Espionage Ring Is Believed Smashed

French Deputies Pledge Support To Central Europe Allies

Veiled Warning Is Given Nazi, Fascist Chiefs

Chamber Of Deputies Votes To Follow Britain's Lead For 'Realistic' Negotiations

(By The Associated Press)

PARIS, Feb. 26.—The chamber of deputies tonight endorsed by 439 votes to two the government's foreign policy of sticking to France's central European allies and following Britain's lead for "realistic" dealings with Fascist Italy and Nazi Germany.

The overwhelming vote of confidence came at the end of two days of debate.

Supporters of the government and some of its enemies hailed it as evidence of France's unity in foreign affairs and leftists called it "bad news for Hitler."

Warning Is Coupled

During the debate, Foreign Minister Yvon Delbos coupled a pledge that France's engagements with Czechoslovakia would be "faithfully fulfilled" with a warning that "the setting up of any political hegemony in the Danubian region is not possible."

Premier Camille Chautemps declared France never would abandon her alliances or her friends—particularly Great Britain—and said her policy must be neither isolation with her allies nor surrender.

Still With League

He affirmed that France's foreign policy still was pinned to the League of Nations.

The premier mentioned France's friends in Europe and their interest in her foreign policy and then said:

"Moreover, there is the great American republic whose president from time to time gives us a great lesson of peace."

Chautemps' appeal for unity was followed by many extreme rightists abtaining rather than vote against

Death Stalks Texas Highways Saturday

ROSENBURG, Feb. 26. (AP)—Two persons were killed and eight others injured in a head-on automobile collision near Richmond early tonight.

Mrs. Leonard Meyer, 30, of Rosenburg and W. W. (Pete) Schulz, 28, of Victoria, were killed. Mrs. Meyer's husband and their son, Leonard, jr., 10, were injured but not seriously.

Deputy Sheriff Rube Linscomb of Fort Bend county said one of the cars turned out to pass a wagon, resulting in the collision.

One Killed, Ten Injured In East Texas Collision

ATHENS, Feb. 26. (AP)—E. H. Byram, jr., 18, of Malakoff, was killed, and ten other persons were injured, two of them perhaps fatally, late today in an automobile collision near Brownsboro.

The injured: Mrs. E. H. Byram, sr., 37, and daughter, Mareta Byram, 15, of Malakoff, both believed fatally hurt; Mignone Byram, 11; Mrs. O. Hurley, Kaufman; Mary Lou Hurley, 17; Arlone Hurley, 14; Mary Dickson, 12; Elsie Dickson, 7; Jeane Dickson, 4; Allen Dickson 2.

The Dickson children are children of Mr. and Mrs. Bryan Dickson of Marshall.

Aged Big Spring Man Dies Of Injuries Suffered From Car

BIG SPRING, Feb. 26. (AP)—Funeral services will be held here Sunday afternoon for W. W. Session, 71, who died in a local hospital from injuries suffered when struck by a car while crossing a street Friday night.

The car was driven by Harold Walker who told authorities he swerved his machine in a vain attempt to miss Session as the latter stepped into the street.

Session operated a tourist camp here.

TAYLOR YOUTH KILLED

ABILENE, Feb. 26. (AP)—Clyde Watts, Hamby, Taylor county youth, was almost instantly killed tonight when the car in which he was riding with six other young people crashed through the guard rails of a bridge a short distance north of Abilene.

U.S., Eyeing Fascist Moves, Wants Friendship In South

By ANDRUE BERDING
Associated Press Staff Writer

WASHINGTON, Feb. 26. — The United States government is undertaking by many means to bring this country and Latin American states closer together.

Although denying this policy is a counter-defensive to Fascist propaganda in South America, officials admitted today it might have that effect.

Under leadership of the state department, various methods of promoting more intimate relations with Latin American nations are to be put into operation within the near future.

Meantime, officials are closely watching and studying the development of European Fascist propaganda in South America.

The state department is outlining ways of encouraging increased private radio transmission to Latin America and also is consulting with government experts on the possibility of instituting a government station for this purpose.

Have Special Official

Recently the state department took on a special official whose duties are to link the United States and and Latin American nations in a union of friendship.

He is Richard Pattee, of New Mexico, formerly an instructor in the University of Puerto Rico.

Officials are speeding into effect the cultural agreement signed with Latin American nations at Buenos Aires in 1936. That convention calls for each country to receive two students from every other country in the accord.

The United States has started the exchange with San Domingo and is about to begin it with two Central American nations.

The private exchange of professors among universities is being stimulated also.

Officials express appreciation of the favorable effect produced by the recent flight of the six army "flying fortresses" to South America.

Mother-In-Law Day Outgrowing Original Plans

(By The Associated Press)

AMARILLO, Feb. 26. — Six guns and big hats, boots and bearded mugs and red, white and black women with married children will greet Mrs. Franklin D. Roosevelt when she comes here March 9 for Mother-In-Law day.

The theme is not exactly western, but 50 high plains sheriffs, 50 highway patrolmen, Hardin-Simmons university's Cowboy band and hundreds of Panhandle cowhands, here for their annual convention, will take part in the celebration honoring all mothers with married children and particularly the first lady.

TO HAVE "EASY RIDING"

AMARILLO, Feb. 26. (AP)—Not only Gov. E. W. Marland of Oklahoma, but all the other guest governors in the Mother-In-Law Parade here March 9 will have "easy riding" horses, Mason King, parade organizer, said tonight.

The committee announced today all horses in the parade would be shod with rubber shoes.

Gov. Clyde Tingley of New Mexico will bring his own favorite mount to Amarillo and has ordered a $1,500 saddle delivered here from El Paso.

Son To Accompany Her

Mrs. Roosevelt will be accompanied by her son, Elliott, and his wife.

Another western slant comes in the horsemanship contest of southwestern governors. Bickering with each other for several months over their equestrian abilities, Gov. James V. Allred of Texas and Gov. Clyde Tingley of New Mexico will be given a chance to show their style under the sharp eyes of Cowhand-Gov. Teller Ammons of Colorado and Gov. E. W. Marland of Oklahoma.

Gov. Marland, who will introduce Mrs. Roosevelt, says:

"Gosh, I hope they have a gentle

J. W. Smith, Sr., Of Lamesa Found Dead

(Special) To The Avalanche-Journal)

LAMESA, Feb. 26.—Final rites will be read Monday for J. W. Smith, sr., for 20 years owner and editor of the Lamesa Reporter, who was found dead in his bed at 9 o'clock this morning.

For the past several days the former editor had been slightly ill with influenza but his condition was not believed to be serious. Physicians attributed his death to neuritis.

Smith owned and edited the Lamesa Reporter until a year ago when he sold the paper and retired from active work. Before going into the newspaper business 22 years ago, he was a Presbyterian minister and held pastorates in several West Texas towns. He was a firm supporter of West Texas and had been a leader in civic development of this section.

Coming to Texas when he was 13-years-old, Smith lived for several years in Waco. He was a graduate of the University of Texas, class of 1891.

He is survived by the following children: Mrs. Fred Mitchell of Lamesa; Mrs. T. Baulch of Clyde; Mrs. Ed Houston of Mission; Mrs. P. M. Finley of Corsicana; Milton Smith and J. W. Smith, jr., both of Glendale, Calif.; Robert Smith of Pomona, Calif.; Sam Smith of Bakerfield, Calif.; and George Smith of Alturas, Calif.

Woman To Go To Wichita Falls To Prepare For WTCC Session

FORT WORTH, Feb. 26. (AP)—Miss Margaret Hall, director of special events for Fort Worth's Frontier Fiesta last summer, will go to Wichita Falls Monday to open a convention office for the West Texas Chamber of Commerce.

Wichita Falls will be the 1938 convention city for the organization, which assembles April 25 for its three-day annual meeting.

Judge Rules Love Color Blind Too

PHILADELPHIA, Feb. 26. (AP)—Magistrate James W. McBride has decided that love must be color blind as well as blind.

Two couples, one just married and another planning to be soon, were brought before him after their cars collided at an intersection. Each driver was certain the traffic light was green.

"Discharged," said McBride. "You're all so much in love you don't know what color the light was."

Building Trades Plan Program

Fifty representatives from all crafts of the building trade pledged cooperation in an educational program to present their aims before the public in a meeting Saturday in the engineering building at Texas Technological college. W. L. Bradshaw, Lubbock architect, presided.

Stimulation of home construction was also projected as an aim in the campaign.

Through the program the group hopes to convince the public that stability of structure is more important than curbing costs of building. The group criticized a recent syndicated article appearing in the Evening Journal depicting low costs of building in Memphis, Tenn. The facts presented in the story were branded as unsound.

Variance In Costs Cited

It was pointed out that building costs vary in different sections of the state, and that Lubbock's distance from central producing centers was to its desadvantage. Data was offered, however, to show that prices here are not out of proportion to those in other sections.

O. R. Walker was principal speaker of the meeting. He is secretary of the West Texas-New Mexico Architectural association, Bradshaw is vice-president.

Walker told the group concerted action was necessary on part of all

E. J. Warlick Of Levelland Is Victim Of Heart Illness Here

E. J. Warlick, 49, of Levelland died of a heart ailment in a sanitarium here at 11:55 o'clock Saturday night after having been admitted late that afternoon. He had been in ill health only a short time.

Early this morning funeral arrangements had not been completed, but it was indicated services would be held at Levelland.

He is a blacksmith at Levelland, it was reported.

