Defense Opens Testimony In McPherson Case

AIMEE ATTENDS COURT HEARING DESPITE ILLNESS

RECESS CALLED DUE TO INFECTION IN KNEE OF DEFENDANT

(By the Associated Press)

LOS ANGELES, Oct. 20.—Comforted by the prayers of her followers and fighting against a threatened breakdown, Aimee Semple McPherson, evangelist, accused of criminal conspiracy, today faced her court ordeal with the determination to break away from her preliminary trial.

The municipal court hearing, now in its fourth week, was halted abruptly yesterday when the Angelus Temple pastor was lifted in an arm chair and carried out of the court room on the shoulders of four men.

Suffers From Infection

The recess was made necessary when Attorney W. I. Gilbert announced to the court his client was suffering from an infected knee. The infection first was complained of last Monday when Mrs. McPherson expressed the belief she had been "poisoned" by a scratch from a pin or tack placed on her chair in the court room.

A diagnosis last night revealed the infection is a carbuncle. Her physician who lanced it during the noon court recess yesterday last night announced that the identity of gangrene condition serious.

Mrs. McPherson, however met her adversaries with the assurance she was "feeling fine," and would be present when her court hearing was resumed today.

The prosecution completed its case yesterday with the testimony of Milton Carlson, handwriting expert. Carlson was positive the grocery list, found in a Carmel cottage occupied last May by Kenneth G. Ormiston, intrepid radio operator, and a mysterious woman companion, had been prepared by the same person who wrote the "light and darkness" sermon notes picked up on the beach at Ocean Park when Mrs. McPherson disappeared. A receipt for a telegram delivered to the Carmel cottage and pencil notes, said to have been used by Mrs. McPherson in the "X" affidavit likewise was identical with the handwriting of the sermon notes, Carlson declared.

Cowboy On Stand

C. E. Cross, Arizona cowboy and deer tracker, the first defense witness, had been on the witness stand nearly 15 minutes when the hearing was stopped. His brief testimony was intended to contradict that of Almonzo B. Murchison, Douglas, Ariz., police officer and prosecution witness. Murchison had declared it was physically impossible for Mrs. McPherson or any other woman to make a 20 mile desert trek under the condition she described in telling of her escape from her alleged kidnappers.

Cross recited his own experiences on the Mexican desert and told of once having hiked 15 or 20 miles without water and knew it could be done. He was shown the unscruffed shoes which Mrs. McPherson wore when she staggered into Douglas last June and expressed the belief she could have walked 15 miles without leaving them any more the worse for wear.

Socialist Leader Unconscious But Clings To Life

(By the Associated Press)

CHICAGO, Oct. 20.—The resolution that sustained Eugene V. Debs through trying times as the nation's chief exponent of socialism, was with him today as he lay at death's door.

Fighting against the odds of a failing heart and the infirmities of seventy-one years, he lay in a state of coma in a sanitarium but physicians said his desire to live, warded off the end although he was unconscious.

Case Said Unusual

Mr. Debs had been in that condition since Saturday night, and the four day coma was characterized as most unusual by his physicians, who, however, said they did not expect the patient to live through the day.

A consultation was held late last night and it was agreed that the disturbance of the heart was rapidly progressing to a fatal termination. The scientific diagnosis is myocarditis with articular fibrillation.

Consultation Held

The consultation revealed that the man who was five times chosen by the socialist party for the presidency of the United States, the last time while he was in Federal prison for declarations against the drafting of men for war service, pursued his long activities in behalf of the labor and social reforms under the handicap of heart disease. From the age of fifty he suffered from myocarditis, which, with complications, placed the shadow of death upon him.

The DeReszke Singers

Here are the DeReszke Singers who will appear in the same bill with Will Rogers at the High School Auditorium Thursday, November 4, under the auspices of the Daily Journal and Morning Avalanche. The DeReszke Quartet, recognized as one of the greatest of the American stage, coming here direct from two triumphant concert tours and Keith and Orpheum condoville. Tickets for the performance will go on sale Thursday morning at 10 o'clock and the Hotel Drug Store.

FIVE BANDITS ROB BANK OF \$10,000

(By Associated Press)

KANSAS CITY, Oct. 20.—Five "wild west" bandits robbed the Bank of Sugar Creek at Sugar Creek, Mo., suburb, of \$10,000 today and escaped after lining ten persons up against the wall and firing a fusillade of shots over their heads. No one was injured.

The quietest left a car and driver in front of the bank building and entered the bank firing their revolvers as a command to line up, without any verbal orders.

The bandits were young white men. Two scooped up the cash from the counters while the others held the bank officials and the customers at bay. When the money was gathered up, several additional shots were fired. They ran from the bank, leaped into the car and sped away.

G. R. Buckley, vice president, was struck on the head by one of the bandits when he did not line up with the others.

Plane Swoops Down Killing Aged Man

MONTGOMERY, Ala., Oct. 20.—An airplane flying at an extremely low altitude knocked down and killed Frank G. Browder, Sr., an 84 year old Confederate veteran in his cotton field near Montgomery today.

Clark Henry, negro, also was knocked down and severely injured, and children from the Masonic home near Browder plantation narrowly escaped injury.

The plane swooped down, struck Mr. Browder and the negro and then sped off toward Montgomery before its identity could be determined.

Three Are Held For Assassination Plot

LENINGRAD, Oct. 20.—Three Estonians were arrested today charged with attempting to assassinate Ato Birk, former Estonian minister to Russia.

Police said the men confessed that they were sent to Russia by the Estonian secret police to kill Mr. Birk because of his alleged Soviet sympathies.

Birk, who was relieved of his post by the Estonian government for alleged partisanship toward the Bolsheviks, is still in Moscow fearing his life would be jeopardized if he returned to his native country.

KNUBEL RE-ELECTED

RICHMOND, Va., Oct. 20.—Dr. P. H. Knubel of New York was re-elected head of the United Lutheran church in America by the fifth biennial convention of the church here today. The vote was 385 to 42.

Charges Hurlled By Houston Man In Highway Probe

(By the Associated Press)

AUSTIN, Texas, Oct. 20.—John Raitton of Houston, manufacturer of expansion joints used in concrete construction, testified today before the legislative investigating committee that Eugene Smith, when secretary of the highway commission had suggested to him a good way to do business with the state highway commission was to spend \$5,000 for "advertising" and have the right man handle your business at Austin. Smith is now chairman of the commission.

Raitton said he had brought \$100 with him to "try to establish friendly relations" but "I quit when Smith began to talk about \$5,000, for \$100 would not have bought tooth picks for that gang."

He said when W. F. Kemper succeeded Hank as state highway engineer, a car load of joints ordered by the Tibbette Construction company for the Dallas-Fort Worth pike, was disapproved by the commission. This disapproval for a time threatened to ruin his business, cancelling \$28,800 of orders.

Raitton stated he made eleven or twelve trips to Austin, but was not able to get a hearing with the commission until he appealed to James E. Ferguson, husband of the governor. He said he told Ferguson it would make a "good friend of Ferguson" and "unless Ferguson aided him and that Ferguson wrote a notation on a letter to J. Busson. This notation asked the commission to give a hearing to Raitton, who comes recommended by my friend, Husson."

HAVANA STRUCK AS STORM MOVES ON TO MAINLAND

WIND REACHES VELOCITY OF 130 MILES AT HAVANA; NONE KNOWN DEAD

(By Associated Press)

WASHINGTON, Oct. 20.—Hurricane warnings again flew over southern Florida territory today in the face of an approaching gale described as of "great intensity" by the weather bureau.

This morning the disturbance, another of the tropical variety, was reported central near Gerona, on the south coast of western Cuba, moving north-northeast.

Storm Warnings Given

Warnings from Boca Grande and Punta Gorda to West Palm Beach were to be prepared for the winds, for the east storm warnings were flown from Boca Grande to Tampa and north of West Palm Beach to Titusville.

The weather bureau predicted northeast winds would increase and reach hurricane force late this evening or tonight over extreme southern Florida.

The highest wind so far reported officially was 30 miles an hour at Havana. Near Gerona there was no indication of its velocity.

Weather bureau officials were reluctant to commit themselves on the possibility of damage at any port, contenting themselves merely with the official text of their warning.

MEYER TO PROBE SOUTH'S COTTON

WASHINGTON, Oct. 20.—Eugene Meyer, chairman of President Coolidge's cotton committee left today to make a survey of the south with a view to aiding in the disposal of this year's record crop. He was accompanied by A. C. Williams, chairman of the farm loan board. They will go first to Raleigh, N. C., and their itinerary now includes also Columbia, S. C., Atlanta and Birmingham. Other cities also will be visited if time permits.

They intend to confer with representative men in various states and to make a survey particularly of the warehousing, marketing and financing of the cotton crop.

It also is likely they will aid in the organization of the state financing system, which was suggested yesterday by the president's committee as a means of aiding the cotton planters in obtaining sufficient credit to hold their crops for better prices.

Hurricane Hits Havana

HAVANA, Cuba, Oct. 20.—Havana was struck by the West Indian hurricane early today, the wind velocity reaching 120 to 130 miles an hour. Streets were flooded and littered with debris of all kinds. The storm left Cuba headed northeast and it was indicated that it was traveling at about 10 miles an hour toward Key West.

It was believed that it would take about eight hours for the storm to get to Key West.

Electric lights were cut off and transportation tied up. The streets were littered with trees, awnings, wires and electric signs.

The Associated Press wire was out.

(Continued on page 6)

Poland School Man Is Shot To Death

LEMBURG, Poland, Oct. 20.—Stanislaus Sobinski, provincial superintendent of education, was shot and killed today while walking near his home with his wife. Madame Sobinski could not identify the assassins, two young men.

The authorities assume that the two were Ukrainian students, as the superintendent recently received a number of threatening letters from Ukrainians.

Mercury Hits 52 At Wichita Falls

WICHITA FALLS, Texas, Oct. 20.—A brisk wind out of the north which struck Wichita Falls Tuesday evening sent the mercury tumbling 30 degrees from 82 to as low as 52 degrees during the night. With bright sun Wednesday morning the temperature climbed to 56 degrees at 8 o'clock.

Temperatures in Oklahoma and the Texas Panhandle were slightly lower but there was no indication that severe cold weather was in sight. Ferguson, Okla., reported a temperature of 48 degrees, while at Amarillo and Texline the mercury did not fall below the 50 mark during the night.

Proceedings In Court Of Appeals

AUSTIN, Oct. 20.—Proceedings in the court of criminal appeals today include:

Affirmed: Chester Warfield, Houston; J. C. Long, Atascosa. Reversed and remanded: Luther White, Donley; Henry Adams, Rains. Appellant's motion for rehearing overruled: Leonard Cobb, Jefferson; Roy Davis, Hill (two cases); C. L. Anders, Runnels; Granville Wilcoxson, Collins; H. Fuzgo, Taylor.

FIVE BANDITS EXECUTED

ROSTOV-ON-DON, Russia, Oct. 20.—Five bandits were executed today for the murder of M. Kaimikov, a member of the central executive committee of the Soviet Union.

Flashes Of Life

By Associated Press.

Expensive View

NEW YORK.—It will cost \$1,000 for a box close to Queen Marie at the Metropolitan opera house next Sunday night. Mrs. Claus Spreckles and her Nelson Morris have paid \$5,000 for one jointly. A more distant view of royalty, but a better glimpse of Louis Fuller's ballet, may be obtained in the orchestra for \$25. The performance is represented as for the benefit of a war memorial in Washington sponsored by Mrs. C. Crittenden Calhoun.

\$75 Vs. \$50,000

BERLIN.—Dr. Otto Peltzer prefers \$75 a month as a teacher of economics and physical culture in the public schools to \$50,000 for showing his speed as a middle distance runner in the United States. He has rejected American offers. Whether they are from Mr. Pyle's sport trust is not disclosed.

Liberal Banker

NEW YORK.—John Whelan gives his entire time without salary to his duties as president of the Bank of Washington Heights, which has deposits of \$1,000,000.

Meatless Dog

LONDON.—Arjun Lalshet, a Hindu millionaire, is spending much money trying to breed dogs in Baroda that won't eat meat. He has bought a village and is experimenting by feeding the dogs rice, wheat, milk and butter, barring cats and stopping up rat holes.

Auction Letters

NEW YORK.—Latest quotations on presidential letters: Woodrow Wilson \$26; Theodore Roosevelt \$27.50; Warren G. Harding \$30. These prices were paid at an auction.

DAILY ALMANAC

Temperatures Here Yesterday
Maximum 80
Minimum 49
Mean 64 1/2

West Texas: Tonight generally fair cooler in south; Thursday fair warmer in north.

East Texas: Tonight fair cooler; Thursday fair.

Oklahoma: Tonight fair, light frost in exposed places in northeast; Thursday fair, rising temperatures.

Arkansas: Tonight fair cooler, light frost in exposed places in extreme north; Thursday fair; warmer northwest.

Louisiana: Tonight fair, cooler; Thursday fair, cooler in southeast.

IN SOCIETY

The Social Calendar

THURSDAY

The 1926 Social Club is to meet at 8 o'clock at the home of Mrs. J. S. Johnson with Mrs. W. S. Posey as joint hostess.

The Parent-Teacher Association of the Dugre school will meet at 8 o'clock in the afternoon at the school.

Baptist Evangelist Preaches On City Streets Today

Rev. W. Y. Pond, evangelist who is conducting a revival at the First Baptist church, is preaching on the streets of the business section of the city again this afternoon at 4 o'clock. In addition to his regular daily service at 10 o'clock in the morning and at 7:30 o'clock in the evening.

Billy Baskin Is Host At Birthday Party

Billy Baskin was host to a group of his friends with a birthday party Saturday afternoon at his home, 1506 Avenue O. Games were played with his aunt, Miss Daisy Baskin, and his sister, Kathryn, directing. The birthday cake was served with hot chocolate and Halloween decorations were used. Guests were James Lattimore, Bobby Robertson, James Hays, Gerald Hays, James Lee Chase, Lee Michie, Oscar Nislar and Douglas Hocker.

