EUROPEAN CRISIS IS AVERTED

NEW EVIDENCE HAS BEEN DEVELOPED IN THE KENNEDY CASE

ARTHUR C. BURCH AND MRS. OBENCHAIN WILL BE ARRAIGNED MONDAY.

FORMER HUSBAND IS TO COME TO HER ASSISTANCE

Physician and Janitress Promise to Throw New Light on the Mysterious Murder.

LOS ANGELES, Aug. 12.—The discovery of the butt of a double-barreled shotgun in the Pacific ocean near Santa Monica was announced today by sheriff's officers investigating the slaying of J. Belton Kennedy.

The butt was found last Saturday by a camper, it was announced. It was lying on the beach after the surf had receded.

LOS ANGELES, Aug. 12.—Arraignment Monday of Madelynne Obenchain and Arthur C Burch, held in jail today without bonds, is the next formal feature scheduled in the unfolding of developments in the investigation here of the mysterious slaying of John Belton Kennedy, broker, at his summer home in Beverly Glen August 5.

Two new bits of evidence have been added to the evidence which has been made public. A doctor who gave Burch a physical examination when he was placed in jail under suspicion of murder declared late yesterday before the grand jury that at the time Burch's shoulder appeared to be slightly discolored. Such a discoloration, he implied, might have resulted from the recoil of a shotgun.

Another bit came to light when it was said that a thorn had been removed from the left knee of Burch since his incarceration. Weight is being given this, it has been indicated, in view of the fact that the glen in which the death of Kennedy occurred is said to be extremely brushy.

Officers of a private detective agency working with newspapermen declared they had late last night discovered a new witness in the person of a janitress in the building in which Kennedy had his office.

Three nights prior to the slaying, according to the story the janitress told investigators this morning, Kennedy left his office in response to a handkerchief wave from a woman in a hotel room across the downtown street. According to the janitress' statements, this was the room which she later learned was Burch's. She said her curiosity was aroused and from the street she could see, besides a woman in the room, a man sitting on the bed.

She said that Kennedy returned to his office after 10 or 15 minutes.

Mrs. Obenchain, who collapsed following her indictment yesterday, seemed much improved later when word came that her former husband, Ralph Obenchain, Chicago attorney, had left Chicago to be with her during the trial.

A telegram received by Burch in jail also materially brightened the young college man. It was from is father, the Rev. William A. Burch, Illinois minister. It read:

"Arrive Los Angeles Sunday afternoon."

Burch and Mrs. Obenchain saw each other for the first time late in the day, but they were some distance apart and neither made any effort to talk with the other. Across the width of the prison Mrs. Obenchain stood chatting with her attorney. Burch was in his cell, the bars of which opened into the corridor.

LOOKING FOR A MOTIVE FOR MURDER OF KENNEDY

LOS ANGELES, Aug. 12.—The motive that impelled the slaying of John Belton Kennedy, for whose murder Arthur C. Burch and Mrs. Madalynne Obenchain were indicted here yesterday, engrossed the attention of the district attorney and sheriff and their assistants today.

District Attorney Woolwine said that he believed all the essential elements of proof in the case were now at hand but that the establishing of a definite motive for the shooting would strengthen the case materially. To aid in this phase of the case an inquiry into the former relations of Kennedy, Burch, Mrs. Obenchain and possibly other persons in mid-west cities was authorized today.

HOUSE REPUBLICANS CONFER MONDAY ON TAX REVISION BILL

WASHINGTON, Aug. 12.—A conference of house republicans Monday to consider procedure on the tax revision bill was announced today by Representative Mondell, the republican leader.

Although there was further delap today in consideration of the bill by the ways and means committee, Chairman Fordney was confident that it would be ready Monday morning.

BEACH TENTATIVE AGREEMENT ON AMERICAN VALUATION PLAN

WASHINGTON, Aug. 12.—Republican members of the senate finance and house ways and means committee reached a tentative agreement today on a modification of the American valuation plan for application in the next tariff law. House committeemen, it was understood, accepted practically all senate changes, none of which alters the principles of the plan. The conferences also practically agreed on exclusion of the dye embargo from the bill.

DISCREDIT REPORT REPLY OF IRELAND CREATES A CRISIS

BELIEVE BRITISH PROPOSALS FURNISH BASIS FOR POSSIBLE SETTLEMENT.

DE VALERA WANTS MORE EXPLICIT EXPLANATIONS

Lloyd George Hurriedly Leaves Paris To Prepare Answer in Time For Meeting Tuesday.

By Associated Press.

DUBLIN, Aug. 12.—The letter from Eamonn de Valera, Irish republican leader, delivered to Premier Lloyd George yesterday, is neither an acceptance nor a rejection of the Irish peace proposals, it was learned here today. The letter raises various questions to which an answer is necessary. The answer may serve to facilitate future dealings, it was said, and is not expected to lead to a break in negotiations.

There was no excitement in Dublin today over Lloyd George's return from Paris, as it was said that no unexpected developments had occurred in the Irish discussions. When Mr. de Valera left London it was recalled today by Irish leaders, the statement was given out that a basis had not been found for further conferences and it was stated in Irish circles that the time since Mr. de Valera's conversations with the British prime minister merely had been spent in trying to find this basis. It has not yet been found, it was added.

LONDON, Aug. 12.—Rumors that the reply of Eamonn de Valera, the Irish republican leader, to the British government's Irish peace proposals, which was received here yesterday, had produced a serious crisis in the Irish situation were generally discredited here today. Prime Minister Lloyd George intended to leave Paris this forenoon for London, and yesterday's alarming reports were given credit for a time, but the attitude taken by the British capital today was that, although the terms of the Irish missive still were unknown, negotiations between the terms of the Irish missive still were unknown, negotiations between the government and the Irish republicans would continue under favorable conditions.

In well-informed quarters belief was expressed that Mr. de Valera's message reflected the view among members of the Irish parliament, with whom he had consulted, that the government's proposals furnished the basis for a possible settlement. It was assumed, however, that he asked for more explicit explanation as to certain details before the British proposals should be submitted to the Irish republican parliament next Tuesday.

It suggested that the hurried return of the prime minister from Paris was prompted by a recognition of the fact that the short interval before the meeting of the Irish republican parliament made it desirable that Mr. de Valera have the government's response as long as possible before the meeting of the dail eireann. Some political correspondents surmised that Lloyd George welcomed the opportune arrival of the Irish communication as an excuse to escape from the critical atmosphere of Paris, possibly hoping that a brief interruption might relax the strain to which the relations between Great Britain and France have been subjected at the present meeting of the supreme allied council.

SUBMIT EVIDENCE TO THE RAILROAD LABOR BOARD IN PIECE WORK CONTROVERSY

CHICAGO, Aug. 12.—Declaration that prescription of the piece work system as a basis of pay in railroad shops was unjustified and if insisted upon would compel the roads to give their work to outside shops, was met by charges that piece work undermined morale and was not as efficient as day work in hearings before the United States railroad labor board today.

Representatives of the railroads declared they must select the methods of doing work which would yield the best and most economical results.

As rebuttal to the carriers' testimony that piece work was most economical, the employes presented an exhibit showing a comparison of locomotive repairs on the piece work and day work basis, which favored the day work basis.

CHIEF ABILENE POLICE AND FIRE DEPARTMENTS CELEBRATES BIRTHDAY

ABILENE, TEXAS, Aug. 12.—John J. Clinton, for 36 years head of the Abilene police and fire departments, today celebrated his 73rd birthday. He was born in Dublin, Ireland, in 1848, and was in turn confederate soldier, Indian fighter, government scout and tamer of wild west towns. He is perhaps the oldest active head of a police and fire department in the world and never misses a fire or fails to make an arrest when occasion demands. City officials were guests today at a dinner in honor of Chief Clinton given by Mr. and Mrs. C. R. Armstrong.

FOREIGN MINISTER ASKS HUNGARIAN GOVERNMENT TO ACCEPT PEACE TERMS

BUDAPEST, Aug. 12.—Unreserved acceptance of the terms of the peace resolution, passed by the United States congress early in July, has been asked of the Hungarian national assembly by M. Banffy, minister of foreign affairs. In submitting the American peace resolution, the minister asked the national assembly to authorize the Hungarian government to open negotiations looking to a separate peace between this country and the United States.

NEW YORKERS STRONG FOR THE DICTIONARY

NEW YORK, Aug. 12.—New Yorkers have developed such a passion for reading the dictionary that a time limit of three minutes has been placed on patrons at the New York public library, it was learned today. Library officials are mystified.

SEARCH FOR A MAN AND WOMAN IN CASE OF CATHOLIC PRIEST

SAN FRANCISCO, Aug. 12.—Search went forward today for two characters, a woman and a man, in the drama that reached its climax with the exhumination of the body of the Rev. Father Patrick Heslin, Catholic priest, from a shallow grave on the desolate coast south of San Francisco late Tuesday night. These characters are the man as yet unnamed, but whom police officers say was connected with the slaying, and Dolly Yason, mentioned by William A. Hightower as having given him the information on which he based his successful search for the priest's body.

Police officers said they believed that in Hightower, held in the hall of justice here, they had the major character in the affair and indicated that filing of formal charges of murder against him was so overshadowed by other developments as to be but a routine matter.

"Hightower is a very cool, calculating individual," said District Attorney Swart of San Mateo county in a statement. "He has an inclination to be 'smart' and appears to think he is putting it over on us. I think we shall break him down soon."

Hightower, according to Captain of Detectives Duncan Matheson, when asked by him why he did not first go to the police with his information about the body instead of to the residence of Archbishop Edward J. Hanna, replied that he was out after the reward that had been offered and that he believed if he went first to the police, they and not he, would get the money.

Captain Matheson said he did not believe that Hightower was the man who called for Father Heslin and took him away under pretense that he was to visit a "dying man."

"We expect to locate that man and have him under arrest before Friday night," he said.

An anonymous letter was received by Archbishop Hanna last night from Los Angeles, informing him that a search "at the Mission Street hotel near Sixth" would result in locating the murderer of Father Heslin. This letter was at once turned over to the police and request will be made, it was said, to have the Los Angeles police endeavor to trace the sender.

PRESIDENT MAKES FURTHER INQUIRY INTO QUESTION OF RELIEF FOR THE RAILROADS

WASHINGTON, Aug. 12.—Further inquiry into the question of railway relief legislation was made by President Harding today in conference with Senator Townsend, republican, Michigan, acting chairman of the senate interstate commerce committee.

Senator Townsend later announced that an executive session would be called to determine means of hastening a report on the administration funding bill.

In the meantime, Director General Davis of the railroad administration, continued his explanation of the railroad situation and the proposed legislation. The measure, he said, would "not only tide the railroad corporations in time of extreme depression but substantially assist to return to normal conditions the general commercial situation of the country."

PROMINENT STOCKMAN OF SOUTHERN OKLAHOMA IS SHOT AND KILLED

DENISON, TEXAS, Aug. 12.—A. B. Greenland, 60, formerly a prominent stockman of southern Oklahoma, was shot and killed at Madill, Okla. Thursday evening, according to word received here today. Harry A. Thompson, also a prominent stockman and former partner of Greenland, gave himself up to Deputy Sheriff Dickerson following the tragedy. The shooting occurred in the main street of the town. Greenland had left Madill several months ago for California, returning two weeks ago. Thompson's home is in Woodville.

CONSTABLE AND MERCHANT SOMMERFIELD, OKLA., KILLED

POTEAU, OKLA., Aug. 12.—Victor C. Logan, 55, prominent planter and merchant, was shot and killed today by Lee Maddox, a mail carrier, who surrendered. The shooting followed an argument, Maddox is reported to have told Sheriff Hunt.

POTEAU, OKLA., Aug. 12.—Victor G. Logan, constable of Sommerfield township and a prominent merchant, was shot and killed by an unknown person early today when he went to his store at Sommerfield, ten miles west of here, in response to a burglar alarm. Logan had gone through the store, found no one, and was returning to his home nearby when shot. Sheriff Hunt of Leflore county, with a posse, is en route to Sommerfield. Logan was an extensive landowner.

TRUCKING COMPANY FACES A STRIKE OF 2,000 DRIVERS

NEW YORK, Aug. 12.—Officials of the United States Trucking company faced a strike of 2,000 chauffeurs and teamsters today.

The Weather

West Texas: Tonight and Saturday, partly cloudy; probably showers in the Panhandle.

HOUSE MAY HOLD SESSION ON SUNDAY TO RUSH BUSINESS

SUCH PLAN IS BEING DISCUSSED BY MEMBERS OF LEGISLATURE.

CONVENE AT 8 O'CLOCK TO RUSH THE BUSINESS

New Conference Committee Named on Eleemosynary Appropriation Bill.

AUSTIN, Aug. 12.—The house convened at 8 o'clock this morning, the earliest hour of this session. The house members are anxious to complete the appropriations bills before adjournment Tuesday and a session next Sunday is being talked of.

A bill by Senator Woods of Navarro, appropriating $60,000 to build an equip a new school building at the orphans' home at Corsicana, was passed finally.

Consideration of the departmental appropriation bill was resumed in the house shortly before noon after the morning had been devoted to the passage of local bills. An amendment by Beasley of Hopkins reducing the salaries in the secretary of state's department $1,670 each year was under consideration when the house recessed at noon. A motion to table by Representative Satterwhite lost by a vote of 60 to 66.

AUSTIN, Aug. 12.—The new house free conference committee on the eleemosynary appropriation bill was appointed this morning by Speaker Thomas, in accordance with a motion to that effect adopted by the house yesterday. The new committee is composed of Representatives Miller of Dallas, Morris of Medina, Cummins, Henderson of Marion and Wallace.

When the first committee went to the conference with the senate committee yesterday the upper branch body informed them that they (the senate committee) would not confer with a committee which had instructions not to confer and to return to the house and come back for conference uninstructed.

The motion to discharge the old committee and appoint a new one automatically discarded all instructions of the house, Speaker Thomas ruled, thus this committee goes to conference uninstructed.

The instructions given the first committee were to adhere to the Pope amendment to the bill.

The senate passed finally the bill by Senator Witt of McLennan, changing the fiscal year on which county officials shall qualify to January 1. The date now is December 1.

DR. BIZZELL SUGGESTS A COMPROMISE FOR BILL

AUSTIN, Aug. 12.—Restoration of salaries and retention of the Pope amendment would prove a satisfactory compromise of the differences between the house and senate on the educational appropriation, announced Dr. W. B. Bizzell, president of A. & M college, today. "With a sufficient amount of funds," stated Dr. Bizzell, "with or without the Pope amendment, we can run the educational institutions."

SENATE PASSES FINALLY HALL OPTOMETRY BILL

AUSTIN, Aug. 12.—The senate passed finally today the Hall senate optometry bill by a vote of 18 to 8. The bill now goes to the house for action.

SUB-COMMITTEE TO FORM A BASIS FOR AGREEMENT

AUSTIN, Aug. 12.—The free conference committee on the eleemosynary appropriation bill had a conference this afternoon and appointed a subcommittee consisting of Representative Cummins on the part of the house and Senator Bledsoe on the part of the senate conferees to work out a basis of agreement between the committee. This sub-committee will report at 5 o'clock this afternoon.

COCHRAN TIED WITH DENVER GOLFER AT END OF MORNING 18

Tommy Cochran, local golfing ace, was "all square" with Broomfield, Denver champion, at the end of the first 18 holes of their semi-final match for the trans-Mississippi championship at Denver, according to a telegram received Friday afternoon.

The fact that Cochran had held his own with the Denver player during the morning round was taken here as giving every promise of eventual victory, as the Wichitan habitually plays much better in the afternoon.

Should he win Friday, Cochran will go into the finals Saturday, probably meeting Von Elm, the 20-year-old Utah champion. Local golfers will be pulling hard for the Wichitan to pour it on him.

