"We've got a clean, neat city here," Mr. Youts said, "but it's going to take a little work on everybody's part to keep it that way. If everyone pitches in with paint brushes, hoes, rakes, and brooms we'll have a city we can be proud of."

Business establishments are especially urged to cut any weeds in front of and behind their locations on Thursday. Homesites especially should be cleaned up to remove hazards to playing children and to keep mosquitoes from breeding. Anyone having any particular clean-up problem are invited to call the Chamber of Commerce officer for assistance.

County Wheat Farmers Vote Saturday On Market Quota Referendum

Castro County farmers go to the polls Saturday to vote on whether or not they want marketing quotas on wheat to be in effect during 1956.

If wheat growers vote yes to the proposed program, they will be guaranteed by the government 76 per cent of parity for next years crop, but will be penalized if they exceed their acreage allotment.

If the vote is no, there will be no penalty for exceeding the acreage allotment, but the price support will be just 50 per cent of parity.

Sunnyside Wins 2nd Place In Rural Progress Contest

The Sunnyside Community was awarded a second place trophy Tuesday night for outstanding progress and achievement in the High Plains area.

A meeting of Sunnyside residents at the community center heard Mr. T. G. Gibson, director of extension at Texas A & M, and Mr. L. C. Richardson, representing the Farmer Stockman, pay tribute to the work done by the community during 1954 and 1955.

Mr. Gibson lauded the teamwork which made possible the outstanding record of the Sunnyside Community. "Achievement is a result of teamwork," he said, "and it made this second place award possible in Sunnyside. The contest was important, but it ran second to the actual betterment of the community. If you keep up this work, you can't lose." He went on to point up the necessity of working together to accomplish individual and community goals.

Record Crowd Sees East Win 8-4 Title

All previous baseball attendance records at the local ball park were shattered Thursday night, June 16 as the East All-Stars downed the West All-Stars 8-4 before some 250 wildly cheering fans. Luke Acker of the Nazareth team was the winning pitcher for the East and Reed of Bovina was charged with the loss.

The East team, composed of players from Dimmitt, Nazareth, Olton and Umbarger collected seven hits while the West club, which was made up of players from Friona, Hereford, Bovina, and Lazbuddie, was held to five bingles. The winners used three pitchers while the losers paraded four hurlers to the mound.

Some \$70 was paid in admissions as fans from every town in the Central Plains League flocked to the city ball park.

John Renner, pilot for the Friona team of the Central Plains League, managed the West All-Stars and Chris Clark, manager of the Dimmitt club, served as manager for the East All-Stars.

The South Rises Again

Minstrel Laughs and Music Due With 'USS Lions Club Showboat' Landing

Plans for a two-hour minstrel show tentatively scheduled for July 7th and 8th were revealed Tuesday at the weekly Lions Club luncheon.

The Lion-sponsored program will be presented in the Dimmitt High School Auditorium under the direction of Mr. Rosie Bates, school speech leader and stage production specialist.

Topping the comedy list will be the Cutie Kewpie Dollies, made

up of six Lion club members. Their rendition will be light humorous songs with the flavor of the Old South.

"USS Lions Club Showboat" will be the setting, Mr. Bates said. Stage settings featuring a showboat motif will be used.

Four specialty numbers and eight songs, mostly to the tune of a barjo, will form the program. An interloper will tie the theme together.

Cast for the production will be selected Tuesday night at 8 o'clock in the High School auditorium. Mr. Bates urged all Lions to attend the casting since a large cast is needed and will require participation of most of the members.

A Negro minstrel was produced once before by the Dimmitt Lions Club and was generally considered a huge success. It was also under the direction of Mr. Bates

who used only Lion club members for participants. For this show, most specialty number rehearsals are scheduled during the day, and Lions Club members will practice at night.

Candy sales are expected during the program if present plans are carried. Cost of admission was not discussed at the Tuesday meeting. Wives of members will be invited to participate in the chorus.

Any further questions about the two propositions can be answered at the ASC office in the Court House.

Cletha's Tot Shop Opens This Week

Dimmitt has a new store specializing in children's clothes which opened earlier this week. It is Cletha's Tot Shop, owned and operated by Mrs. C. W. George, Sr.

Located in the first building north of Gene's Drive-Inn on Highway 51, the new store will feature a complete selection of clothing for all pre-school children including babies.

Cletha's Tot Shop is the first of its type in Dimmitt. It will be open six days a week from 9 a. m. until 6 p. m.

Nazareth Approves School Bond Issue

Voters in the Nazareth School District last week voted their approval for a \$130,000 bond issue for school improvement.

The bond election carried with a vote of 79 for and 21 against. A new gymnasium, made of ribbed metal panel siding is the athletic improvement to come from the \$130,000. High school classroom construction will include a science room, a homemaking room, three classrooms, office, and a teachers' lounge which will also serve as a health room.

Hendrick of Fort Worth is the architect and further plans were discussed with him at a special school board meeting Tuesday night.

Sister Gregory and Sister Victoria of Nazareth left Wednesday for Fort Smith, Arkansas, where they will spend the summer.

Dimmitt Wheat Growers Elevator Has New Manager

Mr. Blanton Armstrong, 38-year old former manager of Umbarger Co-Operative Elevator, was announced this week as new manager of the 1,160,000-bushel Dimmitt Wheat Growers elevator.

He fills a position left vacant for several months. Mr. Ray Halton, elevator bookkeeper, has been acting as interim secretary and manager of the elevator.

Mr. Armstrong is married and has three children ranging from one to four years in age. He has five years experience in elevator management and attended West Texas State College and Texas Tech. He plans to assume his duties July 1.

Sheriff's Office On Lookout for Young Car Thieves

County law-enforcement officials this week were on the lookout for two blond-headed boys of medium height who stole a car in Canyon and abandoned it 9 miles Southeast of Dimmitt on the Plainview Highway Monday.

They were also suspected of an additional auto theft in Amarillo late last week. It is suspected the two boys hitchhiked from near the abandoned car through Dimmitt. The Sheriff's Office has issued a request that they be notified by any person who may have given them a ride. Information is needed concerning their destination and it is hoped by the Sheriff's Office that they might have told anyone giving them a ride where they were going. Anyone knowing anything about these boys are urged to call the County Sheriff.

The public is extended a cordial invitation to visit the new business firm and get acquainted with the owners.

Castro County's First Plastic Pipe Installed on H. C. Baird Farm Pump

Castro County's first plastic irrigation pipe was installed early this week on the H. C. Baird farm 11 miles north and 1 mile east of Dimmitt.

Installation was by the Dimmitt Ditching Service under direction of Joe Bruce and George Owens.

Mr. Baird installed an 8-inch plastic pipe to match the discharge pipe of his well. It is about 1,000 feet in length and will be used to irrigate about 125 acres of the farm. The pipe is fitted with discharge valves to match crop rows and the main section is buried under a cover of 30 inches of soil.

The new type black irrigation pipe is guaranteed against deterioration and is reported to carry maximum pump discharge without undue strain. The pipe is available in sizes up to 12 inches in diameter and lengths up to 1,000 feet and can be installed in one day.

Softball Tourney Begins Here Monday Night

Dimmitt next week will play host to four softball teams from Hereford, one from Littlefield, and one from Friona. The teams will meet in a tournament beginning Monday at the local softball park to decide the area champions.

Dimmitt will enter two teams—one coached by Choc Lay to be named the All Stars, and one coached by W. C. Fields called the Rag Mops.

The tournament will feature double-headers every night through Saturday except Wednesday night when no games will be played.

Prizes valued at some \$80 will be awarded to first place, second place and consolation winners. Starting time each night will be 8:30 p. m. and admission will be 10 and 25 cents.

In the youngster league, Tulia's Pee Wee's and Ponies will come to Dimmitt Monday to take on the local Little Leaguer players at the local diamond beginning at 3:30 p. m. On Thursday the Olton grade schoolers will arrive in town to play Dimmitt at the same time and place.

Brooks Variety Store To Open Here Friday

Opening date for the Brooks Variety Store has been set for Friday, June 24. The new store is located in the building formerly occupied by the H. J. Thomas Furniture Store, 1st door north of the bank. Installation of fixtures and stocking of the store has been under progress for the past three weeks by the owners, Mr. and Mrs. Jack Brooks.

Mr. and Mrs. Brooks moved to Dimmitt recently from Clarendon where they had operated a variety store for the past nine years. They lived in Gonzales prior to moving to Clarendon. They have one son, Pvt. Jack Brooks, who is stationed at Camp Pendleton, California.

