

THE JUNCTION EAGLE

Volume XXXIX.

Junction, Kimble County, Texas, Friday, January 26, 1923.

Number 39.

WOLF CLUB PROPOSED FOR KIMBLE COUNTY.

Delegation from Mason County Meets With
Citizens of Junction and Kimble County
To Create Interest that Will Result
In Permanent Organization.

On Friday afternoon, January 19th, a number of prominent citizens from Mason County came over and a meeting was called at the Court House, and a general discussion of the predatory animal situation followed.

The purpose was to create an interest here that would result in a permanent Wolf Club, such as is in operation in Mason County, and which is very successful and satisfactory.

The following were among the visitors:

Walter Martin, L. F. Eckert, D. F. Lehmberg, Dorman McMillan, O. M. Smith and County Agent Marshall.

During the discussion it was stated that the club had been in existence in Mason for nearly a year and a half, and that at the first annual meeting not a man had withdrawn. During that time some three hundred wolves had been trapped.

In that county the organization is a mutual proposition and each member is assessed one cent per acre of land owned in the county. From the assessments, bounties are paid to the trappers. The trapper in applying for a bounty must present an affidavit of the landowner on whose land the wolf or cat was trapped, before he can receive pay. Trappers are only paid for the number of animals caught, and any member has the right to prevent trapping on his premises if he so desires.

The new county agent, Frank McMillan is working with the proposition now and it is hoped that an organization similar to that in Mason County can be perfected here. The only difference decided on is that the assessment here will be one-half cent per acre, instead of one cent.

In Mason County nearly three fourths of the land belongs to members of the club. It is thought that at least two-thirds of the land in this county will go in.

The following petition is being mailed to every precinct in the county, and a meeting will soon be announced in the Eagle, which will be for the purpose of perfecting the organization:

"We, the undersigned citizens of Kimble County, Texas, are desirous of organizing a 'Wolf

Club' in and for Kimble County, Texas, and realizing that a certain expense will be involved in our efforts to effectively exterminate wolves and other predatory animals in Kimble County, hereby agree to pay into said 'Wolf Club' so to be organized, one-half cent per acre of land for each and every acre of land owned or controlled by us in Kimble County.

"We agree to meet at the Court House in Junction, Texas, on the 24th day of February, 1923, (2:00 p. m., for the purpose of perfecting said organization by electing one representative from each of the four commissioners precincts of this County, the four to elect a fifth man, and the five to constitute an executive committee, one of whom shall be president and the five to elect a secretary-treasurer.

"This executive committee to be vested with authority to hire competent trappers, per wolf caught, collect assessments annually in proportion to the number of acres of land that we own or control at the rate of one-half cent per acre of land for each and every acre of land owned or controlled by us and to adopt a constitution and by-laws for this 'Wolf Club'."

"This organization is to be perfected and is to remain in existence until all predatory animals are exterminated in Kimble County, unless sooner dissolved by action of the members of the Club taken at annual meetings held the last Saturday in February of each year. It is agreed and understood that at an annual meeting, any member who may for any reason wish to withdraw his membership from the Club, he is at liberty to do so, and is therefore not liable to further assessment. At each annual meeting new officers shall be elected for the succeeding year and such other business transacted as may properly come before the meeting.

"Unless the sum of two thousand dollars (\$2,000.00) or more is pledged, this agreement is null and void."

The radio is termed a luxury. However, in most homes father has made the second set.

FROM DARKNESS TO LIGHT.

There's a low-lying plain called the Vale of Despair,
That fringes the Sea of Lost Hope,
What a pity that people will make their homes there,
Where in darkness they ever must grope.

Beyond the dark mountains of Doubt and of Gloom
That rise on the left and the right,
Lies a beautiful country where sweet flowers bloom,
Where there's laughter and smiles of delight.

Here, bright singing waters of Hope and Good Cheer,
Flow on t'ward the broad sea of Love;
Here Confidence reigns and there's no place for fear,
Here Peace settles down as a dove.

If you live in that unhappy Vale of Despair,
If you know of its pain and its loss,
Come away; you have not a moment to spare—
Come away by the Way of the Cross.

There's a welcome for you in the Land of Delight,
Beyond the gray Mountains of Gloom;
And to all of its blessings your soul will have right
From the hour when you make it your home.

VOTE NOT TO PASS ON APPROPRIATIONS

House Asked to Give First
Preference to Aid
For Schools.

Austin, Jan. 19.—The House Appropriations Committee today unanimously voted not to consider general appropriation measures at any time during the first sixty days of the regular session.

This coincides with the position of the Senate and its Finance Committee, and means that appropriations of a general nature will have to come at a special session, as the regular session is not expected to continue at \$2 a day, which is the rate of pay after sixty days. The general appropriations will approximate \$30,000,000 in the recommendations made by the Board of Control.

The House Appropriations Committee also adopted a resolution by a sub-committee that the emergency appropriations of \$4,500,000 for the schools not be pressed until revenue bills are reported and that the House be requested to give preference to the revenue measures which will yield money for the school fund. Also, that if there are too many bills for the Revenue and Taxation Committee to consider, that the work be prorated.

The policy of the committee is adopted in a report made by the sub-committee, composed of Messrs. Wallace, Blount and Edwards, which reads as follows:

"We, your sub-committee, appointed to investigate conditions of the general revenue fund with regard to proposed emergency appropriations for public schools and to make recommendations as to the advisability of making an appropriation of \$4,500,000 to supplement the available school fund for the year 1922-23 beg to report as follows:

"First, that the Appropriation Committee ask for more time in which to make report on

this bill, for the purpose of giving the Revenue and Taxation Committee time to make a report on bills having for their purpose the raising of funds for the immediate relief of our public schools.

"Second, we recommend that a motion be made requesting the House to give preference to revenue measures having for their purpose the raising of funds for school purposes.

"Third, if the Revenue and Taxation Committee be so overcrowded with bills that it cannot make an immediate report on bills intended to relieve the school situation, we recommend that a motion be made to re-enter the bills to some other committee with a request that such committee make an immediate report."

