Sayman's Vegetable Wonder
Soap is the best soap for the
bath and toilet purposes ever
sold in Junction. It is an ab-
solutely pure natural soap con-
taining the root of the soap
plant, Nature's substitute for
soap. Is made without the use
of animal fats, fillers or coloring
matter and is matchless for the
skin, scalp and complexion. En-
dorsed by the medical profession
and public. Sayman's Healing
Salve is the best and purest that
money can buy. It is an anti-
septic salve possessing remark-
able healing powers and purify-
ing properties that we can recom-
mend to the most skeptical and
especially to those afflicted with
various forms of skin diseases
and old sores.

Price of salve or soap 25c per
box. For sale by

My Prize Steer, "Buck," And This Year's Corn Crop

Henry Exall, President Texas
Industrial Congress, gives the
following wholesome advice to
the farmers of Texas:

"If I should tell you that the
Dallas Fair had offered a premium
of \$500 for the best steer under
twelve months old to be shown
in October, and that I had pur-
chased a well bred fat calf on
January first, that would be just
the right age to be shown for
this price; that I intended feed-
ing him a carefully balanced
ration that is right in quality, as
well as in quantity, to produce
the very best results in growth
and development; that I would
give him every cure, and that on
the first of July I would say to
him: 'Buck I have done every-
thing possible for you, and your
wonderful development shows
the value of the treatment; you
weigh over nine hundred pounds,
which is very unusual for a steer
of your age; you are healthy, rug-
ged and strong. As I have fre-
quently said in your presence, I
expect to show you at the Fair
in October, and I hope and be-
lieve that I will win the prize. It
is true that grass is a little short
and water rather scarce; that
there are some ticks, mosquitoes
and flies to contend with, but you
are so well grown, vigorous and
strong that I think you ought to
be able from now on to take care
of yourself, so there is the past-
ure—go and do the best you pos-
sibly can and meet me on show
day at the Fair."

Under these circumstances
you would not expect Buck to win
that prize. It matters not how
well he had been handled up to
the time he was turned out to
fight for himself, but he would
have just as much chance to win
as you have to expect to raise a
good crop of corn by careless
methods. As a rule you have
probably prepared your land
fairly well. I hope that you have
plowed and harrowed it as often
as you possibly could during the
fall and winter so that the soil
has been thoroughly pulverized
and all plant food made available
and that the rains of the winter
may sink into the land and be
held for use the following season,
and that you have selected and
will plant the very best seed that
you can purchase, testing it care-
fully to see that it has a vigor-
ous, strong germination before
you put it into the ground. You
probably will cultivate it well up
to the middle or the last of June,
sometimes into July, about the
time that I turn Buck out, and
then you, in all probability, will
throw the earth to it and lay it
by and leave it to fight the hot
winds, the dry cracked earth, the
suckers and the weeds and get
ready for the Fair. The fact is
it will be hardly as well develop-
ed when you leave it as Buck
when I leave him. It will be only
about four feet high, and not
yet in silk and tassel, in fact its
life work will remain to be ac-
complished. It will have to form
the shuck, the cob and to grow,
perfect and ripen the grain. You
will abandon it at its most crucial
period and leave it to fight
these uneven battles alone.

Should you, under these circum-
stances expect to win?
If the great majority of the
farmers of this State would
change their methods, would
thoroughly and carefully plow
their lands in the fall and winter
at least one inch deeper than
they have heretofore been plow-
ing, harrowing carefully after
each plowing, plowing around in
stead of up and down the slopes,

so as to prevent washing and
erosion, draining when neces-
sary, working the corn as nearly
level as possible, remembering
that when the corn is a foot and
a half high and the rows four
feet apart the myriads of fibrous
roots will meet, and be torn and
bleed and sap the vitality of the
crop if you plow between these
rows deeper than two inches; if
after this period you would con-
stantly cultivate the crop with a
very short tooth harrow or a
sweep that does not go over an
inch or an inch and a half deep
keeping a constant soft mulch of
about that depth, not simply un-
til laying by time but constantly
until the grains are positively
hard on the cob; allowing no
sucker or weed to get a particle
of nourishment that should go
into the plant; if you will adopt
this method of cultivation you
will double the corn crop of this
State, just as surely as I would
win the prize if I did not turn
"Buck" out and "lay him by,"
but should continue his develop-
ment until October instead of
stopping in July."

