VOL. 4, No. 72 | SNYDER, TEXAS, THURSDAY, JULY 23, 1953 | FOURTEEN PAGES—PRICE 5c

SISTERS STAY EVEN

Three sisters, all in the maternity ward at the same time in Cleveland, O., show off their new children. Left to right, they are Mrs. Paul Grochowski with her daughter, who was born Friday; Mrs. Betty Leone with her daughter, who was born Tuesday; and Mrs. Barbara Baucco, with her son, who was born Saturday.

ROK Force Is Pushed Off Strategic Hill

SEOUL (AP)—South Korean infantrymen fought with bayonets, knives and rifle butts to the top of strategic Sam Hyon Hill in central Korea today but were beaten off in a savage 5½-hour fight with a reinforced Chinese regiment.

North of Sam Hyon, Allied air and ground observers reported sighting Chinese troops. Allied big guns shelled two separate Red battalions massing north of the battle line, plus a concentration of about 40 Red trucks and six tanks.

Rugged Sam Hyon Hill overlooks important territory on the Kumsong Bulge line, which the South Koreans established after being forced back last week by the mightiest Red offensive in two years.

Gen. Maxwell D. Taylor, commander of the U. S. 8th Army, toured the critical Central Front with South Korean President Syngman Rhee. He told commanders of the two Allied forces holding the Kumsong line—the U. S. 9th Corps and ROK 2nd Corps—the mighty Red offensive has been repulsed and the Allies now occupy "the shortest and most defensible line consistent with their mission in this area."

Clinging doggedly to the southern slopes of Sam Hyon, the ROKs fought through this afternoon with Chinese on the north, the 8th Army reported. The South Koreans had jumped off at 7 a.m., and slugged their way to the summit in close combat by 10. They were hurled back around 12:30 p.m. by a regiment of 3,500 attacking Chinese.

The South Koreans jumped off against Sam Hyon at 7 a.m., fought their way to the top in hand-to-hand combat by 10, then were forced back shortly after noon by a reinforced Red battalion—more than 3,000 soldiers.

Truce Appears Likely In Spite Of Opposition

Sentence Is Withheld On Convicted Man

A penitentiary sentence was withheld by District Judge Sterling Williams in court yesterday when Billy Jack Higgs, 22-year-old Snyder and Bowie man, pleaded guilty to a felony charge of swindling by worthless check.

District Attorney Renal B. Rosson presented the state's evidence. Walter Hales, to whom the check for $176 was written by Higgs last Jan. 3, identified the check in evidence and testified that Higgs told him at the time it was written that it was good.

After guilty plea was entered and the evidence was presented, Williams asked Rosson and Wayland Holt, county attorney who was not assisting in prosecution but was standing in the courtroom, what would be done with Higgs' misdemeanor cases. Higgs now has three misdemeanor check cases pending and has 17 more checks outstanding.

Holt told Williams that three of the cases had been filed and that he was now trying to give Higgs a chance to redeem the other 17. Williams told the two state's attorneys that he would not sentence Higgs to the penitentiary unless all the misdemeanor cases were cleared up.

Rosson, when prosecuting the case yesterday, recommended a three-year sentence. There is a compulsory two-year penitentiary sentence for those found guilty of felony swindling. Higgs is now serving a five-month sentence in the county jail from a misdemeanor check conviction in county court last month. He has been convicted in Colorado and in New Mexico on check charges, given a sentence in 1951 in New Mexico to 18 months to five years. He is now wanted in six counties other than Scurry on check charges.

All the 20 checks written by Higgs here were given in May and September in 1952 and in January, 1953. They total $197.05. Two of them were redeemed by Higgs last week.

TOWNSEND AND PRINCESS

Group Capt. Peter Townsend (upper left) and Princess Margaret (lower right) are shown as they posed with the Earl of Granville and Lady Mary Leveson-Gower at a house party at government house during Margaret's visit to Northern Ireland in October, 1947. Townsend then was a wing commander. Townsend was divorced from his wife in 1952 and the British government indicated Queen Elizabeth II had given Margaret permission to marry a divorced man.

Minor Items Still To Be Worked Out

PANMUNJOM, Friday (AP)—The Allies and Communists seemed on the threshold of a Korean armistice today even as Red China's Peiping radio warned that renewed South Korean opposition has thrown the cease-fire "in great danger."

Persistent reports said the document ending three years of fighting could be signed within 72 hours. These reports lacked confirmation.

Despite a hostile reaction by Communist radio stations to President Syngman Rhee's utterance Wednesday that South Korea will follow its own course of action unless the Chinese agree within six months of a truce to leave North Korea, Red workmen continued work on "armistice hall," the building designed for the truce signing ceremony.

The Reds hammered on the building all Thursday night, aided by American searchlights.

Official opinion in Washington was that a truce would be signed soon.

Allied sources said one or two minor points remain to be ironed out. They said one or two further meetings of officers might be required before the full delegations are called into session to fix a date for signing.

One source close to the negotiations said work is progressing rapidly but the armistice has not been "wrapped up."

Officers are reported to have drawn the cease - fire line across Korea and completed arrangements for exchanging prisoners of war who want to return home. The truce line was said to have been completed during a 15-hour session which ended at 1:45 a.m. Thursday. Prisoner exchange plans were believed to have been finished at a meeting later in the day.

The officers recessed without scheduling meetings after Thursday's sessions.

Persistent reports said a truce signing could come within 72 hours. These reports lacked official confirmation.

An advance party of Swiss and Swedish members of a commission which will supervise an armistice arrived in Korea from Japan.

Communist radio stations reacted promptly and violently to President Syngman Rhee's statement yesterday that South Korea will follow its own course of action unless the Reds agree within six months after a truce is signed to evacuate North Korea.

Peiping said the statement was "nothing but a pretext to wreck the armistice." And the broadcast added:

"Continued American connivance with Rhee has placed the Korean armistice in great danger."

At the same time, however, the Red broadcasts did not say a truce was impossible. And Red workmen at Panmunjom hammered away at a new building for the armistice signing ceremonies.

Four Swiss and four Swedish members of the Neutral Nations Armistice Commission flew to Seoul from Tokyo and were hustled to the U. N. advance camp at Munsan by helicopter.

Local Phone Workers Vote On Strike Issue

Union employes of the Southwestern Bell Telephone Company here are casting ballots now on whether to strike, representatives of the union said today.

The Associated Press said that some 45,500 telephone workers in Texas, Arkansas, Oklahoma, Missouri and Kansas were voting today on the issue. They are members of the CIO Communications Workers of America (CWA).

According to the press release, T. E. Webb, Dallas, state union director, asserted:

"Our people are beginning to get restless. We have every reason to believe that they will vote to go out on strike."

The union and company officias have been negotiating in St. Louis. Webb said the union was asking for a "general upward revision of wages."

It was impossible to learn here today how most employes were voting, because the strike ballots were mailed to the individual union members, and are being returned by mail after being marked, and are not being counted locally.

Mrs. Clara Books, steward of the traffic (operators) department, said that no meetings of her department had been held, and that she has heard little local comment on the strike issue.

Mrs. Books said that the union and company began negotiating for a new contract on June 3, and that the old contract's primary period expired July 5, with the union being without contract now.

"The company has refused all the requests made by the union so far," Mrs. Books quoted from bulletins received by her from union headquarters for this district.

Belief that the vote would favor the strike by "practically 100 per cent" was expressed in Abilene Wednesday by Mrs. Bessie Shelton, president of the Local CWA Union 6202. Workers in all departments of the Southwestern Bell Telephone Co. in the Abilene district voted Wednesday.

The Abilene district includes approximately 250 workers in Abilene and another 250 workers in Colorado City, Sweetwater, Snyder, Stamford, Hamlin, Roby, Rotan, and Anson, the Abilene paper said.

Mrs. Shelton said she had been in contact with union leaders in Dallas since the voting started Monday. She said plans were ready to start the strike in the Abilene district "just as soon as I get the word."

Some of the non-union employes in the local office said that a strike would mean a chance for them to put in some overtime which they liked to do.

Big 4 Meet Rejection Seen

MOSCOW (AP)—In a major statement of Communist policy, Pravda today spurned the West's call for a September conference of the Big Four foreign ministers on Germany and Austria. The organ of the Soviet Communist party said the invitation was a behind-the-back "deal" attempting to force the Soviet Union's hand in advance.

The newspaper in a four-column, front-page editorial gave the first Soviet reaction to the July 15 invitation from the U. S., British and French ministers for Foreign Minister V. M. Molotov to meet them in talks.

(Observers in London concluded that the Pravda editorial indicated the Kremlin would reject the Western bid to a conference dealing only with Germany and Austria).

Pravda did not slam the door on the possibility of some kind of four-power parley. Such a conference, it said, "under specific circumstances could have an important and positive significance."

The newspaper lashed out at "deals" it said the three Western foreign ministers made in advance in their Washington meeting—"attempts to force upon the U. S. S. R. both the time and agenda of a four-power meeting adopted without the participation and behind the back of the representatives of one of the four states."

(These statements seemed to indicate the Soviets want the procedure followed in the past, agreement on an agenda at a preliminary conference of deputies of all four countries. The last proposal for a Big Four meeting which reached this stage died in 1951 because the deputies, after 3½ months of negotiations in Paris, were unable to agree.)

97-Degree High Here

The temperature stopped on 97 degrees here yesterday, but clouds which might have brought rain didn't stop at all.

An overnight low reading of 70 degress was recorded by Mrs. D P. Strayhorn, weather observer, with the mercury back to 80 by 8 this morning.

Hearing For Preacher Set

WASHINGTON (AP)—The House un-American Activities Committee voted today to call the Rev. Jack McMichael, Methodist pastor at Upper Lake, Calif., for questioning next Thursday. It has received testimony he was a Communist Party member.

Chairman Velde (R-Ill) said the committee deferred action regarding Dr. Harry Ward, a former Union Theological Seminary faculty member. It also has received testimony that he was a Communist.

Rep. Clardy (R-Mich) disclosed Tuesday, while the group was questioning Methodist Bishop Bromley Oxnam, that McMichael and Ward had been described as Communist Party members in secret testimony received by the committee earlier.

Oxnam was questioned for nearly 10 hours. The committee adopted a motion then that there was nothing in its record which showed the bishop was affiliated with Communists.

Wildcat Here Is Failure

Wheelock and Weinschell No. 1 Ora May Taylor, South Scurry wildcat, has been plugged and abandoned on total depth of 7,725 feet in dry Pennsylvanian lime.

The No. 1 Taylor was drilled 660 feet from north and east lines of section 150-97-H&TC, eight miles southwest of Snyder and one and one-half miles northeast of the nearest production in the Sharon Ridge 1700 field.

