NEXT YEAR, MAYBE

Just Be Patient -- Mr. Fisherman

When will you pull your first bass from the new Champion Creek Reservoir?

"It's their luck with the weather, then the time might be 13 or 14 months from now. But only briefly then to about 30 days and then the reservoir would be closed probably until 1961."

That's the outlook from Larry Campbell, fishery biologist for the Texas Game and Fish Commission in San Angelo.

It was Campbell who recently directed the kill of undesirable fish out of virtually all of the Champion Creek stream area above the dam, located south of Colorado City.

Campbell visited with City Council Monday night in the council's official City Hall. He reported on the kill in 25 miles of streams and waters now impounded by the new dam.

He also expressed appreciation to the city, landowners and Texas Electric Service Company for cooperating in the preparatory work prior to stocking the reservoir.

But councilmen and a few City Hall visitors — with the gleam of a fisherman in their eyes — couldn't wait to ask just when they could dunk a bait in the new lake.

Campbell, just like a fish and crappie in the fall,

These four Jaycees will be among new officers to be installed here Thursday night. New directors of the Junior Chamber are, left to right, Cummins Wood, Seth Cowan, Lewis Williams and Drew Ballard. A fifth director, not pictured, is Bob Reilly. Local Jaycee-ettes will also be installed at the dinner in Civic House.

FOR STUDENTS TUESDAY

Career Day Advisors to Mix 'Good Living' in Vocations

Leaders in education, business and church will advise Colorado City High students here Tuesday.

The occasion will be the school's 4th Annual Career Conference, sponsored by education committee of Colorado City Chamber of Commerce.

Four advisors, all from out

of town, will consult with the students in three special section studies — citizenship, self-analysis for decision and the combination for a well-rounded life.

Conducting the three sections will be George Jordan, manager of the Brownwood Chamber of Commerce and past president of West Texas Chamber Managers Association; Dr. Marvin Baker, assistant to the president at Howard County Junior College in Big Spring; and Dr. Jordan Grooms, pastor of First Methodist Church in Big Spring and featured lecturer for Colorado City's 1957 School of Christian Living.

Speaker for the keynote assembly, which will follow the sectional programs, will be Dr. Anthony Hunt, president of Howard County Junior College.

Initial sectional period will begin at 9 a. m. and continue until 9:30 a. m. with sophomores in Jordan's section 1, juniors in Baker's section 2, and seniors in Grooms' 3.

The class groups will rotate for the other sectional periods — 9:30 to 10:25 a. m. and 10:30 to 11:10 a. m.

Dr. Hunt's keynote talk will be at 11:15 in the auditorium.

Jordan, in the section 1 discussion on citizenship, will

point out the various duties and obligations which a person must assume in society, regardless of the occupation chosen.

In the section 2 look at decision, Baker will relate importance of a person analyzing his or her capabilities and qualifications in addition to selecting a vocation which might be preferred.

The bearing of marriage, home, church, cultural contacts and leisure activities — not just vocational environment — upon happy and successful living will be related by Grooms in the section 3 discussion.

Farmers and ranchers looked to the skies for more rain Saturday following fairly heavy showers Thursday night and lighter showers Saturday morning.

The Thursday night moisture was the third general rain this spring in a period of sub-normal moisture.

The showers have been spotted... and a lot more is needed before planting time, according to A. V. Sheppard of the Soil Conservation Service.

Official rain gauge in Colorado City Thursday night listed .26 of an inch and only .04 for the Saturday morning effort.

In the county's east section, Loraine residents reported .33 of an inch Thursday night and only a light shower Saturday.

Areas north of Loraine reported up to .80 of an inch Thursday, according to K. L. Taylor of the Loraine State Bank.

Westbrook reported only .04 of an inch Thursday.

Criminal Court to Convene This Week

February term of 32nd District Court will convene there this week, District Attorney Edmon Manor said Saturday.

