

Lubbock Morning Avalanche

FIFTH YEAR NO. 237 TEN PAGES TODAY LUBBOCK, TEXAS, FRIDAY, AUGUST 26, 1927 MEANS "BY ASSOCIATED PRESS"

ONE HUNDRED AND FIFTY KILLED IN ACCIDENTS

AVIATION AGAIN IN SPOTLIGHT AS DISTANCE FLIGHTS START

REDFERN IS ON LONELY WAY TO SOUTH AMERICA

HOPE TO BREAK ALL DISTANCE AND TIME RECORDS

OTHERS ARE READY

MORE TRANS-ATLANTIC TESTS TO BE MADE SOON

(By The Associated Press.)

Redfern, with increasing speed, is making his way to the south of the Atlantic, his latest attempt being to jump to Rio de Janeiro.

"I'm going to live," he said, "and I'm going to live on the Atlantic coast."

Schiff is ready

Old Orskov, Maine, Edward Redfern and William Brock, who are making a trans-Atlantic test, are ready to start their flight to Rio de Janeiro.

Redfern, who is making a record attempt, is expected to arrive in Rio de Janeiro in about ten days.

Redfern, who is making a record attempt, is expected to arrive in Rio de Janeiro in about ten days.

AUSTIN C. C. BACKS INSULL INTERESTS

(By Associated Press.)

AUSTIN, Aug. 25.—The Austin Chamber of Commerce today backed the insull interests in the proposed completion of the proposed \$25,000,000 dam project near Austin.

The chamber's action is in line with the position of the state department, which has been in the forefront of the project since its inception.

The chamber's action is in line with the position of the state department, which has been in the forefront of the project since its inception.

AGENCY RIGHTS IN NEWS ASKED AT PRESS MEET

AGENCY FIRST GETTING STORY HAS RIGHT TO IT CLAIMED

STONE IS PRAISED

COMMERCIAL VALUE IS FIXED ON NEWS BY MEET

(By Associated Press.)

GENEVA, Aug. 25.—Promotion of the principle of property rights in news by an international understanding for unification of legislation was discussed at the international press conference.

This subject, the most important before the conference, was brought up by the introduction of Kent Stone, general manager of the Associated Press, of a resolution recommending legislation by the preparatory press meeting in behalf of property rights and emphasizing that all news obtained by agencies or news agencies shall be regarded as the property of such agencies or news agencies.

Cowmen Hold Big Roundup At T-Anchor

(By Associated Press.)

ALBUQUERQUE, Aug. 25.—A picturesque group of 200 old-time cowboys—men who rode the horses of the Panhandle prior to 1880—were camped at the T-Anchor today. They are holding a "cow puncher" roundup of each other on the T-Anchor range.

The night the old timers squatted about camp fires on the ranch and shared yarns. There was no music, no dancing, no drinking, no gambling when these pioneers gathered. Today they are barbers, farmers, some stock raisers and some are in general.

FEDERAL AID ON BRAZOS PROJECT WILL BE SOUGHT

THOROUGH SURVEY AND GATHERING OF DATA TO BE HAD

100 ATTEND MEET

CONSTRUCTION OF 12 HUGE RESERVOIRS CONTEMPLATED

(By The Associated Press.)

WACO, Texas, Aug. 25.—The project in Texas history was written here Thursday in a meeting of the Brazos river conservation and reclamation association which body formulated plans through which they hope to secure federal aid in the proposed \$25,000,000 project on the Brazos river to harness its water for flood control and for use for industrial purposes.

Says Legislature Will Not Convene

(By Associated Press.)

WACO, Texas, Aug. 25.—The legislature in Texas history was written here Thursday in a meeting of the Brazos river conservation and reclamation association which body formulated plans through which they hope to secure federal aid in the proposed \$25,000,000 project on the Brazos river to harness its water for flood control and for use for industrial purposes.

TRAIN WRECK IN FRANCE CAUSES 15 FATALITIES

PLANE CRASH TAKES 2 LIVES AND AUTO FOUR MORE

SHIPS COLLIDE

JAP NAVAL VESSELS IN MANEUVER STRIKE AND 129 DIE

(By Associated Press.)

CHAMONIX, France, Aug. 25.—Fifteen persons were reported killed and twenty injured, several gravely, in the derailment of the locomotive and first coach of the Chammonix and Monteyves.

PHONES 13 AND 14

Stella Jo Levy Has Party on Fourth Birthday

Stella Jo Levy celebrated her fourth birthday Wednesday afternoon with a party at the home of her parents, Mr. and Mrs. Raymond Levy.

Outdoor games were directed by Misses Pearl and Rachel Jackson and ice cream and birthday cake were served to Catherine Mulvaney, Nell Stagle, Mabel Jackson, Mary Elizabeth Barrett, Pauline Barrett, Leslie Barrett, Norma Dixon, Jeanne Bess, Ewing Jackson and Joan Hale, Queenelle Wagner, of Brownfield, Daisy and Helen Levy, Frances Cash, of Abilene, Ruth Genelle Spikes, Harold Livingston, Bentley Kilpatrick, Billy Jackson, K. Anthony Barrett, Ella Ewing and Bertell Jackson.

Julia Ett Merrill Is Given Birthday Celebration

Mrs. M. E. Merrill assisted by Miss Alice Barr, was hostess at a birthday party Wednesday afternoon for her five-year-old granddaughter, Julia Ett Merrill, at her home, 1113 12th street.

