High School Students Register This Week; Public Is Invited To Program Monday Morning

More Than Half Inch Moisture on Monday

The official government weather gauge kept by Jack Allen recorded .63 of an inch Monday in Perryton with varying amounts of rainfall reported over the county. Torrential rains were reported to have fallen in the extreme southeast part of Ochiltree County and along the Canadian River watershed. The southwestern and western portions of the county reported less than one half inch. Moisture received during the past three weeks has been of immeasurable benefit to row crops and grazing land in this county.

Clubs Have Rally Wed.

The annual Boys' and Girls' 4-H Club Rally for Ochiltree county club members was held at Elzey's Camp on Wolf Creek Wednesday, August 28 under the direction of County Extension Agents E. W. Thomas and Mrs. Hazel Martin. Approximately 30 boys and girls and ten adults were in attendance. The day was spent playing games and swimming. At noon a picnic dinner was spread under the big trees near the camp. At the conclusion of the day several watermelons were cut and enjoyed by the group.

County Plans Grain Exhibit

County Agent E. W. Thomas is busy at this time assembling and preparing a County Exhibit to show at the Tri State Fair at Amarillo September 15-20. The exhibit will consist of wheat, barley and oats, milo and other grains both threshed and bundles. Other exhibits will include bundles and bales of forage and exhibits of various vegetables grown in the county.

All persons having creditable products for showing are asked to get in touch with the county agent in order that an exhibit will be arranged that will reflect credit on the county.

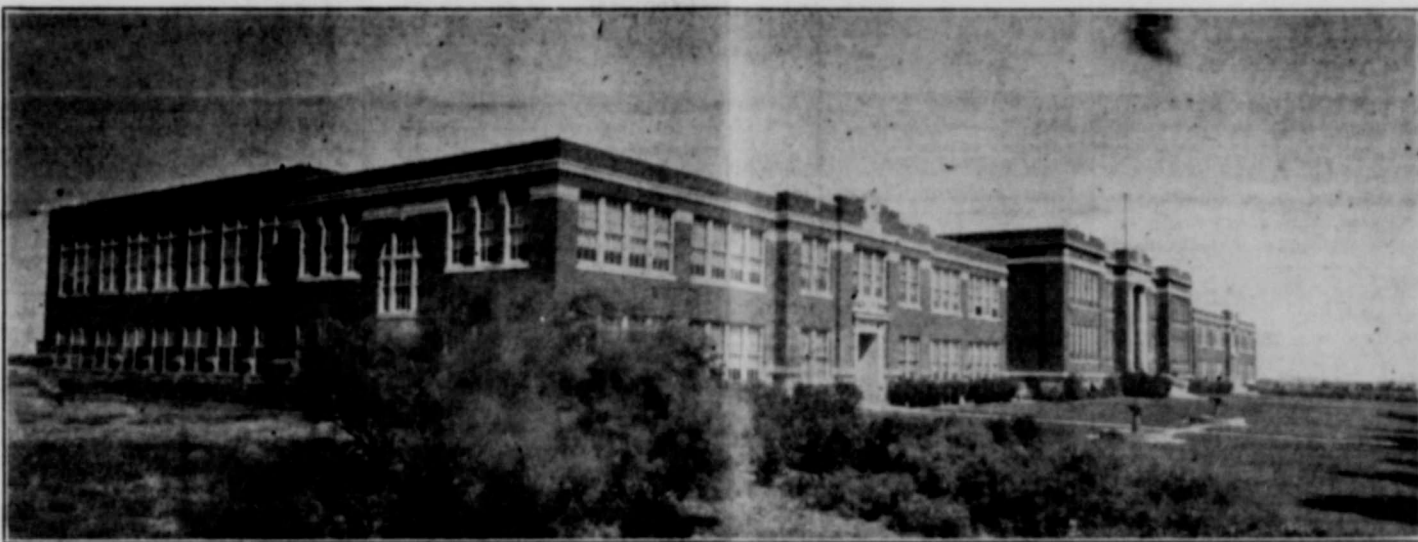

Several exhibits of wheat will be entered from the county in the milling and baking contest. This phase is a new feature of the Fair. Thomas has been appointed as superintendent of the Milk Production Contest at the Fair in which cows of various breeds will be tested for the amount of butter fat produced in a 48 hour period. This is also a new feature of the Tri-State Fair that is expected to arouse a great deal of interest among breeders of dairy cattle.

Heads Junior High

Otis E. Burk, who has been athletic coach of the Perryton schools for the past several years, is the new principal of the Junior High School. Mr. Burk has his bachelor and master degrees and is well qualified for his new duties. All junior high school students will register on Friday morning, April 6, at 9 o'clock Junior High Study Hall.

Perryton Schools In Readiness For Opening Monday Morning, Sept. 9

Activities in the Perryton Schools for the 1940-41 school year started this week with the registration of high school students, and meetings and conferences of faculty members. Supt. C. Wedgeworth announced that a capacity enrollment is expected this year. A public program in the auditorium on Monday morning, September 9, at 9 o'clock, will formally open the schools. All students will attend this program.

Three County Schools Begin Term This Week; Others Start September 9

Teachers for county schools have been selected and contracts signed, according to information released Wednesday by Dave Shanks, county superintendent. Three schools began their terms on Monday of this week, with other county schools opening next Monday, September 9.

McMillen, Taz and Alfalfa Schools started this week. Huntton, Lakeview and Waka open next Monday morning. High school subjects will be taught this year in Lakeview and Alfalfa schools, stated Supt. Shanks.

County schools and their teachers are as follows: Taz: Miss Nadine Layton; Huntton: Edgar C. Allen, Booker; Mrs. A. H. Nichols, Perryton; Alfalfa: Mrs. Robert Barlow; McMillen: Mrs. R. T. Brown; Lakeview: Miss Emma Partidge, Booker; Waka: Lee Carter, Darrout; Miss Kay Sawyer, Canadian; Mrs. Violet Igou, Perryton.

Crop Loans Now Possible

Emergency Crop loans for the production of winter wheat and other small grains are now available to farmers in Ochiltree County, and applications for these loans are now being received at the courthouse by John L. Jones, Field Supervisor of the Emergency Crop and Feed Loan Section of the Farm Credit Administration.

These loans will be made, as in the past, only to farmers whose cash requirements are small and who cannot obtain a loan from any other source, including production credit associations, banks, or other private concerns or individuals.

As in former years, the money loaned will be limited to the applicant's necessary cash needs in preparing his land and for seeding his 1940 grain crops.

Borrowers who obtain loans for the production of small grains are required to give as security a first lien on the crop, financed.

Lions Meet For New Year

The Perryton Lions Club held the first luncheon of the coming season in the Hotel Perryton Tuesday noon with H. A. Finch, president in charge. The organization is meeting for the first time since June when the club was temporarily disbanded for the summer months. Eighteen members were present. C. Wedgeworth and Dr. O'Dell Ryan announced intentions of becoming members of the organization and were accepted.

Lions Finch and Wedgeworth gave brief talks before the group after which committees for the coming year were named as follows: Administrative Committee: Attendance—W. B. LaMaster, chairman, Lewis Bryan, Glenn McGibbon; Finance—R. H. Holland.

Herald Makes Special Price to Students

Knowing full well that every boy and girl of this community who is away from home at college will want to read the home news, the Herald is making a special rate of \$1 from this date until June 1, 1941 to all students attending college. Our regular rate to subscribers outside Ochiltree and adjoining counties is \$2.50 so you can see the \$1 rate for nine months is just about one-half the regular price.

Show Large Stock Christmas Cards

The Stewart Printing Company will have a large assortment of Christmas cards on display by the first of October. You may obtain these cards in singles or in box assortments. The boxed assortments contain a large variety of beautiful cards at minimum prices. See them before you purchase your Christmas greeting cards.

On last Thursday, G. F. Houghton, factory representative of the Gibson Art Company, displayed his entire line at the office of the Stewart Printing Company. In addition to the Christmas cards, many new greeting cards were purchased by the Stewarts, and are on display. The Stewart Printing Company has a variety of greeting cards for all occasions.

Miss Sue Sellers left Friday for a visit with her father, Ike Sellers and family near Paducah, and with her grandmother in Abilene.

Faculty Members of Perryton Schools In General Meeting Saturday Morning

All faculty members of the Perryton Schools will meet with Superintendent C. Wedgeworth on Saturday morning, September 7, at 9 o'clock, in Room 103 Junior High building. This is the first general session of the faculty for the 1940-1941 school term. On Friday morning, September 6, at 8:30, junior and senior high school teachers will convene in the same room, for a short meeting with Supt. Wedgeworth.

All teachers of the Perryton schools hold Bachelor Degrees and 20 per cent of the faculty hold both B. A. and M. A. degrees. All teachers have two or more years teaching experience. The scholarship requirement of the Perryton High School is equivalent to that of any Junior College in Texas.

Teachers in the Perryton Schools, their degrees, their home address, and the grade or subject each teaches, follows: Grammar School: R. L. Duke, B. A., Perryton, principal and 5th grade; Mrs. O'Dell Ryan, A. B. and Mrs. E. D. Kelley, B. S., Perryton, 1st grades; Mrs. R. L. Duke, B. A., Perryton and Miss Nellie Wingren, B. A., Lampasas, 2nd grades; Miss Minnie Wainwright, B. S., Hamlin and Mrs. Dorothy Dunkle, B. A., Perryton, 3rd grades;

New Home for Western Auto Is Being Built

The Western Auto Associate Store, owned and operated by D. R. Gaither, will move on November 1 into a new modern business building being erected for them north of the Castle Dry Goods, by T. W. Johnson.

The new building has a 25 foot frontage on Main Street and extends back 120 ft. Construction will be of tile with brick veneer exterior, cement floor and plastered walls. Ceiling height is 14 ft. Fluorescent lighting and new modern display fixtures will make this one of the most attractive automobile stores in the entire Southwest.

The lot upon which this new building stands is being erected was purchased by Mr. Johnson from Mrs. Ida Rifenberg. Mr. Gaither has contracted to purchase the 25x140 vacant lot between the new building and the Rite Way grocery and market. This lot is now owned by Jas. E. Barbour. Mr. Gaither will use it as a parking and service lot.

See No. 3, Back Page

Degree Work for Royal Arch Tuesday

A meeting of the Royal Arch Council will be held Tuesday evening, September 10 at the Masonic Hall. Several candidates are expected to take the first degree, and H. W. Ragan, high priest, urges every member to be on hand.

The Perryton Schools will formally open Monday morning, September 9, with a program in the auditorium, from 9 to 10. The public is invited and urged to attend these opening exercises. Superintendent C. Wedgeworth and Principals E. D. Kelley, Otis E. Burk and R. L. Duke have been busy this week preparing schedules and getting everything in readiness for registration. High school students will register Friday, this week, and all faculty members will meet with Superintendent Wedgeworth on Saturday morning. Grade students register next Monday.

School Names Bus Drivers And Routes

Seventeen buses will bring the children from the rural communities to the Perryton Schools again this year. Drivers and routes were announced by C. Wedgeworth, superintendent of Perryton schools, on Wednesday.

Buses will make their regular runs Monday, September 9, for the first day of school. A few routes may be extended later but details are not available at this time.

The Perryton Independent School district will operate ten new buses, and the other seven buses, include three from Oklahoma districts and one from Waka, Notia, Huntton and Alfalfa in this county. Practically all the drivers will have the same run as last year.

Contracts have been let to the following drivers for the present school term: Dean Conner, south Farnsworth route; C. R. Cudd, New Hope; Pinkney Dear, north Farnsworth; E. W. Hearn, west of Perryton; V. O. Olmstead, west of Perryton; B. R. Fletcher, Harvey Fletcher and Paul Fletcher, east of Perryton; Milton Sweigart, Twichell; J. T. Trew, McMillen and Ochiltree; Wm. McCarter, Fairview district in Oklahoma; Lonnie Bull and William Gray, Union district in Oklahoma; Homer Gurley, Waka; Lawrence Good, Notia; Leonard Latham, Huntton; George Jackson, Alfalfa. Mr. Olmstead replaces F. D. Koehn and has same route as Mr. Koehn last year.

Return Home

Mr. and Mrs. J. M. Bull, Mrs. E. S. Trolinger and Mrs. Miles Edwards, Perryton, Mrs. R. H. Brown, Durant, Okla., Mr. and Mrs. Fred Bull, Kelly Field, returned to their respective homes Saturday following a two week trip to Aberdeen, Miss., and Ashland, Alabama. The Bulls were visiting with Mr. and Mrs. F. L. Fain, Ashland. Mrs. Edwards and Mrs. Trolinger stopped off at Aberdeen to visit with relatives.

Senior Principal

E. D. Kelley, who has been serving the Perryton schools as Junior High school principal, was promoted this year to Principal of the Senior High School. Mr. Kelley has his B. A. and M. A. degrees. Students, classed as Seniors this year, will register Friday morning, September 6, from 9 to 12. The Juniors and Sophomores will report at 1 o'clock Friday afternoon. Registration of senior high students will be in the auditorium.

C. WEDGEWORTH

Students who will be seniors this year will register Friday morning from 9 to 12 in the auditorium. All sophomores and juniors will report in the auditorium Friday afternoon at 1 o'clock. Junior high students (6th, 7th and 8th grades) will register Friday morning at 9 o'clock, in the Junior high study hall.

There will be two meetings of faculty members this week. On Friday morning, September 6, at 8:30, See No. 5, Back Page

Lawrence to Head Sons of The Legion

The Pierce Johnson Squadron of the Sons of the American Legion will install officers for the coming year on Friday evening, September 6, at 7:45, at the American Legion Hall. Harold Hudson, retiring Captain of the Squadron, will be in charge of the installation. Gene Lawrence is the new Captain.

Other officers, who take office Friday, are: John L. Luthi, sergeant-at-arms; Jack Allen, historian; Tom Boston, chaplain; Oscar Blank, 1st Lieutenant; Clifford Gyger, 2nd Lieutenant; Billy Ray Thomas, finance officer; Billy Herndon, adjutant.

All members and eligible members are urged to be present Friday evening. The squadron meets the first and third Friday night of each month. A membership drive for 1941 members will be started in the near future. The retiring officers, who have served since the Squadron organized in the spring, are: Harold Hudson, captain; H. D. Hearn, 1st Lieutenant; Clifford Gyger, 2nd Lieutenant; Clinton Hearn, adjutant; John L. Luthi, sergeant at arms; Sidney Murel Jines, finance officer; Bill Herndon, chaplain; Jack Morris Allen, historian.

