Number 38

Lynn Pioneers Held Their Annual Meeting Tuesday

The Old Settlers Reunion here Tuesday was a gala occasion for the old-timers who came to this county or were born here more than thirty years ago. Mrs. Frankie Wells, the secretary-treasurer, declared that it was the best attended meeting of the pioneers that has yet been held here, though there is some disagreement on that point. In addition to the home-folks there were many visitors here from neighboring counties, Lubbock, Terry, Dawson, and others. Some came from as far away as the mountains of New Mexico and even from southern California. Numbers of farmers and their families who otherwise would have been present were too busy with their crops, however, to attend.

There were many happy meetings of persons who had known one another well in the days long gone but had not seen one another for years. The hours of greeting among old-time friends and of merry conversation was perhaps the happiest feature of the occasion. Nevertheless, a program was rendered which was greatly appreciated and enjoyed.

Judge George R. Bean, the dean of Lubbock lawyers, had been booked for an address at 11 A. M., and he delivered the goods to the entire satisfaction of his audience. Judge Bean had been a resident of Lubbock for several years when Lynn county was organized in 1903 and was county judge of Lubbock. (Continued on last page, Sec. 1)

Series Of Serious Highway Crashes

There was a series of serious crashes on the highways of Lynn county over the week-end which practically demolished several vehicles, but luckily resulted in no loss of life or serious bodily injury although a number of persons were painfully hurt.

The first of the crashes occurred on Saturday night when a Lubbock man driving a Nash car in which his wife and another person or two were occupants undertook to pass a car going in the same direction on the highway near the Lynn-Lubbock county line and crashed head-on into a Buick car driven by a Lamesa woman coming from the opposite direction on the highway. With her in the car were her children. The Nash was almost completely demolished and the Buick badly damaged but none of the occupants was seriously injured, though some of them sustained minor bruises and abrasions. Members of the highway patrol filed a complaint against the driver of the Nash car for driving recklessly on the highway.

On the same night, or rather in the early hours of Sunday morning, a Chrysler car being driven by Leonard Nash at a rather high speed turned over four or five times on the highway near the old Silver Star filling station two miles north of Tahoka but finally stopped with its four wheels on the ground. It had been battered and twisted into a shapeless mass of junk, however, and was rendered practically worthless except as so much scrap iron. Nash was thrown from the machine during its catapaults through the air and was badly bruised and shaken up but fortunately was not critically injured.

The third near-tragedy occurred on Sunday night, after midnight when Bobby Boyd, a mere youth, drove his Chevrolet from a side street onto highway No. 87 near the funeral home and crashed into a pickup filled with Negroes coming south. Some of the colored folks were painfully injured and one little child, it is said, had one finger clipped off and required hospitalization. Others suffered from shock and bruises but no serious injuries were sustained. Both vehicles were badly damaged.

On the preceding Thursday night a youth from Dublin, Texas, was arrested here on a charge of drunk driving. He was placed in jail and was still behind the bars early this week.

Legion Auxiliary Elects Officers

At a regular business meeting Monday, June 23, the following officers were elected by the members of American Legion Auxiliary, Marion G. Bradley Post No. 250, to serve for the coming year: President, Doris Rutherford; First Vice President, Mable Gurley; Second Vice President, Aileen Pentecost; Third Vice President, Mary M. Stewart; Secretary, Dorothy Brown; Recording Secretary, Betty Sue Wilson; Treasurer, Mary Ellen Gattis; Chaplain, Odell King; Historian, Elsie Stout; Sergeant at Arms, Fern Leslie; and Reporter, Ruth Walker.

These officers will be installed in August.

Legion Names New Officers

At its regular meeting Monday night, the Marion G. Bradley Post of the American Legion elected officers for the ensuing year.

Perry W. Walker was elected Post Commander, succeeding Clint Walker, who has served the past year.

W. W. Stout was elected first vice-commander, succeeding Charles Townes.

The new second vice-commander is R. W. Rutherford, taking the place of Tom Short.

Eldon Carroll was re-elected adjutant.

As Historian, Charles Townes succeeds Charles Stewart, and Jess Gurley was re-elected Custodian.

"Red" Brown becomes sergeant-at-arms in place of Calvin Edwards. Joe Bob Billman succeeds Marvin Bentley as chaplain.

The new officers will be installed in July.

In making the report of these proceedings, Clint Walker stated that the membership of the Marion G. Bradley Post is now 200, the largest in the history of the organization.

In fact, he says that the Post here is one of the largest in the entire district composed of 25 counties. Only Lubbock, Plainview, Brownfield, and Colorado City have larger posts than Tahoka.

The district is identical with the Nineteenth congressional district.

Pioneer Of West Died Saturday

Mrs. J. T. (Abbie) Whorton was called to Sweetwater last week end by the death of her grandmother.

The grandmother, Mrs. Joe Nunn, aged 83, and a pioneer of West Texas died Saturday at 1:20 o'clock. Burial was Sunday at that city. She is survived by 10 of her 12 children, 32 grand children, and 17 great grandchildren.

Mr. and Mrs. Nunn came to Nolan county in 1880, and at times ran cattle in this section. A number of Tahoka early settlers knew them well. Mr. Nunn died in 1913.

BOYS GO TO CAMP; GIRLS RAINED OUT

More than twenty Tahoka boys attended the Boys' encampment in the Palo Duro Canyon some 20 miles east of Happy Monday night, Tuesday, and a part of Wednesday of this week. Altogether, several hundred boys were there from the twenty-odd counties comprising district No. 9. The services were greatly hampered, however, by a torrential rain that fell Tuesday night. On account of the rain, the Baptist pastors and leaders at the camp on Wednesday morning called off the girls encampment that was to have followed the encampment of the boys, and it is to be held along with the general encampment set for the last days of July.

Most of the Tahoka boys were conveyed to the encampment grounds by L. D. McKee in his truck, and Rev. Levi Price and A. L. Smith had charge of them at the camp. They were returned to their homes here on Wednesday afternoon.

T. E. Dikes, formerly a resident of this county, was here the first of the week to visit his son, Harlan Dikes.

All State and County Taxes are delinquent July 1, 1947.

Hail And Sand Damage Crops, Prospects Good

While crop prospects over the county are generally excellent as this paragraph is being written early in the week, yet a few crops in a number of different localities in the county were destroyed or badly damaged by hail last week.

In fact, quite a large area in the West Point community was swept by a storm on Thursday night of last week that wiped out many crops and badly damaged others. Chief sufferers included Bill Barham, Newt Barham, Roy Taylor, John Fulford, Rainey Parks, Sam Bartley, Ben Moore, John Jackson, Tom Hale, Leo Kennedy, and others. Another rain and hailstorm late Monday afternoon added to the damage done previously.

A strip of territory lying north of the roadside park four miles north of Tahoka and embracing a number of farms was visited by hail early last week and by a heavy rain and some hail later in the week that either destroyed or badly damaged many acres of cotton. Among those hit the hardest were the crops of G. B. Sherrod, Ernest Herring, Henry Douthitt, and others. In the New Lynn community (Continued on last page, Sec. 1)

Three Lakes And West Point Join Tahoka District

Due to the fact that there was practically no opposition, a very light vote was cast on Thursday of last week in the school consolidation election, the proposition being to consolidate the Tahoka, West Point, and Three Lakes districts.

The proposition carried in all the districts, the vote in the Tahoka district being 32 to 6 in favor of consolidation; at Three Lakes, 13 to 2; and at West Point, 9 to 0; a total of 54 to 8.

While the result of the election brings comparatively few additional scholastics into the district, practically all of whom had been transferred into the district for the past several years any way, it does greatly enlarge the area of the district. West Point contained 70 sections of land and Three Lakes 32 sections.