FISHER COMPLETION

B. M. Hester & Son and Norwood Drilling Co. No. 1 Gena Dooley, Southwest Fisher prospector, has been completed with an oil flow at the rate of 15 barrels per hour.

A half-inch choke was used during the potential, with casing pressure 500 pounds and tubing pressure 150 pounds.

This wildcat, three miles northwest of the Clayton-ville-Pennsylvanian field, is in section 176-3-H&TC.

HOWARD FAILURE

Herman Brown of Houston No. 1 Hagge, Howard wildcat outside the proven area of the North Luther-Canyon field, has been quit at 8,259 feet in the top of the Pennsylvanian reef lime showing water.

The drillsite was 660 feet from south and west lines of section 41-32-T&P, six miles southeast of Luther.

LYNN PROSPECT

Sunland Oil Corp. of Fort Worth and others have filed application to drill a 4,750-foot wildcat two miles southwest of Lynn in northeast Lynn County.

It will be the No. 1 M. M Bruster, 330 feet from south and west lines of the northwest quarter of section 1274, J. R. Bowles survey. Some maps show this section to be in the EL&RR survey, block 8.

DRILLING REPORT

In Northwest Scurry County, Humble Oil No. 1 Annie Jones has perforated from 2,500-650 feet to swab and test.

McElroy No. 1 Higginbotham, Borden wildcat, is at total depth of 8,338 feet in lime and shale and trying to loosen and recover lost drillpipe.

Double U No. 1-A G. E. Spindler, three miles south of the Fluvanna multi-pay field in Borden County, is drilling in lime and shale below 6,982 feet.

Plymouth No. 1 Wahlenmaier, Crosby wildcat, is circulating while waiting on further orders. A drillstem test in the Ellenburger from 8,799-8,332 feet recovered 603 feet of mud, 360 feet of salt water cut mud and 7,370 feet of salt water with no shows of oil.

RED HILDE BUSY

More Riots In East Zone; Soviets Get Tough Again

BERLIN (AP)—New riots in the Soviet-run uranium mines of East Germany were reported today as a fresh wave of arrests by Communist police spread over the rebellious Russian zone.

The U. S. High Commission newspaper Neue Zeitung said troops of the East German "peoples' army" have been rushed into the Erz Gebirge uranium mining area along the Czech border to put down the miners' new uprising.

The paper said 200 miners have been arrested this week for "open rioting." They were demanding release of 1,200 comrades arrested in the big anti-Communist revolt of June 17.

Schwarzenberg and Johanngeorgenstadt, two mining towns between Aue and the Czech border, were named as the main trouble centers. This area produces rich uranium ore used by Russia to make atom bombs.

A new campaign of terror swept through the Communist zone as police and courts combined in a concerted drive to suppress the danger of a new mass revolt.

Refugees fleeing to West Berlin told of night raids by police into hundreds of homes and mass roundups of suspected trouble makers in many cities. They said the wave of arrests began Tuesday.

"Red Hilde" Benjamin, the new justice minister, was busily carrying out her announced program of cracking down on strikers through the court system she heads. Hundreds of people acquitted and released after the June 17 revolt were reported rearrested. Others who got off wtih light sentences have had their cases reopened for an increase of penalties.

Many Justice Ministry workers were reported fired—and some arrested—for dealing too gently with riot participants.

BRITISH PAPERS MUM OVER ROYAL ROMANCE

LONDON (AP) — The romance of Princess Margaret got little attention in most London newspapers today despite the government's move to clear the way for her marriage.

Such newspapers as the Times, Daily Mail and Daily Telegraph did not even mention Group Capt. Peter Townsend in connection with the decision to amend the regency laws.

The Daily Express was the only newspaper commenting editorially. It criticized the government for deciding to shift royal responsibility from the Princess. The Express apparently believes she should be allowed to marry the divorced Townsend and still become regent (acting queen) in the event of Queen Elizabeth's death before the heir to the throne, Prince Charles, now 4, reaches 18.

Townsend is 38 and the Princess 22. He was the wronged party in a divorce action last year, but the Church of England, closely associated with the throne, frowns on the remarriage of divorced persons.

Neither Margaret nor Townsend was mentioned in parliament. The acting Prime Minister, Richard Butler, could have been referring to no one else when he expressed hope for an end to "deplorable speculation."

Princess Margaret serenely carried out her royal duties, increased somewhat by the slight illness of her mother, Queen Elizabeth. She inspected gardens for the Queen Mother, and yesterday went to Southampton to start a drive for the erection of a YWCA hotel which is to bear Margaret's name.

In Brussels it was said Townsend was carrying out the normal, unexciting functions of an air attache at the British embassy. He was sent abroad on the new assignment two days before Margaret returned from an official tour of Rhodesia.

The appointment came with surprising suddenness. He had been an equerry in the royal household since 1944 and was generally believed in line to become comptroller of Clarence House, where the Princess lives with her mother.

The New York Daily News, first newspaper to publish details of the Margaret - Townsend romance, said in a London dispatch today:

"Queen Elizabeth, the Church of England and the British government have given their permission for the marriage of Princess Margaret to Group Capt. Peter Townsend, a commoner and divorced man.....

"The first glimmer of a smile shone on the Princess' face when she received a telephone call from Buckingham Palace while in Rhodesia last week. Margaret had been reported ill and her sister, the Queen, was worried. If it were Margaret's wish, the Queen said, she would make efforts to have the Regency Act altered.

"Margaret eagerly pleaded for willingness to give up her rights....

"Elizabeth meanwhile held conversations with the Archbishop of Canterbury and Prime Minister Sir Winston Churchill.

"The Queen was most conscious that she could not in any way condone officially the marriage of a possible successor to her throne to a divorced man, even though he were the innocent party. The marriage could be countenanced only if Margaret were no longer in the line of succession. With the removal of this constitutional barrier, the way would be open to win the consent of the church. . .

"Last weekend the telephone calls between Buckingham Palace, Chartwell, and Lambeth Palace, home of the Archbishop, were lengthy and numerous. The wheels had started to turn."

WEATHER

NORTH CENTRAL, EAST and WEST TEXAS: Partly cloudy through Friday with widely scattered thunderstorms. No important temperature changes.

SOUTH CENTRAL TEXAS: Partly cloudy Friday with widely scattered afternoon and evening thundershowers in northwest. Not much change in temperatures. Moderate variable mostly south winds on the coast.

Total Power Of Malenkov Is Doubted By Some In Britain

LONDON (AP) — Leaders of Britain's government were reported far from convinced today that Premier Georgi M. Malenkov wields total power in the Soviet Union.

Qualified informants said Prime Minister Churchill and his colleagues, on the basis of their own information from Moscow, would not be surprised if changes even more dramatic than the purging of Lavrenty P. Beria take place in the Russian hierarchy, and within the foreseeable future.

Government spokesmen did not express these views officially. But the private opinions were given considerable support by Acting Prime Minister R. A. Butler's statements to Parliament yesterday.

Opening a foreign affairs debate in the House of Commons, Butler explained the Western Allies had proposed a Big Four foreign ministers meeting on Germany and Austria even though they "might await further and perhaps even more sensational events behind the Iron Curtain, and above all wait to see who are likely to remain the real repositories of power in Moscow with whom we will have to negotiate."

Uncertainties about the Soviets, according to Butler, led the British to shelve for the time being Churchill's proposal for a top-level parley between the Russians and the West.

Within the context of this thinking, British officials today pondered the meaning of:

1. The apparent failure of three high leaders of the Red army to attend an important meeting of Russian military men in Moscow last week.

2. The sudden eight-day postponement of the meeting of the Soviet Union's parliament, the Supreme Soviet, which had been set last week for July 28 and now has been put off to Aug. 5.

The Moscow meeting of the Red army bosses was called to hear denunciations of Beria, the deposed police chief formerly considered No. 2 man to Malenkov.

British officials noted that the absentees included one of the two deputy ministers of defense, Marshal Alexander M. Vasilevsky (the other deputy, Marshal Georgi Zhukov, spoke at the meeting); Marshal Ivan S. Konev, before Stalin's death commander of Soviet ground forces and an honor guard at Stalin's bier, and veteran Gen. Sergei Shtemenko, a former army chief of staff.

Many officials here believe their absence from the Moscow meeting may mean they are not prepared to identify themselves with the campaign against Beria—and hence may also be in disgrace. But, cautiously, these officials add the absences may have been caused by less portentous reasons.

According to these informants, the postponement of the Russian parliamentary session may mean the Soviet purge launched with Beria's dismissal is not yet complete. One of the purposes of the session, it is believed generally, will be to confirm the action by the government and the Communist party against Beria and his cronies.

Perhaps, British officials speculate, the Soviet high command is not sure yet just what purges must be approved.

Daring Rescue Made In Mediterranean Of 16 Plane Victims

LONDON (AP)—The admiralty said today 16 British airmen have been saved from the Mediterranean in a daring, two-way rescue operation by an American seaplane and a British destroyer.

The Britons' four-engine RAF transport crashed in the sea off North Africa yesterday and they took to a life raft.

The American plane, from the U. S. Air - Sea Rescue Squadron at Wheelus Field, near Tripoli, landed on the choppy sea alongside the raft and took the men aboard.

The load was too heavy for the plane to take off. The British destroyer Barfieur raced from Malta and picked up the rescued. The destroyer stood by until dawn, when the plane took off successfully.

Amarillo Gets Heavy Rain; Few Showers In West Texas

By The Associated Press

Amarillo was soaked Thursday for a change.

Clouds and light sprinkles hung around after a downpour during a storm Wednesday night brought amounts of rain varying three to five inches in and around the Panhandle city.

The area around Amarillo got lesser amounts, ranging from .80 of an inch at Panhandle to .08 at Plainview.

A damp umbrella of clouds still covered the northern half of West Texas today, and prospects were good for more showers.

Prospects for the 1954 wheat crop in the Panhandle zoomed with the rain, Charles Beedy, assistant Potter county farm agent said. He said the rain was enough to add considerable moisture to the subsoil on which wheat depends.

Lines were knocked out in the Amarillo storm that dumped up to four inches of rain in some sections. Stalled cars were flooded to the headlights. The Aviatrix night club was struck by lightning and burned. Owner Iweta Scales estimated damage at $150,000. The 22 persons inside escaped.

Several flooded streets and underpasses were barricaded when water flowed deep. Southwest Amarillo was hardest hit by the rain that started about 6 p.m. and lasted until Thursday morning.

Across the state on the eastern border, the swollen Sabine River threatened its third flood this year. Paul Cook, weather bureau director at Lake Charles, said runoff water from recent downpours is forming a flood in the Upper Sabine with the river expected to reach 3.5 feet above flood stage at Mineola by Saturday.

Heavy showers ranging up to three inches fell Wednesday in a narrow swath south and west of Lubbock. Strong winds and pea-sized hail accompanied the storm in Southwest Lubbock Wednesday. Hail damaged some cotton.