Fire Call Monday

A grass fire at the rear of the American Legion hall Monday morning brought the fire department on the run in answer to a call sent in at 10:25 o'clock. The blaze was quickly extinguished before serious damage resulted. The fire was thought to have originated from a trash barrel.

Friday Entries To
State Fair in Amarillo

Francis Weishold, Lipscomb demonstration agent, in Margaret Moser, Stinson, will judge the home demonstration and 4-H Club Exhibit at the Perryton County Fair Monday morning at 9 o'clock. All products must be ready for judging according to Mrs. Hazel Martin, county home demonstration agent. The labels cannot products may be at the agent's office.

annual exhibit will feature dairy products, canned goods, and educational exhibits. The prize winning exhibit is taken to the Tri-State Fair this month. Prizes paid with the cooperation of Commissioners' Court.

Martin said that the County would be open to the public before being re-opened. It is expected that the day will be a busy one, with many people coming to see the exhibit. The exhibit will be open from 9 o'clock to 5 p.m. on September 11.

Waka Club will show the exhibit of most in oil with Arvin Groves as chairman. Then will present the method of root vegetables in a vegetable garden. Mrs. James Hardy is in charge.

Waka Club under the direction of the Sharp will exhibit the farm women. The exhibit will be in the home of the Ochiltree County Fair.

Waka Club will have an exhibit of the cabinet of the county. The exhibit will be prepared by the Waka Club. The exhibit will be in the home of the Ochiltree County Fair.

Cornell, Buckeyes and Texas Aggies Look Good for 1940

BY ART BRONSON

THERE'S a world series yet to be played but the booming sound of foot against pigskin is echoing on all fronts.

The collegiate gridiron battalions are in camp and preparing for the season. In another couple weeks they'll start hitting the championship trails.

In the east it looks like Cornell is headed for another big year. The same line returns intact which led the Big Red to an undefeated season a year ago. Most of the back comes up again, headed by Capt. Walt Matuzsak and Vince Eichler.

Fordham, perennially strong, needs only a little more reserve strength up front, but the prospects are there. Pennsylvania's hopes are rather bright and so too are Penn State's. Beyond that quartet there appear to be no stand-out teams.

ITS Ohio State and Michigan in the Midwest, with the Buckeyes' Big Ten champions headed for a banner year. Don Scott heads the best backfield in the nation.

Notre Dame won't be quite as strong as it was a year ago. Minnesota also shapes up well.

Nebraska, Oklahoma and Missouri should lead the way in the

Big Six with the Cornhuskers regarded as pre-season favorite. Paul Christman lost most of the teammates which sparked Missouri to a big season in 1939.

Tennessee, Tulane and North Carolina, the three top teams in Dixie a year ago, look like the best bets again this trip, with the Vols basking in the No. 1 spot. Watch Alabama is also a word of warning.

ALL-AMERICA John Kimbrough is the chief reason why Texas A. & M. is an outstanding choice to repeat in the southwest, and possibly repeat as the No. 1 team in the nation, as well. There's plenty on hand to help Kimbrough, too.

Texas Christian and Southern Methodist are other contenders. The Rocky Mountain sector lists Colorado, Utah and University of Denver in just about that order as pre-season hot-shots.

Out on the coast Southern California will have a battle to keep the level of a year ago when Troy wound up a Rose Bowl winner over Tennessee. A lot of material graduated, including Grenny Landell and Amby Schindler, but Howard Jones has plenty left to combat the threat of Washington and Oregon State.

East of Boyd

We had a good rain Monday night, September 2.

L. C. Bayer has been threshing barley.

Mr. and Mrs. Vernon Ratzliff recently moved a house from near Turpin to the farm where they are living.

Mr. and Mrs. Alden Rodgers and son, Royce, spent a few days last week at the home of Mrs. Rogers' parents, Mr. and Mrs. John A. Beck, near Kremlin, Okla. Marilyn and Jimmie Rodgers, who spent part of the summer with their grandparents, returned home with them.

The pupils from Liberty and Pleasant Valley districts are attending school at Turpin. Mrs. George Kirtan is driving the school bus.

Mr. and Mrs. Harold Olt and children, Neil, Don and Rosa Lee, of near Turpin visited relatives near Boyd, Sunday.

Mrs. Harry Holt and daughters, Melba and Margie, who have spent the summer here returned to their home near Del Norte, Colo., Wednesday.

Patsy Atkinson, Liberal, Kansas, is staying at the home of her grandparents, Mr. and Mrs. Fred Whittier.

Mrs. W. G. Price, Arnett, Okla., arrived Sunday to be with her daughter, Mrs. Elmer Rupprecht, while she is recuperating from an operation.

Mrs. Keith Drum Is Buried in Beaver

Impressive last rites were held in the Christian Church in Beaver, Okla., Thursday afternoon, August 29, for Mrs. Keith Drum, who passed away in the Perryton Hospital Wednesday, shortly after the birth of a son. Mrs. Drum is the former Phebe Jane Bolin, daughter of Mr. and Mrs. John L. Bolin, who have been making their home in Perryton the past year. She is a cousin of Helen Buckland Hergert of this city and had visited here many times.

Phebe Jane was born in Hutchinson, Kans., May 2, 1917. The greater part of her life was spent in Forgan, Okla., where she graduated from high school. She attended the University of Oklahoma four years and was a member of the Gamma Phi Beta sorority and the Sigma Delta Chi, National Journalism organization. Phebe Jane was married to Clifton Keith Drum of Beaver, Okla., on August 20, 1939.

The husband, son Clifton Keith Jr. and her parents survive. Phebe Jane was a member of the Methodist Church. Her Christian life was exemplified in her sweet, cheerful disposition and her many acts of kindness, which made her loved by all who knew her. Burial was in the Beaver cemetery.

Attending the funeral from Perryton were Mrs. G. L. Kengle and sons, Billy Buckland of Liberal, Kans., and Joe Buckland of Dallas; her daughter, Mrs. Irvin Hergert; Mr. and Mrs. C. E. Whipple, Mr. and Mrs. Blansit Carter, Mrs. Henry Richardson, Mrs. G. W. Acker, Mrs. LaRue Norris, Mrs. Nell Vernon, Miss Clara Bailey, Mrs. W. E. McMillen, Mrs. R. T. Correll, Mrs. Jay Oxford, Mrs. J. M. North and Mrs. Ida Wickham of Wichita, Kans.

Boyd, Oklahoma

Weather was threatening Monday night, and a very good rain was received.

Joe Claybrook pulled broomcorn last week and has several helping him this week.

Ed Claybrook is working a crew of seven men and has lost but little time on account of the rain.

We sympathize with the L. B. Dowers family in their loss last week by fire. Mrs. Dowers was canning and said the glass tank on the oil stove burst, and then the kerosene caught on fire. They lost most of their bedding and clothing, and the interior of the house was badly burned.

Ed Niece and two uncles from Elk City are here for the broomcorn harvest.

Mrs. Ella Carter celebrated her 82nd birthday, Wednesday. Several friends and neighbors called thru the day. She received many nice cards and gifts, one of which is a lovely potted jewel plant from Miss Weatherly and her mother. This plant is of the cactus family and so named because of its beautiful blossoms. Each blossom remains pretty a month and it blooms constantly.

Mr. and Mrs. Jim Randier and Philip were Sunday visitors in the Ed Claybrook home.

Miss Lila Weatherly and brothers called at the Ed Claybrook home Sunday afternoon. Miss Weatherly teaches in the Liberal schools and began her duties, Monday, September 2.

Mr. and Mrs. L. H. Lance returned Sunday from Fort Worth where they were called Wednesday by the death of Miss Elhel Tyson, a close friend and namesake of Mrs. Lance.

Mrs. J. E. Nichols and son, Richard of Preston, Kans., spent the week-end visiting with the Arvie Hale family.

PAINT and WALLPAPER at Daley Glass Shop. 18-U-C

Air Raid Shelters' Value Proved

Although bombs fell all around them and destroyed their homes, residents in London suburbs remained unharmed in their air raid shelters. Amid the debris of bomb-wrecked homes above, the shelters remain intact.

Hooded Coat Of Camel's Hair

This substitute for the traditional polo coat, made of the same soft camel's hair material, has a full swagger back, wide shoulders and a flattering hood. It's worn by actress Joan Blondell.

Mr. and Mrs. Gordon Wright, Beaver, Okla., spent Monday night with her parents, Mr. and Mrs. J. F. Klapp. They were enroute home from a trip to Carlsbad Caverns and New Mexico points.

Mr. and Mrs. Tom McLarty had as their guests for dinner Monday evening Mrs. W. W. McLarty, Mr. and Mrs. Vernie Black of El Paso, and Willard McLarty.

Chester McLeroy Is Manual Arts Teacher

Chester H. McLeroy, Center, has been secured by the Perryton Schools as teacher of Manual Arts and coach of the Junior high school football team. Mr. McLeroy did his work at Commerce Teachers College and Stephen F. Austin, and comes highly recommended by the college authorities.

Manual arts or manual training is a special and distinct department in the Perryton schools. This is an elective course, and students will be privileged to do a minimum of two credits in Manual Arts toward graduation.

Mr. and Mrs. Claude Shearer, Booker, announce the birth of a son Monday, September 2, in the Beaver Hospital. He has been named Otis Claude III. Mr. and Mrs. Otis Shearer of the Shearer Produce are the proud grandparents.

Mr. and Mrs. C. R. Waide and daughters of Denton County spent last week visiting in the home of Mr. and Mrs. S. F. Waide of the McMillen community. C. R. and S. F. are brothers.

Miss Virginia Good left Saturday for Sanford, where she will teach in the public schools this winter.

Mr. and Mrs. R. A. Kennedy and daughter, Carmen Lynn of Childress spent Sunday and Monday in the home of her parents, Mr. and Mrs. Clyde Cofer. The Cofers took them back to Childress Monday eve.

Martin Dies Speaks In Amarillo Fri.

AMARILLO, Sept. 2—Revelations about what he terms communistic and fascist activities in the Southwest, among certain movie elements and labor groups on the West coast, and in the industrial centers of the East are expected to be made by Congressman Martin Dies of Orange, Texas, when he comes to Amarillo, Friday, September 6 for two addresses. He will tell what he has learned about "fifth column" activities in America.

The celebrated chairman of the House Un-American Activities Investigating Committee will speak at 2:30 in the afternoon and at 8 o'clock at night in Amarillo's renovated Municipal Auditorium.

Capacity crowds are expected for both appearances. Admission for the afternoon address will be 50 cents for any seat. At night it will be 50 cents for balcony seats and 75 cents on the lower floor. All proceeds above actual expenses will be given by Mr. Dies and the News-Globe, the sponsoring organization to charity. The arrangements are similar to those observed on Mrs. Eleanor Roosevelt's lecture tours.

There will be no reserved seats, but those who wish to avoid standing in line at the box office may buy tickets at the News-Globe in advance.

Out-of-town visitors are urged to attend early to be sure of seats. However, a public address system will make the address plainly audible anywhere in the house.

Georgia Hurlhey spent Sunday and Monday in Higgins with her father, H. H. Hurlhey, who has been a hospital patient there for ten days. She moved him to his home in Lipscomb Monday.

Mr. and Mrs. Norman Crum are the proud parents of a daughter born in the Shattuck Hospital Wednesday morning, August 28. She weighed 7 pounds and 3 ounces and has been named, Karen Cosette. Mrs. Crum and daughter were removed to the Crum's new home near Farnsworth, Saturday.

Samuel Earl McClung, area supervisor of the National Youth Administration out of Amarillo, was in Perryton on official business last week and while here visited with his parents, Mr. and Mrs. R. H. McClung. Earl is taking a course in primary ground aeronautics at Canyon.

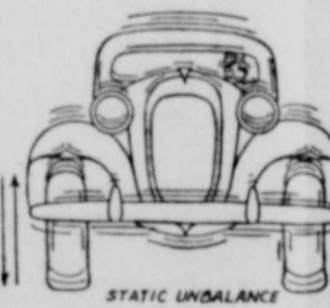

S. N. Edmundson left Tuesday to join Mrs. Edmundson in San Antonio after a weeks stay with C. M. Bryan and Miss Bette at the Hotel Perryton.

NOTICE!!!

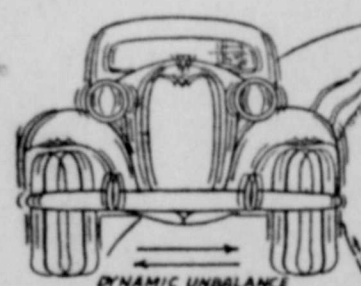

R. B. TYSON, assistant secretary of the Canadian Valley Production Credit Association, will be in Perryton each Thursday to take care of Association business at the White House Lumber Co. old office.

A four-engine bomber plane, a four-motored craft with a 210-foot wingspread, is shown in completion at Santa Monica, Calif., plant. Capable of flying 6,000 miles with a crew of 10 men, it will require enlargement of airport before it can be tested.

Four New Movies Released by Ford

Four new movie features ranging from a symphonic fantasy in technicolor to a picture tour of the 1940 World's Fair have just been released by the Ford Motor Company.

These productions are available, without charge, for showing before school and church groups, service clubs, and various civic organizations and private clubs requesting them.

"Symphony In F," one of the first "stop action" movies made in technicolor, sets a new pace in screen technique and screen entertainment. With Linton Wells, famed CBS news analyst as narrator, the 15-minute feature traces in an extraordinary manner the far-reaching influence of the motor car industry throughout the world in gathering raw materials for the automobile.

Doll-like figures which animate the Ford Cycle of Production exhibit at the New York Fair step into the same characterizations for "Symphony In F." The farmer, chemist, lumberjack, miner, cotton picker, rubber man and transportation worker all dramatize in song and action—their parts in pouring raw materials from all points of the compass into the Rouge plant, world's greatest industrial unit.

The movie swings from fantasy to actual pictures in color of various manufacturing processes at the Rouge, with comments by Wells on scenes in the steel mill, glass plant, plastics division, motor assembly building, tire plant, fabrics division and on the final assembly line.

Building of the 28,000,000th Ford car in fantasy concludes the "Symphony." Various automobile parts take on life-like appearance as they parade to the assembly line.

Other new Ford movie releases include "While The City Sleeps," showing some of the amazing but little-known tasks performed by night workers in a big city; "Keep This Under Your Hood," an animated cartoon drama of what occurs inside an automobile engine; and "Scenes From The World of Tomorrow," a six-minute pictorial whirl over, around and through the New York World's Fair.