CHARLES JACOY HANGED FOR MISSOURI MURDER

UNION, MO., Aug. 12.—Charles Jacoy, 23, of St. Louis, was hanged in the Franklin county jail today for complicity in the murder of Benjamin Schobe, November 20, last. In a statement read by Father De Valbees, just before the trap was sprung, Jacoy asked forgiveness of Schobe's relatives for his "share of the crime, which was done under the influence of liquor." Jacoy previously had insisted he was innocent.

BEGIN CONFERENCE OVER SELECTION OF A SPANISH CABINET

BELIEVE FORMER PREMIER WILL RECEIVE SUPPORT TO FORM MINISTRY.

DEMAND REBELLION IN MOROCCO BE CRUSHED

Newspapers Urge Immediate And Positive Action Against The Tribesmen.

By Associated Press.

MADRID, Aug. 12.—Conferences with political leaders with the view to the formation of a new Spanish cabinet to succeed that of Premier Allendesalazar, which resigned yesterday, were begun here today by Antonio Maura, former premier, who has been asked by the king to head the government. In political circles belief was expressed that Senor Maura would be successful in gaining the support necessary to form his ministry.

Demands that Spain crush the Moroccan rebellion in Morocco are made by influential newspapers here. El Diario Universal declares rapid action in Africa is necessary, as the government is at present maintaining 100,000 men and spending 2,000,000,000 pesetas a year in carrying out its policy of friendly colonization. It is asserted that this policy is "impossible" and that after 11 years of attempting to put it into operation, the tribesmen have scorned it. The newspaper declared "the moment has arrived to master them by sheer force."

In an editorial published by El Debate, General Burguete declares the war in Morocco is not a military but a political struggle. He asserts that when all peaceful methods have been tried unsuccessfully, military action must be taken and that it must be well planned and rapid in effect.

The government has published a declaration thanking the citizens of various American republics who have declared their wish to come to Spain to participate in the righting. Cuba has offered to form a volunteer regiment. Argentina has sent 65 volunteers to the foreign legation, and the Spanish embassy in London has received numerous offers from Englishmen to form a contingent to enter the fighting.

WARLIKE OPERATIONS HAVE BEEN POSTPONED TO TUESDAY

TANGIER, Aug. 12.—Warlike operations against the Spanish forces in Morocco by the natives of the Rif section of that country will not be undertaken before next Tuesday at least, it is declared by natives here. Preparations are being made for the celebration on August 16 of the annual fete in honor of Abd-el-Kader, the Moorish leader, who led tribesmen in Algiers and southern Morocco in their fight against the conquest of their country by France.

The male Arab population of Morocco is considerably diminished, as many are volunteering for service with the Rif tribesmen. The only persons coming to the markets are women. Mail service between this city and the mainland in Europe is very irregular, postal boats having been taken for war service.

Pass Through the Tail of a Comet Monday Evening

HEIDELBURG, Aug. 12.—Announcement is made at the Koenigstuhl observatory that the earth passed through the tail of a comet on the night of August 8.

At sunset, August 7, a bright object was observed near the sun by W. W. Campbell, director of Lick Observatory, which is located near San Jose, Col. It was described as brighter than Venus and was located three degrees east and one degree south of the sun. Five persons saw the celestial object and reports from the observatory indicated that experts there believed it might be the nucleus of a bright comet. It would appear probable that this identification was correct, in view of the foregoing report from Germany.

Bill Newell Starts Ball Rolling With $50 Contribution

Bill Newell is the first contributor to the Studder players' bonus fund, according to an announcement made by Secretary J. Will Gray today. Bill stated that he would increase the $2,500 fund by $100 provided nine others would do the same, but that if nine could not be found who would give that amount he would donate $50. That brings the total amount up to $2,550.

DECLARES PELLAGRA IS CAUSED BY THE ECONOMIC CONDITIONS IN THE SOUTH

WASHINGTON, Aug. 12.—A review of federal health activities during the past year issued today by the public health service contains a reaffirmation by Surgeon General H. S. Cumming that pellagra, "has given indications of becoming dangerous, owing to economic depression among farmers and especially among tenant cotton growers of the south."

"These people," the review said, "have been rendered practically penniless by the condition of the cotton market and are forced to live on salt pork, corn bread and molasses, which, when eaten exclusively for a few months, are almost certain to cause pellagra."

FRANCE AND GREAT BRITAIN TO REFER UPPER SILESIA QUESTION TO THE LEAGUE FOR SETTLEMENT

PARIS, Aug. 12.—The French cabinet, at a second session held this afternoon with President Millerand presiding, unanimously approved the action of Premier Briand this morning in agreeing to submit the Upper Silesian boundary question to the league of nations.

By Associated Press.

PARIS, Aug. 12.—France and Great Britain have decided to refer the Upper Silesian question to the league of nations, it was announced here today. This question which involves drawing a frontier between Poland and Germany in Upper Silesia, threatened yesterday to bring about a break in the meeting of the supreme allied council.

The decision was considered here today to have solved the crisis that arose between France and England. The announcement said that "certain insurmountable difficulties which had arisen between Italy, Japan and England, on one hand, and France on the other," had given rise to the solution decided upon.

It was understood the supreme council would continue its agenda, especially the discussion of relief to Russia, during the absence of Lloyd George. The British premier delayed his departure and there were rumors this forenoon that he might not leave until tomorrow morning. The official statement issued after today's cabinet meeting said:

"Premier Briand gave an account of the present stage of the supreme council's work, more especially concerning Upper Silesia. The position taken by the French delegation received the unanimous support of the cabinet."

The decision to refer the question to the league of nations was taken under the second clause of article XI of the Versailles treaty, together with articles XII and XIII. These are parts of the covenant of the league of nations and provide for reference to that body of "any circumstances whatever affecting international relations which threatens to disturb international peace or the good understanding between nations upon which peace depends."

The suggestion that the matter be referred to the league was made by Mr. Lloyd-George and M. Briand concurred immediately.

M Briand wore a satisfied air upon leaving the hotel Crillon, and confirmed reports that a settlement had been reached. It was understood that Mr. Lloyd-George would attend this forenoon's meeting of the supreme council.

George Harvey, American ambassador to Great Britain and representative of the United States at a meeting of the supreme council, did not take any position relative to referring the Silesian question to the league, according to a French official. It was asserted his opinion was not asked and was not proffered. It was learned that Premier Briand proposed to Mr. Lloyd-George this morning that the United States be asked to arbitrate the Silesian controversy, but this proposal was abandoned in favor of the British premier's suggestion that the matter be left to the league.

"The supreme council has decided to refer the Upper Silesian question to the league of nations," said Mr. Lloyd-George upon leaving the council meeting shortly before noon to take his train for London. "Our decision was unanimous."

"Did Ambassador Harvey vote," inquired a correspondent.

"I said," replied the premier, "that our decision was unanimous."

The decision to refer the whole Silesian problem to the league of nations was unanimously approved later at a meeting of the council.

Mr. Lloyd-George left Paris on the regular noon train. He was accompanied by Sir Maurice Hankey and fifteen members of his staff.

On the question of additional allied troops for Upper Silesia, the supreme council adopted in principle a plan for sending reinforcements after the league of nations has handed down its decision on the Silesian question, Great Britain, Italy and France each to send its share.

Just before Mr. Lloyd George left the council, Solicitor General Pollock and Commander Talcott, the British delegates to the trials of persons accused of war crimes which were tried by the German court at Leipsic, appeared before the council and presented their report which had been communicated to Mr. Lloyd George last night. The report stated that it was considered justice had been done at the Leipsic trial as regarded the English cases, with the exception that the sentences were too lenient in one or two instances, but that justice had not been done in the French and Belgian cases.

The report declared, however, that it appeared to be impossible to take proceedings to reopen and retry the cases, for many reasons, including the great costs, and the dropping of the matter was advocated.

DEAN OF NORTH ALABAMA FOR THE CATHOLIC CHURCH IS KILLED ON WEDNESDAY

BIRMINGHAM, ALA., Aug. 12.—Edwin R. Stephenson, barber and itinerant preacher, who yesterday shot and killed Very Rev. James E. Coyle, dean of north Alabama for the Catholic church and pastor of St. Paul's church, had little to say today regarding the shooting.

"I remonstrated with him for marrying my daughter, Ruth, to a man whom he had lodged objections," said the prisoner. "I called him a 'dirty dog.' He struck me and then I shot him."

Father Coyle died in a hospital without regaining consciousness.

Father Coyle was editor of the Catholic Monthly.

REQUEST UNIVERSITY TO RELEASE GEN. WOOD FROM PROMISE TO INSTITUTION

WASHINGTON, Aug. 12.—Secretary Weeks has asked the University of Pennsylvania to release Major General Leonard Wood from his promise to become provost of the university and it was indicated today that the administration expected the reply to be favorable. General Wood will then be free to accept the governor generalship of the Philippines.

RUSSIA TO COMBAT ATTEMPT TO INJECT POLITICS IN RELIEF

By Associated Press.

RIGA, LETVIA, Aug. 11.—The Russian soviet government will combat any attempt to interject political questions into the Russian famine relief, but it is sufficiently practical to see that if the holding of Americans in prison is an obstacle to the feeding of a million Russian children, it is best that Herbert Hoover's stipulation in this respect be granted, declared Maxim Litvinoff, the soviet special envoy, here tonight.

In addition to those held in prison in Russia, declared the soviet envoy, every facility to leave would be given by the soviet government to any Americans in the country, even to the extent of advertising for them in the newspapers.

M. Litvinoff stated that British, French and other subjects whose repatriation had been arranged long ago, were still appearing now and then asking for passports to leave Russia. He added that if the United States insisted on the delivery of all Americans on the list handed him the Russian famine would be over before the last man could leave.

"Mr. Hoover has stipulated that all Americans imprisoned in Russia should be released," the soviet representative continued.

"They have been kept in prison for certain reasons and some of them have been accused of grave offenses against the government, one Kalmatiano even had been condemned to death."

BRITISH HOUSE OF LORDS DISCUSSES RUSSIAN FAMINE

LONDON, Aug. 12.—The Russian famine was discussed in the house of lords yesterday. Several members advocated the system employed in India in coping with similar visitations, namely the establishment of large famine camps on the great lines of migration where the people could be retained until the return of normal conditions permitted their return to their native villages where means could be adopted in the meantime to preserve the framework of village work. Provisions also were suggested for insuring a pure water supply.

Lord MacDonnell thought that the government ought to make a grant of from 30,000,000 to 50,000,000 pounds for the purpose of relief.

SUGGESTS AMERICANS BE PERMITTED TO LEAVE RUSSIA

RIGA, Aug. 12.—A telegram was sent to Moscow today by Maxim Litvinoff, the soviet envoy here for the Russian relief negotiations, suggesting that all Americans whose addresses could easily be learned be rounded up immediately and given an opportunity to leave Russia as a guarantee of the good faith of the soviet government in its desire to permit every American to quit Russia who desired to do so.

DIRECTED TO PROCEED WITH THE NEGOTIATIONS

RIGA, Aug. 12.—Walter Lyman Brown, director of the American relief administration today received authorization from Washington to proceed with negotiations with Maxim Litvinoff, representative of soviet Russia, for an agreement to carry out American relief measures in the famine districts of Russia. Late this morning Mr. Brown was endeavoring to arrange a conference with M. Litvinoff for this evening.

COMMUNISM LOSES GRIP ON POPULAR FAVOR IN ITALY

WILLIAMSTOWN, MASS., Aug. 12.—Communism's grip upon popular favor in Italy was definitely broken when the government refused to take any drastic measures of repression against the seizure of factories by the workmen, His Excellency, Tomasso Tittoni, president of the Italian senate, told the Institute of Politics, at Williams College today.

"From the day the workers occupied the factories and were obliged to realize the impossibility of their taking over the entire administrative control," Senator Tittoni said, "communism lost ground daily among the great mass of the people."

SEVENTEEN MEN ARE IN JAIL AT AMARILLO FOLLOWING SHOOTING

AMARILLO, TEXAS, Aug. 12.—Seventeen men are in jail here following the shooting of a Mexican, Jose Rodriguez, at Gentry, a small point near here. The Mexican is not expected to live. The men were all "passengers" aboard a freight train on which Rodriguez was riding. Companions of the wounded man said four men held up and robbed three Mexicans and finding only one penny among them, shot Rodriguez.

PROTESTS THE TENTATIVE VALUATION OF RAILROAD

WASHINGTON, Aug. 12.—The Western Pacific railroad company protested today to the interstate commerce commission against the tentative valuation of its roads, fixed by the commission at $66,061,208. The carrier claimed that the valuations should be not less than $102,753,591.

YOUTH IS RUN OVER BY TRAIN IN DALLAS

Had Gone to Sleep on Right of Way Near a Crossing in Outskirts Of City.

DALLAS, Aug. 12.—Maddock Day, 17 year old, was run over and instantly killed by a train here early today while asleep on the railroad right of way near a crossing in the outskirts of the city. The body was discovered several hours later by the youth's younger brother and a companion.

The three boys had gone to the crossing where they were to meet a milk wagon and help distribute milk, but lay down and went to sleep near by when they found they had missed the wagon. Maddock, his brother said, complained of thorns when he first lay down and evidently moved into a more comfortable place between the railway tracks.

Upon awakening at 5 o'clock, the two boys did not find Maddock and after a search discovered his body about 50 feet down the tracks, where it had been dragged by the train.

Maddock was the son of Mrs. W. W. Day of Corsicana, and resided with his aunt here.

MARION CONGRATULATES FATHER OF THE PRESIDENT

MARION, OHIO, Aug. 12.—Marion today was congratulating Dr. George T. Harding, father of President Harding, on his marriage yesterday at Monroe, Mich., to Miss Alice Severns, his stenographer and office attendant for the last eight years.

Scores of townsfolk today personally tendered best wishes to the venerable physician and his bride, both of whom are well known by the majority of Marion residents.

Efforts to keep the marriage secret were to no avail, although not until after the couple reached Marion last night, six hours after Rev. Frank T. Knowles, a Presbyterian minister at Monroe, had announced them man and wife, did Dr. Harding admit that he had become a benedict.

Dr. Harding said that Miss Severns and he left Marion together Wednesday morning and went to Detroit.

"We were refused a license in Windsor, Can., because we were not residents," he said.

"We spent Wednesday night in Detroit at the home of Mr. and Mrs. Louis V. Sanborn, who are relatives of mine. They accompanied us to Monroe, where we were married shortly after noon. I know I am not going to be lonesome now," he told the newspapermen.

At the doctor's suggestion Mrs. Harding was taken to the home. He then asked to be driven to his home, four squares away.

Dr. Harding, who is 77 years old, has been a practicing physician in Marion for 50 years. He has five living children. His bride was born in Marion county 52 years ago.

FIRE DESTROYS SHEDS AND ABOUT 75 TONS OF HAY

CLARENDON, TEXAS, August 12—Wednesday night about 7:30 the hay sheds located on the property of the Clarendon Grain Co. one block west of the station caught fire and entirely destroyed the buildings and about 75 tons of hay. On the same lot some horses and mules were in the stables but were removed. Origin of the fire is unknown. The property was partially insured.

Adjoining the Galbraith-Foxworth Lumber Co., one of the largest lumber companies in this section, was saved by the splendid work of the fire department, which, with a good supply of water, confined the flames to the hay shed where the fire originated.

THREE YOUNG MEN ARE HELD ON ROBBERY CHARGE

HOUSTON, Aug. 12.—Three young men are being held today, each facing a charge of robbery by firearms, filed on complaint of members of an automobile party. Officers say the three have made statements in which they say they "wanted the money." The party which reported that it was held up did not claim to have lost more than a few dollars.

LIEUTENANT DENIES HE IS TO WED CHRISTY WAR GIRL

CROWLEY, LA., Aug. 12.—Lieutenant Louis A. Kloor, at his home here today, vigorously denied that he is to marry a "Christy war girl."

"It's all bunk," said the naval balloonist, who was a member of the famous lost party in the Canadian wilds.

Eyes Strained?

