WIDE HUNT IS STAGED FOR TWO MEN

MRS. IDA HUNSUCKER CHARGED IN DEATH OF RHOME DEPUTY

(By The Associated Press)

DALLAS, Jan. 31. — A woman held in the Dallas county jail today named her son as the slayer of Joe Brown, Wise county deputy sheriff, at Rhome last Friday but declined to give rangers and sheriffs additional information.

Mrs. Ida Hunsucker, 38, charged with murder at Decatur, was brought here yesterday for questioning. She was closeted with Bert Whisnand, ranger sergeant, and Smoot Schmid, Dallas county sheriff, for several hours. Brown was killed after he had arrested Mrs. Hunsucker, Glen Hunsucker, Doyle Meeks and another man to question them regarding theft of an oil drum.

Others Charged

Complaints charging them with being accessories to the killing were filed against E. C. Hawthorne, of Memphis, Texas, and Faye Pennington, 16, of Dallas, who were with Mrs. Hunsucker when she was caught near Childress Sunday. Officers planned to bring the Pennington girl to Dallas.

Although officers combed North Texas for the two men, they were unable to locate their hideout yesterday. It was believed the fugitives [illegible] somewhere in the wooded section of Denton county, possibly near Lake Dallas.

After the shooting Mrs. Hunsucker and the two men fled in a car, while Meeks surrendered to Rhome officers. He, too, is held in jail here but denies having any part in the killing.

Aid For Farmer Is Being Rushed

METEORS REVEAL LIVING BACTERIA

BERKELEY, Cal., Jan. 31 (AP)—A possible clue to two of science's oldest riddles—how did life originate and does it exist outside the earth?—was seen today in the report of Dean Charles B. Lipman, University of California plant physiologist, that he had found living bacteria in meteors.

Professor Lipman said he found microscopic forms of life in the interior substance of aerolites after taking every possible precaution to make certain any life he found came from the outer reaches of space and not from the earth.

His latest discovery is a more startling corrollary to his report last year of finding bacteria which had apparently lived for millions of years in coal and petroleum buried deep within the earth.

LEGISLATIVE BODIES AND BIG BUSINESS COME TO RESCUE

(By The Associated Press)

DES MOINES, Jan. 31—The dirt farmer sat on his mortgage plastered throne today as big business and legislative bodies in seven states and the District of Columbia rushed to his rescue.

A series of events moved swiftly yesterday to turn the spotlight on the farmer. What the farmers may expect in the way of assistance lies in these developments:

1—The New York Life Insurance company, through its president, Thomas A. Buckner, led insurers in proclaiming a private moratorium on farm foreclosures.

Others To Comply

2—The Aetna, Connecticut Mutual, Phoenix Mutual and Connecticut General Life Insurance companies telegraphed Gov. Clyde Herring of Iowa that they will comply with his proclaimed request to hold up farm foreclosures.

3—A census led to the belief that the same action may be taken by other companies.

4—The Iowa senate committee on emergency legislation approved a proposal to form a statewide organization to assist both mortgagor and mortgagee. Fifteen senators were assigned extra duty last night to help in drafting a bill which should be ready for consideration today.

5—A South Dakota newspaperman—W. R. Ronald of Mitchell—attempted to override the institute of American meat packers in a hearing on the domestic allotment bill at Washington in defending the price fixing measure. He differed with the views held by the meat packers that the bill would be harmful.

SIX HOUR DAY BILL GIVEN APPROVAL

LABOR COMMITTEE OF HOUSE VOTES FOR FIVE DAY WEEK

(By The Associated Press)

WASHINGTON, Jan. 31.—The house labor committee today approved the Connery five day week six hour day bill.

Chairman Connery said he would confer with Speaker Garner and other leaders to see about putting the bill before the house for a vote.

Penalty Designated

Under the measure, any person who knowingly transported commodities or articles produced by workmen working more than six hours a day and five days a week in interstate or foreign commerce would be subject to fine of $1,000 or more than three months imprisonment or both.

At the senate side of the capitol, committee study of such legislation is going ahead with sponsors aiming to get quick action there also. Testimony today related again to "interlocking directorates" in industry, with John P. Frey—labor official—saying that Morgan banking interests and the Chase National bank in New York virtually "dominate" industry and labor by means of such directorates.

BLIZZARD DEATHS MOUNT TO ELEVEN

SAN FRANCISCO, Jan. 31 (AP)—The toll of lives in the blizzard-swept far west stood at 11 today as winter continued to threaten efforts to rescue hundreds of persons marooned in mountain regions.

In northern California two deaths were added to the number of known victims since the series of storms started 18 days ago. Another wanderer perished in Nevada.

The most extensive struggle was in the San Bernardino mountains, 75 miles east of Los Angeles, where hundreds of motorists who had gone to Lake Arrowhead to enjoy winter sports were trapped by a blizzard. Those directing the battle against the white drifts said most of the trapped persons, who had numbered about 2,000, were being moved out over roads cleared by snow plows.

The warrant was issued for A. J. Kelly, alias Harry W. Sheets, in connection with an alleged embezzlement from a building and loan company at Bellaire, Ohio. Kelly said he "could not understand the use of the name Sheets" in the warrant. He admitted that he came from Clarksburg, and told Sheriff Bill Adams that he would fight extradition.

DEATH CLAIMS GALSWORTHY

BRITISH NOVELIST AND DRAMATIST DIES AT LONDON TODAY

(By The Associated Press)

LONDON, Jan. 31.—John Galsworthy, British novelist and dramatist, and 1932 Nobel prize winner, died today. He was 65 years old.

The famous writer had been suffering from anemia and was in a grave condition for the past week. The illness developed from a severe cold contracted last month.

Prevented Award

This prevented him from going to Stockholm to receive the Nobel prize award December 10. His certificate was received from King Gustaf by the British minister to Sweden, Archibald J. C. Kerr.

Galsworthy was a hard worker and the strain of his incessant literary labors was considered a principal contributory cause to his breakdown. He never dictated, writing everything by hand. He corrected his work severely, sometimes rewriting whole pages.

By coincidence, the announcement that Galsworthy had won the 1932 Nobel prize for literature, last November 11, came almost on the day of the publication of his last novel, "Flowering Wilderness," a study of the English upper classes.

Most of his writings were concerned with the life of the British aristocracy.

In all, Galsworthy wrote 50 or more short stories and 25 plays, in addition to his novels.

Plume Of Wild Oil Sprays Wide Area

OKLAHOMA CITY, Jan. 31 (AP)—While a brisk south wind blew a plume of wild oil over a wide area, crews went to work at dawn today in an effort to check the flow of the Phillips No. 1 D well.

Fires were ordered put out in the territory sprayed by the 15,000-barrel oiler. The well is surrounded by other producers, and firemen said no homes were in immediate danger. The nearby Canadian river was thickly coated with the oil.

BIG MAJORITY GIVEN BILL BY SOLONS

EXTENSION OF LIMIT TO LICENSE CARS IS APPROVED

(By The Associated Press)

AUSTIN, Jan. 31.—Texas' four-year-old "gin marriage" law, enacted to prevent hasty marriages, would be repealed if a bill passed today by the house of representatives were passed by the senate and signed by the governor.

The house rolled up a strong majority in favor of the repeal. The vote was 93 to 36.

Law Termed Failure

Sponsors of the repeal bill asserted the law had utterly failed in its purpose of preventing hasty marriages and that its only result had been to force Texas couples desiring to marry to go to other states where they were married without difficulty.

The bill also would repeal the provision requiring the physical examination of males intending to marry.