Little children came and played games during the afternoon and when they were served ice cream and cake.

The guests were: Ella and Lela Atkins, Marie Bradley, Sally Jane Atkins, Katherine Razz, Virginia Lee Barr, Dorothy Allen, Turley Holmes and Jim Bob Wheeler, Edwin Turner, Mary Katherine and Howard Hodges, Neil Thomas Stubbliet, Ophelia Mae Beall and C. O. Beall.

Mrs. T. M. Atkins Is Party Hostess For Granddaughter

Mrs. T. M. Atkins, 1317 10th street, was hostess yesterday afternoon at a birthday party honoring her granddaughter, Amy Jane Atkins, six-year-old daughter of Mr. and Mrs. D. A. Atkins. Several friends of the honoree enjoyed games during the late afternoon and when they were served refreshments.

Country Club Scene Of Delightful Evening Affair

With a picnic supper, dancing and bridge, several Lubbock couples enjoyed Wednesday evening at the Country Club. Those in the party were Messrs. and Mesdames Kenneth I. Kinbro, Frank Jones, Owen W. McWhorter, Louis Hunter, Lawrence Bacon, Charles Ross, Charles A. Guy, B. C. Dickinson, Terrance J. Roderick, Dr. and Mrs. Sam C. Dunn, Mrs. J. Rufus Moore, of Matador, Mrs. Ruth Elston, Richard Adamson, of Beverly Hill, Calif., Herbert Quinn and Mrs. Beese Cleveland, of Norman, Okla.

The Morning Avalanche Menu for the Day

BREAKFAST—Fried eggs, toast, marmalade, milk, coffee.

LUNCHEON—Baked sweet corn, broiled tomatoes, fry muffins, cottage cheese, currant jam, milk, tea.

DINNER—Hors d'oeuvres of eggs and peas, fried summer squash, potatoes in ambush, milk, coffee.

These are ideal for weather, well balanced and nourishing. No salad is planned for the evening meal but an "appetizer" is used instead. This little trick of varying menus is well worth keeping in mind. There are innumerable combinations to be made that will stimulate the appetite and at the same time add to the value of the dinner.

Baked Sweet Corn
One cup corn cut from cob, 1 teaspoon sugar, 1-2 teaspoon salt, 1-3 teaspoon pepper, 2 tablespoons flour, 1 cup milk, 4 eggs.

To cut corn from cob score down through the center of each row of kernels. Cut off the tops of the kernels with a sharp knife. With the blunt edge of the knife scrape out the milk and heart. Mix and sift flour, salt, sugar and pepper over corn. Stir with a fork until thoroughly blended. Add milk and yolks of eggs well beaten. Beat whites of eggs until stiff and dry. Fold into first mixture and turn into a well-buttered baking dish. Bake 25 minutes in a moderate oven. Serve at once. When firm to the touch the dish is done. (Copyright 1927, NEA Service, Inc.)

Church Is Traded For An Embassy

BERNINA 16—Austria finally has the new embassy building in Vienna, because a Russian church was held as a sort of hostage during the war. The Austrian embassy at St. Petersburg was plundered and destroyed. Failing to get enough ransom, the Austrian government took possession of the magnificent church on the Russian embassy grounds here. It was handed over to the Soviet authorities when the Moscow government moved the new building at Moscow to the Austrian embassy.

The Woman's Day

By **Alene Sumner**

Those who prize about "free love" and "free marriage" and "free laws" may be interested in a few figures from new Russia. Russia's marriage and divorce laws of late have permitted men and women to marry, divorce, and remarry in less time than it takes to order and eat a dinner. Last year there were 100,000 divorces in Russia. 18,000 wives asking support for dependent children, and 30,000 women bringing paternity suits against men.

NICE FOR SOME

From the "Herald," a martial theory is similar to the theory of most of our modern novelists—the theory that marriage should last only as long as love, and that when love cools, marriage is off again. Very broad-minded, you say, and a woman tied to both and unborn children and thus unable to labor for hire? What of starving children? Very nice when you're the one whose love has cooled, not so nice when you're the one whose affections haven't cooled.

Marriage laws, firm and fast, give most protection to the greatest number concerned. You can't have your cake and eat it too. You can't be free to quit and also be protected from the whims of the other party.

HIRE A HALL

Mayfair hostesses have received literally the cry of "Hire a Hall!" Strictly speaking, instead of hiring halls, they are hiring entire houses for social affairs for which their own homes and apartments are inadequate. It takes a house to make a homelike affair, they say.

Let me see, haven't they been saying things about "the passing of the home"?

THOU SHALT NOT!

The co-ed's ten commandments were recently compiled at a certain sorority convention. The co-ed writers said that the ten thou shalt and shalt not sought a neat balance between the ideals of men, mothers, and professors.

I am sure that mothers would especially cherish this one—"Thou shalt kiss not more than twice an evening," or, "Thou shalt not smoke the 'boy friend's' cigarettes."

Here we have a perfect example

Rainbow Hues Floor Kitchen Ranges Art Invades Milady's Sacred Shrine

BY JULIA BLANSHARD
NEA Service Writer

No longer can the pot call the kettle black!