If your eyes are work-strained or tired; if your vision is dim or blurred; if it bothers you to read; if your eyes burn or itch or ache; if you wear glasses, get a bottle of Bon-Opto tablets from your druggist, dissolve one in a fourth of a glass of water and use from two to four times a day to bathe the eyes. Bon-Opto has brought comfort and relief to thousands and thousands.

Note: Doctors say Bon Opto strengthens eyesight 50% in a week's time in many instances.

TEXT OF FORMAL INVITATION TO THE DISARMAMENT CONFERENCE

WASHINGTON, Aug. 12.—The text of the formal invitation to the disarmament conference follows:

"The president is deeply gratified at the cordial response to his suggestion that there should be a conference on the subject of limitation of armaments, in connection with which the Pacific and Far Eastern questions should also be discussed.

"Productive labor is staggering under an economic burden too heavy to be borne, unless the present vast public expenditures are greatly reduced. It is idle to look for stability, or the assurance of social justice, or the security of peace, while wasteful and unproductive outlays deprive effort of its just reward and defeat the reasonable expectation of progress. The enormous disbursements in the rivalries of armaments manifestly constitute the greater part of the incumbrance upon enterprise and national prosperity; and avoidable or extravagant expense of this nature is not only without economic justification, but is a constant menace to the peace of the world rather than an assurance of its preservation. Yet there would seem to be no ground to expect the halting of these increasing outlays unless the powers most largely concerned find a satisfactory basis for an agreement to effect their limitations. The time is believed to be opportune for these powers to approach this subject directly and in conference and while in the discussion of limitation of armaments, the question of naval armament may naturally have first place, it has been thought best not to exclude questions pertaining to other armament to the end that all practicable measures of relief may have appropriate consideration. It may also be found advisable to formulate proposals by which, in the interest of humanity, the use of new agencies of warfare may be suitably controlled.

"It is, however, quite clear that there can be no final assurance of the peace of the world in the absence of the desire for peace and the prospect of reduced armaments is not a hopeful one unless this desire finds expression in a practical effort to remove causes of misunderstanding and seek ground for agreement as to principles and their application. It is the earnest wish of this government that through an interchange of views with facilities afforded by a conference, it may be possible to find a solution of the Pacific and Far Eastern problems, of unquestioned importance at this time. That is, such common understandings with respect to matters which have been and are of international concern as may serve to promote enduring friendship among our people.

"It is not the purpose of this government to attempt to define the scope of the discussions in relation to the Pacific and Far East, but rather to leave this to be the subject of suggestions to be exchanged before the meeting of the conference in the expectation that the spirit of friendship and cordial appreciation of the importance of elimination of sources of controversy will govern the final decision.

"Accordingly, in pursuance of the proposal which has been made and in the light of the gracious appreciation of its importance, the president invites the government of Great Britain to participate in a conference on the subject of limitation of armaments, in connection with which Pacific and Far Eastern questions will also be discussed, to be held in Washington on the eleventh day of November, 1921."

Louisiana Twins Weight 28 Ounces; Health Perfect

BOGALUSA, LA., Aug. 12.—Billie and Jack Adams, twins, of Mr. and Mrs. William Adams, are believed by local doctors to be the smallest folk extant. Billie weighed eleven ounces at birth, and Jack seventeen. Mrs. Adams' six other children are of normal size. The midgets appear to be in perfect health.

LARGE CROWD GATHERS FOR BOMARTON RODEO

BOMARTON, TEX., Aug. 12.—A large crowd gathered here this morning to attend the picnic and rodeo. The program is for two days. This afternoon will be roping, riding and ball games. Bomarton and Gore play ball this afternoon and Bomarton and Seymour Saturday afternoon.

Free barbecue Saturday at noon with a duplicate of program.

HOLD RATES PREJUDICIAL TO WEST KENTUCKY COAL

WASHINGTON, Aug. 12.—Rates on coal in carloads from western Kentucky to points in southeastern Missouri, and northeastern Arkansas were found by the interstate commerce commission to be unduly prejudicial to the west Kentucky coal operators, the commission holding that such rates should not exceed by more than 25 cents a ton rates from the southern Illinois group to the same destinations.

JOHN McGREGOR DIES AT FAMILY HOME IN HASKELL

HASKELL, TEXAS, Aug. 12.—John McGregor, age 50, died at his home in Haskell yesterday at 1 p. m. after several days' illness. He leaves a wife and several grown children.

DODSON KILLING USE OF CALOMEL

Says Drug is Mercury and Acts Like Dynamite on Your Liver.

Dodson is making a hard fight against calomel in the south. Every druggist has noticed a great falling off in the sale of calomel. They all give the same reason, Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggists. Dodson's Liver Tone is personally guaranteed by every druggist. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.—adv

WOMAN JUST FREED FROM COUNTY JAIL SWALLOWS POISON

Officers from the fields announced at noon Friday that the proprietress of two rooming houses in Bridgetown and Burkburnett took a quantity of carbolic acid late Thursday night at her home. Her condition was regarded as serious, but she showed some improvement during the day, it was stated. She was released from the county jail Wednesday on bond following her arrest on a charge of vagrancy.

INVESTIGATING APPARENT SHORTAGE OF $11,000 IN WASHINGTON RED CROSS

WASHINGTON, Aug. 12.—National Red Cross officials have under investigation today an apparent shortage of $11,000 in funds kept in the Washington headquarters, according to a statement issued by Dr. Livingston Farrand. A discrepancy discovered by regular audits resulted in disclosing the possibility that the money might have been abstracted from a special fund kept for purchase of office furniture and supplies, it was said, but the Red Cross was declared to be fully protected against loss by bonding company obligation. Special examiners working on the records in conjunction with all employes responsible for safe keeping of the funds have not definitely established the existence of shortage.

LARGE AMOUNT OF BEER AND WHISKEY CROSS BORDER AS A RESULT OF RULING

DETROIT, Aug. 12.—A large amount of beer and whiskey was reported to have come across the border last night as a result of a Windsor court ruling that the Ontario temperance act does not prohibit exportation of intoxicating liquors to a foreign country, but prohibition agents here said today that the situation was not serious.

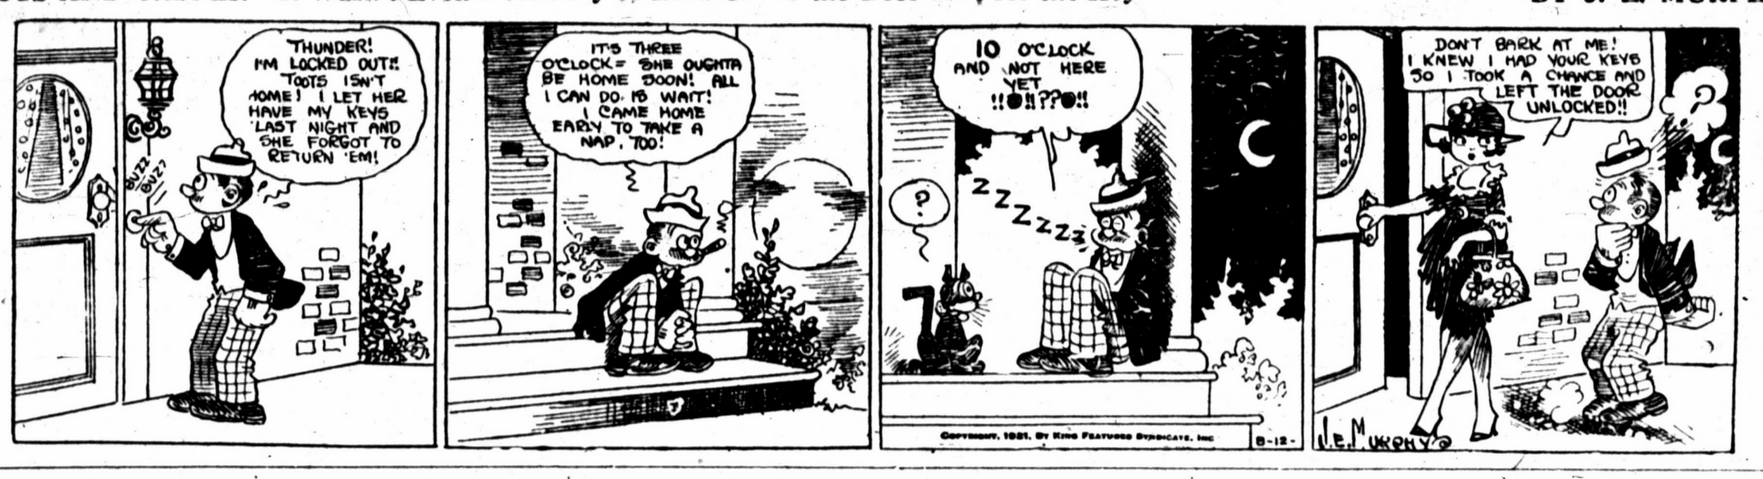

Numerous power boats were reported to have been seen loading beer on the Canadian shore last night and to have departed in the direction of Lake Erie.

ARREST AT BURKBURNETT FOLLOWS LOSS OF CLOTHING

Boyd Dean was arrested by officers at Burkburnett Friday morning and placed in the county jail while an investigation is being made with reference to the disappearance of a quantity of clothes which it is reported were taken from a house in Burkburnett Thursday night. On the jail roster the man was booked "held for investigation."

10,000 NAMES PUT INTO COUNTY WHEEL FOR JURY SERVICE

Filling of the jury wheel for the coming year neared completion late Friday afternoon. The corps of clerks that has been at work since the first of the week were at work on the last of the long lists.

Although no official count was kept it is believed that the total number of names this year overreached the 10,000 mark.

The names of women poll tax payers were not placed in the wheel.

COUNTY PIONEER RESIDENT IS VISITOR HERE FRIDAY

S. P. Hawkins, one of the pioneer residents of Wichita county, who now lives at Mineral Wells, was here Friday looking after business matters. Mr. and Mrs. Hawkins settled near Burkburnett in 1879 and lived there until a few years ago when they moved to Mineral Wells. They have lately been on a visit with some of their children, Mrs. Hawkins now being in Oklahoma City. They have eight children, forty-seven grandchildren and seven great-grandchildren.

TEACHERS' EXAMINATIONS SET FOR AUGUST 19 AND 20

Examination for teachers' certificates will be held in the offices of Superintendent of Schools Burl Bryant on August 19 and 20. This is a change over former years as the examinations were usually held the first Friday and Saturday in the month. The state superintendent, however, has changed the dates this year in order that it might not conflict with examinations of the state normal school.

TRACES DAUGHTER AFTER FORTY YEARS SEPARATION, GETS $200,000 ESTATE

PHILADELPHIA, Aug. 12.—After forty years' separation from his family, Horace W. Allison of Philadelphia has just traced his daughter, Deville Caroline, to Birmingham, Ala., where he informed her that he held in trust for her an estate reported to exceed $200,000, left her by her grandfather, Walter Allison, in 1889. The search began in Moberly, Mo., where Alison left his daughter, after her mother's death. It took him to Palestine, Texas, where she had gone after marriage, thence to Illinois, and finally to Alabama. Allison is said to have discovered that he is the grandfather of five children. His daughter's married name is withheld.

MOTHER DEPARTS LIFE SOON AFTER LITTLE ONE IS BORN

Mrs. Derlie Chandler, aged 17, died at 9:30 Thursday night in a local hospital after an illness of but a few days. She leaves her husband and a new born child as survivors. She had been living east of town and was taken to the medical institution early in the week.

Funeral services were conducted in the Merkle and Lunn undertaking parlors at 4 o'clock Friday afternoon, Rev. J. W. Loving, pastor of the Floral Heights Baptist church, officiating.

Burial was in Rosemont burial park.

CHARLIE FARMER IS GROWER OF 1921'S FIRST BALE HERE

R. H. Godfrey of the Charlie community is the farmer who brought the first bale of 1921 cotton to Wichita Falls Thursday.

The cotton is now at the Reeves gin on Indiana avenue, and has not yet been either ginned or sold, but will probably be ginned late Friday.

Mr. Godfrey will receive a premium for bringing in the first bale, and subscriptions to the premium were being taken Friday afternoon.

UNCERTAINTY DEVELOPS OVER OWNERSHIP OF VESSELS

NEW YORK, Aug. 12.—A letter from Frances Mayer, president of the United States Main Steamship company, to Delancey Nicoll, its attorney of record, requesting he take steps to have vacated injunction proceedings whereby the company recovered nine ships seized by the shipping board, was read to Federal Judge Martin T. Manton by Mr. Nicoll at a conference today.

The letter requested Mr. Nicoll to withdraw as attorney if he did not feel he could take such action.

Mr. Nicoll declined to withdraw or to ask for vacation of the injunction.

Argument before Judge Manton indicated that some uncertainty existed as to who controlled the company.

Another Mystery Ship Is Reported at Virgin Islands

NEW YORK, Aug. 12.—A delayed report of another mystery ship, reviving tales of pirates preying on high seas traffic had been received here by coast guard officials from government officers at the Virgin Islands.

This phantom craft was said to have a hull painted black, to be rigged in the maritime fashion of 20 years ago, to carry powerful motor boats and show a crew of 30 on her decks. She was sighted 100 miles off Cape Hatteras.

BISHOP WILSON SEELY LEWIS IS REPORTED CRITICALLY ILL

SIOUX CITY, IOWA, Aug. 12.—Bishop Wilson Seely Lewis, bishop to China for the Methodist Episcopal church, is critically ill at the Methodist hospital here, following an operation.

SAYS THE BEST WAY IS TO GET TOGETHER

WASHINGTON, Aug. 12 — In reply to newspaper requests for 300 word statement as to how capital and labor can best get together, Secretary Davis wired today: "Three hundred words too many. The best way for capital and labor to get together is to get together."

REPORT PARA-TYPHOID FEVER RAGING AT WICHITA, KAN.

WICHITA, KAN., Aug. 12—Twenty new cases of para-typhoid fever have been reported to city health authorities here in the last 24 hours. This brings the total number on record to 82.

NOTIFIED OF ELECTION AS PRESIDENT OF RED CROSS

WASHINGTON, Aug. 12—President Harding was formally notified today that he had been elected to the presidency of the American Red Cross, a position traditionally occupied by chief executives of the nation.

Sweet Dreams "A Godsend"

That's What a Big Banker Said About This Wonderful Remedy.

We all know that bankers aren't given to idle talk and that their praises are few but forceful.

Pointing to a bottle of Sweet Dreams in a drug store at Montgomery, Ala., the president of one of the leading banks of that city said: "That mosquito remedy is a Godsend."

He knew for he had just returned from a vacation at a Gulf Coast resort where he had just given Sweet Dreams a most severe test.

And he said it was a "Godsend."

You can get a bottle just like the banker had.

Your druggist awaits your order. Liberal bottles, only 25c. Mack Taylor Drug Co., wholesale distributors.—Adv.

BARN AND A THOUSAND BALES OF HAY BURN AT STATE EPILEPTIC COLONY

ABILENE, TEXAS, Aug. 12—A large barn and 1,000 bales of hay were burned at the state epileptic colony here this morning, entailing a loss of $5,000. The state carries no insurance.

PHILADELPHIA, Aug. 12—Dr. Matthew Cryer, professor emeritus of oral surgery at the University of Pennsylvania, died here today. He was 81 years old. Dr. Cryer was one of the most noted oral surgeons in this country and won many honors here and abroad. He was born in Manchester, England.

Four Plucky Girls Adopt a Novel Plan for Touring U. S.

An entirely novel method of "seeing America first" has been introduced by four plucky young girls who have tramped their way from New York City through all the western states, and arrived in Wichita Falls yesterday on their way home.