He is survived by his wife and five children, Mrs. R. E. Killion of Amarillo, Garland E. Warlick of Levelland, Ola Belle, 17, Orval, 15, and Billy Earl, 12.

McCraw Says All His Records Open To Group

(By The Associated Press)

DALLAS, Feb. 26—The state senate investigating committee can have access to all his public and personal records of every description, Attorney General William McCraw said here tonight on his arrival by plane from Washington with Mrs. McCraw.

"The committee can go back as far as it wishes, even to the days when I sold newspapers on the old Oriental hotel corner," said McCraw.

Wife's Account Overdrawn

The attorney general smiled broadly when asked about his wife's bank account, which the committee subpoenaed during its Dallas hearings last week.

"Her account is overdrawn $60," McCraw said, while his wife smiled agreement with his statement.

The attorney general said he felt certain that the judiciary committee of the national house of representatives will not recommend passage of a senate resolution declaring all coastal submerged lands of the United States the property of the government.

Appeared Before Committee

McCraw, Gov. James V. Allred and a number of other Texans appeared before the committee protesting against the federal government asserting ownership of Texas' coastal areas, estimated to cover 1,000,000 acres and much of it believed underlaid with oil.

"The resolution may be applied to California, but I don't believe it will be passed in its present form," he said. "Texas has nothing to worry about."

Public Safety Identifications Man Resigns His Post Saturday

AUSTIN, Feb. 26. (AP)—Chief C. G. McGraw of the bureau of identification and records today submitted his resignation to the Texas Public Safety commission to go into private business.

W. H. Richardson, jr., commission chairman, said he had received the resignation of Leonard Wright, an employe in the identification division, with McGraw's.

Inquest Is Conducted Saturday Into Man's 18-Story Plunge

HOUSTON, Feb. 26. (AP)—Justice of the Peace Tom Maes was conducting an inquest today in the death of A. G. Erwin, 34, salesman, who plunged 18 floors from the Esperson building to his death yesterday.

Erwin crashed through the four-inch concrete roof of a garage. The impact of the body smashed a hole in the roof three feet in diameter, tore loose five reinforcement bars and broke a five-inch water pipe.

FOLSOM PRISON, Calif., Feb. 26. (AP)—The state prison board of terms and paroles today denied a parole to Warren K. Billings, convicted with Thomas J. Mooney of the 1916 preparedness day parade bombing in San Francisco.

Pershing, Lying In Coma, May Not Last Long

Medical Efforts Failing To Bring Response, Physicians Work Valiantly At Bedside

(By The Associated Press)

TUCSON, Ariz., Feb. 26.—Medical efforts failed tonight to bring a response from Gen. John J. Pershing, lying in a coma and apparently gradually losing the dim spark of life flickering in his courageous heart.

Dr. Roland Davison and Lt. Col. S. U. Marietta worked valiantly over the silent form of the aged commander, but their bulletin at 10:45 p. m. cst) gave a dismal picture.

HEART GROWING TIRED

TUCSON, Ariz., Feb. 26. (AP)—Gen. John J. Pershing knew a week and a half ago that he probably would not recover from his current illness, a friend said today.

Declining to be quoted by name, the friend said the aged commander expressed conviction the end was near in a conversation with Gen. Charles G. Dawes and Gen. James G. Harbord, who visited him here.

Dawes and Harbord, intimates of Pershing, told him he soon would be up and active again.

"No, I'm not recovering," General Pershing was quoted as replying. "I'm not fooling myself. My heart is growing tired."

Hasn't Lost Or Gained

"Although General Pershing apparently has lost no ground, neither has he gained," the statement read.

"There has been no response to our attempts to re-establish his kidney functions which apparently have been greatly impaired. He continues in a coma most of the time with brief intervals of return to consciousness.

No Food In Three Days

"It is now three days since the general has taken any appreciable amount of food or fluid through the mouth, during which time all food and vitrament has been introduced artificially."

Throughout the day the bulletins told of the 77-year-old soldier's failing efforts to overcome an illness from which even he believed there would be no recovery.

At mid-day he failed to rally as he did yesterday, and physicians saw in that lack of response a grave sign.

Sgt. C. C. Shaeffer, for 17 years the general's orderly nevertheless expressed the opinion Pershing would survive the night.

Chief of Police C. A. Wollard tonight assigned two motorcycle officers to remain at the hospital in case of emergency.

Endowment Gifts Of $100,000 To McMurry Are Announced

ABILENE, Feb. 26. (AP)—President Thomas W. Brabham of McMurry College today announced endowment gifts to the school from five Abilene men totaling $100,000. Names of the donors were not disclosed, but President Brabham said they were members of the college's board of trustees.

Donation of the $100,000 signalled the beginning of a campaign for $300,000 productive endowment to add to the college's present $60,000 fund. The $100,000 will remain in trust in an Abilene bank contingent upon the Northwest Texas and New Mexico Methodist conferences raising an additional $200,000. Both conferences agreed to the program in their last annual sessions.

PLAN ROAD IMPROVEMENT

WHITEFACE, Feb. 26. (Special)—A movement is on foot to make use of crude from the oil wells near here to oil the main street, and the graded road which runs from here south to the center of the Duggan and Slaughter oil fields, about ten miles south of here.

By the use of this all-weather roads could be constructed at a comparatively small cost, which would greatly facilitate traffic into and from the center of oil activity, and thereby aid in the rapid development of this field.

Wild Eagle Backyard Pet?

(By Associated Press Feature Service)

THE Greeks and Romans said the fierce golden eagle couldn't be tamed. Bob Niedrach, curator of birds at the Colorado Museum of Natural History, thought differently. He found a mountain nest with two eaglets. For two months he watched parents raise their family. Then, he kidnaped an eagle and built a home for it in his basement. After cultivating it's friendship he placed a hobble on the eagle's leg and took it into the yard. Gently he taught the bird, jerking firmly on a leash and saying, "up, Baron." Baron finally learned to fly up and perch on Niedrach's arm. He has taught Baron to capture a rabbit skin lure which he throws into the air attached to a long stout cord. Now Neidrach says he feels qualified to supervise the building of an eagle group at the museum.

Eagles like red meat. Neidrach cemented his friendship with the Baron via the hamburger route.

Baron has to spread wings and fight the air to keep his balance as the curator raises and lowers his arms.

Sometimes Baron is in an ill humor. Neidrach wears gloves, takes no chances. Here's Baron clawing at the curator's hand.

Three Arrested By G-Men In New York City

German Girl, Former Soldier And Soldier Are Held For Selling U. S. Secrets

(By The Associated Press)

NEW YORK, Feb. 26.—Federal agents tonight held a red-haired German girl and two men incommunicado as suspects in an international spy ring trading in United States military secrets, and predicted further arrests soon would follow.

The three prisoners, one man a private in the army and the second man a former army sergeant, were arraigned on charges of espionage and held in $25,000 bail each by U. S. Commissioner Isaac Platt.

More Arrests Expected

U. S. Attorney Lamar Hardy said action by a federal grand jury would be speeded, confirmed that other suspects were under surveillance and that more arrests were expected.

Reed Vetterli, chief of the federal bureau of investigation in New York, said coded messages deciphered by his staff revealed sale of U. S. army secrets concerning the Panama canal zone—Uncle Sam's vital link between the Atlantic and Pacific fleets—and air corps information on Mitchel Field, L. I., key to air fortifications in the metropolitan New York area.

Declines To Specify Power

The G-man chieftain declined to specify the European "foreign power" he said was involved in the plot. He said, however, that one of the men confessed having sold highly confidential U. S. government information to "persons claiming to represent a European power."

The German girl, Johanna Hoffman, 26, of Dresden, Germany, a hair-dresser employed on the north German Lloyd liner Europa, was arrested by federal agents as she left the ship when it docked in New York.

"All three prisoners have confessed to their part in the plot," Hardy said.

The men arrested were Gunther Gustave Rumrich, 27, a former U. S. army sergeant, once stationed in the Panama Canal zone, and

Man Testifies He Fathered 5 Children In Stork Derby For 'Percentage' Of Prize

TORONTO, Feb. 26. (Canadian Press)—Diminutive Harold Madill who testified he was the father of five children born to Mrs. Pauline Mae Clarke, told the court today he had an agreement with her for a "percentage" of the share she claims in the $500,000 Millar "stork derby."

Madill's testimony was given at a hearing before Justice W. E. Middleton to determine legitimacy of the five children Mrs. Clarke said were among ten born to her during the 10 years ending in 1936.

Courts Rule Against Her

Two courts already have ruled illegitimate children can not be considered in awarding the derby to the mother who bore the most children in the ten-year period.

W. N. Tilley, counsel for the estate of Charles Vance Millar, donor of the prize, handed Madill five birth certificates listing him as father of the children and asked if the documents were correct.

"Yes," Madill replied.

"How do you know?" Tilley asked.

Five Are Crushed As Train Hits Another

BURLINGTON, Ia., Feb. 26. (AP)—A speeding freight train plowed into the rear of a work train carrying about 300 Burlington shop employes home from work late today, crushing five persons to death and seriously injuring a sixth.

The dead, all employes in the West Burlington shops, were indentified as: David Neder, Walt Whitford, Otto Langer and William Koch. One man was unidentified.

The engineer said he set the freight's brakes, but skidded into the work train at an estimated speed of 40 to 45 miles an hour.

Railroad employes and city firemen continued working tonight to clear the wreckage. Coroner Chris Adank said they were searching for the bodies of two negro employes reported in the splintered wreckage of the two wooden coaches.

