

Mrs. Kennedy In Italy For Her Vacation

RAVELLO, Italy (AP)—Jacqueline Kennedy and Caroline arrived today, via a mountainous coastal highway with sheer drops of 1,000 feet to the sea, for an Italian holiday in this little tourist town perched on a cliff. They were guarded by police for the 25-mile drive over the curving road from the Salerno airport.

The U.S. President's wife and her 4-year-old daughter, who is on her first trip abroad, are staying at an 11th century villa as guests of Prince Stanislaus and Princess Lee Radziwill. Mrs. Kennedy's brother-in-law and sister.

The heat was in the sweltering 90s on the highway, which runs along the mountainous Sorrento Peninsula. The peninsula is famous for its olive, breathtaking scenery and nerve-racking roads.

Mrs. Kennedy and a sleepy Caroline arrived in Rome three hours earlier by commercial airplane from New York. They then flew to the airport near Salerno in a small chartered Swiss plane.

The airport near Salerno, a little-used military field, has no concrete runway, only a hard-packed dirt landing strip.

Mrs. Kennedy was met at the airport by her sister. They made the hour-long drive to Ravello in the Radziwills' big American car. Police had spent hours this morning checking for mines or plastic bombs along the last, hazardous three miles of the road up to Ravello from Amalfi.

Rotan Sets Ballot On Water Bonds

ROTAN—Rotan voters will decide here Aug. 31 whether they will receive water from Snyder.

A proposal for a \$300,000 bond issue will be on the ballot, along with a proposal for a water contract between the Rotan Municipal Water Authority and the city of Rotan.

The Rotan Municipal Water Authority and the city of Snyder already have agreed upon a contract in which Snyder would furnish the authority with treated water on a cost-plus 10 percent basis.

Rotan has been exploring possibilities for new sources of water supply for several months. Severe water shortages have developed at wells at Camp Springs, which have provided water to Rotan for several years.

If approved at the polls, the \$300,000 in tax and revenue bonds will be used to finance construction of pipelines. The Rotan Municipal Water Authority proposes to install a 12-inch line from Snyder to Camp Springs and then an 8-inch line on into Rotan. The segment from Camp Springs to Rotan would supplement an existing 6-inch line from the Camp Springs wells into Rotan.

1,500 Jump In Maneuvers

FLORENCE, S.C. (AP)—Fifteen hundred men of the 82nd Airborne Division parachuted on the Darlington Airport shortly after dawn today in a coordinated air-ground attack by aggressor forces participating in Operation Swift Strike II.

The jump produced a rare sight in that nearly every man of the 1,500-man 325th Battle Group was in the air at the same time. Shortly after the first wave of men jumped, a second wave followed almost on top of the first. There were no casualties.

Meanwhile, a battle group of the 2nd Infantry Division from Ft. Riley, Kan., crossed the Lynchburg River below Florence. Elements of the 2nd invaded the city, then withdrew.

WEATHER

SNYDER TEMPERATURES: High 74, low 50. Forecast: Partly cloudy, with a chance of rain. Wind: Light to moderate. Humidity: 60-70%.

FLORISSA TEMPERATURES: High 78, low 52. Forecast: Partly cloudy, with a chance of rain. Wind: Light to moderate. Humidity: 60-70%.

DAVENPORT TEMPERATURES: High 76, low 51. Forecast: Partly cloudy, with a chance of rain. Wind: Light to moderate. Humidity: 60-70%.

WYOMING TEMPERATURES: High 75, low 50. Forecast: Partly cloudy, with a chance of rain. Wind: Light to moderate. Humidity: 60-70%.

PRESIDENT DECORATES DR. KELSEY—President Kennedy decorates Dr. Frances O. Kelsey with the Distinguished Civilian Service medal—the government's highest honor for a civilian employee—in a White House ceremony. Dr. Kelsey received the award for preventing the marketing of the drug thalidomide. Sen. Hubert Humphrey, D-Minn., is at right center. (AP Wirephoto)

Soblen Stay Is Extended

LONDON (AP)—The British government today extended until Friday midnight the deadline for El Al Airlines to take fugitive spy Robert A. Soblen to the United States.

This put off a showdown in the three-nation wrangle over Soblen, which had been due to come to a head at midnight tonight, the original deadline. El Al, the Israeli airline, has a flight going to New York on Friday afternoon.

There was no indication, however, that the airline will comply with the British Home Office order. It is under instructions from the Israeli government to take Soblen only to Israel.

A diplomatic source said it may be weeks before the United States gets its hands on the 61-year-old psychiatrist, who is under a life sentence.

Soblen's lawyers issued a state-

Tour Planned For Johnsons

WASHINGTON (AP)—Vice President Lyndon B. Johnson and Mrs. Johnson will visit Italy, Greece, Turkey, Cyprus and Iran during late August and early September.

A White House announcement today said the five governments had invited the Johnsons to visit their countries.

A detailed itinerary will be issued later.

The White House statement said President Kennedy and Johnson have "discussed the important contributions such a trip could make to United States foreign policy."

In addition to spending several days in each of the countries, Johnson will open the American exhibits at the International Trade Fairs at Ismir, Turkey and Thessaloniki, Greece.