In announcing the opening of his variety store Mr. Brooks stated that they would carry a complete line of variety and notion stock, and that new items would be added from time to time as they became acquainted with the local needs of the community. He also declared that Dimmitt was selected for the location of their store after they had investigated a large number of other possible locations in towns throughout the Panhandle-Plains area.

The public is extended a cordial invitation to visit the new business firm and get acquainted with the owners.

NEW GIN OWNER MOVES TO DIMMITT

Mr. and Mrs. Marvin Teakell moved to Dimmitt recently from Altus, Okla., and are occupying the S. T. Newman residence while their home on Highway 86 in West Dimmitt is under construction. Teakell is co-owner and manager of the Tam-Anne Gin located 12 miles west of Dimmitt. Mr. Robert G. Davis of Altus and Teakell purchased the Tam-Anne Gin from H. C. Barton last March.

Mr. and Mrs. Gene Kenmore, accompanied by her father, Mr. J. P. Goodwin, visited her sister, Mrs. Faye Sutton, and family at Mesa, Arizona, last week. They were accompanied home by Mrs. Sutton and children who will be here for a three weeks visit.

LEGAL NOTICE

ORDINANCE NO. 138

AN ORDINANCE ESTABLISHING FIRE LIMITS; REGULATING BUILDING CONSTRUCTION AND ALTERATIONS; AND PROVIDING A PENALTY FOR VIOLATIONS.

BE IT ORDAINED BY THE COMMISSION OF THE CITY OF DIMMITT, TEXAS:

SECTION 1. FIRE LIMITS: The Fire Limits shall be divided into three (3) classes—Class 1, Class II and Class III. The following shall be and are hereby declared to be the Fire Limits of the City of Dimmitt:

Class I: Beginning at the intersection of North Broadway and West Halsell; thence west to West Second Street; thence south to Andrews Street; thence west ½ block; thence south through the North-South alleys to the center of block 109; thence west through the East-West alleys to the center of block 126; thence south through the North-South alleys to the center of block 125; thence east through the East-West alleys to the center of block 110; thence south through the North-South alleys to Stinson Street; thence east crossing South Broadway to the North-South alley in block 60; thence north through the North-South alleys to East Bedford Avenue; thence west to East Third Street; thence north to the East-West alley in block 75; thence west ½ block to the North-South alley in block 75; thence north to Andrews Street; thence west to East Second Street; thence north to Dulin Street; thence west to the North-South alley in block 80; thence north through the North-South alleys to the intersection of said North-South alley with the Fort Worth & Denver Railway right-of-way; thence north-westerly with said right-of-way to the intersection of the Railway right-of-way with the State Highway No. 51; thence south along the west side of Highway right-of-way to the place of beginning.

Class II: Beginning at the intersection of South Broadway and Stinson Street; thence west to the North-South alley in block 113; thence south through the North-South alley to the center of block 114; thence east through the East-West alleys to the center of block 88; thence south through the North-South alley to Grant Street; thence east to East Second Street; thence south to the East-West alley in block 68; thence east through the East-West alleys to East Fourth Street; thence north to Grant Street; thence west to East Third Street; thence north to Lee Street; thence east to the North-South alley in block 61; thence north through the North-South alley in block 61 to Stinson Street; thence west to the place of beginning.

Class III: The North-East quarter of block 89; North ½ of block 42; all of block 62; East ½ of block 61, 60, 59, and 58; all of blocks 57, 47, 48, 31, 32, 21, 22, 5 and 6; the North-east quarter of block 75; all of block 76; East ½ of block 80.

SECTION 2: CONSTRUCTION REQUIRED WITHIN THE FIRE LIMITS:

Class 1: No building or structure of wooden, ironclad (whether on wood or metal supports), stucco, or veneer type construction, or any building whose walls contain wood supports, shall be permitted except as indicated in Section 3. The thickness of walls shall be not less than as given below:

Brick walls shall be not less than 12 inches thick, except that small one-story buildings with floor areas of 750 square feet or less may have walls 8 inches thick.

Reinforced concrete walls may be three-fourths of the thickness of brick walls, but in no case less than 8 inches.

Hollow building tile may be used as filler walls provided such walls be supported on reinforced concrete beams and footings, and by adequate reinforced concrete or brick pillars or columns spaced not more than 16 feet apart; walls to be not less than 12 inches thick. Small one-story buildings of less than 500 square feet floor area may have walls of 8-inch hollow building tile.

Solid stone walls shall be 4 inches thicker than brick walls for like construction.

Roof: Roof shall have steel beams, metal lath, built-up of fire proof material.

Class II: The walls shall be of the same construction and thickness as in Class I.

Roof: Roof can be of wooden beams and wooden lath, built-up of semi-fire proof material.

Class III: Any building allowed in Class I or II. A building of all steel construction.

SECTION III: FRAME BUILDINGS: No structure whose walls are wholly, or in part, constructed of wood, shall hereafter be built or moved into the fire limits as herein designated or as they may hereafter be established except as follows:

(a) Temporary one-story frame buildings for the use of builders.

(b) Wooden fences not over 8 feet high without cover or roof.

Any existing frame, within the fire limits, which may hereafter be damaged by fire, decay, or otherwise, to an amount greater than one-half of its present value exclusive of the foundation shall not be repaired or rebuilt, but shall be removed. Extensions to or remodeling to change the type of construction of existing buildings shall not be considered

as repairs. Repairs to existing wood shingle roofs shall be limited to minor repairs and where exceeding 50% of the value of the roof, shall be replaced only with incombustible materials.

SECTION IV: PENALTY: any person violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction shall be fined in any sum not to exceed \$100.00.

Passed and approved this the 1st day of June, A. D. 1955.

E. B. Wright
Mayor

ATTEST:
E. B. Noble
City Secretary

Nazareth News

On Sunday, June 19, Mr. and Mrs. Bob Steffans celebrated their twenty-fifth wedding anniversary with a reception and dance.

A large crowd of friends and relatives from Slaton and Nazareth attended the reception. Due to weather conditions a meager crowd attended the dance. Among the out-of-town visitors were Mr. and Mrs. Joe Steffans of Littlefield, Mr. and Mrs. John Steffans and family, Mr. and Mrs. Tony Steffans and family, Mr. and Mrs. Paul Hansler, Mr. and Mrs. Edgar Kalich and Alvin Kalich, all from Slaton, and Mr. and Mrs. Ed Virkemp from Idalou. Many Slatonites had to spend the night at Nazareth because of the sudden storm which came up Sunday evening.

Delia Davila, daughter of Mr. and Mrs. Pedro Davila, was baptized on June 18 by Father Morsch. Delia's sponsors were Mr. and Ramon Gonzalez.

The son of Mr. and Mrs. Antonia Garza, Israel, was baptized Sunday, June 19 by Father Morsch. Sponsors for Israel were Mr. and Mrs. Crescencio Lopez.

Mr. Joe Lange has returned after visiting with his sister, Sister Corrine, of Morrelton, Arkansas. Mr. and Mrs. Jack Johnson accompanied him on the trip.

Mr. and Mrs. Albert Schulte and family spent the week-end of June 18 visiting with their son, Pvt. Floyd Schulte and with Pvt. Cyril Brockman who are stationed in Arkansas. They also visited with relatives and friends in Oklahoma.

Mrs. Jerome Durbin and sons, Harold and Jimmy, are visiting in Edinburg and other places in the Rio Grande Valley of Texas.

Mrs. Chris Birkenfeld and son, recently visited friends and relatives in Rhineland.

A farewell party was given in honor of Pvt. Alvin Klemm on Monday night, June 20. A large crowd was in attendance.

Health department entomologists recommend lead arsenate applied to infested foliage at the rate of 1 ounce per 1½ gallons of water.

The thick-set, 2-inch long caterpillars with the stinging hairs have been out in force in Texas this spring—notably central regions of the state. Curious youngsters see the crawling leaf-eaters or low hanging limbs of oak trees or on lawns, pick them up and get ugly looking welts for their trouble.

When mother notices the welt or rash, her first worried reaction is to seek advice from health officials on control measures. The reaction is the right one, for State Health Department entomologists know "oak worm" character from one end of its stubby chassis to the other.

Here's what they say about the caterpillar:

As is the case with immature stages of several types of moths and butterflies, the oak worm has poison glands scattered over its body from which arises large hollow spines.

