Workers' Guards In Budapest

Hungary's new Communist workers' guards march through Budapest heading for the huge plinth from which rebels toppled the statue of Stalin last fall. The guards have been organized to prevent strikes and to keep unruly workers in line. They are dressed in blue denim work clothes with a Navy blue cap and red armbands. They carry machine guns and rifles.

Post Office Economy Measures Now Becoming Effective Here

Special bulletin from the postmaster general outlining emergency operations which will be made operative by post offices in an effort to reduce expenses has been received by Elmer Boatler, postmaster.

"Apparently," said Boatler, "the postmaster general must mean what he says. Unless something happens quickly, it seems that most of these cuts which he outlines will have to be put in effect here and elsewhere."

First whack as outlined in the bulletin became effective on Saturday, Boatler said. This is a blunt order for the post offices not to purchase any special equipment, "time saving" machinery or other supplies.

Effective on April 13 — Unless something develops to change the picture — all post offices of first and second class will be closed down on Saturdays and Sundays and no city nor rural mail deliveries will be made.

On April 15, all windows in post offices which are now operating here for an average of around 10 hours per day will be restricted to 8½ hours.

On April 29, sale of postal money orders will be brought to a stop in all post offices. Boatler said that the bulletin stated that additional information on this drastic phase of the economy program would be provided. Boatler observed that this will be the first time in his long experience with the post office when postal money orders were not to be sold.

Also on April 29, all third class mail with the exception of a few medicines, will be embargoed. This means that this class of mail will not be accepted for transmission by post offices.

In connection with the Saturday-Sunday curtailment of operations the order specifies that non-preferential mail of third and fourth class which arrives on weekends will be delivered within five days. Distribution of first class mail and daily newspapers on weekends will be provided, except on carrier routes, but every possible reduction in operations must be maintained.

Commenting on the postal money order stoppage, Boatler said that from the period March 9-April 5, the Big Spring post office issued $107,666.80 in money orders with fees of $1,006.36 to the local office. In the same period, money orders to foreign countries totaled $247.90 and the post office collected $5 in fees.

Records show, Boatler said, that the postal money order plan was first put in operation in this country in 1864. It has expanded and grown through the years until now money orders from a post office can be sent to all countries of the world. Locally, business in this department has a gross of from $100,000 to as much as $150,000 a month.

"As far as my records show," said Boatler, "never since 1864 has the postal money order operations of the post office been halted."

Figures In Postal Fight In Deadlock

WASHINGTON (AP) — Postmaster General Summerfield and Rep. Cannon (D-Mo) showed no signs of budging today in their dispute over Summerfield's demand for more money.

Summerfield says he must have an extra 47 million dollars to maintain full mail service until June 30. Cannon says the postal service has been spending too fast.

However, members of Cannon's Appropriations Committee predicted that group probably would vote enough additional money to prevent sharp cuts in mail deliveries, already ordered to go into effect next Saturday.

Cannon repeated his statement that Summerfield's move to reduce service is an "unadulterated bluff." But Summerfield, interviewed on television and radio, said he isn't bluffing. He noted that his cutback order already is in the hands of postmasters throughout the nation.

He also said he was undaunted by a trade association's threat of legal action to halt an embargo of third-class mail, consisting of small merchandise and advertising matter, effective April 29. He said he would "resist the suit because we do not think they are on sound ground."

The Associated Third Class Mail Users, which threatened Saturday to seek a restraining order, said, "It is our firm conviction that the postmaster general has no legal authority to refuse to handle any category of mail."

Chessman Gains Another Hearing

WASHINGTON (AP) — The Supreme Court today granted a hearing of Caryl Chessman, Los Angeles sex terrorist who has fought for almost nine years to escape execution.

Convicted May 22, 1948, as a "lover's lane" rapist, Chessman has held off death in San Quentin's gas chamber by a series of varied legal moves in state and federal courts.

Eight times previously the Supreme Court rejected pleas by Chessman for a new trial. On Oct. 17, 1955, the high tribunal did direct that he be given a hearing in federal court in California on a petition for a writ of habeas corpus.

Legion Convention Set For Big Spring

PLAINVIEW (SC) — Raymond Andrews of Big Spring was elected 19th district commander of the American Legion here Sunday, and Legionnaires voted to hold their district fall convention in Big Spring.

The Big Spring Legion auxiliary won the district membership trophy and a citation for the greatest increase in membership. The auxiliary of the Coahoma post won three trophies — for the best unit report and for the greatest increase in membership of any unit of fewer than 50 members. The Big Spring auxiliary won the award for the largest membership in the district.

Andrews has been active in the American Legion and Junior Chamber of Commerce for several years and has held a number of local and regional offices in the two organizations. He is employed by Cosden Petroleum Corporation.

The new commander will be installed at the state Legion convention in Houston in August. He will determine the dates for the fall meeting which will be attended by some 150 West Texas Legionnaires.

Mrs. Hilton Lambert of Snyder was chosen as district auxiliary president.

Mrs. Foy Dunlap accepted the trophies won by the Big Spring auxiliary at the convention, and Mrs. R. D. Cramer received those won by the Coahoma unit.

Lunch On The U.N.

This Arab mother, a displaced Palestinian, spoons food for her child in a hospital at the Jabalia refugee camp in Gaza. Food was from supplies provided by the United Nations officials. U.N. troops guard the border with Israel which has been the scene of many Egyptian-Israeli fights.

Texas Blizzard Stymied; Fair Weather Seen

By The Associated Press

Bitter cold sliced deep into Texas Monday, but a predicted spring blizzard didn't make it.

The Weather Bureau said light snow fell in the Panhandle Sunday night and early Monday, but quit before dawn.

Fair weather was forecast in the Panhandle and West Texas.

Cold wave warnings were issued for North Central Texas, the northern part of East Texas and and the northwest part of South Central Texas.

Morning temperatures ranged from 20 degrees at Dalhart and 25 at Amarillo up to Brownsville's 74. Lubbock had 29, Abilene and Wichita Falls 38, Dallas 52, Lufkin 53, Houston 62 and Corpus Christi 66.

A dust storm hit Live Oak and Karnes counties in South Texas. Farm experts said "very serious" harm was done to corn cotton and broom corn. The dust, borne on winds up to 35 miles and hour, reduced visibility to one-half mile.

Winds up to 41 miles an hour that raked the Dallas area Sunday and Monday were expected to subside during the day.

Snow, rain, high winds and dust hit the Panhandle Sunday night. Snow and drizzle fell at Amarillo and Dalhart. Light snow flurries fell at Vega.

None of the points reported moisture to the Weather Bureau, however, for the 12 hours ending at midnight. The dust had settled early Monday and skies were clear at Abilene and Amarillo.

Lufkin had .01 of an inch of rain and Brownsville, Houston, Childress and Sherman reported a trace in the 12 hours ending at midnight.

A few thunderstorms were forecast for the coast of East Texas. Lows of 20 to 30 degrees were predicted in the Panhandle, with the freeze line expected to slice deep into South Texas.

Earlier, the Weather Bureau at Kansas City said moderate to locally heavy snows and high winds were expected in Kansas, parts of Oklahoma and the Texas Panhandle.

The front which boomed the cold into Texas drove out a tornado alert. The alert area covered much of Northwest Texas, but it ended at midnight.

The front was between San Antonio and Corpus Christi early Monday.

Winds up to 60 miles an hour brought dust and zero visibility to Lamesa Sunday night. All city power was off for about 15 minutes.

The rolling dust clouds hit Midland, Salt Flat and El Paso. Visibility of one mile was reported from Big Spring westward to El Paso.

Freeze Due In City Tonight

Weather forecast for Big Spring and vicinity for tonight calls for freezing weather—a low of 28 degrees being anticipated.

Last night, the temperature dropped below freezing with a reading of 31 degrees. However, it is not believed that any damage resulted from the cold to fruits and shrubs.

Whether the 28-degree weather on tap for tonight — if it develops — will do any harm is still to be determined.

Chill of last night came on the heels of one of the hottest days of the spring. Temperature climbed to 88 degrees during Sunday. The drop Monday morning to 31 marked a 57 degree variation in weather conditions.

Sunday was classified by most residents as one of the most unpleasant days of the season. Starting around noon, roaring winds swept into the area and brought in clouds of sand. The drifting dust and the winds prevailed on late into the night.

Chilliness still ruled up to noon and the weatherman said that the high for Monday would not go above 50 degrees. He promised a slightly warmer Tuesday with a high of 60.

Severe Winds Batter Lamesa

LAMESA — Winds which reached gust speed of 60 miles per hour swept into Lamesa, loaded with dust, at 7:15 p. m. Sunday and caused considerable property damage.

A house being built in the 300 block on North First was unroofed and the roof was hurled a block away to crash into the house of Weldon Lindsey causing extensive damage.

Numerous television antennae were wrecked.

Power failed and all of the town was in darkness for 45 minutes and in some parts of Lamesa service was not restored until 9 a. m. today.

Visibility was zero at times during the dust storm.

Commissioners, Farm Unit Lashed

Midland Solon Cites 'Lobbyists'

AUSTIN (AP)—Texas county commissioners and the Texas Farm Bureau came under attack today in the Legislature as the 55th session began what could be its last lap toward adjournment.

Rep. Louis Anderson of Midland called the two groups "dangerous lobbyists" not adequately controlled. He made the charge in a speech in the House, protesting their opposition to his plan to redistrict county commissioner precincts.

Rep. W. A. Stroman of San Angelo defended the Farm Bureau and commissioners. He said they had a right to oppose the redistricting plan, and if county money was spent doing so, it was well spent.

Also in the House, Rep. O. H. Schram of Taylor introduced a substitute universal fishing license bill that he hopes will get around a rule blocking his earlier measure. It had been barred from immediate consideration because it had an appropriation clause The rules say such bills cannot be considered until the general spending bill is passed. The new one has no appropriation angle.

Sen. Dorsey Hardeman introduced a bill to prevent "further encroachment" on the Capitol grounds through the erection of buildings and parking lots on any ground surrounding the Capitol as of Jan. 1, 1955. The bill would make such construction unlawful for any officer or employe of the state.

The House debated a bill to give the Highway Department power to construct controlled access roads for freeways under the 1956 Federal Aid Highway Act. It also would give the department more power in the condemnation of land for the construction of all highways.

Rep. Malcolm McGregor of El Paso, the highway bill's sponsor, said under present condemnation land law the Highway Department has to pay for land it does not need.

A grand jury apparently has taken over the mop-up job for the House Bribery Investigating Committee.

The House ICT Insurance Co. probers have finished their work. The Senate ICT Committee reports Wednesday.. and may have another public session or two between now and then.

With calendars in both houses stacked and many major measures in committee, the outlook was for a last-minute rush to get bills out of committee and a scarmble for floor consideration. Both morning and afternoon sessions for debate, and a longer work week, were likely.

The House held its first Friday meeting, last week and disposed of a long list of local bills.

A conference committee was expected to start reconciling versions of the two billion dollar-plus spending bill.

Final action on this is a necessary prelude to adjournment. It provides money for all state services.

U. S., Louisiana Square Off For Offshore Battle

WASHINGTON (AP) — Attorneys for Louisiana and the United States squared off before the Supreme Court today for another round in a dispute over whether the state or federal government owns the bulk of the oil-rich submerged lands offshore in the Gulf of Mexico.

The court allowed three hours for arguments during the afternoon.

At stake is the right to collect millions of dollars from oil companies in lease payments and oil royalties. Many millions already have been impounded awaiting a final determination in the case.

Federal attorneys have asked the court for a final ruling that the U.S. owns all of the offshore lands beyond three miles from the shore.

The state is asking the right to take depositions and present documentary evidence supporting its claim that historically it has owned and controlled a wide area of the submerged lands.

The government thus far has won the big rounds in the dispute which has been pending many years.

In 1950 the court ruled that the federal government, not the state, has paramount rights to the submerged lands.

In 1953 Congress enacted legislation giving states title to the offshore lands out to the limits of their historic boundaries—three miles in most cases. The federal government was given jurisdiction over the lands beyond, extending 150 to 200 miles to the edge of the continental shelf.

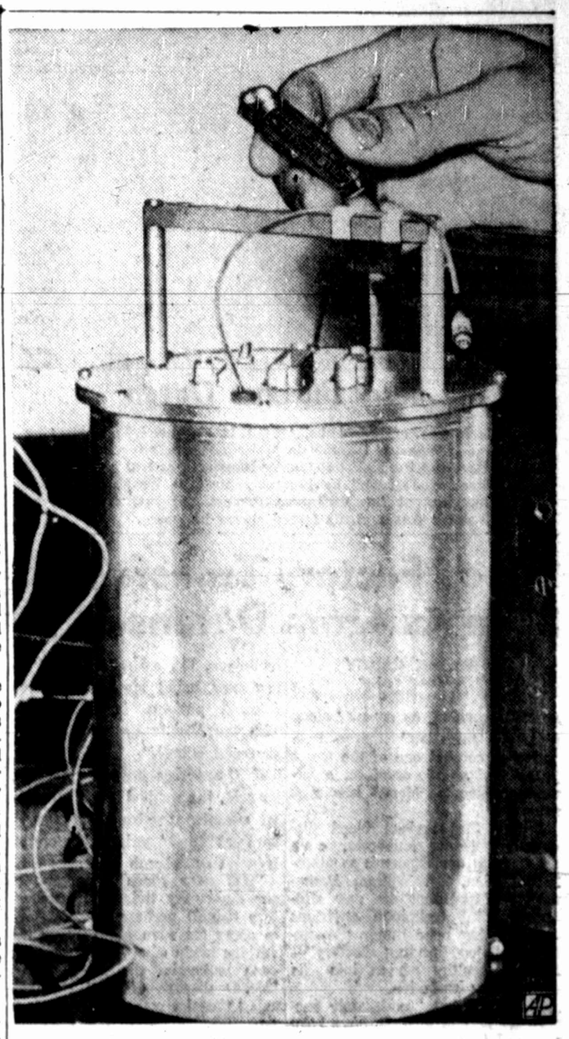

The government promptly asserted its claim to the lands beyond the three-mile mark off the Louisiana shore.

Louisiana resisted and claimed, under various contentions, 10 miles, 100 miles and clear out to the edge of the continental shelf.

Louisiana's first contention is that its boundaries are co-extensive with those of the federal government and if the federal boundary is the outer edge of the continental shelf, so is Louisiana's and consequently the state owns the entire belt.

Another claim is that the state's boundary is the 27th parallel, some 100 miles offshore.

In his brief, Louisiana Atty. Gen. Jack Gremillion emphasized a third contention, namely that Louisiana's historic boundary is three leagues—about 10 miles. Under the act of 1953, he contends Louisiana was given title to this area. He also said the three league claims of Texas and Florida have been recognized and Louisiana is entitled to equal treatment.

Space Messenger

This cylinder of aluminum packed with electronic devices is the "satellite package," the heart of the system to be contained in outer space probing devices of the International Geophysical Year. This cylinder will be fired in an Aerobee-Hi rocket from the Navy tower at White Sands, N.M., April 9, and others like it will be inside the space satellites which it is hoped will girdle the earth 18,000 miles an hour in "Project Vanguard." The most precious bit of contrivance on earth, this tiny cylinder represents the efforts of thousands of men and the investment of millions of dollars. Military men and scientists believe it may be the most important key in unlocking the secrets of the outer universe, and the greatest forward step ever made in national defense.

Escaped Con Heads For Houston To Kill Wife, 2 Girls

HOUSTON (AP)—An escaped Tennessee convict was reported headed for Houston today to attempt to make good his threat to kill his former wife and her two teenaged daughters.

The convict, Donald Stinson, 32, escaped April 3 from the state prison at Memphis, where he was serving life for robbery and shooting a policeman.

Police said Stinson has threatened to come to Houston and kill his former wife and her daughters should he ever escape. Authorities in Tennessee described him as "extremely dangerous and probably armed."

Friends and relatives of the woman and her children told police they have hidden the family. A statewide pickup has been ordered.

Lamesan To Head Disabled Veterans

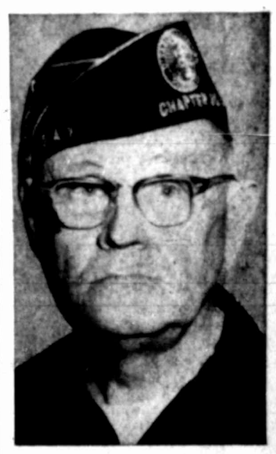

A Lamesa man, R. L. Price, was elected commander of Disabled American Veterans, Region I, at the group's spring convention here Sunday.

Price will succeed Randolph Greene of Lubbock during installation ceremonies scheduled for the state DAV convention in Corpus Christi June 28-30.

The new commander is Dawson County veterans service officer, and for the past year has served as regional vice commander for the DAV.

The West Texas DAV representatives also adopted a resolution calling on state and national DAV organizations to work to have veterans benefits extended to some 10,000 women who served in the former Women's Army Auxiliary Corps, but who never were members of the WAAC's successor, the Women's Army Corps.

Technically, it was explained by Frank Delaney of Lamesa, the WAAC members can't qualify for veterans benefits because they never were members of the armed forces — only the auxiliary unit.

R. L. PRICE

Some 60 delegates heard a talk by Joe Ramsey, Houston, state DAV commander, at the banquet closing the convention at noon yesterday. Ramsey reported on DAV activities in the fields of legislation, rehabilitation and veteran employment, and also discussed the organization's growing membership.

Other regional officers elected were Greely Aston of Big Spring, vice commander; Leonard Miller, Midland, chaplain; Brooks Thomas, El Paso, judge advocate; Randolph Greene, Lubbock, executive committeeman; Buck Salser, Lamesa, alternate; and Carl Smith, Amarillo, finance committeeman.

