

Scouts Observe National Week February 7-13

Wellington Boy Scouts of Troop 32 will join with Scouts throughout the nation in observing Boy Scout Week from February 7 through 13. This celebrates the 43rd anniversary of the founding of the Boy Scouts of America.

Opening the week, the Scouts will attend services at the First Baptist Church Sunday morning, February 8, going as a group. This is a traditional feature for Troop 32 in its observance of Boy Scout Week.

Sandy Parsons Jr., Scoutmaster, will be in charge of the Scout's part of this service, along with other observances of Scout Week. On Tuesday, February 17, but still in observance of the occasion, the Scouts will be guests of the Wellington Rotary Club and will present a program for that civic group.

Approximately 45 boys were enrolled in Troop 32 and re-registration will take place during Scout Week.

Another activity just preceding the annual observance was an overnight hike by troop members to Buck Creek, where they received training and practice in making camp comfortably in winter, as well as in camp cooking.

County Attorney Deazil Bevers is in charge of the trip.

Boys making the trip were Jimmy Cummings, Cager Wilkins, Taddy Hughes, Kent Peebles, Bruce Crosby, Ray Henry, Athel Lowrie, Bobby Tyson, Mike Glenn, Charles Welch, Farris Woods, Tommy Tollett, Kern Pigg, Billy Morris, Shelton Loftis, Jimmy Forrester, Joe Davis, Austin White, Harry White, Dickey Sweat, Dickey Elbert, Jerry Elbert, Ronnie Thomason, Glenn Warrick, Jerry Buske, John Alvin Horton, Raymond Brummett and Wesley Savage.

Plans will also be laid for the February-overnight trip as well as for the trip to Colorado in August.

Any boy over 14 years of age interested in becoming a member is invited to the meeting, Judge Templeton said. He does not need to have had any previous Scouting experience.

Business Houses Close for Morning Services

Methodist Revival Meeting Closes Sunday; Great Success Reported

Momentum of a dynamic revival in the First Methodist Church in Wellington will reach its apex next Sunday night, February 8, when Evangelist G. P. Comer of Dallas delivers his final message.

It has been many years since a meeting of this kind has stirred the town and county as the one now in progress. The largest crowds in years are in attendance and the revival is one of the main topics of conversation on the streets and in business places, older church members have reported.

People have been attending from Altus, Duke, and Vinson, Oklahoma, where Evangelist Comer has held successful meetings and a large bus was chartered last week to bring forty people from Shamrock where Comer held a successful revival ten years ago.

One hundred and fifteen business places are closing this week for the revival services for one hour, 10 a.m. to 11 a.m. This is the first time in many years that this has been done. A large group of business men made the rounds Monday getting this done. Large crowds from the public schools are attending and the day services are the largest perhaps in the history of Wellington.

Rev. J. F. Michael, local Methodist pastor, says that this has been his prayer since he became pastor of the Church to see a revival of this kind and it looks that God sent us the right man in Evangelist Comer to lead us and help bring this about. Comer preaches

City and Lone Star Gas Confer on Rate Proposal

Members of the city's official family and representatives of Lone Star Gas Company met Tuesday night, February 3, to study together the gas company's proposal for an increase in residential gas rates for Wellington customers.

This meeting, both Mayor L. B. Bratten and S. H. King of Childress, Lone Star District Manager, pointed out, was primarily one to bring about mutual understanding of the gas company's operations and request for rate increase, as well as the city's position on the problem.

Lone Star has asked for an increase which would amount to approximately 4 cents per day per customer.

Both the city and the gas company pointed out that the Wellington case is unique. Lone Star operated eight months in 1952 after taking over from United Gas, which has served the city for many years. Records of operation expenses and profits of the latter company are not at present avail-

able for study by the city, although they are being requested. Mr. King pointed out that gas rates in Wellington are lower than those in other towns in this area. The increase, he added, will bring the rate here in line with those of other towns of the system.

Dodson, also served by Lone Star, has for many years paid a higher gas rate than Wellington.

Mayor Bratten and members of the council brought out that United Gas operated here at a profit. During much of the session, discussion centered on the "gate rate" paid by Lone Star's distributing division to its gathering system or pipe line for the gas used in Wellington. The two divisions are operated completely separate.

Lone Star pays a gate rate of 30 cents per thousand cubic feet compared to 25 cents paid by United Gas. Both Mr. Bratten and Mr. King made this explanation:

United Gas secured its supply of natural gas from the Wheeler County field, a nearby source, but

now becoming depleted. Although the price paid by United Gas Pipe Line for gas at the well is not available here at this time, the belief was expressed that it was probably secured under a contract of some years ago and at a cheaper rate than is now possible.

Lone Star, in order to serve Wellington and other towns in this area, built a \$6,000,000, twenty-inch pipe line from Oklahoma Fields to join its other lines at Wichita Falls, and this distance is a factor. While the price its gathering system pays at the wells was not available either, Mr. King said it was now higher than several years ago.

The 30 cent gate rate was approved for Lone Star by the Federal Power Commission in 1942 and has been in effect throughout the system since then.

Members of the council hold that the profit figure for United Gas, and profit lack by Lone Star is in the five cents difference paid by

B. W. Beaird to Head Red Cross Fund Campaign

B. W. Beaird, county superintendent of schools, has been named Red Cross Roll Call Chairman for the fund raising drive that will continue through the month of March.

Announcement of his appointment was made Wednesday morning, February 4, by R. D. Wiley, county Red Cross chairman, and Miss Katherine Boverie, home service chairman.

Plans for the drive, one of the most important the Red Cross has held here since World War II ended, are already being made, and chapter officials met with R. L. Burnett of the Amarillo office here Tuesday.

Mr. Beaird, in accepting the appointment, said that he will begin the selection of workers, both for Wellington and the outlying communities within a few days, adding that he will rely heavily on those men and women who in past Red Cross Roll Call Drives gave Collingsworth County the reputation of always going over the top.

Full responsibility for the drive is in Mr. Beaird's hands.

Not new to this work, the county superintendent has directed the junior Red Cross Roll Call work in the county schools for a number of years.

Howell Grocery and Market Will Hold Open House Feb. 7

The J. C. Howell Grocery and Market of Dodson will hold open house in its newly remodeled store Saturday, February 7. At that time free baskets of groceries will be given away and a food demonstration will be held.

