Downpour Brings Needed Moisture To Plains Love Bolt Ban Appeal Ends Before Supreme Court

Highest Court, On Vacation Refuses To Consider Plea

Ruling Means That Counties In Which Names Barred From Ballot Will Not Be Deterred by Court

ACTION MANDATORY, JUDGES TELL LOV

Vacation Term Set by Constitution With No Provision Included for Special Considerations.

AUSTIN, Tex., July 21.—So-called "Al Smith" bolters running for state offices in Texas were left Saturday without legal recourse in counties which have barred their names from the July 28 primary election ballot because they have refused to support the Democratic Presidential nominee.

The court fight of one of them, Tom Lov, candidate for lieutenant governor, for a mandatory injunction requiring that his name be printed on the Cameron county ballot, ended in defeat late Saturday before the State Supreme Court. The court told Lov's counsel that it could not consider, during its current vacation period, his attempted appeal from lower court decisions against him.

The means that Democratic committeemen in Cameron, Webb, Val Verde and other counties also reported to have barred the names of Lov and two candidates for governor—William E. Hawkins and Mrs. Edith Williams—from their ballots will not be deterred by court action.

May Write Names In Ben Spear, San Benito, counsel for Lov, said there only hope now is to have Lov's name written on the ballot.

With primary election day only one week hence, Spear brought the Supreme Court Saturday afternoon to consider Lov's application for writ of error from the Court of Civil Appeals action at San Antonio. This decision upheld the Cameron county district court in refusing to enjoin the county Democratic committee from printing the names of Lov and his associates on the ballot. The Supreme Court has been on vacation since July 1. Only two members, Chief Justice C. M. Cureton

Militia Group To Reach City Today

Eighty Members of Lubbock National Guard Detachments Are Due Back from Palacios.

(Special To The Avalanche-Journal) HOUSTON, Tex., July 21.—Eighty Lubbock National Guardsmen, including members of Field Artillery Battery C, Service Battery and band, will arrive home aboard a special train which will reach Lubbock at 4:15 Sunday morning. Captain Harold H. Griffith and rear detachment of 20 men will arrive home on Monday.

Included in the group arriving Sunday will be Major Sergeant T. O. King, of Lubbock, high man in the 36th Division for membership on National Rifle team. The Lubbock boys left here in fine spirits, good health and with an excellent camp record.

LeMaire Is Injured In Fall Harry LeMaire, director of the band and a member of the music faculty of the Technological college was the only member of the Lubbock group not in top condition. He is convalescing from a recent accident, in which a fall caused a fracture of one of his ribs. His injury however, is more inconvenient than serious.

The local guardsmen and band members left here under the command of Captain Harold H. Griffith on Saturday, July 20, and since that time have been quartered at Camp Palacios with the other detachments of the Texas National Guard. Master Sergeant T. O. King, whose shooting has made him one of the most prominent guardsmen in the state, is a Tech student, member of the band and the son of Mr. and Mrs. A. L. King, 2316 14th street.

Love Name Omitted BRENHAM, Tex., July 21.—The name of State Senator Thomas B. Love, candidate for Democratic nomination as lieutenant governor, was barred from another county ballot here today when the Cameron county Democratic committee decided on that.

BOY INJURED BY LIVE WIRE HERE

Roland Haer, 11 years old, was painfully injured yesterday morning when he touched a live wire at the corner of Avenue K and 13th street, where a lumber yard is being torn down. The youth touched the wire and was apparently thrown from the building on which he was standing. His wrist and several bones in his hand were broken and he received lacerations on the chin and jaw. He was carried to a local sanitarium but was released after medical aid had been given.

First Speech Of Smith Delayed By Radio Difficulty

Governor Had Intended To Announce Plans Today But Trouble With Hook-Up Checked His Plan.

ALBANY, N. Y., July 21.—Difficulties in working out radio broadcasting arrangements are delaying Governor Smith's announcement of his acceptance speech, which will be delivered for the steps of the state capitol, will be heard by the voters in all states.

The Democratic presidential nominee had expected to disclose plans for his acceptance speech, which will be delivered for the steps of the state capitol, will be heard by the voters in all states.

Discussing the situation today with newspapermen, Governor Smith indicated he was not entirely satisfied with the radio hook-up as far as perfecting radio arrangements. But he did not go so far as to make it appear that in his judgment he was being discriminated against. He was reminded there was either a requirement in law or a regulation requiring all candidates for political office to have equal opportunity to utilize radio facilities.

Governor Smith expressed the hope that the radio hook-up would be satisfactory.

FIND MISSING PAIR

Couple Thought Murdered Found In House

NOBLESBORO, Pa., July 21.—Lindley M. Hussey, novelist and dramatist, and Mrs. Grace Tellow Saver, of Amberg, Pa., who police sought after Hussey's wife, Dr. Virginia Alvarez Hussey, said she killed them, were found alive and well in a bungalow at Lambertville, N. J., according to a statement issued tonight by Chief of Police Filer.

Questioned by Corporal Wallis of the Jersey state police, they admitted their identity. Eiler's statement said, Eiler said that Wallace had telephoned asking whether Hussey and Mrs. Saver should be arrested, and was told there was no charge against them.

SPEAKING POSTPONED

Mullican Address Set For Thursday Night

Judge Clark M. Mullican will speak on the north side of the city hall at 8:30 o'clock next Thursday night in the interest of his campaign for re-election as judge of the 10th court, it was announced last night.

Judge Mullican was scheduled to speak last night, but the heavy rain fall here the speaking hour necessitated the postponement of the address.

In the event of rain or inclement weather the speaking will be held in the district courtroom Thursday night.

Arrangements have been made to place seats on the north side of the city hall, and ample parking space will be provided for those who wish to remain in cars.

Suspicion Turns To Cabinet Head In Obregon Quiz

Mexican Minister of Labor May Be Grilled Due To Charges He Is Responsible For Assassination.

MEXICO CITY QUIET BUT TENSION EXISTS

Body of Great Hero Taken Back to Sonora, Where Greeted by Sorrowing Crowds of People.

MEXICO CITY, July 21.—The government is considering an official investigation of charges by Obregon supporters that Luis Morones, minister of labor, was in a measure responsible for the assassination of the president-elect, newspapers declared tonight.

Authorities are especially concerned, it is said, with the declaration of Congressman Soto y Gama, agrarian leader and close friend of the late general, that "Morones must go or there will be actual war."

It is asserted that Soto y Gama and other leaders of the Obregon block may be summoned before a court to prove statements attributed to them that Morones and labor leaders opposed to General Obregon are "physiologically responsible" for his assassination "by causing an anti-Obregon atmosphere which influenced Jose de Leon Tera, a religious fanatic, to kill him."

Feeling of Uncertainty Prevails the Country

MEXICO CITY, July 21.—Mexico City and the country continued to feel the effects of a general tension among the people.

ACTRESS DIES

Ellen Terry Succumbs To Illness

SMALL HYTHE, Eng., July 21.—"No funeral gloom, my dear, when I am gone."

Ellen Terry, famous actress, has had her wish, for beauty and peace and loving tenderness surrounded her as she lay this evening in her final sleep within the quaint old farmhouse which she had known so long as home.

The noted actress received her last and greatest call this morning and died tranquilly, surrounded by her loved ones. With her were her daughter, Edith Craig, her son, Edward Gordon Craig, her brother, Charles Terry, and her favorite niece, Miss Olive Terry.

BOLT HITS HOME

Slight Damage at M. M. Dupree Residence

Lightning struck the home of Mrs. M. M. Dupree, 2008 Broadway at about 8 o'clock last evening, although no serious damage resulted.

The bolt of lightning, which struck during the heavy downpour of rain, hit the fuse of the house, partly destroying it and the stove.

The light fuse was blown. No damage resulted, but an alarm was turned in to the fire department. The loss was considered mesager.

YOUTH WHO CONFESSED HAMMER ATTACK

Spends Bleak Day In County Jail

Thirteenth Birthday of Boy, Now Sentenced to State School at Gatesville, Will Be Spent Either In Jail Or On The Way to The Reformatory

The thirteenth birthday next Friday of Flavis Gilbert, confessed and convicted assailant of a hammer attack, Friday afternoon, will be the joyous occasion that it was planned.

Facing an undetermined term in the State Training school for boys at Gatesville on a charge of delinquency growing out of the confessed hammer attack, Friday afternoon, the youth will spend his thirteenth birthday either in the county jail here or enroute to the training school.

Stringent Check on Violators of Law Is Planned

Figure in "Hobo Trip" Tragedy

Returning from Omaha, Neb., with the body of his chum, James Berwald, Cleveland youth, told how the two had fought a railroad agent in the darkness in the yards at Ashland, Neb., and how his chum, Gordon Grigor, of Chicago, had fallen to his death beneath the wheels of a freight train. Mr. Grigor, socially prominent in Chicago, is pictured above, with Berwald to the right, at the top and Conrad Barth, rail agent whom Mrs. Grigor is suing for \$50,000, shown below. Berwald, unaware that his friend had been killed, retraced the route of their burning trip to Cleveland, then returned for the body of young Grigor. Barth denies he knocked Grigor off the train and under the wheels.

Two Girls Killed, Fifteen Injured When Trolley Careens Down Street, Strikes Auto and Plows Into Store

OBREGON BURIED

Body Lowered to Grave Just At Twilight

NOGALES, Ariz., July 21.—Just as the sun dipped into the blue of the Gulf of California and twilight settled over the May river valley in Southern Sonora, today, the body of General Alvaro Obregon, slain president-elect of Mexico, was lowered into its grave at Hualapeno, his birthplace.

Thousands stood by bareheaded and prayers were offered silently and orally for the repose of the man who was to have become the first citizen of his country for a second time. The silence which followed, as the gloom of the early night gathered, was broken only by the sob of the widow and the General's seven children.

ACQUITTED OF ASSAULT

Goes Down Main Street

The trolley motorman, Frank McFarren, was placed under police guard at the hospital. He was not seriously hurt.

Five of the injured were taken to a Bradstock hospital. First reports said that two of them, Harry Levine, proprietor of the store, and Paul Evans, driver of the automobile, were possibly fatally hurt. The street car motorman also was among the injured.

HINT NEW OIL POOL

Possibility of Field In Irion County Seen

SAN ANGELO, Tex., July 21.—Possibility of opening an oil pool in Irion county was seen today when Moore and Kennedy's No. 1 Payette Tanker maintained a 300 foot column of 38 gravity oil from 1945-47 feet after six hours' bailing. Six inch casing with a wall packer and perforated joint had been set and it was undetermined whether a boiler and a half of water hourly was coming from the bottom of the hole or through a casing leak.

BODENHEIM FOUND

Novelist Was Wanted For Probe Into Death

NEW YORK, July 21.—As Maxwell Bodenheim, novelist, who was wanted for questioning in connection with the death of one girl literary protegee was located in Provincetown, Mass., today, it developed that another protegee of his who attempted suicide two months ago had disappeared.

After Provincetown police had located him and questioned him about his association with Miss Virginia Drew, at the request of New York City, Inspector Coughlin, head of the detective bureau here, announced no detective would be sent to Provincetown from New York and it was intimated police considered the case closed.

At the same time it was learned a confidential alarm had been sent out from the police department for Miss Gladys Loeb and that her father, Dr. Martin Loeb, had left for Provincetown to see Bodenheim.

PRIZE WINNERS TOLD

Texas University Student's Poem Rated High

WASHINGTON, July 21.—Winners of the Calvin Coolidge literary competition conducted annually among the undergraduate members of the Phi Gamma Delta college fraternity were announced here today.

First prize of \$200 was awarded to John Edwin Canada, university of Texas, for his poem "The Unrepentant Thief" which was published in the Longhorn, the university literary publication.

The competition is conducted by the fraternity, whose national headquarters are in Washington, as a tribute to President Coolidge, a member of the Amherst college chapter.

NEW AIR INSTRUMENT

Is Designed to Defeat Fog, Arch Enemy of Airmen

WASHINGTON, July 21.—A new instrument designed to defeat fog, an arch enemy of aviation, has been developed by army air corps engineers.

It is a new style altimeter, at present highly experimental, which registers the exact distance between airplane and ground objects instead of giving, as the present altimeter does, the distance above sea level. Its value is expected to be demonstrated in night and foggy weather flying.

HAIL REPORTED IN LITTLEFIELD AREA

Rains Are General In Every Direction, Reports To The Avalanche Last Night Declare.

Breaking a drought of several weeks over most of the South Plains, torrential rains spotted the entire area last night in one of the most beneficial downpours of the year.

Precipitation, varying from eight showers in some points to an estimated amount of three inches in others, covered the area in every direction from Lubbock.

Lubbock's rainfall, estimated at from two and a half to three inches, was among the heaviest reported last night. Official gauges at the experimental station showed more than two inches of downpour to 9 o'clock. The inner gauge, which holds two inches, was running over at that time and the rain continued for several hours longer. A complete check-up of the total precipitation will not be made until late today.

Beginning at about 7 o'clock the heaviest downpour witnessed here in some time came down in torrents for more than an hour, then settled into steady drizzle which continued until a late hour last night. The rain was accompanied by heavy overhanging clouds and a violent electrical display.

Reports over the Plains last night showed the rainfall to have been general, with the heaviest precipitation in the north and west. A heavy reported the heaviest rain, with an amount unofficially estimated at from two to three inches.

Although only a slight shower was reported at Elton and Post, his drivers reported heavy rainfall getting all of the territory between here and Spiller.

Jail was reported from Littlefield.

Meeting to Plan Campaign Is Set

Democrats Called to Session At Austin On August 4 In Statement From National Committeemen.

(By Associated Press) DALLAS, July 21.—All democrats who have the smooch of the party at heart were invited today to join C. Adams and Mrs. Clara Driscoll in a national convention, and D. W. Wilcox, state chairman, to participate in a meeting at Austin August 4 to consider plans for the party's campaign in the state.

Organization to cover every county in Texas and to assist for the democratic "ticket," national, state and county, the greatest meeting in its ever received, will be the object of the gathering. It was announced here following an informal conference of party leaders from across the state.

Driscoll, stepping off on her way to Austin from the meeting of the national committee in New York, expressed approval of the plans for the campaign, which Mr. Adams described as the "first real democratic campaign ever conducted in Texas." Women of Texas will issue no separate organization, Mrs. Driscoll said, but will work in an unorganized campaign with the democratic state organization. This was decided upon as the most logical course in a conference recently with Mrs. Nellie Taylor Ross, former governor, Driscoll, national chairman of the democratic women's national campaign.

Details of the tentative campaign program to be presented at the Austin conference were not mentioned by Mr. Adams. Referring to the proposed campaign, he said:

"It has never been so important to reach every county in the state as a thoroughly organized campaign. And that will require organization."

When Champion Gene Signed up to Fight

There's going to be a big fight in Yankee Stadium, New York City, on July 28, and here's photographic proof of it. Champion Tunney, in the center, is shown putting his James Joseph on the dotted line of the contract brought to his camp by Tex Rickard, left. At the right is Billy Gibson, Tunney's manager.

Critics Predict Victory to Gene But Not by Kayo

Loughran and Leonard Say Tunney Hasn't Chance To Land Haymaker On Burly New Zealander.

PAIRING Tunney after a 48 hour rest, that Gene Tunney stands little or no chance of knocking out Tom Heeny in their fifteen round battle for the World's Heavyweight Championship in the Yankee stadium at Thursday night is the unqualified opinion of Tommy Loughran, World's Light Heavyweight Champion, and Benny Leonard, retired undefeated Lightweight title holder, after watching the rugged New Zealander in a work-out this afternoon. Refreshed by a day's lay-off, stopped through four rounds of boxing and four rounds of gym exercises. The weather was cool and refreshing after three days of blistering heat. The change was a welcome relief to the hard-core fighters.

Tunney In Best Workout Of Entire Training Time

Gene Tunney after a 48 hour rest today went through the best workout of his long campaign for the defense of his world's heavyweight title against Tom Heeny.

Although he reduced boxing from six to four rounds today, two each before his sparring partners, he displayed more ring stuff in these 12 minutes than he has in the past 12 days. Tunney's actions against Harold Mays especially, indicated he was ready to knock out the challenger long before the 15-round title battle was half over. For the first time in the past three months, Mays was unable to land one solid punch. Mays had little difficulty in scoring a hard right hook to Tunney's jaw after rushing the champion against the ropes. When Harold skillfully ducked out of danger and then left-jabbed Mays back into the center where he whaled him with rounds of this vicious punishment. Mays crawled out of the ring remarking: "It's just as well that Gene wants to go only two rounds, I don't think I could last through a third one."

FAVORS SLUGGING Unorthodox Game Snyder's Idea

When Gene Tunney heard that Al Smith had been nominated he called Steve Hannagan, his press representative, to the royal palace and directed him to lay down a wire of congratulations to the governor. It was a long telegram and in it Tunney expressed his belief that in a national administration of the governor there would be no hypocrisy or "demagoguery." Steve took the "hypocrisy" without being staggered but when he was hit with the second baby he was floored. He went to his quarters and sparred with a dictionary over all the d's and couldn't find the word. He sent back to the royal palace and told Tunney he would have to throw in the sponge. "I don't know how to sell that word you said and I can't find it in the dictionary," Hannagan said. "You would have spared yourself the labor if you had asked me when I was dictating the message," Tunney said. "It is spelled d-e-m-a-g-o-g-u-e-t-y."

Crowded Ground Makes Olympic Work Difficult

Hammers, Shot and Javelins Fly Helter-Skelter And Scouts are Appointed To Warn Athletes.