The films are distributed through Ford dealers and Ford Motor Company branches. Showings can be arranged upon request to dealers.

Blue Mound

Blue Mound School started Monday morning. Mrs. George Peters and Miss Louise Cochran are the teachers.

Malvin Grossenbach and his sister, Nora, have returned to this community to take up the work in the Blue Mound Church. They will also be on duty at the Unity Chapel, Perryton.

The home of Mr. and Mrs. F. Dowers was destroyed by fire Friday afternoon. The glass containing which held the oil for the stove was accidentally broken causing the oil to spread over the room. The stove was lit and in a very short time the entire room was in flames. Everything was lost.

Mr. and Mrs. H. E. Patterson and son, Charles, drove to Amarillo Saturday to take Miss La Janta Patterson, who will enter business college.

Mrs. C. E. Knox and son, Conrad of Alva came in Sunday to do their plowing and drilling.

Mrs. L. V. Noe and father, Fred Clark, visited Friday with Mrs. Jim Sims.

Miss Mildred and Clifford Pulis, their mother, and LaVaun Patterson spent Saturday night and Sunday visiting in Amarillo.

Miss Anna Bell McCarter left Monday for Amarillo to enter business college.

Mr. and Mrs. C. E. Presnell were in Liberal Monday. Mrs. Presnell is taking treatments from Dr. Pellette.

Pat Patterson is working for Mrs. Nanny Huguley.

Miss Ester Stagner has been visiting the past ten days with her sister, Thelma, who stays in the home of Mr. and Mrs. A. W. Wentworth.

Miss Mattie Earnhart, formerly of this community but now living in Tabor, Iowa, is in the Shafack hospital for treatment.

The wedding of Miss Fay Noe and Mr. Marion Lee Single, both of Lamar, Colo., took place August 16 in the home of Mrs. Lucy Bondurant. The bride is the daughter of L. V. Noe of this community—Mrs. H. E. Patterson, reporter.

Honor First Americans at Meeting, September 18

AMARILLO, Texas—The original Northwest Texas Pioneer—the red-man—will be honored on the occasion of the annual meeting of the Panhandle Old Settlers Association, Wednesday morning at ten o'clock, September 18, when residents of this section for 25 years or more convene at the Tri-State Fair.

Whereas in the past it has been the custom to dedicate the program to the White Americans, at this time the First Americans will receive this distinction. It is planned to have an ALL INDIAN program. Every person having a formal part will be of Indian extraction, and will appear in full costume.

Both of the main speakers of the day participated in the Adobe Walls Battle, June 27, 1874. John Otterby—Chief Lean Elk—, Cheyenne Indian, born at Fort Laramie, Wyoming in 1864, was with the Buffalo Hunters and was in the Adobe Walls fight on the side of the whites, and against his people. Dr. Joseph K. Griffin-Tahan, reared by the Kiowas, fought against the Buffalo Hunters.

Chief Lean Elk, Indian Interpreter, Scout and Delegate to Washington, came to the Panhandle as a boy of ten years. He hunted buffalo and lived with the hunters until the cattlemen came. Later he served under General Sheridan as an interpreter, then a scout, teacher, farmer, and delegate from the Indian Commission to represent his people in Washington.

Dr. Griffin-Tahan's life story is as colorful and adventuresome as a western thriller. He was born near Gainesville, Texas in 1859, son of a white father and Osage Indian mother. Tahan will tell a story in the picturesque eloquence of the Red American in the perfect English of the White American. Out of savagery into civilization Dr. Griffin will give his amazing experiences which have been substantiated by Governmental and other records. Captured by a tribe of Kiowa In-

dians he was brought up as an Indian, and it was many years before he learned of his parentage. He lived in the Panhandle until captured by General McKenzie in 1875. His Kiowa Indian wife aided him to escape from prison chains, and he became a Robin Hood in his own right. Tahan was persuaded to join the Army where he served for several years. He was condemned to death for shooting an Army Officer after drum-head court martial, escaped and was a fugitive for many years. He fled to Canada, was befriended by the Salvation Army, and became one of their workers. He was placed in jail for beating a drum, and while serving his jail sentence he learned to read. Following his release he drifted to Buffalo, was ordained a Presbyterian Minister, and became Pastor of one of the largest Presbyterian Churches. Through the efforts of friends he was pardoned for the slaying of the Army Officer by President Cleveland. Tahan is famous as an author and lecturer. He wants to come back home to live somewhere in the Palo Duro Canyon.

Panhandle Old Settlers will have the privilege of hearing both of these distinguished First Americans Wednesday morning, September 18, at ten o'clock at the annual meeting. Any person living in the Panhandle for twenty-five years is eligible for membership. The registration fee of \$1.00 takes care of a life membership, and entitles one to the Old Settlers' badge. The Panhandle Old Settlers Association is one of the oldest, if not the oldest organization in the Panhandle. The

Farm Gardens Provide Food

COLLEGE STATION—Corn-on-the-cob, black-eyed peas, fresh tomatoes, with young onions and cornbread make as good a meal as anyone could want. This is typically seasonal food, and in many sections of the state it is available in home gardens or from nearby farms at low cost.

As good as corn-on-the-cob and peas can be, some cooks don't do them justice, in the opinion of Nora Ellen Elliott, specialist in food preparation for the A. and M. College Extension Service. For instance, most vegetables are best prepared and used as soon as possible after they reach the home kitchen. Peas and corn, especially, lose much of their flavor after standing only a short time.

For corn, remove the husks just before cooking. Plunge the ears into boiling water and cook from 6 to 12 minutes depending on the age of the corn. Do not salt the cooking water as this toughens the corn.

Peas should be cooked in as little water as possible just until tender—then serve simply with butter or some other well-flavored fat and light seasonings. If the vegetables are not to be cooked at once, store them in a covered dish in a cool place so as to keep crisp, Miss Elliott advises.

Mr. and Mrs. Dewey Allen and children, Kathleen and Norman, Doc and Alfred Carter and Clarence Lewis enjoyed the week-end at the Allen cabin near Las Vegas, N. M.

Mrs. Alton Glasgow, Erick, Okla., visited last week with her aunt, Mrs. A. C. Whit and other relatives.

Named Secretary Of Agriculture

Claude R. Wickard of Indiana, above, succeeds Henry A. Wallace as secretary of agriculture in President Roosevelt's cabinet. Wickard served as under-secretary under Wallace, who resigned to campaign for the vice presidency.

TAKE A TIP FROM A SMART, OLD BIRD . . .

It's Wise to FIX-UP for FALL

• ROOFING

We carry a complete supply of all types of roofing and insulation.

• MILLWORK

Whether you wish to replace worn-out millwork or install new storm windows, this is the place to come.

• GOOD LUMBER

We have what you need for every purpose . . . and at prices that are really reasonable.

• PITTSBURG Paints

Your every redecorating need can be satisfied here.

If you check your home this fall and fix-up all those little things that may have developed during the long, hot summer, you'll be assured of a warm, comfortable home all winter long. A small leak in the roof can very easily be patched up now. Later it can develop into an expensive re-roofing job as well as cause you plenty of inconvenience and discomfort. So take the time now to go over the entire house from top to bottom, inside and out and you can forget winter weather worries as far as your home is concerned.

Take Another Tip From This Smart, Old Bird . .

BE WISE Buy Your Supplies Here

When you've decided what your home needs to put it in tip-top shape for the wintry winds to come, come over to Perryton Lumber and let us help you with both good advice and fine material. Our years of experience will help you get your money's worth for every cent you spend for repairs and our low prices on quality building supplies will help you further in making your home "ship-shape" at very low cost.

Wehrle Looms as Big Threat For Ward's Amateur Title

BY ART BRONSON

ONLY nine men in the 43-year history of the National Amateur have ever won the title twice.

Not only must Marvin (Bud) Ward of Spokane, Wash., beat this jinx, but a crack field which contains at least two shot-makers expected to be right up in there in this year's classic at Winged Foot, Mamaroneck, N. Y., Sept. 9-14.

Keep an eye on Wilford Wehrle of Racine, Wis., and Big Jim Ferrier of Australia, the word making the rounds.

Ward was the favorite a year ago, but an appendicitis operation put him out of the running a few days before the tournament opened.

Wehrle has come back since then—a long way. He led all the amateurs in the National Open at Cleveland. He has been playing consistent golf all summer. His touch has been sure, his shots crisp.

FERRIER, the pleasant, powerful swinger from Down Under, has been touring the country with good results. Critics expect him to hit a blazing streak before he goes home and the Australian champion often has confided that he has been pointing for the U. S. Amateur.

Only Bobby Jones and Lawson Little have ever worn the crown two years in a row, but Champion Bud Ward certainly isn't without the equipment to do likewise.

Ward played some great golf to win the Western Amateur and he has all the shots a champion needs.

Golf, it should have been explained in the first place, is one of the toughest sports in the book in which to pick a winner. The quality of competition is too near equal and much depends on luck and the breaks of the game.

THIS year's amateur would have a star-studded field even if only former champions were entered instead of a supplemental contingent of those who made the grade in qualifying rounds.

Marvin (Bud) Ward . . . defends national amateur golf championship.

Ray Billows was runner-up a year ago to Ward and also to Johnny Goodman in 1937. The Poughkeepsie star has too much good golf in him to be denied forever.

Former champions who will attempt to wrest Ward's crown from him are Willie Turnesa, Charley Yates, and Johnny Fischer. Frank Strafaci of Brooklyn and Art Doering of Medina, Ill., also know what to do with their niblicks and putters.

It'll be no lark for Champion Ward.

Wool Pinafore For Campus Wear

Alice McGrillies of Verona, N. J., who will be a junior at Wellesley College this fall, models a new note in campus fashions. It's a reed-slim pinafore of black crepe. College girls like to wear sweaters as well as blouses with pinafores.

Color of walls and ceiling is an important consideration in planning lighting for the dining room as well as the living room and bedroom.

Intelligent feeding and management of the cow before calving insures a strong and vigorous calf.

A female housefly may become a great-grandmother in 60 days.

A man with a hoe is the best weed-killing machine.

The "dairy diet" means a quart of milk a day, one-half pound of butter a week, 12 pounds of cheese a year, ice cream when available, and some dairy products in cooked foods.

Sadler Shows Here Friday

Elsewhere in this issue you will find an ad heralding the coming of America's oldest and leading stage shows for one night only, Friday, September 6. The big tent show will be presented south of the courthouse under the auspices of The American Legion.

For something like 25 years this popular company has been playing here each season, and this year according to Mr. Sadler, the people of Perryton have a real treat in store for them in the way of a stage attraction. He has gone to the four corners of America for talent, which includes singers, dramatic artists, musicians, dancers, the best that could be found in their respective lines. Many new features will be introduced. Special scenery will be provided for each play. Harley has selected as his opening play a domestic comedy drama entitled "The Lovable Old Grouch," a brand new play that the Sadler company has never presented before. An outstanding feature this year will be the vaudeville talent, which will be presented by 30 minute presentations preceding the show. This presentation will be under the personal direction of Mr. Dick Darling, who joined the Sadler company direct from a Metropolitan engagement. Special costumes and Strobe-light electrical effects which might be termed technicolor in vaudeville will be used, a feature not seen before in the southwest. The doors will open at 7:15. The vaudeville program starts at 8:10. Popular prices will prevail. General admission prices are 10 cents for children and 20 cents for adults. Special reserved chairs are 10 and 20 cents extra, government tax included.

Mrs. W. C. Sanders, Blackwell, Okla., spent a few hours in Perryton Monday afternoon visiting with friends. She was in Higgins over the week-end and Mr. and Mrs. Cecil Dodd and daughters, Nancy and Addie Lou, went there for her.

CCC Boys, Ignorant of Combat, Can Perform Vital Battle Work in Army

Weep no more because the boys of the CCC have not been trained in the manual of arms and close-order drill.

They have learned other things that make them more vital cogs in the system of national defense, that makes them in fact, men too valuable to be handed a gun and sent into the front lines.

If war comes, the men of the CCC will be specialists in a dozen fields, masters of noncombatant technique as vital to the carrying on of conflict as firing a rifle or machinegun. Here are the things they know that make them soldiers already, in fact if not in name.

They know how to live together in barracks, under discipline that is as rigid as that of an army camp even if punishment is less severe. Any psychiatrist can tell you this alone is an important factor in the making of a soldier.

Thousands of them know minutely the workings of engines, and how to tear them down and rebuild them in a hurry. Modern war travels on its machines, and the CCC mechanic would fit perfectly into the personnel of a mechanized division. A tank is only an armed and armored tractor, and the CCC mechanic who knows the workings of a caterpillar would find the motive machinery of a tank no puzzle.

Many of them are expert drivers of heavy tractors. There is little difference in the process of driving a tractor and driving a tank.

Many of them are expert drivers of transport trucks. It is the same truck, loaded and handled by the same military rules, as the truck a soldier driver would handle.

Many of them are expert welders. There is no difference in patching the steel flanks of a tractor torn by a landslide and patching a steel flank of a tank torn by a shell.

Many of them are expert telephone men. There is no difference in laying an emergency line from a CCC camp to a fire-fighting crew in the woods and in laying a line from a command post to an observation outpost in no man's land—no difference except the danger of death, and not even the army can train its men under actual battle conditions.

Many of them are expert woodworkers, and there is no difference in the tools and techniques used in making wooden frames for truck cabs and the tools and techniques in making wooden pontoons for bridges.

Many of them have better than a fundamental knowledge of the use of surveyors' instruments and the techniques of throwing a temporary span across a stream. There is no difference in their talents in these lines and the talents of the German "pioneers" who kept the mechanized troops of Hitler moving even though bridges were down in their path.

Many of them know the operation of field radios, having been trained in this task by fighting fires. There is no difference in their knowledge here and the knowledge of the signal corps man in the army.

There are even parachute experts among them. In the far northwest CCC men have been trained to jump from planes to fight small isolated fires in backwoods areas where no truck trails lead. They are supplied by planes dropping equipment packs and keep in touch with headquarters by portable radios.

There are expert photographers among them, and mapping a forest by photography is little different from mapping a battle terrain.

Know First Aid

They all know first aid. There is no difference in patching the leg of a comrade struck by a splinter of shell and in patching the leg of a comrade gashed by a falling rock. There are expert cooks among them. They cook the standard army ration on the standard army range, with the standard army utensils.

There are expert cooks among them. They cook the standard army ration on the standard army range, with the standard army utensils.