Other additional items include a self service frozen food case and a new self service vegetable case and new push carts. In all the store is one of the most attractive in this section of the state.

"The main idea of remodeling," Mr. Howell explained, "was not just appearance but to make it easier for our customers to serve themselves. We are deeply grateful for the splendid business our friends and neighbors have given us through the years and it is our intention to give them as good a service as they can get anywhere.

The store is operated by J. C. Helen and Jimmie Howell, and R. L. Daugherty, who is in charge of the meat market.

Those who did the remodeling work were Rev. John Fitzgerrel, T. L. Carter, R. A. Covey, Jess Bogle, Sammy Molsenbocker and Fock Collins.

County Basketball Swings Into Final Go-Round

By JAMES GLASSCOCK Basketball for 1953 is just about gone. Most of the county teams will hang up their togs for the season.

Wellington has some more conference games left on the calendar. Coach Don Briggs said this Friday night we entertain the Shamrock boys and girls. Our girls beat them before and our boys lost by a six point margin. We feel that the fans will definitely get their money's worth out of these two games.

The game time will be at 7:30 p.m. Then, next Tuesday night at 7:30 Paducah comes to Wellington for a double-header. The Rockettes won their game, while the Rockettes lost. We would like to see a lot of fans out at these games," he concluded.

The Samnorwood Eaglettes and Eagles have two more non-conference games left on the calendar, according to Supt. Orville Cunningham.

He went on to say, "We are just waiting on the selection of the winner of the other section in our district before we definitely set the other game dates. A play-off between Groom and Claude is in progress and the winner will contest us. The play-off between us and the other winner will be on a

Farmers Shape Up Plans To Blast Crow Roosts

"Calling All Crows." That is what the "Crow Blasters" are trying to do. A number of roosts have been located and the plans for bombing them is in the final stages.

Several roosts have been located and most of these are small roosts. A small roost contains about 5,000 crows to nearly 7,000 crows.

OLYMPIC PREVIEW—Getting a glimpse of Melbourne's Stadium-to-be for the 1956 Olympic Games are, at left, Arthur W. Coles, chairman of the Games Control Committee, and W. S. Kent Hughes, Australian Federal Minister for the Interior. Designed by Frank Heath and a small group of associates, the stadium will seat 125,000 spectators. Two years will be needed to complete it.

A meeting of the "Crow Blasters" was called last Monday night, at 7:30 p.m. in the County Court room to discuss the construction of the bombs. County Agent J. W. Thomas was chairman of the group and he gave the members the approximate cost of the bombs. At present the cost is about 60 cents per bomb. This includes the container, the nails, the blasting caps, and the dynamite. The plans for the project call for the bombs to cover a 10 foot spread with the deadly nails.

The Chairman of the Finance drive, Dudley Phipps, reported to the group that \$684.50 had been raised for the project. The money was raised through donations.

It met the approval of all the men present to have at least 300 bombs made.

The committees as of to date are: Container making, Doc Barjenbruch; bomb construction, Jake Tarter; wiring the roosts, Polly O'Neil; and nails, Cortez Barnett.

Work on the bombs should begin later this week and by next Tuesday some roosts probably will have been blasted.

Twenty-two interested men attended this meeting.

Dodson Students Form Science Club

Other officers include Lonnie Roberson, vice-president; Jeanette Nipper, secretary-treasurer; and Nancy Tipton, reporter.

One guest speaker has already appeared before the group, C. A. Crawford, Water Resources meteorologist. His discussion was in the field of meteorology.

As a project, each member of the club has adopted a star and is learning as much as possible about it. Later a general discussion of these stars will be held.

Later, the club will tart a museum to be housed at the school. Different branches of science will be studied in future years.

Regular meeting dates have not been set, and so far, enthusiasm has been so keen that several meetings have been held each week.

Only 1129 Poll Taxes Paid

A total of 1129 poll taxes were paid by county residents for 1953, Hubert Mauldin, deputy assessor-collector, announced Monday, after the January 31 deadline.

In addition to these 16 exemptions were issued. This is the smallest number of poll taxes paid here in recent years and is considerably less than one half the number paid in 1952, a presidential election year.

Vagabond Kings Return to Quail

The Vagabond Kings, a professional basketball team from Detroit and Dearborn, Michigan, will play a return engagement against a team of college exes at Quail gym Monday night, February 23, at 8:00 p.m.

Bill Phillips, Quail coach, who is in charge of arrangements, said that this is one of the few appearances by a professional team in this area for the current season, and should be one of the top basketball entertainments, both from the standpoint of fun and skill, to be witnessed here.

Sparking the Vagabonds will be eight foot, four inch Gilbert Reichert, who was with the team when it played at Quail last year.

With them this year is seven-foot Bill Spivey, all-American player from the University of Kentucky, now charged with having accepted bribery for throwing games in which his team participated.

Spivey generally makes around 60 points per game when he plays.

Phillips is now recruiting a team to represent the home area, and some of the top ex-players of the Panhandle are due to participate

Income Tax Man to Offer Help Here

William E. Palmer, Internal Revenue Agent stationed at Childress, has announced that he will be in Wellington Tuesday, February 17, for the purpose of assisting taxpayers file their 1952 income tax returns.

He will be in the courthouse between the hours of 8:30 a.m. and 5:00 p.m.

Any person with an income tax problem or a question relative to his return is urged to see Mr. Palmer at this time.

who gave their lives in Korean fighting. It is a 24 x 24 inch trophy in the shape of a boxing ring. The silver platform is mounted on a wooden base. The four ring posts are gold. Two boxers and the referee center the ring.

An amazing thing to note is that these three top-notch fighters had to go only a little more than five rounds to win their fights. Jamerson and Thompson had three fights each and Hood got a bye.

Jamerson TKO'd Billy Eads in the first round of his initial bout. Second to go down under his blows was Russell Sands, KOed in the first round. In the championship match, Jamerson took two rounds to knock out BeBe Perez.

Thompson KOed Monty Bell in the first round, took a TKO over Ray Mitchell in the first and won the third from Don Robertson in the first, again with a TKO.

Thompson was honored further when he received an invitation to fight in the State Golden Gloves tournament to be held in Fort Worth later this month. As of now, Thompson is in training for his bouts there.

Duke Nally, promoter of the regional Gloves meet, invited Thompson to take the place of Glen Duckworth, who had received a brain

concussion.