AMSTERDAM, July 21.—Hammers, shot and javelins flew helter-skelter and scouts had to be appointed to warn the runners and hurdlers lest they get hit as athletic stars of a dozen nations crowded the practice fields near the Olympic stadium today in the first general workout in preparation for the international games. Everybody seems pleased with the crowded party but head coach Lawson Robertson of the American track and field team who described it as a "very unsatisfactory workout from a coach's viewpoint." One small practice field was so crowded, according to Robertson, that no one could go anywhere more than limber up. One American casualty was reported. Jimmy Quinn, sprinter from Holy Cross, turned his ankles in one of the numerous holes dug in the soft track by runners practicing starts. Quinn said it was not serious but the full extent of the injury probably will not be known until tomorrow.

Second Bad Feature

The crowded conditions for practice were the second feature of the Olympic facilities here at which Coach Robertson has registered dissatisfaction. The soft condition of the Olympic field and field drawn sharp criticism from him yesterday. Under the direction of Robertson and the assistant coaches, the American athletes were put through practice drills today at about three-quarter speed and were cautioned against cutting loose at full speed before Monday when they start serious training, workout twice a day. The track men were not the only ones who showed a need for elbow room. John T. Taylor, manager of the swimming team, informed the Associated Press that he has in a country furnished with canals does not mean swimming facilities are plentiful. After searching all day swimmers finally found adequate conveniences at Houtvaart, near Haarlem, an hour's bus ride from Amsterdam, where there is a 50-meter pool in which the Americans will be permitted to lay out laps, erect their own springboard, and begin practice in earnest on Monday.

The Chicago White Sox are founder around the bottom of the American League team but it is through no fault of Alon Metzler, shown here. This young man has been hitting above 300 this season and his patrol of his outer garden is above reproach. Metzler once had a triple with the Sox but was shut out back to the Texas League only to be bought by the White Sox.

CHICAGO, July 21.—Statisticians, the court of last resort to settle baseball arguments, so far prove the critics, who deride Yankee pitching, weak but sided solely by heavy hitting are all wrong. For not only do the Yankee batsmen drive some home runs than any team in the American League, but the Yanks are the hardest to score against. And this is true despite the fact the team is sixth in fielding.

Crowder Leads Hurlers

Five of the leading left pitchers in the American League thus far are Yankees. Alvin Crowder of the White Sox leads the field of hurlers, however, stacking up two more victories during the week to hike his season's record to 11 won and 1 lost. White Hoyt of the Yankees is second with 12 won and two lost. While the leading batters slumped considerably during the week Leon "Goose" Goslin of Washington still led the field with an average of .394.

Rookie Hurler Holds Yanks for Six Innings But Is Wrecked By Babe's 39th

Renford Taylor Of Slaton Wins In Singles Tilt

Contests of Fifth Annual West Texas Tennis Tourney, Ending Here Yesterday, Are Hotly Contested

Wilson McKirihan, Amarillo, and Ross McDonald, Lamesa, members of the last year's Texas Technological College tennis squad, for the second straight time won the doubles championship of the annual West Texas Tennis Tournament here yesterday morning by defeating Roscoe Eiler and Francis Crummen, local combination, after four interesting sets. The score of the championship play was 5-7, 6-2, 5-3, and 6-4.

Cubs Take Two Extra Innings Games From Giants In Dual Contest That Extends Over Five, One-Half Hours

First Clash Won By Chicago Cubs, 2 to 1, in Fifteen Innings, and Win Second Game, 5-4 in 10.

(By Associated Press)

CHICAGO, July 21.—The Cubs won two extra inning games from the Giants here today in a baseball session lasting more than five and one-half hours. The first clash was taken by 3 to 1 in 15 innings and the second by 5 to 4 in 10. Hartnett's triple drove Stephenson home with the winning marker in the nightcap.

BOSTON, July 21.—Cleveland and Boston divided a double header today. The Red Sox won the first game, 5 to 2, and Cleveland the second, 2 to 1.

Couchman's Bobcats Cling to Lead in West Texas League Despite Mark In Games Won off Snappers and Colts

Week Is Rather Tough On Hubbers and Aces, Who Lose Five Games in Six Starts During Period.

Bob Couchman's Bobcats continue to hold the lead in the West Texas circuit despite the fact that the San Angelo Snappers and the Midland Colts have turned in the best record for games won during the past week. From last Sunday's game through Friday Red Snappers' recruits and Snipe Conley's Colts have won five games in as many starts, while Coleman and the Spring champions back with one tiny single in the first six innings.

Sunday, 4 to 2, came back to win the series from Punk Thornton's Snappers, taking the last two games by counts of 9-4, and 10-9 respectively.

After a sniff of the schedule Lubbock returned to the Merrill lot for three days and dropped the series to Big Spring, losing the opening exhibition 10 to 7, copped the second game, which was an extra session affair 3 to 2, and lost the rubber game 4 to 1.

Midland battled the league leaders in three games filled with heavy hitting and numerous scoring. Coleman won the first of the Midland series 10 to 9, and dropped the final two 18-12, and 8-7, and Dave Cheves and Sangumet's heavy hitting featured for the Colts.

Benton Paces Hurlers

Pitching honors still rest with Jerry Benton of New York, who has won fifteen games and lost only four for a percentage of .789.

Carl Mays, with Four Victories and One Defeat for 80.5, is Nominal Leader of the Pitchers, but has Worked in Only Five Games.

With the exception of individual setting and pitching, the Cardinals have practically a monopoly upon the various individual titles. The field breaks through only in home runs where Hack Wilson of Chicago has a clear margin with 23 and even in this useful detail the Cards present their own representative in second place—Jim Bottomley who has twenty.

Bottomley also leads in runs scored with 31, in doubles with 20, in triples with 13, and in runs batted in with 52.

His team mate, Taylor Douthett, has the greatest number of hits of any player in the league, 128, and Frank Frisch manages to hold the lead in base stealing, even though no bases whatever can be stolen on a hit-out. Frank had 16 when laid low by his latest injury.

Major Hoople On "Misunderstanding"

World Would Be Much Happier Place If No One Misunderstood, Philosopher Says

BY MAJOR HOOPLE MCCORKLE
Avalanche-Journal Philosopher

... are costly. Often they are painful, but the world is filled with them. If every-body knew the truth about every thing there would be no misunderstandings—no more wars, and no more tears. But the master minds above him didn't understand—just took their word on a little misinformation, got out his gun, sent a good man into eternity, and is now waiting for his own death sentence, and all because he did not understand.

Take the Women
We know women who are living a life of sorrow simply because they do not understand their husbands. Some of these husbands, we admit, are just about as good as the devil, but most of them are not. Every time a man is called out of town on business does not mean that he is going on a "wild party." Many of them really have business, and wild parties are the last thing that will enter their minds.

The wife who remains at home mopping tears is merely wrecking her own life for no good cause whatever. Only a few weeks ago a Lubbock man was sent by his firm to another city. When he returned the trip to his wife she went into a rage—put on a "scene" and came so close to a divorce suit you could almost hear the verdict. She "knew" her husband was not going on business, but for a good time she was wrong. She "knew" her husband was not going on business, but when her husband left the city he was so worried and blue that he couldn't do his work, and he failed in his attempt to "land" a big order.

Husbands "Misunderstand"
Husbands sometimes "misunderstand." They just "know" that when friend wife stays an extra ten minutes at the show she is out with another man. As a rule they are wrong, for most wives care very little for other men. But when the green-eyed monster gets busy its time to look out and husbands who have an idea that some other fellow holds his wife's affections had better trade her off. Too often, however, husbands just simply do not understand.

Had Bill Hohenzollern "understood" he never would have tried to conquer the world. He was laboring under false impressions and misunderstandings. But he paid for his folly. He has cut enough cord wood to fire a trans-Atlantic liner for half a dozen trips, and he has no one to blame but Bill himself. Had he understood he would still be at the head of the German government—honored and respected by all nations.

Judas An Example
Judas Iscariot did not understand the seriousness of his folly when he betrayed Christ. All he could see was the 30 pieces of silver. When he learned that he had betrayed his friend—that he had played the part of a fool, he hanged himself.

Saul of Tarsus did not understand when he was persecuting Christ. It took a lot to convince him that he was wrong, but once he "knew" the truth his whole life was changed, and Paul proved to be one of the greatest characters the world has ever known—probably next to Christ in greatness.

When, through anger, a man takes the life of another, it is through ignorance or misunderstanding. After the deed is done it is too late to be sorry for he can not bring his victim back to life. His misinformation got the best of him—he acted first and was informed later.

The British Lost
When the British government tried to collect heavy duties from American colonists the government heads were just misinformed. After the Boston tea party they realized the fact, but it was too late. They lost America, the most treasured of all possessions.

Emma Goldman did not know the truth when she was preaching her anarchistic doctrine in this country. She was simply misinformed. But she has paid dearly for her folly, and the sad part is she now knows the truth.

Most all our troubles are imaginary. We do not understand, for if we did our lives would be different—would be happier. We imagine that we are getting wronged and without giving serious thought—without learning the truth we start out to "right matters" according to our own fancies. We distrust our friends, our wives and our husbands. At times we even doubt ourselves.

What we need is more understanding and minds willing to accept truth. If only our "fears" might be dispelled how much happier we would be. What we need is light.

The world is not "going to the dogs"—not by any means. This is our transition period, and once we are strong enough to accept truth, our sad misunderstandings, and take life for what it really is worth we will be a lot happier.

Nothing funny about this at all—it's just cold facts. Of course most of us don't like facts—we had rather labor under false impressions and misunderstandings. We are willing to do anything that will give us a thrill, if we can "imagine" that our wife or husband has an affinity it does us good to learn that it is not true. If only we could see things as they really are, all the

West Texas C. C. Committee Meets On Road Program

Regional Body Co-Operates With Others In Forming Legislative Policy For State Highways

(Special To The Avalanche-Journal)
VERNON, July 21.—President A. M. Bourland, Manager Homer D. Wade, and the highway committee of five of the West Texas Chamber of Commerce will be in Austin Monday to co-operate with East and South Texas Chamber of Commerce officials in formulating a general legislative road and highway policy.

The conference is being held at the instigation of the West Texas regional commercial body as a result of a resolution passed at its tenth annual convention in Fort Worth asking that the three regional chambers unite in such work.

Preliminary Meeting
A preliminary meeting will convene in the Stephen F. Austin hotel at 10 a. m. July 23, to perfect an organization and to agree upon a program for future procedures.

West Texas representatives besides President Bourland and Manager Wade, will be J. D. Hamill, Parwell; J. S. Birdwell, Wichita Falls; W. A. Hemphill, San Angelo; John Perkins, Alpine, and J. P. Williams, Mineral Wells.

President O. W. William and Manager Ray Leeman of the South

Texas Chamber of Commerce will be on hand with their five committees consisting of Geo. C. Rehm, Alice; V. J. Grunder, Cuero; Leonard Tillotson, Sealy; G. R. Sanders, Pearsall, and E. B. Neiswanger, San Antonio. John D. Middleton, Greenville, president of the East Texas Chamber of Commerce, W. M. Blanton, manager of the organization, are expected to accompany the East Texas highway committee whose personnel is to consist of representatives from five major businesses and professions of the section.

Co-Operation Indicated
Members of the Texas highway commission have indicated a willingness to co-operate with the three regional commercial organizations of the state in this concerted movement and it is thought may be interviewed while the committees are in Austin.

Lumbermen Here Organized Into Fraternal Body

Local Chapter of Hoo Hoo Is Formed At Fete Held In Tech Livestock Pavilion Last Night.

Sixteen poor, blind, crawling "kittens" became full-fledged "cats" at the consecration stage by Hoo Hoo at the livestock pavilion of Texas Tech last night.

Following the consecration of initiation ceremonies, a Lubbock Hoo Hoo was organized with Walter Alderson, president; P. J. McClure, vice-president and Lamar West, secretary.

Hoo Hoo is the fraternal order of lumbermen and allied industries and is recognized as one of the leading organizations of its kind in the world.

The consecration last night was honored by the presence of Gaines D. Whitsett, of Amarillo, secretary of the Supreme Nine and one of the nine leading Hoo Hoo in the world.

Dutch Lunch Served
Lubbock lumbermen served a dutch lunch to the visiting Hoo Hoo and kittens before the consecration.

The ceremonial work was in charge of the following Nine: Henry Assley, Amarillo, Snark, F. J. McClure, Lubbock, Senior Hoo; Hoo; Gaines Whitsett, Junior Hoo; Hoo; E. O. Jordan, Amarillo, Jabberwock; L. P. Sanders, Amarillo, Bojimm; W. L. Blake, Amarillo, Scribbler; John Armstrong, Amarillo, Arcanoper; L. G. West, Lubbock, Gurdon.

Owing to the heavy rain the attendance was not as large as expected but Hoo Hoo present reported a big time and that they thoroughly enjoyed the antics of the blind kittens.

Smith Speech

(Continued from page 1)

view that the chief difficulty so far as he was concerned was to "wrap" time on the radio with commercial broadcasters. A suggestion that the radio stations should be willing to do their utmost to provide him with broadcasting facilities, drew from him the remark:

"Well, they don't appear to be doing it."

Expected August 15
The explanation is that the Smith ceremony will take place during the week of August 15, after both Herbert Hoover and Senator Curtis have been notified officially of their nominations by the Republicans.

The nomination of Senator Robinson as the Democratic vice presidential nominee will come a few days after the night ceremony here for Governor Smith.

Until the Democratic nominee for president is named, exactly when he will be called on to outline his views on campaign issues, it is unlikely that he will do any actual work on the preparation of his acceptance speech. He already has assembled material for it, however, and has shaped out the frame work of the address in his mind. He intends to touch on all issues, among them prohibition and farm relief which he regards as of prime importance.

Rains

(Continued from page 1)

to Shallowater, although the amount could not be determined last night. Littlefield reported a fair rain with the precipitation much heavier toward Shallowater. It was still raining at Littlefield at late hour last night, after more than a two-hour downpour.

Floydada reported that heavy rain fell for more than an hour, and that it was thought to have extended in every direction.

Halls received more than one-half inch rain last night, reports from there last night estimated. One bus driver said that good rains fell from the other side of Tahoka to Lubbock. Only two buses arrived here by a late hour last night. One was reported drowned out at Wolfarth. Heavy rains fell between here and Meadlow, it was reported.

Brownfield reported heavy precipitation. Reports from there indicated that the rainfall was general in every direction. Although estimate of the amount was made, it was said that the rain had been falling for several hours.

One house was struck by lightning during the rain in Lubbock and several business houses were flooded for a short time. The W. S. Union was flooded during the heaviest downpour, but the service was continued later.

Reports late last night indicated that the rainfall extended as far North as Amarillo. Heavy rains were reported there with indications that it extended all the way between there and Lubbock.

Confessed Youth

Sunday because she refused to allow him to go to church after he had been slightly injured that afternoon in a car accident.

Mr. Gilbert took Flavis into his home when the youth's father was convicted of the murder of his wife five years ago. Flavis' father died in the penitentiary. He had also been indicted for murder on another case, testimony in the delinquency trial revealed.

The youthful defendant appeared calm on the stand, speaking in a low calm tone. He was only "kinda mad" at his aunt when he struck her, he said. Justice John R. Hoff, who was appointed by County Judge Charles Nordyke, represented the youth in the trial Friday afternoon.

Mr. Gilbert declared that it would be impossible to keep Flavis in his home any longer, as he feared for the safety of other members of the family.

Condition of Mrs. Gilbert was reported improved yesterday. Her skull was slightly fractured by the blow of the hammer.

Love Appeal

(Continued from page 1)

Associate Justice T. B. Green said yesterday:

He was told that the court would consider his writ of error application only in regular session, which is not resumed until October. The vacation is prescribed by the Constitution, and the Justice said that no provision is made for consideration of applications such as his during the vacation period.

Attorney O'Neal Pollard in-

formed the Midland county Democratic committee by wire Saturday that it is permissible under uniform rulings of his department, for voters to write on ballots any name not appearing there and that such ballot must be counted in favor of the one whose name is written on.

Obregon

(Continued from page 1)

and a feeling of distinct uncertainty. What is regarded as a virtual ultimatum to President Calles by Congressman Solo y Gomez, Agarran leader close to Obregon and long a fiery figure in Mexican politics that Luis Morones, minister of labor, "must go or there will be actual war" is frankly disconcerting to elements who are working to spare Mexico from another period of chaos and bloodshed.

However it is felt that it is not unrestrained speeches, but control of the army that really counts. Meanwhile, the army continues to observe discipline and Secretary of war Amaro has issued an appeal to all revolutionary elements to support the army which he promises will continue loyally to guarantee maintenance of peace and order.

Whatever foundation or lack of foundation actual facts might reveal for their belief, the Obregon

leaders assert conviction that the political enemies of General Obregon were behind the "religious fanaticism" which the police say was the immediate inspiration of the president-elect's assassin.

The name of Morones is constantly and openly used by Obregon leaders in discussing the assassination. General Obregon and Morones were long political enemies and no expressions that the Secretary of Labor has made since the assassination lamenting the crime has served to check the feelings against him openly expressed by some of the Obregon leaders.

NOGALES, Ariz., July 21. (AP)—General Alvaro Obregon, assassinated president-elect of Mexico, came home today to a silent demonstration of sympathy and respect, unequalled in all his brilliant earthly career as a soldier and statesman.

Tribes of stole Yaquis and Mayas, three thousand federal Mexican troops and many more thousands of the people of all Mexico were gathered today to meet the body of their chieftain and escort it to a final resting place.

Funeral services, in charge of the military and as simple as the hardy farmer of Cajeme could wish, were arranged for this afternoon at the little village of Huatabampo, Obregon's birthplace.