The girls are Bertha Rogovin, Beatrice Cohan, Hannah Davis and Anna Ginsberg, and their homes are in the Eronx, New York. Of course, their parents were desperately opposed to the jaunt, but when the girls convinced them that they were in earnest and showed them their carefully outlined plans, they decided that it would be more practical to help instead of hindering them. So, with $300 as an initial fund, and khaki ...cks containing the absolute necessities for the trip, these adventurous misses left New York in May, 1920, and traveled along the west coast by way of the Lincoln highway, riding when the opportunity offered, and cheerfully hiking it when no other means was afforded. "We never refuse a lift, for riding is so much faster than walking. Our highest mileage for one day was 241 miles, while we have never been ...le to hike more than 25," said one of the girls.

Three of the girls are graduates of Cornell, and all of them are well equipped for earning their own living. When it was necessary, the girls stopped in cities along the way and obtained positions through typewriter exchanges or chambers of commerce. Thus, they reached San Francisco with their initial fund intact.

In San Francisco, the wanderers obtained positions and remained for 3½ months, after having added several hundred dollars to their store.

They left San Francisco on May 17 and came down through Colorado and New Mexico and on through the panhandle. They go from here to New Orleans and on through the eastern states, expecting to reach home by the last of September.

"People were almost invariably interested and eager to do something to make our trip more pleasant and interesting," said Bertha Rogovin, who seemed to be spokesman for the party. "We have been entertained in some of the best homes in the United States and by chambers of commerce in the various cities and towns along our way. We have met with only a few distressing situations, perhaps the worst being when the sheriff of a small village, who evidently could not become accustomed to girls doing anything but keeping house, intimated that it would be a very good thing for us to hike on. Of course, such occurrences are very discouraging, and once or twice lately we have been tempted to break all our records and take a train for home. But we feel now that perhaps the rest of our journey will be pleasant."

The adventurers have only taken a train once, in California between Weed and Reddin, to escape the snow.

"We like the west," they voted unanimously. "If you want to, take a train and go see New York, but if you want a real good time—go through the west, we'll say so!"

Instantly Beautiful
The roughest skin can be instantly beautified by the use of Mrs. McCormick's Beauty Cream. Takes the place of powder—covers the skin uniformly and adheres evenly. Only purest ingredients used. In flesh and white. Try and see the difference.
THE BEHREN'S CO. Waco, Tex.

I wish I would not think about the kittens any more. When a fella gets to thinking about the kittens he has killed and thinking that school is going to start up next month he wishes he was a dog or something that does not have to go to school. But I would be about ready to die now of old age if I was a dog, but being a man I am not even grown up yet, but I have seen lots of fellas that cannot fight as good as I can that have got long pants. I seen a fella the other day with long sailor pants on and he was only about three years old and had to hang onto his mother's hand. That is the way things are.

Anyhow I am glad I was not cruel to the kittens. All I did was to hit them with a ball bat. It is funny that the world is so big but still it would not be big enough for all the cats that come into it. I think people ought to wait till it begins to get crowded with cats before they begin to drown them. When I had thought about all of those things I went up and when I done that the pillow got up with me and it was stuck to my neck and hair with the glue, and when I went to pull it loose it hurt because it pulled my hair so bad.

Then I let Jubilee down by the rope in his teeth and then I went downstairs and asted my mother if she would take the pillow off, and she held up her hands and asted me what was the matter with it and I said it was something Younias rubbed on my neck because my neck was stiff, and she called my unkle and ant and grandfather and father and they all came and took a look and they all nearly hollered their heads off, and then my mother got some warm water in the teakettle and had me hold my head over the wash dish and she poured hot water where the pillow was stuck ... it was just like soaking the rag off of a sore toe, but it came off after a while, and when I had milked and et and got over to the vacant lot I did not tell the bunch about it because a fella cannot fight when he has got a stiff neck; Banty has got a stiff neck yet, too, but I am the stiff neckedest.

We started to play ball but a pitcher cannot watch the bases when his neck is so stiff, so we went over and sot on Miss Parmer's fence but she come to the win-

And had me hold my head over the wash dish and she poured hot water where the pillow was stuck.

dow and said she was all out of cookies, and we went over to the mudhole in the brickyard, but a fella cannot dive good with a stiff neck either. I did not know a fella had to bend his neck when he dives, but if he don't he comes a belly slammer. My mother rubbed my neck with something that is worse than a stiff neck and I went to bed and pulled Jubilee up early.

(To Be Continued)

LATEST STYLE

By LENORE

Many of the dresses for midseason wear show a preference for side treatment of the skirt, in most instances accomplished by slender pleated panels applied in pairs at each side; or long point drapes and narrow fringe panels alternating black and white, all hanging at least four inches below the skirt.

If you do not care to flirt along with this varying hem length, however, and want a serviceable silk frock of practical length and lines thoroughly in keeping with the best taste of prevailing styles, I suggest the agreeable model illustrated today, created by a well known New York designer with infinite faith in the smartness of dark colors. The material is Canton crepe, and here the sides of the skirt

are emphasized by four two-inch scalloped folds, bound with black cire ribbon. The folds are made to stand outward, giving the suggestion of width which will unmistakably be a feature of at least a large proportion of the fall dresses.

A most becoming neckline is obtained by the inset vest of picoted ecru Georgette, with a slender band of the cire ribbon and tiny black buttons. Of course if a touch of color is desired, the vest offers an excellent opportunity for introducing it.

PATTERN NO. 231.

A pattern for the above model (No. 231) can be obtained in sizes 34, 36 or 38, by sending to Lenore, 3 West Fortieth street, New York City, your name, address and 50 cents in postage stamps. Be sure to keep this newspaper clipping of the sketch and description of the garment to ...e as a working model when the pattern reaches you, which will be within two weeks' time.—The Editor.

LOCAL ATTORNEY WEDS MISS BROWN OF RUNGE

C. K. Moffett, prominent local federal tax attorney retained by the firm of Ewalt, Parfet & Martlew, leaves Friday night for San Antonio, where he will be married to Mrs. Eugenia Brown of Runge, Texas.

After spending a few days in Austin, where Mr. Moffet has business connected with his firm's interests, Mr. and Mrs. Moffett will come to Wichita Falls and will make their home here.

GIRLS! WHITEN SKIN WITH LEMON JUICE

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightfully lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.—adv.

Voliva to Change Leases to Overcome Church Opposition

ZION, ILL., Aug. 12.—Wilbur Glen Voliva, overseer of Zion, renewed his attack today on churches conducted here in opposition to the Zion church, with the announcement that the famous leases of Alexander Dowie will be changed to prohibit the transfer of property without the personal approval of the overseer.

The new leases will be for a period of 1,079 years, or until the end of the period during which the Lord is expected to come and take his saints out of the world for seven years. After the seven years, according to Dowie's teachings, they will be returned to establish his rule throughout the world for 1,000 years.

Dowie's leases made in 1900 were for 1,100 years. The flight of the saints to heaven was to take place some time during the 100 years.

The new leases, running 1,079 years, will terminate, like the originals, in the year 3000.

WOULD BAR MEN FROM SALE OF WOMEN'S APPAREL

HAVANA, Aug. 12.—Men who have been employed as clerks in Cuban dry goods stores would be forced to seek other means of making a living if an amendment to the immigration law adopted by the senate yesterday receives approval in the chamber of deputies. The amendment provides that men may not be employed as clerks in shops devoted to the sale of women's articles of apparel.

HENRY P. DAVISON UNDERGOES AN OPERATION IN NEW YORK

NEW YORK, Aug. 12.—An operation today on Henry P. Davison of J. P. Morgan and company for an affection of the auditory nerve disclosed a tumor near the brain, it was announced at Roosevelt hospital, where the operation was performed by four specialists. Although Mr. Davison was on the operating table for more than three hours, the tumor will not be removed, it was stated, because of loss of blood and depression caused by the anaesthetic. His condition, however, was reported satisfactory.

The new Persian government will employ 11 American agricultural experts to aid it in reconstruction.

How to Judge A Store

You can generally judge the standard of a store by the merchandise it sells. Just as you can determine the character of a man by the company he keeps.

What then is your verdict of a store like ours that offers merchandise of the quality expressed by such famous lines as—

SOCIETY BRAND CLOTHES
HANAN SHOES
STETSON HATS
MANHATTAN SHIRTS

We sell them along with other high type articles of Men's, Women's and Children's Wearing Apparel.

"The Courteous Service Store"

PASTOR OF ATLANTA OUTLINES PURPOSES OF "KU KLUX KLAN"

FORMER PASTOR AT BEAUMONT SCENE OF RECENT MASKED PARTIES.

ADMITS BEING MEMBER WIT NO APOLOGY TO MAKE

Declares There Is Only One Flag In This Country and That is Old Glory.

DALLAS, Aug. 12.—The purposes and ideals of the Ku Klux Klan were outlined by the Rev. Caleb A. Ridley, pastor of the Central Baptist church at Atlanta, Ga., and former pastor at Beaumont, in a public address here last night.

"I am one of them things (Knights of the Ku Klux Klan) and I have no apology to make," the speaker said. "I have been one of them as long as I have been able to think for myself.

"We were advised by the press of the state today to take off our masks. Well, mine is off tonight.

"The Ku Klux Klan of the west has been accused of everything during the last two months, from kicking a crutch from under a cripple to stealing butter from a blind negro's bread. But the Ku Klux Klan stands first, last and always for order and law. Our souls are tried when we see officers wink at violations of the law and we want to attend to them.

"Every klansman has taken a solemn oath before his God and in the presence of the fiery cross to uphold the law and to assist every officer of the law. Because some klansmen may have violated his oath is no reason why the whole organization should be condemned. Because some members of my church do things not sanctioned by the church, no one would think of condemning the whole church.

"They say we are anti-Jew, anti-negro, anti-Catholic, anti-foreigner; that we do not stand for anything positive, but are just 'agin something.' We can no more be called anti-Catholic than the Catholics can be called anti-Ku Klux. They can't join us, neither can we join the Knights of Columbus. I can't help it because I wasn't born a Jew. A Jew can get into lots of things I can't get into.

"We are not anti-negro. There is not a true citizen of the 'invisible empire' anywhere who wouldn't go to the aid of a negro who was being mistreated or oppressed just as soon as he would go to the aid of a white man. We have nothing against him so long as he attends to his own business and stays in his place.

"I haven't time for a lengthy discussion of white supremacy. Suffice to say that we stand for that, and that means we are no more anti-negro than we are anti-Japanese. You believe in white supremacy, but you say it will take care of itself. However, I can prove to you that the Anglo-Saxon civilization is terribly threatened by a combination of religions on one hand and a combination of races on the other. An Anglo-Saxon man, true to the name, will not put anything before his name as an American. He will not call himself Greek-American, German-American, English-American or Roman-American.

"There isn't a colored race anywhere that wouldn't join with any other colored race to overthrow Anglo-Saxon civilization. They may overthrow it, but boys, listen to me—whenever any inferior race or inferior religion shall have destroyed the Anglo-Saxon civilization there will not be a living klansman on earth.

"There is room for only one flag in this country, and that is Old Glory. When you say that it is not threatened, I say you're mistaken. It is threatened—by a combination of all colored races and a combination of all religions except the religion of Jesus Christ."

Following the address, several hundred persons crowded to the stage to shake hands with the speaker. Many of them said they were from Beaumont.

MORE THAN TWO HUNDRED FARMS ARE NOW AVAILABLE FOR FORMER SERVICE MEN

WASHINGTON, Aug. 12.—More than 200 farms on government reclaimed lands will be opened to entry by former service men next month. Until sixty days after the opening, the interior department announced today, none but veterans would be permitted to make filings but others will be accepted later, if any claims remain unfiled by soldiers at that time.

The farms are located on the North Platte irrigation project, Wyoming, and will be opened for entry September 9, while others on the Shoshone project, 57 in number, will be opened one week later.

CONDEMNED MAN ENJOYS REPRIEVE MESSAGE ONLY TO FIND MISTAKE MADE

UNION, MO., Aug. 12.—While kneeling in prayer in his cell at the Franklin county jail here last night, Charles Jacoy, 18 years old, of St. Louis, condemned to be hanged today, was told a telegram had arrived from Governor Hyde at Jefferson City granting him a thirty-day reprieve. His joy was short-lived, however, for a few minutes later when the original message arrived at the prison it was disclosed that a telegrapher had made a mistake in transmitting the message over the telephone and meant that Jacoy must die at 9 o'clock this morning.

The telegram was one from the governor confirming his granting of a 30-day reprieve recently to John W. Carroll, 34, of Fairchance, Pa., who was sentence to hang with Jacoy following their conviction for the murder of Benjamin S. Howe, a garage owner at Berger, Mo., November 20, last.

BODY OF MAN IS FOUND IN CAR ON RAILROAD

WASHINGTON, Aug. 12—The body of a man identified by the local police as Louis Webb, 61 years old, of New Rochelle, N. Y., was found last night in a car on a Pennsylvania railroad train arriving here. Evidence showed that he had committed suicide, the police said.

Papers found on the body and in the baggage car received by the man referred to Webb having been arrested in New Rochelle in 1918 under the espionage act. Newspaper clippings related the loss of the Lusitania and other outstanding incidents of the war also were found.

DETAILED REPORT ON CONDITION OF CROPS

Figures on Texas Yield Are Given Out By Texas Agricultural Statistician.

HOUSTON, TEXAS, Aug. 12.—Present prospects show a condition of 86 per cent of normal for corn which is indicative of a yield of 22.79 per acre, and a production of 174,070,000 bushels for the state.

With the exception of the panhandle and the coastal belt the last two weeks of July were dry and clear, and though very late corn and June corn has suffered a little on this account, on the whole it has been beneficial by allowing for the proper maturity of the bulk of the crop, and in the storm sections where some fields were prostrate it has been very beneficial.

Wheat.

The average yield of winter wheat is set at 10 bushels per acre, making the state's production 17,610,000 bushels. Some storm damage has affected the grade and rains during and after harvest have caused some losses. The average quality is 86 per cent where 100 represents a high medium grade.

Oats.

The condition of this spring's oat crop is set at 56 per cent of normal; this condition figure including abandonment. The per cent of the 1920 crop remaining upon farms is 4 per cent of the crop of that year, or 1,764,000 bushels.

Barley.

Based on a 68 per cent condition, barley production will total 211,000 bushels. The per cent of last year's crop remaining on farms August 1 is estimated to be 2 per cent of the crop of that year, or 5,060 bushels.

Rye.

The average yield per acre is 12 bushels per acre, making a total state production of 36,000 bushels. The quality is high, being rated at 95 per cent where 100 per cent represents a high medium grade.

Hay.

The acreage of all tame and cultivated varieties of hay for harvest is 688,000, or 104 per cent of that of last year; the wild hay acreage is practically the same as last year's acreage or 202,000 acres. The condition of all hays is 93 per cent of normal, which is equivalent to an average yield of 1.55 tons per acre for tame, and 1.16 tons per acre for wild hays which gives a prospective production of 1,066,000 tons of tame and 235,000 tons of wild hays for the state.

Generally, it has been an excellent year for hay with abundant rain during the growing season and comparatively dry harvest. For wild hays on the coastal plains showers have interfered with harvest somewhat.

Rice.

Throughout most of the belt the rice crop is in a promising condition with an average condition figure of 87 per cent of normal, equivalent to an average yield of 33.93 bushels of 45 pounds per acre. Some slight maggot damage has been reported from the Beaumont section, but this is the only section reporting damage from any cause. Much of the crop is on new land and harvest already started for the early plantings. Present prospects forecast a 5,246,000 bushel crop.

Peanuts.

Peanuts have improved two points since the last report and are estimated at 85 per cent of normal, indicating an average yield of 26.78 bushels per acre average and a production of 5,222,000 bushels from the 195,000 acres under this crop.

Peaches.

The condition of peaches remains the same as last month, which is 55 per cent normal condition and forecasts a production of 1,681,000 bushels for the state as a whole.

Apples.

The condition is 47 per cent of normal and indicates production of 341,000 bushels for the state.

Grain Sorghums.