The boys who entered these fights were winners in their weights at the Pampa District Golden Gloves earlier. Seven Wellington boxers entered and only four got to go to the regional meet. Billy Branch was offered a chance to fight in Amarillo, although he was decided by Jessie Crews in Pampa. The decision was considered so close Nally extended an invitation to participate in Amarillo.

Only Hood, Jamerson and Thompson were able to receive the Pampa tourney and become eligible to participate at Amarillo.

In the Pampa tournament, Thompson won the Outstanding Competitor award, given on the recommendation of the referees.

Other boys participating at Pampa were Don Hood, Jimmy Cummings and Gary Phillips. The latter, however, had to give up his chances at the tournament because of flu.

Stanley Brooks is coaching the boxing team this year. He is assisted by Bobby Davis, manager, and also by R. T. Jamerson of Dodson and T. J. Watts.

CAMP CHAFFEE, Ark. — The Army should seem like home to at least one Camp Chaffee soldier. Pvt. Ben Benton of Wellington, Texas, is the eighth member of his family to don khaki.

Private Benton was preceded in the Army by seven brothers, two of whom are still on active duty. Collectively they were stationed literally around the world, from the South Pacific to Germany.

It has been a strain on his mother to have so many sons in military service, Benton said, but all of them have come back alive and healthy, though several were awarded Purple Hearts for wounds sustained during the war.

Of himself, Private Benton remarked that he supposed he could have remained a civilian if he wished, because of the number of his brothers who had already seen service. However, he felt he "Wasn't any better than anyone else, and didn't want special privileges."

Benton is now attending the 5th Armored Division's Motor Maintenance school.

Social Security Man Here Feb. 11

A representative from the Amarillo Social Security Office will be in Wellington, Wednesday, February 11, at 9:00 A. M. in the County Court Room.

Three million or more self-employed people will have new insurance protection when they file their income tax return for 1952 and include their self-employment report. For those who have been continuously in business since 1950, this report will put on record two full years of coverage under social security and will make each of them fully insured, at least until July 1955. As they continue in business and continue to report these earnings once every year, their fully insured status will be maintained.

By fully insured we mean that these persons or their survivors have a measure of protection against loss of earned income due to old-age and death — that benefits can be paid in the event of their retirement after age 65, or to their survivors in case of death at any age. In most cases, these benefits are substantial and are an important source of income. Care should be taken by all self-employed persons to report their earnings properly.

Last year many reports were received without a social security account number anywhere on the return. We are still contacting people to obtain their social security account number, for without it we cannot give credit on a wage record. We must have the social security number before the wages

can be posted. The self-employed who are required to report for 1952 should have their account number ready for income tax time. If the social security card has been lost or destroyed, a duplicate card should be obtained from the social security field office now. All self-employed persons who make a net profit of \$400 or more in an occupation covered by the law, must file a return and a profit statement (called Schedule C.) This must be done even if their income is not high enough to require income tax payment.

Kay Newkirk took the top scor-

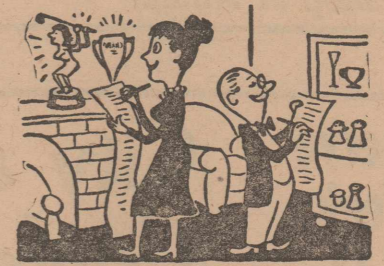

ing honors with 18 points. Bonnie Kidwell was next with 16.

M. Sargent was high-point for the Owlettes with 10 points.

In the boys game Joe Thompson and Don Knoll tied for the high-scoring honors. They had 11 points

each. Brumley of Hedley was top scorer for the evening with 15 points.

The biggest in town!

Five cents worth of electric service... it's the biggest nickel in town... and it buys lots of service... comfort and entertainment. For example, here's what 5¢ worth of electric service can do for your family:

- A penny's worth makes toast for all your family for three meals...
- Another penny swishes clean three tubs of laundry
- A cent's worth of electric service vacuums six large rugs...
- Then there is enough left out of the nickel to furnish refrigeration for the family's food for hours

- AND
- Bring you and your family an evening's radio or recorded entertainment!

Where else could the average family get so much value for one small nickel... a nickel that's now worth only 52% of its 1939 value, but a nickel that buys 17% more electric service than it did 14 years ago?

Let your local electrical appliance dealer show you how easy it is to put electric servants to work for you.

QUAIL NEWS

By MRS. G. T. STEPHENS

February is here, a month of festive days — George Washington's birthday, Abraham Lincoln's birthday and Valentine day. It is also a month to work in, too, as it is ideal time in this section of the country to get out shrubbery and trees. So let's all plant at least a few this year to help hold the sand and make our farm homes more attractive in years to come.

The Rev. Gerald Squyres of the Quail Baptist Church filled his regular appointment Sunday morning and Sunday night. A large crowd attended both services. The Baptists meet on Wednesday night at 7:30 for prayer meeting.

Minister J. C. Stepp of Childress preached at the Church of Christ Sunday morning and Sunday night. There were 51 present for Bible study Sunday morning.

Mrs. Evelyn Lowe, first grade teacher in Quail school, was a medical patient in St. Joseph's Hospital in Wellington several days last week. Mrs. Lowe was absent from school four days. She said: "This is my twenty-second year in the teaching profession and the four days were the most I have missed at one time since I began teaching." This is an enviable record for so many years.

Mrs. Ira Morgan, Jack, J. I. and Grandma Morgan are all on the sick list.

"Government Open House Month"

Your local government is holding "OPEN HOUSE" and you're invited! Have you ever been to City Hall or attended a meeting of your City Council? Have you ever been to a meeting of your County Commissioners? — or your School Board?

It's YOUR City — YOUR city YOUR State. In short it is YOUR government. Take an interest in it! It's YOUR business.

You may go to a meeting of your City Council or Commissioners or your School Board at any time, but you have a Special invitation during the month of February. Watch your newspapers for special dates and programs.

It's "Government Open House" month. A good citizen knows how his government operates and what it is doing — so come on — let's get acquainted with our government.

It's "Open House" and you're invited!

This month is sponsored by the Lawyers of Texas as part of their "Get Acquainted With Your Government" program.

Grass Roots Voice Asks Worth Of Times 'Beats'

The New York Times is certainly one of this country's greatest and most responsible newspapers. Its enterprise has created many tremendous news "beats" during its long history. But it seems reasonable to question whether the Times' most recent beat was worth while.