The committee on jurisprudence reported favorably the Sparkman bill making theft of chickens and other domestic fowls a felony. The committee considered the Coffee bill which would repeal the suspended sentence law, and referred it to a sub-committee for further consideration.

Adoption in the Senate of the Burlett "hooded mob" resolution, and commending Governor J. M. Parker of Louisiana for his activities against mob law and secret organizations, brought a quick response from the Louisiana governor. Secretary Howerton of the Senate wired the Louisiana executive of the action of the Senate, which brought forth this reply in a message received by Secretary Howerton:

"Please convey to the gentlemen of the Senate of Texas my cordial appreciation of their resolution. It will be a great day for state and nation when our laws are fearlessly and impartially enforced and masked or unmasked mob violence suppressed. The action of the great State of Texas will have a powerful effect."

ROOSEVELT STORE WAS BURGLARIZED.

On Saturday night, January 13th, the Ben Simon General store at Roosevelt was broken into and some \$250 worth of jewelry and provisions taken. The loss was not discovered until Monday morning. The theft was promptly reported to Sheriff Gibbs, who got busy on the case. Two men and a woman who were camped near there were suspected and were closely watched.

Wednesday night Sheriff Gibbs made an arrest of a man who gave his name as Lee, and a woman by the name of Ruth. Later in the night the husband of the woman was arrested 23 miles out on the Menard road, while making his way towards Menard. All were brought to Junction and placed in jail.

Ruth was wearing a uniform, so military authorities at San Antonio were communicated

with and it was found that Ruth and his wife were driving the car through from California to San Antonio for its owner, Major Jones, who has been transferred to Fort Sam Houston. The Major and his wife came from California by rail. Lee is said to have been with them since they left El Paso, and until that time was unknown to them.

Ruth was the chauffeur for Major Jones and his wife had been a house maid of the Major's wife.

Military authorities came after Ruth on this wife Monday of this week and took them to San Antonio. Lee is still in jail. Most of the jewelry, consisting of 67 rings, a number of watches and bracelets and several clocks, were recovered and identified by Ben F. Simon.

Ruth was seen in Junction Wednesday and probably started back to where the others were and took the wrong road.

PROPOSED STATE PARK UNDER DISCUSSION.

D. E. Colp of O. S. T. Headquarters, Harry H. Williams, San Antonio Express Correspondent and Kerney Wendler, Reporter for the Light Visit Junction.

A number of local business men met with the gentlemen above named, on Tuesday night and heard Mr. Colp discuss the Texas Park program that will soon be submitted to the State Legislature. Mr. Colp is a very enthusiastic booster for this section of the State, and is using his best efforts to help locate one of the proposed parks in this county.

The proposition that will be submitted to the Legislature calls for the establishing of seven parks in different parts of the State, with a view to later turning over the one at Brownsville and the one at Fort Davis, to the Federal Government for National Parks.

The locations are as follows: At Brownsville, Frank Rabb has offered to donate 150 acres of Palm Grove, highly improved for which he has recently refused \$700.00 per acre, and other acreage is available at about half its value.

At Alto Frio, on the Frio river there is some 30,000 acres on which an option has been secured.

Near Meridian on the Bosque river, a plat of about 1,200 acres is to be secured.

At Sutherland Springs, 150 acres of improved park has been offered at one-half the cost of present improvements.

The Ft. Davis Park, of which much has been written during the past few months, will comprise any amount up to 250,000 acres, on which an option has been secured, is along the Limpia Canyon valley.

Another proposed park is along the Pala Dura Canyon, near Canyon City, and the other is in Kimble County.

Mr. Colp states that he has been over a good portion of the State recently and that he has talked with members of the present Legislature, and finds much interest in this park program for the State.

More details will be given in next week's issue, when an outline will be presented.

COUNTY WILL BUILD COMMUNITY HOUSE.

At a recent meeting of the Commissioners' Court it was decided that a kind of community house would be built on the

ground just north-east of the court house. Plans have not been drawn for the house, as yet, but it is the purpose of the Commissioners' Court to build a three-room house fronting on the O. S. T. One large room will be used for a sort of exhibit room, where any one may display products of the county or anything of interest to home people or tourists. Another room will be used as an office for the county agent and a third for a ladies' rest room. Judge Baker states that plans will be drawn shortly and that work will probably begin within a few weeks.

This will be a very desirable asset to both the town and the county, and the Court is to be commended for this work. This is something that has long been needed here and will be appreciated by both local and traveling people.

LOCAL CAFE CLOSED.

The Buckhorn Cafe that has been in operation the past several months, was closed a few days ago.

Recently suit was filed by Clarence Nichols in the amount of \$108.00 for house rent, and an attachment granted out of the Justice Court, and last week Sheriff Gibbs attached the furniture and fixtures and locked the building.

CAR OVERTURNS ON KERRVILLE ROAD.

While returning from the funeral of the Marvin Hull baby last Saturday afternoon, Mrs. Freeman and son, and Edwin Joy and wife were all considerably bruised when the car in which they were riding, overturned on a hill near the Morris Nethery ranch. Mr. Joy's hand was badly bruised, Mrs. Freeman was thrown into the wire fence and slightly injured; the Freeman boy sustained a rather painful gash on his leg.

Prompt medical attention was given those injured and all are doing nicely.

Otto Oxford is again confined to his room with la grippe, however, he was feeling better on Thursday.

ERSKINE CHILDERS PUT TO DEATH.

Erskine Childers, right hand man to Eamonn DeValera, who was executed by the Irish Free State for carrying fire-arms on his person recently. Childers, as will be seen by the photograph, was DeValera's right hand man, physically as well as mentally.

BOLT OF LIGHTNING STRIKES OIL TANK.

Dense clouds of black smoke and an enormous heat—at night seen for miles around—the worst kind of fire—this photo shows an oil tank in flames at Bowling Green, Ohio, which was struck by lightning.

From Our Exchanges.

Contract Awarded for New Hotel at Brady.