He also will visit Central Treaty Organization headquarters in Ankara, discuss impending Peace Corps projects with officials in Cyprus, Iran and Turkey, and space projects in Italy.

Says Soviet Troops In Cuba

MIAMI, Fla. (AP)—A Cuban news specialist claims that more than 4,000 Soviet troops have landed in Cuba recently.

In a Spanish broadcast from a Miami station Tuesday, Dr. Salvador Leu attributed his information to travelers from Cuba in a position to know. The program, "Voice of the People," broadcast by WMFE for Miami's refugee population, said the reported troops were sent in response to Fidel Castro's fear of rebellion.

An associate, Ramiro Boza, declined to name the source of the broadcast information, but said, "We know it is true when this source tells."

There was no immediate comment from the State Department in Washington.

The Associated Press Havana correspondent, George Arfield, said

there had been rumors recently of Soviet troop landings, but none of them could be confirmed.

The Miami broadcast said that five Soviet ships landed 2,500 men July 29 at Mariel in western Cuba and four more vessels landed 1,800 troops at Havana July 30-31.

Arfield said no Russians in uniform could be seen in the streets of Havana. However, he said a Soviet ship docked Tuesday in Havana with what Havana papers

called technicians. Boza, a former editor on the Havana paper El Crisol, said the men the broadcast referred to "were not technicians. They were soldiers."

Refugee leaders in Miami pointed out the coincidence between the time of the reported landings and the fact that the Cuban armed forces minister, Raul Castro, returned from a 10-day visit to the Soviet Union July 21.

Demand For Water Goes Up Sharply

Showers failed to curb a sharp gain in water deliveries during July by the Colorado River Municipal Water District.

The member cities of Odessa, Big Spring and Snyder took \$72, 146,400 gallons, a gain of 18.30 percent over July of last year. Oil field repressuring units required 234,333.874 gallons, a gain of 14.74 percent.

Total July consumption was 1,066,027.4 gallons, up 18.32 percent from July of 1961. This brought to 6,029,051,326 the amount consumed so far this year, an increase of 11.68 percent for the seven-month period.

Odessa required 324,427,000 gallons, a gain of 9.07 percent; Big Spring 267,482,000, an increase of 32.22 percent; Snyder 80,237,400 gallons, a gain of 57.94 percent. Included in the repressuring total was 29,333,000 gallons to the new Standard-Sinclair unit in eastern Howard County. This amount just about matched the gain shown by repressuring customers.

Adlai Says Krush Due At U. N. Meet

MADRID, Spain (AP)—Adlai E. Stevenson said today he has been informed Soviet Premier Khrushchev will attend the United Nations General Assembly in October "and if he comes we can look forward to another three-ring circus."

Stevenson, interviewed as he boarded a jet plane for his return to New York from a European vacation, said his information came from official sources in Rome.

Stevenson, chief U.S. delegate to the United Nations, said the report may "not necessarily be correct."

"It seems logical that Khrushchev will come to New York this fall in an effort to offset some of the bad publicity the Soviet Union is getting because of its resumption of nuclear testing," Stevenson explained.

"Khrushchev certainly wants to talk publicly about Russia's claimed economic advances, and to shout some more about colonialism to offset criticism on the Soviet Union's nuclear testing," Stevenson explained.

In Washington, State Department officials said today they had no solid information one way or the other whether Khrushchev was coming to the U.N. session.

Hike Due In Cotton Yield

WASHINGTON (AP)—The Agriculture Department today forecast a Texas cotton crop of 4.1 million bales—about 30,000 bales above that produced last year.

The cotton is expected to be harvested from 6,500,000 acres, a 20,000-acre increase over 1961.

Indicated production continued to climb—from 34 million pounds per acre last year to 350 this year. If this prediction is borne out by the harvest it would be 90 pounds an acre above the 10-year average.

The department estimated a national crop of 12,022,000 bales. This forecast, the first of the year, compares with 14,318,000 bales produced under a similar restricted control program last year. Production for the 10-year (1951-60) period averaged 13,979,000 bales.

Former Executive Of Penney's Dies

PLAINVIEW (AP)—C. T. Johnson, retired J. C. Penney Co. executive and president of the Canadian River Municipal Water District, died in Plainview today of a heart attack.

Johnson retired five years ago from the Penney organization after serving with the company at Memphis, Lubbock and Amarillo. He was also chairman of the City Planning Commission and active in civic affairs. His widow survives.

Rail Suit Ruled Out; Unions Set Plans For Strike

CHICAGO (AP)—A suit to block the firing of 40,000 railroad firemen next week was formally dismissed today in U.S. District Court.

Judge Joseph Sam Perry signed an order confirming his earlier informal ruling that the courts lack authority to go into the dispute.

The five operating brotherhoods, representing 200,000 on-train employees, were expected to announce a strike call this afternoon.

There was no expectation of an immediate stoppage, however. It is assumed that President Kennedy, under the Railway Labor Act, would move to bar both sides

from taking any action for two months.

The railroads, despairing after a three-year effort to reach job curtailment agreement with five balking unions, have announced they will put the changes into effect anyway Aug. 16.

