City Ready for Wheat Festival Week June 23-28

Wheat Harvest Will Be In Full Swing First of July

Moisture to Cut Yield by One-Half

Present Estimate Is For Biggest Crop Yield Since 1931

While rains and continued moisture of the past few weeks have taken a terrific toll from the early crop estimates of wheat in the Perryton area, indications are now that the 1941 crop will be the largest in bushels since 1931 and due to the government loan program the cash return will be much greater than that year.

It is impossible to estimate the actual amount of damage from rain and wind. Some place the loss as high as 50 per cent, other estimates as low as 20 per cent damage. Conservative estimate of the expected yield unless more rain is received would be from 12 to 15 bushels per acre. Earlier estimates ranged high as 25 to 30 bushels. Much grain is down and the percentage of recovery is hard to estimate. This down wheat and barley probably will not mature properly and the test will be lowered. There is lots of red rust and some black rust. Many binders are in the fields cutting oats, barley and some wheat, but harvest with combines will not get under full steam until July 1. Warm, dry weather as we are getting now will speed up harvest. More rain will delay it and cut down the test and yield.

Mail for Tommy

Letters from home are reaching Tobruk's defenders, who have been withstanding siege for weeks—proof that British ships are arriving regularly.

Christian Church Changes Its Schedule

Rev. Leon Berry, pastor of the Christian Church, announced a few changes in time of meetings too late to run in the regular church notice. The new schedule is: Sunday school 9:45 a. m.; Sunday morning worship 11 a. m.; Wednesday evening worship 8:15 p. m.; Thursday practice 8:15 p. m.; Thursday Women's Council 2:30 p. m.

Truax-Gyger Head Legion Organizations

Legion-Auxiliary Name New Officers Monday Night

The Pierce Johnson Post and Unit of The American Legion and Auxiliary elected officers Monday night, June 16, at the regular social meeting of the two organizations. W. M. (Beano) Truax was elected Commander of the Post, and Mrs. E. B. Gyger was elected President of the Unit.

Officers elected by the Post were: W. M. Truax, commander; A. P. Spicer, adjutant; E. B. Gyger, 1st vice commander; Otto Fischer, Follett, 2nd vice commander; C. B. Rogers, finance officer; Virgil Oimstead, historian; F. L. Garrett, service officer; A. W. Henry, chaplain; B. H. Beckenbaugh, liaison officer; M. A. Boehning, sgt.-at-arms; A. R. Hogland, R. B. Orrill and H. C. Graham, executive committee members.

Tom Ellzey USO Chairman

Tom Ellzey received word this week of his appointment as chairman of Ochiltree County for United Service Organizations for National Defense, Inc. The purpose of this organization is to provide recreational and welfare facilities for soldiers, sailors and defense workers. Endorsed by the President and Army and Navy officials, the USO expects to raise \$10,765,900 to operate service establishments built by the Government. Texas' quota is \$400,000, and committees appointed to raise this fund began their drive officially June 3. Every individual should contribute to this campaign. E. B. Germany, Dallas, is chairman of the Texas Division of the USO, and Jay Taylor, Amarillo, is district chairman.

Classify More Registrants

The local board of Selective Service announced this week that of the 598 registrants in this county, 467 had been classified. Additional classifications will be made within a few days to clear up the records for the registrants who will sign up July 1.

Classifications are grouped as follows: Class 1A, 17, available for immediate service; 1B, 7, limited service; 1C, 24, already serving; 2A, 41, occupational deferments; 3A, 350, dependents; 4C, 1, alien; 4D, 7, ministers; 4E, c. 4; 4F, 19, physically unfit.

Ochiltree County has not been asked for a quota of draftees during the month of July, the board said.

Christian and Methodist Vacation Church School Ends with Public Program June 20

The Vacation Church School conducted by the Christian and Methodist Churches at the Methodist Church for the past two weeks will close Friday night, June 20, at 8:15 with a program, which is open to the public. All departments of the school will assist with the program which is sponsored by the Intermediates.

The school has been held each morning from 9 to 11 and has had an enrollment of 142—130 pupils and 22 workers. The pastors of the two churches feel that the school has been a success. Exhibits of work will also be displayed Friday night. In charge of the two weeks school were the following: faculty members, Rev. Leon Berry, Christian pastor and Rev. William E. Fisher, Methodist pastor; Dean, Mrs. E. E. Perkins; secretaries, Ann Lou Hernandez and Margaret Jean Orrill. The departments were directed by the following:

Beginners: Mrs. S. P. Whippo, Mrs. Henry Richardson, Mrs. W. E. Fisher, Mrs. Cecil Dodd, Mrs. Andrew Milledge, Mrs. Glenn Shrader and Miss Jane Rogers.

Primaries: Mrs. E. D. Kelley, Mrs. Charley Kent and Miss Mary Jayne Fritz.

Juniors: Misses Kathryn LaMaster, Alice Kuhn and Marcela Fritz.

Intermediates: Mrs. Quentin Williams, Rev. Leon Berry and Miss Ruth Neufeld.

Junior and Intermediate wood work: A. P. Spicer.

Friday Night Program

All departments will contribute to the program Friday night at 8:15 as follows:

Beginners Department: finger stories; scripture quotations, songs.

Primary Department: playlet, "Going to Church"; vocal numbers by junior choir, "The Church in the Wildwood" and "The Garden."

Intermediates: worship period, theme, "Loving Service"; prelude.

City Starts Traffic Safety Campaign

Mayor W. H. Lance and the Perryton city aldermen inaugurated a long and much needed traffic safety campaign last Saturday when they had city officers make a check of traffic violations at three Main Street intersections. The numbers of over 400 cars that violated traffic laws such as making U-turns or running stop signs at these three intersections were taken. Another check will be made next Saturday and numbers of all cars violating the laws will be published in next week's Herald. After Saturday, drivers who do not observe the regulations will be arrested and fined in city police court.

Jury Gives Brown Electric Chair

Orrin J. Brown, 57, was convicted by a Hansford County jury just before midnight Saturday, June 14, of the hammer murder of Mrs. Leota Murphy. The verdict returned by the jury was: "We find the defendant guilty of murder of Leota Murphy with malice and aforethought, and assess his punishment as death in the electric chair." On Monday, District Judge Jack Allen denied Brown's motion for new trial. Brown's attorneys, J. O. Ward, Borger, and Dan Archer, Perryton, appointed by the court, immediately declared.

Add Service at Mason Motor Co.

According to Steiner Mason, manager of the Mason Motor Company, local Ford dealers, a complete lubrication and general auto servicing will be available to the public. A complete line of Phillips 66 Oils and Greases, gasoline and accessories will be featured. Grease racks have been made more accessible to the public and experienced attendants will be on duty at all times, it was said.

Work Starts to Index Birth and Death Records in Ochiltree County

Perryton is Shopping Center for Big Area

With every passing year, the trade area for Perryton business services is extended. This ever increasing of the boundaries embracing folks who trade in Perryton has been brought about by the high quality of service rendered by Perryton business and professional firms. No matter which direction you go from Perryton you'll find folks saying, "I like to trade in Perryton because I can always find what I want in Perryton, the prices are reasonable and Perryton folks greet you with a friendly smile and a sincere desire to be of worthwhile service." There has never been a time in Perryton's history when stocks were more complete than this year to meet the wants of the busy harvest shopper.

Ray's Cafe Is Being Remodeled

An announcement was made this week of the purchase of the partnership interest in Ray's Cafe by Ray Weir. Mr. Weir became sole owner of the popular eating establishment with the purchase of the holdings of Robert Moore. The cafe is being remodeled with a door put through the wall adjoining the remainder of the Champlin Building. The floor space will be doubled. Facilities for the holding of private dances, banquets and parties will be made available under the present plan. Work is nearing completion and the increased space will be opened to the public in the near future. Few changes will be made in the policy of the cafe, Mr. Weir said. The same type of high class service will be the goal of the staff, as in the past.

JUST HERE and THERE

As near as we can tell the first combining of the 1941 wheat crop will start shortly after noon Friday at the M. A. Cook farm located at the southwest edge of Perryton. Mr. Cook will use one of the new six foot John Deere combines. L. B. Stinson, manager of the Perryton Implement Co., local John Deere dealer, invites anyone that is interested in this new machine to come out and see the first cutting.

Use more wheat! We started to write — talk more wheat — but that's not necessary for wheat is pretty much of an all-year topic in these parts. Here's what we're getting to!

Perryton will celebrate its first Wheat Festival Week, June 23-28. Wheat is the main and only cash crop of most of our people, hence wheat is the source of most all income of Perryton stores.

So let all Perryton business and professional firms honor wheat by decorating show windows and store and office interiors with wheat sheaves. If everybody will cooperate in this Wheat Festival See No. 8, Back Page

Work Starts to Index Birth and Death Records in Ochiltree County

The indexing of the Birth and Death Records for Ochiltree County began Tuesday, June 17, at the courthouse under the supervision of the Works Projects Administration and sponsored by the County. The importance of recording birth certificates is becoming more evident daily. Every individual should see that his birth is properly recorded.

Cy LaMaster Is Directing Baseball Class

Cyrus LaMaster, head of the physical education department of the Lubbock schools and coach of the Lubbock Cowboys, is conducting a baseball training school for Perryton youths who wish to learn the basic fundamentals of the national game. He is being assisted by Glenn Muir and "Curley" Risinger. The school is being held at the Fairgrounds Park, sessions starting at 6:15 o'clock each afternoon except Saturday. There is no charge for this training school. Mr. LaMaster and the other instructors giving their time in an effort to develop more scientific baseball players in this community. The school will continue through next week and if sufficient boys are interested and come out each afternoon, arrangements will be made for an extension. Attendance so far has been disappointing to the coaches. Boys age 12 to 18 See No. 5, Back Page

Free Swimming at City Pool As Opening Gesture Friday, June 20

The Municipal Swimming Pool located in the City Park will observe its official opening Friday, June 20, with free swimming for all. The pool will open at 10:00 a. m. and remain open until 9:30 p. m. according to Curley Risinger, manager of the pool. All swimming enthusiasts are invited to take advantage of the offer.

The pool, one of the best equipped in this part of the country, has been completely redecorated and freshly painted.

According to Mayor W. H. Lance the Perryton Chamber of Commerce has appropriated \$60.00 to purchase material for a portable band stand that will be used to give concerts at the pool this summer along with other activities. Members of the Industrial School held at the Perryton High School will do the actual building.

Manager Risinger said that season tickets were on sale and were priced at \$3.50 for children, 12 years old and under, and \$5.00 for adults. Single tickets will be on sale at all times for 15c and 20c. Towels will be furnished for 3c extra.

During week days the pool will open at 10:00 a. m. and close at 9:30 p. m. Sunday hours will be between 1:00 and 7:00 p. m. Swimming parties will be accommodated at 6:00 a. m.

The pool will be operated this year by the City of Perryton with Mr. Risinger managing.

Church School Offers Program Friday Night

The Vacation Bible School held jointly by the Christian and Methodist Churches will close Friday night, June 20, with a free public program at 8:15. The school, which opened June 9, has an enrollment of 142. The program, a list of enrollees and workers will be found in a detailed account of the school appearing in this issue of the Herald.

Banner Wheat County of Texas Crowns Ochiltree Wheat Queen On Evening of June 28th

Perryton is all set for its first Wheat Festival Week starting Monday, June 23 and climaxing on the evening of Saturday, June 28 with the crowning of the first Ochiltree Wheat Queen in a gigantic spectacle and program under the lights at Ranger Stadium. In connection with the Wheat Festival Week is the drive for wheat donations for the Ochiltree county quota for the United Service Organizations. Wheat growers are being asked to donate wheat. Persons who do not raise wheat are asked to buy bushels of wheat to donate. The Ochiltree goal has been set at 5,000 bushels of wheat with a minimum of one bushel of wheat from every man, woman and child in the county.

Canadian Boosters Here Next Tuesday

Canadian Boosters will be in Perryton on Tuesday, June 24, to advertise the Anvil Park Rodeo to be staged in Canadian July 4-5-6, according to John Caylor, chairman of the booster trip committee. Approximately 20 cars are expected to make the trip next Tuesday, which is the first of a series of trips to advertise the rodeo. Trippers will wear cowboy and cowgirl regalia. The Canadian high school band under the direction of H. A. Hill will be with the group. The time of arrival of the Canadian visitors has not been announced. However, keep the date in mind and be on hand to greet our neighbors.

American Legion Names Delegates

At the business meeting of Pierce Johnson Unit, The American Legion, June 16, delegates and alternates to the State Convention were elected. M. W. (Beano) Truax, newly elected Post Commander, was named as chairman of the delegation.

Other delegates are Van W. Stewart, A. P. Spicer, E. B. Gyger, O. R. Truax, and Herman Hargrove. Alternates elected are Virgil Oimstead, Ben Beckenbaugh, W. J. Miller of Spearman, R. B. Orrill, Glenn Truax and E. W. Thomas.

The state convention of The American Legion and Auxiliary is in Fort Worth, August 17-18-19. Delegates and alternates of the Auxiliary will be elected later.

Special Feature On Sunday Night

The Methodist Church is offering a special feature at the Sunday evening services during June. The local church Board of Missions is sponsoring a fifteen minute pre-sermon address. The speakers for Sunday night, June 22, is Miss Francis Finch, who will talk on "Varieties of Christian Work in India."

The first subject discussed was on Sunday, June 1, when Miss Elizabeth Huffhines spoke on "Primitive Peoples of the Island of the Sea." On June 9, Mrs. D. A. Caldwell gave the address using as her subject, "Korea, the oppressed nation; and China, the populous nation."

The speaker for next Sunday will be Oscar Flowers, county attorney. His subject will be announced next.

White House Opens 'Texan' Home

This "Texan" home will be thrown open for public inspection Sunday, June 29, according to T. R. Murray, manager of the White House Lumber Company. The six-room home built under the FHA Plan is located at 804 Southwest Seventh street and is modern to the last detail. It is located near Perryton's modern school. The public is invited to inspect it and compare workmanship, construction, exterior paint job, quality of material and its interior finish.

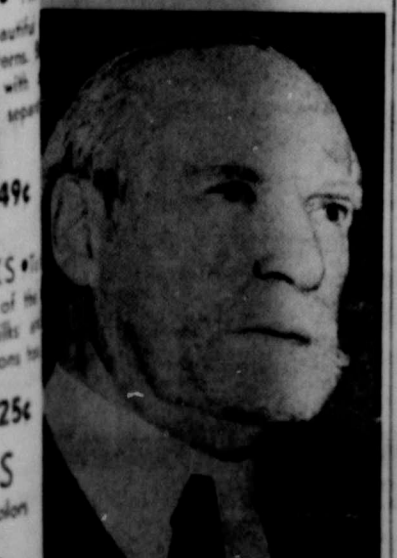

Two Weeks Bible School at Baptist Church Closed Friday

The Baptist Church of Perryton completed a two weeks vacation Bible School on Friday, June 13, with eighty-eight children from the ages 4 to 12 were enrolled. Rev. S. R. Chung, pastor, served as principal of the school, with Mrs. Val Lanahan as secretary. More interest was shown and attendance was above the average. Workers who were in charge of the activities. Classes were held from 9 to 12 each morning, Monday through Friday, June 2-13 inclusive.

The last session of the school was held Friday morning with mothers and friends as special guests at a gram. A review of the work was given and refreshments served at close.

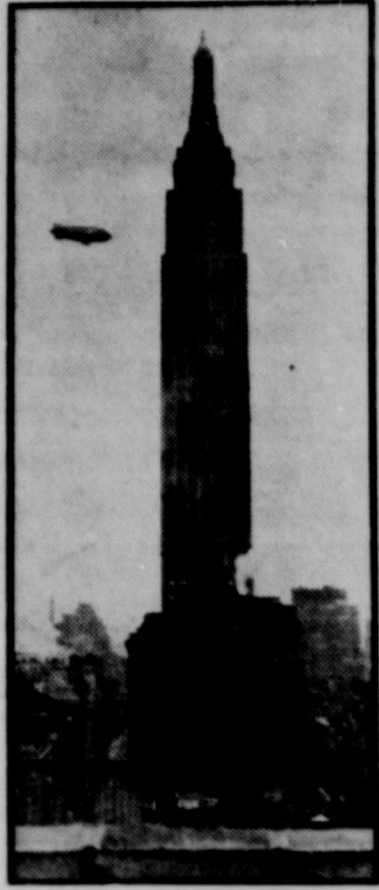

Junior Department The junior department was directed by Mrs. Irvin Buchanan, chairman and Mrs. Herman Morris, Mrs. R. L. Duke and Miss Jimmie Lee Landrum, assistants. Children enrolled in this department were: Loyd Dean Slaughter, Lane Hoy, Linnie Fern Wright, Rana Hoy, Modrick, Mary Alice Manning, Anna Louise Manning, Anita Pope, David Larry Noel, G. C. See No. 2, Back Page

Hughes Retires

Considerations of health and the fact that I had been relieved of duties which I have been discharging is increasing difficulty" Chief Charles B. Hughes, United States Supreme Court, wrote in announcing his retirement. This is the latest of the famous jurist, who is 79 years old.

Salute to U. S. O.

Flying over the majestic Empire State Building, a Navy blimp "bombed" New York City with circulars announcing the nationwide drive for the United Service Organizations.

FSA Families Net Incomes Increase

Farm families in 47 West Texas Counties, including Ochiltree County, with standard rehabilitation loans from the Farm Security Administration have increased their average yearly net income 44 per cent from \$549 to \$788, it was revealed by a nation-wide survey just completed in Washington and comparing FSA borrowers' 1940 status with their condition before coming into the program.

Results of the survey were received this week by Arthur R. Turner, county FSA Supervisor, from Rex B. Baxter, state director of this agency's rural rehabilitation program.

Purchasing power of 4,435 stand-

ard rehabilitation borrowers in the 47 counties included in the survey was increased by \$1,082,521.

The families are making satisfactory progress in the repayment of their long-term loans. They have thus far paid \$3,555,622 into the Federal Treasury in loan installments out of \$6,668,577 borrowed, although much of the money does not fall due for four or five years.

Mr. Turner said the average FSA low-income borrower could not be considered a top ranking credit risk, since this agency makes loans only to families who cannot obtain adequate credit elsewhere.

"This repayment record is a tribute to the honesty and industry of needy farm people working with FSA," Mr. Turner declared. "There is ample evidence that the majority of them are getting back on their feet and becoming permanently self-supporting."

In large measure, Mr. Turner explained, much of the progress is due to the advice and technical guidance in sound farm and home management which accompanies each Farm Security loan.

On the basis of last year's operations, the average FSA borrower in West Texas produced \$300 worth of goods for home consumption, as compared with \$155 before coming into the FSA program.

Home produced goods included 429 gallons of milk per family; 286 pounds of meat; and 225 quarts of vegetables and fruit canned for the winter.

In addition to the rural rehabilitation program, Farm Security is carrying out the Bankhead-Jones Farm Tenant Act, which provides a limited number of loans to competent tenants to enable them to buy family-type farms.

During the first three years of this program, it was learned, FSA has made 79 such loans in West Texas. The purchase loans are made for periods of 40 years at 3 per cent interest.

Another important phase of FSA's rehabilitation program, Mr. Turner explained, is the adjustment of the family's old debts.

"Local Farm Debt Adjustment committees are set up for this purpose. They have no legal authority to compel adjustments, but by bringing the farmer and his creditors together in a neighborly way, they usually are able to help both parties reach a friendly understanding and settlement."

Mr. Turner said this service is free to all farmers whether or not they are rehabilitation borrowers, and he added, creditors, as well as debtors may apply for assistance.

Farm Security, it was pointed out, offers many kinds of help to low-income farm families, such as loans for Community and Cooper-

OLD ARMY BLANKETS SERVE IN NEW WAR

Middletown, N. Y.—Two blankets that served with the B.E.F. through the last World War with Dr. William J. Hicks of this city are returning to England, to warm six bombed-out children of the Battle of Britain.