They observe the army standards of cleanliness and of order at table. They have been soldiers all along, whether they knew it or not. They are soldiers now—trained in everything but the techniques of slaughter.

The day of a CCC enrollee, followed from dawn to dark, shows clearly how close their lives parallel the life of a soldier in camp.

They rise at 5:30 to the notes of a whistle instead of a bugle. They dress in the same fatigue clothes that a soldier would wear. They go through the same calisthenics that a company of soldiers would go through.

Early Breakfast

They go in to breakfast at 6 o'clock—the same breakfast they would get in an army camp. At 6:30 they police the camp, the same routine a soldier would follow, even down to making the beds and folding the covers back in the regulation West Point fold.

They stand to for roll call, just as the soldier answers drill call. Even the terminology of the army is used. A company is a company and though a squad is a "crew," the man who heads it may be on the books as "assistant leader," but to the men he is a corporal. By the same token the "senior leader" may draw his pay under that title, but to officers and men alike he is "first sergeant."

At 7:05 they load into trucks, to be hauled to road or forest for their job. If they were troops enrouteing to be hauled up to the battlefield they would not vary this routine one whit.

Mess is hauled to them on the job, and they eat from the same mess-kit that a soldier uses. The food brought up to them in the same marmite cans that would be used by an army field kitchen sending grub to the front.

At 3:45 they are back in camp, to take up again a routine almost exactly like that of the army. They go to school at night, to study the specialties for which they have shown talent. They read or relax in a recreation hall. They turn in at 9:30 when the "lights out" whistle blows.

One might well wonder just how many men have been trained in these special techniques that could so quickly be converted to wartime use.

What Has Been Done

There are 1,500 CCC camps. There are 44 central repair shops now training 2,000 skilled mechanics and there will be 63 by fall. In addition, each of the 1,500 camps has its own garage, giving basic mechanical training to 9,000 men a year. There are 40,000 pieces of automotive equipment operated by enrollees. A total of 72,000 of them a year learn to operate trucks, tractors, bull-dozers, drag lines and scrapers. More men learn than are used in actual operation of machinery. In 1933, 45,000 learned to drive trucks and tractors, 40,000

learned how to repair them, 17,000 learned blacksmithing and 2,000 learned electric welding. Cooking and baking schools have trained 22,000 men since the CCC was founded in 1933. An army still travels on its stomach. A CCC cook is as good as any to keep that stomach filled.

Last year alone 52,000 men learned first aid. Since CCC was founded, 300,000 have graduated. There are 3,000 CCC medical aides and orderlies in camp hospitals.

As engineers they have built 114,000 miles of roads over the roughest terrain in the United States. They have spanned streams with 7,000 bridges. As communications men they have laid 79,000 miles of telegraph wire through rough country.

American Home

I WAS WOUNDED FIFTEEN TIMES IN THE WAR. ONE NIGHT WHILE PICKING WATER, A FARMER PEPPERED HIM WITH ROCK SALT.

TELL ME WHAT TO DO—I WAS ATTENDING WEDDINGS BEFORE YOU WERE BORN.

IDENTIALLY, DAD, I THINK YOU OUGHTA GIVE UP.

TO DO MY BEST BEFORE SUCH A CROWD, BOSS. YOU FORGET I DUG IN CHICAGO AND KANSAS CITY.

Dispelling the Fog

By CHARLES MICHELSON
Director of Publicity, Democratic National Committee

The utilities party candidate, like most men suddenly taking on a new executive job, is disposed to do it all himself.

This is probably the explanation of a number of the political errors with which Mr. Wilkie is beginning his campaign. Had he consulted such veteran strategists as Joe Martin, Republican leader in the House of Representatives, or any one of the other seasoned campaigners in his train, he would not, for example, have denied his Tammany membership. This event in his career rose to smite him when he began his investigations against what he called the machines among the Democratic organizations. They would have known, for example, that Tammany Hall is merely a popular designation of the official Democratic organization of the Borough of Manhattan and that every member of the district clubs is by virtue of that membership a member of Tammany Hall. So when Mr. Wilkie enrolled and paid dues to the Grover Cleveland Democratic Club in the silk stocking district in which he resided, he was in Tammany Hall, together with a large number of other residents of social, political and financial eminence.

However, Mr. Wilkie declared that the mention of his affiliation was a "plain and simple falsehood." This statement resulted in the publication in a great number of newspapers of a facsimile copy of the report of his election as a Democratic county committeeman on the ticket committed to retain in office the Tammany leader of the district. The Presidential candidate was even more emphatic in his denunciation of the statement by Secretary Ickes that he had extolled Samuel Insull, that other utility magnate, the collapse of whose empire involved the ruin of innumerable stockholders. And again he was confronted with a photographic facsimile. This showed part of a speech that Mr. Wilkie, president of the Economic Club of New York, made to that distinguished body and in which he referred to "one forceful, dynamic and attractive figure, Mr. Samuel Insull."

Mr. Wilkie's more experienced associates would have found a better way of handling an awkward situation than through flat denials which were bound to be so quickly and authoritatively refuted.

A third incident concerned the city of Elwood, chosen as the scene of his acceptance speech. Elwood, it appears, distinguishes itself by a local rule forbidding any Negro from living there. This rule was in full force and effect during Mr. Wilkie's residence in Elwood, where he took part at least in the governmental activities and could hardly have been without knowledge of the anti-Negro regulations. His sole quoted reply to this recital was "bunk." Yet there are on record various instances of the actual fact.

There is, of course, nothing individual in a Democrat's membership in a Tammany organization, nothing supremely disgraceful in the fact

Woodward Rodeo September 6-7-8

WOODWARD, Sept. 4—(Special)—Woodward is a hustling, bustling cowtown full of horses, hitching posts, cowboys and cowgirls. It's the old frontier days, in the 20th century, for the 12th annual Elks rodeo starts this week.

Hundreds of cowboy contestants have arrived and are sitting on street corners waiting for the opening of the first night rodeo Friday, September 6th. \$6,000 in prize money will be given away over the week end for the cowboys winning in the calf roping, steer riding, bulldogging, bronc busting and steer roping events. Four rodeos will be shown. Two night shows, the first ones in the Elks history, Friday and Saturday at 8 p. m. Two day shows will be held Saturday and Sunday at 1:30 p. m.

Two frontier parades will be held. Friday afternoon at 3 p. m. and Saturday morning 10 a. m. Boomer wagons, old stage coaches, pony express, Indians cowboys, bands all will make up this frontier parade which is truly an epic of the west.

The Elks announced a brand new track show. 15 feature events in all. Trick riders, ropers, clowns, a peanut vendor, Indians and a host of acts.

From present indications some 50,000 people will see the four shows this week end.

Mr. and Mrs. Dorrance Woodward and daughter, Janice Sue of Amarillo visited Sunday and Monday with his parents, Mr. and Mrs. J. H. Woodward.

Mr. and Mrs. Omar Barnes of the McMillen community were visiting relatives in Panna, Sunday.

Office Supplies at Herald office!

Misses Edna Gail, Velda Jean and Gracie Lee Summers of Enid, Okla., are guests this week in the home of Mr. and Mrs. R. C. Allen. The girls' parents, Mr. and Mrs. Jess Summers brought them and went on to Colorado for a weeks stay.

Mr. and Mrs. John North, Norman, Okla., were in Perryton over the week-end visiting with his mother, Mrs. J. M. North and in the home of his sister, Mrs. Clyde Cofer. Mrs. North returned home with them for a visit.

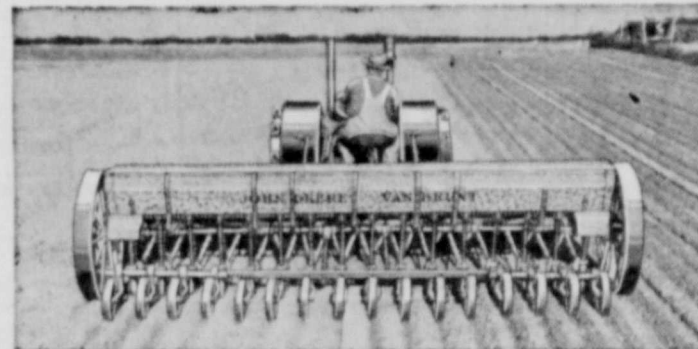

Strength First

These days insurance buyers want to know more about the company back of the policy. Rate concessions mean less to them than the reputation and financial security of the company in which the insurance is written. We represent strong, reliable stock insurance companies.

Wooden Horses

It takes longer to fit a wooden merry-go-round horse for riding than it does to raise and train a real colt.

Time hasn't changed those gaudy steeds, in their rigid prancing stances, which are the delight of every park-going youngster. The carousel itself, once the steeds and the chariots are ready, isn't a difficult thing to manufacture. With modern techniques, it can be made in about five weeks.

But not so the wooden animals. They're still fashioned by hand, and it requires five years to turn out one worthy to ride in the cacophony of the endless circle.

The carving itself is a long and tedious process, and then the merry-go-round horses must be "stabled" for years to dry properly, so they won't warp or decay. Only then are they ready for the paint.

All of which may not be very important in a world of the speed-up and the assembly line, except as it emphasizes that there is still a place for the skilled individual craftsman.

It's Emerson's old story of the better mousetrap all over again. Whenever an individual, fired by some inner spark of genius, produces a product which is better than that made by any other person, the world will beat a path to his door.

Not for him are the worries of unemployment, the insecurity of the seasonal trade. Wars may come and go and nations may topple, but the craftsman with pride in his work and the skill to back it up need have no fear.

He has forged his own brass ring in this mad merry-go-round.

Shoe on the Other Foot

Theorists in this country have from time to time taken some pretty vigorous whacks at advertising, intimating that it places an unfair burden on the consumer. And various high officials in Washington have declared publicly that they believe government should regulate advertising; that too much money is spent for advertising by manufacturers, wholesalers, and retailers; and that the cost of such advertising raises the price of goods or services.

It will be news to many readers, therefore, to learn that a brand new advertiser has now appeared in the paper match-cover field. The new advertiser is a branch of the Federal government itself.

Paper matches are now being distributed accompanied by this message: "KNOW YOUR MONEY. BEWARE OF COUNTERFEITERS. SOUND YOUR COINS. EXAMINE YOUR BILLS.—THE U. S. SECRET SERVICE, TREASURY DEPARTMENT."

And the cost—why, that's passed along to the taxpayer!

Oklahoma Woman Escapes Injury

Mrs. C. H. Poling of Guymon, Oklahoma, received minor bruises and cuts early Sunday night when her automobile overturned on a road a mile east of Gray. A tire was thought to have gone flat as she attempted to make the curve and the machine to skid. She was treated at the Perryton hospital and released Monday.

Mrs. Ella Murray, Winters, Calif., is visiting in the home of her daughter, Mrs. Ray Wright, and with friends.

Mr. and Mrs. H. A. Hawk and Douglas returned last week from a trip to Kansas City, Mo. His mother, Mrs. Carrie M. Hawk returned with them and will spend several weeks visiting in their home and with her son, Harold and family.

E. D. Kelley and Otho E. Burk, high school principals, went to Raton, N. M., Sunday. Mr. Burk stayed to assist with the Ranger training school, in the absence of Boyd Payne, Ranger Coach, whose small son took suddenly ill and was rushed to a Pampa hospital for medical aid. Mr. Kelly returned to Perryton Monday.

Miss Katherine Winkler, Austin, Texas, 5th grade teacher in the Perryton Public Schools, came in Monday for the 1940-41 term. Miss Winkler has been attending the University of Wisconsin at Madison this summer. She joined her family from Austin in New Mexico for a vacation before returning to Perryton.

Wayne Paek, San Antonio, spent the week-end in Perryton visiting with friends and in the home of his cousin, Lynn Paek. Wayne, formerly with the Perryton Motor Company, works in the GMAC, San Antonio.

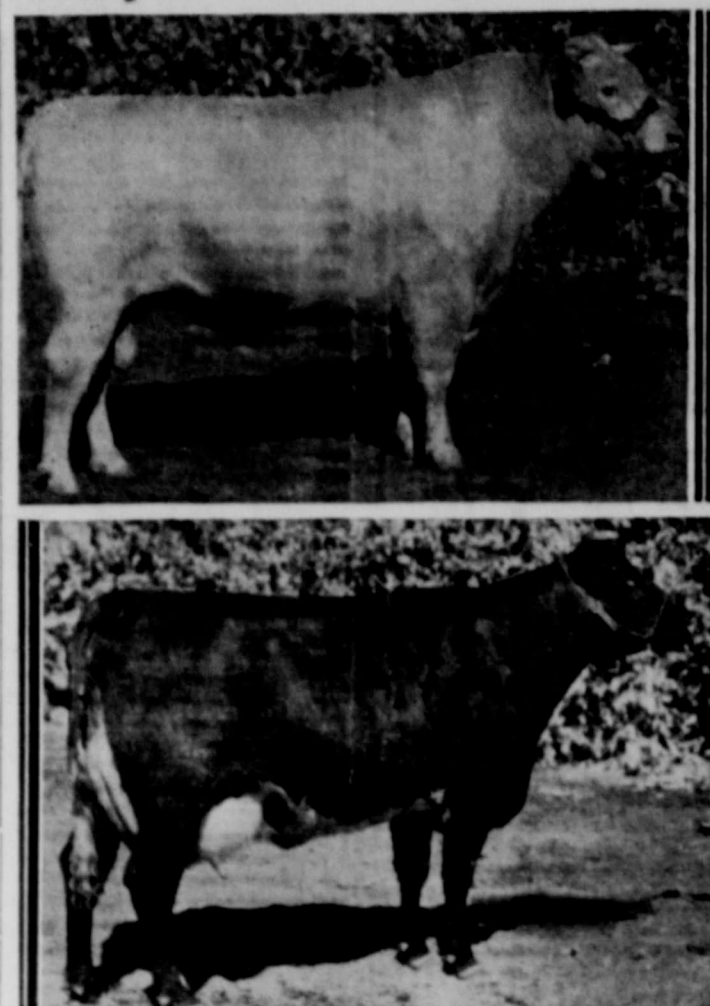

Turkeys will not move very far for water during the heat of the day. Water should be placed where the turkeys rest and not across the pasture.

Milking Shorthorn Champions

Two of the nation's greatest milking shorthorns which have been entered in the Milking Shorthorn Show at the 1940 State Fair of Texas, Oct. 5 to 20.

