Hayward Thompson Tells Of His Par-Optic Vision

Bill Is Out For More Nut Work

COLORADO SPRINGS, Colo., April 29. (AP)—Bill Williams, of Rio Hondo, Texas, who won renown through his 2-day push of a peanut in the Rio Grande valley in payment of a bet on the past national election, today announced his intention to push a goober to the summit of Pike's Peak, he said today.

The peanut and Bill will start toward the summit May 30, and the climb up the historic peak is expected to take about 22 days. Williams said he will make the trip on his hands and knees. The Texas man declares that he never has essayed a mountain yet, and regards Pike's Peak as a challenge to his skill.

Dallas Men Have Praise For City; Spend Night Here

Lubbock's Growth Lauded

By Visiting Good Will Delegation; Visit Other Towns Of Section Today

Describing Lubbock as "the Dallas of the Plains," 125 Dallas emissaries of goodwill left aboard their special train early this morning on a north and eastward journey back to their city of origin, after spending since 3 p. m. Monday as guests of this city.

Upon arrival here the Dallas excursionists paraded through downtown streets, led by their municipal band, and disbursed to spend a few among merchants of Lubbock. Last remaining hours before closing time the visitors were entertained with an informal dance at the Hotel Lubbock, music for which was furnished by an orchestra, composed of members of the visiting band.

Numerous expressions were heard from Dallasites, at the remarkable growth made in Lubbock since their last goodwill trip here three years ago, and predictions that "The Hub of the Plains" would become a mighty city were made by many.

The trade-trippers came here from El Paso, where they spent Sunday, and will return by way of Plainview, Lockney, Floydada, and other towns along the Fort Worth and Denver.

Grand Jury List For 72nd Is Named

Hostelry May Go To Sixteen.

Official Says: 1929 Total Predicted To Exceed Six Million Dollars

BESTING the record of any month in the history of the city of Lubbock by more than \$425,000, April building permits soared to the new high level of \$929,425 yesterday, when a permit for \$400,000 was issued by City Building Inspector D. J. Schiaz, to the Hilton Hotel company for the erection of a 14-story modern hotel at the site of the old Merrill, corner of Texas avenue and Main street.

The April building total already stood at a high mark, namely \$521,425, the additional permit of the Hilton company, and that of two other small permits which amounted to \$8,000, bringing the exact record for the month to within a little more than \$70,000 of being a million dollars. This places the year's total for Lubbock at \$2,053,043, a mark exceeded only by such cities as Houston, San Antonio, Dallas and Fort Worth, in the state.

Prisoners Can't Make Break Here

GREENVILLE, April 29. (AP)—Hunt county has in its new jail here eight men who couldn't be liberated.

The eight will admit it is a lot easier to get into jail than out. And so will several deputy sheriffs who worked, unsuccessfully, for several hours today in an attempt to force open the compartment door where the men are imprisoned.

The district judge ordered today the men be brought into his courtroom for trial. Deputies tried to comply with his orders, but they couldn't. The door wouldn't open.

An expert at jail locks is on his way to Greenville from San Antonio. Meanwhile, food is being passed between the bars to the men.

Senate Vote On Relief Bill Asked Before Week End

McNary Notifies Of Move To Bring About Balloting On Question; Fight On Debenture Certain

WASHINGTON, April 29.—Notice was given the senate today by Chairman McNary of the agricultural committee that a final vote on the farm relief bill would be taken before the week-end adjournment Friday.

Before the final vote, administration leaders will call for a decision on the export debenture section, opposed by President Hoover, against which they claim to have a majority.

Advocates of debenture plan today continue their efforts on its behalf but a division of sentiment was noted among them over the amendment proposed by Norris, republican, Nebraska, to provide for a reduction of debenture rates whenever overproduction is forecast in a debenture product.

New Park Site Is Purchased By City

Block Of Land In South Side Addition Bought Monday For City Park; \$4,400 Is Price Paid

At a special called session of the city commission, held Monday afternoon, that body ordered the purchase of block number 16, South Side addition, for the purpose of establishing a city park. Mayor Harley D. Woods announced.

The block of land includes 22 lots, 20 of which are 40 feet in length and two of them 30 feet by 270 feet wide. Price paid for the property was stated as being \$4,400. The site is located between Avenues K and L, and Twenty-Third and Twenty-Fourth streets. It will make the fifth city park to be owned by the city and is part of a program of park expansion started early this year by the commission.

NEW YORK, April 29. (AP)—A warrant was issued tonight for the arrest as a material witness of Earl Francis Peacock, 21, husband of Mrs. Dorothy Heineisman Peacock, 20, of New York, victim of a "torch" killing near Scarsdale, Saturday.

Identification of the body as that of Mrs. Peacock was made today by the girl's mother, who said the dead girl had been separated from her husband. Mrs. Peacock's seared body was found in a ditch, a milk bottle which had contained kerosene nearby. The murder was the third recent one of its kind within the metropolitan area.

Coroner's Office Proving Nemeses To Gangsters In Chicago; Probe Of Gangland Massacre Goes On

BY ALLEN DALEY

Associated Press Staff Writer

CHICAGO, April 29. (AP)—A gangster nemesis has developed in a most unexpected quarter in Chicago—the coroner's office.

As the guiding spirit of that generally unimportant spot of officialdom, the blood head of Dr. Herman N. Bundeisen has lifted the verdict of a coroner's jury to front page importance.

He took time out today, although deep in investigation of the St. Valentine's day massacre of seven men, to tell how and why he does things.

Looks Every Man In Eye

"I can look every man in the eye," he said quietly in explaining the efficiency of his office. In the few months of his service.

"No one has anything on me and my organization is conducted on lines of efficiency without the interference of politics."

In an aggressive start as coroner, he has made his office a force to be reckoned with by the underworld.

Cook county coroner's jury in the past have been of doubtful origin, composed usually of loaders anxious to earn a dollar and a half. Once dismissed, the jury was often impossible to recall.

Determined His Course

When the seven gangsters were slain in the North Clark street garage St. Valentine's day, Dr. Bundeisen determined his course. The customary perfunctory coroner's jury verdict.