The house passed a bill in almost record time. The proposed act to abolish the farm census was introduced yesterday by Representative Lon A. Alsup of Carthage. It was voted out late yesterday by the agriculture committee and brought up today by suspending "all the rules in the book."

Takes Eight Minutes

It took the house exactly eight minutes to suspend the rules and pass the bill by a vote of 117 to 2.

A motion by Representative W. E. Pope of Corpus Christi to print on minority report a bill to reduce the Texas ranger force to a headquarters company of six men was lost when the house refused to suspend the rules to permit him to present the proposal. The motion will be made tomorrow in regular order.

Would Extend Time

The committee on highways and motor traffic of the house today voted a unanimous favorable report to a bill to extend the time for payment of motor vehicle registration fees until March 1.

ROOSEVELT TURNS TO YOUNGER DEMO FOLD FOR HIS CABINET SELECTIONS

(By The Associated Press)

WARM SPRINGS, Ga., Jan. 31—With a nucleus of veterans for his cabinet, President-elect Roosevelt is going into the younger Democratic fold for the rest of the official family. Some surprises are in prospect.

Fresh doubt over the complete make-up of the cabinet was cast by Mr. Roosevelt himself when he publicly told the Democratic leaders here last night, "I regard the cabinet as peculiarly my own official family to be named only by me."

Nevertheless, James A. Farley, national chairman; Louis M. Howe, political secretary, and Frank Walker, national treasurer, are talking over some of the thousands of federal appointments to be made. To be guided more surely, they would like to know who the president-elect has in mind for the choice cabinet offices.

It is the concensus that three and possibly four places are definitely settled: Senator Glass of Virginia, for secretary of the treasury; Senator Walsh of Montana, for attorney general; and James A. Farley, of New York, for postmaster general.

Some of the group add "it is all fixed" for Miss Frances Perkins, New York state commissioner of labor, to have the labor department post. If so, she will be the first woman ever to be in the cabinet of the president of the United States.

AMARILLO MAN FACES MURDER CHARGES AFTER CONFESSION BY ALLEGED ACCOMPLICE

SLAYING OF LOCAL GROCERY EMPLOYE THOUGHT SOLVED WITH ARREST OF PAUL MITCHELL, 24, AT KINGSVILLE; WILL BE RETURNED HERE

Solution of the killing here last October of Robert Tharp, 25, in an attempted holdup, seemed near this morning with filing of a murder charge against Paul Mitchell, 24, of Amarillo, in Justice of the Peace J. S. Connell's court.

Sheriff Tom Abel said Mitchell was arrested Monday in Kingsville, Kleberg county, by Chief of Police J. S. Scarbough, as a result of information from the sheriff's department here. A man held in Amarillo as an accomplice in the slaying and in a successful armed robbery executed a few moments earlier made a signed statement last Thursday in Amarillo, naming Mitchell as the man who killed Tharp, who was assistant manager of an M-System grocery here.

Sheriff Tom Abel and Chief Deputy Cap Moore were to leave this morning for Kingsville to take Mitchell into custody. The sheriff said Mitchell also was wanted in Tulsa county, Okla., for attempt to murder, and had escaped from a Tulsa hospital, to which he was taken after a merchant wounded him.

Tharp Shot October 15

Tharp, who as a halfback at McMurry college of Abilene became known as the Gallopin' Ghost of Texas gridirons, was shot in the abdomen at 8:52 p. m., October 15. While on an operating table, he repeatedly asked why he was shot, declaring he had complied with the bandit's orders. Tharp died at 10:05 a. m., October 17. His fiancee attended the funeral.

A few moments before Tharp was shot, an M-System store at 1945 Nineteenth street was held up and robbed of more than $200 in cash and checks. Tharp, informed of the robbery by telephone, had completed caching most of the Saturday's receipts in the back of the store of which he was assistant manager when a gunman and another man entered. The second man left before the shooting occurred. Only a handful of silver was obtained in the holdup in which Tharp was wounded.

Descriptions Tally

Descriptions of the man who held up the Nineteenth street store and of the gunman who felled Tharp were identical, investigators said.

Seven days later a caddy found six checks and more than a dozen purchase-total slips from the Nineteenth street store beside highway No. 9 a few feet from the Country club entrance.

H. C. ("Buddy") Blanton, 21, of Amarillo, arrested there October 23 as a suspect in the Tharp slaying, was released from Lubbock county jail October 31, after District Attorney Durwood H. Bradey had conducted a court of inquiry at Amarillo to test Blanton's written alibi, was iconvinced Blanton was innocent, and the young man was nobilled by a grand jury here.

The sheriff's department here has the signed statement made by the man held in Amarillo, Sheriff Abel said he participated in procurement of the statement and in subsequent investigation leading to Mitchell's arrest in South Texas. Assistant District Attorney Burton S. Burks, after filing the complaint, signed by Sheriff Abel, against Mitchell, indicated the suspect in jail in Potter county would undergo additional questioning.

"Went To Jaurez"

The man making the statement said he, Mitchell, and a companion left Amarillo by automobile, October 10, and went to Juarez, by way of Clovis, Roswell, Las Cruces, and El Paso. They moved back and forth between El Paso and Juarez, made contacts which they expected to lead them into the liquor business, and his two companions subsequently lost all their money, except a $10 check one had, when a Mexican was arrested by Mexican police after the two Americans had paid him for counterfeit money he was to issue to them. Mitchell, who was with the Mexican, was allowed to go free. They were convinced the arrest was faked but were unable to do anything about it, according to the statement.

A liquor dealer cashed the check, and the trio, deciding to return to Amarillo, argued as to the route to be taken.

"Paul said he had an idea he could get some money in Lubbock," the statement continued. "He didn't say how."

Admits Robbery

Motoring through Van Horn, they went to Big Spring, where his two companions, the man said, held up and robbed a store of $7 or $8, October 14. He said Mitchell later told him about it. After passing the night in a camp cottage he be-

By J. SAM LEWIS
Journal Staff Writer

BROWNFIELD, Jan. 31.—Testimony in the case of Jodie Edwards, charged as the gunman in the robbery of the Seagraves First State bank last May 27, closed unexpectedly this morning at 11 o'clock in 106th district court. Four witnesses in rebuttal testimony were heard after defense rested temporarily.

Arguments were scheduled to begin at 1 o'clock this afternoon and the case was expected to go to the jury before 5 o'clock.

Her testimony closed the defense case, other witnesses having testified previously that the defendant was in Paducah on the day of the robbery.

Edwards' home is said to be near Paducah.

TWO ESCAPE IN GUN BATTLE

ONE HIGHWAYMAN IS THOUGHT WOUNDED BY OFFICERS

Although one of two highwaymen possibly was wounded in an exchange of gunfire with officers from whom they escaped last night, the sheriff's and police departments here early this afternoon reported they had no reports of any suspect receiving medical attention.

The men sought were believed to be responsible for a series of holdups on state highway No. 137 southwest of Lubbock. Three members of the sheriff's department early last night engaged in a gunfight with two suspects in a field about three miles southwest of here. Officers estimated at least 22 shots were fired.

Two Hijacked Sunday

The gunmen, who are believed to have preyed on at least 10 couples in the vicinity, hijacked V. S. Harrington, Idalou ginman, and a woman companion on No. 137 about 7:30 o'clock Sunday night. They took Harrington's watch, $3.05 in cash, and a .22 caliber rifle. Apparently they recognized their victim. At about 4 o'clock yesterday afternoon Harrington received a note at Idalou. The bandits told him, according to Sheriff Tom Abel, that they would return the watch if Harrington would meet them at 8 o'clock last night. He was ordered to bring $30. Officers planned a trap.