That argonitic kitchen utensil argument seems about to be settled. For enamel ware is going in for rainbow effect. You will soon have pots, pans and kettles that agree in color with the color scheme of your kitchen or your entire house, for that matter.

It may even become necessary to hire an aesthetic cook, lest the color harmonies of the pantry prove offensive to artistic friends.

If you would match your apron, the fall patterns assure you an excellent selection of gingham plaids.

If the sight of ham and eggs against a black background bothers you, it now becomes possible to effect a complete harmony between apron and kitchen.

There will still, of course, remain the difficulty of deciding what colors to use with hash. This may lead to artistic controversy to be ended only by calling in the critic.

It is not difficult to imagine the earnest young housewife rushing to the nearest hardware store with a bunch of carrots, a head of lettuce or a few beets and wistfully inquiring: "Can you please give me some pots to match these?"

But seriously—the New York style-seekers are announcing that, when winter comes, there will be viridilla in as many colors as sport sweaters. There will be polka dots and stripes, reds, yellows, blues and greens and scores of plaids and mixtures.

The housewife may have her own ideas. Let curtains, table linens, pots and pans of precisely the same dazzling shade, according to the latest color-ensemble idea. Even the kitchen stove can assume a rainbow hue with cheerful sky-blue top, bitter yellow or crimson cooking utensils.

For the conservative housewife who secretly longs for color but feels John would think her undignified using a flame-colored tea kettle in one of the lumpy, new art-natural stoves, there are opportunities. White enameled pots and pans that have either vivid linings or else just a ring of color in what the appetite.

For women, however, can fall to succumb to the allure of color, so devastatingly lovely is a shelf of pans looking like a nest of colored Easter eggs.

Think what a symphony in color created tomato soup would be, cooking in a jade-green double

COLONEL'S LADY

When the state of Texas thought that Governor Moody's pay should be raised he vetoed the amendment which would raise his pay from \$3,000 to \$10,000. But his wife did not.

Letting wives will relish this tale, remembering the noble impulses of their lesser husbands which they have checked, knowing that the grocery bill wasn't yet paid. Most wives run the economic phase of this nation's households, even if husbands do own the wherewithal.

THE PLUS SEX

Woman as "the plus sex," the stronger sex, has appeared much of late in the public press, answering other recent outbreaks about woman as a working and physical creature.

Among the strongest briefs for woman, the plus sex, is that of Dr. J. Laumier writing in a French journal. He says that science proves constantly that women are more resistant to death and disease than men. He points to the fact that nature produces more men than women because more men die. He points to the greater number of widows than widowers of the same age.

"PIPE DOWN!"

I doubt if women enjoy such revelations. If the truth becomes known, we will be expected to yield our seats in street cars to frail males; to stoke the furnace and move the lawn to say nothing of heating stoves to open cans and screw in new light bulbs—in short, lose many of our perquisites because of our traditional "frailty."

Who wants truth to reign, anyway?

CRAFTSMEN USE FEET TO FASHION TRINKLETS

CONSTANTINOULE (P)—Craftsmen who fashion trinklets with their hands and feet still thrive in and around the "Great Basin" a little town-like city of its own name of the seven hills of Stamboul. Copper and iron smiths hammer out their wares in small recesses along the miles of arcades in the great irregular stone building that is dark, smelly and dusty with the dust of centuries.

Woodworkers in booths around this building use a bare foot and one hand to hold their cutting chisel in turning objects of small lathe.

Scientists' observations indicate that the sun radiated 4 per cent less heat in 1922 than in previous years, and that since then it has not sent out a normal amount of heat. The life of the sun, however, is estimated to be 50,000,000,000 years.

Bebowed Kerchief

Mushrooms sated in an orchid can rimmed with beige surely must have noted delicacy. And a cataract should be much daintier when made in a rose-flowered pan. Even the lowly garbage can would have to take on self-respect if it were a lovely, octagonal, shaped, spotted piece of kitchen ware.

"It may be a deep-dyed plot on the part of men to get women back to the kitchen," one feminine kitchen-ware buyer stated.

"But women sure are interested in these colored pots and pans. I had a woman come in yesterday to buy a scarlet aluminum. Because she said, it speeded her up."

"These colored utensils aren't just a fad, though. They have come to stay. They are the logical outcome of this modern trend towards color. I may be all wrong, but I'll bet that in a few years there will be scarlet electric ranges, grass-green juicers and so on."

"Why not? They have colored ensembles now for the bath room, where towels, bath mat, wash rag, bath salts, soap, sponges and tooth brushes all match Milady's negligee. Why shouldn't pots and pans match her smock? It's only evolution in the kitchen."

Local Briefs

A marriage license was issued yesterday to Johnson Loftis and Miss Mary McDougal.

Derossert Hanson, Tech student from Georgetown, is here visiting for a few days.

Prof. and Mrs. B. P. Condry are leaving tomorrow for a five-week visit with friends and relatives in Waco, and points in Arkansas.

Dr. Walter J. Howard left yesterday afternoon for Dallas after he had received messages that his wife, Mrs. Howard Nelson, was very ill in a hospital there. Mrs. Richard E. P. Howard, left several days ago for Dallas after he had received word that his daughter had undergone an operation. She was resting well until yesterday afternoon, however.

Mrs. Arthur Sawyer, of Brownfield, is the guest of Mr. and Mrs. Raymond Levy.