The great news story of the Christmas season was the reply of Christ-

mier Joseph Stalin to a brief series of question submitted him by the Times' diplomatic correspondent, James Reston.

To brief the essence of Stalin's answers to Mr. Reston's queries, the Russian head of state said that he did not believe war between Russia and the United States inevitable, and that two countries can continue to live in peace; that "aggressive actions of the 'cold war' against the Soviet Union" were the sources of present world contention; that he looked with favor upon the possibility of a meeting between himself and President-elect Eisenhower; that he would agree to "co-operate" in ending the Korean war.

With the exception of his "cold war" diagnosis, Stalin's words were amiable. They were not gratuitous remarks, but answers to questions prodded by an American newspaper.

Yet the Times' own editorial reaction — similar in vein to that of most American newspapers — was:

"His (Stalin's) present maneuver can only be regarded until he proves otherwise — as a trap designed to divide the free world to wreck our alliances, to delay the building of real Western strength, which must be the condition for any negotiations with the Soviets, and thus to prepare the way for a resumption of his march to world domination."

The overwhelming consensus seems to be that the Russian premier cannot be believed. As an uninformed inhabitant of the sticks, we rise merely to inquire —

The Buck Creek Philosopher

Editor's note: The Buck Creek Philosopher on his Johnson grass farm on Buck Creek has a clearly unworkable plan for rescuing cattlemen caught in the price squeeze, but you can't blame him for trying.

Every once in a while I notice in the papers where some farmers who raise cotton are puttin their cotton in the loan, and while I never have done that, if I had any cotton I'd sell it the minute it was picked, would have to in order to beat the check to the bank I gave my hands, but I have been investigatin this system and I'd like to report I like it and have a suggestion to make.

As I understand it, if a cotton grower thinks the price of cotton is goin up, he can put his cotton in the government loan and get the loan price right then in cash and if the price goes up he can later sell and make an additional profit which he's entitled to, and even if it doesn't go up, even if it drops below the loan price, he still gets to keep the loan and doesn't have to make up the difference.

This is a system designed to stabilize the price of cotton, to keep cotton growers from dumpin all their cotton on the market at one time, and I approve of it.

But I'd like to see the system expanded. Take me, now I've got a few head of cattle on hand out here, and as everybody but the meat market knows, the price of cattle has been droppin steadily. In fact, in the last eight months it has dropped over 30 per cent.

All right. Now I paid a pretty good price for these cattle, bought me when they were high, and while they haven't got too much feed in em, hay is still higher than it ever was before and they've been eatin and the worst part is they've got to keep on eatin.

What I want to know is why can't I put these cattle in a government loan? Why can't I just turn the cattle over to whoever handles the government's cotton and let them hold em for me until the price goes up? I tell you it would take a burden off my mind to hold on to them cattle without sellin and without buyin any more feed for em. If I sell now I'll take a big loss, but if I keep on feedin

I'll take a bigger loss. But if I could put em in a government loan this afternoon, things would sure perk up out here.

If you think this plan has any merit, I will appreciate you gettin word to Eisenhower and have him make it the first order of business the minute he gets through being inaugurated. Cattlemen all over the country will be scrambling to get in on this.

Yours faithfully, J. A.

BIBLE COMMENT FOR FEBRUARY 8

The Disciples Matured and Grew Wise

Outstanding among the 12 disciples were three intense men of strong character and ambition. These were Peter and the two brothers, James and John.

The brothers lacked some of Peter's weakness and had the benefit of steady, persistent ambition, Jesus called them "Sons of Thunder."

But the three men were united in their intense desire to have places of power and preference in the earthly kingdom which they supposed Jesus was going to establish.

The mother of James and John, wife of Zebedee, was also very anxious that her sons have authority and preference in the kingdom, even asking Jesus to give her boys places on His left and His right when He established the kingdom.

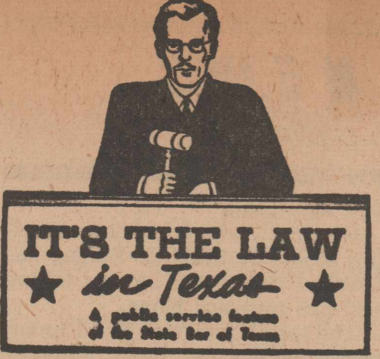

The fact that Jesus was able to hold the loyalty and devotion of these men after they discovered that His kingdom was to be spiritual, not earthly, is a marvelous thing indeed.

They suppressed their ideas of worldly power and became even more loyal and unselfish than before, applying their abilities to the task.

When Jesus explained that the places asked for were not His to give, and that they would suffer much in the future, their answer was: "We are able." And they were able. They became powerful personalities. They achieved a stature most men never dream of.

Perhaps the best example of change in the "Sons of Thunder" is revealed when we recall their earlier fiery tempers and the request that the Lord call down fire from heaven to consume inhospitable villagers. Compare this to John, later so gentle he describes the transition: "We know we have passed from death into life because we love the brethren," and "Little children love one another."

We don't know nor care why the hen crosses the road, but what we would like to know is whether, when a hen cackles, she is laying or lying.

IT'S THE LAW in Texas

RULES DIFFER IN DIVIDING SEPARATE, COMMUNITY ESTATES

The death of an intestate person (one who has made no will) may give rise to many problems regarding distribution of his separate estate. Last week we investigated the manner of dividing the community estate upon the death of a husband or wife. Now we shall see that, where separate property is involved, a completely different set of rules applies in determining heirship and apportioning the estate among the rightful claimants.

As a basis for our search of the law, it may be well to recall that the separate estate of a husband or wife includes property owned by either before marriage, and that which is acquired after marriage by gift or inheritance. Any other property acquired after marriage is presumed by law to be community property until the contrary is clearly proved.

Now let us get on with the problem. Here is a general idea as to how your separate property will be divided if you do not make a will with contrary provisions prior to your death.

If your husband or wife survives and if, in addition, there are surviving children or descendants of previously deceased children, the children and their descendants immediately obtain a full (fee) title in two-thirds of the real estate involved. The surviving spouse receives a life interest in the remaining one-third of the real property, which passes on to the children and their descendants upon the death of the spouse.