Scotty Muses On The Most Interesting Person He Ever Met--'An Old Lady'

(By The Associated Press)

LOS ANGELES, Feb. 26. — A couple of ten-gallon hats got together from stations in life miles apart.

One was the old wild fest headgear, thrust back on a mass of tousled greying hair, framing the picturesque visage of the mysterious desert Monte Christo, Death Valley Scotty, with red necktie below.

The other was a new modish picture hat. It framed the alluring, well-groomed head of a Southern California society girl, Charlotte Dabney Hallaran, nursey tale artist. Below her pretty chin peeked a red blouse, as flaming in color but not as askew as the desert rat's necktie.

"You have met many interesting people, Mr. Scott, but who is the most interesting person you ever met?" the girl asked.

"People are just humans; they ain't much different," said the old prospector.

"Did you ever hear of the old lady? Wal, it was a spell ago. Up at the shack before the castle. A rattletrap car shook down the wash and stopped. An old lady got out. She started arguing with the driver. She shook her big old black umbrella. So I went out.

"What's the row?" I sez.

"I hired a drive from Beatty. He wants $15. Tain't worth it," she sez. 'Taint worth more'n ten.'

"All right lady, get in outta thuh sun. I'll square this," I sez.

"I showed the feller the cookhouse to get some grub and see me later.

"Wal, I cooked up some grub,

Commission Named For Texas Avenue Dispute

Price For Land Is To Be Set

In the hands of special commissioners, Glen Hess, J. E. Garrison and Roger Q. Pierce, jr., rested Saturday afternoon a decision how much money should be paid George E. Smith for property the City of Lubbock seeks to acquire in condemnation proceedings.

Opening of the south end of Texas avenue from its present dead end at Twenty-sixth street to a juncture with Avenue H near Thirtieth street is sought by the city commission, which offers Smith, implement dealer whose property the city wishes to cross, $200 for the right-of-way. Smith demands $2,500.

At Rate Of $2,000 Acre

The city's offer is at the rate of $2,000 an acre for the .11 acre it would condemn.

Judge J. J. Dillard of county court appointed the special commissioners Feb. 15 after attorneys for litigants announced they could not agree on who should serve in that capacity.

At Saturday's public hearings, at which approximately nine witnesses were questioned, persons asked by Durwood H. Bradley, city attorney, to take the stand testified they believed the $200 would more than compensate Smith for his property, since, they said they believed, the value of his remaining property would be enhanced considerably by additional frontage.

It is planned to pave the street extension.

Other Side Is Given

Witnesses called by Ben Kucera, counsel for Smith, said the implement dealer would lose financially if only $200 were paid him, since his property would be divided and that he would have to cross the avenue with equipment consigned to him and unloaded by the railroad nearby.

The commission is empowered to set what it deems a fair valuation on the property, but either side may appeal to county court and demand a jury. Appeals from there successively could be taken to the court of civil appeals and to the state supreme court.

The commission had not reported its findings late Saturday.

Thefts Are Reported In City Saturday; Donkey Included

A boy on a bicycle stole a blue donkey here Saturday. That complaint was at the top of several which cluttered police dockets and kept officers busy.

Charles Dillard of 1950 Texas Avenue told police he had tracked the bicycle and the tracks of the donkey for a distance, but was unable to find where it had been taken. The donkey was described as having a bridle with a small lock on it. The donkey also had two scars on his hind legs.

Other reports of stolen property here were:

Two salesmen for Sherrod Bros. Hardware company reported a brief case with sales data and material was taken from an automobile when parked Friday night.

B. B. Walker of 2215 Main street reported theft of a red and white bicycle. A red and white bicycle with a green and white light on the rear also was reported stolen, according to police records. The theft was reported by Blanche Jackson of 1406 Avenue R.

A shotgun assertedly was stolen from Ross McWhorter at his residence at 1808 Avenue Q.

Bill Mabray, police identifications officer, said Maude and Pete's safe at 352 North Avenue H, was entered Friday night and burglars escaped with a small quantity of cigarets and candy.

A suitcase was reported stolen from an automobile parked in the 900-block Avenue K.

O. E. Fush of the police department recovered an assertedly stolen bicycle which belonged to Samuel Lee Beardley of 402 Avenue C.

Ten-Day Sale Sponsored By Home Ec Club Opens Tuesday

Ten-day sale sponsored by the Home Economics club at Texas Technological college will start Tuesday afternoon, Miss Pauline Edgett, president, announced Saturday. Mrs. Edna Buster, associate professor of clothing and textiles, is club sponsor.

Sale will be conducted from 1 to 5 o'clock each afternoon in the Home Economics building.

Glassware, linens, pottery, and odds-and-ends, not found elsewhere in Lubbock, will be on sale.

Raids Staged Here On Slot Machines

A campaign to halt operation of slot machines in this area was launched Saturday when authorities of the police department and Texas Liquor Control board conducted raids in which five machines were confiscated.

County Attorney Robert J. Allen said charges against three and possibly four defendants would be filed in county court Monday. He said three of the charges had been prepared, but complaining witnesses did not sign them Saturday preparatory to filing.

Three Places Raided

Police assisting in the raids were Aubrie Cummings, Melvin Alvey, S. O. Boyd, Ralph Goldwater, and O. E. Rush. John T. Willis and C. C. Cox of the liquor control board also made the raids.

Places raided were on College Avenue, in the 1400-block Avenue C, and a place on north Avenue H.

The charges prepared will allege operation of a lottery. Allen said the lottery laws were applicable in that in the operation of slot machines all individuals do not get the same in return for the money spent; some get more than others.

Four of the machines were for pennies and one for nickles.

Bill Mabray, police identifications officer and assistant chief of police, indicated that persons operating the machines would be charged.

Miss Fleta Wilson Of Anton Dies Saturday; Rites Today

ANTON, Feb. 26. (Special)—Miss Fleta Wilson, 19, daughter of Elder and Mrs. W. O. Wilson, died at 4:30 o'clock this morning after a malignant illness of several years.

She had been confined to her bed three years.

Funeral rites will be read at 2:30 o'clock Sunday afternoon at the First Baptist church, of which Elder Wilson had been pastor, and burial will be here. The pastor, Rev. F. N. Allen, will officiate and Hammond Funeral home of Littlefield will direct burial.

C. V. Terrell Out For Re-election

(By The Associated Press)

AUSTIN, Feb. 26.—Chairman C. V. Terrell of the Texas railroad commission today announced his candidacy for re-election.

C. V. Terrell

Terrell, serving his second term on the regulatory body, was elected chairman in January, 1937.

In a formal statement in connection with his announcement he said:

"True to my promises of the past, I have faithfully discharged the duties of an important public office; and due to intensive training and experience I have qualified myself to pass upon matters coming before the railroad commission, a department which constantly faces complex problems vitally affecting every citizen of our commonwealth.

"The jurisdiction of the commission embraces the supervision of railroads, trucks, busses, express companies, dock companies, gas, utilities, pipelines and the administration of the conservation laws of this state dealing with the production of oil and gas; investments totaling more than three billion dollars.

Caused Rate Reductions

"The commission has caused the rates on cotton to be reduced in some instance from $4 to $1.25 a bale, resulting in a saving to the cotton farmers and people of the state of several million dollars annually. Through its action the rates on grain are lower than they otherwise would have been and the grain farmers of Texas have thereby been saved, and are being saved, in excess of two million dollars annually. Because of the action of the commission the rates on stocker cattle are 15 per cent lower than they would have been, which saving has accrued to the cattlemen of our state.

"An order of the commission directing the reduction of the gas rates to the City of Laredo, by which the consumer will be saved more than 25 per cent was recently sustained by the Supreme court of the United States."

Lubbock Maintains Its Building Pace

(By The Associated Press)

Austin, Corpus Christi and Galveston were among the top five cities of the 13 reporting their building permits for the week just ended. Houston topped the list with $830,070.

Corpus Christi's permits included one for $127,000 issued to the General American Transportation corp. For building of an oil dock and new storage tanks at the port. A $130,500 permit at Galveston was for a school.

Permits for the week and year to date were:

Downward Tilt Is Continued

(By The Associated Press)

NEW YORK, Feb. 26.—Industrial activity continued its downward course this week, all the major producing industries slumping.

Measured by the Associated Press seasonally adjusted index, the tempo, was the slowest since December, 1934.

The index dropped to 69.3 per cent of the 1929-30 average from 70.0 a week ago and compared with 103.1 last year.

New lows for the year or longer were registered by automobile production, electric power output, residential building and total freight carloadings.

Cotton manufacturing activity was unchanged, the only individual index that did not decline.

Mines Research Located At Tech

A cooperative agreement between Texas Technological college and the United States bureau of mines has been effected concerning research work with well cuttings and core specimens Dr. Bradford Knapp, president, announced Saturday.

Terminating a series of negotiations instigated by Dr. C. W. Seibel, director and supervising engineer of the Amarillo Helium plant, the agreement provides for transference of stipulated bureau of mines equipment to the college campus and whatver technical advice or aid deemed necessary by either party.

Instrument Included

Among scientific aparatus which will be received by Tech faculty members is a Hilger Quartz spectrograph. This instrument which is used to photograph through visible spectra and a good distance through ultra-violet rays, will be employed to compile data relative to chemical, physical, and geological properties of metals obtained from well cuttings and core specimens of Permian basin oil and gas fields.

