Chinese Reds Will Present Their Charge

LAKE SUCCESS, Nov. 11. (AP) Communist China notified the United Nations today she is accepting a Security Council invitation to present her own case charging the United States with aggression but is rejecting a similar bid by the council to discuss Chinese intervention in Korea.

The Communist Chinese foreign minister, Chou En-Lai, announced the decisions in two separate cables to UN Secy-Gen. Trygve Lie.

SITUATION

The situation, in brief, is this:

1. The Peiping regime notified Lie a nine-man delegation will depart from Peiping Nov. 14 in response to a Security Council invitation extended Sept. 29 for the Communists to be represented in council talks on the Peiping charge that sealing off of Nationalist-held Formosa by the U. S. Seventh Fleet constitutes aggression against China.

2. The Chinese Communists, in another communication later to Lie, said they rejected a Security Council invitation issued Nov. 8 for Peiping to send a delegation here to talk about American charges that the Chinese Communists have intervened in the North Korean fighting.

3. The Chinese Communists proposed, in turn, that the Security Council consider together their charges concerning Formosa and of other American aggression in Korea and air attacks on Manchuria.

The early view of delegates and officials here, on the basis of the communications received from Chou, was that the Korean situation undoubtedly would be discussed.

Warren R. Austin, United States delegate, told the Council last Wednesday in voting for the invitation to the Chinese Reds that he had a number of questions to ask their representatives if and when they came.

Two Highway Deaths Near Here Friday

Two traffic fatalities within a few hours of each other occurred on the Roby highway Friday, bringing the county's traffic death toll to seven for this year, according to E. W. Green, state highway patrolman, who investigated both crashes.

Mrs. Marie Martinelli, 27, of Los Angeles, was instantly killed about 2:25 o'clock Friday afternoon when her car turned over three miles east of Snyder on the Roby highway, Green said.

Rose Blanco, 50, who was a passenger in the car with Mrs. Martinelli, was only slightly injured and brought to the Snyder Hospital for treatment and observation.

Mrs. Martinelli, driver of the car apparently lost control of the vehicle. It skidded about 600 feet from the point where it left the road, Green said.

Roy Baker of Abilene and W. L. Floyd of Midland, witnessed the crash and called the authorities.

The couple was en route from Los Angeles to Hamilton, Ohio and a few moments before the accident had stopped in Snyder for coffee, the Blanco woman told Green.

The Martinelli death was the sixth traffic fatality in Scurry County outside of the city this year, Green said.

Her body was taken to the Bolger-Barnes Funeral Home pending funeral arrangements.

In the second accident, occurring about 7:15 o'clock, Delso Sylvester Campbell, 59, of Okemah, Okla. was killed instantly when his car collided with one driven by Westal Wayne Fuchs, 23, of Lamesa, four and one-half miles east of Snyder on the Roby highway.

Campbell's wife, Mrs. Marie Campbell, 55, suffered fractured ribs and lacerations and was taken to the Snyder hospital for treatment. Her condition was satisfactory yesterday.

Fuchs was not injured. In the crash, both cars were demolished.

The body of Campbell, which was taken to the Bolger-Barnes Funeral Home, will be taken to Okemah for final rites today.

Typhoon In Pacific

TOKYO, Sunday, Nov. 12. (AP)—A typhoon sweeping up the Western Pacific ocean with winds of 90 miles an hour was expected to be 225 miles South of Tokyo at midnight U. S. weather observers reported today.

Gale warnings have been issued for northern Kyushu, southern Honshu and Shikoku—three of the main islands of Japan.

Free Oil From Ellenburger In The No. 1 Chorn

Thomas W. Doswell and Todd M. Pettigrew, both of Dallas, have found some free oil in the Ellenburger at their No. 1 G. E. Chorn East-Central Scurry County wildcat, seven miles east of Snyder near Hermleigh.

This prospector, located 660 feet from the east and north lines of section 59, block 3, H&TC survey, topped the Ellenburger at 7,620 feet to give it a datum of minus 5,173 feet on that marker.

It drilled to 7,630 feet and took a one-hour and 54-minute drill-stem test at 7,611-30 feet.

Gas came to the surface in 11 minutes. No fluid came to the top while the tool was in the hole.

Recovery was 270 feet of 44.6 gravity oil and 480 feet of heavily oil-and-gas-cut drilling mud. There were no signs of formation water.

Open flowing bottom hole pressure was 300 pounds.

Shut-in bottom hole pressure after 30 minutes was 600 pounds.

Operators were circulating, waiting on orders.

The prospector probably will be drilled deeper.

France Admits She Is Facing Defeat In Asia

By CARTER L. DAVIDSON
(Associated Press Staff)

PARIS, Nov. 11.—France is frankly facing the threat of disaster in her fight with communism for control of Indochina and is taking steps to avert it.

After almost five years of jungle warfare in the Indochinese State of Vietnam, top French officials both here and in Saigon, the Vietnamese capital, see only these three choices:

1. Re-arm, reinforce combat units and throw out the Communists.

2. Toss the whole thing before the United Nations for a negotiated settlement.

3. Yield the strategic foothold in Southeast Asia to Communism.

ATTITUDE

Point 3 is clearly unthinkable to the French. Point 2 is repugnant to most of them.

That leaves Point 1. The best information available at both ends of the Paris-Saigon axis is that the machinery is in motion, at full speed, to bring it about.

Seymour Topping, Associated Press staff correspondent in Saigon, reported today that "attention here is riveted on Paris and Washington, where decisions are in the making that will determine whether French forces will be able to withstand Ho Chi Minh's insurgent army during the critical months ahead."

Strikers Plan For Next Week

NEW YORK, Nov. 11. (AP)—Company officials reported telephone service virtually normal today, but union sources indicated a nation-wide strike of 33,000 telephone equipment workers would be pressed with new intensity next week.

One company official said the combination of Saturday and the Armistice Day holiday helped in the improvement of service.

There were fewer telephone calls, and in some areas pickets were withdrawn so workers could draw extra holiday pay. Operators, not on strike but reluctant to cross picket lines, thus were able to work.

Morris Iushewitz, New York CIO secretary-treasurer, said 30 CIO unions had been asked to provide pickets in the Metropolitan area next week if settlement of the wage and contract dispute between the CIO Communications Workers of America and the Western Electric Co. is not settled.

Similar action probably will be taken in other cities.

The striking equipment workers are reported asking a 15-cent-an-hour wage increase from the Western Electric Co., a subsidiary of American Telephone and Telegraph Co., and to have rejected a 11¼-cent-an-hour offer. Present wages range from $1.55 to $1.62 an hour.

Russia May Have Strength To Start 30 Years' War In Asia

By RUSSELL BRINES

NEW YORK, Nov. 11. (AP) — The Chinese Communist thrust into Korea may give the Kremlin the manpower it needs for a "thirty years' war" in Asia.

The potentialities are explosive. They range from an uneasy peace, anchored to what the Communists would interpret as concrete gains to the outbreak of World War III.

This is the view in Tokyo of a last minute military drive that transformed a United Nations victory into uncertainty.

The Soviets long have made clear their hope of carving out new conquests and whittling down western strength by wars throughout the world.

CLEARED UP

In Asia, where this destructive alchemy has been working for years, the decisive factor was the willingness and ability of the Chinese Communists to participate.

The Peiping regime controls the largest land mass in the Orient and maintains its largest army. The Japanese, like other imperialists before them, learned the futility of trying to conquer China by land.

Mao Tse-Tung, the Chinese boss has been called an "Oriental Tito" who would not take outside orders.

This uncertainty now has been eliminated by the Chinese Red drive into Korea under what, in many respects, are unfavorable circumstances.

The Chinese hit too late for the decisive military victory that would have been possible had they struck at weakened United Nations forces holding the Pusan beachhead.

Now the Chinese have gone into battle against United Nations air and land power concentrated in a relatively small area. This has cost them far more men than they would have lost, three months ago.

The major, long-range purpose evidently is to bog down the Western Powers in a hopeless land campaign against the massive Chinese Red army of 4 million men.

The immediate goal apparently is to nail down the entire United Nations force for the winter. This would remove the threat of this powerful, integrated UN command for defensive fighting against Communist drives into such other threatened areas as French Indochina.

Peiping itself seems unimpressed by the threat to the Manchurian border or the importance of the Yalu River hydroelectric plants as basic reasons for entering the campaign.

At Last — A Machine That Automatically Cuts Out Commercials

CAMBRIDGE, Mass., Nov. 11. (AP) —A gadget which automatically silences a radio during some "commercials" has been invented by a Massachusetts physicist.

Dr. R. Clark Jones of Polaroid Corporation demonstrated his machine before the Acoustical Society of America Friday—but company officials said nothing definite has been decided about manufacturing it for public sale.

The device works because of a fundamental difference between music and speech.

When attached to a radio, the gadget silences the set after one or two syllables of speech—then puts the set back on when the music resumes.

Dr. Jones conceded his machine had one failing, however. Singing commercials and patter songs—such as those turned out by Gilbert and Sullivan—can confude it.

"But," he said, "when the words are subordinate to the music as they are in opera the device will not interrupt the singing."

Lull Breaks As Allied Troops Move Up Again

Tito Cuts Off All Relations With Albania

(By The Associated Press)

BELGRADE, Nov. 11.—Yugoslavia broke off all but token diplomatic relations with tiny neighboring Albania today in a feud touched off by the Russian-led Cominform's quarrel with Premier Marshal Tito.

A Yugoslav spokesman said the Albanian legation here has been "closed and sealed." He made public a note handed Albania announcing the action and the reason for it.

The note charged Albania has used the Belgrade legation not for "the conduct of current affairs and for the settlement of existing issues between the two governments, but has utilized its existence exclusively for the purposes of conducting offending and provocative activities against Yugoslavia and its authority."

"Yugoslavia therefore considers the further sojourn of the representatives of Albania in Yugoslavia clearly useless," it said.

The move marked the most spirited step Tito's government has yet taken against any of the Soviet satellites in realiation for a Moscow-directed campaign which has included an economic boycott political pressure and diplomatic insults.

Phone Service Normal Again

Most of the telephone operators were back on th job yesterday, relieving the emergency basis of the local telephone office had been working under Friday.

The situation was handled Friday by the use of supervisory personnel, many of them male, who held down about half of the 34 positions on the switchboard.

The operators who did not report Friday honored a one-man picket line sent here from Sweetwater by the Westrn Eelctric Co. The picket was on duty, unrelieved from early Friday morning until 10 o clock that night.

Telephone service is once again back to normal. Long distance as well as local calls are no longer a headache to Snyder, while the nation-wide Western Electric strike remains unsettled.

It was learned here yesterday afternoon that the operators in Midland went back to their jobs at 2:30 p.m. yesterday.

10-Degree Minimum Hit Early Saturday

The thermometer hit a record low of 10 degrees early yesterday morning after a calm Friday night.

The maximum Friday was 38 degrees, Mrs. D. P. Strayhorn, weather observer, reported.

Dr. H. G. Towle, Mayor for 20 Years, Dies

Funeral services for Dr. H. G. Towle, 69 year old, widely-known Snyder optometrist, and former mayor, will be held at 2 o'clock tomorrow at the First Methodist Church.

Dr. Towle died yesterday morning at the Snyder Hospital after a brief illness.

AT TULANE

Born in Wisconsin Oct. 16, 1881, Dr. Towle was reared in York Neb. Following his elementary schooling there, he entered Bradley Institute at Peoria, Ill., and later took his doctor of optometry degrees at Tulane University in New Orleans and at the Northern Illinois College in Chicago.

In 1903 he moved to Colorado City, where he practiced until 1905, when he married Miss Mary Roddick and moved to Snyder, where he has lived ever since. The home is at 2911 Avenue U.

For more than 20 years Dr. Towle was mayor of Snyder, a job which then, as now, was largely compensated in the gratitude of fellow-citizens rather than monetary gain. During those years many improvements were made in the city, and it was during Dr. Towle's tenure and through his efforts that the Ku Klux Klan was prevented from organizing here. He went out of office in 1946.

INTERESTED IN ROADS

Dr. Towle was a believer in good roads and instrumental in getting better road connections for Snyder.

For 24 years he was a member of the Texas Board of Optometry Examiners, and in that capacity was helpful in getting passage for much of the modern legislation affecting optometry, friends here said.

He was a member of the Methodist Church and active in its affairs. He was also a member of the Masonic Lodge.

Dr. Towle entered the hospital here Nov. 3, and since that time passed through a series of crises.

Besides his widow, he leaves a daughter, Mrs. John F. Blum, 3000 Avenue U, and a sister, Mrs. Will Reed of York, Neb.

In commenting on Dr. Towle's death, many longtime residents spoke of him and his administration of the city government in the terms of the highest priase. They stated that he always believed in the city and never wearied of working for its improvement.

The Rev. W. W. Adcock will officiate at the funeral tomorrow and services will be under the direction of the Bolger-Barnes Funeral Home. Burial will be in the Snyder cemetery.

Resistance Is Slight Over Large Area

Chinese Soldiers Are Described As Mean, Stubborn Fighters

SEOUL, Sunday, Nov. 12. (AP)—Allied troops attacked northward from their Chongchon River bridgehead in Northwest Korea Saturday, gaining four miles in three hours.

Red opposition was slight to heavy.

The advance broke a five-day lull.

In the period of quiet, Chinese and North Korean Communist troops had pulled back to far North Korea after delivering hard shock punches.

Whether the Reds would stand and fight or continue withdrawing was the big question.

IMPLICATION

A resolution before the UN demands that Chinese Red troops be withdrawn. It implies that if they are not, the allies will wage all-out war against them.

The U. S. 24th Division and the British Brigade struck four miles northward on the west end of the 100-mile allied line across the waist of North Korea. They met almost no opposition. In three hours, 24th Division patrols had reached the approaches to Pakchon, eight miles north of Anju, site of an important bridge across the Chongchon River.

The U. S. First Cavalry division ran into "very, very heavy resistance" from firmly dug-in Reds only 500 yards north of the river. Artillery and jet fighters helped the troopers.

DUG IN

Maj.-Gen. John H. Church, 24th Division commander, said he believed the Chinese were in strong defensive positions about five miles north of the most advanced 24th positions. Pakchon had been "virtually levelled" by repeated air bombardment.

The general said Chinese Communist troops in Korea are "fighting without any animosity.

"They just obey commands and try to do what they are ordered."

He had no reports that Chinese Reds had mistreated American prisoners. In fact, he added, he heard they gave captured Americans water, food and medical care.

Church said the Chinese troops fight stubbornly, even under heavy artillery fire. They man their main defense positions and use North Koreans only for flank protection.

South Korean First Corps troops crossed the Tearjong River and cut the Kasan-Pakchon road.

In the center, U. S. Marines just south of the Changjin reservoir got set for expected assaults from Reds reported moving from the north.

The Marines have captured all four hydroelectric plants below the Changjin reservoir. The last one they took, at Koto, was almost intact. A North Korean radio broadcast said Red troops dismantled the plants and carried away the parts.

The Changjin Reservoir plants and four other plants below the Pujon Reservoir, 15 miles to the northeast, supply electricity for much of North Korea and parts of Manchuria.

U. S. Seventh Division units were advancing toward the Pujon power plants. The most forward elements were 15 miles south of the reservoir.

Molotov Back In Favor With Stalin Again

BERLIN, Nov. 11. (AP) — The Soviet army's official newspaper confirmed with visual evidence today that V. M. Molotov has risen to new heights of favor in the Kremlin.

The Taegliche Rundschau published a full page of pictures of ceremonies in Moscow commemorating the 33rd anniversary of the Red revolution, showing Molotov in significant prominence.

Recent reports from Moscow have indicated that the former foreign minister may have elbowed his way to the No. 2 spot in the Politburo.

System Is Reversed

EDINBURG, Scotland, Nov. 11. (AP) — An experimental movie theatre for children was opened here Friday night. Adults will be admitted only if accompanied by a child.

GOP Levels On Dean Acheson

By JOHN B. OWEN
(Associated Press Staff)

WASHINGTON, Nov. 11. — Republican Chairman Guy Gabrielson joined anew today in the GOP "fire Acheson!" chorus and in his party's emphatic bid for a stronger voice in foreign policy.

Gabrielson, summing up the Republican advances in Tuesday's election, said the Truman administration was negligent in its conduct of the nation's affairs in general.

The GOP national chairman suggested President Truman change his "dangerous curse" and drop Secretary of State Acheson and Secretary of Agriculture Brannan.

VANDENBERG DUE

The long-ailing Sen. Vandenberg (R-Mich) expects to be on the job Jan. 3 when the new Congress steps in. He may seek to temper GOP fire on foreign policy issues. Out of action for many months, Vandenberg has a record of seeming to settle differences and present a united American front to the world.

As for domestic issues, another Republican, Sen. Wiley of Wisconsin, fresh from a re-election victory, demanded quick congressional attention to the "grave inflationary situation."