Mrs. Hicks and her associates in the Middletown branch of Bundles for Britain have specialized in making sleeping bags from blankets in response to appeals for equipment desperately needed by babies in cold air-raid shelters. Each warm blanket makes three of the snug bags.

active Services, whereby farmers can have facilities jointly which none of them could own individually; loans for water facilities purposes, and so forth.

"In making America strong," Mr. Turner concluded, "the Federal Government is not neglecting to improve the living standards, health sanitation and economic conditions of the low-income farm families. Farm Security, by assisting the low-income families in rural America, is contributing much to the present National defense program."

Leroy LaMaster, who received his degree in agriculture from Texas A. & I. Kingsville on June 1, left Friday for San Benito to accept a position in the Farm Security office. Since graduation Leroy has been in the home of his parents, Mr. and Mrs. W. B. LaMaster.

Mrs. Dwight Holland, Dodge City, Kans., was a Sunday visitor in the home of Mr. and Mrs. R. H. Holland.

Janice Miller of the Booster Station is spending this week with her cousin, Kaye LeMaster and both are attending Bible school.

Mrs. Ben Talley, Miami, was a visitor in the J. W. Richardson and J. S. Talley homes Sunday and Monday.

Twichell Ag Club Hold Friday Meet

The Twichell Agriculture Club with Lonnie McGarraugh, president held the final meeting until fall at the Twichell schoolhouse on Friday night, June 13, eight o'clock.

The program numbers were: Reading, Melvin McGarraugh; reading, Earl Olmstead; piano solo, Colleen Milledge; Indian number, Jimmy Nelson; song, Lillie Mae and Freddie Pshigoda; reading, Zona Mable Donley; guitar solo, Christine Fortenberry; reading, Elaine Dietrich; song, Mr. and Mrs. Lee Trammel; talk, E. W. Thomas, county agent.

During the social hour following, ice cream and cake was enjoyed by everyone.

The club meets on the fourth Friday of each month with the exception of the summer months. New officers will probably be selected at the first fall meeting.

June Proving Deadliest Month of All

If the present mad pace is continued, a live, happy person—a human being perhaps responsible for the happiness of others—will die on a Panhandle highway or street every 3.91 days the rest of the year.

Two more tragic deaths crossed the 1941 highway record yesterday, raising the total to 43. More than half a year remains to send the total soaring even higher.

A glance at the statistics will show the entire hideous story of death on Panhandle highways.

Today is June 18. Already this month there have been 13 persons who died in "accidents," their bodies mangled and their heads crushed.

June far exceeds any other month in the year in regard to the number of highway deaths. April had eight

and May six. February was the safest month although four died. January contributed seven to the record and March five. Thus 43 died in only 168 days.

One thousand, five hundred and nineteen years of human life were snuffed with the snap of a finger during those 168 days.

The average age of those who died amid smashing glass and crumpling steel was 35.33.

Men died easiest. A total of 22 men and eight women were killed. There were seven girls and five boys whose lives ended suddenly and without warning. One 10-months-old child was thrown against a shattered windshield and killed.

Persons in the 20s suffered most. Thirteen persons between 20 and 29 years of age were killed. Seven persons between 60 and 69 and a like number in their teens died horribly. Six were between 30 and 39 and the same between 50 and 59. One was 74 years of age, another three and the other 10 months.

Amarillo and Shamrock areas so far have been the most dangerous

in the Panhandle. Fifteen died near Shamrock, 11 in and near Amarillo, five near Dumas, three near Childress and two near Canyon. Lelia Lake, Claude, Wellington, Dimmitt, Groom, Stratford and Quilake contributed one each.

The City of Amarillo has already exceeded the total recorded during both 1940 and 1939. Four persons have died here this year, while only three were killed during each of the previous two years.

Who's next.—The Amarillo Daily News.

Mr. and Mrs. J. A. King, who just recently returned from Rockport where they spent the winter, are visitors this week in the home of their nephew, R. T. Correll and family.

Bill Roberts, Albuquerque, N. M., spent the week-end in the home of his aunt, Mrs. Carl Ellis and family. He was enroute home from Detroit driving through a new car.

Hudson Wins 1941 Safety Award

A. E. Barit, center, President of Hudson Motor Car Company, is shown above receiving the annual Safety Engineering magazine award for the safest 1941 body design from Alfred M. Best, left, head of Alfred M. Best, Inc., nationally known insurance analysts and publishers of Safety Engineering magazine. George H. Pratt, right, Hudson General Sales Manager, presided at the presentation ceremonies held in New York City at a meeting of Greater New York safety and insurance officials.

The award represented the first perfect rating in safe automobile body design recorded since Safety Engineering magazine began its annual impartial appraisal of automotive safety factors. In addition, Safety Engineering experts paid tribute to Hudson's two outstanding contributions to safety in chassis construction, namely Hudson's patented Double-Safe hydraulic brakes and patented Auto-Poise front wheel control.

The greatest medicine in the world is sunshine. It puts smiles on our faces, joy in our hearts, and optimism in our thinking. It removes frowns, wrinkles, and sorrows. The "day in June" feeling is caused by the smiling sun plus a little effort on our part to get in tune with nature.

Some people mistake publicity for fame. They convince themselves that newspaper reports and notes of what they are doing mean that they will live in history.

Blessed is the man who has a personal code that provides for the proper use of the time his Creator has allotted him.

Here is a rule that will solve all of your problems and make you happy. It was written by one of the greatest philosophers this country has produced. Albert Pike. "A panacea for all the ills of the human race is a contented spirit."

The most destructive forces in the world are words—spoken.

HOME DEMONSTRATION CLUB NEWS

● Notla Club

Mrs. Frank Hamilton brought the lesson on "Flower Arrangement" at the meeting of the Notla Home Demonstration club in the home of Mrs. Walter Atwood on Thursday, June 5.

She placed flowers in two classes, formal and informal. The formal type, as the rose and all delicate flowers should be put in glass or some smooth vase while the informal, which takes in most wild flowers and all heavy coarse plants, can be appropriately placed in pottery or novelty containers.

Others on the program were Mrs. Guenn Blackwell, giving a report on "Martin Dies" and Mrs. Calvert Norris with a discussion of "Sara Byrd Askew," a great librarian.

Others present for the meeting were Mrs. Erroll Flatheus, Mrs. W. E. Tandy, Mrs. W. M. Good, Mrs. Earl Schwaik, Miss Julia Belle Rogers and the hostess—Mrs. Earl Schwaik, reporter.

● Council Report

The County Council of Home Demonstration clubs met Saturday afternoon in the courthouse with Mrs. Claud Crouch, chairman, directing the activities.

According to Mrs. W. E. Tandy, who with Mrs. Erroll Flatheus, represented the Notla club, their club plan to take a field trip once each month. Other delegates reported on their work and plans. It was decided to take a trip to Woodward, Okla., Experiment Station in the near future. Plans for the trip were discussed.

At the Council meeting in July, three delegates will be selected to attend the Texas Home Demonstration Association in September. Each club is urged to have their delegate present.

Present for the meeting were Mrs. Crouch, Mrs. Jack Dodson, secretary, Mrs. W. P. Wernske, Waka; Mrs. Fred Tarbox, McMillen; Mrs. Marvin Groves, Black; Mrs. Dell Wilson, Ochiltree; Mrs. J. S. Slaughter, Mrs. Earl McGarraugh, Missouri Ave.; Mrs. Garland Redfern, Mrs. Ike Sharpe, Perryton; Mrs. Tandy, Mrs. Flatheus, Notla; and Miss Elizabeth Huffhines, county demonstrator.

Mrs. Ackley Hostess For Missouri Ave. Club

The next meeting of the Missouri Avenue Home Demonstration club will be held Friday, June 27, 2:30 p. m. in the home of Mrs. Albert Ackley, 814 SW Third street.

The program subject is "Individuality" and Mrs. Ackley and Mrs. Fred Huston will demonstrate flower arrangements.

No one can be happy with evil thoughts coursing through his mind.

● Perryton Club

There are two distinct kind of insects, the cutting or biting and the sucking, stated Miss Elizabeth Huffhines in her comments on "Control of Plant Diseases and Insects" at the meeting of the Perryton Home Demonstration club in the home of Mrs. Lake Patton Wednesday.

There are several successful methods of controlling insects. Dusting and spraying are beneficial and burning weeds and destroying breeding places prove very helpful. Mildew on roses may be controlled by dusting with sulphur.

A good solution for spraying most flowers is made with 4 tablespoons arsenate of lead to one gallon of water. To control grasshoppers use a poison bran mash made of five pounds bran, one level tablespoon paris green or sodium arsenite with one gallon water and one-half pint can molasses.

During the business session the club voted not to send a delegate to College Station this year. It was

also voted to donate two sacks of cement to the tennis courts being constructed at the school.

Present beside the hostess and demonstrator were Mesdames Lewis Buchner, Lewis Boston, A. N. Dowers, W. M. Dull, Ernest Gyger, M. F. Hethcock, B. B. Lee, Garland Redfern, Ike Sharpe, W. S. Thomas and Delta Davis—Mrs. Lake Patton, reporter.

Perryton Club Will Meet on June 25

The Perryton Home Demonstration club will meet in the home of Mrs. W. M. Dullon Wednesday, June 25, 2:30 o'clock.

Mrs. F. H. Cox and Mrs. Lake Patton will give a demonstration on flower arrangement. Club members are asked to bring any flowers they may have to be used in the demonstration.

Visitors are welcome.

All great leaders in the history of the world have lost themselves in their work.

KRAUSE "LIGHT DRAFT" ONE-WAY PLOWS

Ask The Man Who Owns One!

15-FT., 26 DISC KRAUSE ONE-WAY

The Plow Your Neighbors Are Talking About!

Light Draft There is no one-way that pulls lighter than the Krause One-Way. Actual tests have shown that it pulls 20 to 30 per cent lighter than most one-ways. Here is why: the Krause One-Way is perfectly balanced and the end thrust is equally distributed along the cylinder.

Perfect Balance The Krause One-Way is perfectly balanced to the center line of draft and the center of ground suction. This eliminates much of the side-draft and reduces pulling weight. Although not a heavy plow, the Krause One-Way will plow hard ground because it depends on the ground suction instead of mere weight to put it in the ground.

Equally Distributed End-Thrust When all the end thrust is on the rear bearing, any one-way is more likely to kick out of the furrow. That is why the Krause One-Way is designed so that each bearing is an end-thrust bearing, carrying the same amount of weight. With the end-thrust equally distributed along the entire cylinder disc it turns easier and make pulling much lighter.

A Proven Product This plow comes to you as the result of years of experimental work in designing a plow that will meet the varying requirements of the farmers. The Krause One-Way has been manufactured since 1928 in Hutchinson, and hundreds have been sold throughout Texas, Kansas, Colorado and Oklahoma. Wherever the plow has gone it has been sold because of its outstanding merits and because of the excellent work that it does.

Universal Hitch One of the reasons why the Krause One-Way is such a universal plow is to be found in the hitch. It can be adjusted to almost any width of tractor and the plow can thus be made to follow perfectly. When you hook onto this hitch you are pulling from the center line of draft and the center of ground suction.

Can Change Size of Plow Here is something about the Krause One-Way you will find to be a real advantage. Any number of disc blades can be removed from the plow to suit the load to your tractor. These discs are slipped off the rear of the disc cylinder and the large rear casting is moved forward on the frame. This makes it possible for you to cut the size of the plow down for heavy plowing and increase the size for light work.

Today's Business Leaders

What has brought America's present leaders of industry to the top of the business ladder?

B. C. Forbes, well-known business writer, sought the answer to this question from 67 of this country's present crop of industrial heads. The answers varied in individual cases, of course, but there were certain very well-defined threads running through most of them.

Most of all, it is observable from Mr. Forbes' findings, which were published recently in Forbes Magazine, that the average business leader of today wasn't merely content to wait until opportunity came knocking on his door. He went looking for opportunity, and prepared himself to recognize it when it did arrive!

The author found that education played a tremendous role in helping most of these men towards success. The majority supplemented their formal education and their "school of hard knocks" training by taking special courses. They were united in believing that the opportunities in this country were great if you worked to take advantage of them.

Mr. Forbes lists some of the other distinctive characteristics and beliefs of these men: eagerness to learn as much as possible about the work they were doing, readiness to accept financial sacrifice if it was necessary to gain a potentially greater opportunity, a keen interest in human nature and an aptitude for getting along with co-workers, and recognition of the fact that less important aims must be subordinated to mastery of all phases of the job in hand.

The composite picture of these men is an encouraging one for those interested in continued national progress. All our national history has showed America moving forward as its industries moved ahead—and here is leadership that has trained itself well in order to guide industry on its way!

Theoretically a man should live to be a hundred years of age. If he is temperate in all things—eats only what agrees with him, keeps regular hours, does not dissipate, has mental habits of poise, is calm under all circumstances—he should live to a ripe old age. Improper diet and violent passions will shorten any person's life. The one who boasts that he has a violent temper

should at the same time confess to himself that he is willing to commit suicide slowly in order to enjoy his possession.

Envy is a deadly sin. It saps the life of a person, makes him disagreeable, and causes him untold worry.

BARNETT'S BREAD

HAS EVERYTHING

You will like Barnett's Bakery Bread for a great many reasons. You'll like its wholesome goodness—its fine texture—the results of using only the very best of ingredients obtainable, and too, it is a product that is baked in Perryton. Let's say, "Barnett's Bread, please."

WE ALSO BAKE DELICIOUS

- PIES
- CAKES
- BUNS
- SWEET ROLLS

Anything in the way of fine bread or pastries—you will find it at Barnett's.

BARNETT'S BAKERY

Varied Entertainment Opens Lake Marvin June 21-22

Dixie Debutantes of Amarillo will have an important role in the third annual fiesta opening at beautiful Lake Marvin, Saturday night and Sunday, June 21-22. These beautiful Panhandle singers and dancers will present fascinating and intricate dance steps and all the tuneful harmonies of today's hit parades. Pictured above are June Dice, Tabby Sue Walker, Nora Jean Lamb, Frankie Lou Koehn, Lou Ella Hendrix, Janie Edwards, Milda Faye McSwain, Rosemary Edwards and Eileen Smith. The Debs are but one of the many entertaining events for the celebration.

Balko

Mr. and Mrs. A. M. Blackweider are enjoying a new refrigerator in their home.

The W. M. S. will meet all day Thursday at the church basement and quilt. Bring a covered dish for the noon meal.

Mrs. J. C. Case has been suffering from a skin poison on her arms and face for several days. She went to Beaver to consult the doctor Saturday evening.

Mr. and Mrs. J. W. Cayler enjoyed Father's Day in the home of their daughter, Mr. and Mrs. John Osterhuhr and Jean of Perryton. Other guests for dinner were Mr. and Mrs. Harry Cayler and Donna and Mrs. W. R. Cayler and Kay. Mr. and Mrs. A. J. Kelly were afternoon callers and Mrs. Osterhuhr served angel-food cake and ice cream.

Mrs. Nancy Huguley's brother Mr. Pearson who has been plowing and planting for her, returned to his home west of Perryton Saturday evening.

Mr. and Mrs. George Love were in south Texas last week on business. Lennie Arnholt did the chores while they were gone.

W. M. S. met last week at the church for a lesson study on Europe taken from the Royal Service program. Those present were Mrs. Floyd Humphrey, Mrs. Lula Mae Renfrow, Mrs. W. C. Naylor, Mrs. Lawrence Naylor, Mrs. H. Miller, Mrs. I. M. Whitaker, Mrs. Isabel Jackson, Mrs. Ervin Naylor, Mrs. A. M. Blackweider and Mrs. Cayler. Mr. and Mrs. J. W. Cayler spent

Colonel E. A. Simpson, one of the leading authorities in America today on National Defense, will be the principal speaker at Lake Marvin Sunday afternoon, June 22, as one of the highlights of the third annual opening of this government playground.

Colonel Simpson's association with army officials, his knowledge of defense problems and his actual war experience makes him one of the most sought-after speakers in America today and the largest crowd ever to gather in the Eastern Panhandle is anticipated for the occasion.

The program starts Saturday night after the boat drivers and delegations from the various towns have reached the lake. Dixie Dice and her Darling Debs, pictured above, will present a new floor show portraying all the latest songs and dances on both Saturday and Sunday nights, while Pinkie Powell and his eight-piece band of Pampa provides the music for the dancing.

Sunday morning will find the events starting early and the first race of the day slated to start promptly at 10 o'clock. The McClellan

Tuesday afternoon in the John Reiswig home.

Burt Teague is hauling sand and cement for a new henhouse.

Asa Arnold has been shocking barley for Floyd Humphrey.

Dewey Ray and Pat Stomberg finished shocking barley for J. W. Cayler Friday of last week.

J. C. Case took his daughter-in-law and two boys to Perryton Saturday morning to take the train to her home in Clovis, N. M. They have been visiting here and with her sister, Mrs. Gift of the Gray community.

Gurley Case met his sister and two daughters at Shattuck Sunday morning. Her home is in Wellington, Kans.

Elmer Miller plowed and planted feed for Lennie Arnholt last week.

Ernie Allen's father from Liberal spent several days visiting here last week.

A son was born to Mr. and Mrs. Ben Slater last week at the Beaver hospital. The condition of Mrs. Slater is not as good as hoped for.

J. C. Case sowed feed on his rented land north of Balko Monday.

A vacancy may exist before you resign your job.

Printing

Is But a Small Part of the Cost

IN getting out a circular, circular letter or other piece of printed matter... the paper, the addressing, the mailing easily total more than the printing. Yet, in a large measure, the Results Depend Upon the Printing.

Let us show you some samples to illustrate our statement

Stewart Printing Co.

The two highest aims in life are: The formation of character and the development of personality. In the first, one learns fair play, charity, honor, industry, fidelity, sense of justice. Personality is the vehicle through which character is manifested. A good personality reflects poise, charm, mental equilibrium, culture, refinement.

There is real philosophy in the Bible injunction: "A soft answer turneth away wrath." In most cases it is better to have no answer.

It is usually the man who does nothing who finds fault with the man who does something.

You are less important than you think you are. You pose, strut, and attempt to hide your real self in order to make an impression.

It only requires a few sentences for a man to make a fool of himself and destroy a reputation he has laboriously built up over a period of many years.

Our price on printing is always the lowest... but the best work is always the best.

LIFEGUARDS TAKE DANGER OUT OF BLOWOUTS!

GOODYEAR ALONE OFFERS YOU LIFEGUARDS*

Why take needless chances? Don't let a swerving, lurching car hurt you and yours to serious injury. No pneumatic tire made can be blowout-proof. But your LifeGuard-equipped car comes to a smooth, steady stop when a tire blows at high speed.

NOT A TIRE! NOT A TUBE!

LIFEGUARD is a safety tire within a tire... always ready to support your car in case of sudden tire failure. Goodyear's LifeGuards, in sizes available, can be used in any make of tire, new or now in service. With LifeGuards you can get as much as 25% more safe mileage from your tires... Save money. Play safe. BUY NOW.

Let Us Check and REPAIR YOUR TRUCK

We are now going into the harvest season when the condition of your truck or pick-up counts. Some delay during harvest might prove more costly than the actual repair job. We have in our repair department, mechanics who have been especially trained to give guaranteed satisfaction on our line of trucks and pick-ups. We guarantee every repair to be to your satisfaction and go out and give service.