The tips of the spines readily penetrate human skin and break off, liberating some of the poison. When this happens a serious rash may be produced—especially in children—resulting in systemic disturbances requiring medical attention.

People up East call these sting-ers "buck moths," presumably because they are most active in the fall of the year—during deer season.

Females deposit eggs on oak leaves and twigs, and occasionally on other trees and shrubs. The larvae get along very well together, frequently feeding in clusters.

In addition to their harmful effect on humans, the worms are economic pests in that they damage young foliage. After completing their larval development, they drop to the ground to transform mouthparts and that's the thing into the harmless adult stage.

The caterpillars have chewing that gets them in trouble, entomologists say. It means they can be controlled with most insecticides of the stomach poison mercially.

The thick-set, 2-inch long caterpillars with the stinging hairs have been out in force in Texas this spring—notably central regions of the state. Curious youngsters see the crawling leaf-eaters or low hanging limbs of oak trees or on lawns, pick them up and get ugly looking welts for their trouble.

When mother notices the welt or rash, her first worried reaction is to seek advice from health officials on control measures. The reaction is the right one, for State Health Department entomologists know "oak worm" character from one end of its stubby chassis to the other.

Here's what they say about the caterpillar:

As is the case with immature stages of several types of moths and butterflies, the oak worm has poison glands scattered over its body from which arises large hollow spines.

The tips of the spines readily penetrate human skin and break off, liberating some of the poison. When this happens a serious rash may be produced—especially in children—resulting in systemic disturbances requiring medical attention.

People up East call these sting-ers "buck moths," presumably because they are most active in the fall of the year—during deer season.

Females deposit eggs on oak leaves and twigs, and occasionally on other trees and shrubs. The larvae get along very well together, frequently feeding in clusters.

In addition to their harmful effect on humans, the worms are economic pests in that they damage young foliage. After completing their larval development, they drop to the ground to transform mouthparts and that's the thing into the harmless adult stage.

The caterpillars have chewing that gets them in trouble, entomologists say. It means they can be controlled with most insecticides of the stomach poison mercially.

Health department entomologists recommend lead arsenate applied to infested foliage at the rate of 1 ounce per 1½ gallons of water.

Texas Farmland Values Are Up

Farm real estate values in Texas rose three percent between November and March and two percent during the 12 months ending March 1, according to a U. S. Department of Agriculture report.

Nationwide, the increase was one percent during the four month period and two percent for the year ending March 1.

Land values this March were above a year earlier in half of the states.

Records of farm sales show, according to the report, that from 40 to 50 percent of all land purchases in the wheat areas were made to enlarge existing farms.

In the central Corn Belt at least a third of all purchases were for this purpose.

With many farms in these areas still below the optimum size for maximum efficiency, this type of demand can be expected to have a bolstering effect on the level of land prices for some time, the report suggested.

BETHEL NEWS

Bethel W. S. C. S. met Monday afternoon with Mrs. Vern Lust. We completed our Bible Study which has been very interesting. Those present were Mesdames J. C. Williams, W. C. Copeland, Harry Rothwell, Earl Lust and the hostess, Mrs. Verr Lust. We will meet Monday, June 27th with Mrs. Earl Lust at 3:00 p.m.

Miss Lynda Elliott of Lake Charles, Louisiana, was a recent week-end visitor of Carolyn Bagwell. Carolyn is attending Texas Tech this summer, and so is Lynda.

Mrs. Harry Rothwell, Mrs. Bobby Warren and Gary Keith and Mrs. Leona Rothwell were in Amarillo Saturday for Gary Keith to have medical care. They also visited Mrs. Fred Seale.

Mr. and Mrs. Doyle Underwood and girls attended a family get-together at McKenzie Park in Lubbock Sunday.

Mr. and Mrs. Lewis Warren and children visited her parents, Mr. and Mrs. Joe Gollehon at House, N. M., over the week-end.

Odell Warren and Lawayne Rawls of Levelland had Sunday dinner with Mr. and Mrs. Bobby Warren and son.

Mrs. George Bagwell, Mrs. Harry Rothwell, Mrs. Raymond Van Zandt and Mrs. P. P. Robb attended

ed Sub-District meeting of the W. S. C. S. at the First Methodist Church in Plainview Thursday. Jimmie Howell visited with the Harry Rothwells and Bobby Warrens Saturday night.

Glenn Lust spent Saturday night with his cousin, Lloyd Lust at Littlefield.

Mr. and Mrs. Johnny Johnson and daughter from Oregon have moved recently to the Carl Kemp farm.

Mrs. R. M. Warren and Belva Jean visited their son and brother Bobbie Warren and family Sunday afternoon.

Sunday visitors of Mr. and Mrs. George Bagwell and Sue were Mr. and Mrs. J. A. Bagwell, Sr., Mr. and Mrs. Kay Roberts and Mr.

NORTHDGE CLUB NEWS

The Northedge Club met at its regular meeting time with eleven members present. We voted on topics for fair exhibits. The monthly social will be at Mrs. Fred Waggoners home on Friday, June 24th. Mesdames Woodrow Nelson, John Crum, Raymond Crum, Don Carpenter, T. H. Maxwell, Fred Dunn, a visitor, Mrs. Wayne Kochler, Bob Myers, Dorit Smiley, Don Heard, Fred Waggoner and the hostess, Mrs. Harvey Abbott.

After our business meeting we then spent our time on Club Craft. We planned our family picnic for July.

Reporter

and Mrs. J. A. Bagwell, Jr., and daughter, Mary Lynn, Clayton Greaff, Monty Boozer and Wilton Ivey.

Mr. and Mrs. Earl Lust and Lloyd had Sunday dinner with Mr. and Mrs. James Bradford and boys.

Mr. and Mrs. Arnold Morgan and five children from Okla., have moved to one of the remodeled barrack buildings on the Avenue road.

Mrs. G. A. Schiven of Dimmitt visited Mrs. Moss Howell and family Sunday afternoon.

Last week guests of Mr. and Mrs. J. C. Williams were his nephew, Mr. and Mrs. Roger Williams and family from Los Alamos, N. M.

Sunday guests of Mr. and Mrs. Houston Lust and children were her parents, Mr. and Mrs. Joe Finch of Tulsa. A brother, Norman Finch and family, a brother, Orval Finch and wife, all of Tulsa. A sister Mrs. Bill Avent, Mr. Avent and daughters, and Houston's parents, Mr. and Mrs. Verr Lust and his brother Glenn.

Mrs. G. A. Schiven was a Sunday afternoon caller of the Houston Lusts.

Mr. and Mrs. Bobby Warren were in Lubbock Tuesday on business.

Mr. and Mrs. Doyle Underwood attended the Progressive Progress Party and Award Program of Castro County Communities at Sunnyside Tuesday night.

Mr. and Mrs. Percy Estes, Mr. and Mrs. Bob Estes and children, and Mr. and Mrs. Melton Richardson visited Mrs. Percy Estes' brother, Mr. Joe Greer and family at Amarillo Sunday. The Greers live in Pleasant Valley on St. Francis Highway, the section of Amarillo that received hail damage late Sunday afternoon. The Greer home, however, received only slight damage.

County Residents' Social Security Is \$1051 Monthly

In Castro county at the end of last year 22 retired workers were receiving \$1051 in monthly social security payments, according to figures just released by John R. Sanderson, District Manager of the Social Security Office in Amarillo.

In addition to the retired workers themselves, 43 people were receiving \$1440 a month as dependents of the retired workers or as survivors of deceased workers.

Although this is a considerable increase as compared with payments a year ago, it is certain that more people will receive larger payments in years to come because of changes in the Social Security Law in 1954, Sanderson says. Among the major changes were the following:

1. Computation of payments after "dropping out" up to 5 years of lowest social security covered by earnings.
2. Extension of social security coverage to more farm workers and self-employed farmers, as well as many kinds of work.
3. Increasing of the maximum creditable toward benefits from \$3600 to \$4200.
4. Allowing disabled workers to "freeze" their social security wage records while disabled.
5. Increasing the amount of earnings which a retired worker can receive and still get all or part of his retirement payments. (There is no restriction on earnings after a worker is 72 years old.)

Persons with social security questions are invited to contact the Amarillo Social Security office, or contact a representative who will be in Dimmitt at the Courthouse on Wednesday, August 3 at 10:00 a. m. on a regular visit.

PIANOS

Will have representatives in this area shortly to dispose of two SPINETs (One blonde oak), one small Studio and two nice Upright Pianos. These instruments must be sold AT ONCE to retire present obligations against them. If you want a bargain. Cash or terms. Write or Phone Credit Department.

