PRICE OF SHAMEFUL PEACE

More than a billion dollars of American agricultural exports were sold to the European nations at war with Germany during 1917. Had this Nation

maintained peace at the price of obedience to the German war zone decree, this European market would have been closed and this billion dollars worth of agricultural products would, most of them, have rotted on farms and in

warehouses, or been used in unprofitable ways, with consequent stagnation and ruin to American farmers.

Interest as well as duty urges the American farmer to give financial support to his Government in this war.

EXAMINATIONS TO FILL THE POSITIONS IN CIVIL SERVICE

So urgent is the Government's need for bookkeepers that civil service examinations to fill positions of this character will be held throughout the United States each Tuesday until further notice. Women as well as men are eligible.

Two classes of examinations are announced. A grammar-school education or its equivalent is required of applicants for either class, with the further stipulation that those who wish to take the bookkeeper-typewriter examination must have had at least six months' experience in bookkeeping, and those who would undertake the clerk-bookkeeper examination, one year's experience in clerical work, six months of which must have been in bookkeeping. The vacancies to be filled from the register obtained from these examinations are in the departmental service at Washington and offer entrance salaries of \$1,000 a year.

These examinations are open not only to all citizens of the United States but also to subjects of allied nations who are otherwise qualified for the positions offered.

WAR TIME AND SLACKER TIME.

According to Uncle Sam's view of the situation, we now have two kinds of time—war time and slacker time.

The hands of the clock were set forward an hour on the order of the Government, and for the sole and only reason that the Government deemed it a measure which would help win the war.

What they desired most particularly was that all business houses and manufacturing concerns should close up an hour earlier in the afternoon in order that clerks, business men and laborers could have some time for patriotic pursuits, such as making war gardens, assisting in Red Cross work and Liberty Bond Campaigns, etc.

It is a little thing which the Government has asked of us, still we are sorry to say that quite a number of people are refusing compliance.

We understand that Olney business houses have not yet begun to comply with this new measure. They have set back their closing hour, and thus are defeating the purpose of law. We are sure that they have not properly considered the matter, and believe that they are patriotic enough to close at six o'clock "war time" when the matter is properly brought to their attention.

We know that a great majority of their customers are patriotic Americans, and that these customers would much prefer that they comply with the request of our government.

Let's run Olney on "War Time" not "slacker time."—Olney Enterprise.

MEETING BOOSTS LIBERTY BONDS

Wellington was Filled With People Saturday Who Attended the Big Patriotic Rally.

One of the largest crowds ever seen in Wellington participated in the big rally that was held at the Wellington Motor Co. garage Saturday afternoon, and demonstrated by their earnest participation that Collingsworth county's quota of \$149,000 will be raised, and the county removed once for all from the slacker list—which same has been for sometime, to the shame of the people of the county.

Atty. J. Shirley Cook of Vernon led the speaking with one of the greatest appeals to the reason of our people as to why we are at war and why we should buy bonds. He handled the subject in a masterly manner and his hearers could not help but appreciate the fact that it is up to every man, woman and child to do his all in the present crisis.

He started his address by saying that "Today every liberty loving citizen waked up to make the Liberty Loan go over the top. If talk will win the war it would have been won by the windjammers long ago." Among other things he said "If the war is lost, it will be because the American people have not awakened to a realization of the dangers confronting us. There is no hope outside of victory—we can't hope that in case of defeat Germany will extend mercy. We have duties that should be treated as sacred duties to our government. Of course mistakes have been made, because we are all human, but that all countries wait to hear President Wilson say what to do next. There is more in patriotism than in mother love; greater than ties of home; greatest in that it unites the men of the world. It combines love of home, mother love and love of country. When a man's heart is without patriotism he is without a friend, home and country. Goethe said that Germany was born a beast and civilization would make him a brute, and that it is being proven today. In Germany a false philosophy exists—the survival of the fittest. German kultur is supreme in their minds—that Germany has a right, if necessary, to advance that nation, that all nations be done away with—place power and might above everything. The very hope of victory is wavering in the balance, and we are the only people to bear down the scale. Sacrifice is necessary to bear down the scale; the women have made

greater sacrifices than the men. If women would forego their Easter dress it would pay for half the War Savings Stamps, and on the other hand, if the men would quit spending money foolishly they could finance far more than the women. It takes five true patriots to uphold one soldier. Do not talk peace until there is peace. No permanent peace can come to the world until Germany's philosophy is done away with. Germany wants peace because she has already accomplished what she set out to do. No peace can come until all nations can do as they wish in the matter of right without being trod under foot by the iron heel of Germany." He followed his address by a great appeal to the people to get in line and help with their money, time, influence, and life, if necessary.

Following Mr. Cook, Judge C. C. Small made a stirring appeal to the people of Collingsworth county to come out of their lethargy and subscribe to the Liberty Loan. He did not mince words, but plainly stated that there are men in the county who are not doing what they should toward the government; that there are men who are able to buy bonds to the tune of thousands of dollars worth but who were buying a measly fifty dollar bond, while some are not buying any at all. He romped on those who are taking advantage of the war to make money and then not lending any to their government. By the time he was through with his speech the audience was worked up to a point of cheering instead of hand-clapping.