Regional auxiliary officers named were Mrs. Birdie Madewell, El Paso, commander; Faye Horton, Big Spring, senior vice commander; Velda Smith, Amarillo, junior vice commander; Laura Jarrell, San Angelo, chaplain; and Louise Rapisand, El Paso, adjutant.

It was decided that the fall convention of the group will be held in Midland, but no dates were set.

As a sidelight to the convention here, the Borderland Auxiliary Unit No. 10 of El Paso presented a television receiver for use by patients in the VA Hospital here. Russell Hoover of the VA staff accepted the gift.

Dulles Suggests Foreign Aid 'Bank' For Needy Countries

WASHINGTON (AP)—Secretary of State Dulles today proposed that the United States set up a special foreign aid fund from which needy countries could draw long-term easy-pay loans to develop their economies. He suggested such loans might run 750 million dollars a year.

In testimony to a special Senate committee studying foreign aid, Dulles called also for:

1. Transferring foreign military aid from the State Department appropriations request to the Defense Department bill—a bookkeeping move in line with recommendations of many members of Congress who argue that the public has been confused by lumping all foreign aid into a single appropriations bill.

Since by far the largest funds go to arming friendly allies, these members of Congress have wanted that point emphasized.

2. Continue the International Cooperation Administration as a semiautonomous agency under the State Department to administer nonmilitary aid.

3. Continue the special presidential contingency fund, now 100 million dollars a year, to meet foreign aid emergencies.

4. Emphasize loans in foreign, but continue making outright grants where loans can not do the job.

5. Maintain grant military aid at about the present level, but expect to rearm America's allies with "more modern types of weapons" while cutting back the size of local forces.

Dulles' presentation was the result of months of study. It was based not only on surveys made by the State Department, but also on such inquiries as that conducted by groups headed by steel magnate Benjamin Fairless and movie czar Eric Johnston.

Dulles made it clear that the administration did not anticipate the lending of 750 million dollars for economic development in the coming fiscal year, but he said that "over the future," it "might come to reach 750 million dollars a year."

Dulles did not rule out all outright grants to help underdeveloped nations develop their economies.

He said there will be continuing requirements for grant aid "to meet contingencies and imperative needs which cannot be realistically met by loans."

And he said there will be continuing need for technical assistance programs "now running at about 150 million dollars a year."

Cherry Blossom Queen

Jean Marie Lee, of Fairbanks, Alaska, is embraced by Norwegian Ambassador Wilhelm Munthe de Morgenstierne, after he selected her as Queen of the National Cherry Blossom Festival by a spin of the "Wheel of Fortune" by him at contest in Washington. Miss Lee, a student at the Richmond Professional Institute, will be crowned under Washington's famed cherry blossoms.

'Blood Factory Transfusion' Seen As Atom Defense Aid

By FRANK CAREY
AP Science Reporter

BOSTON (AP) — High hopes and stakes are riding on a new "blood factory transfusion" approach to trying to combat one of the worst hazards of atomic warfare, a nationally known blood specialist says.

Saying that serious blood diseases, including leukemia, can result from overexposure to atomic radiation, Dr. William Dameshek declared that the new still-experimental technique envisions transplanting bone marrow — nature's "blood-building factory"— from a healthy person into one affected by radiation.

Declaring that "moderately successful" results already have been obtained in animals with the new technique, the scientist said, "We are now using similar tests on selected patients in cooperation with the Atomic Energy Commission and others."

If it produces hoped-for results, he said, the method would provide an effective treatment for survivors at the "periphery" of an H-bomb or A-bomb blast.

"But even more important to our day-to-day living," he added, "we (could) perhaps look forward to cures for such ailments as the various kinds of severe anemia or even leukemia, the most deadly (blood) disease of all." He indicated that he was talking here of such blood ailments when caused by reasons other than radiation.

Reuther Calls For Stiff Housecleaning

ATLANTIC CITY, N.J. (AP) — Walter P. Reuther says American labor must clean house with the "stiffest broom and brush and the strongest soap and disinfectant" it can find.

Otherwise, Reuther told the United Auto Workers convention yesterday, "the reactionaries will clean it for us. But they won't use a broom; they'll use an ax, and they'll try to destroy the labor movement in the process."

The UAW chief called on labor to "drive out every crook and gangster and racketeer we can find."

He drew a loud cheer from 2,300 delegates representing 1½ million UAW members by declaring, "All the corruption is not on labor's side."

He charged that "reactionary, corrupt managements would rather pay a bribe to a crooked labor leader than to pay a living wage to the workers represented by that crooked labor leader."

Reuther's re-election as president of the UAW, which he has headed since 1946, apparently was assured by an overwhelming majority in convention voting Wednesday.

A caucus of Reuther supporters, making up most of the delegates, voted unanimously last night to renominate Reuther and his entire administrative staff of elective officials.

The caucus, filling a hall with a 2,000 seating capacity, also pledged Reuther supporters to vote for his key proposals. These include an increase of 50 cents a month in basic union dues of $2.50 and changes in bargaining procedure to permit skilled trades groups to negotiate supplemental contracts within the industrial union's structure.

In a speech, Reuther told the caucus how he had attempted to keep the UAW pure since taking over power 11 years ago.

Reuther, a vice president of the AFL-CIO, said his supporters formed the caucus because they had learned by "hard experience" that if "good people go in a thousand directions then gangsters and the underworld operating as a disciplined minority can take over our type of union."

The "good people," he said, also had to band together to keep the Communists out.

Reuther's keynote speech to the opening session of the convention that will continue through Friday touched on subjects ranging from union jurisdictional disputes to international diplomacy.

The delegates cheered his declaration that "the only adequate defense against the H-bomb is peace, unconditional peace in the world."

Attacking Secretary of State Dulles' foreign policy, Reuther said: "What we need in the world is fewer striped-pants diplomats and more practical diplomats in overalls going around the world talking to people of the world about their basic problems." He declared Dulles "is the major architect of the Middle East crisis."

In arguing that management must share the blame with labor for corruption, Reuther quoted Robert Kennedy of the Senate's rackets investigators' staff as saying, "It is striking to us how little help business has been giving to the committee. Often management would rather have the status quo and make their payoffs."

Reuther said he had this to say to Sen. McClellan's (D-Ark) committee: "We will give you full support and cooperation. Go after the crooks in the labor movement, but go after the crooks in management's side of the problem."

In an attack on Sen. McCarthy (R-Wis), Reuther said McCarthy "knew that he was lying" when he said, "In general that the UAW was so bad that it would make the Teamsters Union smell like high-grade perfume."

"I wasn't surprised," Reuther said "when Joe McCarthy ran interference for Dave Beck (Teamsters president). They have got a great deal in common, because both Joe McCarthy and Dave Beck refused to testify about their personal financial matters before a Senate committee."

GETTING UP NIGHTS
If worried by "Bladder Weakness" (Getting Up Nights or Bed Wetting, too frequent, burning or itching urination) or Strong Smelling, Cloudy Urine, due to common Kidney and Bladder Irritations, try CYSTEX for quick help. 30 years use proves safety for young and old. Clerk Top TV Money Winner

NEW YORK (AP) — Theodore Nadler, a $70-a-week clerk from St. Louis, became the top money winner on a single television quiz show last night when he boosted his total take to $152,000.

Nadler successfully withstood a challenge by Mrs. Lowell Thomas Jr. on the CBS-TV show The $64,000 Challenge. He added another $32,000 to the fortune he first started piling up on the program last August.

Nadler correctly gave:

1. The names of five African countries lying on the Equator — Belgian Congo, French Equatorial Africa, Kenya, Italian Somaliland, Uganda.

2. The names of three South American countries on the Equator — Brazil, Colombia and Ecuador.

3. The names of four Indonesian republic islands larger than 5,000 square miles and lying on the Equator—Sumatra, Borneo, Celebes, Halmahera.

4. Name of the country or island where the Equator crosses each of these four rivers — the Caqueta (Colombia), the Lualaba (Belgian Congo), the Kapuas (Borneo) and the Guiba (Italian Somaliland).

Another big quiz show winner, Charles Van Doren, netted $129,000 on NBC-TV's Twenty-One until eliminated.

Koinonia Chief Denies Red Links

AMERICUS, Ga. (AP)—The president of Koinonia Farm says that members of the troubled biracial community have no connection with the Communist party, are not responsible for any violence, and will remain in southwest Georgia regardless of what happens.

Norman Long, president of the 1,100-acre establishment, said last night in a prepared statement that:

"These are our homes. We shall not leave them. If those who seek to drive us out are so determined that the choice is to leave or die, then we shall have to die."

Koinonia has been the scene of bombings, shootings and burnings in the past few months and is the object of a growing economic boycott.

"Even if we are attacked we will not retaliate," said Long. "We understand the deep differences that divide us from many of our neighbors, but we believe that love and understanding can surmount these differences."

Long denied charges by a Sumter County grand jury last Friday that the white-and-Negro community had "close friends among known Communists" and that the violence might have been perpetrated from the inside to create sympathy and attract financial aid.

"No person at Koinonia has now or has ever had any affiliation with the Communist party," he said.

Long also said, "We emphatically deny participation in this violence . . . They (the grand jury) have produced no positive evidence to implicate anyone at Koinonia in these events."

The grand jury did not return any indictment against any official or resident of the farn. Nor was any prosecution directly proposed.

The farm was established 15 years ago as a religious colony and at present about 45 white and 15 Negro men, women and children work and live there.

Yesterday 23 white Georgia ministers made public a letter stating that "Koinonia farm is a Christian community" and "We pray that God's truth and Christ's redeeming love may be revealed in this present crisis in Sumter County."

"FRIENDLIEST SERVICE IN TOWN"

1957 Crop Season Off To Slow Start

COLLEGE STATION, April 8 (AP) —The Texas Agricultural Extension Service said today that the 1957 crop season is getting off to a slow and unsettled start, but that it can recover easily with favorable field conditions soon.

Weather which has caused wind damage in the far west and south, a blizzard in the Panhandle, showers with intermittent tornadoes in the central and north, and much moisture for East Texas, the Gulf Coast and Rio Grande Valley has held back planting and seed germination.

"No one is complaining about too much rain. In fact, it's the first time in years farmers can say it's too wet to plow," Director G. G. Gibson of the service said. "They are just anxious to get back into their fields and take advantage of the good moisture conditions. They had just as soon the rain would stop now and come again in a few weeks."

Pastures, small grain and legumes in the eastern half of the state are making excellent growth. Small grain is entering the dough stage. Demand for stocker cattle is increasing. Early corn, sorghum, vegetables and rice are up.

In far West Texas, high winds reduced surface moisture and harmed young grass. Ranges still are in a critical condition. Livestock is being fed. Cold and high winds killed some young lambs and kid goats.

The moisture situation in the Panhandle is greatly improved and wheat is making satisfactory progress, but it's late. Much more moisture is needed to replenish subsoil for grass and production. Stockmen will have to continue heavy feeding for 30 to 45 days.

High winds in the Edwards Plateau have sapped moisture, V. G. Young said at San Angelo. Blanco, San Saba and Schleicher counties report moisture very inadequate.

All conditions in North Texas are greatly improved, and for the first time in several years farmers are saying they'll be glad when it's dry enough to plant. Much corn remains to be planted. Farmers are anxious to complete planting their onion crop in the Greenville-Farmersville area.

More moisture is needed in the South Plains. Land is being prepared for cotton and grain sorghum. Wind is sapping moisture and some land will have to be relisted due to blowing soil.

U. S. Protests Quiz Of Envoys

BUDAPEST (AP) — The United States has protested that Red-ruled Hungary violated diplomatic immunity by holding two U.S. military attaches and grilling them more than five hours.

U.S. Charge d'Affaires N. Spencer Barnes filed the protest over the weekend with the Hungarian Foreign Ministry, it was disclosed.

Informed sources gave this account of the incident, which took place last Wednesday.

A Hungarian secret policeman stopped Col. James C. Todd, U.S. military attache from Tulsa, Okla., and his assistant, Capt. Thomas R. Gleason, Urba, Ill., as they drove near Lepseny, about 55 miles southwest of Budapest.

The plainclothesman, joined by four Hungarian army officers, accused the Americans of photographing a Russian-occupied barracks. Gleason denied the charge and gave up a roll of color film reportedly showing family groups and landscapes. The Americans kept the doors of their station wagon locked and talked through a partly opened window.

Soviet troops were sent for and a Russian lieutenant colonel took charge. The Russians acted as interpreters while Hungarians conducted the questioning.

Medical Tests Begin For Eden

BOSTON (AP) — Doctors begin medical examinations today on Sir Anthony Eden, former British prime minister.

He arrived yesterday by plane after cutting short a New Zealand vacation because of failing health.

He was admitted to New England Baptist Hospital.

Lady Eden accompanied her 59-year-old husband on the hurried 11,000-mile air trip.

He was reported resting comfortably at the hospital.

TB Drug Aids Mental Health

By ALTON L. BLAKESLEE
AP Science Reporter

SYRACUSE, N. Y., April 8 (AP)— A drug first developed to battle TB looks promising to help numerous mentally depressed people, including colorless "burned out" personalities, researchers said today.

The drug is iproniazid. It and isoniazid came forth about five years ago as potent antituberculosis drugs. Isoniazid is widely used now against TB; iproniazid less so.

One early effect observed with iproniazid was that it made many patients feel well, happy, with increased appetites. This effect now promises to make it useful in treating mental depressions.

Iproniazid brought improvement in 12 of 17 long-term depressed patients, Drs. Nathan S. Kline, John C. Saunders, and Harry B. Loomer of Rockland State Hospital, Orangeburg, N.Y., told the eastern section of the American Psychiatric Assn.

The patients were generally chronic, colorless personalities of the so-called burned-out psychotic variety, who for years had not shown interest in their surrounding, Dr. Kline said.

They received doses of the drug too small to be curative against TB. In this lift-up action, the drug behaves opposite to tranquilizers which calm down agitated or over-agitated mental patients.

Dr. Kline's group said the drug merits further study for use in this type of mental ailment.

In another report, Dr. Arthur L. Scherbel of the Cleveland Clinic said iproniazid increased appetite, brought weight gains and sense of general well-being in patients with rheumatoid arthritis.

Iproniazid is a prescription drug.

Spanish Arch-Foe Of Protestants, Democracy Is Dead

MADRID (AP) — Pedro Cardinal Segury y Saenz, long a storm center in the Roman Catholic Church and former primate of Spain, died today after a long illness. He was an outspoken foe of democracy, the Franco government and Protestantism.

The 76-year-old Cardinal had been ill with a kidney disorder and circulatory trouble for more than a year. He was brought to a hospital here March 28. Physicians said the immediate cause of death was a collapse of his heart.

His death reduced the College of Cardinals to 59 members. At full strength it has 70.

Cardinal Segura had been a cardinal since 1927 and archbishop of Sevilla since 1937. Because of the severity of his views and sharp differences with Generalissimo Francisco Franco's government, the Vatican had relieved him of his administrative functions in Sevilla two years ago, turning them over to his coadjutor Archbishop Jose Maria Bueno y Monreal.

A stern advocate of absolute monarchy, the prelate's clashes with Franco followed a long series of disputes with the old monarchy and the republic which followed it.

His opposition to Protestantism was equally uncompromising, reaching a climax in a pastoral letter denouncing the 1953 U. S.-Spanish "aid-for-bases" agreement. He charged Spain had sold its religious heritage for dollars and opened the country to a flood of Protestant propagandists.

Humble's

Golden

Esso Extra

GASOLINE

has set a new standard in high octane rating

But a new high in octane rating is just one of the qualities with which Golden Esso Extra sets new standards for other gasolines to follow.

Other essential qualities insure that you get:

Full power from your modern engine . . . maximum gasoline mileage . . . greatest protection against vapor-lock . . . quickest starting and warm-up.

These qualities make Golden Esso Extra the world's finest gasoline.

Some motorists say they notice *immediate improvement* on their first full tank of Golden Esso Extra. Others use Golden Esso Extra because the world's finest gasoline is the *best to use* in modern cars in every price class.

Costs more? A little, but your car repays you by delivering *all the performance you paid for* when you bought it.

Fill up at the new Golden pump under your neighbor's Humble sign.

Makes your car a better automobile

**Humble yourselves therefore under the mighty hand of God, that he may exalt you in due time:
Casting all your care upon him; for he careth for you.
(I Peter 5:6-7)**

Editorial

Destined To Be A Popular Road

We trust there will be proper official expressions of appreciation to the Texas Highway Commission for its action last week in announcing an appropriation of $169,000 for a lateral road that will go right by the Lake J. B. Thomas dam.

The commissioners courts of Scurry and Mitchell counties expressed their appreciation by immediately accepting the conditions of offering cleared right-of-way to the state. As a matter of fact, the road had been opened on a direct route much of the state's own choosing and has been cleared and graded.

Thus, there is no barrier to earliest possible letting of contracts and starting of construction.

This will become a mighty busy and thus important 7.1 mile stretch of paving. Despite wide publicity, people are only now "discovering" Lake J. B. Thomas as a prime recreational sport for this area. Visitors from the southwest, south and southeast will make great use of this direct, all - weather route.

More than most people realize, abundance of oilfield traffic from the Big Spring-Snyder Highway to the reef production areas of southwest Scurry County will traverse the new route.

The road will stand as an example of neighborly coordination by several counties in the area, and of foresight in securing roadway and opening it in the faith that the state would get to the project as soon as practical.

Simple 'Look Out' Will Suffice

Not long ago Russell Brown, state safety education director in Iowa, asserted publicity that hack-seat drivers are "one of our most underrated safety devices."

That set off something of a furor. Letters poured in, and tongues wagged. Men took umbrage, accusing Brown of desertion in the face of feminine pressure. The women were delighted, contending Brown was taking their part.

"I'm afraid too many women took the statement as a license to trap their husbands," the harassed official ruefully confessed. "Some men are giving me hard words. They think I'm some sort of a deserter. And women are congratulating my wife. They think she forced me to make the statement."