Other towns in the drouth area hoped in vain for rain.

Farmers and cattlemen were concerned about the drouth and how to get federal help without red tape.

President Eisenhower, Gov. Shivers and Secretary of Agriculture Benson answered complaints about federal regulations Wednesday. They said no paupers statement is required for feed and emergency feed loans.

Some farmers asserted federal directives on giving relief were confusing and inadequate.

Directors of the Texas Farm Bureau Federation met in Waco Wednesday and sent a telegram to Benson asking withdrawal of his lastest directive. The directors also asked that dairymen be declared eligible for relief.

Benson's telegram Wednesday to state drouth aid committees in the Southwest emphasized the county committees could use discretion in determing eligibility for loans.

Shivers said federal drouth aid will be handed out on a local basis by county committees who know the needs of applicants. He was assured by the President and Benson that these local committees have latitude in the program.

More scattered rain was expected through Friday from partly cloudy skies. A weather forecaster said the weather front was about finished as a rain maker. Rain has been falling here and there all week, but showers have never been general.

Temperatures Wednesday ranged from 90 at Lufkin to 104 at Cotulla and Laredo. The Dallas high was 101, sending 16 persons to hospitals with heat exhaustion. None of the cases was serious.

Journal Finds Out Drouth Is Crippling Dawson Economy

EDITOR'S NOTE: The following is part of a story which appeared in Wednesday's Wall Street Journal written by Charles N. Stabler.

LAMESA — How bad is the much-publicized drouth in the great Southwest?

Is it seriously sapping a lusty source of consumer buying power? Is it really giving birth to a new Dust Bowl—as has more than once been written?

A survey of the scene made from this sun-baked prairie town here in the heart of the dry country leads to two clear conclusions:

First the drouth is indeed bad. And it is deeply knifing the income and buying potential of 300 counties in five states, comprising 200,000 farms and ranches.

But second, and probably more significant, it apparently does not herald a new Dust Bowl. People here who should know say diversification of the area's economy, plus new knowledge of land erosion control, mean the economic blight of the thirsty thirties is not coming back.

GRITTY WIND

Here on the South High Plains of West Texas you get a vivid picture of the drouth's impact. In the area right around this community, the county seat of Dawson County, a visitor drives through fields that are brown and parched The dust drifts in dunes around fences and utility poles. And the hot, gritty wind blows day and night. Filling the mile-long furrows.

Scattered thurderstorms that hit these parts last week end were no more than teasers. The less than half an inch of rain that fell on Lamesa Sunday was not enough to settle the dust for more than a day. Of the county's 475,000 cultivated acres, no more than 35,000 to 40,000 got any rain at all.

This is the hardest-hit part of the drouth area, weathermen and agriculturalists agree. Duck out of the blazing sun into the seed stores and cafes of Lamesa and talk to the Dawson County farmers who are in town:

"The life of the land is gone; I don't know where; but it's gone. It's like a man after you take all his blood out. He may look the same but his life is gone."

"I planted 300 acres of cotton on unwatered land. Worked it out and got it hoed and now I'm just hoping to get a rain. It's going to die if it don't rain."

"Twelve to 15 families near me have pulled up stakes. Two old boys came through the other day and told me they were burning all bridges, never coming back. Oh, man, I mean this it pitiful."

"Ive got a half section near town where the dirt has blowed off down to the hardpan. There's not a thing in the world agrowin'."

BUSINESS IMPACT

And take a look at the confidential business forecasts filed by local merchants with the Lamesa Chamber of Commerce. A service station owner says his 1953 income will be one-third below 1952's, the number of his employes has been cut from four to three, and he is giving less credit to his customers. A baker reports business off 20 per cent and employes cut from six to four. A grocer's business is down 50 per cent and employes cut from two to one. A new car dealer says his volume is down 25 per cent and he's cutting back his staff from 10 to eight.

H. D. Hillard, manager of the Western Auto Associates store, gives some details: "At least a dozen people have told me they want television sets since they put a station in at Lubbock. They say just bring them out if it rains. But it doesn't rain. I'll be lucky to do 50 per cent of what I did last year. The man next door—he had a variety store—just backed up some trucks the other day, loaded up and left town."

Dawson County is in its third year of greatly below normal rainfall. During the first six months this year it had 1.74 inches of rain and then an additional 0.73 of an inch this month. In the first six months of 1952 it had 3.93 inches and a year earlier, 3.90. Normal rainfall for the six-month period is 7.72 inches.

These three years are the longest, driest period in the 43 years the county has been keeping rainfall records. Judged by this standard, the drouth is worse than anything experienced in 1933-1934, in 1924-1925 or in 1917, the previous severe drouth periods.

COTTON AND FEED

Over the past 10 years the county has relied chiefly on cotton for cash income, raising an average of 63,335 bales a year. In 1951 the farmers ginned 53,322 bales, in 1952 there were 46,000 and the most optimistic forecast for this year is 15,000 bales.

Doyle Terry, manager of the Kimball Milling Co. office, says his mill in 1950 shipped out 140 carloads of feed grown in the county. In 1951 he shipped 33 cars and "this year it looks like we won't have anything."

Wright Boyd, president of the local Cotton Growers Association, figures some 200 Dawson County farmers have left their fields and gone to work for wages—either nearby or in the more industrialized parts of Texas.

The total employed force in Lamesa, which was 3,730 last September, was down to 3,272 at the most recent count in June. "Recently we sent 74 unskilled laborers who had been living here to Monahans to work on the railroad and we sent eight bus drivers to Dallas," reports the State Employment Service.

According to estimates by the local Chamber of Commerce, the county's effective buying income has dropped 40 per cent during the past two years, or about $4.3 million a year.

SAVINGS SLUMP

Deposits in the town's two banks have fallen $2.3 million since June 30, 1952, and $4 million from a year before that. They stand now at $12.2 million.

W. B. Beeson, local supervisor for the Farmers Home Administration, reports 216 emergency loans totaling $697,570 have been made to Dawson County farmers. He adds: "The banks have indicated they will send us about 300 of their customers if they aren't able to plant a grain crop."

Not all of the farmer's difficulties are due to the dry weather. Falling prices are adding to his woes. In Texas, for instance, farmers are getting an average of 18 per cent lower prices for all their products than they got last year, according to the University of Texas Bureau of Business Research.

The drouth's effects vary tremendously over the Southwest and its boundaries change quickly. For instance, recent rains in the midsouth, including parts of Arkansas, Mississippi and Tennessee, have ended the long dry spell there, according to agricultural agents.

Last week thunderstorms hit over wildely scattered parts of the Texas - Oklahoma drouth area, but they were too spotty and short-lived to bring more than temporary relief. What the land still needs, according to Louis P. Merrill, regional soil conservationist for the Department of Agriculture, is good soaking rains that cover a large area and then seasonably normal rainfall over a long period of time.

Road Paving Being Completed In Part Of County This Week

Paving will be completed within the next few days on two projects in county precinct No. 4, according to Doyle Parmer, commissioner of that precinct.

Parmer said topping will be finished tomorrow on a two-mile road connecting Farm Road 644, which runs from Hermleigh south to Loraine, to U. S. Highway 84. The road runs east and west.

Work will be finished Saturday or soon after on a 907-foot project on South Avenue E, which connects paving at the city limit with Thirty-seventh Street.

Parmer said county employes were performing all base work on the two projects and that the Shipley Co. is doing all surfacing.

Total cost on the projects will be about $5,600 per mile, Parmer said.

Bad Check Charges Filed Against Two

Charges of swindling by worthless check were filed in county court yesterday against two men by Wayland Holt, county attorney.

W. B. Taylor was charged with giving a bad check to Forrest Builders Supply Oct. 22, 1951. The check was in the amount of $7.50 on the Snyder National Bank. N. L. Morton, employe of the builders firm, signed the complaint.

The other charge was against Herb Thompson for a $24 check written to Strayhorn Courts Dec. 14, 1951, on the City National Bank of Houston. Mrs. David Strayhorn signed the complaint.

Both men were not in custody a noon today.

Rushing Case Is Not Set Down For Trial Yet, Seeking Counsel

No definite time has yet been set for the trial of B. F. Rushing, 29, of 905 Twenty-fifth Street, who is charged by grand jury indictment with rape and incest of his nine-year-old daughter.

District Judge Sterling Williams said this morning that Rushing is attempting to get private counsel. If he doesn't the court will appoint an attorney, he said. Rushing's case will probably come to trial next week, the judge added.

Williams said he was attempting to set a criminal docket for Monday.

Returning Man Here To Face Check Charge

Scurry County is awaiting custody this week of G. R. Kring, former Snyder resident who is charged with swindling by worthless check.

Kring was apprehended this week by officers at Jourdanton, where he is being held on check charges filed there. Scurry County will gain custody on the man as soon as his cases there are cleared.

The charge was filed here last Jan. 10. Wayland Holt, county attorney, said the charge was filed for a hot check given to H. Sullivan. The check, in the amount of $33.75, was written May 20, 1952.

The Smithsonian Institution operates a tropical biological laboratory on Barro Colorado Island, Canal Zone.

More Cheap Feed Is En Route To County

Three more cars of cottonseed cake for the disaster feed program of the Production & Marketing Administration are now en route here from Stamford, according to Glenn Tate, chairman of the drouth emergency committee.

Also en route are three carloads of oats from Chicago.

Tate said there are now more than enough orders in the PMA office to take all the feed now being shipped.

There have been 344 applications here for various kinds of cheap feeds under the program.

Women Polling Selves About Administration

By MARTHA COLE

FORT WORTH (AP) —Some Texas women who "want to get our two cents in" polled themselves and found the Eisenhower administration was doing all right—but could be improved.

The postcards went out last week to 500 Texas women and came back from almost 300 in 69 towns and cities. The purpose: What do you think of your President after his six months in the White House?

"Horrors, what will we do if they don't like him?" asked one woman new to this polling business.

"That's perfectly all right—all we want to do is keep up with what they're thinking," replied Mrs. Margaret Womack of Fort Worth, who was ramrodding the deal.

The questions:

1. Do you approve of a Korean truce? Yes, said 39 per cent; no, said 52 per cent; undecided, said 9 per cent.

2. Do you believe that a truce in Korea should be followed by an appreciable letdown in our defense program? Yes, replied 10 per cent no, said 89 per cent; undecided said 1 per cent.

3. In general, do you approve or disapprove of the way present officials in Washington are handling our foreign affairs? Approve said 49.48 per cent; disapprove, said 44.27 per cent; undecided, said 6.25 per cent.

4. In general, do you approve the handling of domestic affairs by the Eisenhower administration? Yes, said 80.73 per cent; no, said 14.58 per cent; undecided, said 4.69 per cent.

The comments included these:

"I believe that we should have been allowed to fight to win the war in Korea from the beginning," wrote a woman in Crockett.