Conditions have been generally well suited to the full maturity of this crop, the panhandle having had sufficient moisture throughout the growing period. The crop is now matured and its condition indicates an average yield of 28.71 bushels per acre and a total production of 59,085,000 bushels for the state. Market movement has been sluggish.

Other Crops.

For other minor crops the average condition is as follows: Sweet potatoes 85; alfalfa 87; millet 87; pasture and ranges 91; field peas 85; field beans 86; tomatoes 82; muskmelons 82; watermelons 80; sorghum cane for syrup 82; pears 59.

PREMIER BRIAND NOT SURE HE CAN ATTEND CONFERENCE

By Associated Press.

PARIS, Aug. 12.—Premier Briand informed intimate friends yesterday that he had not decided whether he would go to Washington to attend the disarmament conference. He would like to go, he said, and would go provided his parliamentary responsibilities would permit.

Making 18-Foot Candle Memorial to Enrico Caruso

NEW YORK, Aug. 12.—An eighteen-foot candle that can be burned on every All Souls day for five thousand years is being made here as a memorial to Enrico Caruso from the inmates of an orphanage to which the Metropolitan star contributed $10,000 a year for many years. It will be placed in the church of the Madonna of Pompeii at Naples, Italy.

Antonio Ajello, maker of the candle, has erected a derrick in his shop by means of which the candle is dipped thrice daily into boiling tallow. It will be completed in ten weeks and will weigh 1,000 pounds. Mr. Ajello has figured that the candle would burn continuously for thirteen years and seven months.

Property Owners Are Reducing Rents.

THE WAYS OF SHEEP.

We have long been told that sheep follow the bell-wether and without such a leader are given to wandering aimlessly around. But this does not apply to the sheep tribe alone. For over four months congress has been wandering around aimlessly in the fields of taxes and politics. We first hear that this course of taxation will be followed and no sooner get ourselves adjusted to the course outlined until another entirely different plan is projected.

The trouble comes from two things, the lack of a leadership which has determined what it wants to do and then does it, and the desire of congress to find out just how far it can go with the public. Of these two things the lack of assertive leadership is the more important.

A little over one year ago Senator Penrose sent word to the republican convention in Chicago that Harding would be acceptable to him as the nominee. The nomination of Harding which followed this message appeared to indicate that Penrose was supreme in the party councils. But such has not been the case. Instead of blazing the way in economic and international questions Penrose has had to sit back more or less uncomfortably.

Hughes and Hoover were both selected for the cabinet over his dead body, as it were. He opposed the nomination of each as long as he felt there was any use for him to protest. Unless he has a key to the mythical back door of the white house he sees but little of the president. In fact his only meeting with the president in months took place on a Sunday at the home of Senator Knox as reported by the newspapers.

The result of this apparent break or lack of closer relations between the president and Penrose is that congress is getting along without leadership which leads. Hughes, Mellon and Hoover with the president are setting the pace in Washington. When the president is away, as he recently was, on the short vacation with Secretary Weeks in New Hampshire, congress floundered badly. Upon his return a speeding up program became immediately noticeable.

The desires of the public are unmistakable. The public wants the expenses of government reduced, which in turn will reduce taxes. A new effort is under way to bring this about and it may be that constructive results will shortly follow. But whatever is accomplished will result from the stand taken by the president and his cabinet and not from the wavering policy of congress.

Neither house of congress now has a bell-wether to follow. Both are weak in leadership and this is true in spite of the fact that the senate brought about the nomination of Harding. The representatives of the public who are supposed to originate and make the laws of the land no longer do so except in form.

Congress follows now where it formerly led.

THE ANTI-CLIMAX OF GOVERNOR NEFF'S CHARGES.

The joint legislative committee appointed to investigate Governor Neff's charges of graft and extravagance by state officials and employes has reported and its reports fails to sustain the sensational charges made by the governor. The report comes as an anti-climax to the governor's charges repeated in several public addresses. When asked for a bill of particulars Governor Neff cited alleged irregularities in the state treasury department, the padding of the scholastic enumeration at Corpus Christi and the alleged padding of expense accounts by employes of the fire insurance commission.

Regarding the irregularities in the state treasury, the committee found, as everybody already knew, that there was a shortage for which an official is under indictment; they further found that most of the loss had already been made good and that the remainder would be made good by the official bondsmen as soon as the amount had been legally determined.

The alleged irregularities in the scholastic enumeration had already been given all the publicity possible from both sides so that there were no new revelations that the committee could make concerning this alleged irregularity.

Regarding alleged padding of expense accounts by employes of the fire insurance commission the committee found that the money collected from the state "was actually expended for necessary expenses and turned in under the head of room rent." It was added that there was not any intent to defraud the state, and in fact, the state was not defrauded of anything.

Thus, the governor's flaming charges of June flicker out in August. Of course, all good citizens are glad that such a state of affairs as were indicated by Governor Neff's charges have been found not to exist. The governor's friends regret that his zeal led him into sensationalism.

HOT DAYS THE WORLD OVER.

The tendency of all of us to forget the worst of the past in the unpleasantness of the worst of the present. All over the world in the north temperate zone the present summer is heralded as the hottest on record. Reports from Europe tell of the suffering from heat such as has not been experienced in the present generation. Fish in Canadian lakes are reported to have died by the thousands due to the warmer temperature of the water. Corn and other crops in that country have been scalded by the heat.

In Northern Wisconsin where the bass fishing has long been the finest in the world, reports come that only the little fellows can be caught this year, all of the big boys have migrated to the bottom of the deeper part of the lakes.

Some are inclined to think that the unusual heat conditions which prevail are due to a change in the relation of the earth to the sun; that all of our summers are likely to get hotter and that eventually the heretofore inaccessible regions around the North Pole will be the real summer resorts.

There may be something in this; the summers of the future might continue to get hotter. However, the weakness of any such reasoning is based upon the memory of man, which is an extremely unreliable authority. Now that exact weather reports are being kept in most portions of the civilized world the succeeding generations will be able to determine whether or not the summers get hotter and the winters become milder.

This much is certain for the present year; last winter was an unusually mild one in comparison with the winter of 1917-18 for instance, and the present summer is a real scorcher. The big job in this portion of the country now is to try and keep cool. If it were not for the fact that another thirty days would see the summer pretty well spent many of us would get discouraged and give up the job.

Several days ago this paper commented upon the reported purchase of the Sweetwater Reporter by Porter Whaley, secretary of the West Texas chamber of commerce, and another gentleman. We spoke of the good fortune of Sweetwater and of Mr. Whaley's abilities as a newspaper man. This was all said in sincerity and good faith. Now comes Mr. Whaley, in a statement, denying that he has purchased the Sweetwater paper or any part of it, and is at a loss to know how the report originated. Mr. Whaley expects to remain with the West Texas chamber of commerce, an announcement which those interested in that organization will be glad to hear.

Editorial Echoes

West Texas to Be.

(Abilene Reporter.)

West Texas is not and never has been a desert, or anything like it. Generally the country in spring and summer is covered with green grass and many-colored flowers. Drouths are occasional, they are exceptional, they are unusual. The trouble is that west Texas' infrequent drouths have been widely heralded, until a great many people who have never visited west Texas get the idea that it is a sort of lesser Sahara.

There is a man, or men, writing editorials for the Dallas News, who has or have never been in west Texas. He is a brilliant performer on the typewriter, a builder of smooth sentences and a user of excellent grammar. But he has never been in west Texas, or if he has, it was during one of our occasional "dry spells," and he still harbors the delusion that west Texas is a desert place.

But we shall not quarrel with the News editorial writer. He admires the unbeatable spirit of the west and is generous in his praise. We reproduce below a News editorial full of compliments and uplifting sentiment. The only feature of it that we do not admire is the fact that the writer looks on west Texas as a dry place indeed, and in earlier years a desert. But the bones of cattle have not bleached on the plains of west Texas except in far-apart years; no oftener, we should say, than they have rotted in the east Texas swamp lands from various murrain. The cowboy never "cussed" west Texas, except in sheer admiration; he loves it and stands by it through lean years and fat. The News editorial follows:

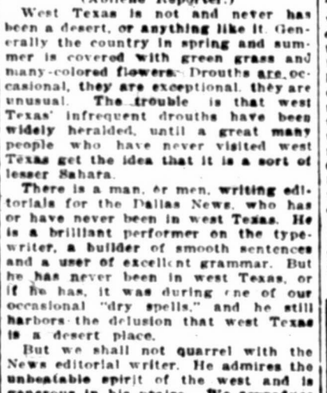

The old-time cowboy used to have a way of comparing west Texas to a place where not even cowboys cared about going. The aridness of its waste places was immortalized in verse that was rude, perhaps, but satisfactorily lilting and profane. But the "nesters" who came after the cowboys and the descendants of these "nesters" have changed things somewhat. Significant of the changes which are being brought about are accounts of bond issues for the construction of artificial lakes, such as have been decided upon at Cisco, Colorado and other places. With these lakes, wherever they are established with a reasonable amount of wisdom and engineering skill, come trees, parks, flowers and municipal beautification in general.

Projects of this kind are worthy of every encouragement. Could it be possible to dot all of west Texas with these lakes, the results are beyond computation. It is not out of reason to predict that the presence of a large number of artificial bodies of water, wherever the conformation of the ground and the possibilities of supply permit, would have a material influence upon the climate of large portions of the state, to say nothing of the great acreage which it would render tillable. At least equal to the coinable advantages which might ensue would be the increased comforts of human existence and the finer things that go with them.

Somehow man doesn't manage refinement without trees. Trees are a part of civilization, and without them it is incomplete. Wide sweeps of landscape are inspiring, and unhindered breezes are refreshing and invigorating, but about his home man wants a clump of friendly trees. If he is denied them, either by the niggardliness of the clouds or by the encroachments of the city, he has a feeling that he has somehow lost something to which he had a right. And these lakes mean trees. If they meant nothing more, they would be a boon beyond valuing to west Texas.

But they mean more than that. They mean co-operative public spirit. They mean that west Texas believes in west Texas. They mean that the desert is being driven back farther and farther, just as the savages of the desert were driven. They mean peopled places where once the coyote and the jack rabbit dwelt in want and solitude. They mean pleasure resorts where once were only sparse dead grass and whitened bones. They mean the fulfillment to the old and weatherbeaten pioneers of the hopes and dreams of years long, long past, when they dared to come out into a God-forsaken country and make it their home. They mean, too, the passing of an epoch in the history of the Lone Star State, an epoch filled with red-blooded romance, brave deeds and unconquerable grit. But with its passing comes a new era and a pleasanter one, an era of progress and development, an era of prosperous farms, thriving towns, comfortable homes and sturdy, happy, virile citizenship. And who shall say that the new is not better than the old?

HUMANISMS Inner Lights on Lives and Whims of Personages in the Public Eye

By WILLIAM ATHERTON DU PUY

Edmund Platt, member of the federal reserve board, is the John Burroughs of official life in Washington. He knows more about birds than does any other man who moves in his circle.

The theory is sometimes advanced that, if a man masters some subject, no matter how impractical it may seem, he will cash in on it sooner or later.

Mr. Platt came down to congress from Poughkeepsie, N. Y., and didn't seem to grow right into a position of prime importance in congress. There are only a few men who do. The old wheel horses often quite ignore the newcomers for many years. In fact, many men spend their lives in congress and never come to amount to much in its deliberations.

The agricultural bill came up and there was an item in it for the protection of birds. Mr. Platt made a speech. He told congress many interesting things about the denizens of the feathered world.

Congress didn't care much about birds, but it respected a man who was such an obvious master of his subject. They began to give attention to this man from Poughkeepsie. They put him on the committee on banking and currency. Now he occupies a place on that vital financial agency of the government, the federal reserve board. He believes that his knowledge of birds gave him his chance.

When Admiral Sims was a lieutenant in the navy, some twenty years ago, he was assigned to service with the Far Eastern fleet and spent a year or two in Oriental waters. So high-strung and energetic was he that the inaction of the life palled on him and he sought means of strenuous diversion.

He found attached to the British fleet in the same waters a captain whose name was Percy Scott, and who, likewise, was consumed with superfluous energy. So these two went ashore, procured themselves bicycles, and on foot and awheel traveled over half of China and developed a very warm friendship.

And as they rested here and there on their journeys these two men threshed out many points in that detail of the service in which they were most interested—naval gunnery. In the years that followed, each became the advocate of gunnery reforms in his respective navy, and as a result of their agitation the whole scheme of target practice in those navies was revamped and greatly improved.

And so when Admiral Sims went to England as commander of the American fleet during the war, he was rejoiced to find that Captain Scott, now admiral, was in charge of the anti-airplane defenses of the British metropolis.

The parents of country children should send them to the cities for health purposes, says Dr. Herbert Work, first assistant postmaster general. Pavements offer better health than green fields, factory smoke than rural ozone, he says:

Weight is lent to Dr. Work's statements by the fact that he was recently elected president of the American Medical association. He ought to know. He believes that the myth of going to the country for health might as well be dissipated now as at any other time. Sanitation and health education make the difference. Both are better in the city.

(Copyright 1921 by Public Ledger Co.)

were less developed than the England of two or three hundred years before. In short, there were more forests, hence more "Greenwoods" in Germany than in England.

It is rare than an English and a German family name of exactly the same meaning run so near parallel in the philology of the words of which they are composed. Both "green" and "grune" come from the same root. Formerly the English word was spelled "grene," and the older form of the German word was "gruene." In the development of one language the "e" has prevailed and in that of the other the "u." In the same manner the words "wood" and "wald" come from the same root. The older form of the one was "wode," developed from a still earlier "welde."

Grunewald is, of course, the true form of the German name. Greenawald and Greenwalt are modern variations, developed, as you may plainly observe, from the first syllable, under the influence of English speech.

Sunday—Armstrong.

Just Folks by Edgar A. Guest

The Truant Spirit.

I have no heart for my tasks today,
My soul has fled to the far away,
And now it is playing the tramp somewhere
Where the breezes blow and the hills are fair,
And it mocks at me when I'd call it back,
And bids me turn from the beaten track
To the moss-grown woods and the cooling streams,
To spend the day in the land of dreams.

Strangers come to my door and speak,
And quit my room in a fit of pique,
But little they guess that the flesh they see
Is merely a photograph of me;
Here is my form in the garb I wear,
This is my head with the tousled hair,
But I have fled to the far-away,
For the soul of me is a tramp today.

Oh fools, who think in their gift of power
They can chain a man for a single hour,
Little they gain if the body stays
And only the flesh of man obeys,
So far as the eye can see, I sit
At my desk today—but I'm far from it.
For my truant spirit has wandered far
To the summer hills where the glories are.

Little Benny's Note Book
By Lee Pape

Me and my cuzzin Artie was playing dominoes on our setting room floor and pop was taking a nap on the sofer and all of a suddin he started to smile in his sleep as if he thawt he was having a funny dreem. Artie saying, O, lets wake him up and ask him wat he's smiling at and see if its as funny as he thinks it is.

No, he gets too mad wen enybody wakes him up wen he's asleep, I sed.

And we kept on playing dominoes and pritty soon pop started to laff rite out loud without stopping sleeping, and Artie sed, O, Hasen to him, you better wake him up and ask him wat he's laffing at, because if he wakes up by himself he mite forget and then nobody wouldent ever find out, and wen you tell him he was laffing he mite get mad at you for not waking him up so he could remember wat the joak was.

Sounding like a pritty good of a argewment, and I sed, Well, all rite, if he laffs agen Ill wake him up and ask him wat the joak is and then he cant blame me if he dont remember it.

Wich just then pop started to shake all over on account of laffing so hard in his sleep, and Artie sed, Now ask him now.

Wich I started to do, shaking him a little and saying, Pop, pop, hay pop, wats the joak, wats you laffing at, pop? Ony pop jest kept on sleeping and I started to shake him hard as enything, saying, Wats you laffing at, pop, hay pop, pop.