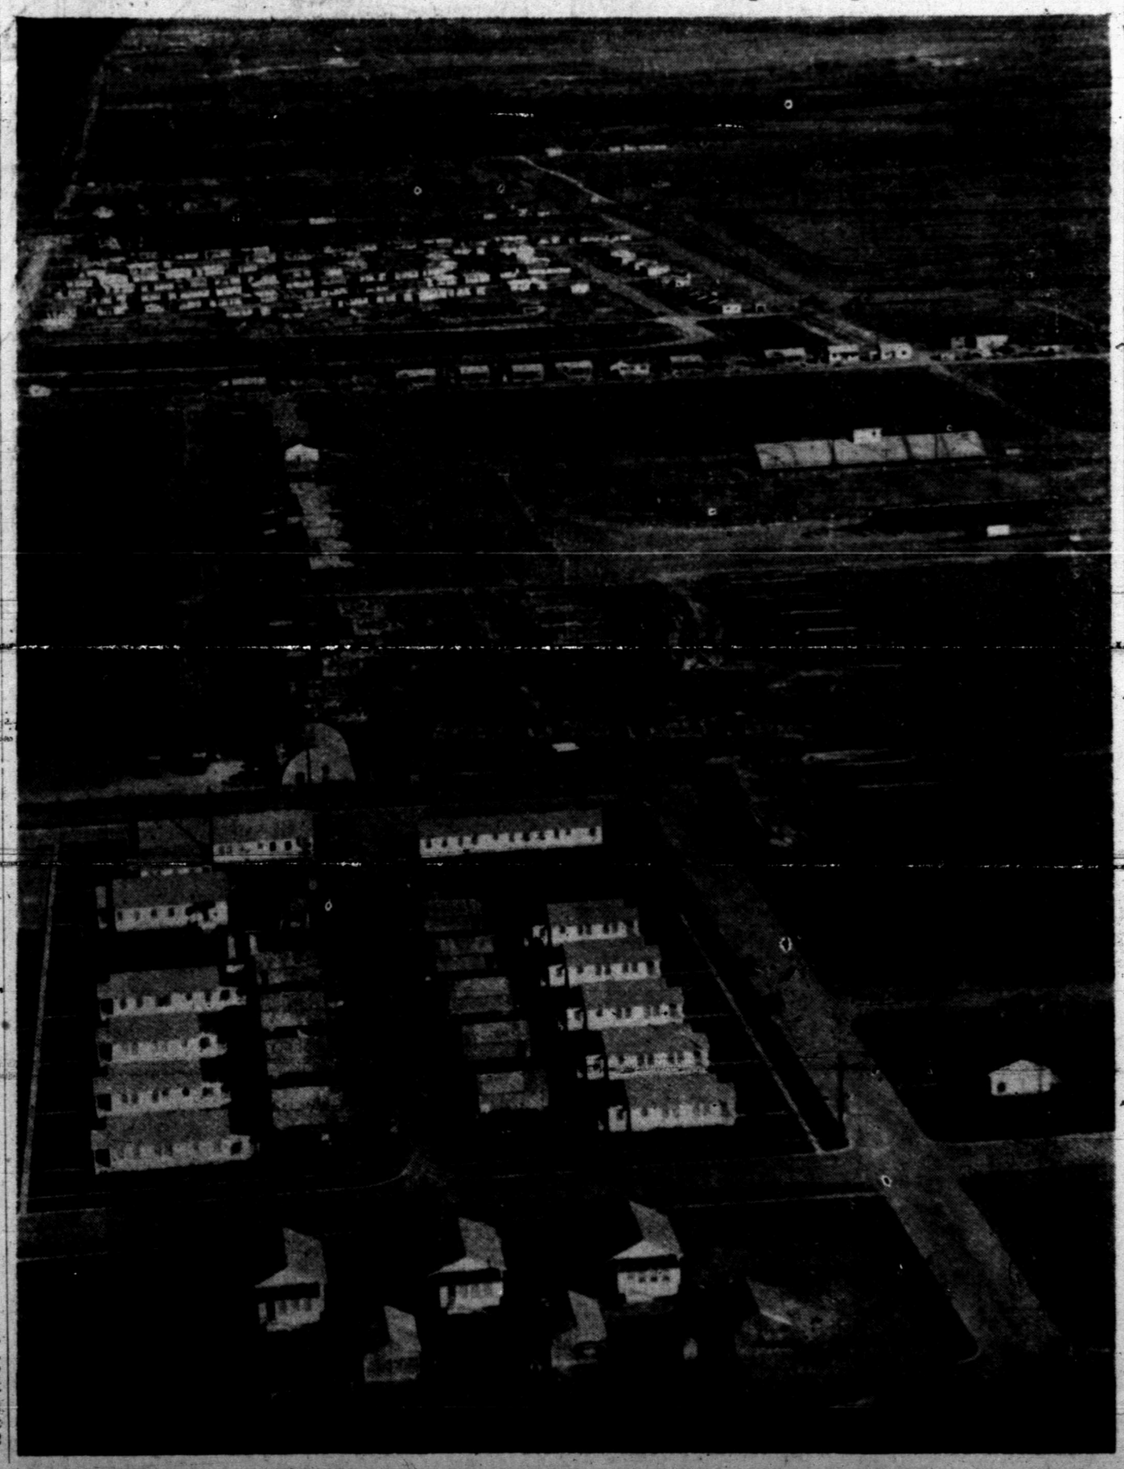

WILEY DEMANDS

Wiley also called for efforts to achieve economies in the vast rearmament program, declaring:

"It is a national tragedy the way the prices of military items have been allowed to leap since the Korean conflict started."

Wiley urged that Senate and House committees summon government leaders to review their anti-inflation plans, and to check with military leaders on rising defense cost.

Just Last Year All This Was Open Spaces

County Is Host To A Senator For First Time This Afternoon

The public is invited today to the Diamond M ranch to welcome Senator Lyndon Johnson, who will speak there at 3 o'clock this afternoon.

No formal invitations were sent for the occasion, C. T. McLaughlin, owner of the Diamond M, said because the meeting is open to all the public.

LOCATION OF RANCH

The Diamond M Ranch is west of Snyder, one-half mile past the Lion Oil camp. It can be reached by driving seven miles west on the Lamesa Highway to the R. J. Randals ranch, turning south for two miles, west for one mile, south again for one mile, and west again to go past the Lion camp to the ranch, following the Lion Oil signs all the way on the road.

Johnson will come to Snyder from Amarillo, where he spoke last night. He went to Amarillo from Lubbock, where he and McLaughlin attended a dedication of the new science building and building at Texas Technological College, program.

Now heading the Senate Armed Services investigations subcommittee, the senator emphasized preparedness for peace in an address to a homecoming crowd at the dedication in the Texas Tech gymnasium after McLaughlin, who is chairman of the Texas Tech Foundation, and other members of their board made brief remarks.

"America's West, with its untapped resources, vast space, and vigorous population, will be the free world salvation in the production race with Soviet Russia's economy," Johnson said as he termed increased industrial production as the key to our ultimate triumph over Communism.

INDUSTRIAL MIGHT

"Our primary lesson from World Wars I and II was the fact that our industrial might is the greatest peace-making weapon in the history of the human race," he explained. He said the United States must build a production section in its West similar to the Ural section of Russia, where the Soviets moved their major production during the last war.

"America found its early strength in the West. America found its power and maturity as a nation in the West. In the West today America will find its salvation," he continued.

SENATOR LYNDON B. JOHNSON

He praised the boldness and self-confidence of the men and women who pioneered the South Plains and Panhandle.

"If America responds rapidly and boldly the challenge of increasing the output of its economy, Nov. 11 may be celebrated as the day of peace," he concluded.

TODAY'S PROGRAM

After the invocation this afternoon by the Rev. W. W. Adcock at the gathering at the Diamond M Johnson will be introduced to the public by Houston Harte of San Angelo.

Special guests at the gathering will be Representative George Mahon of Colorado City and State Representative Jack Cox of Breckenridge, State Senator Dorsey Hardeman of San Angelo, and other guests from Fort Worth, San Angelo, and Abilene.

The McMurry College Band will present a program at the Diamond M before Senator Johnson speaks. The 55-member band is directed by Prof. Raymond T. Bynum, president of the college division of the Texas Music Educators Association.

Bynum and the band offer many specialties, playing the samba, bolero, beguine, and other forms of Latin American music, as well as novelty and sacred numbers, some of which they will play in their program today.

Farmers Begin Record Crop

WASHINGTON, Nov. 11. (AP) — A favorable fall season is helping farmers get started for possibly a record crop production year in 1951 as well as to harvest the fourth largest crop volume in history.

The Agriculture Department said Friday fall seeding of winter wheat and rye for harvest next year is well advanced in most areas to give hope that more grain will be produced to meet increased demands under the national defense program.

This year's corn crop is turning out to be of a better quality than had been expected a few weeks ago.

Estimated at 3,105,000,000 bushels, the corn crop is 13 million bushels less than was forecast a month ago. But it is sharply above the government production goal of 2,600,000,000 and normal-sized crop of 2,900,000,000.

Conditions in October raised production estimates for such crops as soybeans, grain sorghums, dry beans, cotton, potatoes, tobacco, sugar beets, apples, pears, grapes, cranberries, and pecans. Only buckwheat, sweet potatoes, broom corn and sugarcane showed declines and they were small.

Amending Child Labor Laws Is Among Farm Bureau Resolutions

Resolutions protesting the new child labor law and urging some sort of control on cotton acreage were among the 10 resolutions passed Friday night by the Farm Bureau resolutions committee.

After approval by the members of the Scurry County Farm Bureau, the resolutions will be presented to the state convention.

MEMBERSHIP

Committee members are the bureau president, Ross Williams, and Sterling Williams, Mal Andress, Sterling Taylor, Matt Bavousett, C. N. von Roeder, and O. M. Fowler.

The committeemen will present their recommended resolutions to members of the bureau in their seventh annual county convention at 2:30 o'clock Tuesday in the district courtroom. Farm Bureau officials have urged all members to attend for the resolution reading and election of officials for 1951.

The resolutions which pass the county members will then be taken to the state convention of the bureau in Mineral Wells which will be in session Nov. 20-22, and, presented for passing and recommendation to the state and federal governments. Those attending the convention will be Mr. and Mrs. Joe Adams, Mr. and Mrs. Andress Williams, Taylor and Harry Allen.

THE RESOLUTIONS

The resolutions which will be taken up Tuesday are:

1. That the federal Fair Labor Act be amended so as to permit transient labor families to help gather the cotton crop.
2. That there be some control on cotton acreage to eliminate the possibility of going from one extreme to another in production and price.
3. That the federal government continue its soil conservation work.
4. That there be no state tax on farm tractor gasoline or any other engine used in agricultural pursuits off the highways.
5. That there be acceleration in the rural road progress in Texas.
6. That the Farm Bureau oppose price controls being placed on livestock.
7. That the embargo on Mexican cattle not be lifted within the next year.
8. That the government support price be continued on grain sorghums.
9. That the Farm Bureau favor 90 per cent parity on all basic crops.
10. That the work of the experiment station system be endorsed and that they be especially commended for their research work in mesquite and brush eradication and the eradication of Johnson grass and noxious weed.

Oklahoma Oil Activity Showing An Increase

TULSA, Okla., Nov. 11. (AP)—Oklahoma oil field activity, as sensitive to international moods as the Pentagon, perked up considerably this week with reports of Chinese intervention in Korea.

A Tulsa World survey found 126 completions, including 60 oilers, four gas wells and 54 dry holes, as compared with last week's total of 106 finals.

First reports jumped from 130 to 141 new tests in a week's time. Thirty-six counties were represented.

Other data: average daily initial output of crude, 7,215 barrels; of gas, 10,400,000 cubic feet; and 383,758 aggregate feet drilled.

Commodity Index Is Way Up This Week

NEW YORK, Nov. 11. (AP) — Scoring its largest weekly gain since mid-July, the Associated Press wholesale commodity index this week advanced to 194.01 from 190.45 a week ago, and compared with 160.32 a year ago.

It was the fourth weekly advance in a row for this index of 35 important wholesale commodity prices. The index base year of 1926 equals 100.

Snyder Post Enters In V.F.W. Campaign For Gonzales Foundation

The Veterans of Foreign Wars here are co-operating with the state-wide fund raising campaign for the Gonzales Warm Springs Foundation, a state chartered non profit center for the treatment of victims of polio and other crippling diseases, Don Adams, post commander, said yesterday.

The Snyder post is backing the drive that is being sponsored by the Texas department of the V.F.W. It has already subscribed $250 to the campaign, and Commander Adams says that individual members will give more before the campaign closes on Nov. 30.

Attractive pamphlets concerning the foundation and the Texas V.F.W. campaign have been placed in Snyder stores and business places said Adams.

The money being raised will be used in providing additional facilities at the state's own polio center, badly needed to care for the increasing list of polio patients awaiting treatment, Adams pointed out.

Persons interested in the project are invited to send their money or checks to Commander Adams or to Chester Horsley, of the Snyder V.F.W. post.

Students Making A Population Check For School Board Here

Snyder high school students now taking a check on city population are making satisfactory progress, Miss Katherine Northcutt, civics instructor, said today.

The survey was started Tuesday and is to be completed in about two weeks. Tabulations have not yet started on information gathered, Miss Northcutt said, and will probably not be completed for some time after the survey itself is completed.

Figures gathered in the survey are to be turned over to school administration officials to be used in planning future expansion for schools here. The students working on the survey will also receive extra credit for their work.

THE CONVERSATION GROUP

Any "conversation group" of furniture requires the assistance of a coffee table. Usually this all-important piece of furniture stands like an orphan in front of a too-large divan.

With so many exciting designs to choose from you'll be surprised at the difference a really interesting coffee table can make to your room.

Take, for example, the one pictured above. In this intimate arrangement of sectional furniture the T-square shape is functional as well as charming to look at. It can be finished in almost any color . . . from stark white to jet black, and all the in-between finishes. Just remember that it must be harmonious with your furniture and the wall finish. No object of furniture should stand apart or become immediately apparent in the room.

Each piece should be part of the whole, and this is especially important with your coffee table. Its separate placement can easily lead to its being too prominent. So, when you choose the design, be sure to take the finish into account.

We have a good selection of coffee tables, and we'd be glad to talk over your grouping problems with you any time. Just drop in and we'll put our heads together.

Scurry Well Is Testing In The Ellenburger

Magnolia Petroleum Co. No. 1-F McDonnell estate, Northwest Scurry County possible Ellenburger discovery, six miles northwest of Snyder, and 660 feet from south and east lines of the northwest quarter of section 341, block 97, H&TC survey, is continuing to swab and test on perforated section in the top of the Ellenburger at 8,033-41 feet.

The testing is natural. During the last full 24-hour period of swabbing, recovery was 36.37 barrels of oil and 5.6 barrels of salt water.

It then swabbed 2.81 barrels of oil and 1.53 barrels of salt water in three and one-half hours. The project was then shut in for 12 hours.

During that period the fluid rose from 75 feet from the bottom to 350 feet from the bottom.

In the next six hours, 1.84 barrels of oil and 1.17 barrels of salt water were swabbed out. The swabbing was continuing.

This exploration is on the northwest side of the Kelley-Snyder field. It was barren in the Canyon and in the other Pennsylvanian limes and was carried on down to test the Ellenburger.

Run Casing In Stonewall Well

Seaboard Oil Co. No. 1 W. F. Edwards, Southwest Stonewall County wildcat, is at total depth of 5,314 feet running two and one-half inch tubing.

Operators set seven-inch casing at 5,215 feet in the top of the Pennsylvanian lime.

Open hole from that point to total depth had some shows of free oil.

The bottom two feet from 5,312-14 feet is extra soft and showed best signs of production on drillstem test at 5,279-5,314 feet.

Location is 760 feet from the south and 660 feet from the east lines of section 318, block 2, H&TC survey and 15 miles southwest of Aspermont.

The yucca, New Mexico's state flower, is said to obtain much of its sustence from the air.

I Want to See My Master

"Pinky," a fox terrier, pleads with Chester Bairrington, chief of police, at the entrance of the city jail. The dog wants to see his master, a 29-year old prisoner serving 14 days. Bairrintgon told Pinky "no dogs allowed in jail." But Pinky won't leave.—(Craft Studio photograph).

Oil Found In Nolan Wildcat

Sun Oil Co. and Seaboard Oil Co. of Delaware No. 1 Eunice Parramore, Southwest Nolan County wildcat, six miles southwest of Maryneal and 660 feet from the south and 560 feet from the west lines of section 55, block 1-A, H&TC survey, has shown free oil on two drillstem tests in the Caddo lime of the Pennsylvanian, according to unofficial reports.

The first test was at 7,000-26 feet. Recovery was 60 feet of free oil. Length of the test and other details have not been reported.

Another drillstem test was taken at 6,998-7,038 feet. The tool was open three hours. Recovery was 330 feet of oil and 320 feet of oil-and-gas-cut drilling mud. No formation water was reported.

Open flowing bottom hole pressure was 250 pounds. Shut-in bottom hole pressure after an unreported period was 2,400 pounds.

This prospector was started under a permit to dig to 7,500 feet to test through he Pennsylvanian. It apparently will continue drilling until that objective has been reached.

Youth Is Found Insane By District County Jury

A Mitchell County jury returned verdict in favor of the defense Friday afternoon in the sanity hearing of Charles Hailey, 20, of Snyder, accused of the theft of a truck in Colorado City, Oct. 11.

Represented by Wayland G. Holly and Renal B. Rosson, Snyder attorneys, Hailey pleaded insanity. The jury found him insane both at the time of the offense and at the time of the trial. He will be committed to a state hospital and can never be tried in connection with this offense again.

Presiding at the hearing was A. S. Mauzey, of Sweetwater, district judge. Representing the state was Eldon Mahon, district attorney, who resides in Colorado City.

Roby Man Is Named Draft Board Member

Stephen P. Kelley, of Roby, has been notified formally of his recent appointed as a member of the local draft board No. 96, which has jurisdiction over Scurry, Fisher, and Nolan Counties.

His appointment was made by President Truman after recommendation by Governor Shivers.

More Unofficial Vote Counts Coming In For Scurry County Boxes

Complete but unofficial returns from all voting boxes in the county — except Arah, which held no election — gave the Democrats a ratio of 29-1 over their opponents in Tuesday's general election.

The last boxes reporting were Cottonwood Flat, which often holds no election, and the Bison community. Ten ballots were cast in the Cottonwood Flat precinct, and 15 voted at Bison, all being solid Democratic. Neither box polled any votes on county officials.

The Democrats received an average of 725 votes each, while the average cast for their opponents was 25.

Abilene Christian To Celebrate Homecoming

ABILENE, Nov. 11 — Abilene Christian College's annual ex-student Homecoming will be held Wednesday and Thursday, Nov. 22 and 23, Lee F. Powell, Paducah, Ky., Alumni Association president, has announced.

Attendance is expected to set a new record, said Powell. Homecoming's climax will be the football game between the ACC Wildcats and Howard Payne College at Abilene's Fair Park stadium Thursday afternoon at 2 o'clock. ACC was unbeaten and untied through eight games. Howard Payne will be the last of 10 opponents.

Homecoming headquarters will be opened in Bennett gymnasium at 5 p.m. Wednesday.

Special reunions will be held by the classes of 1920, 1925, 1930, and 1940.

Two Persons Trying To Be Located Here

The Snyder police has been asked to locate two persons believed to be in this area in emergency messages received today.

If anyone knows the whereabouts of Jesse Self, an oil field worker, they are urged to have him call his father, who has been seriously injured at Wewoka, Okla.

Jimmy Wright, a dirt contractor, thought to be in this community, is asked to get in touch with his family at Corsicana, on account of illness of a relative.

Parade, Taps Mark Nov. 11

Snyder paused Armistice Day to pay homage to its war dead.

Shortly before 11 o'clock yesterday morning a parade was staged around the square by members of the American Legion and Veterans of Foreign Wars posts, led by the Snyder High School Band, under the direction of James Verner.

A color guard composed of a member of the Legion and the V. F.W. escorted the national colors and those of the two organizations.

While the parade was in progress, the fire whistle sounded at 11 o'clock, and everything came to a standstill in the city. Then from atop the Scurry County courthouse, a buglar sounded "Taps" in honor of all deceased war veterans.

Harold Bennett, manager of the Chamber of Commerce, was in charge of the Armistice Day parade.

Following the parade, members of both patriotic bodies went to the clubhouse, where a flag-raising ceremony was held. A flag given by the government to the family of Mr. and Mrs. Frank Smith, was formally presented to the two posts and raised with appropriate ceremonies.

A barbecue was held between 1 and 7 o'clock at the clubhouse for members of the Legion and V.F.W. and their families.

Record Crowd At P.T.A. Meeting Here Thursday

A record crowd of more than 110 parents and theachers attended the meeting of the Southeast Primary Parent-Teachers' Association Thursday.

Kathleen Hargrove, a first grade pupil, sang a Thanksgiving prayer.