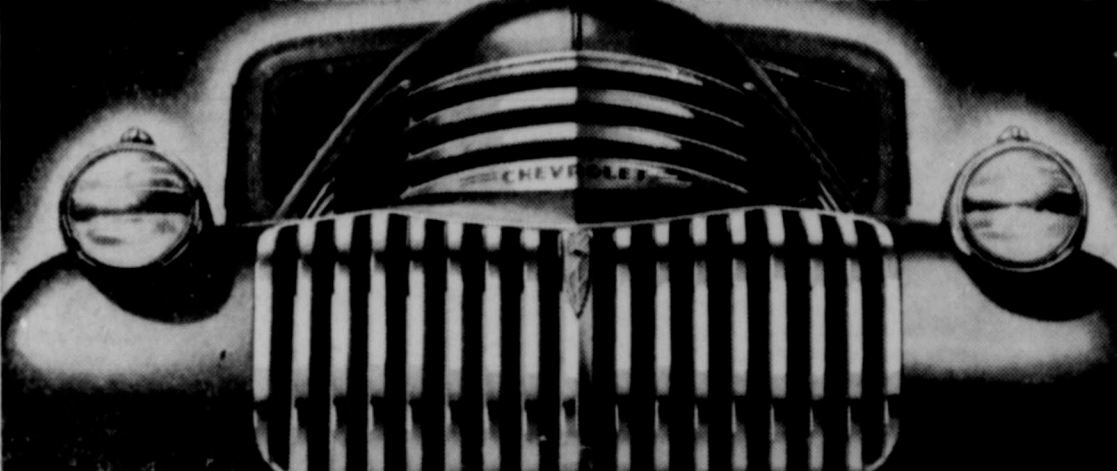

Get A Guaranteed Overhaul Job— We Also Do Body and Fender Work

As well as giving you a perfect job of overhauling the motor of your car—we are equipped to handle body and fender work. No matter how large or small the job, bring it to us. We make a very reasonable charge on this kind of work. Where there is a dented fender, or perhaps in the body, we can make it look like new. If the paint on your car is bad bring it in and let us give you an estimate on repainting it.

It's The Truck For The Farmer

We say this because of the economy in driving—they are long lasting and durable—they are constructed heavy enough to stand the rough use put to them heavily loaded going out over wheat fields. It's the truck that you can depend on to do the work that you expect at a very low cost.

Judge Allen Takes 'Time Off' For 'Wedding' Dinner

Judge Jack Allen, who has been presiding at the murder trial up Spearman way, would like to have been exempt from court duties Saturday, June 14.

It was his 18th wedding anniversary.

"And on Flag Day too," the genial judge said.

But he celebrated anyway. His family came down from Perryton and they all had dinner together, in commemoration of the event.—Sunday Borger Daily Herald.

Fathers Day Dinner Held in Whippo Home

The farm home of Mr. and Mrs. S. P. Whippo was the setting for a delightful gathering Sunday as relatives met to honor their fathers on his day. A bountiful dinner was served at noon. One of the choice dishes being fresh oysters provided by Paul Bates of Corvallis, Oregon.

Enjoying the day were Mr. and Mrs. E. L. Whippo, Mr. and Mrs. W. E. McMillen, Mr. and Mrs. Jay Oxford and Jay Mack of Amarillo; Mr. and Mrs. R. T. Correll and Arch Maurice, Ogden and Virgie Lou, Mr. and Mrs. Garland Cartwright and Gary Neal of Borger, Mr. and Mrs. J. R. Mitchell of Borger, J. B. Cartwright and son, Jerry, and Mr. and Mrs. S. P. Whippo.

Surprise Supper On Fathers Day

The family of M. H. Crum gathered in the Crum home Sunday evening and brought their supper as a surprise to Mr. Crum and in observance of Fathers Day.

Present were Mr. and Mrs. M. H. Crum, Mr. and Mrs. Ray Bateman, Lucille, Gerald and Mary, Miss June Wilson, Mackville, Kans., niece of Mr. Bateman, Mr. and Mrs. E. W. LeMaster, Barbara Kaye, Tommy and Edwin, Mr. and Mrs. W. J. Miller, Janice and Zack, Mr. and Mrs. Norman Crum and Karen, and Joe, Ben, Jack and Grover Crum.

Mrs. W. E. Perry and children, Jane and Gene left Saturday for Hico for a weeks visit with her parents and other relatives.

Chase-Dalton Nuptials Spoken Sunday, Amarillo

The marriage of Miss Mary Louise Walton, Amarillo, and John William Chase Jr. took place Sunday morning, June 15, at the Methodist parsonage in Amarillo with Rev. Hubert Thompson, pastor, officiating.

Dr. and Mrs. J. W. Chase, parents of the bridegroom, Miss Mable Halliburton, Booker, and Olaf Mays were present for the vows.

The bride was becomingly gowned in navy blue sheer with white trim and black and white accessories. She is the daughter of Mr. and Mrs. R. R. Walton, 520 Houston St., and is a graduate of the Amarillo High School. The Walton family lived in Perryton about a year, just recently returning to Amarillo.

The bridegroom is the elder son of Dr. and Mrs. Chase, who have made Perryton their home the past two years. He is a senior in the Perryton schools and plans on completing his schooling. He is employed in the Perryton Hotel Coffee Shop. Mrs. Chase works at the Club Cafe.

The newly weds returned to Perryton Sunday and are at home in the Patton apartments 502 SW Second street.

Business Women Have Circle Meet

The Business Womens Circle of the Baptist Missionary met Monday night in the home of Mrs. R. L. Duke for the mission program study. Mrs. A. K. Wooten assisted Mrs. Duke with the hostess duties. For the program, Mrs. Geo. M. Parker gave a very interesting review of Fay Farmer's book, "Dear Mrs. Maynard's House," the story of a Japanese missionary. Miss Jimmie Lee Landrum gave a chalk talk, "Bringing in the Sheaves." She was accompanied at the piano by Mrs. Elmer Holt of Throckmorton.

The hostess reserved dainty refreshments to Mrs. Tom Evans, Mrs. Earl Miller, Miss Carrie Gambell, Miss Landrum, Mrs. Parker and Mrs. I. R. Buchanan.

McMillen Club Will Meet on June 27

The next meeting of the McMillen Home Demonstration club will be Thursday, June 27, 2:30 p. m. in the home of Mrs. B. E. Plummer. Visitors are welcome.

Miss Huffhines Is Dinner Hostess

Miss Elizabeth Huffhines, county home demonstration agent and Miss Lillie Henrich, county demonstrator of Dalhart, were the charming hostesses Saturday evening as they entertained members of the Hilarity Dinner Club for eight o'clock dinner in the Hotel Perryton.

The club is composed of Home Economists over the Panhandle and this was their fourth meeting. The hostesses used the red, white and blue in favors, placecards and flower decorations in keeping with Flag Day.

Covers were laid for Miss Bernice Vernon, Miss Martijo Brown and Mrs. Verdie Wheeler, Spearman; Miss Mable Martin and Mrs. Mable Cooper, Stratford; Miss Sara Robinson, Miss Viola Glaspie and Miss Alta Faye Laubhan, Perryton and the hostesses.

Friday Club Held In Norris Home

Mrs. LaRue Norris was hostess Wednesday afternoon for the Friday bridge club in her home, 401 SW First street.

Tasty refreshments were served after the close of play. High score prize was won by Mrs. West. The club presented Mrs. McNett with a lovely farewell gift. The McNetts are being transferred to Amarillo and leave Saturday. Mr. McNett is employed in the local SCS office.

Seated for the afternoons play were Mrs. Max Boyer, Mrs. W. C. Herndon, Mrs. W. G. Acker, Mrs. E. B. McNett, Mrs. Fred West, Mrs. H. C. Brillhart, Mrs. H. I. Hudson and Mrs. H. A. Hawk.

Sunday Dinner In Robert Lawrence Home

Ecton Lawrence was the guest of honor for a delightful Fathers Day dinner in the country home of Mr. and Mrs. Robert Lawrence Sunday.

Others present were Mrs. Ecton Lawrence, Mrs. Cora Lawrence and son Haskell, Mrs. J. C. Brown and children, John Lawrence, Joan and Linda of Inglewood, Calif., Mr. and Mrs. Hugh Shotwell and the Robert Lawrence family.

J. B. Hardy was taken ill Thursday evening following a family reunion and taken to the hospital on Friday.

Miss Effie Goodman Bride of Lewis Metz

Miss Effie Goodman, daughter of Mr. and Mrs. Claud Goodman, Sharon, Okla., and Mr. Lewis Metz, Spearman, were united in marriage by the Methodist pastor in Guymon, Okla., Saturday, June 14.

The bride has been employed at the Perryton Hospital and before that made her home in the McMillen community several years. Mr. Metz is employed with the Phillips Pipe Line Company and they will make their home at the Booster Station between Stinnett and Spearman.

Mrs. Payne Hostess Klever Kraft Klub

The Klever Kraft Klub met in the home of Mrs. Boyd Payne Wednesday, June 11, three o'clock. A very delightful afternoon was spent sewing and chatting.

Delicious refreshments were served to Mrs. Alton Witt, Mrs. Herman Morgan, Mrs. Frank Teague, Mrs. Gerald Tindle, Miss Mildred Solomon of Canyon, Mrs. Noel Keith and the hostess.

Life is a burden and a bore to a person who does not discover a few fundamental philosophic truths on which to hang his thinking.

Harold Ray Murray, Opel Murray and Harold Gidley were visiting in Texhoma Saturday. Miss Murray remained for a visit in the home of her grandmother, Mrs. F. A. Stevens.

Hardy Family Gather for Two Day Celebration

The home of Mr. and Mrs. James P. Hardy in the McMillen community was the scene of a happy reunion on Wednesday and Thursday of last week as relatives gathered from six states to attend the family get-together. Mr. Hardy's father, Elder J. B. Hardy of this city, four of the latter's brothers, four sisters and many members of their families were present.

The Hardy family home was in Wellsford, Kans., where the grandfather, Elder J. B. Hardy home-stayed in the early eighties. While the grandfather and grandmother were living the reunions were annual affairs in their home. Of their twelve children, ten are living and all were here with the exception of one brother, J. T. Hardy, age 79 of Pharr, Texas. This was the first reunion since 1917.

On Wednesday, a special table, attractively decorated, was arranged for the nine honored guests and their wives. Seated here were W. L.

Hardy, age 80, Eldorado, Ill.; J. E. Hardy, 78, Alva, Okla.; Mrs. Sarah Hardy Enoch, 75, Hutchinson, Kans.; Elder J. B. Hardy, 71 and Mrs. Hardy, Perryton; Elder J. R. Hardy, 69, and Mrs. Hardy of Dallas; Mrs. Marticia Hardy Fox, 68, Hanston, Kans.; Mrs. Bertha Hardy Clark, 60, Hanston; H. M. Hardy, 58, and Mrs. Hardy of Haviland, Kans.; Mrs. Verda Hardy Machesney, 55, Haviland.

Other relatives included in the two day celebration were: Mrs. Bertie Hardy Cooper, Eldorado, Ill.; Miss Eva Fox, Cheyenne, Wyoming; Miss Norma Machesney, Haviland, Kans.; Mrs. Ethel Enoch Davis and daughter, Bobby Jean, Sweet Home, Oregon; Mr. and Mrs. L. H. Hardy and Bernice, Dodge City, Kans.; Mr. and Mrs. W. J. Fox, Duane, Dorothy, Ione, Scott, Wanda and Judy of Hanston, Kans.; Mr. and Mrs. Byrd Hardy, Greensburg, Kans.; Miss Willabour Hardy, Eldo-

rado, Kans.; Mrs. Faye Hardy Greene, South Pasadena, Calif.; Mrs. Nellie Hardy Porter and daughter, Georgene of Glendora, Calif.; Mr. and Mrs. Noel King, Loreta and Gracie Faye of Guymon, Okla.; Mr. and Mrs. Willis Hardy, John, Ben, Esther, Mavis, and Ernest; Mr. and Mrs. R. E. Matthews and sons, E. W. and Ray Ellis; Mr. and Mrs. Ellis Matthews; Mr. and Mrs. Richard Newman, Oetha, Donald and Ellen; Mr. and Mrs. E. G. Blackwell and son, Gary Edward; Mr. and Mrs. Earl J. Schwaik and Earline Wilma; Mr. and Mrs. J. Paul Hardy; and Mr. and Mrs. James P. Hardy, Faye Wynona and Burl, all of Perryton.

Friends present for the Wednesday dinner were Miss Julia Bell Rogers, Wheeler; Miss Augusta Matthews, Mobeetie; J. A. Groves, Wichita, Kans.; Virtie Farries, Minnogo, Mo.; Miss Betty Thompson, Miss

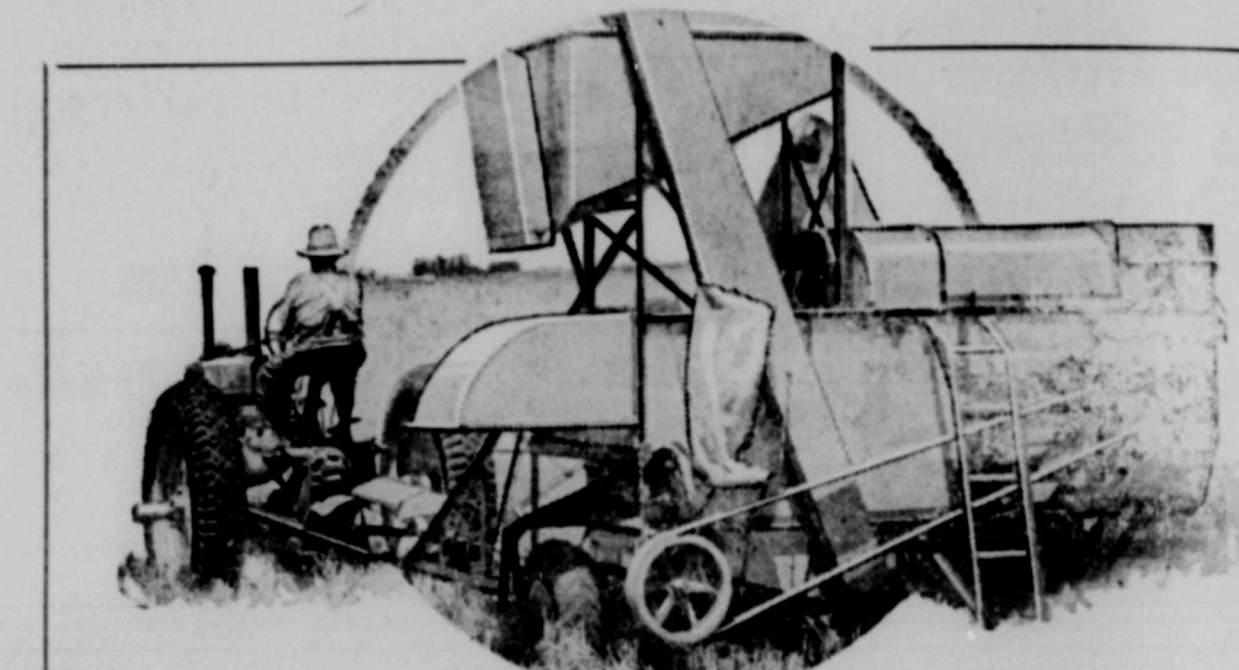

Rosie Barnes and wards, Mr. and Mrs. were afternoon callers.

M. E. Quarterly Conference Sun.

The Third Quarterly Conference of the Perryton Methodist Church will be held Sunday afternoon, June 22, at 2 o'clock, with Rev. T. Barcus, Dalhart, superintendent of the Perryton district, presiding. Rev. Barcus will also preach Sunday morning at the 11 o'clock service.

At the conference meeting in the afternoon, reports will be made on all departments. The pastor and treasurer will also report on the work for the year, to date. Church school officers are to be elected.

According to a new law of the Methodist Church, a delegate and alternate will also be elected at this meeting to represent the Perryton church at the annual Northwest Texas Conference to be held in November.

Mrs. Birdie Bell Died In Seattle

Mrs. M. F. Hethcock received word Thursday of the death of her sister, Mrs. Birdie Bell in the Frank Bell home, Seattle, on June 12.

Mrs. Bell has a number of friends here as she spent the greater part of last summer with her mother, Mrs. Amy L. Bell in the Hethcock home and has visited here on various occasions.

Mrs. L. S. Sigler and children, Tom, Waugh, Mrs. Lester Evans and Mary Kay, and Miss Alta Faye Laubhan, all of Perryton.

Colored Team To Meet Greys

Local baseball fans will have the opportunity to see one of the fastest and most colorful teams in the Southwest in action here Saturday night when the Palmer House All-Colored nine tangles with the Perryton Greys. The game is called at Fairgrounds Park at 8:30 p. m. Admission will be 25c and 50c with tax included.

The Palmer House Team is composed of players from the Negro League Clubs. Many of these stars represent the leading hitters and fielders of their profession.

The following players constitute a powerful defensive and offensive infield: Jack Marshall, former K. C. Monarch; Alex Radcliff, manager, former N. Y. Cubans; Bernell Longest, former St. Louis Blues, player; "Steel Arm" Davis, Rube Foster's American Giants; James Wallace, former Giant Collegians.

Speedy outfielders are composed of Johnnie Bissant, formerly of the American Giants; "Bear Man" Davenport, Memphis Red Sox; Bilbo Williams, formerly of St. Louis Blues; "Putt" Powell, American Giants.

The Palmer House Club has the choice of two good hitting and throwing catchers in: H. Radcliff, Chicago Giants, brother of the famous big third baseman; Shirley Petway, former Detroit Stars.

The team carries the strongest and best balanced pitching staff on the road. Pitchers include: Roosevelt Davis, N. Y. Black Yankees; "String Bean" Williams, Alabama Black Barons; Big "Lefty" Cooke, Pittsburgh Crawford; Lenard Johnson, Mississippi Giant Collegians; John Reed, American Giants.

The probable starting lineup for the Perryton Greys will be Muir, c; Blair, p; Cayler, 1b; Byron, 2b; Spencer, ss; Kelso, 3b; Hergert, cf; Riley, rf; Hart, lf.

Managers Sam Hergert and Bill Cayler of the Greys said that another big game would be played at the Park Sunday afternoon, June 22, starting at 2:30 p. m. The Dalhart club will come to Perryton to attempt to down the Perryton nine. Admission for this game will be 15 and 35 cents. Plan to attend both big games.

Bush to Teach at McMurray College

O. A. Bush, superintendent of schools at Gruver, left Monday for Abilene, Texas where he joined the faculty of McMurray College to teach chemistry during the summer session. This is the second year that Bush has been honored by being selected as a member of the summer faculty.

Mr. Bush, a former principal of the Perryton high school, has made an excellent record at Gruver during the past school year and patrons of the school are well pleased with his administration. He was in Perryton Saturday accompanied by his father, T. E. Bush of Abilene.

Mrs. W. C. Knedler Buried Tuesday

Mrs. W. C. Knedler, who made her home with her daughter, Mrs. J. H. Callham passed away Sunday morning at the age of 83 years, 9 months and 27 days. About two years ago Mrs. Knedler fell and broke a hip and since that time has been seriously ill Tuesday and brought to the hospital on Friday.

Funeral services were conducted in the Methodist Church Tuesday afternoon, 2:30 o'clock, with Rev. W. C. Fisher, pastor, in charge. Music was furnished by the Methodist choir. Pall bearers were Roy Linn, George Yates, Alva Dutcher, R. W. Stephens, George Seitz and Lawrence Ellzey. Flower bearers were Mrs. Lillie Renfro, Mrs. Bill McLain, Mrs. Fred French, Mrs. R. W. Stephens, Mrs. Keith McLain, Miss Tressie Lou Barber.

Ella Orinda Woodson was born August 18, 1857 in Iowa and died in Perryton, Texas, June 15, 1941. On March 2, 1876 she was united in

marriage to William Carrol Knedler. Eight children were born to this union, three died in infancy.

The Knedler family moved from Mount Pleasant, Iowa to Conway, Texas in 1907 and to Ochiltree County in 1925. The husband passed on in 1932 and since that time Mrs. Knedler has made her home with her daughter on Wolf Creek.

Survivors are five children, Henry Oscar Knedler, California; Estel De Knedler, Fairfield, Iowa; Glen Edmon Knedler, Chico, Calif.; Mrs. Flora Exie Callham, Perryton; Vern F. Knedler, Red Bluff, Calif.; 17 grandchildren and 6 great-grandchildren.