Top is Kingsdale Pride, grand champion of the 1939 International Livestock Exposition at Chicago, and the United States All-American bull, bred, owned and will be exhibited by Keith King of Victoria, Illinois.

Bottom is Duallyn Juniper, All-American 3 year old and the grand champion at the National Dairy Show held at the Golden Gate Exposition at San Francisco. She has a record of 10,004 pounds of milk, and 437 pounds of butter fat as a two year old. She is owned by John B. Gage, Mayor of Kansas City.

Texan Vacations as Circus Clown

Joe E. Ward, consulting engineer of Wichita Falls, Tex., pursues a normal professional career most of the year. But when Ringling Brothers and Barnum and Bailey Shows swing into Texas on their regular tour each year, Mr. Ward closes his office, dons grease paint and funny costume, and tours as a clown for two or three weeks.

Probably every boy has dreamed of life under the big top, but the Wichita Falls engineer is one of the few that has made that dream come true—and at the same time led what is commonly considered a normal life. He believes the circus ranks with baseball as a real American institution.

Mr. Ward is well known in Perryton. When he was a member of the consulting engineering firm of Montgomery & Ward, his company engineered the street paving in this city and Mr. Ward made many trips here at that time. He is a Past Potentate of Wichita Falls Shriners. During the first World War he served in the capacity of ground training instructor for aviators. Among the soldiers he instructed were Dana X. Bible, coach at the University of Texas, and Earl Carroll, creator of the Vanities.

Mr. and Mrs. W. H. Lance and daughters, June and Joyce are expected home Friday from a two weeks vacation spent at Pagoshia Springs and other scenic points in Colorado.

Mr. Merchant:

**TO SELL 'EM YOU'VE GOT TO
TELL 'EM**

The Herald reaches hundreds of families waiting to be

TOLD AND SOLD

The headline to this advertisement isn't merely a catchy but meaningless jingle—the thought it expresses is really based on the soundest logic and soundest merchandising, as a moment of reflection will prove. For it stands to reason that before a merchant can make a sale to a customer he must attract that customer into his store.

Every merchant knows the value of location—he knows that if his store is situated on a street which has considerable sidewalk traffic his business will vary in proportion to this traffic. He knows, too, that this takes place because potential customers are attracted by his offerings displayed in his windows. He sees to it that his windows tell passersby that he has money-saving values for them.

Herald advertising offers all the advantages of an ideal "traffic" location and more. It is the modern magic carpet which daily transports hundreds of families of the Perryton area on a tour of Perryton advertisers' stores. It is the medium by which the greatest number of potential customers can be told at the least cost.

And Herald advertising sells 'em as it tells 'em! Families of this community have found that it is a reliable index to authentic values. That it gives them a chance to compare price and quality . . . that it saves them time and trouble and money . . . that it enables them to do their own marketing in an easy chair. It sells 'em, furthermore, because it finds them in a receptive mood . . . at home.

Mr. Merchant, hundreds of families of this area are waiting to be told and sold weekly. Use the Herald—the most efficient and most economical advertising medium—to tell 'em and sell 'em!

The Consistent Advertiser Gets The Best Results!

It pays to advertise consistently! Weekly insertions add to the prestige and reputation of the advertiser, for they indicate that he has day-in-and-day-out values for Perryton shoppers—values that are important enough to

be publicized. Lack of advertising creates a negative impression—it implies that the merchant has no values worth advertising. Advertise in the Herald every week to attract Perryton shoppers every day!

WEDDINGS

PERSONAL MENTION

MAE CONLEY, Editor

OFFICE PHONE 67—RESIDENCE PHONE 257

Nazarene Pastor And Mrs. Bertie Walker Are Wed

The parsonage of the Nazarene Church was the scene of a simple wedding ceremony performed at 4 o'clock Tuesday afternoon to unite Mrs. Bertie Walker and Rev. S. R. Brannon, Nazarene pastor. Rev. L. H. Dickerson, pastor of the Amarillo Nazarene Church, officiated in the presence of immediate relatives of the couple.

For the ceremony the couple stood before an altar decorated with fall flowers and greenery. Before the service, Miss Hallie and S. R. Brannon Jr. sang "Why Should He Love Me So" accompanied by the organ. Miss Hallie played the wedding march and during the ceremony.

Mr. Brannon has been in Perryton three years as pastor of the local Nazarene Church and has had a successful pastorate.

A wedding dinner was served at five o'clock to the newlyweds, her father, Fred Clark of Baldwin Park, Calif.; Mr. and Mrs. L. V. Noe, Esther, Levi and Paul of Beaver County, Okla.; Mr. and Mrs. Carl Luginbuhl, Berger; Mr. and Mrs. Jimmy Hensley, Hillsboro; S. R. Jr., Miss Hallie and Miss Louise Brannon, and Miss Mildred and Marvin Walker.

Federated Missionary Met with Methodists

The Federated Council of Church Women which meets every fifth Thursday held their social Thursday afternoon with the Methodist Missionary ladies as hostesses.

The program was opened with prayer by Mrs. P. E. Yarborough and song, "All Hail the Power" by the audience. Mrs. S. P. Whippo is president of the organization and during a short business session, reports were given from the different missionary societies on their accomplishments. Mrs. Stanley Key represented the Baptist, Mrs. M. R. Todd, the Christians and Mrs. Quentin Williams, the Methodists. The devotional, "Family Worship" was given by Mrs. Geo. M. Parker. Vocal solo, "Teach Me To Pray" by Miss Elizabeth Caldwell and paper, "Are We Defeated?" by Mrs. F. B. Sumpter were other interesting entertainment numbers.

Delicious refreshments were served to Mesdames E. W. Witt, J. M. Grigsby, H. J. Wilson, Stanley D. Key, Paul Bowen, Debs Riley, M. H. Shotwell, M. R. Todd, F. B. Sumpter, H. A. Finch, W. R. Landrum, Quentin Williams, P. E. Yarborough, D. A. Caldwell, M. L. Brillhart, G. D. Holt, J. A. Jones, Tom Evans, Robert Lawrence, J. R. Thomas, P. C. Kuhn, A. K. Wilson, A. H. Nichols, Geo. Parker, W. C. Herndon, Chas. R. Garrett, R. B. Orrill, H. C. Sanford, E. B. McNett and Spencer P. Whippo.

Hospital Notes

Mr. and Mrs. Ray Thomas are the parents of a son born in the hospital on Thursday afternoon, August 29. The young man weighed 7 1/2 pounds and has been named Russ Howard.

Mrs. W. D. Thompson entered the hospital for treatment Tuesday night.

Mrs. Elmer Rupperecht underwent a major operation Wednesday morning. Her condition is satisfactory.

Jimmy Lane Goucher had his tonsils removed Wednesday and William Gray had a tonsillectomy on Tuesday.

Miss Lida Beasley, 7th grade teacher, who is at her home in Electra recovering from a recent appendicitis operation, will not be able to assume her school duties until the second week of school. Mrs. John McFarland, a Kansas University graduate, will substitute for Miss Beasley the first week of school.

Mrs. J. J. Long had as her Sunday dinner guests Mrs. J. M. Grigsby, Mrs. J. D. Wade, Mrs. G. D. Holt and Mrs. Ferd Funk.

Enjoying the evening were Mrs. Geo. Cutter, Miss Hallie Payne, Mrs. Mable Smith, Mrs. Glen Shrader, the honoree and the hostess.

Sunday dinner guests of Mr. and Mrs. B. J. Phelps were Mr. and Mrs. Bob Whippo, Breckenridge, Mr. and Mrs. C. E. Whippo and Mr. and Mrs. Sam Burkhardt.

Miss Minnie Gamel, Miss Bette Bryan and John Underwood were dinner guests Wednesday evening in the R. T. Kelley home.

Present for the outing were Mr. and Mrs. Donald McLarty, Albuquerque, N. M.; Mr. and Mrs. W. B. McLarty, Billy Maxine, Max, Donna and James Winn of Pollett; Mr. and Mrs. Vernie Black, El Paso; Mr. and Mrs. James Blasingame and Jerry, Mrs. J. M. Blasingame, Mrs. Lou Blankenship, Mr. and Mrs. Ralph Taliaferro, Mr. and Mrs. Tom McLarty, Mrs. W. W. McLarty and Mrs. Seldon Caradine.

Mrs. C. H. Lockhart, Higgins, and her son, Bob Lockhart, were in Perryton on business, Wednesday.

Dinner and Shower Honors Bride-Elect

The members of the Kollman Catholic Mission Church entertained Sunday with a basket dinner and a surprise shower for Miss Mary Reiman, who will be the bride of Mr. Howard Trimmel on September 24.

The table was centered with a large angel food cake, topped with a miniature bride and bridegroom beneath an umbrella. Many friends who could not be present sent gifts.

Those present were Mr. and Mrs. John Barragare, and grandchildren of Beaver; Mr. and Mrs. Wm. Benner, Clearlake; Mrs. E. Kunka and son and grandson and Mrs. Ruben McClasman and son, all of Logan, Okla.; Miss Opal Klingler, Pollett; Mrs. Julia Reiman and sons of Boyd, Okla.; Mr. and Mrs. Joseph Bremner and children, Mr. and Mrs. Bart Kollman, Mr. and Mrs. Earl McDonald and children, Mr. and Mrs. Joe Slovacek and daughters, Mrs. Leona Hamker, Mrs. Antione Slovacek, Frank Slovacek and the honoree, Miss Reiman and Mr. Trimmel.

Sunday Outing Is Enjoyed at Park

Mrs. W. W. McLarty was happy to have her children home for a family gathering over the week-end and on Sunday several of them spent a delightful afternoon at Lake Fryer. Boat rides were a happy diversion and a watermelon feast was enjoyed.

Present for the outing were Mr. and Mrs. Donald McLarty, Albuquerque, N. M.; Mr. and Mrs. W. B. McLarty, Billy Maxine, Max, Donna and James Winn of Pollett; Mr. and Mrs. Vernie Black, El Paso; Mr. and Mrs. James Blasingame and Jerry, Mrs. J. M. Blasingame, Mrs. Lou Blankenship, Mr. and Mrs. Ralph Taliaferro, Mr. and Mrs. Tom McLarty, Mrs. W. W. McLarty and Mrs. Seldon Caradine.

Mrs. C. H. Lockhart, Higgins, and her son, Bob Lockhart, were in Perryton on business, Wednesday.

Huge Revue Will Present Musical Numbers

The Garo Nelson girls in "Circus Revels," one of the production numbers in "Americana," the huge outdoor revue which will be presented twice nightly in front of the grandstand at the State Fair of Texas, October 5 to 20.

Lower picture shows the Twelve Aristocrats, six boys and six girls, who sing and dance and are presented in the production numbers of "Americana." The Twelve Aristocrats are among the best known radio and concert stage artists of the present day. They present an adagio number and a waltz number which have proved the sensation of the "Americana" tour.

"Safety for the Household" Book

Faulty gas and electric equipment, or careless use of good equipment, causes numerous accidents and fires every day. A thorough check of the wiring and gas mains will often prevent future trouble and a little common sense in handling good equipment will cut down the number of accidents caused by carelessness.

A government pamphlet, "Safety for the Household," is full of suggestions for the safe handling of electrical equipment. Some of them are:

1. Don't touch live metal parts in the interior of sockets or plugs.
2. Don't touch electric cord or fixtures, even the insulated parts, with wet hands, or when standing on a damp floor or in the bathtub. Most serious electrical accidents in the home occur when contact is made with electrical equipment under wet conditions.
3. In damp places all cords should have heavy waterproof outer covering.

4. Switch off current before replacing burned out fuses.

5. Do not touch a person who has been shocked until he has been freed from contact with the electrical circuit. To free him, use long board or broom—never a moist or metal object.

The pamphlet also lists several facts to observe when handling gas meters, pipes, stoves, heaters or other equipment. Some of them are:

1. Never use gas pipes or meter as a support for a clothesline, as the strain may cause them to leak.
2. Replace rusty pipes, as they may become leaky. Tape, cloth or wax should be used to plug leaks only in an emergency.
3. Place gas fixtures out of drafts. They might extinguish the flame.
4. Where a gas water heater is in a small room, leave the door or window open for ventilation. When there is insufficient oxygen, the flame may go out or the gas only partially burn.
5. If a gas leak is suspected, open doors and windows, and never, under any circumstances, search for it with a lighted match or candle.

Simple Etiquette Easily Acquired

COLLEGE STATION — Young people who are confused by the numerous rules listed by so-called experts on etiquette can solve a lot of their problems by choosing the courteous way over the less courteous way to behave. This is a suggestion offered by Dorena Hale, specialist in parent education and child development for the A. and M. College Extension Service.

"The courteous person usually keeps in mind the feelings and the comfort of others," Miss Hale says, pointing out these examples:

When a courteous person attends a party he remembers to say good-night to parents, club sponsors, and other hosts and hostesses.

A courteous girl rises when she is introduced to an older woman. The courteous boy, when walking with a girl, walks on the outside of the walk.

A courteous guest, when invited to a meal, arrives at his hostess' home a few minutes before time for the meal; the less courteous guest arrives late and leaves immediately after the meal is over.

The courteous boy when calling for his date, parks the car at the front and comes to the door for the girl.

If there is an usher leading the way into a public assembly of some kind, a lady precedes a man in walking down the aisle.

The less courteous person who attends a party and does not like the games which are being played, sits back, looks bored, and makes remarks about the entertainment. To help adolescents solve some of their behavior problems, Miss Hale has prepared a true and false test on "The Courteous Way," which is available to groups of young people interested in doing things the courteous way.

HOME DEMONSTRATION CLUB NEWS

Gold Star Girl Receives Pin

A beautiful gold pin was presented to Vivian Williams at the Annual 4-H club rally on Wednesday at Ellzey's camp. The pin, a gift of A. and M. College, was presented to Vivian, as the gold star girl of the county. Vivian received the recognition for having completed all her goals. She served her club as president and as secretary. She won first place on many of her projects.

Checking Pressure Cookers is Vital

The gauges on pressure cookers should be checked, according to Mrs. Hazel Martin, county home agent. Cookers which have been in use for several years will probably have incorrect gauges. If a gauge is off a considerable amount it may be necessary to purchase a new one. If it is off only slightly an adjustment can be made on the time and amount of pressure to use.

Fruits and tomatoes are best canned in the water bath. Non-acid vegetables must be canned under pressure for safety against poisonous bacteria.

In Ochiltree county pressure must be increased on all canning charts by one pound due to the high altitude.

Get a new canning bulletin from the home demonstration agent and ask her how to check your pressure cooker gauge.