Other districts brought into the consolidation by elections since the first of this year include Redwine, Dixie, and Edith. The consolidated district now contains 308 sections of land. Broken up, they are as follows: The old Tahoka district, 124 sections; Redwine, 33; Dixie, 24; Edith, 20; West Point, 70; (Continued on last page, Sec. 1)

Prospects Good For Complete System County Farm-To-Market Paved Roads

A representative of the News dropped into the county court room Monday and found the county judge and two other members of the commissioners court discussing road matters.

While the roads being constructed are costing a little more than was expected when the bonds were voted, due to the increased price of materials, yet the county judge and commissioners were very much pleased as to the outlook for the completion of the projected Lynn county farm-to-market road system practically on time, or at least without any considerable delay.

Asked as to whether or not the county would profit immediately from the new law recently enacted by the legislature providing for the use of state and local funds jointly on the basis of 25 percent to be furnished by the State and 75 percent by the county up to a certain amount each year, Judge Garrard replied that while this came too late for our county to profit on the roads already built or contracted, the county might profit on roads hereafter built in accordance with road projects approved by the State.

Furthermore, he pointed out that under recent legislation, Lynn

county would get a much larger share of the gasoline tax, for road construction, than it has ever gotten heretofore. By the issuance of a comparatively small amount of warrants based on the increased available funds, he felt confident that the entire Lynn county road system as originally planned could be completed without any break or cessation of road building, and that eventually all the remaining gaps could be filled in—such as the gap between Dixie and Petty and the gap between West Point and Lakeview.

He also called attention to the fact that under the provisions of the new 25-75 percent law, the state will also take over the maintenance of all roads built under this plan. The judge thinks that the road-building program will continue in this state and in Lynn county until, within seven or eight years, we will have a complete farm-to-market road system, filling in all the gaps and covering the county like a screen—a system that should satisfy the most fastidious in the matter of paved and hard-surfaced roads.

In the meantime, the judge wishes to assure the people that he (Cont'd. on page 6)

Black Cats Will Meet Slaton Here

Last Thursday, June 19, the Tahoka Black Cats lost to Slaton on the Slaton diamond 4 to 2.

On Sunday the Black Cats trimmed Brownfield again to the tune of 23 to 9.

Sunday afternoon the Black Cats will play the Slaton team here on the local diamond with the game starting at 3 p. m.

Early Lee Lawson says that this should prove to be a hot ball game and that everyone is invited to attend.

Warning Is Given On Atomic Power

Prof. Paul Elliott, physicist now on the faculty of Texas Technological College, held his audience almost spell-bound during his address on "The Atomic Bomb" at the Tahoka Rotary Club ladies night banquet, Thursday night of last week at the Legion Hall.

Prof. Elliott told briefly of his part in production of the bomb, but detailed the history of research leading up to its development, explained something of what the bomb is, its inconceivable power, and its potentialities for destruction in words a layman could understand.

After emphasizing that there is absolutely no defence against it, and can never be, and after pointing out that regardless how secret we keep our knowledge of it, the other nations of this world will have the atomic bomb secret solved in a very short time. Our only chance of existence, he declared, is to learn to live with our brother nations. We must make our peace plan work, and to make it work we must be more tolerant, and less suspicious of our world neighbors, he thinks, for suspicion and distrust can lead to another war in which the nation which makes the attack will without doubt be the winner.

President L. C. Haney presided at the banquet, and Vernon Brewer introduced the guest speaker.

Jack Strickland Here For Reunion

Jack Stricklin, editor of the Terry County Herald, Brownfield, and the dean of South Plains newspapermen, was here Tuesday in company with Robert Noble attending the Old Settlers Reunion, and while here paid a fraternal call to The News office.

Jack recalled that in the early days Brownfield got her freight at the Tahoka Santa Fe station. In fact, much of his printing equipment was shipped by railroad to Tahoka, and then hauled overland to Brownfield, Tahoka having received the rail line in 1910, some years before a line was built into the capitol of Terry.

COMPLETES TRAINING

Pvt. Billy Minchey, son of Mrs. Ted Terry of Tahoka, was graduated from the Basic Hospital Technicians Course for enlisted technicians at Medical Field Service School, Brooke Army Medical Center, Fort Sam Houston, Texas.

Congratulations . .

Mr. and Mrs. Eldon Carroll on the birth of a daughter weighing 6 lbs. 2 1/4 oz. at 3 a. m. Monday in West Texas Hospital. The father is employed in the post office here while the mother is a daughter of Mr. and Mrs. Oscar Roberts.

Mr. and Mrs. Kermit Brown on the birth of a son weighing 7 lbs. 11 1/2 oz. at about 8 o'clock Saturday morning in the West Texas Hospital, Lubbock.

Mr. and Mrs. Crawford Holtzclaw of Wilson Rt. 1 on the birth of a son weighing six pounds 11 1/2 oz. at 8:45 Saturday morning in the West Texas Hospital. Mr. Holtzclaw is a farmer.

Mr. and Mrs. Earl Cummings of Wilson on birth of a daughter weighing 7 pounds 8 ounces at 5 o'clock Monday afternoon, in Lubbock Memorial Hospital.

Mr. and Mrs. J. R. Dunlap, Tahoka Rt. 4, on the birth of a son on last Sunday in the Tahoka Clinic. The little fellow has been named Kenneth Ray.

School Addition Bond Election Called July 5

At a meeting of the board of trustees of the Tahoka Consolidated Independent School District Monday afternoon, and upon a petition signed and presented to the board by the requisite number of property taxpayers in the district, an election was ordered to be held on Saturday July 5, to determine the following propositions:

First, whether or not the said board of trustees shall have the power to levy, assess, and collect, for the year 1947 and annually thereafter, a tax upon all the taxable property within said district for the maintenance of the public free schools therein of and at the rate of not exceeding \$1.00 on the Hundred Dollars of assessed property valuations therein until discontinued by law. This rate already applies to all the districts affected by the recent consolidation elections but West Point, and this election is necessary by reason of the fact that West Point's rate has been 75 cents.

Second, whether said board of trustees shall be authorized to issue the bonds of said district in the sum of \$30,000, payable serially, bearing interest at the rate of not exceeding 3 percent per annum, for the purpose of erecting, constructing, repairing, and equipping a public free school building or buildings of wood material, and purchasing a site or sites therefor, levying and collecting taxes sufficient to pay the interest and annual principal payments thereon, said tax together with the maintenance tax never to exceed one dollar on the hundred dollars valuation.

Third, whether or not the new consolidated district shall assume payment of the bonds outstanding against each and all of the districts heretofore existing separately. (Continued on last page, Sec. 1)

Mrs. Jno. Slaughter Died Wednesday

Mrs. J. B. Slaughter of Post, 88, owner of the U-Lazy-S ranch lying in western Garza county, died at 2:15 Wednesday morning in the West Texas Hospital, Lubbock. She had been ill for a long time but last entered the hospital on June 2.

Mrs. Slaughter, whose maiden name was Isabella Mastin May, was born in Dallas county in 1858. She was married to John Bunyun Slaughter in 1888 and came with him to a Crosby county ranch near Blanco Canyon to reside. They accumulated much ranch property and later located near Post. Mr. Slaughter died in 1928. A son, Jay Slaughter, well known here and throughout West Texas, met a tragic death a few years ago. Survivors include a daughter, Mrs. Mamie Lott of Coral Gables, Florida, a grandson, and four great-grandchildren.

In recent years, Doug Morrill, father of Mrs. Winston Wharton of Tahoka, has been manager of the Slaughter Ranch near Post.

Funeral services were conducted Thursday in the First Methodist Church of Post, of which Mrs. Slaughter had long been a devoted member. The body was conveyed to Fort Worth for burial.

HAMILTON WHITEFIELD VOWS TO BE READ HERE THURSDAY

Mr. and Mrs. Ed Hamilton are announcing the marriage of their daughter, Miss Eddie Lois, to Charles Whitfield, Jr., of Roswell, N. M., the ceremony to take place in the First Baptist Church, Tahoka, Thursday, July 3, at 5:00 p. m.