Contract for the construction of the new Brady Hotel has been awarded to H. H. Richards of Waxahachie, who was the lowest of quite a number of bidders who submitted estimates to the executive committee of the Brady Hotel Company last Tuesday. Mr. Richards is the contractor of the new Brady High school building, and also has the contract for the new Wilensky building. No time is to be lost in getting construction under way, and Mr. Richards will begin immediately the assembling of material for construction, while excavations for the foundations will be started within the next week or so.

Original plans for the building will be carried out, with but slight revision. These plans call for a three-story building of modern and fire-proof construction, with a 75-foot frontage and 90-foot depth. The ground floor plan provides for dining room, lobby and one store building with south frontage, another store building with south and east frontage, and a third store building with east frontage. There will be 27 bedrooms on each the second and third floors, with 36 bedrooms having connecting baths.—Brady Standard

Polo Pony Business Increasing in Brownwood Area.

The polo pony business is attracting more than usual attention at Brownwood and in the territory of which Brownwood is the center. Two car loads of polo ponies have been shipped from Brownwood to New York since January 1st, by G. H. Coyle and T. I. Evans, and a trip will be made to New York and other points in the east by these gentlemen some time in the early spring. Regular polo playing grounds have been established at Brownwood and this interesting sport is destined to become quite popular here. In the near future regular playing programs will be announced and the public will be given an opportunity to witness the games. In this connection it is proper to state that an effort was made to induce Mr. Coyle to locate at San Angelo, but he chose Brownwood because it was more central to his work and also because of school advantages.—Brownwood Banner-Bulletin.

Joe Matthews Appointed Menard County Judge.

Joe Matthews, co-owner and proprietor of Peg Leg Farm, a few miles down the river, received the appointment of County Judge at the hands of the commissioners' court Tuesday afternoon.

Mr. Matthews is a retired lawyer, having served McCulloch county as county attorney, but for the past several years he has confined his efforts and energies to farm and ranch activities.

Mr. Matthews is not wholly a stranger to the working, duties, etc., of the county judge's office, having served his precinct as commissioner for a period of four years some years ago.—Menard Messenger.

Spring Stock and Poultry Show for Fredericksburg.

At the last board of directors' meeting of the Gillespie County Fair Association it was decided to hold the Spring Stock and Poultry Show in this city April 21st and 22nd.

The poultry coops have been ordered and other preparations are being made to make this event a success.

Horse races are barred this season during the Stock and Poultry Show.—Fredericksburg Standard.

Care of the Breeding Herd During the Winter Months.

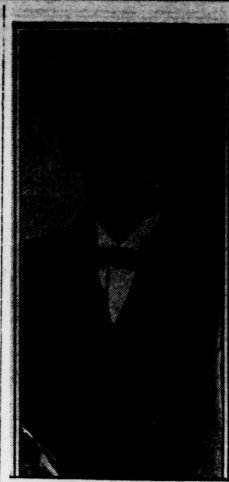

The winter care of the breeding herd, especially beef and dairy cattle, is too often neglected. We have talked so much about our long growing season and mild weather in the south, that we have almost convinced ourselves that shelter is unnecessary. For herds in thin condition, however, shelter is one of the most important things. The only shelter necessary is one that is dry, and free from draughts. If such is provided,

it is wonderful how little feed is absolutely required to "rough" a bunch of cattle through. Most cattle that have had access to stalk fields, carry considerable fat at the beginning of the winter. This fat with plenty of cheap roughage, whether it be straw or dead grass, will keep the animals alive until grass comes in the spring, but where it is desired to make growth on young stuff, or where the cows are carrying calves, there is danger of serious loss unless some concentrates are fed. Perhaps the best single feed is either cottonseed or cottonseed cake, to the extent of one to two pounds per day. If troughs are available to prevent waste, of course a mixed feed of a balanced ration would be more satisfactory. Unless cows that are carrying calves, receive some grain feed to keep up their strength, there will be some loss of cattle at calving time and there will also be weakness among the calves. Either one of these items will more than offset the cost of two hundred or more pounds of feed necessary to carry the cow through the latter part of December, January, February, March, and the first of April.

Perhaps the most important item in the management of the dry cattle, is to give them the feed before they become emaciated so as to keep up their reserve strength sufficient to carry them through rainy spells, blizzards and any other unusual hardships. All cows that are suckling should have their calves weaned away from them as soon as the first frost comes. It pays to divide them according to ages and classes. Cows are much easier to shelter and to feed if they have been dehorned.

The herd bulls will do better if pastured to themselves and given small grain ration, in order to get them up in good active and vigorous condition by the time breeding season starts in the late spring.—Extension Service A. & M. College.

The radio is termed a luxury. However, in most homes father has made the second set.

Robert E. Lee.

One night, many years ago, a group of war-worn Confederate soldiers listened about a campfire to an explanation of Darwin's theory of the descent of man. "Well, boys," one of them commented, "the rest of us may be descended from monkeys, but none less than a God could have made such a man as 'Uncle Robert.'"

"I have met many of the great men of my time," wrote General Lord Welsely, "but Lee alone impressed me with the feeling that I was in the presence of a man who was cast in grander mould and made of different and finer metal than all other men."

In fewer words, Stonewall Jackson expressed the same thought "Lee," said he, "is a phenomenon."

Appreciation of Lee's character and genius has widened with the flight of time. The South's great soldier has been recognized as one of the world's greatest commanders, and among the noblest of them all. As Ben Hill of Georgia declared, "He possessed every virtue of the other great commanders without their vices. He was a foe without hate, a friend without treachery, a soldier without cruelty and a victim without murmuring." So long as the alliance of bravery and goodness, modesty and worth, in human character appeal to human hearts, the fame of Robert E. Lee is secure.—Austin Statesman.