Mrs. O'Sullivan Will Represent Club At State Meeting

Mrs. M. O'Sullivan is to represent the Lubbock club at the annual meeting of the Texas Federation of Women's Clubs at a regular meeting of the society at the First Baptist church. The lesson on Europe from 1900 to the Renaissance was led by Mrs. L. Banks. The next meeting will be with Mrs. J. E. Hamilton when a charity day program will be given.

Ella Kathryn Davis, Slide, Hostess At A Birthday Party

Ella Kathryn, six year old daughter of Mr. and Mrs. T. J. Davis of Slide, celebrated her birthday Sunday afternoon with a party to which several of her friends were invited. Garden flowers were artistically arranged in the house and chrysanthemums and petunias were used as plate favors. Peaches were served with chocolate and banana cake.

TECH HOME ECONOMICS CLUB TO ATTEND WEINER ROAST

The Home Economics club of the Tech is to have a weiner roast on the college campus at 8 o'clock Thursday evening. All girls in the school of liberal arts who are taking home economics are invited to attend also.

Mrs. Foster Leader Of Junior Twentieth Century Lesson

Mrs. Tom Foster led the lesson at a meeting of the Junior Twentieth Century club Tuesday afternoon at the First Methodist church. The discussion of sculpturing was opened by Mrs. Elmer Conley and Mrs. J. B. Crider talked on the Renaissance period. Mrs. Foster discussed "Michelangelo" and Miss Mayme Alexander talked on modern sculpturing. There were 12 present.

Nine Camp Fire Girls Take High Rank At Council Fire

Nine members of the Pewee Camp Fire troop took the wood-gatherer rank at a council fire Monday afternoon at the home of the guardian, Mrs. C. M. Holt, and honor beads were awarded other girls. Plans were made for an all-day Gypsy hike and the entertainment committee is meeting this afternoon at the home of Marsha Spencer.

Bridge Party Is Given At Home Of Mrs. L. E. Miller

A bridge party was given Tuesday afternoon at the home of Mrs. L. E. Miller, 2912 15th Street, with Mrs. Carl Patton as joint hostess. Halloween decorations were used throughout the entertaining and in the appointments of the bridge tables. High score in the game was made by Mrs. Fred Stauder and low score was made by Mrs. Walter Myrick. Creamed oysters, patty shab, fruit salad, bread and butter sandwiches, olives, coffee and cheese carrots were served to the following:

Mrs. R. C. Smith, C. L. Quillin, Lester Smith, Amos Howard, H. L. Johnston, Hub Jones, Floyd Bowen, Fred Stauder, Richard White, L. E. Miller, W. E. Price, H. E. Miller, W. S. Moss, Walter Myrick, Jr., Louis Moore, E. L. Lowery, D. W. Crawford and Miss Esther Cooper.

Menu For Today

BREAKFAST—Orange juice, cereal cooked with figs, this cream, savory scrambled eggs on toast, crisp graham toast, milk, coffee.

LUNCHEON—Baked green beans and bacon, peanut butter bread, fruit marmalade, squash custard pudding, milk, tea.

DINNER—Hungarian goulash, head lettuce and tomato salad, Dutch apple pie, graham bread, milk, coffee.

Four Fruit Marmalade—One cup cantaloupe cut in half sliced, 1 1/2 cups diced apple, 1 cup diced peaches, 1 lemon, 1/2 cup diced canned pineapple, 3 cups sugar.

Put fruit and sugar, layer for layer in preserving kettle. Add grated rind and juice of lemon and let stand overnight with a clean cloth for one hour. Bring quickly to the boiling point, taking care the sugar does not burn, and cook rapidly until the mixture is transparent and thick. Pour into sterilized jars and seal.

Dutch Apple Pie is nothing more nor less than a one-crust apple pie made "nummy" with lots of sugar, cinnamon and butter. The apples are pared, cut in halves and cored. Place cut side up in a deep pie dish lined with plain pastry. Sprinkle fruit with sugar and cinnamon and dot generously with butter. Bake in a moderate oven. When the apples are almost done, about ten minutes before removing from the oven, pour 1/4 to 1/2 cup of cream over apples. Finish baking, cool and serve.

The cream of course can be omitted but it makes a delicious pie. (Copyright, 1926, NEA Service, Inc.)

The Woman's Daily Editorial

By OLIVE ROBERTS BARTON

KILLING A MAN ISN'T ONLY WAY TO FIND PEACE

In the mountains of North Carolina a son recently killed his father. There had been a feud between them of long standing and they came of a family where there was only one way to settle a feud. If the son had not killed the father, the father would have killed the son. In the same peaceful family there had been other murders. Fortunately, the family is exclusive in its killings and keeps them strictly private.

Only a few miles away from this riotous abode is a hotel, a huge stone mammoth whose watchword is "peace."

Guests go there from all over the United States to sort out tangled nerves and rest their brains and spinal cords. The orders for quiet are strict. One does not laugh loudly, and a cough or a sneeze is fatal. Bathroom spigots may not be turned after eleven o'clock, and motors are stopped at the lodge gates a little after sunset. Not a carniarium, merely a haven of peace for the mentally and physically weary.

One of the world's great contrasts. A giant with seven league boots could stand with one foot on the house of turmoil, the other on the house of peace.

To those of us who can not so simply remove the cause of our troubles, either by a notch on our guns or by a retreat to an expensive cloister, there is another way. We might get down to cases and find out the exact cause of our fretting. If we are honest with ourselves and

MARIE LEAVES CAPITAL WITH PLANS CHANGED

NOT TO TOUR CALIFORNIA OR ALLOW NEWSPAPER MEN ON HER TRAIN

(By Associated Press) WASHINGTON, Oct. 20.—Having completed the opening formalities of her visit to America, Queen Marie and her royal Roumanian party left Washington at 2:15 o'clock this morning for Annapolis, traveling over roads made hazardous by a cold, drizzling rain.

She prefaced her departure today from the nation's capital with the announcement of two last minute changes in plans for her American tour after the conclusion tonight of its supervision by the state department.

The soft-spoken, diademed queen who exacted last night the first royal banquet ever held in the White House, let it be known through her spokesman that she will not visit California, as planned originally, and that press representatives will be barred from her train for the remainder of her trip.

S. P. Won't Donate Train Colonel John H. Carroll, general counsel of the Baltimore and Ohio railroad, in charge of her itinerary, said that difficulties with the Southern Pacific railroad, which refused to grant a rate of \$1 for transporting her special train over its lines, were responsible for the elimination of San Francisco, Los Angeles and other California cities from her route.

As regards the other change, the state department's arrangements for her transportation to Washington and her return today to New York included the presence of three press association representatives on her train, as has been the custom with the official trips of other eminent visitors or American statesmen.

Her "Original Object" But after 26 hours in the United States during which she had been heralded, photographed and interviewed as few visitors to this country have been, "the beautiful queen, in Europe," said that the "original object" of her trip to this country has been neglected. She desires privacy and is here, she insisted solely as the representative of her government in the dedication of the Roumanian room of the Maryhill fine arts museum at Maryhill, Washington, for which she had brought over many treasures from her country.

Her last appearance in Washington, the culmination of the diplomatic and official functions of yesterday, was at the White House dinner given in her honor by President and Mrs. Coolidge. Here she appeared before members of the cabinet, other distinguished government officials and members of the diplomatic corps to the number of fifty, in all the glittering pomp of her rank.

Regal Diadem on Head A regal diadem circled the shingled auburn locks of this modern monarch, inherited from her royal Russian mother, the Grand Duchess Marie, daughter of Czar Alexander. Her crown dipped great pear shaped pearls which harmonized with the three orders of pearls that, with her decorations, completed her ornaments.

The decorations over her heart was the blue ribbon and star of the order of Carol, Roumania's highest order.

Her white gown glittered with sequins. Its neckline was round to the front, and ended in a low V from which hung a train in the back. A gold and white brocade cloak, subtly trimmed, covered her gown on her trips to and from the White House.

The Princess Ileana wore a simple, well cut gown of blue crepe de chine, no jewels, but a smaller ribbon and star of the order of Carol.

Return to Legation After the President and Mrs. Coolidge and Secretary of State Kellogg had received the queen and her two children in the famous blue room of the White House, they at once returned to the call at the legation.

Annapolis, where the royal party motored today, holds particular interest for the queen, because her son, Prince Nicholas received his training in the British navy and holds the rank of Lieutenant in the Roumanian navy.

After Annapolis, Baltimore and again the state between Washington and New York lie in the regal path today. The queen's special train carries her party back to New York this evening, and so concludes the state department's part in arranging her tour of America.

DENIES SLUSH FUND

CHICAGO, Oct. 20.—Such brands as "an absolute falsehood," and "not even a clever lay," were attached to tales of \$20,000 or a \$400,000 slush fund to aid the candidacy of Hugh S. McGill in his United States Senatorial race, by witnesses appearing before the Slush Fund committee today.

Wives Are Victims

BELGRADE—Five ring leaders of the Lucretia club, which taught its members, unhappy wives, how to mix medieval persons, are in jail. Six murders of husbands are attributed by the police to the club.

THE TEMPERATURE REACHES 49

The weather map has smiled on the South Plains during the past few days following nearly a month of heavy rainfall that smashed practically all former records, but in keeping with other parts of this section of the state, temperatures Tuesday night fell below 50. A reading of 49 was registered here at the coldest part of the night, with the maximum reading standing at 59 yesterday.

A brisk wind out of the north Wednesday morning served to quicken the steps of local people, but with warm sunshine of later morning, temperatures began a steady climb upward. The wind and sunshine will add materially to the work of reconditioning highways throughout this part of the state, left in deplorable condition by the heavy rains, and according to a report in highway circles this morning, the state, left in deplorable condition, highways are fast assuming their normal proportions, although several lakes are still prevalent on main arteries of travel.

Indications today were that fair weather will continue, adding farmers in their relentless spirit of harvesting the bumper crops in this section, and farmers have taken some heart as the price of cotton steadily rises toward the fifteen cent mark.

FORT WORTH WANTS TEACHER

FORT WORTH, Oct. 20.—A proposal that the Texas state teachers' association be invited to establish its permanent headquarters in Ft. Worth and help for the contemplated municipal auditorium will be made when

coordinate services are held here on December 1 to discuss the project.

Wear Long Dresses Anson Farmer Asks

STAMFORD, Texas, Oct. 20.—"If the girls and women would wear their skirts long and put sleeves in their dresses, there would not be enough cotton," declared an Anson Farmer in a letter to the West Texas Chamber of Commerce.

He denied there was an over production of cotton and blamed the present condition to under consumption. Retelling the hectic days of 1920 when cotton would not pay for the picking, the letter said "they introduced long pants for the little boys that year."

Mrs. C. C. Lindsey Is Hostess At Bridge On Tuesday

Mrs. Clifton C. Lindsey entertained at bridge Thursday afternoon at her home, 2015 Main street. Halloween decorations were used in the house, small baskets carrying the motif and filled with candy being on each table. Yellow chrysanthemums filled vases and bowls. Pumpkin pie and coffee were served the guests following the games in which Mrs. Caylor scored high and Miss Thelma Stewart made low score.

Germaine Finds Gorgeous Cloak of Blue and Gold Brocade, Fur

PARIS, France, Oct. 20

Dearest Cousin: This has been a very busy week, but a pleasant one, thanks to the new interest, meaning the new editor, brought into my life by Aunt Louise.

He is prematurely gray, which makes him most distinguished looking, and he is quite old—nearly 40, I believe, but older men are always fascinating. Don't you think so? They assume all the responsibility, do all the entertaining, think up all the chattering compliments, and you need make no effort at all—only look your best and later, if appear to.

My prophetic soul tells me that there must be many women in the life—one does not acquire his manner with women without an effort. But a little honest competition never bothers me.

M. Perrotte is very clever. Perhaps I am too, in my way, for while on the one side he is being very demure, on the other is laughing merrily at the little drama that goes on.

You see, he is really much more gallant to mother and Aunt Louise than he is to me—he would by his foundation firmly in the rocks. He thinks of the most subtle compliments for them, and deftly insinuates that he considers them very beautiful—and me very childish. They both exhibit with him a coquetry that amuses me greatly. They pick up the wilted flowers after a train when he appears. How obvious all women are—and men, too. Is that not true?

As for me, I know my role, and I am playing it. I am the golden child who has never had an ambition beyond a wedding ring. Thank heaven, I have long sweeping estates.

When all my other blunders fall, I can always depend upon that little trick I learned as a child—sitting with downcast eyes until some one notices my pensiveness and

Blue and gold brocade

Black wool embroidered in white

thinks about it, when I look up very slowly and innocently. When mother and Aunt Louise become too scolding with their mature wit, I employ this natural gift and restore the balance of power.

M. Perrotte called three times last week, and took mother and me to tea. This week we are all going to a dinner party at his house, and Aunt Louise says he has a genius for assembling guests and wines.

Just once have I shopped, and then I merely accompanied my friend Josephine when she bought a street dress and an evening wrap, which she very kindly permitted me to have photographed for you.

The dress is of black wool embroidered on the sleeves and about the scalloped hem with white wool. The trim lines are very attractive. Quite a contrast is the coat which is of blue and gold brocade, with a semi-lined hem outlined with gorgeous fur of a grayish blue coat.

She ordered some new velvet turbans from Agnes that fitted her head ever so perfectly and were folded so closely that none of the outline of her pretty little head was lost. I adored them.

We saw marvelous evening attire—one gown of white satin and white net with spiderwebs of rhinestones and silver embroidery that gave it the most delicate appearance. I thought of a daisy, summer morning.

Too thrilling for words was a pajama outfit with red velvet trousers and a pink satin cowboy shirt.