From El Paso — "I do not approve of making a deal with Chinese Communists at the expense of the South Koreans and President Rhee."

On foreign policy—"Too cautious and timid," wrote a Fort Worth woman. "Too much influence of Milton Eisenhower, Dulles, Stassen and Dewey," wrote a Dallas woman.

Dollar Losing Value Again

By SAM DAWON

NEW YORK (AP) —The cost of eating is up again. The cost of living is likely to push still higher this month and next. The purchasing power of the dollar, which rallied for a time, is slipping again.

The government's official measuring stick for all this, the consumer price index of the Bureau of Labor statistics, set a record high in mid-June, pushing through the previous record high set a year ago and touched again at election time.

The index measures what was happening to your pocketbook six weeks ago. Since then meat prices have gone up. The price of gasoline has been raised most places. Some basic industrial prices have gone up, too, steel and various chemicals.

True, a wife doesn't run out to the store to buy a pound of steel. She does buy things made of steel and processed by chemicals. The cost of making these things will be rising.

Rents rise here and there across the nation.

Getting to and from work is becoming more expensive for lots of folk. Transit fares have risen in a number of cities and are due to rise in others.

Services of all kinds, hospital and doctor bills, fuel and power, continue under the pressure of rising costs. Mailing letters may become more expensive.

There is a brighter side to all this, if you look for it. This is the time of year that commodity prices tend to rise. Many things going up now are likely to slip back in a few months.

Weather plays a particularly big role right now. Drouth, for example, has hurt the cotton crop in some important growing areas. This has boosted the price of cotton. The same drouth has sent many cattle prematurely to market, lowering prices of beef for a time.

Now government loans to distressed ranchers has removed some of this pressure to sell cattle, and prices rebounded for a time at the stockyards. In other places good rains boosted the outlook for a bumper corn crop, weakening these prices.

Long Range Throwers

WOONSOCKET, R. I., (AP)—Vandalism has reached a new high here—75 feet to be exact.

Forest fire tower observer Ariel Mowry told police that when she reported for work yesterday she found windows broken and rocks on the floor of the lofty observation post.

Suit Is Ended In Court Here

A civil district court jury found points in favor of both parties to a suit yesterday in the case of C. D. Boone vs. J. W. Robinson.

The suit was actually the consolidation of two suits, in which each man was suing the other in connection with damages caused by a truck-pickup collision at Camp Springs Jan. 15, 1952. The parties on both sides agreed on damages of $850 to Boone's vehicle and $500 to Robinson's before the trial began, and the hearing before the jury was held to determine only who was at fault.

The jury found that Robinson's driver failed to keep the truck under control, that his truck entered the intersection after Boone's pickup had, and that the driver drove at an excessive rate of speed. The jury said that all those points indicated negligence on the part of Robinson's driver and contributed to the cause of the accident. The group also found that Robinson's truck had adequate brakes.

Findings against Boone were that his driver failed to keep a proper lookout and that that contributed to the accident. The jury found that Boone's driver stopped before the collision occurred.

The jury was dismissed until Monday by Judge Sterling Williams.

Personal
to Women With Nagging Backache

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When below-par condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

Top Military Men Camping Together

By ELTON C. FAY

QUANTICO MARINE BASE, Va. (AP)—The men who run the military—more than 100 civilians, generals and admirals — begin tonight a camp-meeting-style conference.

During the next three days they will live together, join in sports and talk serious business about American defenses, the Korean War and the Russian military menace. On Saturday they will be joined by President Eisenhower.

Secretary of Defense Wilson summoned all the top policy and administrative officials of the vast Defense Department to the meetings, to run through Sunday morning. Invited, too, were chiefs of other agencies whose work involves defense matters.

Among those who have accepted his invitation are Vice President Nixon, Budget Director Joseph M. Dodge, Secretary of the treasury Humphrey, Defense Mobilizer Arthur S. Flemming, Under Secretary of State Walter Bedell Smith, Atty. Gen. Brownell, Chairman Lewis Strauss of the Atomic Energy Commission and Director Allen W. Dulles of the Central Intelligence Agency.

The outgoing and incoming members of the Joint Chiefs of Staff will be present, with Gen. Omar Bradley, the present chairman, and Adm. Arthur Radford, the designated chairman, scheduled to make talks as part of the formal presentations by the Defense Department and each of the three armed services.

Wilson keynotes the meeting in an opening address at a dinner tonight. He has told friends in discussing the sessions here that: "This is a good way of achieving unification and cooperation; it's better than a directive."

It is Wilson's hope that each of the officials—many, like himself, new to the Pentagon and military matters—will get to know the others on a first-name basis. So the invitation that went out emphasized the informality of the occasion, saying:

"Comfort rather than appearance will be the rule, and none of the activities will call for formal attire. . . . It is hoped, not only in the interest of getting some wholesome exercise and fun but also in becoming better acquainted with the other men who will be present, that you will participate in the various activities and friendly competitions which are arranged for."

Wilson, himself a golfer, has set up a tournament, with handicaps.

But behind the social aspect of the Quantico conference looms the deeply serious matters which military men must consider.

Here Wilson will have opportunity to explain directly to the general, and admirals how he think the national defense system can be maintained and even built up with a reduced military budget.

Street Extension Is To Be Delayed Some

BATON ROUGE, La. (AP) — The Baton Rouge city planning commission recently approved the extension of a dead end street to link two main traffic arteries.

The commission took another look at the map yesterday and discovered the extension goes right through a residence owned and occupied by George S. Covert, Louisiana state highway director.

Girl Recovers Enough To Be Health Queen

RALEIGH, N. C., (AP) — Norma Jean Short had spent most of her 17 years battling a glandular condition. Many painful treatments were involved before she began to get well.

Her big moment came yesterday when North Carolina 4-H clubs selected her as Queen of Health at their convention here.

But Norma wasn't on hand to receive her crown. A resident of Catawba County, she couldn't leave home because of a county-wide polio quarantine.

Her crown was accepted for her by last year's queen, Ann Reinhardt, who, by the way, gets healthier every day.

Termites can live on wood because bacteria living in their intestines digest it.

Jabara Coming Home To Desk Job In States

TRAVIS AIR FORCE BASE, Calif. (AP)—Maj. James A. Jabara, America's first jet ace and one of only two triple jet aces, is home from Korea for the second time today—a little worried because he is slated for a desk job.

Two years ago the 29-year-old son of a Wichita, Kan., grocer shot down six Red MIGs in Korea and then wrangled permission to go back and down nine more. He confessed:

"I'm really sweating this one out—I don't know what I'll do in an office."

The much-decorated Jabara flew in yesterday evening. A short time later he left in an Air Force jet for Las Vegas, Nev., en route home to his wife and two children at McKinney, Tex.

A short, dark smiling man who dutifully puffed on a big cigar for photographers, Jabara was deadly serious when he discussed his 163 missions in Korea.

MIG pilots, he said, didn't seem to be lacking any in experience or numbers, but recently they haven't been as aggressive as two years ago. Now, United Nations pilots have to hunt diligently for them, and often the Reds break off combat and take sanctuary north of the Yalu in Manchuria.

U. S. pilots, Jabara said, have been taking special care in avoiding the Yalu for fear of disrupting the truce talks at Panmunjom, and have thus lost several good chances to down the Communist jet fighters.

Only when it came to his future did Jabara show any hesitation. He is bound for duty with the 32nd Air Division headquarters at Syracuse, N. Y.

"It's a desk job, I'm afraid," he said. "But it's an air defense outfit and maybe they'll let me fly once in a while."

Demos Cannot See Many Of GOP 'Changes'

WASHINGTON (AP)—Two Democrats said today they still are waiting for concrete accomplishments from the revolutionary activity President Eisenhower said is going on in his administration to change the policies of government.

Sen. Humphrey (D-Minn) said so far this change in philosophy seems to have "resulted in giving away the tidelands and in recasting power policy in a way that is not in the public interest."

Sen. Monroney (D-Okla) said Eisenhower's avowed plan to hammer out new policies on the anvil of logic, fact and statistics has involved "hammering done by the Republican Congress in which several administration fingers have been smashed."

He and Humphrey contended that advances in the foreign policy field have been possible only through Democratic support.

Sen. Hickenlooper (R-Iowa) conceded this is true to a certain extent, but he said he thinks the new administration has made "substantial progress toward cleaning up the mess in which the Democrats left the country."

"The financial chaos left by the Democrats is being straightened out," Hickenlooper said. "Under the Democrats, this government mushroomed into a sprawling giant and it is going to take time and orderly procedure to reorient it."

Eisenhower made his remarks at a White House news conference when a reporter asked him to sum up the accomplishments of his first six months in office. The President said not everything has been done that he hoped would be done, but he thinks there has been progress.

The President said he did not contend that everything the Democrats had done over the last 20 years was wrong. But he said almost revolutionary activity had been necessary to bring in new policies and ideas after 20 years of Democratic rule.

Churchill Is Said Improved

LONDON (AP) — Sir Winston Churchill today was reported so much improved in health that he plans to set up a "little Downing Street" within the next week at Chequers, the British Prime Minister's official country residence 25 miles from London.

R. A. Butler, chancellor of the Exchequer, told the House of Commons last night Churchill is "ever so much better now."

A Churchill aide denied a report in the Paris newspaper, Paris-Presse that Churchill is completely paralyzed though retaining his "intellectual lucidity." The newspaper said the report was made by Ambassador Rene Massigli to the French government.

When a reporter asked the aide if Churchill had been struck by paralysis in any way, he replied: "I am not in a position to answer that question." He added, though, that Churchill walked in the garden at Chartwell yesterday afternoon and saw a movie last night.

Churchill's doctors on June 28 ordered him to take a complete rest for a month at least. The precise nature of his illness has not been announced.

Snake Shorts Circuits

EUFAULA, Okla. (AP)—A chicken snake barbecued himself for nearly two hours and knocked out electrical power to two eastern Oklahoma towns last night when he wrapped his 4½-foot length around a 68,000-volt transformer.

Service was restored to Eufaula and Checotah when crews located the trouble at a substation north of here.

MAKING UP MEN'S MINDS

Women, Too, Now Wear The Badge Of Success: Ulcers

By HAL BOYLE

NEW YORK (AP)—Lady, do you have an ulcer?

If not, why not? Particularly, if you are in business, why not? Are you letting your sex down by refusing to have an ulcer?

Men used to enjoy almost as much of a monopoly on ulcers as women did on motherhood. Not any more. In a century that believes in fair play for all, modern women are no longer denied the right to acquire ulcers as well as money.

Some experts believe ulcers are becoming increasingly common in both men and women.

But why?

Are more men getting ulcers because they feel insecure or because they have to compete professionally with women? Dr. Lawrence Hinkle Jr. a Cornell University medical professor, leans to this theory. He added, "More women have ulcers now than when they stayed home and let their husbands make the decisions."