All friends are cordially invited to attend the wedding.

Lt. and Mrs. Clarence Shambeck of Fort Walton, Florida, were here last week end visiting his mother, Mrs. Louis Shambeck. Lt. Shambeck re-enlisted last year and now has about seven years of service. He files a B-29 Superfortress.

All State and County taxes delinquent July 1, 1947.

Paul M. Fuels of Wolfe City, newly-elected president of the Texas Press Association, is shown at left receiving from Walter Humphrey of Fort Worth, retiring president, the golden diamond-studded key to the Texas Treasure Chest at the State Fair of Texas upon his election by the press group last week in Amarillo. The golden key, which is being passed down from president to president, will be used 39 years hence to open the treasure chest on the 100th anniversary of the State Fair. Embedded in 1938 in a monument to the founders of the State Fair, the chest contains historical documents and copies of more than 100 Texas newspapers. Mr. Fuels is publisher of the Wolfe City Sun and Mr. Humphrey is editor of the Fort Worth Press.

CONCERNING SAUL

Questions asked and answered by a friend:

1. Why did the Lord appear to Saul if it was not for the purpose of saving him? Let the Lord answer. "I have appeared unto thee, to make thee a minister and a witness of the things which thou hast seen." Acts 26:15-18. If Paul had never seen Jesus after the resurrection he could not have testified as he did in 1 Cor. 15:3-7. Read it.

2. If Saul was not saved at the time he believed Jesus to be Lord, what does such passages as Jno. 3:14-16; 8:24 teach? I am glad to have this question. I beg you reason with the Lord, by reasoning on what the Lord has said, not only on these passages but on all the Lord has said in the Bible. Let me say first, "A passage may teach that salvation depends upon a certain condition, and yet not teach that salvation depends upon said condition—Alone." Example—"Except ye repent ye shall all likewise perish." Lk. 13:3-5. No one concludes from such passages that the sinner is saved by Repentance Alone. Paul taught that he with others were justified "By Faith". Rom. 5:1. Paul says the faith that avails is, "Faith that works by love." Gal. 5:6. John said, "This is the love of God that we keep his

commandments." 1 Jno. 5:3. Now put together what Paul and John said and we have,—"Faith working by love availing," or Faith moving us to obey God's commands brings us the blessings that are predicated upon faith. Learn from the Holy Spirit how blessings are received "By Faith". By faith Noah prepared an ark to the saving of his house, Heb. 11:7. Noah's faith caused him to do what God commanded him to do. Gen. 6:22. By Abraham was blessed, Heb. 11:8-19. Abraham's faith caused him to do what God commanded him to do. Gen. 22:1-18; Heb. 11:8&17. James refers to this very case and says, "we see how then a man is justified by works and not by faith only", Jas. 2:21-24.

Neighbor, there are many passages that teach that faith is necessary to salvation but there is not even one passage that teaches a sinner is saved by "Faith Only". Get the man that so teaches to sight the passage and please send it to me, if he thinks there is such passage.

3. When was Paul justified by faith? "Paul and others were blessed with all spiritual blessings in Christ." Eph. 1:3-7. Read the passage. Read Rom. 6:3-4 and let Paul tell you when he and others began to walk "In newness of life and when and how they got into Christ where all spiritual blessing are". Neighbor, read your New Testament for God's plan of salvation to us. Heb. 1:1-2; Mt. 17:1-5; Lk. 10:16; Jno. 16:7-13; Acts 2:1-4. Attend the services of the church of Christ.—Price Bankhead.

Mr. and Mrs. J. L. Reese have returned from a ten days visit with relatives at San Angelo, Gatesville, and other points in Central Texas.

Mr. and Mrs. Howard Blankenship and four children of Galveston have been here the past week visiting her parents, Mr. and Mrs. Lee Tomlinson.

O'DONNELL RODEO NOW IN PROGRESS

The rodeo sponsored by the O'Donnell American Legion Post and the Roping club of that city is under way there today and will continue on through Saturday and Saturday night.

The first performances of the rodeo were started yesterday. The show will be reeled off with speed, snap and action and is claimed to be the best in the way of entertainment that has ever been held in O'Donnell.

There will be many thrilling events including Junior Boys' Calf Riding, Saddle Bronc Riding, Calf Roping, Legion Cow Riding, Brahma Bull Riding, several Cow Girl events and Wild Cow Milking.

A parade yesterday afternoon at 7:30 preceded the opening performance of the show which started at 8:30. The show tonight will also start at 8:30. On Saturday afternoon the performance will begin at 2:30 and the closing performance that night will start at 8:30.

There are seats to accommodate 600 spectators and plenty of parking room also around the arena for those who wish to remain in their cars.

There are several contestants entered in the events by the American Legion Post for their events in the performances.

Tennessee has become the 12th American Legion department to record an all-time high membership for 1947, with an enrollment of 69,764.

MODERN METHODS IN HAYMAKING

CALL FOR

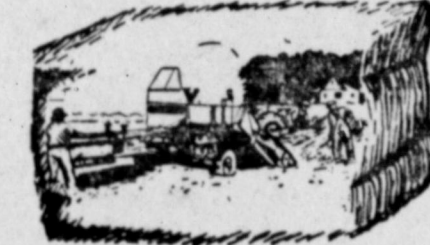

The Bale-O-Matic

The new Bale-O-Matic picks up the hay, slices and ties it into firm 40 inch bales of a density and weight pre-selected by the tractor operator—the only manpower required. Bales are tied with two strands of steel wire while under compression and are counted as delivered from the rear of the machine.

Outstanding Features: Bale chamber, plunger and packer head and arms are all of steel welded construction. Knife steel shear blade assures easy separation of uniform layers of hay. Hardened cut steel plunger and counter shaft drive gears run in enclosed oil bath. Roller chain driven drive shafts turn on roller bearings or bronze bushings and are equipped with safety spring release clutches. The light draft Bale-O-Matic is mounted on pneumatic wheels and is powered by a 4 cylinder "V" type air cooled engine.

For complete information on the many outstanding features of the Bale-O-Matic and other Modern M.M. MACHINES and TRACTORS, see your M.M. Dealer. M.M. Modern Machine Tools for your farm factory means extra profits for you. MODERN M.M. MACHINERY IS WORTH WAITING FOR—BUT GET FACTS NOW.

Land Of Milk

—AND MONEY!

There's no "three-cornered stool" in the dairy business today. Families used to "keep a cow" for the babies, but cows bring in BIG money today for many folks in our area. It's truly a "land of milk and money." Butter, cheese, evaporated milk—and all of the other dairy products that come out of our territory are making money for thousands of farmers.

We have so much confidence in the dairy industry—and all other industries we serve—that we are investing \$5 million dollars in a building program. This expansion program in our territory will bring more dependable electric service to home, farm and industry and better living—electrically—to everyone!

By: The House Cat

Hi, Gee I wish I was an animal with two legs instead of four. Know what I would do? The first thing I would do is to go to the Rose or Wallace Theatre and buy me a ticket so I could get one of those coupons on that slogan contest. I bet I could win it too. Now let me see, I would write something like this. It's Always Wallace Theatres for Me, 'Cause they give me the pictures I want to see. Now I ain't supposed to have much brains but thinking up things like that, come easy to me. It might be because I was born with grease paint in my blood. I have always been a house cat at the show houses. But if I were you then I think I would get the old grey matter to work and think up a slogan that would win that contest. I sure could use fifty dollars whether you could or not. The first thing I would do would be to go to one of those beauty salons and get me a shave, shower, shampoo and maybe a finger wave. Then with what I had left I would buy all the liver I could eat. I sure would live in style for awhile.

Oh, but then I forget about the two legged animals not wanting that fifty dollars. At least they don't act like it when they get their coupons and then when they get in the show throw them down on the floor. I think if I had a chance like that, then I would do something about it.