As the union leaders gathered here to agree on a stand, one of them, H.E. Gilbert, president of the Brotherhood of Locomotive Firemen and Enginemen, told a reporter:

"I don't think the men will work under those circumstances."

Gilbert said he expected a formal statement later today after talks with chiefs of the Engineers,

Conductors, trainmen and switchmen's unions.

There still remained a chance, however, that the 200,000 union members would rely first on an appeal from the decision of a federal judge in Chicago who ruled out court intervention in the dispute.

In Chicago the unions set up a joint news conference for 1 p.m., CDT, to follow a morning court session set by Judge Joseph Sam Perry to issue his formal ruling.

If the strike action were ordered and Kennedy took the emergency action available to him, a board named by the President would investigate the issues and report recommendations for a settlement. That would put off a strike threat until mid-October at least.

Prisoner's Phone Taken From Cell

MEXICO CITY (AP)—Licurgo Humberto Hernandez Leon Jimenez felt a bit cut off from the world today in his cell at the Federal Prison.

The guards took his private telephone away from him Tuesday.

Prison officials said Hernandez, serving a term for fraud, had managed to string a telephone line by using old installations that had been out of service for years. He fashioned his own telephone set out of odds and ends. Only the dial was from a modern telephone.

There was only one drawback to Hernandez's handwork. He could only make calls, not receive them. But he carried on bright conversations with his friends on the outside.

Guards said they hadn't discovered Hernandez's telephone earlier because the apparatus "just looked like a piece of junk."

Prison officials believed Hernandez had been using the phone for years.

Lifted at being deprived of his invention, Hernandez told guards as they took down the lines he had strung.

"After all, it was strictly for my exclusive personal use."

Funeral List Kept Secret

HOLLYWOOD (AP)—The complete list of persons invited to funeral services for Marilyn Monroe has been kept secret. Spokenmen said "slightly more than 15" were invited.

Among those definitely scheduled to attend the rites are: Ex-ballplayer Joe DiMaggio, second of her three husbands; Joe DiMaggio, Jr.; Mrs. Bernice Baresi; Miss Muriel Halpern; Mrs. Inez Nelson, her former business manager; Paula and Lee Strasberg, her drama coaches.

President Kennedy's sister, Pat Kennedy Lawford, reportedly was flying here from Hyannis Port, Mass., to attend the services with her husband, actor Peter Lawford.

Texas Man Dies Of Injuries In Kansas

MCPHERSON, Kan. (AP)—James S. Finney, 78, Dozeta, Tex., died today of injuries sustained Tuesday in a traffic accident.

He was a passenger in a car driven by his brother, Elmer Finney, 84, Americus, Kan. James S. Finney suffered a broken neck. His wife suffered scalp lacerations. Elmer Finney and Phillips suffered minor injuries.

TYLER BEAUTY, TYLER ROSES—Miss Cindy Lu Price of Tyler is shown helping herself to an armful of roses in one of the numerous fields that surround the East Texas city. In honor of its huge rose industry, Tyler will conduct its 25th Texas Rose Festival, Oct. 19-21. The rose field shown is located just west of Tyler and rests almost in the shadow of a brand new oil well. (AP Photo)

Rusk, Dobrynin In Huddle Today

WASHINGTON (AP)—Secretary of State Dean Rusk called in Soviet Ambassador Anatoly F. Dobrynin today to put new pressure behind U.S. efforts to reach agreement on a pact to outlaw atomic testing.

Rusk and Dobrynin huddled for an hour and a quarter in Rusk's State Department office while the U.S. foreign affairs chief explained the new U.S. test ban proposals, aides said.

Rusk's meeting with the Soviet envoy, his first since returning from Geneva last month, was described as another effort to get across to the Russians what the United States considers an important proposal.

Parallel efforts are being made by the U.S. disarmament ambassador at Geneva's Arthur Dean, but the Soviet delegates there have informally turned thumbs down

only today Dean advanced an offer to cut by more than half the number of detection stations proposed to police a test ban treaty.

The Russians resist the whole idea of such stations as a spying device.

According to new U.S. scientific findings, which Rusk was said to have outlined to Dobrynin, detection of underground nuclear explosions is easier than previously supposed. Therefore, the United States is scaling down the inspection safeguards it demands in any test ban treaty.

In most of his previous meetings with the Soviet envoy, Rusk has discussed the Berlin dispute.

Dobrynin declined comment as he arrived at Rusk's office but did tell newsmen, "I have no comment that Premier Khrushchev plans to come to the United Nations this fall."

ENJOYS SUMMER—Maybe Tony Kasadner, South Padre Island, is not sitting on top of the world, but the top of this sand dune is just about as close as she can get in the Rio Grande Valley. It's cooler, too. (AP Photo)

'Pilgrimage' To Albany Launched

By DON MCKEE

ALBANY, Ga. (AP)—The first contingent of a promised "pilgrimage" from other states has arrived in Albany to support integrationists in their battle for equal rights for Negroes.

"We do not intend to leave Albany until we have some word from the President," said one of the clergymen, Dr. Milton A. Reid of Petersburg, Va.

Reid was among 100 ministers who marched on the White House Monday in protest to segregation here and to seek audience with President Kennedy.