I saw marvelous black velvet robes de style lined with silver, cloth and trimmed with diamond ornaments and a lovely black velvet suit with a high fur collar and silver waistcoat that would have been ravishing on a blonde. Next week, I am going to shop in earnest, and will look for you as well as myself. All my love. GERMAINE

THE BIG SHOW! MORGAN WINS BY OUTPOINTING DUNDEE

SAN FRANCISCO, Oct. 20 (AP)—The Morgan of Seattle continues supreme in the division of junior lightweights. For a brief thirty minutes here last night, his authority was questioned but before the battle had progressed far, the challenger, Johnny Dundee of New York, had been put to rout by a barrage of flying gloves that beat a steady tattoo on the face and body.

Coming out after the fourth round, Morgan drove the veteran New York boxer around the ring, landing seemingly at will both to the mid section and the face. At the finish, there was no question as to who Harry Ertle raised the champion's hand.

The victory, while complete, was tempered with the knowledge that Dundee fought through most of the bout with one hand. His handlers announced that an old injury in his right hand had been fractured during the second round.

Dundee's best showing came in the second round when he scored repeatedly with his left hand and jolted Morgan with a right to the jaw that sent the Seattle youth spinning. The pair fought on fairly evenly in the opening frame with Dundee's bobbing style bewildering his opponent somewhat.

The title holder had an edge in the third and forged into the lead in the fourth, holding it the rest of the bout. The champion had a slight advantage in weight, checking in at 128 1/2 pounds while Dundee weighed 126 1/2.

Hitting Sports Highspots With James R. Dow

Going to Lamesa this afternoon to see the contest between the Tornados and the Tigers. It will likely determine the championship of the Class B schools of the lower South Class B divisions of the lower South.

It may be and it may not—the question is will it or will it not—the Clarendon Bulldogs will be here Saturday to battle with the Texas Tech Matadors—of course the fans of the Matadors are expecting an easy game because Clarendon College is a small college—but think about Center College of Kentucky and Geneva College where Bo McMillan is coaching—they have beat the largest colleges of the U. S.

McMurry was defeated by the Bulldogs last week by a score of 20-6, and the Matadors defeated the McMurry Indians by a score of 7-0—predict the contest Saturday for yourself.

The Plainview aggregation is working hard to take the Westerners for a round. If the Westerners do not put more fight and punch in the game than they did last Saturday with the Davis club—it's Plainview's game.

Dallas will turn Aggieford Saturday when the special trains begin to arrive in the city. 2000 fighting cadets will storm Dallas for the S. M. U. & M. game.

Cow-town will be ready for the Tech fans—reports indicate—hope that the Matadors will be ready for T. C. U.

Everybody is going to Ft. Worth—let us have your name for this trip early. We want to get the best train that can be had.

"On to Ft. Worth"—"Beat T. C. U."—her ring out loud. Let the world know that besides being a great educational institution that the Texas Tech is capable of having a fighting football aggregation.

"Get a Horned Frog"—It's Tech first contest with a Southwestern Conference team. T. C. U. game is the banner contest of the Matadors—let's all go!

RUETHER GOES TO YANKS IN TRADE

NEW YORK, Oct. 20 (AP)—Garland Baxton, promising left handed pitcher, and Nick Cullip, recruit outfielder, are going to the Washington team from the Yankees as the result of the arrangement by which the Yankees gained Dutch Ruether, the New York club announced.

When waivers were asked on other by Washington, all but the ones refused to put in a claim. It was known then to be safe from appendicitis, but he took in the world's series.

League rule prohibits the transfer of players except by waiver after July 1 of any season.

Washington receives \$4,500 from the Yankees in addition to the two players.

Abilene To Have Additional Paving

ABILENE, Oct. 20.—The city commission has ordered the paving of three additional blocks, two on South First, from Oak to Locust Streets and one on Locust street. The city also decided to take in 32 1/2 acres of land inside the city limits at the request of T. C. Campbell, property owner.

Abilene no claims to have the factory in Italy where all the glass is made by machinery.

Crimson Quarter

A. H. STAFFORD

Meet A. H. Stafford, quarterback on the Harvard University football eleven. He's a handy field general, fleet foot and a brilliant, elusive runner in a broken field. The Crimson expects much from him this fall, though it's his first year on the team.

MATADORS EXPECT HARD GAME WITH CLARENDON

What most Matadors fans are considering as an easy game for the Texas Tech gridsters might not be so easy—and that is the game with the Clarendon Bulldogs here Saturday. If the fans would turn back the pages of the football chapters to the game with the Bulldogs here last season it will show that the game was one of intense interest and a hard fought battle for the Matadors.

Burton, coach of the Clarendon College athletes, for years and years has put out strong grid clubs. He is an able coach and is capable of developing a winning combination with but a mere handful of material, which has been shown since his stay in Clarendon.

On the opening of the season, the Bulldogs held "Big O's" Eckhardt's tramping lurcher to a close margin of 2-0. On their homecoming event, of last week, the Bulldogs defeated the McMurry Indians to a score of 20-6, while in the opening contest Tech was able to score only one touchdown on the Indians. If a contest could be predicted by relative scores, Clarendon has already won the game with the Matadors.

Several old lettermen have returned to the Clarendon College kennel for another year's work for the green and white. And with additional material Burton has developed a strong combination.

LAMESA TO BATTLE SLATON TIGERS TODAY

(Special to the Daily Journal) LAMESA, Texas, Oct. 20.—Today will mark a great epoch in the prospects of the Lamesa Tornados in their standing of the Class B conference football expectations of the South Plains. The Tornados are meeting their hardest contest this afternoon here with the Slaton Tigers.

The Tigers have ruled supreme on the lower region of the South Plains for the past few years; they have put out two championship aggregations and have a stronger contender for that distinction this season. While on the other hand, Lamesa, has never won a football championship—but this season is presenting one of the strongest Class B clubs in the conference.

Coch Miller, mentor of the Tigers, is a well known coach throughout the district and is considered as one of the smartest and most capable coaches on the South Plains. Miller has put out a winning combination each season and has had hold of the Slaton material.

Ell Stevens, coach of the Tornados, is at the helm for the first season with the Lamesa high school. Stevens was considered as one of the best gridiron performers in the T. L. A. A. being with the A. C. C. Wildcats. Stevens has put up this season here, one of the best clubs Lamesa has ever had.

A large crowd is expected for this afternoon's contest.

THE REFEREE Where was the national open golf tournament held in 1923?—F. G. H. Inwood Country Club, Inwood, L. I., N. Y.

Where will the Ohio State-Illinois football game be played this fall?—D. F. S. Champaign.

How long has Curtis Walker been in the National League and with what clubs has he played?—E. N. M. Since 1921 and has played with the Giants, Phillies and Reds.

Fidel LaBarba Is Both Oldest And Youngest Pugilistic Champion, He Has Seen All Other Kings Topple

By NEA Service LOS ANGELES, Oct. 20.—The youngest and yet the oldest pugilistic champion of the world—such is Fidel La Barba, Los Angeles flyweight. La Barba has just turned 21, making him the youngest milt slinger—in number of years—to sit on a world throne.

But he has held his title for one year and two months, making him the oldest champion in period of reign—to wear a boxing crown.

Since La Barba lifted the burdens of being flyweight champion from Frankie Genevora's shoulders in Aug. 1925, the title in every other recognized division has changed hands.

The great Jack Dempsey, champion of all champions, has fallen into discard, while handsome Gene Tunney, fighting marine, rules the heavyweights. Jack Delaney shoved Paul Berlenbach out of the limelight and now wears the crown of the light heavyweights.

The infallible Harry Greb, who defied all rules of boxing and still was unbeatable, finally succumbed before Tiger Flowers, the Georgia dition. Mickey Walker, fighting little Irishman, who was often spoken of as a "flying scissor," reached the end of his reign when he met Pete Latzo, Pennsylvania mining boy.

Pinky Mitchell, junior welter champ was decisively beaten by Mushy Callahan, Los Angeles newsboy, just two nights before the great Jack took his punning Jimmy Goodrich, crowned lightweight, to the New York boxing commission, fell before the onslaught of veteran Rocky

lawed and shorn of his championship by the Illinois boxing body for failing to post his forfeit for his match with Bud Taylor. However, boxing men agree that the Terre Haute boy would have had little difficulty in handling Rosenberg a sound drubbing—if the opinion of boxing experts means anything after the Dempsey-Tunney affair.

But little Fidel La Barba still rules the "babes" of the squared circle and there doesn't seem to be any dangerous rival looming on the horizon.

There have been rumors that La Barba may get a crack at Bud Taylor's new bantamweight title but nothing definite has come of it yet.

Billy Evans Says

Uncertainty of Baseball Baseball is a most uncertain pastime.

If, in early September, some one had expressed the opinion the finish would be closer in the American League than the National, his sanity would have been questioned.

Yet such proved to be the case. From start to finish the National was a hectic affair. On the contrary, the American League, looked to be a walkover for the New York Americans until the home stretch was reached.

Starting the final month of play, the Yankees went west with a lead of something like eight games. It looked like a clinch.

After playing three games in Detroit and six in Cleveland, the commanding lead had been whittled away to a three and one-half game margin.

As a matter of fact, the Cardinals and the pennant in the National seven days in advance of the Yankees.

How badly the Yankees slumped on the western invasion is proved by the figures, which show but six wins in 17 games.

An Unusual Club In a way no major league ball club ever won a major league pennant than the Yankees.

Incidentally, there never was an easier year in the history of the American League to win a championship.

Three sustained winning streaks put and kept New York in the race. They covered 35 victories, rung up as follows, 16, 11 and 8 games.

Delect these three victorious runs, totaling 35 games, from the Yankees' 91 games won and you have only 56 wins spread over the rest of the season.

So if you except the three winning streaks from the Yankees' record, the club played less than 500 ball during a greater part of the season.

To be exact, in the 119 games played, aside from the 35 victories, New York won 54 and lost 62 for a percentage of 47. Concrete proof of the statement that the Yanks are an unusual ball club.

Regulation Ball Parks Regulation ball parks must come sooner or later. The world series of the past three or four years is making apparent the necessity of such a thing.

By regulation ball fields, I mean parks where the distance from the home plate to the extreme end of the right and left field foul line is exactly the same.

Fidel LaBarba

Kansas. And Kansas' reign was short, as he was unable to cope with the class shoved by Sammy Mandell in their titular bout last June.

Tod Morgan lifted the junior lightweight crown from Mike Belterino's without much difficulty last December in Los Angeles. Ed Kaplan found that he could no longer make 126 pounds and abdicated as king of the featherweights.

Charlie "Phil" Rosenberg was "outlawed" and shorn of his championship by the Illinois boxing body for failing to post his forfeit for his match with Bud Taylor. However, boxing men agree that the Terre Haute boy would have had little difficulty in handling Rosenberg a sound drubbing—if the opinion of boxing experts means anything after the Dempsey-Tunney affair.

But little Fidel La Barba still rules the "babes" of the squared circle and there doesn't seem to be any dangerous rival looming on the horizon.

There have been rumors that La Barba may get a crack at Bud Taylor's new bantamweight title but nothing definite has come of it yet.

City Bastile Here Void Of Occupants

While the city jail was comfortably filled yesterday the doors are standing wide open today. Only one small fine was collected this morning, though one man charged with speeding will likely demand a jury trial.

Vagrants have been warned to move on, and officers feel that once this element is out of the city petty thefts will decrease.

Grand Jury Returns One Bill And Recesses

After being in session for two days the Lubbock county grand jury recessed late Tuesday to meet again Friday morning of this week. Only one true bill was returned, though it is known that several additional indictments will be found before the grand jury is dismissed by the court.

The bill returned was for bigamy and the guilty party has been arrested by a member of the sheriff's department.

Lucky Negress

NEW YORK—A \$30,000 diamond necklace and pearl necklace seems destined to become the property of a Harlem negress shortly. She said she found it in the street and tried to pawn it for \$5. The police seized it and have held it for nearly six months stipulated by regulation, but no claimant has appeared.

LUBBOCK HIGH TO MEET BULLDOGS AT PLAINVIEW

The stage has been set—the scene will be in Plainview—and the performers are the Westerners and Bulldogs. Friday the Lubbock High school will meet with the Plainview Bulldogs at Plainview. It is the deciding contest of the Class A championship of the South Plains district.

For years, dating back to 1916 and on up, the championship has exchanged from time to time, year to year—back and forth between Lubbock and Plainview. Rivalry has been existing between the schools for years in the different sporting events; but of all the events the bitterness of the schools has been displayed in the gridiron functions. Unusual but true—even though the rivalry has been intense, it has been one of the cleanest of relationships known in the state.

Von Tungen and Frink, coaches of the Westerners, who are working with the local high school gridsters for their first time are pointing to this game with the highest aspirations—no one would rather win this game than the coaches themselves. Hard work is the word—fight and punch is constantly being the mode of workout throughout this week.

The Westerner followers will be there in strong numbers it is indicated.

Scout Council Meets At Abilene Friday

ABILENE, Oct. 20.—The executive committee of the Chisholm Trail Area Council, Boy Scouts of America, will hold a session in Abilene at noon Friday, at which the objectives of the council for the ensuing year will be taken up. A luncheon will be served.

Those who will be present are: Cliff M. Caldwell, Abilene, president; F. E. Morrow, Stamford, vice-president; Eugene Harrell, Anson, treasurer; R. A. Maddox, Abilene, commissioner; J. P. McLeod, Coleman; S. M. Jay, Abilene; C. H. Jones, Merkel; Bert Lowe, Winters; John McAdams, Winters; Dick Moberley, Albany; J. D. Motley, Ballinger; Bob Norrell, Baird; O. E. Patterson, Haskell; R. C. Thomas, Stamford; E. E. Surface, Abilene; L. Shields, Coleman; Cal Wright, Baird; G. N. Quirk, executive, Abilene.

Lynch Davidson To Testify For Norris

FORT WORTH, Texas, Oct. 20 (AP)—Lynch Davidson, Houston lumber magnate, who confided to the Texas electorate his impulses to get down on his "Methodist knees and pray for the state" during his recent unsuccessful race for governor, was named in a subpoena issued late today for the defense in the murder case against Rev. Dr. J. Frank Norris, Baptist pastor.