The rule for distributing personal property — cash, stocks, bonds, furniture, or any other items not constituting real estate — is different. Here the surviving spouse gets full ownership of one-third, and the children and their descend-

ants inherit the balance. Now, suppose your husband or wife survives, but there are no surviving children or their descendants. In this case the surviving spouse inherits all of the personal property involved.

With regard to real estate, the survivor obtains full title to one-half, and the other half is divided between your mother and father, if both survive you. If only one of them survives, he or she receives only half of this portion, and the other half (or one-fourth of the entire real estate) will be divided among your brothers and sisters (and their descendants) who survive. If there are no surviving brothers and sisters and their descendants, then the one surviving parent inherits the full one-half.

Where no parent survives, but there are brothers and sisters and descendants, the full one-half is divided among these survivors.

And, if there are no parents or brothers and sisters (and their descendants) surviving, then the surviving husband or wife inherits all of the real estate.

Don't let your desire to acquire outdo your desire to enjoy.

Too many people waste their time until their time is about gone.

OTHER EDITORS SAY:—

Should Politicians Get Credit For Progress of Agriculture?

Farm Journal recently ran a thoughtful editorial on the claims that politicians make concerning what government has done to benefit agriculture.

In the course of it, that magazine said, "It is not the politicians who have provided farmers with the power machinery, the new chemicals, and the innumerable new methods which have transformed the farm business. The progress which farmers have made for themselves, and to which industry has contributed, promise that agriculture will have a profitable and self-reliant future, even without the support guaranteed by both parties."

Not so many years ago most people had to give all their time and effort to providing themselves and their families with food — and it took the most arduous kind of work to accomplish that.

Today a small proportion of the population is able to produce enough food to take care of the entire nation, and it does the job more easily and quickly. In the last 20 years alone, our population has increased by 30,000,000 people yet our farm acreage has not increased.

The politicians and their promises were not responsible for this. What was largely responsible was the increased use of constantly improved labor-saving farm machinery. The tractor is the symbol of an agricultural revolution

that has made farming into a highly efficient industry — and along with the tractor have come more progress to the farm.

The farmer's best friend isn't the politician. It is, instead, American enterprise, American inventiveness, American ingenuity.

H. D. Council Meets

County Women Save Pennies For Bolivia

Members of the Collingsworth County Home Demonstration Clubs are contributing pennies to help establish home demonstration clubs in Bolivia. This was brought out at the Home Demonstration Council meeting held Saturday, January 24, by Mrs. J. L. Alexander, home demonstration chairman.

There were fifty-five members present and ten visitors. Communities represented were Abra, Dodson, Fresno, N. Wellington, Samnorwood and Midway.

The Dodson and Abra Clubs were hostess for the noon hour lunch.

In the business session held during the morning, the members voted to have a bake sale at the next council meeting on February 24. Mrs. M. C. Cleveland and Mrs. Lawrence Warrick were appointed on the committee to select a location for the sale.

Mrs. L. L. Easter, Mrs. J. L. Alexander and Mrs. John Eron Forbis were appointed on the committee to get the stove and ice box installed in the Home Demonstration office. These are to be used for all the Home Demonstration Clubs, 4-H girls, adult leader training meeting and 4-H contest demonstrations.

Mrs. J. L. Alexander, Home Demonstration chairman, gave a report on the sub-district meeting held at McLean on January 12. In her report she said, "Home—The Corner Stone of Freedom," is the theme for the coming year. Also the custom of contributing pennies every year to help establish some Home Demonstration club in some foreign country will go to Bolivia this year. Miss Hearn, State Home Demonstration Agent, was selected to go to Bolivia to set up a club there.

Mrs. Alexander also said that the next District Home Demonstration council meeting would be held at Dumas on April 15. Every group is urged to send delegates to the meeting. She said, "The Collingsworth Council is to make 4-H and Home Demonstration clubs work function in the county. The council is your means for communication between the county, district, and state associations. Your job as a council delegate is to take information to your club meetings. Every member should perform duties to better help your community and your county."

Membership fees were paid for Mrs. Hubert Mauldin, president, as a member of the Wellington Chamber of Commerce.

During the afternoon session, Judge C. C. Bishop spoke to the group on American churches. Dodson furnished three numbers for the program and Abra furnished a number. Karen Breeding, daughter of Mr. and Mrs. W. R. Breed-

ing, gave a reading for the Abra club also.

The next all day meeting will be April 24 with Lutie and Fresno as hostess.

Elmer S. Wynn, 63, who lived for many years in Collingsworth County, died unexpectedly at his home at Higgins Saturday night, January 31. He was a brother of Alf Wynn of Wellington, and Marvin Wynn, Elliott Wynn and Buddy Wynn of Dodson.

Funeral services were conducted at the Methodist Church at Higgins Monday afternoon by M. C. Jackson, also a former Wellington resident, now minister of the Higgins Church of Christ, of which Mr. Wynn had been a member. He was assisted by the Rev. C. T. Jackson, pastor of the Higgins Methodist Church, and the Rev. James Bryant, pastor of the Higgins Baptist Church. Burial was in the Higgins funeral home.

Mr. Wynn was born at Rising Star August 4, 1889, and at the time of his death he was 63 years, five months and 27 days of age.

He is survived by his wife, of Higgins; three sisters and five brothers, Mrs. Lillian Rollins of Las Cruces, N. M., Mrs. Katie Gordon of Myles, Miss Floy Wynn of Jal, N. M., Alf Wynn, Wellington, Marvin Wynn, Elliott Wynn and Buddy Wynn of Dodson, and Ira Wynn of Amarillo.

Court to Select Two Depositories

The Commissioners Court, meeting Monday, February 9, will open bids for the county depository and for the permanent school fund, County Judge R. L. Templeton announced this week.

This is a regular meeting of the court. Judge Templeton also announced

that the county has sold one of its heavy crawler-type tractors to Donald Coleman of Samnorwood. This tractor was bought three and one-half years ago for use by Precincts 2 and 4.

The Commissioners now feel that it cheaper to hire work of this type done than it is to own and pay for the upkeep on its own machine, since there are now several custom operators in the county, the county judge explained.

Quail Teams Split Pair With McLean

The top-flight McLean Tigerettes out-lasted the high-spirited Quail Bobwhites in the first game of a double-header played at Quail last Monday evening. The final score was 32 to 26. The second game turned into a rout for the Quails. They got revenge for the defeat of the Bobwhites. The Quails literally stomped the Tigerettes into submission. The final score was 68 to 44.