Dr. Knapp indicated that he has had considerable experience with similar agreements with the federal government, at Oklahoma A and M, Stillwater, and at Alabama Polytechnic insitute, Auburn, Ala.

Has Drawn Agreements

"I have drawn agreements from both sides: with colleges and working with the federal agricultural division," he said.

The present cooperative agreement was signed by Oscar L. Chapman, assistant secretary of the interior, he said, Dr. R. C. Goodwin, head of the department of chemistry was instrumental in securing cooperation of the bureau of mines. Practical work with the spectroscope will be done under supervision of Dr. William M. Craig, professor of chemistry.

Dr. Seibel, from whose laboratories part of the equipment will be taken, was the first person to receive an honorary doctor's degree from Tech, Dr. Knapp said.

The Tower House hotel at Windsor, England, once the home of the butcher Mark Fytton whom Henry VIII hanged, is to be domolished to make way for a modern cafe.

Civil Service For Lubbock's City Employes To Be Considered At Meeting

Other Problems To Be Delayed

Civil service for some of Lubbock's city employes probably will be taken up at a recessed session some night this week of city commission, said Mayor Ross Edwards Saturday.

The "study meeting" likely will require so much discussion the problems of traffic and trailer house construction will not be discussed he said.

Special Election Necessary

In order to place city employes under civil service requirements it would be necessary for a special election, which probably would be April 5, when the election of a mayor and two commissioners will be conducted.

Passage on first reading of an ordinance designed to limit conceded hazards of trailer house construction in Lubbock resulted from Thursday's regular semi-monthly session of the commission. City Attorney Durwood H. Bradley will revise the ordinance before it is referred back to the commission, with a view to "putting teeth" into it.

Two Plans Suggested

As to traffic control, two plans had been suggested by city police—boulevarding or additional traffic signals. Action was passed, but probably will be discussed at a near session, it was indicated.

By boulevarding, the following avenues or streets would be "through" traffic arteries designed to take some of the stream of vehicles off thorofares now too congested:

Eighth street, from Avenue H to College avenue.

Broadway, from the eastern to the western limits of the city.

Fifteenth street, Avenue H to College.

Nineteenth street, Texas to College.

Avenue H, city limits north to those south.

Texas, Eighth to where it joins Avenue H to the south, near Thirtieth street.

Avenue Q, Eighth to Nineteenth streets, with traffic lights at intersections with Main, Broadway, Fifteenth, and Nineteenth streets.

Avenue V, Broadway to Nineteenth street.

College, already considered a boulevard.

Get Temporary Relief

Because paving has not been completed on Texas avenue or on Eighth street, police suggested that temporary relief be given until that time the commission decides to boulevard certain streets and avenues, through installing traffic signals at Broadway and Avenue Q and Sixteenth and Q, together with stop signs at Tenth and K, on the north side; K and Thirteenth, south side; O and Thirteenth, south side; O and Fifteenth, south side, and V and Fifteenth, north side.

The state has agreed to furnish automatic signal lights to be erected at Broadway and College and at Nineteenth and College provided the city will maintain them.

The alternate plan was suggested to further guard against traffic mishap damage to property and injury to persons. Lubbock in January counted 48 wrecks that caused property damage of $1,500 but no loss of life. One person was struck by a truck.

Boulevards Are Likely

Commissioners openly agree Lubbock probably will have boulevards before long, pointing to the fact the city has a remarkable traffic problem because of the great number of vehicles coming into and going out of its limits.

Civil service would apply to employes exclusive of technical and laboring groups, and to the city manager. The system each year is coming into more entrenched favor over the nation.

Decision of the commission last week to award contract for two of three water wells, the third to be awarded by the city engineer to the most deserving of the two contractors as based on quality of work done, will save the city $20,000 more than if the wells had been located farther to the northwest of the location selected for them, commissioners were told.

Mains To Be Laid

A 16-inch main will be laid down Third street to Avenue W, where it will connect with a 14-inch main to run to Fourteenth street, there to be joined to a 12-inch main laid to Nineteenth street. Six-inch laterals each two blocks will distribute water from the mains with much more pressure than had been allowed.

The commission earlier had discussed borrowing on or sale of paving certificates, approximately $40,000 of which are tied up, since an approximately $50,000 new paving campaign has been initiated. Forty-six blocks are affected. Curbs and gutters and street paving base are almost in on Eighth street, between Q and College; Ninth street, between Q and College; Twentieth street, from Adams to Van Buren; Jackson street, from Twentieth to Twenty-first; Twenty-first, from X to Van Buren; Avenue P, from Main to Fourteenth, and Eighteenth, from T to Q.

Renamed Director

K. L. Riggs, above, West Texas agency manager of the Great American Life Insurance company, San Antonio, has been re-elected as a director of the company for the fourth time. Riggs is the only active producer of business in the company to hold a director's position. He lives in Lubbock.

Thirty-Six Take First Aid Work

Thirty-six of 38 persons who enrolled for a two-week first aid instruction course taught by R. C. Plaisted, member of the national Red Cross staff of first aid and lifesaving service of the organization, have completed the work.

One person, William Wright, a student of Texas Technological college, was prevented from being certified because of his age, 19. The 36 will be appointed lay instructors who can teach informational courses in junior, standard and advanced first aid, said Plaisted.

Dr. Stewart Assisted

The school was conducted in conjunction with advisory medical assistance of Dr. Allen T. Stewart.

Passing work were 19 members of the Texas highway maintenance department: William B. Alderman of Childress, James H. Clements of Abilene, D. R. Doshier of Estillene, James N. Eichelberger of Plainview, William V. Favor of Childress, John E. Gaston of Amarillo, Ross H. Hardin of Abilene, Wilson B. Holden, George W. Garrett, division 5 engineer, Wilson B. Holden, jr., Lawrence Magee, Ameral Payne, Buell Terrell, and Elmer J. Willson, all of Lubbock, Mac Leshe of Childress, Yeargin A. Rankin of Clarendon, J. C. Roberts of Abilene, Paul D. Warren of Haskell, William L. Werneburg of Perryton, and James F. Potts of Dalhart; two Lubbock police patrolmen, Ralph L. Goldwater and Roy Sanford; four Lubbock firemen, John Scott Hollingsworth, William A. Hood, Everett L. Price, and William E. Twitty, chief; nine teachers of Lubbock public schools, Misses Ruby Atwood, Marian Bray, Gladys Butler, Ouida Davis, Lois Mangum, Stella K. Thurman, and Mesdames Isabel Garrison, C. E. Roberts and Guy L. Trow; one teacher of Texas Technological college, William B. Richards, and Osco Cole, unattached.

Accurate Weather Predictions From Three To Five Days Ahead May Come In Near Future, Leader In Air-Mass Method Declares

(By The Associated Press)

PASADENA, Calif., Feb. 26.—Accurate weather predictions three to five days ahead may come in the near future, Dr. Irving Krick, leader in the air-mass method of forecasting, said here today.

"This will be possible if radio meteorograph stations are established all over the country," he said. "When these air exploring devices are sent up from ships, even seasonal forecasts may become possible."

Airlines Use System

Dr. Krick is head of the meteorology department of the Guggenheim School of Aeronautics at the California Institute of Technology.

Nearly all airlines use the air-mass system of forecasting and one's weather staff is composed entirely of former students of this school.

The federal bureau established three radio meteograph stations last October, in Boston, Burbank and Fairbanks, Alaska.

Three different kinds of instruments are being tested. The one at Burbank, designed by Dr. Krick and associates, has a clock which turns a hand about a dial, making contacts with three stationary and three shifting points, the latter governed by a small barometer, a metal thermometer and two strands of hair. The spacing between the radio impulses received on the ground indicates the changes in air pressure, temperature and humidity as the balloon rises.

Ickes Wants Publicity Division But Doesn't Think It'll Be As Expert As Agriculture

WASHINGTON, Feb. 26. (AP)—Secretary Ickes wants $50,000 for a new publicity division for his department, which he says "can not hope to make the front page for a long time to come."

He made the request at hearings on the interior department appropriation bill, approved Friday by the house appropriations committee.

"The people are entitled to know what we are doing," he said.

When Rep. Rich (R-Pa) asked him whether "we are going to have the same propaganda in your department that is now going on in the department of agriculture, Ickes reported:

"No, I do not think we could ever be so expert."

READS BILLS WITH FINGERS

JOHNSTON CITY, Ill. (AP)—William H. Wilson, former tavern owner, is blind but he astounds his friends by "reading" the denomination of paper money with his sensitive finger tips. He can distinguish $1, $5, $10 or $20 bills almost instantly by the "feel." He says he can distinguish $50 and $100 bills as well, but doesn't get much practice.

