EDITORIAL

A Super Weekend Ahead!

Anyone thinking that life in a small town in the southeastern Texas Panhandle is dull, has never lived through a weekend like the one just ahead of local and area residents.

First off is the long awaited football clash between the Memphis Cyclone and the Clarendon Bronchos, the game which will decide which team will probably represent District 2-A in post season playoffs.

This game is long awaited because of the history of the grid-iron contests staged by these two teams and because of the importance of victory to the winner and the utter heartbreak which besets the loser. These young men take this game deadly serious, even to the point that the teams try hard to eliminate penalties. The contests have been clean, hard hitting, down to the last minute affairs and the 1974 contest should be no exception.

The game is played in Cyclone Stadium this year and Mr. Weatherman is not giving very encouraging reports. It's likely to be wet, which might hamper the quality of play but not the spirit.

The weather may play another important role in the Cotton Boll National Enduro motorcycle race scheduled for Sunday. The cross-country track laid out for this race is tough enough when conditions are dry; but when wet, the trial is tough and dangerous.

Riders come from all over the Southwest to attend and participate in Enduro motorcycle racing. Their conduct has been a credit to the sport, and dispels any reservations any community would have which might like to host an event.

The night before the race, riders attempt to get plenty of rest. When riding across country at 25 mph staying in the seat of a cycle is a demanding and grueling chore. The slightest slip or mistake can result in a spill. This editor talked with only four riders last year who made it through the course without being unseated somewhere along the way, and these were the top finishers.

Not only is there danger from the course itself, but there is the danger of another rider falling in front, or sliding into you, or your bike breaking apart or having mechanical failure. After every race, some bikes and riders have to be retrieved from the river area.

With the Enduro race, there is the Parade at 3 p. m. Saturday, downtown street program beginning at 2 p. m., a hamburger dinner at 5 p. m., followed by the crowning of the Enduro Trophy Girl at 7 p. m., and a showing of "On The Line" a movie on enduro racing at the Movie House beginning at 8 p. m.

The Amarillo Track and Trail Riders will be doing their job as sponsors of the Enduro with the largest field of entries ever and the De Ville Motel in Memphis will be headquarters.

Memphis will be playing host to these weekend activities and it behooves each of us to be on our good behavior and be as friendly and helpful as possible. Fans and spectators can be just as guilty of unsportsmanlike conduct as can the participants in sporting events.

On the other hand, when you give aid or assistance to a stranger, you never can tell whom you are helping. He or she may be the relative of a friend of yours, or the owner of a company, or someone you will appreciate getting to know.

Non Farm Food Costs

High food prices at the grocery are the result of inflation; not the cause of it. Farmers are receiving high prices, but beef and hog raisers, dairymen and poultrymen are in financial trouble because of the effects of inflation on their production costs.

Two-thirds of the retail cost of foods is added after products leave farmers' hands, and higher costs of doing business account for increases that have kept merchants busy remarking prices to keep up with replacement costs.

Government officials continue to try to sidestep responsibility for their part in causing the long upward trend in food prices. Records do not justify their evasiveness. Congress, the Federal Reserve Board, various regulatory agencies, and the administration cannot disown actions that keep driving food prices higher.

Congress is initially to blame because it will not cut back on spending. Until the government starts operating within its income, inflation will continue.

In addition, Congress has enacted laws raising minimum wages this year, next year and the next. This action, in turn, pushes up pay scales for higher level jobs, increasing costs of production all the way from the farm to the grocery checkout clerk.

Ineffectiveness of government officials in dealing with union bosses also boosts food cost. For example, union cutbacks on loading standards for vegetables and other foods increase the costs of

transportation, which consumers must pay.

The Federal Reserve Board, through its monetary policies, must be held largely responsible for high interest rates that are part of the cost of doing business for farmers and stockmen, as well as by processing and marketing industries in the food chain.