Miss Mable Jackson, daughter of Mr. and Mrs. Gih Jackson, who were former residents of Lubbock and are now making their home in Amarillo, is seriously ill in an Amarillo hospital.

Geraldine Turner, daughter of Mr. and Mrs. John F. Turner, was resting well last evening following the removal of her tonsils yesterday morning.

Probably the most nomadic people in the world are the Bakhtiari tribes of Persia, where virtually the only source of income is herding. Their neighbors count them as the worst of the plundering hordes of the world.

All Quiet At Tech As Session Ends

With the summer session which has experienced an excellent enrollment closing today, activities on the Tech campus will be lulled for the next ten days. Beginning yesterday afternoon the campus had come a deserted scene as both faculty members and students made their departure for "other parts," only to return in a few short weeks.

While school activities will be missing from the campus, construction work will give evidence of progress. Workers on both the home economics practice house and the temporary agriculture building are rushing their work in order to have them completed as soon as possible. Officials say that they will be completed by the middle of the fall term.

Members of the faculty and the administrative officers will begin their work at the school, preparing for the coming term. President Paul W. Horn will remain here during the coming weeks as well as other officials who are meeting prospective students. The office of Registrar E. L. Doherty is receiving new records material which are to provide for the coming registration.

Drugs J. M. Gordon and A. E. Laidich have announced that they have the schedule for the fall term practically complete and arrangements made for a large enrollment. The campus will be practically deserted and closed out of the September 5 when more than 1,500 students will gather here for their annual institute.

Seek The Lord While He May Be Found Is Recommendation Of Evangelist Hogg

This message will be the last morning service of the meeting Saturday morning there will be no services. Saturday night he will preach at the regular hour. Sunday morning the different denominations will hold their Sunday schools and the position will open the doors of the churches for membership, and then the congregations will meet at eleven o'clock with a session by the Evangelist on "Heaven and How to Get In." Sunday night the last sermon of the meeting will be preached.

Seek The Lord While He May Be Found Is Recommendation Of Evangelist Hogg

"Seek the Lord while He may be found," was the subject of the sermon that Evangelist Will Hogg gave his hearers last night. He warned them that it is dangerous to put off salvation. He tested the ground and found that out of the four thousand people who were listening to his message that only four gave their hearts to God after they were fifty years old, and only six between the age of forty and fifty. He said this meant to him that the chances are "very much against the man that puts off salvation even up to middle life."

Movie Men Scan Censor's Actions And List Casualties In A Card Index

(By Associated Press)
HOLLYWOOD, Calif., Aug. 25—A card index of motion pictures which have been subjected to various nationalities is being compiled by the Motion Picture Producers and Distributors of America.

James Joy, contact man and censorship expert of the M.P.P.D., who is organizing the card index of casualties, stresses the fact that the number of pictures shipped by the censors' boards is strictly equal in comparison with the thousands of reels passed with no change. Nevertheless, instances collected since January 1, when he began indexing the exhibition, are very interesting.

The index aggregates the expurgations under such heads as foreign influence, equality, free gambling, obscenity, blasphemy, profanity, un-play, dancing, kissing and so on.

If a scene is eliminated by the New York state board of censors, for instance, because it shows the details of a shooting, a card is placed in the index with the name of the picture, the scene, a description of the scene, and the name of the exhibitor.

Under the head of "kissing" is a particularly interesting group of expurgations. For some reason most of the scenes handled have been in the last year, have been kisses on the neck.

Doing also yields an interesting list of scenes in the index, and instances seem to be favorite targets for the censor.

Several producers recently had the list of films taken over to them, thinking the result might result in suggestions as to how to raise the level of screen shows. They had not so hard the conference was abandoned.

TWO BUILDING PERMITS ARE ISSUED BY CITY

Building permits were issued yesterday by City Engineer M. J. Davis for the construction of two 6-room brick residences on lots 1 and 2 of block 2 in the Overton Addition. A cost of \$2,500 each. A permit was also granted Tom Jackson for the erection of a \$2,000 6-room brick summer residence for T. J. Anderson on lot 12, block 75 of the Overton Addition.

matters in this city. The city officials are sitting as a board of equalization, and they are trying to equalize the taxes. Most folks who are before the board are raising a canard about the valuation of their property. They claim it is too much. It may be in some cases we dare say it is, but it takes a lot of money to run the city when there is so much improvement going on. We cannot build the city that Lubbock is unless we have the money, and the only way to get the money is through bond issues and taxes. A lot of folks are ready to accuse the city officials of spending too much money, but at times if these same men were put in the place of the commissioners they would do the very same. We ought always be interested in the building of our city. We should be reasonable too in the expenditure of the cash that is paid into the treasury, and we believe the City Commission of Lubbock is. They should know pretty close to the amount that it will require to maintain the city each year and be as lenient with the tax payers as possible, and then we as payers of the tax should back them cheerfully, and make them know that we appreciate their work rather than abuse them for the things that they do.