Interment was in the family plot in the Ochiltree Cemetery.

If a person whines at every little wind that blows, he is not worth much. Nothing is bad enough to cause one to develop a fault-finding disposition.

Mrs. Robert Gipson came in Sunday from Crosbyton, Texas and will spend a few weeks in the home of her son, Frank Gipson and care for her daughter-in-law, who has been confined to her bed several weeks.

McMillen Club

Different kind of insects were shown and described at the meeting of the McMillen Home Demonstration club in the home of Mrs. Hollis Gossett on Monday, June 16, 2 p. m. Miss Elizabeth Huffhines county demonstrator, was in charge of the program.

Miss Huffhines stressed starting the garden with hardy plants and good tested seed. Study the various insects as they appear. The lady bug should never be destroyed as it feeds on the aphids and eggs of harmful insects. An effective spray for controlling plant lice is one ounce of nicotine to three gallons of water. At the first appearance of the lice, thoroughly wet the foliage, especially the lower surface.

After the business meeting delicious refreshments were served to Mrs. C. S. McGarraugh, Mrs. Bill Anglin, Amarillo, Mrs. D. P. Unruh, Misses Maxine McGarraugh, Ruth Ann Urban, visitors; and Mesdames J. L. Flowers, Willis Hardy, J. L. Bryan, B. L. Barnes, Kenneth McLain, Fred Tarbox, B. E. Plum-

mer, Harvey Urban and the hostess.—Mrs. Willis Hardy, reporter.

Mr. and Mrs. Elmer Bennett and children, Johnny Woodson and Paula Fern, were Father's Day guests in the J. W. Bennett home. Paula Fern remained for a week's stay.

Mrs. B. B. Lee and son, Dale, are spending this week in Dallas. Miss Kathryn LaMaster accompanied them and is visiting in the home of her brother and sister-in-law, Mr. and Mrs. Giltner LaMaster.

The person who believes that life holds rich rewards for him must at the same time realize that nothing worth while was ever secured without effort.

FIGHTING FOR A NEW EUROPE

Poland's part in Democracy's battle for freedom and a new world order is an important one—both in morale and men. Beside the armed forces of the other Allies—Belgium, Czechoslovakia, the Free French, Greece, the Netherlands, Norway and the Nations of the British Commonwealth—the Polish forces fight doggedly on with a singleness of purpose, the destruction of Nazism and its attempt at world domination. Above, typical of the fighting men of Poland ready in England, is a Polish general, while at the upper left is shown a light armored division of the Polish forces in England. A British "Tommy" chats in characteristic companionability with a Polish artilleryman (upper right) while the photos below show the Polish crew of an R.A.F. bomber and a company of Polish infantry, which has been fighting valiantly in Libya.

Waka Club

"Display tall flowers such as larkspur, snapdragon or gladioli next to a wall or on a table in a large hall," stated Mrs. Dan Manning, flower arrangement demonstrator at the Waka Home Demonstration Club, which met in the home of Mrs. Dan Teater, Tuesday, June 17.

Dainty flowers, such as phlox,

sweet peas and columbine can be displayed as a table center piece or where a low bouquet is needed. There are two groups of flowers, formal and informal. Gladioli, geraniums, iris, lilies, roses and gardenias are formal. Cut flowers late in afternoon and soak in water in large container. Split the end of woody flowers so they will absorb more water. Further stated Mrs. Manning.

Wait Preston, O. C. Rogers, Jim Davis, H. N. Elledge, P. W. Wernicke, C. B. Barber, Dan Manning, Marvin Groves, Fred Butler, J. R. Stump, Van Earl Steed and hostess, Mrs. Dan Teater. Visitors attending were Darlene Teater, Nadine Barber, Bonnie Elledge and Edna Debanio. Hinton, Okla., Mrs. C. A. Igou was accepted as a new member. Those present were Mesdames

This Year's Membership Is Largest

More women are now enrolled in the American Legion Auxiliary than ever before in the history of the organization, according to Mrs. Hugh Shotwell, membership chairman of Pierce Johnson Unit, Perryton.

All previous membership records were broken on June 4, when 504-301 enrollments for 1941 were reported at national headquarters. This was an increase of 20,582 over the same date last year, indicating that the 1941 total will reach 525,000.

Thirty-one of the Auxiliary's 52 Departments had exceeded their 1941 membership goals by June 1. Louisiana, with 114.80 per cent, showed the largest percentage of gain, followed by Texas, Florida, Nevada, Idaho, Georgia, Washington, North Carolina, Montana and Oregon.

Pennsylvania had the largest number of members, its total of 44,076 being nearly 1,000 more than ever before enrolled by the Auxiliary in any state. Illinois, with 39,991 members, was the second largest Department.

Increased interest in the patriotic service work of the Auxiliary on the part of eligible women was given by Mrs. Shotwell as the cause for the growth of the organization. The local unit has 115 members.

New Hudson Dealer For This Area

"I wish you could drive in the rain without sweating in a tightly closed car with foggy windows."

This wish, echoed by thousands of motorists during the summer touring season, is granted in all new 1941 Hudson models by means of a rainproof cowl ventilator which can be kept open during rainstorms, declared the Perryton Liquefied Gas Co. recently appointed Hudson distributors for this area.

"This new comfort feature," they explained, "consists of a specially designed air duct and water separator attached immediately beneath the cowl ventilator opening. Incoming air passes over a series of metal baffles, so arranged that when the cowl ventilator is left open during rainstorms the water drawn in with the air is diverted and discharged through the rear of the motor compartment under the hood."

"With cool, fresh air entering the car, fogging of windows is eliminated and driving safety increased. Drafts around doors and windows are prevented because the air coming in through the cowl ventilator builds up the pressure inside the car, so that the air inside is working its way out rather than the air outside forcing its way in. Insect screens are built into the rain-proof cowl ventilators on all models."

"Another important advantage of the new air duct and water separator unit is that it provides a specially designed structure for the quick installation of Hudson's improved Weather-Master with Thermo-Matic Control. In hot weather the improved Weather-Master circulates fresh, filtered, cool air throughout the car and in winter keeps the car at summer temperature with fresh heated air drawn in through the cowl ventilator."

Representatives added that scores of new features appear on all new 1941 Hudson models, and spotlighted is a new style development called Symphonic Styling which makes available for the first time in a full line of cars in standard production, a wide selection of interior color combinations that harmonize with exterior colors.

Mrs. W. B. Reid and daughter, Mary Lou returned home Sunday after a three weeks visit in Okla. They spent some time in Oklahoma City visiting with Mr. Reid's parents, Mr. and Mrs. W. J. Reid and in the home of her brother, J. R. Reid and family, and in Madill visiting with Mrs. Maurice Lampe, sister and Mrs. Lela Reid, mother of Mrs. Reid. On their return, Mr. Reid met them in Shamrock.

Panhandle Streets to Receive New Topping

A protective top coating for 31 blocks of Panhandle's streets has been ordered by the city council and work will probably start within the next few days.

Much of the city's streets which had been topped several years ago are rapidly breaking up, a survey showed, and it was believed that the new top coat would add up to seven or eight years to the life of the caliche base streets.

Topping is also being applied to caliche base county roads east of Panhandle. All loop streets will be topped in the city project.

Work should have started this week but has been held up because of delayed asphalt shipments.—The Panhandle Herald.

Mr. and Mrs. C. W. Claybaugh, Liberal, Kans., spent Saturday night and Sunday in the J. N. Conley home. Their son, Charles Conley is staying in the Conley home.

Pat Woods came in Friday from Berkeley, Calif. to spend the summer with his grandparents, Mr. and Mrs. C. E. Woods.

Mr. and Mrs. Jay Oxford and son, Jay Mac, Amarillo were guests Saturday night and Sunday in the W. E. McMillen home.

Fine Printing at reasonable prices at Stewart's.

Buy Tires Now, Be Safe

The prospect that civilian use of rubber may be curtailed because of mounting national defense requirements for the vital material, emphasizes the importance to America's motorists of top quality tires and other rubber products, J. K. Kelly, manager of The Goodrich Store, declared today.

"While no one in America can predict the course of future events and their effect on our nation's rubber supply, the fact that 97 per cent of the rubber we use comes from the Far East, halfway around the world, is a matter of grave concern," Mr. Kelly said.

"Because of the uncertainties concerning our rubber supply, motorists should obtain the highest quality tires possible for they may have to last a long time and buying them now may assure many valuable miles of extra service and safety in the future when, if cut-in-time programs are in effect, tires may be difficult to obtain," he added.

He pointed out that while rubber is more valuable to America today than ever before because of its vital applications in national defense, we are consuming it at the greatest rate in history.

"As of May 1 our nation's rubber supply, including manufacturers and dealers stocks and government reserves, as well as the tonnage afloat on the high seas bound for our shores, amounted to little more than seven months' requirements at the current rate of consumption," the store manager asserted.

According to Mr. Kelly, approximately 70 per cent of the rubber consumed in America is used in the manufacture of tires and tubes for automobiles, trucks and buses. Tires and tubes also represent one of the major national defense uses of rubber to equip military trucks, combat units and scout cars.

"The quality tire," he continued, "is built for long trouble-free service of the finest materials obtainable. Such tires as the B. F. Goodrich Silvertown line, containing Duramin, the combination of age resisters that imparts long life and durability to rubber, utilize valuable rubber to the maximum degree in terms of service and safety."

Dr. Powell, eye, ear, nose and throat specialist, will be in Dr. Kengle's office Tuesday, June 24, 25-11-c.

Mrs. Fred Huston, and sons John and Mickey, left Tuesday for Isabel, Okla., to look after harvest interests. They will spend the time in the home of Mr. and Mrs. Roger Reames, daughter of the Hustons.

Mrs. Elmer Holt and son, Emmett Lee, and her mother, Mrs. French Lawrence came in Saturday from Throckmorton and are visiting in the home of Mr. and Mrs. Herbert Key.

Gale and Don Rogers and their cousin, James Russell of San Antonio, entered the L.Z. boys camp for a six weeks stay Saturday.

Twenty-one 'Girls States' This Year

Twenty-one "Girls States" are being sponsored by the American Legion Auxiliary this year to give selected high school girls special training in citizenship. It has been announced by Mrs. E. W. Thomas, Americanism chairman of the Perryton Unit of the Auxiliary.

The "Girls States" are modeled after the "Boys States" which have been conducted for a number of years by The American Legion, and which have been widely praised as the most practical method of teaching the duties of a citizen in a democracy. In them, the students establish and operate a complete state government of their own, learning how to make the machinery of democracy function properly by actual practice.

"Girls States" are being held this year in California, Delaware, Georgia, Illinois, Indiana, Kansas, Louisiana, Michigan, Missouri, Nebraska, New York, North Carolina, North Dakota, Oklahoma, Oregon, Pennsylvania, Texas, Vermont, West Virginia, Wisconsin and Wyoming. Practically all are being held in June or July and will be in session one week. Several thousands of girls specially selected for scholarship and leadership will be given advantage of the training.

"With democracy under attack throughout the world, and its value being challenged by radicals in our own country, we of the Auxiliary believe it is vitally important to

make American democracy function with increasing effectiveness," said Mrs. Thomas. "By giving our young people actual experience in the duties of citizenship in the 'Girls States,' we believe we are contributing materially to the future security of our free form of government. "In the 'Girls States' they elect their own officers from Governor on down through the county and local officials. These officers then carry out the work of their offices, the legislature meets to enact laws, and the whole machinery of democracy is operated in miniature by the girls. The week's training also includes citizenship studies and talks by men and women who are actually engaged in directing the affairs of our state and local governments."

LZ Camp for Boys Opened June 14

The L.Z. Summer Training Camp for Boys opened Saturday, June 14, with 30 boys registered for the six weeks. Boys are attending from Elkhart, Tulsa and Marlow, Okla., Houston, Merkel, Stamford, Lufkin, San Antonio and Perryton.

This camp for boys, directed by Mr. and Mrs. Tom Ellzey and their sons, is held each year at their L.Z. ranch on Wolf Creek. Leaders, a registered nurse and other staff members are in charge of activities. The camp will close July 26.

preached Gentiles as well as Jews benefited from it. Many converts had not been brought up in the Jewish way. They did not understand the significance or the need of rites to which the Jews had been accustomed, which were deeply imbedded in their religious practice.

Should these practices be enjoined on the Gentile Christians? The wise leaders among the Jews said that they should not, and wisdom in this conference came particularly from James, the brother of our Lord, who made the influential speech that is recorded in the lesson.

IN brief, the requirement was that the Gentiles should practice the Christian way, that they should not give offense to their Jewish brethren by obtrusive disregard of Jewish customs, but that neither should they be under obligation to adopt these customs except as their own consciences should direct.

Would it not be well if all the problems of worldwide Christianity could be settled today upon so wise and practical a basis and with such courteous consideration for the ideas and rights of all?

As the pastor is not able to be present while convalescing following a recent operation, the Sunday morning church hour will be devoted to a special program commemorating Father's Day. Mrs. S. B. Lewis will direct the numbers.

Christian Science

"Is the Universe, Including Man, Evolved by Atomic Force?" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, June 22.
The Golden Text is: "The Lord is a great God, and a great King above all Gods. In his hand are the deep places of the earth: the strength of the hills is his also" (Psalms 95:3, 4).
Among the citations which comprise the Lesson-Sermon is the following from the Bible: "The foolishness of God is wiser than men; and the weakness of God is stronger than men" (I Corinthians 1:25).
The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Ether Mind produces, or it is produced. If Mind is first, it cannot produce its opposite in quality and quantity, called matter. In spiritual history, matter is not the progenitor of Mind" (page 551).

Methodist Church

W. E. Fisher, Pastor

"The Unsettling Sun"
"Varieties of Religious Work in India"
The pastor will speak on the first above named subject at the night service. Miss Francis Finch will give the fifteen minute pre-sermon address in the last named subject at the morning hour of worship. Dr. Barcus, Dalhart, superintendent of the Perryton district will preach. Third quarterly conference will be held at two o'clock Sunday afternoon.

Friendship is a sacred trust. Of all the low vermin, contemptible cusses in the world, the chap who deserts a friend is about the cheapest and deserves the least consideration.

NOW
YOU CAN STORE
YOUR PERISHABLES!It's the Safe, Sure
Way of Keeping Foods!

You've often wished you could slaughter your own meat and preserve it in some way. Now you can do just that, and keep fruits and vegetables fresh for months. Space in this modern refrigerated locker plant is extremely reasonable.

The Farmer's Friend
Perryton Food BankQueen Mother Thanks
Bundles For Britain
By Name In Letter

New York—Queen Mother Mary of Great Britain singled out Bundles for Britain to mention by name in a letter received recently. The letter, written to Miss Constance Collier, British actress now in this city, said in part:

"Her Majesty will be glad if you will tell the members of Bundles for Britain and all associations working for England, how deeply Her Majesty appreciates the splendid work they are doing to help Great Britain in her desperate struggle to save the liberty of the world."

"It is not only the immense material help which these associations are bringing to the sufferers from war-torn bombings of our cities and countryside, but also the message which each thing carries of the support and understanding of the members of the association and of the people of the United States of America, an understanding which is every day becoming greater and more apparent to the world."

Report on Sales
Of Defense Bonds

AUSTIN, Texas, June 18—The County and local organizations of the Defense Savings Staff in Texas continue their work with many innovations that are getting excellent results. State Administrator, Frank Scofield, stated: "It is the initiative being displayed by the local committees over the state that is so encouraging to our office. Certainly no one man or small group could advance all the fine ideas that are proving so effective in this work in our state."

Chairman Lewell Lafferty of the Tarrant County Committee reports that Craig Wood, winner of the American Open Golf Tournament recently held at Fort Worth's Colonial Club, displayed the fine American spirit of today by investing a substantial portion of his prize money in Defense Bonds. Appropriate radio, newsreel and newspaper publicity was given in the

ceremony when Mr. Wood made his purchase.

In Mineola, Superintendent of Schools, Ben A. Copas, reported that Defense Bond and Stamp day was held recently in that city's schools. The children there purchased more than \$2,000 worth of Defense securities on that day alone.

Jefferson County Chairman, A. E. Weaver, reported that a full hours radio program was put on one Sunday afternoon by that County's three radio stations under the direction of Beaumont Chairman R. F. DuBois. This program featured a patriotic address, a negro quartet, orchestra music and a cowboy band. Listeners were requested to phone in subscriptions, and about \$30,000 was subscribed.

The Fort Worth National Bank is featuring Defense Bonds and Savings Stamps exclusively in the plugs that accompany their giving the correct time over their audichrone to some 15,000 daily inquirers.

BIG BAT BOOMS

Rudy York, big Detroit first sacker, is making the Tiger fans forget somewhat the loss of Hank Greenberg to the Army. Rudy's big bat is booming out enough home runs to pace the American League.

USO Funds Erect Clubs

DALLAS, June 18—Texas will rank first in benefactions to be bestowed by the United Service Organizations for National Defense. This is due to the fact that Texas will train more men in the service than will be trained in any other state. In addition to the training camps Texas ranks high in the distribution of war defense contracts which are adding thousands upon thousands of workers to industrial payrolls, according to E. B. Germany, Dallas, U. S. O. regional chairman for four southwestern states.

Actual construction on service club buildings has already begun in the North and it is expected many

of them will be built in Texas within the next few months, Germany said. These club buildings will be erected in towns and cities near troop concentration camps and in the districts where large numbers of defense workers are employed.

The first of the USO Service Clubs to be started is at Wrightstown, N. J., which is in the heart of an area of defense and military concentration. All clubs are to be staffed by civilian workers under the direction of service organizations sponsored by the USO.

Texas is now driving to raise its quota of \$400,000, its share of the national fund of nearly \$11,000,000 to cover the first year's operations of the clubs. Three congressional districts have reported complete county organization and many counties have already reached their designated quota.

Office Furniture at Herald office

Lake View Tattler

Mrs. Ed Hooper has recovered from her recent illness, and Mr. and Mrs. Hooper called in the John Sims home, Wednesday.

Mr. and Mrs. Dennis Reed and daughter Margaret shopped in Spearman Monday. Mrs. Reed and Margaret visited in the S. J. Powell home, Tuesday afternoon.

Mr. and Mrs. Hollis Gossett and daughters, Gayle and Dora Lee, spent Sunday afternoon in the Knox Pipkin home. Leona Emmick had chicken dinner with the Pipkins Friday. Mrs. Pipkin sent the writer a fryer. I am glad the chickens are getting ripe.

If you want something to eat just anytime in the day call in the Dan Nitschke home. There is always something tasty in their cooler. Mrs. Nitschke has taught Bertha and Katherine how to serve attractive refreshments.

Mr. and Mrs. C. Igou and sons, Jack and Delmar, visited in the Gilman Flowers home, Sunday.

The ladies who called in the W. M. Deck home last week to welcome Mrs. Deck home were Mesdames Dennis Reed, Myrtle Deck, Edwin Deck, W. Y. Williams, Verna Kinney, Olan Williams, S. J. Powell, and Misses Margaret Reed, Maxine and Helen Kenny and Leona Emmick.

Mr. and Mrs. Olan Williams were caught in a rain Sunday afternoon on their way home from Spearman.

Mr. and Mrs. Fred Turner, near Notla, had as Sunday dinner guests Mr. and Mrs. Sam Nitschke and children, Mayme, Luther and Bobby.

Mr. and Mrs. A. A. Engelman and children Evelyn, Marlin, Leon, Venson, Quentin and Clarence Lee.

Mr. and Mrs. Cliff McGarragh and daughter Maxine transacted business in Perryton, Tuesday.

One morning last week, the writer stopped at the Dennis Reed home. They were not at home, but as she started to leave, wondering the direction of the wind, she glanced at the weather vanes on the Reed home. Imagine the surprise, when one was pointing south, one to the northwest and one to the east. She was worried if she might be a little "teched in de haid." Going on to the Blodgett's, she looked at their weather vanes. What do you know? They were pointing the same three directions. She just knew this time that she wasn't cuckoo, as it must be the weather vanes. What do you think?