An added touch of tragedy to a scene already almost filled with evidences of grief, was the collapse again of Senora Obregon this morning as the funeral train slowly crept into the railroad station at Navajo.

Mrs. Geo. Bradley and daughter, Miss Blanche, of Lubbock, Mrs. M. A. Palmer and Miss Lottie Struve left Thursday morning for Boulder, Colo. Misses Struve and Bradley and Mrs. Palmer are to attend school at that place for several weeks.

Those Who Went On Friday Trip Are United In Appreciation of Section And Its People; Prosperity Feature

Hospitality of People All Along Route Made Local Evangelists Happy; Rail Campaign at Seminole.

Lubbock created additional goodwill and friendship among her neighbors to the southwest and west by making the visit to the new potential oil field near Hobbs, New Mexico, Friday, according to various members of the party here yesterday. The trip was of much benefit to the city's standing as the metropolis of the section, they said.

"They just kinda' look to Lubbock for things down that way," B. Sherrod, president of the Lubbock Chamber of Commerce and Board of City Development, said. "Everywhere we went we were greeted with a friendly welcome and especially was this true at Lovington. The Lovington reception committee even drove to Hobbs and escorted us back to their city."

Mr. Sherrod stated that good roads was the main topic in that section and practically every man was making efforts to see that the highways were improved.

Posey Sees Development

There's to be an immense amount of development in that territory, Walter S. Posey, vice president and cashier of the First National bank, stated when approached regarding the possibilities there. "To the layman, there doesn't appear to be much activity, but the large companies are preparing for a busy campaign," he said. Mr. Posey stated that there was a general feeling of friendship toward Lubbock and that he believed the visit profitable in creating goodwill.

"Road improvement seems to be the greatest need of portions of the territory," Rev. Walter P. Jennings, pastor of the First Christian church, said in speaking of the trip. Rev. Jennings reported the crops in Terry, Geary and Yorkton counties to be in good condition.

J. A. Rix came back with the tale of a railroad for Seminole. "Those people at Seminole sure want a railroad," Mr. Rix said in telling of his conversations with various individuals there, and some of them say that they won't stop fighting until they get one. They're looking to Lubbock for aid in putting over the project.

Bank Deposits High

Mr. Rix reported that bank deposits were higher in Seminole than at any time in its history and that the crops near there were in excellent condition.

Various other members of the caravan also expressed themselves yesterday as believing that the trip did much toward the strengthening of Lubbock's goodwill on the South Plains. Approximately 30 people made the trip.

Following up the term, the Lubbock Chamber of Commerce is sending out letters to a number of citizens at Brownfield, Seagraves, Seminole, Hobbs, Lovington, Taum and Plains expressing appreciation, on behalf of the city and the citizens for making the trip, for the splendid hospitality shown the boosters. They call attention to the fact that Lubbock is ever anxious to work with the places in building their particular town and the South Plains section.

President Sherrod has suggested that a number of the party send out individual letters to friends visited in the towns thanking them for the courtesies shown to the visitors. "A personal letter from one of the boosters to some friend along the route which was visited on the trip will be worth much to Lubbock," he said.

GRAPEFRUIT CROP

\$1800 Acre Netted From Tract Near Harlingen

MISSION, Tex., July 21.—W. H. Maupin, citrus fruit grower of the Harlingen district, has netted \$1,800 an acre for this year's grapefruit crop, according to a sworn statement from the Texas Citrus Fruit Grower's Exchange here.

The statement was sworn to by Maupin and R. P. McKee, auditor of the exchange.

Maupin's expenses were plant and exchange charge, \$1,900; advertising, \$100; exchange on citrus; picking and hauling, \$296.40; maturity stamps, \$11.12.

Four Lawyers Help Friends Running for Governor

Tom Garrard, H. B. Stewart, W. W. Campbell and Judge Homer L. Pharr have political eyes to grind for themselves, but they have friends who need their aid as a result of taking the stump in the behalf of candidates.

Messrs. Campbell and Stewart are fostering the candidacy of Louis Wardlaw, who is running for governor while Mr. Garrard and Judge Pharr are backing the candidacy of Judge Dan Moody, candidate for re-election. Judge Pharr spoke for Governor Moody at Post yesterday while Mr. Garrard will speak in Thobeka, Lamons and Seagraves during the week, he said.

SEEK OIL SOURCE

"Ole Swimmin' Hole" Is Ruined by Crude

GOLIAD, Tex., July 21.—This town hopes to obtain a new oil field at the expense of the boys who once patronized the "old swimmin' hole."

The boys of the town are unanimous in agreeing that there was no oil in their favorite swimming hole when they went swimming last year. This year the pool is unfit for swimming because of a scum of oil which is seeping up from the bottom of the pool.

As is usual in such cases, investigation tried to trace the oil to some commercial source, but there are no pipe lines here and no "leaking" tanks could be found. The theory was then advanced that the oil was waste from some garage. Analysis, however, showed that the oil in the swimming pool was "surplus," one of the crude oils found in the coastal fields. Had the oil come from a garage it would have been refined oil. Efforts to locate the source of the oil are expected in the near future.

Lubbock Men Praise Good Will Jaunt

Those Who Went On Friday Trip Are United In Appreciation of Section And Its People; Prosperity Feature

Hospitality of People All Along Route Made Local Evangelists Happy; Rail Campaign at Seminole.

Lubbock created additional goodwill and friendship among her neighbors to the southwest and west by making the visit to the new potential oil field near Hobbs, New Mexico, Friday, according to various members of the party here yesterday. The trip was of much benefit to the city's standing as the metropolis of the section, they said.

"They just kinda' look to Lubbock for things down that way," B. Sherrod, president of the Lubbock Chamber of Commerce and Board of City Development, said. "Everywhere we went we were greeted with a friendly welcome and especially was this true at Lovington. The Lovington reception committee even drove to Hobbs and escorted us back to their city."

Mr. Sherrod stated that good roads was the main topic in that section and practically every man was making efforts to see that the highways were improved.

Posey Sees Development

There's to be an immense amount of development in that territory, Walter S. Posey, vice president and cashier of the First National bank, stated when approached regarding the possibilities there. "To the layman, there doesn't appear to be much activity, but the large companies are preparing for a busy campaign," he said. Mr. Posey stated that there was a general feeling of friendship toward Lubbock and that he believed the visit profitable in creating goodwill.

"Road improvement seems to be the greatest need of portions of the territory," Rev. Walter P. Jennings, pastor of the First Christian church, said in speaking of the trip. Rev. Jennings reported the crops in Terry, Geary and Yorkton counties to be in good condition.

J. A. Rix came back with the tale of a railroad for Seminole. "Those people at Seminole sure want a railroad," Mr. Rix said in telling of his conversations with various individuals there, and some of them say that they won't stop fighting until they get one. They're looking to Lubbock for aid in putting over the project.

Bank Deposits High

Mr. Rix reported that bank deposits were higher in Seminole than at any time in its history and that the crops near there were in excellent condition.

Various other members of the caravan also expressed themselves yesterday as believing that the trip did much toward the strengthening of Lubbock's goodwill on the South Plains. Approximately 30 people made the trip.

Receipts At Union Bus Terminal In Line With Prosperity of Territory; Bus Passengers Increase In Number

Forty-four Schedules Are Offered In And Out Each Day, Figures Show; Lines Number Seven.

Indicative of the increased prosperity of Lubbock and the South Plains during this year, receipts at the Union Bus Terminal are showing an increase of more than 200 per cent over this time last year, according to W. D. Benson, attorney for the bus owners.

"More passengers are now using the bus lines in and out of Lubbock than ever before," Mr. Benson said. Approximately 300 passengers daily are served by the 23 buses on the seven lines in and out of the city.

A glance at the bus schedules gives one an idea of why the lines are meeting with so much popularity from the travelling public. Forty-four in and out schedules are available every day. Eight schedules are operated in and out of the city by the North Plains Coaches from Lubbock to Amarillo. Arch Tyer is manager of these lines.

Abbott Has Many Schedules

Dick Abbott, of the South Plains Coaches operates 14 schedules from Lubbock to Sweetwater, Lubbock to Brownfield and Lubbock to Roswell.

Ed C. Abbott, of the Lone Star Coaches, one of the pioneer bus men of the city, operates 6 schedules in and out of the city toward Iggar, Wichita Falls and Fort Worth. Four schedules are operated in and out of Dallas every day toward Vernon by Mr. Abbott also.

The Sunset Coaches are operated from Lubbock to Clovis by Leo Randall. Six schedules are maintained by these cars.

O. C. Abbott operates four schedules from Lubbock to Levelland.

To the Southwest, Bill Watson operates six schedules from Lubbock to Lamesa and Big Spring.

With these lines running at all hours of the day, Lubbock is assured of an abundance of travelling facilities.

Bob Strickling is spending the week-end in Big Spring.

Vitaphone and Movie-Tone Machines To Be Installed In Palace Theatre While Lindsey Is To Be Remodeled

\$75,000 To Be Expended To Improve Show Houses And Better Service, Manager Announces Saturday

Heralding a greater program of entertainment for Lubbock and the South Plains, C. C. Lindsey, manager of the Lindsey Theatre, yesterday announced an improvement program aggregating approximately \$75,000 for the Lindsey and Palace theatres during the next three months. The improvements are being made to meet the ever-increasing demands of the theatre-going public and the growth of the city, Mr. Lindsey said.

Featuring the improvements will be the installation of Vitaphone and Movie-tone machines in the Palace Theatre. The contract has been signed on the machines and installation has been promised by December, it was said. The machines represent an expenditure of \$12,000.

Machines New Wrinkle

Both machines, only recently installed in the leading cities throughout the United States, reproduce the actual voices of the actors so that the picture meets the requirements of the drama of the stage-play days. The machines here will be the only ones in West Texas with the exception of one at Amarillo, Dallas, Fort Worth, Houston and other leading cities over Texas are equipped with the machines.

A complete remodeling of the Lindsey Theatre at the corner of Main and Avenue J, comprises the remainder of the improvements. Only the walls of the present structure which was built in 1912 will be used in the new building. The re-vamped theatre is to be built in the coliseum effect with the Spanish garden atmosphere predominant in the architecture and decorations.

To Improve Seats

Architect's plans for the new building call for a seating capacity of 1600 in the place of the 650 of the present. Leather upholstered air cushion seats will be used. The walls of the present building will be raised to give the new building plenty of space upwards for balconies.

A super-cooling system plant will also be included in the list of improvements for the Lindsey. The plant is partially installed now but will be removed and placed on the completed building.

Present plans for the building call for its completion by March. Mr. Lindsey said yesterday. Construction work will start about the first of the year. The improvements will necessitate an expenditure of approximately \$60,000.

Investment to be \$300,000

The improvements will make the total investment of the theatres at more than \$300,000.

In connection with the installation of the Vitaphone and Movie-tone machines, Mr. Lindsey announced that he has signed a five-year contract with the Paramount pictures who are to be the leading sound picture producers. Forty-two sound pictures will be produced at the theatre next year, Mr. Lindsey announced. A program of at least two sound pictures a week is planned in the future.

First class films will be scheduled for the Lindsey programs also, Mr. Lindsey said, a clean vaudeville circuit to feature the winter season.

A glance at the bookings of the Palace revealed the "coming soon" of many of the leading films during the coming movie season. "Wings," "King of Kings," "The Wedding March," "The Legion of the Condemned," "Romana," and many others are on schedule.

C. C. Heads Cover Big Territory On Tour Of Section

Traffic Problems Discussed In Round Table With Shippers And Other As Aid Is Extended

STAMFORD, July 21.—Approximately six hundred miles were covered by the four West Texas Chamber of Commerce executives who set forth immediately following the board meeting in Coleman, July 16, for a two days tour of the west to discuss traffic problems and to acquaint the new president with people of his territory.

The four making the trip were: A. M. Bourland, president; Homer D. Wade, manager; V. E. Finkbeiner, traffic manager, and E. H. Whitbread, publicity manager of the regional organization. The itinerary carried them from Abilene, Tuesday morning, to Lubbock, Wednesday evening.

Round Table Discussion

Round table discussion of traffic problems in four major shipping towns of central West Texas were held in Abilene, San Angelo, Sweetwater and Lubbock. Goodwill stops were made in as many points as possible, time provided enroute. These places included Robert Lee Brunie, Blackwell, Post, Snyder and Slaton. Cardinal reception and large attendance marked the meetings in all points where entertainment was arranged by local chambers of commerce.

Effect of the new rate structure which became operative July 14 was explained by Traffic Manager Finkbeiner who answered many questions on the other traffic matters for shippers and jobbers who came to listen to him. Addresses by President Bourland touched up the spirit of the West Texas and urged a continuance of the co-operation evident throughout the section.

URGENT APPROPRIATIONS

AUSTIN, July 21.—President A. M. Bourland, Vernon, and Homer D. Wade, Stamford, manager of the West Texas Chamber of Commerce, will appear before the board of control here Monday and Tuesday to urge needed appropriations for teachers colleges in West Texas.

200 Are Expected At Conference of Methodist Groups

Two Local Churches Will Be Hosts to Young People On Thursday and Friday At M. E. Church.

About two hundred delegates are expected to attend a quarterly district Epworth League conference at the First Methodist church Thursday and Friday of this week.

Presiders in the Lubbock district are to make the principal talks at this meeting and assist in directing the discussions.

A feature of Thursday's program will be an auto ride over Lubbock from 4 until 5 o'clock to be followed by a lawn fete and stunt program from 5 until 7 o'clock at the W. W. Royalty home, 1619 19th Street.

Although this is a quarterly meeting, it will be more largely attended than other conferences because this is the vacation season.

THE PROGRAM Thursday Morning 8 to 10—Registration. Get acquainted service. Roll call.

Talk "Lubbock District on the Ladder to Efficiency," J. E. Shew-bert, Jr., Abilene, field secretary. Bible service.

German, "Learning Christlikeness Through Efficiency," Rev. E. W. White, pastor of the First Methodist church.

3 to 5—Committee meetings. League meetings. Song service.

Recreation, Frank Saragant. "The Standard Hi-League," Mrs. Suddarth. Lubbock Special.

"Be Christlike," Ned Camp. Auto ride over the city, lawn fete, vesper service.

Thursday Evening 8:15—Song service at the First Methodist church.

Specials: "Power Applied Through Efficiency," Dr. Paul W. Horn.

Friday Morning 8 to 8:30—Morning watch, Rev. E. E. White.

8:30 to 9:00—Hi and Senior Cabinet meetings. Devotional—Mr. Shewbert. Assembly Report—Rev. T. M. Johnson.

Prayer and Talk—Beecher Beunett. Talk on Mount Senguyah. Union meetings. Special.

"The Place of Study in the Life of a Leader," Miss Marian Evans. Song service.

Sermon, "Soul Winning My Business," Rev. Virgil Fisher. 10 to 1:30—Lunch. Business meeting. Communion service—Rev. White.

Elizabeth Baird Is Complimented

Misses McNabb, Westbrook and Baird Give Picnic-Dance for Student at Tech College.

Miss Elizabeth Baird, of Vernon, has honored Friday afternoon when Misses Mary Hope Westbrook, Margaret McNabb and Louise Baird entertained.

Picnic lunch was served at Tumbleton pool early in the evening and the group later returned to 1113 College Avenue for dancing.

Those enjoying the occasion were Misses Elizabeth Camp, Sarah Michie, Evelyn Stewart, Jane Rogers, of Henderson, Marjorie Almsworth, Virginia Murray, Vinceline Kligeron, Frances Ford and Elizabeth Baird, Harmon Jenkins, J. D.

Whites Return Methodist Pastor Is Back From Board Meeting

Rev. and Mrs. E. E. White, Miss Evelyn Sowell and Elizabeth Louise White returned Friday evening to their home here.

Miss Sowell has been attending at Southern Methodist University, Dallas, during the last six weeks and Elizabeth Louise has been visiting her grandmother in East Texas.

Mr. White, pastor of the First Methodist church, has been attending a meeting of the general board of education of the Southern Methodist church at Lake Junaluska, N. C.

The Smartest Dressers Get Into Print

BY HENRI BENDEL For NE Services

NEW YORK, July 14.—The authenticity of prints is impressed on us anew in the smartest, latest daytime frocks.

There are printed linens, pique, rough silks and novelty weaves in cotton for the tennis courts. The fairer links also see their quota of ingeniously fashioned printed outfits.

But the porch costumes for country club wear are the ones that realize how summery and in tune with the flowers, the birds and the trees, the right kind of printed chiffon and other diaphanous silks can be.

The "Porch Costume" By porch costumes I mean the lovely frocks women wear when they play the late morning game of bridge, the costumes they wear when napping in a shady corner.

Any kind of summer dress should suggest as much coolness as possible. That is one reason why prints are so popular. For in their design of out-door things and in their colors which may choose refreshing shades that suggest the woods and gardens, they are typically summer.

Polka dots remain smart in spite of a tremendous vogue for them among costumes that are expensive and far from exclusive. For that reason, the polka dotted frock that achieves chic and distinction deserves more credit, really, than one fashioned from a material of original and unique design.

Since women universally like polka dots and since they are almost universally becoming, every couturier includes a few of this type.

I show one today of polka dotted prints for morning and lunch wear that is unusual. It features a combination of color and dots. It is a study in brown and beige, with the pleated skirt a dark brown with beige polka dots and the blouse a beige background with pale cream dots.

The skirt has all-around bon-plais and shows the tendency towards slightly longer skirts. The overblouse has a belt at natural waistline to mould it to the figure and a kerchief neck of cream foulard. Insets of this cream foulard give an unusual touch to the deep turned back cuffs.