Urban investors have helped to push land values to highest levels in history, whether for suburban housing, shopping centers, industrial development, or just to have a place in the country. If farmers must pay more for land and pay higher taxes on it because of compensation from non-agricultural buyers, that also pushes food costs up.

Food costs also have been increased by a variety of restrictive regulations issued by EPA, OSH, A, EEOC, FDA and other bureaus under authorization from Congress. These affect producers, processors, wholesalers and retailers, often limiting supplies and always pushing costs of doing business upward.

Even though late planting, dry weather and early frosts have reduced yields in various parts of the country, total crop production still is expected to be large compared with past years, although less than pre-season forecasts. But large crop or small, food prices are bound to continue upward as long as inflationary non-farm influences continue to push costs higher.

CONSERVE ENERGY With Proper Insulation

Proper insulation helps to keep OUT heat in the summer, cold in the winter, helps to reduce outside noise, and absorbs inside sounds. Adequate insulation can save over 40% on energy costs annually. You should have at least 4" in walls and 6" in ceilings. Heating and air conditioning duct-work should be wrapped with insulating material. Insulation can pay for itself with the savings from energy costs in about 1 1/2 years. Your home will be more comfortable because insulation will help to keep dust and dirt particles from sifting in.

Check all windows and doors. If a cold draft indicates you are losing heat, install weatherstripping and caulking where needed. It will save on both heating and cooling costs. An almost invisible 1/4" gap at the base of a standard 36" outside door is equal to a nine square-inch hole in the side of your house. There are a number of easy-to-install felt and foam rubber products on the market to draft-proof doorways.

1974 Census of Agriculture To Be Taken in Jan.

The 1974 Census of Agriculture, the largest agricultural statistical project of the past five years, will begin in January. It will be conducted by the Bureau of the Census, part of the Department of Commerce's Social and Economic Statistics Administration.

From Alaska to Florida, from Maine to Hawaii, farmers and ranchers will receive census forms in the mail around the first of the new year. The report forms are to be filled out and mailed back promptly.

Farmers themselves have participated in deciding what information is collected in the census. Representatives of farm organizations such as the Farm Bureau, The Grange, Farmers Union, National Farmers Organization, and Farmers Cooperatives serve on the Advisory Committee that recommends to the Bureau the questions that should be included in the census.

Three kinds of information are requested about operations during 1974: first, a count of farm resources, number of farms, area of farm land, acres of cropland and pasture, number of each kind of livestock and poultry, number of persons working on farms, number of various kinds of farm equipment; second, a record of farm products produced and sold during 1974; and third, selected farming activities during 1974 such as number of days of off-farm work by the farmer, amount spent for farm labor, for custom work, for feed, for gasoline and

faces the challenge of the various types of terrain plus the unknown trail that lies ahead. All area citizens with 4 wheel drive vehicles and dune buggies are encouraged and invited to assist with the enduro. There will be several hundred bikes and riders that will need help and welcome assistance in the Red River area. We ask that everyone please respect and use courtesy in relation to fields and private property. Permission has been granted from over 20 private land owners to use the area this Sunday only, for the National Enduro.

The enduro track and spectator points with times to watch the enduro will be listed and posted at the DeWitt Motel after the start Sunday. Welcome AMA

oil.

To report this kind of information, a farmer will need to have a few simple records. The Census Bureau is urging each farmer to have his records of quantities harvested, products sold, major farm expenses and the like readily available so that he can easily and accurately fill out his census report when it comes.

It is from that Census of Agriculture, conducted every five years, that data is taken to form the basis for programs of the U. S. Department of Agriculture. Congressional farm legislation, farm organization policies, farm programs established and administered by State departments of agriculture, and many other services provided by colleges, business firms, manufacturers, publishers and broadcasters.

The Census of Agriculture is the only source of statistics on agriculture that are comparable from county to county nationwide. It is the sole source of comprehensive data tabulated for each State and for the U. S. for farms classified by size, tenure, type of organization, market value of products sold, and type of farm enterprise.