WHEAT HARVEST IN PANHANDLE EQUALS OIL BOOM

PERRITON, June 24.—Ochiltree county is a bedlam of activity as the harvest is getting underway and gaining momentum. Sheriff Bill Lance states, "approximately 2000 itinerant workers have migrated here in search of employment" . . . 40 trucks are parked around the courthouse square awaiting calls to go to the fields for wheat loads.

Ochiltree county is the first county in the country to record harvest scenes by way of pictures, endorsing \$1000 in prizes for the best shots on the harvest.

Perryton, hub of Ochiltree county, resembles an oil boom town of the early twenties . . . Combines are rolling in, trucks are parked along Main street, license tags read, Missouri, Oklahoma, North Dakota, Colorado, Nebraska, Wyoming; 16 states have sent combines.

Joseph A. Harmon 54, from Clever, Missouri, who started to follow the harvest in Duke, Oklahoma, is now here for work: "harvesting is quite a life," he mumbled. Harmon sleeps in his cab truck. He earns his living by hauling wheat to the granaries. His truck holds 200 bushels of wheat.

Clarence Backer, 43, from Redfield, South Dakota, has been farming for 29 years . . . He has a 12-man crew and 4 combines, 7 trucks and trailer houses in which men live . . . Backer, an old timer at wheat harvesting, this season started operations first at Quanah, Texas, then came to Perryton. From here he plans to tour to Springfield, Colorado, Idaho, Colorado, Redfield, South Dakota; and stop at Minot, North Dakota . . . Backer, who has visited the fields and spoken to farmers enroute south, stated, "Ochiltree has one of the best crops I've seen . . . the wheat prospects are good all the way down . . . we started cutting June 4th" . . . Backer estimates that it will be 30 or 40 bushels an acre in Ochiltree, and he can't see how they'll miss not having the record harvest.

Workers will receive, combine men down, \$3.00 per acre for first 15 bushels . . . 10c per bushel all over 15 bushels, which is \$4.50 to \$7.00 an acre; common laborers will receive \$8.00 a day and combine operators will draw \$10.00 to \$15.00 per day.

It's wheat harvest time in the Panhandle—but it looks like an oil boom had struck.

**SENATE VOTES TO CURB LABOR RACKETEERS**

The U. S. Senate Monday overrode the President's veto of the Labor bill by a vote of 68 to 25, a larger majority for the measure than had been claimed. It was a crushing defeat for the President, for he had not only pleaded with a dozen Senators privately to vote to sustain him but he had made a radio broadcast to get the people to bring pressure to bear on the Senate to sustain the veto and finally made an appeal to the Senate just before the vote was taken.

But his efforts proved to have little or no effect. Of those voting for the measure over his opposition, twenty were Democrats all from the Southern states, while only 22 Democrats could be mustered to sustain the veto.

It all shows that the Senate was in no mood to further pet and pamper the labor racketeers, and we believe that the members of the Senate and the House, which passed the bill over the President's veto by a vote of nearly 4 to 1, repre-

sented the sentiment of a vast majority of the people.

We are truly sorry that the President took the stand that he did. There is the suspicion that politics played a considerable part in his deliberations. Possibly he was seeking to head off Henry Wallace, who has Presidential aspirations and is strong with the labor unions. His effort to veto the measure and his scathing denunciations of it may have headed off Wallace and may have won for himself the support of a large part of the labor vote but it probably lost him more votes among the other elements of our population than he won from labor.

While his address to the people held up the measure as very vicious and objectionable, yet his objections were not impressive. To us his arguments seemed weak and groundless.

It will now be up to the Government to determine which is the stronger, the Government or the Labor bosses. Already many of the Laborites are striking in protest and defiance of the action of Congress. If they persist in this course, if they challenge the authority and power of the Government, there should be no compromise on the part of the Government in crushing the rebellion. The people of this country are in no temper to be left to the mercies of the labor racketeers.

JESTER VETOES LIQUOR BILL

We think that Governor Jester did the wise and righteous thing in vetoing the local option liquor bill recently passed by the legislature permitting a city or town or a justice precinct in a dry county to vote liquor stores and beer joints back into such municipalities and precincts regardless of the will of the people of the county as a whole. To allow this would practically nullify county-wide prohibition.

Thoughtless people sometimes argue that if a precinct in a wet county is allowed to vote itself dry, then a precinct in a dry county should be allowed to vote itself wet. They do not stop to figure out for one moment that there is a vast difference in the two propositions.

Suppose, for instance, that Lynn county as a whole were overwhelmingly wet and that liquor could be sold legally all over the county. Then suppose that the people of some incorporated town in the county, Wilson for instance, should decide that it did not want a liquor store or a beer joint within its corporate limits and should vote itself dry, that would not materially

affect any other portion of the county, for the people of the county could still get all the liquor they might want almost anywhere in the county except in the little village of Wilson. Even the people of Wilson could go to a beer joint or a liquor store just outside the city limits and thoroughly satisfy their thirst.

Suppose on the other hand the county were overwhelmingly dry, as it is. But suppose that the people of Wilson decided that they wanted one or more liquor stores or beer joints within its boundaries and should vote them in, then that would affect not only Wilson but the people of the entire county, to a greater or less extent. Drinkers from all parts of the county would make frequent visits to the little city. Men and boys living right here in Tahoka would find it little trouble to drive over to Wilson at almost any time and get lordly drunk if that was their desire or inclination. Even women and girls or mixed groups of young people might do the same thing. Liquor stores in Wilson would adversely affect the dry status of the entire county. It would no longer be a legally dry county, for liquor could legally be sold in at least a portion of the county and readily available to all who might want it.

Now, the law enacted by the legislature would have permitted wet spots to have been established in most of the dry counties of Texas and would have destroyed county-wide prohibition in those counties.

Governor Jester saw the effect of the proposed law and very wisely vetoed it. It would be interesting to scan a list of those senators and representatives who voted for the measure and those who voted against it. We have not heard a word as to how our own senator and our representative voted, but presume that they voted against it.

When a summer like this comes along with countless thousands of acres of wheat; waving a golden assurance of peace and plenty to every native son and every passer-by, and the tender, green plants from ten thousand cotton fields give promise of the crop that soon will be white unto the harvest, we know that this West Texas of ours is the greatest country in the world. Recently we have gone over these plains from Canyon to Lamesa and have explored the subcaprock country from Post to Seymour, from thence to Abilene, and thence to Colorado City in the light of day, and we have been told of the marvelous crops of wheat in that other fairly land, the North Panhandle, one time known as the dust-bowl of the nation. In addition to the bounteous crops, we have noted the succulent grasses and breathed the fragrance and drank in the beauty of innumerable wild flowers of every conceivable variety and hue blooming in the pastures and along the roadsides, thereby attesting to the fertility of the virgin soil, and we have been made to know that there are millions of other acres of land in this western domain as yet untouched by the plow that could be made to produce other mountains of wheat and cotton and maize with which to feed and clothe the hungry of the world. Some day, many of these millions of acres will be in cultivation and will be yielding their rich harvests to bless mankind. Yes, we believe West Texas has a future richer and more glorious than either its past or its present.

Go to Church every Sunday.

RODEO AT LEVELLAND

JULY 3 - 4 - 5
All the color and thrills of cow-hand versus fierce, untamed animals will be witnessed by the thousands expected to throng this city when Leveland's Annual Rodeo is presented in four performances July 3-4-5. Special acts and ladies' sponsor contests will round out the program in the West's wildest show.

An outstanding feature this year will be the acts of Cecil Cornish, of Waukomis, Okla., and his Golden Eagle Roman jumping team, his educated car-jumping Brahma bull, and high school horse and trick riding exhibition. Those who have seen the performance aver that it is one of the very best.

Texas' largest arena will be the scene of three night and one afternoon performances. The afternoon event will be staged Friday, July Fourth, preceded by a mammoth parade containing bands and the Rodeo Queen.