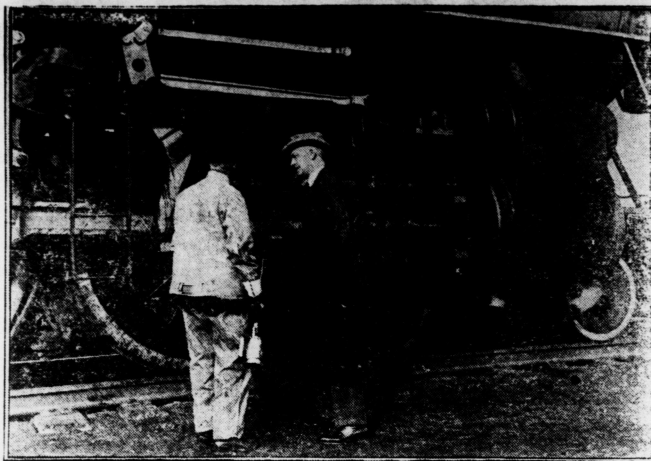

The States of Europe are disunited, and that is the whole trouble. Too many boundary lines, too many tariff walls, too many hindrances to the development of a strongly built system of industrial self-service. Most of these divisions are built on long-fostered ideas of enmity, whose principal use has been to supply support for and idle aristocracy. Nothing of real worth can be accomplished for Europe in the present state of affairs, any more than could be accomplished for this country if each of our states was filled with a race and nationality different from surrounding states. A United States of Europe is an absolute necessity for the settlement of the problem, and this is not to be expected as the result of reason and good will. It will probably come after further fires have purged away the dross of centuries.—Henry Ford

JUSTICE COURT BUSY ON EXAMINING TRIALS.

The examining trial of W. T. Bishop began Monday, January 15th and continued until Wednesday, when the hearing was postponed on account of the illness of Justice of the Peace E. Holekamp.

The Bishop case, in which W. T. Bishop is charged with theft of goats, was postponed indefinitely, but is expected that the hearing will be resumed next Monday. Mr. Holekamp was able to be out Thursday morning and the examining trial of McDonald, St. Clair and Cross came up in the afternoon.

E. A. Loeffler went to San Antonio Sunday with Clifford Hammer, who visited his parents here last week. Mr. Loeffler went from San Antonio to Dallas to attend the Hardware Dealers' Convention; from there he will go to Fort Davis to visit his wife and children.

UNION PACIFIC ORDERS 54 OF THESE MAMMOTH ENGINES

The original monster pictured here is just short of 100 feet long, stands 15 feet, 10 inches from rail to smokestack, weighs more than 291 tons and has drive wheels over 6 feet in diameter. Gov. Robert D. Carey is discussing some of the capabilities of the engine with one of the engineers. Note the size of mere man to this piece of mechanism which is controlled practically with man's hand.

INVESTIGATIONS AT SONORA PROGRESSING.

Dr. Bennett, in charge of Experiment Station No. 14, at Sonora, Texas, and his associate, O. G. Babcock, of the U. S. Bureau of Entomology, have made good progress in conducting investigations as to control of the fly pest at the station. Last spring, when screw worm flies appeared in large numbers, extending their flight well into June. A late spring was favorable for this fly, and considerable damage was done, but in the fall dry weather prevented serious injury by the flies. When wet weather finally came, it was accompanied by low temperatures, and blow flies came only in small numbers.

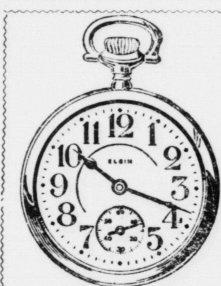

Some good results have been secured in goat lice investigation work as well as in fly control, with repellent measures established to prevent in part the losses that have been met by growers from this trouble.

O. G. Babcock, who had charge of the exhibit of the Bureau of Entomology at the Pacific International in Portland, 1921, writes from his Texas station: "I look forward every month with pleasure to the Angora Journal. The articles are very interesting. Besides there is always some special article that is very instructive and broadening pertaining directly or indirectly to the wonderful yet little understood animal known as the Angora goat."—Angora Journal.

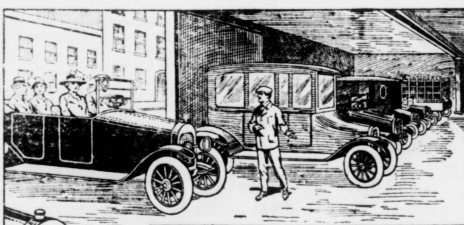

GENERAL RAIN FALLS IN THIS SECTION.

A blanket rain wave, covering practically the entire State, appeared to be drawing to a close Monday night, when the total precipitation reached 2.75 inches after a steady mist had fallen with little interruption during the preceding twenty-four hours according to the Dallas Weather Bureau. The rain began Saturday night and continued thru Monday, with some indication of a let-up.

Little, if any, damage has been done by the rain, according to State-wide reports Monday night. All trains were reported in and out of Dallas on time or with the usual slight delay.

Wanted:—One to one dozen setting hens. Boyd Jetton

Frank Hartgroves of Menard spent a few days in Junction last week.

Cleve Stevens spent from Saturday until Tuesday in Dallas, buying good for his store.

Brown King, who is on the road contract work in Sutton County was here Sunday.

Chris Schraub was called to Crystal City Saturday where his brother-in-law is very low.

Homer Henderson of Fort Worth spent from Sunday till Wednesday with relatives here.

Mr. and Mrs. Albert Bartley and Mr. and Mrs. Vernon spent from Sunday until Tuesday in San Antonio.

Hubert Furr of Hext and Eddie Cuthley were visitors in Junction the first of the week. Mr. Furr is a brother of Mrs. Burt Braley.

Mr. and Mrs. South and three children of Falfurrias are here this week visiting Mrs. South's uncle and aunt, T. M. Hodges and wife.

Mrs. Zella Alexander of Nixon left Tuesday for her home after visiting here several days. She was seeing about securing a class in expression.

Edwin Holekamp was in town last week-end for a visit with his parents, Mr. and Mrs. E. Holekamp. He is in the insurance business at San Antonio.

Clifford Hamer spent the week-end visiting home folks. He is with Yantis-Hempel Motor Co., in the capacity of assistant sale manager, and reports business exceptionally good.

Rev. J. L. King, presiding elder of the San Angelo district, of the Southern Methodist church, spent Sunday in Junction when he held the regular quarterly conference here.