BLUE GRASS POLITICIANS

Kentucky, the nursery of famous racehorses, has entered into a political campaign which will test the fighting qualities of the breeding and sporting fraternity of that justly famous Mecca of sportsmen. J. W. Beckham has been nominated for Governor by the Democrats, on a platform which favors the repeal of legalized parimutuel betting and the abolition of the race-track. Mr. Beckham was moved by the exigencies of the situation to align himself with the opponents of racing. His supporters in the fight for the nomination is Senator Stanley, a former political adversary, who espoused his cause that he might get the race-track issue out of the campaign. The Republican nominee is Judge Sampson, a friend to the racing interests. If sportsmen have to choose between party and the thoroughbred, the election of Judge Sampson is probable. The thoroughbred is the pride of the Blue Grass State. In a comparatively small section there are more and greater studs than will be found in any like area in the world. A vast majority of the great race-horses of the past and present are Kentucky-bred. The repeal of the law legalizing parimutuel betting would accomplish no worthy object and would be a serious blow to the breeding of thoroughbreds not only in Kentucky, but elsewhere. If it is expedient for the Blue Grass State to repudiate its history and traditions, why isn't it expedient for other States less favored by nature to do the same thing? They might, for politicians the world over will do the expedient thing.

THE BUDGET SYSTEM IN MUNICIPAL GOVERNMENT

Billions of dollars that flow through the city budgets of the United States every year are just as real as the dollars that flow through the budget of the Federal Government, but they are scattered so widely that they are hard to keep up with. Economy in city government can be attained only through the adoption of a budget system and the establishment of a modern system of accounting. The details of these budgets and accounting systems may be as thrilling to a bookkeeper as a world series game to a baseball fan, but unfortunately they are deadly dull to the average voter, says Louis F. Brown of Chicago.

Yet the only way to make sure that the city is saving all it can and is getting a dollar's worth for every dollar laid out, is to get the voter interested in the financial side of his town's business. We can all get wrought up a-plenty over whether we want a certain somebody to be mayor or not to be mayor, but few of us care to follow through. Only nine of the States require cities and towns to conform to a standard and uniform system of accounting, which may vary in some of them for cities of different sizes. They are: Idaho, Indiana, Iowa, Michigan, New Hampshire, New York, Pennsylvania, Virginia and Washington. The Virginia law was passed only in 1926 and consequently is not yet fully in effect.

In addition to these States that specify a uniform system by law, approaches to uniformity of accounting methods are found in Kansas, where the cities and towns that are members of the Kansas League of Municipalities have adopted a system; Maine, where the State auditor is authorized to install a system on request of the municipality; Mississippi, where the State auditor may provide a system for a city or town upon the approval of the Governor; New Jersey, where the State Commissioner of Accounts may provide a system; Ohio, where the Construction empowers the Legislature to require uniform financial reports from cities, and Wisconsin, where the State Tax Commission has authority to enforce a system which has been installed in about seventy municipalities of the State.

The total expenditure of the 247 cities of 30,000 population and more in this country in 1925, the last year for which the Census Bureau has published the figures, were just barely under the three billion-dollar mark, practically equalling the Federal Government expense, so that this matter of budget control and adequate accounting is as important in dollars and cents for the taxpayers of the country as is the Federal budget system and the intensive accounting control of the national receipts and expenditures.

Devotion to a system of bookkeeping never put a line of marchers behind a brass band, and no explanation of a budget ever was known to cause any considerable number of citizens to shout themselves hoarse. Yet the rising costs of city government are throwing such an increased burden on the taxpayer, and the increasing complexity of the cities is calling for so much better service and so many more improvements, that somebody has got to take the trouble to think about these prosaic things, and talk about them, however dull they may be, and get some system into our city and town financial affairs.

Even baseball has an accounting system a very intricate one, yet there are cities and towns in this country in which may be found at least a few citizens who know how to read the box score. A dozen live citizens in any city who will go after the city's books with equal interest will turn out some good reading for the townfolk, and maybe, sometimes, stir up a sporting event at that.

Just at this time of the year there is quite a bit of interest being taken in tax

OUT OUR WAY By Williams

THE ORCHID AND THE CACTUS

SO THINK WE

We think that Henry Ford is putting over a pretty soft advertising stunt by tending the auto-purchasers in arousing their curiosity as to what his next car will be.

We think that all children are about the same but some mothers think that the neighbor's children are bad.

We think that Cal. Chas. Lindbergh will be greeted with his visit to Abilene by the West Texas fair girl. Twenty-eight West Texas beauties will greet the "Lone Eagle."

We think that Will Rogers is just about right on the new silver. Henry plans to show somebody. Unless Henry hurries he will have his dealers calling for help. It is the opinion of the Beverly Hills former mayor.

We think that when the Matador, Erceland, Hightminton and Payne, get with the lads within the next few days things will begin to look like the fall of the year around the Texas Tech campus.

We think that the sporting element of the South Plains will be well entertained during the South Plains exposition. Five big football games have been arranged for as a part of the program.

We think that the heavy storms over the cotton belt means less cotton and more money for the South Plains farmer.

We think that it is not difficult for a young man to own a good living if he has a rich father.

We think that some men strive year after year to reach the hall of fame while an athlete as Ruth or Dempsey gets in the desire palace within a very short time.

We think that there are those when it is fortunate to be short of ready cash when a smart talking salesman approaches you with some worthless stock.

We think that Tex Rickard is also making a big comeback coming back to Chicago for two millions.