So Mr. Brown undertook a slight retreat. He wants it understood that a husband at the wheel is the responsible party in a car. "His job should not be complicated by 'I told you so' remarks from the back seat."

Back - seat driving, he said, should come before a driver makes a mistake — not afterward. He still thinks back-seat advice of a "friendly, positive kind" is valuable.

If most of us male drivers would break down and confess that there have been times when a word of warning from the back-seat occupant has saved us from disaster it might serve to clarify the atmosphere. It isn't a simple "Look out!" that tears so many homes apart. It is the elaboration, the sarcasm, the going into particulars, the dredging up of past misdeeds that gall. When a word of warning is extended into a lecture, whether it comes from the distaff or the masculine side of the house, that's when strains are put on conjugal relations.

Not all back-seat drivers have soprano or alto voices.

Book Of The Month

Around The Rim

Some Language Came From The Farm

Daniel Webster paid homage to the farmer when he wrote:

"When tillage begins, other arts follow. The farmer therefore is the founder of human civilization."

Few of us ever get near a farm but most of us have never left it, in a sense. Consider your daily dialogue. It would be pretty difficult to say anything without depending upon some flowery phrases and words our ancestors doubtlessly picked up while working with the soil.

If you're called a "hayseed," you know that's not very complimentary. The word certainly didn't originate at a convention of English teachers.

You've either heard or used the descriptive phrase, "eating high on the hog." It's usually associated with a person guilty of plush living.

They say English is a colorful language but the manner in which it has been Americanized by the farmer might make a few professors of the tongue wish they have taken up a less complex job, like book-binding or window cleaning.

"Hitting the hay," "turkey neck" and "mule-headed" are terms you'll probably never be taught in school but you, no doubt, learned their meaning before you learned your ABC's.

Chances are you've never slept on anything but an inner-spring mattress but you know "hitting the hay" means [illegible] to bed. "Turkey-neck," of course, [illegible] unflattering term for an individu[illegible]ose head sits a long way off his shoulders.

If you're "mule-headed" and referred to as such, odds are you get downright stubborn denying it.

"Keep your cotton-picking hands off me," is a term that didn't originate with Elvis Presley. It's been a part of the language as long as I can remember.

If you depart the house on a cold night and leave the door open, those you leave behind are apt to say you "were raised in a barn?" If your walk is not very graceful, your critics could say you "walk like you're behind a plow."

A person who seems to see everything might have "eyes like a tree-full of owls." "'Egghead" is a word of recent vintage which can be traced back to the barnyard without too much trouble.

The expressions "frisky as a colt," "pull the wool over one's eyes," and "strong as an ox" must have been popular in Washington's time. And they'll probably be used as long as there is an English language. All were brought to town by the farmer.

"Chicken - hearted" and "chicken-livered" are terms that are popular, if uncomplimentary. Most everyone knows that to "saddle up" means to get ready to go somewhere. If you're 'ham-handed,' chances are people treat you with respect — your hands compare favorably with bacon slabs.

If you hear someone referred to as "peanut - brained," you know he means that individual is dim - witted.

Even baseball slang is spiced with terms which came from the farm. Broadcasters everywhere often refer to a baseball as an "apple," and outfield as an "orchard" and clubs in minor affiliations as "farm" clubs.

So, heed Webster's words. Not only do we owe the farmer a lot for feeding us and putting clothes on our backs, we'd probably all be tongue-tied were it not for the pearls he has added to our language.

— TOMMY HART

Don't Feel Left Out

WASHINGTON (AP) — No need to feel alone if you have the feeling you don't know where your're heading because science is moving so fast in finding new ways to make war.

The British, who have had plenty of their own scientists working on weapons, have just made the astonishing admission they're only now beginning to see through the scientific fog around war in the future.

Some recent events explain what's been happening and what looms ahead.

President Eisenhower at Bermuda promised British Prime Minister Macmillan this country would supply Britain with an intermediate ballistic missile, capable of carrying a nuclear warhead 1,500 miles, when it's ready.

Russia suddenly began warning Britain, West Germany, the Netherlands, Denmark, Norway nd Greece to expect annihilation in case of war if they let the United States build atomic bases — missile bases, no doubt—in their territory.

If this is the American government's plan, the public here doesn't know of it yet. Russia may have been guessing, or have had inside information through espionage, or have been expecting the worst.

But last Thursday Britain startled the world — but hardly the leaders of her allies, who must have known what was coming — by announcing she would not rely mainly on nuclear weapons and cut her traditional military establishment sharply.

It was in a white paper announcing this that the British said:

"It has been clear for some time that . . . scientific advances must fundamentally alter the whole basis of military planning.

"But it is only now that the future picture is becoming sufficiently clear to enable a comprehensive reshaping of policy to be undertaken with any degree of confidence."

There was concern expressed that this move by Britain might encourage other members of the North Atlantic Treaty Organization to reduce their forces too.

They probably will, also putting their main reliance on nuclear weapons. West Germany's Chancellor Adenauer is already calling for atomic weapons.

It is not hard for Russia, ringed now by American bomber bases, to foresee the day when she will be ringed by missile bases. But meanwhile the Russians are developing their own missiles.

The Gallup Poll

Majority Favors Armed Force For U.N.

PRINCETON, N. J., — Has the influence of the United Nations increased or decreased as a result of the actions it has taken in the months since Suez erupted into a world threat?

To find out how Americans feel about it, the Institute has just completed a survey in which a representative cross-section of adults from coast to coast were interviewed on two questions concerning the world peace organization, whose success hinges to a large extent on the outcome of the Israeli-Egyptian problem.

The study shows that:

Twice as many Americans think the influence of the U. N. in recent months has increased as think it has decreased.

A majority of Americans think the U. N. should have its own permanent armed forces, including troops from the United States, which it could use to enforce its decisions.

Fewer than one person in every four believes that such a step would give too much power to the world organization.

The first question in today's survey:

"In general, do you think the influence of the United Nations has increased or decreased as a result of the actions it has taken recently?"

The vote:

U.N.'S INFLUENCE

	Per Cent
Has increased	43
Decreased	22
Same, can't say	35

The feeling that the world organization's influence has increased in recent months was typically expressed in the answer of a 68-year-old plumbiny and heating contractor in New Rochelle, N.Y., who told a Gallup Poll reporter: "It's the first time that the U.N. has shown some strength."

On the other hand, many who felt that the U. N. has lost influence in recent months pointed to its lack of authority in carrying out its resolutions.

The reaction of U. S. public opionion to the suggestion that the U. N. should have its own permanent armed forces to enforce its decisions was tested by means of the following question:

"Do you think the U. N. should have its own permanent armed forces, including troops from the United States, which it could use to enforce U. N. decisions — or would that be giving too much power to the U.N.?"

The vote:

ARMED FORCES FOR U.N.?

	Per Cent
Yes, should have	53
No, should not	23
Can't say	24

It is intersting to note that among the college-trained group, the group which includes the "opinion leaders" of the country, majority sentiment holds that the influence of the U. N. in recent months has increased:

	College	High School	Grade School
		Per Cent	
Has increased	52	45	36
Decreased	26	25	15
Same, can't say	22	30	49

Similarly, a larger proportion of the college group believes that the world peace organization should have its own permanent armed forces to enforce its decisions:

	College	High School	Grade School
		Per cent	
Yes, should have	65	52	48
No, should not	22	26	19
Can't say	13	22	33

Since its founding in 1945, many proposals have been made to strengthen the world peace organization.

Institute surveys as far back as 1948 have shown public opinion strongly in favor of establishing a U. N. police force to be used when needed in settling international disputes.

David Lawrence

A Coordinated Look At The Budget

WASHINGTON—By a virtually unanimous vote, the Senate has just passed a bill which, if the House of Representatives approves, may do more to harmonize the views of the executive and legislative branches of the government in the making of the federal budget than anything which has been suggested before.

For the bill would create a joint committee of 14 members—seven from each House—who would have an adquate staff to study and evaluate all the items in the budget. It would save the time of everybody involved, because it would mean one set of hearings. It would furnish the viewpoint of all groups, including those which want to see economy practiced.

The same kind of bill has passed the Senate on different occasions in recent years only to be defeated in the House of Representatives, many of whose members traditionally feel that, since all the money bills must originate in the House, they must be given attention exclusively by its committees.

Senator John L. McClellan of Arkansas, who is chairman of the Senate committee on government operations, has sponsored the new bill. In his report he gives many persuasive reasons for the adoption of the measure. He particularly takes cognizance of the action of the House on March 12 last in adopting a resolution requesting the President to indicate the places and the amounts in his budget where he thinks substantial reductions may best be made. This, he says, is "a clear indication that the Congress does not have adequate information upon which to act in carrying out its constitutional responsibilities for maintaining adequate controls over government expenditures."

Mr. McClellan reminded the Senate that members of Congress "have learned from contacts with the people back home that there is a tremendous ground swell of public sentiment for economy in government, and demands for action in eliminating unnecessary expenditures in the operations of the government."

But, under the existing procedures, with different appropriation committees and small staffs, it is not possible to do more than listen to witnesses from the executive branch who are morally bound to support the budget as submitted. Members of Congress have to depend on what they can pick up from the outside as to what items might really be cut.

Taking a leaf out of the splendid record of the Joint Committee of Internal Revenue Taxation, Mr. McClellan and the 71 cosponsors of the new bill believe a great service can be rendered by the joint committee type of operation in the field of governmental economy.

Just now, of course, with the Congress in control of the Democrats and the executive branch in control of the Republicans, there is a natural antagonism between the two branches. But the division of the government on this basis is not usual and the reform will be as useful, if not more so, when both Congress and the presidency are in the hands of the same party.

The new committee would, to be sure, be made up always of seven members of the Senate Appropriations Committee, which now numbers 23, and seven from the House Committee on Appropriations, which now numbers 50 members. But in such a large membership of the appropriations committees today, there are various subcommittees appointed and it is virtually impossible for the entire committee to know as much about the items as the other subcommittees which have special fields to cover.

The theory back of the joint committee idea is that a large staff of experts, who serve continuously from one session through the next and so on, will build up a knowledge of the budget operations that will be invaluable to Congress.

Detailed analysis of the budget by congressional committees is not possible under the present system, and only a superficial examination is given to what is recommended by the executive. Conversely, the Budget Bureau has to accept programs created out of previous legislation by Congress and has no means of passing judgment on whether existing laws should be repealed. The Budget Bureau in those instances merely estimates the cost of operation and assumes a continuance of the laws. A joint committee could look constantly into the question of whether the laws that require appropriations from year to year might be modified, if not repealed.

The move just made by the Senate is in the direction of efficiency and could be the basis of some real economizing. Will the House pass the new bill or insist on the same haphazard ways that have prevailed in the past? The American people will be deeply interested in what happens to this bill in the House of Representatives.

No Backseat Driving In Europe

NEW YORK (AP) — Europe is a strange continent where men are still so ruggedly independent they won't stand for backseat driving.

"A husband there would not let his wife tell him how to drive," said Gilberte Thirion, a pretty sprout from Brussels who at 29 is Europe's top feminine auto racing star.

"He is the boss—in the car, as well as in the home.

"I am amaze to see so many women behind the wheel in this country. The man sit beside her like a small babee.

"In Europe if you see a man and a woman in the car, it is almost always the man who is at the wheel. He would not trust her to drive."

Miss Thirion, who has won 20 of the 60 races she has participated in during the last five years, came here for the international races at Sebring, Fla., last month. She and her codriver, Mrs. Nadege Ferrier of Switzerland, piloted a Renault Dauphine and finished first in their small car category.

"I compete mostly against men," said the tawny-haired Belgian mademoiselle, who was named by her small nation as its top sports performer of 1956.

Trimly built—she is a meter and 70 centimeters tall and weighs about 60 kilos—she showed the stamina last year to win Italy's famed "Mille Miglia" race through a 15-hour stretch at the wheel.

She first learned to pilot an old Army jeep and was trained in racing technique by her father, Max, a veteran racer himself. In a good year she picks up about $7,500 in prize money.

Her racing costume consists of a custom tailored jacket, mens' trousers and a white crash helmet.

"My pants are blue," she says.

Although European racing is notably dangerous (to spectators as well as drivers), she has been hurt only once. In 1953 she broke a wrist in Italy.

Gilberte said, however, that ordinary American traffic made her more nervous than driving in a real race.

"It is very dangerous here," she said. "The speed limits are so low in this country that everybody falls asleep at the wheels, listens to the radio or starts talking to a passenger."

In three weeks Gilberte expects to marry her fiance, a young French Alpine climber.

"He does not like too much the racing," she said, laughing. "He thinks it is too dangerous. But I tell him that I don't like it too much that he climbs the mountain. One can be hurt veree, veree bad falling from an Alp.

"I think maybe I give up the racing when I have children."

Coffee Keeps Eyes Open As 'One For Road'

By ALTON L. BLAKESLEE
AP Science Reporter

NEW HAVEN, Conn., April 8 (AP) — Coffee can do you some good — eyewise — in helping you drive more safely after a few drinks.

It helps combat a tendency to see double for a split second.

This is the first finding from new scientific studies at Yale University to learn how much even a few drinks slow down your reaction times, and whether coffee or other stimulants can offset some of these potentially dangerous effects.

Alcohol is a depressant drug, not a stimulant, and so it slows down your reaction times, explains Dr. Leon Greenberg, director of the laboratory of biodynamics.

One effect is on brain fusion time. Since you have two eyes, your brain receives two different images of anything you see.

It takes a few hundredths of a second for the brain of a normal, sober person to fuse the two images into one.

With a few drinks — five ounces of whisky — the time is increased to one-half to three-fourths of a second.

Two cups of coffee then can cut this time lag by half or more, the experiments find.

The more you drink, the longer becomes the lag in your fusion time. Finally you keep seeing double, until you begin to sober up.

Nothing can speed the sobering-up process once you've taken enough to become drunk, Dr. Greenberg explained. That includes lots of hot coffee, walking in the cold air, or exercise. Time is the only remedy, and the human body on the average burns up or gets rid of three-fourths of an ounce of whisky per hour.

The goal of the studies is to learn whether coffee, dexedrine or other drugs can partly overcome reaction slow-downs from a few drinks. Could they help save lives in driving or other activities requiring split-second judgment and skills?

A next step is tests whether stimulant drugs can overcome the fusion reaction delay. Then tests whether stimulants can offset time lags caused by social drinking on other bodily reactions.

Marquis Childs

Important Elements In Missile Fight

WASHINGTON — Forces are being aligned on both sides for a contest that promises, in Hollywood's favorite expression, to be super-colossal. That is the general court martial in Huntsville, Ala., next month of Colonel John C. Nickerson Jr.

Already 180 reporters for newspapers and press associations have indicated they will cover the trial of Colonel Nickerson on 18 charges involving the release of documents containing secret information. The networks have asked for facilities to televise and broadcast from the courtroom.

This is ample evidence that the Nickerson case is far more than an issue between the military services. It has, in fact, political, economic and international aspects that will make the town of Huntsville a stage of extraordinary importance. It already is being called a Billy Mitchell case in reverse, with Nickerson standing for the Army's right to develop guided missiles against the claim of the Air Force to take over the whole field.

The issue was drawn when Secretary of Defense Charles E. Wilson last year moved to put an end to further work on the Army's 1,500-mile Jupiter missile at the Redstone Arsenal at Huntsville, with the Air Force ultimately to have full jurisdiction over missile development. Nickerson, in his zeal as coordinator of the project, prepared a memorandum containing some information classified as secret which he made available to Congressmen and — the essence of the charge against him — to a newspaper columnist.

Huntsville is the home town of Senator John J. Sparkman, who is taking a direct and active interest in the case.

Already, according to Sparkman, $143,000,000 has gone into the Army's Ballistic Missile Agency in buildings and in development of the Jupiter and other rockets and missiles. Another $25,000,000 is being spent. It is claimed that the Jupiter has gone to a height of 640 miles on a flight of 3,400 miles, all of which was monitored by the extraordinary electronic devices that science has put at the command of the military.

Apart from the money spent on the project, which means a lot to a town of 50,000, there is a human factor. To the project have come most of the distinguished German rocket specialists who during the war worked on the island of Peenemunde in the Baltic developing the V-1 and the V-2 which caused such havoc in Britain and Belgium.

Working for civil service salaries, these space men, of whom Wernher VonBraun is the best known, settled down in Huntsville and became part of the community.

They believe passionately in the Jupiter. Moreover, they say they will not work for any other government agency. A specialist such as VonBraun, who talks about space ships and trips to the moon as though reservations could be made tomorrow, would be worth a salary of at least $100,000 a year to any of the big aviation or electronic companies.

This raises one of the submerged issues that may or may not come to light when the trial begins on May 15. Redstone Arsenal is a government agency and it is, therefore, regarded with jealous suspicion by the big West Coast aviation companies doing much of the missile work under contract with the government. If the Army Ballistic Missile Agency could be liquidated or greatly curtailed, they would be likely to profit.

On the international side, at Bermuda President Eisenhower promised to supply Great Britain with weapons developed by the United States, including the 1,500-mile missile. A report, subsequently denied, said it would be five years before this missile could be delivered to Britain.

At the trial, an effort will be made to show that if the Redstone project is continued at its present pace, the British will get the 1,500-mile missile in two and a half years. In terms of the balance of power with the Soviet Union, this is of vital importance.

As if all this were not enough, it is expected that the trial will open up the vista, a foreseeable number of years away, when the military airplane and its pilot are both obsolete. That will mean a fantastic adjustment in habits and thought.

There are occasions when in a single human drama all the conflicts of an era are concentrated. The Nickerson trial seems likely to be one of those.

Uncrowded School

RICHMOND, Va. (AP) — The bumper crop of post-war babies is crowding schools everywhere — except mortuary schools. There could be a shortage of undertakers.

Dr. Otto S. Margolis, dean of the American Academy of Funeral Service, New York, said here that 1,200 will graduate this year from 20 mortuary schools. Prior to World War II the average was 1,800.