Jackson Furr of Arizona was recently killed. He rode a horse off a high bluff and was killed instantly. He is a brother of E. P., R. B. and A. J. Furr, and son of C. Furr of London. He was buried there. No details have been received by relatives here.

Mesdames Nellie Hankins and J. D. Motley, Miss Elizabeth and Lee J. Corkill spent the first of the week in San Antonio visiting relatives, among whom was Mrs. Corkill, who expects to leave soon to spend the spring and summer in California.

P. Joseph returned Sunday from several days spent in San Antonio, Lockhart, Floresville and Waco. He left Mrs. Joseph and daughter at Waco and they will go to Glen Rose for a few days before returning. Mr. Joseph returned sooner than he expected on account of the absence of Mr. Schraub, who left Sunday for Crystal City in response to a telephone call stating that his brother-in-law was not expected to live. Mrs. Schraub and the children have been at Crystal City with her brother for several days.

MANY PEOPLE ARE CONFINED WITH 'FLU.'

Reports from all over the state indicate that the "flu" is raging in a manner almost equal to the epidemic of 1918. In many places the schools have been closed and all public gatherings have been stopped. In Junction there are many cases at the present time, but so far none have been very serious.

Judge and Mrs. J. B. Randolph were both confined to their rooms this week. County Clerk N. R. Skaggs has been out of the office for several days, but is reported better this week. W. R. Richardson is seriously ill with pneumonia as well as one of his sons, both of whom have had the attention of a trained nurse for several days. Mrs. Thos. Baker has been ill for several days, but is better. Tax Assessor Joe Bissett has been sick but was able to be at the office Tuesday.

The recent warm days and cold nights and very dry weather is thought to be largely responsible for present epidemic and local physicians expect the condition to improve since the recent rain and change to colder weather.

Miss Gertrude Hill.

On January 20th, Miss Gertrude Hill died at Artesia, New Mexico, where she had been for the past several months seeking health. She is a daughter of Mr. and Mrs. G. W. Hill, of Rising Star, and sister of Earl G. Hill who lives northwest of town. She and her parents are well known to many Kimble County people as they have been visiting here during the summers for several years, and the many friends of the family will regret to learn of her untimely death.

The body was buried at Rising Star on the 23rd. Mr. and Mrs. E. G. Hill returned Wednesday from Rising Star where they had gone to attend the funeral. The Eagle joins the friends of the family in extending sympathy in their sad hour.

County Agent McMillan was in the Noxville community last Wednesday in the interest of the Wolf Club.

ANOTHER TURNING POST TO BE BUILT.

Work was started Wednesday of this week on another turning post that will be erected at the northwest corner of the Court House square, in the center of the street, which is the O. S. T., through town.

This new post will be like the two which are now on the street, one on the northwest of the corner of the square and the other one block west. All posts have four large lights at the top and one about three feet from the ground, which has an opening covered with a red shade, facing each street.

This work is being done by the Chamber of Commerce and is a creditable form of improvement for any town. Many letters have been received by the secretary from secretaries of Chambers of Commerce in all parts of the country, asking about the turning posts that have been erected here, and many towns have built them on the style of these in Junction.

The Chamber of Commerce contemplates the erection of other posts of the same kind on street running on the south side of the Court House.

"THE HEART LINE"

STATE CAPITAL NEWS

From The Austin Statesman:

Revision of Banking Laws
Proposed by Dallas Man.

Eight bills affecting the banking system of Texas and providing for general revision of the State banking laws were introduced in the House Thursday by Representatives Irwin and Carpenter of the Dallas County delegation.

One of the bills proposes to separate the banking from insurance department and creating the office of State Banking Commissioner at a salary of \$10,000 a year and a deputy commissioner at \$500 a year. Another bill provides that no State bank shall be chartered with a capital stock of less than \$25,000. This does not affect banks already operating with less capital.

Another of these measures adds two practical state bankers to the membership of the State Banking Board, which is now composed of the banking commissioner, attorney general and State treasurer. Another amends the guaranty fund and bond system and is designed to eliminate confusion, while another would provide that a state bank desiring to convert into a national bank shall give certain public notice.

Representative Irwin said that these bills were prepared by the committee after a general study of the banking laws of Texas.

"If these bills pass in substance," said Irwin, "it will be advantageous to the good bankers of Texas and to the public in general. The main purpose is to eliminate questionable banking methods and at the same time give to the banking public every possible convenience and advantage."

Press Association Seeks
Changes State Libel Law.

Changes in the state libel law looking to a more clear definition of libel and the simplification of the present laws, will be discussed at the mid-winter meeting of the Texas Press Association which will be held in Austin on February 8 and 9. Preparations for the entertainment of 200 members of the press association are being made here, which will include visits to all State institutions as well as a reception at the executive mansion by Governor Pat Neff for the newspaper men. Clarence E. Gilmore, railroad commissioner and general attorney for the press association, is in charge of reception plans here.

Sam Fore, Jr., of the Floresville Chronicle-Journal, chairman of the program committee has issued a call for his committee to meet here on February 8 to arrange the program for the Galveston meeting of the association at Galveston, June 7, 8 and 9. The members of the committee are besides the chairman, C. W. Warwick, Randle County News, Canyon; Mrs. Hugh Nugent Fitzgerald, Record-Times, Wichita Falls; Chas. C. Cantrell, Banner, Greenville; and W. M. Hamilton, Herald, Palestine.

President S. D. Chesnut of Kenedy has also issued a call for a meeting of the executive committee. Members are W. A. Smith, News, San Saba; H. A. McDougall, Courier-Times, Tyler; Sam M. Braswell, News, Clarendon; A. H. Luker, Messenger, Grapeland; Buford O. Brown, News, Elgin; and R. L. Baldrige, Record, Clifton.

Speaker of House Worked
His Way Through School.