It seems to me that in this theory science stumbles and falls flat on its premises. Since when did women, merely because they stayed home and had babies, let their husbands make the major decisions?

The art of making up her husband's mind for him in important matters has been woman's most sterling virtue in all civilizations It is this power of final decision that probably has kept her free of ulcers for so long.

My theory is that making decisions is less likely to cause ulcers than postponing decisions. This, of course, easily explains why men always have had more ulcers in the past. They got them from worrying while waiting for their wives to make up their minds for them.

But why, then, are both more men and more women getting ulcers today? Have modern women lost the feminine ability to decide? Are they adrift, confused, and muddled, thus dooming themselves and the weaker male sex that leans upon them to an ulcer-ridden future?

Not at all. Not for that reason anyway. Her invasion of the male business world hasn't befuddled woman. Nothing about men confuses a woman. At best it can only annoy her but not enough to give her an ulcer.

I think one of the real reasons for the increase of ulcers lies in the spread of a new business cult known as "ulcer worship." The ulcer is less an ailment than a badge of success, the proof that a real go-getter has been ceaselly going and getting.

Ulcer idolatry has reached such a point in some fields, notably advertising, television and movie-making, that anyone who works five years in these vineyards without developing an ulcer is regarded suspiciously as hopelessly shiftless, a secret malcontent, or a born showoff.

Food Prices Higher Again

By The Associated Press

It will cost you more to feed your family this week.

That'll be true if you buy any of the favorite meats, beef, pork or lamb. You'll probably find egg prices up in your store, too. Vegetables may be a little more expensive.

Meat prices this week reflect the sharp rise recently in the livestock markets, particularly in cattle. Pork and lamb prices have been strong all along, and now they're climbing again.

A representative picture of this week's beef prices as presented by one of the largest food chains: Sirloin steak is up four cents a pound in Jacksonville, Fla., ahead 10 cents a pound in New York, Philadelphia and Washington, 12 cents in Pittsburgh and 14 cents in Chicago.

Rib roast is up three cents in Los Angeles, four cents in Jacksonville, six cents in New York, eight cents in Philadelphia and Pittsburgh, 10 cents in Boston and Chicago and 12 cents in Washington.

Leg of lamb is two to six cents higher. Pork chops are up as much as 11 cents a pound. Eggs are often seling from one to eight cents a dozen above last week.

Some stores are featuring chickens. Specials on some meats that have gone up include smoked pork shoulder, corned beef and veal. Some turkeys will be on sale.

Only a handful of vegetables were on the bargain counter. Produce men singled out beans and onions as good buys and labelled celery, potatoes and tomatoes as "pretty good."

Some stores featured cabbage, corn and potatoes.

Honeydew melons and Elberta peaches were frequently mentioned specials. Nearly all fruits moved higher and most vegetables followed suit.

The Smithsonian Institution says that the best way to kill termites is with poison that will kill the wood-digesting bacteria in their intestines.

FIRE ON HIGH— Flames form roof for 41st story of Mexico City's tallest structure, the incomplete 45-story Latino Americano building. Street throngs watched the towering blaze.

One-Third Of Polio Serum Has Been Used

By FRANK CAREY
AP Science Reporter

WASHINGTON (AP)—Approximately a third of the supply of gamma globulin expected to be available for mass inoculation use against paralytic polio this year has already been distributed.

Figures gathered today from the U.S. Public Health Service showed it went to 11 communities where sharp outbreaks of polio have occurred since mid-June. Officials said they could not estimate how many other sharp outbreaks might still ocur, and hence how far the further supply for mass inoculation might go.

But they said in interviews that only a little over a month remains until the time when polio ordinarily reaches its peak. After that, any need for mass inoculation programs might be expected to drop off.

Since mid-June, a total of 1,023,300 cubic centimeters of gamma globulin—medicine's best bet so far for preventing paralytic polio—has been used or made available for mass inoculations in 11 communities in Alabama, North Carolina, New York, Illinois, Virginia, Tennessee, Michigan and Kentucky.

This amounts to about a third of the 3,300,000 c. c.'s slated to be available for mass preventive programs. These programs constitute only one phase of the use of gamma globulin against polio, and only 33 per cent of the expected overall supply for polio this year has been earmarked for such use.

The major portion of the total supply—57 per cent—has been allocated for inoculating family and other close contacts of actual polio cases. The remaining 10 per cent has been set aside for research and special purposes not defined.

To Ski In 90 Degrees

CHAMPLAIN, N. Y., (AP) — Customs inspectors here laughed when an Alabama tourist told them he was on his way to ski in Canada's Laurentian Mountains north of Montreal.

He didn't know the mountaineers were sweltering in a 90-degree heat wave.

Suspect Bites Police And Swallows Evidence

BALTIMORE (AP) — Sgt. Edwin Taylor caught his suspect yesterday, but the man he was arresting ate the evidence.

Taylor testified 36-year-old Billie E. Williams stuffed a wad of "conventional yellow lottery tickets" into his mouth.

Taylor said when he tried to pry the tickets out, the Negro defendant "bit down as hard as he could on my finger and wouldn't let go."

Then he swallowed the evidence.

Williams was held in $2,500 bail on a lottery charge and another $500 bail on a charge of assaulting a policeman.

Driver Doesn't Quite Remember His Accidents

OKLAHOMA CITY (AP) — Traffic Judge James Bemopolos observed that three accidents in a four-block stretch are just to much and fined Andrew Robert White, 28, of Tulsa, $80.

Officers said White's car sideswiped two parked cars, crashed into a service station office, then jumped a curb and plunged into a concrete embankment.

White pleaded guilty but professed ignorance of the accidents, telling the judge: "I work up in Tulsa."

Battle Of Bulge Will Be Remembered Friday

COLUMBUS, O., (AP)—One of World War II's fiercest engagements, the Battle of the Bulge, will be recalled tomorrow by some 200 members of the 106th Infantry Division Assn. at the group's annual convention.

The 106th helped stave off four German panzer armies in December 1944. The division lost 8,000 men—killed, missing and captured.

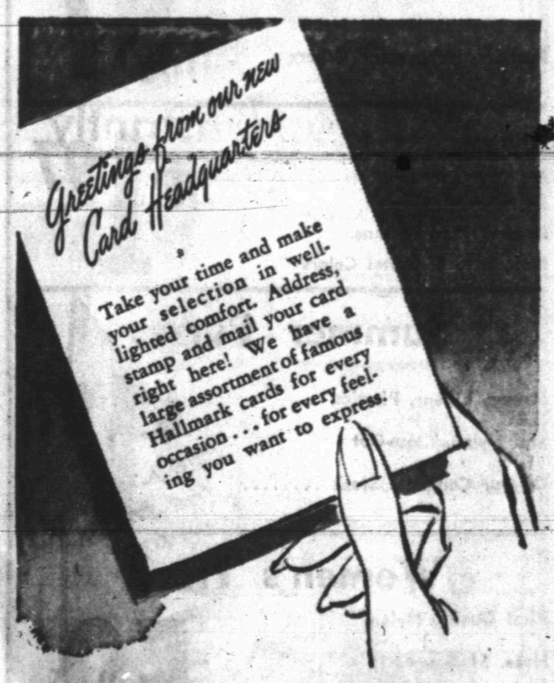

Getting Worried Now

DURHAM, N. C., (AP)—Lena Alston telephoned police that she had sent some clothes to the dry cleaner's and they hadn't been returned. Frankly, she was worried.

The police said they'd investigate. When, they asked, did the cleaner's route man pick up the clothes?

"About a year ago," said Lena.

Portugal is the world's leading cork producer.

Mrs. E. L. Brewer hands a refreshment plate to Miss Jetonne Tipping, third from left, at a tea honoring her yesterday. The other hostesses, left to right are, Mrs. Ray Taylor, Mrs. G. W. Parks, Jr., and Mrs. Frank Strom.

SOCIETY SCRIBBLINGS

Miss Jetonne Tipping Is Feted At Tea Yesterday

By DOLORES KETCHERSID

Miss JETONNE TIPPING, bride-elect of CHARLES HARDGRAVES was honored with a gift tea yesterday afternoon at the home of Mrs. E. L. BREWER, 2257 Sunset.

Serving fruit punch and cakes were Miss PAT TAYLOR and Miss SANDRA COMER. The centerpiece consisted of white daisies and chrysanthemums with greenery. Pink napkins stamped in silver read "Charlie and Jetonne." Approximately 25 guests called.

HOSPITAL PATIENTS

Mrs. SID WORRELL returned home recently after undergoing a major operation at Malone and Hogan Hospital in Big Spring. A friend of the Worrell's, FLOYD BOSTON, is in McCleary Clinic in Excelsior Springs, Mo., He underwent surgery this morning.

ABOUT TOWN

At last we've figured out why newsboys eventually become famous and rich. They don't waste time with foolish conversation. One of the shrewd little merchants wandered in R. R. PATTERSON'S establishment with a sheaf of papers cradled in one arm. Spotting the newsboy Mr. Patterson said he'd take a paper. The boy extended a copy which Mr. Patterson reached for, but the newsboy held on tightly. It was only after Mr. Patterson, sizing up the situation pressed a nickel in the boy's palm that the paper was released. The newsboy left the shop without having said a word.

NEW STYLE

Fashion experts assure today's woman that furs next season will be set with jewels and maintain the braid trim they had last year. It looks like Washington's pastel minks won't be in vogue.

BIRTHDAY PARTY

A dance celebrating NANCY JORDAN'S seventeenth birthday was given last night at the Sunray Recreation Hall. The dancers promenaded under blue and white streamers and multicolored balloons. The 35 guests also played cards and dominoes.

Nancy's cake, carrying out her colors of blue and white, was in the shape of an oversized birthday gift. A blue frosting ribbon tied over the white cake. The bow of the ribbon was made of candy roses. A lace tablecloth was laid over white and centered with an arrangement of white and pink daisies.

A guest at the dance was her brother, THOMAS JORDAN, who is home on a 20-day leave from the Marines. Thomas will report back to duty at Jacksonville, Fla. where he will be a aviation storekeeper and "hand bolts to the grease monkeys," he said. He is a 1952 graduate of Snyder High School. Nancy is a junior. They are the son and daughter of Mr. and Mrs. D. M. JORDAN, Post highway.

HOMECOMING

Five-week-old FRANCES KAY LEVIER was brought home Tuesday from a hospital incubator where she had been since her birth. On hand to greet her at the WILLIS LEVIER house on the Lamesa Highway were grandparents, Mr. and Mrs. O. H. Thompson of Hays, Kan. The Thompsons left the following day for a vacation to Mexico and California.