With a Reoux hat of brown straw brown purse and beige footwear, this is one of the season's smartest models.

Frocks of Blue Chiffon For tea time, Patou fashions a cool locking-in chiffon frock with a kerchief neck and a petal-like skirt that droops and dips in uneven lengths, concentrating its greatest fullness and greatest length on the left side, a new style note.

The chiffon is a cool, effective pattern in blue, shading to deep purple. The foundation of chiffon is princess and the lines of the frock are distinctly moulded. The natural waistline is accentuated by a wide girde that has no bows nor ties to detract from the slender line it gives.

Topping this creation of loveliness is a simple leghorn hat in natural color, trimmed with a wreath all around its crown of field flowers in the same shades as the printed flowers in the dress.

Many out-door affairs were listed among the Plainview social events for the week just ended. On Monday evening Mr. and Mrs. R. E. Horne entertained with an out-door supper at their home, honoring Mr. and Mrs. W. P. Allen, of Terrell and Mrs. A. C. Wilder of Shreveport, La.

About twenty guests were served. Mrs. C. W. Tandy, also of Plainview, was hostess on Wednesday evening at her home honoring her cousin, Miss Maud Shelton of Brooklyn, N. Y. Supper was served on the lawn at this function.

Miss Shelton was again honored Thursday morning when Mrs. T. Thurnley entertained at her home. Other affairs in Plainview included a chicken barbecue on Thursday evening, served by members of the 1927 Gift club and their husbands, honoring Mr. and Mrs. D. P. Wortham of Pando, a chicken barbecue served by Mr. and Mrs. D. L. Miller at their home, honoring Mrs. Ada Q. Perry of Baltimore, Maryland and Mrs. Lanham Higginbotham of Dallas; a bridge party given on Tuesday afternoon by Miss Dorothy Deaton and a bridge party at her home in Saint Louis from given Wednesday morning by Mrs. H. C. Dyart.

The family of Mr. and Mrs. W. T. Hunt, Idalou, has been enjoying a reunion at their home. Those who have attended are Mr. and Mrs. Medford Hunt and children, Jack, Russell and Sara Ann, of Waco; Mr. and Mrs. Melvin Hunt and children, Bernard, Lucille, Bessie, Melva and Joe of Slaton; Mr. and Mrs. Rayburn Hunt and son, Billie Jack of Lubbock; Mr. and Mrs. Luther Qualls of Madill, Okla.

Miss Jimmie and Jessie Ison of Idalou, entertained Wednesday evening with a swimming party at Lubbock, having as their guests: Miss Neita Lynn Shilling of Waco; Miss Norma Melton of Cleburne; Miss Ollie Hamilton of Lubbock; Miss Roberts Hamilton of Lubbock; Miss Lera Ison of Idalou; C. R. Myers and Gillen Littleton of Waco; Jennie Shepherd, H. C. Garvard and Donald Shepherd of Lubbock; Hazel Lassiter and Mr. and Mrs. H. W. Thompson of Idalou.

The birthdays of Mr. H. Blount, 75, and Mrs. Pannie Brown, 66, of Lockney, were celebrated last Sunday when Mr. and Mrs. A. E. Blount served a dinner at their home near Lockney. Mr. Blount is the oldest son in a family and Mrs. Brown is

Novel Course To Be Studied This Year by Society

Junior Twentieth Century Club Is Among First To Issue Year Book Giving Program of Work.

Among the first of the women's study clubs to issue a year book for the coming season is the Junior Twentieth Century society. This book is now ready for distribution.

A topic that has proved interesting for club study has been chosen by women in this society and novels of France, Russia and England are included in the course of study with certain authors to be selected and studied with the assistance of Dr. Allan L. Carter, of the Technological college faculty.

Meet in September Women in the organization will meet for the first time following the summer vacation on September 4 for a study of Goethe's "Renee" Maupierin. Miss Mayme Alexander and Mrs. Ernest Conley are to have the principal parts in a discussion on that occasion. The study of other books will continue through the winter months.

Distribution of the study programs at this time allows time for the preparation of discussions for the winter.

Mrs. Russell Myrick is president of the Junior Twentieth Century club, the membership of which is limited to thirty. The club was sponsored and organized in 1922 by the Twentieth Century club, a progressive organization among the women of Lubbock.

Mrs. O. L. Peterman is vice-president, Mrs. George Field is recording secretary, Mrs. Dorance D. Roderick is corresponding secretary and Mrs. Richard L. Douglas is treasurer of the society. Other officers include Mrs. Charles Mahoney, parliamentarian; Miss Pauline Carnes, press reporter; Mrs. Harold H. Griffith, auditor; Mrs. G. E. McColvey, critic; Mrs. Elmer Conley, federation counselor and historian, and Miss Ruth Dunn, delegate to the City Federation.

The club's year book is in the society colors, white and gold, an attractive cover being printed in gold ink on white paper. The daisy is the organization flower.

This society meets on the first and third Tuesdays of each month from September until May, alternating stock in the First Presbyterian church, the Twentieth Century club. A motto for the junior society is "Neglected Talents and Decay."

Thirty Members The active membership for the society includes Miss Mayme Alexander, Mrs. J. Foster, Mrs. Mrs. Lawrence Bacon, Miss Pauline Carnes, Mrs. Ernest Conley, Mrs. Elmer Conley, Miss Frances Conley, Mrs. Ruth Dunn, Mrs. George Field, Mrs. B. G. Dickinson, Mrs. Richard L. Douglas, Miss Johnnie Gikerson, Mrs. Tom J. Foster, Mrs. Mrs. O. H. Griffith, Mrs. Anna Howard, Mrs. Kenneth I. Kimbro, Mrs. Guy L. McAfee, Mrs. G. E. McColvey, Mrs. J. A. McColvey, Mrs. Ross A. Wives of Vets Wives who divorce disabled veterans and then collect their insurance were severely clapped at a recent convention of the Disabled American Veterans of the World War which passed a resolution of protest against a court decision which gave a disabled veteran his divorced wife before his death. The resolution asked that a veteran who could prove that his wife left him of her own accord be barred from collecting any share of his insurance.

The old story of the impossibility of grouping all cases with one head. It's unfair to say that a woman should ever leave or divorce a disabled veteran and still expect to get part of his insurance. Though on the surface of things she can imagine few cases when she should.

The Woman's Day

By Albee Sumner

Mrs. Richard Byrd, she says herself, has never had her picture taken with her husband since his explorations and feats of aviation made him a national figure.

"Why should I intrude in his glory?" she is supposed to have said. Which is an attitude very like that of Mrs. Lindbergh who most reluctantly shares honors with her son. And yet Mrs. Byrd proves how real a right she has to share in those honors when she admits that she has never objected to any of her explorer husband's several-year-long trips, because "that's his job and no woman can keep her man from his job with any real good to herself."

There's something there which tells one that Richard Byrd's courage and clear vision necessary for an aviator and explorer are balanced with similar qualities at home.

TODAY'S WOMAN Isabel Walker Willebrandt seems to be the woman of the instant, the woman whom other women would like to believe that the entire cause of their sex is furthered (whatever that cause is) probably the cause of showing that a woman can have a big job as well as a man, having seized upon as a glorious symbol of their hopes.

Mrs. Willebrandt, not only rumor but a careful analysis of facts, seem to say, may have a seat in the next cabinet. She recently completed a real raiding exploit on doing that job conscientiously somewhere. Her enemies, of course, point to this job as the spleen of a fanatical woman. Which is ridiculous. Mrs. Willebrandt might have the same attitude towards liquor as Texas Guinan or Helen Morgan. But as a capable woman with a big job she insists on New York cabarets and "got and will wage earning women are apt to be like that."

Novel Course To Be Studied This Year by Society

Junior Twentieth Century Club Is Among First To Issue Year Book Giving Program of Work.

Among the first of the women's study clubs to issue a year book for the coming season is the Junior Twentieth Century society. This book is now ready for distribution.

A topic that has proved interesting for club study has been chosen by women in this society and novels of France, Russia and England are included in the course of study with certain authors to be selected and studied with the assistance of Dr. Allan L. Carter, of the Technological college faculty.

Meet in September Women in the organization will meet for the first time following the summer vacation on September 4 for a study of Goethe's "Renee" Maupierin. Miss Mayme Alexander and Mrs. Ernest Conley are to have the principal parts in a discussion on that occasion. The study of other books will continue through the winter months.

Distribution of the study programs at this time allows time for the preparation of discussions for the winter.

Mrs. Russell Myrick is president of the Junior Twentieth Century club, the membership of which is limited to thirty. The club was sponsored and organized in 1922 by the Twentieth Century club, a progressive organization among the women of Lubbock.

Mrs. O. L. Peterman is vice-president, Mrs. George Field is recording secretary, Mrs. Dorance D. Roderick is corresponding secretary and Mrs. Richard L. Douglas is treasurer of the society. Other officers include Mrs. Charles Mahoney, parliamentarian; Miss Pauline Carnes, press reporter; Mrs. Harold H. Griffith, auditor; Mrs. G. E. McColvey, critic; Mrs. Elmer Conley, federation counselor and historian, and Miss Ruth Dunn, delegate to the City Federation.

The club's year book is in the society colors, white and gold, an attractive cover being printed in gold ink on white paper. The daisy is the organization flower.

This society meets on the first and third Tuesdays of each month from September until May, alternating stock in the First Presbyterian church, the Twentieth Century club. A motto for the junior society is "Neglected Talents and Decay."

Thirty Members The active membership for the society includes Miss Mayme Alexander, Mrs. J. Foster, Mrs. Mrs. Lawrence Bacon, Miss Pauline Carnes, Mrs. Ernest Conley, Mrs. Elmer Conley, Miss Frances Conley, Mrs. Ruth Dunn, Mrs. George Field, Mrs. B. G. Dickinson, Mrs. Richard L. Douglas, Miss Johnnie Gikerson, Mrs. Tom J. Foster, Mrs. Mrs. O. H. Griffith, Mrs. Anna Howard, Mrs. Kenneth I. Kimbro, Mrs. Guy L. McAfee, Mrs. G. E. McColvey, Mrs. J. A. McColvey, Mrs. Ross A. McWhorter, Mrs. Owen W. McWhorter, Miss Mary Meador, Mrs. Charles Mahoney, Mrs. Russell Myrick, Mrs. E. E. McColvey, Mrs. O. L. Peterman, Mrs. Homer L. Pharr, Mrs. Carl Roberts, Jr., Mrs. Dorance D. Roderick, Mrs. Velfon Spikes.

The associate roster includes Mrs. Eugene Adair, Mrs. G. M. Cosby, Mrs. Marvin Spaulding, Mrs. Lois Mae Craven, Mrs. Hub Jones and Mrs. Houston Spikes. Mrs. L. E. Hunt is an associate honorary member. The calendar committee, which issued the book, has Mrs. Peterman for a chairman. Her assistants are Mrs. Mahoney, Mrs. Kimbro and Mrs. G. E. McColvey. An entertainment committee, with Mrs. Dickinson as chairman, is composed of Mrs. Ernest Conley, Miss Alexander and Mrs. Owen McWhorter. The finance committee, which is composed of Mrs. Mahoney, Mrs. Russell Myrick, Mrs. G. E. McColvey, Mrs. O. L. Peterman, Mrs. Homer L. Pharr, Mrs. Carl Roberts, Jr., Mrs. Dorance D. Trio of Colors Create Attractive Theme At Party Given for Miss M. Scott Saturday In Wilson Home

Bridge Is Played and Gifts Are Presented Bride To Be At Function Given By Four Young Women.

One of the prettiest affairs of the week was given yesterday afternoon when Misses Verna and Sylvia Wilson, Dahlia Hemphill and Wilhelte Waters entertained at the J. A. Wilson home, 1502 Avenue L, as a compliment to Miss Mary Scott, whose approaching marriage has been announced for August 1. She is to be the bride of Frank Griffith.

The honoree's favored colors of red, pink and green were featured in appointments for this function. A rich shawl in the three hues was draped across the piano in the living room while gladiolas, asters and sweet peas repeated the colors.

Ship Theme Plate favors were tiny rafts fashioned from crepe paper in the favored colors and a larger raft centered the dining room table around which nuptial gifts were presented. Miss Waters played a selection on the accordion. Pink and green brick ice cream was served with orchid covered cakes, green and pink glass were being used.

Bridge was played during the afternoon. High score favors were hand-painted salad dressing bowls and the honoree was given a set of clear glass goblets.

Bridge Played Bridge guests were Miss Patsy Gaudin, Miss Center, Mrs. Elmo Caudle, of Hale Center, Mrs. Jennie Bryan, of Ralls; Mrs. Jewel Davis, Mrs. Louis Kittrell, Miss Ruth Starnes, Miss Cymbal Patterson, Miss Ploy Pryor, Miss Gladys Pryor, Miss Kate Presley, Miss Marcella Deacon, Mrs. Jack McFarley, of Midland; Miss Blanche Farris, Miss Lucille Hardberger, Miss Lynn Dougherty, Miss Afton Gikerson, Miss Rose Wortham of Waco, Miss Majorie Leaverton, Mrs. Marlin R. Large Delegation of Local Baptists Expect Attend Annual Encampment Near Post; Rev. White Daily Speaker

Cullen F. Thomas Is Among Eminent Men Appearing On Program; Grounds Provide Camping.

Approximately fifty members of the local First Baptist church are expected to attend the annual Post Encampment at Two Draw lake during the coming week, according to announcements made at the church yesterday.

Cullen F. Thomas, of Dallas, will speak instead of Governor Dan Moody, according to Dr. W. R. White, pastor of the church, who said that the governor will be unable to attend the meeting.

SLATON People To Attend Meeting Near Post. SLATON, July 21.—A large number of Slaton people are expected to attend the fourth annual session of the Post Baptist Encampment to be held July 23-29 at Two Draw lake, near Post.

Thousands of people from all over West Texas gather at the encampment annually. The spacious grounds bordering Two Draw lake afford plenty of room for those desiring to camp during the week, making of it a vacation event and engaging in boating, fishing and swimming, besides attending the daily and nightly meetings arranged to be held under the large tabernacle which seats about 2,000 people.

A big barbecue, to be given by the Post Chamber of Commerce, will usher in the fourth yearly session Monday afternoon, July 23. Judge D. S. Lattimore, of Austin, will speak Monday night at 8-30.

The meetings through the week will emphasize Sunday school, B. Y. P. U. and other phases of church activities.

Among the speakers to appear on the program are listed the following: Dr. T. L. Holcomb, Sherman; Dr. S. P. Brooks, Waco; Dr. J. D. Sandifer, Abilene; Dr. Edgar Godbold, Brownwood; Dr. J. C. Hardy, Belton; ex-governor Pat M. Neff; T. G. Gardner, O. S. Hopkins and Mrs. J. E. Leigh, Dallas.

Local Speakers. Lubbock people on the program include: Dr. W. R. White, Mrs. D. J. Wilhelm, Rev. W. M. Lawrence, Herbert Finley and M. H. Duncan.

Others from over this section who will take leading parts include: Rev. and Mrs. D. G. Holloway and Mrs. E. C. Foster, Slaton; Rev. Ross A. Smith, Lamesa; Rev. W. H. Hughes, Levelland; Rev. J. M. Hale, Hopper; Rev. E. Y. May, Brownfield; Rev. D. H. Heard, Big Spring; Mrs. Geo. E. Alexander, Snyder; and President McDonald, of Wayland College, Plainview.

Rev. M. C. Bishop, pastor of the First Baptist church at Post, is president of the encampment this year. R. E. Cox, of Post, is secretary-treasurer.

LOOK OVER SCHOOL. Home Economics Department Inspected.

Gaining an insight into the workings of the institution which they are attending, several hundred students of Texas Technological college made a tour of inspection of the departments of the school of Home Economics Friday night.

They were greeted at the door by Miss Margaret Weeks, dean of the school, and escorted through the various departments by girls of the school. The design, clothing, foods and nutrition departments were visited in the Home Economics building while the cafeteria and the practice house were inspected later.

The tour was one of the entertainment features of the summer session.

BRIDGE MADE EASY by W.W. Wentworth

Double and Redouble—1 Doubles may be divided into two classes: Informative doubles and Business doubles.

Your opponent has declared a no trump or a suit. You do not hold sufficient strength in any one suit to overbid and yet with little assistance from partner you may be holding a game-going hand. To find the best game-going declaration you double and call upon your partner to make a declaration. This is called the informative double.

The informative double of a suit bid proclaims weakness in that suit and strength in at least two remaining suits.

The informative double of a no trump guarantees the holding of a no trump hand.

A double of one no trump or of three or less of a suit bid is informative if made at the first opportunity and providing partner has not previously bid.

The double, however, must be sound. A safe guide for doubling a suit is 2-1-2 quick tricks and for a no trump three quick tricks.

These requirements may be slightly shaded if your hand contains compensatory jacking at Jacks, tens and nines. If in doubt do not double.

Hundreds of players double without giving any thought to the outcome thereof. Before doing so you must be prepared for any declaration that your partner may make. His answer should be anticipated and your campaign previously outlined if the answer should prove unsatisfactory. Unless you are prepared for any answer partner may make, do not double informatively. The Morning Avalanche Menu for the Day

BREAKFAST—Baked sweet apples, cereal, cream, little pig sausage, watercress, crisp toast, milk, coffee.

LUNCHEON—Cream of green soup, toast sticks, rye bread, fresh carrot salad, caramel custard, fruitade.

DINNER—Chicken leaf, scalloped potatoes, beet greens, radishes and onions, chilled watermelon cones, milk, coffee.