Urges Students To Continue Studies

COLLEGE STATION, Tex. Sept. 2.—Dr. T. O. Walton, president of Texas A. and M. College, has received a letter from John W. Studebaker, commissioner, U. S. Office of Education, Washington, D. C., calling to his attention the public statement made by President F. D. Roosevelt regarding students continuing their normal education.

President Roosevelt's statement is as follows: "Reports have reached me that some young people who had planned to enter college this fall, as well as a number who attended college last year, are intending to interrupt their education at this time because they feel that it is more patriotic to work in a shipyard, or to enlist in the Army or Navy, than it is to attend college. Such a decision would be unfortunate."

"We must have well-educated and intelligent citizens who have sound judgment in dealing with the difficult problems of today. We must also have scientists, engineers, economists, and other people with specialized knowledge, to plan and build for national defense as well as for social and economic progress. Young people should be advised that it is their patriotic duty to continue the normal course of their education, unless and until they are called, so that they will be prepared for greater usefulness to their country. They will be promptly notified if they are needed for other patriotic services."

Dr. Walton has expressed the hope that all students who had planned to attend Texas A. and M. College this year but then changed their minds will follow the advice of President Roosevelt and continue their higher education as he has recommended.

N. R. Harris and David Fairchild, Lubbock, who are employees of the Southwestern Associated Telephone Company, are working in the Perryton vicinity this week.

Here's a PICTURE of Fall Smartness!

It's the couple across the street who always are so attractively dressed. They're always being invited out to parties, but how can they manage to dress so well on a limited income? Their secret can be your secret too! Send your clothes to us this week. You'll be thrilled to see them come back looking so bright and new. Send your draperies and home furnishings to us too—you'll be doing a lot of entertaining if you follow their formula!

PERRYTON CLEANERS

Not How Cheap, But How Good

Perryton Club

"Never try to give an unconscious person a drink," stated Mrs. W. L. Philpaw, in her discussion of first aid, as the Perryton Home Demonstration Club meeting, in the home of Mrs. Ike Sharp, Wednesday, August 28. Mrs. Philpaw further stated that persons fainting should be laid flat immediately, if possible with the head lower than the feet.

Roll call was answered with first aid, and kerosene seemed to be a favorite home use for cuts. Plans for the exhibit were discussed and Mrs. Sharp, the exhibit chairman, appointed Mrs. Thomas and Mrs. Tallaferro, as the committee, to help with decorating the exhibit room.

Present for the meeting were: Mrs. W. M. Boston, Mrs. W. L. Philpaw, Mrs. A. N. Dowers, Mrs. D. K. Baumann, Mrs. W. S. Thomas, Mrs. Jess Wagner, Mrs. J. W. Herrell, Mrs. Ray Sparks, Mrs. Lake Patton, with Mrs. G. I. Horne, and Mrs. Morgan as visitors, and Mrs. Del Tallaferro.—Mrs. Tallaferro, Reporter.

Perryton Club Meets Thursday, Sept. 12

The Perryton Home Demonstration Club will meet Thursday, September 12, at 2 p. m., in the home of Mrs. W. L. Philpaw, 405 S. W. 1st St. The program for the day will be yard achievements. Mrs. Hazel Martin, county demonstrator, plans to visit the members and inspect the yards.

Mr. and Mrs. N. G. Nelson returned Monday from a week's visit with relatives in Colorado.

Miss Kathryn LaMaster left Sunday for Pampa to resume her duties in the Pampa schools. This is her fourth year as fourth grade instructor in the Horace Mann school.

Dr. Powell, Eye, Ear, Nose and Throat, will be at Dr. Kengle's office, Tuesday, September 10th. Glasses fitted. 36-41-c

Miss Rosie Barnes was visiting in Pampa with friends, Saturday and Sunday.

Mr. and Mrs. Kermit Johnson left Sunday for a two weeks vacation in Wyoming and Utah.

Vaccinate All School Children

AUSTIN, TEXAS, Sept. 2.—Dr. Geo. W. Cox, State Health Officer, in a statement issued in Austin this week, urged all local boards of education to pass regulations providing for exclusion from school of all children not presenting certificates of vaccination against smallpox and immunization against diphtheria.

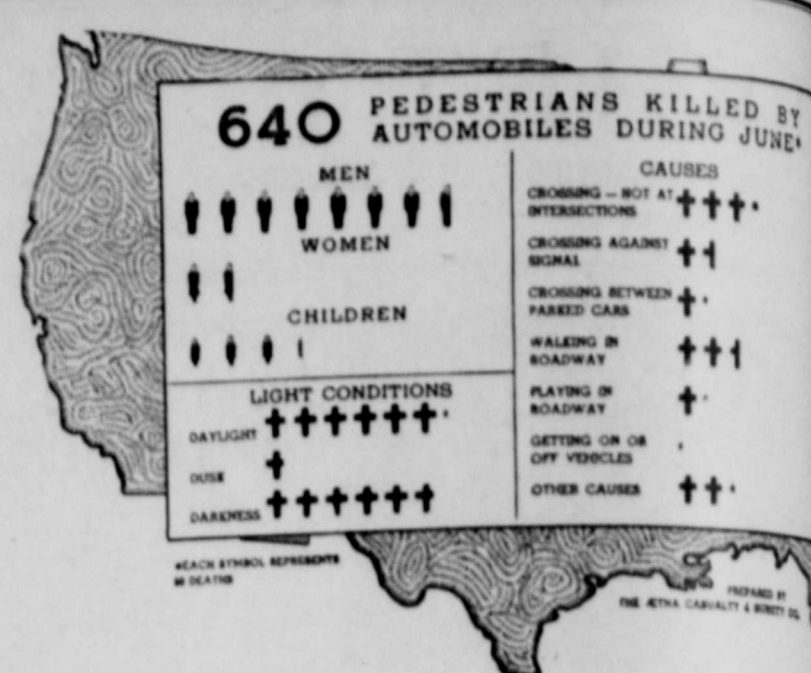

"School children are exposed to so much infection during the school year that where a definite preventive against disease is known, parents should be urged to take advantage of this knowledge. Vaccination may save a period of prolonged absence from school, doctor's fees, and even life itself. It is foolhardiness not to require that all school children be rendered non-infectious from the communicable diseases, smallpox, diphtheria, and typhoid, before they start to school this year," Dr. Cox stated.

Because of the fact that authority of school boards to pass such regulations has been upheld by the courts, the Texas State Department of Health wishes to recommend that the various local school boards adopt such regulations, taking further into consideration that such action on their part may mean the difference between a successful school year and prolonged illness, failure in class work, or death.

It is desirable that parents take the child to the family physician for a physical examination before school opens. Such examinations are valuable in determining the readiness of the child for learning. A child suffering from defects is carrying an extra load, and when the weight of school problems is added, he may become ill, develop serious bad habits, or respond with character or emotional upsets. These examinations, when reported to the school, enable the school to adjust the curriculum to the needs of the child and thus minimize the possibility of failure with its attendant inferiority complex.

Parent-teacher organizations, the public health personnel, and local medical organizations are strongly in favor of preschool examinations and vaccination. In this campaign against unnecessary death and disease among the school children of Texas, the State Health Department lends its full support.

Mr. and Mrs. E. D. Mewer and son, Claude of Alva, Okla., were visiting in Perryton last week-end. Mrs. Mercer will be remembered by many in this community as Bessie Bush. She is a daughter of Mr. and Mrs. P. M. Bush, formerly farmers and stockmen in this community.

Can't Freeze All Fruits and Foods

COLLEGE STATION, Sept. 4.—Despite the remarkable adaptability of frozen food lockers for preservation of fruits and vegetables, there are five products—whole celery, lettuce, citrus fruits, cucumbers and tomatoes—which are not suited to frozen storage, warns Grace I. Neely, specialist in food preservation for the A. and M. College Extension Service.

However, both citrus and tomato juices may be frozen for storage; so may certain varieties of apricots, berries, figs, nectarines, cherries, peaches, plums, asparagus, broccoli, brussels sprouts, cauliflower, corn, snap beans, lima beans, peas, squash, and greens.

Experiments carried on by the Texas Agricultural Experiment Station at its Lower Rio Grande Valley station reveal that there are wide differences in the desirability of varieties of fruits and vegetables for freezing preservation. For example, good shipping varieties and other varieties particularly suitable for canning may not prove at all suitable for freezing.

Fruits and vegetables to be frozen should usually be harvested at the stage when they are in the best conditions for immediate table use and should be processed immediately. Miss Neely says.

★ SAVE LIVES ★ DRIVE CAREFULLY

School starts next Monday!

YOUR RESPONSIBILITY FOR THE SAFETY OF THE SCHOOL CHILDREN SHOULD BE REMEMBERED AT ALL TIMES!

This is a life-saving crusade. A crusade in which business men and other individuals have committed themselves to protect the safety of school children. These children are now going back to school. They need your help.

Although it is heartening to know that Perryton motorists usually observe driving regulations, **that is not enough!** And although it is also good to point out that our splendid police force is wholeheartedly cooperating with the school safety program, **that too is not enough!** For it must be remembered that children will at times be willful... will suddenly dash across streets... will be late for school, take short cuts and cross a street in the middle of the block. Then, you the motorist must exercise unusual caution. **It is the motorist, only, who has the power to inflict injury... cause death!**

It is high unbelievable that anybody would intentionally injure a child. Yet, grim statistics reveal a horrifying total of young lives taken... of youngsters

permanently injured! We contend that the motorist was at fault in practically every accident involving children! No one can regard with complacency the motorist who obeys traffic laws, keeps on the right side of the street, but makes no further attempt to guard against crippling and killing children. It is a lamentable fact that many a life and limb has been lost even though rules and regulations had been followed by both the motorist and pedestrian... **the motorist had not had the extra courtesy, the extra consideration, the extra carefulness, which surely would have prevented the catastrophe.**

Let us resolve, then, to make sure that our automobile is mechanically safe. Let us resolve, then, to do more than just obey the law. Let us not depend upon luck and the nimble footedness of the child. Let us not be indifferent drivers. And may these words have the pious power to restrain wild, reckless, inexperienced driving... the pious power to prevent tragedy. Save lives—drive carefully always!

Elks Rodeo at Woodward, September 6-7-8

Floyd Gale, one of the top ropers in the cowboy world, takes a calf for a ride. Gale and hundreds of other cowboys and cowgirls are already in Woodward to compete for the \$6,000 cash purse offered by the Woodward Elks Rodeo, September 6, 7, 8. Two night shows will be given Friday and Saturday, 8 o'clock. Two day shows, Saturday and Sunday 1:30 p. m. A frontier parade will be held Saturday and Sunday.

The Tenderfoot Is Dead—Long Live the Dude!

Major pursuits at the dude ranch are riding, eating, sleeping and singing cowboy ballads.

THE tenderfoot, butt of western cowboys' jokes, has given way to the dude, object of his solicitude.

This summer an estimated 25,000 persons sought a summer home on the range during their vacations. The west now has about 300 dude ranches; and there are nearly 50 more in the east.

For Broadway buckaroos who long for the trail no longer need spend half their vacations getting to and from the dude ranch. There are several within a few hours of Times Square and others are spotted throughout the west.

At the eastern ranches seem a bit synthetic, they do at least provide the chief stock in trade of the west—riding and lots of it. After all, a horse will do approximately the same things in the Catekill as in Dead Man's Gulch.

BUT the bulk of the dude trade, of course, remains in the west. There many a ranch owner has found the margin between security and bankruptcy lies in the business of entertaining eastern vacationists.

Most of the bigger ranches, for eight months of the year, still raise cattle for the nation's beefsteaks. But comes spring, and the cowboys pack away their overalls and plow shoes in favor of candy-striped shirts, embroidered boots and deerskin riding breeches.

And for the next four summer

months the voice of the dude is loud in the land as he rides range singing pseudo cowboy ballads.

One midwestern state university at Laramie—offers a complete course in dude ranching. The curriculum includes business, economics, hotel management, psychology, forestry and animal husbandry.

THE swankier western ranches boast not only gentle horses and plenty of riding country, but golf courses, polo fields, swimming pools, small airports, trap shooting ranges, fishing streams, tennis and badminton courts.

And the 1940 model cowboy is a streamlined version even more picturesque than the typical easterner's idea of a cowboy. He tells tall tales with the straightest of faces, and he's a walking encyclopedia of the legends of the country.

Yet it isn't too improbable that he has a Phi Beta Kappa key tucked away in the hip pocket of his jeans, for many western college boys pick up a little money in the summer doubling as dude ranch hands.

One of the chief things which lures vacationists to the dude ranges is the price. Costs range from \$15 a week upward, with the average around \$45 or \$50. In the aggregate, that adds up. It's estimated that dude ranch vacationists this summer are spending \$3,000,000.

Oil Industry Pays One-Fourth Cost of Schools

DALLAS, Texas, Aug. 24—Texas paid by the Texas petroleum industry for school purposes not equal 4 1/2 cents per barrel for every barrel of oil produced in the State.

Figures just compiled by the Texas Mid-Continent Oil and Gas Association from official records of the State Comptroller and the Tax collectors of several hundred independent school districts show that the Texas petroleum business last year paid \$14.14 in school taxes for each of the 1,549,443 children attending Texas public schools. Based on the per child educational cost of \$56.30, petroleum taxes were sufficient to pay all expenses of educating one-fourth of the entire school population of Texas, or about 388,000 Texas school children.

Although the Statewide average paid by oil is one-fourth of the total school taxes paid, petroleum pays an average of four-fifths of all school levies, including the State apportionment, in forty larger oil districts.

In these districts, also, the average cost of schooling per pupil is much higher than in non-oil districts. In these forty, the per pupil cost averages \$132.38, or approximately 2 1/2 times as much as the average of \$53.93 for all other Texas districts. In the oil districts the average costs ranged from \$100.76 to as high as \$257.65. The average for all independent school districts included in the survey is \$56.86 per pupil.

Last year the Texas oilman paid in State taxes approximately \$32,000,000 of which around \$13,000,000 was allocated to the public schools. In addition, he paid over \$38,000,000 in local taxes of which more than \$8,000,000 went to the schools. Altogether \$21,915,000 was paid by petroleum to Texas public schools last year. This \$21,915,000 divided by the 478,192.887 barrels of oil produced in Texas in 1939 gives an average of 4.56 cents per barrel in school taxes for each barrel of oil produced in Texas.