The Blodgett home is a very pretty place with so many tall trees as a background for the white stucco house with a red roof. Mrs. Blodgett was sitting in a chair and welcomed us with a smile. The room was fragrant with the aroma of many beautiful flowers Mrs. Ralph Blodgett had arranged.

Callers in the S. J. Powell home Monday were Mrs. John Kenny and daughter Kathleen, Mrs. Sam Nitschke and children Mayme, Luther and Bobby. Mayme brought a bouquet of mixed flowers from their flower garden.

Gayle Gossett was delighted to have Frances Ann Flowers spend the night with her Saturday.

Mr. and Mrs. Clem Flowers spent Sunday in the Gilman Flowers home.

Mr. and Mrs. Walter Emmick and daughter Shirley Ruth were visiting in the Powell home, Tuesday morning. Shirley is spending the week with the Powells.

My neighbor told me that she is beginning to be just a little rainy. Every time she sees a cloud she runs for her umbrella. One morning last week while sweeping she was unconsciously stepping high—due to being in the habit of wearing her galoshes so much. She stepped so high that her knee flew up and hit her chin.

It is pathetic to see a person try to do something for which he is not fitted. A business man thinks he can make a public address, a salesman thinks he is a humorist, a lawyer thinks he is an authority on theology, a doctor thinks he is capable of prescribing for our economic ills. One of the hardest things we have to do is to "stick to our knitting" realize our own limitations.

The hard-boiled, two-fisted, cold-blooded individual is not welcome in any society. People shun him. He causes chills to creep up and down the spine of a sensitive person.

The way to acquire a philosophic calm is to place yourself in a position where you may be criticized by many people. If you learn to be calm and collected under fire, you have a chance of being happy in this life.

The foundation on which all happiness rests is congenial work, well done.

LE'S LUNCH

HIS INSURANCE POLICY

That Reminds Me

BY RALPH HERBERT

IF Secretary of Agriculture Wickard's most recent appeal to the American people is heeded, the cheese sandwich and that weird combination called a "cheeseburger" will begin to disappear from the menus of the lunch counters. The answer to the puzzle is—Great Britain. Among the British people cheese has always played a larger part as a food element than here in the United States. Bread and cheese and a pint of "bitter"—a variety of bitter beer—in thousands of cases comprise the lunch of British workers in heavy industries. In ordinary times the British had no trouble getting cheese from New Zealand and Canada as well as from nearby countries like Ireland and Holland. In addition, they manufactured a considerable amount of cheese themselves. Now Holland is in the hands of the Nazi enemy, New Zealand is very far away with its distance enhanced by the ship scarcity, and at home in Britain milk is needed for babies and sick people. Hence John Bull turns to Uncle Sam and virtually says:

"Ship us all the cheese you can spare."

In the last war, Americans heeded the slogan: "Save wheat and meat for our Allies."

The Secretary of Agriculture says that many citizens have asked him personally how they can help the British in their fight for existence. At the present time he says his answer is: "Save cheese so we can send more to the British."

Stocks of cheese in the United States are 29,000,000 pounds ahead of what they were last year. If a considerable part of this stock, plus what Canada has, can be successfully sent to Great Britain one great gap in the food situation there will be filled. There is need for every bit of dairy products that the United States and Canada can spare.

No. 1 Continued from Front Page

"The Lord is in His Holy Temple," with Ruth Neufeld, pianist; call to worship, Danny Ellis; hymn, "Follow the Glean"; scripture reading, Luke 10, Virginia Caldwell; prayer, Teddy Perkins; hymn, "Help Somebody Today"; story, "The Healer Comes," Ruby Ann Patton; hymn, "Take My Life and Let It Be"; benediction in unison by intermediates; postlude, "Onward Christian Soldiers."

Enrollment

Children enrolled for the two weeks school in the four departments are:

Intermediates: Juanita Estes, Jo Layne Allen, Trilix Caldwell, Colleen Records, Teddy Perkins, Danny Ellis and Ruby Ann Patton.

Juniors: Patsy Barlow, JoVeta Belvel, Duane Bell, Mildred Boren, Dan Buchner, Jerry Cartwright, Carol Cook, Darrell Cook, Lois Cook, Roberta Clark, Mary Jo Craig, Elaine Dietrich, Zola Mabel Donley, Donald Graves, Laura Ruth Hall, Verlin Hartman, Camilla Kelley, Kathleen Lee, LeVesta Given, Marianna McGibbon, Dean Mayberry, Colleen Milledge, Grace Payne, Neida Ruth Patton, Donva Reitz, Donald Rogers, Christeen May Records, Jim Records, Myron Shrader, Glen Shrader Jr., Wetah Jean Shrader, Gene Stinson, Jeanne Truax, Bennett Thomas, Jean Trammell, Cavita Thurman, Duane Thurman, Milton Todd, Ruth Wade, Bernard Wilson, Carl Williams, Morris Wilson, June Whisenant, Eleanor Witt, Jimmie Witt.

Primaries: Angelita Rodriguez, Mary Louise Rodriguez, Betty June Hall, Roma Fay Hawk, Winifred Clennan, Mack Suito, Elaine Graves, Jack Hargrave, Curtis Liecht, Donald Lou DeArmond, Billy Dean Seymour, Ogden Wilson, Rolland Thurman, Richard Perkins, Dorothy Hargrave, Fay Marie Beck, Darlene Payne, Shirley Keim, Maressa Sue Pittman, Connie Kershaw, Dickie Hall, Bob Dunlavy, Gene Caldwell, Nancy Lee Dodd, Dan Mayberry, Charline Mounts, Joyce Boston, Vernon Wilson and Anna Lee Cheek.

Beginners: Gayla Faye Milledge, Carolyn Dunlavy, Ronnie Symons, Gene Hoskins, Yvonne Rupperecht, Charles Rupperecht, Shirley Ann Smith, Mary Lou Shrader, Marilyn Richardson, Kay Caylor, Delbert Wilson, Melvin McGarragh, Dan Bell, Larry Pinson, Bobby Wilson, Billy Jean Sutor, Don Dietrich, Donald Patton, John Witt, Jean Ackley, Larry Norris, Janice Brice-Nash, Kay LeMaster, Sammy Caldwell, Janice Miller, Lois Beck, Patsy Sue Cheek, Betty Jane Witt, George Milton May, Marie Pittman, Adelaide Williams, Lyndol Riley, Ralph Wilson Allen, Ronnie Witt, David Kent, Phyllis Vernon, Barbara Lynn Hawk, Addye Lou Dodd and Mae Estes.

Special Entertainment

The Beginners are to have a Chinese Tea at the church Thursday afternoon, June 19. The intermediates will have a picnic Friday afternoon. Other departments have not announced their plans.

Little Miss Barbara Jo Burns, Berger is spending this week visiting with her grandparents, Mr. and Mrs. R. H. Holland.

Vaccinate Horses Sleeping Sickness

E. W. Thomas, County Agent, reports that a number of stockmen in the county have vaccinated horses for sleeping sickness. The protective vaccine which has been developed in the last two years is a boon to horse owners. Heretofore, only the curative serum has been available and this material has been unsatisfactory and expensive.

One case of sleeping sickness has already developed in the county and it is likely that the disease will claim other victims unless they are vaccinated.

No. 3 Continued from Front Page

Pollett, agt-at-arms; Mrs. R. B. Orrill, chaplain; Mrs. Jack Allen, parliamentarian; Mrs. P. L. Garrett, historian; Mrs. Dewey Allen, Mrs. Blansit Carter and Mrs. Tom Denman, executive committee members. The president appoints her own secretary.

The elections followed a pot-luck supper. A. H. Hogland, commander, and A. P. Spicer, adjutant, were in charge of the Post business session. Mrs. Dewey Allen, president, and Mrs. H. I. Hudson, secretary, presided at the Unit meeting. Hostesses for the supper were Mrs. R. P. Hurn, chairman, Mrs. Gene Brillhart, Mrs. Frank Winn and Mrs. Ben Peckenpaugh.

New officers will be installed at a picnic on Monday, August 4. No meetings will be held in July. The following committee was appointed from the Post and Unit to formulate plans for the August 4 meeting: E. W. Thomas, M. W. Truax, Robert Lawrence, Mrs. Jack Allen, Mrs. F. H. Cox and Mrs. R. B. Orrill.

No. 4 Continued from Front Page

Saturday night Ochiltree Wheat Queen coronation program consists of Glenn Truax, chairman; C. H. Williams, Mrs. Dewey R. Allen and Mrs. Glenn Truax.

One of the most important committees is the Wheat Queen committee. This committee is headed by Miss Opal Foglesong assisted by Misses Bette Bryan, Elizabeth Huffhines and Sara Robinson. Many entries have been secured and wheat field pictures of several of the aspirants to royalty have been taken for release to national press associations.

Publicity is being handled by a committee headed by W. H. Lance. Carl Ellis and Van W. Stewart are members. Mr. Ellis, whose hobby is photography, has secured some excellent still shots that are being used for local and national publicity.

Mr. and Mrs. Sam Hergert and Dr. and Mrs. G. L. Kengle were in Pampa Thursday evening to attend a base ball game and to visit in the home of Mr. and Mrs. Irvin Hergert.

Miss Mildred Hogland, who has been teaching in Skellytown is spending the summer with her sister, Mrs. Ray Veale.

Hospital Notes

Miss Lucille Rupperecht underwent a major operation Tuesday. Her condition is satisfactory. Mrs. Geo. Clennan R. N. is caring for her.

Shirley Dean, four year old daughter of Mr. and Mrs. J. W. Rice of the Huntoon community, has been a medical patient since Saturday.

Elder J. B. Hardy entered the hospital Saturday. He has pneumonia but is improving and will probably be able to return home Friday.

Dale McLain, a patient since May 29, is able to sit up and will probably go home in a few days.

Mrs. H. W. Hampton was a patient Tuesday to Thursday.

Mrs. A. L. Carter Jr. was allowed to return to her home south of town Sunday. She underwent an operation on June 4.

A son was born to Mr. and Mrs. Joe Lallemon on Thursday, June 12. The mother and son were removed to their home at the Booster Station Tuesday.

Vincent Cochran was discharged Saturday after a weeks treatment for an infected hand.

Miss Inesene Mounsey returned to her home in Booker Saturday. She had an appendectomy on June 4.

Miss Marita Lucile Taylor, Texhoma, and Miss Isabel Cagle, Hardisty are assisting at the hospital.

No. 2 Continued from Front Page

Carter, Carmen Keith, Norma Flowers, Keith Flowers, Carol Lawrence, Barbara Jean Jines, Walter Blacksten, Preston Jines, Don Stephenson, Bill Stephenson, Irvin Buchanan Jr., Jimmy Dick Key, Rose Daniels, Dora Mae Baker, Wynona Phippa, Betty Lu Buchanan and Mary McClung.

Visitors to this department, in addition to the mothers, were Rev. McClung, R. L. Duke and I. R. Buchanan.

Primary Department
Mrs. Mark Burton headed the primary department of the school and was assisted by Mrs. Chester Williams, Misses Peggy Thomas, Mary Francis Crow and Norma Lawrence. Students in this division were Jerry Key, Patsy Miller, Patsy and Thomas O'Dell, Helen and Shirley Noel, Bertie Rae Moon, Bette Lawrence, Ann Wedgeworth, Velma Phippa, Roberta Doggett, A. B. Johnson, Myrtle Copeland, Richard Blacksten, Texas Cunningham, Leon Blacksten, Fern Jines, Charles Eason, J. T. and Doreen Wright and Joysene Wright.

Beginners Department
The beginners department was in charge of Mrs. Stanley Key. Assisting her during the school were Mrs. S. R. McClung, Mrs. Hugh Shotwell, Mrs. Bruce Johnson, Mrs. Robert Lawrence, Mrs. W. H. McClung, Miss Katherine McLarty and Miss Eulene Wade.

Children enrolled were: Carla Sue Blackmore, Peggy Ann Blackmore, Larry Norris, Billy Noel, Nettie Berlin, Betty Witt, Connie Gerlach, Louella Wright, Jack Wright, Ola Sue Johnson, Roy Francis, Ray Francis, Ray Castle, Charlotte Ann Flowers, Billy Dean Bowen, Billy Payne, Donna Caylor, Sue Williams, Bob Williams, Billy Lee Watkins, Peggy Rae Madden, Velva

No. 8 Continued from Front Page

Week, it can be built into one of the leading events of the Southwest. A few can't do the job. It takes concerted action by everybody. It's a grand opportunity for national publicity for Ochiltree, the banner wheat county of Texas.

Bill Reid of the W. W. Virtue Dry Goods Co. expressed our sentiments exactly the other day when he said he was in favor of the business men up and down Main street making up a fund for paying for the washing of the street when needed. If the city is not able financially to perform this service, we believe it would be money well spent for business to foot the bill. Dust swirling in off the pavement stirred up by every passing car and gentile of breezes comes Main street business men plenty of money each year in damaged merchandise and labor for dusting and cleaning.

W. J. Caserta, supervisor of all lake projects in the Amarillo region of the Soil Conservation Service, was here this week checking on improvements at Lake Fryer. He announced that Earl Carter has been named as concessionaire at the Rita Blanca lake near Dalhart.

Back to Lake Fryer, there will be no workers from the WPA relief used in improving or maintaining the project during 1942. The building and strengthening of concrete spillway abutments will be completed by the Soil Conservation Service, using enrollees.

Phippa, Donald Cooper, Marion Eugene Boren and Barbara Kay LeMaster.

And for all the people of this community who are interested in a real recreational spot at Lake Fryer, we are telling you that there will be a change in concessionaires at Lake Fryer, probably before July 1.

Alex Johnson dislocated his left shoulder Monday while working on a new granary at his farm northwest of town. Haven't figured out yet whether Alex is sorry or glad because he's going to get out of a lot of hard work during harvest.

from the Perryton camp.

No. 6 Continued from Front Page

gave notice of appeal. Brown has 90 days to file his record with the higher court.

Judgement was rendered by Judge Allen in accordance with the verdict of the jury invoking the death penalty. Sentence will be pronounced later.

Judge Allen stated today, "In a death penalty case as provided in Art. No. 769 of the Code of Criminal Procedure in this state when an appeal is taken from the trial court to the Court of Criminal Appeals at Austin, pronouncement of sentence is suspended by the trial court until the decision of the Court of Criminal Appeals is received by the clerk of the district court in which the trial was had."

Mrs. Manie Wood and daughter, Patricia Ann, returned home Sunday from a two weeks visit in Sweetwater with relatives of Dr. Wood and in Georgetown with Mrs. Wood's parents, Mr. and Mrs. W. P. Wales. Mrs. Wales accompanied them home for a few weeks stay. Dr. Wood met them in Sweetwater Saturday evening.

this project.

Under this program, the county provides the necessary materials for doing the work while the federal government provides the funds for all labor thereby giving local citizens employment. Mrs. Fannie D. Jackson and Mrs. Mattie C. Nash are now employed to do the indexing work, which will probably take from two to three months.

Upon the completion of this project, a typed index will be on file in the County Clerk's office, and it will be an easy matter to check on your birth record if you were born in this county.

Mr. and Mrs. Maurice Wagner were in Hugoton, Kan., Sunday to attend a Fathers Day gathering in the home of his father, Bert Wagner.

Bob Parrish has accepted a position as pharmacist at the City Drug and began duties Monday. Mr. Parrish, who has been associated with this firm before, resigned a similar position in Pampa before coming to Perryton.

Mr. and Mrs. W. C. Williams, Leveland, Miss Eva Glasgow, Clovis, N. M., and Mr. and Mrs. Bill Glasgow, Guyton, were week-end guests of their mother, Mrs. Emma Glasgow.

Mr. and Mrs. Basil Duke, Darrouzett were Sunday guests of her sister, Mrs. Jessie LeMaster.

Miss Betty Lamb, Amarillo, came in Wednesday morning for a visit in the home of her grandparents, Mr. and Mrs. J. N. Conley. She plans on going to Liberal, Kan., the last of the week to stay in the home of her aunt, Mrs. C. W. Claybaugh.

Mr. and Mrs. Dan Archer left Sunday to attend a Rotary convention held at Denver, Colorado, this week. Mr. Archer is president of the local Rotary club.

The man who has no religion in his life is a dangerous person. He may not subscribe to a creed, adhere to a dogma or affiliate with a church, but his spiritual life should be cultivated if he expects to be happy and contented.

Dr. and Mrs. O. L. Kengle were in Eluid, Okla., Saturday night and Sunday to spend Fathers Day with his father, H. V. Kengle.

Horace Lackey returned home Wednesday from a trip to Memphis, Tenn. Mr. Lackey is dealer for Firestone tires and he won the trip, all expenses paid. He and five other Panhandle dealers went by plane and enjoyed an instructive trip through the tire factory.

Mrs. J. C. Brown and children, John Lawrence, Linda and Joan, came in Saturday from their home in Inglewood, Calif. The children plan to spend the summer with their grandparents, Mr. and Mrs. Ecton Lawrence. Mrs. Brown will be here a few weeks.

No. 5 Continued from Front Page

are eligible for the training.

If enough players can be secured Mr. LaMaster plans to organize several teams and arrange a schedule of games. Contests will also be arranged with out-of-town teams.

Bats and old baseballs are being furnished for the school by the American Legion. Every boy in the community is invited and urged to turn out. No previous baseball playing experience is necessary to enter the school.

Chevrolet to Meet Needs Of Vacation

The 3,065,000 miles of highways in America, upon which virtually "one-third of a nation" will travel on vacation jaunts this summer, play a second vital role as the arteries of a vast dollar flow from section to section, state to state, coast to coast.

American highway tourists will spend between five and six billion dollars for vacation tours this year, according to estimates of travel bureau experts.

By U. S. estimate, approximately half the 27,300,000 cars registered in the country will carry their owners on summer jaunts averaging 3,300 miles—a greater distance than from the Atlantic to the Pacific. With an average of 3.5 persons per car, this represents some 47,775,000 Americans en route over the highways.

Virtually every fourth car on the road today is a Chevrolet, according to William E. Holler, Chevrolet general sales manager, who has headed an organization that has sold a million cars a year during the seven years he has held that position. "Assuming that Chevrolet owners are represented among the summer tourists only in proportion to the number of Chevrolets as compared with all other makes," he said, "by the law of averages, Chevrolet owners will spend more than a billion dollars on summer vacations."

"While some areas are distinctly 'tourist country,' they are not the only regions to profit from tourist travel," Mr. Holler said. "And, particularly enough, recreation is far from the largest single item of expenditure on the tourist's budget. Actually, travelers spend 25 per cent of their vacation allowance in retail stores. A total of 21 per cent is spent in hotel dining rooms, restaurants and roadside dining places. Twenty per cent goes to hotels, tourist camps, tourist homes and for other accommodations. Another 20 per cent is required for gas, oil, repairs and garaging of the car. Only eight per cent is spent on recreation, with a final six per cent allotted to refreshments, soft drinks, not dogs, and what have you."

"But the important single thing to remember about this billion dollar Chevrolet owners will spend this summer is the broad spreading of funds that it represents. Some 20,000 hotels in all sections of the country, 15,000 tourist camps, 300,000 tourist homes, and 325,000 gas stations—not to mention the retail stores, restaurants, souvenir

public library can render to the citizens of a small town.

A very fine book, "Statesmen of the Lost Cause—Jefferson Davis and His Cabinet," by Burton J. Hendrick, was presented to the library this week by Mr. Morris M. Payne, who has also given several other valuable books for your use.

shops, etc.—will share this huge disbursement.

"Since approximately 85 per cent of vacation travel is by motor car, thousands of communities off the beaten path receive a portion of this fund. Even the areas not usually classed as 'tourist attraction' profit from the passage of our nomadic American."