The wild stock of Famous Beutler Brothers of Elk City, Okla., will test the skill, stamina and daring of cowboys in their competition for prize money. Points earned in the Leveland show will count in the RCA national standings.

Chuck wagon feeds, open to all comers, will be served at noon and at dinner on the Fourth.

Events on the program include wild cow milking, saddle bronc riding, calf roping, bulldogging, and ladies' junior and senior sponsor contests.

SUMMER ENROLLMENT AT TECH BREAK PREVIOUS MARK

LUBBOCK, June 26.—Topping all previous summer enrollment records at Texas Technological College, 2703 students are now attending classes, the registrars office has announced. Registration for the first term was completed Monday.

Men are decidedly in the majority at Tech, with 1956 males and only 747 women. The student body includes 1648 veterans.

The housing situation is good. Four college dormitories are open this summer, including two for men, one for women and one for married couples.

Previous high enrollment record for the summer session was in 1946, when 2670 persons registered. During the first term the figure was 2310.

CARD OF THANKS

BUILDING AT TECH AWAITS PASSING OF AMENDMENT

LUBBOCK, June 26.—Work on critically needed buildings at Texas Technological College can begin this fall if a proposed amendment to the state constitution, creating a special building fund is passed, college officials state.

As an example of Tech's needs, spokesmen pointed out that the college opened its doors in 1925 with only one section of the Administration building, completed. The structure still stands as it was then, although the faculty has increased 400 per cent, and now as many as nine persons share one of its offices designed for three.

In addition to a serious need for completion of the Administration building, the college also needs a new Gymnasium, Home Economics building, completion of the Textile Engineering building, a Petroleum Engineering building and others.

If voters ratify the amendment at the August 23 special election, the fund thus created would be divided over a 30-year period according to enrollment among Tech and other state educational institutions except the University of Texas and Texas A&M. Through a bonding process, the sum allotted to each college would be awarded in three installments, one every ten years, with the first to be made available immediately after passage of the amendment.

VA officials estimate the number of living veterans and members of their families will reach a peak of more than 62,000,000 by 1952 or 43 per cent of the nation's population.

Almost 230,000 disabled World War II veterans are now in training under the provisions of the Vocational Rehabilitation Act known as Public Law 16.

BAPTIST SERVICES IN SOUTH TAHOKA ANNOUNCED

Miss Mildred Cox, secretary of the First Baptist Church and young people's leader, and Miss Wanda Faye Smith, song leader, have announced that the young people of the church will conduct services Sunday afternoon at 4:30 o'clock on the premises just east of the fourth house south of the Shamburger-Gee Lumber Company in south Tahoka.

The First Baptist Church is negotiating for the purchase of this property, including the vacant house situated thereon, and if the deal goes through the Church plans to erect a mission on this lot.

The vacant house now situated on the lot will probably be moved to a lot situated just east of the railway, repaired and improved, and converted into a mission for the Mexican population.

The services announced for Sunday afternoon will be conducted in the shade of the house as much as possible, and seats will be provided for the occasion. The people of Tahoka, and especially those residing anywhere in south Tahoka are cordially invited to these services. Similar services will probably be held at that place at frequent intervals hereafter, and it is planned to build a comfortable, commodious, and attractive place of worship there later on if and when the Church requires title to the property.

STAMFORD RODEO

JULY 2 - 3 - 4

Visitors attending the Texas Cowboy Reunion at Stamford on July 2, 3 and 4th need have no fear of finding plenty to eat. The ranch chuck wagons will serve meals at the usual price of 75 cents per person. Meals are served at 12 and 6 o'clock. The six or seven ranch chuck wagons can care for several hundred people at one time. A new seating arbor has been erected for the comfort and convenience of the patrons.

The fine people who have the responsibility of seeing that all cowboys and cowgirls receive fair and impartial treatment at the Texas-Cowboy Reunion Rodeo on July 2, 3 and 4th have been announced by rodeo officials. They are: Foy Proctor, Midland, Texas; George Humphreys, Guthrie, Texas; W. B. Willingham, Rotan, Texas; Bill Damron, Haskell, Texas, and Ed Heller of Dundee, Texas. These men have had many years of experience in actual work with cowboys and have their interest at heart. Full confidence in their ability to do the job has been placed in them by both officials and cowboys. Their decisions are final.

Willie Gene Garrett, son of Mrs. Hattie Garrett, got the end of a finger clipped off on Thursday of last week when caught by a door. At the Tahoka Clinic the detached end was sewed back into place and it is hoped that the tissues will eventually reunite and that the full use of the finger will be restored.

Billy Joe Green, 13, son of Mr. and Mrs. Oliver Green, is still critically ill in the Tahoka Clinic here, though his condition has been reported as slightly better. His sister, Miss Mabel Green, who also was a patient in the institution for several days before Billy Joe became sick, is now able to be up but is not entirely well.

Mrs. Gertie Dubbs and two sons, 8 and 10 years old, came in Tuesday from Alameda, California, to visit her parents, Mr. and Mrs. J. J. Waldrep and other relatives. They have been living out there since 1935, and Mr. Dubbs has been employed much of the time on the great bridge that was under construction at San Francisco.

How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

- 1-Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.
- 2-Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.

BUILDERS! ARCHITECTS!

Now is the time to
Join the Swing to

Right now you could probably sell a grass hut to an Eskimo or an igloo to a Hottentot. Even so, it pays to build houses people really want. It pays... not only in immediate sales... but in long-term prestige.

That is why so many farsighted architects and builders are turning to the all-Gas home.

Especially in the Southwest, gas is the fuel people know and prefer. In our cities and towns, everyone uses gas. And modern Gas service—with postwar Gas appliances—promises even greater ease, comfort and efficiency. Here are a few ways it adds to better living:

House heating with an automatic Gas furnace assures cozy warmth on the rawest winter day. Year-round Gas air-conditioning goes even farther—actually brings healthful comfort in every kind of weather. Hot water in abundance is provided for every need... and with such economy and speed-of-recovery that it is possible to own both an automatic dishwasher and automatic laundry. Silent Gas refrigeration keeps foods fresh for long periods and eliminates daily shopping trips. The automatically controlled Gas range cooks meals and turns itself off while the homemaker relaxes or shops or attends to other duties. Incineration simplifies disposal of refuse. A Gas clothes-dryer makes laundering easy and rapid.

Yet, with all this, Gas is economical! Both the initial cost of equipment and carrying charges are low. Mass production, due to volume demand, has resulted in high quality without high cost. And this superior quality plus freedom from mechanical wear means that appliances stay at their peak of efficiency for a longer time. Add to that the well-known economy of operation and it is obvious why Gas is the best buy for any client's money.

Most important of all (from your point of view)... Gas appliances are designed compactly to save space—space that often allows you to put in an extra room or cut down the outside dimensions. They reduce building costs further because they require only simple connections. And the attractive streamlined design of each of the seven Gas appliances listed at the left is so recognizably modern that they help sell a house on sight!

Pioneers . . .

(Continued From Page 1)
county at that time. He assisted in the organization of this county, therefore attached to Lubbock county for judicial purposes. In his talk Tuesday he gave an account of the county's organization and related many interesting facts and events of that period.

In the afternoon Mrs. J. B. Walker entertained the audience in her characteristic happy style with a recital of other interesting events, her talk being punctuated with many flashes of humor that kept the audience in a happy mood. Mrs. Walker was one of the early teachers of the county, reared her family here, and continued to live here together with her husband and children until a few years ago, when they moved to Lubbock.

Tap dancing numbers were given artistically by little Sandra Kemp and Sarah Wells.

With Mrs. Marcus Edwards accompanying on the piano, a number of her pupils sang to the great delight of the audience. Mrs. Harley Henderson led in a period of congregational singing, which was also a delightful feature of the occasion.