Painful Logic

PARIS, Ky. (AP) — The baby sitter told little Bruce Dillon "your dog is tracking up the kitchen with his wet feet."

A few minutes later the girl heard muffled cries from the basement.

Bruce had dropped the pooch in the clothes dryer and flipped the switch. The pup was in sad shape when rescued — but he sure was dry.

Quick Punishment

HUNTINGTON, W. VA. (AP) — A Huntington man, with bruises and cuts on his head, complained to police that he had been attacked by someone with a blunt instrument. The investigation developed that he had been in a poker game and was caught cheating.

MR. BREGER

"Boss, we've just received the answer to your demand for tax reduction."

History Of Jazz Presented At 1930 Hyperion Club Saturday

Foot-tapping was the order of the day when the 1930 Hyperion Club program was presented Saturday afternoon. The group met in the home of Mrs. R. V. Middleton to hear a discussion and a program on jazz music.

Other hostesses were Mrs. Bill Griese and Mrs. Roy Sloan.

Mrs. Sloan, in giving the development of jazz, told the club that the rhythm is this country's contribution to the musical world. She traced the origin of jazz and remarked that there is no definite dividing line between it and the classics.

Devotees and experts on jazz music can never agree on a definition of the music, she told the club, and added that it is a product of syncopation and improvisation.

Sally Pachall and Jan Vagt sang "Lazy River." A trio, Mrs. Omar Pitman at the organ and Mrs. Griese and Mrs. Leslie Green at the piano, played "Tiger Rag."

Mrs. Pitman played "St. Louis Blues" and Mrs. Green and Mrs. Griese followed with "Memphis Blues."

During the business meeting, members voted to send cookies to the Service Men's Center Friday. The resignation of Mrs. Sloan was accepted; she is moving from Big Spring.

Announcement was made of an invitation to the seated tea to be given by the 1905 Hyperion Club April 17 at 3 p.m. The tea will be at Howard County Junior College auditorium.

Mrs. Leroy Tidwell, federation counselor, gave a report on the TFWC. Mrs. R. W Thompson, reporting for the local federation of clubs, asked that members donate good used clothing to be used in the style shop at the State Hospital. She also asked for costume jewelry and cosmetics to be distributed through the shop.

Members voted to take such articles to the Pitman Jewelry Company on Tuesday. A request was also made for worn sheets to be used in making cancer bandages.

Mrs. Stipp was elected representative to the federation for three years. A project for the federation to follow was discussed.

Mrs. Thompson announced the annual luncheon of the Hyperion Federation, which is slated for April 26 at Cosden Country Club.

Refreshments were served to 18 members and a guest, Mrs. G. A. Odam of Denton.

Anne Hardy Honored With Bridal Shower

A bridal shower given Saturday in the home of Mrs. Ira Driver was a compliment for Anne Hardy, bride-elect of Jim Bob Chaney.

Receiving the guests were Miss Hardy, Mrs. R. H. Hardy of Dallas, mother of the bride-elect, Mrs. J. R. Chaney, mother of the future bridegroom, and Mrs. Driver.

For her party, Miss Hardy was attired in a pink ensemble and wore a white corsage. Calling hours were from 4 to 7 p.m.

A white linen cloth covered the serving table which featured an arrangement of blue carnations with a large styrofoam umbrella in the background. This was flanked with blue tapers in silver holders. Silver appointments were used for serving.

Spring flowers were used at vantage points. Decorating the gift table was a large umbrella of net, ribbon and multi-colored flowers.

Cohostesses were Mrs. Robert Coffee, Mrs. H. M. Fitzhugh, Mrs. T. O. Whatley, Mrs. E. P. Driver and Mrs. Alton Underwood.

Assisting in the house party were Mrs. Bob Rice, Midland, Mrs. Boyd Bryans, Mrs. Jay Cunningham, June Johnston, June Amos, Mrs. George Amos and Mrs. Clyde Johnston.

The couple will be married May 4 in the First Presbyterian Church in Dallas.

Girl Scout Troop Has Investiture Ceremony Sunday

Thirteen members of Girl Scout Troop 37 met Sunday for their investiture ceremony. This was held at the Girl Scout House. Special guests were their parents.

The opening flag salute was led by Mrs. T. J. Balch, troop leader. Mrs. William Mason, neighborhood chairman of the Washington Place School, was guest speaker.

Mrs. Mason told the girls the preliminaries of girl scouting and how the girls can benefit from help by their mothers and fathers on earning ranks and badges.

Sunday afternoon a picnic lunch was served. A large cake, decorated with an Easter theme, was presented the guests by the troop.

BSP Groups Have Varied Programs

LAMESA — A pledge ritual and a ritual of jewels were held by members of the Lambda Phi Chapter of Beta Sigma Phi. Mrs. Bruce Moore conducted the ritual of jewels for Mrs. Carroll Barron, Mrs. Don Nelson, Mrs. Sid Tinnon and Linda Barton.

Pledges receiving the ritual were Mrs. Sanford Boardman, Mrs. Danny Moore, Mrs. Carl Barrow, Mrs. Johnny Jones and Mrs. Pat Marsh.

Mrs. Don Speck was the hostess for the evening. At the next meeting an election of officers will be held.

* * *

"Absolute Music" was the theme of the Lambda Epsilon Chapter at their meeting in the home of Mrs. Flora Barnard. Mrs. Barnard presented piano selections of Bach, Mozart and Schubert.

During the business meeting plans were discussed for the Founder's Day dinner which the Lambda Epsilon Chapter will host for all of the Beta Sigma Phi Chapters in Lamesa. The dinner will be held on April 30.

Eight members were present for the meeting.

* * *

Mrs. Tom Wade was the hostess for the meeting of the Iota Kappa Chapter on "International Scope." Mrs. Bob Wallace presented the program. During the meeting the chapter's nominee for "Girl of the Year" was discussed. Her idenity will be announced at the Founder's Day banquet. Nine members and two guests, Mrs. Nolan Porterfield and Mrs. A. J. Lee, attended the meeting.

Lamesa HS Students Win Literary Prizes

LAMESA — Four Lamesa High School students were first place winners in the Interscholastic Literary meet Saturday in Snyder. They were declamation, Klata Woodul and Jay Claiborne in the senior division; typing, Sue Green; and Pat Hall in poetry reading.

Sandra Pratt received the second place award in shorthand and Jim Martin second place in number sense. While on Friday evening the high school received second place in the One Act play contest. Lynn Esmond placed third in shorthand.

A Pretty Set

Trim a set of pillowcases with these lovely morning-glory designs in red and blue, add a crocheted edge and presto — lovely linens. No. 151 has color transfer; crochet directions.

Send 25 cents in coins for this pattern to MARTHA MADISON Big Spring Herald, 367 W. Adams St., Chicago 6, Ill.

Stitch Up Gay Apron For Easter

By DOROTHY ROE
Associated Press Women's Editor

Easter is the signal for spring entertaining, after the Lenten period. It's the time for new hats, new dresses, gay new finery for all the family. So why not a new Easter apron for Mom? It will help her get into the spirit of the day even while she's cooking Easter dinner or helping dye Easter eggs.

Felt is a good choice for a party apron, since it comes in a tempting range of colors, is easy to sew and practically indestructible. In tune with the season is a white felt apron trimmed with a family of bunnies in shocking pink.

The apron is made from a single piece of felt, cut in an oval shape. Local sewing center experts remind you that felt needs no hemming, so it's a cinch to whip up several of these aprons in an afternoon, for gifts and for yourself.

Use pattern transfers for the rabbit appliques. To applique, remember to leave a full inch around the outline of the rabbits when you cut them out and use the zigzag stitch lever on your automatic sewing machine or the zigzagger attachment for your regular machine to stitch around the outlines. Eyes and whiskers may be embroidered by machine, too.

There are other transfer patterns in the one envelope, including four playing cards, a long-stemmed rose and a bird in a cage.

If you like, you can add further festivity with sequins, jumbo rickrack or decorative stitching.

DAV Auxiliary Has Officer Election

Newly elected officers of the DAV Auxiliary are Mrs. Jack Horn, commander, Mrs. Eldon Cook, senior vice president, Mrs. Mamie Whirley, junior vice president, Mrs. R. E. McKinney, chaplain, and Mrs. James Horton, adjutant treasurer.

Officers were installed Sunday morning by the state commander, Mrs. Louise Rapisand of El Paso.

Regular meeting time of the auxiliary is the second and fourth Mondays of each month. They meet at 7:30 p. m. at the Service Men's Center.

"BIGGEST THING IN BIG SPRING"

On
April 25-26-27

Be Well Dressed

No matter the occasion from now till fall. A simple, smart frock in sizes to compliment the matron's figure. Collar is in crisp contrast.

No. 1578 with PHOTO-GUIDE is in sizes 36, 38, 40, 42, 44, 46, 48, 50, 52. Size 38 bust, 4½ yards of 35-inch; ⅜ yard contrast.

Send 35 cents in coins for this pattern to IRIS LANE, Big Spring Herald, 367 W. Adams St., Chicago 6, Ill.

Send 25 cents now for Home Sewing for '57, a new, different sewing manual with styles for every season. Gift pattern printed inside the book.

Delta Kappa Gamma Has Tea In Midland

The Midland Woman's Club was the scene of a tea Saturday afternoon for the Beta Kappa Chapter of Delta Kappa Gamma. Members from Midland, Martin, Sterling, Howard and Glasscock counties comprise this chapter.

The program was presented by the Midland High School A cappella choir under the direction of R. C. Michener.

Daphane Tabor was a guest speaker with the subject "Vanishing Veils." Miss Tabor illustrated her talk by showing colored slides of scenes and people of Turkey where she lived in the home of a Turkish family during the summer of 1955 as an ambassador of good will from Midland.

The business meeting was presided over by Lorine Williams, president. Miss Williams and Mrs. Rena Ponder were elected as delegates to the state convention to be held April 26-29 in Waco.

Members of the Midland group served as hostesses. An exhibit of oil and water color paintings by various teachers of Midland schools was shown.

Fifteen attended from Big Spring.

Family Meat Loaf Has Good Flavor

This meat loaf cuts beautifully and has fine flavor.

FAMILY MEAT LOAF

Ingredients:

One egg, ½ cup milk, 2 slices bread, 1 small onion, ¾ teaspoon salt, ¼ teaspoon pepper, ½ teaspoon crushed dried thyme, ½ teaspoon paprika, 1 pound ground beef chuck.

Method:

Beat egg in mixing bowl enough to combine yolk and white. Beat in milk. Cut bread (including crusts) into tiny cubes and stir in. Grate onion fine and add with salt, pepper, thyme and paprika. Mix well. Work in meat thoroughly with fork or fingers. Rinse small loaf pan (7½ by 4 by 2 inches) with cold water; pack meat mixture into it; loosen sides with knife; turn out on small oven platter or shallow baking pan. Bake in moderate (350 degrees) oven 1 hour. Makes 4 servings.

Meal Variation Is Treat For Family

A variation on a new and different recipe.

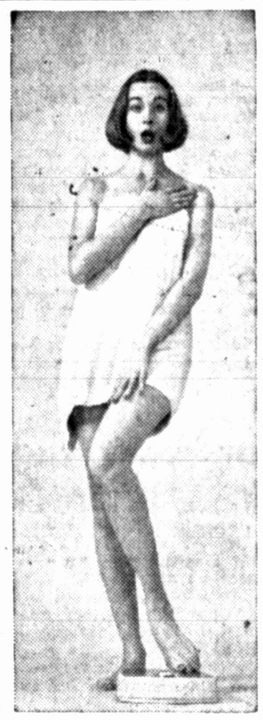

SPECIAL CREAMED HAM AND OYSTERS

Ingredients:

One can (10 ounces) frozen condensed oyster stew, 2 tablespoons flour, 3 tablespoons cold water, 1 cup cubed cooked ham (½ to ¾ inch pieces), ¼ cup finely diced green celery, 1 drained canned pimiento (finely diced).

Method:

Turn oyster stew (according to can directions) into a 1-quart saucepan. Allow to stand, stirring often, over low heat until completely defrosted. Lift out oysters with slotted spoon and reserve. Stir flour and water together until smooth; stir into hot soup. Cook and stir constantly until soup thickens and boils. Add reserved oysters, ham, celery and pimiento; heat but do not boil. Serve with crisp buttered toast points. Makes 3 servings.

Bo Bowen New Prexy Of District 8 ESA

Bo Bowen, Big Spring, was elected as new president of District Eight of Epsilon Sigma Alpha sorority chapters when the district convened Sunday in Andrews.

The Delta Beta Chapter of Andrews was host group for the meeting held in the Nix Cafe. The district is composed of chapters from Odessa, Fort Stockton, Kermit, Midland, Snyder, Big Spring and Andrews.

Other district officers include Mrs. Rufus Hart, vice president, Snyder; Mrs. H. E. Wendt, recording secretary, Midland; Mrs. H. C. Mays, treasurer, Odessa; Mrs. H. L. Atnip, Midland, parliamentarian, and Mrs. Leo Osterhout, historian, Andrews.

The installation of officers was conducted by Mrs. C. M. MacLean, Odessa, state second vice president. Officers were sworn in before a table laid with a white cloth and bearing a banner with large letters ESA across the front. The table was centered with an arrangement of jonquils flanked by yellow tapers. Each officer was presented with a blue carnation corsage.

Mrs. Jack Allen, Midland, discussed the final plans for the State Convention which will be held May 17-19 in Odessa. Some 350 are expected at the meet.

During the business meet, each chapter president of the district gave a report of the chapters' work during the year.

The district president announced that Big Spring would be host to the next district meet to be held in July. Mrs. Bob Harrison, Kermit, won the door prize.

Those attending from Big Spring were Jane Hill, Mrs. Talford Durham and Mrs. Robert Hill.

New Version Of Split-Pea Soup

Using two kinds of split peas gives this soup good color.

NEW SPLIT PEA SOUP

Ingredients:

One and ½ cups quick-cooking green split peas, ½ cup quick-cooking yellow split peas, 1 ham bone (with just a little meat left on), chicken gizzard and heart plus wing tips, 1 medium-sized onion (sliced), 1 cup chopped celery rib and leaves, 2 quarts water, ¼ teaspoon peppercorns, 2 whole cloves, 2 whole allspice, 1 bay leaf, salt, ground pepper.

Method:

Wash split peas and drain; put in soup kettle with ham bone, chicken, onion, celery, water, peppercorns, cloves, allspice and bay leaf. Bring to a gentle boil; simmer 1½ hours. Remove ham bone and chicken pieces; press the rest through a strainer. Reheat, adding salt and pepper to taste. If soup is too thin, simmer to reduce; if too thick, add a little stock. Soup usually thickens if refrigerated overnight. Makes 2 quarts at least.

Watch That Floor!

A slip or a trip can break a hip! Overwaxed floors and skidding scatter rugs can flip you right into a hospital bed. That's why the National Safety Council says check and eliminate all fall hazards.

Tea Is Compliment For Tracy Roberts Sunday

Mr. and Mrs. Tracy Roberts were honored Sunday afternoon with a tea held in the home of Dr. and Mrs. Clyde Thomas. Mrs. Roberts has served as the mother advisor of the local Rainbow Girls for the past six years.

Receiving the guests were the Roberts, Dr. and Mrs. Thomas, Mr. and Mrs. Norman Read, (she is chairman of the Rainbow advisory board,) and Mr. and Mrs. Neel Hull; Mrs. Hull is the present mother advisor of the Rainbows.

The serving table featured a floor - length white organdy cloth and was centered with an arrangement of multi-colored spring flowers. Other floral arrangements were used throughout the house.

Assisting with the serving were Valjean LaCroix, Sammie Sue McCombs, Betty Anderson, Lucy Thompson, Beverly Alexander, and Kathleen Thomas. All are Rainbow Girls. Billie Jean King was at the register.

Music for the afternoon was presented at the piano and organ by Cleo Thomas, Delores Howard, Nancy June Thomas and Diane Baker.

Members of the houseparty were Mrs. E. J. Mann, Mrs. C. E. Howard, Mrs. J. A. Magee, Eilene Barnett, Mrs. Ollie Anderson, Mrs. G. H. Briden, Mrs. B. A. Fiveash, Mrs. John O. Puckett, Mrs. Orbin Daley, Mrs. M. T. Moelling, Mrs. S. G. Read, Mrs. John A. Coffee, Mrs. W. M. King and Mrs. W. E. Booth.

About 125 attended with several guests from Odessa.

Health Muffins Are Easily Prepared

HEALTH MUFFINS

Ingredients:

Three-fourths cup sifted flour, 3 tablespoons sugar, 4 teaspoons baking powder, ½ teaspoon salt, 1 cup unsifted wholewheat flour, 1 egg, 1 cup milk, 4 tablespoons butter or margarine (melted), ¾ cup finely cut cooked drained prunes.

Method:

Sift together the ¾ cup flour, sugar, baking powder and salt; stir in wholewheat flour. Beat egg enough to blend yolk and white; add milk and beat enough to combine; stir in melted butter. Add to dry ingredients; stir just until they are moistened. Stir in prunes lightly. Fill greased muffin pans two-thirds full; bake in hot (400 degrees) oven 25 to 30 minutes or until cake tester inserted in center comes out clean. Makes about 12 muffins if baked in muffin pans whose cups measure about 2½ inches across top.

LOOKING 'EM OVER

With Tommy Hart

Bobby Maxwell, the former Big Springer who has been visiting in Abilene, rejoins the circuit golfers this week. Bobby came home because he wasn't eligible to compete in the Masters Tournament.

Bobby's twin brother, Bill, withdrew from the Masters, after one round, at which time he shot an 81. He drove two shots into the water on No. 8 and took a penalty for hitting a ball his caddie rolled to him instead of dropping correctly. He wound up with an eight on the hole.