The Baptist minister arrived in Albany Tuesday with three other Negroes—the Rev. S. H. LaGarde of Edenton, N.C., and Rev. Virgil Wood of Lynchburg, Va., and the Rev. Curtis Harris of Hopewell, Va.

All four are connected with the Southern Christian Leadership Conference headed by Dr. Martin Luther King Jr., in jail for demonstrating against segregation policies of this south Georgia city.

Dr. W. G. Anderson, president of the Albany movement, told a mass meeting of Negroes Tuesday night that by Friday he expected in Albany most of the clergymen who participated in the Washington march.

In a fiery speech, Reid said the White House delegation petitioned Kennedy through his aides for consideration of these points:

A positive stand on Albany by the President; a personal visit to this city by U.S. Atty. Gen. Robert F. Kennedy; a second Emancipation Proclamation outlawing all racial discrimination; and a nationwide television radio appearance by the President on the racial conflict here.

Kennedy said last week in answer to news conference questions that it was wholly inexplicable to him why Albany officials wouldn't negotiate with Negro leaders.

New Industry For Prison Is Suggested

AUSTIN (AP)—A legislative committee suggested today that the state prison system start manufacturing wheelchairs for use in state hospitals.

The House Committee on Savings Taxes discussed the possibility with Raymond Vowell, executive director of the State Board for Hospitals and Special Schools.

Rep. Vernon Stewart of Wichita Falls said that the committee has heard testimony that wheelchairs purchased by the state are inadequate for the needs.

Vowell agreed that the state has to purchase wheelchairs often because they do not last.

"I think it would give the state prison system a new industry and supply us with a better wheelchair," Vowell said.

Rep. George Preston of Paris told Vowell to check and see if any Texas firm manufactures wheelchairs. "We don't want to go in competition with a Texas industry," Preston said.

Vowell estimated that the hospital board alone spends about \$6,500 annually on buying wheelchairs.

"They don't last because they are not durable enough for our needs," Vowell said.

Finkbines Await Official Approval

STOCKHOLM (AP)—Mrs. Sherri Finkbine finally saw a Swedish doctor Tuesday and is expected to seek official approval early next week for abortion of the baby she fears has been deformed by thalidomide.

Her husband, Robert, told newsmen his wife, a Phoenix, Ariz., television personality, will see the doctor again Friday. He said the application for the abortion probably will be submitted to the Royal Medical Board one day next week.

The Finkbines arrived Sunday to seek the abortion which was refused legal sanction by an Arizona court earlier. The 30-year-old brunette had taken the tranquilizer thalidomide during her early pregnancy. The drug has been blamed for the birth of several thousand European babies with deformed arms, legs and internal organs.

The Royal Medical Board has sanctioned abortions for seven other pregnant women who took thalidomide.

Finkbine said his wife, nearly three months pregnant, had not seen a doctor earlier because reports from American doctors on her condition had not arrived.

Prayer To Continue In Classrooms

MILFORD, Conn. (AP)—The Lord's Prayer will continue to be heard daily in the classrooms of the Milford public schools.

After a hearing Tuesday night attended by about 375 persons, the Board of Education voted 5-4 to retain what was described as the "custom" of daily recitation of the prayer.

The meeting and the board's decision came about as the result of a petition submitted by five Milford residents last November.

"It is our humble contention that the Lord's Prayer is a sectarian religious observance," the petition said. "We believe a public school is not a place for partisan religious observance."

Member Ulic Amena moved that the board retain the "custom" of having the Lord's Prayer said as part of the daily opening exercises.

"This is not a board policy," he said. "This is a custom."

This distinction in wording was made because of discussion about whether a recent decision of the U.S. Supreme Court was applicable.

The court ruled that the official prayer composed by the New York State Board of Regents for use in the public schools of New York State was in violation of the constitutional principle of separation of church and state.

Cox Opposes Turning Back Chamizal Area

HOUSTON (AP)—Jack Cox, Republican gubernatorial nominee, said he is opposed to giving the Chamizal area of El Paso to Mexico.

"I would be opposed to giving away one inch of Texas soil to anybody," he said.

Cox spoke to about 200 Houston Junior Chamber of Commerce members and their guests Tuesday.

Cox was asked his attitude about the proposed transfer of El Chamizal, a 400-acre section of El Paso, back to Mexico.

"I think we all know what Bobby Kennedy, U.S. Atty. Gen. Robert F. Kennedy, thinks of Texas," Cox said. "Now, it looks like he has his big brother thinking the same way. I believe the big brother wants to give all of it back."

Cox was apparently referring to a speech Atty. Gen. Kennedy made several months ago during a world tour in which he said the war the United States fought with Mexico for control of Texas was a black spot in Allean history.

El Chamizal has been the object of a dispute between the United States and Mexico since 1910. Discussions are now under way to clarify possession of the land. It was a part of Mexico until the Rio Grande flooded in 1864 and cut a new channel farther south, leaving the area on the U.S. side of the river.

El Paso residents have since moved into the area and part of it has been developed.

One Released From Underground Shelter

WASHINGTON (AP)—The Navy released Thursday one of the 100 volunteers taking part in an underground shelter test after he began to show signs of heat exhaustion.