Of all the people present, J. G. Scott, 91, was the oldest. A close runner-up, however, was that old buffalo hunter, F. M. Sherrod, 90. Mrs. S. N. McDaniel was the most elderly woman present. Mrs. John Standefer, was marked up as the woman who had lived in this county the longest time. She came to the county to reside in 1898.

At a business meeting in the afternoon, over which President Harley Henderson presided, officers for the ensuing year were elected.

J. K. Applewhite was named as president. Mrs. Frankie Wells Fenton was re-elected secretary-treasurer. R. W. "Buster" Fenton was selected as finance chairman and Raymond Weathers as Entertainment chairman.

Officers and committees are going to work to make the organization and the attendance next year bigger and better than ever.

Of course it goes without saying that the supply of barbecued meat at the noon hour was bountiful, tender, and fine, and nobody could have enjoyed it better than an "old-timer."

Visitors

Visitors from other counties and states who registered as present at the Old Settlers' Reunion, here Tuesday included the following: J. R. Kinard of Oakland, California; Mrs. Alva Samford of Mayhill, New Mexico; J. H. King, Portales, New Mexico; Mrs. J. B. Walker of Lub-

bock; Mrs. Mary Fleener, Houston; J. W. Givens, Lubbock; Mr. and Mrs. Homer St. Clair, Lamesa; Mrs. Billy Sanders, Meridian; Mr. and Mrs. W. H. Robertson, Abilene; H. E. Baldrige Jr., Abilene; Mrs. C. B. Townes, Lubbock.

Mr. and Mrs. T. B. Cowan, Lubbock; Mr. and Mrs. Ira Deak, Lubbock; J. B. Walker, Lubbock; Joe Elliott, Sterling City; A. H. Moyers, Post; W. B. Meeks, Lubbock; Howard Tunnell, Lubbock; Mrs. Marie Gooch, Lubbock; Mr. and Mrs. H. E. Baldrige Sr., Abilene; Mrs. G. E. Lockhart, Lubbock; C. S. Wyly, Brownfield; Mrs. Earl Norris, Post Rt. 2; Mrs. W. A. Guinn, Knickerbocker; Mr. and Mrs. W. G. Hill, Kemp; Temp Skinner, Waco; W. B. Edwards, Lubbock.

A number who registered gave no address. Many did not register at all.

Among the more aged persons present, most of whom reside here, are the following: W. A. Yates, 80; Mrs. Yates; Mrs. Kelley; Walter May, 77; J. H. McNeely, 76; J. D. Donaldson, 75; Ed Baldrige, 79; Mrs. Baldrige, 76; R. H. Renfro, 79; Jeff Scott, 91; F. M. Sherrod, 90; J. P. Millman, 85; and quite a number of others listed among the elderly group whose ages were not given.

School Bonds . . .

(Continued from Page 1)
but now constituting the new consolidated district; which bonds so outstanding are set out in detail in the election order.

Naturally, as a consequence of consolidation, it is necessary for the consolidated district to take over and assume the payment of all these bonds.

The new bonds to be authorized for building purposes are a mere pittance when the property values in the consolidated district of 308 square miles are considered.

Due to the extreme high cost of building at the present time, the board has decided to take care of the extra students resulting from the consolidation elections by moving a hospital barracks and a mess hall from Camp Berkeley, remodeling and furnishing them for school purposes. This will not cost more than half the \$30,000.00 for which the bond issue calls for, but an additional half block of land and many repairs to present buildings are needed and the board feels it is wise to put the school plant in first class condition while they are at it.

All the above propositions will doubtless be voted by overwhelming majorities.

Consolidation . . .

(Continued from Page 1)
Three Lakes, 32.

The large extent and the small scholastic enrollment in the West Point and Three Lakes districts is accounted for by the fact that these districts consist mainly of ranch lands, parts of the old T-Bar ranch lying in each of these districts.

A part of the T-Bar and other ranch lands in these districts have been placed in cultivation recently, however, and the chances are that in due course of time much more of these lands will be placed under the plow; in which event, the scholastic population of the consolidated district will be considerably increased. In fact, the expected continued growth of Tahoka will result in a constant increase in the scholastic population.

Crops . . .

(Cont'd from page 1)

hail destroyed another considerable area of cotton while other farmers in the Redwine community were hard hit.

In the L. D. Howell neighborhood five miles east of Tahoka another small territory had its cotton beaten off by the hail or covered up by the heavy rainfall.

In these affected areas, farmers hastened to replant either in cotton or in maize as soon as the condition of the soil would permit.

In nine-tenths of the cotton acreage of the county, however, the plant is up and growing nicely—perhaps in a much larger percentage of the area than that—and the prospect at this time for a bumper

cotton crop this fall is very flattering.

The total acreage devoted to cotton this year is probably the largest in the history of the county, while the acreage devoted to feed is smaller than it has been for quite a number of years. The wheat acreage is also the largest possibly ever matured here, and the yield is excellent, but the acreage is still only a minor fraction of the total cultivated lands of the county.

County Agent Bill Griffin estimates that the cotton acreage of Lynn county this year is 250,000 acres, and that a total of around 2,000 acres has been destroyed by grass-hoppers, hail, excessive rains, and blowing said.

His estimate of the amount of acreage destroyed would seem to low in face of the reports of destruction by hail and rain that have been coming in, but he insists that his figures are approximately correct.

Supply Your Hens with P.G.C. Laying Mash

P.G.C. LAYING MASH contains a wide variety of High-Quality feed ingredients supplying all essential proteins, vitamins, minerals, and other important food elements to help increase egg production and maintain the vitality of the laying hen.

FRIDAY, JUNE 27, 1947

O'Donnell Leads Softball League

On Thursday night, June 19, VFW won over Wharton's in the first game. New Home defeated Calvery Hatchery in the second game.

Friday night the Legion nine defeated Collier Drug in the first game and Davis-Humphries won over Flying Farmers in the second game.

Monday night Grassland trimmed Collier Drug in the first game and Davis-Humphries took a loss to the Legion nine.

Tuesday night VFW beat Calvery Hatchery and New Home won over Flying Farmers.

TEAM	G	W	L
O'Donnell	4	4	0
A. Legion	5	4	1
New Home	5	4	1
Grassland	5	3	2
VFW	5	3	2
Collier's	4	2	2
D. & H.	6	2	4
Calvery's	2	0	2
Wharton	3	0	3
F. Farmers	5	0	5

Last night Collier Drug played Wharton Motor Co. in the first game and VFW played Grassland in the second game. No results of Thursday night games will be published until the following week.

County Schedule
Tonight New Home plays A. Legion in the first game. This should prove to be a real ball game as both teams are very close runners up for first place in the league.

MORE RAIN

More showers fell late Wednesday afternoon and night in some localities north and west of Tahoka and in other counties of the South Plains. At Levelland terrific rain and hail storm did much damage in the town and destroyed many crops surrounding it.

standing—in fact they are tied in second place. O'Donnell takes on Calvery Hatchery in the second game.

Monday night A. Legion will play F. Farmers in the first game and Wharton Motor Co. plays D.&H. in the second game.

Next Thursday night Grassland plays Calvery Hatchery in the first game and VFW takes on New Home in the second game.

C. of C. Loses Three More
The C. of C. team lost three more games within the past week.

On last Friday night they forfeited a game to Brownfield.

On Tuesday night the C. of C. went to Lubbock where they played Baldrige Bakery a double-header, losing both games. The first game 12 to 1 and the second game 5 to 3.

Plainview Here Monday

Tonight the C. of C. team rests, but on Tuesday night they will play Plainview here on the local softball diamond. There is a charge for all the games C. of C. plays at home to help pay the expenses of the entire softball program in Tahoka.

Next Friday night, July 4, the C. of C. is scheduled to play Blue Bonnet Laundry at Lubbock.