MRS. WALES

Lois Cleavinger and Mr. Charles Wales Marry In Dimmitt Methodist Church

Miss Lois Elaine Cleavinger became the bride of Charles Snyder Wales, Jr., in a ceremony read at 7:30, June 14, in the First Methodist Church.

Parents of the couple are Mr. and Mrs. Norman F. Cleavinger of Dimmitt and Mr. and Mrs. Charles Snyder Wales Sr., of New Deal.

The Rev. Raymond Van Zandt performed a double ring ceremony beneath an arch of cathedral tapers entwined with jade foliage and flanked by fan-shaped arrangements of sweet pink gladioli. Fern formed the background and pink tapers marked the bridal isle.

Miss Carol Jean Sandlin sang "Ah, Sweet Mystery of Life" and "The Wedding Prayer" accompanied by Miss Judith Cleavinger,

cousin of the bride at the organ.

Father Is Escort

The bride, given in marriage by her father, wore a gown of of Chantilly lace and bluish pink tulle fashioned with a sweetheart neckline and elongated waistline. Short sleeves were complemented with lace mitts that terminated in points over the hands. The full skirt of lace and tulle extended into a chapel length train.

Her fingertip length veil was attached to Dutch-type headdress trimmed with seed pearls and iridescent sequins. She carried a cascade arrangement of sweet pink carnations centered with American Beauty roses with pink streamers tied with love knots and maline puffs.

Mrs. Goldman P. Dyer attended her sister as matron of honor and bridesmaids were Mrs. Ed Dawson of Springlake, sister of the bride, Miss Maxine Wales of New Deal, sister of the bridegroom, and Miss Mary Cooper of Crowell.

They wore identical princess-style dresses of sweet pink silk crepelette designed with sweetheart neckless and full skirts. They wore Dutch-style hats and short mitts and carried nosegays of American Beauty roses.

Marsha Dawson of Springlake, niece of the bride, was flower girl and Dickie Dyer, nephew of the bride was ring bearer.

Charles Ratliff of Lubbock served as best man. Ushers were Ronald Cleavinger of Springlake, brother of the bride, Orville Cleavinger of Springlake, brother of the bride; LaVerne Jones of New Deal; Jesse Upton of Sundown; and Dave Willhoit of Tahoka.

Reception In Home

The home of the bride's parents was the scene of a reception following the ceremony. The bridal table, laid with white organdy over pink satin was centered with a silver epergne filled with sweet pink flowers and tapers. Silver and crystal appointments were used.

Assisting with hospitalities were Misses Lynn Rodgers, Virginia Carter, Nancy Phillips, Caryetta Crume, all of Lubbock; Sara Mickey of Plainview, Mollie Stinson of Muleshoe, Martha Blankenship of Morse, June Christian of Fawcett and Viola Stinson of Olton, and Mrs. Ronald Cleavinger and Mrs. Orville Cleavinger of Springlake.

For a wedding trip to Lansing, Mich., the bride chose a navy silk linen suit with pearl white accessories.

The bride is a graduate of Springlake High School and Texas Tech where she was a member of Phi Upsilon Omicron, Forum and Wesley Foundation and was named to Who's Who in American Colleges and Universities.

The bridegroom is a graduate of New Deal High School and Texas Tech where he was a member of Phi Eta Sigma, Alpha Chi Dairy Industry Club, Alpha Zeta and Aggie Club.

The couple will make their home in East Lansing, Mich., where the bridegroom will do graduate work at Michigan State University.

Out of town guests were Mrs. M. E. Cleavinger, Sr., paternal grandmother of the bride of Canyon; Mrs. W. E. Miller, John, David and Janice Miller; Mr. and Mrs. E. R. Cleavinger and Dorothy; Mr. and Mrs. Bill Cleavinger, all of Canyon; Mr. and Mrs. Dave Tullis, Davie and Bella of Anton; Mr. and Mrs. R. B. Dawson, Sr.; Mr. and Mrs. R. B. Dawson, Jr.; Carol and Bill of Tulsa; Mrs. Rube Stinson of Olton; Mr. and Mrs. Bill Stinson, of Muleshoe; Mr. and Mrs. C. C. Christian, Farwell, New Mexico; Mrs. Irving J. Alexander, Hereford, Mr.

and Mrs. LaVerne Jones; Mr. and Mrs. Lonnie Browlow; Ruby Nell Ashmore; Mr. and Mrs. Bobby Henderson; L. B. Teal; Mr. and Mrs. Murl Kidd; Mr. and Mrs. Jesse Lee Upton; Mrs. D. D. Webster; Mrs. M. M. Styles; Mr. and Mrs. J. W. Vanstony; Mr. and Mrs. D. A. Wortham, of New Deal; Miss Lola Marie Drew; Mrs. Winnifred G. Gifford; Maurice Fawcett; Barbara Thruston and Marian Wilson of Lubbock.

Mr. and Mrs. E. L. Dawson entertained with rehearsal dinner Monday evening in their home.

Change of Meeting Place for Bethel W. S. C. S.

The Circle will meet Monday, June 20th in the afternoon at 3:00 o'clock with Mrs. Vern Lust in Dimmitt.

Eastern Star Installs Officers

New officers of the Dimmitt Chapter 819 of the Order of the Eastern Star, were installed in formal ceremonies Friday night in the Lodge Hall.

An address of welcome was given by Mrs. O. K. Howe, retiring Worthy Matron.

Mrs. Mary King, Past Worthy Matron of San Juan, N. M., sister-in-law of Emma Gene King, presided as installing officer and was assisted by Mrs. Howe, Marshal; Ola Mae Trimble, Chaplain; Clara Neumayer, Musician and Oleta Golden, Secretary, pro-tem.

Assuming their official duties were Worthy Matron Emma Jean

King; Worthy Patron L. G. Manning; associate matron Mrs. Terra Mae Ray; associate patron, Raymond Wilson; secretary, Grace Newton; treasurer, Mrs. Manning; conductress, Ruth Slough; associate conductress, Betty Boothe; Chaplain, Zonelle Maples; Marshal, Rubye Jones; organist, Helen Richardson, Ada, Sunnye En-

right; Ruth, Valeria Silas; Esther, Margaret Wilson; Martha; Kathryn Vardeall; Electa, Janie Hastings; Warden, Mrs. Irvin King; Sentinel, James Slough.

The Worthy Matron's chosen colors are pink and brown. Her theme is "Harmony." Punch and cookies were served by the hostess.

Best dressed car of the year

The Bel Air Sport Coupe. You'll find your favorite model among Chevrolet's complete line of Fisher Body beauties.

Chevrolet...The only low-priced car with beautiful Body by Fisher

motoramic

COMBINE YOUR NEW CHEVROLET PURCHASE WITH YOUR VACATION PLANS!

Order a new Chevrolet through us, then pick it up at the plant in Flint, Michigan, see Chevrolet's built, if you like, and drive yours home. Chances are, you'll save a substantial share of your vacation travel costs!

It's like a famous designer's label on a lady's favorite party dress.

It's like sterling on silver, 14 carat on gold, or like those little silk threads in an honest-to-gosh dollar bill that no counterfeiter can ever quite copy.

It's the Fisher coach—world-famous emblem of Body by Fisher. You'll see it on the sill of a Motoramic Chevrolet when you open the door. You'll see it on some of America's most popular high-priced cars, too. But that's all. Not on any other low-priced car.

The other cars in Chevrolet's field just don't have that clean, fresh look that comes from beauty that's built in—not bolted on! In fact, there are very few cars that do have it—no matter what they cost.

You can choose your own new Chevrolet with Body by Fisher from 190 different combinations of models and colors. That's like having it custom built just for you—without the custom-built price! Come in and get all the good news on the model you like best.

STEALING THE THUNDER FROM THE HIGH-PRICED CARS!

on Friday, June 10th to honor Mrs. Gus McLain.

Mrs. Delores Smith was honored on Friday, June 17th at a baby shower in the home of Mrs. James Clay. Assisting Mrs. Clay as hostesses were Mesdames Frank Bauman, Tump McLain, Jess Newsom and Misses Toni Bauman, Esther Ruth McLain and Peggy Murray.

The community of Hart was hit on Sunday night by one of the worst hail storms since 1930. Beginning about 5 miles southwest and extending in a semi circle to about 7 miles north east some 15 or 20 farms received from a slight to total loss of cotton and row crops. No hail was received in town and only 1/4 inches of rain. Other areas report from 1/2 to 1.50 inches of rain. No wind damage has been reported.