The man was treated at the Navy's hospital in Bethesda, Md., where the shelter is located.

Temperature within the shelter during the last 24 hours has averaged 91 degrees, with a high point of 92.5.

Two Blazes Hit Austin

AUSTIN (AP)—Two downtown fires destroyed two warehouses in separate sections of east Austin Tuesday night and early today.

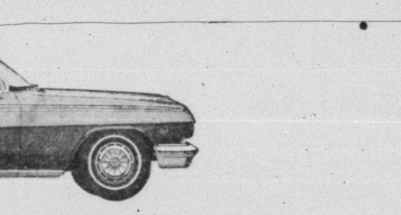

An Austin landmark on East 8th Street known to old timers as "The Old Oil Mill" burned late Tuesday. Alex Dochen, co-owner, estimated it would cost \$100,000 to replace the building but said he could not estimate the actual loss until making a detailed study of material stored in it.

Early today a large warehouse of the Austin Metal and Iron Co. on East 4th Street was destroyed by fire. No estimate was available of the loss.

There were no injuries reported.

Why "Good-Time Charlie" Suffers Uneasy Bladder

Twice eating or drinking may be a source of mild, but annoying bladder irritation—making you feel restless, tense, and uncomfortable. And if restless nights, with nagging backache, headache or muscular aches and pains due to over-exertion, strain or emotional upset, are adding to your misery—don't wait—try Doan's Pills. Doan's Pills act 3 ways for speedy relief: 1—They have a soothing effect on bladder irritations. 2—A fast pain-relieving action on nagging backache, headache, muscular aches and pains. 3—A wonderfully mild diuretic action thru the kidneys, tending to increase the output of the 15 miles of kidney tubes. So, get the same happy relief millions have enjoyed for over 60 years. For convenience, buy the large size. Get Doan's Pills today!

FROM LITTLE ACORNS---

Movie Star Must Have Hit Surinam Early In History

By INEZ ROBB

MOENGO, Surinam—Does any other adult in the audience remember Sinclair Lewis' story of "The Man Who Knew Coolidge"? By golly, here in the jungle, way back of beyond, I have discovered that gentleman's opposite number. The Girl Who Met Rock Hudson.

Up the beautiful, more than mile-wide Marowijne River (Yup, pronounced "mar-juh-wah"), in what ought to be a remote fastness, I have met a real Amerindian girl, blessed with saron and natural advantages. Her roots are still in the Stone Age, but her greatest treasure is a picture autographed for her by Rock Hudson, in person. (She has never seen a motion picture.)

When I beat my way up the Marowijne to Big Ston, an Amerindian village, it was with the expectation of seeing Stone Age artifacts of the unchanging aborigines who were here millennia before any Europeans arrived, not a picture of Rock Hudson. But Rock apparently came soon after the conquerors, in search of publicity for a motion picture. He posed with Miss Big Ston. She remembers him with the warm expression of a Hudson Fan Club flapper outside the Paramount.

Like all her people in the village, Miss Big Ston was shy and timid. The Amerindians, once so feared by settlers, today lack the aggressiveness of the bush Negro, who is quite capable, I believe, of bending civilization to his will. But the Amerindian seems to be retreating before it. Only 3,000 of them are scattered in villages throughout Surinam.

They posed hesitantly for pictures and seemed embarrassed and uncertain about accepting the coins put into their hands. One crone timidly offered for sale necklaces of tiny shells. Most of the men of the village were away, tending the fields of maize and cassava they have hacked from the jungle.

But one man was on the river's edge, expertly fashioning a long dugout canoe from a tree trunk.

The rivers now, as in times immemorial, are the highways of the aborigine, and of the bush Negro, too.

Life in an Amerindian village is not only primitive, but basic with or without Rock. The somnolence that enfolds it is the heritage of millennia. Life consists only of essentials. An Amerindian hut comprises a steeply-pitched, heavily-thatched roof, usually without sides, much less doors.

Only a few modern pots and

Memories Can Reveal Your Age

By HAL BOYLE

NEW YORK (AP)—Life is a hoard of remembrances.

The more you have to remember, the more you have lived; none is poor who is rich in memories.

You have made quite a journey through time if you can look back and remember when—

You had to crank a telephone to get the operator, and when she responded, you said, "Hello, central"—and then told her who you wanted.

Bob Hope was an obscure young song-and-dance man living out of a vaudeville trunk.

Movies were silent, and background music was provided by a neighborhood piano teacher—usually dumpy and middle-aged, so the patrons wouldn't bother her. During exciting scenes she always played the "Overture from William Tell."

When you asked a stranger what time it was, he reached in his vest pocket for his watch instead of looking at his wrist.

Elderly men always kept their change in a snap-shut coin purse.

Many a farmer made up his mind what and when to plant according to what the almanac said—and not by what the government ordered.

You could order a fine set of false teeth by mail. They might not fit very well, but then a fellow didn't have to wear them except in church, while attending a funeral, or other formal functions.

Farm girls wore dresses made from flour or grain sacks, accented by a dime store ribbon in their hair.

People walked so much that paring corns was the most popular form of home surgery.

Boys wore long black stockings that usually had a hole in the right knee caused by playing marbles.