"Why You Are Needed in P.-T.A. And Its Objects and Policies" was discussed by Mrs. Graydon Hicks. Mrs. Sam Wood spoke on the subject of national P.-T.A. publications and the need of each parent to receive them.

Mrs. Ovid Lawls, president of the primary unit, presided at a brief business session. Several committees were appointed, as follows: Mrs. Waymond Simms, program chairman; Mrs. W. L. Eades, hospitality chairman; Mrs. L. A. Crandall, membership chairman; and Mrs Amon Weaver, publicity chairman.

D.A.V. Organizer Here For Monday Meeting

A meeting for the purpose of organizing a Scurry County chapter of Disabled American Veterans will be held in the district courtroom at 8 o'clock Monday night.

The meeting was announced by Charles J. Walker, state organizer for the D.A.V., who has urged that all veterans who have been gassed, wounded, or otherwise injured in service, attend the meeting.

Walker said he organized a chapter in Rotan Wednesday night with 21 charter members.

Sooners Keep Record Clean, Beat Kansas

LAWRENCE, Kan., Nov. 11 (AP)—Butter-fingered Oklahoma recovered its poise and blasted Kansas for four fourth quarter touchdowns today smothering the Jayhawkers, 33 to 13, to run its record win streak to 28 straight football games.

A crowd of 39,000 fans watched in 45-degree weather as the Sooners fumbled themselves into apparent defeat in the first three quarters and for five minutes of the final period.

Then the Oklahomans struck viciously to bring themselves a decisive triumph and the longest victory string for a major-college team in modern times.

The Sooners coughed up the ball four times and lost it once on a pass interception while on the attack in the first half. Kansas led 7-0 after two quarters, the first time the Sooners had trailed at the half-way mark since the split T defense was inaugurated at the Oklahoma school in 1946.

It was also the first time in years that Oklahoma failed to score at least one touchdown on the ground.

Kansas had scored twice, once on a Chet Strehlow-to-Lyn. Smith pass for 54 yards in the second quarter, and again on Halfback Wade Stinson's 71-yard gallop early in the third, before the Sooners got busy.

Then the Oklahomans started moving. They quit fumbling and got together for a 76-yard scoring drive following the kickoff. Quarterback Claude Arnold, who threw for four touchdown passes, hit Sophomore Troy Keller for the first Okie score in the third period.

Kansas hung on gamely for another few minutes. But the turn of the final period meant disaster as Oklahoma tied it up, 13-13, on Arnold's 32-yard pass to End Jack Kelly.

Arnold's third touchdown pitch, a honey to Halfback Bill Vessells good for 51 yards, put Oklahoma into the lead to stay for all practical Kansas purposes the firing was over.

The last Oklahoma score came late in the period. This time it was a 16-yard Arnold-to-John Reddell pass that did the trick.

Former Snyder Man Is Promoted To Captain

James C. Dunn, son of Mr. and Mrs. J. N. Dunn, 2907 Avenue J, has been promoted to the rank of captain in the Air Force. He is stationed at Williams Field, Chandler, Ariz. Captain Dunn has been in the Air Force seven years.

J. F. Creswell Ill,

The condition of J. F. Creswell of Hermleigh, who was admitted to the Johnson Hospital in Loraine Friday morning, was reported improved late yesterday.

Creswell, a former resident of Snyder, is suffering from a virus stomach infection and a possible heart ailment.

Man Held Here Wanted By Levelland Police

A 29-year old man, wanted for a series of alleged bad checks at Levelland and other Texas cities, was apprehended by Deputy Sheriff Homer Whisnand, yesterday.

The man is being held in the county jail for Levelland authorities.

Agriculture Teacher Here Is Out of Pro Boxing for Keeps

Most boxers don't retire when they say they will, but there's one here who did.

He is Bill Henderson, high school agriculture instructor, who received an offer last week as top contender for light weight champion ship of Texas, with a guarantee of $1,000, to fight the number two contender, Valentino Luna, for the state title in Houston.

SAID "NO"

But Henderson, 133 pound 24-year-old who graduated from Texas Tech this summer, has retired.

"A guy's got to stop sometime," Henderson explained, even though he admits his chances are good He had once before beat Lupa, in 1948, at the state Golden Gloves finals in Fort Worth.

Henderson had fought for the Texas championship once before last December when he was knocked out in the thirteenth round by Eddie Bertolina, who held the championship but later had to give it up because he gained into the welter weight class.

Henderson first began his boxing career when a junior at Texas Tech in 1946. He was discussing the Golden Gloves bouts with a classmate and decided to enter the semi-finals in Lubbock.

"I was just kidding the guy," Henderson said. "I told him I would enter if he did, and I entered."

TO FINALS

Although he lost his first bout in Lubbock, Henderson was allowed to go to Fort Worth for the finals because the boy who defeated him did not want to go.

Henderson was also defeated in the finals that year, but the two fights aroused his interest in the boxing game.

In 1947 he was back into the Golden Gloves competition, a featherweight of 125, and he won the semi-finals in Lubbock and went to Fort Worth to win the finals. From there he went to Chicago to enter the National Golden Gloves quarter-finals, but was defeated there by the boy who won the national championship. His third defeat in Chicago, was the last time he lost in his career of 97 amateur bouts.

STATE CROWN

The next year saw the young fighter back to win the state Golden Gloves championship again in the featherweight class. That was the time he beat Luna. He went to Mississippi that year with the champions of each weight and was

the only Texan to win the Southern championship by a knockout. He also won the championship the same year in the Texas Amateur Federation.

This time Henderson did not choose to go to Chicago, but journeyed to New York and turned professional in the light weight class. He trained in the camp of Gus Lessenvitch, then light-heavy champion of the world, and he won all the eight fights in which he was matched before he decided he had been spending too much time away from school.

Coming back to Texas Tech Henderson continued his boxing career, losing only three out of 38 professional bouts. One loss was in El Paso to Jean Mougin, lightweight champion of France.

Henderson had an offer last year to fight World Champion Ike Williams in Carlsbad. He was going to fight Williams only if he defeated Bartolina for the state championship. Losing the fight with Bertolina, Henderson not only dropped the offer to fight Williams, but decided then to end his professional boxing.

HASN'T FOUGHT

And Henderson kept his word. He has not fought a bout since that time.

The former boxer began teaching in the high school here after receiving a Bachlor of Science degree in agriculture education from Texas Tech. He assists Broadway Browning with instructing the agriculture classes. He also lives with Browning at 106 Browning Street in the Parkway Addition.

The only boxing Henderson does now is when he aids the coaches of the high school with their physical education classes. He will help this year with the boxing team, but does not want anything else to do concerning professional boxing.

"I'm retired," he repeats, and the temptation of money and a possible title won't take him back into the game.

Littlefield's 22 Game Winning Streak Is Clipped In Class AA

(By The Associated Press)

Defending Class A schoolboy champion Littlefield's 22-game victory streak was snapped last night and Arlington, Georgetown, and San Antonio sewed up district titles.

Levelland knocked off undefeated, untied Littlefield, 26-14 before 5,000 shivering fans at Levelland. The win means if Levelland takes its final game next week, the District Four championship belongs to it.

Arlington blanked Pleasant Grove, 22-0, to sew up the title in District 12.

Georgetown beat Taylor, 19-0, for the 21-A crown and South San Antonio won in 31-A on penetrations 4-2. It tied Devine, 13-13.

Sinton, which clinched the District 29 championship a couple of weeks ago, had its perfect record smashed by Tiny Taft, 40-6.

Shamrock, cinch winner in District two, was knocked from the unbeaten but tied class by Wellington, 21-14, while Phillips' easy path to the District One title suddenly became rough. It lost to Hereford 33-9.

There are just eight teams with perfect records now and only six in the unbeaten but tied class.

Several teams took giant strides toward district championships—all of which must be decided next week.

Colorado City knocked off tough rival Hamlin, 14-7; Cisco clipped Hamilton, 14-7; Mineola bounced chief foe Canton, 21-6; Huntsville galloped Crockett, 35-7; Stamford mauled Franklin, 47-0; Brenham defeated West Columbia, 13-7, Nederland smashed Port Acres, 67-0; Dekalb ran over Linden, 74-0; Wharton edged El Campo, 20-19; Karnes City beat Edna, 19-13, and Pearsall pounded Uvalde, 27-7.

New Braunfels is the only other team that has clinched a district title, winning in 24-A.

Hermleigh And Stanton Tied For 1st Place

District championship is still in sight for the Hermleigh Cardinals which was a ready team to tame the Bronte Longhorns 19-7 Friday night.

The smooth-working Hermleigh crew took its first scoring in about the fourth play of the game after the Longhorns had carried the ball to the 50 and fumbled. Working their way to the 30-yard line, the Cardinals then turned the ball over to Halfback Dickie Wall, who raced it over to paydirt. A bad point try left the score at 6-0 until the third quarter.

Halfback Doyle Newman then made a plunge for four yards to bring up another Hermleigh score. Again, the point try was bad and the score was 12-0.

A 30-yard pass play took the Longhorns to the two-yard line where their Fullback San Dusky rushed over in the fourth quarter for the Bronte touchdown. Their point was good for a score of 13-7.

Late in the game, Newman made a similar plunge to that in the third quarter to another TD. Fullback Billy Hudnall raced the ball over for the point, and the final score was 19-7.

Hudnall led the Cardinal team in ground gain with 85 yards. He went in as substitute fullback for Donald Fritz, who was slightly injured in the first quarter and out for the remainder of the game.

Hermleigh and Stanton now stand at a tie for first place in District 6B. Each team has a record of five district wins and no losses. The Hermleigh crew will defend its two year district championship title in a tilt with Stanton Friday night in Stanton.

Ski Artist Gridders

SOUTH BEND, Ind. (AP) — Three members of the Notre Dame football team, Jack Landry, senior fullback from Rochester, N. Y.; Bill Hovey, junior halfback from Lake Placid, N. Y., and Bob Kelly, sophomore end from Duluth, Minn, list skiing as a favorite hobby Hovey and Kelly each won letters in the winter sport while in high schol.

Snyder Youth To Root Memorial Hospital

Billy Cogdell was taken to Root Memorial Hospital, Colorado City Thursday night, suffering from an acute appendicitis attack. He is reported to be doing well after surgery.

Cogdell is the son of Mr. and Mrs. D. M. Cogdell. He is a 1950 graduate of Snyder High School.

Last of Undefeated, Untied City Teams Falls 6-0 in Upset

(By The Associated Press)

Lamar of Houston, the last undefeated, untied team in the City Conference of Texas schoolboy football, fell Friday night in the biggest upset of the season.

Lamar, called the mightiest team in South Texas, was whipped by John Reagan of Houston 6-0 in a game that virtually sewed up the district championship for the latter. Reagan is unbeaten in district play but lost two games outside the district.

In other games last night Woodrow Wilson beat North Dallas, 20-6, to cling to a chance of winning the title in the Dallas district. Woodrow Wilson has won two and tied one. Sunset has won three.

In the Fort Worth district Arlington Heights can sack up the crown tonight by beating North Side.

In the San Antonio district Breckenridge moved along unbeaten by whipping Harlandale 40-20. Thomas Jefferson, the other undefeated team, plays Burbank tonight.

Other City Conference results last night:

Paschal (Fort Worth) 27, Poly (Fort Worth) 12; Austin (Houston) 26, Sam Houston (Houston) 6; Lanier (San Antonio) 12, San Antonio Tech 6.

Football Classes For Women At College

ELKINS, W. Va., (AP) — Davis and Elkins College here is presening a forum in football theory to its women students. D&E Director of Athletics Press Marovich decided that the feminine side of the college was badly misinformed on the game.

So the coach of the schools football team, Ace Federovitch, was called in to give a series of lessons on grid theory to the gals. A better-informed weaker sex, says Fedrovitch, will help spirit and cheering and will enable the women to enjoy the game more.

Quail Championship Set For December

ST. CHARLES, Mo., Nov. 11. (AP) — The National Amateur Quail Championship, known as "The Kentucky Derby of the Amateur Field Trials," will be held at the Beech Wildlife Derby near Weldon Springs, Mo., Dec. 4.

President John W. Hotz of the Amateur Field Trial Club of America, in making the announcement, said that more than 70 dogs from 30 states were expected to be entered. To qualify for entry, a dog must have placed third or better in an all-age derby or shooting dog stake recognized by the club.

Two Class AA Teams Clinch District Titles

(By The Associated Press)

A couple of teams can start looking toward the state play-offs in Class AA of Texas schoolboy football.

Texarkana and Baytown have clinched district championships. They did it Friday when Texarkana beat Gladewater 44-0 to take an insurmountable lead in District 9 and Baytown crushed Freeport 34-2 to go too far in front in District 12.

CONFERENCE FOES LEFT

Both teams have conference games left but could lose them and still be declared champs.

Four of the state's six undefeated, untied teams sailed along. Texarkana was one of them. Cleburne beat Weatherford 13-6, Port Arthur banged South Park (Beaumont) 35-6 and Corsicana strapped Hillsboro 46-7.

The other two — Pampa and Breckenridge—play today. Pampa meeting Amarillo in a district 1 conference test and Breckenridge taking on Mineral Wells in a District 6 match counting in the title race.

San Angelo and Abilene reached the championship play-off in District 5 by beating Sweetwater 14-6 and Brownwood 51-7 respectively. Denison stayed in front in District 7 by whipping Greenville 51-20, Grand Prairie remained unbeaten in District 8 by downing Denton 20-0 Corsicana and Temple continued in a tie for the lead in District 13 as Temple whammed Waxahachie 58-13 and Corsicana licked Hillsboro, Austin remained undefeated in District 14 by lacing Miller of Corpus Christi 21-0 and Harlingen threw district 16 into a snarl by downing San Benito 52-18. Brownsville, McAllen and San Benito each has lost one game and are in a virtual tie for the top.

Many Managers Take Red Birds To Victory

COLUMBUS, O. (AP) — The 1950 Little World Series triumph of the Columbus Red Birds of the American Association over Baltimore was the fourth for the Red Birds in the last ten years. It also was the fourth for President Al Banister of the Red Birds, and all four were won under different managers.

Burt Shotton led the Birds in 1941, Eddie Dyer was at the helm of the 1942 winners, and Nick Cullop led the team to its 1943 victory. Montreal was the 1941 loser, while Syracuse absorbed both the 1942 and 1943 defeats.

Brothers Coming Up

CORAL GABLES, Fla. (AP)—Three members of the University of Miami varsity football squad have kid brothers on the freshman team. Co-captain and center Pete Mastellone and frosh fullback Ray are from Hillside, N. J.; varsity left halfback Frank Smith and brother Bill, who plays the same position, are from Tuckahoe, N. Y., while Sam David, varsity tackle and frosh fullback Bill are from Hollywood, Fla.

An adult alligator under observation at the St. Augustine, Florida, Alligator Farm was tested for jaw pressure. His bite had a pressure of nearly one thousand pounds, but he swallows food whole.

A Game To Remember

SOUTH BEND, Ind. (AP) — Jim Mutscheller, Beaver Falls, Pa., junior and first string Notre Dame right end, always will remember this years North Carolina game. It was the occasion of his first starting assignment in an Irish uniform. All Jim did was play 53 minutes, more than any other squad member, and catch both touchdown passes as ND won, 14-7.

Roberts Runs Dartmouth To Easy Victory

HANOVER, N. H., Nov. 11. (AP) — Bill Roberts sprinted 43 and 50 yards for touchdowns to give favored Dartmouth a 14-7 victory over Columbia today before a 14,000 crowd.

Roberts' first dash into the Columbia end zone came during the ninth minute of play and offset the Lions' counter, which was set up by a Dartmouth fumble on its 17 yard line.

Banging Bill, who averaged 10 yards a crack in 15 carries, then clinched the game in the third period with a 50-yard sprint down the right sideline for the winning touchdown.

Columbia grabbed its short-lived lead in the first period when Bob Ott fell on Al Reich's fumble. Seven plays later Howie Hansen sneaked over from less than a foot out for the Columbia score.

Browns Deal On The Fire

HOUSTON, Nov. 11. (AP) — Eddie Dyer, former manager of the St. Louis Cardinals today said he has been asked if he would aid a group of Texans in negotiating purchase of stock in the St. Louis Browns.

"I'm not interested in taking part in the deal myself but have agreed to assist in the negotiations if they develop," he said.

Dyer identified William A. Smith, Houston banker, contractor and oilman, and W. N. (Dick) Hooper, Houston oilman, as members of the group.

Smith was in Dallas for the Southern Methodist-Texas A&M football game and unavailable for comment. Hooper was believed to have accompanied Smith to Dallas.

Dyer said the entire matter still is in the "talking" stage and that no negotiations are under way.

He said he is a personal friend of Smith and that Smith asked him if he would agree to go to St. Louis with members of the group and talk with Bill and Charlie DeWitt, owners of the Browns.

Dyer said current plans of the Houston group do not call for purchase of controlling stock of the Browns nor transfer of the American League club to Houston.

A copyrighted story published in St. Louis yesterday by the Sporting News said William Zechendorf of New York has interested the wealthy Houston men in buying the Browns and moving the franchise to Houston.

New Record In Fish and Game Licenses Here

A total of 249 hunting and fishing licenses have been issued in Scurry County this year — as many as usually are issued in a five-year period, George Stephens of Stephens Hardware, license issuers for the county, says.

Good duck hunting on stock tanks and the prospect of good quail hunting in fields and pastures of the area when the quail season opens here Dec. 1, were given as reasons for the unusual interest this year.

Big game hunting licenses good for deer, turkey, and other game accounted for 199 of the licenses issued. Only 10 regular hunting licenses good for squirrel, quail, dove and other small game, have been issued. Fishing licenses accounted for the remaining 40 issues.

These licenses permit hunting of the game they cover anywhere in Texas.

Big game hunting west of the Pecos, where one buck is permitted, was open for one week from January 6 to 11. East of the Pecos big game hunting season where one buck is permitted opened October 16 and closes Dec. 31. In south Texas where two bucks are permitted, there will be a two-week season from Dec. 16 to 31.

A number of hunters have reported good duck hunting on surface stock water supplies of Scurry County this season, Stephens said.

Good quail prospects on pastures and fields of the area are also reported, he says. The quail season will open Dec. 1, and close Jan. 16, 1950.

Game warden for this district lives at Lamesa, but Lyman Wren, County Probation Officer and deputy game warden for Scurry County, can be contacted for information about hunting and fishing regulations of the area.

Approximately 12.5 per cent of the skilled labor force in the United States is concentrated in New York State.

Army Is Easy On New Mexico

WEST POINT, N. Y., Nov. 11. (AP) — Army, not wanting to hurt anybody, contented itself with a nominal 51 to 0 victory over the New Mexico Lobos today before 30,476 fans.

There never was a doubt that the Cadets would barge through their 27th straight contest without defeat. The visitors were outclassed. Earl Blaik, the Army coach, was down at Baltimore scouting Navy against Tulane.