Social Services And Civic Work Planned By Women

"The Passion Play" Topic Of Talk Given Yesterday Afternoon By Mrs. Jennings At Meeting Of Auxiliary

Federation Of Church Clubs Meets Yesterday Afternoon At First Baptist Auditorium

Social service and civic work is to be done by the Federation of Church Women's societies here during the next few months.

The federation met in regular fifth-Monday session yesterday afternoon at the First Baptist church for a program and business session.

The president, Mrs. H. T. Kimbro, of the First Methodist church, presided.

An unusually interesting and effective devotional service was presented by Mrs. Walter F. Jennings, of the First Christian church, and Mrs. Clyde F. Ekins, of the same congregation, made a talk on delinquency.

Mrs. Jennings reviewed "The Passion Play," which she has seen presented recently in San Antonio. During her talk, two songs were sung which increased the effectiveness of the talk.

Mrs. L. F. Holland sang "Must Jesus Bear the Cross Alone" and Miss Minnie Rogers sang "The Midnight On Olive's Brow."

Among the things to be sponsored by the federation during the next few months are a free flower exchange, work among the Mexicans, hospital visitation and the fostering of a story telling hour for children.

All the church women are to cooperate in the flower exchange which will be held during the next few weeks. Those who have extra plants are to furnish them to others wishing plants.

Details of all the problems are to be worked out in committees which have been appointed by Mrs. Kimbro.

There was an excellent attendance of women at the meeting Monday. Regular church society meetings were not conducted this week.

How to Achieve Beauty

BY MRS. HELENA RUBINSTEIN

The use of arm make-up is becoming more and more widespread as the vogue for fastidious care in small details and the perfect ensemble effect in everything increases. To the woman who has but recently adopted facial make-up in its more elaborate forms, this use of arm make-up may seem far-fetched. But the truly wise woman will see at once that the proper care of her arms, and shoulders, back and neck is quite as much a matter of good grooming as that of her face, and much less vain than attention paid to her face alone; especially if she appears frequently in evening dress or the newly smart sleeveless frocks.

Besides, the use of protective cosmetics on the arms before exposing them to sun and wind out-of-doors, on the swimming beach or in sleeveless sports costumes, is a health and comfort precaution, since they preserve the skin from the harmful effects of burning, chapping and drying.

If you are an athletic, out-of-door lady who values her looks as well as her health, firm your arms and hands (face and neck, too) with a sun and windproof cream or lotion before you expose them to summer sun and wind. Or use a liquid powder, in a natural or sunburn shade to the same effect. There are several of these preparations especially prepared to neutralize the harmful effects of sun and wind.

Or, if you're determined to possess a natural tan, anoint your skin with a vegetable oil, olive oil or cocoa butter, before venturing forth to the sun. The oil will help to counteract the drying effects of sunlight and wind and will also make your tan "take" more evenly.

But if you prefer the look of a healthy sunburn or gypsy-like coloring without any of its detrimental effects, and a kind that you can re-

move whenever you wish, use the new summer-tan make-up in one of its fascinating shades. There are several tones, ranging from the pale honey-color of a very light tan, to a deep Indian copper tint. You can find the one most becoming to your complexion type, for whether you are blond, brunette or medium there is one that will make you a delightfully sun-kissed looking person. It comes in cream or liquid powder form, as a foundation. And over this foundation on face and neck, especially, you will use a loose, dry powder in matching tint. But on your arms—and on your legs and back when they are exposed to the light—you will use the foundation alone. If you use the cream or liquid powder you will need to spread it quickly, in long, sure strokes, to make sure that the effect is even. The cream goes on more easily and smoothly, and requires less practice to put on well.

Before using this make-up, or indeed any make-up—on the arms, it is best to have bleached the arm hair to as light a tint as you can. Sponge it several times a week with a wash made of equal parts of lemon juice, new-lime and aqua ammonia—1-1-1 follow the bleach with a soothing lotion.

The deep tan make-ups are as becoming for evening wear as for sports; besides they are extremely fashionable just now. If you wish to be unusually striking, wear a deep tan or gypsy-like make-up with an evening gown in white or turquoise or one of the light greens or other pastel shades. Your glowing brown arms and back will make a beautiful contrast. At least society has decreed this "bronze" effect to be extremely smart.

If you prefer your natural complexion tones for evening wear, however, make up your arms in liquid powder in a flesh or rachel tint; just as you do your neck and back. This type of powder will cover any blemishes and give a smooth, natural finish that does not come off on your partner's clothes as a loose dry powder would do. And it will cover effectively on the arms the little dark spot that the point of the elbow often makes.

Lindsey Opening Greeted By Crowds

Opening of Lubbock's newest theater, the recently remodeled Lindsey, was celebrated Sunday afternoon and at a special midnight performance, beginning just after 12 midnight Sunday, with capacity houses at every performance.

The new Lindsey represents a remodeling cost of approximately \$55,000, and has been made into one of the most beautiful theaters in the entire southwest.

Cliff C. Lindsey, manager of the Lindsey Theater Enterprises, operators of the Lindsey and Palace theaters here, was the recipient of numerous compliments on the success of this institution. A large number of officials, representing the large film distributors, were present for the opening.

Improvements made in the Lindsey include repapering, repainting new furnishings of the hostess's 33 rooms, and rearranging of the lobby. The former dining room space has been made into an up-to-date cafe.

Following two weeks of work and the expenditure of about \$3,000, the Covia hotel, 1211 Avenue H, has been reopened for business, under the management of J. A. Henson and S. W. Jarvis.

\$15 An Hour To Hoist Dumbbell

CANNES, April 29.—It costs as high as \$15 an hour to hoist dumbbells on the select exercise beaches here.

The fee includes a physical instructor, usually a husky man, and a society audience which counts on the outdoor exercise classes to fill in the morning until pre-lunch cocktail time.

Most of the women exercisers are keeping fit rather than reducing. Nearly all of them are young and experienced heaver of the medicine ball and 12-pound wand.

Special Offer Made By Allen

Until May 14, free examination and special low rates will be in effect at the Allen Chiropractic Health Service, 202 Leader building.