MANY A HARD-HITTING ROLE WALLACE BEERY HAS PLAYED FOR Metro-Goldwyn-Mayer

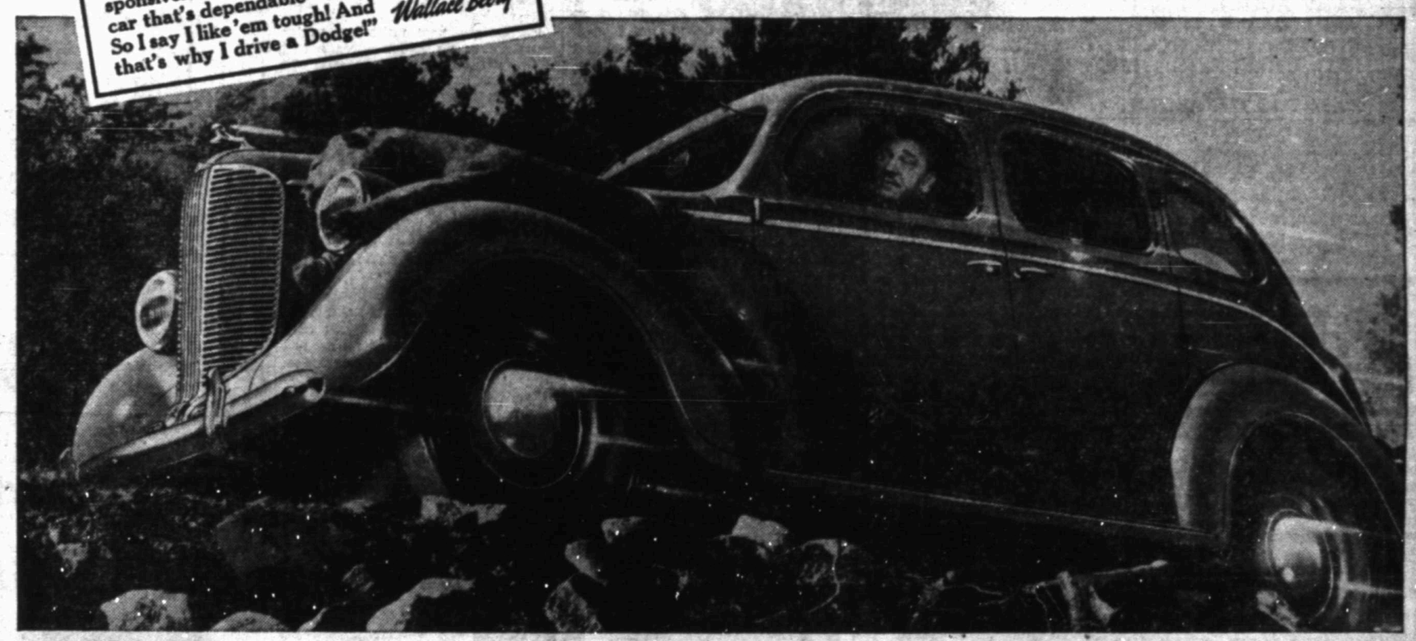

"When you're behind the wheel of the new Dodge, you're experiencing the last word in flashing performance and lightning-like responsiveness. But what I really go for is a car that's dependable—one that can take it. So I say I like 'em tough! And that's why I drive a Dodge!" Wallace Beery

"I LIKE 'EM TOUGH"

THAT'S WHY I DRIVE A DODGE"

says Wallace Beery

STAR OF METRO-GOLDWYN-MAYER'S "MEN OF THE WATERFRONT"

BRIMFUL OF "GET-UP-AND-GO"!

RIGHT you are, Wallace Beery...and when you fondle the wheel of this big, new Dodge, you're the "top-kick" pilot of the ruggedest thing on wheels!

Tough? You bet—from its battleship frame, to the walls and roof of steel that spell SAFETY in the way that really counts.

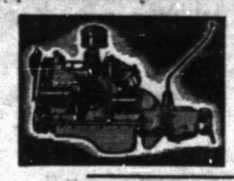

But ruggedness isn't all. There's something excitingly new about this greatest car Dodge ever built. Hop in and we'll try it together. Step on the gas, and zoom!...you're away like a greyhound on wings! No back-talk, no engine dawdling. Here's power that's *eager* to go... riding ease that craves long miles of highway to show you what road comfort really means.

And the handling? Gentle pressure swings her haughty nose where you're going. Tail-wag and wander are out. She literally clings to the road...hugs the curves in the same easy way she maneuvers the straight-aways!

And Dodge demands so little gas and oil. "A gas miser de luxe," is what one owner calls it. Another says, "I'll save $97 this year on gas, oil and upkeep!" It's money in your pocket every day, every mile you drive it.

AND NOW LET'S TALK PRICE!

If you're thinking of paying more money for a car, remember this: Dodge actually costs hundreds of dollars less than some cars that do not give you as much. Or, if you think your purse limit is one of the smallest cars, Dodge is priced so close to the low-priced cars that you'll hardly notice the difference as you pay. No wonder owners say Dodge is the *best-priced* car in America! Phone your dealer for all the facts and figures today!

There Is Nn End To Gly-Cas' Praise

Thousands Laud New Herbal Remedy As "A Real Blessing To Suffering Humanity," Says Mrs. Holloway

"Never have I seen a medicine with such an amazing action as this new Gly-Cas," said Mrs. H. W. Holloway, Star Route, Star City, Arkansas (just south of Pine Bluff). "For as long as I can remember I

MRS H. W. HOLLOWAY

had been troubled with dizzy spells, headaches and constipation. The poisons accumulated over my body until my stomach and kidneys were badly affected too. The past year I had been unable to eat hardly anything without distress afterwards. My back pained me until I could hardly get around at times, a good nights sleep was out of the question and all I knew was continual suffering until I finally began this new Gly-Cas."

"I am like a new person today," continued Mrs. Holloway. "My stomach, kidneys and bowels are now regulated, eat and sleep fine and enjoy the good and glorious health that had been denied me for so many years. I now have new strength and energy, get around with ease and enjoy living. I feel so well again. Those awful headaches have gone, dizzy speels have ended, back, pains are now in the past and I easily understand why so many people are praising this new Gly-Cas.

Edgar E. Gray Of Idalou Again Announces Candidacy For Commissioner, Precinct 3

* * *

EDGAR E. GRAY

Edgar E. Gray of Idalou, route 1, Saturday authorized his candidacy for the office of county commissioner of precinct 3, Lubbock county, subject to the Democratic primary.

In a formal statement, Gray said:

"Two years ago I came before the people seeking this same office and point with pride to the handsome vote received, which placed me in the run-off only 10 votes behind the present incumbent. I am asking for this office on my own merits, and am conscientious in saying that I have the ability to discharge, in an efficient manner, every duty pertaining to the office, having served on the commissioners court of my native county for two consecutive terms from 1915 to 1918, inclusive.

"I am 56 years old. Was born at Corsicana, Navarro county, Texas, Jan. 20, 1882. Have been a citizen of Lubbock county since 1924. Have taken an active interest in all things pertaining to community welfare; am always interested in the welfare of our people and our country at large.

"My life, since I have lived among you, is an open book, and before then will bear inspection by any who care to inquire.

"Now, good people, if you will elect me to this important office, I will, at all times, faithfully discharge my duty to the best of my ability and shall ever be grateful to you."

Ceremony Set For March 8

Gov. James V. Allred Saturday wired his acceptance of an invitation to deliver the address at the laying of the cornerstone of the new library building at Texas Technological college at 2 p. m. March 8.

In all probability, Governor Allred will join Mrs. Franklin D. Roosevelt in Wichita Falls and accompany her to Lubbock, where she is to make an address March 8. He will accompany her from here to Amarillo, where she will be the honored guest at the Mother-in-Law day celebration and will speak March 9 and Gov. Allred will ride in the Mother-in-Law day parade.

Program Announced

Prigram for the cornerstone laying ceremony, as announced Saturday by President Bradford Knapp of Tech, follows: Music by Tech band, directed by D. O. Wiley; invocation by the grand chaplain of the Grand Masonic Lodge of Texas; "America", by the audience, led by the college band; ceremony of laying the cornerstone by the Grand Masonic Lodge of Texas, with John Temple Rice of El Paso, grand master, in charge, assisted by other officers of the Grand Lodge; address by Gov. Allred; benediction of the grand chaplain; music by the band. Dr. Knapp will preside.

The library, which is being constructed with $275,000 allocated by the legislature, is the first major educational building acquired from the state since the construction of the building planned when the college was opened.

No Report Received On Slaughter Gauge

According to oil authorities, the Richardson No. 1 Slaughter well in Hockley county about 14 miles southwest of Levelland was scheduled to have started potential guage, but no report had been received here Saturday.

The well is in labor 59, league 39, Maverick county school land in the north extension of the Slaughter field. It began flowing Thursday after swabbing down 2,000 feet from the top. It flowed into pits eight minutes, then into tanks and made 49 1-2 barrels in the first hour, 20 barrels in the second hour by heads. The well then was shut in preparatory to testing. Gas was estimated at a half-million feet.

The Ohio No. 2 Averitt in Gaines county flowed 345 barrels of oil in the first eight hours after treatment with 1,000 gallons of acid. That well is 1980 feet from the north and east lines of section 228, block G, WT RR survey.

Vic Lamb, Editor Of American At Hale Center, Has New Job

HALE CENTER, Feb. 26. (Special)—Vic Lamb has a new job!

Business men here, feeling the need of a live wire for the job of secretary of the business club, named the editor of the Hale Center American as acting secretary. He will do part time work and will draw a salary of $25 per month to compensate in some way for his time.

Joe Payne is president of the Merchants association of Hale Center. Directors chosen were: Dewey French, Rev. W. R. Burnett, Roger Pinson, L. M. Andrews, Mrs. Sally Lemond, J. E. Miller, Mrs. Orlena Church and Mrs. Carolyn Moreman.

This is not the first civic work for Lamb. For year and a half he was publicity director of the Lamesa Chamber of Commerce.

Directors will meet the first Wednesday in each month and the general membership the second Wednesday.

Tour Of Colony 's Scheduled

The public is invited to attend first annual tour and public program Friday afternoon and night of the Ropesville Community project, a committee of clients announced Saturday.