Speaker R. E. Seagler of the House of Representatives of the 58th Legislature is an example of a poor boy who worked his way through school and later rose to the heights of fame and achievement. While a resident of Brackenridge Hall, the men's dormitory of the University of Texas, he attended the University and earned part of his expenses by serving as clothes washer of the hall, collecting and distributing the weekly laundry of the students there. He also earned money, he says, by acting as bill collector for one of the tailor shops.

Speaker Seagler entered the University in the fall of 1909 and took part in the famous engineer law fight in 1910. He

was a proficient public speaker and was a member of the Rusk Literary society. In 1911 he was elected president of the Students' Association.

Mr. Seagler is now an attorney of Palestine.

Legislative Sidelights
On House and Senate.

Adoption of the House concurrent resolution by Representative J. E. Winfree of Harris, introduced last Wednesday, would mean a sweeping legislative investigation of the activities of the Standard Oil Company in Texas and its interests in certain Texas companies.

The resolution states that "it is a matter of common knowledge and general information that the Standard Oil Company owns the controlling interest in the Magnolia Petroleum Company, the Humble Oil Company, the Sinclair Oil Company, the Gulf Production Company, and its subsidiaries, the Prairie Oil and Gas Company and a large number of other oil, gas and pipeline companies doing business in Texas, and in combination with other companies controls and fixes the price of oil and gas and their products."

Also that "such ownership and combination has the effect to destroy competition and to restrain trade, and to bankrupt and drive the independent producer and refiner out of business and to leave the consumers of this state at the mercy of this gigantic and insatiable trust."

The resolution then provides that a joint legislative committee, composed of five members of the House and three from the Senate be appointed "to investigate the ownership of the stock of the various oil companies doing business in Texas to ascertain the business contracts and relationships existing between them; how the prices of oil and gas and their by-products are fixed and what combinations, agreements and contracts exist between them and the Standard Oil Company."

The resolution was referred to the committee of commerce and manufactures.

Senator Witt of McLennan had introduced a bill in the Senate, amending the anti-alien land ownership bill passed at the last session of the Legislature, so as to permit aliens to own oil leases in Texas. This is the bill which was aimed at Japanese owning land in Texas.

It was explained by Senator Witt, a syndicate of Englishmen have purchased and are now the owners of probably \$500,000 of oil leases in the Kosses oil fields and that the purpose of this bill was primarily to protect these Englishmen that the bill was introduced. It is not expected the bill will meet with any serious opposition in the Legislature.

Enactment of two bills introduced in the House by Representative Pope of Nueces County, would mean the abrogation of the contracts recently made by the State Text Book Commission which involves approximately \$1,800,000.

One of these bills amends Section 3, of the Text Book Law,

which provides for the purchase and distribution of free text books by adding: "All books in use on December 1, 1922, under contract in existence on said date or under any extension of such contracts shall be continued as text books to the exclusion of all others in public free schools of this State for a period of three years from and after December 1, 1922."

The other bill amends the same law, by adding at the end of Section 23, "and no part of said State Text Book fund in said fund or to which said fund was entitled on December 1, 1922, or may be entitled to after December 1, 1922, shall be withdrawn from said State Text Book Fund for any purpose whatsoever except to meet emergencies or necessities in purchasing new books of the kind adopted and in use prior to December 1, 1922, caused by increase in scholastic attendance, or for the purpose of substituting old books in use on or adopted prior to December 1, 1922, under contracts in existence on said date or under any extension of such contracts."

H. D. McDonald of Paris, former State Senator, addressing the Senate this morning on invitation, declared the presence of the masked headgear today is merely a fad and that, like other fads, it will pass within a year or two. He styled the Ku Klux Klan as a "fad" also and predicted it also would pass out of public notice within a short time. McDonald declared there is no need for alarm of permanent harm from such fads.

The question of passing upon appropriation measures during the present session was brought before the Senate this morning in a concurrent resolution by Senator Clark, asking that the finance committee of the House and Senate jointly consider whether such measures could not be passed on this session and avoid an extra session. The resolution was referred to committee after extended debate, by a vote of 18 to 9.

The Senate educational committee this afternoon voted to report favorably Senator Bledsoe's bill proposing the establishment of a West Texas State College as a branch of the Texas Agricultural and Mechanical College. The vote for favorable report was unanimous. The bill carries with it an appropriation of \$1,000,000 for the construction of the college.

It developed today that the Senate educational committee may not consider the bill proposing the establishment of a West Texas State College during this session because it carries an appropriation of \$1,000,000. The finance committee has announced appropriation measures will be held for a special session.

The Stroder bill prohibiting the teaching of evolution in State schools was unanimously voted down by the committee on state affairs this morning. The committee voted to report favorably the Senate concurrent resolution urging congress to pass legislation that will enable Texas to put into operation the Lynch Davidson plan for saving the Orient railroad.

Many who are shy of blue sky bonds still believe what they read in the vacation folders.

We Give National Certificates.

With each cash purchase. Don't fail to ask for them. These certificates are good for many valuable presents, such as phonographs, radio sets, silverware, sporting goods, cutlery and jewelry. Frequent
Headaches

"I suffered with chronic constipation that would bring on very severe headaches," says Mrs. Stephen H. Kincer, of R. F. D. 1, Cripple Creek, Ia. "I tried different medicines and did not get relief. The headaches became very frequent. I heard of

Thedford's

BLACK-DRAUGHT

and took it for a headache, and the relief was very quick, and it was so long before I had another headache. Now I just keep the Black-Draught, and don't let myself get in that condition."

Thedford's Black-Draught (purely vegetable) has been found to relieve constipation, and by stimulating the action of the liver, when it is torpid, helps to drive many poisons out of your system. Biliousness, indigestion, headache, and similar troubles are often relieved in this way. It is the natural way. Be natural! Try Black-Draught.

Sold everywhere.