Trap Is Planned

Chief Deputy Sheriff Cap Moore, Deputy Baxter Honey, and J. C. Roberts, former constable here, went to the field shortly after 7 o'clock last night. At 8 o'clock, a member of the police force, who is about the size of Harrington, was to meet the bandit pair. The gunmen, however, arrived at about 7:30 o'clock.

"Stick 'em up," Deputy Moore commanded.

The highwaymen, about 40 yards away, instantly dropped to the ground behind a shock of feed and began firing a 30-30 rifle

Officers Return Fire

Moore and Honey, with 30-30 rifles, and Roberts with a sawed-off shotgun, answered the fire. The officers were concealed behind feed shocks. Moore and Honey each fired five shots and Roberts four. The officers said at least eight bullets were discharged by the bandits.

The bandits, under cover of the darkness, crawled away, and began running, one south and one north through the field.

CHIMNEY 'ICE' DISCOVERED

REFRIGERANT IS 109 BELOW ZERO; MADE FROM SMOKE GAS

NEW YORK, Jan. 31. (AP)—Chimney "ice," a solid sarbon dioxide refrigerant, 109 degrees below zero, made from gases going up in smoke, can be manufactured for a cent and a quarter a pound under a process reported to the American Chemical society today.

The method is described by Frank E. E. Germann, director of research and professor of chemistry of the University of Colorado. It was developed, he says, under direction of Professor Hamilton P. Cady of the University of Kansas on a semi-commercial scale. Dr. Germann was one of several university scientists participating.

Wide Use Predicted

Despite its chimney origin this snowy refrigerant, he says, is a "fine, odorless product." He predicts that small cities will use it widely. In its present stage it is specially applicable for natural gas burning communities.

But it can be made from "combustion of liquid or solid fuels" as well. In fact the American chimney is potentially the greatest source for this kind of "ice."

Hitherto most of the refrigerant has been made from natural gas sources containing not less than 17 per cent of carbon dioxide. Chimneys were barred because they exhale an average of only eight to 12 per cent carbon dioxide. The use of 75 million pounds of this refrigerant in the United States in 1931 prompted efforts to tap the flue gases.

Fumes Compressed

By the new process, Dr. Germann says, all except about one per cent of the carbon dioxide in a chimney is converted into refrigerant. The fumes are compressed at from 1700 to 3000 pound pressure per square inch in heat exchanging apparatus.

Then they are permitted to expand, and this cools them so rapidly that a snowstorm of white carbon dioxide crystals flames out of the gas. This snow aids in condensing all except one per cent of the remaining carbon dioxide into "ice."

New Antiseptic By Vicks Cuts Gargle Costs In Half

Local Druggists Also Offer Special Trial Size — a 25c Value for 10c — to Furnish Proof of Its Quality and Amazing Economy

NEW BAN ON HALITOSIS

Does All an Oral Antiseptic Can and Should Do—At Half the Usual Price of Other Quality Mouthwashes.

The makers of Vicks VapoRub have produced an antiseptic — Vicks Voratone Antiseptic—at half the usual price of other quality gargles and mouth-washes.

Of course, the only real proof of its economy—and quality—is actual use in your home. To furnish this proof, Vicks Chemists are supplying — below cost—to druggists everywhere, a special trial size. This trial size bottle contains 2½ ounces —a 25c value. The price is only 10c. The supply of these trial bottles is limited. There are only 5 million—for America's 26 million homes.

No extravagant claims are made for Vicks Antiseptic. It is simply the best antiseptic for its purpose that Vicks Chemists could produce —aided by the chemists, bacteriologists, and pharmacologists of their 16 allied organizations in America, England and Germany.

Mild Enough, Strong Enough

These chemists examined the whole field of oral antiseptics. Some they found were too weak. A few were too strong for regular use in the mouth. Most were very good. But all were much too expensive.

So they produced a balanced antiseptic—mild enough to be used daily without risk to delicate membranes; yet strong enough to do everything an oral antiseptic can and should do.

For All The Usual Uses

You can use Vicks Antiseptic in your customary way, for bad breath (halitosis); as a mouth-wash; as a gargle; as an antiseptic lotion for minor cuts and abrasions; and for all the other customary uses of an antiseptic of this type.

And Vicks Antiseptic has this additional unique advantage ... born in a depression year, it is priced accordingly. The regular size is a large 10-ounce bottle—a usual 75c value—for only 35c.—Adv.

HOGS WILL BE CURED TODAY

DEMONSTRATION HELD AT THE EXPERIMENT STATION HERE

Eight hogs butchered Monday afternoon were to be cut and prepared for curing today in demonstrations at the state experiment substation, Don L. Jones, superintendent, said last night. The second annual slaughter marked the close of a 90-day hog feeding experiment.

Fred Hale, chief of the swine husbandry department of the state experiment station, was in charge of the work, he having supervised the experiment. Mr. Hale handled the record of weights of the 40 hogs in the feeding demonstration.

Snyder Does Killing

Roy Snyder, swine specialist of the extension service, was in charge of the killing work. Mr. Snyder was assisted by several county agents and vocational agriculture teachers, including Agents O. G. Tumlinson, Lubbock; Grady I. Lane, Spur; Walter W. Evans, Plainview and R. N. McClain, assistant agent here; W. C. Taylor, Crosbyton; B. R. Taylor, Farwell; O. T. Williams, Floydada, and J. H. Taylor, Ralls, all vocational agriculture teachers.

Others present included: Sterling Evans, district agent leader; A. C. Magee, farm management survey; J. M. Hill, Jr., U. S. biological survey, and J. E. Boog-Scott, jr., biological survey; M. I. Davis and John Crawford, Lubbock county farmers; Cliff Day and Albert Sammons, Plainview; A. B. Ellis, John D. Mitchell, Mayor J. J. Clements and E. C. Abbott.

Students Watch Work

Dr. Fred Harbaugh of the school of agriculture, Texas Tech, had a group of 25 of his students during the day.

"Preliminary figures show we got 45 cents a hundred pounds for our milo and 34 cents a bushel for wheat," Mr. Hale said. "This of course, may be changed slightly. This has been a very successful experiment. We base these figures on two and a half cent hogs. If we get three cents for hogs, the profit will be more for the grain."

Whole and ground wheat and whole and ground milo was used for feed, with tankage, etc., in addition. The animals were kept in pens of 10 each, with a self feeder and water available all the time. Two pens were fed ground grain and two whole grain.

Part Of Whole Test

The feeding experiment is only a part of the whole test. Mr. Jones is seeking information on curing of hams, bacons and shoulders, and he will cure these meats as the second section of the experiment.

There were four Duroc-Jersey hogs, two Poland-China hogs and two Hampshire hogs. Weights of the eight were taken Saturday before the shrink and were as follows: Durocs, 237, 236, 208 and 219 pounds; Hampshires, 202 and 212 and Polands, 227 and 201 pounds.

After shrinking 24 hours the weights were respectively, 232, 233, 208, 213, 200, 210, 220 and 200. With the hair and blood out, seven hogs weighed 226, 227, 200, 207, 195, 204 and 198. One of the Poland hog's weight was not announced.

The Durocs weighed dressed, with head on: 190, 198, 171, 178 pounds; the Hampshires 167 and 176 pounds and the Poland, 173 pounds. Percentage of dressing out was as follows: 81.7, 84.7, 82.1, 83.5, 83.5, 83.7 and 84.5, an average of 83.4 pounds for the seven animals.