This offer is being made by Dr. R. D. Allen, D. C., Ph. C., in an effort to acquaint the public with the work that can be done by chiropractic treatment.

Dr. Allen has been engaged in this practice for the past nine years, having been located here for four years. He has handled hundreds of cases of almost every known disease, and with only a small percent of failures.

Dr. Allen is noted for his ability as a diagnostic, and he can tell your troubles without asking for information.

The special health service being offered for this fifteen-day period, includes scientific chiropractic, scientific diet-massage, sunlight treatment, electro-therapy, special electro-magnetic, and mineral vapor bath service.

A lady attendant is employed in giving the utmost in service.

Reliance Brick Used Widely Here

The success of the Reliance Brick company in Lubbock is shown in some of the outstanding buildings in the city, which are constructed of Reliance brick.

Headquarters for the Lubbock division of the Reliance Brick Company of Texas are located in the Temple Elm building.

Bricks and other building materials are furnished to contractors throughout the entire South Plains region from this central office here.

F. B. Caylor is the manager of the territory. He reports that business has been good since the office was opened here and he predicts that it will be even better in the near future.

Temple Trust Co. Serves Wide Area

With T. B. Duggan the local manager in charge of the regional office, which embraces a wide area of the South Plains section the Temple Trust company makes loans on both city and farm property throughout an extensive radius.

Headquarters of the company here are located in room 608 of the Myrick building. The company's headquarters are at Temple, Texas.

Big Spring Sets Quarterly Meeting

BIG SPRING, April 29.—The stage is all set for the first quarterly open meeting this year for the Big Spring Chamber of Commerce.

The program was arranged by D. H. Heard, H. L. Massey, W. B. Chaire, and Mrs. Homer McNew. The principal speaker will be W. D. Cline of Wichita Falls, who will speak along the lines of city building and industrial development.

The meeting will be held in the high school auditorium on Tuesday night April 30th.

The Big Spring Chamber of Commerce has membership of 412 members and it is planned to hold four open meetings during the year. The Board of Directors is composed of 20 members and hold its meetings every two weeks.

Experience Is Demanded Here

That every employe have as many as five years of experience in his respective line is an iron-bound requirement of the Lubbock Fender and Body Works, 1009 Avenue H.

This establishment, due to the experience requirement, has a corps of seven experts, many coming from the body and fender factories of the North and East.

Entering the field here about a year ago, the Lubbock Fender and Body Works has built up a profitable business on the theory that good workmanship will insure future business.

Managers of the company are L. C. Hewitt and B. C. Williams, both of whom formerly were in a similar business in Amarillo.

The work of this shop includes upholstering, top work seat covering, glass work, body and fender straightening, and Duco painting.

50,000 MEN

This Is Picture Painted By China As Possibility

(By Associated Press) GENEVA, April 29.—Nationalist China noted a picture of 50,000,000 Chinese soldiers under arms at one time for the preparatory commission on disarmament today.

Certain that his proposal for abolition of conscription would be rejected, the youthful Nanking government conjured up the spectre of conscription applied to China.

Announcement that China might be obliged to revert from its present volunteer system to conscription was solemnly made to the preparatory commission by General Tsiang Tso-Ping, who said:

"We honestly hoped our idea for abolition of conscription would be accepted, deeming it the most effective means of achieving real disarmament. We now reserve the liberty of changing our attitude on this question."

Count Von Bernstorff, German delegate, remembering Saturday's decision to make no limitation of trained reserves, seized the opportunity to make an ironical allusion to the fact that the treaties of peace abolished conscription for Germany, Austria, Hungary and Bulgaria, but not for the victor nations.

Wrestling Card Thursday Night

A wrestling card featuring a main bout between Jess Carter of Lubbock and Ben Nelson of Beaumont, will be staged at the open air arena at Merrill Park Thursday night, according to Wyandham Robertson, local promoter.

A series of preliminaries will precede the main event. Robertson Nelson will crawl through the ropes at 8:30.

Both men announced this morning that they were fit and ready to go to the ring and all indications point to a tough tussle between the two heavyweight grapplers.

Chicago is merely suffering with growing pains, says Secretary of War Wood. Couldn't they also be called shooting pains?

Recent reports from Mexico indicate that General Escobar, though proclaimed president by the rebels, is choosing to run again.

Delivery Made By Shoe Shop

The old practice of going in a shoe shop and waiting until one's shoes have been repaired or of having to take them to the shop and call for them later both have been done away with. The Electric Shoe Shop, 1013 Main Street, is offering something new and different in service in this line of business—that of calling for and delivering all repair work.

Due to this special service and the dependability of workmanship, the Electric Shop is enjoying a growing business. The business has increased since it was first established and Joe Fulton, manager of the shop predicts that it will continue to do so. Mr. Fulton has had years of experience in the shoe and boot business.

Mr. Fulton does not and boot work of all kinds, even occasionally making a pair of boots. His shop is fully equipped with the latest electrical machinery.

Starts Drive On Unsightly Autos

STAMFORD, April 29.—(Special)—Manager Homer D. Wade of the West Texas Chamber of Commerce is receiving support from every source in his attempt to arouse public sentiment against the placing of cast off and worn out automobiles within sight of the public highways.

R. M. Simmons, vice-president and general manager of the Sweetwater Cotton Oil company at Sweetwater who admits that he has harped on the idea for two or three years and has attempted to have some legislation passed against the practice wrote Manager Wade expressing his gratification at his interest.

"No town with any pride whatever would permit the existence of a dump ground within the city limits and especially on the principal highways, and certainly these automobile graveyards are just as unsightly as any public dump ground could possibly be," Simmons wrote.