Every farmer's report is confidential by law. It may be seen only by sworn Census employees and may be used only for statistical purposes. The mail census method reinforces confidentiality. And it allows the farmers to complete his report at his convenience with accurate information from his records.

Senate Candidate Ray Farabee Is Memphis Visitor

Ray Farabee, Democratic nominee for the Texas Senate, campaigned in Memphis on Tuesday. The Wichita Falls businessman and attorney was making his final swing through Hall County prior to the November general election.

In addition to working and talking with voters in the downtown area, Farabee attended the noon meeting of the Memphis Rotary Club. Farabee is a Rotarian and a past president of his Rotary Club.

The candidate came to Memphis from Turkey and Quitaque where he had campaigned in the morning. He was scheduled to visit in Childress on Tuesday afternoon before going to Electra to speak at a TSTA meeting there on "Student Discipline and Due Progress."

The businessman and attorney has had vast experience in the education field. He has represented rural and urban school districts and places education as one of the top priority questions that must be dealt with in the next legislative session in Texas.

In an effort to encourage voter participation in the November 5 general election, Farabee will visit this week in 23 communities in the 29 county district that he seeks to represent.

John Deaver is Farabee's campaign coordinator in Memphis. Virgil Blankney assists his campaign in Turkey.

Chuck Wagon Supper Draws Large Crowd

More than 200 persons enjoyed the Chuck Wagon Supper served by the 1913 Study Club on Saturday evening in the Community Center.

A festive scene greeted diners as table were laid with white cloths and decorated with hand-made Church Wagons in red and white. Club members were costumed in frocks typical of the "Chuck Wagon" era.

Assisting the members in serving was Miss Debra Combs, who wore a frock of Mrs. Gayle Greene's, a dress Mrs. Greene wore a number of years ago as a square dance costume.

While guests dined, they were entertained with music by The Country Playboys. Members of the band included: Melvin Strygley, James Canada, Dwight Floyd, Dwain Floyd, Eddie Houston, and Victor Garcia.

"We certainly appreciated the band playing for us and we know everyone enjoyed their music," Mrs. Gayle Greene, president stated.

"We also want to thank others who contributed to our fund raising project including The First National Bank, The First State Bank, Big O Restaurant, and all those who came and ate with us," Mrs. Greene added.

Proceeds from the project will be donated to the Carnegie Library and other worthwhile community projects, Mrs. Greene said.

Visit With Relatives

Mrs. Inez Aspgren returned home Tuesday after visiting with relatives accompanied by her son, Fritz Aspgren of California.

Mrs. Aspgren went to Sherman on Oct. 11 where she visited with her aunt, Mrs. Claude Odom; and then went to Dallas the next day to meet her son who was arriving by plane. In Dallas Fritz visited a friend, John R. Lemons, while Mrs. Aspgren visited in Howe with Mrs. Alsenia Dunn and with an aunt, Mrs. Lottie Hackworth, and cousins in Whitesboro on Saturday and Sunday. They both returned to Memphis Sunday and Fritz visited here until Thursday morning when they left by car for Pueblo, Colo.

In Pueblo, they visited with their mother and grandmother, Mrs. Helen Smith, and with Mrs. Aspgren's sister and husband, Mr. and Mrs. Floyd Barnhart, and brother and wife, Mr. and Mrs. Jerry Thurman.

Fritz flew home to California on Friday afternoon and Mrs. Aspgren returned to Amarillo Oct. 21 and spent the night with Mrs. Grover Kesterson, former Memphis resident, returning to Memphis on Tuesday.

Is Hostess To
Delphians October 1

The Delphian Club met in the Bronze Room Tuesday, Oct. 1, with Mrs. Sim Reeves as hostess.

The meeting was called to order by the president, Mrs. Wayne Sweatt. The meditation, "Be Americans", was given by Mrs. Lynn McKown.