"According to the Automobile Manufacturers Association, America tops all nations in the amount of highways open to its citizens. Second is Russia, with 1,682,000 miles; Canada has 599,040 miles; Japan, 501,766; and Australia, 485,546.

"The highways which take our citizens out to the 'wide-open spaces,' which permit of vacation jaunts to new and different scenes, which speed this flow of wealth from one section to another, leveling off the highs of the industrial areas... those same highways serve yet another purpose. They allow us in America to get to know one another, erase sectional lines, and

build up a unity of thought and feeling that is especially significant at this time.

"If for no other reason, the value of the motor car—the passenger car that serves us for business and recreation as well—becomes apparent. If it brings Americans to a greater realization of the 'oneness' of their outlook, if it knits more closely the 48 states, if it gives the hard pressed industrial worker opportunity to 'get away from it all' for two weeks or so—then surely the motor car may be said to be playing a vital role in national preparedness."

Living is a game. If it is played successfully, it results in happiness and contentment. If it is played with selfish motives and unportsman-like conduct, it is a failure. Blessed is the person who early learns how to live, and who is able to chart his course with intelligence and with a proper estimate of the values of life.

Cleo Callaway with the U. S. Navy in Hawaii Tells of the Island of Maui

Cleo Callaway, a former Perryton young man, has been with the United States Navy, Asiatic Fleet division, for the past ten months. Since volunteering ten months ago, Cleo has been promoted to seaman first class, with flight rate. He started at \$21 per month and is now drawing \$61.96 per month.

Cleo, the son of Mr. and Mrs. Chas. W. Callaway, was born here, moving to Canadian several years ago with his family, when his father was transferred to the general office of the White House Lumber Company.

When Cleo was with the U. S. Navy on the Island of Maui, Hawaii, he wrote the following description of the island, giving an interesting account of his visit to the island:

"Just This Side of Somewhere There's a Lovely, Lonely Island, A Lotus-Languid Island in a Molten Opal Sea."

The Island of Maui

In the group of islands known as Hawaii, one island can be observed with interest, not because of its large cities, its great armed forces or its noted vacation spots, but more for its striking beauty and the simplicity and friendliness of the inhabitants.

Being about one hundred miles by water from the city of Honolulu, and off the regular steamship lines, this dream island is seldom seen by the throngs of vacationists who each year sail westward from the states to gaze in wonder at "beautiful, blue Hawaii," the land where all nations meet. After leaving Honolulu one is hardly out of sight of Oahu Island before the towering mountains of Maui loom into view, and the distant purple pagantry gives a realization of another of nature's masterful creations.

Coming into the airport near the small town of Paunaloa one might expect to see the last outpost of civilization, but just one glimpse of this quaint village tells that here, away from the rest of the world, on this island are people as modern and up to date as any average American. You will be greeted with friendly hospitality and in a well-spoken English language. There are many slanted glances, curious, but still friendly. It is easy to see that these island natives will keep their doors wide open to all visitors if their race is respected and their standards of civilization are not lowered. It is true that they may be darker in color, but even as such enjoy the rights of true American citizens. At one time many of their ancestors were also white and only through the intermingling of the races are the present Hawaiian people derived.

Legends tell that the first white man to the islands was shipwrecked and when found on the shore appeared to be dead. To him the natives gave the name "Holly" which means—without breath. So it is to this day that the few scattered white inhabitants of Maui are known as "Hollies."

Leaving the airport and traveling in a modern streamlined bus over three-lane paved highways to the various villages one can easily see the beauty spots of the island. In Waikeke, a city of about three thousand inhabitants the county seat is located. Here is found all evidence of a well organized democratic government. The city hall, wherein is found the mayor, police, fire, water and light departments, is surrounded by a lovely park that even a governor would cherish. Every home has its own beautiful lawn and an array of the most precious flowers known. This little city at the foot of the mountains is truly a paradise of beauty, a scenic wonderland seldom equaled.

Traveling further about the island one might see the expansive beaches, the coral reefs and fishing banks, and only a few miles out in the blue Pacific, the mountainous peaks of the islands of Lanai and Molokai, standing like some great guardians and obscured only by the shadows of darkness. It is here along the shore-line that one can see the natives indulging in some of their favorite pastimes of fishing and swimming in the surf.

While resting in the shade of a

swaying Palm the occasional glimmer of flying fish can be seen as they glide along just above the surface and then dive back into the water.

Continuing on through this dreamland the many fields of sugar cane, corn and pineapple come into view. Many fruits unknown to the average man are found here in abundance.

The manner in which the farmers harvest their crops of sugar cane is very interesting. When the cane becomes ripe for cutting it is burned so that the leaves and extra growth are eliminated, and the stalks are left unharmed. A few days later modern machinery is taken into the fields and the cane is cut close to the ground. Large cranes then rake the cane into piles and a small portable railroad is laid in a criss-cross about the field, and the cane is loaded by the cranes onto small flat cars and transported to the mill which is only a few miles away. An entire harvest is completed in about two days, and the farmer is ready to start planting again. He doesn't wait for seasons but raises his crop all year round.

Now that the crop has been sold it is time to celebrate, and this is done by having a Hawaiian feast, known as the Luau. All friends and neighbors wear their flower leis and meet for the gala occasion. The dinner is first and consists of all sorts of meats—chicken, pork, beef, and crab—all the favorite Hawaiian delicacies and plenty Poi which takes the place of bread. Poi is known as one, two, or three finger Poi, the thickness determining whether it should be eaten with the corresponding number of fingers. Native dances, including the well known Hula, follow the feast and continue on even after noon. become more of a burden than comfort and have to be abandoned to keep up with the mode of the evening.

For the benefit of those who love good athletic games, a community organization has been formed and its facilities are available to everyone. Included among the many sports are football, basketball, baseball, softball, volleyball, track meets, swimming, bowling, tennis and others too numerous to mention. All games are managed in

The Library Corner

The new summer schedule is now in effect at the Public Library in the City Hall. It is open week days from 9 a. m. until 6 p. m.

Some of the new books you might enjoy reading are:

"Benjamin Blake," by Edson Marshall, an historical romance in the grand manner by an author of many popular tales of the Northwest. Mr. Marshall can always be depended on for a routing adventure story.

Then there is that equally dependable writer, Elizabeth Corbett, whose stories about the delightful Mrs. Meigs are invariably so entertaining. The latest one "Mr. and Mrs. Meigs" presents the famous character in one of the most interesting and eventful periods of her life. Carrie Meigs in her forties is just as spirited and vivacious, as amusing and charming as when "She Was Carrie Eason" or when as "The Young Mrs. Meigs" she reaches the ripe old age of eighty.

As more serious reading, there is a new novel, described by the reviewers as the first important work of fiction to come out of the present war "This Above All" by Eric Knight revolves around the conversion of Clive Briggs, a slum-produced young Englishman, from defeatism to a realization that this is everybody's war, in which he must do his share. Clifton Fadiman, book critic for the "New Yorker" says: "The book is memorable for its ghastly pictures of the retreat from Calais and the evacuation of Dunkerque, for its powerful pages describing London under the falling bombs, and its lower class characters, particularly Mollie, a tough old soldier whom Kipling would have been proud of. 'This Above All' deserves your attention."

Also among the latest books is "Up at the Villa," a swift, readable tale by that master of English prose, Somerset Maugham.

Happy Landing

Diving boards in Fort Worth, Tex., look so high to Billie Pittard, of Anson, that she figured a parachute might help to take the sting out of her first landing.

Chicago Shore Is Turned Into Camp

Soldiers from Camp Sheridan, Ill., set up their equipment on Chicago's lake front, with the Loop skyline in the background. The men set up their guns for display during "Flying Cadets Week."

Wheat for Canada Goes Up in Smoke

Swept by a half-million dollar blaze, eight cars of wheat were destroyed in a fire at the Lawrenceburg Rolling Mills, Lawrenceburg, Ind. Cars were awaiting shipment to Canada.

such a manner that no admittance charge is collected, and even the poorest class of people can take advantage of enjoying these athletic contests.

Finally, the visitor to Maui travels by automobile to the ten thousand foot summit of Haleakala, the largest inactive volcano in the world. Until one has seen a sunrise from this crater above the clouds he hasn't seen the real beauty of Hawaii. While viewing this wonderful panorama a person can realize that here, right before his eyes, is the land of dreams, with all its fertile fields, its friendly inhabitants and the combined beauty of mountain, sky and sea. It is truly a paradise seldom equaled on this world. It is simply—the Island of Maui—the beauty spot of the world.

"So I'll build myself a dreamboat just to sail across the sea.

To that lovely, lonely island—It's a place where I long to be."

High School Grads In Army Air Corps

High school graduates who are ambitious to become pilots in the Regular Army Air Corps now have the opportunity. Even if their educational qualifications will not permit them to become commissioned officers, they still may fly Army airplanes and may look forward to careers as pilots.

All they need do is to enlist in the Army Air Corps and this course of training will be open to them after July 1, 1941, as soon as administrative details can be arranged. They will be taught to fly and they will be paid while learning.

After they have qualified as pilots their futures as Regular Army pilots are assured.

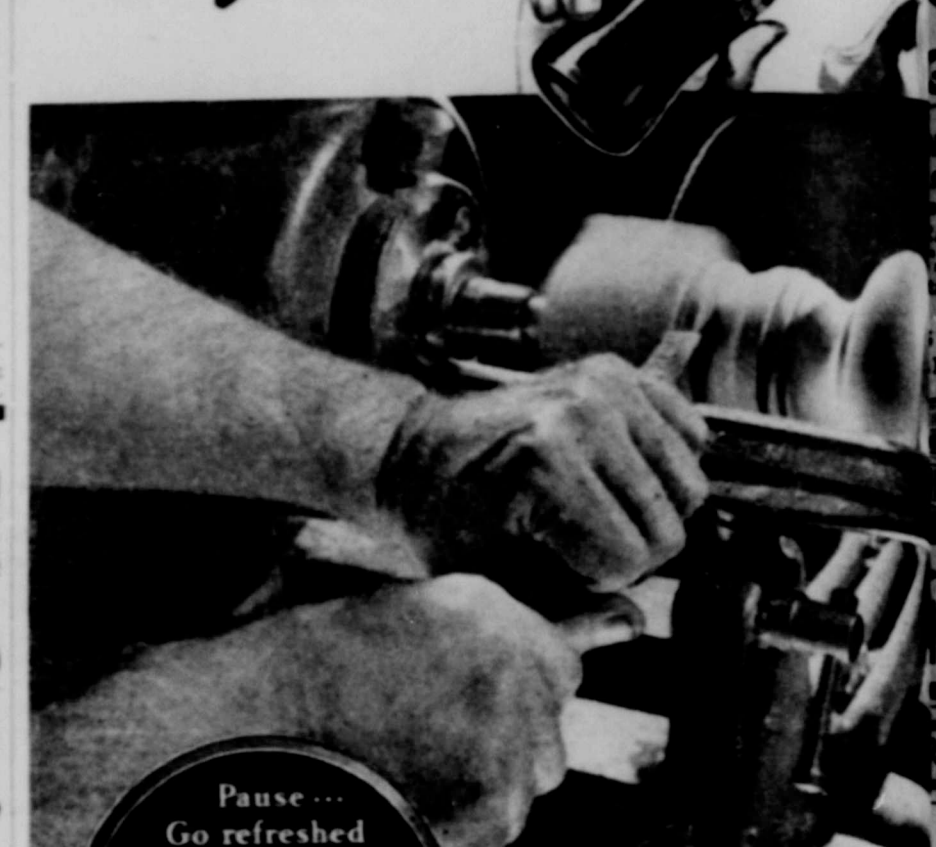

All this is made possible by a bill which has just passed Congress and which has been signed by the President. It authorizes the Secretary of War to detail men for training and instruction as aviation students, in their respective grades.

All qualified young men who are interested should apply to the nearest Army recruiting station—Let's Go America. Keep 'Em Flying.

The average motor vehicle owner in the United States contributes approximately \$30 in taxes each year over and above the amount regarded by experts of the federal government as his "fair share" of road costs.

Tons of Soil Lost in Year

DALHART, Texas.—Four million tons of soil were blown off a representative 48,000 acres in Dallam county during the three year period 1937-40, according to estimates of the Research Division of the Soil Conservation Service. This is equivalent to approximately one inch of the topsoil from the entire area and does not include the huge amount of soil that was blown away from 1933 to 1936 when wind erosion was at its worst and Dallam county was considered the heart of the old "Dust Bowl."

The Research studies that have been under way in Dallam county during the past four years, are attempting to determine the relation between various types of vegetative cover and soil blowing and other pertinent facts regarding wind erosion in this section. The studies to date show definitely that severity of wind erosion is determined largely by the amount of cover, either of growing crops, crop residues, or weeds, on the land.

On one sandy land field that was bare of vegetation, nearly 1,500 tons of soil per acre were lost during one blow season, according to the findings of the research people. On the other hand where a thick cover of sorghum stubble or densely growing weeds was present, soil actually accumulated from adjacent blowing fields. C. J. Whitfield, who is in charge of the research work, points out, however, that soil accumulations on this land are not necessarily a benefit to the land because usually such accumulations are made up of sand and coarser particles of soil and hence the fertility is low.

On many fields of the area all of the topsoil has already been removed by erosion, and caliche pebbles are on the surface of the ground. This indicates that a continued use of such soil and water conservation measures as will prevent wind erosion is very important. The conservation point out that even considering the present wet weather, we should look forward to extended drought periods that are likely to come in the not distant future.

The experiments found that broom corn, weeds, sudan grass and other sorghums that usually are planted densely on the land are the best erosion-resistant crops. Russian thistle, commonly known as tumble weeds, may be effective in preventing soil blowing if they grow densely on the land and do not reach too large a size, they usually break off and blow away when the windy season starts in the spring of

Natural Terrain Provides Shelters in Games

CITY DRUG

the year, it was pointed out. Wheat was variable in its ability to control erosion, depending entirely upon the kind of stand obtained by the time high winds start in the spring of the year. During droughty seasons when the wheat had not made much growth, it usually blew off and hence gave the soil very little or no protection and serious erosion practically always resulted.

Among other interesting things found out by the Research people is the fact that when the wind velocity of this section exceeds sixteen miles per hour, soil blowing usually results on land that is not protected by vegetation. Their figures show that the wind blows at a velocity of about sixteen miles per hour almost fifteen per cent of the time. Erosion in this vicinity may occur at almost any season of the year when the wind velocity gets high but usually the greatest amount of blowing occurs in the spring of the year when the ground is relatively bare and the high winds are most frequent.

Whitfield also points out the difference between dust storms and sand storms. When land first begins to erode, usually small dust particles are being picked up by the wind, carried high into the air currents and spread over surrounding country—these are known as dust storms. On the other hand, where most of the organic matter and finer soil particles have already been blown out of the soil, only the coarser sand particles remain to blow and hence are transported only a few miles, often just from one field to another. Storms that transport the heavier particles are usually local in nature and are commonly referred to as sand storms.

In carrying on the experimental results during the past three years, Mr. A. E. Coldwell and Mr. P. R. Loewen of the Soil Conservation Service have made regular readings at more than 16,000 stations in the Dalhart area to determine the amount of topsoil removed or added at each point. Steel stakes or other markers were placed in the ground as reference points for the 16,000 stations and the elevation of the ground surface was measured at regular intervals. In this way, the soil scientists have been able to determine the amount of soil that has been blown off or accumulated during the three-year period.

Cadets Needed by Naval Reserve

NEW ORLEANS, La.—As part of the nation-wide drive to increase the United States Navy strength to 400,000, young men are being sought today in the South for training as aviation cadets, officials of the Eight Naval District announced at headquarters here.

Naval aviation cadets from the district customarily receive their preliminary training at Naval Reserve bases at New Orleans and Dallas, after which they may be sent to Corpus Christi, Pensacola or Jacksonville for advanced training.

General requirements for enlistment as Naval aviation cadets include United States citizenship for at least 10 years and completion of at least two full years of college, with not less than one-half of the credits for a degree which normally requires four years to acquire. However this latter requirement is waived if the applicant has completed

one-quarter of the requirements for college graduation and has been employed at least three years in a responsible position in civil life subsequent to completion of college work.

Cadet trainees must agree to remain on active duty four years unless released sooner by the Navy Department. They also must be unmarried, must not previously have been married and must agree not to wed until at least two years after date of enlistment.

Further information regarding this branch of training may be obtained from any Navy Recruiting Station, or from the Naval Aviation Selection Boards, which are located in New Orleans at 901 Canal Bank Building, in Atlanta at 814 Mortgage Guarantee Building, and in Dallas at 524 Allen Building.

Motor vehicle owners now pay at current rates nearly \$500,000,000 annually in gasoline and other automotive levies to the federal government.

— PROCLAMATION —

By The Mayor of The City of Perryton

To All To Whom These Presents Shall Come:

WHEREAS, home ownership has long been recognized as a major factor in building good citizenship and encouraging family solidarity; and

WHEREAS, it is important that the benefits of home ownership be made available to an increased number of people thereby giving impetus to those factors making for unity and good citizenship; and

WHEREAS, it is recognized that the cultural and economic benefits will accrue to our people as a result of an increased interest in home ownership;

NOW, THEREFORE, I, W. H. LANCE, Mayor of the City of Perryton, hereby do proclaim the week of June 21, 1941, as PERRYTON HOME BUILDING WEEK and urge the citizens to direct their thoughts during the week and throughout the year toward the achievement of home ownership.

IN TESTIMONY WHEREOF, I have hereunto signed my name and affixed the Seal of the City of Perryton, Texas, this 18 day of June, A. D. 1941.

W. H. LANCE, Mayor

Howard Holt Does 'Texan' Plumbing

When making an inspection of the new "Texan" home opening at 804 Southwest Seventh street Sunday, June 29, don't forget to inspect the bathroom installed by Howard Holt. All the latest conveniences were utilized in the arrangement and selection of fixtures.

A built-in tub occupies one end of the room flanked by a lavatory and closet. Built-in medicine cabinet, towel rack and heating fixtures add to the usefulness and attractiveness of the bath.

Howard Holt furnishes everything in the heating, plumbing or sheet metal line for this trade territory.

● Boyd, Oklahoma

J. H. Pierce started harvesting last Wednesday.

Mrs. Anderson was laid to rest Wednesday at 2 p. m.

Mr. and Mrs. Ike Henline of Fairview came by and Bob and George Henline accompanied them to Trinidad for a brief visit.

Mr. and Mrs. J. H. Perdue enjoyed a visit last week from two of Mr. Perdue's brothers and families from Beaumont, Texas.

Club met Monday with Mrs. Pearl Gates.

Some are seen in the fields cultivating even though the planting is not finished.

GLASS for your home or car at Daley Glass Shop. 18-11-c

● Blue Mound

A few binders have been running in this neighborhood, binding oats and barley.

Coeta and Nadain, daughters of Mr. and Mrs. Ivan Beckwith of May, are visiting this week in the home of their uncle, Mr. and Mrs. Arlie Beckwith.

Mr. and Mrs. Earl Enterline and baby called Sunday afternoon in the home of his father, Sherman Enterline, Beaver. The father is quite ill.

James Beckwith, Lavene, has been visiting with his son, Arlie Beckwith and family.

Marshall Organ, who has been a patient in the Beaver hospital the past two weeks suffering with a rifle wound in his foot, is home and doing nicely. He will not be able to walk on his foot for several months.

Miss Opal Gross has returned to her home here after several weeks in Amarillo.

Elmer Enterline came in from Missouri and will help his brother, Earl during harvest.

Mrs. Maud Garmond, Enid, spent last week visiting in the home of her nephew, Howard Barnett. She returned home Sunday. Mr. and Mrs. Barnett took her to Woodward. They all spent Saturday in Liberal.

Mr. and Mrs. H. E. Pattison, Lajanta and Charles called on Mr. and Mrs. Barnett, Sunday.

The biggest liar is one who doesn't believe himself.