His assistants saw to it, that the nation's No. 1 team tempered mercy with strict justice. Gil Stephenson and Jim Cain, first string backs, were not even in uniform. But those Cadets who did get into the contest could not be restrained entirely.

Al Pollard, the terrific sophomore back, went 43 and 33 yards on beautiful, weaving runs for a pair of touchdowns. Bob Blaik, the coach's unerring son, passed to his ends for a couple more. Army scored in every quarter. Toward the end the Cadets were playing men the official press box spotters had difficulty identifying.

In justice, the boys from New Mexico tried hard and never quit fighting. They exhibited a pair of backs who could dig for occasional yardage in Roger Cox: a 204-pounder, and Chuck Hill, a light but gifted carrier. They persisted right to the end. But they were over matched.

A&M Downs the Mighty SMU With a 25-20 Victory Surge

By HAROLD V. RATLIFF
(Associated Press Staff)

DALLAS, Nov. 11. (AP)—Texas A&M's grinding ground game, with the great Bob Smith pounding a thunderous rhythm, beat Southern Methodist into the Cotton Bowl turf 25-20 today and kept the Aggies in the battle for the Southwest Conference football championship.

Twice the mighty fullback of the Cadets got loose on glittering runs one for 74 yards and another—the game's clincher—for 72 and the Aggies shot down a Southern Methodist team that tried everything and failed.

The result knocked SMU out of the championship running and, in all likelihood, out of a bowl game. It shot the Aggies into second place in the conference campaign and if they beat Rice next week, will come up to the annual Thanksgiving Day traditional game with Texas with a great chance at the title.

Texas' win over Baylor 27-20 today kept that team in first place in the conference. All others except A&M, which has lost one game, have been eliminated.

CROWD IN UPROAR

The last quarter of today's battle had a crowd of 75,457 in an uproar. Fireman Fred Benners, the mighty SMU bomber, almost passed the Methodists to victory.

SMU partisans thought they had the game in the bag when with less than five minutes to go Benners slung a 55-yarder to Benny White on the Aggie five and the big Methodist wingman trotted over.

But great Smith was to be heard from. The Aggies got the kickoff on their 28 and on the first play the smashing, writhing Aggie fullback broke over right tackle and dashed like a locomotive to the Methodist goal.

A&M roared to 361 yards on the ground and only 32 in the air. SMU picked up 228 rushing and 298 passing.

Smith gained the astounding total of 297 yards running with the ball and it was in 29 tries—more than 10 yards average.

Southern Methodist took a 7-0 lead late in the first period with a 22-yard pass from H. N. Russell to Kyle Rote setting it up on the Aggie six. Rote in two tries got the score and Bill Sullivan converted. Smith then uncorked his first long run but Darrow Hooper missed the try for point.

The Aggies went ahead early in the second period with a 52-yard punt return by Yale Lary carrying to the SMU 36. The pay-off was a 17-yard dash around end by Glenn Lippman. Hooper kicked the point but A&M was penalized and on the second try missed.

PENALTY COSTLY

Southern Methodist stormed back with the kickoff to roll 55 yards only to have to give up on the Aggie one. An off-side penalty knocked SMU out of the score.

A fumble by Rote led to an Aggie touchdown early in the third period. Kyle dropped the ball on the SMU 17. In four plays the Aggies had the score. It came on a pass from Dick Gardemal to Bill Tidwell in the SMU end zone. Hooper converted.

SMU then roared back with an 83-yard touchdown drive with Rote scoring on a one-yard smash over guard. Sullivan converted but SMU was penalized and then SMU tried a pass for the extra point and failed.

Then came the pass from Benners to White which SMU backers thought sewed up the game. Sullivan kicked the point to make the score 20-19.

But Smith got off his paralyzing run and although Hooper missed the conversion, the Aggies had won their first game since 1946 from SMU. Rote gained 126 yards running with the ball and Benners passed for 211, completing 15 out of 21 throws.

Tennessee Runs Over Tennessee Tech 48-14

KNOXVLLE, Tenn., Nov. 11. (AP)—Tennessee trampled little Tennessee Tech, 48 to 14, today in warming up for its Southeastern Conference date with Mississippi next Saturday.

The Vols started out as if they were going to turn the game into a rout, scoring four touchdowns in the first quarter. Three of them came in the first six minutes. But Gen. Bob Neyland stopped the parade by sending in a horde of reserves.

Tech kept the score respectably by registering twice in the second quarter against Tennessee's third and fourth stringers.

The visitors opened up with a troublesome passing attack to tally both their touchdowns. Quarterback Phillip Webb nailing End Flavius Smith in the end zone each time.

Tennessee tallied twice in the third period and wound up its scoring with another touchdown in the final stanza.

Texas Knocks Baylor Out Of Southwest Conference Run

By WILBUR MARTIN
(Associated Press Staff)

WACO, Nov. 11. (AP)—Slender Bobby Dillon raced 84 yards behind magnificent blocking late in the fourth quarter today as the University of Texas kicked Baylor out of the Southwest Conference title chase, 27-20.

Until he snared Larry Isbell's punt on his own 16 yard line, took a choice of a wave of massive blockers and fled down the sidelines it was anybody's ball game.

But this broke the 20-20 deadlock and shattered the spirit that had brought Baylor from behind a stunning disadvantage in the first few minutes of play.

A fumble on the opening kickoff by Baylor's fleet Buddy Parker set the stage for a quick Texas tally. The Longhorns shot ahead again in the second period after Baylor had tied the score, added one more touchdown in the third and then Dillon put over the clincher.

Townsend scored the first Texas touchdown from the one-yard line but Parker matched his effort less than four minutes later.

LINE PRODUCERS

Then the bruising Texas line paid dividends, though Ben Tompkins' passed to Tom Stolhandske for four yards for the second Longhorn touchdown. The third came on Tompkins' two-yard quarterback sneak.

Parker snared a 14-yard Isbell pass for Baylor's second touchdown in the third period and hit Harold Riley with a 28-yard pass for the third Bear score in the fourth.

Tompkins kicked two extra points for Texas; Hank Dickerson two for Baylor.

A crowd of 35,000 sat in fifty degree weather and watched Texas roll to its sixth victory against one defeat this season and retain its perfect record in conference play.

It was the tremendous Texas line that won this one against the fighting Bears and it was never more evident than on Dillon's scamper—when he loafed the last 20 yards behind hulking protectors.

Hugh Reeder pounded on Parker's bobble of the opening kickoff on Baylor's 14-yard line. A five-yard penalty against the Bears helped Byron Townsend as he personally lugged the ball on every play to the end zone.

FUMBLE COSTLY

A fumble paved the way for the Bears' matching score, George Cook recovering Tompkins' error on the Longhorns' 29-yard line. In seven plays the Bears had scored.

Texas went 55 and 72 yards for its next touchdowns, while Baylor's scoring march covered 84 yards and its third eighty.

The statistics gave Baylor's hard-running backs — Richard Parma, James Jeffrey and Parker—a hollow edge. Baylor outgained Texas on the ground, 162 yards to 77, but the Bears couldn't handle the Longhorn lineman when it counted.

In the air Baylor picked up 163 yards to 94 for Texas.

Lou Boudreau Is Unemployed

CLEVELAND, Nov. 11. (AP)—Lou Boudreau, the nation's No. 1 unemployed ball player, might glance toward Pittsburgh today for a possible answer to his big league future.

There sits Branch Rickey, the new general manager and vice president of the Pirates, who cleared the way so that the Cleveland Indians could fire Boudreau yesterday after nine years as shortstop manager.

The catch to the business of keeping Boudreau in suspense by not hiring or firing him weeks ago turns out to have been the difficulty in cutting the new manager, Al Lopez, away from the same job with minor league Indianapolis.

Indianapolis is a Pittsburgh farm. Ellis Ryan, Indians' president, disclosed that he and General Manager Hank Greenberg had decided that if they could not get Lopez, they would rehire Boudreau.

It was only after Rickey took over the Pirates, he said, that they were able to get permission to take him. Then they acted.

Anyway, Ryan now says the Cleveland team is arranging another managership on a big league club for Boudreau and that it is "nearing completion." Boudreau says he knows nothing of this.

Here is where Rickey comes in. He has a date with Pirate Manager Billy Meyer on Monday and there has been talk that he will buy up Meyer's $40,000 contract and get a new manager. Is that what Ryan means?

Lopez Shooting For The Top

CLEVELAND, Nov. 11. (AP)—The Indians' new manager, Al Lopez began plotting trades and coaching assignments for 1951 today. He'll be "shooting for the top" but at this stage won't predict a pennant over the tepee.

He went into a huddle with Hank Greenberg, vice president of the Cleveland ball club.

Lopez was believed to be in favor of hiring Jake Flowers, one-time St. Louis Cardinal, as a coach.

Flowers resigned as president of the Milwaukee brewers about two months ago. The impression then was that he would prefer a field job to one in a front office. The 48-year-old former shortstop and Lopez were teammates on the Brooklyn squad under Manager Wilbert Robinson.

Of the Indians' 1950 coaching staff, Mel Harder, was considered to have the best chance to remain. The former Indian hurler and Lopez have held each other in high regard ever since they were roommates in 1947, the year Catcher Lopez served as coach with the Tribe.

Coach Oscar Melillo has Greenberg's compliments on "a fine job last season," but Lopez has been given free choice and whether Oscar will remain is uncertain.

Herold (Muddy) Ruel, if not retained as a coach, may get a front office job, possibly that of directing farm personnel.

Al Simmons, who has served one season as a Tribe coach, may not get a contract. There is always the possibility that with Jimmy Dykes running the Athletics now, he may summon Simmons back to Philadelphia.

And there is the additional prospect that when the fired Lou Boudreau's fate is settled, he may want some of his old coaching staff at his new post.

One of the first patents issued in the United States was for a process of making potash.

Shoemaker Is Top Rider In The Country

By BOB MYERS

INGLEWOOD, Calif., Nov. 11. (AP)—Wee Willie Shoemaker is the new riding record holder in horse racing but the title may be only temporary.

The 19-year-old kid, as taciturn a Texan as ever, yesterday broke the modern American record for victories scored in one year which Johnny Longden set in 1948 at 319. Performing before nearly 15,000 fans at Hollywood Park, the small shoe hit the winner's circle twice and brought his total for the year to 321.

But today, more than ever, he is still confronted with a dire challenge from his eastern rival, little Joe Culmone, not only to preserve the current distinction, but in doing so, to win the coveted national 1950 jockey championship.

Culmone scored a triple at Pimlico yesterday and now lags but three wins behind in this long riding rivalry with a total of 318.

Today Shoemaker transfers his assignments to Bay Meadows and Culmone continues on at Pimlico.

Visibly unflustered when Hollywood Announcer Hall Moore informed the crowd that he had broken the national record, Wee Willie managed to mumble something about "Hope I do as well next year."

That sentence, his historians advise, also broke a record for loquacity.

They say that when Willie married pretty, 16-year-old Virginia McLaughlin of San Mateo, it took some persuasion to make him say the two words, "I do." He thought "Okay" would be sufficeint.

He has been riding less than two years. He won his first race on April 20, 1949, at Golden Gate.

Shoemaker was born in El Paso Tex. His father, now a rubber factory worker out here, moved the family to suburban El Monte—Willie is the oldest of six children.

Missouri Noses Out Princeton Bounces Over Harvard 63-26

COLUMBIA, Mo., Nov. 11. (AP)—University of Missouri's Tigers today nosed out the University of Colorado, 21 to 19, in a Big Seven conference football game before 22,000 shivering fans.

The Missourians overcame an early Colorado touchdown with two quick ones of its own in the first quarter then in the third period the Buffaloes swept ahead but not for long.

Missouri scored the winning touchdowns in the fourth period as Phil Klein went over on a quarterback sneak from his one-yard line

Score-Happy Tigers Whip Merkel 44-13

The Snyder Tigers, out-played and out-scored the Merkel Badgers Friday night in a game there that ended 44-13 in favor of the Tigers and placed them firmly in third place in conference standings.

Statistic-wise, the Tigers just about out did the Badgers all around. In first downs they led with 18 to Merkel's 10, in yardage gained rushing the Tigers more than doubled their opponents with totals of 354 to 149, in pass attempts both sides tied with 16 each, but Snyder completed 10 for 180 yards to Merkel's six for 70 yards, and in pass interceptions Snyder made two, which led to a Tiger tally — Merkel intercepted no passes, but Badgers had only two for 10 yards compared to Snyder's five for 55 yards.

FIRST TOUCHDOWN

Scoring started early in the first quarter with Quarterback N. J. Harrison making the first six points for the Tigers on a plunge from the two-yard line. End Lowell Beardon's point kick was good to put the Tigers out in front 7-0.

Almost immediately after the Tiger kickoff to the Badgers, a pass was thrown by Merkel Fullback Willie Robertson and intercepted by Snyder Quarterback Max Coffee who ran it back 40 yards to pay dirt. Again Beardon's kick went through the uprights to make the score read 14-0 in favor of the Tigers.

Late in the first period Merkel Halfback Joe Gregory ended a long drive with an eight-yard run to the goal line for Merkel's first score and the only score of the first three quarters for them. Their try for extra point was no good. This bit of excitement ended scoring for the first quarter, the board showing 14-6 in favor of the Tigers.

Early in the second quarter, Halfback Clifford Green made a seven yard run for a TD followed by another good kick by Beardon to make the score 21-6. Coffee almost duplicated the play a few minutes later when he too made a seven yard run for pay dirt, but this time Beardon's kick went wide. Half-time score stood at 27-6 for the Tigers.

THIRD QUARTER

Early in the third quarter Center Grant Teaff intercepted a Robertson pass on the 40 yard line and ran it back to the 15 where he was about to be downed by three Badgers, but a quick lateral pass to Coffee in the clear led to another Tiger score. Beardon's point try was blocked to leave the score 33-6.

Then came a revived Merkel attempt to score that was stopped on the Tiger two-yard line. The Badgers made four first downs in succession that led them from their own 41 to the Tiger two where Snyder took over on downs.

The third quarter ended in the middle of a Tiger drive that took them from their own two to the Merkel 30, where Green broke through center for a 30-yard gallop and another TD. Score stood early in the last period at 38-6.

DRIVE DOWNFIELD

Merkel took the kickoff on their own 29 and carried it to the 40 where they started a drive that ended in a touchdown. From their 40 two first downs gained by runs put them on the Tiger 29 where a 15-yard Tiger penalty gave them another first down on the 14. Merkel's second and last TD was the result of three tries from the 14. Robertson tossed a pass to Halfback Gaylon Johnson on the four who went over for a TD, but the play was no good because of a Badger backfield-in-motion penalty. An attempt to repeat the play failed, then Gregory went around left end on a hand off play for the necessary yardage. Robertson kicked the point making the score 38-13.

The Badgers were through scoring, but not the Tigers. Snyder took the kickoff on their own 38, made a first down to the 48, then Coffee passed 28 yards to Fullback Jackie Grimmett who headed for the goal line 45 yards away and made the last Tiger TD. The point try was no good — the score stood Snyder 44, Merkel 13.

Next week's game with Roscoe here Friday night at 8 p.m. ends the season for the Tigers.

L.S.U. Knocks Out Vanderbilt

NASHVILLE, Tenn., Nov. 11. (AP)—Cutting loose with a pinpoint passing attack which eclipsed Vanderbilt's aerial game, Louisiana State's Tigers rocked to a 33-7 Southeastern Conference football victory here today.

A shivery throng of 24,000 partisan fans saw two flashy LSU quarterbacks pass for three touchdowns and set up two others with a spectacular display of aerial sharpshooting.

Vanderbilt's own passing combine, Pitching Bill Wade and End Bucky Curtis, was held to a single 10-yard completion. Curtis dropped one Wade pass which looked like a certain touchdown.

Out-classed Vanderbilt held LSU to a 14-7 score at half time but LSU's unable passing and rushing offensive broke away to make the game a rout in the final period.

LSU Quarterback Jim Barran passed for two touchdowns and Quarterback Norman Stevens hurled an aerial good for the other passing score.

Vanderbilt's only touchdown came on a pass from Wade to Fullback Jim Tabor. It was good for 25 yards.

Rice Edges Out Arkansas 9-6

CARL BELL
(Associated Press Staff)

FAYETTEVILLE, Ark., Nov. 11.—Bill Howton, a light-weight end who played the full 60 minutes, fired the Rice Owls to a 9-6 Southwest Conference football victory over hot and cold Arkansas before 20,000 unhappy homecomers here today.

Howton, weighing but 177 pounds made an unbelievable catch of vernon Glass' 31-yard pass for the Rice touchdown in the first quarter. Near the end he caught another long throw by Glass deep in Arkansas territory to set up a safety that rounded out the Owl scoring.

In between Rice scores, the firey red head played a major role in stopping four Razorback drives which pierced the Owl 20-yard line.

Rice moved, 86 yards for its touchdown. Big George Glauser, a powerhouse fullback, Billy Burknalter and Sonny Wyatt ripped off huge chunks of yardage down to the Arkansas 31 in the ferocious drive. There, as the Razorbacks tightened their defense for more power stuff, Glass lofted a pass to the end zone. Howton went up between Arkansas' Buddy Sutton and Norman Price and took the ball away from them for a touchdown.

Bill Wright converted, and actually, that was all Rice needed.

Arkansas finally carried a goal-ward drive all the way in the third quarter after Sophomore Larry Hogue, a third-string quarterback, took charge of the offense. Hogue's sneaks through the middle and off tackle accounted for most of the yardage as the Razorbacks went from the Owl 46 to the four. Buddy Rogers burst through from there for a touchdown. George Thomasson's kick for point was no good.

With less than four minutes left to play, Glass passed 30 yards to Howton on the Arkansas 11. Rice gave up the ball on downs at the six. But, on the next play, Arkansas shifted from the T into a deep spread formation and Center Harold Stockton snapped the ball past Hogue and out of the end zone for an Owl safety.

Arkansas drives ranging up to 77 yards reached the Rice three, eight, 15 and 18 only to run out of fuel.

Navy Succumbs To Tulane 27-0

BALTIMORE, Nov. 11. (AP)—Quarterback Joe Ernst picked Navy's defenses to pieces with his passes as the Green Wave from Tulane drowned the Middies 27-0 today before an estimated 20,000 football fans.

The Southeastern Conference horde scored in every period while completely bottling up Navy from the start.

In addition to its four touchdowns, Tulane was stopped on the 17, 10 and five yard lines and missed another tally on a fumble over the goal.

1935-48 FORD CAN BE MADE TO RIDE AS EASY AS THE NEW '50 MODELS (and Mercurys, too!)

Reclassifying 4-Fs Recommended To Army

NEW YORK, Nov. 11. (AP)—Drafting of men now classified as 4-F for limited Army service is recommended by a committee in the office of the U. S. Army surgeon general.

Col. Warner Bowers, chief surgical consultant for the Army, disclosed the proposal to halt outright rejections at a session Friday of the association of military surgeons.