Cream of Green Soup. One pound spinach, 1 bunch parsley, 4 cups stock, 2 tablespoons flour, 3 tablespoons butter, 1 teaspoon sugar, 2 teaspoons lemon juice, 1 scant teaspoon salt, 1-4 teaspoon pepper, 1 egg.

Wash spinach and parsley thoroughly. Cook in stock or water until tender, about 20 minutes. Rub through sieve. Melt butter, stir in flour and add sugar, salt, lemon juice and pepper. Slowly add the stock and puree and bring to the boiling point, stirring constantly. Boil five minutes and stir in egg slightly beaten. Remove from the fire and serve at once.

BOYS TRAINING

Littlefield Sends 19 For Fort Logan Encampment.

LITTLEFIELD, July 21.—Nineteen of the Littlefield boys are in training this summer at Ft. Logan, Colorado. A letter from the Camp Commander Lieutenant Col. Warren T. Henthum, states that this is the largest representation from any individual town, according to their records, and that all of the nineteen boys are making good.

Jack, Jr., son of Postmaster J. E. Bran-non, of Littlefield, has won a marksmanship medal, his score being 86, at a distance of 500 yards.

Nothing is Haphazard in Child's Progress.

Nature works as methodically in her development of a human being after birth, as before. It is a mistake to think that a child's activities are haphazard affairs without rhyme or reason.

Following are a few interesting statistics of a child's development from one to three years of age. Children are different and there may be some variation, but the table will help to show parents the regularity with which progress is made.

Compare your child to this table and see how nearly it fits the case. At 14 to 1 months he can put a spoon into his mouth although he cannot carry food with it. At this time he can carry small objects, if he is able to walk. Some children do not walk until they are 18 months old. Others even later.

At 18 months he can eat with a small spoon without spilling, or drink from a cup held in both hands. At this time he can push things on wheels or pull toys on a string.

At 18 or 19 months he has enough control of his hands to cut paper with scissors. He will not be able to cut, but he will be able to cut out figures of animals, if the act of cutting is controlled. I should not, however, advise such a plaything for so young a child. At this time he can play with dices, or mark with a pencil. He can find a pic-

ture in a picture-book if he learns its name, or point out simple objects in the picture, such as boy, girl, kitty, cow, etc.

At about this time he understands most of the common everyday words said to him, and will use many of them himself, although the tone or inflection varies greatly in different children.

At 2 years he can build with blocks. He begins to take delight in simple little stories and he shows an unbounded interest in pictures. At this age of 2 years he begins to make words into little sentences.

At 2-1-3 years he begins his imaginative little plays, pretending that he is a dog or cat or another member of the family. At this time he can remember easy little rhymes, or parts of them.

At 3 years of age or even before he can play by the hour alone if objects are furnished to arouse his interest. The simplest thing will sometimes amuse him indefinitely.

At 3 he can begin to learn to dress and undress. He will be awkward at first and need a great deal of help but by 4 he can manage very well.

At 3 he will have little conception of time, such as yesterday, or tomorrow, meals he will confuse with each other, and he cannot count.

... always ---more for your money

There's a satisfaction in wearing smartly styled garments that cannot be measured in terms of money alone. It is the knowledge that one's costume is essentially correct in every detail, that it appear to excellent advantage in every gathering.

This store is privileged to serve a clientele that looks for style FIRST. That observe closely the trend and expect to find it FIRST at this, Lubbock's smartest apparel shop.

This does not mean, however, that it is also an expensive place to select one's costume, for the policy that has been responsible for our growth has been and is to mark each garment that enters the store at a fair margin of profit that does not permit ridiculous discounts or "price jockeying" with a customer. It is a confidence building policy and one that has found favor with thousands of South Plains' best costumed and thriftiest women.

In addition to maintaining New York offices, our buyers go to New York four times a season or 8 times a year (the only organization on the South Plains operating in this manner) and when there are reductions in the wholesale markets, our buyers are in a position to take advantage of them — hence the low prices without sacrifice of style or quality.

Right now you'll find garments with which to finish out the season, smart in style and unusually economical in price.

"APPLESAUCE" and "COLD TURKEY"

When anyone tells you they can buy furniture cheaper than BAKER buys, or that because of "quantity buying" manufacturers gives them advantages that BAKER can't equal from other manufacturers — why, its all APPLESAUCE!

"You can't Paint your house with apple sauce," nor can you expect to secure better values in furniture than BAKER offers. That's "cold Turkey" too!

When you consider things over remember that there are thousands of furniture manufacturers. Surely there isn't a store buying in large quantities from ALL of these!

BAKER believes—and proof is always available, that because of DISCOUNTING ALL BILLS promptly —it stands to reason that a great many furniture manufacturers who wish to turn their stocks into cash immediately, would offer them to BAKER—knowing they would get CASH IMMEDIATELY! That's logical and "Cold Turkey" too!

We always like to talk "Cold Turkey" to you and we know that our prices have saved thousands of dollars for thrifty buyers.

We believe we not only offer BETTER PRICES always —but believe you will find a BETTER QUALITY of furniture in our store. We know you will find more variety—have access to much large stocks.

We believe you can distinguish "Apple Sauce" even in advertising from "Cold Turkey." We believe you will compare values before buying. You can see for yourself in a few moments. We almost know we can sell every person who takes time to compare and look and shrewdly shop.

We've always set the price in Lubbock. We've NEVER been undersold. We NEVER intend to be undersold. We don't even advertise ARKANSAS furniture as quality leaders. We like to sell GOOD furniture and have more of that kind than any other South Plains store. We do have CHEAP furniture, though, if you should want it. Safety First means investigating before buying.

THE ONE GOD

Thus saith the Lord the King of Israel, and his redeemer the Lord of hosts; I am the first, and I am the last and beside me there is no God.

GIANTS BY THE WAY SIDE

There are great Giants all along the pathway of life. Life is a battle it is besieged on all sides by those things that are liable to cause one to step aside from the path of right, and fall into the clutches of those who seek to pull one down.

When a man trains for a fight he gets all the possible information he can about his adversary, studies his methods and attacks, by knowing what the other fellows will do.

There is no cry for farm relief in this section, because this is not a one-crop section. Cotton is profitable in most years, but it can not be depended upon as the major product of the farm.

McLennan county farmers are to be congratulated upon their "declaration of independence," and it is hoped that they may be given the co-operation and encouragement of farmers in other Texas counties who have been devoting most of their time and energy to the production of cotton as the principal farm crop.

Many School Boards in smaller towns are confronted with the question whether they will add another department to the high school this fall, in order to get more "credits."

Timidity acts on men in strange ways. One man killed himself because he had not the courage to face his adversary in a duel. He was not afraid to die, but was afraid to fight for life.

Timidity is a disease of the mind, obstinate and fatal; for a man once persuaded that any impediment is insuperable, gives it, with respect to himself, that strength and weight it had not before.

Timidity without putting conceit in its place, and you have taken one great step forward. As for procrastination, that has been well drummed into men's minds with Benjamin Franklin's "Never leave that till tomorrow what you can do today."

Every man realizes the folly of procrastination. Every man knows that "the man who procrastinates struggles with ruin."

repentance, but he has not promised tomorrow to your procrastination. By the streets of 'By and By' one arrives at the house of 'Never,' said witty Cervantes.

There remains among these giants that destroy men old intemperance. Him we have had with us many years, and we have him still in these prohibition days.

Drink has ruined more careers than any other social ill that afflicts human being. It ruins men's judgment, destroys their character, ruins their families.

REAL FARM RELIEF

One Thousand farmers of McLennan county met the other day and agreed upon a "declaration of independence."

This is real farm relief. It beats anything the Republicans or Democrats can do in their national conventions, and it beats anything the Congress can do in the national capitol.

The farmers of the United States who have been most insistently demanding federal relief, and those who marched upon the Kansas City convention, are one-crop farmers.

There is no cry for farm relief in this section, because this is not a one-crop section. Cotton is profitable in most years, but it can not be depended upon as the major product of the farm.

SO THINK WE

We think that Lubbock had a splendid representation of business men, professional men and others and the people of that little oil city, are well aware that Lubbock is interested in their business, and will assist them in every way possible to develop their new industry.

We think highways are great things, and it certainly proves a trade-getter. We were at Hobbs Friday, and understood that ice was being hauled a distance of more than a hundred miles because of good roads, when it could have been had at another place less than half the distance but because of the highways it was impracticable.

We think Mexico has the wrong idea of patriotism. They seem to think it is patriotic to be an assassin.

We think that there is hardly anything that will get under a man's skin more insistently than an ordinary little chigger.

We think that much beauty is only skin deep, but the beauty of the South Plains is deeper than that. The beauty of the green waving crops, of the thousands of acres planted, and the wonderful stand of rich green cotton, makes it a thing of real beauty.

We think Hobbs must be the center of attraction now. People are going there from town, many miles around, counting the town for its business. It looks like a real oil territory, and there is no telling just what the future business from that section will amount to.

PRSSS COMMENT

LATE MODEL LITERATURE State Press of the Dallas News, says: Life is full of false starts and refractory gears. We come up, we go down and depart unwept, unhonored, but hardly ever unstrung.

The jughumous musings were caused by a rebuke handed him by a lady friend who, affiliating herself with the literary, proceeded to take S. P. to task for his attack on present-day fiction. The Dallas News master columnist aired the opinion that sleep is far more profitable than perusal of some of our modern books, the reading of which is a waste of precious energy and midnight kilowatts, he opines.

The attack of the fair critic did not cause S. P. to change his mind, but it brushed him sorely. Also, he is manifestly grieved at his difficulty in pleasing the ladies, the majority of whom, he sadly observes, are bolting and jolting him. And, stinging under the rebuke of the lady, he bravely resumes his stand against the late-model novel but stops to praise those immortal works of Jane Austen, Bronie, Thackeray, Hawthorne, Dickens and others, as well as some of the pre-Victorian—the French and German fiction, drama and essay.

IT IS REPORTED

It is reported that the chairman of the democratic campaign committee is urging that the votes be counted quickly in the election. We always want that.

It is reported that all candidates are confident of their election in the primary next Saturday. However they will be able to tell more about it next Sunday.

It is reported that Mr. Raskob, financial manager of the democratic nominee for president is a genius and a democrat, and a republican and is all wet.

It is reported that the summer hats for girls are so big and floppy, and one is really disappointed when they raise the big rim up and find that there is only one girl under it.

It is reported that President Coolidge sought out a quiet seclusion spot for the summer vacation, but the politicians found out where he was and he has been terribly worried.

It is reported that they are going to notify Mr. Hoover of his nomination on July 25th. We think he must be a long way behind the procession if he has not found it out before now.

It is reported that some of the boys who have been on a vacation are still not working. They are spending a few days resting up.

It is reported that the Mexican government is desirous of the people who are instigators of the recent murder of the president-elect shall be arrested and punished. We just wonder if they will be. Some one will suffer for it, but whether it will be the right ones, we cannot say.

YOUR HEALTH

Consider the Vitamins In Cooking Vegetables By DR. MORRIS FISHBEIN Editor Journal of the American Medical Association and Hygiene, the Health Magazine

The most sensitive of all the vitamins to heat is vitamin C. This is the vitamin that prevents scurvy. As pointed out by Dr. Walter H. Eddy in a recent discussion of nutrition, whereas one gram of raw cabbage daily will prevent scurvy in a guinea-pig, twenty times that amount of cabbage, if the food is cooked for an hour in an open kettle, is required for scurvy prevention.

Four grams of canned cabbage daily is protective, although the canned cabbage also has been boiled. The fact is that the canned cabbage is heated in air-tight cans.

Destroyed By Heat Evidently the factor that is involved in the destruction of the vitamin is oxidation. Heat sufficiently high will destroy vitamin C, and heat for long periods of time will destroy the vitamins A, B, and E or oxidation is the most serious of all the factors in its destruction.

If minute amounts of copper are present in the vessels used in heating food substances, the vitamin C is destroyed. This takes place much more rapidly. This is due to the fact that the presence of copper will speed up all oxidative reactions.

The use of copper kettles in the preparation of tomato pulp produces more destruction of vitamin C than if heated in tin lined kettles. Furthermore, the tomato pulp after heating will be found to contain small particles of copper.

The vitamin A content of butter can be reduced markedly by heating at higher temperatures if a current of air bubbles through it. Vitamin A, however, is more stable than vitamin C, and it seems doubtful that ordinary cooking harms the vitamin A in plant sources, although oxygen, if present, will destroy vitamin A from animal sources.

Water and Vegetables Vitamin B is slowly destroyed by the application of heat, but the presence of alkalis destroys it much more rapidly than does the presence of acids. Therefore, the use of water in cooking green vegetables may be injurious to the vitamin B content. Evidence is as yet not available regarding the manner in which vitamins D and E may be destroyed. Apparently these vitamins are much more stable and difficult to ruin.

Early Days On The South Plains

By J. J. DILLARD

When I located in Lubbock more than thirty two years ago, the mode of travel was by buggy and team, wagon or by the mail hack. It took two days to reach Big Spring or Colorado City, thence we traveled by way of the Texas and Pacific railway.

Barleycorn is Present The judge's speech might have continued indefinitely but for the fact that an attorney who was in the crowd, and who was provoked by temporarily out of the case, heard the commotion, mingled with flights of oratory, rushed into the court room and began addressing the court as follows: "Your honor I pray and beseech thee to reverse this court's decision. The mob of violent men! Suppress this riot. Let cool judgment prevail, that order may be restored and prevent bloodshed! My God! My God! Judge! Please listen to reason and prevent murder of innocent men until these who are provoked by wrath are restored to reason and quiet prevail."

Our Sunday Morning Sermon MEEKNESS AND FORBEARANCE (By Rev. S. Parker, Cadman D. D., L. A. D.)

He exercised for the sake of others. They involved a better self-expression than a warlike attitude, and exacted more manly fortitude than the mildest qualities. Multitudes were to be delivered by Christ's gentleness and submission. He worked out the Cross, something that is infinitely higher than political emancipation or social uplift; nothing less than man's release from the blight of sin's despotism. He died perfectly just for us, the plainly unjust, to bring us to the presence of God. Here meekness and resignation played a royal part and vindicated their necessity in the greatest crisis of man's moral history. The strange silence of Christ on the Tree helped to make it the almighty altar of the universe. The behavior of His Divine Sufferer was its own witness.

The previous public life of Jesus was also marked by meekness of heart. Assailed though He was by the hives and infamies of a dastardly opposition, no bitter syllable escaped His lips. When His face was blasphemed by saying that He was the Son of God, He answered nothing to the insulting High Priest. The cruel and imperious Herod could not understand His dignified reticence. Pilate, a trained Roman jurist, was at a glance that an innocent man was before him, but he could not induce Him to throw Himself on the mercy of His prepared court. After the factors had bound and scourged Him, and refused to let Him go, He offered no protest. When they hit Him to the Crucifix, and the clanging hammers drove the nails into His hands and feet, He offered no protest.

Today's Poems THIS GAME OF GOLF (By Edgar A. Guest)

Golf is a curious game, as all have found. Who ever ventured out to play a round, Can find some joy to light the dreary day. No game is quite so bad, but when it gives One happy shot, which long has been remembered, lives; And who who loses can look back on the next day (after) each the lip and stop. Study and practice, struggle as you may To every golfer comes his dreary day.

Emptyness "Mamma, I've got a stomachache," said Nellie, six years old. "It's because you've been without lunch; it's because your stomach is empty. You would feel better if you had something in it."

Laughing An old negro mammy, to keep the pack of wolves away from the door, asked out a living by doing odd jobs. One morning she announced that she would have to quit. "But I thought you needed the work," said her employer. "Well, I did, ma'am; but I've got a new job—collectin' for de missionary society," the old colored woman explained.

Water and Vegetables Vitamin B is slowly destroyed by the application of heat, but the presence of alkalis destroys it much more rapidly than does the presence of acids. Therefore, the use of water in cooking green vegetables may be injurious to the vitamin B content. Evidence is as yet not available regarding the manner in which vitamins D and E may be destroyed.

Unfortunatly we do not yet know about most of the vitamins the minimum necessary to preserve and advance human life, nor how much the average human being gets in his usual diet.

Mill Activity In Texas Materially Reduced In June

AUSTIN, July 21.—Textile mill activity in Texas was materially reduced during June, according to reports from the Bureau of Business Research at the University of Texas. While this is the slack season for the textile industry, curtailment is greater than could be accounted for by the usual seasonal influence. The downward movement is in line with the downward trend of the industry in all parts of the United States, he added.

During the month, only 6,791 bales of cotton were used by the twenty mills reporting to this Bureau, against 7,198 bales in May and 9,344 bales by eighteen mills in June, 1927, or a decrease of 27.4 per cent in the twelve-month period, he said. Cotton goods produced totaled 9,285,000 yards and sales were 4,622,000 yards, or 63 per cent of output last year in June, 7,468,000 yards were manufactured, or 101 per cent of production. The ratio of sales to production has been decreasing rapidly over the past three months. Unfilled orders were also below those of May. At the end of June forward orders were only 8,564,000 yards, against 10,135,000 yards a month earlier and 12,883,000 in June, 1927. At the present rate of production, this is less than six weeks' run, whereas bookings to June last year were nearly equal to two months' output. The continued downward trend of unfilled orders is possibly the most discouraging feature of the monthly reports. However, mill officials are meeting this situation by curtailing output so that a stronger statistical position is likely within the next few months.

John Seales is spending the week-end in New Mexico.

Miss Bernice O'Neal is leaving today for Big Spring and Snyder where she is to visit for several days.