The \$21,915,000 paid in school taxes by the Texas oilman is equivalent

Uncle Sam Needs Flying Cadets

Port Sam Houston, San Antonio, Texas—Mascara, rouge, lipstick and face powder have invaded Randolph Field. "West Point of the Air," where flying cadets are trained to fly war planes for Uncle Sam. No—Randolph Field has not turned co-educational. It is still strictly reserved for male citizens of excellent character. Neither do we mean that flying cadets have adopted the popular aids to feminine blandishments. The Mascara, rouge, lipstick and face powder all are worn by certain moving picture celebrities currently on location at Randolph Field to make another picture featuring the United States Army Air Corps.

Paramount is doing the job, aided by Constance Moore, Ray Milland, William Holden and more than a hundred others. The picture, "I Wanted Wings" will cost two million dollars to complete. Camera booms, cameras, sound equipment and other apparatus is so thick around Hangar J that crew chiefs and mechanics find it hard to tell airplane parts from movie machinery. Only when a strange-looking contrivance has an actress attached—they say—do they conclude that it pertains definitely to Paramount and not to a B-7 or a B-18.

Not often, however, in the strenuous life of the flying cadet, are there interludes and actresses. When Uncle Sam accepts a student pilot, the intent is to train him well—and quickly! Only nine months time is consumed from the moment the student begins his elementary training as a flying cadet at one of the approved civilian flying schools to the moment when he steps up at Kelly Field graduation exercises for his commission as a second lieutenant in the Air Corps Reserve.

This nine months' training is divided into three periods. There is a period of three months spent in elementary work at a civilian flying school; a period of three months spent in training at Randolph Field, Texas, and a final three months spent in advanced training at Kelly Field, Texas. Classes begin each six weeks and provide a steady flow of qualified young men from civilian life into the Regular Army and the Air Corps Reserve.

The fact that classes matriculate at such frequent intervals, says Sgt. R. A. Jackson, U. S. Army Recruiting Sergeant at Amarillo, means that there are practically always vacancies existing or in prospect for suitably qualified young men. Applications are now being taken by Sgt. Jackson to fill classes scheduled to begin during the fall and winter months.

In order to be considered for enlistment as a flying cadet, it is necessary only that the unmarried applicant, between the ages of 20 and 28 (inclusive) and possessing two years of college training or its equivalent, go in person or write to the U. S. Army Recruiting Station at Amarillo. Every assistance will be given in preparation of the few simple application papers required. Sgt. Jackson, the recruiting representative, will be glad to answer all inquiries from interested persons concerning enlistment of flying cadets.

This ONE Machine Does EVERYTHING

But Harvest the Crop

(Left) The DEMPSTER with Disk Fertilizer, Seed, and Fertilizer—For best results.

(Right) With proven 1-1/2 in. disk, the DEMPSTER will cover, Fertilizer, Seed, and Fertilizer—For best results.

DEMPSTER TILLING, DAMMING and DEEP FURROW SEEDING MACHINE

YOU need only this one machine to do every job from new system of farming the land to the old system of farming the land. Think of the money you save not having to buy several machines... of the time, labor and fuel saved by doing several jobs in one operation.

HERE'S WHAT IT DOES—With machine as shown above you go into the stubble field immediately after harvest—cultivating, tilling, furrowing and damming in one operation so that ground is ready to catch and hold moisture. Later you can level ridges and prepare excellent seed bed with trash on top to prevent soil-blowing. Then with machine as shown below you do an ideal job of seeding, depositing seed in wide, 6-in. rows and bed, covering seed uniformly with moist soil.

THE DEMPSTER is ideal for summer fallow—For seeding one way—for spring wheat planting. The only machine of its kind with independent bottom making it ideal for contour farming.

COME IN and see it at once! (28-D-18)

INTERNATIONAL SUNDAY SCHOOL LESSON

Religion Is a Social Experience

The International Uniform Sunday School Lesson for Sept. 8.
Text: Psalm 96.

RELIGION takes its rise and finds its strength in individual faith, experience and convictions. But no man can be religious by himself—for religion is a social experience.

Certainly no man can be a follower of Christianity by himself, because as soon as he professes to worship God as a Father, he becomes associated with others of God's family.

The man of religion, whose heart exults in praise, cannot keep his joy to himself. If he feels welling up in him gratitude to God for His grace and mercy, he is bound to proclaim it in some way to his fellows.

All this finds striking illustration in the beautiful 96th Psalm, which constitutes our lesson, and in Psalms 67 and 98 that are associated with it. The Golden Text also emphasizes this "togetherness" of religion: "Oh magnify the Lord with me, and let us exalt His name together."

SINGING is the essence of praise, and where praise is real it is always bursting forth in new songs—although the old and beautiful songs are never discarded, but grow richer as time goes by.

Here in the lesson the Psalmist calls upon those who listen to sing unto Jehovah "a new song." The song that he sings and in which he would have us join is now an old song, but it is ever new. It is a song with a world-

wide note. Its emphasis is in the salvation that comes from the Lord, but its atmosphere is not the narrow atmosphere of a single soul or of a single tribe or people, even of a chosen race.

"Declare his glory among the nations," says the Psalmist. "His marvelous works among all the peoples." Would God that we could do that today, that among nations organized for violence and hatred we could so declare the glory of God that His righteousness would be praised and feared. The Psalmist says that God reigns, and that He will judge the peoples with equity. If we doubt that, we must look over the whole range of history. The story of fallen empires, the great and powerful despoiled, is the story of God's judgment.

JUDGMENT—that is the thing which we should be emphasizing today. It is judgment that has brought war upon our world. When men are greedy and selfish and violent, or when, even with their own peaceful dispositions, they allow men who are greedy and selfish and violent to dominate things, how in a world of law can there result anything but strife and trouble?

If there were no consequences of evil, we might indeed doubt the reality of righteousness and the persistency and sureness of God's judgments.

So, let us take confidence, even in dark days like these, in the assurance of the Psalmist that the Lord "will judge the world with righteousness, and the peoples with His truth."

Christian Science

"Man" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, September 8.

The Golden Text is: "The Spirit itself beareth witness with our Spirit, that we are the children of God; and if children, then heirs; heirs of God, and joint-heirs with Christ" (Romans 8:16, 17).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "These words spake Jesus. . . I have manifested thy name unto the men which thou gavest me out of the world; thine they were, and thou gavest them me; and they have kept thy word" (John 17: 1, 6).

The Lesson-Sermon also includes the following passage from the

Owner Pays All Fire Damages

AUSTIN, Sept. 4.—Interesting changes in the public's attitude toward fire were pointed out today by Marvin Hall, State Fire Insurance Commissioner.

In the United States a man who has a fire in his home, store or factory is regarded as unfortunate, but during pre-war days in Europe he was assumed to be a public offender, the Commissioner said.

In France, if a fire spread beyond a man's property and damaged that belonging to his neighbor, he had to pay his neighbor's loss. In Germany, if a man had a fire the police ordered an investigation.

Carelessness was assumed from the fact that the fire occurred. If he could not prove in court the next day that he had taken every reasonable precaution, he was fined, and for his negligence he had to

pay the city for the damage of the fire department.

Mr. and Mrs. J. W. Tuesday for Mrs. Tuesday the first of the week. Mr. and Mrs. Tuesday for Mrs. Tuesday the first of the week.

CITY DRUG

STOP! LOOK! LISTEN!

EVANGELIST PAUL BOLLINGER

Dear reader, in our concentrated effort to get this from God to you, we are choosing this newspaper as our medium.

STOP—from your mad rush to secure pleasure; stop for a moment to read the following. If you follow after frivolity, drunkenness, ungodly lusts and passions, and reject this last great call toward God and peace, there isn't much more we can do.

STOP, ask yourself, "where shall I spend MY KNOW I'm on the right way?" Jesus said, "I am the way, the truth, and the life; he that believeth in me, shall not perish, but have eternal life." (John 1:9).

LOOK! Only spiritually blinded people refuse to see the times we are living in. Peril, II Timothy 3:1-5. Wars of wars, nation rising against nation, Matthew 24:6-7; with drink, dine and dance, Matthew 24:32-34; marriage and modern chemical and mechanical science—science to and fro, Daniel 12:4; the maneuvering of the nations. These signs, with others too numerous to mention, have on our journey to the mass destruction of this wicked generation, as in the days when the world was destroyed by fire. One more sign which is prophesy, I tell you—when the dictator of Italy takes over the rule of the world, sets up his rule in Jerusalem, know this, that we have seen last seven years of time, Matthew 24:15-31 and Daniel recently declared his intentions to this effect.

Oh, ye that can discern the face of the sky, why are the signs of the times (Matthew 16:3).

LISTEN! LISTEN! LISTEN! to the voice of God in the day through his word—"Come unto me, all ye that are heavy laden and I will give you rest. LISTEN! He speaks through his Spirit. "Child, give me thine heart" come unto the Father unless the Father draw him. He always strive with man. A man being often reproved his neck shall suddenly be destroyed and that without warning.

LISTEN to God while he speaks to us through the voice of all wars.

Come now and let us reason together, saith the Lord, your sins be as scarlet they shall be as white as snow; be ye red like crimson, they shall be as wool.

You're well and strong - - - that's fine.
You hope to remain so - - - that's natural.
You may be disappointed - - - that's possible.
You will die - - - that's sure.
Christ's coming is nigh at hand - - - that's imminent.
You should be prepared - - - that's wisdom.
You don't know the way - - - then attend the message.

Poor Feeding Lowers Production

STILLWATER, Okla. — (Special) — One important reason why Oklahoma's dairy cows average only 150 pounds of butterfat annually is because they are poorly fed, according to H. W. Cave, head of the dairy department at Oklahoma A. and M. College.

The statement was made during Cave's address to the delegates of the annual Cotton Seed Crushers' school at A. and M.

"However, many cows do not have the ability to produce even if given the best feeds available," Cave said, in speaking on dairy cattle management. "In such cases," he said, "it is a matter of breeding rather than feeding. Better blood must be introduced into our herds."

"Proved" Sires Are Best
In improving herds through breeding, sires proved for high production should be used. A "proved" sire is one where sufficient information on the milk production of his daughters is available to indicate his transmitting ability.

If a proved sire is not available, the next best procedure is to use younger sires that have proved sires and proved dams in their pedigrees.

Another essential practice in good herd management is the keeping of records. A good cow cannot be recognized without a record of her production. Because records are not kept, many farmers do not realize that about one-third of the cows being milked do not produce enough to pay for their feed.

"Fall Calving Advocated"
"There is no place for disease in the dairy herd," Cave said, "because no animal can produce efficiently if it is diseased. Too, the attitude of the herdsman has much to do with production. If cows are treated in a kindly manner, are kept comfortable and are not abused, production will be higher."

Between lactation periods, cows should be given a rest of from six weeks to two months. This practice allows the store of body minerals to be built up for utilization after calving.

Cave advocates fall or winter calving in proper herd management. This practice brings the heaviest milk production at a time when the price for milk is highest and the "drying" period in the summer when conditions for milk production are poorest and the price is lowest.

Consumer Profits Here

Today much of the world faces the grim specter of famine. But here in the United States we still have the blessings of plenty.

A Department of Agriculture survey shows that abundant supplies of nearly all food-stuffs will be available for the coming year. Increases in production of edible fats and oils are expected to continue. The fresh fruit supply will be slightly above last year, and large wheat and rice crops are anticipated. In the case of most foods, there will be enough to meet all domestic requirements, and to provide surpluses for export.

Other surveys indicate that the demands of war material production in our factories will not seriously dislocate production of consumer goods. We may have to do without a few manufactured luxuries as time goes on, but there will be plenty of the necessities.

If our productive facilities are to prove of maximum benefit to the consumer, another factor must enter in—and that factor is the distributor. Abundance on the farm is wasted unless the crops can be delivered to the buyer at minimum cost. And efficiency in the factory can be offset by inefficiency and waste in distribution.

But the consumer need not worry. The American distribution machine, like the American productive machine, is the most efficient in the world. Our competitive system, with all kinds of distributors, chain and independent, seeking to outserve each other, must be given credit for this. When you enter a store and

Musician Farms for War Relief

Albert Spalding, famed violinist, does his bit with a hoe for relief of war sufferers. From Great Barrington to Pittsfield, Mass., often known as "Millionaires' Row," residents have instituted a drive to supply foodstuffs to war-starved Europe.

Coyotes Show Taste for Melons

Farmers in the Tucson, Ariz., area say they're worried because ordinarily carnivorous coyotes have taken to eating watermelons. Ranchmen say the animals haven't learned to thump melons, but try them all until they find a ripe one. Rancher E. M. Furrey is shown with coyote he plugged when he caught it plugging melons.

Chaplin Jibes At the Dictators

This isn't the prelude to a hand-spring, but Charlie Chaplin's version of a two-handed salute in his role as Dictator Hynkel of Tomania. The screen comedian's latest movie is a sharp jibe at European totalitarianism. Note "The Great Dictator's" insignia—the Double Cross.

The Truth About the Norwegian Invasion by the German Armed Forces

Carl Johan Hambro, Speaker of the Norwegian Parliament for over a decade, arrived in Washington, July 15th. He came here from Halifax, after accompanying King Haakon from Northern Norway across the North Sea to England.

Before a group of reporters at his country's legation in Washington, the Norwegian statesman told how his country had come under the control of German arms. He declared that "there was not a Norwegian in any official capacity to his country." Nor, said he, was there a particle of truth in the reports that Norway was conquered by a "fifth column." The stories of treachery, he averred, were falsely disseminated by the German propaganda machine to confuse not only his people but the world.

Referring in this connection to the German report that the Nazis had sailed unopposed up the Oslo fjord, past spiked fortifications to capture the Norwegian capital, Mr. Hambro said the invaders lost two of their biggest ships in their encounter with Norwegian forces. Nazis, he added, were compelled to land on the shores north and south of the fjord to make their initial attack. Continuing, the Norwegian statesman said that the surprise attack on Oslo, April 9th, was successful because it was swift and was launched in the middle of the night when the visibility was poor.

Seizing Oslo, the Germans immediately took control of the radio and in perfectly spoken Norwegian, they issued "official government statements" assuring the people there had been no attack and to disregard the mobilization calls which had been issued to begin April 11th.

Mr. Hambro said the city of Bergen was captured without a shot, as the Nazi squadron, in faultless English, radioed the defenders that they were British vessels bringing assistance against the German invaders.

He explained that the co-called "fifth column" in Norway was hundreds of German hitch-hikers—tourists—who had spent weeks in sketching, presumably natural scenery, but, in fact, were drawing maps. It was they who returned with a military force, and directed the blasting of bridges.