He said the committee recommended that selective service quit disqualifying large numbers of men who fail to meet general-service requirements. Instead of classifying them as 4-F and cutting them off from any Army service whatsoever, they should be classified for limited duty according to their capacity.

Senator Thomas Gets Ready To Come Home

WASHINGTON, Nov. 11. (AP)—Sen. Elmer Thomas (D-Okla) was "cleaning house" today, getting ready to return to private life next January.

His records, books and papers accumulated during 28 years in Congress—he was defeated in this year's primary—are being sent to the University of Oklahoma and the State Historical Society.

Over two hundred sacks of reports, letters, pictures, records of hearings and books have already gone to the university.

Odessa Wins Over Midland

MIDLAND, Nov. 11. — After a dubious first half, Odessa's Bron-cos strengthened their chances for District 3-AA laurels here Saturday with a 28 to 12 victory over the Midland Bulldogs.

The Broncos came back strong in the second half to add three touchdowns to their 7 to 6 half-time lead, and send the resurg-ing Bulldogs down in defeat.

The Bulldogs scored first after five minutes and 51 seconds of play in the first quarter. Stan Coker, tackle, recovered a fumble by Odessa's Carl Beard on the Bronco 37-yard line. Midland then drove all the way to score with Ralph Brooks passing to Jack Bur-ris in the end zone from the three. Charley Crowley missed the con-version try.

Odessa's initial score came ear-ly in the second period after a march of 76 yards. John Giles went over from the six. Carl Beard con-verted and the half ended with the Broncs out in front, 7 to 6.

Early in the third period Bobby Jackson raced 74 yards off tackle to begin Odessa's second half scor-ing parade. Again Beard's conver-sion was good.

Odessa then marched 57 yards early in the fourth stanza to score again. This time Howard Dye went over from the Bulldog six. Beard converted.

Midland drove back 65 yards fol-lowing the kickoff for their second and last tally. Brooks passed to Billy Medart for 16 yards and a touchdown. Crowley's point was not good. The Broncs, never letting up, scored in the last 48 seconds of play when Beard went back to pass. Failing to find a receiver, he ran 25 yards for the score and then converted.

Two TV Sets On One Antenna Is Possible

NEW YORK (AP)—Although it is possible to operate two television receivers from a single antenna economically, it is much more practical to have a separate aerial for each set.

One receiver will interact upon another when hooked to the same antenna, creating undesirable in-terference unless complicated equipment is added. Multi-antenna systems have been de-vised for apartment houses, but these require elaborate wiring sys-tmes and additonal units to keep the signals under control. This is a rather expensive installation.

In the case of just two receivers on one aerial, the cost of the extra necessary gadget, containing trans-formers, condensers, and other components, will be considerably more than the second antenna.

First ship of the new American Navy to go to sea was the Ganges in 1798.

Ohio State Is 19-14 Winner

COLUMBUS, O., Nov. 11. (AP)—Wisconsin's gambling Badgers plowed Ohio State's vaunted of-fense down today, but the brilliant Buckeyes got a 19-14 victory be-fore 81,535 fans to practically clinch the Western Conference championship.

A victory over either Illinois or Michigan in remaining games would give the undisputed title to Ohio State.

The Badgers gambled twice, lost both times, and the gambles cost them the contest. The first gamble came in the third period with Wis-consin leading 7-6. The Badgers stopped a 52-yard Ohio drive on the one-foot line.

The Badgers gambled on a quick kick on third down, the ball going out of bounds on Wisconsin's 2? Walt Kleesy plunged for six and then Tom Curran, Ohio quarter-back, hit End Ralph Armstrong on the goal line with a 22-yard touch-down pass.

[illegible] session Wisconsin gambled again, trying to make half a yard on fourth down on its own 22-yard line. The play missed by inches. Ohio took over and moved the 22 yards in five plays with Halfback Vic Janowicz skirting right end for the touchdown which won the contest.

Captain Robinson To Tyndall Field, Fla.

Capt. Connor Robinson, son of Mr. and Mrs. E. C. Robinson, route No. 3, Snyder, is in Panama City, Fla., with more than 50 other Air Force Officers taking a 10-week course in instrument flying procedure.

The instruction, being given at Tyndall Air Force Base, includes learning to fly under adverse weather conditions, using flight instruments as guides.

Judges, Doctors Collaborate To Help Juvenile Delinquents

By G. MILTO KELLY

WASHINGTON, Nov. 11—One of the nation's newest laws arms the federal courts with broad powers to seek and try to cure the causes of juvenile delinquency.

The federal judges asked for it—enough of them, at least, to convince Congress at the session ended in September.

They contended they were administering something far short of justice to youthful offenders, and that it was high time to amend the laws and give the wayward kids a better break.

The Justice Department backed them, contending seven of every 10 youngsters sent to corrective institutions come out as hardened criminals," and that the old probation laws were of little benefit. The American Bar Association, American Legion groups and Supreme Court Justices threw support to the bill. It finally passed, drawing small attention in the pre-adjournment rush.

NO MIDDLE COURSE

The old laws gave a judge authority to send a guilty youth to some federal institution, or place him on probation for anywhere up to a couple of years. It allowed no middle course.

The new one provides that middle course, while preserving also the right to sentence as before.

Under it, however, before pronouncing sentence the judge can send a youngster to a sort of clinic where specialists can take a month or more to analyze the case. Their job will be to try to find out what made a boy or girl go wrong, and try to figure out how to get the youngster back on the right track.

The judge can accept or reject any part or all of this advice. It allows him to recognize emotional and mental upset short of insanity and turn the youth over to specialists for treatment.

He can, if he chooses, help to get the lad a job, send him to some school to learn a trade or find him a better home—do any of a variety of things—while requiring long-term, skilled supervision so that different type of help may be substituted if the first guess was wrong.

The measure reorganizes the federal parole board, shifting authority to appoint members from the attorney general to the President and requiring Senate approval of his selections. It increases the board from five members to eight.

CORRECTION DIVISION

Within the board it creates a youth corrections division to take active hold of the program. Various members of the parole board will constitute the division. Aiding the division will be an advisory corrections council, composed of a federal circuit judge, two U. S. District judges, and non-judges to plan a long-time war on juvenile delinquency and recommend improvement of the laws.

It defines a youth offender as anyone up to and including the age of 21. (The judges wanted it to apply to 22 and 23-year-olds, too, but Congress said "no").

A judge could simply turn a youth over to the corrections division for four years of "supervision and treatment;" keep him under specially supervised probation for periods up to 10 years even after the lad passes the age of 21, or at any time revoke this order and commit to an institution if probation produces no results. Or, he could pronounce a sentence to a prison, reformatory or training school, without relying on the new law.

HURTS HIS CONSCIENCE

Chief Judge Bolitha J. Laws, of the District of Columbia Federal Court, endorsing the change, had told a Senate committee on Oct. 4:

"On Friday of this week, I have 17 sentences to impose. Many of them have pleaded guilty before me. I have spent no time with them; I have seen some for 30 seconds, perhaps. I have to pass upon a matter that affects their entire career, using a short report of a probation officer obtained within a week, which is totally incomplete and totally inadequate." He said it hurt his conscience.

In some prisons, he said, more care is taken in deciding to what job a man should be assigned than the courts could take under the old law to determine whether to incarcerate a convicted youth.

The Justice Department told a reporter it plans to move slowly and in small steps, to make the new program effective lest too much haste result in costly blunders. It awaits now appointment of the new parole board before moving to recruit the doctors and others who will aid in the program.

The next step then will be to set up a "clinic," properly styled a classification center, to which young offenders may be sent for pre-sentence examination. Ultimately more of these will be set up, the department says.

Trade Pact Signed

ROME, Nov. 11. (AP) — Italy and West Germany signed a new commercial pact Friday providing for exchange of $140 million worth of goods.

To complete the colortone picture in your bathroom select a matching Bath Mat or one in contrasting colors.

$1.29 to $7.95

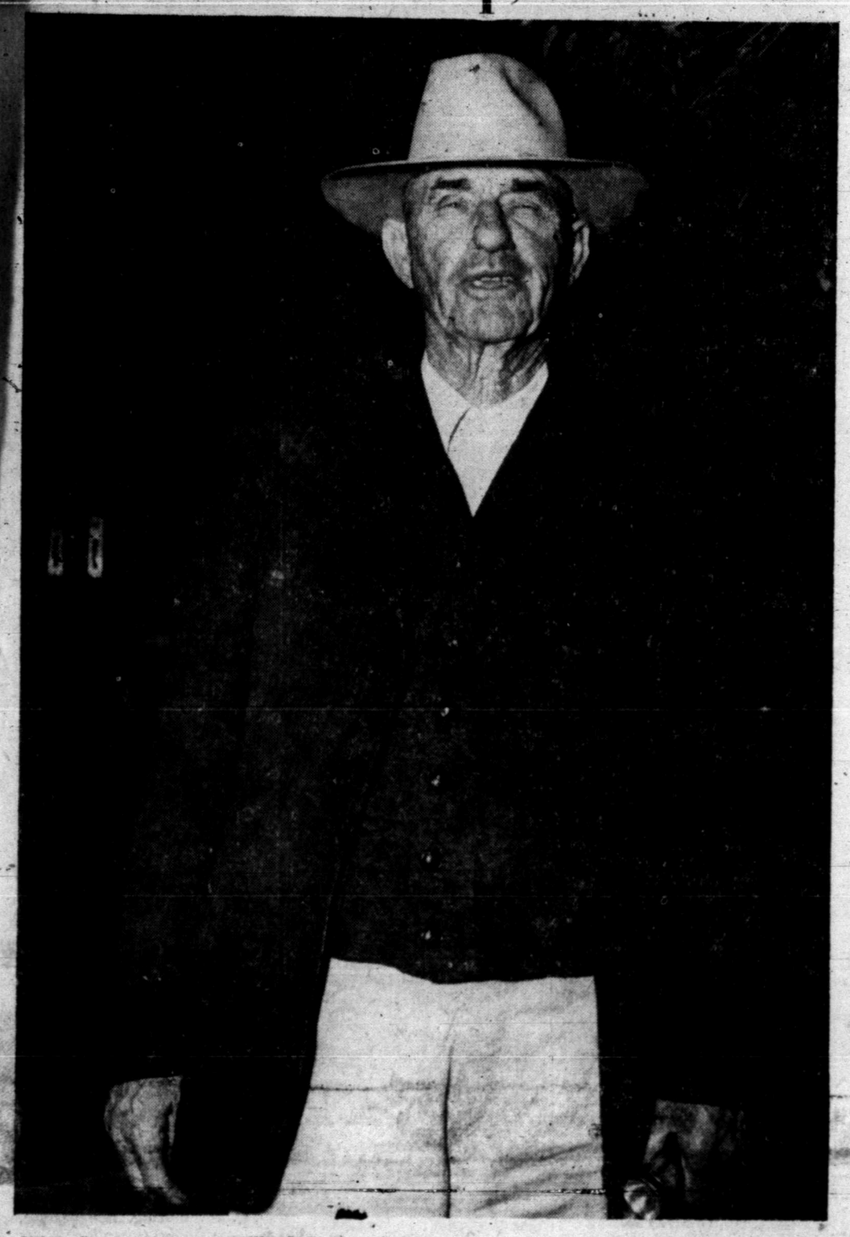

Sink your head into complete sleeping comfort on one of these wonderful "DREAMMAKING" Pillows.

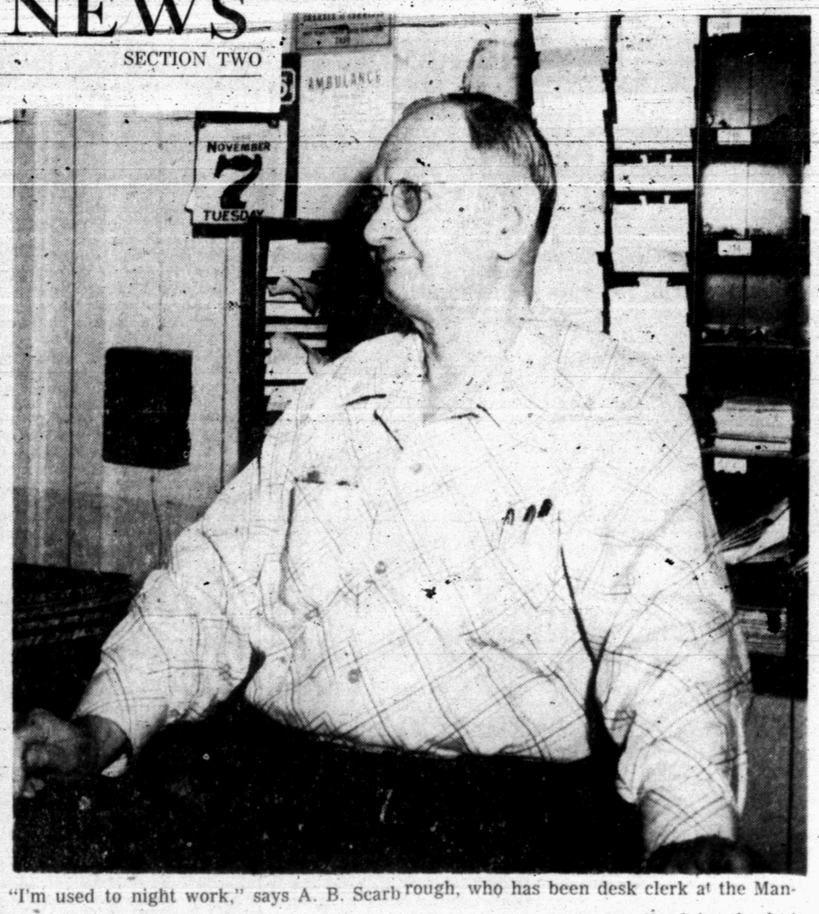

$4.49 to $10.95

THE SNYDER DAILY NEWS
VOL. I—No. 159 SNYDER, TEXAS, SUNDAY, NOVEMBER 12, 1950 SECTION TWO

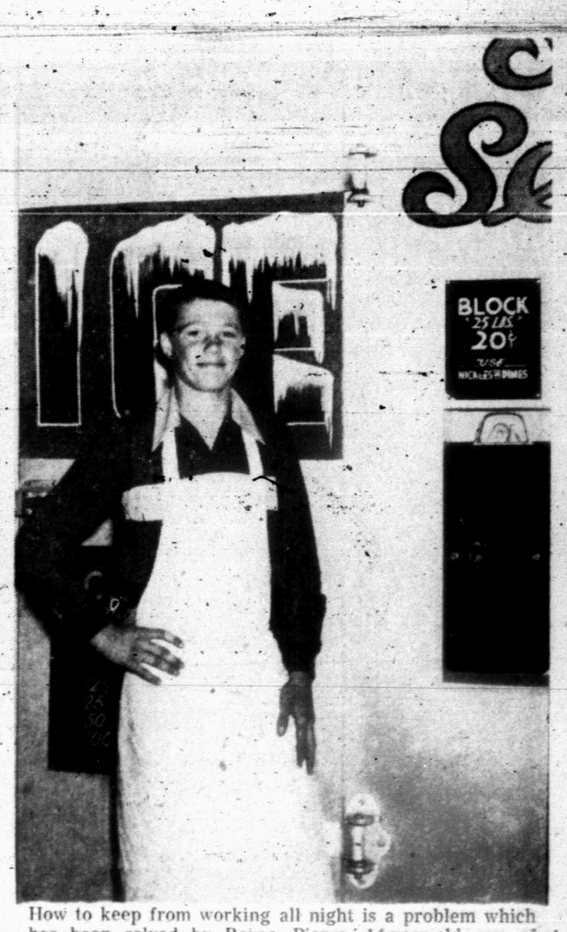

While You're Asleep, Others Work

While Snyder sleeps, men like J. G. (Pop) Galyean, above, stay awake to perform the tasks that must be done at night. A night watchman for the schools, Galyean has seen more than 14 years of police work, having been a deputy sheriff in Garza and Scurry Counties, and also a city policeman at Sweetwater. —(LaWayne Hulse photograph.)

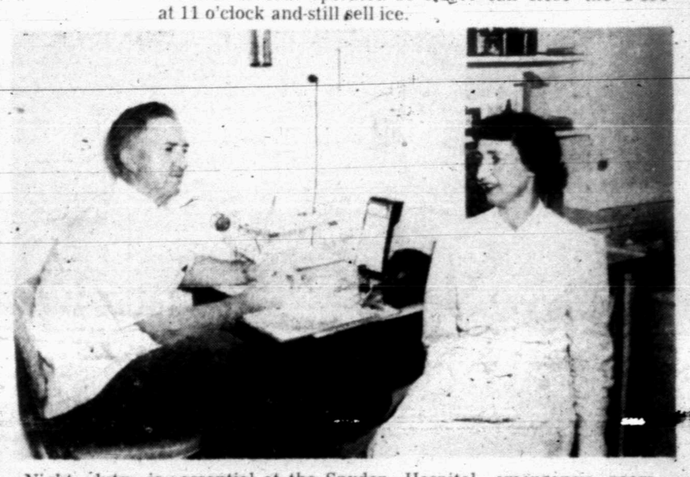

"I'm used to night work," says A. B. Scarbrough, who has been desk clerk at the Manhattan Hotel since March, coming here from Corsicana, where he has lived for the last 60 years. His hours here are from 6 p. m. to 6 a. m.

How to keep from working all night is a problem which has been solved by Royce Pierce, 14-year-old son of Mr. and Mrs. D. T. Pierce. The ice house at W. J. Ely's Drive-In is coin operated so Royce can close the store at 11 o'clock and still sell ice.

Not only do bakers, firemen, and taxicab drivers work all night, but also service station attendants such as Sam Williams, left, and Buddy Barrett, who work at the Phillips 66 super station on east Highway.

Night duty is essential at the Snyder Hospital emergency room where victims of accidents and sudden illness are taken for treatment. Dr. L. J. Neal, left, recently joined the staff here, coming from Dallas. Mrs. Wallace Perkins, right, is the permanent night nurse.

TALK OF THE TOWN

By FRANCES BIOW

Thursday night, Snyder's junior high school football squad, the KITTENS, and Colorado City's bunch, the JACK RABBITS, squabbled fiercly even though it was to near-empty stands in a sweeping norther. Half show went on just like it was the Orange Bowl in Florida. MISS DORIS HATHAWAY getting crowned as their Football Sweetheart, her brother MORRIS HATHAWAY, center and defensive end, named Pep Squad Sweetheart. Our sports editor, LEE WATSON, feels very warmly toward these band majorettes who "spotted" the game for him, racing up to the press box with names and plays: NANCY JORDAN, SUE YEAROUT, and SUE GRAHAM.

* * *

For all you lovers of Perry Mason, master detective, here is a transcribed interview with the manager of the Lone Star Detective Agency — C. C. DAWSON. In the 10 days since opening his sleuth doors here, ex-policeman Dawson has taken only slightly short of a dozen cases, and has "satisfactorily completed several" of them already. Ole Mason, himself, would need to hustle to beat it.