Wat, wat? Wat the doose? Wats all this? sed pop opening his eyes so suddin I forgot to stop shaking him, and he gave me a fearse push, saying, Lay off, wat do you wunt, are you going crazy.

You was laffing, pop, wat was you laffing at? I sed.

Is that wat you woak me up to ask me? sed pop, and I sed, Yes, sir, I thawt maybe if I dident I thawt maybe you mite forget.

You mite be perfeckly all rite if you had more branes, sed pop. And he made Artie go home and gave me 4 fearse cracks with his slipper and dident tell me wat he was laffing at after all, which he proberly dident remember himself enyways.

ODD FELLOWS FROM FOUR COUNTIES MEET IN RULE ON TUESDAY

RULE, TEXAS, Aug. 12.—The Odd Fellows of Haskell, Jones, Fisher and Stonewall counties have organized an association which holds two meetings a year. They have planned to meet at Rule Tuesday, August 16. Elaborate arrangements have been completed to royally entertain all visitors and many delegates are expected to be present from all parts of the district.

The school board has announced that Rule public school will begin September 5. Also that the compulsory law will be enforced from the first day of school. No children under age will be permitted to attend because of the crowded conditions of the school.

Work has begun on the new flour mill for Rule and the promoter, J. N. Hudson, assures that the work will be rushed to completion as fast as possible. The mill at O'Brien has been torn down and the parts are to be used in the mill here.

C. O. Davis, carrier on route 1 of Rule, is now erecting a new brick residence which will soon be completed and ready for occupancy of the family.

There is now under advisement a new building planned for a permanent home for the two orders, Masons and Odd Fellows, and the lower floor to be used as a community hall and controlled by the city.

Crop conditions around Rule were never better considering the light rainfall. Maize heading is in full blast and an excellent crop is now ready for harvest. Cotton is at least two weeks earlier than usual and in fine condition.

J. H. Hawkins and D. W. Chapman are no longer connected with the Uneeda Tailoring company. 91-3tp

FUNERAL SERVICES FOR TWO WILBARGER COUNTY SOLDIERS DURING WEEK

VERNON, TEXAS, Aug. 12.—Funeral services for two Wilbarger county soldiers killed in action in France will be conducted this week. One, that of Carl Streit, was held Wednesday, and many stores closed their doors during the ceremonies, which were in charge of the local American Legion post. Streit was the son of Mr. and Mrs. Fred Streit, living south of town.

The body of Dewey Lyon is expected to arrive here Sunday. It is planned to conduct the funeral from the Central Christian church. Burial will be with full military hons

Answers to Yesterday's Queries

Sir John Tenniel was a famous English cartoonist, best known for his pictures in "Punch" and his illustrations for "Alice in Wonderland."

The rise and fall of the mercury in a thermometer is due to the expansion and contraction of this liquid under varying degrees of heat and cold.

The facets on a diamond are cut by a diamond lathe "where diamonds cut diamonds."

The next full moon will occur on August 18.

Seltzer water derives its name from the town of Seltera, in Germany.

The History of Your Name
By PHILIP FRANCIS NOWLAN

GREENWALD.

Variations — Grunewald, Greenwalt, Greenwood.
Racial Origin—German, also English.
Source—Descriptive of locality.

The last named of the variations of this family name gives you the clue to its meaning, as it is the only name of English origin in the group. The rest are of German development.

By far the larger number of families in the United States bearing this various forms of this name trace it back to German origin, for the name had a much wider development in Germany than in England. This is ascribed to the fact that even though the period of family name formation took place considerably later in Germany than in England, most sections of that country

Small sizes 11's to 2's Misses' Slippers, $2.95 to **$3.95**

Complete stock Boys' Buster Brown Shoes.

LEADERS OF FORCES IN SALARY STRUGGLE SUBMIT STATEMENTS

AUSTIN, TEXAS, Aug. 12.—The final passage in the house f representatives of the educational appropriation bill with reductions in the salaries of the University of Texas and Texas A. & M. College professors and instructors brought the finale of one of the most spirited parliamentar. battles in the history of the house. The majority leaders in the reduction move, about eight strong, gradually reduced the salaries and sliced the appropriations to suit themselves while the minority, about 39, fought against bitter odds to stave off the reductions.

Chairman Satterwhite of the appropriations committee and Representative Williams of McLennan county led the minority in the battle royal while Representatives Bonham, Curtis and Pope guided the majority through the salary reducing area. The climax brought statements from leaders of both sides, Chairman Satterwhite for the minority and Representative Curtis for the majority. Both legislators undertook to show their sides of the issue.

The Satterwhite statement follows:

"The effect of the Bonham bill to the university is to give the university about $500,000 less for the two years and at the same time take $100,000 more out of the pockets of the tax payers than does the original committee bill.

"Under the bill as repo:t to the house by the appropriation committee, the total for the University o. Texas was $2,204,000 for the two years. The bill as amended by the house carries a total of $2,302,000 in round numbers for the two years.

"In the committee bill, the availabe fund accruing to the university for the two years, incudi g a present cash balance of $150,000, giving a total of about $700,000 for the two years, was appropriated to the university for support and maintenance, just as it has been for the past several terms. In other words, the committee bill provided a fund of about $2,900,000 for the two fiscal years; whereas the amended bill provided $2,302,000, or about $600,000 less than the committee bill. But after all, the amended bill takes out of the general revenue fund of this state about $100,000 more than the committee bill. It was for t. . reason that the committee finally agreed to allow the university the use of the available fund, inasmuch as it was deemed best to cu' out all building programs for the next two years and thus save that much money to the tax payers.

"As to the A. & M. College, the house amendments cut out $107,900 on salaries and then added $550,000 for summer school; $42,.00 for experimental stations and $8,000 for 'oul brood; and added to this, the house amended the bill providing that all salaries be on a nine months basis, whereas the committee bill provided for a twelve months basis. Thus it will be necessary for the board of direct rs to make two contracts each year, including the regular and summer terms.

"The other amendments to the committee bill make very little material difference, except the Pope amendments which "hog-tie" the appropriations so as to not permit of shifting teachers from one division to another. This is a serious mistake, as it is impossible to determine just how many teachers will be needed in each division prior to the registration of the student body for the ensuing term.

"The bill will go to the senate and of course a free conference committee will necessarily be finally called upon to adjust the differences between the house and senate bills. Just what this committee will do is only a guess, but I feel sure that the two houses will get together before the expiration of the thirty-day term.

The Curtis stat ment in part is as follows:

"As some misapprehension has gained publicity concerning the n t result of the fight of the majority of the house to reduce expenditures under the educational appropri tion bill, I take this occasion to submit the following facts:

"Under the university appropriation bill submitted by the committee, the available fund of approximately $250,000 per year was allowed the university for operating pur oses, in addition to the itemized allowances. This fund was originally intended as a building fund and is the only source of revenue from which any building can be constructed. This fund for several years has been appropriated in lump sums for the purpose of maintenance. The appropriation bill brought in by the committee eliminated from the A. & M. College budget six experimental stations, which were placed back in the bill by the house. These stations, in the judgment of the majority of the house, are doing a good work for the farmers of the state and should not be eliminated.

"The substitute university budget offered and urged b Mr. Satterwhite provided for an annual expenditure of $1,475,000 instead of an annual expenditure of $1,350,000 under his original bill. This would make an annual increase for the university of $125,000, or an increase of $250,000 for two years. This increase added to the net decrease of $387,180 ould make a decrease in favor of the bill passed under the proposed Satterwhite substitute for two years of $637,180.

"Under the amended bill as passed the available fund derived from the sale and rent of university lands and other like sources, amounting to about $250,000 per year, is tied so that it must be spent for the purpose of building and not for maintenance.

"The amendment as passed consists of itemized budgets and does not contain an appropriation of any bulk sum as the available fund of about $25,000 annually appropriated in bulk under the original bill.

"Under the Pope amendment, which applies to all educational institutions, if any place for which an appropriation is made be not filled by a teacher or other person for whom a salary is provided, the salary shall lapse and be returned to the state treasury; and no professor, instructor or other person for whom a salary is fixed by the bill is allowed to draw more than the amount of such salary from any other funds under the control of the institution. And if any amount appropriated for any particular purpose be not used for such purpose, the unused portion must be returned to the state treasury.

"In my judgment, the above amendments are to the interests of the tax payers, as well as the educational institutions. Reductions have been made in salaries, but none of them have been reduced below the amount allowed for the year ending August 31, 1920.

"No real damage has been done any educational institution and all of them can and will continue to operate and prosper. In time, the university campus will have some real buildings, in place of the shacks; the public can at all times know how the public money is expended, and a considerable amount has been saved to the tax payers of the state.

WANT MUSKOGEE YOUTH FOR CONTEMPT OF COURT

MUSKOGEE, OKLA., Aug. 12.—A warrant for the arrest of Malcomb Etheridge, 18 years old, charging contempt of court, was issued in city court here this morning after a report was received last night that the boy had been found in Texas after being absent from his home here since August 2.

A letter from Etehridge received by his mother late yesterday was said to have contained information that he was at the home of an uncle, J. S. Etheridge, at Mount Selman, Texas. Mrs. Etheridge turned the letter over to the police last night, and Ed Maloney, chief of police, and Patrolman George Sherrod, the boys' uncle, left at once for Mount Selman. Notification of the issuance of the warrant was telegraphed to them early today.

The charge of contempt resulted from Etehridge's failure to appear in court as a witness at the trial of Joe Pompson, Lottie Henson and Elizabeth Culver, which grew out of a previous disappearance of Etheridge on June 30. was charged with kidnaping him. The charge against them was dismissed yesterday.

When Etheridge disappeared August kidnaped, deputized and armed 500 citizens who spent an entire night and part of next day in searching the county for the missing boy. Later Chief Maloney announced that he had decided the disappearance was a "fake" and the police virtually withdrew from the hunt. His family, however, continued it.

In the letter to his mother, Etheridge said he left Muskogee "because he couldn't stand it any longer," and because some one whom he did not identify had advised him to depart.

Did You Ever See Such CROWDS?

10,000 People

—Must Have Been in—

SAUL'S Store

—TODAY—

Why?

Because Saul Always Does As He Says He'll Do

Sale Lasts Two or Three Weeks

MAYFIELD DID IT!

And Did It Big. Hundreds and hundreds of eager and enthusiastic people packed the street and jammed the traffic for an hour prior to the opening of this Big Sensational Sale. It was the biggest event of its kind ever witnessed in Wichita Falls. Ask those who were there; then tell others yourself.

KNOCKING THEM COLD!

Putting it over and waking them up. Going strong and gaining every round. People, it is absolutely the Biggest Saving Opportunity ever offered you. Come on, see for yourself!

BIG ORANGE RACE SATURDAY AT 9:30

Come, be here Saturday at 9:30. That Man Mayfield will throw 10 big oranges from the roof of this store and each one will contain a silver dollar, so come join in, catch 'em and keep the money.

Let Nothing Keep You Away!!

Make your plans and be here as the doors open tomorrow. Don't put it off, people. It means money to those who buy here.

Bargains Galore!

And still some more! Our prices stand the test, they defy competition and cry for comparison. Come on, see our big displays. Get our prices, compare with others; judge for yourself, and we know where the buying will take place.

COME TOMORROW AND BE WITH THE CROWDS

MAYFIELD SAYS:

Bring in your feet and your pocketbook, and I'll please them both.

SALE DIRECTED BY SOUTHWESTERN SALE CO. OF DALLAS, WITH MAYFIELD IN CHARGE

ALL THE NEWS OF ALL THE SPORTS ALL THE TIME

Spudders Are Finally Stopped By Marines With Mitchell in Box

Roy Mitchell and "Rabbit" Darrough hooked up in a pitching duel at Athletic Park yesterday afternoon and the former had the better of the joust with curves. He had the better of it because he had only one bad inning, whereas Darrough had two and the Marines finally broke the Spudders' extended winning streak. The score was 3 to 1 and the game was just as close as the score indicates. However, though the Rabbit came out on the undesirable end of the score, he showed that he can still be counted upon to pilot his mates to victory.

In everything except the matter of hits, the honors were pretty evenly divided between the pair. Mitchell passed two while Darrough passed one and hit a couple. But the latter fanned four while the visitor was whiffing three. Mitchell, however, held the Spudders to nine hits, none of which was for extra bases, and with the exception of the fifth inning, when the locals bunched two hits for their only run, he managed to keep them well scattered. Darrough, on the other hand, gave the Marines 11 hits and three of them were for extra bases, Skinner, Galloway and Segrist connecting for doubles. One of them was extremely lucky, but two of the three figured in the scoring. Galloway's double was made in the first of the eighth and accounted for the winning run as Skinner was perched on second at the time. Segrist's two-ply wallop came in the last chapter and paved the way for the third run scored by the invaders.

Bob Beecher was still suffering from a strained ligament and Bischoff was in left again for the Wichita tribe. He disported himself in a commendable fashion, especially with the club. Out of four trips to the plate he belted out three safeties and made the going particularly rough for the visiting infield.

The fielding of Segrist, the visiting third baseman, was the outstanding feature of the game. The Spudder sluggers found it next to impossible to poke a hit anywhere near the hot corner as Segrist was always on the job. He robbed the locals of at least three hits and gave a wonderful exhibition of accurate pegging.

A timely hit or two on the part of the Salmites would have turned the tide several times, but it was never forthcoming. Except in the fifth inning when Bischoff slammed a safety to center with Kitchens on second, the Spudders were helpless with men on bases. It has been a long time since the home boys have had their clubs so forcibly silenced as they were yesterday.

The effectiveness of both hurlers can be seen from the following detailed score:

First Inning.

DALLAS: Falk was hit by a pitched ball. Munson fouled out to Works. Skinner popped out to Clark. Falk stole second. Galloway fanned. No runs, no hits, no errors.

WICHITA FALLS: Bischoff led off with a single to left and went to second while Palmer threw out Tanner at first. Palmer robbed McDonald of a hit and the Spudders of a run when he went back of second and fielded Mac's grounder and threw him out at first. Bischoff went to third. Clark flew out to Falk. No runs, one hit, no errors.

Second Inning.

DALLAS: Palmer opened the inning with a bingle to left that was good for one base. He went to second on Robertson's sacrifice, Darrough to Works. Stow fanned. Segrist hit to McDonald who touched Palmer on the line for the third out. No runs, 1 hit, no errors.

WICHITA FALLS: Segrist threw out Miller at first. Griggs rolled a slow one down the third base line and beat it out. Works hit to Segrist who fumbled the ball and then threw wide to first, drawing Galloway off the bag, Griggs taking second. Mitchell threw out Kitchens at first and both runners advanced a base on the play. Darrough grounded out Segrist to Galloway. No runs, one hit, one error.

Third Inning.

DALLAS: It was three up and three down for both teams. Mitchell fouled out to Kitchens. Falk popped to Clark and Munson went out Darrough to Works. No runs, no hits, no errors.

WICHITA FALLS: Bischoff fanned. Tanner fouled out to Galloway and McDonald flew out to Falk. No runs, no hits, no errors.

Fourth Inning.

DALLAS: Three singles in a row off Darrough netted the Marines one run. Skinner poked one to right center and went to third when Galloway singled to right. Palmer singled to left scoring Skinner, Galloway on second. Both runners advanced on Robertson's sacrifice, Works to Clark, who covered the bag. Stow flew out to Miller in center and Galloway was cut down at the plate. One run, three hits, no errors.

WICHITA FALLS: Clark went out Segrist to Galloway. Miller singled to center but went out stealing, Robertson to Palmer. Griggs walked but Works struck out. No runs, one hit, no errors.

Fifth Inning.

DALLAS: Segrist flew out to Bischoff. Mitchell went out Clark to Works. Falk flew out to Griggs. No runs, no hits, no errors.

WICHITA FALLS: The Spudders knotted the count in this inning on a single, a sacrifice and single, Kitchens rapping one to left field for one base and went to second on Darroug's sacrifice, Segrist to Galloway, from where he scored on Bischoff's single to center. Tanner went out Segrist to Galloway, Bischoff taking second. McDonald grounded out Mitchell to Galloway. One run, two hits, no errors.

