Bonus Kill

When Bill Stinson, left, and Danny Galey killed this 35-pound bobcat north of Westbrook Monday night they found they had a bonus prize -- a large rattlesnake already half eaten by the cat. The snake - what was left of it, that is - measured about 40 inches.

Delegation Asks Deputy To Serve Loraine Area

A Loraine delegation Tuesday asked Commissioners Court for assistance to improve law enforcement in the area around Loraine.

It was a city delegation, but they were asking for solving a problem in the area outside Loraine city limits.

Specifically, they emphasized the need for the location of a deputy sheriff in the Loraine area or the equipping of the Loraine constable's car with radio.

Calling on commissioners in the Courthouse were J. W. King, Royce Beights, J. C. Hall, Jr., Troy Jones and Bill Scarborough, all city officials.

They received attentive ears from commissioners, but their best answer for the time being was that Commissioners Court will discuss the problem with Sheriff Lewis Claxton when the sheriff returns from vacation.

For years, a deputy sheriff has resided in Loraine. However, since the resignation of Roy Richard from the post of chief deputy several months ago, all of Sheriff Claxton's staff resides in the Colorado City area.

"Our problem," Jones told The Record, "is that we have had a deputy here for many years. . .and whenever we called him, he could come in a hurry."

"Now there is a problem of time calling to Colorado City and having a deputy sent out from there."

"Our city police is not authorized to go outside of Loraine," Jones continued, "and when he does there are complaints."

"Actually what we asked was that a deputy be located here so that he could be immediately available, especially at night, or that the county equip our precinct constable with a two-way radio in his car."

The Loraine delegation said the commissioners did not show any interest for the radio plan.

"They just promised to talk it all over with the sheriff after his vacation," Jones said.

"We have plenty of law in the county," he continued, "and we know that. But we have a special problem and the need here is for a regular officer within our area. . .one who can be on hand speedily at night."

The delegation said there was no problem with the city of Loraine. Their own police-night watchman was adequate.

They cited no increase in

Fall From Rig Fatal

Melvin Edge, 24, Killed In Accident

Melvin Scott Edge, 24-year-old oil field worker, fell to his death Tuesday night a few minutes before he was to be relieved from his work shift.

The fatal mishap happened soon after the Colorado City man had set a drill collar on rig No. 4 of Robinson Drilling Company, operating between Coahoma and Sand Springs.

"They told me he had just set the collar and was starting back down," said his father, W. S. Edge of 508 East Eighth Street.

"He must have slipped as he was starting down. . .and fell."

"They said they could see the lights of the relief car approaching the rig when it happened," the father continued.

He was dead on arrival at a Big Spring hospital. Edge, who had worked for the drilling firm previously, had returned to the oil field job in the last few weeks.

He was born in Colorado City Sept. 21, 1944, and had lived here most of his life.

Survivors include the parents, Mr. and Mrs. W. S. Edge, and a sister, Dixie Lee Edge, all of the home address.

Funeral service will be Thursday (today) at 2 p.m. in Northside Church of Christ. Oscar Batton of Lubbock, Church of Christ minister, will officiate.

Burial will be in Colorado City Cemetery under direction of Kiker & Son Funeral Home.

Brady Rites Today In Fort Worth

Memorial services for Wendell D. Brady, 46, will be conducted Thursday (today) at 10 a.m. in Carswell Air Force Base Memorial Chapel at Fort Worth.

Brady, husband of the former Jane Merrill of Colorado City, died Tuesday about 1 a.m. in Carswell Air Force Base Hospital.

Interment will be Friday in National Cemetery in Little Rock, Ark.

Brady retired from military service in 1963 as a lieutenant colonel after 22 years Air Force duty. In World War II he was a fighter pilot.

Since his retirement he was employed as a logistic support engineer at General Dynamics in Fort Worth.

He and Mrs. Brady were married Dec. 26, 1967.

Mrs. Brady has requested that memorials be sent to American Red Cross or Cancer Society.

Ice Cream, North-South Film Kickoff QB Club

Colorado City's Quarterback Club kicks off its fall membership drive Friday with an informal ice cream party in Civic House.

Homemade ice cream will be the menu fare for athletes of the local school system, their coaches, parents and interested sports fans.

Special attraction will be the showing of the film of last Thursday night's North-South all-star game in Dallas sponsored by Texas High School Football Coaches Association.

Coaches for the North team defeated 19-0 in the fray, were Colorado High's coaching staff headed by Truman Nix. And, a standout performer for the North especially on defense and also limited offensive duty was Dan Steakley, who moves into Coach Darrell Royal's football operation this fall at University of Texas.