The McLean Tigerettes took a first quarter lead then slam-banged their way over the valiant Bobwhites. At the half, the Tigerettes led 21 to 14, and the third quarter ended with the Bobwhites trailing by 5 points. The game ended with McLean winning a close 32 to 26. The top scorer for the evening was Jo Helen White with 19 points. Fern Neesley was next best with 7.

Fern is a double-duty player. For about three minutes she played guard and did a swell job.

Mavis Mealey, one of the Tigerettes ace forwards, scored 18 points.

Four of the Tigerettes first string players are on the team that went to state and won the championship last year.

The Quails took off on the wings

of Jasper Peoples and coasted to a 68 to 44 win.

The Quails were never in any trouble during the ball game and at the half they led 34 to 19. The third quarter ended with the Quails having an overwhelming 57 to 26 lead. The final score was 68 to 44.

Jasper Peoples was top scorer for the evening with 21 points. He was trailed by Alvin Homer who made 17. Blasingame and Tow were next in line with 13 and 8 points each.

Census Records Substitute for Birth Certificates

Persons lacking birth certificates or other legal evidence of citizenship, age or family relationships can obtain transcripts of their personal census records which are, in most instances, acceptable substitutes, according to District Supervisor James M. Hamilton of the U. S. Census Bureau.

More than 100,000 Americans turned to the Census Bureau for such evidence in 1952. They needed proof of identity or age for Government and defense jobs, Social Security, passports, the Armed Services, and in connection with insurance and estate cases.

Supervisor Hamilton pointed out that personal information recorded by the Census Bureau is entirely confidential and may be furnished only upon the written request of the individual to whom it relates or his legal representatives. The normal fee is \$3.00 for searches of two censuses for one individual, each application being handled in regular turn which generally requires approximately 30 days to complete service. Expedited handling is furnishing for a \$4.00 fee.

Application blanks and instructions may be obtained from the Census Bureau's District Office at 925 T & P Bldg., Fort Worth, Texas, or by writing to the Bureau of the Census, Washington 25, D. C.

Junior Quails Second in Tourney

By JAMES GLASSCOCK
The Junior Quails slam-banged their way to the finals of the Childress Junior Basketball Tournament. However, they lost the championship to the home-standing Childress crew by a score of 58 to 31. One thing that contributed to the Junior Quails loss, was that they had played earlier in the afternoon and much of their strength was gone for this game.

The top scorer for the Quails was Leroy Todd with 9 points. Beham of Childress was top hoopster for the evening with 15 points.

In their opening game the Jr. Quails met the Mangum Jr. squad and gave them a thorough going over. The final score in that game was 51 to 38. Don Johnson of Quail was high-point maker for his team with 23 points. Eddie Bryant was top for Mangum with 19.

In the semi-finals the Quails stomped the Lockett boys 51 to 42. Don Johnson and Darryl Morris of Quail were one and two in the scoring for the Quails. Don made 19 points and Darryl sacked up 11.

Billy Oral of Lockett made 17 points for his team.

Then came the ill-fated championship game in which Childress coped.

It is a sure bet that some future champions will come from these young stars.

Crosby and Hope in "Road to Bali" at Ritz Sunday

Bing Crosby, Bob Hope and Dorothy Lamour hit a brand new "Road" in Paramount's latest Technicolor laugh riot "Road to Bali," opening next Sunday at the Ritz Theatre. The sixth in the fabulously funny "Road" series takes the three globe trotting troubadours to the colorful and mysterious land of "Bali."

In this hilarious highway gloriously paved with music, mirth and merriment, Bing, Bob and Dotty top all of their previous fun-fests. Their riotous ride to Bali is sprinkled with a sparkling array of song hits; lavish production numbers highlighted by the gorgeous hues of the Technicolor camera; and of course the zany and wacky antics of Bing and Bob as well as the delectable sarong-clad beauty of Dorothy Lamour.

Suffice to say, "Road to Bali" is an entertainment-packed film designed to tickle the funny-bone, delight the ear and bewitch the eye; it solves no problems, pleads no cause, states no case and offers no solution to the ills of the world. What it does do is entertain—and that it does royally!

Quail Wins Last Conference Tilt

In their final conference battle of the year the Quail Bobwhites and Quails took a double-header from the Lelia Lake boys and girls.

The Bobwhites dumped the Lelia Lake team by a score of 63 to 43, while the boys game was a wild scoring battle, with Quail finally winning 67 to 64.

The Bobwhites paced by Jo White took an early and decided lead and they were never headed throughout the ball game. At the end of the first quarter Quail led 18 to 13, then the Bobwhites began to put on the coal. At the half way mark the Bobwhites led 37 to 19 and the third quarter showed their margin had increased to a 48 to 29 advantage.

The game ended with the Bobwhites on top with a 15 point bulge. The reserves played most of the last quarter and still the Lelia Lake girls could not head-off the Bobwhites.

Jo Helen White was high-scorer

for the evening with 47 points. Incidentally, if she had made one more point, she would have made as many as all of the Lelia Lake forwards. Fern Neeley was second best with 12 points.

Sue Seago of Lelia Lake was high-scorer for her team with 12 points.

The boys game was one of those kind that the fans didn't know who was going to win. The Quails were behind for the first, second and third quarters. Finally they found the range and scored a stunning 3 point victory. The final score was 67 to 64.

The first quarter ended with the Lelia Lake crew in the lead, with a small 17 to 13 advantage. At the half the count was 34 to 26, and the third quarter saw the Quails

trailing 50 to 44. Just because the score indicated the Quails were behind 6 points didn't put the game on ice for the Lelia Lake team. Powered by Pasper Peoples, Alvin Homer, and Wallace Blasingame the Quails put on a remarkable scoring attack and won the ball game 67 to 64.

Jasper Peoples scored the most points for the Quails. Jasper sacked up 23 points. Alvin Homer was two off the pace with 21 and Wallace Blasingame was third with 17.

White of Lelia Lake was the top scorer of the evening with 24 points.

With these wins the Quails and Bobwhites took undisputed possession of first place in the conference standings.

A SCOUT IS THRIFTY

When a man has the opportunity to learn thrift while still young, his value to any country or community is enhanced. The Boy Scout movement in America holds this practice as a high ideal to be achieved through honest effort and hard work.