WE BELIEVE the advantages of the soft foil package are so many, and its economy so great, that we have elected to pack one of our finest pipe tobaccos in this handy form to retail at ten cents.

Overhand Method Best In Throwing Forward Passes

BY ERNIE NEVERS All-American Fullback, 1925 The forward pass is football's most thrilling play.

Incidentally, it is the game's greatest threat. Much grid strategy can be pulled from fake formations that have all the flavor of a forward pass play.

I repeat, any reforms tended to curb the use of the pass, are detrimental to the best interests of the game. It is a pretty good play as is and should be let alone.

Dartmouth was one of the outstanding teams of last year. No one's mouth of play did more to keep Dartmouth in the sport headlines than the uncanny passing of "Swede" Oberlander.

At Stanford we also made much use of the pass. Coach Glenn Warner built up much of his offense around the play. Coach Warner was kind enough to think enough of my ability in that line to have me handle the ball in most of the plays featuring the forward pass.

While the fundamentals of correct passing are much the same, regardless of who is throwing the ball, most forward passers have certain mannerisms in handling the ball that are original with the individual.

Here are my thoughts on forward passing; they have served me most successfully. Possibly they may be of help to players delegated with that job and, incidentally, make interesting reading to the football enthusiasts as so-called inside stuff.

When throwing the pass I find it best to hold the ball so the point is tipped up slightly, just as you are about to release the ball on its way down the field.

I am strongly of the opinion that the very best way to throw the pass is overhand, from the shoulder, not side-arm or underhand.

Invariably a player attempting to block a pass will leap in the air slightly as he throws his body at you. His arms are usually stretched high in the air.

Using the overhand pass, you have a chance to complete the pass by throwing it between the upstretched arms. I made a number of such passes last year.

The chances, therefore, to block a side-arm or underhand pass are infinitely greater than one thrown from the shoulder.

The shorter passes, say from 10 to 20 yards, while lacking the thrill of the

longer pass, are far more certain. A snap-pass is the best to use from the player about to receive it is free from the line. A lob pass is the proper style when the ball is heaved to a halfback in the line.

I like to throw my passes so that the receiver has to jump slightly to nab them. It is better if the receiver is going with the ball as it lessens the danger of intercepting it.

A good passer helps his chances for success by constantly faking. He should never look in the direction of the man ultimately to receive the pass.

The best passing plays always have two or three men free to handle the ball.

Foreigners Being Trained At Houston

HOUSTON, Texas, Oct. 20 (AP)—Making good Americans out of alien material is the job of E. C. Webner, chief clerk in the office of the business manager of Houston's public schools.

He is conducting classes for applicants for citizenship papers previous to court hearings on their petitions for citizenship. He is carrying on this work in connection with regular night classes in Houston's public schools.

Mr. Webner has taught similar classes here for the last three years. Previously he had served five years in the district court here, where naturalization cases frequently were heard.

The Spanish Club of the Technological College is meeting at 7:30 o'clock Thursday evening in Room 305 of the Administration building. This is only for those who were members of the club last year, it was announced.

Mrs. M. L. McNeely, of Ralls, is in Lubbock Wednesday.

Mrs. T. L. Hudson, of Ringo, left Tuesday for Graham where she is to visit a son after visiting her daughter, Mrs. M. O. Owens, here.

Just a Kid and a Puppy

Little Billy just feeling so terribly playful right now, but who-or Sport or Buster, or whatever his name is-wants to start something. Whatever he's suggesting doesn't seem to make much of a bit with his little master, anyway.

SOUND ADVICE NOT HEEDED BY COTTON FARMER

HOUSTON JUDGE WARNED AGAINST BIG COTTON CROP LAST SPRING

(By the Associated Press)
HOUSTON, Texas, Oct. 20. (AP)—Predictions often come true. Judge M. H. Gossett, president of the Federal Land Bank of Houston, last spring warned Texas cotton growers that increased cotton acreage probably would result in lower cotton prices. He urged them, in the interest of sound economics and as a basis of solid individual development, to grow less cotton and more feed and food crops.

Crops Abandoned
A number of half-rented, disinvested from that point say, have abandoned their cotton crops in that section because, it is asserted, of the low price of cotton. One farmer who rented on halves, the advices say, gathered nine

SAYS RUMANIAN LOAN IS LIKELY

NEW YORK, Oct. 20. (AP)—Today's New York World says: "Soon after Queen Marie leaves these shores the Rumanian government will offer to the American public a bond issue ranging from \$25,000,000 to \$50,000,000. Before the loan is marketed Rumania will compare her balance sheet. She has been negotiating a loan here since 1921, but was unable to get funds, bankers said, because of defaults on outstanding English and French loans, the mining law of 1927 prohibiting entry of foreign capital in the oil fields except under Rumanian control, and the unsettled political conditions."
"On the other hand, the New York Times says: "Reports that Rumania was about to obtain a loan in the United States, inspired by the visit of Queen Marie to this country, received no credence in the financial district yesterday. For several years there has been unofficial discussion of a Rumanian loan, but it has never reached the stage of negotiations and is not likely to do so in the near future, according to Wall Street bankers."

Mortgages Home
NEW YORK—Mrs. William K. Vanderbilt II has mortgaged her Fifth Avenue home for \$400,000.

NEW YORK, Oct. 20. (AP)—Foreign exchange firm: Great Britain demand 4.84 1/2; cables 4.85; 60 day bills 4.85; 90 day bills 4.85; France demand 1.81; cables 1.82; Italy demand 4.22 1/2; Belgium 2.84; Germany 23.80 1/2; Tokyo 48.87 1/2; Montreal 100.00 3/4.

WALL STREET TRADING

NEW YORK, Oct. 20. (AP)—Stock prices moved irregularly lower at the opening of today's market. Selling pressure was renewed against a wide assortment of industrials, but the rally received better support on the execution of a large volume of over night buying orders in that group. Most of the initial changes were fractional in character. International Cement

BAIRD WILL INSTALL A FIRST CLASS WATER SYSTEM

BAIRD, Tex., Oct. 20.—BaIRD, one of the oldest towns in Texas, accepted the contract of Baker and Davis last week for the installation of a first class water system for the town, now of 10,000 population. Contract was also let for a first class and modern sanitary sewer system.

Only Woman For Al

BOSTON—Al Jolson's divorced wife is the only girl in the world for him and he does not mean maybe. He says he will marry her tomorrow if she will have him. She recently obtained a decree in Paris.

Local News

Submission postponed until November 10, 1926: The state of Texas vs. J. M. Jones, et al, from Lubbock.

Accident Victim Able To Go Home

Ray McGee, son of Mr. and Mrs. H. McGee of Odham, who received a broken leg on October 4, is being taken home from a local sanitarium today and returned home today.

DRUNKEN DRIVERS FREQUENT HERE

There are entirely too many drunk on automobile drivers in Lubbock and on the South Plains, and city and county officers are going to see that guilty parties are brought to justice, it was said in official circles Wednesday.

While it is not generally known, driving a car while one is intoxicated constitutes felony offense in Texas and a person guilty of this charge may be punished by imprisonment in the state penitentiary.

Quite a few Lubbock people have a mania for "blinking up" on liquor and then taking out the family silver, so far there have been no serious accidents, but it is impossible to state just how long it will be the case. Officers have been instructed to enforce this section of the law to a letter, and members of the grand jury were charged by Judge Mulligan to investigate reports concerning drunken drivers.

Negro Charged With Attempt To Kill Wife

AUSTIN, Oct. 20. (AP)—Alex Sampson, negro, is charged in justice court here with having attempted to kill his wife by running her down with his automobile. Detective McClain who filed the charge, alleged that Sampson ran his machine over his wife as she was boarding a street car last Friday. The woman is a servant in the home of U. S. Senator Earle B. Mayfield and is in a serious condition.

Slaton Negro Hurt In "Friendly" Brawl

A negro man by the name of Sam Martip was brought to a local sanitarium last night about 9 o'clock from Slaton, suffering from a laceration of the scalp. The negro had been hit on the head with pick handle, said to have been wielded by another negro man. The wounds were dressed by a physician at Slaton before he was brought to Lubbock for further treatment.

To increase sales of radio sets, a broadcasting company in Peru has started a radio course in English.

CAMPUS REBELS

BY VIRGINIA SWAIN COPYRIGHT 1926 NEA

WHAT HAS GONE BEFORE
JUDITH MARTIN, a new teacher at Pendleton University, is kissed by a strange, green-eyed young man at the station.
 She makes friends with **DR. PETER DORN**, astronomy professor; **WILL WETHEREL**, popular senior, and **MYRA ALDRICH**, a spoiled beauty living at her boarding house.
 Myra learns that her sweetheart, **ERIC WATERS**, has kissed a girl on a bet. She also learns that Judith is a teacher instead of a student, and is angry.
 Eric unknowingly signs up for Judith's Latin class. Judith awakes that night to find him standing on the balcony outside her window.

NOW GO ON WITH THE STORY

CHAPTER VI

The men on the balcony took a step backward, but immediately shrank once more against the side of the house.

Judith reached for the window blind, but Eric stopped her. "Please don't make any noise or move for just a minute. There's someone coming up the street."

She stood as though paralyzed, leaning against the window frame, until Eric's face appeared at the window again. "Listen, Miss Martin, I'm sorry about this. I didn't know you lived here."

Myra Aldrich just told me that if I could shin up that trellis and knock on the window, one of the girls would come down and unlock the door for her. It's midnight and she's locked out. We've been throwing pebbles at your window for a quarter of an hour."

Judith sighed softly. "All right," she said, "but you'd better hurry back down that trellis."

She heard the soft scuffling of his toes against the house as he climbed down. Then she switched on the light and found her slippers. Turning off the switch again, she softly opened her door. The house was a soundless pit with only a deeper blackness where the well of the staircase rose, to mark it from the surrounding gloom.

She made the perilous descent slowly, holding her breath between steps. Twice a board creaked, but brought no response from the black regions below, and she went on.

The front door, with its antiquated lock, presented a long puzzle, during which Judith could almost feel the quick breathing of Myra on the other side of the door.

Eric was gone when the heavy door swung open and the girl started back up the stairs without a word. In Judith's room the flare of electricity, switched on after a moment's fumbling, revealed Myra flung on the bed, where she had dropped after the climb, to catch her breath.

She propped her chin on the iron footboard and watched Judith, wide-eyed and flushed. "Jude," she said after a moment, "you're a peach. After I blew off like that yesterday, too! I've felt rotten about it all day. If I'd been in your place, I wouldn't have opened that door tonight. You see, I don't care what old Rickway thinks, but if I got caught breaking rules so early in the game she'd be watching me like a hawk the whole year. That was a slick trick wasn't it?"

Judith nodded slowly. "But I don't think I'd try it again. It's too risky. You're about six years old, Myra. Because you once knew some school teachers who were prizes, you class us all as prizes."

"I know it," said Myra remorsefully. "But after tonight I can never accuse you of it. You see, if I'd been in your place, I wouldn't have opened that door tonight. You see, I don't care what old Rickway thinks, but if I got caught breaking rules so early in the game she'd be watching me like a hawk the whole year. That was a slick trick wasn't it?"

Judith nodded slowly. "But I don't think I'd try it again. It's too risky. You're about six years old, Myra. Because you once knew some school teachers who were prizes, you class us all as prizes."

"I know it," said Myra remorsefully. "But after tonight I can never accuse you of it. You see, if I'd been in your place, I wouldn't have opened that door tonight. You see, I don't care what old Rickway thinks, but if I got caught breaking rules so early in the game she'd be watching me like a hawk the whole year. That was a slick trick wasn't it?"

Judith nodded slowly. "But I don't think I'd try it again. It's too risky. You're about six years old, Myra. Because you once knew some school teachers who were prizes, you class us all as prizes."

"I know it," said Myra remorsefully. "But after tonight I can never accuse you of it. You see, if I'd been in your place, I wouldn't have opened that door tonight. You see, I don't care what old Rickway thinks, but if I got caught breaking rules so early in the game she'd be watching me like a hawk the whole year. That was a slick trick wasn't it?"

Judith nodded slowly. "But I don't think I'd try it again. It's too risky. You're about six years old, Myra. Because you once knew some school teachers who were prizes, you class us all as prizes."

"I know it," said Myra remorsefully. "But after tonight I can never accuse you of it. You see, if I'd been in your place, I wouldn't have opened that door tonight. This shows the next "first day" of Georgia and her family. She is Mrs. Lamartine G. Hardman, wife of the Democratic choice for governor. In the picture are Mrs. Hardman seated, with her daughter, Emma, beside her, and Josephine (left), Lamartine and Sue Hardman standing.

HAVANA STRUCK AS STORM MOVES ON TO MAINLAND

(Continued from Page 1)

up in Havana shortly before noon, central standard time.

The first information was that the storm was dying down at Havana.

A new steel apartment was blown down by the storm and practically all of the windows in the houses near the sea were blown out.

The P.W.N. tower radio station was blown into the street.

No Loss of Life Reported

A few persons were slightly injured, but there was no report of loss of life. The city was completely prepared for the storm, which was the worst in years.

The Associated Press correspondent experienced the greatest difficulty in reaching the cable office to file his dispatch, having to fight his way on foot when water was forced by the wind into the ignition system of his automobile. The telephones were out of commission.

Wind hard at Key West

MIAMI Fla., Oct. 20 (AP)—A steadily increasing wind and a falling barometer were registered at Key West at 11 o'clock, the Miami Daily News was advised by telephone.

The wind was reported at 35 miles an hour while the barometer had fallen several degrees at 23.61.

Extra precautions were taken at the government base there to protect shipping.

An intermittent rain which started here early last night and continued today, coupled with a moderate wind, increased apprehension locally that the hurricane would strike Miami and this section.