The biggest showoff in the block was the kid who had saved up enough pennies to buy a Boy Scout knife. He wore it dangling from a string around his neck, so everybody would be sure to see it.

Every farmer was reported to keep a shotgun primed with bacon rind to fire at youngsters who tried to lose his watermelon patch at ripening time. If you got hit, the pieces of bacon rind stung like a thousand bumblebees.

Nobody was on a diet, and if you didn't order a second helping of every dish set before you, the hostess took it as a personal criticism of her cooking—and might cry after you left.

The fellow who had enough time to go down to the depot and watch the morning train arrive, and the evening train leave, was widely regarded as a pretty shiftless character.

The local druggist diagnosed more illnesses than the local doctor—and didn't charge you for consultation.

Only city people got up by the alarm clock. In town and country the rooster served the same purpose.

When a wise woman went courting, it wasn't merely romance that led him to hold a girl's hand. The number of calluses in her palm told him how much she helped her mother around the house—and whether she'd make him a good hard-working wife.

Remember?

Although alcoholism cannot be inherited, the Florida Alcoholic Rehabilitation Program says the presence of an alcoholic parent in a child's environment may sometimes produce emotional conflicts in the child which can cause him to be susceptible to alcoholism later in life.

Junior Editors Quiz on YOU

QUESTION: What is our blood composed of?

ANSWER: The blood is a wonderful, life-giving stream which circulates endlessly throughout the body, pumped by the heart. Our artist has given his idea of the main jobs done by the blood by the little hard-working figures shown at the top of his picture. To the left, air, or oxygen, is being carried along. Next comes a busy carrier of nourishing food materials which must, like air, be distributed throughout the body. The fellow with the sword does a protective job of attacking and destroying the body's enemies such as disease germs. The fellow with the buckets is taking out waste which the cells exchange for food. Now look at the bottom to see who or what actually does all these jobs. Over half of the blood is "plasma," a straw-colored fluid by which the blood cells are carried along. Most important are the doughnut-shaped "red blood cells" which carry oxygen and food and pick up waste materials. The white blood cells help the body fight off infection and disease. The little particles called "platelets" are also important. They make the blood clot in a scratch or wound and so save it from running out. Altogether, blood plays a most important part toward keeping us healthy and happy, like the kids dashing around the center of the picture.

FOR YOU TO DO: Take care of your blood stream by being sure that what you eat includes food which gives your body two important minerals needed by your blood: calcium and iron. Good sources of calcium are milk, cheese, green vegetables, oranges. Liver, meat, eggs, beans, dried fruit, shellfish, milk and whole grain cereals are rich sources of iron.

8-8

(Richard Searing of Auburn, N. Y., wins \$10 for this question. Mail yours on a postcard to Junior Editors in care of this newspaper.)

BIG BOY BLUE by Pap'

SPORTS

The Snyder (Texas) Daily News, Wed., Aug. 8, 1962 5

Between You And Me

By Jerry Jackson

This siege of 100-plus temperatures doesn't exactly lend itself to the playing of vigorous contact sports—baseball at midnight would be a less strenuous form of exercise—but there's no getting around that calendar, which is about as August as it can get.

Snyder footballers will begin formal workouts the 20th of this month. And prior to that, of course, will be the coaching school football and basketball games matching the cream of the North-South crops. They're set to be played in Lubbock, this weekend, and the city will be teeming with coaches, writers, players and fans from now until the school is ended.

Those of you who haven't picked up a copy of Texas Football from off the newstands are missing a good four-bit bet. It gives a clear and complete rundown on high school, college and professional football over the state as it appears at the pre-season writing.

The bee is put on the Dumas Demons' back in the publication as far as the "team to beat" is concerned within the Class AAA realm. With 18 lettermen returning from their state championship team, the choice is not an unexpected one.

An interesting look at the situation as it stands in 3-AAA is also recorded within the pages of the book. Following is the verbatim approach as printed:

"Defending champion San Angelo Lake View gets back only three starters and may lose its crown either to Sweetwater or Brownfield.

"Sweetwater, which slipped to 4-6 last year, has two fine backs returning and four prime linemen.

"Quarterback Marty Stewart (165) throws well and excels at option keepers while halfback Gene Kropp (150) is a speedster with elusiveness and home run potential. Up front are center Jesse Patterson (165), end Bobby Palmer (165), guard Mike Thompson (160) and guard Mike Pitts.

"Quarterback Teddy Howell (5-

11, 160), an effective runner-passer, makes Brownfield a strong contender. There are nine lettermen and four starters back—but the Cubs must find replacements for their debut after moving from District 2-AAA.

"New coach Al Langford steered Lamesa to a surprising 8-2 record last year but with eight starters departed and just seven lettermen available he has a major rebuilding job.

"End Woody Scott (6-2, 185) and quarterback Sherrell Kidd (5-8, 160) are good foundation material.

"The Snyder Tigers, 5-7 last year, can call up 13 lettermen but only two offensive regulars. Most of the offense will consist of fullback Bob Pena running behind the blocking of linemen led by tackle William Robinson (6-2, 185) and end Tim Hardin.

"The league darkhorse is Colorado City, where resides a slashing fullback named Charles Houston (5-11, 175).