After the speaking was over a Red Cross pig, donated by Mr. Langford, was auctioned and brought something near \$500. C. E. Stone bought it the first time and gave it back to the Red Cross when it was again auctioned. J. A. Richerson bought it and took it home to fatten it up to be sold for the Red Cross at a future meeting.

After the meeting a nice subscription was taken for the Liberty Bonds, and workers have been busy this week adding to the amount. It is confidently believed that the quota will be raised. But it is going to take hard work and some sacrifice on the part of the people. Collingsworth county cannot afford to fall down on this proposition, and we believe will not. Let's go over the top with the Third Liberty Loan. Wilbarger county had their quota raised by the time the campaign was opened Saturday morning. A Liberty Loan Flag will be given to every county that raises its quota. Let's have one for Collingsworth county.

BIG FOOD AND FEED MEETING HELD SAT.

The Speaker Laid Stress on Planting Double the Acreage of Food and Feed in the Panhandle.

As previously announced speaking was held at the court house last Saturday noon, Dr. Loyd of Vega, represented the publicity department of the Panhandle Food and Feed Association in a great speech to some one hundred farmers.

He outlined the campaign to produce more feed and food and cut out a lot of cotton in the Panhandle this year. He said that the feed acreage should be doubled and the cotton acreage should be cut down accordingly. That this year the feed and food is needed and the farmers should make a great effort to produce enough to feed the Panhandle and help supply others, and on account of the shortage of labor it will be necessary to get to work early and stay till late, and that the women should don women's overalls and help in the work.

He said that there is no certainty about cotton this year—the government is not obligating to transport cotton, but it will transport the cotton seed products, and for that reason a man that goes strong on cotton may not get big returns besides will not be doing what he should toward helping his country win the war. Said that people could go for two years without buying more clothing, and that a patch on a man's pants now is a badge of honor.

One thing that impressed the farmers at this meeting more than any other was the fact that the speaker urged that the women be asked to go into the fields to work, which they are perfectly willing to do. But they think, in a case of that kind, that it looks hard for a woman to be asked to go to the fields when there are so many loafers around the towns who are not producing a thing and are consumers. That detail will likely be worked out sooner or later by the government. The Leader believes that all who are not producing something necessary to carrying on the war should be drafted into service on the farms or in the factories.

J. C. Wells has been appointed chairman for Collingsworth county in this campaign and he has appointed a captain for each school precinct. As the details of the campaign is worked out it will be made public through the Leader. All farmers are urged to plant more feed and less cotton. The landlords are asked to let their tenants plant less cotton and more feed. It is a patriotic proposition, strictly.

COMING—MISS BEACH & CO. MUSICAL CONCERT, APRIL 17

Miss Eula Jane Beach needs no introduction to the people of Wellington as she was heard here in concert a few years ago and since that time has toured the United States and Canada, under Readpath-Harner management. Miss Beach has a high soprano voice, of beautiful quality, and besides, giving a varied number of songs including, "Keep the Home Fires Burning," and "Star Spangled Banner." She will also render a group of piano solos. Jack Richardson's Mandolin Orchestra is an organization of eight members. Every one a layer of marked ability. Mr. Richardson himself is a thorough musician and has had wide experience in orchestra work, having served Uncle Sam for four years as a player and director. His ability is beyond question.

School Notes
The two pigs which belonged to the school were sold this week. They weighed 421 pounds and brought \$67.36. The first two were sold for \$63.00, making a total of \$130.36. During the school year the school has been out \$28.30 for feed, leaving a balance of \$102 which was cleared on the four pigs in six months. Two other pigs will be bought to feed until the close of school.

The district meet of the Interscholastic League of Texas will be held at Canyon on April 19 and 20. Nearly all of the counties of the Panhandle will be represented in this meet.

Bessie Royal, one of the last year's graduates, was a visitor at the high school this week.

Mrs. C. E. May and Mrs. C. D. Knight were visitors at the west side school last week.

W. I. ATKINSON ANNOUNCES FOR COMMISSIONER PRECT. 3.

The Leader is authorized to announce the candidacy of W. I. Atkinson for re-election to the office of Commissioner Precinct No. 3, Collingsworth county, subject to the action of the Democratic primary.

Mr. Atkinson is too well known to the voters of this county to need further introduction. His record as commissioner speaks for itself. He has shown that he knows how to conduct the business affairs of the county and does it to the very best of his ability. He has made a splendid commissioner and if elected will continue to look after the affairs of the county as he has done heretofore. Give his candidacy your careful and earnest consideration. Your vote will be appreciated.

MORE COLLINGSWORTH MEN PROMOTED AT CAMP TRAVIS

Private John R. Crooks of Battery E, 345th F. A. has recently been appointed Private, First Class by his Battery Commander. This is the first recognition of a soldier's ability and willingness to make good and we are expecting big things from you, young man, while you are in the army. Congratulations on the good work you are doing.

Private Sam Lee Laughlin of the 53rd Co. 165th Depot Brigade, Camp Travis, Texas, who resides at Wellington, Texas, has returned back to his company from the mump ward where he has been confined for about three weeks.

Battery "C" 343rd Field Artillery is at Camp Bullis, Texas, where they are having target practice. They recently received several new men including Luther Vandergriff of Wellington. He's a husky that should make good in the artillery.