SAVE THE COTTON

The summary of crop conditions throughout the Cotton Belt released by the United States Department of Agriculture, says as to Georgia, "Weevil worse than for several years." This is confirmation of the advice to the Constitution which has been responsible for its assistance that cotton farmers get active in the fight for weevil-control. Time and time again during the growing season The Constitution has declared that the statistical position of cotton would necessarily force the price of cotton up, and that the one outstanding duty of the farmer was to begin the fight to save the cotton. It is in the late, certainly in Central and North Georgia, to do so, but it means poison, intensive cultivation and the vigorous application of all of the known rules for weevil control. It has been stressed before, this is too important a matter to temporize with. It means too much to public welfare as well as to the individual welfare of the farmer. This state is on the threshold of an era of unprecedented prosperity. A weevil infestation will mean a swing of the pendulum from the depression of drought and low prices—provided the weevil situation is handled intelligently and firmly—Atlanta Constitution.

The blocks of Africa and their full-blooded descendants in any part of the world never meet.

IT IS REPORTED

It is reported that some cotton experts of this country predict that Lubbock county will raise 40,000 to 45,000 bales of cotton this year.

It is reported that four good high school and one college football games have been arranged for the South Plains exposition this fall.

It is reported that South Plains pioneers will gather at the old rock house near Crosbyton in celebrating the fiftieth year. Many local citizens will attend the anniversary.

It is reported that school days will soon be here and that already the mothers are busily engaged in the annual "get ready for school" time.

It is reported that rail shipments for the Quanah, Arme and Pacific are being made and the laying of tracks on that line is expected to begin about the first of October.

It is reported that Chas. Freeman, Hightminton and Payne are anxious to start the season off and the Matadors know that this trio means business.

It is reported that Will Rogers is of the opinion that unless Henry Ford releases his new automobile pretty quick, the dealers of the U. S. will be asking for Herbert Hoover to save him.

It is reported that little worth seeing of the city league is holding the local fans in interest for several days. The champions are playing an all-star selection of the loop.

It is reported that neighboring counties are getting ready to attend the Panhandle-South Plains exposition. Something like fifteen South Plains counties will be represented in the fair this fall.

It is reported that the Winnebago and All-State could not meet each other in the first of a three game series.

It is reported that this continuous hot weather is causing the bulbs to pop open.

HOOVER SHOWS THE WAY

Secretary Hoover is an official who does nothing by halves. He had just submitted to President Coolidge a report of his latest investigation of after-flood conditions in the Mississippi Valley in which he outlines a clear and practical restoration policy, showing the extent and character of the work which, in his judgment, should be undertaken within the next ten years and in the successful outcome of which he has the utmost confidence.

He holds that the Red Cross funds now totaling \$25,000,000 will be sufficient to care for the flood sufferers until November. Permanent flood control, however, has been carried out at an average expenditure of \$15,000,000 to \$20,000,000 a year during a period covering ten years—an aggregate of \$200,000,000. This is an addition to the \$15,000,000 a year regularly appropriated for flood control and navigation purposes. Congress will be asked in December to provide the money for the reconstruction of the levees and the interest on levee bonds.

In an abstract of the report, he says it is clear that higher and wider levees are essential; also that a "dredway" or "by-pass" to the Gulf should be provided for the protection of New Orleans and southern Louisiana. He asserts with entire confidence that the Mississippi river can be controlled by a proper engineering plan, and safety assured to 1,700,000 population as well as the development of 200,000,000 acres of good land capable of supporting 5,000,000 to 10,000,000 souls. As this work is entirely without precedent over ten years it would be a comparatively light annual burden upon the nation.

All but 25,000 of the people have now been returned to their homes, although \$25,000 are still being fed, repairs on damaged dwellings, bridges, should be completed by October. In the fall another careful investigation should be made and every opportunity taken to make needed repairs on levees and to clear up the actual situation in that time. Greatness of all in value and in result, he declares, would be prompt and effective relief, effective flood control, and quick legislation. This is not only applicable to Congress but to the state legislatures as well. There are the measures that will restore confidence and bring recovery in value and a more confident outlook throughout the entire territory.—Christian Herald.

OPINIONS

SOUTHERN ENGLISH

Objections to "the stealthy approach to Southern territory" in foreign phrases was made some time ago by the Richmond Times-Dispatch. The article it complains of are not coming from Mexico or Cuba or other places outside the country, but from the North, which is beginning to corrupt "the beautiful and precise Southern language." This reminds one of the dispute between certain Irish and English jurists over the pronunciation of the mother tongue. Each is certain that the other is not the fine old original speech, but a foreign jargon. The Times-Tribune of New Orleans is now supporting the Virginia paper. It admits having grown callous in years of listening to the outrages perpetrated on Southern talk by writers, and accuses that it is stirred anew by its sister paper's defense of its native tongue and its onslaught on creeping changes introduced by Northern visitors. Most Northerners are charmed by Southern accent and usage, and they would be even sadder than the Virginians to think it disappearing. They like to hear of "toting" a load, to be addressed as "you all" to hear a sprawling speech which does not seem flowery, but nevertheless is often delightful. It is by this challenge from Louisiana—let that be stirred anew by its sister paper's defense of its native tongue and its onslaught on creeping changes introduced by Northern visitors. Most Northerners are charmed by Southern accent and usage, and they would be even sadder than the Virginians to think it disappearing. They like to hear of "toting" a load, to be addressed as "you all" to hear a sprawling speech which does not seem flowery, but nevertheless is often delightful. It is by this challenge from Louisiana—let that be stirred anew by its sister paper's defense of its native tongue and its onslaught on creeping changes introduced by Northern visitors. Most Northerners are charmed by Southern accent and usage, and they would be even sadder than the Virginians to think it disappearing. They like to hear of "toting" a load, to be addressed as "you all" to hear a sprawling speech which does not seem flowery, but nevertheless is often delightful. It is by this challenge from Louisiana—let that be stirred anew by its sister paper's defense of its native tongue and its onslaught on creeping changes introduced by Northern visitors. Blue and Gray Meet at Last

When the Civil War came Jonathan and Henry Hotten left their home in Huntington, W. Va., to enlist—but they chose opposite sides, Jonathan joining the Federal army, while Henry served with Lee's men...