Cleaners Shown At Meeting In Murphey Home

Mrs. J. P. Hale demonstrated vacuum cleaners at a Wednesday afternoon meeting of the Plainview Home Demonstration Club in the home of Mrs. A. K. Murphey.

Mrs. J. W. Greene and Mrs. A. J. O'Neil demonstrated freezing cakes, cookies and rolls.

Plans were made for a club picnic to be held in August. Secret pals were revealed during the meeting. The hostess served refreshments to 12 persons.

Mrs. J. Bowers Is Honored With Bridal Shower

DUNN — Mrs. James Bowers, the former Miss Shirley Weber was honored with a bridal shower last Thursday afternoon at the Dunn Methodist Church.

Members of the Mary-Martha Sunday school class were hostesses. Refreshments of punch and cake were served to 31 guests. Miss Mary Alice Richardson played piano selections during the party.

Mrs. R. J. Griffith, 1111 Twenty-third Street, was taken to a Big Spring hospital yesterday by a Bolger ambulance.

Stage Hit To Be Filmed Straight On Wide Screen

By BOB THOMAS

HOLLYWOOD (AP)—Would you like to see a Broadway show on the movie screen?

I don't mean a film version of a stage hit. I mean a musical filmed almost exactly as it was presented on Broadway at $7.20 top. A group of independent movie makers are gambling that movie goers will buy such an attraction. Wide-screen and 3D will be added to make the show seem more life-like.

The subject of this unique experiment is "Top Banana," the raucous hit based on the thinly disguised adventures of Milton Berle in TV. The musical ended its road show run in Los Angeles three weeks ago. Now the entire production has been moved onto a movie stage, where it will be filmed as it played to theater audiences.

The movie will have the same sets, the same costumes and the same cast, headed by Phil Silvers. Sole change: Rose Marie has been brought back to her original comedienne role, replacing Kaye Ballard of the road company.

The only other changes are in some of the dialogue and action. The profanity and a few shady lines have been tossed out to meet film censorship requirements. Also, the strip tease number has been toned down.

I arrived on the set as the entire cast was running through the first act in a dress rehearsal for the cameras and lights. The players enacted their roles against the usual backdrops of the show. They sang the songs to prerecorded playbacks or went through them without accompaniment if the records were not available. The show moved breezily along in a manner unlike other movies, which are done in bits and pieces.

The entire film will be shot in a speedy four days!

Veteran director Al Green, who filmed the Jolson and Cantor biographies, is directing "Top Banana." He said it's not as easy as it looks. When I mentioned that the actors ought to be well rehearsed in their parts by now, he replied:

"Not exactly. All of the cast have been out of the show for three weeks, and Rose Marie has been out of it for a year. Besides, they can't do the show exactly as it was done on the stage. The movies require less projection, less playing to the rear of the house."

Although the show will be filmed in its entirety, it presents technical problems, he added. Lighting will not be easy, particularly in 3D, which requires hotter lights. He said the camera will not remain stationary, but will roam around and even go in for closeups.

What about the strip tease?

"We have to modify it a little," he admitted. "You can't do a 'Bump' toward the audience. But you can do it sideways, which is almost as good"

Film audiences will be given the feeling of the theater, Green said. Opening shots will show the audience coming into the theater and the orchestra playing the overture. Otherwise, the entire show will take place between the arches of the stage.

Major and Mrs. John B. Whitley, son and daughter-in-law of Mr. and Mrs. Edgar Campbell, 2704 Avenue U, left yesterday for Bartlesville, Okla., where he is stationed with the Air Force, after a week-long visit here.

Helps For Homemakers

Send your questions to "Helps for Homemakers," Snyder Daily News, or call 3-8486.

We would like a corner of the living room to be closed off to use as a study corner for the children. We prefer not to make any changes in the walls of the room. C. H.

A room divider can easily be made from a screen which can blend with the decor. Screens can be made easily at home from white pine ⅞ inches thick and 2 inches wide. Apply coats of flat paint. One screen could be given the tropical sea touch by constructing it of about five yards of nautical net. Cut strips lengthwise and tack on back of frame. If more opaqueness is desired, double widths of fish net may be used and in contrasting colors for an unusual effect. Some home craftsmen decorate their fish net with shells, buttons, corks, sequins or other motif, depending upon exactly where it will be used.

• • •

I have been reading much about food poisoning. What are some ways to avoid getting it on a picnic? E. T.

Life begins at 50 degrees for bacteria. Perishables such as salads and salad-type sandwich fillings should be chilled before being packed for travel. Prepare most of the food at the picnic site. To keep the basket cool, select one of the new insulated types and tuck in a refrigerant. A bucket of ice cubes or the handy new gels encased in plastic tubes which can be frozen at home do satisfactory jobs of keeping perishables cool en route.

Addition of several tablespoons of vinegar or lemon juice to mixtures of protein foods help keep off bacterial action. Cream pies must be refrigerated if taken along.

When sandwiches must be completed in advance, choose fillings that carry well such as processed cheese, peanut butter, jelly or summer sausage.

• • •

Two to 3 egg yolks take the place of 1 whole egg in custards or salad dressings.

Food Demonstration Given At HD Club Meeting Wednesday

Mrs. Wyatt Lipscomb assisted by Mrs. M. L. Andress and Miss Ruby Butts, home demonstration agent, gave a demonstration on frozen foods at the meeting yesterday afternoon of the Tri-Community Home Demonstration Club.

Mrs. George Light was hostess to the club, and Mrs. B. M. DeLoach was acting chairman. Recreation was led by Mrs. George Gibson.

The club made plans for an ice cream supper to be held some time in August. Miss Butts gave reports on a 4-H camp to be held at Ennis creek Aug. 20-21.

Refreshments were served to 13 persons.

Mr. and Mrs. Irelan L. Finley, 2803 Avenue Y, are visiting with her parents, Mr. and Mrs. Walter Holley, in Paducah.

Visiting in the home of Mr. and Mrs. R. B. Comer at 3100 Fortieth Street are Mr. and Mrs. N. C. McGehee from Corsicana.

Summer heat in the United States often surpasses the warmth of the tropics says the National Geographic Society.

REVOLUTIONARY NEW COFFEE!

Not a powder! Not a grind! But millions of tiny "FLAVOR BUDS" of real coffee...ready to burst instantly into that famous MAXWELL HOUSE FLAVOR!

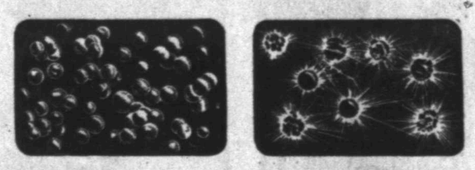

Utterly unlike old-style "instants"... just as quick but tastes so different!

An amazing discovery from America's leading coffee company! So different—so *delicious*—it's already the nation's largest-selling instant coffee! In the famous Maxwell House kitchens this superb coffee is actually brewed for you. At the exact moment of perfection the water is removed—leaving the miracle "Flavor Buds"!

100% Pure Coffee . . . No Fillers Added!

Just add hot water . . . and the bursting "Flavor Buds" flood your cup with the richest coffee you've ever tasted. One sip and you'll never go back to old ways! Saves money, too! The large economy-size jar saves up to 75¢, compared to three pounds of ground coffee!

See how Flavor Buds "come to life" in your cup!

MAGNIFIED VIEW of new miracle "Flavor Buds" shows how utterly different they are from old-style powders and grinds. Secret of true coffee flavor is locked in these tiny hollow spheres.

THE INSTANT you add hot water, "Flavor Buds" burst—releasing food of delicious Maxwell House flavor. *This is coffee*—as perfect as any you've ever tasted!

The only instant coffee with that GOOD-TO-THE-LAST-DROP flavor!

A Product of General Foods

Snack Tray Ideal For Entertaining In Casual Mood

Summer is a time for snacks. On hot evenings casual entertaining is the only way to keep the hostess nerves unfrazzled, and a snack tray is a good way to make simple refreshments seem elegant.

The summer months are the time, too, when formal entertaining is at a low ebb and you like to keep things in the house that make up quickly into snacks for impromptu invitations or the guests that come uninvited.

With that thought in mind here are suggestions for snack trays that will make visitors at your house this summer come back for more.

The heartiest appetite will be satisfied with a snack tray arranged around a mound of crisp, golden brown corn chips. Put them in the center of your lazy susan and around the edge try these tasty morsels: of ham 'n cheese rolls, lunch meat snails, pineapple spears, avocado dip and sardine spread.

LUNCH MEAT SNAILS

Roll spiced luncheon meat and thin sliced bread jelly roll style, skewer with toothpicks and slice into half-inch "snails."

AVOCADO DIP

Mash ripe avocado and season with lemon juice, mayonnaise, salt and garlic salt. Use corn chips to spoon mixture out of bowl.

PINEAPPLE SPEARS

Spear cubes of American cheese and pineapple chunks with toothpick and serve using toothpick for handle.

HAM 'N CHEESE ROLLS

Combine chopped stuffed olives and sweet relish with cream cheese, spread on slices of ham and make into a roll.

SARDINE SPREAD

Mix minced sardine, chopped dill pickle, mayonnaise, mustard and season with onion salt. Spread on thin bread and sprinkle with crushed corn chips.

These two recipes are simple to prepare and have a flavor that is very pleasing. Serve them together on a platter.

CRUSTED EGG TOAST FINGERS

4 slices bread
3 eggs, well beaten
¼ teaspoon salt
3 cups corn flakes
¼ cup shortening

Cut each slice of bread into three strips and remove crusts. Dip strips in egg mixed with salt, then in corn flakes which have been crushed into fine crumbs. Fry in shortening until crisp and brown on both sides. Drain on absorbent paper. Sprinkle lightly with confectioners' sugar if desired. Serve warm. Makes 12 fingers.

COTTAGE CHEESE SALAD BALLS

2 cups cottage cheese
½ teaspoon salt
½ teaspoon chopped chives or onions
1 tablespoon chopped pimiento
1 cup corn flakes

Drain cottage cheese until very dry. Add salt, chives and pimiento; mix well. Shape into small balls; roll in slightly crushed corn flakes. Serve at once. Makes nine balls 1½ inches in diameter.

A "conversation piece" snack tray can be made with the simplest of ingredients that you probably keep on the pantry shelf or in the refrigerator. Secure olives and cheese on toothpicks stuck into a grapefruit. On the tray with this place tiny cream puffs filled with deviled ham; wrap stuffed olives in hot bacon and try the same for pineapple chunks and Vienna sausages.

For a dessert type snack try for picnics or terrace, buy packaged doughnuts and arrange them on a tray as dividers. Fill in space with apple wedges and cheddar cheese. These foods make an ideal flavor combination for warm weather serving on snack occasions.

Coffee and canapes are a simple combination that provide a wonderful way of snack entertaining. The easiest combination that answers the "what to serve" problem is to arrange ripe olives, stuffed green olives, carrot curls and tiny sweet gherkins on your prettiest serving plate.