When asked what of the future of the League of Nations, Mr. Hambro, who was elected president of the assembly last year, said it was still functioning, but the employees for the most part had left Geneva. "They left their institution of peace," he said, "to seize arms and fight for their countries."

(Comment: Carl Johan Hambro's graphic account of the seizure of his country will be revealing to the mass of the American readers. It is a flat denial of the German

Pilots' Oxygen Starvation Studied

Capt. N. W. White, left, studies effects of lack of oxygen on plane pilot with laboratory "rebreather" at Randolph Field, Tex. Subject at right continues to breathe same air again and again, extracting some of the oxygen at each breath. This corresponds to ascents to altitudes as high as 20,000 feet.

Mr. and Mrs. Rufus Bolerjack, her parents, Mr. and Mrs. Clarence Zirkle, and Mrs. Zirkle's mother, Mrs. W. R. Haske of Mooreland, Okla., left Thursday morning for a two weeks vacation to the west coast.

Mr. and Mrs. Ellis Kelly left this morning, Thursday, for Detroit, Michigan, where Mr. Kelly will attend a nine weeks school available to the sons of Chevrolet dealers.

Mr. and Mrs. H. K. Skeen of the Gray, Okla., community were Perryton visitors Thursday. The Skeens have sold their farm and are moving to Beaver to live.

Mr. and Mrs. Max Boyer returned Tuesday from a ten day vacation at Cloudcroft, N. M.

Clinton Hearne Wins A. & M. Award

COLLEGE STATION, Sept. 5.—Winners of the 25 Opportunity Awards, making a college education possible, offered high school and junior college graduates by the Association of Former Students of the Agricultural and Mechanical College of Texas have been announced and the first such group of boys will begin their quest of a college education when school opens on Sept. 17.

Requirements for consideration were that all applicants be in the upper 25 per cent of their class in scholastic standing; that they be

Clinton Hearne, son of Mr. and Mrs. Emil Hearne of west of Perryton, graduated from Perryton High School last spring.

able to provide \$150 of their own money toward the cost of attending college; that they possess good character, good reputation, good appearance, and must have demonstrated real qualities of leadership and personality; and in addition, must have the endorsement of the A. & M. Club in his community, or in the absence of such club, the endorsement by five to ten A. & M. men.

The awards provide jobs which will pay the boys \$150 over each school year and also grants them a \$100 loan annually to meet their expenses.

Winners of the first awards included: Aaron Allert, Gonzales; Harold A. Berry and William E. Holland, Dallas; George Bolen, Ennis; Clifford Estes, Hereford; W. H. Paugh, Corsicana; Herbert Hall, Jr., Uvalde; Clinton E. Hearne, Perryton; Thomas E. Jenkins, San Antonio; Russell B. Jones, Breckenridge; James R. Latimer, Fort Worth; Earl Meyer, Ellinger.

Marvin K. Monk, Fabens; John M. Mullins, Carrizo Springs; F. J. Spack, Jr., Luling; Delia R. Voelkel, Yoakum; Alvin Caudle, Odessa; Lloyd Bailey, Waco; Milton Beerwinkle, Moody; Truman R. Daniel, Paris; Julian P. Leathers, Oakwood; H. J. Baker, Guber; Franklin Johnson, Brady; Claude H. Richey, Austin; and Edwin T. Brown, Harglingen.

NO. 3 CONTINUED FROM FRONT PAGE

Store in Perryton has made a remarkable growth since it was purchased by Mr. and Mrs. Gailther a few years ago. Increasing business has caused them to double the floor space but now they find their present quarters inadequate.

Strict attention to business, a pleasant and courteous service to their customers and extensive advertising campaigns have contributed to the growth and success of the Gailther owned store.

Miss Frankie Shugart is spending this week visiting with her parents at Plainview.

Mr. and Mrs. John Bolin were Sunday dinner guests of Dr. and Mrs. G. L. Keagle.

School Offers Five Credits In Music

Students of the Perryton School will have every opportunity in music that is found in larger school systems of Texas. The music department, under Glenn A. Truax, offers band, orchestra and chorus as affiliated credits.

Mr. Truax, who trained and instructed the well-known Shamrock Irish band, is enthusiastic over the prospects here, and stated today that he had great hopes for a fine band, and that Perryton schools have sufficient talent for the best music organizations in the Panhandle.

Orchestra Plans
In discussing the school orchestra, Mr. Truax said that to have a good orchestra it would require the help of everyone in the community. He wants at least 50 violin players! That means that he will need 50 violins. So, get busy, dig out all your "fiddles," dust them off and put in readiness for use.

The school has purchased two base viols, two cellos and two violas. These added to the 50 violins will help in the organization of an orchestra.

The first semester will be devoted entirely to the string instruments. The reed and brass instruments will be added the second semester.

Band and Uniforms
The senior band hopes to adopt a uniform that will identify the Perryton band from all other bands. A sample uniform, along the cowboy style, will be here in a few days for inspection.

Tryouts for the band will begin the first week of school. Students who desire to take band, orchestra or chorus should register when registering for other subjects.

Any boy or girl, who can twirl a rope is requested to report to Mr. Truax the first week, as he is anxious to work up a rope twirling stunt to be used at football games.

Perryton Man in Crash Sunday Nite

Marvin Walker, of this city was in a three-car accident Sunday night, four miles east of Childress. Two persons were killed and another seriously injured. Mr. Walker is a son of Mrs. B. J. Walker.

Mrs. Perry R. Jeter, Children's club woman, and Coleman White, 64 years old, Memphis gin owner, are dead, and Mrs. Jeter's husband, prominent Childress physician, is in serious condition. The Jeters car and the White car hit head-on. Marvin Walker and Edward Wellington, Amarillo, in the third car, were uninjured.

According to investigating officers, White apparently attempted to pass the Walker car and seeing that he could not get around it, tried to pull back on his side of the road. Walker's car was knocked off the road, and White's car and the oncoming vehicle in which the Jeters were riding crashed head-on.

H. B. Barnes, Oklahoma City, Okla., has accepted a position as operator at the Ellis Theatre, taking the place of LaRue Norris, who resigned to work as clerk in the post office. Mrs. Barnes and daughter, Beverly Jeanne, are visiting relatives in Wewoka, Okla., and will join Mr. Barnes later.

Mr. and Mrs. W. C. Bryan received a wire this morning, September 5, telling of the birth of a six pound daughter to Mr. and Mrs. Marshall Hinds of Midland. Mrs. Hinds is the former Miss Evelyn Bryan. She and son, Don, visited here several weeks this summer.

Mrs. H. F. Cox and daughter, Miss Arlyle Massinger left Wednesday for Loveland, Colo., where the latter will teach this year. Mr. Cox joined them Thursday. He and Mrs. Cox visited there and in Eads, Colo., until Monday.

Luncheon guests of Miss Georgia Hatfield Thursday were Misses Selma and Hallie Payne.

Mr. and Mrs. Jack Steele, Amarillo, were week-end guests with her parents, Mr. and Mrs. D. A. Caldwell, Jackie Dee, who had been visiting with his grandparents, returned with them Monday evening.

C. C. Bull and Jim Lamb, Amarillo, were Perryton visitors Tuesday. Peggy Jane Lamb accompanied them back to Amarillo after a two weeks stay with her grandparents, Mr. and Mrs. J. N. Conley.

Miss Mary Hibbs, operator at the local telephone office, is enjoying a two weeks vacation and will spend part of the time in Woodward, Okla., visiting with Miss Lillie Durrill.

Mr. and Mrs. J. W. Short left Tuesday for Mineral Wells, where they will stay until spring. Mr. and Mrs. R. L. Duke and Miss Katherine Winkler, teachers in the Perryton school, came in Monday from Austin and will live in the Short home, 821 SW Sixth.

Vernie Black came in Saturday night from El Paso and visited in the McLarty home until Tuesday. Mrs. Black, who has been spending the past month with her mother, Mrs. W. W. McLarty, returned with him.

John Underwood, employee of the SCS office, was in Willows, Okla., Sunday and Monday attending a family reunion.

Mr. and Mrs. Bob Whippo, Breckenridge, were in Perryton over the week-end visiting with relatives and friends.

Two Forfeit Club Salary

Two more members of the Community Service Club missed the "Pot o' Gold" paid weekly to the president elect last Saturday when J. M. Anderson forfeited the salary of \$75 for non-payment of dues for the week. Mrs. Ann Cartwright forfeited \$25 for the same reason on a second ballot. This is the second time Mrs. Cartwright has been elected president of the club during a week when her dues had not been paid.

Officers of the club said that the salary next week would be \$75. If the person named, has not paid dues a second ballot will be taken for \$50. Members are urged to pay dues.

Bus Drivers Meet Saturday, Sept. 7

All drivers of buses, bringing children to the Perryton Schools, are requested to meet with Superintendent C. Wedgeworth in his office at the school, Saturday afternoon, September 7, at 2:30. Route details will be finally decided at this time, and final instructions given to the drivers.

Suplt. Wedgeworth stated Wednesday that some of the routes will be extended. All school buses will make regular runs Monday morning for the opening of school. Any changes will be announced later. Bus drivers who will attend Saturday's meeting are: Dean Conner, C. R. Cudd, Pinkney Dear, E. W. Hearn, V. O. Olmstead, B. R. Plecher, Harvey Plecher, Paul Plecher, Milton Swigart, J. T. Trew, Wm. McCarter, Lonnie Bull, William Gray, Homer Gurley, Lawrence Good, Leonard Latham and George Jackson.

Install Gift From 1940 Senior Class

Two beautiful white marble benches, the gift to the Perryton Schools from the Senior Class of 1940, were installed this week. These seats add much to the corridor of the senior high school building.

The entire school should be proud of this appropriate gift from the graduating class of last year. These massive white marble benches will be a permanent monument to the memory of the Senior Class of 1940. See these benches at the high school building.

Mrs. Mary Julison Buried August 26

Joe E. Julison and daughters, Miss Irene and Mr. and Mrs. Granville Lilly and daughter, Jean; A. E. Johnson and Mr. and Mrs. Bruce Johnson and daughter returned Wednesday from Wichita Falls where they went on Sunday to attend the funeral services of Mrs. Mary Zella Julison, age 78. The services were held Monday morning in the Hines Mortuary and burial in the Riverside Cemetery.

Mrs. Julison was the mother of Joe E. and the sister of A. E. Johnson. She has made her home in Wichita Falls the past seventeen years and prior to that lived in Ochiltree County in the McMillen community. She leaves three daughters, four sons, and a host of other loving relatives and friends.

VOTERS THANKED

I wish to express my appreciation to the many friends and supporters for the work done on my behalf in the recent run-off for Commissioner Precinct No. 1. Although I was not elected I pledge my wholehearted support to the administration of my opponent. Again I thank you.

Wedgeworth Reports Careful Bus Drivers

C. Wedgeworth, superintendent, and the bus drivers for the Perryton Independent School District, returned Monday from Jacksonville, Texas, with the fleet of ten new buses for the Perryton school district. Suplt. Wedgeworth was high in his praise of the efficiency of the men who will drive these buses during the coming year.

The old buses were driven down and the new buses driven back, making a 1,000 mile trip. Suplt. Wedgeworth said that the drivers were entitled to be complimented in making this 1,000 mile trip with ten buses, without a bent fender or any type of accident.

"I am personally very proud of our corps of bus drivers," stated Wedgeworth, "having been associated with them the past week. I found them all very fine gentlemen in every respect, and the school should be proud to have this type of men in charge of their children. They are really safe drivers."

Mr. and Mrs. Donald McLarty came in Sunday from Albuquerque, N. M. and visited until Monday afternoon with his mother, Mrs. W. W. McLarty, R. E. McMillen of Albuquerque accompanied them and visited in the home of his uncle, W. E. McMillen and family.

Mr. and Mrs. John North, Norman, Okla., visited over the week-end in the home of his mother, Mrs. J. M. North, and other relatives and friends. Mr. North is manager of the Carey, Lombard, Young & Co. lumber yard at Norman.

Mrs. Annie Teague has been transferred to Lipscomb County where she is assisting in the compiling of the history of that county for publication.

Church Worker Here Monday

The Perryton Church of the Nazarene announced today that Uncle Buddie Robinson, Pasadena, Calif., an outstanding preacher, will be in Perryton for services Monday evening, September 9, at 7:30. Uncle Bud, as he is affectionately called, is past eighty years of age and is well known to church people.

Mr. Robinson, who is making a tour of this district, was in Perryton some six years ago, during the first year that the local Nazarene church was organized. Many people heard him speak at that time and will welcome the opportunity to hear him again.

Accompanying Mr. Robinson will be his granddaughter, Miss Dorothy Welch, a talented singer, and John L. Knight of Mineral Wells, district superintendent Nazarene churches. Rev. S. R. Brannon, pastor Perryton Nazarene church, and his members invite the public to attend the service Monday, September 9, 7:30 p. m.

Miss Helen May and Miss Jeanie Pinkerton were Canadian visitors Monday.

Mr. and Mrs. S. R. George returned Tuesday evening from an eighteen day trip to Oregon. They usually make this trip annually but declare this the best trip yet. Mrs. George's sister, Mrs. Myrtle Grubb lives in Cottage Grove, Oregon. Enroute they visited with relatives and friends in Loveland, Colo., Timberly, Idaho, Redport, Oregon and various other places.

Use Herald Wants for Results!

Driveway for Buses Insures Safety

Buses bringing children to the Perryton schools from the rural communities will unload at the rear of the school buildings. This change is the result of the construction of a gravel driveway for the use of the school buses. This driveway extends from the northeast of the campus to the south.

All bus drivers will approach the school campus from the south entrance on the newly constructed gravel driveway and stop at the various gravel unloading zones. After the children leave buses, drivers will leave the campus at the northeast corner.

This driveway is a one-way drive and is for school buses only. This regulation has been made for safety. Since the driveway was constructed for safety measures, the school authorities request the public not to use the driveway. Small children will be playing at the playground in the rear of the building, and their lives would be endangered by persons using this driveway.

The public should cooperate in this attempt to make safer every condition on the school campus for the children's welfare.

Attend Grid Game

Attending a football game between North and West Texas at Wichita Falls Monday were Mr. and Mrs. Calvin Flowers and Mr. and Mrs. Al Hood. Seeing action as guest players on the Northern team were Clyde Flowers and Jimmie Palmer, former Perryton High gridsters. The North defeated the West 15 to 6. It was reported.