"The Bicentennial Program" was given by Mmes. Mitchell, Dale and Moss. Each member was asked to give their idea on how Memphis, Texas, can best celebrate and acknowledge the Bi-centennial in 1976.

Delicious refreshments were served to Mmes. Wayne Sweatt, Gerry Brogden, W. C. Dickey, J. S. McMurry, Mildred Stephens, Robert Duncan, Henry Hays, Lynn McKown, Clyde Smith, Neal Hindman, Kenneth Dale, Leon Davis, Ben Moss, Warren Mitchell, L. F. Jones, E. Kilgore, John Crane, G. Ariola and the host-ess, Mrs. Reeves.

New Childress
Library Oct. 15

The Delphian Club met in the Bronze Room Oct. 15 with Mrs. Kenneth Dale as hostess.

The meeting was called to order by the president, Mrs. Wayne Sweatt. Mrs. Warren Mitchell gave the meditation, "The American Creed."

Plans for the Library Lunch-oon to be held Nov. 10 were dis-cussed.

Members then drove to Child-ress to view the new library under construction in that city. The librarian told members the entire sum of the cost of the building has been raised in two years by grants, memorial funds and con-tributions. Club members were quite impressed by this beautiful new building.

Members present were: Mmes. Robert Clark, John Crane, Leon Davis, Neal Hindman, L. J. Jones, Warren Mitchell, C. D. Morris, C. L. Smith, Mildred Stephens, Way-ne Sweatt, Dean Yarbrough, Robert Duncan and the hostess, Mrs. Kenneth Dale.

B. B. Shots

Mrs. Joe Allen Ballard had as her guests in Heritage Hall the past week, Mr. and Mrs. Max Nail of Salem, Ill. Mrs. Nail will be remembered by her schoolmat-es as Eunice Leary, the daughter of the late F. E. and Mrs. Leary of Memphis. Eunice graduated from Estelline High School in 1928. She worked in the First State Bank of Memphis 2 years. She married Max Nail in 1934. Maxwell (but we knew him as Max) graduated from MHS in 1926. He attended college at Tex-as A&M and Texas Tech. Eunice was also a graduate of Texas Tech. Max is the son of the late Mr. and Mrs. J. T. Nail. Mrs. Nail passed away in 1935 and her hus-band, Jim, passed away in 1954. They had one daughter, Mary, who married Temple Palmer and they are now living in Livermore, Calif. Some of the schoolmates Max remembered were Clyde Drake, Henry Goodpasture, J. M. Ferrel and Oliver Johnson. Max and Eunice have one daughter and two grandsons who live in Florida. Max Nail's father helped the Browners turn on the water for city water the year before he was born and Max never had to draw water from a well. Mr. and Mrs. Nail were very complimen-tary of Hall County Heritage

Hall.

Other visitors were Mrs. Bever-ly Thompson of Plateville, Colo. She was reared in the South Tex-as Valley before moving to Colo-rado. She was the guest of Rose Fleet and Ronelle Wilson. Anoth-er visitor in Heritage Hall was Clarence Blevins of Quail who especially wanted to see the lobo wolf that he last saw 50 years ago. Clarence is the son of the late Mr. and Mrs. J. E. Blevins who moved to Collingsworth Co-unity in 1902. There were 16 children in this family, 8 sons and 8 daughters. The one son and 5 daughters are now living. Clar-ence married Bertha Smith who was born in Collingsworth Coun-ty. They have two sons and 7 daughters, all now living. One of the sons, Marvin, was in Heritage Hall with his father.