Miss Lucille Tyson left Friday night for Dallas where she is to consult a specialist. She was accompanied by her sister, Miss Gladys Tyson.

Miss Aileen Batriley, of Lorenzo, and her suet, Miss Evelyn Palmer, of Clearend, were visitors in Lubbock yesterday.

Miss Leato Martin, of Shreveport, La., is expected in Tuesday to visit Miss Blanche Bacon, Miss Martin and Bacon were class mates at Ward Belmont college in Tennessee, at Texas University and again this summer at Colorado University, Boulder, Colo.

Mr. and Mrs. James H. Goodman 2301 19th street have as their guests Mrs. Goodman's mother, Mrs. A. L. Williams, of Waxahachie, and her niece and nephew, Allyn and George Bain of Silverton. The children are leaving for their home today and Mrs. Williams is to return to Waxahachie the latter part of the week.

Mr. and Mrs. A. L. Borio returned yesterday from Indiana where they have been visiting friends and relatives for five weeks. Mr. Borio is mechanical superintendent of the Avalanche-Journal plant.

Spencer Wells, of Memphis-Wells company, left yesterday for New York where he will buy stock for the store.

Miss Elizabeth Evans of Mangum, Okla. is visiting her aunt, Mrs. F. R. Friend, and Mr. Friend.

Miss Maryon Hutto returned to her home in Big Spring yesterday after visiting Misses Theida and Ina Shecky, 1916 Avenue S. Miss Hutto attended Technological college last year and expects to return in the fall.

Mr. and Mrs. Byron Brown have returned from a fishing trip to Creed, Colo.

CROSBYTON NEWS

MRS. W. M. CURRY

HONORS HOUSE GUEST
Dr. and Mrs. J. W. Scarborough entertained with a very pretty porch party Thursday evening at the Cap Rock farm honoring their house guest and members of the night club. Red, white and green motif was very attractively carried out in all the decorations and table appointments. The deep shaded porch was enhanced with a red and green lighting effect. Progressive "42" furnished the evening diversion.

The hostess served iced watermelon to Messrs. and Mesdames R. S. M. Carter, B. W. Mitchell, I. W. Collier, Ernest Wood, members, and Enos Cope of Clovis, N. M., Mrs. Clark Rush of Idaho, Mr. and Mrs. Lloyd Chinn of Lubbock, guests.

MRS. LESLIE MITCHELL
Mrs. Leslie Mitchell entertained Tuesday evening at her home on Fifth street with a very pleasant party honoring her little brother, Julian Murphy of Dallas. Interesting games were played on the lawn and delightful fruit punch and cake was served to twenty guests.

LEAGUE GIVES SOCIAL
Members of the Epworth League were delightfully entertained Tuesday evening with a lawn party at the Methodist parsonage. Mesdames T. M. Johnson and Roy Heard sponsored an evening of games and unique contests. At a late hour ice cream and cake was served to Misses Ruby Fralin, Mattie McDonald, Gladis Farria, Anola Ballou, Pauline Heard, Ernestine Buck, Ina Jewel Paschal, Medah Hutchinson, Messrs. Fred Green, Joe Heard, Hubert Curry, Bruce Dorsey, Amos Johnson, Quinn Buck, Robert Curran, Wilson Johnson, Lyla Paschal, Robert Rix, Mr. and Mrs. Roy Heard, Rev. and Mrs. T. M. Johnson.

B. Y. P. PICNIC
The Senior B. Y. P. U. went on a picnic to the Epworth farm on Sunday recently, returned home Sunday from a Lubbock sanitarium. He is doing nicely.

Zug George has for his guest this week, his mother, Mrs. J. W. George and brother, Bill George, another mother, Mr. and Mrs. Jack George, all of Albany.

Mrs. R. A. Crosby and daughters, Misses Elsie and Billie and son Edwin, spent a few days this week with Mr. Crosby, who is ill in a sanitarium at Fort Worth.

Mr. George Taylor and daughter, Miss Magie May, Bob Vaughn, Richard Vaughn and Mr. and Mrs. J. D. Vaughn were guests of Mr. and Mrs. E. H. Hendricks Thursday night.

Mrs. C. M. White, and sons, Linton, W. D. and Cecil, Miss Win-

nie Covard of Petersburg, and A. J. Covard left Tuesday for a week's vacation in Temple and Waco.

Miss Nora Nixon of Llano has been a guest in the home of her sister, Ed. L. Nixon, the past week. Mr. Nixon accompanied her to Lubbock Sunday where she enrolled as a student at the Tech for the summer course.

Mr. and Mrs. C. E. Roy and son Emmett, left Sunday for Colorado Springs. Mr. and Mrs. Roy will return in about ten days. Emmett will assist his uncle, a banker at Springfield, Colorado while employees are away on their summer vacation.

Mr. and Mrs. C. R. Hendrickson and children and Mr. and Mrs. Jim Houston of Floydada were Sunday guests of their sister, Mrs. Dick Ragan and family. Little Jim Ragan accompanied them to Floydada Sunday afternoon for a visit.

Rev. and Mrs. H. M. Reed, Golden, N. M., and Dewey Elmer returned from an extended visit in Bridgeport and other points east.

Judge Green Harrison returned home Friday from a week's visit with his wife who is ill at the home of their son, Dr. Frank Harrison of Dallas. He reports Mrs. Harrison doing nicely.

GIRLS' CLUB SUPPER
Southwest Ward to Seek Short Course Funds
An ice cream and pie supper will be given by the girls' club of Southwest Ward Tuesday night. It was announced yesterday by Miss Louise Baird, county home-demonstration agent.

Purpose of the supper will be to raise funds to send the representative from the club to the Farmers' Summer Short Course at Texas A. and M. college which is to be held at College Station beginning July 30.

Josephine Oldore has been selected as the delegate to represent the Southwest Ward girls' club at the session provided that the necessary funds can be raised by Tuesday night.

Utah Building and Loan Locates In City

Evidence of greater confidence in Lubbock's future was given here yesterday in the announcement that the Utah Building and Loan Association, of Ogden, Utah, is to be installed here.

J. C. Crane of Amarillo was here and made arrangements for the entry of the firm into the city. Guy L. McAfee, local insurance and loan man, has been named as local resident agent.

Under the plan of the organization, a local advisory board is to be formed with a president which gives local interest in the association.

Mr. Crane in commenting upon the entrance of the association into Lubbock, stated that he was favorably impressed with the prospects for the city's future and would use the jelly as district headquarters in creating additional local agencies on the South Plains.

Women Delight in its marvelous handling ease

Offering smartness and distinction never before attained in any low-priced six and reflecting exceptional good taste in appointments and upholstery, the Pontiac Six is a car which invariably wins feminine admiration. And that admiration turns to sheer delight when they leave the back seat and drive the car themselves. They know the Pontiac Six is a dependable car. And they quickly discover an ease of handling that makes every mile a pleasure. The powerful four-wheel brakes answer the lightest touch. The big motor is smooth, quiet and responsive, and the clutch and transmission are exceptionally easy acting. Every day you see more and more women at the wheels of Pontiac Sixes—because Pontiac provides, at a price within reach of almost every purse, everything that women demand in a motor car of their own.

It is quite the thing to have one's portrait made right at home where costumes are changed conveniently and where an intimate home atmosphere can be blended with the personality of the subject. You owe it to your family and friends to have yourself photographed, and when it is done in a similar environment by one who specializes in home portraiture, it will be a work of art.

You will notice something different in living-room suites in the window of Rix Furniture Company this week. A large, spacious divan has a rich silk damask covering with a peach background and broadened rose, lavender and green flowers. I think it has one of the most pleasing color schemes I have seen lately for a cheerful living-room. It is of Karpen construction, which stamps it as being made to order, carefully and artistically made. It is extremely comfortable, having an upholstered instead of a wooden crown, and rests gracefully on feet of a slender, Queen Anne design. The low reclining chair which goes with it, is equally as beautiful.

Now is the time to pick up annual bargains in midsummer indications, we'll need them for quite a while yet! At the Acorn Store, I found a varied selection of summer dresses at two especially good prices. For \$7.48, one may obtain some neat, worn, silks, a tailored georgette, or silk crepes. There is a delightful sport frock of flowered silk crepe, covered with a quaint, bright scenic design. And at a very moderate price of \$1.75 and \$2.95, there are some cool morning dresses of flannel and flowered lawn and checked rayons, guaranteed fast colors.

"Glorifying the American Ankle" is the slogan of the C. E. Stone Company this week. In their window display, you will see a smart selection of Shuylty shoes that very latest novelty modes from St. Louis, in materials and in both low and high heels, for \$6. To go with these shoes, there are the most exquisite hose of Peacock chiffon, in every delicate tint, silk to the top, ranging in price from \$1.50 to \$1.95. Three unusually attractive pairs of sheerest Country Club chiffon are white, rose beige, and light peach. They have striking anchor and jagged heels, and the rose beige pair has slender black clocks which are somewhat out of the ordinary.

Don't you have an artistic spot in your home which you would like to have photographed, or perhaps you want some views of a bridal or house party? The other day Frank F. Smith, of the Art Studio on Avenue K, showed me a photograph of the interior of the Dallas Country Club and some beautiful home portraits which he made during his year and a half as a society photographer of the Dallas News.

No, clothes don't make the man they go a long way! If you don't believe it, just ask any woman who has had a wardrobe changed conveniently and where an intimate home atmosphere can be blended with the personality of the subject. You owe it to your family and friends to have yourself photographed, and when it is done in a similar environment by one who specializes in home portraiture, it will be a work of art.

Going on a vacation tour, fishing trip, or house party? Better get one of the Modern Kodaks at the City Drug Store and take it along. You'll always be sorry if you don't have a snapshot to show that you did catch that impetuous fish or that handsome Princeton man really did give you the grand rush on the Gulf cruise. Only a few years ago, people thought it was impossible to take pictures in the rain, or to make snapshots indoors. But now these are simple matters when you have Eastman's new Modern Kodak, a camera which is most conveniently handled and which makes life-like images.

"American Beauty" with Billie Dove and Lloyd Hughes, is the very absorbing picture which the Palace Theatre is featuring next Wednesday and Thursday. Billie Dove, who has been declared again and again by noted critics to be the most beautiful actress on the screen, was well chosen, indeed to play the part of the famous American Beauty, a girl who dropped and picked like a million dollars and who yearned for a million dollar husband, but was thrown by Fate into the arms of a poor man, who had nothing to offer her but love. It is an old, old theme which never fades, and with Lloyd Hughes, "the typical American man," as the penniless lover, the plot thickens for never the matchless Billie Dove could turn down a man like that!

The Lyric Theatre is bringing back to Lubbock next Wednesday and Thursday Lon Chaney's masterpiece, "The Phantom of the Opera," and I'll venture to say that everyone who has seen this stupendous production, rivaled only by "The Hunchback of Notre Dame," will go to see it again. No one who has seen Lon Chaney's famous ghost face or his sinister palace and takes five stories underground, or the crashing of the six-ton chandelier on to the heads of three thousand people in the old Paris Opera House, can ever forget "The Phantom of the Opera" or fail to get a thrill of real fear from that greatest of mystery pictures.

Bowen's Drug Store has a new booklet prepared by Dorothy Gray, who is so successful as a beauty specialist, that she is now creating a new building on Fifth Avenue, New York, which will cost several millions of dollars. This booklet was written by Dorothy Gray herself, and contains the results of many experiments which she has just brought before the public. It is important that you should give your skin the proper treatment, says she, and gives to some priceless instructions as to the use of her supplementary creams, the Cleansing Cream, the Dorothy Gray Pasteur, and the Orange Flower Skin Tonic, in the daily care of the skin. You must read this little book. It is worth any amount of your time.

At the Super-Service station yesterday, I saw a superb Packard six convertible coupe. The very name Packard carries with it a suggestion of elegance and of power, but the Packard six coupe rather takes the breath with its surpassing staidness. The one which the Super-Service has now is a Killarney gray, trimmed with a flake-white stripe, and is upholstered with genuine leather of the same modish coloring. And riding in its jump seat is more than a thrill; it is a pleasure, for the upholstery is eight inches deep. As for the motor, it produces more than eighty horsepower with a smoothness exceeding anything in Packard's brilliant motor building history.

Once when I was a little girl, a very wise old woman told me that character is unmistakably revealed in the hands. "What ever you do, my dear," she said, "don't neglect your hands. Many a man has lost his heart because of a pair of well-kept shapely hands." I thought of that when I was in Milady's Beauty Shop one day last week, watching a manicurist at work with skilled, deft touches she made, while her subject relaxed and enjoyed life. By the use of Burmah's Oriental Oil System, Milady's Beauty Shop can leave any woman with dainty, gleaming hands and soft, moist lips. And a manicurist costs only 75 cents.

Towns On Route Of C. C. Motorcade Plan Receptions
Sunrise Breakfast Planned At Snyder, Starting Point And Others Join To Help Visitors On Tour
STAMFORD, July 21.—Townsmen along the route chosen for the third annual motorcade of the West Texas Chamber of Commerce are already at work on elaborate plans for entertainment of the party, which is expected to number 150, according to advices coming into the headquarters office here.
Snyder, Berry county capital, the assembling point, is planning a sunrise breakfast, being aware that a number of the motorists will arrive in the city Sunday evening, prior to departure at 9:30 Monday morning, August 5. Secretary M. G. Evans of the Snyder Chamber of Commerce is at work arranging plans.
Reception at Carlsbad
Carlsbad, New Mexico, the city in which the first night will be spent, is to hold an informal reception for the caravan the evening of August 6, and will assist in entertaining the party in the Carlsbad Caravan next day, where the Inter-Mountain District Convention of the West Texas Chamber of Commerce is to be held.
Van Horn, the little town that made such a festival for the visitors last year on the second annual motorcade, is planning to repeat the feat this year, though but a brief stop is scheduled for that place.
Fort Davis, Alpine and Marfa are looking forward to the vacationists' arrival. Fort Davis will entertain the entire party August 9, when the second district convention is to be held at the Big Bend section, which met in Alpine last year.
Visit to Old Mexico
Del Rio, the next city to be visited, plans to fetter the party and entertain them over into Old Mexico for a feature side trip. Junction, Sonora, San Angelo and Brownwood and other towns on the route, are engaged in plans for fettering the caravan to the traditions of western hospitality.

BOND ISSUE VOTE
Only Property Tax Payers Would Be Given Vote
AUSTIN, July 21.—Recommendations that only property tax payers be allowed to vote in bond elections will be made to the Western State Taxpayers conference at Fort Dallas, August 18 and 19, by a committee of three including John F. Smith of Austin, editor of the Texas Tax Journal.
Smith also is the executive committee member for Texas. He said he hopes all Texas taxpayers who can will attend the conference, which is composed of twelve western states.
The committee on suffrage for bond elections was appointed at last year's meeting to study the question and report to the House conference. The question of whether a non-property owner should be allowed to vote in bond elections is said to have aroused much interest in the conference.
President Lowell of Harvard University and Director of the Budget Lord have been invited to address the House assembly.

CHRISTIAN SCIENCE SOCIETY
1411 Fourteenth Street
Services are held regularly each Sunday at 11:00 a. m. and on each Wednesday at 8:00 p. m. when testimonies of healing and remarks on Christian Science are given. Sunday school is held at 9:45 a. m. for pupils under the age of twenty.
The subject of the lesson for today is "Truth."
The Golden Text is from John 8:12: "If ye continue in my word, then are ye my disciples indeed; and ye shall know the truth and the truth shall make you free."
A reading room is maintained at the church where all authorized Christian Science literature may be read free, borrowed, or purchased and is open on Tuesday and Friday afternoons from 2:00 p. m. to 5:30 p. m.
The public is cordially invited to attend the services and enjoy the reading room.

POSTPONE BUILDINGS

Call Money Rate Too High For Advantageous Sale

SAN ANTONIO, July 21.—Half a million dollars worth of municipal improvements have been postponed here until call money declines in price and gives the city an opportunity to sell its bonds advantageously.

At present call money is around eight per cent and the bonds, which yield only four and one-fourth per cent are not considered desirable investments. Tax commissioner Frank Busick believes that when call money falls to six per cent the bonds will find better market. An attempt will be made to sell them this fall.

A Nut That Can't Come Off

What Others Think About the Brown Lock Nut

"I have been watching the performance of these nuts since they were applied and made special inspection of them Sept. 28th and found them to be holding perfectly on the bolt and no indication of the nut working loose."

(Signed) L. H. BOND, Engineer Maintenance of Way Illinois Central System R. R.

"It is my opinion that the Brown Lock Nut fills a long felt want in the automobile industry by eliminating the use of cotter keys, lock washers, special threaded nuts etc. and at the same time by holding absolutely tight, giving that degree of safety for which automobile builders have been striving these many years."

(Signed) E. H. NOLAND, Service Mgr. Amarillo Oldsmobile Co., Inc.

AT LAST—A simple, effective and inexpensive, one piece, self retaining nut has been invented. After thousands of patents during the past sixty years, THIS NUT has now been perfected right down here in the "Panhandle of Texas."

THE BROWN LOCK NUT made in any size, shape or thread WILL HOLD on any machinery regardless of how great the stress and vibration, and will eliminate the necessity for cotter keys, lock washers, jams nuts or any other accessory.

THE BROWN LOCK NUT has been demonstrated on automobiles, oil derricks, farm machinery, locomotives, cars, tracks, windmills, air hammers, steam shovels, etc., etc., etc.

Every test has demonstrated the absolute efficiency of THIS NUT, and eventually it will be used every place that a nut is necessary. We will soon be ready to market the BROWN LOCK NUT, and we would like to start with the HOME FOLKS IN TEXAS.