If you would like to serve something a bit more lavish, here are two recipes for canapes that will fit your needs: Season pate de foie gras with onion juice. Spread it on "fingers" of dark rye bread and garnish with slivered salted almonds. Or mash ¼ pound blue cheese; add one 3-ounce package cream cheese and 2 tablespoons French dressing; whip until smooth and creamy; add 1 tablespoon finely cut chives; spread on "fingers" of pumpernickle bread, garnish with sliced sweet gherkins.

Seafood on a snack tray is a sure success. Of all the types that can be prepared few are more popular. Broiled shrimp, smoked salmon rolls, toast fingers topped with sardines or anchovy paste all are not difficult to fix.

Here are pointers on how to fix this type of snack.

SARDINE EGG TOAST ROLLS

Mince three hard-cooked eggs. Drain oil from one can sardines and mash. Add to eggs. Add 1 tablespoon lemon juice and season with salt and pepper to taste. Mash to a paste. Spread on thinly sliced bread squares. Roll and secure with toothpicks. Toast in oven or under broiler until lightly browned.

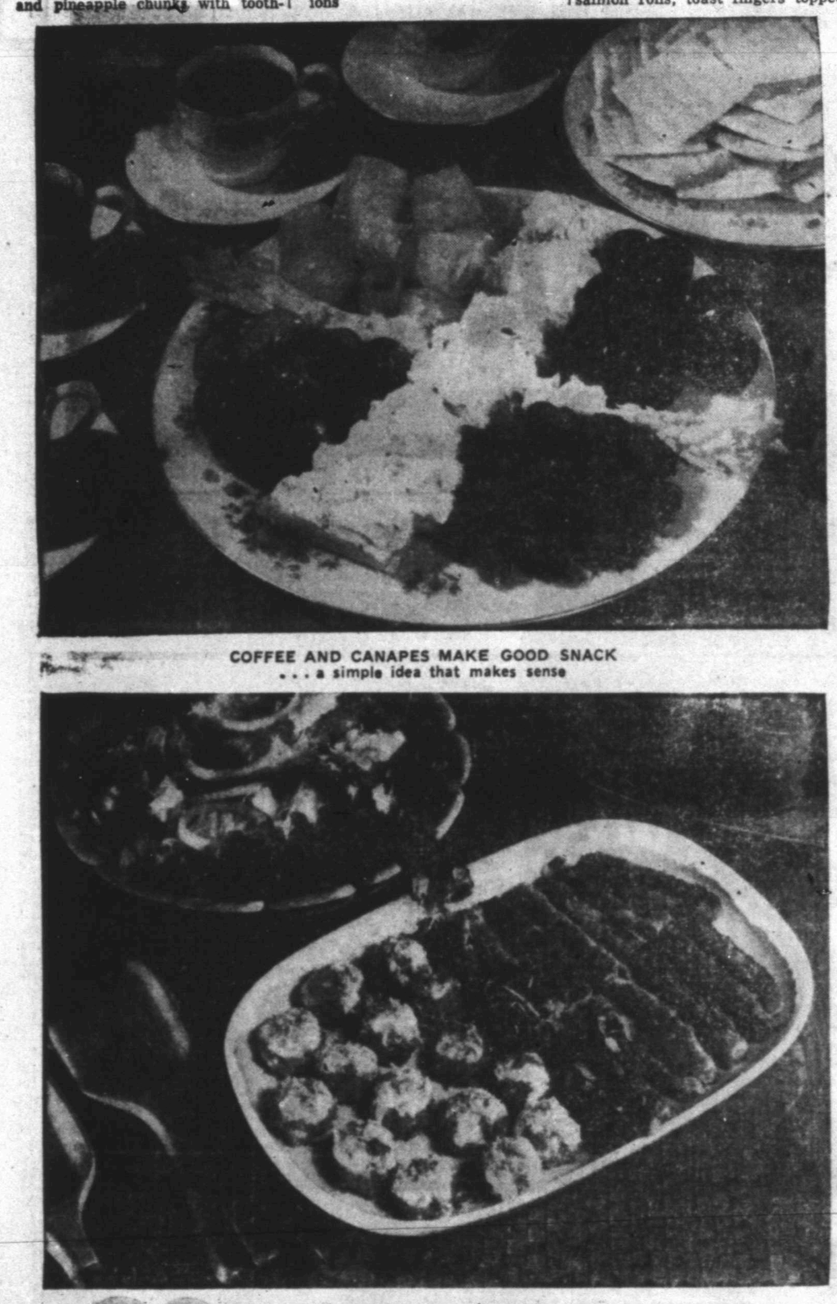

CRABMEAT OR LOBSTER SNACKS

Flake one small can lobster or crabmeat. Add ½ cup finely chopped celery, 1 chopped pimento, 1 teaspoon minced onion, 1 tablespoon lemon juice and ½ cup mayonnaise. Mix well and spread on crackers.

EGGS STUFFED WITH SHRIMP

Prepare hard-cooked eggs as you would for deviled eggs, but add chopped cooked shrimp to the mashed yolk filling.

The easiest of snack trays to prepare is the sandwich tray. Just set up a tray with several good sandwich spreads, plus different breads on which to spread them. Add a few crisp relishes and let the guests help themselves.

COFFEE AND CANAPES MAKE GOOD SNACK
. . . a simple idea that makes sense

EGG TOAST FINGERS, COTTAGE CHEESE BALLS
. . . rouse appetites with these taste treats

DESSERT SNACK TRAY FOR SUMMER
. . . combine doughnuts, apples, cheese

Haystack Hits Girl

TULSA, Okla. (AP) — Miss June Gravitt, 20, is in a hospital today —the victim of a haystack.

She was crossing a downtown street yesterday when a load of hay slipped from a truck and completely covered her. She was dug out, apparently suffering only shock.

It is believed the hot dog, which has become a fad, was first served at New York's Coney Island in 1871.

Since 1927 in the United States there have been 321,000 pedestrians killed in traffic says the National Geographic Society.

State Rainmaking Program In Colorado

DENVER (AP)—Colorado's Legislature may be asked next January to finance a state rainmaking program.

The matter will be studied next Tuesday when the State Weather Control Commission meets. The group plans to ask Gov. Dan Thornton to make an investigation of claims of rain-inducing firms.

The plan has been proposed as a way to forestall future drought.

Parolee Returned To Prison For Drinking

TULSA, Okla. (AP)—Buster Youngwolfe, 21, went to prison today even though he was acquitted in the slaying of a neighbor girl, Phyllis Jean Warren, 11.

Youngwolfe, a paroled convict, testified at his trial he could not have slain the girl, as charged by the state, because he was drinking beer in a tavern at the time the girl was believed to have been strangled.

District Judge Elmer Adams revoked Youngwolfe's parole yesterday because of the testimony. Loitering in a tavern violates Oklahoma probation rules.

Although millions of cork oaks have been planted in the United States, it will be many years before cork can be harvested from most of them because it takes at least 20 years for them to mature, says the National Geographic Society.

Dodgers Farther Ahead Than Yankees In American League

By BEN PHLEGAR
Associated Press Sports Writer

When the "break up" boys take a look at today's major league standings they may want to consider switching leagues.

Instead of crying "Break up the Yankees" as they have for years, they might find it more appropriate to start chanting "Break up the Dodgers."

Today, for the first time since May 17, the American League has a closer pennant race than does the National League.

Brooklyn's steadily moving Dodgers lead Milwaukee by 5½ games The New York Yankees own only a 4½-game bulge over Chicago.

The Dodgers took a big stride forward last night by outclassing Chicago in a double-header 9-3 and as Milwaukee bowed to Philadelphia 11-1 and 6-3.

The Yankees frittered away a full game of their lead by losing to Cleveland 6-4 for the second straight night after the White Sox shaded Boston 1-0.

Ever since the Dodgers came back to home cooking shortly before the All-Star Game they've been fattening their margin. They've won 10 of their last 11 games with the single misadventure coming against Cincinnati Sunday.

The Yankees on the other hand have had their ups and downs recently, reaching their high point with two brilliant victories over Chicago Sunday and then falling off immediately against Cleveland.

Brooklyn combined excellent pitching, usually a rarity in Ebbets Field, with its normally heavy hitting to humiliate the hapless Cubs. Johnny Podres, a rookie left-hander, struck out 10 and gave up six hits in his second complete major league game. Veteran Carl Erskine allowed only four hits and also struck out 10 in the nightcap.

The Dodgers combed Chicago pitching for 24 hits including two home runs by Gil Hodges, who drove in seven tallies, and single circuit blasts by Carl Furillo and Duke Snider.

At Philadelphia the Phillies jumped on Warren Spahn for four runs in the first inning and the Braves couldn't catch up. The opening attack featured a two-run homer by Granny Hamner. It was Spahn's fourth loss against 12 victories.

The Yankees tried to win it early in Cleveland but their pitchers didn't have staying power. The Indians trailed by three runs after three innings. Then they got to Whitey Ford for a pair in the fourth on a home run by Joe Tipton and took the lead in the fifth on a homer by Dale Mitchell and doubles by Al Rosen and Larry Doby. After a bad first inning Mike Garcia settled down to check the invaders for his 12th triumph.

But the story at Chicago was almost all pitching as Virgil Trucks scattered four hits and let only one runner get as far as second. Mel Parnell, ace of the Boston staff, hurled one of his best games too, but one hit, a triple by Chico Carrasquel to open the fifth inning, ruined him. Chico hung on third while Trucks grounded out but he scampered home when Nellie Fox lofted a long fly to center field.

The only other American League action was in St. Louie, where Bobby Shantz of the Philadelphia Athletics, last year's most valuable player in the loop, won his first game since May 3, a five-hitter over the Browns 11-1.

In the National league the New York Giants and St. Louis Cardinals swapped positions again as 2,s8ra2wiedifor two runs in the ninth to edge the Cards 6-5. The victory moved New York back into fourth place. Al Dark's single with the bases loaded was the payoff punch.

Pittsburgh defeated Cincinnati 3-2 with Cal Abrams hitting two home runs for the Pirates.

A COVERED POLO GROUNDS?

Decline In Crowds Puts Damper On New Big Arenas

By JACK HAND

NEW YORK (AP)—News that a Philadelphia fight promoter is going to cover his outdoor ring to make sure the show will go on, rain or shine, started the boys talking covered ball parks. It's an old story, revived every now and then, but never considered practical.

They talked of it again yesterday at Madison Square Garden, where they unveiled the gaudy new $35,000 aluminum ring to be used for outdoor shows. Lionel Levy, the designer, did most of the gabbing.

"It's not commonly known," he said, "but we were all set to put a roof over the entire Polo Grounds years ago. Back in the days of Tex Rickard.