Wash Hands Before Eating Urged as Polio Precaution

Parents should see that children wash hands thoroughly before eating as one precaution against polio, particularly during the summer epidemic season, according to the National Foundation for Infantile Paralysis.

The National Foundation through its local chapter is issuing a series of six simple health rules that should be observed during the summer to help combat the disease.

Scientific studies, financed by March of Dimes funds, indicate that the hands may be a means of spreading the virus infection through contamination of food, drinks or objects carried to the mouth.

For this reason, a high standard of personal cleanliness should be maintained especially during the polio danger months—late June through September, the National Foundation cautions, adding that fresh fruit and vegetables should be washed well before eating.

UNIVERSITY PROFESSOR HUNTING LIZARDS

AUSTIN, Texas, June 23—Dr. W. Frank Blair, University of Texas zoologist, will spend all next month getting stocks of snakes, lizards, amphibians, and fish for use in studies of vertebrate animals. He will cover a territory from Wichita Falls to Big Spring to the Palo Duro Canyon.

Mr. and Mrs. Tom Dikes were up from Mineral Wells this week to visit their son, Harlan and wife and to get acquainted with that new grandson, little Tommy Lynn Dikes.

LARGE CROWD EXPECTED TO ATTEND NATIONAL SOARING MEET JULY 4

WICHITA FALLS, June 26—From 25,000 to 30,000 persons will attend the opening of the 14th Annual National Soaring Meet here on July 4, Charles King and Francis L. Harvey, co-directors, predicted today.

Ceremonies and entertainment on the Fourth of July will launch 17 days of contests which will determine the U. S. champion glider pilot and which may see the establishment of new world records in the sport.

Lt. Gen. Hoyt S. Vandenberg, deputy commander of the Army Air Forces, will fly here from Washington to participate in opening day events. He will be accompanied by one or more members of his staff and by Congressman Ed Gossett of Wichita Falls. General Vandenberg will speak.

Representatives of several foreign embassies will attend, including Wing Commander N. Bicknell and Squadron Leader J. L. Mikbell, assistant air attaches of the British Embassy, and possibly members of the air offices of the French, Spanish and Turkish embassies. In addition to this foreign representation, planes and pilots from Great Britain, France, and French-owned Algeria will compete in the contests. Two of the British planes already have been shipped to this country, officials of the contest have been informed.

King and Harvey said that Wichita Falls is making preparations to entertain one of the largest crowds in its history for the opening of the meet. A number of spectacular events have been planned for the public, including a demonstration of stunt flying in which pilots will loop and roll their motorless ships. Other features are an aircraft show and mass flights of personal planes from various sections of the Southwest.

Go to Church every Sunday.

TEXAS CITY GETS NEW FIRE TRUCKS

TEXAS CITY, Tex.—Rebuilding of the Texas City Volunteer Fire Department, which was completely destroyed in the April 16 disaster, took a big step on June 3 here, when Mayor J. C. Trahan received the gift of a new fire truck on behalf of Texas City.

The new truck is a duplicate of the Pasadena, Texas, unit that fought fires continuously for 60 hours immediately following the explosion. All Texas City fire fighting equipment had been wiped out and more than half the members of the Texas City Volunteer Fire Department killed.

Mayor Trahan received the gift from officials of Food Machinery Corp., parent company of John Bean Mfg. Co., who made the truck. It is an F.M.C. High-Pressure Fog Fire Fighter, employing up-to-date fire fighting techniques developed mainly during World War II and used extensively by the Army and Navy.

Immediately following official presentation ceremonies, spectacular demonstrations in fire fighting gave Texas City people a chance to see what their new truck can do.

Texas City firemen showed special interest in the demonstration, especially in the ability of their new truck to put fire out quickly and to work without any outside water supply.

Legion Sponsors Carnival Here

The local American Legion Post No. 250 is sponsoring a carnival here beginning Monday, June 30, through July 5.

There will be four different rides and some other side concessions. However it was stated that this will be a good clean carnival, no girl shows, and the concessions will be operated by Legion members.

A ferris wheel will include one of the four different rides and there will be a car ride too. Plenty of good clean fun for your children and also for the adults.

If you haven't planned an out-of-town trip for July Fourth, this will be a good place to bring your kiddies for a swell evening of fun.

The funds derived from this carnival will be used to help repair and re-build the American Legion Hall here in Tahoka. A good time is guaranteed everyone and no gypes will be allowed.

Texas' poultry industry is one of the state's largest—worth \$200 million dollars.

Since the war's end, the total value of Savings Bonds outstanding has grown almost 10 per cent.

All State and County Taxes are delinquent July 1, 1947.

Texas City Gets New Fog Fire Fighter

TEXAS CITY, TEX.—Smoke filled the skies again here, but it was good smoke, the kind people like to see. It came from oil fires set by the Texas City Volunteer Fire Department when demonstrating the fire fighting abilities of their new, high-pressure Fog Fire Fighter, a gift of the manufacturer.

Top picture, taken on the grounds of the Texas City refinery, demonstrates how an oil fire can be extinguished in 10 seconds with 10 gallons of water. The new fire-fighting unit is self-contained, carries its own water and releases it in fog form under 800 pounds pressure. The value of this unit was proved in the Texas City disaster when a duplicate unit belonging to the Pasadena, Texas fire department fought fire continuously for 60 hours.

In lower photo, Mayor J. C. Trahan holds certificate of ownership presented by John B. Crumsey, Chairman of the Board of Food Machinery corporation, as Bob Horton in the cab, Fire Chief Fred Dowdy, left, and R. G. Pulver of the John Bean Mfg. co., right, look on.

Mexican Buried Here Thursday

Lucio A. Gutierrez, 35, a native of old Mexico, died at about 1 o'clock Tuesday afternoon, June 24, in the Tahoka Clinic, and graveside funeral services were conducted here at about 3 o'clock Thursday afternoon by Rev. Levi Price, pastor of the First Baptist Church. Deceased was a member of the Catholic Church.

He is survived by a wife, three daughters, and four sons. He had been engaged in farming here since 1943, when he came to this county from Kennedy, Texas. Born on January 7, 1912, in Mexico he was married at Karnes City, Texas, on October 15, 1932. He entered the hospital here about three weeks ago.

The body was prepared for burial by the Stanley Funeral Home.

4-H ROUND-UP

The State 4-H Club Round-Up, the biggest event of the year for Texas' 4-H Clubbers, has been set for September 4-5 on the campus of Texas A&M. College.

J. W. Potts and Lorene Stevens, state 4-H Club leaders of the Texas Extension Service, have announced that each county may send to the Round-Up two 4-H boys, two 4-H girls, one woman club leader and one man leader.

The 1946 Round-Up, first of that type program held in Texas, was planned by and for 4-H'ers, who on the whole show for three days of entertainment and instruction at Texas A&M. College. Plans in the making now call for a similar program, with maximum participation scheduled for the youngsters.

Potts and Miss Stevens explain that in addition to the county attendance quota, 4-H members who are taking part in the state dress revue, rifle matches, or who are on any other part of the scheduled program will attend the get-together. All boys and girls, however, must be at least 14 years of age to make the Round-Up trip.

Raising food for the two billion people of the world is a big job, and already millions of those people are going hungry because the soil was not cared for properly.

The biggest Texas wheat crop in history, estimated to be more than 112,000,000 bushels by the Bureau of Agricultural Economics, is now being harvested.

Mechanized farming has enabled United States farmers to produce a third more with 10 per cent less total than during World War I.

Texans bought \$97 million dollars worth of U. S. Savings Bonds in the first five months of 1947.

McGinty Talks To Lions Club

At the Lions Club this past Tuesday night, Fred McGinty was called on to put on the program, and so he just turned the tables on the members attending and had them to help him.

Mr. McGinty started off on the topic, "Has Inflation Reached It's Peak?", drawing a few slight remarks from the members which turned out to be a round-table discussion of the subject. Mr. McGinty wound up his program by making a short talk on Soil Conservation.