Private S. W. Self, Company F, 315th Engineers, has been promoted to Corporal, and is attending the Regimental French School which is being held three evenings each week under the tutelage of Sergeant Andre Dampressan.

Harry L. Crow has just been transferred from his former organization, the 345th, Field Artillery, Camp Travis, and left with the best wishes

of his associates and with their universal regret. He made a fine record here, making rapid progress from recruit to soldier, and we feel sure he will do well wherever he may go. Nearly everyone is "rearing" to go now and the man who goes first is considered lucky.

WANT CHANGE MADE ON THE STAR ROUTE

J. W. Vick and Geo. Roden of this county, and in a few miles of Memphis, were visitors in this city Wednesday. They are trying to get the schedule of the star mail route between Wellington and Memphis changed so they can get their mail earlier and mail their letters earlier. As it is now they cannot get their letters mailed on the train until the day after mailing on the route. We believe the schedule should be changed, or the mail taken up by the carrier on his trip going to Memphis.

A. J. BRADLEY FOR COMMISSIONER PRECINCT NO. FOUR

The Leader is authorized to announce the candidacy of A. J. Bradley for re-election to the office of Commissioner for Precinct No. 4, Collingsworth county, subject to the action of the Democratic primary.

Mr. Bradley's record as commissioner entitles him to consideration at the hands of the voters of the county. He is a splendid citizen, a good business manager, and has made this county a commissioner to be justly proud of. The way he has conducted the affairs of the county, with the assistance of the other commissioners, shows that he has the ability and the wish to do the right thing at all times for the good of the county and the people. Give his candidacy your careful consideration before casting your vote.

DISTRICT COURT TO BE HELD IN WELLINGTON NEXT WEEK

AMERICANS GOING TO FRANCE RAPIDLY

Speeding up Orders From the Department Putting More Men Across to Help Win the War.

Washington, April 8.—Transportation of American troops to France is proceeding at the accelerated rate contemplated by the speeding up measures taken after the battle of Picardy began. Acting Secretary Crowell made this statement today but would give no details.

For military reasons the extent of the increased troop movement has not been made public.

Following the conference between Secretary Baker and allied officials, orders were given under which a British official statement was issued saying that American troops were to be brigaded with British troops in order to hasten American participation in the war. Officials explained today that the process to be followed was similar to that adopted in placing American troops in the front lines with the French for training.

It has been estimated that thirty days' training of this character with American battalion units assigned with the British organizations will fit the newcomers for active duty at the front. All divisions now moved from this side are composed of men who have had several months of preliminary training and who need only final instructions to take their full share in the fighting.

The training process will be quicker with the British than with the French, it is believed, because the language difficulty does not exist. American units will find every British veteran an instructor and there will be no need for interpreters.

It was indicated that the new plans call for a more extensive training scheme with the British army than has been the case with General Pershing's original force. There probably will be no attempt to set up a purely American force within the British ranks as has been done with the French.

The Americans are to be withdrawn when trained and turned over to General Pershing as a part of his army. They will share fully with their British comrades the battles on their front and the belief here is that they will not be withdrawn as long as there is pressing need for their service with the British lines.

EVERYBODY SAVE FOOD AND HELP TO WIN THE WAR

Peden Demonstrates First Anniversary of the War With Message That Food Should be Saved

"One year ago today the United States ceased to be a neutral nation. By entering the war we tacitly pledged the Allies our fullest measure of support. They needed men, hundreds of thousands of them—and we are sending them. They had to have food, hundreds of thousands of tons—and we have been sending it," says Administrator Peden.

"Their need is greater today than it has been at any time since the war cloud first broke. They still need men, but they MUST have food. We can send millions of men, inexhaustible supplies of ammunition—but they will be of no avail if we fail to support the troops over there and the people behind them. If the food fails them, they will fall.

"We know now that never have the Allied nations faced a grimmer struggle for existence than confronts them today. We know that only to America may they turn for assistance. So great has been the toll of the U-boat that every ship must be made to work at full capacity. Every vessel must make the greatest possible number of trips, traveling to the nearest source

of supply—America. If the source of supply fails them, it means that their ships must go farther from the conflict. It means a diminution of food. And that means an approach to starvation—failure, defeat.

"The strength of those people over there depends solely upon us. Starving people cannot uphold their armies. And the armies, even if they are fed, cannot be kept in the field if the men know that privation and want are added to the suffering back home. The knowledge that their women and children were starving would rob them of the spirit which has maintained their determination to stand unyielding before the onslaughts of the Prussians.

"We must face the fact that there is not in this country enough food to meet the actual necessities of Europe if we maintain our normal consumption. We MUST feed them, but we have left in America only the amounts which would normally be consumed before another harvest. We can export only what we save. If your savings are small, Europe will be underfed—the war will be lost.

"The greatest need in Europe today is for wheat. They must have millions of bushels. Seventy-five millions bushels, on the first day of this year, was needed to tide them over until July 1. Lord Rhondda, British Food Controller, cabled the United States Food Administration that unless the

United States could supply it, he could not take responsibility for assuring the English that they would be fed.

"As long as the first of last December, we had exported our entire wheat surplus. Since then we have been able to ship only what our people have saved—and we are falling behind on the program.