Everything Points to the Greatest Spring Demand
for Ford Products in Company's History

1,202,517 Ford Cars and Trucks were delivered to retail purchasers in the United States alone during 1922—

Actual deliveries for last month greatly exceeded any previous December in the history of the Ford Motor Company—

It was the ninth consecutive month in which more than 100,000 Ford Cars and Trucks were retailed—keeping the Ford Plant working at capacity to meet dealers' requirements—

In many parts of the country dealers are already finding it necessary to specify later delivery dates on cer-

tain types because there are no reserve stocks to draw from—

Commercial users, business houses and farmers, anticipating their future requirements, are placing orders and taking delivery of Ford Cars, Trucks and Fordson Tractors to insure against delay—

Everything points to the biggest shortage of Ford Products this Spring that has ever existed—

The only way you can be sure of obtaining delivery of a Ford Car, Truck or Fordson Tractor, is to list your order immediately—

WE Have given you these facts as they actually exist so that if you are planning to purchase a Ford Car, Truck or Tractor for use this Spring or Summer, you can list your order now and take advantage of our dealer's first opportunity to make delivery.

New Stamp to Bear Photo Of Benjamin Franklin.

Washington, Jan. 16.—Benjamin Franklin, first postmaster general, will be honored tomorrow by the Postoffice Department which will observe the Two Hundred Seventeenth anniversary of his birth at Boston and the first day of "Thrift Week," by the issuance of the new one-cent stamp bearing a portrait of Franklin different of that on the eight-cent stamp.

One million of the new stamps will be placed on sale at the Philadelphia postoffice as a recognition of Philadelphia as the home of the first postmaster general and the first 16 sheets of the new issue that were engraved, autographed by Assistant Postmaster General Glover and Director Hill of the Bureau of Engraving and Printing, will be put on sale at the Government Philadelphia agency here.

Other postoffices will not be supplied with the new Franklin one-cent stamp until the present reserve supply of the old issue, bearing Washington's portrait, is exhausted.

Neff Urges Oil Tax to Aid Public Schools.

Austin, Tex.—Urging legislation to permit Texas to take its place among the first states educationally, Gov. Neff in a message to the Legislature recommended new sources of revenue be opened through taxation of amusements and oil production. He suggested scientific and impartial survey of the educational system, concentration of the system in a state board, investment of not less than \$50 in each child annually a minimum of nine months school and accurate scholastic census.

Regarding text books Neff recommends enactment of a law making "A safer, saner, and more economic method of buying, distributing and using free text-books."

An appropriation of \$4,000,000 during the next two fiscal years for the aid of schools in

small towns and communities is provided in a bill produced this morning by representative Greer of Henderson County.

The bill empowers the State Board of Education to aid in the location and construction of schools in localities where, in its judgement, they are most needed. The bill provides that no school having over 800 shall benefit from the appropriation and that preference shall be shown schools whose local funds do not enable them to continue in session over six months in the year.

Constitutional Measures Are Warmly Debated.

Austin—Two measures to provide for a constitutional convention were argued more than an hour in the House Committee on Constitutional Amendments Thursday morning, and the committee adjourned without having reached a conclusion on reporting on each joint action of the House.

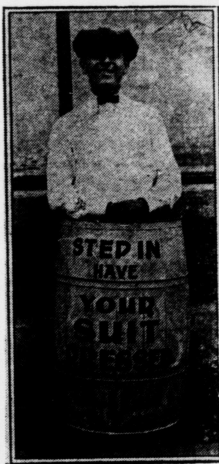

One measure, by Roundtree and Quaid, provides for a constitutional convention of 108 members 97 to be elected from Senatorial districts, and 15 from the State at large, and for preparation of a new constitution for submission to a vote of the people. It provides that in the election of delegates, the people shall vote on the question of holding the convention, and if defeated the delegates shall not be convened.

The other measure, the Hendricks-Moore resolution, would provide for a convention to prepare a large number of amendments to the present Constitution and submission of these to the people separately for adoption or rejection.

There is a place for everything—except your knees at the movies.

Between a cravat and a necktie the difference is about \$3.00.

A biologist asserts that bones are dying out, which is no doubt due to the difficulty of keeping the dyeing in.

A Pressing Engagement.

The young man half exposed would have been in a worse predicament had not his very far-seeing tailor thought of the old sugar barrel. Then to take advantage of the young man's presence he had the barrel painted with an attractive sign.

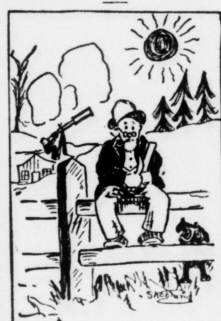

Official Figures in Governor's Race in General Election.

Official figures upon the votes for Governor and Lieutenant Governor were announced at the joint session of the Senate and House this afternoon. Neff received 334,199 votes and Atwell 73,329; Davidson received 353,550, and Kepple 56,519.

No returns were reported from Cochran, Crane Loving and Zavalla Counties.

Farm Wanted—If you have a good low-priced farm near Junction for sale, suitable for general farming and stock raising, write me at once with full description and lowest cash price, etc. John D. Baker, 37-4tc De Queen, Ark.

BILL SAM'S DICTIONARY

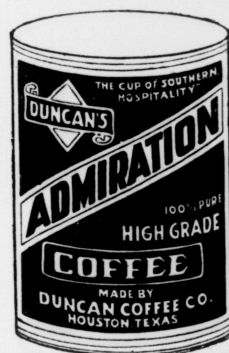

By J. L. MARTIN
Ace Doolittle has been studying the stars ever since some fellow prophesied recently that another comet is soon to appear. Ace says that he has studied himself into a terrible puzzle, as he can't decide whether a comet is just an ordinary star that has not yet shed its tail, or whether all stars in course of time will develop tails.

COMET: A planetary tadpole in the Sea of Space. Bill Sam's Dictionary, page 291.

CLUB AND SOCIETY NOTES.

(Edited by Mrs. A. W. Loeffler)

Died.

Little Howard Hull, son of Mr. and Mrs. Melvin Hull, died the morning of January 20, 1923. He was one year, two months and twelve days old. Death came after a long illness.

Four brothers and sisters remain to be the comfort of the bereaved parents.

Relatives and friends gathered at the South Llano cemetery Saturday afternoon where the little body was laid away. Rev. S. F. Marsh conducted the services.

Chadwick-Ray.