* * *

So far as interesting facts about our local sleuth and his men I have none for you. The Sphinx would have unbended more on cozy gossip. But Mr. Dawson did kindly generalize, probably because I looked so downhearted. He is usually approached with cases of firms suspecting theft, or some such matter, and Mr. Dawson or one of his men promptly and, with varying methods, go out to present evidence yea or nea. Domestic troubles may pour into his agency, too; he is equipped to answer any call day or night. "It's just like police work. . .a little more intimate, a little more dangerous as it is not protected by the law, but is generally only hard work and vigilance."

* * *

The Hub Drive-In on Lamesa Highway, where a steaming cup of coffee is very savory, attracts the customers, mostly oil men returning from the field, with an array of gew-gaws which "sell fast," according to MARY RICHARDSON.

Thursday night, Snyder's junior our "dream cars" to take home when they are in the dog house for being late. Miniature pearl-handled pistol lighters made for your cigarette, when you pull the trigger.

* * *

The telephone silence Friday seemed very strange. More cars were out; service stations sold more gas; the town missed that automatic reach for a phone. . .that slender thread that holds the world together. . .A reporter looked out our front windows and exclaimed, "What's the world coming to? There's a woman bus driver, and a man telephone operator just answered me!"

* * *

A suggestion coming to us is that the Junior Chamber of Commerce encourage their wives to organize an auxiliary club — the Jaycettes, or call it what you will. So many oil and business men have arrived in Snyder who are not active in civic affairs that the idea is the wives, whose husbands belong to the Junior Chamber, would be most instrumental in urging their husbands on to take part in Snyder civic life.

Party Honors Mrs. Pippin on Birthday

Mrs. Jimmie Pippin was honored with a surprise party and dinner given by friends on her sixty-second birthday Monday. The affair was held in the home of Mrs. Casey Bishop, 1204 Twenty-sixth Street.

The house was decorated with fall flowers, and the fall decoration theme was carried out on the dinner table. Mrs. J. B. Davidson read birthday greetings to the honoree, and gifts were presented her later.

Those attending were Mrs. Inez Wilson, Mrs. Lola Grant, Mrs. Velma Huddleston, Mrs. Margie Hill, Mrs. Marion Bishop, Mrs. Juanita Hester, Mrs. Verna Wilson Knight and Mrs. Coleen Bishop.

PERSONALS

Mr. and Mrs. C. E. Williams and daughter, 1904 Avenue R, have just returned from Fort Worth where they visited her parents, Mr. and Mrs. George Lane.

Miss Oleta Mitchell, who underwent surgery in Hendrick Memorial Hospital last week, is reported to be doing well. Mrs. Virgie Harris is staying in Abilene with her during her illness. Miss Mitchell is a clerk at the Wayne Boren Insurance Co. She is the daughter of Mrs. J. K. Mitchell, 3010 Avenue W.

Mr. and Mrs. H. G. Brown, 315 Thirty-fourth Street, have had as visitors Mrs Brown's brother and family, Mr. and Mrs. H. W. Thomas from Seminole, Tex. Mr. Thomas was formerly employed here with the Texas Electric Co.

Mr. and Mrs. C. F. Sentell, 2903 Avenue W, had as house guests last week Mr. Sentell's sister, Mrs. Harry Legg and Mrs. Connie Reeves from Fort Worth.

Mrs. B. F. Womack is in Spearman, Tex. this week, staying with her daughter and family, Mr. and Mrs. Ernest Hester Mr. and Mrs. Hester are parents of a new son.

F. G. Gurley of Chicago, president of the Santa Fe railroad, stopped here briefly en route to Lubbock last week.

George Montgomery went to Brownfield and Midland Friday on business connected with the Frank Montgomery Contracting Co., Lamesa Highway.

Snyder Women Attend Federate Club Meet

Several Snyder women left today to attend the state convention of the Texas Federation of Women's Clubs in Fort Worth.

Mrs. Forest Sears will attend as district chairman of the American Home Committee of the federation; Mrs. Lawrence Dumas will represent Alpha Study Club, of which she is president; and Mrs. Wayne Boren will serve at the convention as state chairman of club institutes.

The convention will convene tomorrow and continue through Thursday. Convention headquarters will be at the Texas Hotel in Fort Worth.

Dr. Mary Booth, James W. Steward Married in Abilene

ABILENE, Nov. 11 — Announcement has been made here of the marriage Nov. 3 of Dr. Mary Booth formerly of Snyder, to James Willard Steward of Abilene. Dr. Booth is a daughter of Mr. and Mrs. P. D. Booth of Abilene. The bridegroom is the son of Mrs. Mabel Wylie Steward of Abilene and W. M. Steward of Maple Valley, Wash.

Tapers in candelabra lighted the flower-decorated altar of the Episcopal Church of the Heavenly Rest where Dr. Willis P. Gerhart, rector read the double ring vows.

The bride, who entered the church on the arm of her father wore a suit of banker's grey flannel, styled with pencil slim skirt and jacket featuring rounded horseshoe revers accented with rhinestones. She wore a black velvet bonnet adorned with rhinestone clusters, black suede slippers and other black accessories. She carried a white orchid on a white prayer book.

Her only attendant was Marjorie Sears who chose a winter pink suit, fashioned with slim skirt and sloping shoulder-line. She wore a black velvet cloche, white kid gloves embroidered with pink rosebud design and a corsage of heartthrob roses. Jack Stovall served as best man.

Following the ceremony, the couple left for a wedding trip to Dallas and Maple Valley, Wash. On their return, they will live at 2023 South Fifth Street, Abilene.

Out-of-town guests at the wedding included Mr. and Mrs. E. P. Campbell of Lubbock, Mr. and Mrs. Pano H. Karr of San Angelo and Mr. and Mrs. Robert Ward of Buffalo Gap.

The bride attended McMurry College and Hardin-Simmons University. She was graduated from Southwestern Medical College, Dallas and did interneship at Harris Hospital in Fort Worth. For the last three months she has been practicing pediatrics in Snyder. She plans to resume her practice in Abilene.

The bride was a member of TIP, Social Club at McMurry, Alpha Epsilon Iota, medical fraternity, the Tarrant County Medical Society and the Business and Professional Women's Club of Snyder.

Mr. Steward attended Hardin Simmons University and was graduated from the University of Washington, at Seattle, Wash. He is now associated with the Drilling and Exploration Co., Inc., here. He is a member of the Abilene Country Club, the Petroleum Club and the Drilexco Club.

Queen To Be Selected At Harvest Carnival Of Hermleigh Schools

The Harvest Queen at the Hermleigh school this year will be elected according to the amount of money her sponsors put up for her.

Each class, from the first grade to the seniors, will have a contestant in the race for queen of the Harvest Carnival.

Each class will have a booth and the booth taking in the largest amount of money has a queen on its hands, according to Orville Paty, superintendent.

The queen will be crowned at the school sometime the following week.

The Harvest Carnival is being held in the Hermleigh gymnasium to replace their regularly scheduled Hallowe'en Carnival which was not held this year because the school has been dismissed for the cotton harvest, Paty explained.

The booths will open at 6 o'clock Saturday night, and they will close when all participants are tired, the superintendent said.

Legion Post Exceeds Membership Mark Set

The Layne-Kite Post No. 181, American Legion in one of the few posts in the state that has exceeded its 1951 quota, it was announced today by George Killam, Jr., adjutant.

The quota set for the Snyder post for 1951 was 171 members, but about 200 have been signed up for next year, said Killam.

An objective of 400 members by the first of the year has been set by the post, he said.

Aims of P.-T. A. Are Outlined By Mrs. Lida Rhodes

An organization which seeks to unite the forces of home, school, church and youth was the description given the Parent-Teacher Association by Mrs. Lida Rhodes speaking to the central elementary school association Thursday afternoon.

"Its objects are to promote the welfare of children and youth in home, school, church and community," she said, "and to raise the [illegible]

"The association further strives to secure adequate laws for the care and protection of children and youth, and to bring into closer relation the home and school so that parents and teachers may co-operate intelligently in the training of the child."

Following Mrs. Rhodes' address, a group of pupils illustrated class work by presenting vocal selections.

In the business session, it was voted to hold a rummage sale and to send dish towels to the school cafeteria.

About 30 members were present for the meeting.

Good Neighbor Club With Mrs. Ed Stahl

Mrs. Ed Stahl was hostess Thursday for a meeting of the Good Neighbor Club at her home, 2906 Avenue T.

Members presented the program for the afternoon by giving readings. Mrs. Stahl was chosen the lucky lady to receive the gift of the afternoon.

Refreshments of cherry pie topped with whipped cream and coffee were served to Mrs. M. T. Popejoy, Mrs. Clifton Walker, Mrs. A. E. Duff, Mrs. J. L. Roddy, Mrs. Will H. Crowder, Mrs. W. J. Moffett, Mrs. A. J. Riley, Mrs. Henry Whitehurst, and Mrs. Ben Peterson.

Mr. and Mrs. J. C. Ezell have just moved into their new home at 2307 Thirtieth Street.

Bright Trim and Sparkling Jewelry Add Zip to Fashion

By ALINE WHITBY
(Daily News Staff Member)

Take your pick of colors, fabrics and styles in winter wear and you're sure to be fashion right this year.

The "little black dress," a traditional basic garment of winter clothes, is still riding high on the favorite parade. However, colors bright as Christmas tree ornaments and unusual effects in trimmings have added zest to the winter picture.

SPRING IN PICTURE

Shops in Snyder now have a complete line of winter garments, and are already casting about for spring fashions. With the holiday season just around the corner many shoppers are completing their winter purchases, and really cold days will send others scuttling for warmer garments.

Wool jersey, treated to keep out the sog, has been one of the most popular fabrics this year in all price ranges. It is used for both dressy and sports styles, in shirts, blouses and dresses. One shop reported red wool jersey in great demand, and others said they had trouble keeping enough in stock to meet the orders.

Corduroy, especially popular during the fall, is often used with wool jersey. Corduroy has the double advantage of being less expensive than wool gaberdine and of combining well with other fabrics. Once considered strictly for sports wear, it has taken on a new importance with fine wale weaves and patterns woven into the fabric.

Velvet has made news this year proving it need not be limited to very formal wear. A velvet collar and cuffs often trim a dress of light weight wool, and go equally well on finer fabrics. Velvet skirts and weskits are dramatic enough for dress-up, colorful enough for casual wear.

BEADS AS TRIM

Sweaters and blouses enhanced with beaded trim, lace, buttons or hand painted designs offer an easy way to give skirts double life.

Rhinestone jewelry glitters with after-dark fashions, and comes in an amazing range or prices and designs. They are by far the most popular stone of the season.

Silver is replacing gold in jewelry and accessories after running a slow second for recent seasons. Dangling earrings, chokers, bracelets, necklaces all come in silver and cost surprisingly little. Pearls are also popular.

Hats are more popular this year than in seasons past, especially smaller styles. Not so close fitting as the clotche, they are generally more becoming to most persons. A modified jockey cap has been among the best sellers for teen-agers and younger women, and here too the price range is wide. Simple models are made of corduroy, others of felt. Highest in price are velvet and velour creations, with brim narrowed and beads or rhinestones sprinkled lightly over the crown.

COAT FASHIONS

Fitted styles in coats have not replaced the boxy models, although more popular than in recent years. The extreme swing back seems to be on the way out, but here again you have your choice of the style that is most becoming. Colors run toward dark green, neutral shades and some bright burnt orange, and prices vary widely with materials.

Winter suits take to wool gabardine. Jackets are shorter, skirts are slim and straight. Popularly priced lines play up buttons or self-trim fabrics, and suits with two skirts lead a double life.

All around, it looks like a colorful, bright winter season.

Hermleigh 4-H Club Girls Study Sewing

Hermleigh 4-H club girls met Tuesday at the Hermleigh school with 48 present. Joan Halber, president, presided. Carolyn Murphy called the roll. The club studied the use and care of sewing equipment. Each girl will have a cup towel hemmed and an embroidery design worked on the cup towel by the next meeting.

Carol Lynn, song leader, lead the group in two songs.

Golden Wedding Day

Mr. and Mrs. Oliver McClinton, 2306 Twenty-seventh Street, are pictured at the celebration last week of their fiftieth wedding anniversary.—(Craft Studio photograph).

Texas Tory Talks

"Flight From The Dollar" Is Raising Price of Texas Range

By J. EVETTS HALEY

It is doubtful if the Plains of Texas ever figure in the thoughts of the editorial rooms of the London Times. Yet there the minds of erudite and experienced observers grapple with the problems of the world in critical analysis. Without realizing it at all, a writer there has just made pertinent comment upon the principal cause of the scramble for land in Texas. His remarks had to do with lack of confidence in the value of our money.

In referring to what the London writer called "an incipient flight from the dollar," The Wall Street Journal doubted that any such movement had actually taken place "as yet." The cautious language of The Journal, which usually pegs the editorial nail squarely on the head, seems to leave the matter open to question in its own mind.

* * *

Along with the London Times it apparently has the international picture in view, where gold is again moving from our shores in settlement of trade. But if the writer for the Journal should mean the domestic scene, inclusive of the cattle ranges of the West, then we decidedly disagree.

For a long time, so far as land is concerned, there has been an actual flight from the American dollar. Now the race to get shed of money, to convert it into acreage has taken on the reckless speed of a hungry Texas coyote after a half-grown jackrabbit. More significant of late is the fact that the voracious appetite for buying encompasses more than land. People with cash, bonds, savings accounts and insurance reserves have been rushing, helter-skelter, for the last four months, to convert them into tangibles, from cars to caterpillars from woolen clothes to washing machines. But land is the only thing that genuinely sates the fever of their desire.

* * *

Thus it is that the movement quietly going on for years among moneyed men has broken into a mad stampede. It is not difficult to understand. Within the veins of every healthy-natured American there is at least a latent ambition to own a piece of land. Even with an urbanized person, the coming o' spring stirs a fine, elemental inclination to turn the soil and bring a productive plant to fruit. The frosts of fall incline to spur him into the woods to hunt his meat in a sort of atavistic recurrence of the primal instincts of self-sufficient man. Only on the land can he feel these ancient but rejuvenating urges that keep him closely attuned to the realities of life.

It is no idle nor chauvanistic boast that we in Texas possess these healthy tendencies to an unusual degree. We are simply closer to the lessons of nature than the unfortunate hordes that pound the pavements of New York City in unnatural and unhealthy life. No man feels the warning of brassy skies and volatile dust more quickly than the veteran wheat-grower; no one more quickly senses the dangers of the impending storm and blizzard than a stiff and stove-up cowboy, trying to nurse his herd through a hard winter.

* * *

Thus it is that we respond more quickly to danger. In spite of all the drivel to the contrary, this economy of ours is still responsive to the same rigorous laws of sun and cloud. Men who are healthy in their responses and honest in their appraisals know it. This is the major reason why the sickly fallacies of communism are so obvious to the average Texan. They simply do not make sense. They are obviously immoral in that they are blatantly contrary to the laws of Nature's God. Thus Texans take the lead in the flight from the dollar.

* * *

About a decade ago, Mr. Frank H. King, Southwestern executive for the Associated Press, wrote a general article upon the rise of the values of land in Texas. An interested reader asked him why he did not point out the underlying cause of the boom — namely, the danger of inflation inherent in our unbalanced national budget. This force was even then at its insidious work.

* * *

Apparently it is not generally known, but for an even longer period successful businessmen in Texas — with a measure of that wisdom that insured their initial success — have been investing surplus funds in good Texas land. Many an old-time ranching family, with minds still tied to a currency that gave rise to that once reassuring rejoinder — "as sound as a dollar" — rather gleefully sold out their hereditary estates "to some city feller with more money than brains."

But when they turned to hunt a new range they usually found that their money bought less in land and grass than they had anticipated, while those who held their cash have seen it shrink to one-third and even one-fifth of its original value in terms of land. By now it is a notorious fact with the rank and file, from the banker to the bar-fly, that "the dollar is buying less every day, and pretty soon at the rate it's going, it won't be worth nothing, a-tall. Better buy something while we can."

* * *

This is the result of only one thing; fallacious, and even designing and dishonest financial policies originating in Washington. Some irresponsible officials, like Roosevelt, Morgantheau and Hopkins, conceived the sensitive economy of a great nation as something to manipulate or play with. But many of their associates, with diabolical design, saw national bankruptcy as the means of revolutionizing the government and the life of this country. The awful specter of their success now impends.

* * *

Unrestrained inflation brought on by reckless national spending and an unbalanced budget, with the inevitable destruction of the dollar now faces us. The wanton waste of the accumulated reserves of generations of frugal, industrious and hard-working people is under way. The pious preachments of Washington that it is trying to cope with the problem are believed by few of common sense. The lies inherent in this propaganda are daily proven for them in ever-shrinking purchase of food and clothing. The cynical age so assiduously cultivated by the professional liberal is coming to its crisis.

* * *

The approaching storm is stirring men of healthy nature to move individually, to meet the blow. The distant observer in London, with his hand on the pulse of a dangerous world, is right. The rush to convert cash to tangibles is on; the flight from the dollar is well under way. Not federal controls but only a budget cut to the bone, honestly and rigidly balanced, can stop it.

Newcomers' Club To Sponsor Parade of Fashions Friday

Twelve models will parade in latest fall and winter styles at the Newcomers' Club Style Show and luncheon to be held at Country Club Friday afternoon from 1 o'clock until 5.

The style show, the largest to be presented in this area, will be sponsored by Mildred's Dress Shop. Harris Pharmacy will furnish all make-up for the models.

Casual suits, informal street length frocks, winter coats and other costumes have been chosen for the affair by Miss Gladys Matheson, manager of the women's dress shop. Mrs. R. J. Chadwell and Mrs. Jack Morgan are on the steering committee of the style show of Newcomers' Club.

Two hundred tickets for the affair have gone on sale. They may be bought at Harris Pharmacy,

MRS. FRANCES WEBSTER
(Craft Studio Photograph)

Mildred's, or from any member of the Newcomers' Club, according to Mrs. V. V. McGrew, club president. The price of the ticket is $2 and includes the luncheon.

Proceeds from the ticket sales for the show will go into the fund Newcomers' Club has set up for distribution of baskets of food and toys to needy Snyder families.

Modeling the costumes will be Mrs. Frances Webster, Mrs. Sarah Tate, Mrs. Dan Barton, Mrs. Lee Aiken, Miss Janelle Darby, Miss Ramona Thompson, Miss Sandra Blackard, Miss Judy Ivy, Miss Lora Garretson and Miss Peggy Fisher.

Mrs. Webster who modeled in Dallas stores before moving to Snyder, will be presented first in a Franklin frock of black lace over white satin. The dress has a black velveteen trim, and accessories are black. Her other appearance will be in a Rene Ruth black crepe dress, trimmed in velveteen, a black velvet coat with red lining, and velvet hat and bag. The other models will appear in two costume changes of various types of sports and dressy wear.