R. Q. LEE SUFFERS A RELAPSE IN ACCIDENT

CISCO, Tex., Aug. 25. (AP)—Col. R. Q. Lee, formerly president of the West Texas Chamber of Commerce and widely known West Texan, has suffered a relapse at his home here from injuries received in an automobile wreck on June 13.

PROMI AGENT CHARGED WITH MURDER IS RELEASED

TULSA, Okla., Aug. 25. (AP)—Charles Warner, prohibition agent charged with the murder of Elmer Fulton, 15, of Picher, Okla., was released on \$5,000 bond late today after his application for a writ of habeas corpus had been granted by Federal Judge Kennamer.

2500 OIL PAINTING IS FOUND WORTH FORTUNE

ST. LOUIS, (AP)—Max Saffron, St. Louis art dealer, has the word of a critic that a painting he purchased for \$250 may be worth from a hundred to a thousand times that much.

IS NEAR DEAD SEA

COPENHAGEN, Aug. 25. (AP)—The world's oldest map of the Ten Commandments, is not on the Sinai Peninsula, as popularly supposed, says Dr. Ditlef Nielsen, the famous Scandinavian explorer and archaeologist, who has just returned from a survey of Egypt, Palestine, Arabia and Transjordan.

EVERY GRAD LIVING AFTER FIFTY YEARS

MONTPELLIER, Vt. (AP)—Montpelier Secretary has unearthed two records in connection with its 152nd commencement. One is that of the class of 50 years ago, graduated in 1877. Not a single member of the class is dead, so far as can be ascertained, although all are in the vicinity of these scenes and ten.

WELLS COINS WORD IN LATEST NOVEL

NEW YORK, Aug. 25. (AP)—The English language increases constantly even by contributions from those who do not consider themselves philologists.

Joseph, has coined a word which makes its debut in his latest novel, "Meanwhile," soon to be published.

The new word is "meanwhile." Through its use Wells indicates "the void between the facts of today and the dreams of tomorrow."

INTERNATIONAL ROAD CONFERENCE IS CALLED AT EL PASO IN LINDY WELCOME

EL PASO, Aug. 25.—An international highway conference may be held here September 24, the occasion of Colonel Lindbergh's visit to the Border City. Invitations extended by the West Texas chamber of commerce to officials of New Mexico, Texas and the Republic of Old Mexico, are accepted.

Both the Texas and New Mexico Highway Commissioners have announced previously the proposal made by the West Texas chamber of commerce of holding a joint road meeting and manager Homer D. Wade of the regional organization has written this week suggesting the date of September 24 and the place of El Paso. The fact that the date proposed is the occasion of the Lindbergh visit to the Border City will assure a full attendance, it is thought.

Representative Fernando Orozco of Chihuahua, Mexico, Governor Duane of New Mexico, Governor Dan Moody of Texas, W. C. Davidson, Santa Fe State Highway Engineer of New Mexico, the Texas Highway Commissioner, were formally invited to attend the conference early this week, and favorable responses are expected within the next ten days.

The prime purpose of the international road meeting as announced by the West Texas chamber of commerce is to co-ordinate better highways that lead from West Texas and the Republic of Old Mexico, and New Mexico, while, secondarily, it is believed that much good will result from the congregation of officials from the three points.

Fine Birds Bought By Hereford Man

HEREFORD, Aug. 25.—Henry Williamson of the Golden Rule Hatchery of Hereford has just received nine pedigreed White Leghorns from L. C. Beall, the nationally known breeder of Washon, Washington and will use these birds to build up a foundation flock for his hatchery.

All nine of the young aristocrats are from the contest pen that won first place in the Texas Egg Laying Contest at A. and M. college last year, and a number of them are from the hen that produced the high record of the contest with 219 eggs for the year. As to pedigrees and history back of these birds they are probably the best that have ever been shipped into Deaf Smith county, and the fact is noted that local poultry people are going out for more and better poultry.

PRINCES AT DOG RACE

London (AP)—Greyhound racing after electrically driven harness received royal approval when the Prince of Wales visited the White City Stadium with his brother, Prince George.

Like King Alfonso, both the Princes were keenly interested. They jumped to their feet when the bell rang for the hare to start and leaned over the front of the box to get a better view of the race.

VITEK GETS SHOWING IN HOWARD COUNTY TEST

The Vitek No. 4, drilling on S. E. 14 of section 128, block 29, W. & N. W. Howard county picked up a showing of oil and gas at 1233 feet. The final string of casing will be set around 1500 feet preparatory to drilling to the 1800 foot level. Vitek has also spudded in their No. 5 and No. 6, on this same section. This is proven territory and a good well is almost certain.