Mr. and Mrs. Willis A. Hawkins, Sr., spent the week-end of the 12th in Abilene and as no news was written part of this weeks news will cover that week-end.

Guests in the home of Mr. and Mrs. W. H. Felder the night of the 12th were Mr. and Mrs. Effort Reese and granddaughter of Houston, Mr. and Mrs. M. M. Anderson and Ellen, Mr. and Mrs. Larry Peckham and Martha Ruth, Mr. and Mrs. W. H. Felder and Mera, all of Plainview, Mr. and Mrs. Jack Godfrey and Mike and Mr. and Mrs. Clay Anderson and Gayland of Hart.

Mrs. W. A. Gilmore and children are in Dallas this week visiting relatives.

Mr. and Mrs. L. H. Winnert of Oklahoma City visited in the home of his brother, Homer Winnert and family over the week-end. Billie Winnert, who has been visiting his uncle returned home with them and Don Winnert of Texas Tech was also home for that week-end.

The class of 1950 of Hart High held its reunion on the evening of the 12th at the park in Plainview.

Ray Bennett's brother, Shirley, wife and son of Taft arrived on the 10th to visit the Bennett and McLain families. They returned home the following Wednesday taking young Dennis McLain with them. Mrs. Lawrence McLain and her other children left this Monday morning to meet Dennis in Temple and after a short visit with relatives there will return home.

Miss Helen Dodson of Muleshoe and Miss Opal Ray of Wayland College visited Opal's parents, Mr. and Mrs. Tom Ray, on Thursday afternoon.

Mr. and Mrs. Larry Mills of Tulsa are visiting in the home of their uncle, Ed Harris and family.

Mr. and Mrs. C. A. Robertson of Dalhart are visiting in the home of their son, Paul Robertson.

Visiting in the O. D. Dinwiddie home on Wednesday were Mesdames Helen Nash and daughter, Mrs. Patricia Venio of Beaumont, Mrs. Ray Riley of Dimmitt, Mrs. Jay Boston of Hereford, and Mrs. M. V. Nash of Plainview.

Mrs. J. W. Witt of San Diego, Cal., mother of Mrs. Jim Height, is visiting in the home of her daughter.

Mrs. Fannie Addison of Grandbury is spending this month in the home of her friends, Mr. and Mrs. Miles Cox and Mrs. Simpler. Mr. and Mrs. Tom Ray, Mrs. Perry Van Vleet and children visited Mr. and Mrs. Pancho Lacy in Amarillo Sunday.

Mr. and Mrs. Roy Pyeatt and Royce Lynn visited relatives in Chillicothe the first of the week.

Weldon Davis is making a very rapid recovery from an appendectomy in a Plainview hospital on Tuesday of this week.

Mr. A. L. Goodwin has been day from a Plainview hospital elected by the local school board to teach commercial studies in High School. He will also be business manager, tax assessor and collector for the Hart Independent School District. He and his wife and daughters, Debra and Ronda, have already moved to Hart from Adrian.

Pepper Martin came home Friday where he underwent surgery and was very ill for over a week.

Mr. Ed Sanders has returned to his home in Albuquerque, N. M., after spending two weeks in the home of his brother, Mr. and Mrs. Frank Sanders.

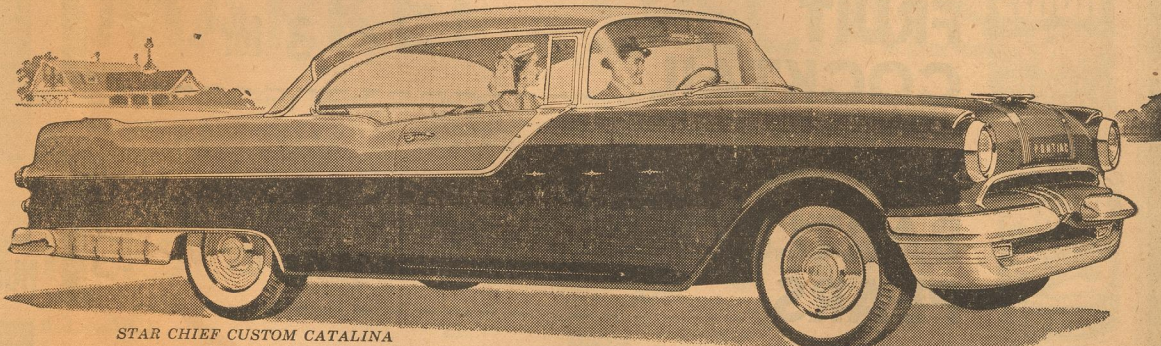

Mr. and Mrs. John Blaine were here from Sundown to attend the 25th anniversary banquet of the local Lion Club Monday evening.

Mrs. Ethel Terrell of Lubbock spent last week-end here in the home of her niece, Mrs. Russell Moran and family. She was accompanied by another niece, Betty Lawson, also of Lubbock.

Mrs. J. G. Davis returned home Saturday after spending three weeks in Big Spring with her daughters, Mrs. Albert Smith and Mrs. Cleo Richardson, and families. Mrs. Davis also visited her sister, Mrs. J. L. Stephenson, and sister-in-law, Mrs. Tom Davis, at Snyder.

Mr. and Mrs. C. A. Cryer of Borger attended the Ladies Night banquet of the local Lions Club Monday evening.

Get into the Fine-Car Class...

STAR CHIEF CUSTOM CATALINA

... at a cost you can easily afford!

What is a fine car? What sets a certain few apart in the world's esteem... wins them first place in most people's desire?

First and foremost, a fine car is a style-setter—a real advance in smart appearance.

Naturally, it's also a pace-setter—a fundamental forward step engineering-wise. At the wheel you should know that you've reached the peak of performance—experienced an all-new kind of flashing, vigorous, smoothly delivered power.

There's more, of course. It must be enviable for sheer luxurious comfort, for restful roadability, for thought-quick handling ease.

And it must, above all, be wholly dependable,

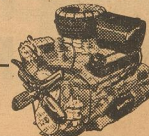

for only a trustworthy car can be called "fine."

If this meets your definition of a fine car and you want it, there's nothing in your way. For this description is right off the Pontiac score sheet—a short but perfect picture of this big, powerful, future-fashioned car. And Pontiac's prices fit comfortably into anybody's new-car buying plans!

Come in for the rest of the reasons why this is the fastest-selling Pontiac in history—such as the inside story of America's most modern and efficient automotive power plant, the sensational Strato-Streak V-8. And get the trade-in appraisal this great success permits. We're sure we can prove that now's your time to move into the fine-car class!

THERE'S NO POWER LIKE STRATO-STREAK POWER!

Here is the heart of Pontiac's terrific performance—the all-new, ultramodern Strato-Streak V-8! This masterpiece of engine design will deliver up to 200 horsepower with Pontiac's 4-barrel carburetor, an extra-cost option. Come on in, take the wheel and see what Strato-Streak really means!

C. & S. Equipment Company

"like having another person in the kitchen!"

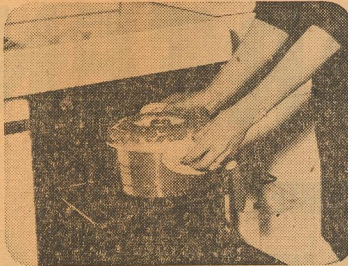

says Mrs. C. E. McCOY
GOLF COURSE ROAD
SLATON, TEXAS

"Baking in my electric range is so easy. Safe and clean, too." Reddy Kilowatt, that "extra person" in Mrs. McCoy's kitchen comes in on a clean copper wire. He's flameless and fumeless, too, so both safe and cool.

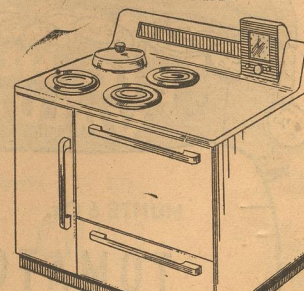

"No more cake failures with my accurate automatic electric range oven." Reddy watches your oven for you because electric range heats are accurately pre-set. Ovens are completely insulated — on all six sides — which means all the heat is used to bake the cake — not the cook.

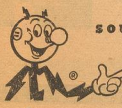

"There's no comparison — electric cooking gives perfect results every time." The good cook? She becomes a better cook when she uses an electric range.