Sixth Inning.

DALLAS: Munson went out, Works unassisted. Bischoff misjudged Skinner's fly and it went for a double. Skinner took third while Clark was throwing out Galloway. Palmer was out McDonald to Works. No runs, no hits, no errors.

WICHITA FALLS: Clark crossed the infield and beat out a bunt. Miller hit into a double killing, Segrist to Palmer to Galloway. Griggs walked but went out stealing, Robertson to Palmer. No runs, one hit, no errors.

Seventh Inning.

DALLAS: The fans had a tough time with their heart in the first half of the inning. Robertson led off with a single to left and went to second on Stow's sacrifice, Darrough to Works. Segrist hit to Tanner who fumbled the ball, Robertson going to third and batsman was safe at first. Mitchell was hit by a pitched ball, filling the bases. Falk hit into a double killing, Darrough to Kitchens to Works. No runs, one hit, one error.

WICHITA FALLS: Works flew out to Skinner. Kitchens went down Segrist to Galloway. Darrough fanned. No runs, no hits, no errors.

Eighth Inning.

DALLAS: The Marines took the lead. Munson fouled out to Kitchens. Skinner singled to right center and went to second on a passed ball. Galloway doubled to right center sending Skinner across the plate. Palmer popped to Works. Robertson flew out to Bischoff. One run, two hits, no errors.

WICHITA FALLS: Bischoff singled off Segrist's shins. He went to second on Tanner's sacrifice, Segrist to Galloway. McDonald went out Palmer to Galloway. Clark's best was a grounder to Palmer and he was thrown out at first. No runs, one hit, no errors.

Ninth Inning.

DALLAS: Stow fanned. Segrist doubled to left, the ball bouncing off McDonald's glove. Mitchell got a single to left scoring Segrist. Falk walked, Munson got an infield hit to Works, filling the bases. Skinner fanned. Galloway popped out to Tanner. One run, three hits, no errors.

WICHITA FALLS: Miller popped out to Segrist. Griggs went out Palmer to Galloway. Works singled to center. Kitchens fouled out to Segrist. No runs, one hit no errors.

COCHRAN WORKS WAY INTO SEMI-FINALS

Local Golfer Meets Colorado Champ Today in Trans-Mississippi Tournament.

DENVER, Aug. 12.—Semi-finals in the trans-Mississippi golf tournament got under way this morning on the Denver Country club course. J. C. "Jimmy" Ward, Kansas City, star, meets George Von Elm of Salt Lake City and L. D. Bromfield of Denver meets T. B. Cochran of Wichita Falls, Texas. The winners play for the championship Saturday. The von Elm-Ward match brought together two 20-year-old golfers who have been stars throughout the qualifying rounds and three elimination rounds. Ward was the medalist in the thirty-six holes of the qualifying rounds.

"Larry" Bromfield, the Colorado champion, went through the elimination rounds by playing brilliant golf but faced his hardest match today when he attempted to take the measure of the Wichita Falls man. Cochran has a peculiar style and an effective one.

RETURN FROM FUNERAL OF MOTHER AT EUTHER, OKLA.

VERNON, TEXAS, Aug. 12.—Mr. and Mrs. W. S. Eatmon of this city and Mr. and Mrs. R. E. Eat on and family of the Doans community have eturned home from Elmer, Okla., where they attended the funeral of their mother, Mrs. Martha C. Eatmon, who had been making her home there with a daughter, Mrs. Eat on was a former resident of this county and has many friends here. She was born near Atlanta, Ga., March 4, 1838, and was 83 years old when she died. She was married to W. N. Mobley, a gallant confederate soldier, who fora the civil war, and to this union three children were born. Mrs. Mobley died in a federal prison at Camp Chaso, Ohio.

Mrs. Eatmon became the bride of H. H. Eatmon, another confederate, in 1868. Seven children were born to this union. Forty-seven years ago the family moved to Texas and located in Cooke county.

KING OR PRETENDER

Here is Bryan Downey of Cleveland, who, in the opinion of many, is the legitimate middleweight champion of the world as the result of his bout with Johnny Wilson, the title holder, in Cleveland. Referee Gardner awarded the decision to Wilson on a foul in the seventh round and the Cleveland Boxing Commission reversed the decision of the referee and awarded the title to Downey on a knockout. Downey had floored Wilson three times before the referee stopped the bout. He is now looking for a return bout and says he will prove that he, and not Wilson, should wear the crown.

Batteries—Martin and Daly, O'Farrell and Rariden.

Reds 6, Cards 1.

ST. LOUIS, Aug. 11.—Cincinnati made it two straight over the Cardinals by taking Thursday's game, 6 to 1. Rixey pitching the locals safe all the way. Reds' second baseman brilliantly supported his mates cutting down Cardinal rallies with five double plays, four of these in succession, which is considered a record.

Score by innings— R. H. E.
Cincinnati ..... 121 002 000—6 9 1
St. Louis ..... 000 000 001—1 8 2
Batteries—Rixey and Wingo, Bailey and Dilhoefer.

FREDDIE MCDONALD GOES TO MINNEAPOLIS CLUB

GALVESTON, Aug. 11.—Fred McDonald, Galveston, Texas League, centerfielder, has been released optionally to Minneapolis of the American Association. He will leave Friday night.

SPORT BRIEFS

SEABRIGHT, N. J., Aug. 12.—William M. Johnston of San Francisco, and R. Norris Williams II, of Boston, fight it out on the turf of the Seabright lawn tennis and cricket club today for possession of the coveted Seabright cup.

NEW YORK, Aug. 12.—Personnel of the American tennis team that will defend the historic Davis cup in the international challenge matches at Forest Hills, September 2, 3 and 5, will be announced late today.

CHICAGO, Aug. 12.—Mike Gibbons left today for St. Paul after spending a short time in Chicago, during which he definitely announced he has called off his bout with Happy Littleton of New Orleans. Gibbons states that he expects to have his fonsils removed and is in no condition to fight until after the operation.

ST. LOUIS, Aug. 12.—Hugh Walker of Kansas City and Bob Martin, heavyweight pugilistic champion of the A. E. F., have been matched for a 12-round bout to be held here September 15, it was announced today. Proceeds of the bout will go to a fund for disabled ex-service men.

PHILADELPHIA, Aug. 12.—An all-star card for the night of August 24, at the Philadelphia National baseball park, has been announced by the promoters of the Lew Tendler-Benny Leonard match for the world's lightweight title which was to have been held here tonight but which was indefinitely postponed when Leonard dislocated his thumb in the windup. Tendler will meet Sailor Freedman of Chicago.

KANSAS CITY, Aug. 12.—John ("Bunny") Brief, first baseman of the local American Association club, has hit safely in 26 consecutive games up to and including yesterday's contest. Brief also leads the American association this season in home runs, having pounded out 26, the last two of which were made yesterday. The association circuit drive record is 29, held by Davy Cravath.

SPORT SHOTS by Paul W. Barkin

"Bad news" is right.

Well, there's only one thing to do. Go out and win nine or ten more before dropping another.

Lots of upsets yesterday. The Spudders dropped one and the Bears copped one.

It was a well earned victory for the Marines. They didn't play any better ball, but they had better hurling.

"Rabbit" has lost several hard games this year. Every time he's right the opposing twirler is just a bit "righter."

However, he couldn't have been right in his mind when he pitched to Galloway in the eighth with the winning run on second. If there's a more dangerous hitter in the league than Jim, we haven't seen him. Still, we'd never lose if we were entitled to second guesses.

The boys simply had it coming to them. They couldn't go on forever. The defeat may do them good. It at least will show them that they are not invincible.

The new Marine third baseman arrived yesterday, but he won't have much of a chance to break in if Segrist keeps up the clip he started yesterday.

Round trip wallops were conspicuous by their absence. Though 20 hits were made by the two clubs, they weren't the sort of hits that local fans have become accustomed to.

Have you sent in your check to the Players' Bonus Fund yet? Of course contributions will be received up until the season closes, but the boys would leave feeling better if they knew there was a substantial amount in the coffers when they hit the trail. They deserve all they can get. They've given Wichita Falls some great baseball this year. No donation is too small.

About the first thing Billy Smith did when he reached Fort Worth was shoot off his mouth about the Spudders. That's one thing Billy can do and do well. He is quoted as saying that the breaks went against his club here, and consequently he lost. Scores like 13 to 6, 8 to 6, 5 to 3, and 7 to 2, must have been brought about by something more than breaks.

Many seem to be of the opinion that the Spudders are going to crack on the road. Their last trip was far more successful than that of the Marines, and the Panthers had an exceptionally good trip. The Spudders have played as well on the road as they have at home all season. They never did start playing real, winning ball until the last home stay. If they played as well on the road as at home, why shouldn't the same be true this time? This "weak road club" stuff is the bunk.

Gasser players are also said to be very much against the Spudders because it was Salm's vote that caused the split. Fort Worth papers gobble stuff up like that and can't get it printed quickly enough, when they know that it was absolutely the best thing that could happen to the league. The Gassers know it too. It made many an extra penny for the Shreveport moguls and we have a picture of Paul Latzrave and Jake Atz whining about the split after playing to better than 26,000 people in four days. We wonder what class of people these scribes think they are fooling. It is just such writing as that that has made the Panther team the most detested in the league. They are not disliked because they are winners, but simply because they have done nothing but cry since the season was split, despite the fact that they are making more money than they ever did.

MRS. SWITZER NOW OVER HER TROUBLES

Nobody Expected Texas Woman to Be Well Again, But She's Now in Perfect Health

"I don't believe anybody who knows me ever expected to see me well and strong again, but here I am in the best of health, thanks to Tanlac," said Mrs. Mary Switzer, 2205 Terry street, Houston, Texas.

"About four years ago I was taken down with a serious illness and had never really recovered up to the time I took Tanlac. I was awfully nervous and sometimes would even get hysterical. My digestion was poor, my blood was thin and I kept getting weaker and thinner. I had an awful pain across the small of my back that hurt me night and day. I lost weight until I got to where I only weighed about ninety pounds. I was about as blue and despondent as a person could be and didn't know where to turn for relief, as everything I had tried had failed.

"Tanlac suited my case exactly and today I am in perfect health. I not only have gained back all the weight I lost but I seem to have more strength than I have ever had in my life before. The pain in my back is gone, I eat heartily and never have a sign of indigestion. Only the grandest medicine in the world could do what Tanlac has done for me."

Tanlac is sold in Wichita Falls by Miller Drug store, in Electra by Tarleton Drug store, in Burkburnett by West End Drug Co., and by all leading druggists.—adv.

TIMES DAILY MARKETS

New York Stocks—Grain and Provisions—Cotton—Livestock

COTTON MARKET.

New York Cotton.

NEW YORK, Aug. 12.—The cotton market showed renewed nervousness early today. Liverpool was a little better than due and the opening here was steady at an advance of 3 points to a decline of 9 points. There was Liverpool and scattered southern selling accompanied by reports that the higher basis recently asked for spot cotton in the south had checked export demand and the market soon turned easier, with December selling off to 13.55c, or about 10 to 12 points net lower. Houses with Wall street connections were among early sellers, but the market was comparatively quiet following liquidation of the past two or three days and selling was probably restricted to some extent by reports of a continued good demand for cotton goods and further crop complaints.

Bullish private crop reports pointing to a further reduction in the indicated yield of about 800,000 bales, checked the decline around 12.55 for December and started enough buying to send the price up to 13.78, or 12 points net higher. Private wires reported increased hedge selling in New Orleans on the advance there, however, while there also appeared to be some southern selling around the local ring and prices were a few points off from the best early in the noon hour with trading comparatively quiet.

No fresh feature developed in early afternoon and prices sagged back to about last night's close, with December ruling around 12.61c shortly after 2 o'clock.

Cotton closed steady.

	High	Low	Close
October	13.55	13.11	13.20
December	13.78	13.55	13.63
January	13.83	13.60	13.65
March	14.12	13.86	13.87
May	14.22	13.98	13.91

New Orleans Cotton.

NEW ORLEANS, Aug. 12.—The unfavorable political news overnight caused recessions of 6 to 12 points in the price of cotton in the early trading today, but new support came in following a private bureau report on condition of the growing crop of 57 per cent of normal, indicating a yield of but 7,400,000 bales. At the end of the first hour of business prices were 9 to 14 points higher than the close yesterday. October fell off to 12.66c and reacted to 12.87c.

The upward movement continued until it amounted to 13 to 16 points and October was at 12.94. Realization by longs began here and caused recessions, the market standing at 11 o'clock at net gains of only 2 to 3 points.

Late trade brought only small price changes, although favorable comment arose regarding the showing of the weekly statistics which put mill takings of American cotton by the world at 210,000 bales against 167,000 this week last year. Toward the close prices were 4 to 5 points over yesterday's finals.

Cotton closed steady at a net decline of 2 to 7 points.

	High	Low	Close
October	12.94	12.66	12.76
December	13.30	13.08	13.15
January	13.40	13.20	13.20
March	13.62	13.42	13.42
May	13.72	13.50	13.50

New Orleans Spot Cotton.

NEW ORLEANS, Aug. 12.—Spot cotton steady and unchanged; sales on the spot, 977 bales; to arrive, 326. Low middling, 10.38; middling, 12.13; good middling, 13.13. Receipts, 2,260; stock, 436,727.

Liverpool Cotton.

LIVERPOOL, Aug. 12.—Spot cotton quiet; prices steady. Good middling 9.31c, fully middling 8.91c, middling 8.46c, low middling 7.56c, good ordinary 6.41c, ordinary 5.66c. Sales, 7,000 bales, including 4,300 American. Receipts, 1,000 bales, including 600 American.

Texas Spot Cotton.

DALLAS, Aug. 12.—Cotton middling, 11.50; steady. At Houston, 12.80; steady. At Galveston, 12.65; steady.

GRAIN AND PRODUCE.

CHICAGO, Aug. 12.—Wheat displayed unusual steadiness in price today. Opening quotations, which varied from unchanged figures to 1c higher, with September $1.24½ to $1.25 and December $1.27½ to $1.28, were followed by a moderate setback and then by a rally to about yesterday's finish.

In the last half hour the market declined. Official French and Canadian crop estimates were bearish. The close was unsettled, ½c to 2c net lower with September $1.23½ to $1.23¾ and December $1.25½ to $1.25¾.

Corn, after opening at ½c decline to a like advance, including September at 57½c to 57¾c, underwent a general sag and showed but little power to rally.

County offerings were liberal and December delivery touched the lowest level yet this season. The close was nervous, ½@¾c to 1c net lower, with September at 56½@¾c.

Oats started unchanged to a shade higher, September 36½c, and later declined all around.

Higher hogs gave firmness to provisions.

	Open.	High.	Low.	Close.
WHEAT—				
Sept.	$1.24½	$1.25½	$1.23½	$1.23½

Chicago Produce.

CHICAGO, Aug. 12.—Butter—Higher; creamery extras 40½c.

Eggs—Unchanged; receipts, 10,113 cases.

Poultry—Alive, unchanged.

LIVESTOCK.

Fort Worth Livestock.

FORT WORTH, Aug. 2.—Demand for steers and cows was somewhat more urgent today as a result of a reduction in receipts but the calf trade was sticky and indifferent. About 2,000 head of cattle and 1,500 calves arrived. A car of choice light steers brought $7.00 and a few cars cleared around $6.00. Cows went at $3.00 to $4.00, heifers brought $4.00 to $4.75 and calves ranged from $1.00 to $5.00.

A run of only 800 hogs sold slowly, but prices averaged steady on the best and steady to 10c higher on mixed hogs. One sorted car sold at $10.00. Bulk sales ranged from $9.50 to $9.80. Pigs ruled mostly 25c to 50c lower. A few butcher pigs sold at $7.50 to $7.75, but the top on stockers was $7.00.