* * *

Delnor Poss, the one-time HSU cage ace who is now a coaching assistant at Garden City, is a cousin to Billy Pope, second baseman for the San Angelo College baseball team.

Delnor says Pope could be an excellent basketball player but he is interested only in baseball.

* * *

The Texas Interscholastic League, no doubt, pulled a rock in decreeing that only the first and second place finishers in each event of a district track and field meet would be eligible to compete in the Regional games.

Heretofore, the top three men in each event have been allowed to go to Regional.

There's plenty of fuss being kicked up around the state about the new rule.

The amendment cost Big Spring the services of two boys in the Regional, incidentally — Bobby Wallace and Frank Powell.

Johnny Janak and Mike Smith are the only Steers eligible to go to Lubbock now.

* * *

This is one of those rare years when every baseball team in District 2-AAAA will enter conference play with a won-and-lost record of better than .500.

Abilene remains the favorite in the race starting this week but the other four teams — Big Spring, San Angelo, Odessa and Midland — are all capable of upsetting the Eagles.

* * *

Mike Brumbelow, the Texas Western football coach, has been quoted as saying his team will be stronger offensively next season than it was in 1956.

* * *

Woman, to a hardware store attendant, about to purchase a new lawn mower:

"Can you wrap it up to look like a golf cart It's for my husband's birthday?"

* * *

The longest handle claimed by a big league ball player belongs to Cleveland's Cal McLish.

He was christened Calvin Coolidge Julius Caesar Tuskahoma McLish.

* * *

Membership in the American Business Club Relays has increased 20 per cent in recent weeks and the ABC Relays, held here March 16-17, are given much of the credit. The club now has more than 105 members.

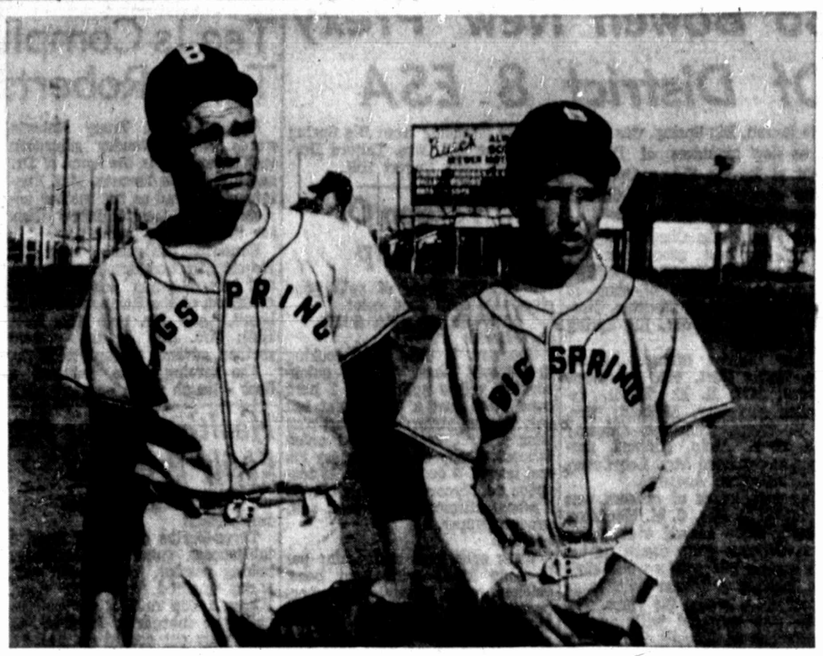

* * *

Bud Wilkinson, the Oklahoma University football coach, has been running an all - Texas backfield with his No. 2 unit — composed of Bennett Watts of Breckenridge, quarterback; Jakie Sandefer and Dick Carpenter, both of Breckenridge, halfbacks; and Wahoo McDaniel, Midland, fullback.

Wick Alexander Is Named Prexy

LUBBOCK (SC) — Wick Alexander of Amarillo, Texas Tech football quarterback and baseball pitcher, has been elected president of the Texas Intercollegiate Student Association.

Alexander, a pre-dental student, is student council representative of the Arts and Sciences Division at Tech. He was named to the state post in the TISA convention at Tyler last week.

Longhorn Veterans

The two boys pictured above will be in the starting lineup when the Big Spring Steers launch their District 2-AAAA baseball season Toesday in San Angelo. They are, left to right, Preston Daniels, junior shortstop; and Glenn Whittington, senior outfielder.

Ford's Closing 66 Wins At Augusta

By WILL GRIMSLEY

AUGUSTA, Ga. (AP) — Doug Ford learned to swing on a baseball diamond, cultivated a putting touch on a billiard table and turned fighter to become the new Masters champion and currently golf's most successful money collector.

"I didn't think I was aggressive enough, so I changed my grip this year with the idea of getting closer to the pin," the 34-year-old touring pro from Mahopac, N.Y., said today, fingering the $8,750 first-prize check of the Masters.

The windfall raised Ford's golf winnings of the year to $25,684, well ahead of his competitors.

"I never was one to play it safe," he added. "I guess you'd say I'm a gambler all the way."

Ford's daredevil gambling instinct and his new-found aggressiveness carried him to the greatest finishing round in Masters history — a 6-under-par 66.

Doug's total of 283 for four rounds over Augusta National's exacting course was three shots better than that of Sam Snead, the front runner for two days, with Jimmy Demaret following at 287 and Harvie Ward Jr., the brilliant national amateur champion, another stroke back at 288.

They said to win the Masters you had to play it cozy and sneak in. Ford beat the heavyweight layout to its knees with a birdie barrage marked by rifle-like approach shots which defied traps and water hazards in a hungry flight toward the pin.

Ford was born and reared in New York, not far from the New York Giants' Polo Grounds, and once had an ambition to become a major league third baseman. He also acknowledged that he spent all his spare moments in billiard parlors as a youth—becoming a cue expert. "It helped me on my putting," he said, "on angles and stuff."

Snead, one stroke ahead going into the last round, lost the tournament on the ninth, 10th and 11th holes where he took bogeys. He shot a final 72 when he needed a 69 to tie the early-finishing Ford.

Demaret shot a final 70 and Ward a 73. Australia's Peter Thomson took a 71 for 289 and lame armed Ed Furgol a 74 for 290. Burke finished in a tie with Dow Finsterwald and Arnold Palmer at 291.

IN JUNIOR LOOP

Detroit Picked To Finish 2nd

By JOE REICHLER

NEW YORK (AP)—The New York Yankees, who spread-eagled the field by nine games last year, should win the American League pennant again in 1957, but the Detroit Tigers have the most improved club in the junior circuit.

The race shapes up as a two-team struggle between the player-rich Yankees and the youthful Tigers, with Chicago and Cleveland battling for third and Boston's Red Sox leading the second division.

The Yankees are going into the race with the most important asset: the most good ball players. They also are the most versatile team, extremely confident after winning seven pennants in eight years.

The Yankees are a solid team with the possible exception of third base and left field, but habitually they come up with what it takes. Young hopefuls like Bobby Richardson and Tony Kubek could cement these loose ties. This year they appear to have come up with tremendous pitching, with Johnny Kucks and Tom Sturdivant ready to challenge Whitey Ford for staff supremacy. Behind this trio there are Don Larsen, Bob Turley, Art Ditmar, Bobby Shantz, Tommy Byrne, Bob Grim and rookies Ralph Terry and Al Cicotte.

All that pitching and Mickey Mantle and Yogi Berra, too. Not to mention Hank Bauer, Gil McDougald, Billy Martin, Bill Skowron et al.

How they'll finish in the American League this year:

BAUER BERRA

1. New York; 2. Detroit; 3. Chicago; 4. Cleveland; 5. Boston; 6. Baltimore; 7. Washington; 8. Kansas City.

The Tigers rate the No. 2 spot partially because of their strong finish in 1956. They were the best team in the league after mid-season, posting a 48-30 record as compared to 45-31 for the Yankees.

Frogs Face Rocky Road In S'West

By The Associated Press

TCU leads the Southwest Conference baseball race after two weeks of play but the Frogs may be hard-pressed to remain on top when they meet Baylor Friday and Saturday.

Baylor has lost only one game. It meets TCU at Fort Worth.

TCU took over undisputed first place last week by whipping Texas A&M 6-4, 7-5. Texas, which had been tied with the Frogs for the lead, couldn't plan a series with Baylor because of the rain.

With a third of the season gone, TCU had a 5-0 record and Texas 3-0.

Texas A&M, Rice and SMU all are virtually out of the championship race with 1-4 marks.

Texas plays Amarillo of the Western League at Austin Tuesday. SMU takes on Dallas of the Texas League at Dallas Wednesday. Six conference games are scheduled Friday and Saturday. In addition to the TCU-Baylor series, SMU and A&M play two at College Station and Rice and Texas get in two at Austin. Austin.

AAU Bouts Begin

BOSTON (AP)—Some 125 amateur fighters, including defending titlists in the lightest and heaviest divisions, begin battling for 10 National AAU boring championships tonight in trial bouts of the 69th annual competition at the Boston Garden.

GRAPEFRUIT BASEBALL

EXHIBITION BASEBALL
MONDAY'S SCHEDULE

Souchak Digs In

Husky Mike Souchak squats on a bunker as he attempts to shoot out of a sand trap on the ninth hole during a practice round for the Augusta Masters Golf Tournament in Augusta, Ga. (AP Wirephoto.)

Hagge Clinches First Money At Beaumont

BEAUMONT, Tex. (AP) — Pretty Marlene Bauer Hagge held her second straight Babe Zaharias open golf tournament title today, thanks to a hot putter and accurate short irons which made up for some wild long shots in yesterday's final round.

Mrs. Hagge, playing out of Del Ray Beach, Fla., putted only 24 times on yesterday's 18 holes for a one-under par 72 to total 222 and win top money of $882 in the 52-hole, $5,000 tourney.

Betty Dodd of Louisville, Ky., was runner-up with 75 yesterday and a total of 226.

Betsy Rawls of Spartanburg, S.C., finished third with 228.

Mrs. Hagge landed in the rough frequently on the front nine.

But her recoveries were excellent and her iron shots to the green were, for the most part, almost dead to the pin. Her putting was smooth and accurate.

Fourth place went to Fay Crocker of Montevideo, Uruguay, with a par 73 yesterday for 229 total and fourth place. Miss Rawls won $528 and Miss Crocker $440.

Ruth Jessen of Seattle, Wash., played with a painful stiff neck. Despite flinching visibly on almost every shot, she finished with an 80. Her previous 73 and 77 gave her fifth place and $374.

Veteran Patty Berg, St. Andrews, Ill., and young Yoce Ziske, Waterford, Wis., tied for sixth with 231.

Clifford Ann Creed of Beaumont repeated for the amateur championship with 241. Joann Bruni of Laredo, Tex., was second amateur with 252.

Proceeds go to the Babe Zaharias Cancer Fund. The Babe, who died last year, grew up in this area and started her fabulous sports career here.

THE LEADERS

Marlene Bauer Hagge, $882		
Del Ray Beach, Fla.	72-78-72—	222
Betty Dodd, $616		
Louisville, Ky.	74-77-75—	226
Betsy Rawls, $528

Betty Danoff, $50		
Dallas	84-82-78—	244

No Challenges

FORT WORTH (AP)—The first-place Chicago team went another day in the American Bowling Congress tournament without a really serious challenge yesterday. The closest score to the 3126 shot by the Peter Hand Reserve Beer team on March 18 was the 2914 put together by the Silver City Recreation of West Allis, Wis. The Wisconsin club had games of 972, 924 and 1018.

Third Base Woes Still Plague Kerby Farrell

By ED CORRIGAN
The Associated Press

Kerby Farrell, the Cleveland Indians' rookie manager was indeed caught in a cross-current today.

You might say the fellow didn't know whether to laugh or weep.

His club has won nine of its last 10 games including yesterday's 8-7 decision over the New York Giants in Dallas. His pitching staff has been coming around.

But "that problem," the one of finding a third baseman to replace the retired Al Rosen still is haunting Farrell.

He thought he had it about solved when he shifted Al Smith from the outfield to third base. It turned out, though, that Smith wasn't happy there, not sure of himself.

"So," sighed Farrell, "from now on he's the centerfielder. I really don't know who is going to play third."

While Farrell continues his hunt for a third baseman, Manager Birdie Tebbetts of the Cincinnati Redlegs finds himself in his usual plight of trying to get along with plenty of hitting and no pitching.

Yesterday's game with Washington brought the situation into sharp focus.

The Redlegs won it, 9-7, on home runs by Don Hoak, Ed Bailey (2), Gus Bell and Frank Robinson. But they had to come from behind. Starter Joe Nuxhall gave up five runs and eight hits before his mates found the fences.

Hard-luck Don Zimmer, the Brooklyn Dodgers' infielder and heir-apparent to PeeWee Reese's shortstop job, who already has been beaned twice, was hit on the leg by a batted ball while running the bases in the Brooks' 4-3 loss to the Milwaukee Braves.

He'll be out at least a couple of days. The Braves won the ball game when Frank Torre singled home Bill Bruton in the ninth.

Elsewhere, the Detroit Tigers edged the Philadelphia Phillies, 5-4; the New York Yankees turned back the Boston Red Sox, 3-2; the Chicago Cubs toppled the Baltimore Orioles, 8-6; the Pittsburgh Pirates halted the Kansas City A's, 6-4, and the Chicago White Sox and St. Louis split a doubleheader. The Birds won the first, 13-10, and the Pale Hose the nightcap, called after four and a half innings, 2-0.

Snyder Qualifies Ten For Regional

Snyder qualified ten and Colorado City and Lamesa seven each for Regional in the District 3-AAA track and field meet held in Snyder Saturday.

Snyder athletes eligible to go to Lubbock Saturday are Bud Morgan, Rex Wilson, Bobby Pollard, Jimmy Allen, Powell Berry, Johnny Ward, John Drake, James Vincent, Dick Martin and Bill DuBose.

Colorado City qualifiers were Jim Windham, Dru Vowell, Bancker Cade, Don Black, Delbert Lewis, Lucky Merket and Don Powell.

Those eligible to go from Lamesa include Roger Shipp, Wilbert Minex, Webb Corbin, R. D. Ross, Buddy Hancock, Don Childress and Rod Mathews.

One Killed At Races

CROWLEY, La. (AP) — A drag racer driven by Gerald Jones, 25, of Houston went out of control yesterday and crashed into a crowd along the strip, killing one and injuring four.

Ralph Dupas Fights Vince Martinez In New Orleans

NEW ORLEANS (AP)—Ralph Dupas, sixth-ranked lightweight contender, takes on No. 6 welterweight Vince Martinez tonight in a bout that has fight fans guessing.

Dupas, a 21-year-old New Orleans veteran of 77 fights, is a fancy-moving boxer with speed to spare, while Martinez, 27-year-old Paterson, N. J., counterpuncher, has more steam in his blows.

The big question nark is how well Dupas weathered accusations last week that he was a Negro.

Dupas has won 64 fights, lost 8 and battled to a draw in 5. Martinez has won 54 of 58 bouts, with 28 of his foes failing to go the distance.

The big question mark is how well Dupas weathered accusations last week that he was a Negro and therefore barred by state law from meeting a white fighter.

The Louisiana State Athletic Commission decided there was no evidence to warrant calling off the fight. It also held, in effect, that there was no substance to claims that he was a Negro.

Dupas has won 64 fights, lost 8 and battled to a draw in 5. Martinez has won 54 of 58 bouts, with 28 of his foes failing to go the distance.

Following is the fight card for the week:

MONDAY

At New York, St. Nicks, Walter Cartier, New York, vs. Jackie La Bua, East Meadow, N.Y., middles, 10; At New Orleans, Ralph Dupas, New Orleans, vs. Vince Martinez, Paterson, N. J., welters, 10; At Pittsburgh, Chico Varona, Cuba, vs. Reybon Stubbs, Pittsburgh, welters, 10; At Holyoke, Mass., Johnny Cunningham, Baltimore, vs. Stan Michaux, Newark, N.J., middles, 10.

TUESDAY

At Lowell, Mass., Eddie Andrews, Lowell, Mass., vs. Joey Klein, New York, middles, 10; At Portland, Ore., Ewart Poigieter, South Africa, vs Johnny Holman, Chicago, heavies, 10; At Miami Beach, Fla., Jose Flores, Cuba, vs. Joe Micell, New York, welters, 10; At Hollywood, Carlos Ortiz, New York, vs. Lou Filippo, Los Angeles, lights, 10; At Richmond, Calif., Luke Easter, San Francisco, vs. Kid Castro Stockton, Calif., lights.

WEDNESDAY

At Miami, Fla., Davey Moore, Springfield, Ohio, vs. Gilly Cadilli, Los Angeles, feathers, 10.

THURSDAY

At Sacramento, Calif., Milo Savage, Salt Lake City, vs. Tiger Al Williams, Los Angeles, middles, 10; At Revere, Mass., Jim Connors, New Bedford, Mass., vs. Benny "Red" Randall, Nova Scotia, feathers 8; At Los Angeles, Sapo Ortego, Tijuana, Mex., vs. Jimmy Hornsby, Los Angeles, lights, 10.

FRIDAY

At Syracuse, N.Y., Chico Vejar, Stamford Conn., vs Ralph "Tiger" Jones, Yonkers, N. Y., middles, 10.

SATURDAY

At Hollywood, Irish Tommy Bain, Hollywood, vs. Noel Humphreys, Los Angeles, feathers, 10.

Roscoe To Open Play Sept. 6

ROSCOE (SC) — The Roscoe Plowboys, members of District 6-A, open their 1957 football season against Loraine here Sept. 6.

The Plowboys play non - conference engagements with Abilene B, Sweetwater B, Slaton and Trent before plunging into 6-A action against Coahoma in Coahoma the night of Oct. 18.

Roscoe is coached by the former Big Spring star tackle, Cliff Patton.