AGF PLANS INDIVIDUAL PILOT TRAINING

Army Ground Forces revealed tentative plans for proficiency flight training of AGF Organized Reserve Corps liaison pilots. The training program calls for a maximum of four hours flying time per month for each officer. Approximately 1,200 Reserve officers are expected to receive training under this program.

Miss Faye Nordyke accompanied by her mother, Mrs. L. M. Nordyke, visited a school friend in Sweetwater Thursday and will return today.

Mrs. Bill Anderson and children from Lovington, N. M., spent a few days last week in the home of her Aunt, Mrs. R. C. Forrester.

Mrs. Cornelia Kelly left Thursday to visit one of her sons in Wichita Falls.

LATEST ON DDT

Latest recommendations for the use of DDT to kill cotton insects have been released by the entomologists of the Texas A.&M. College Extension Service.

To control flea hoppers, the entomologists recommend a mixture of five per cent DDT and sulphur, with at least 75 per cent of the mixture consisting of sulphur. Applied at the rate of 12 to 15 pounds per acre, one application is usually enough to get the hoppers.

The bollworm takes a 10 per cent DDT and sulphur mixture, consisting also of 75 per cent sulphur. Ten to 15 pounds of this mixture per acre at five day intervals is the recommended rate of treatment. Stink bugs and plant bugs can be controlled, the entomologists say, with the same poison mixture recommended for bollworms.

Thrips, another cotton pest, are controlled with a five per cent DDT and sulphur dust, applied at 10 pounds an acre.

Congratulations . .

Mr. and Mrs. C. D. Childress of O'Donnell on the birth of a son weighing 8 pounds 12 ounces at 7:40 a. m. Sunday in Lubbock Memorial Hospital.

Production of all types of food crops is likely to be higher this year than in any of the last three years.

Kidneys Must Work Well

For You To Feel Well

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood.

If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.

Burning, itching or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling. Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulates the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

HALF OF U. S. AUTOMOBILES HAVE DEFECTIVE BRAKES

Fourteen million automobiles are being driven with defective brakes, according to indications in a cross-country inspection of vehicles made for MoToR, the Automotive Business Magazine. This is approximately half the passenger cars in use. Many of these vehicles will be a menace to highway safety, the magazine states, unless repairs are made.

Dealer service stations and independent repairshops in a majority of states made the inspections for MoToR, removing a front wheel on a large number of cars on which neither the drivers nor their service men suspected anything wrong.

I am now selling new sturdy well-built

Concrete Mixers

Ernest Drager

with the brakes. All the vehicles had been driven in for other kinds of service.

The inspections showed badly worn brake lining on one car out of two, leakage in the hydraulic braking system on one out of three and scored brake drums on one out of three.

Results of the inspections were not surprising, the magazine commented, in view of the age of most vehicles. Before the war, when 25 per cent of those registered were only one or two years old, compulsory safety inspections in a number of states usually revealed that about a third of the cars had defective brakes. Now only 10 per cent are comparatively new post-war models, 40 per cent are three to nine years old and 50 per cent are 10 or more years old, with owners reluctant to finance extensive repairs.

Mrs. Terry Thompson accompanied her daughter, Sylvia, and Sue and Patsy Smith, daughters of Mr. and Mrs. Happy Smith, on a week's vacation trip to Garner State Park near Uvalde, returning to Tahoka Monday night. Terry went down last week end to accompany them home.

Mr. and Mrs. Charles Curry and children of Lamesa were here Tuesday visiting relatives. Charles is employed by the Dawson County Courier.

Atomic Power May Be Our Fuel by '55

Compton Upholds Use of A-Bomb Against Japan.

PARIS.—Atomic power may become a serious competitor to coal in the United States by about 1955 "if political difficulties do not seriously intervene," Dr. Arthur H. Compton said.

The atomic scientists, chancellor of Washington university at St. Louis, Mo., spoke to a gathering of savants at Sorbonne university on the fourth anniversary of the looting of nuclear fission in Chicago.

He said that heat byproducts of atomic energy were being used now in experiments heating water pouring into the Columbia river. He painted a picture of modern cities using heat from central stations without smoke covering the area, and of atomic power as a source of electricity in areas where coal and water power were scarce or costly.

The Nobel prize winning physicist asserted that the alternative to an agreement that no atom bombs will be made in the future was a competitive armaments race, but added: "I believe that the odds favor considerably the view that major wars between the great powers are already a thing of the past. I am confident that we have a good fighting chance of establishing a permanent peace."

Upholding the use of the bomb against Japan, Compton said: "Not to have used this new-found power to stop short the most disastrous war in history would have been unpardonable. Humanity's greatest need was a decisive weapon."

Smart Boy Lost in Snow

Saves Life by His Wits

VAN HORN, TEX.—An 11-year-old boy who kept his wits and settled down in a sheltered spot to wait for rescue parties to reach him cheated death in the snow-covered Guadalupe mountains.

Lynn Russell of Clint was missing in a snowstorm and high winds for almost 30 hours when he was found at night, cold, hungry and tired, in a hollowed-out place by the side of a steep mountain. He was treated for exposure, but doctors said his condition was good.

He told the rescue party he knew they would find him, adding: "So I thought it best if I got comfortable as I could and waited."

Bereaved Couple Inspects

House Built by Neighbors

TERRE HAUTE, IND.—Mr. and Mrs. William Wilbur, whose baby daughter perished when their home burned down, inspected their new four-room house.

They said they never could thank adequately the kindly townfolk who put up the money and labor to build it.

There was much work still to be done, but already the green-roofed house looked like home to the Wilburs and their two surviving children, Billy, 4, and Marie, 6.

"It's a miracle," Wilbur said. About 325 carpenters and laborers put up the framework and finished most of the exterior in 10 hours.

The work was done without pay. The building materials were bought with contributions from sympathetic residents, and the lot was donated.

The new house is next door to the old one, which burned down November 9 while Terre Haute firemen, stationed only 10 blocks away, let it burn under orders not to answer calls outside the city limits.

Collections Set Record in

Drive Against Tax Evasion

WASHINGTON.—The drive against tax evasion is bringing in collections at a record rate, Secretary of the Treasury Snyder disclosed.

Snyder reported that extra assessments and penalties amounted to \$546,000,000 from July 1 through October, a 41 per cent increase over the corresponding months of last year.

This brought to more than \$1,500,000,000 the extra assessments and penalties taken in during the approximately 16 months in which the drive has been under way.

Half of Disability Pleas

Of War Veterans Approved

WASHINGTON.—One-fourth of the veterans of World War II have applied for disability benefits, and one of every two has been approved, Veterans' administration said.

VA said it is paying benefits to 1,647,000 disabled veterans of World War II. Monthly payments range from \$13.80 to \$360 and average \$42.

Need a LAXATIVE?

Betty Grable and Dick Haymes are co-starred in the new 1947 Fox picture, "The Shocking Miss Pilgrim", showing at the Rose Sunday, Monday and Tuesday. This is another "scoop" for the Tahoka theatre over Lubbock theatres—the second in a week.

Veterans Medical and Dental Clinics are located in Amarillo and El Paso, and a Medical Clinic is located in the San Angelo Contact Office.

NEW HISTORICAL SERIES ANNOUNCED

WASHINGTON, D. C., June 26.—"The Organization of Ground Combat Troops", first volume of an historical series titled, "The United States Army in World War II", sponsored by the War Department, will be released to the public in August, according to Brigadier General Harry J. Malony, Chief of the historical Division.

Volumes in the series may be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C., and will be shipped postage free. The first volume will cost \$3.25. Advance orders are now being accepted.

Mrs. Harley Dove and two children of Plainview came down Wednesday for a visit with her parents, Mr. and Mrs. W. M. Flint of the West Point community and with her sister, Mrs. Billy Hill in Tahoka.