Everybody will be interested and we will be glad to send FREE a sample of the NUT that you may satisfy yourself as to its merit. PLEASE FILL OUT COUPON FOR FREE SAMPLE.

LIVE BARGAINS NEWS FROM OUR SIXTH ANNUAL

JULY CLEAN SWEEP SALE

Lubbock's Premier Sales Event Places High Grade Nationally Advertised Merchandise in Your Hands at Discounts of from 1-4 to 1-2 off

The response we have had during the last two days to the announcement of our Annual Clean Sweep Sale has again proved that real sales are recognized as such and that the buying public appreciates them. This is very gratifying at this time when there are "Sales" and "rumors of sales" on every hand, for it indicates that the buying public is alive to the "Sale" situation and to the fact that our events are in actual fact, different. We are effecting, at this time, complete clearance of our stock of high grade nationally advertised merchandise with the incentive of real worthwhile reductions. Since this is the case there is nothing mysterious or hard to understand about our methods—promotion or high sounding phrases are not necessary. It's just a worthwhile event that brings thousands of useful quality items to you at prices materially lower than actual worth. If such an event appeals to you, you will find great opportunities on every hand in this fine store at this Clean Sweep time. It is possible to list here only a very limited number of the discounts that are in force. No matter what your needs may be you will find it now at a saving if it is not an item that is restricted from discount by the manufacturer.

State And County Candidates Go Into Home Stretch

Politics And Politicians Have One More Week Of Grace Before Voters Of Texas Will Say It With Ballots

Three More Speakings Will Be Held In County; Stage Set For Election, Frank Wheelock Announces

The final pre-election rush, where words and actions mean much more than in the past, is under way in Lubbock county candidates this week as they wind up their preparatory speaking programs which have carried them into every community in the county during the past six weeks. Final efforts and last-minute arguments for strengthening their pleas for support will feature the week.

The final activities were apparently ushered in yesterday afternoon at Slaton when the candidates appeared before a large crowd there in one of their programs. Intense oratory and clashing opinions featured the addresses.

Three More Speakings Will Be Held In County

The Slide and Harby communities will be the last places visited this week before the climactic appearances here on Friday night. The candidates will go to Slide on Monday and to the Harby community on Wednesday night. A crowd of several thousand people is expected to hear the group when they present their claims for the offices here Friday. The speaking will be held on the vacant lot just north of the city hall.

With only these three programs in schedule, the candidates will spend their other time in personal work, it was said yesterday by members of the group. A number of the candidates making the boast that they would see at least 30 per cent of the voters this week.

Preparations Complete

Preparations for the election are complete, Frank E. Wheelock, democratic county chairman announced yesterday. The mailing out of the instructions, the ballots and boxes will be done this week.

According to County Clerk Amos Howard, more than fifty absentee votes had been cast in his office up until yesterday. Approximately 100 ballots have been sent out, he said. Copy of the official ballot follows:

I am a democrat and pledge myself to support the nominees of this primary.

Building Activity Shows Decline In Texas Past Month

Showing Is Favorable With June Year Ago; Lubbock Second In Percentage Increase In June

(Special To The Avalanche-Journal) AUSTIN, July 21.—Building activities in Texas during June registered a large seasonal decline from the record month of May, said Brevard Nichols, assistant in charge of index numbers in the bureau of business research at the University of Texas.

"Compared with June a year ago," he continued, "the showing is favorable, especially when allowance is made for the excellent record during the first half of the year. While it is true that the larger cities have made excellent growth, many of the smaller and medium sized communities have experienced an unusually large building program.

Seven Report Gains

Thirty-two cities in the state reporting to the bureau of business research granted building permits in June amounting to \$239,560, compared to \$157,160 in May and \$2,889,763 in June, 1927. Only seven cities report gains over May, whereas there were decreases ranging from less than one per cent to as much as 85 per cent in the other 25 cities.

The record for the first half of the year is much more encouraging and shows that the building industry in Texas has been very active this year. Permits for the past six months in the 32 cities reporting amounted to \$60,979,222, compared to \$45,582,292 for the first half of 1927, or an increase of eight and six-tenths per cent. Losses and gains were about evenly divided, but gains in most cases were larger than the losses resulting in a net gain for the state.

Houston, with permits totaling \$21,132,994 for the first half of the year, shows an increase of 33.2 per cent over the same six months of 1927. Moreover, permits in this city alone were 30 per cent of the entire state total. San Antonio is second with total permits of \$8,283,361 and Fort Worth is third with \$8,764,911. Pontiac to Build Canadian Factory

Construction Starts Right Away On Assembly Plant At Regina, Saskatchewan, Canada

PONTIAC, Mich., July 21.—Concrete evidence of the growing importance of the American automobile outside the domestic market was seen here by officials of the Oakland Motor Car company upon receipt of advice that construction is now under way for a new Canadian factory in which Pontiac Sixes will be assembled.

Located at Regina, Saskatchewan, Canada.

Contracts let on building and engineering projects during June totaled \$26,000,000, or the largest amount during any June on record. This brings the total contracts for the first half of the year up to \$129,000,000, which is an increase of twelve per cent over the same period last year.

"Contemplated projects in June were reported at \$28,000,000. These reports show that the building situation in Texas is healthy and considerable activity is expected over the next few months."

NEW WAREHOUSE Cottonseed Storage Bins At Slaton To Be Built

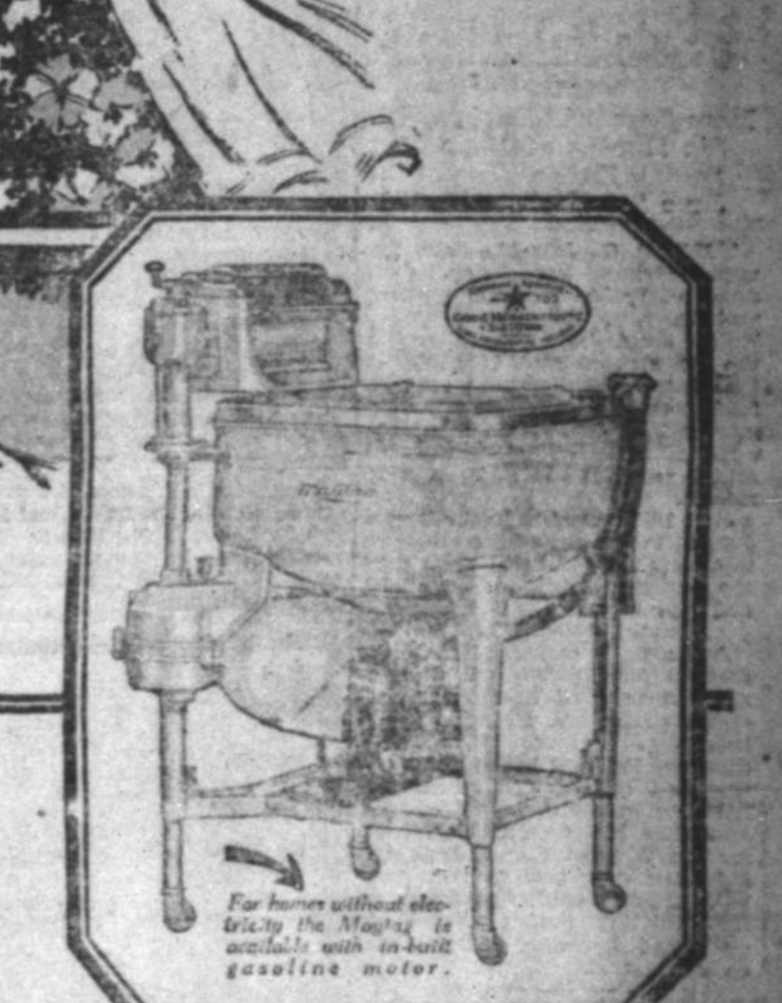

Construction Starts Right Away On Assembly Plant At Regina, Saskatchewan, Canada

SLATON, July 21.—(Special)—A new cotton seed warehouse with capacity of 12,500 tons will be built at a cost \$40,000 by the Slaton Cotton Oil company at their plant in Slaton, it is announced. The old warehouse, which had capacity of 4,500 tons, is being torn down to make room for the new structure, which will be of steel construction throughout. Horace Hawkins is manager of the mill, and it is owned by Anderson, Clayton and company of Houston. The mill was finished in 1925 at a cost of more than \$100,000.

Some Morning at 8:30 try the NEW MAYTAG!

AWAKE to the anticipation of a real thrill, the thrill of washday changed to washhour; the thrill of a washday without hand-rubbing; the thrill of a washday so easy from start to finish that it is really fun.

Don't set the alarm, don't hurry—don't worry. It only takes an hour or so to do the washing with a Maytag, and you will agree with over a million Maytag owners that never was a washing so easily, so beautifully done.

Only by washing with a Maytag can you appreciate the advantages of its roomy, seamless, cast-aluminum tub, that keeps the water hot for an entire washing, then empties and cleans itself.

Only by washing with a Maytag can you realize the convenience of its new Soft-Roller Water Remover—no uneven drying, no crushed buttons, no hard-to-iron wrinkles pressed into the clothes.

All this and more the Maytag offers you, and before you decide you are to prove their effectiveness in your own home.

Hupp Shipments Are Now Setting New Sales Marks

5,111 Century Eights Are Shipped in June to Throw Record Above Past Sales; Exceed 1927 Sales.

DETROIT, Mich., July 21.—With figures for last month exceeding any previous June total in the company's history, Hupp shipments in the first half of 1928 not only smashed all former records for any similar period but actually distanced the entire aggregate attained in any full year of the past except two, according to R. S. Cole, general sales manager.

Year Is Phenomenal
Official figures, as announced by Mr. Cole, show that 5,111 Century Eights and Sixes were shipped last month. This is the largest shipment total ever reached by Hupp in any June, the highest previous mark for the month being in 1926 when 5,941 cars were shipped, with June, 1927, showing 2,879. In fact, until the present phenomenal year no single month had ever rivaled the June mark now established, the best previous shipment peak in Hupp's annuals prior to 1928 having been 5,075 in November, 1927.

As an impressive illustration of the unprecedented popularity of the present Hupp models, Mr. Cole points out that every month since the introduction of the Century cars has seen a heavy increase over the corresponding month of 1927. These increases he cites in detail as follows: January, 32 per cent; February, 27 per cent; March, 62 per cent; April, 97 per cent; May, 138 per cent; June, 78 per cent.

38,284 cars shipped in comparison of six months' shipments with past totals bring out in even stronger light the extent of the demand which has been straining Hupp's facilities to the utmost ever since the first of the year, Mr. Cole goes on to state.

Willys-Overland Sets Sales Mark

More Cars Sold During First Six Months of 1928 Than During Entire Year of '27 June '28 Highest Period

TOLEDO, O., July 21.—Sales figures announced here today by officials of Willys-Overland, Inc., reveal that more Whippet and Willys-Knight automobiles were shipped in the first six months of 1928 than in the entire twelve months of 1927. Slightly more than 200,000 cars were marketed by the Toledo manufacturer exceeding the entire output of 171,743 cars for 1927 by a wide margin.

June 1928 proved to be the largest June in the history of the company, total cars shipped being more than the combined totals for June 1927 and June 1927.

Whippet Demand Is Great
According to factory officials, the demand for the Whippet Six announced in April has always exceeded production, while the reduction in price of the Willys-Knight Standard Six, now listing under one thousand dollars, greatly stimulated sales in the sleeve-valve cars. Unusually heavy demand continues for the Whippet four and six cylinder four-door sedans, which company officials ascribe partly to the fact that these models are the lowest priced four-door enclosed cars on the market.

C. W. Nash, Automotive Pioneer, Is Father of Four Distinct Successes

By ISRAEL KLEIN
Science Editor, NEA Service
KENOSHA, Wis., July 21.—Two great automobiles, one world-leading corporation and a prodigy who has become the marvel of automotive business are the heritage of one man—Charles W. Nash.

The automobiles are Buick and Nash, the corporation is General Motors and the prodigy is none other than Walter P. Chrysler. It was Nash, who back in 1910, set the tottering Buick Motor company on its feet and started it on its successful career by instituting the six-cylinder motor in place of the four then in use. It was he who in 1912, as president and general manager of the newly formed General Motors Company—"it wasn't a corporation" yet—made a great power out of this organization.

Nash again, in 1916, introduced his own car and has made it one of the outstanding products in automotive manufacturing today. And it was he, finally, who took Walter Chrysler from the railroad shops, put him under his wing in the General Motors Company and gave him the opportunity that led to his historic fame.

He's Modest and Plain
Nash himself didn't backslide, however. He is now one of the leaders in the automotive industry, a millionaire many times over, builder of a splendid product, philanthropist and altruist.

Nash gets down to his office early every morning he's in town and stays late, as busily at work as anyone in his shops.

When he has nothing to do in the office, Nash goes into the factory, where he is more at home than at his desk. For Nash grew up through the factory route and understands fully every process that goes into the manufacture of his car.

He's still the simple farmer boy he was more than 50 years ago, when he was bound out on a farm, while he attended school. Born on a farm near DeKalb, Ill., in 1864, he was moved with his family to another farm near Flint, Mich., when he was 2. At 7 he started to earn his own money as a farm hand, while going to school.

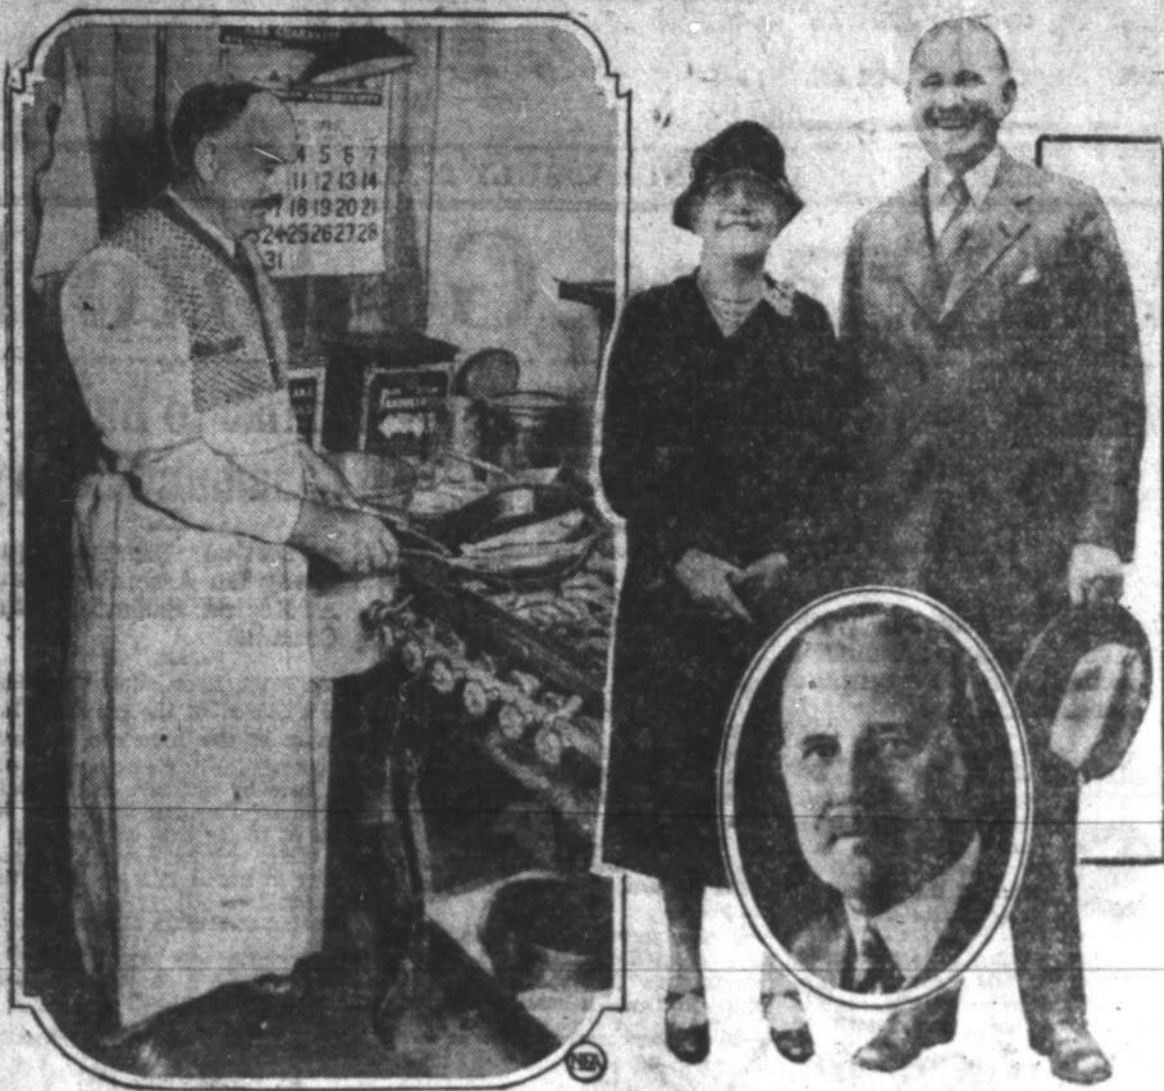

Farm work and schooling continued until at 28 Nash went out on his own. He got a job as trimmer with the Flint Road Cart Company which later became the Durant-Dort Carriage Company. He earned a dollar a day.

But J. Dallas Dort, one of the pioneers in automotive history, was attracted to his work and Nash began to move upward. He became general manager in a few years and gave the company its most prosperous years as its head.