"So grave has become the situation, that today it is no exaggeration to declare that he who wastes a slice of wheat bread is actually hindering the prosecution of the war and endangering our chances for victory. Our wheat consumption must be cut to 1½ pounds per week—a reduction of 50 per cent. This is a military necessity and should be viewed in no other light.

"There are many ways most of us can help. There is one way every one of us can help—by standing guard over our nation's larder. All of us cannot save, but all of us can do something to coordinate the nation's savings and to police the distribution of our food supplies. Across the sea they need badly the four principal staples we are being asked to save—meats, wheat, fats, and sugar. But most of all they need wheat. Waste it and we are wasting lives.

"On the curb we place upon our appetites depends the success of our men and the Allies in Europe."

Nature Cures, the Doctor Takes the Fee.

There is an old saying that "Nature cures, the doctor takes the fee," but as everyone knows you can help Nature very much and thereby enable it to effect a cure in much less time than is usually required. This is particularly true of colds. Chamberlain's Cough Remedy relieves the lungs, liquifies the tough mucus and aids in its expectoration, allays the cough and aids Nature in restoring the system to a healthy condition.

EVERYBODY EAT POTATOES AND HELP TO WIN THE WAR

The month of April is the month of potatoes. This is the edict of the Federal Food Administration for Texas and it is made not because the Food Administrator wants to be arbitrary in the matter of appetites but because there is a surplus of 90,000,000 bushels of potatoes in the United States and of this amount fifty cars or 2,000,000 pounds are spoiling on the tracks in Texas because there is no public to consume them. The potato should be available to all housewives at 1½ to 2 cents a pound which contrasted with the rice for April is 3½ to 4 cents cheaper. In April 1917 the same grade of potato was selling for five and six cents a pound.

"The reason for an increased consumption of potatoes campaign" says the Administrator Peden, "is that the food bins are heaped with potatoes as the answer of the farmers to last year's appeal for a bumper war crop. The potato grown through patriotism

should be eaten through patriotism. With so many other things scarce, potatoes, which are plentiful, should not go to waste. And they WILL go to waste if they are not eaten in the next few weeks. To eat potatoes is the best kind of local, home grown patriotism.

"In spite of the adoption in other countries, however, the potato proved it was a true American last year when the crops were called to the front for war service. It enlisted in the front ranks of the food forces, with the result that we have such a potato crop as was never known in this country. Europe does not need to share our potatoes. They are too bulky to ship at this time when ships must be saved for troops and for the most essential and concentrated foods. Therefore, the best form of patriotism is to eat our bumper crop and make it help save the wheat.

"The potato has done its 'bit' by us. Shall we not do our 'bit' by it? It's a good soldier. Help to fight the Kaiser."