Storm Warning To The East Is Given

HOUSE PLANS
Six-Room House Deftly Combines Old and New In Architecture

BY CORA W. WILSON
For NEA Service

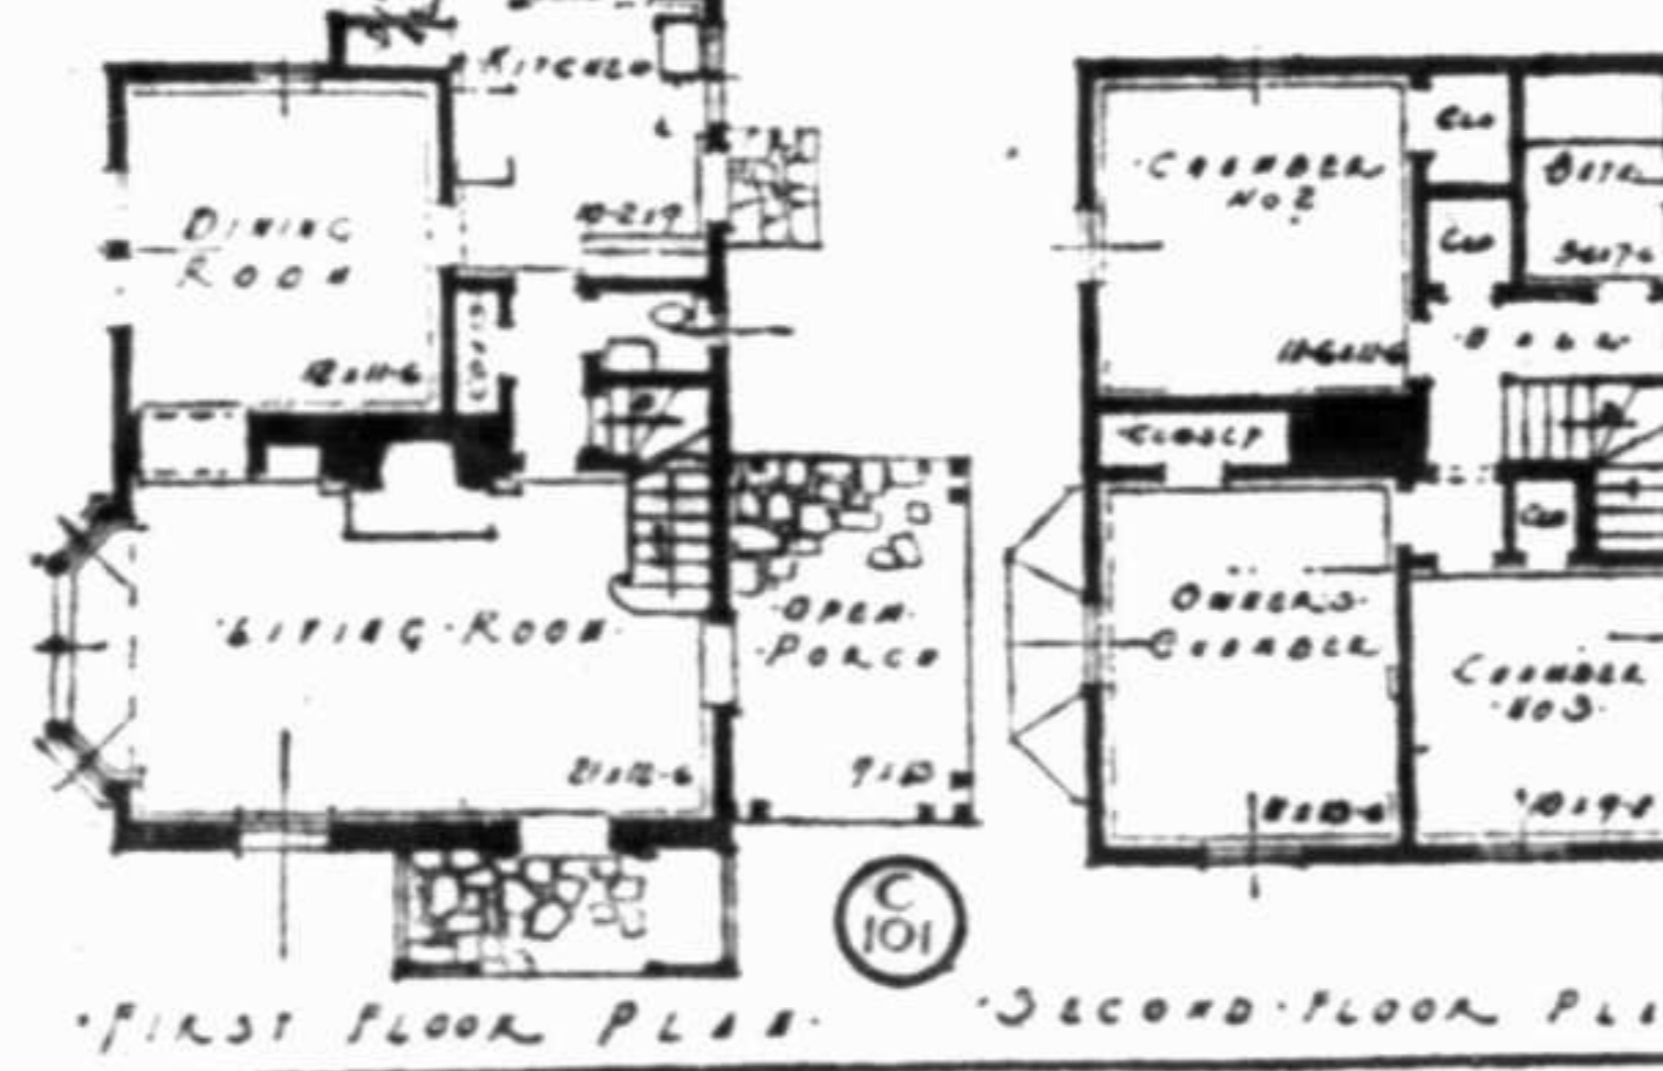

PRACTICALITY and genuine artistry join to make this small Colonial house ideal for the average family.

It doesn't demand too much of workmanship — nor consequently of the pocketbook. It has a definite atmosphere of the past, yet is thoroughly modern in the conveniences it provides.

The house is lumber built. The color scheme is unusual — an exterior of white-painted cedar shingles, robin's-egg-blue wooden shutters, white paneled front door, red-brick coping around the door and bay window, and a red-brick chimney.

There are six large, well-connected rooms. Closets are numerous.

An entrance platform of red brick leads into a charming living room, and almost directly opposite the doorway is an old Colonial fireplace. A bay window may look out on a garden of old-fashioned flowers. In the same room there are two other windows, making for a triple view of the out-of-doors. On the right is a white-painted

Colonial stairway with mahogany rail and treads.