The schedule:

Sept. 6—Loraine	Here
Sept. 14—Abilene "B"	Here
Sept. 21—Sweetwater "B"	Here
Sept. 27—Slaton	There
Oct. 4—Open	
Oct. 11—Trent	Here
Oct. 18—Coahoma	There (C)
Oct. 26—Rotan (Homecoming)	Here(C)
Nov. 1—Roby	There (C)
Nov. 8—Stanton	Here (C)
Nov. 15—Merkel	There (C)

(C) District Games
September Games start at 8:00
October and November games start at 7:30

Houston Keglers Win Team Crown

WICHITA FALLS (AP)—Brittion's Broiler Burgers of Houston won the Class A team title in the $12,011 Woman's State Bowling Tournament which ended yesterday.

The Houston team rolled up a score of 2,639.

Alice Iltis and Grace Baskin of San Antonio won the Class A doubles with 1,147.

Melvah Ucker of San Antonio rolled 594 for the Class A singles championship.

Joann Garrett of Fort Worth got 1,658 for the all-events championship.

Mighty Steers Next See Action In 5-Way Meet

AUSTIN (AP) — Texas, looking more and more like a contender for the national collegiate track and field championship, will be in its next important meet April 18 at Dallas.

The mighty Longhorns, best-balanced cinder path squad in Southwest Conference history, will be competing against always strong Southern California, SMU, Abilene Christian and Texas A&M in the Dallas Invitational.

Southern Cal isn't eligible to compete for the NCAA championship this year because of recruiting troubles but the Trojans will furnish Texas with probably its strongest competition.

Texas, with Eddie Southern having one of his finest days, swept up its own relays—the Texas Relays—Saturday, winning five first places and rolling up an imposing 109 4-7 points. The Longhorns beat Kansas soundly in the battle for the university class title.

Southern won the high hurdles and ran on three winning relay teams, helping to set a world's record in the 880-yard relay as he sparked the Longhorns to a fantastic 1:22.7. But Abilene Christian wiped out Texas' world record in the 440-yard relay around two turns with a 40.2 as Bobby Morrow did the anchor leg running like a scared rabbit.

Abilene Christian will be in the Drake Relays April 26-27 and there Morrow will clash with Mike Agostino of Fresno State, who has tied the world's record in the 100, and Ira Murchison of Western Michigan, who bettered the world's record in the 100 meters with a 10.1 effort.

Texas will be in the Kansas Relays April 19-20, passing up the Drake Relays. At Kansas the Longhorns will have the opportunity of regaining their world's record undisputed in the 440-yard relay.

Hawk-Wrangler Game Tuesday

Originally scheduled for today, the HCJC-Odessa JC West Zone baseball game has been moved back to Tuesday.

The nine - inning engagement begins at 3 p. m.

The resident Jayhawks are leading the conference with a record of two wins in as many starts, having knocked off Clarendon in both ends of a doubleheader last weekend.

Odessa split its twin bill with Amarillo and is very much a factor in the race. The Wranglers are defending champions in the circuit.

Don Isham will probably take the mound for the Hawks tomorrow. Mike Powell and Robert Richards are available for relief duty.

Kenneth Howell is apt to pitch for Odessa. Howell scattered seven hits in leading Odessa to an 8-5 11-inning victory last week.

The Odessans don't seem to have as good a pitching staff as they had last year but they'll match their offensive punch against any junior college team.

Steers Undertake 2nd Week Of Drills

The Big Spring Steers launch their second week of basketball workouts here this afternoon.

An average of 15 boys are working out daily from 4 to 6 p.m. Included in the turnout are three lettermen — Jan Loudermilk, Jimmy Evans and Billy Bob Satterwhite.

Loudermilk was an all-district choice last season and was later named to the third team all-state contingent. He led District 2-AAAA in scoring and set an all-time Big Spring scoring record.

Evans was a regular on last season's Steer club and was given Honorable Mention on the all-district team.

The workouts will be climaxed with a game between the 1957-58 team and the Exes about Friday, April 19.

Puts More Sell in the Salesman!

If your car is your office, you owe it to yourself *and* your sales to own an A.R.A. It's hard to win customers and influence sales if you're hot and irritated . . soaked with perspiration . . worn out from stop-and-go-driving in city traffic on torrid days. With an A.R.A. in your car, what a difference it makes to your comfort and appearance . . and to your sales enthusiasm! Because A.R.A. keeps you cool and fresh, you save on cleaning and laundry bills, too.

To the Parents of a Genius

If your child is blessed with a brilliant mind, you probably plan to send him to one of the country's finest colleges. And you should. He deserves the best education our system has to offer. Yet, even with his rare gift, can you be sure that the college of his choice will be ready for him?

Today the pressure of college applications is mounting fast. It's expected to *double* by 1967. Our colleges and universities are doing their best to meet the challenge, but they are hampered by lack of funds. Not only expanded facilities are needed, but more and well-paid professors and instructors to maintain scholastic standards.

America needs, in addition to its quota of geniuses, intelligent, educated people as never before. For the sake of your children and the future of your country, help the colleges and universities of your choice—now!

* * * *

If you want to know what the college crisis means to you, write for a free booklet to: HIGHER EDUCATION, Box 36, Times Square Station, New York 36, New York.

Death Ruled For Rebels

BUDAPEST (AP) — A Communist woman judge today handed down three death sentences — one against a 25-year-old woman medical student — in the first big Hungarian show trial growing out of the anti-Russian revolt.

Judge Matilde Toth sentenced eight other defendants to prison terms ranging from 6 months to 10 years.

The woman defendant, Gizella Ilona Toth, who presumably is not related to the judge, paled when she heard her death sentence. She was expected to appeal to the Presidential Council. She had confessed to injecting gasoline into the neck of a suspected secret policeman at the hospital where she worked.

More than 400 spectators crowded the big courtroom for the sentencing. They heard the verdicts quietly after Judge Toth warned that the room would be cleared at the first sign of any demonstration.

Sentenced to death with Miss Toth were Miklos Gyoengyoesi, 28, and Ferenz Goenczi, 26. They admitted helping to kill the suspected policeman.

Lamesa Junior High Band Wins District Sweepstakes

LAMESA — The Lamesa Junior High School band won the sweepstakes in Texas Interscholastic League competition in Odessa Saturday. This is the second straight year the band has won sweepstakes under the direction of Bill Green. This was in competition against bands throughout West Texas.

First place winners were Janie Durham, clarinet; Peggy Nutt, clarinet; Don Bethel, bass clarinet; Teddy Groh, bass horn; Gary Essary, baritone; Don Garner, bassoon; Kay Campbell, flute; Jean Ranson, flute; and Patricia Beckham, flute.

In ensembles: clarinet quartet, Peggy Nutt, Carolyn Adamson, Carol Lamb, Linda Morris, first place; woodwind quartet, first place, Sonja Minnix, oboe; Kay Campbell, flute; Janie Durham, clarinet; and Don Garner, bassoon.

The Lamesa High School band received second division rating in sight reading and third in concert. Ed Burt is director.

Band students who placed first were: Mary Lee Taylor, flute; Linda Peterson, clarinet; Sylvia Reed, cornet; Julia Durham, bass clarinet; Don Duke, drums; and Linda Currie, trombone.

Ensemble trios and quartets which rated first were: cornet trio: Sylvia Reed, Delen Bridges, Benny Cason; Drum trio: Don Duke, Jimmy Goolsby and Carolyn Porterfield; and trombone quartet with Roy Ed Hatch, John Lee Bryant, Carter Johnson and Neal Leatherwood.

Woman Carrying Fatal Prescription Turns Up Safe

NEW ORLEANS (AP)—Mrs. Ray Newman of Hereford, Tex., saved herself trouble because she had some of her old medicine left.

She was the object of a two-day, two-state search for fear she had a drug prescription that could prove fatal.

An Amarillo drug company asked authorities to try to find Mrs. Newman to warn her a druggist made an error in the prescription.

After getting the medicine, she left Texas to visit her daughter, Mrs. Bobby King, in New Orleans.

Mrs. King said her mother, who didn't know about the error or search until she reached New Orleans yesterday, hasn't opened the bottle because she had some of her old medicine left.

"Mother's feeling fine," Mrs. King said, "but I feel awful." She said she had learned of the druggist's error Saturday and worried about her mother's safety until yesterday.

"But the druggist called me this afternoon," the daughter said, "and explained that the worst the medicine would do would be to make mother sick at her stomach."

Rosy Exhaust

DETROIT (AP) — The aroma of roses may soon filter through Detroit buses. A fragrant formula devised by technicians of General Motors blends a deodorant with the unpleasant exhaust fumes which find their way into the bus.

Snake Hunt Ends, Back To Hibernation

OKEENE, Okla. (AP)—This sleepy farm community went back into hibernation today with the snakes.

Its annual chance for fame — the Rattlesnake Roundup — was slightly chilled yesterday by a sudden storm which dropped the temperature to 40 degrees.

At that temperature, a self-respecting snake won't get out of his den.

The total catch for three days was 987, far below the normal 2,500. The longest snake was a 72-incher, one of seven caught in 25 minutes by H. H. Tomlinson of Watonga, Okla. He got $32.50 for it at an auction.

The reptiles are sold to zoos and to drug houses for their venom, used in treating snake bites.

There were 15,000 persons in this northwest Oklahoma town of 1,100 to hunt snakes, or look and take pictures. The registration of those who actually went hunting was 527.

An estimated 4,000 persons in a thousand cars swarmed into the Gypsum Hills southwest of here while the rest stayed in town and looked at the snakes being exhibited, took carnival rides or ate fried rattlesnake (35 cents a serving).

One new member was taken into the Order of the White Fang, an exclusive organization for those bitten by a rattlesnake.

Eldon Martin, 17-year-old Okeene High School student, was struck in the left leg below the knee by one rattler while he was tracking another. His bite was described as serious, with his ankle swelling up three times normal size, but doctors said he would recover.

A snake worth $100 was marked and released in the hills but no one found it.

The going price at the sale of rattlesnakes was 50 cents a pound.

The biggest "mess" of snakes (92) was brought in by Bill Slover of White Flat, Tex.

Altogether, 1,500 pounds of rattlesnakes were sold.

Uncle Ray:

Goldfinches Appear To Enjoy Their Lives

By RAMON COFFMAN

There are redbirds and bluebirds, so why not yellowbirds: North America has many goldfinches, and they go under the special name of "yellowbirds."

As in other bird groups, the males are the songsters. Their favorite notes sound like "per-CHICK oh-ree."

Q. Are goldfinches the same as wild canaries?

A. Many persons speak of them as wild canaries. They differ, however, in several ways from the true canaries, which came originally from the Canary Islands.

Another name for the goldfinch is thistle bird. This name arose from the fact that goldfinches line their nests with thistledown.

Q. How high above the ground is a goldfinch nest placed?

A. Usually the nest is built in a bush, or on a low branch of an evergreen tree. It may be only four or five feet above the ground. In rare cases goldfinches make their nests on tree branches which are as high as 25 or 30 feet.

These little birds use strips of bark, leaves and moss when they build their nests. Thistledown is used whenever it can be obtained.

Goldfinches

Some goldfinches find old nests which have been given up by other birds, including blackbirds. In that case the old nests are given a soft lining composed of moss or thistledown.

Q. Does Canada have many goldfinches?

A. Yes, Thousands of gold finches nest in various parts of southern Canada. Among the provinces which have a good supply of them are Ontario, Quebec, Nova Scotia and Manitoba.

Observers are warm in their priase of goldfinches. Said one of them:

"Few birds seem to enjoy life more than these noisy rovers. Every month brings them a change of food, and they postpone their time of nesting."

FREE: FIVE SOUTH AMERICAN REPUBLICS is the name of a leaflet that tells interesting facts about our neighbors to the south. For your copy send a stamped self-addressed envelope to Uncle Ray in care of this newspaper.

Rock-n-Roll Dance Ends In Violence

PITTSBURGH (AP)—A rock 'n' roll dance ended violently last night when some 250 to 300 teenagers rioted in a parking lot outside the dance hall.

Police said they yelled, screamed, fought among themselves, smashed car windows and shoved two parked cars down an embankment into a creek.

Some 40 police and volunteer firemen rushed to the scene. The rioters ignored police, who fired about 15 pistol shots into the air. After being warned that fire hoses would be turned on them, they quieted down.

There were no immediate reports of injuries. About 30 of the rioters were taken to the borough building for questioning.

British Units Fire On Arab Mission

CAIRO (AP) — The Middle East British forces fired on an Arab League mission visiting Yemen's southern frontiers.

In a dispatch from Beida, Yemen, the Arab agency said British troops caught sight of military members of the mission yesterday and opened fire. In the resulting battle with Yemeni troops, the agency said, two British soldiers were killed and two Yemenites wounded.

The Arab League mission headed by Asst. Secretary General Ahmed Shkairy was sent to investigate charges of British aggression on Yemen's southern frontiers.

67 Die In Brazil

RIO DE JANEIRO (AP) — Sixty-seven persons, all believed to be Brazilians, were killed and 13 were injured yesterday in a plane crash, a train collision and a landslide.

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne®)—discovery of a world-famous research institute.

This substance is now available in suppository or ointment form under the name Preparation H.® At your druggist. Money back guarantee.

Costly Bonnet

The $4,500,000 Crown of the Andes, reputed to be the world's most valuable single piece of jewelry, is tried on for size by Renne Wachs, a Philadelphia stenographer, after the 360-year-old gem piece was delivered in Philadelphia, Penn., for display at the 1957 Conclave of the American Gem Society. The costly bauble, wrought of pure gold and Inca emeralds, is the largest collection of fine emeralds in the world. It is encrusted with 453 emeralds, more than 1,500 carats in weight.

New Storm Leaves Heavy Snow Belt

By The Associated Press

The third major spring storm to plunge eastward from the Rockies left a heavy belt of snow across parts of Indiana, Michigan, Ohio and New York State today.

Some schools were closed, power lines were snapped and traffic was snarled. The snowfall ranged from 3 to 12 inches.

Snow-plagued sections of the Great Plains breathed easier as the storm moved eastward. Skies were clearing in the Plains.

Toledo, Ohio, wallowed under a 10-inch snow blanket. Ten inches of snow also buried southeastern Michigan, closing rural roads to school buses. Roads throughout Monroe County, Mich., including the Monroe-Toledo Expressway were slushed up and dangerous.

The snow forced cancellation of horse racing programs until Wednesday at Ascot Park near Akron and Fort Miami Raceway near Toledo.

A belt of snow 6 to 10 inches deep stretched across Indiana from Rensselaer through Plymouth, Warsaw, Kendallville. It turned slushy after daybreak.

The storm blew into western New York reaching occasional blizzard conditions. Roads were buried under snow ranging up to 12 inches in Cattaraugus County, but plows were working.

Cold air which dumped as much as a foot and a half of snow in Colorado spread across a vast area. Its collisions with farm, moist currents prompted precautions against tornadoes or severe thunderstorms in a wide sector from East Texas to Tennessee. Farther north the result was expected to be roadslicking snow from northeastern Kansas through northwestern Missouri, southeastedn Nebraska and southwestern Iowa.

It was the third major storm in an unseasonable series coursing across the nation, but so far had not caused the loss of human life or livestock.

Behind the storm front, temperatures dipped sharply today in a small area centering around the juncture of Wyoming, Colorado and Nebraska. The mercury dived to zero at Fort Collins, Colo., 4 above at Laramie, Wyo., and 12 above at Sidney, Neb. Readings in the 20s and 30s were reported elsewhere.

The snow, then accompanied by brisk winds, closed several main highways Saturday night in Wyoming. It measured up to 13 inches at Lander, Wyo., on the east face of the Rockies. Smaller amounts fell in South Dakota and western Nebraska.

By yesterday the storm had fanned across eastern Colorado, burying Colorado Springs in 18 inches of snow, and into western Kansas and northeastern New Mexico.

Ground blizzards raged at intervals during the day, closing a section of highway east of Colorado Springs and at least one of the state's higher mountain passes. Warming sun started melting the snow blanket over most of Wyoming and eastern Colorado by late afternoon. All main routes were quickly reopened.

Overnight snow accumulations in the southern Great Lakes region included 3 inches at Goshen, Ind., and 5 inches at Erie, Pa.

Thunderstorms and showers were indicated today from the Lower Mississippi Valley northeastward into Tennessee and the Ohio Valley.

Rain mixed with snow was the prospect for the southern Great Lakes and parts of the North Atlantic Coast states.

The outlook for the Northern Plains, northern Great Lakes and South Atlantic coastal states was for mostly fair weather.

3 Negroes Held On Rape Count

DENISON (AP)— Three Negroes raped a 17-year-old white girl last night while her boy friend was held at gunpoint and charges were filed against two of them today, Police Chief Paul Borum said.

He said the youth, Howard Edwards, 17, drove the girl to a hospital and reported the assault.

The rape charges were filed at Sherman by County Atty. Steven Davidchek against Thomas Bell and Sammie Louis, both 17, of Denison. John Malvern, 15, was held on a juvenile charge and Davidchek said he intended to file felony charges when Malvern becomes 17.

The maximum penalty for rape in Texas is death.

Hounds from the Oklahoma state prison at McAlester led officers from the scene in Waterloo Park to a small house where the three were arrested, Borum said.

Edwards identified the three who he said attacked the girl in the rear seat of his car while they took turns holding a rifle on him.

Edwards said the three asked for his money but when they found he had only a few dollars told him to "keep it and get on into town."

Borum declined to name the girl.

It was the first such rape in Grayson County since a mob burned down the courthouse at Sherman in 1931 and hanged the charred body of a Negro accused of raping a white housewife.

Borum said there was no indication of any violence developing in this case.

Iranian Bandit Leader Slain

KARACHI, Pakistan (AP) — Pakistan border police said today that Dadshah, the leader of an Iranian bandit gang that killed three Americans, had been slain.