METHODISTS ARE HOLDING REVIVAL AT PLAINVIEW

PLAINVIEW, Aug. 25.—A revival meeting is in progress at the First Methodist church at Plainview with Rev. Frank Neal of Amarillo as the preacher assisted by L. N. Ligon, pastor of the Plainview church. The meeting is planned to continue for two weeks and services are being held twice daily.

Soup For A Century

Soup for a hundred years and no mock turtle either, probably could be made from this unknown sea tortoise. After a long struggle, it was discovered and landed in the Great South Bay off Bay Shore, Long Island, by Captain W. D. Hatch, Miami, Fla., seafisherman, shown here with Mrs. A. H. Hulst, one of those who were with him. He 7 1/2 tons shell and 2000 weight made it the largest ever captured, according to specimens of the American Museum of Natural History in New York where it is to be made a permanent exhibit. Inset is a close-up of the tortoise's gigantic head, larger than a man's.

Man Proves His Supremacy Over Beasts

Two members of the rat graduating class of 1927 of the circus animal academy are shown above, and both are now working daily in the stunts they learned while in school in order that they may earn their daily bread—or beef.

They are but two of the Bengal tigers carried by the Sells-Floto Circus, due in Lubbock Tuesday, Sept. 6. The circus academy at Peru, Ind., is one of the most interesting institutions in the country. More than 100 animals of different species were in attendance during the winter months, the classes being conducted in large, well-heated structures used for housing purposes when the show is off the road.

SOUTH PLAINS OIL NEWS

EDITED BY EARL THOMPSON, PHONE 13 OR 14

MULLICAN OIL TEST MAY GO ON DOWN

Mr. Keegan reported today that the No. 2 Mulligan, in southeast of northwest of section 21, block A Hale county, was drilling ahead at 421 feet without the oil increasing materially, having encountered 14 feet of oil sand, from 495 to 421 feet. He says that unless the oil increases in the present sand he will carry the test down in hopes of picking up a better pay sand around 900 feet, which geologists predict exists.

OPPOSES REUNION

ROME (AP)—The Congregation of the Holy Office of the Vatican absolutely forbids all Roman Catholics to participate in congresses aiming at the reunion of all churches.

This decision, just made, reiterates the one reached in 1915.

BUILDS HOME FOR GUESTS

DETROIT.—F. M. Alger, Detroit capitalist, has erected a mansion apart from his own dwelling, at his Grosse Pointe estate, for his house guests. Alger said he believed his guests could have a better time if they were quartered in a home of their own.

TOLBAT AND SIMS SET TEN INCH IN BOLES

Tolbat and Sims are setting the 10-inch casing in their No. 1 Boles, in the northwest corner of section 21, block 8, G. & N. F. survey, Lubbock county, five miles southeast of Lubbock. They are making preparations to carry this test down to the 3,500 foot level without further delay unless oil or gas is encountered at a lesser depth.

CHILDRESS TEST PROGRESSES

Continental Oil company-Marland Oil company No. 1 Red Smith, center of the northeast of section 14, block 9, Childress county, is drilling below 700 feet. This test is to be a 5,000 foot test, according to officials of the companies.

BROWNFIELD TEST IS ATTRACTING INTEREST

Considerable interest is being displayed in the No. 1 Brownfield being drilled by the W. L. Kingsland et al. in southeastern Lynn county, about 15 miles southeast of Brownfield. While nothing definite is available, much is anticipated as soon as cable tools are connected up, as a showing of gas was found with rotary at 2230 feet last week with a hole full of slush.

PANDEM DOWN 2,755 FEET

The Pandem Oil company No. 1 Justice, located 300 feet from the southeast corner of section 32, block 6, H. & G. X. survey, Garza county, is drilling at 2,755 feet. This well is 5 miles south of O'Donnell and northeast of Lamesa.

ENGLAND IN GAS WAR

Looks like the gas war has at last reached England, according to word received from England to this country gasoline prices have dropped 2 cents a gallon, due to large supplies of American gasoline being dumped on market. The English price will be equivalent to 25 cents for an American gallon.

OIL WELL EARNINGS

The earnings of the Oil Well Supply company were \$1.84 a share for the first six months of this year, on the common stock, after preferred dividends, compared to 2.11 a share the first half of 1926.

NO FARM LABOR SHORTAGE

While wages paid to hired hands increased two per cent over last year, farm labor supply for the United States as a whole is estimated as 1904 per cent of the demand. Although the wages are much lower than industrial wages, the larger supply of farm labor is said to reflect a lower volume of industrial employment.

Farm wages are quoted at \$25.45 per month with board; \$49.54 without board; \$1.55 per day with board; \$2.44 without board.

CAPE COD CUTS FIRE LOSSES

In the heart of a highly inflammable pitch pine and scrub oak mixture, the Cape Cod Forest Fire Prevention Experiment has developed a prevention-suppression system that in two years reduced expenditures 11 per cent under the old system of suppression alone, and lowered the acreage burned over by 72 per cent.

Before prevention methods were adopted, nearly 20 per cent of the forest area was burned each year.

The function of a recent calculation invention, consisting of 15,000 parts, is to predict high and low tides two years in advance for any port in the world.

Sunday Island, in the Pacific, is said to be the tallest mountain in the world, as it rises 2,000 feet out of 5 miles of water, making its height nearly 30,000 feet.