Preparations were made to close all schools after first storm warnings.

Police Reserves alerted

Chief of Police Guiter at noon ordered every policeman in Miami on duty to await storm developments and stationed relief men at strategic points to render aid if necessary. The doors of the jail were thrown open to prisoners who are heads of families to protect their homes in the event the hurricane strikes here. The men were released on their honor to return after the emergency had passed.

Shortly before noon a driving rain swept across the bay and over the city. Many homes have been repaired only slightly since the recent devastating hurricane and fears were expressed generally that a prolonged hard rain would cause much damage here.

150 Homes Wrecked

MIAMI Fla., Oct. 20 (AP)—More than 150 homes were demolished in the Vibora and Jesus Del Monte residential sections of Havana today by the hurricane which swept through the western part of Cuba, according to the Cuban consul.

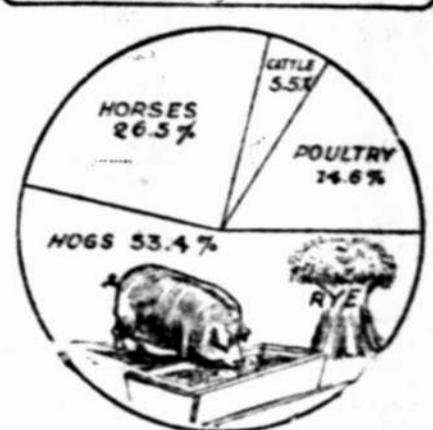

Thickly Populated

The Vibora and Jesus Del Monte sections of Havana are thickly populated, older parts of the city, once the sites of many of the finest homes in the ancient capital of Cuba. The American embassy is in the Jesus Del Monte section, and is a large, strongly constructed residence, occupying the greater part of a block with ample grounds.

Aside from the occupants of the embassy, which is the residence of United States Ambassador Crowder and his household staff, there are a few American residents scattered here and there, but most Americans have moved in recent years to the Vedado, a residential part of the town lying across town from Vibora and Jesus Del Monte and overlooking the Gulf of Mexico.

Powdered peat instead of cork is used in making linoleum by a process just perfected by a Swedish inventor. Nearly 10,000,000 worth of eggs from China were received in America in the last year.

More Rye This Year

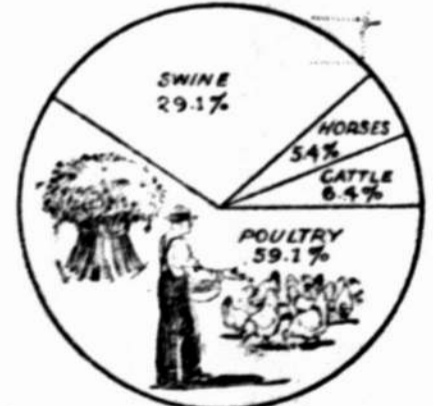

American thumbs have always been turned down where rye for table purposes is concerned. Most of our rye crop has been exported to Europe and the bulk of the remainder fed to farm animals, according to a survey by the Sears-Roebuck Agricultural Foundation. This year, however, a crop of 42,000,000 bushels is expected and less than usual will be sent to Europe as their crops will also be fairly large. This fact, coupled with feed-crop failures in many of our rye-growing sections, means that more of our rye crop will be fed to farm animals this year than usual. Hogs, on an average, consume 53.4% of the rye used on the farm, horses 26.5%, poultry 14.6% and cattle 5.5%.

Separate Trials Are Denied Two Accused

OKLAHOMA CITY, Okla., Oct. 20 (AP)—Federal Judge Pollock today denied a motion for separate trials for W. K. Hale and John Ramsey, charged with the murder of Henry Roan, Osage Indian. The second trial of the two men started in United States district court this morning.

Chickens Top Wheat Eaters

Wheat and flour are synonymous in the minds of many. As a matter of fact, however, forty per cent of our mammoth wheat crop never leaves the farm at all, but is used for seed purposes and feeding farm animals, states the Sears-Roebuck Agricultural Foundation in a survey recently completed on wheat consumption. It is used most abundantly for feeding in those sections of the country having a wheat surplus and a shortage of the usual feed crops such as corn, oats and barley. The poorer qualities of wheat, not suited for making flour, are kept behind for this purpose.

Chickens are the heaviest consumers of wheat fed on the farm using 59.1% of all wheat so distributed. Swine are next, with 29.1%. In wheat-growing sections horses are fed wheat and consume on an average 5.4% of all wheat fed on the farm, while the remaining 6.4% goes to cattle.

300 NAZARENES REGISTER FOR SESSION HERE

DALLAS MAN RESPONDS TO ADDRESS OF WELCOME MADE BY PARRISH

Three hundred visitors and delegates were present for the opening session of the Thirtieth Annual Assembly of the Church of the Nazarenes, Hamilton district, when the roll was called today. The sessions are being held in the auditorium of the First Presbyterian church and will continue through Sunday.

General Superintendent R. F. Williams of Dallas was in the chair and responded to the address of welcome delivered by Mayor Pink L. Parrish, representing the City of Lubbock. Mr. Williams of the Presbyterian church, Rev. E. E. White of the Methodist church and Rev. Ingram of the Cumberland Presbyterian church.

Many delegates will be present for the meeting tomorrow who were not here today. Bad roads are given as the cause for their delay. At least 500 out-of-town delegates are expected to register during the week. The people of Lubbock are furnishing sleeping quarters for the visitors, while meals are being served in the basement of the church.

Another Protest

NEW YORK—Edna Ferber's novel "Show Boat," from which references to Tom Taggart were deleted, is now the object of complaint by the International Federation of Catholic Alumnae. It objects to seven pages which it considers slurs a convent in Chicago.

Banter Of Youth Is Found Disconcerting

Two dignified, middle-aged lawyers of Lubbock were returning from a business trip to Post Tuesday afternoon late when they rolled past a cotton wagon, topped with several small boys.

Pecan Orchards In South Texas Guarded

RICHMOND, Oct. 20 (AP)—So determined are the people of Fort Bend county to protect their pecan trees that they have employed armed guards and sworn special deputies to arrest persons who invade farms and make off with automobile loads of the nuts. Person arrested will be prosecuted to the limit of the law.

Permit Is Granted Baptists To Parade

FORT WORTH, Oct. 20 (AP)—Mayor Meacham today granted the First Baptist church permission to parade 10,000 of its faithful. Halloween, the night before Pastor J. Frank Norris goes on trial for killing D. E. Chipps, lumber wholesaler, the mayor's friend.

Liberty County School Bill Vetoes

AUSTIN, Texas, Oct. 20 (AP)—Governor Miriam A. Ferguson Wednesday vetoed house bill number 219 passed at the recent call session of the state legislature extending the boundary of Liberty Independent school district in Liberty county. Her reason was that the limits of the school district created by the bill "have been extended so far that it will be impracticable and wholly inconvenient for the students living in the remote parts of the district to attend school or receive any benefit from the creation of said district."

MALLET CATTLE COMPANY SHIPS 1000 FAT STEERS

LEVELLAND, Tex., Oct. 20.—The Mallet Cattle Company loaded 1000 steers at Whiteface Tuesday. They formed a train load and passed thru this city Wednesday on their way to market.

SAINT AND SINNER

By ANNE AUSTIN

COPYRIGHT 1926 NEA

The papering of the living room and dining room was finished just before twelve that night. Mr. Lane and Bob had teamed together in the living room, and George Pruitt and "Lon" Lane had manipulated the long, pasted sheets of green and silver in the dining room. Cherry and Faith had cut cheesecloth and tacked it upon the walls of both rooms, while the men measured and cut the thick, expensive strips of paper. This part of the work done, Faith had played the piano, and Cherry had sat cross-legged upon the davenport, twanging at her ukulele and singing the latest song hits in her high, childish, sweet voice.

"Looks sorta spotty," said Cherry, "but it'll be dried out by tomorrow night. But doesn't this ratty old furniture look like the dickens against this ritzy paper? Dad, can't we buy some new stuff—dollar down and a dollar more? We should worry. We won't live forever, and our grandchildren can't finish paying for it."

"Not a stick of new stuff," Mr. Lane said firmly but wearily. "Well, I guess I'll turn in. Got to get on Hathaway's job bright and early tomorrow. How 'you think the work's coming, Hathaway?"

"Splendid, sir," Bob answered with enthusiasm. "Believe you'll finish before the contract date. Good, solid work, too—no shoddy and no skimping."

"Well, good night, folks," Mr. Lane said about the group of joyous, un-fatigued young people. "Don't keep the girls up late. This is a working family, you know."

When he had pattered out of the room and off to bed, Cherry closed the door carefully, then faced the men with sparkling eyes. "Let's celebrate! Let's have the first annual ball of the Myrtle street chapter of the paper-hanger's union!"

"Mother needs quiet," Faith demurred.

"Silly! I don't mean here! We can change our clothes in five minutes and go to Sam Lee's chop suey joint for a midnight supper and dancing. He keeps open till two. Three-piece orchestra. Not bad a-tall! Ain't life wonderful?" She whirled around rapidly on the toes of her little low-heeled patent leather slippers and, apparently by accident, hurled her light body into George Pruitt's arms.

"Sweet idea!" George Pruitt, with his arms still around her, began to trot.

"All right," Faith cried blithely. "But we won't have to dress up, will we?"

"Any old thing," Cherry cried blithely. "But keep the soft pedal on. Honey, Dad gets wise he'll throw a monkey wrench into the party."

Faith took Cherry at her word, and disappeared almost immediately in her white flannel costume, and Cherry's white felt hat, but Cherry, when she joined her fellow-conspirators in the living room, wore an evening dress of black chiffon, sparkling with rhinestones.

Faith stared, then flushed darkly with anger and humiliation. "I caught you said 'any old thing,' Cherry! Where did you get that?"

"Secret!" Cherry sang out gaily, setting before the dazzled men, so the fire of the rhinestones played lightning over her tiny body. "Oh, don't tease, Faith darling! It isn't so really—yet. I took it out on approval—the Vanity Shop. I can have a grand time in it tonight, return it tomorrow, and no harm done!"

"That's dishonorable," Cherry said, Faith caught the arm of the whirling girl and spoke in a low voice, for Cherry's ears only.

"Don't be a snip," Cherry whispered sweetly. "Mr. Clony has opened a charge account at three stores for me to shop for my trousseau. He knows we're poverty poor."

"I don't think I'll go," Faith hugged her hand from her sister's face and faced the embarrassed men with upflung head and brown eyes sparkling with tears.

"She crossed the room to her in a swift stride. "Please come, Faith. I've never danced with you. Besides—" his

voice was barely a whisper—"give Cherry her chance. If you're right about George—"

"I'll go," Faith smiled through her tears. "Ready, everybody? How'll we go? Bob's roadster won't hold us all."

"You with me and Cherry with George," Bob decided quickly.

"I've got a sedan with me," George interrupted. "We'll all go in that."

Faith wondered what motive was behind his rather truculent insistence. Was he afraid to be alone with Cherry, or was he afraid to have her—Faith—alone with Bob? Was he really interested in Cherry at last, or was he, as Bob had insisted, simply making a grandstand play to arouse Faith's jealousy?

After the short drive, during which Cherry and George had made the night hilarious with their very creditable singing of "Always" and "Remember" and "The Prisoner's Song," the sedan parked where what Cherry had loosely and incorrectly called a "joint." Lights blazed, Chinese lanterns swung and dragons writhed along the staircase of Sam Lee's "Oriental Palace."

As soon as the men had checked their hats and coats, Cherry held up her bare white arms invitingly to George. "Come on, George, let's not miss a second of this! Isn't it funny how they've jazzed 'The Prisoner's Song'? Oh, if I had wings like an angel!" she sang happily, as they glided to the edge of the crowded dancing floor.

"We'll order for the bunch and then dance," Bob told Faith, after he had selected a table by a window. Two chicken chop sueys with mushrooms, two chow mein, one egg foo yong, Gulong tea, he told the hovering Oriental. "Want to try it, dear?"

It was the second time that night he had called her "dear." Her eyes were brilliant, her lips trembling with a tender smile, as she lifted her arms to him on the edge of the dance floor. "Don't look right now, but there's Chris Wiley over there by the orchestra. He's with some little cheap thing that evidently believes it when he tells her she's a 'red hot mamma.' Hathaway spoke in a low voice as he guided Faith expertly away from the orchestra.

(To Be Continued)

Jealousy between Chris Wiley's girl and Cherry blazes out before the evening is over, and there is a "scene."

Berlin's "Rotten Row" Soon To Be Removed

BERLIN, Oct. 20. (AP)—The "Rotten Row" of Berlin, which runs through the middle of Kurfuerstendamm, the broadway of the aristocratic West end, will soon be a memory.

Car tracks are being removed from the street and laid on the bridge path where once rode members of the House of Hohenzollern and the nobility. "Rotten Row" lost its glamor when Wilhelm II fled to Holland. And the increasing traffic made necessary the replacement of the car tracks. But the two lanes of elms will remain so that in summer street cars will travel through a bower of green.

Gilbert's Butler Is Prepared For Guests

HOLLYWOOD, Oct. 20. (AP)—Few people have war heroes for butlers, but such is Emil, Belgian soldier who "battles" for John Gilbert the movie actor.

Emil has learned that his master is liable at most any hour to walk into the house with one to fifty guests without any warning. Being a real heroic butler, Emil is prepared for such surprise attacks. He keeps canned goods on the shelves and has arranged classified provision orders which he can phone to the grocer and have delivered in twenty minutes.

For instance, Emil says to the grocer, "I want Number One." The grocer fills order number one that contains everything for a dinner that Emil cannot keep on the pantry shelves. Order No. Two is a totally different menu, and so are three, four and so on.

Campus Rebels

(Continued from Page 5)

Judith left a sidepath and turned toward the administration booth in which she was to meet her first class 10 minutes later.