Among the large number of cases on the docket to be called for are those involving seven persons charged with forgery and fraud, plus five charged on roofing repair deals.

Judge Sterling Williams of Snyder will preside in the absence of Judge A. S. Mauzey of Sweetwater.

"If," he replied, "we get some rain soon."

"And, if we get some bass in there in a few weeks... then, if we have some rain run-off during the year, then it is possible the lake will be opened briefly — for about 30 days — a year from this May."

The brief fishing period would be to "harvest" off the yearling bass crop that would be crowded out otherwise.

"Then it would be closed again until opening for all fishing in 1961," Campbell said.

The biologist estimated that upward of half million fish have been destroyed in the Champion Creek kill.

"Some desirable fish were killed, too," he said, "but this could not be helped."

"This way, with a kill, if we have good luck in 90 days after restocking, the good fish will have dominance."

"However, if we had only stocked the new lake... we would have had good fishing for only a couple of years."

"This way," he emphasized, "we will have good fishing for 10 years and more."

Big mouth bass will be the first stocking, followed by channel cat in the summer

Thursday Meeting To Fight Wage Law

Top Farm Officials To Speak

A public meeting has been scheduled here Thursday to formulate plans for opposition to the placing of farm and ranch workers directly under the federal Wage and Hour Law.

The meeting — open to farmers, businessmen and interested individuals — is set for 7:30 p. m. Thursday in the Colorado High School Auditorium.

Heading the meeting will be J. D. Hill, president of the Mitchell County Farm Bureau.

And on the program will be Loran Walker of Abilene, agricultural manager of the West Texas Chamber of Commerce, C. H. Deviney of Coahoma, state vice president of the Texas Farm Bureau, plus several other top leaders in West Texas agriculture.

The meeting here is an outgrowth of a meeting held Friday in San Angelo when 400 persons heard Matt Trigg, assistant legislative director of the American Farm Bureau in Washington.

Hill and Mrs. Ivan Barber, local FB secretary, attended the meeting.

The Farm Bureau here earlier in the month voiced opposition to the Wage and Hour Law and called to farmers and business men alike to join a fight against the move.

The Bureau represents approximately 450 farmers in the county.

The local bureau earlier notified Trigg that they were "uniting with the national organizations in seeking to repulse this new threat by organized labor to encroach in farm labor."

The new regulations would place agricultural workers under wage and hour law, place compulsory regulations

OTIS HOLLADAY
... new Colorado High Coach.

BEGINS IN SEVENTH GRADE

Quickness Is Basic in Holladay Coaching Plan

Otis Holladay, the new Colorado City High coach, is a man who believes in movement.

His record of 30 victories in his last 34 football encounters as coach of White Deer indicates forward propulsion.

So does White Deer's 1958 Class A state championship, won with 555 points totaled in adding machine fashion during the single season.

But the real point of Holladay's theory of movement is not the championship march nor the lighting scores.

Those are, in fact, the result of his theory.

At least, that's the way he explained it here Friday as his 200-plus pound frame

spurred over the frame of an office chair.

White Deer's state championship was won with a hard core of 18 kids. Pooled together, they were average size for any Class A high school football team.

In fact, the largest was an 185 pound guard. The smallest — a 130 pound guard and 147 pound tackle both starters.

The capsule pair played shoulder to shoulder on the left side of White Deer's line.

"At 130 and 147 pounds," Holladay smiled, "they played against linemen mostly larger than they."

"But we sold 'em on movement — movement to beat an opponent to the charge, and they were blocking bigger boys."

The idea of teaching a football player movement or quickness is fundamental in the coaching doctrine of the 34-year-old mentor.

It begins in the seventh grade even before the fundamentals of blocking and tackling.

"In football," Holladay explained, "the factor is not so much speed."

"Instead it is quickness... the quickness to move... the quickness to move five yards faster than the other person."

"I've seen lots of 10-second lines."