Leading out of the living room, off a small hall going toward the kitchen, are a large coat closet and a lavatory. The modern kitchen has a large closet and a small dining alcove.

The dining room is connected with both the living room and of course the kitchen. The stairs to the basement — a continuation of the stairs to the second floor — are

convenient to all the main rooms.

Three bedrooms large enough to be furnished in Colonial style are on the second floor. Each room has a clothes closet. A small hall which separates these rooms has a linen closet and leads into a bath room.

For additional information and cost estimate write to Mrs. Cora W. Wilson, 430 Madison Avenue, New York City, and be sure to enclose the clipping from this newspaper.

Machine Chews Electric Bulbs

NEW YORK, April 29. (AP)—The new device to salvage from worn out light bulbs, is announced by the New York Edison company.

The name describes the noise in reclaiming the brass sockets, the only parts considered saving. The shape is a cylinder, of 500 capacity, with two sets of steel set on bars inside. While the revolves, they chew to bits and filament which falls out into the bottom, leaving the shell shiny and clean. The company claims about 3,000,000 shells until the rumber was destroyed, the work was done by hand.

OLDEST TREE SPLIT

mark of Three Centuries in Paris Cut

PARIS, April 29. (AP)—The oldest tree in Paris has been split for firewood. It stood for more than three centuries, towering above all buildings in the narrow rue St. Jacques. The main limbs split off in 1850 and since then the tree has been dying. Finally, the trunk rotted and the old landmark was ruined.

You Run Down, Weak, Nervous?

Have plenty of firm flesh and ability to do a big day's work. Feel "like a two-year old" at 40, you must eat three good meals a day, relish your food and digest it. If you can't sleep, can't work, just a teaspoonful of Tanlac begets.

Joseph A. Culver, of 812 S. St. Muskogee, Okla., says: "I'm a nervous wreck and forced to work and eat. I felt like a two-year old before the day was out. On taking Tanlac, my appetite came up so I could eat anything, slept well and gained 10 lbs. Tanlac is wonderful for indigestion and constipation—gas, pains, dizziness and headaches. It back lost appetite, helps digest your food, and gain weight. It contains mineral drugs; it is made of bark, herbs and nature's medicines for the sick. It is less than 2 cents a dose. Get a bottle from your druggist. Your back if it doesn't help."

MILLION BOTTLES USED

Your MODEL T FORD is still a good car

THE Model T Ford led the motor industry for twenty years because of its sturdy worth, reliability and economy. Those same reasons continue to make it a good car. As a matter of fact, nearly one-fourth of all the automobiles in use today are Model T Fords. Millions of them can be driven two, three and even five more years with reasonable care and proper replacements. Figures show that the average life is seven years.

Don't sacrifice your Model T, therefore, but take it to the Ford dealer and have him estimate on the cost of putting it in A1 shape. A very small expenditure may be the means of giving you thousands of miles of additional service.

For a labor charge of \$20 to \$25 you can have your motor and transmission completely overhauled. This price includes new bearings, reboring cylinders and any other work necessary. Parts are extra.

Valves can be ground and carbon removed for \$3 to \$4. The cost of tightening all main bearings is only \$6. The labor charge for overhauling the front axle is \$4.50 to \$5—rear axle assembly, \$5.75 to \$7.

New universal joint will be installed for a labor charge of \$3. Brake shoes relined for \$1.50. Rear spring and perches rebushed for \$1.75. The cost of overhauling the starting motor is \$3. A labor charge of approximately \$2.50 covers the overhauling of the generator.

It will pay you, therefore, to see your Ford dealer and have him put your Model T in good running order. By doing so you will protect and maintain the investment you have in your car and get months and years of reliable transportation at a very low cost per mile.

BEWARE!!
IF YOU ARE NOT A MEMBER OF THE "GOOFY GANG" DO NOT TRY TO ATTEND THIS SECRET MEETING.

DOOFYGA ANGGA!

O BOY, IT'S GREAT TO BE BACK IN CHARGE OF THE MEETINGS AND SEE ALL YOUR SMILING FACES AGAIN!

THE FIRST THING WE MUST TAKE CARE OF TODAY IS THE CASE OF AL BROWN OF CHAPTER SIX OF FARMOUNT, W. VIRGINIA.

AL AND ANOTHER MEMBER OF HIS CHAPTER WERE HAVING A WATER MELON EATING CONTEST, WHEN SUDDENLY, HIS NOSE CAUGHT IN THE WATER MELON AND HE NEARLY DROWNED—IT TOOK SIX HOURS TO REVIVE HIM.

MY ONLY ADVICE TO YOU AL IS THAT THE NEXT TIME YOU HAVE A WATER MELON EATING CONTEST... PLEASE USE WATER WINGS....

WALLACE SMITH OF CHAPTER ONE OF WEST FAIRVIEW, PA. SAYS THEY HAVE 16 BOYS IN THEIR CHAPTER, SO THEY DIVIDED IT IN HALF... CALLING ONE THE OSCAR GANG AND THE OTHER THE OTTO GANG... A GOOD IDEA.

HERE'S A LETTER FROM A BOY IN SAN DIEGO, CALIF. THAT WANTS A MEMBERSHIP CARD IN THE GOOFY GANG... HE SAYS HE WEIGHS 385 POUNDS... HE WANTS ONE CARD... DOZEN.

OSCAR BUGG AND OTTO DE SNAKE HAVE SOMETHING FOR YOU.

SAY OSCAR I JUST HEARD THAT PHIL WAS IN THE HOSPITAL FOR FOUR WEEKS. HE MUST HAVE BEEN PRETTY SICK.

NO... PRETTY NURSE!

SO LONG MEMBERS... WE'LL SEE YOU IN TWO WEEKS FROM TODAY AT OUR NEXT MEETING... DOOFYGA ANGGA!

Fort Worth Gets Unusually Large Amount Of Cattle

PORT WORTH, April 29. (AP)—An unusually large number of cattle listed for the day's receipts here today.

All classes of cattle and calves arrived this morning, with prices inclined to sag.