A beef and a sheep also were killed during the demonstration.

Minimum Education Essentials Sought

CLEVELAND, Jan. 31. (AP)—An attempt to find, through a national fact-finding committee, the "minimum essentials of education" may be made by the National Education association's department of superintendence.

The committee would collect data to show both the immediate and permanent effect of economic conditions on educational institutions.

The aims of the proposed fact-finding committee, which will be recommended to the department convention in Minneapolis Feb. 25, were outlined by S. D. Shankland, executive secretary, following a committee meeting at which the recommendation was determined upon.

LITTLE WORM WITH BIG NAME WHICH CAUSES DOGS TO DIE IS CONQUERED

BY ROBERT BUNNELLE

AUBURN, Ala., Jan. 31 (AP) — Science is conquering an advancing army of diro-filaria-immitis, a little worm with a big name, that hides in the bloodstream of dogs and causes death.

The invasion of the parasites, commonly known as heartworms, began to develop into epidemic form in the southern coastal states last spring probably, scientists say, as a result of immigration of a tropical mosquito during an unusually mild winter.

A dog lover, Dr. I. M. Hays, professor of small animal practice and therapeutics at the Alabama Polytechnic institute school of veterinary medicine, launched the counter attack when kennel after kennel, particularly those of sporting dogs, reported a new disease.

Meanwhile, the disease spread through Florida, Georgia, Texas, Oklahoma, Alabama, the Carolinas and even into the north and threatened to wipe out thousands of fine hunting dogs.

Using experimental patients, Dr. Hays finally developed a combination injection which, given in series, he says, now will destroy the parasites in one to four treatments over a period of from three to six days. The institute here says the cure has been perfected to a point where infected dogs can be rid of the heartworm without ill effect unless the cases are too far advanced.

The new disease, Dr. Hays explained, is caused by a threadlike worm which lives unattached in the cavities of the heart and large blood vessels. Adult worms attain a length of as much as 16 inches and give birth to living young which travel freely through the whole circulation.

Accident Toll To Reveal A Decrease

CHICAGO, Jan. 31. (AP)—The 1932 accident total for the United States will show a decrease from 97,415 in 1931 to about 88,000 the National Safety council estimates. The new accident death rate figure will approximate 70.5 per 100,000 the lowest since 1922.

The accident totals for both years, 1932 estimated on the basis of complete returns from more than half the country, will be: motor vehicle, 29,500 for 1932, as compared with 33,740 for 1931; other public accidents, 18,000 and 20,000; home accidents, 28,000 and 29,000; industrial accidents 15,000 and 17,500.

Suffering is part of the divine idea.—Henry Ward Beecher.

Tin Pan Alley

The death in Honolulu recently of Albert R. Cunha, aged 53, calls to mind the odd way in which our popular songs get written.

Cunha 25 years ago was a Yale student, a tackle on the football team. He liked to write songs, even then, and after leaving college he started the craze for Hawaiian songs which swept the country half a generation ago. It was Cunha who wrote "On the Beach at Waikiki," and if your memory goes back 15 or 20 years you don't need to be told of the wave of Hawaiian songs that followed in its train.

To be sure, Cunha actually went to Hawaii—and thereby got a lot closer to the subject of his songs than the ordinary song writer gets. Tin Pan Alley is full of men who write passionately about their mammy in Alabama, their tumble-down home in the west and their old plantation in Tennessee, Kentucky or Mississippi—when they themselves have never been south of Brooklyn or west of the Hudson river.

Congress seems to be in a stew over prohibition. We were afraid of that when the Senate committee added wine to the House beer bill, disregarding the old injunction about mixing drinks.

The new autos give women protection from purse snatchers and running board jumpers. But all the genius in the industry can't keep her from running out of gas in the good old-fashioned way.

Scientists report that man's jawbones and teeth are deteriorating from the use of soft foods. Just the same it's hard to regard the cook who leaves sand in the spinach as humanity's best friend.

THE ways of the lawyer are devious indeed, but you've got to admire his spunk. He can argue, until he's black in the face, that his client is innocent when everybody within a thousand mile radius knows he's guilty as Hades; and after 12 good men and true vote to put the client where he won't catch cold, the lawyer can think up more ways of getting him loose again than a farmer can whip a recalcitrant mule.

Doctors and editors are made through long hours of study or by lots of brass but lawyers are born.

They have to be born because they can't get themselves that way merely through practice!

Around the RADIO Clock

BY C. E. BUTTERFIELD

(Time Is Central Standard)

NEW YORK, Jan. 31 (AP)—After only three weeks' trial it apparently has been decided that at least for the time being comedy doesn't fit into the daily WABC-CBS 8 p. m. program.

So, effective immediately the Tuesday and Friday periods in which Tom Howard and George Shelton disported themselves are being changed into a symphonic jazz presentation. For this purpose Leonard Hayton's orchestra is augmented to concert size.

Betty Barthell who supplied the singing interlude in the Howard-Shelton setup also is eliminated from the schedule. The other programs in this group, including Ruth Etting and Bing Crosby, will continue.

Try These Tonight:

WEAF-NBC: 7—Irvin S. Cobb with Sanderson and Crumit; 8—Ben Bernie; 8:30—Ed Wynn; 10—Four Sharps, negro quartet.

WABC-CBS: 7—Easy Aces; 7:45—Abe Lyman orchestra; 8:30—California melodies; 9—Kathryn Meisle, contralto.

WJZ-NBC: 6:15—Radio in Education; 8:30—Deep River orchestra; 11:15—Sodero concert; 11:30—Dancing in Milwaukee.

"Buy American" Fans Due For Big Surprise; Would Miss Lots Of Accustomed Things If Foreign Goods Withdrawn

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON, Jan. 31—The patriots behind the movements for the purchase by Americans of American goods only have a long way to go before we will stop buying goods from abroad.

This is "in no sense a patriotic issue, but strictly an economic one," says the Commerce Department, and "the two do not mix." We are a creditor nation and must buy goods. Thousands of American enterprises are dependent on the import business and thousands of others on the export business.

Dutcher

We still sell about $300,000,000 more a year in goods abroad than we buy from abroad, so the contention is that if we kill off exports and imports the loss to employment will be greater than the gain.

Secretary of Commerce Chapin says our export trade in 1932 provided 2,000,000 jobs.

* * *

But even if that were not true we would have a hard time getting along without many of the things foreign countries sell us. This fact is made plain by Florence Brewer Boeckel of the National Council for the Prevention of War, who has tabulated the long list of imported materials which are used by American industries. Mrs. Boeckel thinks there would be more chance for peace if everyone realized how interdependent are the world's industries.

About $750,000,000 of our $2,000,000,000 of imports in 1931 consisted of specific and strategic raw materials either not produced in the United States or produced in quantities far below our needs, she finds.

The automobile industry uses imported materials from 18 countries, the bakery and confectionery industries from 28, beauty shops from 17, clothing industry from 21, drug and tobacco industries from 27, electrical industry from 17, fertilizer and farm machinery from 13, furniture from 25, grocers (foodstuffs) from 21, hardware from 25, jewelry from 26, leather industries from 22, radio industries from 18, sporting goods from 17, stationery supplies from 24 and telephone industry from 15.

To take a sample, the automobile industry uses (try and figure out where they are in your car) cork from Algeria, Portugal and Spain, leather from Argentina, Australia, China, France and India, mohair from Asia Minor, molybdenum from Australia, Canada, China and Spain, tin from Bolivia, Borneo and Malaya, rubber from Borneo, Brazil and Malaya, manganese from Brazil and Russia, arsenic and nickel from Canada, tungsten from China, aluminum and talc from France, shellac from India, chrome from New Caledonia and Rhodesia and vanadium from Peru.