In addition to the ice cream and North-South film, the ice cream party group will hear Nix relate prospects for the new football season in District 3-AAA.

Main purpose for the party, of course, will be to start the annual membership drive for Quarterback Club, the No. 1 fans organization for local schoolboy sports. Memberships will be $5 each.

The drive will continue for three weeks, according to Don Benson, 1969-70 president. All members who sign up Friday will be eligible to participate in the membership contest for which prizes will be awarded to leading salesmen.

First business meeting of the club will be Tuesday, Aug. 19, and the Quarterbacks will retire from that session to the stadium to watch to Wolves in an earlier practice session.

Coach Nix and his staff will conduct the initial practice Monday Aug. 18 and their season's first encounter will be Sept. 12 with Sweetwater High.

Serving with Benson at the helm of the club are Gene Parker, vice president; Eddie Piland, secretary-treasurer; Johnny Morgan, social chairman; Truman Bodine, immediate past president.

Quarterback Club projects last year successfully sponsored included the football player photo display in local stores; furnishing of Gator Aid drink for athletes; purchase of a vibrator machine; dad and booster of week programs and other projects.

FOR COLORADO HIGH STUDENTS

Study Hall Is Out

Those formal, supervised study hall periods are going out -- at least, in Colorado High.

School board members heard the new plan for independent study periods Monday night at their board meeting.

High School Principal Wallace Price, who will implement the new concept when the fall term begins, said independent study periods will provide students greater opportunities to utilize library facilities and will enable small study groups to implement team learning approach.

Through these approaches students should be stimulated to accept greater responsibilities and gain confidence in all facets of our curriculum, he emphasized.

The principal also said this new concept of study will encourage students to use their time wisely and develop good study habits.

"With this greater freedom comes greater responsibility on the part of the individual student," Price said.

How does this new study program work?

Students in their designated study period will not be confined to a formal, supervised study room. Instead, they will have options.

They can utilize the library for required or independent study, or use the cafeteria for quiet group or individual study.

Students also may schedule conferences with teachers during this period and make use of the services of the counselor's office.

Instead of being confined to their study desks as in previous years, students during this period can make purchases from the snack bar and make use of the campus area for study as long as scheduled classes are not disrupted.

There's another overall condition, too. A student cannot leave the school campus unless with special permission of the principal.

Donations Boost Fund

Red Cross Gains

A church class donation plus more than a dozen other contributions have put $129.50 into a fund to keep Mitchell County Red Cross operating.

Philathea Class of First United Methodist Church donated $25 to the special fund which began spontaneously a week ago after the Red Cross revealed it was out of operating funds and threatened with prospect of shutting its doors.

This increased the emergency contributions to $129.50, according to Tom Jay Goss II, plus a donation of $25 in rent by the Red Cross landlord, Dell Barber.

Goss, Red Cross chapter president, said other donations include $20 in memory of the late Aubrey Herrington by the Long family -- Mrs. R. B. Long, Mrs. L. H. Brown and Leonard Long; $15 each by Mr. and Mrs. W. W. Cooper, Mr. and Mrs. Paul B. Hunter; $10 each by Mrs. Lela Price, Mr. and Mrs. S. A. Palmer, Mr. and Mrs. A. L. Maddin; $5 each by Mr. and Mrs. A. N. Stweart, Mrs. Mayme Dozier and Miss Ruthel McKenney; $3 each by Mrs. Annie Aycock and Mrs. Myrtle Womack; $2.50 by Mrs. Essie Dolman and $1 by J. C. Garrett.

Goss revealed Saturday that the August free rent plus other donations had put $50 in the chapter's operating force and assured the Red Cross continuing through this month.

The additional contributions are swelling and toward a special emergency fund which Red Cross officials hope can maintain the chapter program here for the remainder of 1969 until a new and adequate 1970 fund drive can be undertaken.

Robert, 13-year-old son of Mr. and Mrs. B. H. Bell of 305 East 16th Street, got three of the four right - the same as Miss Terry - but he had an earlier entry time, the determining factor.

Answers in the contest were William Holden, best actor in "Stalag 17," 1953; Earnest Borgnine, best actor in "Marty," 1955; Edmond O'Brien, best supporting actor in "The Barefoot Contessa," 1954; and Edward Carrere, best art direction in "Camelot," 1967.

School Bells Ring Again

You might think a school teacher has it pretty soft. . . figuring a three-months vacation every year and weekends off.

However, there is more to teaching than meets the first glance. . .homework, extra-curricular, in-service training, post graduate study in the summer and lots more!

I'd like right now to salute all the teachers in our community as they prepare to begin a new school year.