A car of heavy steers sold at 12.50 and another load at 11.85. The bulk of slaughter steers were grass cattle, due to sell at 10.00 and 11.25, or 15c to 25c lower.

Bulls steady. Better bulls sold around 8.50, common-light ones 7.00. An 8 car lot of South Texas cows sold at 8.50. The supply of cows was more liberal than usual, with buyers bidding 15 to 25c lower. Canners and cutters 3.25 to 6.50.

Slaughter yearlings and heifers were slow to weak. Calves 25 to 50c lower. One load good heavy calves sold at 12.50, others at 12.00, with bulk cars at 11.00 to 11.75.

Several cars stocker cows sold at 7.00 to 8.00; stocker heifers at 11.35; steer at 12.00. Sales barely steady.

Sheep sales mostly 25c lower. Hogs slow buyers inactive; few sales in truck division, with bids about 15 to 25c lower and a early top of 19.10.

Cooperative manufacture of electrical equipment is being considered in Sweden.

Government efforts to increase the efficiency of workers in Mexico are meeting with success.

The Bodleian Library at Oxford, England, the oldest library in Europe, is to be extended and remodelled.

Save for a few sensitive issues, most losses were moderate. Jersey Central dropped 10 points to a new 1929 low at 30 1/2. International Paper, Laclede Gas, and Midland Steel products preferred, dropped about 9 points in small turnovers.

The outside-ling development in the commodity markets was a break of about \$2 a bale in cotton futures, resulting from better crop reports, disappointing Liverpool cable, and a slump in cotton goods demand. Wheat: rallied after an early decline in covering induced by a sharp decrease in the visible supply.

Foreign exchanges were dull but fairly steady.

Tight Money Bog Bobs Up On Wall Street Way Again

Call Money Rate Jumps To Fifteen Per Cent; Sales Total Falls Off Due To Credit Status

BY CLAUDE A. JAGGER Associated Press Financial Writer NEW YORK, April 29. (AP)—The stock market moved slowly through another bog of tight money today, moderately low but accepting the situation calmly.

The money pinch is similar to that encountered a month ago, when funds were required for the quarterly settlements, but the banks are now in a somewhat better position, and seem determined to present any such demoralization of the money market as occurred on March 26, when the rate touched 20 per cent. May 1 money requirements are normally heavy, interest and dividend requirements at this time this year are estimated at about \$900,000,000.

Total sales aggregate but 3,272,840 shares, some 700,000 less than Friday's.

The news over the week-end was meagre, including a few more excellent first quarter earnings statements, and a variety of unverifiable merger rumors. Anaconda Copper Mining company late today reported 1928 profit of \$24,718, 780 more than double the 1927 net of \$10,123,255.

United Aircraft was the most spectacular performer on the list, netting more than 8 points to 121 1/4, then shooting up to a record price of 142 as shorts were wildly driven to cover. It closed at 137 3/4, up 8 points. Allis Chalmers was again in demand, jumping 9 points to 204, within a point of its recent high. American and foreign power was rushed up 3 1/2 points to 111 1/2, and Stromberg Carborator was sent up 9 points to a new top at 95.

Coppers were firm on reports that the price of the red metal had been definitely stabilized at 18 cents.

Save for a few sensitive issues, most losses were moderate. Jersey Central dropped 10 points to a new 1929 low at 30 1/2. International Paper, Laclede Gas, and Midland Steel products preferred, dropped about 9 points in small turnovers.

The outside-ling development in the commodity markets was a break of about \$2 a bale in cotton futures, resulting from better crop reports, disappointing Liverpool cable, and a slump in cotton goods demand. Prices Toboggan On Cotton On New Orleans Exchange

NEW ORLEANS, April 29. (AP)—Cotton prices tobogganed today under general liquidation and selling and before the flood of offerings subsided active positions showed declines of \$2.50 a bale from the previous close. Covering by satisfied shorts in final trading caused a moderate rally and July contracts which had sold down to 18.25 rallied and closed at 18.35, net 39 points down. The general market closed steady at net declines of 35 to 43 points.

Liverpool cables were 7 to 11 points lower than due and first trades here showed losses of 18 to 24 points in sympathy. A slight rally after the start met renewed selling and liquidation based on the favorable weather in the belt over the week-end. By the end of the first hour July sold off to 18.48, October 18.50 and December 18.57, or 27 to 30 points below Saturday's close.

Larger acreage reports and favorable crop news further stimulated offerings and prices were on the downgrade for the remainder of the session, reaching the low points of the day in late trading when July sold at 18.25, October 18.27 and December 18.38, or 49 to 50 points net down.

At the end there was a rally of 3 to 11 points on covering by shorts and the close was steady with October at 18.35 and December 18.49, or 38 to 43 points down.

Receipts, 10,165; for week, 15,538; for year, 2,052,824; last year, 7,984,902. Exports, 31,990; for week, 22,660; for year, 1,056,418; last year, 6,220,183. Stocks, 1,442,831; last year, 1,486,923. Stock on shipboard, 79,095; last year, 105,640. Spot sales, 4,838; last year, 12,068.

The buge ran into a renewal of liquidation or short selling, and the market weakened again during the early afternoon. Stop orders were uncovered on the decline which extended to 19.00 for May and 18.96 for October. The volume of selling then tapered off somewhat, and closing prices showed rallies of 8 to 15 points from the lowest.

RISES TO TOP Chore Boy Becomes Head of Large Company

NEW YORK, April 29. (AP)—Harry A. Cronk, new president of Borden's Farm Products company was a chore boy in a rural dairy 30 years ago.

In Binghamton, N. Y., where he was born, he began his "milk career" by helping a local dealer after school hours. He went to high school for two years and then worked for a butter company. From that point by natural steps he joined the Borden company and served in many important executive positions.

Liberal supplies of hogs around the loop resulted in unevenly lower prices. Operating trade was slow at 10 to 25c lower rates, while on the close packers shaded prices at most centers 25 to 40c. The day's extreme top of 11.70 was paid at Chicago.

Total offerings were around 156,700 against 22,845 a week ago, and 122,774 the corresponding date last year.