Revival Meeting

Revival meeting is to be con-
ducted at the M. E. Church in
Junction, by Rev. M. J. Allen,
former West Texas Evangelist.
Date now set to begin, Friday
night, March 22. Everybody in-
vited to attend.

M. S. Nichols wants to figure
with you on that monument you
are thinking of buying. He rep-
resents one of the best com-
panies in the state. He is an old
hand at the business; traveled in
the work for years, and can figure
close and give you best prices
and terms on all kinds of mon-
uments, marble or granite. Iron
fencing best prices, best quality.
See him for anything in this line.

"Our part of the county is bad-
ly in need of rain," said Joe
Cloudt in conversation with The
Citizen reporter Monday. "Stock
are doing fairly well," he contin-
ued, "and the crop prospects so
far this year have been very
promising, more so than for sev-
eral years. If we can only get
a good rain now in the next few
days the small grain crop will be
fine; but we must have rain soon
to bring it out." While here Mr.
Cloudt kindly remembered that
it takes money to run a news-

Indian Killed on Track

Near Richell, Ill., an Indian went to sleep on a railroad track and was killed by the fast express. He paid for his carelessness with his life. Often it's that way when people neglect coughs and colds. Don't risk your life when prompt use of Dr. King's New Discovery will cure them and so prevent a dangerous throat or lung trouble. "It completely cured me in a short time, of a terrible cough that followed a severe attack of Grip," writes J. R. Watts, Floydada, Texas, "and I regained 15 pounds in weight that I had lost." Quick safe, reliable and guaranteed. 50c and \$1.00 trial bottle free at J. A. Heyman's.

We need that big irrigation ditch now under consideration for this county; we need a railroad and several other things, all of which are coming in time; but in the meantime we need to clean up this town.

Items From Noxville and James River

Guess everybody was ready for 1912 as everything has been so quiet here.

Lawn and Seth Whetstone and Mr. and Mrs. Whaley started Monday for Sanderson where they will make their future home. They have been here since 12 was visiting Mr. Whetstone's parents.

Seems that many are trying to have the lagrippe now, but none unable to get about.

Our schools are getting along fine.

There will be quarterly conference at James River schoolhouse Sunday, February 18. Everybody invited.

The young people had a pleasant hop at Buck Joy's, Friday night, and everybody had a fine time.

We do hope all parts of the country are not as dry as it is here; we certainly do need rain. Sleep and is good, but nothing for cows and horses.

W. C. BOWMAN LUMBER COMPANY

MENARD, ON THE RIVER BANK TEXAS.

The Texas Industrial Congress is introducing a new feature into its work this year which is being received with enthusiasm, particularly by the farmers of West Texas. Last year the Congress confined its prize offer to crops grown without irrigation, but it is now offering, in Class E, \$1000, divided into twelve prizes for the best yields of merchantable half-bushel or more maize grown upon two acres of irrigated land. The first prize in this class is \$300, second \$200, and for the ten next best results \$50 each. This is a free for all contest, being open to men, women, boys and girls.

Almost simultaneously with the public announcement of the offer applications to enter the contest in this class came from Brewster county, in the extreme southwestern part of the state, and from Hale county in the great plains section of west Texas.

Inquiries as to the prizes offered in the different classes are coming in in increasing numbers daily and full information and entry blanks will be sent to any one upon application to the Dallas headquarters of the Congress.

victims to stomach, liver and kidney troubles just like other people, with like results in loss of appetite, backache, nervousness, headache, and tired listless rundown feeling. But there's no need to feel like that as T. D. Peebles, Henry, Tenn. proved. "Six bottles of Electric Bitters," he writes, "did more to give me new strength and good appetite than all other stomach remedies I used." So they help everybody. No fake, no fraud, no foolishness. I mean just what I say, I'm closing out. If you are from Missouri I can "show you." I have my tailor along with me and any alteration needed on clothing bought from me will be made free of charge. Remember everything I have is for sale at a reduction. Good span of mule wagon and harness will be sold at bargain; I'm going into other business and desire to cash all I have at once. During the next few days will call on you and give you an opportunity to judge for yourself concerning the hundreds of bargains I'm offering. Watch for me.