Milk Important In Nat'l Defense

AMARILLO, Tex., June 18—Increased production of milk for cheese and evaporation as a part of the national defense and aid to Britain programs will be a major objective of Soil Conservation specialists of the U. S. Department of Agriculture in their conservation planning work in many localities of the Southern Great Plains, according to a recent announcement of H. H. Pinnell, Regional Conservator of the Soil Conservation Service.

Pinnell calls attention to a recent letter by Claude R. Wickard, Secretary of Agriculture, in which he states that the total milk production of the United States should be increased by six to eight per cent to meet the domestic requirements and to furnish cheese and evaporated milk required by Great Britain and her allies. He asks that producers in the areas where there are facilities for making cheese and evaporated milk put forth a special effort to increase their production throughout the present emergency period.

Secretary Wickard stated, "Recent information indicates that while there appears to have been a satisfactory increase in total milk production, the current rate of producing milk for cheese and evaporated milk is considerably below that necessary to furnish sufficient quantities of these two products for lend lease purchase and for our own people as well."

"Our ability to supply these quantities will depend a good deal on increasing the supply of milk in those areas surrounding cheese and evaporated milk plants."

"It now appears that there will be an outlet at favorable prices for all the cheese and evaporated milk that can be produced during the next 12 months. The Department in recent months has purchased or contracted to purchase 26 million pounds of American Cheddar cheese and 1 1/2 million cases of evaporated milk. The purchase program will be continued."

"Efforts should be made to meet this emergency and I am sure that the milk producers and manufacturers of these products will co-operate in this endeavor," the Secretary continued.

Pinnell points out that the Soil Conservation program in this region has greatly increased the production of feed crops because of their soil conserving value. "The main problem now is to see that these crops are utilized to a greater extent for the production of milk and other dairy products, and for the production of eggs, meat, and other livestock products that are now needed or soon will be needed in our national defense and aid to Britain program," he said.

Many soil conservation districts in the Southern Great Plains Region, which includes Kansas, eastern Colorado, eastern New Mexico, west Texas, and the Oklahoma Panhandle, are now making a special effort to increase the number of livestock in their districts and to especially increase the numbers of dairy cattle in communities where evaporated milk plants or cheese factories are available for processing the products. In some instances the districts are attempting to bring milk processing plants to the area in order to afford a market for dairy products. Such increased markets will make it profitable to increase the number of dairy cattle and they thus will be able to consume the unusually large amount of forage that is now being grown as a part of the soil conservation program.

Some people talk in their sleep, others sleep in their talk.

Don't go to the dogs if you are not fit to associate with them.

Stop starting and you will soon start stopping.

Stubble and Straw Needed by Soil

"The farmer that burns the wheat stubble and straw off his fields this year is burning a portion of his crop in future years," Ralph H. Headlee, Conservationist of the Soil Conservation Service says. "The burning of stubble occasionally may result in a higher yield the following year, but continued burning invariably makes a poorer soil and increases soil erosion by both wind and water over a period of years," he continued.

The above normal spring rainfall this year has caused wheat and other small grains to produce an unusually large amount of straw, according to the conservationist. He feels that the large amount of straw and other crop residue that will be left on the land will influence many wheat farmers to attempt burning in order to better fit the land for summer and fall plowing. He warned that such burning will almost invariably prove to be a mistake, if the land is considered over a long period of years.

"Fire," declares Headlee, is one of the greatest enemies of soil. Fire not only destroys organic matter which can afford protection against both soil blowing and washing, but also destroys millions of soil organisms needed to make plant food elements available for future crops."

Experiments and observations show that where stubble is burned year after year, the soil becomes more and more eroded, he points out. If gullies are not formed—and they usually are—then sheet erosion may take huge tolls from the fields. In areas where high winds prevail, the burning of stubble destroys the residues which are needed to protect the land against soil blowing.

Leaving the stubble on the land gives the soil a source of organic matter which makes it sponge-like and enables it to store up large quantities of water and increases soil fertility, Headlee says. Moisture stored in the soil results in better crops, which in turn furnish protection against both water and wind erosion.

White House Opens 'Texan' Home For Inspection Sunday, June 29

T. R. Murray of the White House Lumber Company will present the new "Texan" home to the public Sunday afternoon, June 29. The six-room home built on the FHA Plan will be thrown open for inspection with a cordial invitation to attend some time during the afternoon.

This beautiful little "Texan" bungalow was built for some Texas couple. It has two bedrooms, a combined living and dining room, roomy kitchen, special trimmed bathroom and a garage.

It boasts a linen closet in the hallway in addition to regular bedroom closets. Hardwood floors were used throughout.

The living room is decorated with white walls tinged with silver set off by an artificial fireplace flanked by a built-in bookcase. A floor furnace will furnish heat for this portion of the home. The living room opens directly with a front door.

Two bedrooms are built on the south side joined by a short hallway which may be found ample storage space.

The kitchen is wainscotted about one-third up the wall with blue imitation tile for service. A built-in sink and cabinets add to its usefulness. The kitchen opens onto a back pantry and foyer which in turn are directly adjoining a garage. The hot water heating plant is located in the pantry off the garage.

The bathroom utilizes all the latest equipment with a built-in tub, medicine cabinet, heating facilities and towel racks. Imitation tile is used in the wall construction.

Plan now to see this model home that will belong to some happy couple under the easy FHA Plan. Remember the date June 29.

Officers of Legion Auxiliary Girl State Held at Waco

WACO, June 16—Pictured above with President Pat M. Neff of Baylor University are officers of the Bluebonnet Girls State which was sponsored by the American Legion auxiliary. They are, from left to right, Tom Howze, chaplain, James Edmond post 121; Georgiabel Legendre, Kathryn Swausch, Henriann Engberg, Marjorie Frank, President Neff, Pat McClarney, Jewel McConnell, Patti Hall, June Shockley, Frances McGregor, Rhea Gilliland, adjutant, James Edmond Post; seated, Geraldine Rulon, Edith Barow, Peggy Whiting, Nona Mae Snow, Mary Jean Stuart, Gloria Delisi and Mary Barr.

Pat McClarney of Amarillo was named governor of Bluebonnet Girls State by the House of Representatives and the Senate, following a tie between the two candidates and marking the close of a lively campaign on the campus of Baylor University where the Girls State is convening.

Governor McClarney made her inaugural address last Wednesday night before a gathering of 110 girls, important officials of the American Legion, and city and county officers.

Other state officials taking the oath of offices were lieutenant governor, Marjorie Frank, Bartlett; attorney general, Patti Hall, Lubbock; chief justice of supreme court, Georgiabel Legendre, Texas City; associate justices, Nona Mae Snow, Abilene; Peggy Jean Whiting, Dallas; superintendent public instruction, Frances McGregor, Dallas; railroad commissioners, Geraldine Rulon, Houston. Mary Barr, Amarillo; and June Shockley, Gaston; comptroller public accounts, Mary Jean Stuart, Beaumont; commissioner agriculture, Edith Rae Barrow, Lufkin; commissioner general land office, Gloria Delisi, San Antonio; secretary of treasury, Kathryn Swausch, Austin.

These officials set up their offices in Burleson hall on the campus of Baylor. The buildings were arranged into suites of 10 offices to house officials. Sessions of the House of Representatives and the Senate were held every day giving the girls experience in the functions of practical government.

Sponsored by the American Legion Auxiliary, the Bluebonnet Girls State was directed by Miss Billie Murray, state Americanism chairman, and had as its purpose the education of girls to the duties of government officials and through practical experience give them a fuller understanding of the words "We the people."

Navy Trains Aviation Mechanics

NEW ORLEANS, La.—Recruiting officials of the Eighth Naval District today were seeking more than 200 civilians with a high degree of mechanical aptitude to undergo training as aviation mechanics to service the countless military planes which will roll from the assembly plants during the present national emergency.

Class V-2 of the Naval Reserve, which supplies the aviation "ground crews," is open to men of good character between the ages of 17 and 28. Men, enlisted in this class as apprentice seamen, are then given a recruit training course and later if qualified, are sent to aviation schools to be assigned to aviation duties upon completion of the work.

Candidates must not have dependents or must be able to support those they have.

The eight states of the Eighth Naval District have been called upon to supply many of these candidates for aviation mechanical and technical schools. Consequently, officials are prepared to handle a large number of inquiries and applications for enlistment at the 48 recruiting stations and sub-stations in the district.

Those qualified for enlistment in

Woman Paid Club Salary Saturday

Mrs. B. J. Phelps was named president of the Community Service Club at the regular Saturday election in the American Legion Hall and was found to be eligible for a salary of \$50. Mrs. Phelps had paid dues of ten cents for the current week.

Officials of the organization announced that the salary to be paid next week is \$25. In the event that the person named has not paid dues this salary will be carried over until the following week.

The Community Service Club is sponsored and operated by the Pierce Johnson Post of the American Legion and all proceeds are used for local charity purposes.

May Discontinue FHA Remodeling

The Perryton Lumber Company, headquarters for FHA, announced this week that unless Congress appropriated additional funds all remodeling and painting under the FHA Plan will not be available effective July 1. New homes will not be affected and will be under the same setup, it was said.

J. H. Stephenson Jr., manager of the Perryton Lumber Co., urged those in this territory who planned to either remodel or paint their home under the FHA Plan to come in and make arrangements before July 1.

The Perryton Lumber Company carries a complete line of the finest building materials available supplemented by Pittsburg Paints. The organization lives up to its motto—"Good Lumber."

'Texan' Home Is Wired By Key

The wiring department of the Key Electric Company installed all lighting fixtures used in the "Texan" home opening at 804 Southwest Seventh street Sunday afternoon, June 29. Note the matching fixtures when making your inspection.

The consolidation of the Key Electric Company with the Home Gas & Appliance Company has been announced by owners, Stanley Key and Mark Burton. The firm will be located at 214 South Main Street. The same lines of merchandise as carried by each firm before the consolidation will be handled until the close of the year.

The electrical department will be under the supervision of Stanley Key and Earl Kerns. The firm will operate under the name of Key & Burton. Estimates are gladly given on all wiring problems.

Okla. New Law on Age Of School Children

School age of children starting to school next fall has been changed, H. E. Wilson, Superintendent of the Beaver, Okla. schools said this week.

The new law, passed by the Oklahoma legislature this year, states that if a child reaches the age of six before November 1, he or she, may start to school the preceding September. However, if a child reaches the age of six after November 1, he or she may not start to school until the following school term.

Beaver schools will observe the new law, Superintendent Wilson said.—The Herald-Democrat, Beaver, Okla.

The most essential factor in human happiness is health. If you do not believe this, ask some wealthy man who has lost his health what he would give to regain it.

History and Control of Pale Western Cutworm Outlined By Agronomist at Goodwell Experiment Station

Clyde H. Jamison, agronomist at Agricultural Experiment Station, Goodwell, Okla., gives the following news release on the control of the pale western cutworm:

Many acres of wheat and spring grains were destroyed this spring by the Pale Western Cutworm in the Southern Great Plains Region. The extent of damage is not fully known. In the past there have been at least four outbreaks of the destructive insect—1928, 1929, 1940 and 1941. Other years perhaps there have been losses due to this particular species of cutworm but has not been observed by the Experiment Station.

The following information on the Pale Western Cutworm is being released to farmers in this area. It is valuable in this section, however the material was compiled at the Agricultural Experiment Station at Bozeman, Montana. It is recommended that all farmers interested in control methods read the following material. Dr. Ephraim Hixson spoke on the control methods for the Pale Western cutworm June 14 Saturday at 1:30 p. m., at Goodwell, Okla.

- (1) The Pale Western Cutworm is a dry weather insect, and can be expected to increase and do damage during the dry years in any or all parts of this section of the country.
- (2) This cutworm cannot be satisfactorily poisoned with the usual cutworm poisoned bait, as it works entirely under ground.
- (3) This cutworm is usually active in the field from very early spring until late in June, preventing re-seeding in time to secure a crop.
- (4) The moth lays its eggs between the first of August and the 15th of September.
- (5) The moth prefers wheat stubble, weedy fields, and loose soil for depositing its eggs.
- (6) Control is confined to cultivation methods.
- (7) Plowless summer fallow is attractive for egg laying and should be avoided especially during dry years in infested areas.
- (8) Clean summer fallow, left untouched between August 1 and September 15 is usually safe for the next year's crop.
- (9) Early deep, spring plowing completed early in May will kill the young worm and will turn under all green growth that serves as its food.
- (10) There is evidence to show that seeding with a press drill will help materially to reduce damage if a field is infested with this cutworm.

The grower who stubbles in his crop, uses plowless summer fallow, has a weedy summer fallow, or continually works it between August 1 and September 15, is inviting damage from the Pale Western Cutworm especially in dry years in infested areas.

Any cutworm found in your fields is inviting damage from the Pale Western Cutworm especially in dry years in infested areas.

Any cutworm found in your fields in the spring should be sent by you or your county agent to the Department of Entomology of the Extension Service, Stillwater, Oklahoma, for identification. Other cutworms can be controlled by use of Poison-bait. The Pale Western Cutworm cannot.

Crops Attacked: Corn and small grains—seldom found in gardens.
What It Looks Like: The pale western cutworm is a uniform, greasy, slate gray or greenish gray worm, while most common cutworms have a more or less striped appearance. The head is a light brown or yellowish color. The fully developed worms are 1 1/4 to 1 1/2 inches in length.

The Damage It Does: The chief characteristic of this species is its habit of cutting off the plants beneath the surface of the ground. The tender central stems are the parts that receive the most injury. These will sometimes be chewed down to the surface of the ground from the crown, with the leaves and upper parts of the stems left wilted upon the surface.

The injury to the field usually shows up first on the high spots and other places in the field where the soil is inclined to be light.

Life History: This species remains active through the middle of June and in some cases to the first of July. In this respect it differs from the army cutworm, which is always through feeding by at least the tenth of May.

When the worms are through feeding, they go slightly deeper into the soil, building about them earthen cells in which they pupate. From the pupa or resting stage, the moths emerge in the last of August and first of September.

Eggs are normally laid in the stubble of recently cut grain fields. When this species is abundant, many eggs will also be placed in soft bare soil of summer fallow fields.

Control: Due to the fact that the worms work entirely under ground, they are very difficult to control. Poison-bait mash, so effective

against other cutworms, is of little use against the pale western cutworm. Due to this fact, control consists in (1) making the field unattractive for egg laying, or (2) killing the larvae before the crop is seeded.

(1) This applies to summer fallow. The moths lay their eggs in loose soil and avoid hard or crusted surfaces; therefore, summer fallow fields should be left untouched between August 1 and September 15, while the moths are active in egg laying; any showers which occur will form a crust over the soil, making the field unsuitable for egg laying. Have the field as clean as possible by August 1, as weedy fields are even more attractive than soft bare soil. Care should be taken to keep stock of any kind off the fields thus treated, as they would break the crust and eggs will be laid in their tracks.

(2) When continuous cropping must be practiced, eggs are certain to be laid in the stubble. Fortunately, if the young larvae are plowed under early enough in the spring many will fail to develop. Plow the field at least six inches deep at the earliest possible time in the spring (before May 15 on the northern plains). Plowing, disking, or other cultivation carried out later in the season does not destroy the cutworms though if careful June summer fallowing is practiced throughout the entire district this species will seldom be injurious, as the worms are starved out by plowing under their food before they are full grown.

This species usually occurs the year following a dry spring (less than 4 inches of rainfall between

Momma and Baby Are Doing Nicely

Unlike most mothers of sea lion babies born in captivity, this one at the Brookfield Zoo, near Chicago, is proud of her young one. The baby is doing nicely.

May 1 and August 1) and the flight of moths may be quite evident in the fall. If you are suspicious, send in a collection of moths taken from goldenrod, rabbit brush, or tame sunflowers about the first of September, and then they will be identified for you. They can be found on the flowers by using a flashlight soon after dark. There is nothing that can be done when these cutworms are found already infesting a field. They do not move from one field to another, therefore a new crop cannot be reseeded after the first crop has been destroyed. After about June 20 the worms become inactive and a crop that would mature after this date of planting could be seeded on the land.

If there is any doubt as to what cutworms are infesting a field, send specimens in to be identified as other species can be satisfactorily controlled with a poison bran bait.

Stress Good Nutrition As Defense Need

Today nutrition authorities are stressing the need for guarding the national health in carrying on an active program of defense. In drawing attention to the importance of proper food, it is pointed out that survey has revealed that approximately 45 million of our population is living below the "safety line" which is considered an adequate diet.

What factors are essential in our diet to assure that the diet fully meets body needs? Protein is necessary to build and repair body tissue. There must be vitamins to promote growth and protect health, and calories to supply heat and energy. Minerals, such as iron, copper, phosphorus and calcium, are needed to build blood, bones and teeth.

Importance of Iron
In considering the minerals needed, medical authorities point out the special importance of iron in blood building. It ranks first among the nutritive elements in this respect. The iron in the body of an average adult is only about the weight of a penny, but this element is vital to health. Iron enters into the structure of every active body cell. Iron is a constituent of the hemoglobin red pigment of the 25 trillion more red blood corpuscles, and it helps to carry oxygen to every part of the body.

Foods rich in iron must be added to the diet at six months or earlier and continued throughout life, according to nutrition authorities. A deficiency of iron in the diet of adults requires at least 12 milligrams of iron daily.

Iron Prevents Anemia
The penalty for an insufficient supply is a condition known as anemia, characterized by fatigue, digestive disorders and other symptoms.

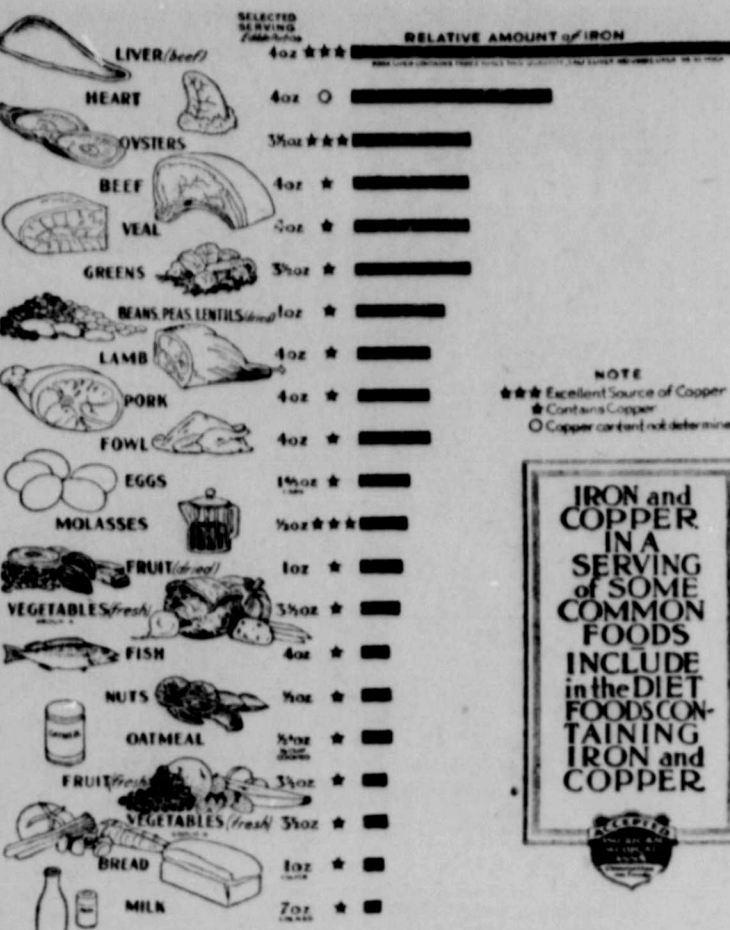

As early as 400 to 500 B.C., a condition corresponding to anemia is described by Hippocrates, the father of medicine. Menghini, an Italian, is given credit as the first discoverer of iron in the blood—in 1847. The present view that an iron

deficiency is the principal cause of anemia, was first advanced in 1889. In 1849, a serious form of anemia, known as pernicious anemia, was described. In the year 1934, Drs. Minot, Murphy and Whipple were awarded the Nobel prize in medicine for their discovery that liver was effective in the treatment of pernicious anemia which was previously regarded as a fatal disease.