* * *

Or perhaps you are a poor female and wonder what countries contribute to the beautification of your face et cetera—

Palm oil from the Balkans, citronella from Ceylon and Java, soya oil and camphor from the Far East, lavendar and geranium oil from France, sandalwood oil from Guiana, bergamot and olive, orange and lemon oils from Italy, cocoanut oil from the Pacific islands, rosemary and olive oil from Spain, rubber and tin from Borneo and Malaya, asbestos from Canada, mica from India, silk from Japan and ambergris from any old ocean.

It hardly seems that you aren't using, wearing, eating or smoking quite a few foreign products today.

If they were all suddenly to be removed from your cigaret, automobile, cookies, facial cream, pants, suspenders, easy chair and other articles you would be no less than astonished.

INTERESTING NEWS, COMMENT FROM AUSTIN

BY R. W. BARRY

AUSTIN, Jan. 31. (AP)—Senator Roy Sanderford of Belton is assuming the administration leadership in the upper branch of the Texas legislature. He took the lead in the contest over Governor Miriam A. Ferguson's request for permission to withdraw appointees sent in by Governor R. S. Sterling before she took office.

Sanderford is a new member of the senate, but he isn't timid about asserting his convictions.

Others Lend Aid

There are others who always are ready to lend him some assistance. Senator W. K. Hopkins of Gonsales had been picked by some to speak for the administration in the senate, but he comes nearer being an independent. He does not like to be aligned with any partisan group, preferring to be free to espouse or oppose as the situation warrants.

Senators Gus Russek of Schulenberg and Archie Parr of Benavides, both veterans, are, it is said, to be depended on to uphold the woman governor's hands in her efforts to win favor for her program.

Woodruff Takes Lead

Senator Grady Woodruff of Decatur led the contest against giving Mrs. Ferguson permission to withdraw Governor Sterling's appointees, but during the debate he pointed out that he had opposed many important measures advocated by the immediate past governor. However, the governor can expect more opposition from Senators Woodruff, T. J. Holbrook, Walter Woodul, George Purl and J. W. E. H. Beck than any of the others.

Frank Roach of Bogota, secretary to Senator Tom Deberry of Red River county, is that lawmaker's eyes and ears, almost. Senator Deberry was maimed by an explosion during an Armistice day celebration some years ago and as a result his sight was dimmed and his hearing impaired. Roach does all of Deberry's reading and most of his listening. He has to be good because Deberry is quick in debate and wants his prompting without delay.

FLASHES OF LIFE

As Brought Over Associated Press Wires Today

Not A Houdini

PITTSBURGH — Motorman George Pavouska, who loves to "tinker," found a pair of handcuffs in the washroom of the car barn—left there by a patrolman who walks a beat nearby. Surprised, when Pavouska's car failed to leave the barn on time, an official went to investigate and found the motorman, red faced and struggling, imitating the late Houdini. Only Pavouska couldn't get the bracelets off.

Police were called, the "prisoner" liberated and, without further delay, he sprinted for his car.

Beak Is Tweaked

CHICAGO — Frankie Diamond, brother-in-law of Alphonse Capone and regarded by police as one of the town's tougher citizens, had his nose tweaked—and right in school, too.

Sergt. Ray Crane was the tweaker. The reason: Diamond was stricken with sudden modesty at the detective bureau show-up last night, and wouldn't show his face.

A score of minor hoodlums, whose idol Frank is, looked on in amazement.

Br-r-r-r!

CLEVELAND — Where do the "nudists" go when winter comes. Outdoors, it seems.

Says a bulletin of the Northern Ohio League of Naturalists: "So far this winter on an average of three days out of seven it has been possible to be out of doors, entirely nude, for at least an hour without discomfort whatever and without danger of getting chilly or taking cold."

Life's Like That

PHILADELPHIA — Fireman Joe Kasper's desire to live cost him his life. While fighting a fire that destroyed a vacant house, Kasper was endangered for a moment by a falling chimney. As his companions shouted a warning, he leaped toward safety—and fell dead at their feet. Exertion had proved too much for his heart.

She's Hen-Pecked

ROCHESTER, Ind. — Mrs. John Hansel is hen-pecked. When she stooped to pick up an egg, a hen pecked at her face.

She may lose the sight of one eye.

It won't be long now until the groundhog comes out to take a look at his shadow. If the depression hit him like it did most of us, he probably won't recognize it if he sees it.

BULLDOGS AND WESTERNERS PLAY HERE

VISITORS WILL SEEK REVENGE FOR LOSS IN TOURNAMENT

The Plainview High school basketball team comes to Lubbock tonight for a battle with Coach Swede McMurry's Lubbock Westerners. Carefully laid plans for vengeance which the Plainview team will undertake to carry out tonight are designed to also prove that it is a better basketball club than was indicated by results of the tournament last week.

The game starts at 7:30 o'clock.

The Bulldogs suffered a reversal of form and a stinging defeat here Saturday morning when they met the Westerners in a quarter-final game of the Lubbock invitation tournament. Doped to win handily, the Bulldogs never got started until it was too late to do anything about it, and the Westerners were prepared. The score was more than doubled against Coach Froggie Lovvorn's lads.

With a team as high as Lubbock high is, if not higher, than that coached by Swede McMurry, Plainview will put a veteran crew on the floor tonight. Captain Mabry, almost a seven-footer, and Wester, practically as high, are the stars and the men to watch most closely, but Lowry, Foster and Ray are nobody's babies when it comes to playing all the game. Mabry, said to be seventeen years old, has the appearance of a giant.

Coach McMurry probably will start his regular team of Stone and Snodgrass at forwards, Wilkinson at center and Blackwell and Robert Hale at guards.

LUBBOCK SENIORS TO MEET JUNIORS

The Senior class football team of Lubbock High school will clash with the Junior class lineup this afternoon at 4:15 o'clock as the high school inter-class grid schedule is resumed. The game will be played on the junior high school gridiron.

Richard Godeke, regular end on the Westerner football team this past season, coaches the Seniors. Hugh Newton and Joe Nelson coach the Juniors.

Two games have been played in the intramural season so far as a prelude to spring football training. The Seniors are leading the field by virtue of their victory over the Sophomores last week. The Sophomores and Juniors have played to a scoreless tie.

Upset Feature Of Women's Golf Meet

MIAMI, Fla., Jan. 31. (AP)—The Miami Biltmore women's golf tournament moved into the second round today with one startling upset already to its credit.

Mrs. Tom Wallace of Sapulpa, Okla., who qualified with a card of 91, was eliminated by Miss Agnes Wayne of Miami, 1 up, in the first round. Miss Wayne shot 103 in the qualifying.

Mrs. Estelle Drennan of Tulsa, Okla., who tied Mrs. Opal S. Hill of Kansas City for medalist honors with 88 strokes, defeated Mrs. J. J. Lannon of Boston, 9 and 7 in the first round. Mrs. Hill defeated Mrs. Art Millea of Mount Kisco, N. Y., 5 and 4.

French critics regard Edgar Allen Poe as the father of the short story.

Goldbugs To Be Tech Opponents

OKLAHOMA CITY U. TO SEND CAGERS HERE FOR TWO GAMES

Arriving in Lubbock early tomorrow, the Oklahoma City university Goldbugs, popular basketball team of the Sooner state, will engage the Texas Tech Matadors tomorrow night in the first of a series of two games at the Tech court.