A tour of the project will start at the community house at 4 p. m. Everyone is urged to inspect the project and are privileged to inspect individual homes.

Barbecue To Be Served

Babecue will be served at 6:30 o'clock at Ropesville High school. An explanation of the project will be given at 7:30 o'clock in a program at the school.

Forty-eight new units are under construction on 12,000 acres added to the project since its inception two years ago. Two crops have been grown on 33 units of 120 acres each, composing the original set-up.

Committees planning the Friday program are: arrangements, D. D. Smith, W. H. Jackson, and K. L. Godwin; foods, T. A. Preston, Homer Manning, and J. E. Bullock; and program, Robert L. Foster, E. A. Smyer, and J. N. Willis.

Manning Of Battleship Entirely By Negro Officers, Crew Asked

WASHINGTON, Feb. 26. (AP) — Manning a battleship entirely with negro officers and enlisted men has been suggested to the navy department in a series of letters from negro organizations.

The letters advance the argument that there are 12,000,000 negroes in the United States.

There are about 2,300 negroes in the navy.

Livestock Sales Pen Announced

Construction of a livestock auction sale pen, with capacity for 5,000 head of cattle is to be started some time in March by Reed and Snyder, on a location a mile and a half north of the city limits, Fred Snyder announced Saturday.

Snyder is leaving shortly for Salina, Kan., and other points to inspect similar pens there. He hopes to get some ideas that will aid him in having plans drawn for the local pens.

To Hold Auctions Weekly

"We have closed a deal with H. W. Stanton for grounds about a mile and a half north of Lubbock, where we will put in one of the best equipped livestock auction sale pens and pavilions in the Southwest," he announced. "We will equip them to start with pen room for 5,000 head and will hold auctions weekly, selling local and trucked in cattle. We will do extensive advertising in the corn belt states to secure buyers for a large number of stocker and feeder cattle, to be sold through the auction ring to the highest bidder."

Building will start as soon as plans can be drafted. Snyder said he hoped to have the pens operating by early April.

The pens are located north of Avenue U. The location is east of H. W. Stanton's present pens and have spur trackage of the Santa Fe main line.

Civil Cases To Occupy Attention Of District Courts This Week

The 72nd district court of Judge Daniel A. Blair will open a week of jury civil cases Monday with a jury scheduled to report at 1:30 o'clock that afternoon, according to attaches of the court.

Jurors which had been summoned to report Monday in the 99th district court of Judge E. L. Pitts Saturday were instructed not to report. Although the week had been designated as jury civil week, only one case requiring a jury had been set and it was portponed, attaches of the court said. Non-jury, non-contested cases will be considered.

This week has been designated as non-jury civil week in the county court of Judge J. J. Dillard.

Mar. 15—Northeastern, Matador.
Mar. 18—Eastern, Spur.
Mar. 25—Southwestern, Brownfield.
Mar. 26—North Central and Northern, Plainview, and Southern, Lamesa.
April 1—Southeastern, Slaton.
April 2—Northwestern, Littlefield, and Central, Lubbock.

Nude Statues For Fair Must Be Draped Or Undergo Plastic Surgery, Officials Declare

SAN FRANCISCO, Feb. 26. (AP)—A couple of nude statues turned out by Sculptor David Slivka will have to undergo considerable plastic surgery to meet General Director Harris Connick's approval for the Golden Gate International exposition next year.

Connick ruled yesterday after a conference with Exposition President Leland Cutler and Architect Lewis Hobart that the statues must be remodeled or draped here and there so that the fair will be "a safe place for mothers and young children."

The two pieces in question are "Fertility," a large female figure holding a pear in her hand, and "Abundance," a male figure clothed in nothing more than a sheaf of wheat slung over the shoulder. Connick said "Fertility" suggested failure of the fig leaf crop.

Rate Increases Are Allowed

(By The Associated Press)

AUSTIN, Feb. 26.—The railroad commission has authorized rate increases, effective March 7 for certain commodities but denied others asked by railroads at hearings here and Dallas last month.

N. V. Terrell, charman, said the following increases were allowed:

Gasoline, one cent per 100 pounds; sewer pipe and pipe fittings, two cents; salt, two cents; iron and steel articles, one cent; crude gypsum, one cent; rought stone, 10 per cent not to exceed 20 cents per ton; silica sand, 20 cents per ton.

Increases denied included: packinghouse products and fresh meats moving at standard rates; cottonseed cake, meal, hulls, oil, foots, linters and other vegetable cake, meal and oil; rock asphalt; roasted coffee, from Houston, Galveston, and Texas City to Dallas, Fort Worth, Waco, and San Antonio; window glass from Wichita Falls to various points; fruit and vegetable wrappers from Harlingen and Weslaco to various points.

Deep Test For Oil Planned In Terry

BROWNFIELD, Feb. 26 (Special)—Harry E. Hults of Fort Worth obtained from Gulf Oil Corp. leases on two tracts in northwestern Terry county for the drilling of a deep test for oil, to be spudded within 60 days. The farmout consists of the west half of section 6-D14-C&M and the west half of section 6-D14-C&M and the west half of section 20-D11-SK&K. The wildcat will be on P. J. Ross' land in the west half of section 6, about three miles south and slightly west of Gulf No. 1 Mallett, a southwest outpost to the Slaughter pool in southwestern Hockley county, and about eight miles northwest of Foree No. 1 Poole, a Terry county failure.

Drilling will be carried to approximately 5,200 feet to test the producing horizons in the Slaughter field in Hockley and the Duggan pool in southeastern Cochran county.

Congress Told Of Making Of Synthetic Gasoline From Coal

WASHINGTON, Feb. 26. (AP)—Congress learned today that synthetic gasoline from bituminous coal probably could be manufactured commercially at a cost of between 15 cents and 25 cents a gallon.

A. C. Fieldner, chief of the technologic branch of the bureau of mines, made the statement, based on experiments, during a house appropriation subcommittee's consideration of the 1939 interior department appropriation bill.

Stone Says He Had No Knowledge Of McCraw Subpoenas

BRENHAM, Feb. 26. (AP)—Senator Albert Stone, member of the state investigating committee, said in a statement today he had had no knowledge of issuance of subpoenas at the committee's Dallas hearing for the bank accounts of Attorney General and Mrs. William McCraw, until asked by a newspaper reporter whether they had been issued.

Stone's full statement read:

"In so far as Senator Weinert (R. A. Weinert of Seguin, a committee member) and Senator Collie (of Eastland, also a committee member) are concerned, I am not authorized to make statements for them, and each of these gentlemen can answer the question for themselves. Personally I had no knowledge of subpoenas having been issued for the bank accounts of either McCraw or Mrs. McCraw until a newspaper reporter asked me if they had been issued."

l Signs Point An Explosion

y HOWARD C. MARSHALL
ssociated Press Staff Writer

USTIN, Feb. 26.—The fire of
s' gubernatorial contest con-
ed to smoulder today despite the
rn from Washington of Gov-
r James V. Allred and the ex-
ed early return of Attorney
eral William McCraw.

l signs pointed, however, to an
urst in the near future which
lead to the biggest conflagra-
of its kind in years.

Allred Gives No Answer

overnor Allred came to his of-
soon after alighting from a
n, but said he wouldn't talk
tics. There was no answer,
efore, to the all-important
stion of whether he would seek
hird term.

he only matter in doubt about
Craw's immediate political plans
tinued to be the time of his
nal announcement and the word
ed about was that it would be
he first two weeks of March.

oth the governor and the At-
ney-general sped to Washington
y in the week to battle what
y considered a serious threat to
as' sovereignty over its valuable
merged lands along the Gulf
st.

Thompson In The Field

While the governor and McCraw
e sitting tight, however, a for-
lable aspirant for gubernatorial
nors, Ernest O. Thompson, mem-
of the Railroad commission,
s in the field. He was formally
nounced but not made public his
tform.

Addressing the North Texas Oil
Gas association's meeting at
chita Falls, the red-headed
olonel" said Texas needed less
e talk about balancing the bud-
and firmer action toward get-
it balanced. If that were done,
said, the state would be on a
nd business basis in four years
hout additional taxes.

There was tremendous interest in
possible appearance of McCraw
t Wednesday before a senate
mmittee which has been investi-
ting policies of the land office
d, its critics have said, rambling
into politics.

Accusations Are Made

Members of the committee have
d the investigation did not have
political end, but accusations
ve been made, nevertheless, that
s where its activities pointed. The
mmittee held a hearing at Dallas
is week, a highspot of which was
e issuance—it is disputed by
hom—of subpoenas for bank ac-
unts of McCraw and his wife.

The attorney general and Mrs.
cCraw immediately said the com-
ittee could have the records but
e attorney general added a criti-
m for dragging his wife's name
to the investigation. He said they
re willing and anxious to appear
fore the committee.

In the capital, some considered
Craw got a big political break
n the committee provided him
opening for his declaration it
d gone too far, thereby putting
m in the favorable position of ap-
aring persecuted by political
emies.

Clark Stands Pat

On the other hand, there were
e headlines that the attorney
neral's bank account was to be
amined—and many persons read
tle beyond the headlines. There
o was the fact McCraw's form-
law partner, Tom Clark, now
assistant United States attorney
neral, gave the committee only
nited permission to examine his
nk account. Clark said in sub-
ance the committee could have
y specific information it wanted
t he did not intend to lay all his
ivate affairs at the committee's
et for general kicking around.