"Thirteen lettermen and four starters are back, including guard Don Free (175), tackle Stanley Post (215), halfback Bill Boren and end Don Hairston. This team could challenge for the title.

"Lake View, which last year won its first football championship in 28 years of trying, is by no means ill-equipped.

"Quarterback Larry Hudson (6-4, 175) was All-West Texas on several selections last year, and halfback Lehman Cauley (155) and center Larry Word (215) were all-district. Also there are tackle Rusty Smith (205), guard Royce Burrows (155), tackle Ronnie Upton (195) and end Joe Hartman (160)."

A Scorch

Bill Atwood Jr. had a score as hot as the weather Sunday. He toured the Snyder Country Club layout in even par 35 with birdies on the two five-pars offsetting consecutive bogies on holes four and five.

An exceptionally fine round it was for the 15-year-old swinger.

Ward's 156 Paces Local Links-Coaches

LUBBOCK—J. P. Ward gained the distinction of being the only Snyder coach making it into the championship flight of the 36-hole Texas Coaches Tournament held at the Westlake Golf Course here Monday and Tuesday in conjunction with the coaching school.

He fired a 75 Monday, then slipped to an 81 Tuesday for a total of 156.

Ex-Snyder High Coach John Conley, now on the Texas Tech staff, was near the top in first flight play with his 76-147.

Coach Jim Stehley of Snyder missed tying for the third flight's top spot by only one stroke with his 81-78-159. Another third flighter near him was Milton Ham, formerly a star athlete at Snyder High and Texas Christian University and now a coach in Midland. Ham compiled steady rounds of 82-80 for 162.

Coach V. V. Shearburne of Snyder, playing in the fourth flight, shot 85-97-182.

Tommy Echols of Ira, who will be coaching in Snyder this coming season, competed in the eighth flight and had 98-93-191, while Gerald Greene, Fluvanna coach, had a pair of identical 96s for a 192 total while playing in the same flight.

Spring Branch High School Coach John Garrison was the tournament champion with 72-70-142.

MUSSEWHITE MUSCLEMEN — Musslewhite's team number one (seated) finished on top in Tiger Bowl's Orbit League this week, while second place honors were nailed down by Musslewhite's team two (standing). Seated from left are Wayne Monroney (team captain and roller of league's high game), Roy Darden, B. D. Bruyere and J. O. McNew. Standing from left are J. Y. McKinnon, Bill Lea, T. J. McKinnon (captain) and Dan Cotton. Cotton is the only non-Musslewhiter in the group, having bowled the league's high series while competing with Team 6.

Coaching School Underway

By HAROLD Y. RATLIFF

LUBBOCK (AP) — The Texas Coaching School opened today with almost 3,000 coaches getting the latest on football, basketball and baseball strategy and the better methods of developing a track team.

Ray Graves, coach of Florida, and Leo Strange, coach of famed Massillon High School in Ohio, talked about football. Tex Winter of Kansas State and Bob Rogers of Texas A&M discussed basketball. Jack Patterson of Baylor lectured on track and John Murff, Houston Colis coach, on baseball.

There were 2,874 coaches registered Tuesday and about 350 more were expected today. This would put the total within 109 of the all-time record.

The biggest turnout yet came from out of state. Coaches were checking in from California, Oregon and Washington on the West Coast, through the Midwest, the South and into the East.

All-star football and basketball squads went through three day drills. The basketball game Friday night promises to draw 7,500 fans, almost 1,500 more than the record set here in 1956.

The football game will be Saturday night. Advance sales of 12,000 tickets indicated the crowd will top the 20,000 mark and crack the record of 20,400 set at Houston in 1958.

Coach Flash Walker cited three players on his South basketball squad as impressive in workouts — Wayne Ballard of Houston Austin, Newton Grimes of South San Antonio and Harold Jones of Huntington.

Blisters and soreness hampered the North's workouts Tuesday but Coach John Ethridge of Amarillo liked the work of Carroll Houser of Richardson and speedy Eddie Dominguez of Dallas Jefferson. John Beasley of Linden-Kildare displayed some adept shooting.

Coach Carl Spoonmore of Lubbock was using Mike Boxwell of Dumas at quarterback but he had good words for the leader of the second unit, Mike Dossett of Dallas Woodrow Wilson. Dossett's long passing was outstanding.

Wayne Ballard of Houston Austin, Newton Grimes of South San Antonio and Harold Jones of Huntington.

Chlorine Gas Overcomes Swimmers

KANSAS CITY (AP) — Three children were overcome by chlorine gas at a swimming pool Tuesday.

A safety plug in a filter tank at the Eastwood Swimming Club blew out, spraying the poolside with the gas.

Tommy John Lauderdale, 7, was hospitalized. He was believed to be in good condition.

Sheila Ann Cooper, 10, and her sister, Jeanne Ellen, 11, were treated by a private physician.

Chlorine, commonly used as a sanitation agent in water treatment, can be lethal in gaseous form.

Business Remains Skeptical Of Kennedy Administration

EDITOR'S NOTE — In general, the American business community distrusts the Kennedy administration. What are the reasons? What do administration spokesmen say in reply? Associated Press reporter Reiman Morin presents the arguments from both sides in this third of five articles on Kennedy at mid-term.