She could see the boy bending now and then toward the girl on his arm, with that peculiarly flattering air of complete attention which is a gift of the born squire of dames. She fell back a few steps and entered the building behind them with a smile on her lips.

Three persons were already in her classroom, the elder Miss Benson, a spectacled youth in shiny blue serge and a middle-aged woman with a pompadour.

Others filed in as Judith arranged the contents of her desk. Some of them gave her startled glances, taking in the youthfulness of her face and figure and the gay simplicity of her circa jersey dress. The effect of their surprise was to give Judith added assurance of her role.

At length she stood up beside her desk and looked solemnly at her class. Someone was turning the knob of the door from the outside, but Judith only stiffened slightly, without turning her head.

"We will try the opening passage of the first ode at sight," she said. Then she met the dilated green eyes of the newcomer. Smiling with sweet teacherly patience, she handed him her book. "Mr. Waters, will you see what you can do with the first 20 lines?"

Eric Waters looked at her in dumb misery. She pushed the book a little closer to him and he fumbled through the pages and at last began a stammering translation.

(To Be Continued)
Dr. Dorn must have become interested in Judith, for she finds him at

Eve Gerhart's party. Is he trying to save her from the foolishness of her student friends, or is there another reason?

Want Galveston Bank Closes As Bankrupt

GALVESTON, Oct. 20. (AP)—Creditors of Ed McCarry and Company, bankers, today took affairs of the bank to federal district court by filing a petition asking that the bank be adjudged bankrupt.

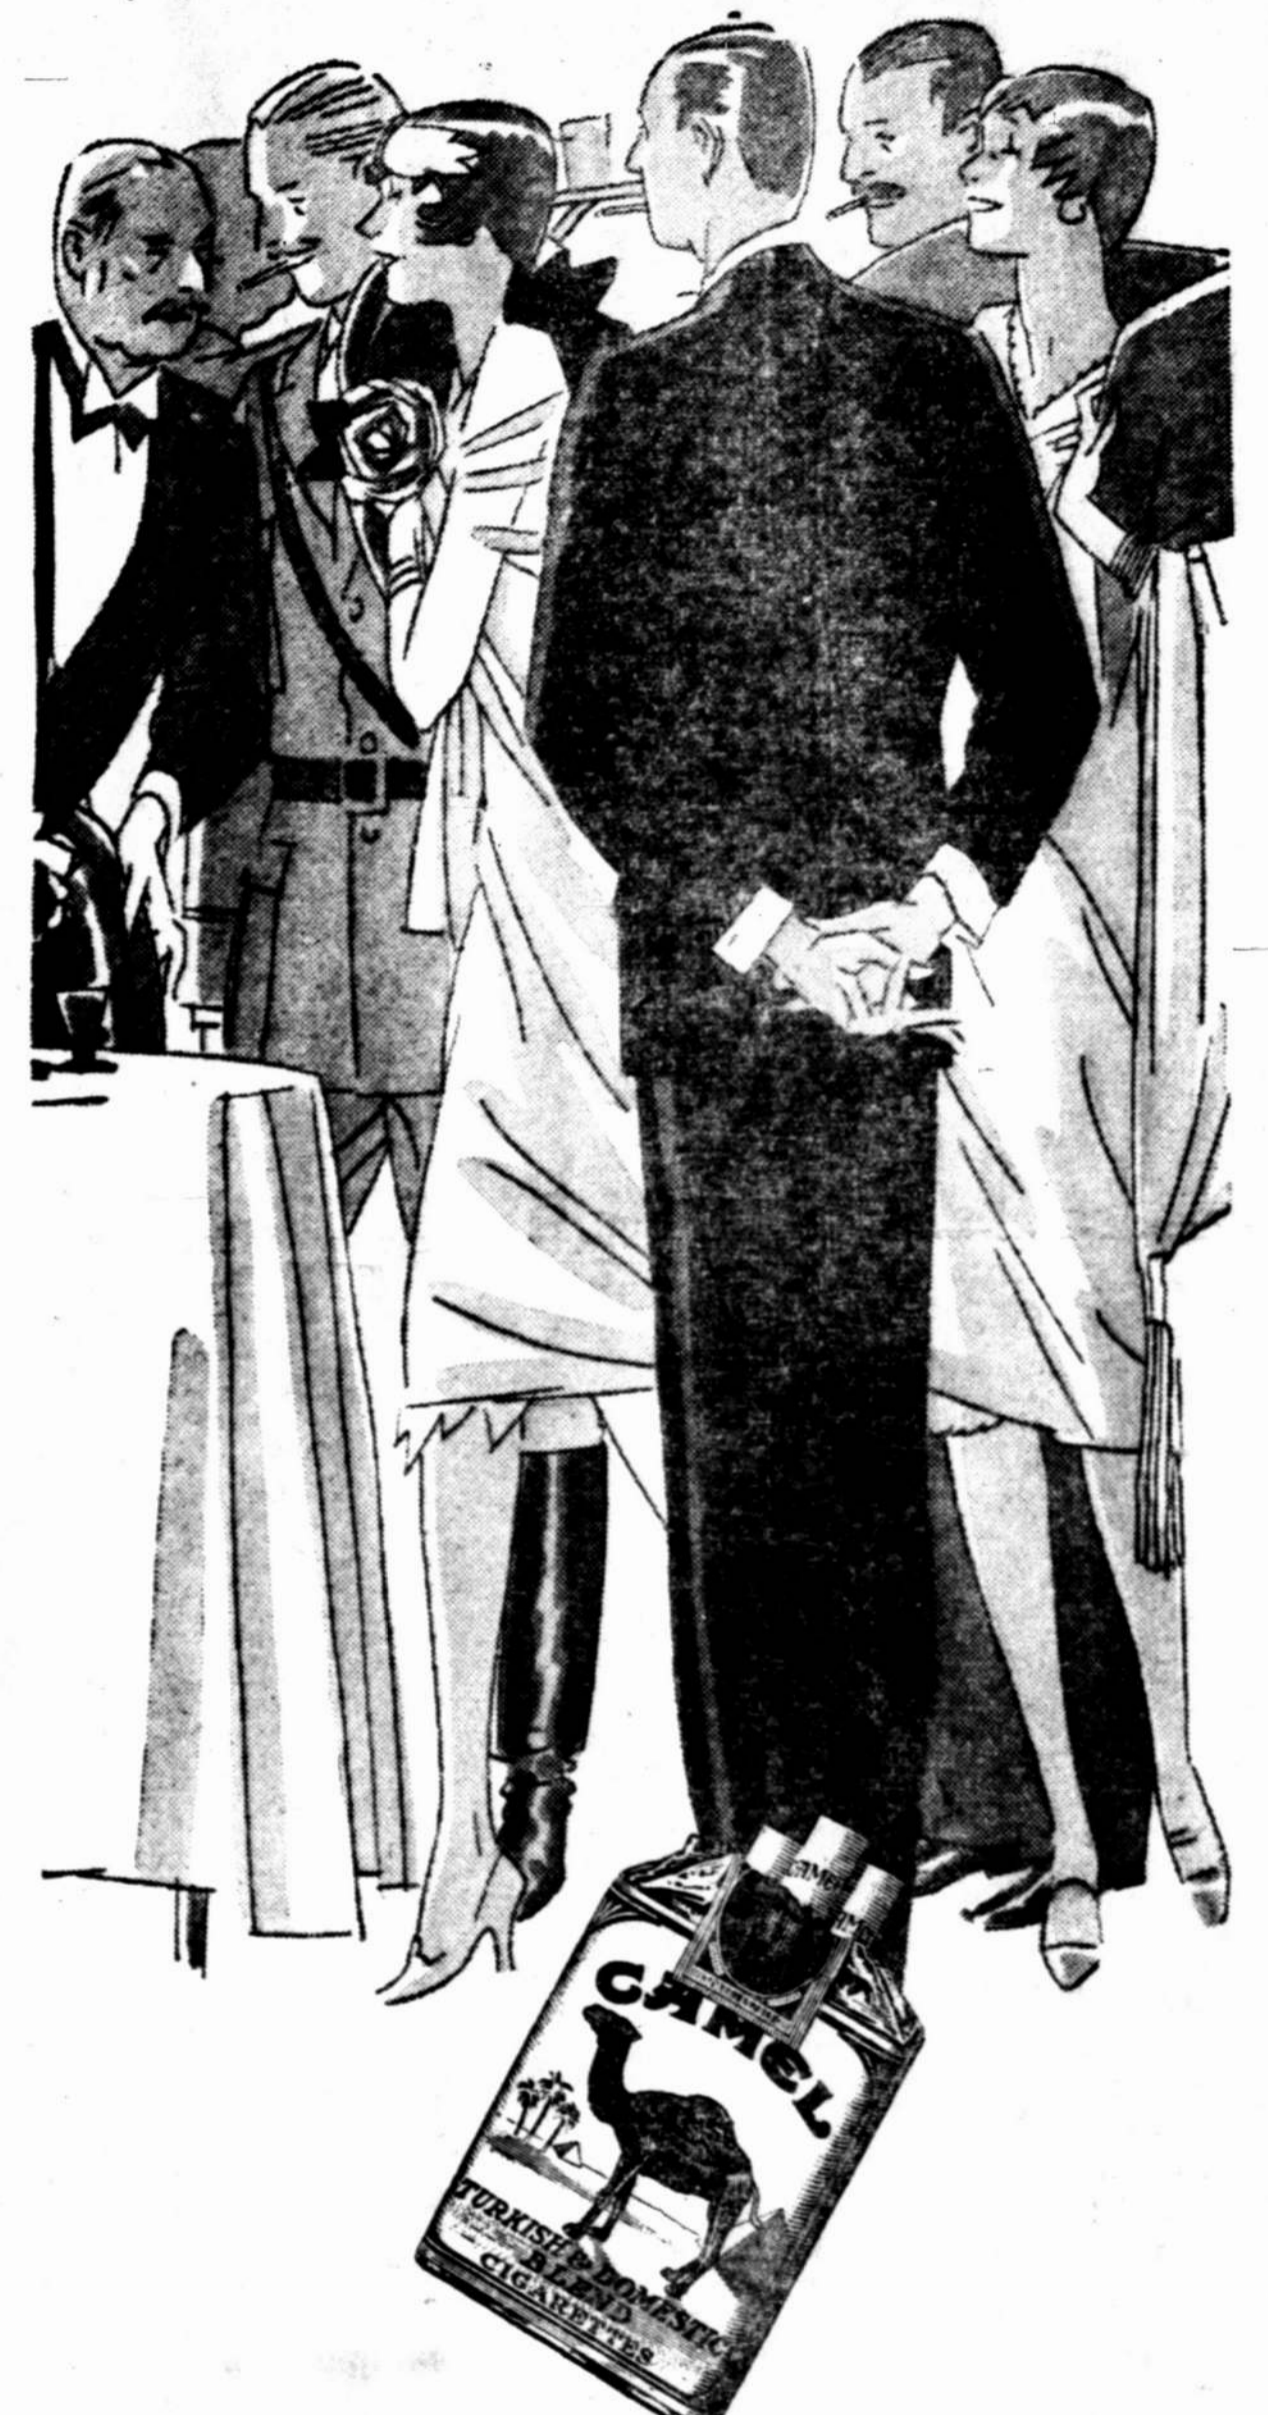

The petition alleged that the bank owes debts amounting to \$300,000.

To keep labor on the farm the Austrian government has tightened the conditions for the payment of dues to agricultural workers.

"HAVE A CAMEL" IS MUSIC TO YOUR EARS

Camel is totally different from any other smoke. . . . It is more than a cigarette. . . . A lighted Camel is smoking enjoyment realized—the closest thing to the perfection of taste this old earth ever knew.

Camel's popularity has no equal. Camel demand exceeds any other cigarette preference ever known. To say "Camel" is to ask for the world's most popular cigarette. And to light a Camel is to taste the best.

For there's a solid reason back of the fame and the enjoyment of Camels. Quality. Camels are rolled of the choicest Turkish and Domestic tobaccos money can buy . . . blended for matchless taste and fragrance.

If you would know how mild and mellow a smoke can really be, just treat yourself to a pack of Camels. Once you know what these words mean, they're music . . . "Have a Camel!"

FOOD FOR THOUGHT

"Diversity! Diversity! That is the
only thing that will save us in the
long run."

How many times have you heard it?
A thousand, or so perhaps, if you
are an average South Plains citizen or
three years standing.

Yet although we've all heard it so
many times, and the statement is un-
doubtedly true—what are we doing
about it? We're doing nothing much.
And here's why.

Take the present year as an exam-
ple. Bad weather injured the cotton
crop yet the rain which soaked our
soil could have been put to a good
advantage. It placed the soil in a
good condition for a winter wheat
crop yet we've bought our farmers
planted winter wheat in any degree.

Yet what will we do here just as it
does in Hale county.

About seventy-five per cent of the
farmers of Lubbock county and this
territory are "renters." In other
words, three-fourths of the farms are
owned by men who do not work them.

These land owners rent their farms
usually from year to year, the con-
tracts opening and closing on Janu-
ary first. A renter rarely ever knows
whether he is going to be on the same
farm the year after he takes it over or
not for two reasons. In the first place
the dealing between himself and the
farm owner may not prove satisfac-
tory to either or both. In the second
place the land may be "sold out from
under him" leaving him to look for
another place on January 1.

What incentive, then, does a farmer
have to plant a winter wheat crop in
the fall, when he knows that it is an
"even break" that he will lose the
crop? That in a nutshell is one reason
why one form of diversification in
Lubbock county is thus far a failure.

As the Journal sees it the only way
that diversification will ever be prac-
tically practiced in this section of the
state is by selling the individual farms
to individual farmers who can work
them and will work them richly—and
then they will diversify to work out
their own salvations.

This is a transition period in West
Texas. A great deal of land has been
owned by a few and is only now be-
ginning to be dispersed among the
many. The only way this transition
plan is so hard to put into practice.