The possibility Governor Allred
d Colonel Thompson might not
me through the period of legisla-
e inquisitiveness altogether un-

Looks Like Spring

Springtime is the season for flowers, and sweet smiles are aptly portrayed here by Phoebe Grant, pretty young actress heard on "The Party Line," every morning, Monday through Friday, on KFYO at 10:15 o'clock. Phoebe, who is 21, portrays the role of a young botany student on the air, and these are examples of flowers which will likely be a part of the spring "Party Line" flower seed offer to be heard on the air beginning March 1. KFYO listeners are offered eight full-sized packages of selected flower garden seeds.

Bits Of Gossip On The Ether . .

Frenship a[illegible] Deal communities competed in the first of the old fashioned spelling bees, Saturday at 12:15 o'clock over Station KFYO. The programs, which will be a regular Saturday feature over the air, will consist of contests between communities. Winning teams will receive $5 in cash.

POPULAR PROGRAM

One of KFYO's most popular programs is "The Makers of Dreams" with Norman Rogers and Bernie Howell. The programs, which are aired on Monday, Wednesday and Fridays at 8 p. m. and on Sunday afternoons at 5:45 o'clock, consist of poetry and organ melodies.

AGAIN ON AIR

The moment all KFYO listeners have been dreading will arrive this afternoon at 1:15 o'clock, when Professor Twigleaf and company again take the air in another supreme dramatic effort.

The time of this play is the not too remote past, in the days when the six-shooter was the law west of the Pecos, when a cowboy's best friend was his horse. The professor's dramatic epic for this week bears the timid title, "Riders of the Purple Passion or Buck Twigleaf Rides Again."

Members of the studio audience will be picked for the cast, and the entire informal proceedings will be available to KFYO listeners.

members said they would inquire into the former's administration when he was attorney general and also into the administration of Thompson as Railroad commissioner.

The statements came after allegations of bias arising out of the fact the governor has actively pressed the land office investigation, has fired pointed darts at the attorney general for weeks and has had a legal representative at the committee hearings to question witnesses.

The governor has steadfastly maintained, however, that it was not his personal investigation, but was the senate's, and that the committee actually began its inquiry last year long before he himself opened up on Land Commissioner W. H. McDonald.

Scholastic Census Is To Be Taken In City Starting Tuesday

Seven enumerators Tuesday will begin taking a scholastic census of Lubbock independent school district No. 1, for the 1938-39 term.

C. E. Lynn, S. R. Steele, Mrs. R. E. Kessle, W. D. Aycock, and Mrs. J. O. Pope will count white scholastics, Mrs. George Duval, Mexicans, and E. C. Struggs negroes.

The census is expected to require a month for completion, said A. C. Jackson, census enumerator, who explained that 5,603 persons were counted last year.

Jackson asked that householders admit the enumerators and assist them in every way possible to dispatch the count.

The state apportionment this year is $22.

Technical Club To Talk City Zoning; Public Is Invited

The public has been invited to attend a discussion of city zoning at a Lubbock Technical club meeting at 7 o'clock Tuesday night in the engineering building auditorium at Texas Technological college.

A committee of the technical club has studied possible zoning in Lubbock. Zoning provides principally for land use and is a part of city planning. A proposal on zoning has been presented to the Lubbock City commission but no action was taken.

The discussion Tuesday night will be led by O. A. St. Clair, head of the department of industrial engineering, engineering drawing, and industrial education at the college.

Census To Be Taken At Slaton By F. A. Drewry On Tuesday

SLATON, Feb. 26. (Special) — Slaton school census will be taken by F. A. Drewry in a door to door call beginning March 1. An appropriation will be made by the state for each child registered. Cooperation of residents is asked by Drewery so that the lists may be compiled in the limited time allowed for their collection.

Singing Star

Nola Day, who was born in Iceland but sings in a warm contralto, will be heard as guest-star on the Musical Moments Revue over KFYO Tuesday night at 7:45 o'clock. Also to be heard are Victor Arden and his 34-piece orchestra, the Songsmiths, and Graham McNamee.

Oklahoma Pastor Is Conducting Revival Meeting At Estacado

Rev. J. E. Cochran Shawnee, Okla., a stewardship evangelist for the Methodist church, is holding a revival this week for the Estacado Methodist church. It closes Sunday night.

The service began last week. Rev. A. D. Moore of Becton is the pastor. A good interest is reported in the work and members of the congregation are reported discussing erection of a new church building later.

The evangelist has arranged for a pre-Easter meeting in Spur, he said.

The average height of English boys of 13 has increased one inch, of girls one and an eighth inches, since 1914.

Postal Employes To Gather Here

All postmasters and postal employes of the 19th congressional district are being invited by Postmaster Amos Howard of Lubbock, to a get-together at the Lubbock hotel Saturday night at 7 o'clock.

"We want all postal employes and their wives as well as the postmasters to meet with us," Howard said in announcing the meeting." It has been suggested a number of times that such a meeting be held and we believe this to be as good a time as any."

Mahon Is Invited

Congressman George Mahon has been invited. Howard said he had not received word from the congressman on his acceptance.

Senator G. H. Nelson; Bruce Luna, Dallas postmaster and dean of postal officials of the state and Postmaster W. D. DeGrassi, Amarillo, vice president of the Postmasters Association of Texas, have accepted invitations to speak.

W. T. (Tanlac) Strange of Big Spring and Lubbock, is to be toastmaster. Chas. A. Guy, editor of the Avalanche-Journal publications, will welcome the visitors.

Howard has asked persons desiring to make reservations for the occasion, to notify him at once.

Owners Of Trailer Houses Given Ten Days To Comply With City Ordinanc

Inspector Reid To File Charges

Owners of trailer houses and temporary structures in Lubbock are being advised by City Building Inspector Jim Reid that they have 10 days in which to comply with the building code of the city regarding a building permit, licensed plumbers and electricians to do the work and proper connections.

"They must comply with the law or move," said Reid. "We are giving them 10 days to do so. If they do not, then we will file charges."

Code Has Regulations

Reid pointed out that houses must have utility connections, such as lights and power, sewers, gas and water, made by licensed persons. The code also calls for a certain amount of cubic space per person.

There are about 200 trailer houses or more properly most of them are portable houses, the inspector said, in the city. The greater portion are occupied by persons who rent them from the owners.

One regular trailer camp is being installed on South Avenue H, with sewer, bath and wash houses, gas and electric lights. It is what is known as an "approved camp," complying with state and city regulations.

French Deputies

(Continued From Page One)

the cabinet. These were deputies who normally are opponents of all government measures.

The communists gave a solid vote for the premier.

The order of the day on which the vote was taken was signed by all leaders of the people's front parties, including the communist party.

It approved the outline of foreign policy as given by the government and also expressed confidence in the cabinet "to safeguard national dignity and assure maintainance of peace and respect for treaties within the framework of collective security and the league."

Implied Warning Given

Delbos coupled his reaffirmation of French ties to Czechoslovakia, as well as Rumania and Yugoslavia, with an implied warning for Germany to keep hands off those middle Europe nations.

His was the first public pronouncement by the government since the rise of Nazi influence in Austria and the new turn of British policy.

As for Austria, Delbos declared her independence remained a necessity and asserted "the setting up of any political hegemony in the Danubian region is not possible."

Other Negotiations Planned

In addition Delbos said France would:

1. Negotiate with Italy for recognition of her Ethiopian conquest "if the present difficulties can be ironed out."
2. Maintain faith in the Franco-Soviet mutual assist pact.
3. Continue non-intervention in Spain but "see that the independence of Spain is respected."

It was learned negotiations already were under way for restoring "normal" commercial relations with Italy, disrupted since the Ethiopian war brought a concerted League of Nations boycott attemping to halt Italy's campaign.

Former Premier Pierre Etienne Flandin disclosed Italy had pledged herself at the time of the Stresa conference in 1935 to give France military aid in the event Germany reoccupied the Rhineland.

"We were never close to assuring peace than the time of Stresa," Flandin said, adding however that "the Ethiopian affair ruined that alliance and we were drawn into a trap."

When Hitler's troops goose-stepped into the demilitarized Rhine region in March, 1936, Italy was busy with her Ethiopian campaign and relations with France were strained.

Flandin was premier when the Stresa conference occurred and foreign minister when Germany reoccupied the Rhine.

Mother-In-Law Day

horse."

Gov. Roy E. Ayers of Montana also has indicated he might attend.

The governors will ride in the big parade, which will be 12 miles long.

Thousands of mothers-in-law, including 30 Indians and several hundred negroes, will ride in the parade.

The bearded mugs will come from Guymon, Oklahoma, where bronzed ranchers and farmers have thumbed noses at dust storms until the dust bowl is full of snow. Scores of men are growing beards for the occasion.

Outgrows Itself

The thing has grown larger than ever Gene Howe, who started the celebration five years, ever dreamed it could grow.

Howe, who used to help his father, Ed Howe, the sage of Potato Hill, ramrod the corn carnival at Atchison, Kansas, expressed surprise when indications started pointing at a crowd of 200,000 persons.

Neighboring towns have been asked to help provide room for visitors. Reservations have come from New York, Washington, Los Angeles and other far away points.

Police from Fort Worth, El Paso and other cities are being asked to help the army of sheriffs and other special officers handle the crowd.

Japanese Claim Advances On All Far-Flung China Fronts

SHANGHAI, Feb. 26 (AP)—Japanese claimed advances tonight on all fronts of their far-flung offensives in central China.

They said Chinese had been forced back to the Yellow river both on the Lunghai corridor, the main 350-mile-long front, and further inland in Shansi province.