By REIMAN MORIN
WASHINGTON (AP)—President Kennedy has tried to convince businessmen that he is not "anti-business."

He meets them in groups. He exchanges letters with David Rockefeller, president of Chase Manhattan Bank, New York, outlining his economic policy and philosophy. Or he invites the individual businessman to the White House, seals him on the long sofa in his office, and says, "I'd like to hear what you think I should do."

But the impact on the business community as a whole has not been notably deep. In many quarters, the belief persists that he is "anti-business."

In some cases, the motivation is visceral, an instinctive feeling that Democratic presidents are unsympathetic to business. The more specific reasons that emerge in conversations with businessmen go like this:

1. "I don't have any confidence in him. He says one thing but does another."

2. "He never had to meet a payroll, so he doesn't know the value of the dollar."

3. "Kennedy may be all right, but I'm scared stiff by some of the wild-eyed theorists around him."

4. "I don't hold any brief for the way Roger Blough—chairman of the board of U.S. Steel—handled the price increase. But Kennedy's reaction was bound to frighten business."

5. "He played mighty rough with management in the steel case, but I don't believe he will play rough with labor."

6. "He says a budget deficit is just a 'myth.' (a reference to the President's speech at Yale, last June 11.)

And these are the answers of government officials—

1. Business had confidence in President Herbert Hoover and Dwight D. Eisenhower, but four recessions developed during their administrations. Business confidence is based, in fact, on the ability of the economy to invest, produce and consume.

2. Kennedy expresses concern over the outflow of gold and deficits in the balance of payments. He says the dollar will not be devaluated. And he recently gave business a tax break—long in the works—which was estimated at

\$1.5 billion, on depreciation of plant, equipment. As Cabinet officers point out, "that break could have been given at any time in the past 10 years."

3. Policy advisors advise, but policy is made in the deliberations of many men who would not be described as "wild-eyed."

4. In the steel case, Kennedy considered the competitive position of American steel and the impact of steel prices on the prices of other commodities. He calculated that the increase would take \$3 billion from the economy. He also felt a "question of good faith" was involved, since the United Steel Workers had accepted a contract that the administration considered non-inflationary.

3. A high-placed officer says, "I know of a lot of pressure on the unions." He points out that, in the steel case, the government began "exercising the public interest" by "extorting the contract with the unions."

6. At Yale, Kennedy spoke of

several "myths." He said one was that "federal deficits create inflation and budget surpluses prevent it." He noted that the post-World War II surpluses "did not prevent inflation and persistent deficits for the last several years have not upset our basic price stability."

The President also called for a "serious dialogue" in all sectors of the American society on these questions. It has not developed and he is disappointed today.

But his remarks did provoke an exchange in hearings of the Senate Finance Committee between the chairman, Sen. Harry Byrd, D-Va., and Secretary of the Treasury Douglas Dillon. It went like this:

Byrd—"What does this word 'myth' mean? It has been handed back and forth a great deal lately. We have been hearing about myths in financial matters. There is nothing mythical about debt so far as I can find out. You have got to pay it back with interest. So you don't regard it as a 'myth.'"

Dillon—"I don't regard the federal debt as a myth."

Byrd—"You don't regard your requests as a myth?"

Dillon—"I certainly do not, Mr. chairman."

Cowdrey to these intricate problems of fiscal policy, and the increasingly serious economic competition from overseas, is another question. It may be stated in two ways:

What is the preview of government in labor-management negotiations that involve wages and prices, may cause strikes, or otherwise affect the American economy as a whole?"

Or, as businessmen put it, "How much is the government going to allow management to manage?"

In the years following World War II, neither Europe nor Japan could offer much competition to the American producer. Exports flourished. There was no problem of a deficit in the balance of payments. Except for a few exceptional cases of broad national importance, government tried to stand aside from the collective bargaining process. Labor and management were permitted to settle their problems alone.

Today, the picture is different. The foreign manufacturer, sometimes with more modern equipment, is competing everywhere with the American producer. The American Common Market is developing.

The dollar also is strained by American military commitments overseas, foreign aid, rising costs of equipment bought there, simply paying the American fighting men. Gold has been going out for several years.

In a speech last June 12, Solicitor General Archibald Cox noted these "changed conditions." He linked them with the question of the role of government in the collective bargaining process. He said government must have a voice, adding:

"Note that I speak not of a governmental veto but simply of giving the government an opportunity to be heard as a spokesman of the wider public interest. This was the real point at issue in the steel episode."

Kennedy was asked about this speech and he said he did not think he had read it. He added, "But this is a free economy... and we have to work out solutions on a voluntary basis."

As he has said on many occasions, there are no easy answers.

Work on construction of the Scurry County Library Building at Twenty-third Street and Avenue T is nearing completion.

Forty youngsters ranging in ages from three through the teens are eager people out at the Country Club swimming pool.

Nonnie Rodgers, an 8-year-old, is one of the youngest members of the advanced class.

Forty-two babies born in Scurry County during July brought the county's total so far to 276.

That total is higher than the number born here during any entire year from 1949 back, according to records here.