As a prelude to Wednesday night's game, the Draughon's college Cats will meet the Texas Tech freshmen, coached by Ross Ayers, at 6:40 o'clock. The feature will start at 8 o'clock.

Beaten badly by the West Texas State Teachers college Buffaloes at Canyon last week in two games, the Matadors have been driving hard this week in an effort to improve to the extent of giving the Goldbugs plenty of opposition.

Dozen Men On Squad

Twelve men comprise the traveling team of the Oklahoma City institution. While they do not range in height as several other clubs which have appeared here the Goldbugs are fast, deceptive and elusive in their offensive attack; steady and effective with their defensive formations.

HOLDOUT LIST LENGTHENED

BOTH JIM BOTTOMLEY AND FRANKIE FRISCH SEEK MORE MONEY

NEW YORK, Jan. 31 (AP)—Baseball's winter complaint, holdout fever, has struck in two new quarters.

Frankie Frisch, second baseman of the St. Louis Cardinals, and Jim Bottomley of Cincinnati have revealed dissatisfaction with terms offered them for 1933.

"I'm not going to send my contract back," Frisch said, "but neither am I going to sign it. I think it can be straightened out more satisfactorily in a conference with Sam Breadon and Branch Rickey than through the mails."

Frisch declined to say what the contract called for but in view of the Cardinals' announced policy of big salary slices, some baseball observers believed Frankie probably had not been offered much more than half the $18,500 he was reported to have received last season.

Bottomley, sent to the Reds by the Cardinals during the off-season, said he had been offered a contract for $8,000, a cut of $5,000, which he maintains was too much.

ROBBERS ARRESTED

CHILDRESS, Jan. 31. (AP)—Two men from Oklahoma were arrested in the high school building here Monday after they had taken $9 from a safe and $3 from the desk of W. C. Davis, principal.

Christians Rally To Smash Jackets

ABILENE, Jan. 31 (AP)—Staging a tremendous last half rally, the Abilene Christian college Wildcats last night defeated Howard Payne, 37 to 30, and superseded the Yellow Jackets as holders of second place in the Texas conference cage marathon. The win gave the Christians an even break for the season with the Howard Payne team, which defeated them by a one point margin last week.

Howard Payne was setting the pace 19 to 13, at half time, and as Worley, and Bragg opened the second period with field goals, the visitors' advantage was extended to ten points. The Christian comeback, featuring R. V. Hardegree, substitute forward, took form at this stage. The home team tallied seven successive field goals while holding Howard Payne pointless, and took a lead of 27 to 23, which was never overcome.

Ryerson Medalist In Annual Tourney

ST. AUGUSTINE, Fla., Jan. 31. (AP)—Jack B. Ryerson of Cooperstown, N. Y., whose sub-par 34-36—70 gave him the medalist honors, today led first round match play of the annual golf club champions tournament here. The course has a par of 72.

Perfect figures also were bettered in the qualifying round by I. K. Merrill of Camden, Maine, Ed. Kirouac of Walpole, Mass., and Tommy Goodwin of Monroe, N. Y. They had 71 each, closely followed by three Florida campaigners, Robert Wingate of Jacksonville, Carl Dann, jr., of Orlando and Jack Toomer of Jacksonville, with 73 each.

ENTHUSIASTIC FIREMEN

KNOXVILLE, Tenn. — "Hurry! That's my house," shouted Fireman L. O. McKeehan from the rear of the speeding fire truck. Sure enough it was his house. His wife had gone downtown and a short circuit in an electric light cord had caused the fire. The only casualty was the canary, which was smothered by smoke.

The Stockton and Darlington Railway in England was the first public railway in the world. It opened September 27, 1825.

WYKOFF RANKS EDDIE TOLAN AS FASTEST

RACE CHAMPION SAYS RALPH METCALFE TO BECOME LEADER

BY EDWARD J. NEIL
Associated Press Sports Writer

NEW YORK, Jan. 31. (AP)—Frank Wykoff, the fastest human of them all through 100 yards, has raced against many a speed demon in eight spectacular years on the cinder paths.

But at the head of his list of the ten greatest sprinters he has met in competition stands the bespectacled little negro from Detroit, the ebony flash who fled down the olympic cinders in Los Angeles last summer to victory in both the 100 and 200-meter dashes—Eddie Tolan.

Metcalfe Has Promise

A year from now, maybe two, and Wykoff, who set the world record for 100 yards at 9.4 seconds in Los Angeles in 1930, feels he will have to head his list with another name, that of Ralph Metcalfe, Marquette's great negro sprinter, who followed Tolan in both olympic triumphs.

As he dressed after his first workout on a banked board "indoor" track, Wykoff rolled over in his mind the list of those he had raced since the day he leaped to fame as a schoolboy phenomenon by beating Charlie Paddock at 100 and 200 yards on the same afternoon in California eight years ago.

Here's his first ten, with modesty forbidding placing himself:

1. Eddie Tolan, world record 10.3 for 100 meters, and 21.2 for 200 meters.
2. Emmett Toppino, American indoor 60-yard record, 6.2; outdoors, 100 yards, 9.5.
3. Ralph Metcalfe, 10.3 seconds for 100 meters, American record.
4. Charles Paddock, 9.5 for 100 yards, many intermediate records.
5. George Simpson, 9.4 (with starting blocks) for 100 yards; 21.3 for 220 yards.
6. Percy Williams, 10.3 for 100 meters, world record; 21.8 for 200 meters.
7. Bob Kiesel, 9.5 for 100 yards; 10.4 for 100 meters.
8. Charlie Borah, 9.6 for 100 yards; 20.9 for 220 yards.
9. Hec Dyer, 20.8 for 220 yards.
10. Bob McAllister, 60 meters indoors, 7.2, and 100 meters, indoors, 10.8.

DEMPSEY HUNTING SITE FOR BATTLE

CHICAGO, Jan. 31 (AP)—Another stage of the ballyhoo in connection with the proposed bout between the two Maxes — Schmeling of Germany and Baer of Livermore Calif.—opened yesterday with the rival for a series of conferences of Jack Dempsey, promoter, and Joe Jacobs, the German's manager.

Dempsey has the bout signed up, and is hunting about for a favorable spot in which to stage it. Chicago, with a world fair to help out in the way of attracting customers, appears to be the choice, but until the Illinois boxing law is amended to permit 15 round contests, Jacobs is not likely to agree.

The former heavyweight champion hopes to present the spectacle in Soldier field, where he met Gene Tunney in 1927 for the heavyweight title, a bout which drew a world record gate of more than $2,000,000. Mayor Anton J. Cermak was reported to be behind efforts to revise the boxing law to permit 15 round contests, instead of the present maximum of ten.

NO ONE, INCLUDING BABE HIMSELF, SEEMS TO BE WORRYING MUCH OVER WHETHER HE'LL TAKE SALARY SLASH

BY ALAN GOULD
(Associated Press Sports Writer)

NEW YORK, Jan. 31 (AP)—No one, including Babe Ruth himself, seems to be doing a great deal of worrying about whether the big fellow takes a $25,000 "cut" in salary this year.

The Babe doesn't need to, although he will be astute enough to effect a compromise, if that is necessary, before he signs his 1933 contract. As we sat down to talk things over, past and present, he dismissed the salary business with this side remark:

Homer Good Thing

"It's a good thing I walloped that home run in the third game of the world series or they might have asked me to take a $50,000 cut."