Mr. and Mrs. Paul Morris had as their guests in Heritage Hall Wanda (Morris) Potter and son Craig of Cambria, Calif., which is a resort town. Wanda, the daughter of Paul Morris, was born in Hall County, lived here and attended school in Memphis until she was 10 years old. Some of her teachers she remembered are Thelma Shankle, Mrs. Hall, Mrs. Gore and Mrs. Estes. Some of her schoolmates she remember-ed were Bobbie Davenport, Thom-as Rogers, Betty Jean Milam, La-verne Dodson and Jackie Lee Pounds. Wanda's grandfather,

J. C. Morris, moved to Hall Co-unity in 1906, first living at Lod-ge (Plaska) and next in the Brice area and moved to Mem-phis in 1943. The late Mr. and Mrs. J. C. Morris had 8 children and three are now living, Paul, Clarence and Claude. Wanda has one son, Stephen, who is youth pastor of a Baptist Church in Cambria. She has a daughter, Susan, who is a freshman at Los Angeles Baptist College. Wanda and Craig were very much inter-ested in Heritage Hall. Craig was taking notes and making snap-shots as he was going back to California and report to his scho-ol classes on Hall County Heritage Hall.

A very interesting article on New Braunfels in the historical report showed that the last Wurst-fest, held Nov. 1-10 in this town, there were 150,000 people who ate 4 tons of sausage. This Wurst-fest was started in 1961 with the 19 sausage manufacturers get-ting together to promote their wares. The Funfest lasts all day and into the night each day.

A quote from Bacon—"Happy are the families where the govern-ment of parents is the reign of af-fection."

John Kehr had as his guest in Heritage Hall, his father, Nick Kehr, a rancher from Sand Hill, Neb. He has lived in Nebraska

the past 69 years. He reports that the population of his home town is 35 and they expect to get in the cornfield of the Hee Haw television show. Nick liked our Heritage Hall very much.

I noticed the past week that Robert and Mary Helen Sexauer had a relieved and relaxed look about them as they had been un-der tension for 2 weeks before lis-tening and looking for that old bird that makes deliveries of grandchildren. The bird finally showed up and blessed them with a new grandson. So they will have another picture for their billfold.

Over the years, we have many smart people representing Hall County almost all over the world but all of the smart talented ones have not left us. R. C. Lemons had Rotary program a few weeks ago with the speech class of Lor-ean Hart of our Memphis High School. It was such a good pro-gram that I thought better than some that are on our TV's from Hollywood. Sonny and Cher were better than the original show. Watch out, Hollywood, here comes talent from MHS!

Another visitor in Heritage Hall the past week was Vernon Anwen of Long Beach, Calif. He married Gladys Dean (sister of (Continued on Page 12)

Cyclone Defeats McLean 57-0

Memphis Cyclone totally defeated the McLean Tigers Friday night in a football contest 57 to 0, the process racked up 497 total offense to McLean's 13.

Cyclone jumped out to a lead early in the first period. HB Charles Bryley scored a 57-yd. run and Candy Reyes kicked after TD drive. The drive took 10 plays in seven plays.

The next possession saw the Cyclone drive 68 yards in six plays and the scoring punch was a 57-yd. carry by HB Fred Vardy. Reyes' kick after TD made the score was 14-0.

Two teams exchanged possessions as Ricky Spruill intercepted for Memphis, then Hayes intercepted for McLean. But Joe Reyes fell on a fumble setting up the Cyclone's next scoring opportunity. The Tigers' 32. Six plays later, Alexander carried the 5-yd. line. Candy Reyes was good and it was 21-0 in the first period.

Before the quarter ended, Ricky Miller passed complete to James Beck in the flat. Through the McLean defense, a 46-yd. scoring pass and Reyes added the point for a 28-0 first tabulation.

Through their troubles, the Cyclone had three interceptions during the game and Dick Hutcherson intercepted two of the Tigers' aerial attacks on up the Cyclone's driving drive.

Cyclone's second unit was in the ball game, and Alexander carried the drive with 11 plays. HB Ricky Douthit carried for 19 more yards and from the 22-yd. line, he found daylight and the distance. Candy

Satellite School For Mentally Retarded Being Organized Here

by VIRGINIA BROWDER

Alen Walker, representative from The Mental Health & Retardation Center for Human Development in Amarillo, met with the newly formed advisory committee backing the Satellite School in Memphis at the Golden Cobweb Oct. 15.