Fat lamb trade was slow at week to unevenly lower prices. Most points on the river reporting losses of 20 to 50c. Aged stock shared the decline on fat lambs. Approximated 62,300 a decrease of 11,500 from a week ago but 4,700 heavier than a year ago.

Slaton Plans On Good Will Trips

(Special to The Avalanche)
 SLATON, Apr. 29.—According to plans now being completed, in a very short time a series of good will trips to communities surrounding this city, will be started. It was announced today by officials of the chamber of commerce.

Delegations to make the trips will be organized by Slaton, business men and citizens and programs will be given in all communities visited. The public relations committee of the chamber of commerce is in charge of arrangements. This committee is composed of W. H. Smith, chairman; C. F. Anderson and G. J. Catehing.

Last spring and summer a series of 19 good will trips was completed and six communities on the schedule then were not reached because of interruption to plans. They are to be the first communities visited this year, and are McClung, Robertson, Pleasant Valley, Gordon, New Hope and Joe Stokes.

An indication that the bill would pass the house. A civil service measure was defeated in the regular session.

Utility Bill Introduced
 Senator Woodward introduced a public utility regulatory bill in the Senate and McFarlane of Graham, uncompromising opponent of the governor's ideas for reorganizing the penitentiary system, submitted a concentration and relocation plan there.

McFarlane, chairman of the committee on penitentiaries, said there was no hurry for the committee to consider the bills before it. Senator Holbrook of Galveston put in his bill, sponsored during the regular session by Governor Moody, on the first day of the session.

Prison Bill Up
 The house has three penitentiary bills before it and a sub-committee of seven has been appointed to frame a committee substitute as a proposed compromise between all factions. The committee was unable to hold a meeting today, however.

Governor Moody said he intended writing a bill more clearly setting out his views on concentration, but Holbrook, who heretofore has represented the governor's ideas of prison concentration said he did not believe the governor had a bill in mind and that he felt he would support his (Holbrook's) measure.

ART EXHIBIT AT TECH

Works of the Swedish artist, Carl Redin are on display today and tomorrow in room 208 of the Engineering building and the general public is invited to witness the exhibition. It should be of particular interest to people of the west in that the pictures are of landscapes in New Mexico and Arizona.

GIRL'S DANCE TONIGHT

The Arena-Ritas, girl's pep squad are giving a dance at the college gymnasium tonight to which all college girls are invited. It is to be an all-around affair, and an admission charge of twenty-five cents will be taken at the door. Refreshments will be served.

CONVOCATIONS NEXT FRIDAY

One of the final convocations of the year has been announced for Friday morning, May 3, at 10 o'clock. Attention is called to the fact that the meeting is to be held at 10 o'clock instead of 11 o'clock as is usually the case. Clinton S. Quinn, of Houston, is to be the principal speaker of the morning and the "Legis band" is to play. It is probable that at this time the constitution of the student's council will be presented the school for ratification.

ANNOUNCE ELECTION RETURNS

The election for publications which was held the latter part of last week resulted in one candidate winning by a bare majority over his opponent, and the election to be held again for one office. Hal Lary was elected editor of the *Tribune* without opposition as was Ralph Brandenburg elect-a manager of *La Vintana*. Alvin Allison was elected business manager of the school paper by 11 votes majority over Everett *...* standing 355 to 366. Because of some irregularity in the placing of the candidates' names on the ballot who ran for editor of the year book the Council has announced another election to be held Friday of this week.

Six Million Predicted
 In 1927 the April building mark was \$111,285, while that of 1928 was \$192,140. At the speed experienced so far, during the first four months of 1929, Lubbock should not have a difficult time in reaching the \$6,000,000 mark this year, which was predicted by several contractors at the beginning of this year.

The Hilton hotel contract was let to the R. E. McKee Construction company, of El Paso, and that company's superintendent of construction, who has been in charge of the demolition of the old Merrill hotel, stated yesterday that the new hotel, while naming 14 stories in the permit issued, may be a 12 story structure.

To Have 290 Rooms
 The hotel will be of reinforced concrete, brick and stone construction, site 115 by 124 feet and will have 200 rooms. Nine months to complete was stated on the face of the permit application.

Other permits issued yesterday were as follows: Lee Smith, 2201 Twentieth street, six room brick veneer residence, \$4,500. R. E. McCurdy, contractor, L. J. Free, Twenty-Sixth street, six room brick veneer residence, \$3,500. C. H. Mitchell, contractor.

"slain by persons unknown," was not rushed through in short order as usual.

Six outstanding citizens, leaders in business, were chosen for a jury and an exhaustive examination of events surrounding the shooting began with startling results.

Long after police activity ceased to be important news, the coroner's jury continued to report progress which promised ultimate solution. A fire arms expert was brought from New York City, expense borne by private contribution, and a systematic tracing of bullets made.

Even though the murderers may not be apprehended and convicted through the work of the expert, Major Calvin Goddard, it seems certain Chicago will have a new bureau to aid in running down criminals by tracing bullets and guns.

Lubbock Gin Man Says His Troubles Disappeared After Taking Oregatone, And He Now Feels Fine And Full Of Energy

Still another Lubbock resident gives his reasons for being glad he was induced to try the remarkable medicine Oregatone. Guy Young who lives on rural route three a well known gin man, for the Monroe Gin Co., Lubbock, Texas, said a few days ago:

"Before I took this Oregatone I felt so miserable I actually nated to try to work at all. But I'm feeling fine and full of vim now, and I'm obliged to praise Oregatone as the best medicine I have ever taken.

"For over a year, I suffered with kidney trouble and I reckon I had about all the tough feelings a body can have, with this awful trouble. I was constipated most all the time and did not enjoy my meals as I should. My back would hurt me so bad, that often times when I would bend over, it was a real effort for me to try to straighten up. It got so, that I was hardly able to pick up any of the tools or anything else of any weight around the plant. In fact, I was all in and felt unfit for work.

"After taking Oregatone a few days I could eat breakfast and enjoy it. Those pains in my back have disappeared and my kidneys don't bother me at all now. All my pains and nervousness is gone and I sleep like I did when a boy. I can lift anything now and it does not hurt me and I feel fine and full of energy all the time. I can work all day and not feel tired when night comes and I have never seen such benefits in so short a time a Oregatone has been to me. I already feel better than I have since my troubles began and I'm improving every day."