City to Buy Carload of Water Pipe

The city will purchase a carload of pipe to meet demands here for water service.

City Manager R. K. Snethen obtained authorization for purchase at Monday night's City Council meeting.

At the same time council authorized the asking for bids for purchase of a new pickup truck.

The carload of cast iron pipe in six-inch and two-inch sizes is for water distribution lines. Snethen said the pipe is needed for new construction areas and to eliminate dead-ends and provide for adequate service in sections now building into maximum development.

Two years ago the city purchased 2,500 feet of two-inch pipe and had a full car of six-inch pipe. The last of this purchase is being used on Marshall and Dallas streets, City Council was told.

Pickup, for which bids will be requested, is an old model vehicle in the water department.

Catfish Biting at Lake Colorado City

Catfish were reported biting this week at Lake Colorado City.

Rex Dobbs, who lives at Coopers Cove, caught two yellow cat Sunday, one weighing 25 pounds the other 20.

Buck Boatright, 1216 Pine St., caught a 17-pound yellow cat Thursday and a 15-pounder Saturday morning.

All were caught on trot.

We put the light in Your window

Had you come 25 years ago young fellow, your light would have been a kerosene lamp. But your Dad and a lot of other folks like him organized an electric cooperative and built their own electric system. It was the only way we could get electricity in our rural area.

Now you are going to have to help guard it. Some people would have you think the government built the system and gave it to us. That isn't true. We borrowed the money and we are paying back our loan with interest. Our cooperative is a business managed, tax paying partnership and we are happy to welcome you as a member. Because the Cooperative brought electricity to your farm you'll lead a healthier, happier life.

Grow strong young fellow. You'll want a light in the window some distant night when your son comes into the world.

MISS PIPKIN, GUEST SPEAKER

Presbyterian Church Women Plan Special Mission Program

Miss Ann Pipkin of Antlers, Okla., a Presbyterian U. S. missionary engaged in the educational work of the mission, will be guest speaker Friday, April 24, at a special meeting and mission program for the Women of First Presbyterian Church.

A native of Antlers, she teaches Bible and English courses in the Agnes Erskine School in Recife, Brazil. The school includes primary, high school and three years of teacher's training in its curriculum.

In 1958, Miss Pipkin and two other Presbyterian missionaries made a trip up the Amazon, the world's largest river, on a 300-passenger ship. They went about one thousand miles from Recife, Pernambuco, to Manaus, in the state of Amazonas, which is twice as large as Texas, or not quite as big as Alaska, and yet has only one Presbyterian Church. The missionaries were warmly welcomed by the little evangelical band in Manaus.

Miss Pipkin is a graduate of Southeastern State College, Durant, Okla., and the Assembly's Training School in Richmond, Va. She went to the mission field for the first time in 1949. She had previously served as Christian education worker in the Little Brick Church of Knoxville, Tenn., as a Sunday-school extension worker in Oklahoma, and as secretary of the First Presbyterian Church in San Angelo, where she still retains her church membership.

During furlough she visited her sister in Torrance, Calif., and is making her furlough home in Antlers, when not traveling around this country on speaking engagements. She plans to return to the field in July, 1959, to resume her missionary duties on the field.

Hour for the meeting will be 7 p. m., and evening program will be preceded by a salad supper.

Rhetta Biggs Speaker for Q&S Program

Other members present were Judy Bilberry, Carolyn Howell, Rosemary Thomas, Fanchon Nelson, Penny Williams, Carolyn Shimer, Pat Neff, Dorothy Blair and Mrs. Gerald Gordon, sponsor.

Sheppard at the SCS office said the better medium textured sandy loam soils were in fair moisture condition but tight soils are extremely dry.

"Rangeland is dry and we need a lot more moisture to grow much grass," he added.

Sheppard said there was no moisture in January, very little in February and March.

"Our critical time is in April and May... and we anticipate the greatest amount of moisture in those two months," he added.