For the past six years, such a school has been in operation in Clarendon and one in Childress with rewarding results. Also, for the last four years the same type of service has been offered in Wellington with like results.

Members of the Memphis committee attending were: Mmes. Don Tarver of Donley County and Billie Jo Carpenter, Joe Lloyd Mothershead, Mike Branigan, Tom Posey, Tops Gilreath, Virginia Browder, Lee Vardy of Turkey. Mrs. Bob Sexauer and Floyd McIntush were unable to attend.

Mr. Walker very carefully outlined the ground work necessary to establish this school for mentally retarded children and adults. He strongly emphasized the fact that these people are handicapped individuals, individuals first and handicapped secondly, all deserving of a special consideration and training.

Requirements for the setting up of this Satellite School are: (1) A suitable place for teacher and pupils to meet. (2) A teacher with patience and compassion but not necessarily a college graduate though she must be a high school graduate. (3) One or two teacher's aides depending on the number enrolled.

The teacher will be salaried but there are no other funds available for a meeting place or aides. It is a community project and volunteer program mainly. The pupils, before being enrolled, will be tested as to their capabilities. The purpose of this training service is to enable the children and adults to help themselves and to relieve their parents or guardians of assisting them with their basic needs. It will further give them self confidence and a feeling of belonging to society.

The Memphis Satellite School will be closely allied with the Amarillo Center at all times as to advice and counseling. According to Mr. Walker, there is even a work shop connected with the Center in Amarillo where those found capable are trained in mental tasks such as sacking candy, folding clothes and the like.

The Memphis teacher, when selected, will be given a two week's course of training, as to the procedures in handling this

program. She will, of course, visit it the home of the prospective pupils for a conference with the parents or guardian before enrollment. A convenient service available from the Center is "a respite stay" for as long as a month for the retarded child or grown person, with 24 hour care, allowing the parents a vacation or, in case of emergency surgery for either parent.

As yet, a teacher has not been selected for the Memphis school but assistance as an aide has been offered by Mrs. Dick Spoon and others. Also, a \$200 contribution for the cause from an interested individual will be forthcoming as soon as the school is in operation.

Officers for the local advisory committee were elected as follows: Tops Gilreath, chairman; Lee Vardy, vice chairman; and Virginia Browder, secretary-treasurer. Please remember this is a community project and anyone wishing to assist with the program may contact Tops Gilreath. As a community project, this represents a giant step forward, the concern of the citizens of Memphis will be greatly appreciated by the advisory committee, it was stated.

R. G. Patrick Brings In Two Large Bass

Fishing is good at Brookhollow Club Lake. At least it's good for R. G. Patrick. Mr. Patrick caught two large bass in one day at the club last week. The largest fish weighed 7 1/4 pounds while the other bass weighed 5 1/4 pounds.

Both fish were caught on a rod and reel. Mr. Patrick fishes for fun and relaxation.

Mrs. Henry Hays is visiting relatives in Vernon and Electra this week.

Karen Tate, Calif. Teenager, Dies In Fall

Karen Tate, 15-year-old Fontana, Calif., girl fell to her death recently while hiking near Bonita Falls. She died of massive head and back injuries.

She was the daughter of Mr. and Mrs. Aubrey Montgomery, the granddaughter of Mr. and Mrs. John Tate of Hedley and a niece of James Jefferies, Mrs. Andrew Batey and Mrs. Beanie Shackelford, all of Memphis.

Miss Tate and four girlfriends were hiking in the Bonita Falls area. They had climbed to the top of the falls and were on their way down. As they crossed a steep narrow area of the lower falls, the young girl slipped, apparently on a loose rock, lost her footing and fell down the face of the cliff, hitting the side 3 or 4 times before hitting the bottom, 80-90 feet below.