As one Lubbock man told the Journal
recently—and he is a man who has
only had much experience along this
line but who is also "practicing what
he is preaching"—a city man has no
business owning a farm. Men who do
not work farms should sell their land
—at a reasonable profit, of course—to
farmers—real farmers—then, and then
only, will our diversification program
be practical and then and then only
will "every year be a good year."

THE "TOURING COOLIDGES"
It would be interesting to know just
what President Calvin Coolidge thinks
of "The Touring Coolidges" you may
recall, is the name of an old-time
orchestra composed of Coolidge's re-
latives. The president's cousins, aunts
and uncles will tour the country, cash-
ing in on the family name, and play-
ing a snappy "Turkey in the Straw."

No doubt an enterprising, pres-
ident will label certain of their pro-
ductions as "the true Cal Coolidge
clogged to," or "the true Calvin Cool-
idge likes best."

There is no reason to doubt that
some smart impresario is cashing in
on the Coolidge name. Just one more
orchestra more or less would not be
worth its weight in salt.

LINES FROM THE
Old Masters

OLD MASTERS
Those evening bells! those evening
bells!

How many a tale their music tells
Of youth, and home, and that sweet
time
When last I heard their soothing
chime!

Those joyous hours are passed away,
And many a heart that then was gay
Within the tomb now darkly swells
And hears no more those evening
bells.

And so 'twill be when I am gone—
That tuneful peal will still ring on—
While other bards shall walk these
dells,
And sing your praise, sweet evening
bells.

—Those Evening Bells, by Thomas
Moore.

IN NEW YORK
SEE-SAVING UP
and
DOWN BROADWAY

NEW YORK, Oct. 20.—It is the rat-
tle of spoons and plates at Reubens,
and not the crowing of the rooster,
that announces the coming of morn-
ing in Manhattan.

Reuben's is a "ham and egg" re-
saurant where the "whos who" of the
night before eaters between the
hours of 3 and 4 o'clock.

Here sit a group of men dressed in
evening clothes that resemble ad-
vertisements in the French fashion
magazines. They talk with that pec-
uliar accent the theaters associate
with Long Island society. Their voices
however are pitched to that key as-
sociated with frequent nibblings at
hip flasks. Names of young society
leaders slip from their lips with ill-
guarded bluntness. At the moment
they are revealing some inside in-
formation on the winter plans of one
of the most prominent divorcees of
the past several years.

Despite the clatter of plates and
silverware large sections of the crowd
try to listen in. Film stars, enter-
tainers, reporters of night life,
dancers, gigolos, bejeweled and
bewigged women bootleggers casuals
out of the night. All gathered
just before the dawn. Most of
them pass the daylight hours in sleep
and crawl out only when dusk begins
to creep over the city.

What a commentary on the chang-
ing styles!
Today our morning newspapers in
Manhattan consider a certain night
club a reporter's "beat." Just as the
newspapers assign station, a "press
room" is established at a night club
table and here the reporters gather
from midnight to dawn to listen in on
the scandal. For all the limelight fig-
ures wander in sooner or later and,
over their cups, become loose tongued.

Shades of the screen sheltered nooks
of Sherrys and Delmonico's! This is,
indeed, a blatant and crass jazz
age.

A few weeks ago one of the best
known comedians of vaudeville died
here after a lingering illness. After
his death it became known that for
years he had been blind, and not a
person who laughed at his antics was
aware of the fact.

That he might not be confused and
wander off the stage, a rug was
placed in the center. An arriving at
a new theater he spent some time
mastering the exit and entrance
master. Once upon the little rug he
was safe. Arrangement was made
with the orchestra to make consider-
able racket when he came on and
left the stage, so that he might be
guided by his ears and not fall off
into the orchestra pit. Several times
when confusion overtook him and he
staggered about, the audience rocked
with laughter, thinking that he was
affecting pique.

And only a few days ago, one of
the most popular funny men of the
Follies a few years back was
found hanging in his room.
He was a "fair weather" spend-
er. And then things went wrong.
Instead of sitting on top of the
world he was in the slough of despond.
He had a wife and two children. Here
was something he couldn't laugh off.
He could find no way out.

Journal Jobs
O, for the wisdom of Solomon! What
shame man do when his shirt is too
dirty to wear and yet not sufficiently
soiled to go to the laundry.

If three men enter her their seats
when she enters the street car she's
an authority on clothes and how to
wear 'em.

A strategist is a man who combines
business and duty by taking a job
as night watchman in order that he
may obey the doctor's directions to
sleep in the open air.

Half the world is struggling to pay
over-due installment contracts, while
the other half is trying to collect
them.

A THOUGHT
A double-minded man is unstable
in all his ways.—Jas. 1:8.

JUST AS IN LIFE
The grocer put it on the porch:
Two pounds of liverwurst.
The family never found it 'cause
A stray dog got there first.

Nothing Blue But the Sky

Stewart's
WASHINGTON
LETTER

PACKERS TAKE AGGRESSIVE
IN FIFTH ROUND OF 25-YEAR
FIGHT WITH GOVERNMENT

By CHARLES P. STEWART
NEA Service Writer.
WASHINGTON, Oct. 20.—For 25
years the justice department has been
fighting to compel the meat packing
industry to comply with its interpreta-
tion of the federal anti-trust laws.

The fight has been impaired, round
by round, by a succession of lower
courts throughout the land.
Now the federal supreme bench is
about to be asked to take over the
job of refereeing the strife.

The justice department has landed
several telling wreaths in the course
of the mill, but seemingly it lacks the
punch to make the packers stay down
for count.

The bell rang for the first round
in 1902, when suit was brought for
an injunction restraining Swift and
company and others from continuing
various trade practices which the
Sherman act prohibited.

The packers entered a demurrer.
The government, boring in, got the
demurrer set aside.

The packers, falling into a clinch,
consented to a decree without a trial,
forbidding most of the practices com-
plained of.

Round 2—in 1905, The government
brought with an indictment charging Ar-
rington and company and other leading
packers with violating the Sherman
act.

The packers, covering up, argued
that they'd admitted the very things
they were accused of doing, before
the United States corporations com-
missioner. Having been witnesses
against themselves, they insisted they
were immune from prosecution.

Round 3—in 1910, The government
rushed the packers with another
Sherman act indictment.
For awhile the packers were out-
pointed, losing all the preliminary
decisions, but just at the bell they land-
ed a rousing sock in the form of a jury
acquittal, after a three months' trial.
All in all, very much the packers'
round.

Round 4—in 1917, The government
opened with a federal trade commis-
sion inquiry into the packing industry.
It scored heavily with a commission
report that the packers were employ-
ing business practices which violated
the Sherman and Clayton anti-trust
acts.

QUEER
QUIRKS
NATURE

Field Rat
HE HAS A REPUTATION AS A
DESTRUCTOR

By ARTHUR N. PACK
President, American Nature Ass'n.
The most destructive animal in the
world. Such is the title which, after
elaborate study, has been conferred on
this alien, which, coming unbidden to

our shores, has found this country
good.
Originally an inhabitant of eastern
countries, the Norway rat, house rat,
wharf rat or field rat, as we may call
it to distinguish it clearly from our
native wood rat, has been an inhabi-
tant of this country for about 150
years.

It multiplies at an extraordinary
rate; nothing limits its spread but the
intense cold of the far north. It eats
or gnaws everything that we value
and is a nuisance generally. Its yearly
destruction computed in dollars runs
into the millions.

Lack of co-operative effort explains
its spread, for it may be kept out of
buildings by certain methods of
construction, and it may be trapped and
poisoned. Still in every community
there will be found some place favor-
able for its multiplication where no at-
tention is paid to its control. Such
places serve continually to reseed
adjacent spots from which the owners
are trying to eradicate these pests.

Helpful Health Hints

LEAD POISON PERIL

BY DR. MORRIS FISHBEN
Editor Journal of the American
Medical Association and of Hygiene,
the Health Magazine

The human body—especially suscep-
tible to the poisonous qualities of
lead. Industrial physicians have long
given attention to the dangers of
lead poisoning in manufacturing
plants in which this substance is
much used.

It occurs regularly in the painting
and printing industries in glass manu-
facturing and in many other forms
of labor.
It is not usual, however, to find
children and especially infants suf-
fering from this disorder. Neverthe-
less, Dr. C. F. McKhann, working in
the Harvard medical school, has
found a number of such cases in
children, secondary to a sort of per-
verted appetite.

Paint and Cloth
Infants and children not infre-
quently swallow sand, coal, cloth,
hair or paint, because of the ten-
dency to put everything into the
mouth and babies especially will
chew paint from toys, cribs or wood-
work.

A small dose of the substance is
not sufficient to produce serious
symptoms immediately, but the con-
tinued taking of small amounts will
eventually produce some severe dis-
order.

The importance of the matter may
be recognized from the fact that 17
children with lead poisoning were
discovered in the children in an in-
fant's hospital of Boston from Sep-
tember, 1923, to May, 1926. In three
of the most serious cases children
under two years of age developed severe
symptoms from chewing the paint on
woodwork and cribs.

If the symptoms are discovered
sufficiently early, treatment is not
especially difficult, but the longer
the taking of the lead persists the
more permanent may be the changes
developing in the body.

Help Through Diet
The lead is removed from the body
by giving a diet very low in calcium.
Such a diet must omit milk, eggs,
green vegetables and many fruits
which are ordinarily the most sat-
isfactory substances for children. It
may contain, however, meat, liver,
potatoes, rice, tomatoes, corn, ban-
anas and milk-free bread.

Children should be watched care-
fully for any disorders of the appet-
ite such as have been described and
the habit corrected as soon as possi-
ble.

Anemia, loss of appetite, constipa-
tion, abdominal pain and vomiting
may often be the first symptoms of
the onset of the type of poisoning
that has been mentioned. A phys-
ician should be promptly consulted in
the presence of these symptoms, since
this is an important factor in pre-
venting permanent disorders.

With Our Contemporaries

A NEW SORT OF BOWLING SHOP

Beauty specialists in Mayfair, Eng-
land, are prescribing bowling for their
patients whose necks and shoulders
are in special need of development.
Out door bowling alleys are recom-
mended, where they are available, and
patients are warned against ill-venti-
lated alleys in case they must play in-
doors.

Now if somebody had thought of
that one here a long time ago, per-
haps the bowling alley would not have
been relegated into the limbo of for-
gotten things along with the pool hall
and billiard parlor. Bowling alleys for
the most part were not considered
beauty shops. The majority of people
were inclined to class them as dens—
places where litters and lofers and
gamblers hung out.

But what else could you have ex-
pected when the places were termed
alleys? If they had been called
beauty shops they would still have
been flourishing—patronized by the
best people.

Yet some people still insist there is
nothing in a name.—Temple Telegram.

RAISE FROGS HERE

"Gettin' to be an awful wet coun-
try out here," remarked one farmer
to another on the streets last week.
"Yep," retorted the accosted, "think
I'll move back to east Texas where I
can enjoy a little dry weather."

The recent and copious fall rains
have brought forth numerous jests,
and semi-serious remarks from both
country and townspeople. One busi-

Flapper Fanny

SHOES REPAIRED
Marry in haste and you won't
have any leisure for repenting.

INTOLERANCE

A part of the population now and
then changes its mind about some
subject—about the liquor question,
for example—and pass laws on the
particular subject about which it has
changed its mind. The rest of the
population for some reason, do not
see fit to change their minds on the
given subject, and so become a new
"criminal element" in the social or-
der. The fact is that with respect to
most of our criminal laws, a man is a
"criminal" when and if he entertains
opinions contrary to the opinions of
the majority. Intolerance is the re-
sult of thinking, and not the exception.—
Slaton Slatonite.

We can't decide whether the writer
is advocating a change in the liquor
laws or not but we'll have to admit
that we agree with him, en toto, as it
were, on his views on intolerance.

They Do

"Married men should wear some-
thing to indicate plainly that they
are married," says a critic. They
generally do by wearing a suit of the
year before last this year and next.—
London Opinion.

FOR SALE—Modern 5 room house. Terms. D. M. Smith. 1907 8th.

Improvement In Milk Sanitation Here Marvelous Since Adoption Of Ordinance Health Officials Say Following Survey

The dairies which supply milk to the city of Lubbock are now in very good sanitary conditions, and the supply of milk is exceptionally pure when considered on the basis of the time that concerted efforts have been under way to bring about such conditions. It was said here Wednesday by Dr. Clarence E. Smith, Associate Milk Specialist of the U. S. Public Health Service, who with Dr. W. H. Haskell, also an associate specialist, H. Pierson, Inspector of the State Board of Health of Texas and Dr. Y. J. Aiken, City Milk Inspector, has just completed a survey of the situation here.

All Officials Land Move The officials with one accord were loud in their praise of the efforts put forth by dairymen, and expressed much gratification at the progressiveness of city officials who early this year passed the standard milk ordinance into a city law.

"I visited Lubbock and made an inspection of the dairies just a year ago," Dr. Smith said, "and the improvement which has been made is little short of marvelous. When you take into consideration that the standard milk ordinance was not adopted by your city until February 4 of this year, and that all these improvements have taken place in nine months, such a feat is a wonderful achievement."

Dairymen Co-operate "I feel that the dairymen cannot be too highly commended for the way they have co-operated with city officials, and I feel that the citizens of Lubbock are fortunate to have such progressive administration."

"Milk is second in importance only to water as a vehicle of disease transmission. A public water supply unquestionably reaches a larger percentage of the people than any other single potential disease vehicle, but milk follows a close second. Therefore, when a commission enacts a law to safeguard the city's milk supply, it demonstrates that it has the best interests of the citizens at heart. I congratulate the citizens of Lubbock, I congratulate your Mayor and commissioners, and I congratulate your dairymen."

Improvement Is Rapid "About thirty cities in Texas have to date adopted the standard milk ordinance that has the approval both of state and federal health departments, but I do not know of any place where the improvement has been so rapid. Every person in your city should be proud of what has been accomplished in milk sanitation during the past nine months, and I feel that in another twelve months, Lubbock will have as clean a milk supply as can be found any where."