"We were going to use suspension cables strung criss-cross over the field, sort of a bridge construction. The idea was to use some light fabric for the covering.

"But something happened to the money, and we never went through with it. Maybe it was just as well. Boxing was real big in those days and postponements cost a great deal of money.

"I suspect that the day of the big crowd is gone. Nobody can afford to build a big arena now, unless it is subsidized by a community. Television is here to stay.

"A few years back, Mayor Hague of Jersey City commissioned me to design an arena for football and boxing that would seat 110,000. That never went through either.

"As far as roofing a ball park goes, I don't think it would be worth while. The ball clubs don't lose too much money on rain. They don't even bother to carry rain insurance. They can always play some other day. And, with only one outdoor fight in a year, it certainly wouldn't pay for boxing."

Levy is proud of the expensive new ring that replaces the one he designed for the late Mike Jacobs years ago. The old ring, first used the night Max Schmeling knocked out Joe Louis, cost only $8,000. Twelve men were needed to put it up and take it down. It cost a fortune to transport it to Philadelphia last year when the International Boxing Club was promoting its important shows there.

"Eight men can put this up in six hours," he said. "At the present rate that means about $100. It can be carted anywhere in the country without too much trouble."

Rifle Club Is Planning Meet This Week End

About 14 persons are expected to participate Saturday and Sunday in the Canyon Rifle Club's meet at its range four miles north east of here.

The rifleman with the best five shot group at 100 yards will be awarded a trophy, according to John Anderson, secretary-treasurer of the club. Anderson asked that those interested in participating get in touch with him at Sun Oil Co., with Collie Fish at 1104 Twenty - sixth Street, or with Doak Criss at Parkersburg Rig & Reel Co.

No specfic times of day have been set for the shoot. Anderson said those entering may shoot at any time during the two days that is convenient.

The club was organized last month with 25 members. Fish is president, Criss is vice-president, and Robert Greene is range officer.

The object of the organization is to foster organized rifle, pistol, and shot gun shooting among residents here with safe handling and proper care of firearms and improved marksmanship in view.

The club's range has facilities for a trap, rifle shooting at 100 and 200 yards, and pistol shooting. Last week in a meeting the club approved by-laws and range rules necessary to gain affiliation with the National Rifle Association of America. The group has applied for affiliation.

Other matches with various types of guns are planned after the first is held this week end. In the matches, each member will have the opportunity to compete in a match that suits his particular interest, whether it be bench rest, position shooting, skeet shooting, pistol or just practice before hunting seasons, Anderson said.

The club holds regular monthly meetings at the Manhattan Coffee Shop. The next meeting is scheduled for Aug. 18.

Son Messes Up His Father's Game 5-4

BATON ROUGE, La. (AP)—A son's error was his father's loss in the Evangeline League last night.

Pitcher Earl Caldwell Sr., of Baton Rouge lost 5-4 to Lafayette because catcher Earl Caldwell Jr., dropped a throw to home plate with two men out in the ninth inning, allowing the tieing run to score. The next batter singled to score the winning run.

The elder Caldwell, now 46, is a former major leaguer having played with the Boston Red Sox and the Chicago White Sox. His son is 20.

Don January Called Strongest Contender For Broadmoor Title

COLORADO SPRINGS Colo. (AP)—Medalist Don January of Dallas ruled a strong contender today in a bid for the Broadmoor Invitation Golf Tournament title.

January, who took qualifying honors with a two - under - par 68 Tuesday, advanced to the second round yesterday with a 2 and 1 victory over Francis Fleming of Evansville Ind.

The Texan's opponent today was Fred Brown of Stanford, who defeated Mickey King of San Antonio 3 and 2.

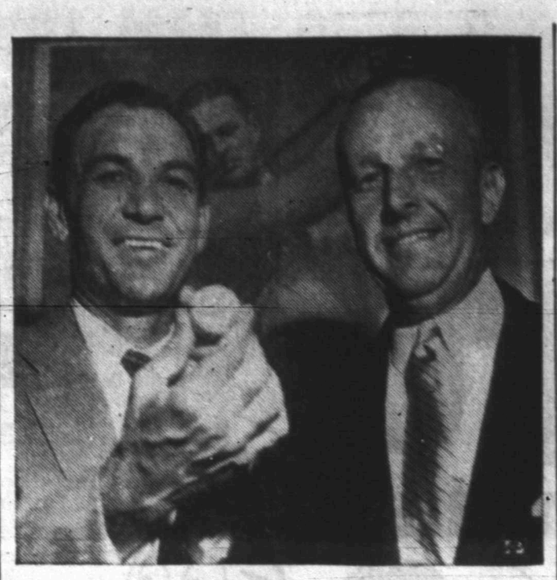

Bob Goldwater of Phoenix, Ariz., the 1952 titleholder, had to go 20 holes to beat Dick Billehus of Colorado Springs, 1 up. Goldwater was paired today with Dr. W. A. Colton of Colorado Springs, who defeated Bill Landreth of Fort Worth, 2 up.

Realignment Of Teams In West Texas Is Due To Be Discussed

LUBBOCK (AP)—Realignment of baseball leagues in West Texas and New Mexico is due to be discussed here today at a meeting of baseball leaders on the occasion of the annual West Texas - New Mexico League All - Star Game.

Hal Sayles, President of both the West Texas - New Mexico and Longhorn Leagues, has announced plans for a Class B league for the larger towns and a Class C circuit for the smaller cities.

The Class B league might embrace Amarillo, Albuquerque, Lubbock, Abilene, El Paso, Roswell and possibly San Angelo and Juarez, Mexico.

PRIZE BALL

Ben Hogan (left), whose British Open victory gave him this year's triple crown, presents the ball he used on the final round at Carnoustie, Scotland, to Isaac Grainger, vice president of the U. S. Golf Association, in a ceremony at Golf House in New York City. In the background is a portrait of Bobby Jones. The ball will be placed on display in Golf House.

Little, Pony Leagues Play Again Tonight

Only two more nights of play remain on the Little League schedule before it enters playoffs. The Pony League, which will play tonight, is just beginning its second half, but it is also entering playoffs.

Meeting at 7 o'clock tonight in the Little League are the Lions Cubs, fourth place, and the Holder Indians, fifth place. At 9 o'clock, the Optimist Cardinals, third place, will meet the Quarterback Giants, last place.

Whether the Little League's local schedule will last longer will be determined tomorrow night, when the Legion Yankees, now in first place with an 8-1 record, meet the Kiwanis Braves, who hold second with 7-2. If the Braves beat the Yanks, they will be tied for first and will be forced into a playoff for the championship of the second half. The Yanks are champs of the first half. If they win the second half, they will be undisputed champs.

Playing at 7 o'clock tonight in the Pony League will be the Scurry Butane Dodgers and the Von Roeder Red Sox, who both hold 0-1 records in the second half. At 9 o'clock, the two first place teams with 1-0 records, the Courthouse Tigers and Lions Club Phillies will play.

The Pony League all-stars are to enter playoffs Saturday night against the winner of a Big Spring-Sweetwater game, which is to be played tomorrow night.

On Monday night, the Little League all-star team will go into playoffs here against the Sweetwater all-stars.

Newhouser Is Given Release

DETROIT (AP)—Hal Newhouser, who piled up victories and salary checks at a terrific clip, leaves the Detroit Tigers with a painful pitching arm but many wonderful memories.

The southpaw, 32, once the mightiest pitcher in the American League, if not the majors, was handed his unconditional release yesterday by the last - place Tigers, who are building for the future.

Thus ended a 15-year career in which Newhouser won an even 200 games against 148 losses and earned about $500,000.

Newhouser, a 20-game winner four times, was troubled on and off by a sore arm and was of little help to the Tigers the last three seasons. In 1951, his record was 6-6. Last year it was 9-9.

This season, he worked only 21-2-3 innings and had an 0-1 record. His earned run average was 6.91.

Things weren't always this tough for Hal, whose baseball earnings enabled him to buy a castle - like home in nearby Franklin Hills. He can look back on the 1944-45-46 seasons with pride. In those years he won 29, 25 and 26 games and baseball writers throughout the country were comparing him with such great lefthanders as Lefty Grove and Carl Hubbell.

In 1945, Newhouser helped pitch the Tigers to an American League pennant. He won two games and lost once in the winning World Series against the Chicago Cubs.

Tradition has it that a broad skull is linked to aggressiveness, leadership and sociability and a narrow skull with intelligence.

Zone Matches Begin In Kingston Today

KINGSTON, Jamaica (AP)—The heavily favored United States team met the British West Indies today in the opening two singles matches of the Second Round North American Zone Davis Cup tie.

Bernard Bartsen of San Angelo drew as his opponent Ron Cooper and playing - captain Gardnar Mulloy of Coral Gables, Fla., who arrived only yesterday, was pitted against Ian McDonald.

Owners Not Happy With Proposals To To Move Big Teams

NEW YORK (AP)—Realignment of baseball's major leagues to take in Kansas City, Los Angeles and San Francisco is strongly opposed by at least three owners.

The possible shift of several franchises to populous areas now supporting minor league ball has been a red-hot issue ever since the Braves were transferred from Boston to Milwaukee with marked increase in gate receipts and the American League refused the Browns permission to move to Baltimore.

Del Webb, co-owner of the New York Yankees, suggested at the recent major league meetings in Cincinnati that the American League transfer the Browns and the Philadelphia Athletics to Los Angeles and San Francisco.

And earlier this week The Sporting News, baseball publication, reported Bill Veeck's Browns are due to leave St. Louis for Kansas City.

Other reports had the Phillies bowing out of Philadelphia if the Athletics don't, with either Los Angeles or San Francisco as their destination.

To these reports came answers from owner-president Bob Carpenter of the Phillies; Roy Mack, executive vice president of the Athletics and Clark Griffith, president and owner of the Washington Senators.

"I'm here to stay," said Carpenter. "If Webb thinks the Pacific Coast is such a swell place to have a ball club, let him move his own club out there and stop trying to run my business.

"One of the troubles with big league baseball now is that international bankers and guys who get 10 million dollar federal building contracts are trying to tell everyone else how to run his business.

"Let them attend to their politics and contracts and let me struggle building a ball club. I don't tell them what they should do and I don't welcome their advice on what I should do."

Previously, Mack said the Athletics were going to remain in Philadelphia.

Griffith got into the discussion and expressed disapproval of suggested plans to shift the Browns to Kansas City.

"It's not that I have anything against Kansas City," said Griffith. "It's just that they're not in our circuit geographically. I don't want any change that will increase our traveling difficulties."

Griffith added he thought the American League should extend its territory no farther west than St. Louis, pointing out there are several cities such as Baltimore and Minneapolis that would be interested in taking over the St. Louis franchise.

A small amount of pure silicon is produced by U. S. industry, but the current price is about $430 a pound.