And it seems to me these men and women who are with our youths hours every day deserve a special word of appreciation and a friendly encouraging word as they tackle their assignments.

Put plainly, they are awfully important to us.

WE GOOFED!

We admit it, but oh how we tried! We set Aug 15 as opening date for our new Ed Thrift Department Store. But the avalanche of new merchandise has all but overwhelmed us. . .no matter how hard or late we have worked.

The plain fact is that, no matter our effort, we just can't make it by Aug. 15.

So have patience, please. . .accept our sincere apologies. . . and be ready for ole E. T.'s big opening next week.

ED THRIFT

Is there an Area Code for Mazar-i-Sharif, Afghanistan?

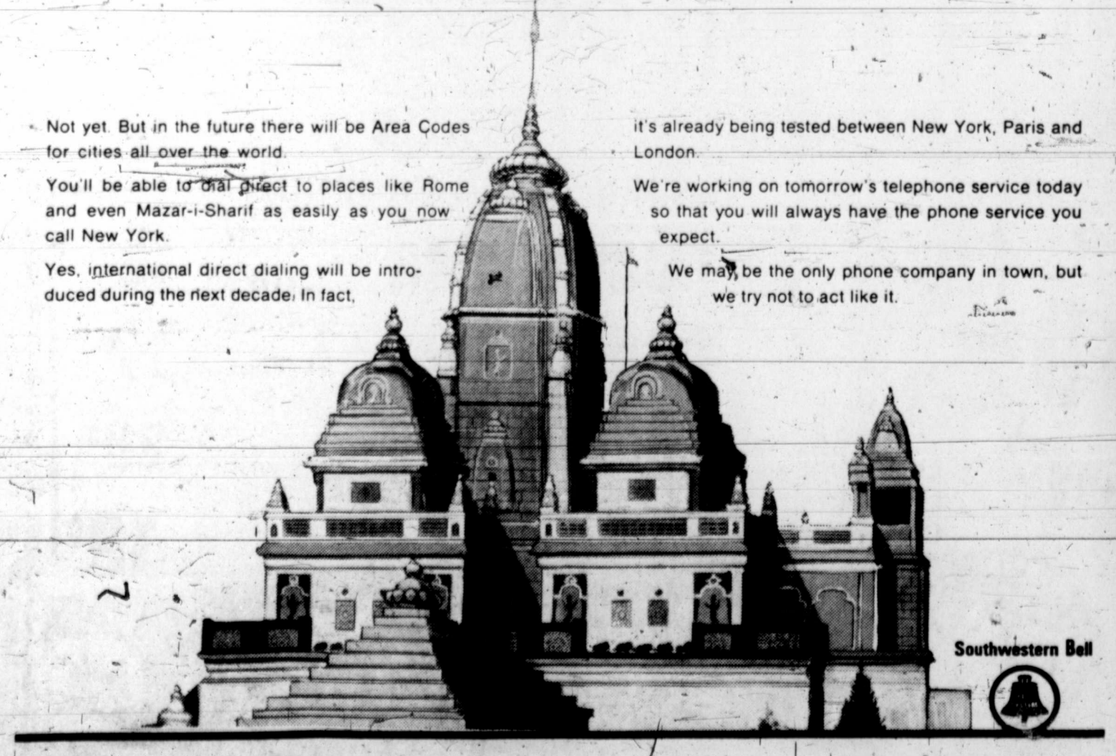

Not yet. But in the future there will be Area Codes for cities all over the world.

You'll be able to dial direct to places like Rome and even Mazar-i-Sharif as easily as you now call New York.

Yes, international direct dialing will be introduced during the next decade. In fact, it's already being tested between New York, Paris and London.

We're working on tomorrow's telephone service today so that you will always have the phone service you expect.

We may be the only phone company in town, but we try not to act like it.

CONVERSATION CORNER

HOW WOULD you go about defining a snob, if you had to on some test or other?

Well? To put it simply, a snob is somebody who looks down the nose at non-snobs for one reason or another, depending on whatever a snob holds to be most valuable.

There are as many different kinds of snobs as there are ideas of what counts most in this world.

Some are subtle about it, other obvious. The one thing they have in common is the attempt to cover up some deep feeling of inferiority by trying to appear superior to all non-snobs everywhere.

* * *

MOST EASILY detected is the financial snob. The one who counts money the measure of anybody's worth.

They are not necessarily rich and can not be identified by the cars they drive, houses they own, or clothes they wear.

They can be spotted always by the way they treat—or mistreat—people paid to serve them or paid to serve the public in any way.

That is their one dead give-away.