"Keeping my family happy is no problem with cakes like this from my new electric range." Happy living? Of course, it's electric.

See your Reddy Kilowatt Dealer soon and see for yourself, that the best—the modern — way to cook is electric.

WALTER ROGERS

WASHINGTON NEWSLETTER

Washington was completely wiped out the map last Wednesday. This should have stopped some of the confusion, but according to the newspaper reports, it merely added to it. The trouble lay in the fact that many in the Capitol City refused to admit that they had been completely obliterated. Generally speaking, they went blithely on their way and treated the whole proposition in a more or less jocular vein. The news stories were serious to a degree but most of the writers couldn't withstand the temptation of treating humor with them. One good example was a news story in a local paper that drew a verbal picture of how the long black Cadillac used by the Attorney General "ZOOMED" out of the underground garage below the Justice Department, "ZOOMED" down by the corner, where the Attorney General, who had "ZOOMED" from his office to the same corner, "ZOOMED" into the Cadillac, and the Cadillac "ZOOMED" to his hide-out. The story, however, did not contain any information as to when and if he was going to "ZOOM" back to his office and get to work.

Most of the others left town at a more moderate speed and without so much fanfare and trumpet blowing. That is, those connected with the Executive Branch of the Government. Many of the columnists made no effort to hide their amusement as to what was going on incident to this operation. Some of them were rather humorous, while others were caustically critical. Even the editorials in the local papers

were more or less apologetic. Congress was not included in the invitation to evacuate, but it is generally felt that the failure to include Congress is not necessarily indicative of the feeling of the Executive Branch toward Congress. Everything was normal on Capitol Hill during the entire festivities. At the time the super-atom bomb devastated the city and all the surrounding countryside, Congress was debating a resolution to investigate the Federal Reserve. The debate was so heated and intense that the explosion was not even heard on the Hill. However, word must have reached the Chamber before the vote was taken because the resolution failed. It was worded around that some members actually believed that the downtown offices had been wiped out and saw no reason for investigation of something that wasn't there. The whole performance did prove one thing: You can't stop Congress from talking about investigating, even with an atom bomb.

Our biggest objection to the evacuation was that every time we tried to get information from the departments, it seemed that the boys with the knowledge had been evacuated. This even included some witnesses who were supposed to appear before my subcommittee on Mines and Mining.

Actually, a great deal more attention should be paid to Civil Defense, especially in the metropolitan areas of the East and Middle West. The problem, however, does not lie in the realm of trying to evacuate people from cities. If any foreign power decided to set off a devastating bomb in any of our metropolitan areas, they wouldn't do it by airplane. The citizens in those areas would have little, if any notice. In Washington, for instance, there are a number of embassies that

are foreign soil insofar as our government is concerned. Any one of these could be employed as a situs to assemble an explosive agent that could practically wipe Washington off the map. No notice of any kind would precede such a catastrophe.

If the vehicle carrying the bomb was a guided missile, the chances are that it would be a matter of minutes between the notice of its approach and its explosion. When we assure that an enemy of this country is going to employ an airplane to attack our Capitol City, we are simply underestimating our enemies. All of them know the extensive and practically complete defenses that we have set up. They realize the small chance that they would have of getting to their target by such an approach.

One fellow was overheard to say that an enemy would not have to bomb this country. All he would have to do would be to run his airplanes in and out of our radar system. Every time the alarm was set off all of the cities would be evacuated. In this manner, the enemy could soon run us to death.

Adjournment

Everyone is trying to pick a date for adjournment. It ranges from July 15th to October 1st. Present indications are that we will get out sometime during the middle or latter part of August. We hope it is soon. The kids are anxious to get home and so are their mother and father.

Mr. and Mrs. Will Wright visited Mrs. Wright's parents, Mr. and Mrs. Elmer Smith of Tucumcari, N. M. over the weekend.

Mosley; and if any or all of the above named parties are deceased, their heirs, their unknown heirs and legal representatives of each and all of them; their unknown heirs and legal representatives of each and all of them; their unknown spouses and any and all persons owning or claiming any interest in the property hereinafter described, all of who are DEFENDANTS; Greeting:

YOU ARE HEREBY COM-

MANDED to appear before the Honorable District Court of Castro County, Texas, in the Court-house thereof in Dimmitt, Texas, at or before 10:00 o'clock A. M. on the first Monday after the expiration of 42 days from the date of issuance of this citation, same being the 18th day of July 1955, then and there to answer in writing Plaintiff's petition filed in said court on the 1st day of June, 1955, in this cause numbered 2223 on the docket of said Court and styled, Greer H. Estes Post No. 445, American Legion, Dimmitt, Texas, vs. Mrs. M. B. Fowle, et al, a brief statement of the nature of said suit being as follows:

Suit in statutory form of trespass to try title, and for costs by Greer H. Estes Post No. 445, American Legion, Dimmitt, Texas, acting herein by and through its trustees Thos. F. Bice, Earl Lust and Edgar Ramey, Plaintiffs, against those persons who are first named in this citation and to whom it is directed, as Defendants, and the unknown spouses and heirs and legal representatives of the said named persons and each of them, the names and residences of whom are alleged to be unknown to the Plaintiffs, the Plaintiffs suing for title and possession of the following described

suit, ed in Castro County, Texas, to-wit:

Lot Nos. One (1) and Two (2), Block No. One Hundred Sixty-three (163), Original Town of Dimmitt, Castro County, Texas, as shown by recorded map and plat.

Plaintiffs allege that they are entitled to the title and the possession of said property, claiming under the five, the ten and the twenty-five year statutes of Limitations, and the Plaintiffs further pray that the cloud cast on the title to the property above described by Defendants be removed and said title vested in the Plaintiffs all as is more fully shown by Plaintiffs' Petition on file in this Court.

The Officer executing this process shall promptly serve the same according to law and make due return as the law directs, and if this process be not served within ninety days from the date of issuance, it shall be returned unserved.

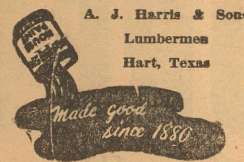

ISSUED AND GIVEN UNDER MY HAND AND SEAL OF SAID COURT at office in Dimmitt, Texas, this 1st day of June, 1955. (SEAL)

PRESENTS
INTERESTING FACTS ABOUT TEXAS

STATE SEAL

The present Texas seal was first adopted by the Republic of Texas in 1839. The Seal of the State has a star of five points encircled by olive and live oak branches, and the words, "State of Texas."

Texas Viewpoint

In
Washington

By PRICE DANIEL
U. S. Senator

Literally hundreds of Texas farmers have been in Washington this year on various legislative proposals and sightseeing tours. The latest visitors were here for the annual meeting of the "Flying Farmers." Twenty Texas members of this group and their families flew their own planes to Washington and joined flying farmers from all over the nation for their annual business sessions and tour of the Capitol. They were entertained with coffee at the Speaker's dining room by Congressman Olin Teague and other members of the Texas delegation. Fred Tripplett of Hillsboro is president of the Flying Farmers Association, and Miss Ama Lee Jameson is secretary.

Earlier 160 Texas farmers and ranchers stopped in Washington on the sixth annual farm and ranch study tour sponsored by station WFAA of Dallas. We joined other members of the Texas delegation in meeting this group at the railroad station for a 7:00 a. m. breakfast and then gave them a personally escorted tour through the Capitol. Murray Cox, radio farm director of WFAA, was in charge of the party. They had already toured Indiana farms, Purdue University research programs, and Richmond, Williamsburg and Jamestown, Virginia. From Washington they went to the New Jersey farming area, Atlantic City and Philadelphia, New York and then to Bermuda.

Hurricane and Tornado Warning System

Last week we co-sponsored an amendment which would provide a system of radar station throughout the country for the purpose of better detection and forecasting of hurricanes and tornadoes. Fresh on our memory is the disaster in Waco in 1953 caused by a devastating tornado. This system would establish throughout the country 55 long-range radar stations to track hurricanes, tornadoes and other severe storms to permit adequate preparation and a consequent reduction in damage. The number of stations to be located in Texas is still restricted information. However, it can be revealed that the system should

be adequate to prevent at least some of the past damage and to save many lives.

Texas is second only to Kansas in the number of tornadoes which have occurred from 1916 through 1954. We have had 666 tornadoes which have resulted in approximately 804 deaths. The total property damage from tornadoes in Texas for this period amounts to over \$88 million, with an average annual damage of well over \$2 million. The system of tracking hurricanes, tornadoes and other severe storms on radar has been used to advantage by the Air Force and other armed services. You are all familiar with the airplanes which fly out into the hurricanes to determine their strength by use of radar equipment in the plane itself. The cost of installing these additional weather stations will be relatively small compared with the saving in human lives and property damage.