Police made the report in announcing the capture of 18 members of the gang, including Amhed Shah, who was said to have confessed murdering Mrs. Anita Carroll of Issaquah, Wash., wife of a U. S. Point Four official.

Iranian police previously had announced the slaying of three of the bandits, including one identified as the actual killer. The conflicting reports could not be reconciled immediately.

New Supersonic Jet Announced

ST. LOUIS (AP) — McDonnell Aircraft Corp. has announced development of a new supersonic jet interceptor, the F-101B Voodoo.

The plane, understood to have a speed in excess of 1,100 miles an hour, completed its first test flight March 27 at Municipal Airport here, the company said.

The craft is a two-man version of McDonnell's single seater Voodoo. The second space is for a radar observer.

CRMWD Board In Meeting Today

LAMESA — Two Lamesa directors, Ray Renner and Sam Richardson, were to meet Monday with the board of the Canadian River Municipal Water Authority at the Lubbock Chamber of Commer offices.

A discussion of the possibility of returning Amarillo, Pampa and Plainview to full membership in the authority was to be held. Members of the board also was expected to adopt several resolutions which have been proposed to handle new plans for proceeding with the project, a dam at Sanford to provide water for member cities in the Panhandle and South Plains.

Boat Hits Pole, Disrupts Phones

Telephone connections in the southwestern part of the city were affected a short time this morning after a pole had been hit and wires broken.

The break was in the alley between Gregg and Lancaster in the 1700 block. Residents in the neighborhood told police that a boat being pulled by a motorist came loose and swung into a telephone pole. The connections were disrupted for only a small time, however, and only a few persons were affected.

5 Cars Peppered By Airgun Vandals

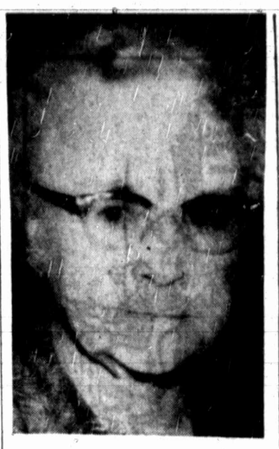

Windshields on five cars at the Hamby-Parrish Used Car Lot were peppered with BB shot over the weekend. The report came to the police department Saturday.

Sunday, Harvey Hooser called the police department and reported eight windows shot out of a Scout bus parked at the Scout hut at 900 Bell.

Also reported broken were two windows at the Church of Christ at 14th and Main.

Run-Away, 14, Held

City police took a 14-year-old into custory Saturday. He was a run-away from Little Falls, Minn. He was turned over to the juvenile officer, A. E. Long.

MRS. A. M. SULLIVAN

Mrs. Sullivan Dies Sunday

Mrs. Mallie Ray Sullivan, 72, resident of Howard County for 54 years, died Sunday afternoon of a heart attack suffered at her home, 1315 Wood.

Funeral services will be conducted at 2 p. m. Tuesday in the First Baptist Church at Coahoma with her minister, Rev. Mark Reeves, officiating. Rev. L. W. Tucker, First Methodist pastor of Coahoma, will assist.

Mrs. Sullivan was born Nov. 3, 1884, in Erath County and moved to Howard County in 1903. She and A. M. Sullivan were married Nov. 5, 1905, and lived at Coahoma until 1950 when they moved to Big Spring.

She is survived by Mr. Sullivan, two daughters, Mrs. T. R. Hall of Big Spring and Mrs. J. S. Cochran of Coahoma, and four grandsons. Another daughter, Mrs. Tom Birkhead, died Nov. 16, 1954.

Interment will be in Trinity Memorial Park under direction of the Nalley-Pickle Funeral Home. Pallbearers will be H. H. Morris, Jesse Talton, S. L. Lockhart, Jimmy Parks, Bennett Hoover and Ben Ferrell.

Lamesa FFA Wins Firsts

LAMESA — The Lamesa FFA Chapter won two first places in the Mesa District judging contest here Saturday.

The cotton team make up of Ronnie Ray, David Shrauner and Joe Walton took a first, as well as the livestock judging team, composed of Dwain Erwin, Billy Addison, Hubert Dean and Bill Bartlett. Ronnie Ray placed as high man in the cotton judging contest.

The contest was held at the high school agricultural building with six divisions judged. They were livestock, poultry, meats, cotton, dairy, and seed. Teams competing were Ackerly, Loop, Seminole, Seagraves, Flower Grove, and Lamesa.

Poultry — Seminole, 1st; Loop, 2nd and Flower Grove 3rd.

Crops — Dawson; Cotton-Lamesa; Land-Flower Grove; Grass-Seagraves 1st, Loop, 2nd and Lamesa 3rd. Dairy Cattle-Seminole, 1st, Dawson 2nd and Ackerly 3rd. Dairy Products-Seminole.

Herring Services

Funeral services were to be held in Marshall for R. L. Herring, brother of Fred Herring of Big Spring.

MARKETS

WALL STREET

NEW YORK (AP) — Aircrafts rose in an irregular stock market early today. Key stocks made gains of fractions to a point. A wide assortment of fractional losers appeared.

Trading fell off after an active and slightly higher opening.

Douglas Aircraft, Boeing and Glenn Martin were up around a point or more as aircrafts were in fairly active demand.

Some gains were posted by motors and oils but trading was not so brisk. General Motors, Chrysler and Studebaker were steady to a bit higher. Ford eased.

Gulf Oil advanced well over a point. Texas Co. and Royal Dutch were up narrowly. Sinclair and Standard Oil New Jersey were easy.

Republic Steel rose around a point but U. S. Steel and Youngstown were off fractionally. Metals, rails, chemicals and utilities were narrowly mixed.

Radio Corp. was off ¼ at 34⅛. El Paso Natural Gas up ¼ at 38½ and American Telephone off ⅝ at 117⅛.

LIVESTOCK

FORT WORTH (AP) — Cattle 2,800; calves 700; steady to strong; good to choice steers 18.50-23.00; common and medium 13.00-18.50; fat cows 12.50-15.00; good to choice calves 20.00-24.00; common and medium 15.00-19.00; stock steer calves 22.00 down; steer yearlings 21.00 down.

Hogs 1,300; steady; choice 18.25.

Sheep 1,220; lambs 50 or more higher; good to choice spring lambs 22.00-24.00; good to choice old-crop lambs 19.00-21.00, aged wethers 14.00 down; ewes 5.50-7.50.

COTTON

NEW YORK (AP) — Cotton was unchanged to 10 cents a bale higher at noon today. May 33.18, July 34.67, October 33.54.

Big Crowd Attends Boat-Sports Show

West Texas' growing interest in boats and associated water sports equipment was demonstrated strongly Sunday, as Big Spring dealers, in cooperation with The Herald, staged their first annual Boat and Sports Show.

Attendance at displays at the National Guard Armory ran into thousands. There was a house full of "lookers" at practically all hours of the show, running from 1:30 to 6:30 p.m.

Visitors had leisure to inspect dozens of boats, ranging from small craft to large inboard models, to inspect various types of outboard motors, as well as various other water sports items. Exhibitors said they were gratified with the crowd and with interest manifest in the displays.

Firms which had exhibits included Jim Ferguson, Jim's Sporting Goods, Montgomery Ward, Lumber Bin, Sportsman-Toyland, Sport Center and White's Store.

The exhibitors arranged for two merchandise gifts of $75 and $25 to visitors who registered.

Winners were:

$75 in Merchandise — Frank M. Hazleton, 1001 East 14th Street.

$25 in Merchandise — N. W. Robertson of San Angelo.

Letters entitling these people to their certificates are available at The Herald office.

HOSPITAL NOTES

BIG SPRING HOSPITAL

Admissions — E. H. McDaniel, Box 128; Glenda Long, 1902 Johnson; Larry Grogan, 700 Goliad; James Harrington, 905 E. 13th; Nettie Wallace, Gail Rt.; Eddie Mae Graham, 105 Jefferson; Glenda Gill, Garden City; Junior Corralez, 604 NW 8th; Manuel Hernandez, Coahoma; Ella Louise Graves, Rt. 1; Mrs. G. Suit To Close Cafe On Trial

City of Big Spring is seeking an order in 118th District Court to enforce closing of a cafe which it contends is operating in violation of zoning regulations of the city.

The case, being tried before Judge Charlie Sullivan opened on Monday morning.

The petition alleges that J. T. Thornton Jr., is owner of a building in Lot 11, Block 1, Belmont Addition. The city asserts that he has rented this building to Mr. and Mrs. M. C. Prevo and that a cafe is being operated in the building.

Walton Morrison, city attorney who filed the petition and who is representing the city, asserted that the particular area where the building is located is classified as "Zone E" under the city zoning ordinance.

Provisions of the ordinance forbid operation of restaurants, cafes and eating establishments in areas which are classified as Zone E.

The city seeks to force the removal of the establishment.

A long list of witnesses have been summoned by the city in connection with the hearing. George Thomas is representing the defendant at the hearing.

Collision Occurs Near Post Office

One accident occurred this morning, and four came over the weekend.

Mrs. R. O. Carothers, 1405 Stadium, and G. G. Morehead, 900 Birdwell, were involved in a minor mishap in front of the post office this morning.

Sunday, Frankie Davis, El Paso, and Vollie Calloway of Webb AFB, collided at Fourth and Bell.

In the 700 block of Bell Saturday, Wesley Jones, 1301 W. 2nd was involved in an accident. A hit-and-run was reported at N. Gregg and Fourth, but police information did not show whose car was hit.

Thomas Scarber, 1907 Morrison, and Mrs. Shirley Gelston, 203 Presidio, were in collision at Second and Benton Saturday.

Lamesa Newsboy Hurt In Mishap

LAMESA — Kevin Sires, newspaper carrier boy for the Lamesa paper, received a broken leg and bruises in a motor scooter accident late Saturday afternoon about six miles north of Lamesa.

The accident occurred when Kevin turned to check his gasoline, while returning to Lamesa on the Brownfield highway about 4:30 p. m. He stated that was the last he remembered. A passing tourist stopped and radioed a Seminole party who in turn called Lamesa for an ambulance.

Smoking In Bed Blamed For Fire

Smoking in bed caused fire damage to a mattress here Sunday.

Firemen from the 18th and Main substation were called to a blaze at 2000 Gregg. Then they arrived a mattress was burning in the front yard. Their report showed that a resident had been smoking in bed. The mattress caught on fire and was then carried to the yard.

No damage resulted from a trash fire at 203 Princeton Sunday.

One Bike Found, Another Is Lost

One girl's bicycle was found and another reported lost over the weekend.

A black and white bicycle was found at 602 NE 2nd by police Saturday and brought to the station.

Then Sunday, Mrs. R. E. Dobbins, 1511 Tucson, called the police department and reported loss of a green and white bike.

438 Rotarians Throng Lamesa

LAMESA — A total of 438 delegates were registered at the 183rd District Rotary Conference which opened here Sunday night.

The meeting will continue through noon tomorrow.

Religious services were held last night at the First Methodist Church with the Rev. Walter Horn, pastor of First Presbyterian Church and president-elect of the Lamesa club, as speaker.

Walter Jenkins, Houston, official song leader for Rotary International, led the singing. Jenkins and Mrs. Jenkins are to be featured during the conference on the various programs.

Monday morning Matt McCall, Lamesa, district chairman, called the meeting to order and presented D. L. Adcock, president of the Lamesa club who welcomed the visitors. Mayor Crawley extended welcome on behalf of the city.

Harold Williams, Sharock, made the response.

District governor Rex Wester, Lubbock, presented Adolpho Autrey, Mexico City, official personal representative of Paul Lang, president of Rotary International to the conference.

C-City Jaycee Award Presented

COLORADO CITY — Joe Salter, 31-year-old employe of the Texas Electric Service Company, has been honored by the Colorado City Jaycees with the ninth annual Distinguished Service Award.

The award is presented each year to an outstanding young man in the community between the ages of 21 and 36. Salter is active in activities of the Junior Chamber of Commerce, the First Baptist Church and Scouting and has worked with Little League Baseball.

He is married and has two children.

Firm's Beer License Suspended 21 Days

Texas Liquor Control board office here announced Monday that beer license of Jack Bennett at Drive-in Grocery No. 3 on West Highway 80 has been suspended for 21 days effective today.

The TLCB said that the suspension was for violation of the law dealing with the sale by employes of the company of beer on Sunday.

Camera Thieves Raid 2 Stores, $2,000 Taken

Burglars with a flair for picture taking raided a photographic studio and a drug store sometime Saturday night and got away with over $2,000 in cameras and associated gear.

Burglarized were Bradshaw's Studio at 508½ Main and Elliott's Drug Store at 1714 Gregg. Lewis 5&10, 1712 Gregg, was also entered but police reported nothing missing.

A call Sunday morning from Lewis led to discovery of the drug store burglary, and later the report came of the Bradshaw job.

At the variety store, the burglars entered through a rest room window at the rear of the building, but nothing was missed.

The burglars also entered the drug store through a rest room window at the rear, and officers surmised the burglars could have thought they were entering the drug store when they went into the other.

Ace Elliott, owner of the store, estimated the loss at $1,215. The list of stolen goods included four exposure meters, two still cameras, two movie projectors, a camera kit, two pieces of luggage, 15 rolls of movie camera film, a flash gun, six watches, five cigarette lighters, three Polaroid cameras, three Polaroid flashguns, 100 rolls of Polaroid film, three billfolds, a desk set, and two electric irons.

Leo Hull, police detective, said the persons probably used the two pieces of luggage to cart away the loot.

At the photographic studio, Bradshaw reported loss of three movie cameras (two 8 mm and one 16 mm models), one exposure meter, three still cameras, and a radio. The equipment was valued at $1,019.

Burglars entered through the building from the rear, using a door, investigators claimed.

Hull said that the two burglaries were probably committed by the same persons. He also thought the person probably had an outlet for the gear before making the raids. The two 'jobs' carry a similarity to other recent burglaries in Big Spring, he said.

Sheriff's Car Bids Rejected

County commissioners rejected all bids submitted for a new car for the sheriff's department Monday morning.

Only two bids were received — one from Shroyer Motor Company, for an Oldsmobile, and one from Lone Star Motor Company, for a Chrysler.

The dealers, it was said, had gotten the impression that the county intended to buy a heavy car for the sheriff's department and the dealers in the lighter car fields did not bid.

The commissioners said that the impression that only a heavy car would be considered was in error.

Sheriff Miller Harris, when he had made the request for a new car for his department, suggested that a bigger car would be appreciated but no agreement was made by the court that such a purchase would be made.

New bids will be sought.

In Hoosier Play Cast

Sandy Havens, 810 E. 18th, Big Spring, has been cast as Paul Verrall in the Indiana University production "Born Yesterday." The play, last of the season by the I. U. Theatre, will be given April 26 and 27 and May 3 and 4.

Judge Charges Jury In Dr. Adams Murder Trial

LONDON (AP)— The judge today told a jury trying Dr. John Bodkin Adams for murder that Adams was within his rights in not testifying—but admitted it was "unusual."

The 58-year-old society doctor looked through his horn-rimmed glasses straight at the justice, Sir Patrick Arthur Devlin, as he summed up the case before the jury retires.

Dr. Adams is charged with drugging to death Mrs. Edith Alice Morrell, 81, to gain under her will.

The judge's summation followed a final statement to the jury by Atty. Gen. Sir Reginald Manningham-Buller declaring there was no indication that death was approaching for the woman Dr. Adams is accused of murdering. Buller said none of the nurses who cared for Mrs. Morrell "spoke of her suffering terrible agony."

The defense had claimed the 58-year-old society physician stepped up the dosages of heroin and morphia given Mrs. Morrell in her last days to relieve her pain.

In his own summation Friday, chief defense counsel Geoffrey Lawrence contended Adams had no reason to kill the old woman because her death was inevitable and probably imminent. The prosecution charged he wanted to do away with her before she could remove from her will clauses leaving the doctor a chest of antique silver and a Rolls-Royce automobile.

Mrs. Morrell died in November 1950 in Eastbourne, a seaside resort where Dr. Adams had a wide practice among the many elderly rich who had retired there. She had suffered a stroke two years before. She altered her will just before she died to cut Dr. Adams out but her son gave him the silver and the car anyway.

Clearance Of Suez Canal Is Completed

CAIRO (AP)—U. N. salvage crews today completed clearance of the Suez Canal by lifting and hauling away the sunken Egyptian freighter Abukir.

The Abukir, last major block in the 103-mile waterway, was towed to a dumping ground in the Bitter Lakes north of Suez.

Removal of the freighter opens the canal to ships up to 20,000 tons—provided the Egyptian government gives a go-ahead. Before removal only ships of under 10,000 tons could go through.

Lt. Gen. Raymond A. Wheeler, chief of the clearance operation, is expected to send word to U. N. Secretary General Dag Hammarskjold, who will notify the General Assembly. The 81-nation Assembly authorized the canal clearance after the cease-fire which halted the British-French-Israeli invasion of Egypt last fall.

Speculation arose in Cairo that President Nasser may demand withdrawal of U. N. Emergency Force troops from Sharm el Sheikh on the Gulf of Aqaba as a result of an American tanker's trail-blazing trip through the disputed waterway with oil from Israel.

The 10,441-ton Kern Hills pumped Iranian oil into waterfront tanks in Israel's port of Eilat while Israeli soldiers stood guard with machine guns.

Glenn E. Moseley of Portland, Ore., captain of the Kern Hills, said he expected to finish unloading his cargo — 1,000 tons of fuel oil and 15,500 tons of crude oil — and sail by midnight tonight.

The Kern Hills sailed into Eilat Saturday under the U.S. flag with her Persian Gulf cargo after an epoch-making voyage through the disputed Tiran Strait. She is the first tanker and the biggest ship ever to anchor at Eilat.

The Israelis hailed the voyage as a forerunner of others to come on regular schedule. They insist the Tiran Strait, mouth of the Aqaba Gulf, is an international waterway open to all shipping. The Israelis figure the more ships that travel the gulf to Eilat, the better case Israel can make before the World Court if the Arabs try to stop the traffic.