Baseball's fair-haired "boy," now nearing forty and about to start his twentieth year in the major leagies, has generally gained what he needed or desired. He is "fixed," financially, for life, no matter whether he quit baseball tomorrow.

The Babe has known the year when he squandered close to $100,000. He admits it. Things were so bad that, at one time, on the insistence of Miller Huggins, half of Ruth's $52,500 salary with the Yankees was kept by the club until the end of the season.

An Urban Squire

The elderly home run slugger now lives the life of an urban squire during the off-season. Aside from his family and evenings at home his main interests are in playing golf, going hunting or fishing, attending the movies once or twice a week. It costs him probably from $15,000 to $20,000 a year for living expenses of the entire Ruth household. The rest goes into the "sock," he says.

Ruth has enough invested now in annuity or income contracts to guarantee him, at any time he retires, upward of $20,000 a year. He has protected his wife and daughters with similar investments.

Between his outdoor hobbies and his gymnasium work, the Babe keeps in good physical condition the year-round. The days are gone when he could and did set the pace in any brewery beer-drinking contest or start off the day with a light breakfast of steak, potatoes, pie and a half dozen cups of coffee. He weighs around 228 these days, looks healthier than ever, says his legs give him no trouble during a day's 36 holes of golf.

In heraldry, slipped was a term applied to a leaf, branch or flower which is represented with a stalk and torn from the parent stem.

WARNER SEES BIG THINGS FOR HIS TEAM AT TEMPLE

PHILADELPHIA, Jan. 31 (AP) — Glenn S. "Pop" Warner sees big things for Temple university in the football wars of the next few years.

The "Old Fox," new coach at Temple, made his first visit to the university yesterday since he announced last fall he would become tutor for the Owls.

Speaking for himself, "Pop" said he was as glad to come to Temple from Stanford as he was when he went to Pitt from Carlisle.

"It's the college of opportunity for me," he declared.

"Conditions are favorable," he said, in a general review of prospects, "for developing Temple into a prominent contender for national football prestige. We should be able to tackle the biggest teams in the east within a couple of years."

"Pop" started a lot of rumors in local football circles as to his possible board of strategy when he takes over the gridiron reins at the North Philadelphia institution—but he sidestepped neatly all attempts to pin him to naming his two assistants.

SCOTCH FOURSOME TOURNAMENT HELD

SAN ANTONIO, Jan. 31. (AP)—Thirty-two teams of golfers swept around Brackenridge park Monday in the first "Scotch foursome" foursome" tournament.

Joe Ezar, St. Louis, and Mrs. E. R. Hury won low net by pairing a nine handicap with a low gross of 76 for a net of 67. Buck Hayworth and Mrs. B. N. Riordan took second low net by subtracting a 13 handicap from a gross of 82 for a 69.

Since the winner in low net cannot share in two prizes, the low gross went to Harvey Penick of Austin and Mrs. L. C. Chapman of San Antonio. They had a gross score of 77, one stroke higher than the gross of Ezar and Hury. Second low gross went to Tod Menefee, Brackenridge park pro, and Miss Hilda Urbanke of Austin, who turned in a 79.

Johnny Dawson, Chicago; Ezar, Gene Mosher, Brookline, Mass.; Tom and Harvey Penick, Austin; By Chamberlain, St. Paul, and Charley Nordberg, Chicago, were among out of town professionals entered.

JONES KNOCKS OUT SAMMY SLAUGHTER

AKRON NEGRO MOUNTS TO TOP OF RANKS OF MIDDLEWEIGHTS

CLEVELAND, Jan. 31 (AP)—One of Willie (Gorilla) Jones' famous punches today had placed him once again at the top of the American middleweight boxing heap.

A right to the jaw of Sammy Slaughter that traveled little more than three inches last night returned to the Akron negro the National Boxing association title he lost a year ago.

Go Home Arguing

Scarcely, however, had the 8,400 fans concluded one of the wildest ovations in Cleveland's ring history in tribute to the husky battler than they witnessed a weird finish of another fight that sent them home arguing.

Ben Jeby, recognized in New York state as the middleweight champion, won the unusual battle by decision of the referee but as he climbed out of the ring he left a wildly gesticulating Paul Pirrone urging him to come back and fight some more.

Floored Six Times

Pirrone had been floored six times in the first five rounds. When the bell clanged for the start of the sixth, he sat unconcerned, obeying the command of his manager, Eddie Mead, to wait for a count of nine. Jeby floored once himself, stood punching the air above Pirrone's head and begging the Clevelander to "come on" as Referee Freddy Block pumped out the count.

When Pirrone's handlers finally gave him the "go on," Block lifted Jeby's hand in token of a technical knockout.

The boxing commission upheld the decision. Jeby's title was not at stake.

To Leave No Trace Of Sara Teasdale

NEW YORK, Jan. 31. (AP)—Sara Teasdale wanted no trace of her left after death.

This wish, often expressed to friends, will be observed. The poet's ashes will be sifted over the sea Wednesday.

Miss Teasdale's death was attributed today by Dr. Charles Norris, chief medical examiner, to accidental drowning in the bathtub of her fifth avenue apartment.

It has been estimated that a bee travels 43,779 miles to gather one pound of honey.

FARM AID

(Continued From Page One)

a federal court judge with a possibility of arbitration.

7—Nebraska's Governor Bryan set to work a conciliation board to iron out disagreement between debtors and creditors to halt demonstrations and smooth the path for legitimate adjustments.

8—The Chicago Joint Stock Land bank entered into agreement with an Iowa farmer to withhold foreclosure proceedings for at least one year while the farmer continues to operate the property and pay rent. The action is the same as that taken by a Des Moines land bank for a Minnesota man who said he was President Hoover's cousin.

Sales Tax Protested

9—In Michigan, Colorado, Minnesota and Nebraska farm holiday groups joined to protest tax sales and to hear sheriffs and judges accede to their demands and help plead their troubles with mortgage holders.

10—At Cherokee, Iowa, a grand jury indicted five men and six "John Does" for the part they played in allegedly firing on holiday farm pickets at the height of the farm strike last fall. A bank president, the sheriff, a doctor and eight others were included in the indictments returned, charging assault with intent to commit murder, "conspiracy to gas, shoot and beat" and perjury.

11—Interstate commerce commission at Minneapolis and Denver were shaking their heads over the problem of reduced grain and livestock rates with the question put to them: "Who needs the relief most—the farmer or the railroad?"

12—At Bowling Green, O., eight hundred farmers attended a "mortgage protest" meeting here at which it was announced that Governor George White had selected a board of five members to act as mediators between creditors and debtors in six northwestern Ohio agricultural counties.

LEGISLATURE

(Continued from Page One)

to May 1. was introduced in the house earlier by Representative H. L. McKee of Port Arthur and A. W. Griffith of Austin.

The time for paying the registration fee expires at midnight tomorrow night.

Quick Action Sought

The bill was introduced as an emergency measure. McKee said he would ask that a hearing be held without delay by the highways and motor traffic committee and said he would seek speedy passage of the bill in the house and senate so as to make it effective by the time the registration period expired.

The bill would suspend the penalties and interest for non-payment of the registration fees.

McKee said he had been informed that registration of motor vehicles was running 50 per cent behind registrations of last year.

The time limit can be extended only by legislative enactment.

DAILY MARKETS

Cotton Market

NEW ORLEANS REPORT

NEW ORLEANS, Jan. 31 (AP)—Cotton had a steady opening. Liverpool came in much worse than due and on the basis of cables, cotton here showed losses on first trades of 3 to 5 points on old crop months and only one down in new crop October, a small response to the weakness abroad.