Texan to Pakistan

Miss Aline McKenzie, who has been chairman of the Department of Home Economics at Texas A. and I. at Kingsville, was in Washington last week preparing for two years of service in Pakistan, where she will set up a home economics program. Miss McKenzie is immediate past president of the Texas Business and Professional Women's organization.

Last Sunday night sections of the Running Water S. C. D. received some high intensity rains, and in these sections much top soil was lost. Soil that can never be regained even with a hundred years of intensive conservation farming, for what man can destroy in one year it will take nature 100 years to replace.

There were elaborate structures washed out, and the only reason more soil wasn't lost was because the plow didn't go any deeper to loosen it up. This loss could have been prevented with proper engineering help which is free for the asking from your Running Water Soil Conservation District.

There are something better than 2 billion people in the world, and last night better than half of the world population went to bed hungry. If a woman wears shorts she is sinning, if a man takes drugs he is sinning but if a man destroys the land he isn't (Based on sermons presented on Soil Stewardship Sunday).

The bench leveled land on the R. L. Hayden farm showed no evidence of erosion whatsoever after the same high intensity rains.

In Pakistan she will hold the rank of professor with the University of Dacca. Miss McKenzie was selected through the A. and M. College program of cooperation with the Foreign Operations Administration. It was our pleasure to arrange here for a luncheon and visit with Ambassador Ali of Pakistan, who, by the way, is one of the biggest Texas boosters in the foreign diplomatic corps. His son is an admirer of Texas and a frequent visitor there. Many Texans are working in the foreign aid program in Pakistan. Ambassador Ali told the Texas delegation

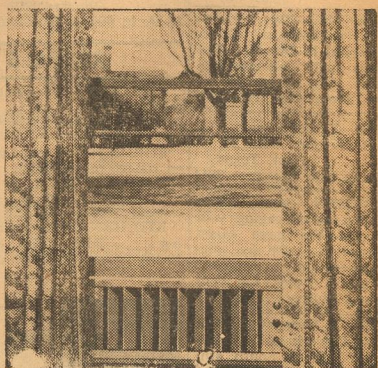

lunch last week of many similarities between the people of Pakistan and Texas and said that his country could be depended on to cooperate always with the United States and other free nations of the world.

Mr. and Mrs. Carol Rogers will move to Earth about July 1st where they will be associated with the Faust Clinic. Mrs. Rogers will accept a position as receptionist, and Rogers will be a laboratory technician.

Plan to Aid Low-Income Farm Families Is Set Forth in Long-Range Plan

Local initiative, interest and enterprise form the foundation for a proposed plan aimed at helping low-income farm families find ways to improve their level of living. The plan has been presented to Congress by President Eisenhower.

The President's long-range plan is based upon the concept that a permanent solution must begin with the goals set by the people themselves, and be attained through the cooperative efforts of all segments of the community and all levels of government concerned with the problem.

Recommendations included in the plan call for an expansion of

Federal and State services in technical assistance and extension work in areas of low resources; more intermediate-term credit from private and cooperative lending agencies for farm development; additional credit and technical assistance from the Farmers Home Administration; a Federal-State research program aimed at solving problems common to the low-income group; improved state employment services and encouragement of industrial expansion in regions of underemployed rural labor.

Also to begin pilot programs within the next school year to develop more educational and voca-

With All My Worldly Goods June is traditionally the month for weddings, and many couples will be taking marriage vows within the next few weeks. But, while a certain symbolic transfer of "worldly goods" is often associated with the wedding ceremony, under Texas law, the act of marrying another does not give you the authorization to take control of property.

Generally speaking, each spouse has the right to control and dispose of his or her own separate property. The separate property of a husband or wife includes property owned by either before marriage, and that which is acquired by either after marriage by gift or inheritance. Any other property acquired after marriage is presumed by law to be community property until the contrary is clearly proved.

Aside from ordinary community estate, there is a class of property known as the wife's "special community," which includes all the income from her separate real property, and probably the interest on bonds or notes, and dividends on stocks owned in her separate right. While the husband may have similar assets, the laws accord him no particular distinction from ordinary community property.

Although the history of the matter is somewhat confusing, it appears that under present day law the husband has control of ordinary community property; but control of the wife's special community property is reserved to her.

Certain restrictions are imposed upon both husband and wife in exercising such control. For instance, the husband legally disposes of community property in such a way as to defend the wife, nor can he sell the homestead without her signature and acknowledgment. And the wife's sale or mortgage of her separate real estate stocks and bonds is not valid unless her husband joins with her in the transaction—he must sign and execute the necessary legal papers along with her.

There are laws exempting the wife's separate and special community property from liability for debts incurred by the husband. Such liability is restricted to his separate property and the ordinary community property.

On the other hand, debts incurred by the wife in obtaining necessities for herself or the children bind all property belonging to either party, including the husband's separate property. For other debts which she has power to incur, only her separate and special community property are liable.

All of these distinctions emphasize the advisability of keeping proper records. By doing so the various classes of community and separate property owned by a

tional training opportunities in rural areas; improve health service and medical facilities in areas of need and trade area and community development program to increase incomes and raise living standards.

A U. S. Department of Agriculture report, upon which the plan is based, shows that 1.5 million farm families have a total cash income of less than \$1,000 a year.

Under Secretary of Agriculture True D. Morse has been named the major USDA official responsible for directing and coordinating the USDA's part in the program.

WIN A FREE TRIP TO HAVANA in COOK'S JINGLE CONTEST

Int-Up Campaign for Dimmitt y, Stores to Close Thursday

of Commerce secretary Glenn Youts said the city management had agreed to extend every cooperation during the drive. The City sanitation department will furnish trucks and drivers to pick up trash and chopped weeds.

The Town and Country Garden Club has scheduled a city-wide inspection tour Saturday and present prizes to those homes showing the most improvement and presenting the neatest appearances. An anonymous committee will do the judging.

"We've got a clean, neat city here," Mr. Youts said, "but it's going to take a little work on everybody's part to keep it that way. If everyone pitches in with paint brushes, hoes, rakes, and brooms we'll have a city we can be proud of."

Business establishments are especially urged to cut any weeds in front of and behind their locations on Thursday. Homesites especially should be cleaned up to remove hazards to playing children and to keep mosquitoes from breeding. Anyone having any particular clean-up problem are invited to call the Chamber of Commerce officer for assistance.

BUICK SPECIAL 2-Door, 6-Passenger Riviera, Model 46R.

They're making it the
**BIGGEST-SELLING BUICK
OF ALL TIME**

Maybe you'd better see for yourself
why folks just won't do
without this great car.

PEOPLE say success makes success—but we say people make success, and how!

It's people—just like you—who are snowballing Buick sales this year to an all-time peak.

It's people—just like your neighbors down the street—who are snapping up these gorgeous new Buicks almost as fast as we get them from the factory, and causing Buick production to climb to new levels every month, to handle the unparalleled demand.

And it's people—just about from every walk of life—who keep Buick sales soaring without letup—and

who have moved Buick more solidly than ever into the charmed circle of America's top best sellers.

But why? Why this phenomenal swing to Buick on the part of people who can choose any new car? Because Buick's a buy—definitely.

And because it's a bold beauty that catches the eye and holds it—that's for sure.

And certainly because it's supremely level of ride—and a sweet joy to handle—and a mighty bundle of high-voltage V8 power to melt away the miles and the high hills.

But most of all, because Buick this year is a performer like no earth-bound vehicle ever was before...

Because Buick—and only Buick—has the airplane-principled magic of Variable Pitch Dynaflo™ where you switch the pitch for big gas savings in cruising—or for whip-quick getaway response and acceleration when you need a sudden safety-surge.

It's sheer thrill, and pure pleasure, and a big boom to your gasoline budget—and you really ought to try it.

Come visit us soon—this week, at the latest—and see for yourself why this is the car folks just won't do without—the biggest-selling Buick of all time.

*Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.

Thrill of the year is Buick

LEGAL NOTICE

ORDINANCE NO. 138

AN ORDINANCE ESTABLISHING FIRE LIMITS; REGULATING BUILDING CONSTRUCTION AND ALTERATIONS; AND PROVIDING A PENALTY FOR VIOLATIONS.