Mrs. Gwyn Olinger Hickox, cosmetician from Harris Pharmacy, will supervise the make-up of the models. She plans to apply a different make-up for each model, varying with the formality and coloring of the costume.

Tickets sales will close Wednesday afternoon at 5 o'clock. The Kiwanis Club has endorsed the style show, and will assist in the distribution of the baskets at holiday time to the needy. Men as well as women are invited to buy tickets and attend the colorful show, Mrs. McGrew said.

Good Show In Pecos County

Magnolia Petroleum Co. No. 6 Lutz, on the southwest side of the Abell-Silurian-Montoya field in North Pecos County has shown for good production from the Montoya and the top of the Simpson.

This venture topped the Montoya at 4,830 feet and the Simpson at 1,875 feet. It drilled to a bottom of 4,830 feet and took a one-and one-half hour drillsem test at 4,830-75 feet.

Gas surfaced in three minutes Oil started flowing soon afterwards. The oil was flowed to tanks for one hour through a three-eighth inch bottom hole choke and the recovery was 72.5 barrels of 40-gravity petroleum.

Gas-oil ratio was 620-1. There was no water or basic sediment in the oil which was flowed out. Open flowing bottom hole pressure was between 1,230 pounds and 1,475 pounds.

Shut-in bottom hole pressure, after 15 minutes, was 2,130 pounds. Operator was pulling the tester at last report.

Garza Wildcat Drills Below 5,280 Feet

Kerr-McGee Oil Industries, Inc. No. 1 G. W. Connell, wildcat in Southeast Garza County six miles north of Justiceburg and 10 miles southeast of Post, is drilling ahead below 5,280 feet after taking a drillstem test from 5,250 feet to 5,280 feet.

Tool was open two hours. Recovery was 35 feet of slightly salt water cut mud plus 460 feet of salt water.

Location of this prospector is in the center of the northeast quarter of the northwest quarter of section 23, block 5, GH&H survey.

Projected depth is 8,300 feet to test the Ellenburger.

Salvagers have recovered $20,000,000 from Spanish galleons sunk in Vigo Bay, Spain, in 1702.

Rush for Birth Certificates One of Effects of Korea War

One of the small civilian impacts of the Korean War has been felt in county clerks' offices over the state, where draft registrants must go to obtain birth certificates.

It isn't customary for American citizens to carry such identification around with them, although many persons got them during World War II in order to apply for war work or for draft registration.

Applications for birth certificates are now being received for the same purposes, except on smaller scales.

NEEDED FOR SCHOOL

In Scurry County, most of the requests for birth certificates recently have come from parents of children entering school for the first time, J. P. Billingsley, county clerk, said. Snyder schools required birth certificates for entering students for the first time in 1949.

Men in the draft age groups who have recently become fathers are also interested in getting certificates for their children to be with the selective service board. In order to have their draft classification changed for this reason, they must file a copy of the certificate with their draft board.

Any person who does not have a copy of his birth certificate may secure one by writing to the clerk of the county in which he was born, Billingsley said. If the birth is on record there with the child's name, there will be a charge of 50 cents for making and mailing the copy.

NOT ON RECORD

The charge may range from $1 to $1.50 if the name was not recorded at the time of birth, if the birth was not registered or if certain other irregularities have occurred.

A state law enacted in 1903 made it compulsory for all birth to be registered, Billingsley said, but the law was often ignored in the years shortly after it became effective. Hospitals now record births generally within 30 days after the child is born.

Terry County Location By Tide Water Oil Co.

Tide Water Associated Oil Co. and associates, have staked location for a new project in the Corrigan-Fusselman field of Southeast Terry County. Drilling on it will start at once.

The new project will be Tide Water, et al, No. 1-B J. P. Nystel. It is located 660 feet from south and 685 feet from west lines of section 8, block C-38, psl survey.

That makes it one location north of the discovery well of the field and puts it immediately adjacent to a dry hole on total depth of 5,282 feet in the San Andres lime which was drilled several years ago.

The new exploration is slated to go to 11,600 feet to explore the Fusselman. There are now completed producers from that formation in the field and a third is now in process of being finished.

Fourth Jump Too Much For Elizabeth Scott

HOLLYWOOD, Nov. 11. (AP) — It was one jump too many for actress Lizabeth Scott. She's laid up with a torn knee cartilage today and her studio says she may be out of action for a week.

Miss Scott hurt herself jumping from a 12 foot ledge for a film scene. She was flown home Friday from location in Gallup, N. M. The first three leaps Miss Scott made from the ledge didn't satisfy the cameras. The fourth jump was colossal — for everybody except Miss Scott.

3 Locations In Kelley-Snyder

Magnolia Petroleum Co. has staked three new projects in the County. Rotary tools will be used to drill these tests to approximate-ly 7,000 feet, beginning soon.

McDONNELL

About two miles northwest of Snyder, Magnolia spotted its No. 1-J McDonnell estate 611 feet from north and [illegible] lines of section 338, block 97, H&T[illegible].

No. 2-E McDonnel

1,980 feet from north and east lines of section 335, block 97, H&[illegible] survey and six miles northwest of Snyder.

LEFORS-MOOAR

Magnolia No. 1-D Lefors-Mooar is scheduled to be drilled five and one-half miles northwest of Snyder and 467 feet from south and east lines of section 298, block 97, H&TC survey.

D. M. GIBSON

Progress Petroleum Co. of Texas will begin operations immediately on No. 3-A D. M. Gibson, 973 feet from south and 467 feet from east lines of section 550, block 97, H&TC survey.

Projected depth is 7,000 feet. Rotary tools will be used to drill the exploration.

Drillsite is 15 miles north of Snyder.

Dolomite Samples Are Good in Pecos Well

Wilshire Oil Co. No. 1 Atlantic-Frome, North Pecos County wildcat which is slated to explore the Ellenburger logged some good shows of oil in samples in a dolomite at 6,920-46 feet, and is taking a drillstem test.

Some geologists think the current dolomite is Ellenburger. Others think it is Fusselman.

This project topped the Devonian at 6,030 feet, on an elevation of 2,485 feet. That formation had some slight shows of oil and gas but not enough to make an oil well.

Location is 660 feet from northeast and southeast lines of section 8, block 10, H&GN survey. That makes it three miles southeast of the Santa Rosa-Ellenburger gas-distillate field and 10 miles south of Grandfalls.

Puppet shows are believed to have been presented in China 1,000 years before Christ.

Free Oil Developed In Winkler County Wildcat

Humble Oil & Refining Co. No. 1 R. M. Evans, Central-North Winkler County wildcat, developed a little free oil and some oil and gas cut drilling mud in a drillstem test at 8,992-9,075 feet.

The tool was open 90 minutes. Recovery was three feet of free oil and 120 feet of oil and gas cut drilling mud. No signs of formation water were reported.

Open flowing bottom hole pressure was 50 pounds. Shutin bottom hole pressure, after 15 minutes was 125 pounds.

Operator deepened to 9,127 feet and is preparing to run another drillstem test. Identity of the section being investigated has not been revealed.

The project started out to go to 12,000 feet to explore the Ellenburger.

Location is 1,980 feet from north and east lines of section 2, block A-56, psl survey. That makes it 17 miles northeast of Kermit and on a line between the Keystone field of Central-North Winkler County and the Dollarhide field in Southwest Andrews County. Both those fields have prouction in several pay zones.

PERFECT FINISH *for a* COMFORTABLE SHAVE

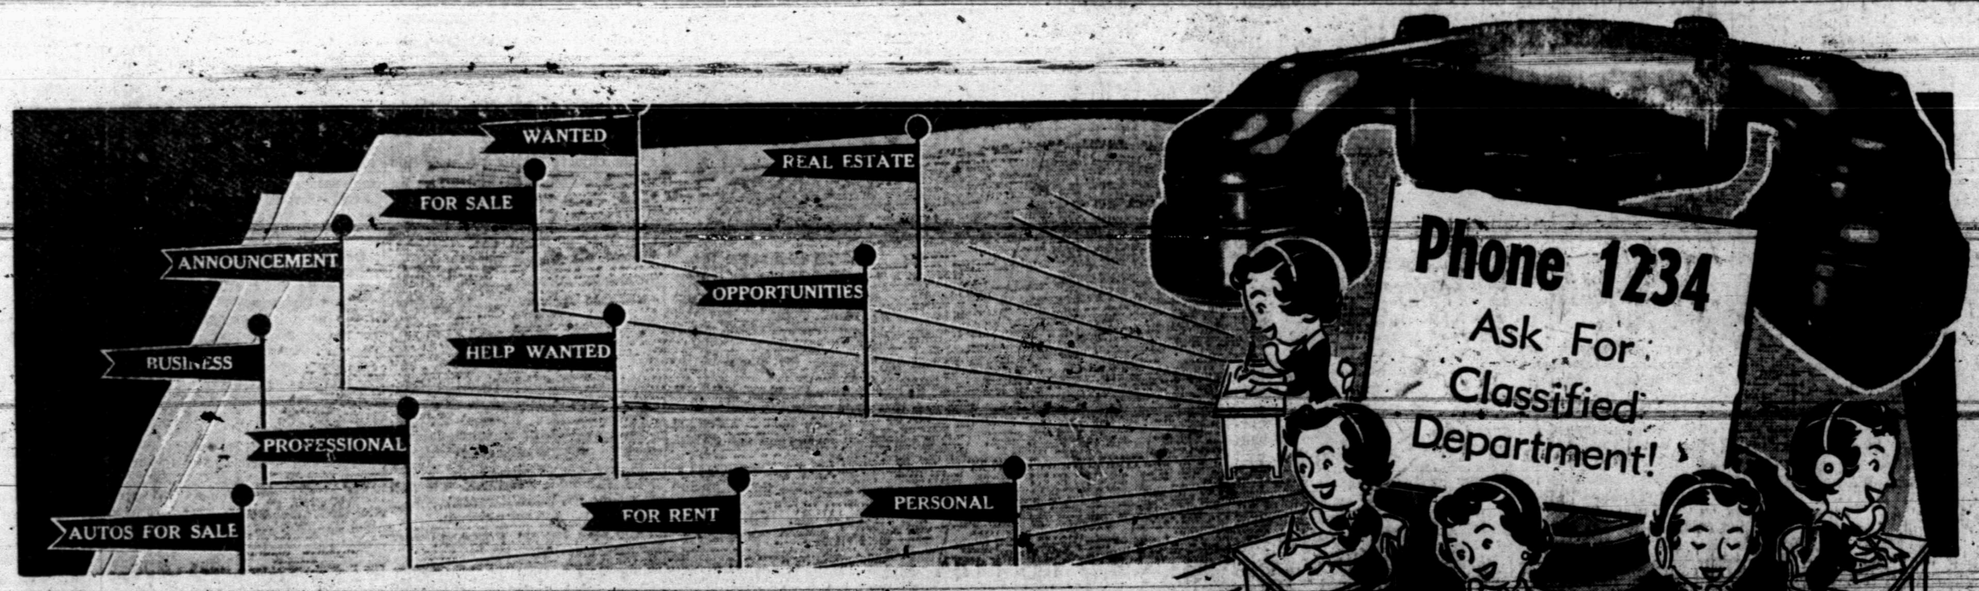

NORTHWOODS
HIS AFTER SHAVE LOTION

ARISTOCRAT of fine after shave lotions, in a distinctive sure-grip container that is tailored to a man's hand.

The lotion, too, is "tailored" to a man's after-shave needs . . . bracing, invigorating, pleasingly masculine in its tangy northwoods fragrance. Strictly masculine.

Price, $1.00 plus tax.

Five Scurry Wells Are Set For Drilling

Five new projects were reported for immediate drilling in Scurry County.

C. T. McLAUGHLIN

In the Sharon Ridge-Canyon field of Southwest Scurry County, the Superior Oil Co. spotted two new sites on C. T. McLaughlin land. Rotary tool will be used to drill to 7,000 feet on both these tests.

Superior No. 3-163 C. T. McLaughlin is located 1,980 feet from north and 1,683.08 feet from east lines of section 163, block 97, H&TC survey and 16 miles southwest of Snyder.

Drillsite for No. 4-179 C. T. McLaughlin is 2,100 feet from west and 1,660 feet from north lines of section 179, block 97, H&TC survey and about 15 miles southwest of Snyder.

C. V. THOMPSON

Shell Oil Co. No. 7 C. V. Thompson is a new location in the Sharon Ridge-Canyon field of Southwest Scurry County. It will be drilled with rotary tools to approximately 6,800 feet.

Location is two and one-half miles west of Knapp and 2,010 feet from north and 670 feet from west lines of section 121, block 25, H&TC survey.

Two and one-half miles west of Knapp and in the Sharon Ridge-Canyon field, Shell staked location for No. 1-B C. V. Thompson, 6,800-foot exploraion.

Rotary tools will be used to drill this project 660 feet from south and 1,963 feet from west lines of section 124, block 25, H&TC survey.

O. C. ROSSON

Progress Petroleum Co. of Texas is scheduled to drill its No. 1 O. C. Rosson 467 feet from south and east lines of section 565, block 97, H&TC survey and 15 miles north of Snyder.

Rotary tools will be used in drilling to projected depth of 7,000 feet. This new site is in the Cogdell field of Central-North Scurry County.

One of the trees from which tan factories is located in the U. S. ners derive extract used in making leather soles tough and flexible is a South American variety so rugged that the natives call it quebracho — literally "the axe-breaker."

Ellenburger Producer

General American Oil Co. has completed a new producer from the Ellenburger in the Sweetie Peck multipay field of South Midland County as its No. 3-P J. F. Peck.

The well flowed 24 hours through a one-quarter inch choke to make an initial production of 385.36 barrels of 44-gravity oil. Gas-oil ratio was 1,725-1. No water was present.

Pay was topped at 10,317 feet and total depth was 13,310 feet. Five and one-half inch casing was cemented at 13,178 feet. Casing was perforated at 10,317-10,418 feet and these perforations were treated with 13,310 gallons of acid.

This new oiler is located 660 feet from east and 665 feet from north lines of northwest quarter of section 21, block 41, T-4-S, T&P survey and 30 miles southwest of the City of Midland.

New Producer In Tex-Harvey Field Completed

Tex-Harvey Oil Co. has completed its No. 1-14 Mrs. B. W. Floyd as a new producer in the Tex-Harvey field of Central-East Midland County.

The well flowed 24 hours through a 24-64-inch choke to make an initial production of 179 barreis of 36.5-gravity oil. No water was present. Gas-oil ratio was 916-1.

Pay was topped at 7,005 feet and total depth was 7,882 feet. The open hole pay section above the total depth was shot with 1,860 quarts of nitro glycerin.

Location is 660 feet from north and east lines of southwest quarter of section 14, block 37, T-3-S, T&P survey and about 18 miles southeast of the City of Midland.

Tom Green Wildcat Is Completed From The Palo Pinto Lime

Sun Oil Co. and associates have completed their No. 4 Claude Linthicum, as a flowing discovery from the Palo Pinto lime in West-Central Tom Green County, four miles west of San Angelo.

The project flowed 126.96 barrels of 37.9 gravity oil, and no water on the 24-hour potential test. The flow was natural, through a one-quarter inch tubing choke.

The production was from perforated section in the casing at 5,144-60 feet. The 5 ½-inch pipe is cemented at 5,276 feet. Gas-oil ratio was 460-1.

Location is 660 feet from north and 810 feet from west lines of section 1, AB&M survey. The new pay opener is one-quarter of a mile east of Sun and associates No. 1 Linthicum, flowing producer from the Strawn lime in the Pulliam field.

Sun, et al, No. 4 Linthicum drilled into the Strawn and tested that horizon. It failed to show for commercial production and was plugged back to complete from the Palo Pinto.

That zone had shown for production on drillstem tests which were taken while the exploration was being drilled down to explore the Strawn.

Field Producer In Gaines Is Completed

Robertson, Rhodes and Dean of Abilene, have completed their No. 1 Laura Elam as a new producer from the middle Permian lime in the Harris field of Central-South Gaines County.

The well pumped 24 hours and made a potential test of 120.82 barrels of 31-gravity oil. Gas-oil ratio was 120-1. No water was present.

Top of the pay is 5,927 feet and total depth is 5,961 feet. Five and one-half inch oil string is cemented at 5,927 feet. Pay section was treated with 5,000 gallons of acid.

Location for this new producer is 660 feet from south and east lines of section 15, block A-22, psl survey.

OURS IS PRESCRIPTIONS!

● In the preparation of foods, accuracy in the weighing and measuring of ingredients is an important factor. In our profession, accuracy is an even more important consideration. Health, and even life itself may depend upon precision. That is why we employ only skilled Registered Pharmacists, and double-check each compounding step to avoid the possibility of error.

Bring us your doctor's prescriptions, secure in the knowledge that our ample stocks assure prompt and proper compounding. Rapid turnover means fresh, potent ingredients in each instance. And you'll find that our prices are fair.

Many Events Planned To Mark Future Homemakers Week

Too many cooks may spoil the soup, but there haven't been too many Future Homemakers of America in Snyder High School this year for the projects they have undertaken:

The club has 200 members, 11 more than the 189 girls who are enrolled for home economics classes. Membership is open to students of any classification who are studying home economics or who have an interest in the work the club does. Miss Vera Periman and Mrs. Joel Hodges, home economics instructors, are co-sponsors of the organization.

TO RAISE MONEY

The projects the club has undertaken this year have been designed to raise money for the use of the home economics department, and both Miss Periman and Mrs. Hodges are enthusiastic about the work club members have done.

The home economics department occupies three rooms on the second floor of the main high school building. The large equipment, including kitchen ranges, sewing machines and furniture, was furnished by the school.

However, there were many smaller items of equipment which could not be purchased with school funds and the club set out to earn the money for these needed extras.

Th first project of the club was a "Hobo Day," when club members went out and "bummed" jobs from merchants and business men. They made $133 from this work, all donated to the club treasury.

OTHER PROJECTS

During the football season they have sold football tags, corsages and streamers, and have sold candy on the school grounds during the lunch hour. They plan to sell Christmas cards soon.

With the money, the club has purchased many small things, ranging from a coffee pot to an iron cord. Their largest purchase is an opaque projector which can be used for illustrations in class work. The projector differs from a slide projector in that it does not need specially prepared slides, but can project any type illustration in full color. Magazine pictures frequently are used, as well as pictures in text books or reference books. The projector isn't paid for yet, but it is hoped that it will be soon.

A committee composed of Mrs M. H. Roe, Mrs. Lee Stinson and Mrs. Billy Boren is working with the faculty sponsors and club officers in selecting furniture for the department, which was moved into its present location at the start of this school year.

F.H.A. WEEK

Today, the first day of Future Homemakers of America week each club member is to attend the church of her choice. Each member is to present her mother with a red rose, the club flower.

Tomorrow each club member will receive a badge of red and white ribbon which she is to wear throughout the week. Tuesday the home economics students will work on a clean-up project at the school. Each of the eight sections has been assigned a project for that day.

Wednesday will be observed as Good Will day. Garments will be brought to the school, later to be given to a missionary working in Brazil.