Near the end of the first hour the market eased again one to three points on reports of a threatened general strike in Germany.

Trading was moderate after the first hour and during the rest of the morning with prices easing off on some hedge-selling and selling by ring traders and outside speculators. March eased off to 5.94, May to 6.06 and July to 6.19, or 6 to 7 7 points below yesterday's close.

Around noon, the market rallied 2 to 3 points from the lows on an improvement on wheat and shorts covering.

NEW YORK REPORT

NEW YORK, Jan. 31 (AP)—Cotton opened steady, 1 to 4 points decline in response to lower Liverpool cables which was partly offset by a good trade demand. March 5.99; May 6.12; July 6.25; Oct. 6.42; Dec. 6.54; Jan. 6.60.

Little southern selling was reported, but liquidation continued and there was early selling here through houses with Japanese. Liverpool, and continental connections. This was mostly in the later months, but there was considerable volume of March liquidation. The latter was absorbed by the trade, however, while the decline below the 6 cent level for that position uncovered some buying limits. March sold off to 5.97 and July to 6.23, making net declines of about 2 to 4 points at the end of the first half hour.

Liquidation which appeared to be from both foreign and domestic account continued later in the morning but little southern selling developed and offerings were absorbed by trade demand. March sold off to 5.96 and July to 6.21 or about 4 to 5 points net lower. The market at midday was steady within a point or two of these figures.

Stock Market

WALL STREET REPORT

NEW YORK, Jan. 31 (AP)—The approach of important dividend actions kept speculative activity in check in today's stock market, and prices continued to fluctuate narrowly and irregularly.

The announcement of the decision on U. S. Steel's preferred dividend, and on Borden's common distribution, were expected after the close of the market. In the meantime, however, there was some bullish activity in the rails, while utilities were again inclined to sag. Trading was in small volume.

Delaware and Hudson rose a couple of points, and gains of major fractions to a point appeared in New York Central, Union Pacific, Santa Fe, Lackawanna, Louisville and Nashville. In the steels, U. S. Stell common and preferred, and Bethlehem common, were up fractions. Borden, which has recently been under pressure, encountered short covering in advance of the dividend action, and rose a point. Consolidated Gas lost about a point, and Columbia Gas, North American and National Power and Light were off fractionally. Homestake and Macy dropped 1 1-2 points or more.

AMARILLO MAN CHARGED WITH MURDER OF ROBERT THARP; TO BE RETURNED

(Continued From Page One)

lieved to have been at Lamesa, the suspect continued, they came to Lubbock, and stopped, although he had insisted that they go directly to Amarillo. The trio arrived in Lubbock about 8:30 p. m., he said.

The last third of the signed statement, with minor deletions, follows:

"Bill said he wasn't going to come back broke after getting gypped down there at El Paso and urged Paul on and Paul agreed to go and get some more money. We got into Lubbock that night, the night of October 15, 1932, and they wanted to take the car and use it. And I told them they couldn't unless I went with them. Paul directed me where to drive. Told we where to park. I stopped the car and he got out and was gone about five minutes and came back. Bill and I stayed in the car. He came back and said there was no soak, meaning he didn't do any good. He told me to drive over to another place. I drove over there and stopped and let him out again.

"Pretty Badly Excited"

"He came back in about five minutes running and he jumped in the car and he was pretty badly excited. He said to get out of town as quick as you can. He said his gun went off and he had shot a man. I asked him if he did it on purpose and he said no his gun went off and he didn't have any intention of doing it. I just drove right out on the highway toward Amarillo. . . . On the road into Amarillo we went through Abernathy and the more Paul thought about it the worse he felt about it and he just broke down and cried like a baby. He said it was already done and he couldn't do anything to change it and the only thing to do was just to try to get away from there. He said he would never touch another gun as long as he lived. . . . south of Hale Center . . . we turned off the main highway and followed roads and section lines until we hit the main highway that went toward Clovis and went on to Bovina.

"It was around midnight I judge when we got to Bovina. We bought gasoline in Bovina. At a Gulf station there on the highway. We came on into Amarillo the same night. Got to Amarillo about 10 o'clock in the morning of the 16th day of October, 1932. I took Paul and Bill down to Bill (——)'s and let them out there. Then I came on home. Paul threw the gun he did the job with out of the car. He stepped out of the car and put it down in the weeds near one of those metal and wood guards alongside of the road, just a short distance other side of Hale Center.

Burned Clothes

"He threw his clothes out of the car after we got off the main highway. We stopped the car and he got out and threw them in a ditch alongside and set fire to them. The gun used was a German Luger owned by Bill. Paul afterwards went back and got it two days after we got back. Bill borrowed a car to go after the gun and Paul went after it."

The Tharp slaying precipitated an intensive drive against criminals in Lubbock and Lubbock county. A leader in the anti-crime campaign was the Lubbock County Bar association, which passed a measure making it difficult for persons charged with theft, burglary, robbery, or murder committed "in the execution of any of these crimes" to obtain representation in court except by appointment of a lawyer by the court. Upon call of the bar association, nearly 1,200 Lubbock county citizens attended a mass meeting, joining the bar association in posting a $500 reward for "information resulting in the arrest and final conviction of the slayer of Robert Tharp."

Bounty also was subscribed to pay $500 for "information resulting in the arrest and conviction of each person who shall, in Lubbock county, during the 12 months next after this date (October 18), kill or wound any person while engaged in the commission of robbery or while attempting to escape there from."

Treasury experts are able to count 40,000 new notes a day and 25,000 old ones.

OLAN WOMBLE NO-BILLED BY GRAND JURY IN FATAL CROSBY COUNTY FRAY

CROSBYTON, Jan. 31.—(Special)—Nolan Womble, charged in the fatal wounding of Wilburn Kimble in a fight at a dance in Farmer community November 17, was no-billed by a district court grand jury Monday. Kimble died of brain concussion November 29 at Plainview.

Five or more men engaged in the fight in the dark at a community dance, and action of the grand jury indicated members were unable to place the blame for the head injury Kimble suffered. Ray Moreau, a Floydada mechanic, who was cut in one room during the fight, said afterward that he did not know who wounded him. Kimble, Wilburn and the latter's wife went to the dance together.

Four indictments, two charging liquor law violation and two forgery, were returned by the grand jurors yesterday. District Attorney Daniel A. Blair said. Burton S. Burks, assistant district attorney, aided in the investigations also. Marlin Marshall, charged with forgery, received a two-year suspended sentence. The prosecutors did not oppose suspension of the term. Jim Mitchell, a negro, was held for burglary. Late Monday the verdict had been returned.

Judge Homer L. Pharr will hear other criminal cases for trial Thursday.

EDWARDS TRIAL

(Continued From Page One)

Payne's testimony that Gibbons operated the camp at that time.

Judge Gordon B. McGuire was preparing his charge this afternoon and was to finish the work as soon as arguments were over.

G. H. Nelson, district attorney, indicated he would not ask the death penalty.

Edwards is being represented by Vickers and Campbell of Lubbock.

Others Face Trial

Cases of Edwin Meredith, who was in the bank during the robbery; Elmer Slaughter, James W. Baker, and Oscar Herring, charged with complicity in the robbery, were to be called Wednesday.

Baker, former Seagraves public school teacher, was tried at Seminole last month for complicity in the robbery but a mistrial was declared when the jury was unable to agree. The five cases were then transferred to Terry county for trial.

It has been estimated that rehearsals of great orchestras cost $10 a minute.

The motion picture industry ranks seventh among the leading industries in the United States.