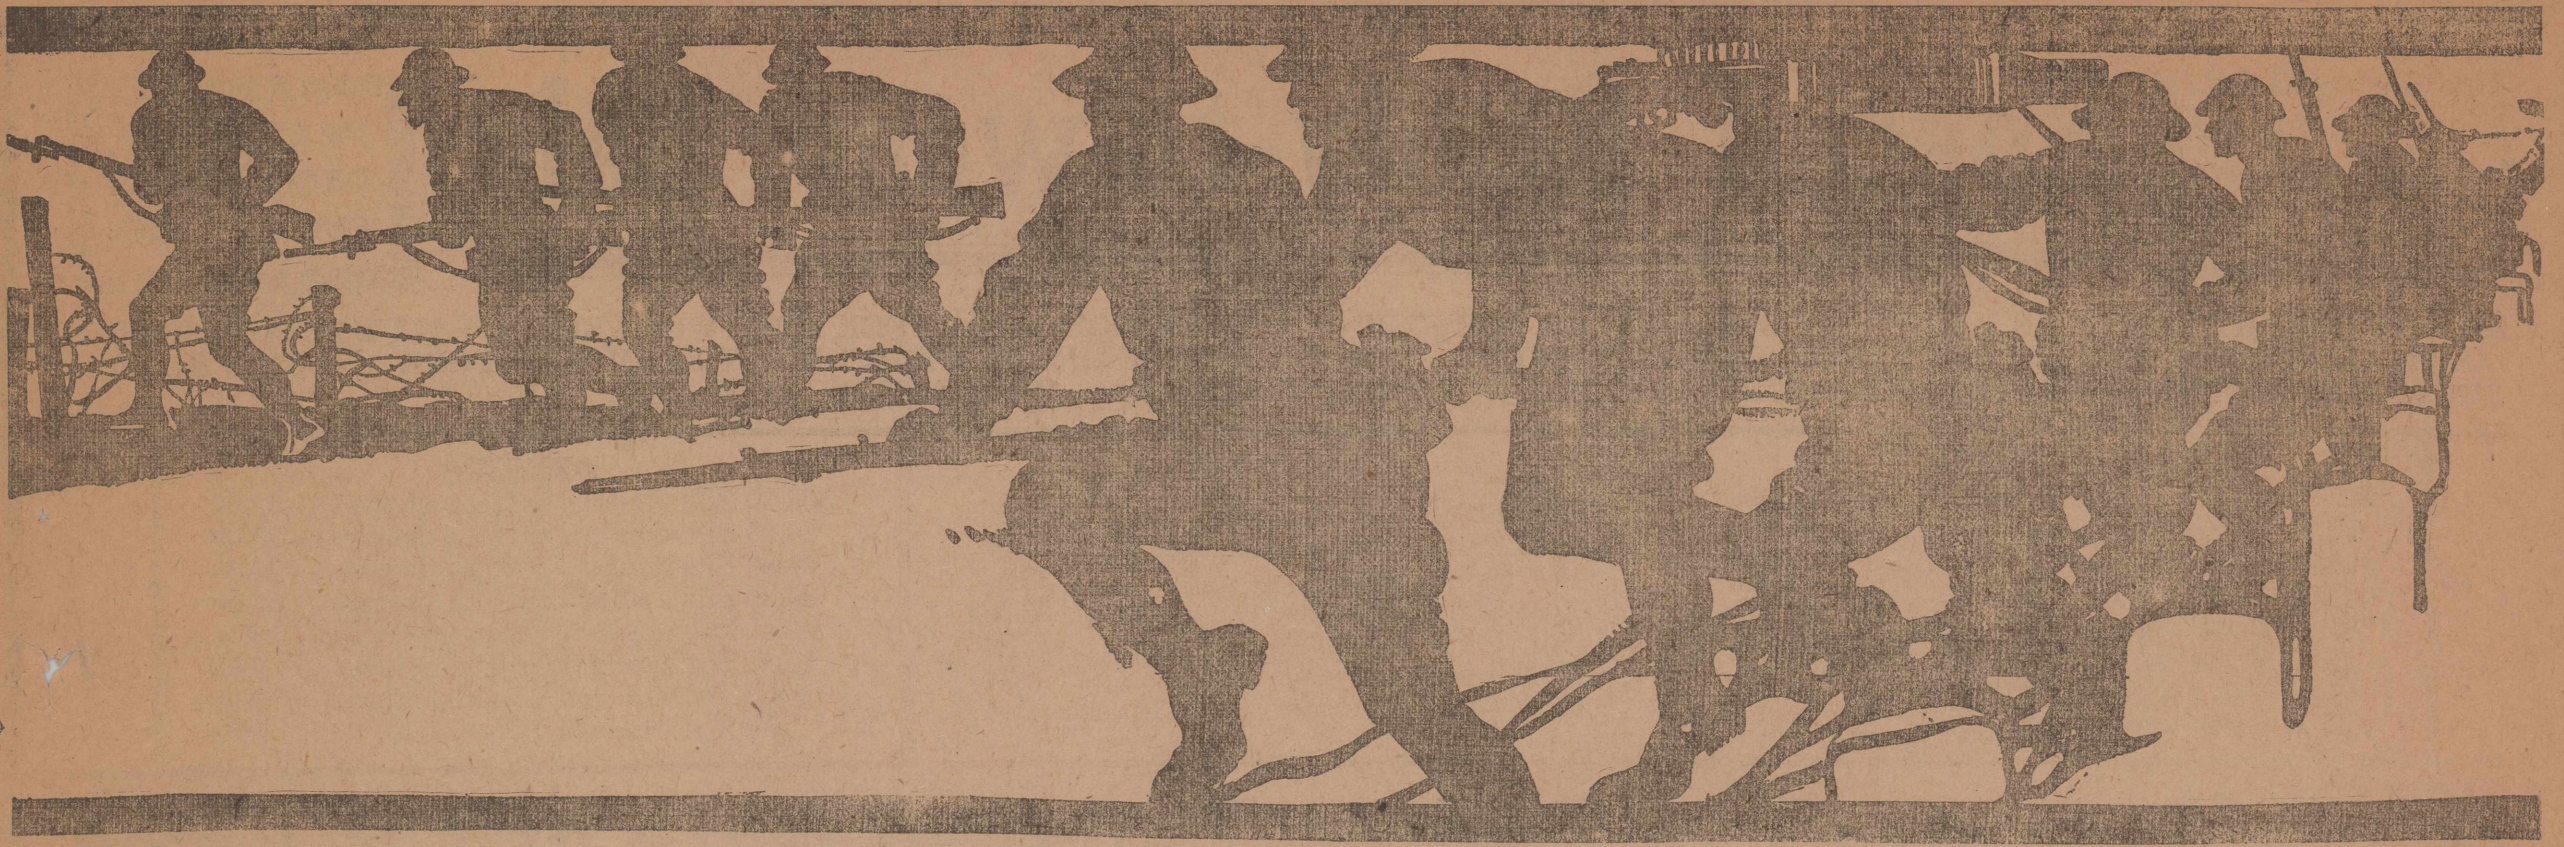

LOOK! LOOK! LISTEN!

Commencing Monday, the 15th, I will be forced to sell for CASH, as I have to pay my hands every week and other obligations to meet almost every day. All who are owing us will please call and pay or make satisfactory arrangements at once.

I will ask all my customers to please come and get their Sunday supplies on Saturday, as we close the garage on Sunday. We will be glad to have your trade and will try to treat you right. Come and get our prices.

We handle the Kokomo Casing guaranteed for 5000 miles against flaw or defect. We also have Ford supplies and a Ford foot feed that is guaranteed to give satisfaction or bring it back and get your money. We handle the largest assortment of Springs in town. We will charge your batteries, vulcanize casings and inner tubes; we will put on upholsterings and slip-on tops on your car. Come and get our prices.