Club officers will be installed and freshmen members initiated at a special program planned for Thursday afternoon. Wanda Jean Rainwater, club president last year will serve as installing officer. A sack lunch will precede the installation and initiation.

Final observance of the week will be Friday, when the club will present a special assembly program. A United Nations flag, made by a club committee headed by Betty Young, will be given to the school. The purposes and general aims of the club will be described to the student body.

OFFICER

Officers of the club this year include the following: Corena Burk, president; Billie Alford, vice-president; Gwen Swan, treasurer; Louise Cook, song leader; Pauline Yandell, pianist; Darlene Nixon, parliamentarian; Rylene Bishop, reporter; and Charlene Stewart, recreation chairman.

These club officers and Shirley Ann Teague, home economics class president, attended the area No. 2 convention in Olney recently to learn more about the work of the organization and of the distinguishing degrees which are awarded for club achievement.

The motto of the Future Homemakers of America is "Toward New Horizons," and Snyder members are proving their ability to work toward new goals for themselves and for the benefit of the entire department.

Dishwashing can be pleasant work for those who take pride in house work, these students are taught. Future Homemakers are trained to do all the duties of good housekeepers.

For more pleasant dining, Future Homemakers of America learn the art of table decoration. This centerpiece of chrysanthemums is arranged by Jackie Gibbs.

Turning out a fine seam are these Future Homemakers of America, who learn to sew by sewing. Here they are working on a class project in the laboratory of the high school home economics department. Mrs. Joel Hodges is instructor for all sewing classes.

Newcomers' Bridge Club Holds Meeting

The Newcomers' Bridge Club was entertained by Mrs. Lyle Galbraith and Mrs. Ollie Bruton at the Village Restaurant Thursday afternoon.

The hostesses placed individual corsages at each place. Yellow chrysanthemums decorated the room.

High score prize went to Mrs. W. P. Thurmon; low score to Mrs. V. M. Weckter; traveling prize to Mrs. William Banks; and Bingo prize to Mrs. E. H. Mulhbach.

Mrs. Galbraith and Mrs. Bruton served hot gingerbread with orange sauce and coffee to the following: Mrs. Bob Bickerstaff, Mrs. L. A. Tibbetts, and Mrs. G. Westbrook, guests, and to Mrs. Charles McIver, Mrs. Myron Hubbard, Mrs. D. S. Bodie, Mrs. V. V. McGrew, Mrs. J. E. Bucy, Mrs Hunter Pendleton, Mrs. W. P. Bass, Mrs. Robert Guthrie, Mrs. Weckter, Mrs. Banks, Mrs. Thurmon, and Mrs. Mulhbach, members.

The fashion of wearing cravats was brought to a sudden end by the French Revolution from 1789-1799. Wearing of a cravat was sufficient to make one suspected of being an aristocrat.

Colorado River Dam in Scurry Would Back Up 12 Mile Lake

By JOE PICKLE
Editor, Big Spring Herald

Reports on more than four and a half years of study of the proposed Colorado River Municipal Water District project would fill a small library.

Yet it is possible to sift out of this necessary wealth of information some salient facts vital to the project. These have stood the test of cross-checking, re-examination and of time.

Some of the findings show: A dam 96 feet high and around 13,000 feet long across the Colorado River, some 25 miles northeast of Big Spring, would create a reservoir with 200,000 acre feet (or 65 billion gallons) capacity. The lake, when full, would cover 8,000 surface acres or 12½ square miles. It would be three miles at the widest point; would average one and a quarter miles in width; would be about 10 miles long.

DIVERSION AIDS

More important than these details is the estimated yield of 26 to 30 million gallons per day (range of findings for four different engineering groups) with Bull Creek diverted into the reservoir. Prior to this diversion, the lake would yield 15 to 18 million gallons per day even in longest known periods of drouth.

What kind of water would it be? The U. S. Public Health Service standard for chlorides is 250 parts per million (maximum). Two years of testing on the present proposed site have shown that the chlorides in the lake would be only 40 to 60 ppm even after concentration by evaporation.

Other elements of hardness probably will vary from 150 to 220 ppm, about the same as found in most West Texas reservoirs.

As a supplemental supply, an immediate source for the constituent cities of Big Spring and Odessa would be ground water from Martin County. A safe yield of 8½ million gallons per day is foreseen for the first five years, and seven million per day for the next five. Chlorides in this water test 91, sulfates 84, both well below public health service standards.

Robert Piner of Big Spring, president of the Colorado River Municipal Water District's board of directors, said recently that it probably would not be feasible to include Snyder in the Martin County wells project, which represents only a small fraction of the total cost.

25-MILLION CAPACITY

Initial pipelines would have capacities sufficient to supply an average of 15 million gallons per day to the two cities. System peaking capacity will approximate 25 million, although the reserve is probably twice that. Cost of project, to be borne by revenue bonds, would be $9,975,000.

At the district's invitation, the bureau of reclamation made a survey and proposal. Its offers centered around a dam on the Colorado well downstream at Robert Lee, and it presupposed Big Spring, Midland, Odessa and possibly Snyder as customers. There were no fundamental differences on yield estimates, but the bureau considered the upper Colorado site only for use in connection with Snyder.

Most of the district's comparative study, however, showed cost to Big Spring—via either route—about the same. Had Odessa been left alone on the western leg, there would have been a $15 million difference.

TIME BIG FACTOR

Equally compelling to directors in turning their backs on the bureau proposals were other factors. Time was a burning one. Hope of bureau help lay first in congressional authorization and then in congressional appropriation. Neither could be guaranteed.

Had everything gone at maximum speed and without hitch, the bureau held out no hope of water in less than five years. Frank Kelley, Colorado City, visiting at one of the board meetings, observed that "time never weighed more heavily in West Texas than today." Directors thought the same thing.

With economy and time, board members also placed the assurance that the district would own and operate its own project—that it would belong to the district after it paid out. The bureau could never give that promise. Too, the difference between bureau interest and that of private sources was negligible if at all.

BETTER PROPOSITION

All things considered, the water district directorate concluded that it could make a better proposition to the cities than could the bureau.

This it did in the form of proposed contracts—which set forth terms of purchase of water from the district. If voters of Big Spring and Odessa approve the contracts on Nov. 16, the district plans to move rapidly to make its project and abundant water a reality.

Governor Of Florida Pays 21-Year-Old Debt

LEBANON, Tenn., Nov. 11. (AP)—Gov. Fuller Warren of Florida stopped by a barber shop here Friday and asked for Sam Coplin.

"Sam's no longer here," was the reply.

The governor handed barber Obie Davenport $2.10.

"Give this to Sam," he said.

He explained that when he graduated from Cumberland University Law School in 1929, he had a bill at Coplin's Barber Shop amounting to $2.10, but didn't have the money.

Time slipped by.

Then Friday the governor took time off from alumni activities at his alma mater to drop by the old barber shop and pay the 21-year-old debt. Davenport, the present owner, took the money and said he will pay it on to Coplin when he can find him.

Unwelcome Boarder Can Get Plenty Sleep Now

CHICAGO, Nov. 11. (AP) — Fred J. Miller testified Friday he came home Thursday night to find a stranger sleeping on the couch.

He called police who awakened Paul Bernard Hoppe, 28, and found he had:

Broken into the house, taken a shower and used Miller's hair oil and shaving cream.

Put on underwear and a shirt belonging to Miller's son, and donned Miller's best necktie and shoes.

Fixed himself a sandwich, drank a can of beer and ate some bananas and cream and a piece of Mrs. Miller's fruit cake.

Taken $7.38 from her penny jar.

Hoppe pleaded guilty to petty larceny, and told the felony court he had been awfully hungry and sleepy.

Sentencing him to a one year jail term, Judge John Gutknecht commented:

"You may not find the food as good, but you'll have plenty of time to nap."

The National Geographic Society says storms probably sank more Spanish treasure ships than did freebooters.

50 Years Ago

Taken from the files of "The Coming West," Thursday, Nov. 8, 1900.

* * *

Ennis Etchings: Our little school is progressing nicely; hope to see all pupils come in when work is over.

A crowd of Ennis young people, also young people from Snyder, Misses Fay Dawson, Lena King, and Messers W. M. Dawson, Ed Baze, enjoyed a very pleasant evening at the residence of Mr. Sam Casstevens on Ennis Creek recently.

* * *

"Election" has been about all one could hear the past week but when the "agony" is over THE COMING WEST will still be found giving all the news procurable.

"Laying on of Hands" is a sure cure for all ills the advocates of a curfew law complains against. The left hand should hold the "kid" firmly, but kindly, while the right hand wields a good stout sprout with vigor and a firm determination to hit the right spot. Parents with children difficult to manage will find this a panacea — (from the Johnson County Review.)

* * *

J. I. Baze is laid up, with a fractured wrist, a stick of wood falling on his arm Monday while hauling for Strayhorn Bros. gin.

* * *

If that gentleman who is thinking of putting on an automobile between here and Colorado wants to make a good profit on his investment he'd better hurry.

To Deepen Old Ector County Producing Well

Gulf Oil Corp. has filed application with the Railroad to deepen an old producer in the Harper-San Andres field of Southwest Ector County to the Clear Fork at approximately 5,700 feet.

It is No. 1 J. E. Parker, et al and is located 330 feet from north and west lines of east half of section 21, block 44, T-2-S, T&P survey and seven and one-half miles north of Judkins. It has been producing from pay above 4,300 feet.

This wildcat is three miles from the nearest Clear Fork production.

Rotary tools will be used to deepen to 5,700 feet, beginning at once.

Glasscock Wildcat In Unidentified Formation

R. R. Herrell No. 1 Marshall Cook, wildcat in Central Glasscock County, took a drillstem test in an unidentified formation from 9,371 feet to 9,800 feet.

A 1,000-foot water blanket was used. Tool was open 10 minutes and then the packer failed. Recovery was 810 feet of drilling mud.

Operator is now drilling ahead below 9,800 feet.

The No. 1 Cook is 660 feet from north and east lines of section 5, block 34, T-4-S, T&P survey. Drillsite is four miles west of Garden City.

Scheduled destination of the wildcat is 11,000 feet, which is sufficient to test the Ellenburger.

Who's New

Among the most recent newcomers to Snyder are Mr. and Mrs. H. A. Fisher and children, Brenda Kay Fisher and Carlton Fisher, now making their home at 134 Melburn Avenue.

Mr. and Mrs. Fisher are former residents of Colorado City, and moved here about two weeks ago. Mrs. Fisher had lived in Colorado City all her life, but Mr. Fisher is a native of Pennsylvania. Like many other new residents, they had trouble finding a place to live. However, with the housing problem finally settled, Mrs. Fisher says she thinks they will enjoy living here.

Mr. Fisher is a radio activity engineer for Lane Wells.

* * *

Mr. and Mrs. D. C. Looney, 3212½ Avenue K, are former residents of Big Spring. They have two children, Dennie Looney, Jr., 13, and Richard Looney, one month old.

Mr. Looney came here in September to serve as manager of the R. D. Batjer Insurance Co. Mrs. Looney remained in Big Spring until last week end.

Mrs. Looney said she hasn't had time to form an impression of Snyder yet, and that she would like a little more time to get acquainted before expressing any opinions.

* * *

Mr. and Mrs. K. R. Preston and children, Beverly Ann Preston, 7, and Phyllis Kay Preston, 2, are now living at 1705 Eighteenth Street.

They are former residents of Breckenridge. Mr. Preston is employed by the Standard of Texas.

* * *

M. and Mrs. J. W. Brown and family, 1601 Avenue N, are former residents of Denver City. He is employed by the National Construction Co. here.

Mr. and Mrs. Brown have six children, Shirley Ann Brown, 11, Donald Brown, 9, Peggy Sue Brown, 7, Nancy Kay Brown, 5, Dorothy Jean Brown, 3, and Helen Brown 1.

* * *

Former residents of Houston, Mr. and Mrs. C. J. Grevemberg and family now live at 3212 Avenue K. They have two daughters, Gloria Ann Grevemberg, 15, Shirley Grevemberg, 6 and a son Calvin Grevemberg, 4.

Mr. Grevemberg is an inspector for the Cameron Iron Works Co. here.

* * *

Mr. and Mrs. M. D. Rogers have recently moved here from Lake Charles, La. Mr. Rogers is employed by the Baker Tool Co. as a service engineer.

Wildcat Scheduled In West Crockett County

Cities Service Oil Co. and associates' No. 1-D Owens is to be a 6,050-foot wildcat in Central West Crockett County, seven miles north east of Sheffield.

It will be 1,983.2 feet from north and 1,980 feet from east lines of section 17, block GG, GC&SF survey. That makes it one mile west of the Clara Couch-San Andres field.

Drilling is to be started immediately.

Woman's Calendar

TUESDAY

Junior high school, P.-T.A. at 3:30 at the school.

WEDNESDAY

Altrurian Daughters with Mrs. J. B. Turner, 3102 Avenue W.

THURSDAY

Eastern Star at 8 p.m. in the Masonic Lodge.

FRIDAY

Newcomers' Club luncheon and style show, 1 at the Country Club.

Wine and Women Eat Up Youth's 'Earnings'

JONESBORO, Ark., Nov. 11. (AP) —An 18-year-old youth kept police busy today checking 102 robberies which, he estimated, brought him $10,000 in two years.

Deputy Prosecutor Bill Penix said the youth, picked up for questioning about a car theft, freely admitted 102 safe-cracking and run of the mill robberies in nine states.

The teen-ager said his "jobs" were done in Missouri, Tennessee, Mississippi, Louisiana, Texas, Arizona, California, Michigan, and his native Arkansas.

Now, Harry Lee Flamkin told officers, he's broke. It was the same old story of wine, women, and song, only Flamkin put it like this:

"Clothes, girls, whisky — anything."

His hearing on charges of breaking and entering and grand larceny is set for Monday.

Load on Water Well System Is Heavier as Service Expands

Now that a petition is circulating asking the Colorado River Municipal Water District to call an election on whether Snyder will join the disrtict, Snyder residents are wondering what their present water situation is.

Information is not complete, and some of the figures below are estimates.

Almost 30 million gallons of water were used by the city during the month of October, taken through meters by the residents and businesses of Snyder. This consumption was registered on the 2,397 meters in the city in addition to the water used by the fire department and other city departments.

TOTAL OUTPUT

The 24 city wells, all pumping, produce a capacity of 2,600 gallons a minute, 156,000 an hour, 3,744,000 gallons a day, and 102,320,000 a month. These wells can only produce that amount if pumping fulltime.

During the month of October as in other fall and winter months demand is low and only eight to ten wells are used and all but three are turned off during the night.

During the summer, however, all wells in condition are used, and the supply ran low last summer in spite of constant pumping.

The supply of water is adequate but a large number of meters are being installed every month. Some residential districts have not yet had meters installed, such as the Towle Place addition, which has 100 houses planned for its first group.

Apartments are still being built such as the 18 four-unit buildings being erected by the Waymar-Snyder Corp. near the Parkway addition.

There are more than twice as many meters now as there were early in 1949. With meter installation increasing, it seems probable that before too long demand will outrun supply.

RESERVOIR SPACE

Before the 300,000-gallon water reservoir was completed near the high school football practice field in 1946, the city only had 250,000 gallons of storage space in overhead and ground storage. This year they added a 500,000-gallon ground reservoir and two 100,000 overhead storage tanks to bring the total space to 1,250,000 gallons of storage, less than is used on one hot summer day.

The cost of drilling a well varies greatly, depending on the size and depth of the hole and possible flow of water. The last well drilled, No. 24, was a 15½-inch hole, 250 feet deep, and when completed was capable of pumping 100 gallons a minute. Cost of its drilling, casing shooting, well house, and pump totaled $4,276.

Electricity used to power the well pumps brought a bill of more than $700 to the city for the month of October, and runs much higher during the summer months.

CHARGE SCHEDULE

Water is piped to the residenf through the meter for a minimum charge of $1.50 for the first 3,000 gallons and 25 cents for every 1,000 gallons in excess.

No estimate has been made of how long the underground water supply will last.

Neither is anyone prepared to guess how great the demand eventually will be.

By months, the following list will indicate the number of water connections made since the boom.

Revival to Start At Assembly of God

The Assembly of God, 1809 Avenue S, will begin a revival meeting Sunday night with the Rev. E. L. Stone, of Bristow, Okla., as evangelist.

Services will begin at 7:15 each night throughout the two-weeks meeting, the Rev. Robert Owens pastor, said.

Mr. Stone will be accompanied by his wife and sister, who will be in charge of the music. Mr. Stone will leave the first of the year for Mexico, where he will be a missionary.

The Indian sun symbol is the central device on New Mexico's State Flag.

Scurry Range Reported In Good Condition

Scurry County range land is in good shape for the winter with sufficient grass to carry the livestock with only a minimum of additional feeding, Wyatt Lipscomb, range conservationist with the Soil Conservation Service here, said.

None of the range land should be depended on entirely for winter feed, he says, because over-grazing would take away all the soil-saving cover that saves the soil during rainy seasons.

Unusually heavy rainfall this summer, even though it has been dry for several weeks, has enabled the grass to make a good root system that will help to hold the soil in case of heavy winter rains, if all the grass is not grazed off.

The two most important times to "rest" range land are in the spring when the grass is making its root system, and the late fall when it is seeding, he explained.

A good root system developed in the spring will help keep the grazing good all through dry summers, and to permit the grass a few weeks in which to seed in the fall insures a good stand of range grass the next spring, he said.

A survey of range conservation in Scurry County will be started by Lipscomb next week to determine the extent and effectiveness of the program being carried out in the county.

Possible Production Near Sterling City

Humble No. 1-B Foster, South-Central Sterling County wildcat, six miles southwest of Sterling City and 2,050 feet from west and 1,965 feet from south lines of section 16 block T, T&P survey, has indicated possibilities of making some sort of a discovery from a Permian lime section at 3,960-4,025 feet.

The project is swabbing at the rate of four barrels of oil per hour at last report and was continuing to swab. No formation water was reported.

The section had been treated with 100 gallons of Marflo.

This wildcat drilled to 8,680 feet in the Ellenburger and made salty, sulphur water in that formation.

The project has been plugged back gradually and all zones which logged any shows of oil or gas has been tested. The section at 3,960-4,025 feet is the first to develop any free oil in what could be called commercial amounts.

Operator likely will continue swabbing long enough to evaluate the oil show and if it holds up probably will install a pump and put on production.

Bulletin on Native Grasses Is Available

"Know Your Grasses," a new bulletin important to every man interested in grasses will be available at the office of Oscar Fowler, county agent, this week.

The bulletin is the first of its kind the state has put out.

Information on all grasses native to Texas ranges is covered in the booklet.

"Grass is our basic heritage, but is Texas' greatest and most neglected resource," the pamphlet states. The most important native and introduced grasses of Texas are illustrated and explained in the volume.

Fourteen Spanish ships bearing some $65,000,000 in gold and silver sank in a storm off Long Cay, Fla., in 1715.