Sheep receipts were limited to 150 head. The market was steady. Some wethers went at $4.50 and fair yearlings sold at the same value. Quotations:

Cattle: Reeves, $2.75@7.00; stockers, $3.00@5.00; cows, $2.00@4.00; canners, $1.00@2.00; heifers, $3.00@5.00; bulls, $2.00@3.50; yearlings, $3.00@6.00; calves, $1.00@5.00.

Hogs: Light $9.75@10.00; medium $9.50@9.75; mixed $9.00@9.50; common, $8.00@8.75; heavy, $9.00@9.75; rough heavy, $7.50@8.00; pigs, $6.00@7.00.

Sheep: Lambs, $5.50@7.75; yearlings, $4.50@5.00; wethers, $4.50@4.75; ewes, $2.00@2.25; culls, $1.00@2.00; goats, $2.00@2.25; stocker wethers, $2.00@2.75.

Kansas City Livestock.

KANSAS CITY, Aug. 12.—Cattle—Receipts, 2,400; steers mostly Texas, Oklahoma and Kansas grassers, steady to 25c lower, common kinds weakest. Oklahoma and Texas $4.75@7.75, Kansas grassers $6.45@8.35, all others slow but about steady, most cows $3.50@4.50, mixed cows and heffers bid $6, best vealers $7.50.

Hogs—Receipts, 1,000; slow; light and mediums $9.90@10.00, packers buying lights and mediums at $9.25@9.55, with mixed hogs at $8.00@9.00, bulk $8.25@10.00.

Sheep—Receipts, 1,500; sheep steady; Texas ewes $4.25, lambs 10c to 20c higher, natives $9.25, good Utah feeding lambs $7.50.

NEW YORK STOCKS.

NEW YORK, Aug. 12.—Further weakness in industrial shares at the opening of today's stock market intensified the prevailing dejection in speculative circles. Bethlehem Steel, General Electric, Royal Dutch, American Writing Paper preferred, Sears Roebuck and Colorado & Southern lost 1 to 1½ points, and Mercantile Marine preferred, Baldwin, Pullman, General Asphalt, Sumatra Tobacco, Retail Stores and American Linseed, ½ to ¾ point. Later experimental buying operations in the railroad group to see what would follow caused some short covering in other quarters. Atchison, Union Pacific, Reading, Northern Pacific, Mexican Petroleum, Studebaker and United States Alcohol were lifted ½ to ¾ point and Western Union 1 to 1½ points. Foreign exchange rates were steady.

Coppers and motors were depressed sharply in the afternoon. Action of the early market which indicated stocks in supply, whenever the market exhibited any capacity to take them, caused some increase in short selling.

A better feeling characterized the final hours' dealing notwithstanding fresh weariness in Central Leather. Buying power was derived chiefly from the short interest. Baldwin, Famous Players, International Harvester, Texas company, International Paper and Canadian Pacific scored gains of 1 to 2 points. The closing was steady. Sales approximated 400,000 shares.

TWO MEN ARE KILLED AND THIRD IS INJURED IN AIRPLANE ACCIDENT

MASON CITY, IOWA, Aug. 12.—Two men were instantly killed and a third badly injured when two airplanes executed tail spins and crashed to the ground from a height of four hundred feet at 8 o'clock last night. The dead are W. W. Jonson, pilot; Ray Koch, who attempted to climb from one plane to the other. Ray McWhorters, the second pilot, is in a hospital suffering from a broken leg and bruises. They were practicing for an exhibition which was to be given Monday.

The crash occurred when a cable ladder suspended from Jonson's plane caught in the other machine below while Koch was getting ready to shift planes.

ESTABLISH CO-OPERATIVE LIVESTOCK COMMISSION HOUSE IN EAST ST. LOUIS

CHICAGO, Aug. 12.—Establishment of a co-operative live stock commission house at East St. Louis was announced today as the first tangible result of the study of co-operative marketing by the American farm bureau federation's committee of fifteen. The committee, in session here, announced that the co-operative house would be started at National Stock Yards, Illinois, immediately.

A committee of five was named to organize the commission house. They were John G. Brown, Indiana; E. H. Cunningham, Iowa; C. E. Collins, Colorado; J. E. Poog-Scott, Texas, and W. H. Mumford, Illinois.

"The company will charge the regular commission for selling livestock," Mr. Mumford said today. "But the earnings will be prorated back to the producers on the basis of business done. At Omaha this has amounted to fifty per cent. A stocker and feeder company for fattening will also be established as a subsidiary."

SHALLOW WELL IN CLAY COUNTY BROUGHT IN BY LOCAL COMPANY

The Putman-Coleman Oil company, which is operating in Clay county near Petrolia, has brought in their third well on the J. W. Culbertson tract, from a shallow sand that was encountered at 280 feet, which was drilled into 14 feet. This little well is making between four and five barrels.

The company, which is composed of several Wichita Falls printers, has already made the No. 4 and 5 locations.

LEGAL NOTICE.

NOTICE TO CONTRACTORS
Sealed proposals will be received at the office of county auditor of Wichita county, Texas, for the construction of concrete road on Burkburnett-Clara road from Station 19 to Station 37, all in the City of Burkburnett, Texas, until 2 o'clock p. m., Aug. 29, 1921. Detailed plans and specifications of the work may be seen for examination, and information may be obtained at the office of the county engineer, Wichita Falls, Texas. W. W. Murphy, County Auditor. 84-22tc

GEORGE SIMMONS vs Wichita Great Western Underwriters, No. 10216—In the district court of Wichita county, Texas, 89th judicial district. On this day came on to be heard the petition of the Wichita Great Western Underwriters, suggesting to the court that order be entered providing pleas of intervention in the above case must be filed on or before the 1st day of October, 1921, and the court, having fully advised in the premises, is of opinion that said petition be granted. It is, therefore, the opinion of the court that all parties holding claims against the Wichita Great Western Underwriters should be required to file their pleas of intervention on or before the 1st day of October, 1921, and it is therefore, accordingly decreed that all parties holding claims against the Wichita Great Western Underwriters shall file said pleas of intervention on said claims on or before the 1st day of October, 1921, and not thereafter. P. A. Martin, Judge. 88-14tc

THE OUTTA-LUCK CLUB—It's a Wise Son Who Profits by His Father's Face. —By Dok Willard

TWO FIRE ALARMS ON THURSDAY NIGHT, LIGHT LOSS RESULTS

Two fire alarms were responded to by the local departments Thursday night, one blaze causing no damage and the other destroying a small three-room house at 2205 Austin street, entailing a loss of several hundred dollars.

A negro who was reported to have borrowed an automobile for the evening struck a match and held it over the gasoline tank of the car in order to find out how far he could travel. He went some distance, at high speed, but the journey was made on foot.

The Central station apparatus responded to the alarm, which came in from the corner of Tenth and Ohio shortly after 9 o'clock, and extinguished the flaming tank before any damage had been done.

The second alarm routed out the firemen at 2:40 in the morning to fight flames at the Austin street house. No one was in the house when the fire broke out and it had gained too great headway to be checked before the alarm was turned in. The building and a small stock of furniture was completely consumed.

Efforts to learn who owned the place met with no success after the fire had burned itself out and at a late hour Friday morning the owners were still unknown.

One More Month of Vacation Is All, Until September 12

There is just one more month of vacation for Wichita Falls school children, September 12 having been chosen as the date for resumption of studies. The date is somewhat earlier than is customary.

Two new school buildings will be ready for the pupils by that time, and an increased teaching personnel.

There are now sufficient rooms to obviate the necessity of doubling upon classes; that is, having part of the pupils attend only in the mornings and the other part in the afternoons.

POLICE ASSISTANCE IS NEEDED FOR BIG CROWD AT SAUL'S SALE FRIDAY

The jam was so great at the opening of Saul Lebenson's removal sale Friday morning that it was necessary to ask for police assistance in handling the crowds which were let into the store in relays.

Throughout the morning the floors of the store were crowded with eager buyers. Mr. Lebenson had expected that ten thousand people would visit his store on the opening day of the sale. At noon he said the crowds had far exceeded his expectations and he believed that before the day was over fifteen thousand people would have passed through the store.

A force of 65 clerks were busy in waiting on the shoppers. Souvenirs of fans, fly-swatters and shopping bags were given those who visited the store Friday.

City Mayorless Till Monday Night "Pro Tem" Absent

Wichita Falls was mayor-less Friday. Mayor Pro Tem Bonner went to South Texas on business and that left the municipality without a chief executive, in which condition it must remain until the council elects a temporary mayor on Monday night.

COUNCILMEN VISIT SCOTLAND ADDITION IN ELECTRIC PROBE

At first hand investigation of the situation in Scotland addition, the residents of which have been persistently asking for electric light service, was to be made sometime Friday by members of the city council, who planned to visit the addition and make a personal survey of conditions there.

Members of the coneil believe that the electric company can provide service for some of the more thickly settled portions of the addition, on a profitable basis, but are not so sure that the district as a whole can be served.

A definite decision on the matter will probably be made at the session of the city council Monday night.

ANOTHER SHIPMENT OF ROAD BONDS ARRIVES IS NOW BEING SIGNED

The second shipment of special road bonds arrived late Thursday evening and County Auditor W. W. Murphy immediately turned them over to Judge J. P. Jones' office for the judge to affix his signature. Judge Jones, however, left Thursday night on a two-day fishing trip.

After Judge Jones has affixed his signature the bonds will necessarily have to be shipped to Colorado City, where County Clerk W. T. Harris is enjoying his summer vacation.

The third and last shipment of bonds was made Friday morning by the printers in Galveston. They will be due to arrive Monday.

RALLY DAY SERVICES OF THE WICHITA METHODIST UNION

The members and friends of the churches constituting the Wichita Methodist Mission are cordially invited to attend rally day services under the auspices of the annual conference board of missions at Marion church on Tuesday, 16th inst., beginning at 10 o'clock a. m., with dinner on the grounds.

A representative of the board will be present and have charge of the exercises. At night a splendid exhibit of pictures of the foreign mission fields of the church will be an entertaining feature of the meeting. The pictures will also be shown on Monday night, the 15th, in North Side Methodist church.—W. A. BETTS, Pastor.

DRAUGHON BUSINESS COLLEGE HAS OPENED BRANCH HERE

The Wichita Falls branch of the Draughon's Practical Business college will reopen in Wichita Falls at once. This is one of a chain of 28 schools located in the principal cities of the south, and will be managed by local people who have secured quarters in the Holbrook and Wood building on Tenth street at 807-9-11, that building being admirably suited to their purpose.

Both a day and a night school will be maintained and students are now being enrolled.

SHOPPERS SCRAMBLE FOR CHICKENS AT WOODS' SALE

Live chickens—the feathered kind—were scrambled for by the crowd that gathered for the sale at Woods' shoe store on Indiana avenue Friday morning. A number of chickens were thrown from the awning into the waiting throng, and the ensuing scramble created such merriment and resulted in a number of shoppers getting something for Sunday dinner. The store was jammed with shoppers throughout the day.

VOTE TO INCREASE THE DUES OF THE MEMBERS

CHATTANOOGA, TENN., Aug. 12—Increase from $2 to $3 in dues per member has been voted by the Imperial Palace of the Knights of Khorassans in convention here.

Portland, Oregon, was selected as the next convention city yesterday.

At a ceremonial yesterday 77 tyros were taken across the hot sands in the temple degree, the work being in the hands of Azotis temple of Fort Worth, Texas.

INTERESTING LETTERS WRITTEN BY AUSTIN

Possess Added Interest to Those Who Cherish the Memory of Pioneer Texan.

AUSTIN, Aug. 12.—In the possession of Mrs. R. H. Connerly of Austin are two letters of historical interest which are said to possess an added interest to those who cherish the memory of Stephen F. Austin. These letters show that long before Austin was selected as the seat of government for the republic of Texas, Austin had chosen it as the spot combining all the requisites for an ideal home, a refuge from the cares of state which bore heavily upon him.

The letters were written by Austin in May, 1832, to his friend Samuel M. Williams, who was acting as agent for the colony during Austin's absence in Coahuila as the representative for Texas in the state legislature. Austin reported that he was on his way to meet Gen. Manuel Miery Teran from whom he had received encouraging letters as well as from Lucas Alaman and the vice-president of Mexico. As a result he was confident that the law of April 6, 1830, which had cast a dark shadow over the future of Texas by preventing the continued immigration of Americans, would be modified. He, therefore, felt justified in saying: "Political matters will probably soon take a favorable turn, and probably an unexpected change. Peace and harmony in Texas are more important now than ever."

With this hope in his heart, he turned from matters pertaining to the welfare of his colonists—whose interests had ever been his first consideration—to plans for realizing a cherished but long-delayed dream, the building of a home for himself. He gave Williams directions for surveying for him the most attractive spot in all Texas, a tract which was to extend "from the upper line of Tannehill's league to about five varas beyond the Big Springs," now known as the Mormon or Cypress Springs, located at the foot of the mountain which was afterwards to become famous in song and story as Mount Bonnell. The tract was also to include one-fourth of a league on the mountain, which lay just across the river where there was an abundant supply of good building stone. He had his heart set on having the land surveyed in such a manner that it should contain "a falls in the river," which he desired for "a very specific object." To make the matter more clear to Williams, he drew a sketch of it as well as he could remember and added "I shall fix a place on the Colorado at the foot of the mountain to live, and wish for those locations for my own purpose and not to sell."

This dream was never realized. Indeed, the happy solution expected by Austin never materialized. Instead, he was compelled to endure the horrors of imprisonment, the sufferings of the battlefield, the fatigues of travel in search of help from the United States, and, finally, the loss of life itself before the republic of Texas took its rightful place among the nations.

Mrs. Connerly, as a Daughter of the Republic of Texas, recognized the importance of these historic letters and, at the request of Mrs. M. A. Hatcher, archivist of the University of Texas, loaned them so that copies could be taken. As a result, they will shortly appear in the Austin papers, which are now being prepared for publication by Dr. E. C. Barker, professor of American history at the University of Texas. Mrs. Connerly also has in her possession a great number of other letters and documents left by her father, William G. Hale, a prominent lawyer, during the early years of statehood. Practically all of them pertain to the history of the section about Corpus Christi and the region extending westward to the Rio Grande. Some of these she has already loaned to the university and others are soon to be made available so that, in future, students of Texas history will be able to learn the truth about the part played in our history by the people of this section.

BODY OF FORMER SOLDIER TO BE BURIED ON FRIDAY

RULE, TEXAS, Aug. 12.—The body of James A. Harris arrived here from overseas this afternoon and funeral services will be held at Sweet Home church, four miles west of Rule, Friday afternoon at 3 o'clock. Interment will take place in the Hooker cemetery immediately after the funeral. The funeral services will be in charge of the American Legion.

James A. Harris was born at Gatesville, Texas, April 27, 1894, and spent most of his boyhood days in Stonewall county. He received his call to arms in September, 1917, and sailed for France in July, 1918. He was wounded October 26, 1918, and died in an ambulance 20 minutes later on his way to the hospital. He was in training in the sanitary train of the 90th division, Field Hospital corps No. 360.

AUTOMOBILE BUSINESS IS FLOURISHING AT GUANAH

GUANAH, Aug. 12—Since January 1 a total of 1,464 automobile licenses have been issued in Hardeman county. Registration of new cars during the past 30 days indicates a rapid revival of business for automobile dealers.

BIG REDUCTION IN CITY'S BEAN SUPPLY MADE BY INSPECTOR

What is said to be the largest quantity of food products ever condemned by the city health department at one time was confiscated Thursday by Dr. L. I. Lucey, city food and dairy inspector, who pronounced eighty cases of canned string beans as being unfit for food. The goods were found in local cafes and hotels and were all of the same brand. They had not been distributed by local wholesale houses, Lucey said.

Numerous samples tested at the health department laboratory showed gas and other signs of having spoiled, with the result that all were ordered thrown out.

Health department officials are still investigating the goods.