The Honesty and Integrity learned by these youths in Scouting will be invaluable to them in later life, just as these qualities are invaluable to a banking institution, serving the public.

Samnorwood to Represent Section in Play-Offs

By JAMES GLASSCOCK
The best basketball games of the season were played last Tuesday night at Quail. The beautiful Quail gym was packed and jammed with some 1,500 rabid fans. There was standing room only and the fans who could not find a seat did not seem to mind the standing.

Samnorwood took both games from the Quails and Bobwhites and also won the right to represent this section in the conference play-offs. The Eagles edged the Quails 42 to 36, while the Eagles by-passed the Bobwhites 58 to 46.

Before the game a note of welcome was given to the fans who had come a long way to see the games by Supt. Herman Moseley of Quail.

Enthusiasm ran high on both sides. The fans were just excited and enthused about the game as the youthful players.

The girls game developed into a wild-scoring battle. From the opening gun until the finish, both teams played their hearts out. Each player and team played as if it was a state championship crown at stake. At the end of the first quarter the score was knotted at 11. Samnorwood's first points were made by Goldie Tippie. She made a free shot.

Fern Neeley of Quail made a beautiful long shot to open the scoring for the Bobwhites.

In the second and third quarter, Samnorwood increased their amount of points and took a decided lead. The respective quarter scores were 28 to 19, and 39 to 26 in favor of the Eagles.

The final stanza of the ball game saw points fly faster than a jet. Right up until the final gun points appeared and continued to come. The final score was 58 to 46, with the Eagles on top.

It was a sight to see how the losing squad took their defeat in such a good way. The Bobwhite's displayed that great trait of sportsmanship and they should be commended for it.

The only difference in the ball game was that the Bobwhites had an off night and the Eagles were playing the best ball game they had played all season. It seemed that every time the Quail girls got the ball they couldn't hold on to the ball. On the other hand the Eagles played like a well-oiled machine.

The guards of both teams must be commended for their fine job. Samnorwood's Sue Moody, Janice Oldham, Sue Prichard, and Aleta Coleman performed many spectacular plays.

Fayteen Peeples, June Russell, Nita Boen, Peggy Clay, and Shirley Robinson played a good fast game all the way. It is interesting to note that Peeples played all of the 32 minutes. I believe that the mistakes that the Bobwhites made were caused from being too excited.

The top scorer for the Bobwhites was Jo Helen White. Jo had 31 points to her credit. She made 13 field goals and 5 free shots. Fern Neeley was second with 12 points. Fern made five field goals and 2 free shots.

Bonnie Kidwell coped the scoring honors for the Eagles with 26 points. She made 9 field goals and 8 free shots. Kay Newkirk was next with 20 points. She made 9 field goals and two free tosses.

It is a pleasure to watch two great teams play and when both display the best in sportsmanship.

The conference standing was not affected in any way by the boys game. Some time ago, the Eagles had taken the sectional crown.

This was a close and fast-moving ball game all the way. The first quarter ended with Quail leading 4 to 3. Nearly half of the first quarter was gone before any-

In the second go-around things began to pop. The score at the half was the Eagles 13 and the Quails 11.

The second half was a scoring marathon with points coming and going on the scoreboard. The final score was 42 to 36 in the Eagles' favor.

Wallace Blasingame cracked the goose-egg for the Quails late in the first quarter to give the Quails late in the first quarter to give the Quails a 1 to 0 lead.

Don Knoll opened the Norwood scoring with a free shot.

The top hoopster for the Quails was Jasper Peeples with 12 points. For the 12, five were field goals and two were extra losses. He was trailed by Wallace Blasingame with 11 points. Wallace made 3 field goals and 5 extra points.

George Cunningham took top honors in scoring for Norwood with 10 points. George made 3 field goals and 4 extra points.

Jerry Martindale and Marlon Sheffield were tied for the second spot with 9 points each.

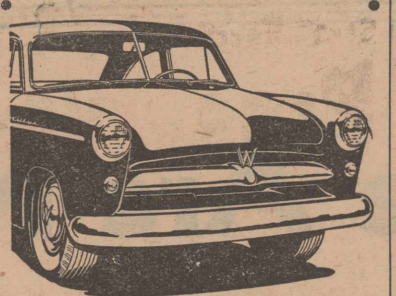

Jerry made 2 field goals and 5 free tosses and Marlon made 4 field goals and one free toss.

If a person had been at the Madison Square Garden, they could not have seen a better ball game than the two great games at Quail.

Mr. and Mrs. Raymond Neeley have a new baby daughter, Deborah Joyce. She was born January 19 in St. Joseph's Hospital and weighed 7 lbs. and 5 ozs. body scored.

Mr. and Mrs. Maxey McKnight have a new baby boy, Maxey Dell. He was born on January 23 in St. Joseph's Hospital and weighed 7 lbs. and 11 ozs.

Rockets Bring Home Trophy From Tournament

By JAMES GLASSCOCK
"Well, look what we did." That is what the Rockets and Rockettes said after the final gun had sounded to end the Mobeetic basketball tournament.

The first thing was that the Rockettes brought home the third place trophy and the boys won their first game of the 1953 season. But that was not all, the Rockettes placed two of their players on the All-Tournament team and the Rockets took one place. Grazele Scott and Shirley Prichard took the honors in the girls division and Lonnie Woods got a berth on the boys All-Star team.

The Rockettes first game was with Wheeler and they lost by two points. The final score was 38 to 36. In the second game of the tournament, they dumped Follett 56 to 34. Shirley Prichard was high-scoring with 31 important points. The third game decided the third place trophy. Wellington won this one easily. The final score over the Allison girls was 51 to 37.

The first game of the tournament was a thriller in which the Rockets won 63 to 57. Earlier in the season the Mustangs had defeated the Rockets. This time the Rockets were not to be denied. This was the first victory of the season for the Rockets.

In the second game that the Rockets played in they were defeated by Follett 57 to 52.

For the consolation championship the Rockets and Mobeetic met and the Rockets lost 71 to 59. Lonnie Woods polled the most points in the tournament. Lonnie had 84 points for the three games.

Norwood Team Judges Livestock

A Samnorwood FFA judging team brought home eight second and third place individual and team awards from the Greenbelt livestock judging contests, Lee Christie, vocational ag instructor, reported this week.

Joe Frank Knoll placed third in hog judging; James Massey second on sheep, second on contest; tie for third on Hereford judging and second on Angus judging; Franklin Knoll, tie for third on Hereford judging.