Will You **HELP** Bring Back The Boys of This Community?

OUR BOYS, THE BOYS FROM THIS TOWN AND THIS COUNTY AND THIS STATE ARE FIGHTING THE HUNS. THEY ARE IN THE TRENCHES IN FRANCE, THEY ARE SAILING THE U-BOAT INFESTED SEAS, THEY ARE GOING "OVER THE TOP" IN THE FACE OF GERMAN CANNON AND MACHINE GUN FIRE.

MANY, MANY MORE OF OUR BOYS ARE NOW TRAINING AND WILL SOON BE IN FRANCE, AND MORE ARE YET TO BE CALLED.

AND, REMEMBER, THESE ARE OUR BOYS; THOSE WHO ARE NEAR AND DEAR TO US. THEY ARE DOING THEIR ALL. THEY ARE GIVING THEIR ALL. THEY ARE PREPARED TO MAKE THE EXTREME SACRIFICE THAT OUR HOMES, OUR TOWN, OUR NATION MAY ESCAPE THE RAVAGES OF THE HUN.

WE WANT THEM—ONE AND ALL—TO COME BACK TO US

Will You Help to Bring Them **BACK**?

WILL YOU HELP TO PROVIDE THEM WITH THE THINGS THEY NEED, WITH CLOTHES AND FOOD AND MUNITIONS, THAT THEY MAY COMPLETE AS QUICKLY AS POSSIBLE THE TERRIBLE TASK ASSIGNED THEM?

WILL YOU SUPPORT THE BOYS WHILE THEY ARE FIGHTING FOR US, FIGHTING THE GERMAN AUTOCRACY THAT SEEKS TO DESTROY OUR IDEALS OF LIBERTY AND JUSTICE?

COMPARED TO THEIR HEROIC SACRIFICE OUR PART IS BUT SMALL—THAT OF PROVIDING THE FUNDS TO KEEP THEM EQUIPPED; TO BUILD AND MAN THE SHIPS THAT WILL TRANSPORT THEIR FOOD, THEIR CLOTHES, THEIR GUNS AND THEIR AMMUNITION, AND TO PAY FOR THESE THINGS.

YES, WE, THE PEOPLE OF THIS COMMUNITY, WILL SUPPORT OUR BOYS.

We will do it by buying bonds of the Third Liberty Loan; by buying all these bonds we can; by making such sacrifices as are necessary to do this.

That will be our support for Our Boys.

The Wellington Leader

By The Leader Printing Company

PUBLISHED FRIDAY MORNING OF EACH WEEK

Entered as second class matter August 25, 1909, at the post office at Wellington, Texas, under the Act of Congress of March 3, 1879.

J. CLAUDE WELLS, Editor and Manager.

This paper has enlisted with the Government in the cause of America for the period of the war.

Getting time to clean up the town "up."

—wss—

Have you bought your share of Liberty Bonds?

—wss—

If you can't fight in the army, fight here at home with the weapons at hand—Liberty Bonds, W. S. S., Red Cross, feed and food.

—wss—

Are you running on the new time or are you using slacker time? Run that clock up and be with your government and with your fellow man.

—wss—

From the many favorable comments made by newspapers over the district Hon. R. L. Templeton stands a mighty fine show of being elected to the office of State Senator. He is worthy and capable and no mistake will be made in electing him.

—wss—

The Leader wishes to commend the good work that has been done lately by the county officials in cleaning up the town, morally speaking. They have the backbone to enforce the laws and the wrongdoers had better watch a "leetle out."

—wss—

Next to service to our country, there can be no more patriotic duty than to serve our city. The place in which we live and do business has a claim subordinate only to that of the nation and family. What our city is and will be is at the command of the men and women who live in it. Let's clean up the town and make it a decent place in which to live.

—wss—

The flower of our youth is dying on the battlefields of Europe to save civilization. Our gallant soldiers are shedding their blood to protect us. What are we doing to prevent our people from becoming slaves? Are we buying thrift stamps and Liberty Bonds? Are we using all of our strength and all available capital to grow large crops of food? Shame on the man or woman who fails to do his or her duty this hour of peril.

—wss—

The right kind of citizens will consider it a privilege to make small sacrifices for the men who are going through the hell of fire for them. Surely such a small thing as buying a Liberty Bond is a small sacri-

fice indeed considering the many who are giving up their lives. A Liberty Bond is an investment, not a sacrifice. It is secured by the strongest nation in the world and draws interest. Surely it is no sacrifice to make. Don't let Collingsworth county come up again ranked as a slacker. Make yourself a committee of one to buy all you can and get your neighbors to buy.

—wss—

Contrary to the predictions of some people that only the "short-haired" women would vote if given the ballot, The Independent is gratified to note that the best women of Clay county are taking an interest in the matter of using the right of suffrage in the primaries, which has been given them, and large numbers of the leaders and workers in the peculiar activities of women for the uplift of their communities will promptly register when the registration books are opened, and will vote, intelligently, their sentiments. Whatever her sentiments on the subject of "votes for women," every woman should vote.—Henrietta Independent.