Prior to and even after adoption of the ordinance in Lubbock, no little criticism was hurled at city officials for their actions in penalizing the

by ours. We Americans have been showing off our wealth so ostentatiously. America and Europe are moving in opposite directions—America towards idealism, Europe towards materialism, Dreiser said.

Old Piano To Be Shown At State Fair

JACKSON, Miss., Oct. 20. (AP)—Though its strings have long since become corroded and from its keyboard resounds horrible discords, a little piano, said to be one of the first two to reach the new world, will be a feature exhibit at the Mississippi state fair.

The instrument is the property of City Commissioner R. M. Taylor who secured it from Miss Rosa Fisher, octogenarian of this city, in whose family it has been for generations. The piano to the piano is said by Miss Fisher to be in Mount Vernon, home of George Washington. Visitors to Mount Vernon describe the pianos as identical.

It is of French make, about 15 inches thick, 28 inches wide and about 40 inches long. There are 73 keys, connected in a vastly different manner from the pianos of today.

Americans in France spent more than \$236,000,000 in the last year.

French Money Mad Parisians Are Told

PARIS, Oct. 20. (AP)—The United States may be a Shylock in the eyes of some Frenchmen, but in the view of one prominent American author Paris is more "money mad" than New York. Theodore Dreiser told a French interviewer that Paris is French in money.

"It is even worse than New York in that respect," he said, on his first visit to Paris since 1912. "The old intellectual, artistic Paris has been swallowed up by a commercialism more intense even than America's."

"Nor is the evil limited to France. There is not a corner of European soil that is free from it. The fault is part-

CATLEMEN IN GOOD SHAPE REPORT SHOWS

GENERAL RAINS IMPROVE RANGES AND LIVESTOCK IN GOOD SHAPE

(By Associated Press)
HOUSTON, Texas, Oct. 20.—This is a story of what the cows are doing. To a Texas cattlemans it is of infinite more interest than the trial of Al-mee Semple McPherson in Los Angeles, a gangster's warfare in Chicago or the visit to America of Queen Marie of Roumania.

H. H. Shultz, government statistician at Houston, has told the Texas cattlemen that the condition of Texas cattle has declined two points to 82 per cent and that ranges have come down three points to 89 per cent. Mr. Shultz now announces western livestock and range conditions, which the cattlemen studies for a possible clue to what their application means to his industry.

Rains Are General
General rains over most of the western states, Mr. Shultz said, have caused some improvement in range conditions. Utah, Nevada, Idaho and the northern half of Arizona are still suffering from a drought. The northwestern and southwestern states, west of the Continental divide have ample moisture while the central three are dry. Rains have been frequent and beneficial to the range in nearly all states east of the Continental divide, the report says and adds:

"Rain is needed in west central and south Texas. Winter range and food prospects have improved in Montana, western South Dakota and in western Nebraska. However, the recent freeze and cold wave have blighted prospects somewhat. Except for Utah, Nevada and Idaho, the other states have ample winter feed. The price of hay is reported somewhat higher as the demand has increased. No great shortage has been reported in any section. The condition of the range is 83 per cent of normal as compared with 84 per cent last month and 82 per cent a year ago.

Cattle in Good Condition
"Cattle and calves continue in good condition, except in western North Dakota, western Kansas and Idaho. Rains have relieved some of the drier areas, but shipments of cattle continue to move in volume. It is thought the food supply will not suffice for the winter's needs. Also the recent rise in market prices has stimulated a greater movement in some of the states.

"Generally the ranges are lightly stocked and there is only a slight tendency to restock with cattle. The situation is partly caused by the fact that financial backing is difficult to secure. The general shifting from cattle to sheep continues to find favor. The condition of cattle is placed at 96 per cent compared with 91 per cent last month and 92 per cent a year ago.

Sheep and Lambs Good
"Sheep and lambs are in very good to excellent condition. The dry conditions have not caused any material shrinkage and all classes will start the winter in a strong condition. Shipments are setting under way and are assuming volume. A large percentage of the feeder has been contracted for fall delivery at around 10 cents or better. A large portion of these are going to corn belt feeders.

"There is a strong tendency for range flock owners to cull aged ewes closely and replace them with ewe lambs or yearling ewes. All young ewes are selling at a premium. Aged ewes are finding a ready market in the farming sections.

"The condition of sheep is rated at 93 per cent of normal compared with 94 per cent last month and 95 per cent a year ago."

A picturesque war memorial unveiled at Trusham, England, recently, was entirely the spare time work of eleven ex-service men.

London has a rigid dieting, food.

Some People So Broad They Are Flat Baptist Evangelist Tells Audience In Delivering Famous Railroad Sermon

"Some people are so broad that they are flat—there is nothing to them," said Rev. W. Y. Pond, Baptist state evangelist who is conducting a series of revival services at the First Baptist church in this city. Rev. Pond was formerly a railroad engineer, and he delivered his famous railroad sermon at the service last night. He took his text from the seventh chapter of Matthew.

"Many of you people will wonder how I can get a railroad sermon from the Bible, but it is there just the same." The minister then began preaching, very vividly describing the religious, moral and social life of the people in this community. "Too many of us only want a little religion—just enough to get us by. We want a kind of gold patch religion, but are afraid to have a decent vulcanizing job done—of the heat. Of course the cold patch soon blows off, but we are satisfied to have another patch. We just want to be a little religious a portion of the time.

An Uphill Business
"It is an uphill business to serve God, and have to take our brakes off to do so. A train can not climb a hill if the brakes are on—neither can we serve God if we have our brakes set. If we are more interested in cards, pleasure and a sin than we are in religion we merely try to climb the hill with brakes on. All railroads keep their rolling stock in good order—an engine needs every ounce of its strength. If there is anything wrong with it the master mechanic will put it into the roundhouse for repairs. There are a lot of Christians like a crippled engine—they need to go to the roundhouse for repairs. Jesus Christ our leader and master mechanic is ready to repair and save us all the time. If we fail to accept His invitation we have no one to blame other than ourselves.

"The church is a militant force to break down the power of Satan. We can not hope to conquer if all our members are sleepy, tired and afraid to fight. A mere handful of soldiers can not conquer an army.

Many Are 'Empties'
"On the railroad every engine has its tonnage. If the train consists of empties it is known as dead-heading. They are light, but a train of empties is a hard train to handle. There are hot boxes, squeaks and all kinds of worries to deal with, and then at last the engineer pulls them into the terminal there is no one there to meet them—who wants to see a bunch of empties? There are a lot of church people who are 'empties.' They do not count for anything on earth and not count very much hereafter. They are dead-heading, and though they finally reach the terminal—heaven—they will find no one to meet them. The soldier train always gave me an inspiration. The windows are up—there is a sign of life on the inside for these men are going out to battle. They are not ashamed for they

have a purpose. Why not ride the soldier train to heaven? You will amount to something when you get there.

"The Pullman is a heavy car. It taxes the strength of any engine to pull a string of Pullman coaches. Just like it taxes the strength of a preacher to pull a lot of sleepy church members. All they want is a nice, quiet place where they may sleep—a kind of 'wind pudding' for a sermon. They fully trust the good pastor to pilot them to heaven, as they would trust the engineer of the train to pull them across a continent while they sleep. They may get to heaven, but they won't know what it is all about. God's children need a day train.

Calls Sinner to Repent
"The Lord did not come to call the righteous, but the sinner to repent. As the mighty wrecker will lift a wrecked train place it back on the track and start it on a homeward journey, so will Christ lift you up, save you and at last receive you in heaven.

"Too many of us try to save our conscience by saying 'well everybody is doing it—why not me?' We are not running on another man's track, but our own. Jesus Christ is our pilot and in his care we are safe. We are not responsible for the acts of others, and it is a blessed thing to know we are on the right track. If you are not on this track now, is the accepted time to get right. If you do this you will have a feeling of security that will not only make you happy in this world, but in that world which is to come."

Sings Railroad Song
At the close of the sermon Rev. Pond sang the railroad song, after which a special plea was made to the unsaved. On young men was converted and quite a number presented themselves for church membership.

This evening at 7:30 o'clock he will use as his subject "The Woodpecker's Brigade." He will show why the poorest Christian on earth is better than the greatest moralist.

Violet Rays Used Successfully On Eye

LONDON, Oct. 20. (AP)—Surgeons have succeeded in restoring sight to diseased eyes and by standardizing the method of treatment have opened up the way for a new attack on blindness, said J. M. Tarrant, secretary of Moorfields, the biggest eye hospital in the British empire. A year's experiment with a tiny mercury vapor lamp throwing out ultra-violet rays, has just been successfully concluded there.

The secretary said the violet-ray treatment had been successfully used in cases of threatened total blindness, the eye trouble in these instances being due to tubercular disease.

NEW BUILDING RECORD LIKELY

Volume Of Operations In First Nine Months Greater Than Last Year; More Seen

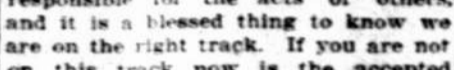

WASHINGTON, Oct. 20.—Strong assurance that 1926 will see all previous records for construction activities eclipsed has presented itself. Not only is the volume of building operations for the first nine months 3 per cent greater than the volume registered during the corresponding period of 1925, the high year to date, but a vast amount of contracts have recently been awarded and will soon be carried out to make the total for this year reach an astounding figure, according to statistics compiled by the Associated General Contractors of America.

The volume of building contracts awarded during August was the greatest registered in any month on record exceeding the previous high mark, set in August, 1925, by more than 2 per cent. The total volume of contracts awarded during the first eight months of 1926 exceeded by 10 per cent the corresponding figure for 1925.

This vast activity in the awarding of contracts, backed up by the actual fact that construction operations are keeping well ahead of the record breaking pace set last year, is forcing close students of the situation to the

IS IT CATARRH?

Oden, Ark.—"About four years ago I was troubled with catarrh in the head and with indigestion. My doctor did me no good. Finally I wrote to Dr. Pierce and when I received an answer I sent for Dr. Pierce's Golden Medical Discovery, Pleasant Pellets, and Dr. Sage's Catarrh Remedy, also a Nasal Irrigator. I commenced to doctor myself and had good success. I'm sure I would not have been living if I hadn't obtained relief. I am 64 years of age. I tell every one who has catarrh to consult Dr. Pierce, as he surely helped me."—J. W. Ledbetter. All dealers. Write Dr. Pierce, President Invalids' Hotel, Buffalo, N. Y., for free advice.

conclusion that more money will be spent this year for construction than ever before in the history of the country within a similar space of time. The volume of awards during August reached index number 264 on a scale having as its basis the average for 1913. It is interesting to note that the index figure for August, 1924, was only 169.

British Saddlers Art Aided By U. S. Demand

LONDON, Oct. 20. (AP)—Thanks to the demand from the United States for bits, spurs and bridles, the "foriner" or saddlers art is not yet dead in England.

Speaking at the lively dinner of the Loriners' company Daniel Hone said the chief foriner at Walsall told him that the people of the United States insisted on having English forged iron's work at any price, despite the enormous tariffs against it.

Husbands admire this trait

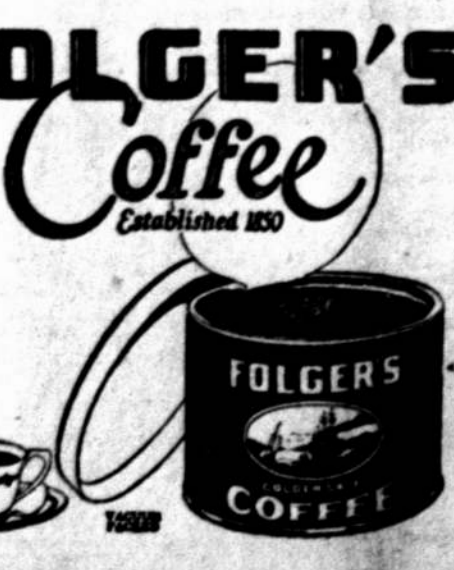

The housewife does the family buying today. That is why she must compare before she buys in order to obtain the best possible values for her money. Just as in selecting grapefruit, she also finds comparison helpful in buying everything for her home.

Of course, husbands admire this shopping trait. The only way to get the best quality is by comparison. So with coffees.

We could tell you of the rich, full flavor and fragrant aroma of Folger's Coffee. How you would enjoy each steaming cup of this blend of the world's finest coffees.

But we ask you to take nothing for granted. Simply make the Folger Coffee Test by which you compare Folger's with the brand you are now using.

The Folger Coffee Test: Drink Folger's Coffee tomorrow morning; the next morning drink the coffee you have been using; the third morning drink Folger's again. You will decidedly favor one brand or the other. The Best Coffee Wins. That's fair, isn't it?

The greatest virtue any car can offer

"Its engine improves with use"

ELIMINATE engine-vibration—minimize friction—do away with carbon troubles and valve grinding—and you accomplish these two important things...

Your up-keep cost is cut in half—and you add scores of thousands of perfectly good miles to the usefulness of your car.

In the poppet-valve-engined car, it is the pounding of cams against push-rods, the contact of push-rods on rocker-arms, the recoil of valves under coiled springs that cause vibration. And, in time, vibration will wreck the finest engine ever built into a poppet-valve car.

In the sleeve-valve-engined Willys-Knight there is no pounding of metal upon metal. No elaborate mechanism of rocker-arms and springs... You never have carbon troubles. There are no valves to grind...

The Knight engine is simplicity itself. It consists of but two metal sleeves operating with a gliding motion. No vibration. No friction. Simply two single sleeves working smoothly, silently, up and down, one within the other, in a constant film of oil—and that is all!

Willys-Knight Great Six prices from \$1750 to \$2495. Prices f.o.b. factory and specifications subject to change without notice. The Willys Finance Plan offers unusually attractive credit terms. Willys-Overland, Inc., Toledo, Ohio. Willys-Overland Sales Co., Ltd., Toronto, Canada.