Genuine Oregatone may be obtained in Lubbock exclusively by the Bowers Drug Store, under the personal direction of a special Oregatone representative. Out of town customers are being supplied by mail upon receipt of price \$1.25 for one bottle or \$6.25 for six bottles. Adv.

Saturday afternoon. She caught him in the act of trying to unlock her front door, when she appeared asking the direction to a certain place. After he had gone she found a skeleton key in the door.

Other Houses Entered
 Two other houses are reported entered, although no valuables were said to have been stolen.

The young man will probably be turned over to the county authorities, following a thorough investigation by the city police, Chief of Police John Lemond announced.

Two Men Are Held For Hi-Jacking Of Lubbock Inn

County officers were notified yesterday of the arrest of two men, said to be the hi-jackers who recently held up the night clerk and porter at the Lubbock Inn here. One of the men is in jail at Panhandle, and the other in an Oklahoma town, both having confessed, officers stated.

The men held up the hotel clerk and porter at the point of a gun, taking \$5 from the porter and a gold watch from the clerk, local officers were informed, following the event. The prisoners will be returned here to face trial on charges of robbery with fire arms.

RECORD IS BROKEN

Two Hundred Seventy-Six Present At Class Sunday

Dr. W. R. White, pastor of the First Baptist church, who has been conducting a Downtown Bible class at the Palace theater every Sunday morning for the past several months, reported yesterday that the attendance records of the class had been broken Sunday when 276 men were counted.

The occasion for the record attendance was also in celebration of Dr. White's first anniversary in Lubbock.

MAN IS FOUND SHOT

San Antonio Shoots Self In Church Prayer Room

SAN ANTONIO, April 29. (AP)—A written prayer and a 22 calibre pistol by his side, Donaciano Limon, 1, a discharged soldier, was found in the prayer room of San Fernando cathedral here today three bullet wounds in his body.

On the paper Limon, a native of Mexico, had written: "By this paper I make prayer."

MAXIMUM IS SET

Fire Insurance Board Rules 20 Per Cent Greatest

AUSTIN, April 29. (AP)—The Texas Fire Insurance commission today set 20 per cent as the maximum commission which can be paid to agents for writing fire insurance in the state.

The commission also specified a 25 per cent maximum on automobile fire insurance. The action of the commission was taken, it was said, because some agents had complained that larger insurance companies were paying commissions of considerably more than 20 per cent.

HAWKINS INDICTED

Man Is Charged In Beating Of San Saba Man

SAN SABA, April 29. (AP)—Stanley Hawkins, arrested in the beating and mutilation of Doss Moore, found unconscious in his home after an attack March 16, has been indicted by the San Saba county grand jury.

Moore was taken from his home and beaten, brought back, hung by the limb of a tree by his hands, and his ears were almost twisted off, he told Sheriff Newell Graves.

DIAMONDS STOLEN

Dallas Man Loses 3 Gems Valued At \$4,100

OKLAHOMA CITY, April 29. (AP)—Three diamonds valued at \$4,100 were taken today by a robber who entered the room of W. E. Weatherford of Dallas, Texas, a contractor. Weatherford reported to police. The contractor has lived in Oklahoma City during construction of the new Southwestern Bell Telephone company building.

The fire department made two runs yesterday to 1614 Avenue R, the first one in the morning and the last about 8:30 o'clock last night. Only slight damage was done to a barn and a fence at the place, the department putting the blaze out this morning and the blaze being extinguished before their arrival last night.

LOCK BALKS SKILL

Modern Workmen Fail to Open Ancient Device

NOVOROSSISK, Russia, April 29. (AP)—In an ancient tomb recently excavated here the workers dug out a number of old Roman coins and an iron lock of peculiar design.

The lock has no keyhole and is evidently opened by means of some secret spring.

The secret of the lock is such that, although every locksmith in town had his try at it, the lock still remains shut.

of which the infra-red is invisible and at the upper or more rapid, wave length where the ultra-violet is also invisible. Photography attests the existence of these invisible rays.

It is taken for granted that the injury to my brain threw it out of adjustment and shut off the nerve force flowing to the optical centers of the brain, thus causing total blindness insofar as the solar spectrum was concerned, or the ordinary rates of vibration (color, light—is force). Or, rather, to the limited area of sight and energy received by normal man, and another octave (I believe a lower octave) was gained, supplementing by that much the vision already possessed, or rendered dormant by the lack of nerve force.

This supplementary vision is received through minute cells or corpuscles that exist in the third layer of epidermis of every mammal and it conveyed, subconsciously, to the visionary centers of the brain.

Normal Visibility.
 As the scale of normal visibility ends with the violet ray it follows that a new octave is beginning at this point. Violet, being a mingling of the blue ray at the highest ends of our spectrum with the first faint glimmering of the lowest wave length (red) or a higher octave shows us, as it were, the endless ladder of light invisible to ordinary eyes.

If these higher energies give me a "feeling," or whatever you may term it, which betrays to me their presence, a greater unfoldment of this faculty would give me clear vision of showing me shape, color and every other visible attribute possessed by them.

Rate of Vibration.
 Every earthly object has its own particular rate of vibration varying rate constituting their form and character and a mind liberated from its confines of doubt, reason and normal acting powers answering to the higher rates of energy, those not received through channels of the optic nerves and sight centers but susceptible to hyper-sensitive nerve ends in the skin.

Every "thing" has a normal rate of vibration which constitutes its material impression and two higher rates perceptible through abnormal media (by closing the eyes or bandaging tightly normal sense of perception is rendered quiescent and—some unpermitted sort of perception is allowed to take its place.)

I fast for 24 hours to render the digestive process (a sub-conscious action) dormant I anticipate in ad-

vanced every minute detail of my proposed exhibition," chart it through the association of ideas of my brain. My vision is then obscured and proceed (subconsciously) to carry out the plan. When the bandage is removed there is no impression left upon the memory centers of the brain recording what transpired during the time that my normal vision was obscured.