In 1910, when the automotive industry was feeling the general industrial depression, Nash was picked to get Buick out of the mire. He started with a revolutionary step—developing the six-cylinder motor.

That, with his managerial genius, saved Buick for the future, and Nash was ready for bigger things.

In 1912, he became president and general manager of General Motors.

made Chrysler head of Buick and steered that organization upon a course that has led to world-wide success.

Builds Up Own Product
But Nash wasn't satisfied until he had his own product. In 1916, he organized the Nash Motors Company on the basis of what remained of the old Thomas B. Jeffrey Company at Kenosha.

In the 12 years of its existence, Nash has made his company one of the soundest in the automotive world. In his annual report to Nash stockholders last November, Nash reported net profits of nearly \$23,000,000, nearly \$14,000,000 paid out in dividends and a balance on hand of more than \$42,000,000.

The secret of this great achievement is Nash's uncanny manufacturing and merchandising methods, his lieutenants say. He doesn't like to see capital lying idle. He is hostile to waste and lost time or motion.

He cut down the inventory of the old Buick company when he was its head, and has stuck to this practice of maintaining as rapid a turnover of his goods as could possibly be practicable. The result is he is never "stuck" with a large inventory when he has to change his models suddenly in order to keep up with the times.

He's Popular With Everyone
Outside of this careful, close contact with the business, however, Nash becomes "Charlie" to everyone, his office assistants, his veteran workers in the factory and his host of friends. It reveals his humanness and his good nature.

"I'm the most common cuss that lives," he comments. His great success, his riches haven't turned his head. He still likes to wander through the factory and chat with gray-haired men who used to work alongside him in the old Dort plant. He reveals in the companionship of the hunt, for he is a great big-game hunter and an expert fisherman.

Well-built, robust and healthy, this man of 64 looks ten years younger. His fishing and hunting exploits keep him young. And his outlook on life contribute to his youthfulness.

"I can't draw any line of demarcation between some fellow who hasn't got a dollar to his name and someone who has \$50,000,000," he says. "How I hate to measure a man's success in life by the dollar sign!"

And he goes on, "I belong to the common people, and I'm proud I do. I'm proud that some of my workmen call me by my first name."

Sitting beside him and hearing him talk like this, you instinctively feel his sincerity. He doesn't like to discuss his recent gift of \$10,000 to the Kenosha Y. M. C. A. toward the construction of a new building, nor his many other philanthropies. He doesn't like to talk business.

"I'm enjoying this chat with you more than I will the next interview I'll have," when some banker is to see me," he says frankly.

In the same mood, he likes to talk of his lodge in the northwoods of Wisconsin and his many fishing and hunting expeditions into Canada and over the United States.

"I never played until I was 45," he says. "But since then I have done all kinds of fishing except salmon fishing. I've gone after big game and shot duck and quail. I like to get into an old flannel shirt and khaki pants, pull up a pair of waders and go out into the streams."

And wherever he goes, whether for business or pleasure, Mrs. Nash

is his close companion. She's his adviser in many business ventures and he worships her. Their three daughters are married, so Nash has found further enjoyment in the companionship of his four grandchildren.

Radio listeners in Australia got a shock recently when they tuned in to hear "the greatest talking parrot in Australia." The broadcasters had not inquired too carefully into the bird's training and listeners were started to hear a string of violent oaths.

AMERICA ACCEPTS AND ACCLAIMS THE NEW PLYMOUTH

It Discovers at Last Real Size, Style, Performance and Safety in the Lowest-priced Field

The sales record of the new Plymouth, established in two weeks' time, is without parallel or precedent for a car in this field—not in a few retail centers but all over the whole country.

Hundreds upon hundreds of thousands—yes, millions—eager to see the new Plymouth, built by Chrysler to compete in the lowest-priced field, through Chrysler-sales-rooms everywhere.

They compare it with the three or four other

cars catering to the same great market.

They see contrast in size, style, performance and safety so sharply in favor of Plymouth that curiosity bursts into enthusiasm, enthusiasm is transformed into sales.

In fine, the millions seeking a low first cost now discover in the new Plymouth the one car in the lowest-priced field which is and does everything that they have long hoped a low-priced car would be and do.

You, too, owe it to yourself to see it, ride in it, drive it. All doubt as to the highest dollar-for-dollar value in the lowest-priced field ends right there.

1928 To Be Banner Year For Chevrolet Says Firm's Prexy

Popularity of "Bigger and Better" Models Indicate Greater Sales; 751,536 Cars Sold in 1928

DETROIT, July 21.—Positive indication that the Chevrolet Motor Company in 1928 will again establish a new annual production record and go well beyond the million mark this year, was seen in an announcement here today by W. S. Knudsen, president, that output for the first six months of the year 1928 compared with 697,749 for the corresponding period of 1927.

Responding to the greatest demand in its history, Chevrolet established new monthly production records every month this year. Like the five preceding months, June was the best sixth month in the history of the company with a total of 132,794 units, as compared with 112,794 for June of 1927.

Factories in Peak Operation
With its fourteen great factories at the peak of efficiency and production operation, Chevrolet in the last six months produced a finished car every five seconds of each working day. Daily production over the six months period averaged 5,215 units. All daily records were broken on May 28, when 7,075 finished cars and trucks were built.

In addition to the 751,536 cars and trucks built since the first of the year, 32,719 of the "Bigger and Better" models that have since won nationwide acclaim, were built in December, bringing the total number of the present model built up to July 1st to 784,355.

Production in the first six months of the year exceeded the total output for the year of 1926 and nearly doubled the production of each preceding year.

100,000 Units a Month
Due to the steadily increasing popularity of the "Bigger and Better" car, production will continue at a high rate throughout the summer and fall. Mr. Knudsen announced, schedule set for July, August and September call for more than 100,000 units each month, insuring that Chevrolet will reach the million mark before October 1st.

One of the factors that made possible this record breaking production achievement was the opening of the mammoth assembly plant in Atlanta early this spring, providing Chevrolet with facilities for the production of 350 more units daily. Early in the fall another mammoth assembly plant will be opened in Kansas City, increasing again by 500 units daily Chevrolet's production capacity. With the completion of the Kansas City project, Chevrolet will have an annual production capacity of more than 1,250,000 cars and trucks annually.

LOVE FOR TWO

By RUTH DEWEY GROVES © 1928 by NEA Service Inc.

THIS HAS HAPPENED
Bertie Lou Ward, on the eve of her wedding to Rod Byer, feels troubled at receiving a dagger-like paper knife from Lila Marsh, an ex-sweet-heart of Rod's. She resolves not to be jealous, but a second blow to her pride comes when she accidentally overhears one of her bridesmaids ask another if she thought the bride liked being second choice. The pain in her heart vanishes when Rod whispers "My wife with a world of adoration in his eyes. They spend an ideal honeymoon and Bertie Lou forgives about Lila until they return and find her playing detour in their apartment because she "knows what Rod likes."

They settle down in the little home but too much hospitality upsets their financial budget. This worries Bertie Lou as does the persistent annoyance of Lila. So she is happy when Rod accepts a position in New York which has been offered him by Tom Fraser. Anxious to make a good impression, they go to an expensive hotel until they can find an apartment. They are amazed at the cost of everything and Bertie Lou is embarrassed when Molly Fraser takes her to an exclusive gown shop and urges her to buy more clothes than she can afford. Rod worries Bertie by playing poker with Tom. One night, after winning the game, Rod foolishly invites the crowd to a night club. Molly suggests that they have the party on Thursday night as Lila will be there then. Bertie Lou realizes that she must have a new evening gown and decides to charge it.

NOW GO ON WITH THE STORY
CHAPTER LXI
Rod once had told Bertie Lou he didn't believe in charge accounts. She hadn't given the remark much thought at the time, but now it came back to her as a cause for apprehension. Rod might refuse to permit her to do her shopping on credit.

A bit nervously she waited for the operator to get the number she gave. There was a longer wait before Rod was called to the telephone in the office. It gave Bertie Lou time to decide that it would be unfair for him to withhold his consent. It was entirely his fault that she must have an evening dress. "Hell, Rod," she said when she heard his voice. "I called you up to let you know I've applied for a charge account at Staley's. They'll probably send a man around to the office to see if it's all right."

Bertie Lou's voice lost its smile. "It will be a great convenience," she told him. "I've simply got to have some clothes. You don't want me to look like a frump next Thursday, do you?" "Good lord, you've got heaps of clothes." Bertie Lou was exasperated. Rod was getting to be just like other husbands in some ways. Foker and

they were to pick up their guests, she sat close to Rod in the cab he completely forgot about bank were at their destination? KETA balances and rents, they were at their destination much too soon.

Bertie Lou entered Molly's living room without the slightest reluctance. She had not seen Lila in New York, but with the feel of Rod's arm still about her shoulders she did not fear her. Lila might, probably would try to be a thorn in her side. But with only Molly to applaud her, Bertie Lou had made up her mind not to suffer over it.

Lila was sitting ensconced on an overstuffed davenport, revealing a length of shapely leg that had power to express her character than anything in her vocabulary. Lila would be very sorry if short skirts went out.

"Hello there, Lila," Rod greeted her pleasantly. She did not get up or offer her hand. Rod took a seat a few feet away.

"Molly'll be down in a twinkling," Lila volunteered. "Have you seen the 'Second Wife'?" she went on lastly. "Swell show. Standing room only tonight. Where've you two been?" "Home," Rod answered before Bertie Lou could think of something more exciting.

"Rod hates to go out," she said, to pull the sting from Lila's inquiring smile. "Well, it's a good way for thrifty young married people to be." Lila returned with an insight that infuriated Bertie Lou. That was the worst feature about a small town—everyone knew the date of every penny you owned—or didn't own.

HOW'S SHE HITTING

By ISRAEL KLEIN

Science Editor, NEA Service
We have eliminated most engine and chassis noises with improvement of our cars, but have still to find perfection in the valve mechanism. Yet this is one of the most important factors in the proper functioning of a motor.

The seriousness of valve imperfections and their causes were recently taken up at a meeting of the Society of Automotive Engineers, by Jack Frost, one of its members and a noted automotive engineer. "Valve trouble in most cars," says Frost, "means lack of power, the engine will not idle, the car will not climb a hill as it used to."

"Perfect valve action is complete quiet closing at any speed." "Ninety per cent of the valve troubles according to Frost are the results of misalignment of the valve head with the valve stem, valve-stem guide or valve seat."

"The valve seats and valve-stem guides are subject to seasoning," he says, "as is the case with all parts made of cast iron, and the intense heat generated in the automobile engine brings a rapid change in the texture of the metal and distorts these parts. The guides sometimes require from 1000 to 2000 miles of running before they have become permanently set or seasoned."

"Thus, every hour's operation of the engine adds to the value of the material in these parts, but makes it necessary to service or recondition the valve seats as soon as possible after the engine shows such reconditioning to be needed. The valve seats are made of cast iron rod extending into the valve port where the heat from the burning gas has greater opportunity to warp it, soon loses its perfect alignment with the seat and changes the direction of travel of the valve."

close the valve regardless of this untrue condition, but does so through the valve striking a small portion of the seat first and then gaining the full seat through a pendulum-like swing of the stem. This produces a metallic click that defies removal through cutting the tappet clearance.

"Sticking valves are produced through the same misalignment. Fifty thousand to 100,000 times a day the valve is opened and closed in the normal running of an automobile. Under the best conditions this side-slap of the stem will produce carbon to such an extent that it will seal the valve stem in its guide regardless of the amount of clearance."

"With the advent of high-speed engines, warped and burned valves began to be noticed. When a valve does not close completely, the compressed burning gas, which reaches a temperature of 1500 to 2000 degrees Fahrenheit, is forced with great velocity through the small opening left and burns the valve face or warps the stem."

"It is impossible, when a valve guide warps and loses its original alignment with the block and the valve seat, to bring it back, yet it is ridiculous to replace it. The first 10,000 to 15,000 miles of operation of any engine makes the set of cylinders worth a dozen new ones, so far as warpage is concerned. On most of them warpage of 5 to 15 thousandths of an inch occurs in 15,000 miles of running."

"After reconditioning the cylinders and running the engine for the same distance again, the warpage will be very little. The little valve guide, then, is imperfect until it has warped and settled. We must then cut the valve seat true to the angle that the guide has taken."

DON'T Have Secret Worries
Stop pain and burning with old-style B. I. O. in one prescription. That's a fully considerate of Bertie Lou, she said. "To be tired, I mean, that gives Rod to me for the evening." She looked over at him. "I haven't had a real dance since you left Wayville," she added wistfully.

SIMMS GAS

Today when you drive, whether it be the family sedan or business coupe, you will remember this advertisement of The Simms Oil Co.

Yesterday.. wasn't there a time when you thought the car didn't respond as quickly to the accelerator as it should? Didn't the motor seem to knock and labor on that little hill? Today you will have the same experience. At some time during the day you will wish for a wee bit more power to carry you just a bit quicker over the hill; or through narrowing traffic. Then is when you will remember this advertisement.

And when you do go then to a Simms Station and get Red Wing—the new powerful gasoline. See that you have a sufficient quantity of the correct grade of Simms 100% paraffin base motor oils. Drive out on the street—a cool motor, smooth, even power, pep without knocks or carbon—"Spread Wings and Fly."

Whether your car be luxurious limousine or second-hand runabout, you'll never know what performance really is until you use Red Wing.

Chrysler's Latest Creation Receives Great Reception

Is "Triumph of Principle of Standardized Quality" Says Sales Manager; Has Many Advantages

DETROIT, Mich., July 21.—The New Plymouth is the triumph of the principle of Standardized Quality. Without it the car it would not have been possible.

"That is the tribute which J. W. Frazer, Chrysler and Plymouth Sales Manager, pays this famous Chrysler principle. Standardized Quality is given the credit by Mr. Frazer for making the new Plymouth the largest, roomiest and most powerful car of low price on the market, and for including in it features after feature heretofore possible only to higher priced automobiles.

Car Has Many Features

"No car in the low-price field heretofore has been so large, so comfortable and so roomy," he says. "No car in that field ever has enjoyed its smoothness of operation, which extends throughout its speed range, has afforded the buyer such assurance of body interiors; been so comfortable over rough roads or smooth pavement; had its surplus power always available for every driving need; had the benefit of its symmetry of design; enjoyed the advantages of high compression; been equipped with internal expanding four wheel hydraulic brakes; had its engine literally floating in rubber, further to promote the advantages of smoothness by destroying the transmission of torque impulses and road shocks and enjoyed a host of other refinements heretofore unknown to the low-price field. "Yet the buyer in that field has wanted those features and is entitled to every one of them. It simply has been impossible up to the Plymouth's advent for that man to secure them.

This Is What You Call A Wonder Car!

New English Car Has No Clutch, No Gears And No Springs; Is Cooled By Steam

LONDON, July 21.—England is excited over a new wrinkle in automobiles—a car without gears, without clutch, without springs, that's cooled by steam and that is guaranteed against road shocks and skidding.

It has been called the "wonder car." Colonel W. Bishop, builder and owner of the unique automobile, is showing it around, while large crowds gather wherever it stops.

"All you do," says Colonel Bishop, "is to start the car, accelerate and the car moves off. There is no clutch to operate.

"To start the car, acceleration is regulated entirely by the pressure on the accelerator. Take your foot off and the car freewheels.

"Free-wheeling is comparatively new in this country and the continent, and is practically unknown elsewhere. This is a system of transmission by which a novice can drive without fear of clashing gears. The speed changes are automatic, in selected intervals.

Canyon passed through Lorenzo Thursday on her way home at Amarillo. Miss Fitzhugh stopped for a short visit with Mrs. F. H. Hoople, with whom she will stay this winter while teaching in the school here.

Dodge Brothers Show Sales Gain

Indications Are Strong For Good Year; Retail Sales Gain 67 Per Cent Over June 1927

DETROIT, Mich., July 21.—Sales of Dodge Brothers passenger cars to consumers in domestic and foreign territories from the first of the year to the week ending June 23, show a gain of 29.2 per cent over the corresponding period of 1927. A like total of passenger cars delivered last year was not reached until the week ending August 6.

A gain of 67 per cent in retail sales was registered for the week ending June 23, compared to the corresponding week in 1927.

Summer Slump Is Taboo

"The summer slump" often experienced in the trade appears to be out of the picture as far as our dealers are concerned," said John R. Ise, general sales manager of Dodge Brothers, in commenting on this remarkable sales record. "Dealers throughout the country are optimistic in making continued substantial increases for July and August. Accordingly, we feel certain the second half of this year will surpass production of the first six months, a most unusual situation in automotive building.

"In making this statement, we are taking into consideration the fact that we will have a full six months for production of each model, whereas we were only—in partial

production on two of our lines during the first period when our change-over was taking place. "In addition, the recently announced open models in the Victory Six line are filling a seasonal demand, while the new six cylinder line of Graham Brothers trucks, from present indications, give promise of setting new production records as compared to restricted production during the first six months when changes were being made."

Uncle—And you like school, Jimmy? Jimmy—Oh, yes, uncle, but I like Sunday school best. Uncle—I'm very pleased to hear you say that. Tell me why? Jimmy—Well, we only go to Sunday school once a week.

Another feature of this unique automobile is an automatic locking device on the wheels, which keeps them from sliding backward down a hill. A mysterious differential in the rear is said to do away with skidding.

The wheels are suspended independently, springs are replaced by rubber buffers and the steering is independent to each of the front wheels. The last feature, it is said, eliminates wheel wobble.

"This car is the result of seven years—of experimentation," says Colonel Bishop. "The various devices can be fitted to almost any car. These will be licensed separately to manufacturers for their use as they see fit.

"It is not intended to market cars like this one."