She was found by a resident of Lytle Creek to whom the girls appealed for help. Miss Tate was

lying face up at the bottom of the falls next to the creek and was dead at the scene. The body was carried out of the area to a waiting helicopter.

Miss Tate was a junior at Fontana High School there.

Several Memphis women were in Amarillo on Sunday afternoon to attend the Ice Capades. Among those going from here were Gertrude Rasco, Helen Madden, Mrs. Louie Goffinett, Mrs. Theo. Swift, Mrs. Bryan Adams, Mrs. Mildred Stephens, Virginia Browder, Ora Denny and Gladys Power.

Among those from Memphis attending Dad's Day activities at Texas Tech University, Lubbock, on Saturday were Mr. and Mrs. Lester Campbell, Mr. and Mrs. Bill Cosby and Mr. and Mrs. Harold Smith.

Management Is Key To Good Conservation

Management is the key to the process of growth and maintaining an ample supply of range conservation according to William H. Hargis, Conservation Service.

The rancher is a cash crop as cotton and a farmer. Grazing animals eat the grass which is converted to beef. The more good produced per acre, the more pounds of beef that is produced per acre.

Two best tools to aid the rancher in a good grazing management plan are deferred grazing and proper grazing use.

The Soil Conservation Service rule they follow in putting a range use, it is to take and leave half, by weight, of annual production of the range. The reason for leaving half is to give the grass sufficient time to produce more food for the grass. From the food for the grass is the food for the cow.

Deferred grazing and proper stocking will help increase the better and more palatable grasses, with end result of being able to stock more livestock because of more grass. Overstocking leads to loss of vigor in the better grasses, with the end result of poor

CONSERVATION—“Grass is the rancher's crop” ranchers who use management practices such as deferred grazing and proper grazing use produce more beef while conserving the soil.

stocking will help increase the better and more palatable grasses, with end result of being able to stock more livestock because of more grass. Overstocking leads to loss of vigor in the better grasses, with the end result of poor

grasses and weeds invading and the ranch being able to carry less stock.

The properly stocked rancher keeps his livestock in top shape, they bring more per pound and he has more pounds to sell. The

overstocked rancher keeps his livestock in poor conditions, would sell for less per pound, and would have less pounds to sell.

Technical assistance to develop grazing programs is furnished to the rancher of Hall County by the Soil Conservation Service working through the Hall-Childress Soil and Water Conservation District.

Auxiliary To Hold Rummage Sales on Sat.

The American Legion Auxiliary announced this week that a rummage sale will be held at the Legion Hall each Saturday for the next month.

Funds from the sales will be used to send a girl to Girl's State this year and to defray other expenses of the Auxiliary.

Legal Notice

NOTICE AFFORDING OPPORTUNITY FOR PUBLIC HEARING CORRIDOR (LOCATION) AND DESIGN (COMBINED HEARING)

The Texas Highway Department is planning the construction of F. M. Road 3323, extending from a county road north to State Highway 86, 1.5 miles southwest of Turkey, in Hall County.

The proposed project consists of grading, structures, base, and surfacing to provide a 20-foot paved road. The proposed route will generally follow the existing county road on a minimum right of way width of 100 feet. There will be no relocations, or displacements, on the project.