Sources of Iron

Dispelling the Fog

By CHARLES MICHELSON
Director of Publicity, Democratic National Committee

It has been the cry of the isolationists, and their fellow travelers, that every measure that indicated our sympathy with the anti-Nazi powers would "bring us into war."

When it became evident that the original neutrality measure was working toward our own disadvantage and its repeal was recommended, we were gravely informed in the Congressional debates that repeal meant our entrance into the European conflict.

When in conformity with the repeal, the lend-lease bill was up, we were similarly warned by the opponents of that measure that it would be construed as a war-like act and again that we were imperiled by the threat of war.

When we traded a lot of superannuated destroyers for a number of air and naval bases in British possessions, requisite for our defense, the anti-administration orators again proclaimed that this brought us into the conflict—plus numerous dire prophecies of what might come.

When it became known that we were establishing a patrol line along the trade routes which paralleled, or at least crossed, the sea lanes along which our supplies to the forces of democracy, authorized under the lend-lease bill were moving, was that declared to be a camouflaged convoy system; and once more the solemn word was spoken that this was an act of war.

Now We Have the Convoy Question
Well, Congress enacted the required legislation in each case, where legislation was necessary, and still war did not come. Nor did it come when we seized the Nazi and Fascist ships in our ports to stop the sabotage that was already underway. The seizure was done under laws that had been on our statute books for a quarter of a century, and for his incitement of the sabotage we asked the recall of the Italian military attaché. All that that brought was the demand for the recall of our corresponding attaché at Rome, and a series of protests.

Just now the question of actual convoys, to insure that what we send to the allies be not sent to the bottom of the sea instead, is being widely discussed. At this writing, no formal convoy legislation or project has appeared, but there have been numerous speeches and statements on the subject, both by officials of the Government and by the opponents of the administration.

For example, ex-President Hoover declared on May 11 that: "It is now proposed that we should put the American Navy into action, * * * which boldly makes clear the meaning of words like convoys or patrols, * * * and that is war for long years to come."

Mr. Hoover's position is that we can best help England by rushing her the bombers and other munitions and equipment she needs. He says nothing in regard to the destruction en route, of the vessels carrying such aid.

Senator Taft's contribution along this line was to tell the Senate that the administration was edging toward a convoy system, "which will mean war to the United States." Senator Wheeler announced that convoy "means war." Senator Nye put it that conveying shipments to England would mean "immediate involvement in war as soon as it is practiced."

Now I wonder what makes these statesmen so certain that conveying—if it comes to that—inevitably brings about war?
The Historic Parallel
Our own history does not bear out any such deduction. President Adams asked for war ships to defend our commerce. France at that time had a world-wide blockade against England, which was drawing supplies from America. Congress responded by ordering the construction of all sorts of battle craft and the purchase of anything that was loose that could be made fit for combat. Such veteran naval men as had served in the Revolutionary War, were put in command, as far as they went, and merchant captains were recruited to take the quarter-deck of the others. Then we sailed out, on convoy duty. For some years we took prizes, and they took prizes. Frequently our vessels were in combat with the French Navy. We sunk quite a few of the French ships, both naval and privateer, and captured others, among them the big frigate L'Insurgente which surrendered after the Constellation had hit her with a few broadsides, killing and wounding seventy of her crew. We sent the prize home, patched up the damaged hull and shattered rigging, and added her to our naval list, and the American frigate Insurgent thereafter performed under the American flag against the commerce destroyers.

We even bombarded one or two French ports in the West Indies—and still there was no war.

We jumped in when a French force assailed the Dutch island of Curacao, and battled the forts held by the French, finally driving the invaders away—and still there was no war. And when Napoleon came into power we straightened out our differences with France, restored to them such of their warships as we had taken—the Insurgent had been wrecked before the accord—and that was the last of the episode.

Of course, it does not follow that Herr Hitler would pursue the French precedent, but when the trouble of a century ago was on, France had a bigger navy relatively than the Fuehrer has now. Napoleon, with his campaigns in prospect, probably figured that it would not be wise to have even the then infant United States against him and perhaps, again, Hitler might feel the same way now. Then we had to improvise a navy—act-

THE AMERICAN FAMILY By George

"Yes, Bixby, I'm extending my vacation another week. And don't forget, Bixby, give the boys their usual pep talk."

usually, to tell the oak and cedar trees to build our frigates. Now we have the finest navy afloat, and are turning out aircraft by thousands to match—or overmatch—the Nazi output of the new war weapon. Undoubtedly, the Fuehrer is exasperated at our aid to England, but whether he is likely to risk our active participation in ridding the sea of his submarines and meeting their flying bomber accessories with the huge flocks of super-bombers and other fighting planes we are turning out, is doubtful, at least.

Strictly Fresh

JUNE is the banner month "for whom the wedding bells toll."

Pierre Laval says both he and Hitler speak the language of the new Europe. Is it double talk or double-cross talk?

The drought is expected to hurt every crop except the crop of summer tourists.

It's about time to read that any day now will be the hottest day in history.

Many towns are turning out the lights early at softball games. It saves power needed for defense and also helps the umpire to escape when his decisions are unpopular.

1 FILL LASTED 13,398 MILES—Certified

Then how long is a quart of this great New Motor Oil?

STRAIGHT FROM SIZZLING DEATH VALLEY COMES YOUR ANSWER...

The lock-guarded engines of 6 coupes faced the Death Valley desert with oil exactly up to "Full." Not a drop could be added. The destination of all 6 identical everyday engines was . . . Death!

Here were 6 high quality motor oils getting the same strictly fair opportunity to show how long they'd let an engine live on one exact fill and no more.

Down in Death Valley—hotspot of the U. S. A.—every car sped at 57 miles an hour, till its oil gave out and the engine smashed. The brand of oil that used up quickest was outlasted 8,268 miles by a revolutionary new oil in this impartial, certified test. This new oil exceeded the average mileage of the other 5 oils by all of 7,057 miles! Certified. This longest-lasting oil in the test, which your car can have today—at popular price—is new

CONOCO Nth MOTOR OIL
with its Man-made new Economy aid
The record long life that defied Death Valley comes from a new laboratory creation . . . man-made . . . called *Thialkene inhibitor*. Its action in some ways suggests Vaccination—which puts the right protective substance on guard to keep a trouble from even starting on you.

The trouble aiming to start on motor oils lurks in the engine's normal fring. Filth is formed that tends to start the oil "feathering." First one drop spoils—then two drops "catch it"—then four—then sixteen—faster, faster, FASTER. Soon oil stamina is sapped; the engine suffers, and cries for quart after quart . . . but not

IMPARTIAL

Latest available products of 5 leading competitors bought retail by Referee.

New everyday coupes used—identical. Broken-in alike. Engines taken apart for Referee—to assure uniformity.

Cars tuned alike. Same Death Valley route for all. Drivers rotated to even up on skill.

One fill per car. None added. Engines under lock—under scrutiny—every mile.

when the worst of this "feathering" attack is nipped in the bud—inhibited—by the life-giving *Thialkene inhibitor* in new Conoco Nth motor oil.

Now you'll never rashly exceed the proper oil-change period for your car and driving conditions—any more than you ignore traffic rules just to "get away with it." But Certified Proof from the desert that new Conoco Nth could outlast the other oils in the test by as much as 161%, gives you more than mere hopes of long Summer mileage between quarts. Change to Conoco Nth—at Your Mileage Merchant's Conoco station . . . today. Continental Oil Company—Pioneers in Bettering America's oil with Synthetics

AND CONOCO Nth OIL OIL-PLATES YOUR ENGINE!

Long the keystone of Conoco success, OIL-PLATING comes from another great Conoco synthetic . . . man-made under the famed Germ Processed oil patent. By magnet-like action, OIL-PLATING is bonded to inner engine parts. Then it can't all drain down—not even overnight—not while you're using Conoco Nth. So OIL-PLATING is on guard against wear in advance! . . . and helps mileage, as it did in Death Valley. An OIL-PLATED engine is one more economy you get from a change to popular-priced new Conoco Nth oil.

CERTIFIED I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

H. W. Jackson
Consulting Engineer, who during Academic year is Professor of Automotive Engineering, Purdue University

Let's Go, U.S.A.!

(By Telephone to The New York Times)
"BUDAPEST, May 12. — Our submarines will sink (American) troop transports, and bomb her warships and even America itself. America is in a very dangerous position now."
—German lieutenant, in interview with Correspondent Ray Brock

LET'S FACE the plain truth with old-fashioned American honesty. And let's think of ourselves for a change; let's think of the freedom we've fought for since 1776.

We have a fight on our hands; a fight for freedom. There can be no honest denial of it. The truth is that this freedom is in real, immediate danger of disappearing. In another decade, our American freedom, our cherished American ideals of independence, may be as outdated as last year's Almanac.

Let's go! We Americans cannot sit back and, with our heads in the sands, pray that the triumphant, blood-spilling Nazis will get no closer to our shores.

We cannot say to others, "Go to it! We'll hold your coat!" We can't do that, because unless we lend the strength of our arm to defeating this sworn enemy of what Americans hold to be the Rights of Man, there's every likelihood the United States will forfeit those rights.

That is the unvarnished truth. It is not pleasant to contemplate. But we must and we can face it with courage and without flinching.

Let's go, U. S. A.!

Today is not one year ago—though many of us think so. In twelve months, the war has come almost to our front door. Unless we act with utmost speed and decision, supported by our strong convictions of right and wrong, that war may surge up not only to our porches, but overnight swirl around to our backyards.

Let us pause for a moment and, if you like, do a little concentrated whistling. As a people we have pronounced a hearty "Yes" to "all steps short of war." But what has happened in four weeks? Hitler's U-boats and bombers are sending American war supplies, including desperately needed food, to Davy Jones' locker.

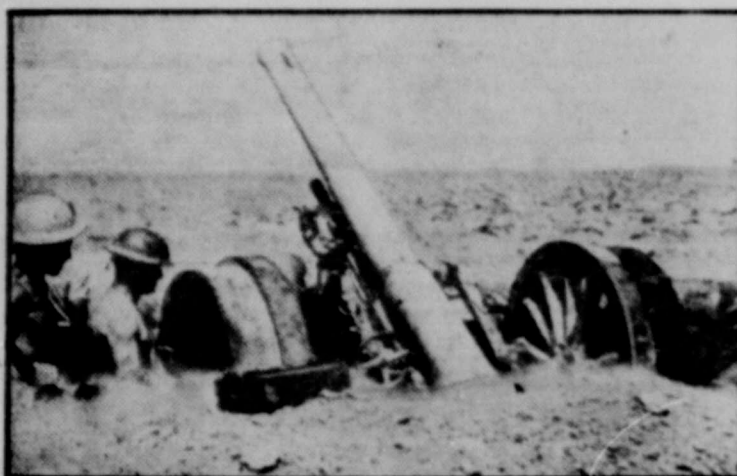

As a nation, we are committing suicide—and not slow suicide—by hoping against hope that Hitler can't torpedo many more ships that carry the weapons of our sweat and toil, and of our savings invested in defense bonds. Why can't he?

Let's go, U. S. A.!

To avoid the horrors of a ten years' war, a twenty years' war, or another Hundred Years' War, let's roll up our sleeves and exterminate the creeping, filthy menace that threatens the freedom of ourselves, our children and their children. To safeguard our democracy and our freedom, we have done it every generation; since we must, Americans of courage and faith can do it again.

Let's go, U. S. A.!

Guns Sink Deep in African Sands

Withstanding the siege of Tobruk, a British gun crew pounds away at advance Axis positions. The garrison at the Libyan port is being strengthened continuously.

Ochiltree County Red Cross Chapter Begins Work on Fifth Quota War Production Garments

With a new and larger quota facing the local chapter, it will be necessary for everyone to help with the work. In this time of national emergency, the Red Cross is already working on a war time basis and trying to assist the public in being ready for whatever they must face. During the past year the local unit has completed and shipped 1,350 articles which went to national headquarters for war relief uses.

Mrs. J. F. Cox, chairman of the production committee, is very gratified with the cooperation she has received from clubs and individual during this past year and feels that with the same constant and persistent help the unit will be able to finish by December, its assigned quota of 2,203 additional garments; of these 2,000 are baby garments.

The greatest need of the local Chapter at present is a downtown room where workers may gather to sew and knit. Much more work could be accomplished by group supervision. If you know of any suggestion to help remedy this situation get in touch with Mrs. Cox or Dr. Manse Wood, Red Cross chairman.

Summary of Work

War production work was started in Ochiltree County in May 1940 with Mrs. Rose Mitchell directing the sewing and Mrs. Henry Richardson the knitting. After two assignments, Mrs. J. F. Cox was elected chairman, assisted by Mrs. Richardson and Miss Bette Bryan in the knitting department.

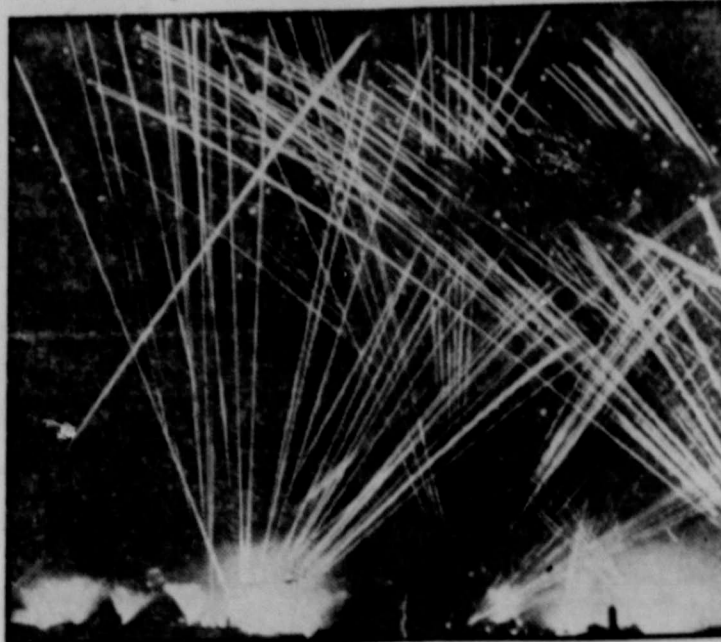

The first quota was shipped on June 21, 1940 and consisted of 14 knitted sweaters; 15 dresses and 5 layettes. Each layette contained 30 pieces. The second assignment was completed and sent on September 21, 1940. In this shipment were 25 sweaters, six belonging to first assignment; 4 shawls; 3 beanies; 10 dresses and 2 layettes.

On February 22, 1941, the third quota was ready for headquarters. It was composed of 25 layettes; 20 operating gowns; 65 dresses; 24 boys flannel shirts; 9 hospital pajamas. No knitted articles were sent at this time as very few finished articles were on hand.

The fourth assignment was sent on June 4. It contained 85 dresses; 46 hospital pajamas; 6 boys shirts; 15 pair of knitted socks; 15 shawls; 71 sweaters. All the sweaters, 10 of the ladies shawls, 6 pair of pajamas and the shirts were for the third assignment.

This completes all the assigned sewing; but of the knitted articles a

Anti-aircraft guns traced this pattern of fire to protect British troops evacuating Greece. Anti-aircraft shells kept German dive bombers flying high.

part of the third and all of the fourth quota are yet to be finished. This means 12 men's sweaters; 34 ladies sweaters; 15 shawls; 41 children's sweaters. It is hoped they will all be ready for shipment by September 1. If you can knit or will learn and will help these ladies with this assignment, please contact them soon.

Fifth Assignment

The Chapter has accepted a fifth quota to be completed by December and includes the following articles: 48 bed shirts; 40 layettes; 80 girls cotton dresses; 40 boys shirts (made of lighter weight cotton material); 15 convalescent robes; 20 hospital pajamas; and 40 toddler packs. The toddler packs a new item are for children from the age of 9 months to two years and contain 20 pieces each: 3 knitted articles, a sweater, a beanie and a pair of mittens; 2 pair of rompers; 1 snow suit; 2 undershirts; 2 sleeping garments; and 10 diapers.

Knitters Are Named

At various times during the year, ladies working on the sewing have been listed. Below is given a complete list of all persons who have completed knitted garments. The Friendly Neighbors club made four crib quilts from outing scraps left over from layette articles. The members of the Helpful Neighbors club pieced and quilted a comfort using scraps of leftover wool. These quilts will probably be used locally instead of being sent to headquarters.

One hundred and ten sweaters have been completed this year. They were made by Mrs. W. E. Warner and other ladies of the Booster Station; 15; Mrs. Henry Richardson; 5; Mrs. J. H. Key; 4; Miss Eugenia Mitchell; 4; 3 each by Mrs. Bill Barker, Mrs. Quentin Williams, Mrs. Ray Nelson, Mrs. E. R. Jarvis; 2 each, Mrs. J. O. Young, Mrs. Tom Deuman, Mrs. Edna Pearson, Mrs. Lawrence Ellzey; J. R. McLarty, Mrs. Cronwell Rogers.

Completing one sweater each: Mrs. Irvin Hergert; Miss Bette Bryan; Mrs. M. P. Exline, Mrs. W. L. Philpaw, Mrs. Rose Mitchell, Miss Helen May, Mrs. G. W. Acker, Mrs. Glen McGibbon, Mrs. Seidon Cardine, Mrs. Dan Archer, Mrs. Horace Lackey, Miss Opal Polesinger, Mrs. O. W. Dunkle, Mrs. J. W. Frase, Mrs. Ben Frase, Mrs. C. O. Roach, Mariwyn Richardson, Mrs. E. J. Copeland, Mrs. Geo. Clennan, Mrs. Garland Redfern, Miss Ruth Sharpe, Mrs. Lawrence Anderson, Mrs. Wilma Gipson, Miss Mildred Rogers, Mrs. W. L. Philpaw, Mrs. Lake Patton, Mrs. Rufus Boerjack, Mildred Moore, Joan Kutch, Ruby Ann Patton, Alverna Records, Kathleen Pinkerton, Helen Black, Wanda Bushman, Mrs. Lynch Dodson, Mr. F. M. McGee, Mrs. Dean McClutcheon, Mrs. Jerald James, Mrs. T. O. Patton, Miss Katherine Winkler, Mrs. Frank Frey, Mrs. R. L. Duke, Mrs. Glen Truax, Mrs. Cecil Dodd, Mrs. E. E. Perkins, Mrs. Roy Bell, Mrs. J. A. Davis, Mrs. E. B. McNett, Myrtle Mae Conley, Mrs. J. C. Barton, Mrs. O. C. Lallement, Miss Frances Finch, Mrs. Ralph Headlee, Miss Nellie Wingren, Mrs. A. P. Spicer, Mrs. Kermit Johnson, Mrs. Ella Murray.

Shawls were crocheted two each by Mrs. Audie Conley, Mrs. Harry

Nail, Mrs. J. F. Cox, Miss Eugenia Mitchell; one each by Mrs. E. L. Whippo, Mrs. R. T. Correll, Mrs. D. D. Shanks, Mrs. W. E. Tandy, Mrs. F. L. Wagner, Mrs. Ferd Funk, Mrs. J. C. Barton, Mrs. J. N. Conley, Miss Annabell Cox, Mrs. L. L. Lance, and W. A. Cone.

The 15 pair of socks were made by J. R. McLarty, Mrs. J. R. McLarty, Mrs. C. S. Tandy, Mrs. T. E. Miller, Mrs. W. C. Knudler and Miss Eugenia Mitchell.

Two sweaters have been completed but credit has not been given to the knitter as no record of the name could be found. If your name should be in this list, please see one of the Red Cross workers so that the record may be corrected.

Personality is a combination of all of one's prejudices plus the results of his efforts to understand others; it is the sum total of one's good and bad qualities.

A man who conscientiously works at his job is in a fair way of getting the most out of life and, consequently, is on the road to happiness.