—wss—

Another way the people of this county can show their patriotism is by not using any wheat flour until the next harvest. How many are there in this county who are willing to make their stomachs get along on corn bread or other substitutes for two months? In France the women and children are following the American soldiers for days at a time in order to get the grains of corn dropped from horse troughs, and eat the grains raw, so near to starvation are they. Every pound of wheat flour you refrain from eating releases that many pounds of wheat from the mills to be sent across to the soldiers and the allies. Put yourself in the place of the people over there. Wouldn't you feel like the people of America, surrounded by plenty of substitutes, ought to let you have their wheat flour as that is all the kind that can be shipped across the water? Sacrifice! We do not know what the word means.

—wss—

Here is a subject that we have felt just a little delicacy in mentioning, but here goes for all that it is worth. Many school children are not able to wear silks and satins to school while their playmates or deskmates deck themselves out in the finest that can be bought. It is humiliating to those who cannot afford such dresses. In these war times it should be the earnest desire of parents to dress their children nicely and comfortably, but they should draw the line at the fine flimsy stuff that looks but is not serviceable. The school board could not do a wiser and better thing than to pass a rule against flashy dressing on the part of the pupils. The way some of them go bedecked and painted like an Easter hat just out of a bandbox along the streets to and from school causes us to wonder if some mothers of today have lost all sense of their obligations and duties to their children and regard for their less fortunate neighbors' children. Then, too, we are confident that some of those fine dress-

es have not been paid for and not likely to be for months to come. Common sense in dress as well as common sense in action is the watchword these days. A patch on one's pants or a calico or gingham dress should now be considered as a badge of honor.

—wss—

Buy Liberty Bonds

The blood of the American boys is now being spilled in France. Why? For the safety of we who stay at home. The boys, by their actions, are saying that "The Huns shall not pass." Do we fully appreciate what they are doing for us? The Kaiser will be licked, but not until the blood of American boys, and some from this county, shall have run in rivers. If we appreciate their sacrifice, if we have a drop of red blood in our bodies, if we believe in humanity and liberty, we will buy Liberty Bonds. We will do our dead level best. We will dig up the last dollar in our pockets and lend it to Uncle Sam.

None of us have given to the hurting point yet. None of us have made any great sacrifice yet. The quicker we do so, the quicker the war will be over. We must finance the American army and the allies. It is time for us to act. Our men in France will fight fast and furious and the destruction to the enemy will be great and appalling, if we, the reserve army at home, will do our part—that of financing the war. We must not fail them. We must keep them equipped with the necessary food, clothing, ammunition. We must keep these necessities backing them up. Will we do what it is our duty to do? Collingsworth county must do her part. Subscribe for every Liberty Bond you can. Finance the war and raise food and feed. Otherwise, we are slackers.

Our Flag!

Did you ever stop to think how great a master of heraldry nature is, and how she sets the signs and emblems of human thought over earth, sky and sea all untrammelled by limitations of color or of space?

Have you not, now and then, watched the rosy clouds of a sunset sky as they streamed across the horizon in alternate bands of flame and white, and have you not felt in them as you looked a symbolism mystical and baffling. And have you not sometimes then of a sudden seen a strange wide rending of the fleecy mass by some sky-blowing wind, and then through the monster rift beheld a great patch of heavenly azure set thick with silver stars?

Old Glory—was it not—blazoned in beauty across the western heavens for all the world to see!

The flag flies now, in actual presence, over the mightiest republic and needs no longer the seers of dreams and visions to find it in the skies. It is supremely youthful, vivid, tangible, and vibrant with eagerness and action and by right of its age-old and mystic kinship, it floats high in the free winds of heaven. It is further hallowed, too, in that we of the South, watching it now and then through tears, see blended with its streaming bands, like a haunting vision of great things unfulfilled, the diagonal bars of a ghostly blue cross blood-set and starred with heroic memories.

It is our flag—God make us worthy of it!—Anne Rankin, in July Southern Woman.

BUY A LIBERTY BOND

Save The Nickels!

The Dollars will take care of themselves

That's just plain, everyday common sense, some people would say "ole hoss sense." That's the way we do. When we need a sack of onions, or a car of groceries we buy just as cheap as we can, quality considered. Of course service and friendship plays an important part. Prices and quality being the same we favor our friends with the business.

Now if you buy your groceries on a similar plan to this we want you to know that we are friends to everybody in Wellington and we think you will find our prices and service as good, taken as a whole, as anybody's.

Talk this matter over at home and call on us and see if our goods, and prices and service don't please you.
WE INVITE YOUR PATRONAGE.

Mrs. Wright and two children of Wellington, spent Wednesday night and Thursday with her mother, Mrs. Berryman, enroute home from a two week's visit at Denison, Texas.—Hollis Post-Herald.

J. M. Shields is showing some splendid automobiles these days—the Case. The writer was treated to a ride in one last Saturday. Mr. Shields is agent for this good car.

Atty. Harney of Sherman was here a few days last week transacting business. He was splendid help to the Liberty Loan campaign in the county last week; made a fine speech at Aberdeen last Thursday night.

L. H. Aikman and daughter of Happy, Texas, came in last Saturday to visit old friends and acquaintances a few days. They formerly resided here and their many friends were glad to meet them again.

Judge R. H. Coker, Jr., of Wellington, was in Childress this morning enroute to Vernon. Judge Coker says that he is receiving word from all over the district stating that he will receive strong support in his candidacy for district judge.—Childress Index.