Egypt and Saudi Arabia, which command the strait's shoreline, declared passage is through Arab territorial waters. They have served notice they intend to block Israeli commerce as that of an enemy nation.

Egypt used Sharm el Sheikh as an artillery position to keep Israeli shipping out of the gulf until Israel captured the Egyptian coast in her invasion last fall. The Israelis destroyed the Egyptian shore guns and turned the coastal position over to the UNEF forces last month.

DWI Charge Filed

Charges of DWI have been filed against James Hoyt Conine and he has posted $500 for his appearance in county court. Conine was arrested Saturday by the highway patrol.

Forgery Is Alleged

Charges of forgery again Jack Wise have been filed in the court of Walter Grice, justice of peace. Wise is accused of having forged a check for $19 and signed the name of Washington Fence Company to the paper.

Good Shows Of Oil Reported On Test In Eastern Borden

Operators found strong shows of oil production while drillstem testing a wildcat in the eastern part of Borden County over the weekend.

The tested zone was not reported, however.

At the Shell Oil No. 1-A Miller, eight miles east of Gail, operator recovered 100 feet of heavily oil and gas-cut drilling mud and 4,500 feet of free oil with no water on a drillsetm test. The oil tested 39 gravity.

In Dawson County, Camp-Jones No. 1 Wasson completed as the second well in the North Ackerly (Dean) field for a daily pumping potential of 193.20 barrels of 28-degree oil. It is six miles north of Ackerly.

Borden

Tidewater No. 1-B Clayton-Johnson, a wildcat 10 miles southwest of Gail, drilled today past 5,278 feet in lime and shale. The test is 660 feet from south and 2,019 feet from east lines, 9-32-4n, T&P Survey.

Twelve miles northeast of Gail, Sinclair No. 1 Koonsman projected to 6,811 feet in lime. It is a wildcat C NW SE, 27-2, T&N Survey.

Shell No. 1-A Miller drilled today at 7,808 feet in lime after taking two successful drillstem tests. On the first test from 8,688-740 feet, open two hours, gas surfaced in eight minutes. It recovered 100 feet of heavily oil and gas - cut mud and 4,500 feet of free oil, testing 39 degrees. Flowing pressure was from 130-1,205 pounds. Shutin pressure for 30 minutes was 3,190.

On a subsequent test from 7,742-63 feet, with the tool open two hours, gas surfaced in 10 minutes, and operator recovered 100 feet of heavily oil and gas-cut mud, 1,800 feet of free oil, but also 400 feet of salt water. Flowing pressure was 1,170 pounds, and 30-minute shut-in pressure was 2,170 pounds. Shell did not report the zone on either test. The venture is eight miles east of Gail, 646 feet from south and 1,972 feet from east lines, 275-97, H&TC Survey.

Dawson

Camp - Jones No. 1 Wasson, six miles north of Ackerly finaled 193.20 barrels of 38-degree oil and five per cent water in 24 hours. It is the second well in the North Ackerly (Dean) field. It produced naturally from perforations from 8,245-365 feet. The well is 550 feet from south and 660 from east lines, 23-34-4n, T&P Survey.

Humble No. 2 Stewart prepared to run casing at the plug - back depth of 7,700 feet today. The hole extends to 9,484 feet. It is a wildcat 19 miles southeast of Lamesa, C NE SW, 5-33-4n, T&P Survey.

Humble No. 1 Britt, a mile and a half northwest of Lamesa, drilled to 4,346 feet in dolomite. It is a wildcat C SW SW, Labor 16, League 3, Taylor CSL Survey.

Hunt No. 1 Freeman is now shut-in. Earlier, it flowed 60 barrels of new oil in 16 hours from perforations between 11,159-73 feet. Location is 2,118 feet from south and 660 from east lines, Labor 11, League 275, Glasscock CSL Survey.

Camp - Jones No. 1 Middleton cored today below 7,118 feet in shale. Location is a wildcat six miles southeast of Lamesa, C SW SW, 30-34-5n, T&P Survey.

McRae No. 1 Landers moved in a new rig today. The old unit was damaged by high winds two weeks ago. The wildcat is 14 miles west of Lamesa, 1,984 feet from north and 2,348 from east lines, Labor 4, League 280, Hutchinson CSL Survey.

Seaboard No. 2-A Weaver, in the East Mungerville field, projected to 6,149 feet in lime. It is 1,653 from north and 660 from east lines, Labor 7, League 3, Taylor CSL Survey.

Glasscock

In the Garden City field, Hamilton-Zapata No. 1-8 Clark drilled to 8,665 feet in lime. It is 1,985 feet from north and 2,318 feet from west lines, 8-32-4s, T&P Survey, seven and a half miles east of Garden City.

Howard

Jones Drilling No. 1 Pauline, a wildcat 22 miles northeast of Big Spring, projected to 7,075 feet in shale. It is 1,263 from south and 990 from east lines, 57-20, Lavaca Navigation Survey.

Kenneth Neel Case To Be First On Docket Monday

Guilford Jones, district attorney, Monday announced the cases which he said would be scheduled for trial during the week of April 15 in 118th District Court. Judge Charlie Sullivan has set a jury docket for criminal matters to open on that date.

Jones said that all criminal cases now pending in the court are actually docketed for trial and that the list he released today are those which he wants to try first when the court session begins.

First on the list of cases to be called will be Kenneth Neel charged with robbery by assault. Neel was one of two men who overpowered Jailer Joe Pierce and broke out of Howard County jail recently.

Other cases listed:

Pablo Florez, car theft; Hugh A. Currie, attempted burglary; George Kruseley, burglary; Troy James, robbery by assault; Clifford Dawson, robbery by assault; Thomas Rodriquez, possession of marijuana; Daniel Clevenger, burlary; Frances Williams, forgery; Moses Viera, burglary; Andrew Perez, burlgary and Grand B. Williams forgery.

THAT ERE? E IF HT.

I GOT NEWS, HONEY!... SOMEBODY JUST DID!

ITH CAVELL! NOW THAT FORMALLY UCED, WHAT YOU LIKE DINNER IGHT?

CALLED MEETING Staked Plains Lodge No. 598 A.F. and A.M. Monday April 8, 7:00 p.m. Work in Master's Degree.
E. C. Arnold, W.M.
Ervin Daniels, Sec.

Man, you are not by yourself! What a lot of them come in here! We understand all about the jam you can be in — for $300 you haven't got! You should see that big SMILE when they walk out with that check for $300! Or $500 or $900. LOOK: $15.54 per month (24 months) repays that $300 here — and you get a big smile from US every time. Subject to usual credit requirements, naturally. But quick, private, friendly, like you want it. Get yourself on down here—and get some sleep— Now, tonight! ~~SOS for SIC~~

Landing Gear Troubles Hit Texas Airlines

By The Associated Press

Landing gear troubles plagued airlines over Texas Sunday, but no one was hurt in the uneasy moments.

An American Airlines DC6 with 52 persons aboard lunged over on its nose at El Paso when the nose wheel gear collapsed on landing. The craft tipped forward and skidded to a halt with the fuselage and tail tilted upward at a 45-degree angle.

A Continental Airlines plane with 36 passengers and crew of three landed safely after circling the Lubbock Airport for about 20 minutes with a landing gear malfunction.

Capt. G. F. Smith of Dallas, the pilot, said the gear was lowered but a light indicating it was locked did not come on. He said the light eventually came on after the co-pilot, Carl McGee of Dallas, hit the gear lock with a broom handle through an inspection window.

"I hope they make those broomsticks standard equipment," said passenger Bob Corliss of Dallas after the uneventful landing.

The nose gear on the American ship at El Paso collapsed after the giant four-engined plane had completed its landing run and was almost stopped. Seat belts were still fastened.

Passengers and crew left the plane through a door in the crew's compartment in the forward part of the plane. Damage was light.

Continental stewardess Stella Romak of Albuquerque told passengers if the ship made an emergency landing they should place pillows on their knees and bury their faces in them. Many passengers admitted being nervous, but said all aboard were calm.

Maj. Frank Stanley of Ft. Campbell, Ky., said "We could surely tell when the trouble was over. She (the stewardess) certainly had a big smile on her face when she came out of the cockpit to tell us that the landing gear was fixed."

The plane left Dallas en route to Albuquerque, with stops at Fort Worth, Abilene and Lubbock.

Rescued From Safe

David Rude, 15, Cheri Stevenson, 11, and William Moore, 16, are all smiles after they were released from a 10x7 walk-in safe at San Francisco, Calif. The three were trapped for two hours, while firemen worked frantically with cutting torches and jackhammers. Someone slammed the door shut and twisted the knob of the safe in a partly-wrecked mansion, trapping the youngsters.

Management-Union Collusion Quiz Due

WASHINGTON (AP) — The Senate Rackets Committee soon will open public hearings on alleged collusion between "dishonest management and dishonest unions" in the New York area construction industry.

This word came yesterday from Sen. Mundt (R-SD), a member of the committee which has been concentrating up to now on activities of Teamsters Union officials. The committee is empowered to look into charges of racketeering by both unions and management.

The hearings are in recess while the investigators check into complaints now totaling about 20,000.

Chairman McClellan (D-Ark) said Saturday, "The magnitude of this investigation is just beginning to appear."

Mundt told a television panel the hearings on the New York situation will begin soon after Easter and will have "all the facets of melodrama."

The alleged management-union collusion, he said, led to defrauding of veterans buying homes. He did not go into detail, but said "strong arm" methods figured in the situation and that these included acid throwing and "goon squads."

Mundt's reference to acid throwing recalled the blinding of New York labor columnst Victor Riesel in this manner. Riesel had written and broadcast about some unions in the construction industry before he was attacked. But Mundt did not mention Riesel in connection with the forthcoming hearings.

A key figure in the Rackets Committee's probe has been Dave Beck, head of the giant Teamsters Union. Beck refused repeatedly to answer committee questions about his finances. He invoked his Fifth Amendment privilege, contending that if he replied to those questions he might incriminate himself. Beck said he is the subject of an Internal Revenue Service investigation.

The committee has said it has evidence Beck used $320,000 in Teamster funds for his own purposes.

Arthur Condon, one of Beck's lawyers, said yesterday federal tax charges might be brought against Beck in Tacoma, Wash., before May 15. But he said he had no special information on that matter. Beck's home is in Seattle.

Daniel Calls For Free Data Flow

SAN ANTONIO (AP)—Gov. Daniel called last night for freedom of information from all government agencies. He said Texas needs a free press to encourage good government.

Daniel spoke to a Sigma Delta Chi, journalism fraternity, dinner.

Daniel commended newsmen for their coverage of the federal narcotics investigations he headed as a senator and gave newspapers credit for helping get stiff federal laws enacted.

Daniel said there must still be some secret meetings in government, but fewer are needed.

Queen Elizabeth On Visit To Paris

PARIS (AP) — Queen Elizabeth II of Britain and the Duke of Edinburgh arrived in Paris today for a four-day official visit. France was determined to make her stay the most colorful pageant the republic has ever staged for a monarch.

President Rene Coty and a host of top-hatted French dignitaries beamed as the Viscount airliner landed the young Queen and her husband at flag-bedecked Orly Airfield. About 1,000 persons were in the official welcoming party.

A huge audience watched on television. The drive to the airport and streets on the Queen's route were jammed with crowds waving small British and French flags.

A bright sun shone and a brisk breeze was blowing from the direction of the English Channel.

The Queen stepped smiling from the four-engine plane in a beige ensemble. Prince Philip wore the uniform of a Royal Air Force marshal.

The visit is intended to strengthen ties between Britain and her closest European ally. A busy round of entertainments and sightseeing was arranged for Elizabeth's first trip to the French capital since she became queen.

From midtown bistros to humble suburbs and homes, the British colors were seen on every side. Near-record Sunday crowds thronged the main streets and avenues to see the decorations.

Motorists apparently threw caution and gasoline ration tickets to the wind. Long lines of cars virtually immobilized traffic on the main streets. By radio and newspaper, officials appealed for cars to be left at home during the Queen's visit.

The Eylsee Palace kitchen staff was plunged into despair and the chef reduced to tears by the collapse of the lavish cake prepared for the Queen.

The spun-sugar cake had been shown on television.

The three-foot-high masterpiece was decorated with a blue world map featuring Britain and France and was topped by flower decorations. It took several days to make.

The collapse was attributed to the heat of the room where the cake had been proudly placed. A palace spokesman announced sadly that there was no chance for repairs. But there was one consolation: the cake was just to be looked at, not eaten.

'Yul' Heads Sore

ANKARA (AP)—Two young Turkish admirers of actor Yul Brynner today nursed bumps on their freshly shaved heads. Police said the two who shaved their pates in imitation of the bald star were set upon by a group of nonadmirers. Police broke up the encounter.

Dulles Says Budget Slices 'Too Deep'

WASHINGTON (AP) — The Eisenhower administration "probably cut too deep, certainly too rapidly," into State Department appropriations in previous years, Secretary of State Dulles says.

His testimony before a House Appropriations subcommittee, released yesterday, gave that and what he said were America's increased responsibilities throughout the world as reasons for needing more money.

The department is asking about 228 million dollars for its operations for the year starting July 1. Rep. Rooney (D-NY), chairman of the subcommittee, said the figure is about 44 millions higher than last year and would add 1,625 persons to the payroll.

But Dulles said that if he were held to last year's total, he probably would have to ask Congress later for a supplemental appropriation.

That is the system under which Congress sometimes must restore in the actual spending year some of the cuts it took credit for making in the regular appropriation bills.

One such supplemental measure already has been passed this year, and another is being prepared. Some of the items are for costs which couldn't be anticipated at the time of the regular appropriations. Others make up shortages where the original figures were too low.

Dies Of Injuries

DALLAS (AP)—Emanuel Kelly, 56, died yesterday from injuries received March 28. Police said Kelly was struck over the head with a pipe and kicked off a loading dock in a fight. Later, in jail, police said he fell from his bunk onto a concrete floor.

Organization Held For Catholic Men

HOUSTON (AP)—An organization meeting was held yesterday for the new Diocesean Council of Catholic Men for the Galveston Diocese. More than 3,000 attended.

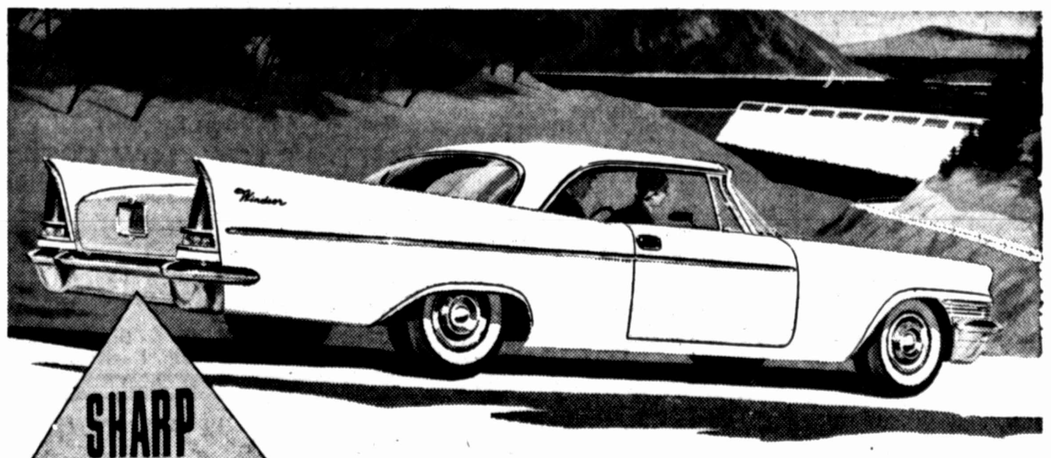

The most Rev. Wendolin Nold, bishop of Galveston said the council's main purpose is to "implement, increase and expand Catholic Action in this particular land and throughout the nation."

If you are a victim of these symptoms then your troubles may be traced to Glandular Inflammation. Glandular Inflammation is a constitutional disease and medicines that give temporary relief will not remove the causes of your troubles.
Neglect of Glandular Inflammation often leads to premature senility, and incurable malignancy.
The past year men from 1,000 communities have been successfully treated here at the Excelsior Institute. They have found soothing relief and a new zest in life.
The Excelsior Institute, devoted to the treatment of diseases peculiar to older men by NON-SURGICAL Methods has a New FREE BOOK that tells how these troubles may be corrected by proven Non-Surgical treatments. This book may prove of utmost importance in your life. No obligation. Address Excelsior Institute, Dept. H563, Excelsior Springs, Mo.

THE MIGHTY CHRYSLER
Most glamorous car in a generation

SHARP CURVE ...except for Chrysler!

For Chrysler Owners the era of lurch, lean and lunge has ended. Torsion-Aire Ride . . . Chrysler's all-new suspension . . . makes road travel a relaxing new kind of motion!

In the glamorous new Chrysler there's no more tensing yourself against sudden stops . . . no more leaning against curves . . . no more jolting and bobbing on rough roads. The reason is Torsion-Aire Ride, greatest automotive ride improvement in 20 years.

This new ride is an exclusive combination of suspension features that make Chrysler the smoothest sailing land yacht afloat. No other car in its price class has torsion bars *and* rubber-isolated ball-joints *and* outrigger rear springs *and* a new lower center of gravity. Together, they spell a new sensation in motoring the others can't even imitate.

This history-making new development is just one of the new experiences awaiting you in the Mighty Chrysler for 1957. You're in for a pleasant surprise, for example, when you learn how easy it is to own. The Mighty Chrysler actually costs no more than many models of the medium- and even low-priced cars . . . cars that *do not* have Torsion-Aire Ride, new pushbutton TorqueFlite* drive and other Chrysler features. Come in today and drive the Mighty Chrysler.

*Optional at extra cost