BE IT ORDAINED BY THE COMMISSION OF THE CITY OF DIMMITT, TEXAS:

SECTION 1. FIRE LIMITS: The Fire Limits shall be divided into three (3) classes—Class I, Class II and Class III. The following shall be and are hereby declared to be the Fire Limits of the City of Dimmitt:

Class I: Beginning at the intersection of North Broadway and West Halsell; thence west to West Second Street; thence south to Andrews Street; thence west 1/2 block; thence south through the North-South alleys to the center of block 109; thence west through the East-West alleys to the center of block 126; thence south through the North-South alleys to the center of block 125; thence east through the East-West alleys to the center of block 110; thence south through the North-South alleys to Stinson Street; thence east crossing South Broadway to the North-South alley in block 60; thence north through the North-South alleys to East Bedford Avenue; thence west to East Third Street; thence north to the East-West alley in block 75; thence west 1/2 block to the North-South alley in block 75; thence north to Andrews Street; thence west to East Second Street; thence north to Dulin Street; thence west to the North-South alley in block 80; thence north through the North-South alleys to the intersection of said North-

Class III: The North-East quarter of block 89; North 1/2 of block 42; all of block 62; East 1/2 of block 61, 60, 59, and 58; all of blocks 57, 47, 48, 31, 32, 21, 22, 5 and 6; the North-east quarter of block 75; all of block 76; East 1/2 of block 80.

SECTION 2. CONSTRUCTION REQUIRED WITHIN THE FIRE LIMITS:

Class I: No building or structure of wooden, ironclad (whether on wood or metal supports), stucco, or veneer type construction, or any building whose walls contain wood supports, shall be permitted except as indicated in Section 3. The thickness of walls shall be not less than as given below:

Brick walls shall be not less than 12 inches thick, except that small one-story buildings with floor areas of 750 square feet or less may have walls 8 inches thick.

Reinforced concrete walls may be three-fourths of the thickness of brick walls, but in no case less than 8 inches.

Hollow building tile may be used as filler walls provided such walls be supported on reinforced concrete beams and footings, and by adequate reinforced concrete or brick pillars or columns spaced not more than 16 feet apart; walls to be not less than 12 inches thick. Small one-story buildings of less than 500 square feet floor area may have walls of 8-inch hollow building tile.

Solid stone walls shall be 4 inches thicker than brick walls for like construction.

Roof: Roof shall have steel beams, metal lath, built-up of fire proof material.

Class II: the walls shall be of

as repairs. Repairs to existing wood shingle roofs shall be limited to minor repairs and where exceeding 50% of the value of the roof, shall be replaced only with incombustible materials.

SECTION IV: PENALTY: any person violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction shall be fined in any sum not to exceed \$100.00.

Passed and approved this the 1st day of June, A. D. 1955.

Nazareth News

On Sunday, June 19, Mr. and Mrs. Bob Steffans celebrated their twenty-fifth wedding anniversary with a reception and dance.

A large crowd of friends and relatives from Slaton and Nazareth attended the reception. Due to weather conditions a meager crowd attended the dance. Among the out-of-town visitors were Mr. and Mrs. Joe Steffans of Littlefield.

Mr. and Mrs. John Steffans and family, Mr. and Mrs. Tony Steffans and family, Mr. and Mrs. Paul Hansler, Mr. and Mrs. Edgar Kalich and Alvin Kalich, all from Slaton, and Mr. and Mrs. Ed Virkemp from Idalou. Many Slatonites had to spend the night at Nazareth because of the sudden storm which came up Sunday evening.

Delia Davila, daughter of Mr. and Mrs. Pedro Davila, was bapt-

ized by the Rev. Fr. J. J. McElroy.

Delia Davila, daughter of Mr. and Mrs. Pedro Davila, was bapt-

ized by the Rev. Fr. J. J. McElroy.

Health Official Points Of Disease-Carrying "O"

Austin, June 9—It's been a great year for the "oak worms".

The thick-set, 2-inch long caterpillars with the stinging hairs have been out in force in Texas this spring—notably central regions of the state. Curious youngsters see the crawling leaf-eaters or low hanging limbs of oak trees or on lawns, pick them up and get ugly looking welts for their trouble.

When mother notices the welt or rash, her first worried reaction is to seek advice from health officials on control measures. The reaction is the right one, for State Health Department entomologists know "oak worm" character from one end of its stubby chassis to the other.

Here's what they say about the caterpillar:

As is the case with immature stages of several types of moths and butterflies, the oak worm has poison glands scattered over its body from which arises large hollow spines.

The tips of the spines readily penetrate human skin and break off, liberating some of the poison. When this happens a serious rash may be produced—especially in children.

Feathers, tur-

respect with the exception of the formalities, proclaiming the six working days of next week City-Wide Clean-Up Week. He has so proclaimed and we are happy to transmit. Now, therefore, be it resolved that everybody in Dimmitt clean their premises and when they are through with their own cleaning they are to gather at the site of the News publishing edifice and all together pitch in and help clean up the fourth estate. The latter part is the publishers proclamation.

—adace—

While reasonable diligence is to be shown in the clean-up effort each day of next week, special emphasis is being placed on the campaign for Thursday. What you haven't cleaned up by Thursday must be cleaned up on that day; and the cleaning up you fail to do Thursday must be done on Friday and Saturday. All stores, shops and banks will be closed Thursday afternoon so that all hands that don't play golf can help with the clean-up campaign.

—adace—

Members of the Dimmitt Lions Club are in the process of trying to gather enough courage to act ridiculous in a Negro Minstrel on the nights of Thursday and Friday, July 7-8. Shows of this type are always good for some laughs from the audience and usually add a little to the Lions Club Fund. Actually if you think the admission price is a little high you should trade places with one of the Lions and try to get the lamp black off. The annual Lions Minstrel is staged for your pleasure and the Club's benefit.

Mrs. Sandra Sue Richburg of Estelline has been here for the past two weeks for a visit in the home of her brother, Mrs. Lowell Richburg, and family.

PGC Tour Takes Dimmitt Boy Over United States

Ed. Note—Bobby Bradley, son of Mr. and Mrs. Jack Bradley of Dimmitt, is the author of the following story. Young Bradley, a senior 4-H Club member, won a place on the Producer's Grain Corporation talent tour for young farmers due to his excellent 4-H record. He was chosen to represent five High Plains counties on the tour.

By BOBBY BRADLEY

The Producers Grain Corporation Talent Tour was made available for eight boys and eight girls from Texas.

We started on the tour from Amarillo on Monday, June 13th. The first stop we made was the Producers Grain Corporation terminal elevator and feed mill in Amarillo. This elevator is made of octogen bins to preserve space.

The next stop we made was the largest hand dug well in the United States. This well is 32 feet wide and 109 feet deep and is located in Greensburg, Kansas.

On Tuesday, June 14th, we drove through the new municipal airport at Wichita, Kansas. This airport is one of the most modern ones in the United States.

We then visited the Wichita Bank for cooperatives. We heard a very interesting talk by the president of the bank on how the money was loaned and to whom it is loaned.

Wednesday, June 15th we drove through the grounds of Boy's Town, near Omaha, Nebraska. This place is very well kept and a beautiful place and affords a home for more than one thousand boys.

Next we visited the Omaha Grain Exchange and trading floor. Here we saw grain tested for moisture, dockage and protein content.

The next stop we made was the hot-spot detector system in Des Moines, Iowa. This system consists of a cable in the grain with a thermometer point every six feet. When the detector is turned on a chart in the office tells the temperature of the grain every six feet.

Friday, June 17th we visited the buffalo ranch in Afton, Oklahoma. At this ranch we saw the world's only trained buffalo in action. We also saw the champion Indian dancers of the United States. We were shown around this ranch by Mr. and Mrs. Barber Eubanks, former Castro County residents.

We then visited the Union Equity terminal elevator of Enid, Oklahoma. This elevator is the largest in the world with a 50-million bushel capacity. This elevator also had a fifteen minute devotional service every day on company time.

Next we visited the Co-op Creamery of Enid. This plant alone made more butter in 1954 than all of Texas combined.

Saturday, June 18th, we started home in our chartered bus. In Amarillo we visited Herphaven Reptile Gardens. This reptile garden has about 90 snakes, alligators, turtles, and swift foxes. In this tour we traveled over 1850 miles in six states. I would like to take this means to thank the Producers Grain Corporation directors for this wonderful all-expense paid trip and Mr. Kenneth Loyd for doing such a wonderful job of planning it.