* * *

SOCIAL snobs are not known so much by the company they keep as by the company they would keep if they could. . .and so desperately seek after.

Closely related is the residential snob. That kind usually congregates in cities where a good address is rather to be chosen than any amount of convenience or economy.

A social snob and a residential snob usually manage to give themselves away by what is called name-dropping, and frequent references to restricted neighborhoods, suburbs, and maid service.

* * *

ANCESTRAL snobs place the accent on illustrious forebears, male and female alike.

All of us have a little bit of the ancestral snob lurking inside us. . .unless, of course, great-great-grandfather was hanged as a horse thief and is kept hidden among the other skeletons in the closet, where he belongs.

Then, there is the ritual snob category. The ones who go through life convinced that members of any religious sect save their own chosen light are heatherns headed for perdition.

* * *

RACIAL SNOBS are usually products of strongly prejudiced environment. Victims of wrong-teaching or example.

There are fewer and fewer of them in this generation. But they are still lamentably with us, all over the world.

All those varieties of snobs can be recognized, tolerated if not pitied, occasionally even liked for various reasons.

* * *

BUT LORD, deliver us all from the intellectual snob!

Intellectual snobs read only literature recommended in the Saturday Review or the New Yorker.

They stagger through poetry hardly worthy of the name, see shows exploiting human frailties and sicknesses. They shun sports, games, politics and light conversation.

How can you tell one?

You can't always. They're always too busy telling you!

HIGHLIGHT on the local scene this week has been the return of Reynolds Brown and his son Reynolds Jr., of Tulsa, Oklahoma, here for a visit with Reynolds' mother Mrs. John Brown, and other relatives.

Wife Floy is with her mother is San Angelo.

Reynolds, graduate of Cal-Tech and longtime Texaco man, has something to boast about if you can catch him in a braggin' mood—which you probably can't.

He and his son brought with them by trailer a priceless car. It's a brightly polished 1913 model Model T Ford! They drove it over to see their Aunt Alice (Mrs. Roy Davis Coles) and tried to convince her they drove it here all the way from Tulsa.

Drop In New Income Cited By Lone Star

Lone Star Gas Company announced that net income in the first six months of 1969 was $18,470,122, equivalent to $1.26 per share.

Net income in the comparable period last year was equivalent to $1.32 per share. The decrease in earnings was due principally to higher gas purchase expense, the company reported.

Louis G. James, president, stated that Lone Star's rate application before the Railroad Commission of Texas was progressing satisfactorily but that it was impossible to estimate accurately as to when final action on the application would be forthcoming.

James said consumers' rates were not affected by the filing of the application but that, subsequent to final disposition of the application, computations would be made for each city and town served by Lone Star in Texas to determine applicable residential and commercial rates.

James stated that Lone Star has contracted to purchase 700 billion cubic feet of gas from an intrastate gas pipeline over a 2-year period. In order to make the purchase, Lone Star plans to construct a 181-mile pipeline from near Sweetwater, to near Coyanosa Field in Pecos County.

This pipeline, to be completed by mid-1970, will be Lone Star's initial entry into the Delaware Basin area where industry estimates potential gas reserves of 100 trillion cubic feet are located.

James stated that a subsidiary, Nipak, Inc., is proceeding with plans to construct a polyehtylene pipe with fittings plant at Corsicana. This plant, expected to be in operation in early 1970, will produce approximately 3 million feet annually of polyethylene pipe plus a complete line of molded fittings. Production from the plant will be sold, initially, to Lone Star Gas Company for its use in gas distribution operations.

Raking In The Bargains With Value. . .

Sure, rake in all the savings you can get. Read the advertisements and make your dollars last longer, buy more.

This is the day of free coupons, saving stamps, extra bargains and discount prices.

These are all important, at least, in relationship to your job or home or family. Even to your future.

There is more, though. Something that is lasting . . . that keeps on going even when coupons and price tags become yellowed and out of date.

This is the thing called religion -- that one special relationship a person has just himself with God.

It outlasts everything, through good times and bad, through happy times and sad. It is that lasting ingredient for true strength and peace.

See if you can't latch on to it for the sake of your and your family. You can find it in church, if you seek.

crime, either. Their point centered entirely on the need for adequate protection outside the city.

As an example, they said that special attention is necessary for the vicinity of the drive-in theater near Loraine to prevent trouble from developing.

"We know that the sheriff's department responds to our calls, but that is not enough."

They cited a special problem, even of danger to the officer, when the constable responds to call for police action and does not have communication with anyone in his car.'

"A serious situation can develop with the lack of communication," the delegation pointed out, "and the constable could be isolated in danger and not be able to alert anyone else of his predicament."