I. W. Chadwick and Mrs. Emma Ray were married Monday afternoon, January 22, at 2 p. m. Elder John S. Durst performed the marriage ceremony. Mr. and Mrs. Chadwick are formerly of Memphis, Texas, but will make their home in Junction.

PAINT CREEK NEWS.

One of the most enjoyable occasions for some time for the Paint Creek community, was the dance given at Mr. W. M. McDonald's Friday night, January 19th. The rugs and furniture were removed from two rooms, and music was rendered by a number of young men, among them, Jim, John and Tom and Bevans Jackson, John and Ed Barfield, Mr. James, and Stewart Taylor.

Dainty white and green dance programs with miniature pencils were distributed and a guest book kept the roster of those present. Cocoa, coffee, ham sandwiches and a great variety of cakes were served to about two hundred people.

Among the visitors from other communities were, Mr. and Mrs. Jeff Coats of Ranger; Mr. and Mrs. J. C. Casper and Alvie, Milton, Jake and Miss Nettie Casper, Miss Jane Minges and Emory Minges, Misses Leonard Mayfield and Mary Anderson, Mr. Oren Parker, Mr. Charlie Scarbrough, all of Harper.

Mr. C. P. Bruce spent a few days of last week in Junction. Mr. Willie McDonald was also in Junction last week.

Mr. and Mrs. Dee Gibbs and Mr. A. M. Reese of Junction visited at the C. P. Bruce home last Sunday.

Visitors at the R. E. McKay home last Sunday were: Mr. and Mrs. W. M. McDonald and children, Mr. and Mrs. J. E. Deats, Misses Lula Bruce, Ruby Deats, and Leona Banister, Messrs. Luther McDonald, Temple and Arthur Deats, Charlie and Enoch Bruce.

Messrs. C. P. Bruce and J. E. Deats went to Rocksprings last Wednesday.

Misses Georgia and Martha Jackson went to Junction the first of last week.

Messrs. Clarence and Luther McDonald visited the Paint Creek school Monday.

NORTH LLANO NEWS.

Our vicinity was visited by a norther and fine rain Sunday night, and showers Monday which will prove beneficial to farmers and stockmen, as it was badly needed.

Mr. Conner's little boy has been confined to his bed for several days with rheumatism, but glad to report him able to be up again.

Mrs. Durban's little boy has been quite sick, but is better at this writing.

Miss Maudie Durban is doing very nicely now.

Mrs. F. M. Hodges was confined to her bed several days last week with cold and rheumatism, but glad to report her up again.

Wood chopping has been the occupation for several days after the sudden change of weather.

Mr. and Mrs. Lewallen's little baby has been sick for several days this week.

The farmers are busy preparing their ground for early planting.

Notice of Teachers Examination

Teachers' examinations will be held on the following dates:

February 2nd and 3rd; March 2nd and 3rd; April 6th and 7th; May 4th and 5th; June 1st and 2nd.

Examiner.
88-5tc

LIGHT RAINS FALL OVER SOUTHWEST.

A light rain began falling early Sunday morning and continued thruout the day, and extended over this section of the State and from press reports, grew heavier towards the north until in the vicinity of Ft. Worth and Dallas, the precipitation was about two inches. People coming from San Antonio report rain as far as the city in that direction, and as far northwest as San Angelo. A heavy rain was falling at Waco Monday morning. The rainfall here was from one-fourth to one-half inch, and was accompanied with a noticeable drop in the temperature.

JUNCTION GARAGES TO CLOSE ON SUNDAYS.

All garages in Junction, on and after the first Sunday in February, will be closed all day on Sundays. No gasoline, lubricating oil or accessories will be sold, except in cases of emergency where it is first shown that it is a real necessity, and in case any sale is made, only such articles as are actually needed by the person, will be sold.

All car owners are given notice so that they may not be inconvenienced by this action, and are urged to purchase their supplies during the week. 39-2tc

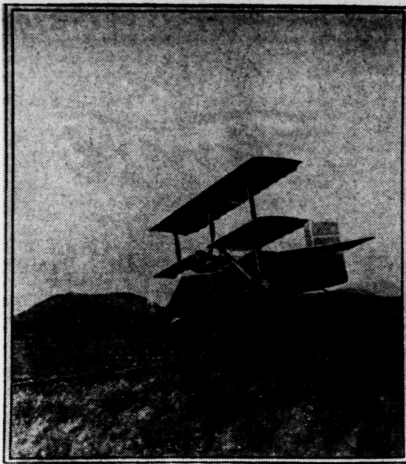

SPECIAL PRICE

The last chance to get the Star-Telegram—the biggest and best daily in the South—at a real bargain price. From now until December 1st, 1923, for \$5.95. If you have not made arrangements for your reading for this year, this is your opportunity. See me about it now.

H. G. Perry.

Ladies, Notice!

I am still selling Nu Bone corsets. Have pure bred Rhode Island Red chickens, single comb, and Mammoth Bronze turkeys; hens, tom and eggs for sale. Mrs. Jim Moore, 38-8ta Cleo, Texas.

INTERNATIONAL GLIDER MEET IN FRANCE.

Clement de Sardinier, noted French aviator, taking off in his triplane glider, at the recent International Gliding meet, held at Clermont-Ferrand, France, in which he remained in the air for 80 seconds. De Sardinier's plane was the only triplane contesting and was a feature of the meet.

For Sale.

3,000 good bred ewes and 600 young muttons. 37-4tc M. C. Reese, Box 6, Junction, Texas.

Preparing a Seed Bed

IT WOULD be foolish for a contractor to undertake to construct a building without first securing the material.

IT WOULD Be just as foolish for a farmer to undertake to plant a crop without first securing a good grade of seed and having a well prepared seed bed.

THOSE FARMERS Who are going ahead now and preparing for the planting season, will reap the reward of their timely work when harvest time comes.

MAKE YOUR Preparations now. See about getting your seed. Get your ground in order, and one thing more—plant just a little more feedstuff than you originally planned—You'll need it, or will find a sale for your surplus.

WE WANT TO HELP YOU!