W. L. Jones had his name added to the Leader's fast growing list Thursday of last week. Something like one hundred new subscribers have been added since the price of the Leader advanced to \$1.50. Three dropped out but two of them came back.

Just received a large shipment of Milan's in all the new shapes. Also a large assortment of the new chiffon and transparent hats for midsummer. Come in and make your selection while the stock is complete.—The Greene Shop. 37-1

Lee Leach of Alvord, formerly a resident of this county, arrived Saturday for a visit with his brother, J. A. Leach. He reports that both his sons are in the service of the United States; one as a physician and the other as a dentist.

Chas. Boles and sons went last week to Healdton, Okla., after his brother, J. L., who has been sick for quite a while. J. L. will visit him here a few weeks. Twigg Brooks went as far as Lawton with them to visit his brother, Gentry, who was recently transferred from Camp Travis to Camp Doniphan.

The Amarillo Daily News says: "Miss Lura McDaniel of this city received a message Tuesday, relayed from Pasadena, Calif., stating that Captain Fred J. Boling, with Pershing's army in France, was killed in battle there March 31, 1918." Miss McDaniel formerly lived in Wellington and this item may be of interest to our readers.

SIX OPERATIONS AT THE SANITARIUM THIS WEEK

The following operations were performed at the local sanitarium since last issue:

Miss Lee of Lillie, appendicitis and complications.

Mrs. Tom Parker, appendicitis and complications.

Mrs. J. C. Land of Lillie, appendicitis.

Mrs. Sap of Hollis, adhesions.

Mrs. George Course, of this city, appendicitis.

Stansell Clement, appendicitis.

Hon. R. L. Templeton is a candidate for the State Senate to succeed Senator W. A. Johnson, who is running for Lieutenant Governor. Judge Templeton is a splendid man, an able lawyer, and would make the district a splendid Representative in the upper branch of the Legislature. He is serving his third term as representative and has been a very useful man to his district and the State at large.—Lockney Beacon.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

CARDUI

The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

be prostrated; nothing could thrive." It is the business of every business and business man in the United States to see that the Liberty Loan does not fail. They should buy Liberty Bonds; they should encourage and assist others to buy them. No business in the United States is going to succeed if the Liberty Loan fails—if the Nation fails.

It is better business to buy Liberty Bonds than to pay indemnities to a victorious Germany; it is better business to win this war than to have our foreign commerce subject to the dictation of the Potsdam Government.

The welfare, the success, the prosperity, the liberty, and the happiness of every true American is bound up in the Nation's success. We are not fighting alone for material interest, for annexations or indemnities. We are fighting for freedom and justice and humanity and civilization. But we are also fighting for the maintenance of our commercial rights, for the rights of our citizens to pursue their lawful journeys on the seas and transport their commerce to foreign markets.

It is patriotic, and a duty, to buy Liberty Bonds. It is also good business to do it.

W S S HAVE YOU HEARD IT?

Have you heard that: The socks you knit for the Red Cross are sent to France, raveled and made into something useful?

The sweater that you knitted for your soldier boy friend did not reach him, but was seen on an officer?

The men do not receive the packages sent them?

The United States is completing only one airplane each day?

The men in the Army black the officers' boots and mend their socks?

The soldiers who are ill in the cantonments do not receive proper medical attention?

The men do not get enough to eat?

Many transports have been sunk and thousands of lives lost that we have heard nothing about?

If you have, you have been listening to a pro-German liar.—Memphis (Tenn.) News-Scimitar.

WHEAT NOW STORED COULD BE MADE TO OFFSET GRAIN GAINED BY GERMANY

Germany has now access to Ukraine, the granary of Europe. She has not acquired complete control of Ukraine, nor can she count on a 1918 crop, because of famine and disorder in that land; but in 1919, with her faculty of making subservient nations do her bidding, she can secure wheat enough to continue a gigantic offensive; and the only thing that can offset that offensive to any great degree is the releasing by farmers in North Texas of 500,000 bushels of wheat and placing it at the disposition of the Nation at once.

Thos. L. Bradford, District Administrator for the First District, recently unearthed 100,000 bushels of wheat in three counties of the Dallas district which farmers were holding. When it was explained to these farmers that holding of wheat when the very need of it on the western front in Europe would be as determining a factor in withstanding the Hindenburg Drive, and all the subsequent drives of the most powerful army that the world has ever seen—THEY TOOK THE GRAIN FROM ITS STOREHOUSES AND MADE IT AVAILABLE for the people of Texas, who in turn had sent their own wheat for home consumption to the steamers with empty holds waiting in American ports to carry relief to the Allies.

Ukraine comprises one-sixth of European Russia in area, but contains 32 per cent of all farm lands. Of this total area 53 per cent is farmed. This is a higher percentage than any other European country with the exception of France, where 56 per cent of the total area is cultivated. The production of wheat, rye and barley in Ukraine was between 600,000,000 and 700,000,000 bushels per year, or one-third of the entire production of Russia.

Will we let GERMANY gain the enormous wheat supply to boost her own strength and let Texas wheat remain hoarded on farms when the holding back is seeping the strength and vigor of army, navy and nation; and the army, navy and peoples of the nations associated with us in war?