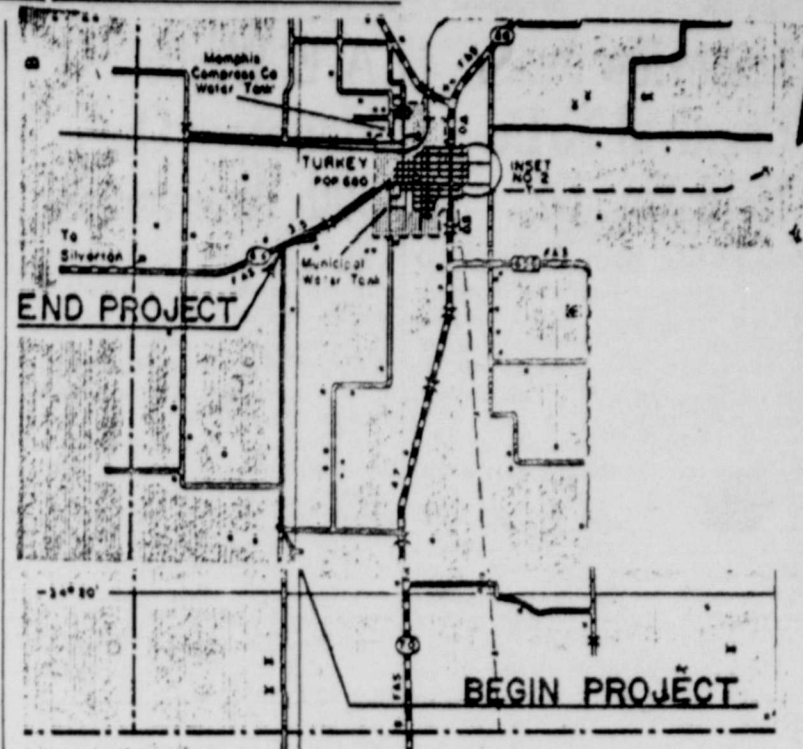

Maps and other drawings showing the proposed location and geometric design, environmental studies, and any other information about the proposed project are on file and available for inspection and copying at the office of Everett H. Monroe, Clarendon, Texas. Also, the drawings showing the proposed geometric design have been placed on file in the office of the County Judge of Hall County.

Information about the State's Relocation Assistance Program, the benefits and services for displacees and the relocation assistance office, as well as information about the tentative schedules for acquisition of right of way and construction, can be obtained at the Texas Highway Department District Office, P. O. Box 909, Childress, Texas, 79201.

Any interested citizen may request that a public hearing be held covering the social, economic, and environmental effects of the proposed location and design for this highway project by delivering a written request to the Resident Engineer's office, or to Mr. Lewis H. White, District Engineer of Childress, on or before November 8th, 1974.

In the event such a request is received, a public hearing will be scheduled and adequate notice will be publicized about the date and location of the hearing.

A story I read in the daily paper fits this quote, "Let nothing discourage you, never give up." a 114-year-old woman in Azerbaijan U.S.S.R. was awarded the "Red Banner of Labor" for 100 years of employment by the Kuba Rug factory. She was cited by the president of the Supreme Soviet for her productivity with the press agency noting that she can still work as fast as her much younger colleagues making a medium size rug in 20 to 25 days. In one day, she ties about 7,000 knots. I would like to have a bottle of her vitamins even if I don't tie knots.

I read an article in a daily paper a few days ago that made me think of a quote, "Live today as if you had an indefinite time on earth and at the same time live so you would be prepared to meet your Maker tomorrow." The article I read was about a man in Tennessee that was 105 years old and had just married. He was asked why he married at his age and his reply was "I am a widower and needed a wife and she is a widow and needed a husband." This man had outlived five wives. I would call this man an optimist.

Cyclone Mother's Club to Hold Variety Show

be 17 women who will be compet-ing for the Powder Puff honors. The entire course will take ap-

proximately five hours to com-plete with two gas stops at Oxbow Bridge and Estelline bridge. The race will end near the City Park area. The enduro track itself is unknown and each rider faces the challenge of various types of ter-rain plus unknown trails that lie ahead.

The rider is graded on exact timing between several check points located throughout the 125 mile enduro track. The rider wants to maintain an exact speed of 24 miles per hour which is very difficult at times especially when going down Red River, up bluffs, through Mesquite trees & in quick sand. The enduro tests

the rider's ability as a machine. Out of the 125 miles, it is estimated that he will finish the course in 5 hours and 15 minutes.