The boys, judging as a team, placed second in contest judging, second in hog judging, third on lamb judging and fifth on Angus judging. Alternates were John Knoll and Wayne Johnson.

The team, along with others entered in the contest, judged hogs at the E. S. Ballew farm at Clarendon; sheep for the Hedley school; Hereford cattle for Tommie Potts of Hedley; and Angus cattle for the Caprock Angus farm at Memphis.

A judging team from Samnorwood FFA will compete in the Top O' Texas contests at Pampa on February 16. They will also try for the Frank M. Carter Scholarship, valued at \$300, to be awarded the most outstanding boy participating. The scholarship is to be used at Texas Tech or Texas A&M.

Karen McClendon, daughter of Mr. and Mrs. Wayne McClendon, received medical treatment in the St. Joseph's Hospital last week.

H. Lee Roys Move To Tennessee

Mr. and Mrs. H. Lee Roy and his son, Leon Roy, left this week for Athens, Tennessee, where they will make their home. Mr. Roy, who has disposed of his land near Wellington, will farm.

Athens is his former home, and he has a son, Elmer Roy, living there, as well as three sisters. Mr. Roy has lived in Collingsworth County since 1920. Tennessee was Mrs. Roy's home until she and Mr. Roy were married three years ago.

In addition to Elmer Roy, an Athens insurance salesman, Mr. Roy's children include Dr. Harry Lee Roy of Houston; the Rev. Claude Roy, pastor of May Street Baptist Church, Fort Worth; Alvin Roy of Norman; Mrs. Glen Roberts of Wellington and Mrs. Wilson Dobbins of Amarillo.

Mr. Roy sold one farm to Keith Smith and the other, a mile south of Wellington, to Rufus and D. R. Shanks.

Gas Rate

(Continued from Page One)
two companies to their own gathering systems.

Another point that has come up for considerable discussion since the application for increased rates was filed is the tax valuation of the Wellington holdings.

Value of the company for city tax purposes is about \$48,000, Bura Handley, city manager, said. This figure was arrived with United Gas two years ago under the city's tax reallocation plan. (The basis is a fair value, divided by two, and taxed at 60 per cent of this last figure.) This is for only that part of the system inside the city limits.

Lone Star has placed a value of around \$209,000, but this includes all facilities inside the "gate" or measuring station and takes in the equipment and pipe used in servicing Wellington customers outside the city limits.

Mr. King presented the council with a breakdown of expenses within the Childress district during the 8 months of 1952 the company operated here. These total \$10.05 per customer. He added, however, that these figures are a little higher than normal, since they include the cost incurred in taking over the system.

Another point re-emphasized by Mr. King was that 52 per cent of all profits made by the company go to federal taxes alone.

Other meetings will be held by the council and gas company representatives to go further in the case.

Representing Lone Star were Mr. King and D. C. McKinney, local manager.

City officials present were Mayor Bratten; City Attorney Paul Spillman; City Manager Handley; Councilmen Luther Sullivan, Jones Singley, Boney Hunter, Dr. Tom Hunter, and John Coleman; and Police Chief Bill McCarver.

Methodist Revival

(Continued from Page One)
"Family Religion" or "Religion in The Home." Flowers will be used in this service and it promises to be the greatest service of the Revival, said Rev. Comer.

Sunday night for his closing sermon, Evangelist Comer will preach on, "The Unpardonable Sin." Rev. Michael said if you have not heard this outstanding Evangelist who has preached to multitudes and the outstanding Evangelist in the Methodist Church that you are urged and invited to hear him in these closing services.

Evangelist Comer has spoken to the Rotary Club, the Kiwanis Club, the Senior and Junior High, and grade schools, and broadcast over the radio in Shamrock and conducted two young people's services in connection with his two main services, and is one of the hardest workers ever to come to our city.

Methodists to Hold Dedication Week Feb. 15-22

The Rev. J. F. Michael and the congregation of the First Methodist Church, of Wellington, Texas, will join more than nine million Methodists in observing the Week of Dedication, Feb. 15-22.

Bishops Lloyd C. Wicke, Pittsburgh, and Matthew W. Clair, St. Louis, national chairman and vice-chairman of the Week of Dedication committee, state that this period at the beginning of Lent offers an opportunity for the entire church membership to renew its dedication to spiritual living.

"The Week of Dedication has become a bond of prayer and Christian fellowship among Methodists around the world," according to the Rev. Dr. E. Harold Mohn, Chicago, executive director of the church's central promotional office. "Reports have come from hundreds of churches which observed the week last year with special prayer services, dedication meetings and sacrificial offerings."

Funds received are to be used for emergency missionary projects at home and abroad and the work of the Methodist Committee for Overseas Relief.

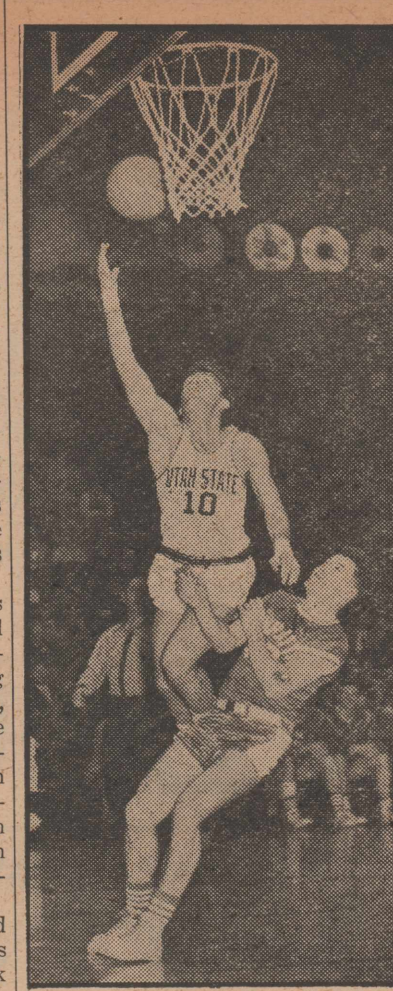

Gifts this year are expected to total one million dollars. In the last four years, more than three and a half million dollars has been raised.

Lay leaders in 40,000 local churches are being urged to help with the week-long period, ending in a day of dedication, Feb. 22. More than 25,000 lay leaders took part in 1952.