Luther Culbert, 42, Saturday entered a plea of guilty of a charge of assault on J. Dan Lewis and was fined $1 and court costs by S. E. McMillan, justice of peace. Lewis swore to the complaint which had been prepared by Hugh Anderson, assistant county attorney. Culbert was arrested late Friday by Aubrie Cummings and Melvin Alvey of the police department.

Members of Kemas club, men's social organization at Texas Technological college, and guests will attend a dinner at 7 o'clock tonight at Lubbock hotel.

A Slaton negro woman, Corine Williams alias Corine Booker, Saturday was fined $100 and court costs on a charge of vagrancy filed with S. E. McMillan, justice of peace. She was transferred to Lubbock by R. L. Wicker, Slaton chief of police.

A man who recently was adjudged insane by a county court jury and paroled to relatives Saturday was in jail for the third time, having been arrested on Avenue H by members of the sheriff's office after complaints were made that he had made demonstrations with a gun which led witnesses to believe he would attempt suicide. Sheriff Tom Abel and Jas. P. Posey and Cap Moore, deputies, arrested the man.

A Lubbock man, about 40, Saturday posted a bond of $2,000 on a felony warrant from Pampa alleging he stole an air hammer, according to Sheriff Tom Abel. Grady Harrist and Jas. P. Posey, deputy sheriffs, arrested the man after they received a telephone call from Pampa officers.

Five juveniles, charged with theft of milk, tires, and other goods, Saturday appeared before Judge E. L. Pitts of 99th district court and recited the American Creed which they had been told to memorize. One of the youngsters corrected a faltering friend. They were sentenced to three years in a reform school and paroled to their parents on good behavior.

Mr. and Mrs. E. B. Kelly of 2005 Twenty-seventh street are parents of a daughter weighing 6 pounds 14 ounces born at 10 o'clock Saturday morning at Plains hospital.

Officers of the Lubbock county chapter of the American National Red Cross will be elected Tuesday afternoon at 4 o'clock in a meeting of the chapter on the mezannine floor of the Hilton hotel. Board members will also be appointed at the meeting.

Ray C. Mowery of the animal husbandry department at Texas Technological college and Mrs. Mowery returned late Friday from San Antonio where they attended a fat stock show. He said one of the grand champion pigs was grown by a Four-H club boy from Guadalupe county where Fred Elliott, Texas Tech graduate is assistant county agent.

A fire at the Frank Riddle residence at 2016 Broadway at 5:20 o'clock Saturday afternoon was extinguished by firemen only a few minutes after they were called. Damage was slight. Damaged were a mattress, "two or three" quilts, and the wallpaper in one room.

In a raid late Saturday of a place near the intersection of Fourteenth street and Avenue C, officers arrested five persons, three women and two men, and charges were filed in corporation court alleging they were working in a cafe without a health certificate. All pleaded guilty of the charges and two women and the men were fined $10. The other woman, assertedly the manager of the place, was fined $25. Making the raids were officers from the Texas Liquor Control board, the sheriff's office, and the police department. From the sheriff's office was Grady Harrist, deputy sheriff; from the liquor control board John T. Willis and Charles C. Cox; and from the police department Bill Mabray and Aubrie Cummings.

Mrs. William Dingus of 2017 Fourteenth street Saturday was elected vice-president of the Texas Conference of the Cause and Cure of War at the closing business session at Forth Worth. Galveston was chosen as the host city for the next meeting.

Hiram Johnson, 28-year-old Hearne negro man, suffered a gunshot wound in the abdomen shortly before Saturday midnight in a shooting which, witnesses said, resulted from a crap game at a place about five miles south of Wolfforth. The negro was admitted to Lubbock sanitarium, and early today attaches said he possibly was in critical condition. At 1 o'clock this morning no arrests had been made, although a negro witness said Johnson was shot by another negro. The witness said the assailant fired once, then snapped the gun and later fired a second time. Investigating were Cap Moore, deputy sheriff; Bill Mabray, police identifications officer; and Victor H. Lindsey, assistant district attorney.

Building Trades Meet

crafts and that through cooperation a better understanding between the building trades and the public could be reached. All tradesmen were urged to keep their work up to standard. A suggestion was made that awards be given for superior attainment of service.

An association was proposed, and decision was made to perfect the organization soon. No definite date was set for another meeting.

Trade representatives present were: architects, lumbermen, paint and paper supplymen, carpenters, contractors, bricklayers, painters, hardware merchants, loan agents, plumbers, and electrical supplymen.

Crudely Fashioned Bomb Found In Bexar County Courthouse

SAN ANTONIO, Feb. 26.—(AP)—A home-made explosive, crudely fashioned from a piece of old pipe, was discovered hanging from a door in the courthouse basement today.

The "bomb" had been substituted for one of the weights attached to the door between the basement hall and the courthhouse basement garage. It bore several fuses, all of them wrapped in paper and unlighted.

Espionage Ring Said Smashed

(Continued From Page One)

Erich Glaser, 28, a soldier stationed at Mitchel Field.

Rumrich was discovered working under an assumed name at a New York chemical manufacturing concern, officials said. He was seized by G-men after he had phoned the local office of the state department, representing himself as Secretary of State Cordell Hull and asking that 50 blank passports be sent to him at a hotel, they said.

Hardy said Rumrich was born in this country but was educated in Germany.

Glaser was born in Leipsig, Germany, Hardy said, and also served in the Canal zone.

Girl Native Of Germany

The U. S. Attorney said Miss Hoffman was a native of Germany and still a citizen of that country.

Hardy said Rumrich's military record included desertion in 1935 after he had been in the U. S. army for about five years.

Civil prosecution, he declared, apparently would take precedence in the case of Rumrich and Glaser over any military action which might be brought against them.

Vetterli declined to comment when asked whether the investigation was prompted in any way by the case of Mr. and Mrs. Donald L. Robinson, now prisoners in Russia.

Ferreting Out Information

Vetterli said his agents discovered that Rumrich was ferreting out information on U. S. army military operations and forwarding the secrets through confidential sources to various addresses in Europe.

Without specifically naming the nation, Vetterli indicated that the U. S. government secrets were sold to a particular country, instead of to a general "clearing house" for the purchase of foreign military secrets.

Confesses Selling Information

The G-man chieftain said Rumrich confessed selling the information, which he sent abroad by code messages. He said Rumrich has a brother now living in Czechoslovakia.

Vetterli said Rumrich served as an army sergeant in the Canal zone before he deserted.

G-men revealed they unravelled the "leak" by deciphering elaborately coded messages addressed to European addresses by the local ring.

Data On Aircraft Carriers

Vetterli said Rumrich admitted he had been requested by foreign agents to secure data on new United States aircraft carriers now under construction "in an Eastern navy yard."

The government official said that a plot against the life of a "commanding officer in an important military station in New York" had been frustrated by the arrests.

"The plot," he said, "called for the enticing of the officer to a mid-town hotel by means of forged documents. He was to be instructed to bring important military papers to the hotel, where members of the spy ring were to assault and kill him and take the papers from him."

Investigation of the plot led to Glaser, a U. S. army private, Vetterli said, and Glaser subsequently substantiated the plot attempt.

resuming his questioning of Madill.

"I was with her constantly after she separated from her husband," Madill answered.

"Did you have a bargain with Mrs. Clarke regarding the Millar will?"

"Yes. She signed an agreement for a percentage."

Said Born In Wedlock

Quiet-spoken Mrs. Clarke, auburn-haired girlish woman of 35, occupied the witness stand during the morning as her attorney sought to establish that the children were born in wedlock, after she separated from her husband in 1933.

Four women, each of whom gave birth to nine children during the period stipulated in the Millar will, already have been recognized as legitimate claimants to a share in the prize.

A sixth claimant, Mrs. Lillian Kenny, was ejected from the hearing yesterday when she became incensed at the manner in which her claim was being handled and shouted "to hell with the judge."

Old Folks Of Texas Gather In Houston To Rally For Cause

HOUSTON, Feb. 26. (AP)—Old folks from all sections of Texas gathered here today to rally around the banner of Dr. Francis E. Townsend and his $200-a-month pension plan.

Approximately 200 people had registered tonight and planned to hear the addresses of E. J. Sparks of Chicago and Dr. Thomas Z. Davis of Long Beach, Calif.

During the day they heard Fred Perry of Houston castigate Texas' old age pension system, terming it a "ghastly pauper's dole in which a supervisor gets $10 a day to give grandpa $5 a month."

Tennessee Man Cashes In On His Social Security And Ends Up One Cent In The Hole

MONTEREY, Tenn., Feb. 26. (AP) — Gilford Dillard, receiving his first Social Security check, wound up with a 1-cent loss.

The government check was for nine cents. The bank charged Dillard a dime for cashing it.

If You Should See Young Women Acting Strangely, Think Nothing Of It, They're Just Pledges In Tech Clubs' "Hell Week"

Love--And The Woman Find A Way

OAKLAND, Md., Feb. 26. (AP)—Love—and the woman—found a way.

Mary Baer and Howard Frisby of Braddock, Pa., drove to Kingwood, W. Va., to be married. Pay-day three days away, they had just enough money for the license, the minister and gasoline.

Kingwood officials told them of West Virginia's three-day marriage law and suggested they go to Cumberland, Md. Cumberland's courthouse was closed. They continued to Oakland.

Oakland's courthouse also was closed and the night was cold, too cold to spend in the car. Lodgings would take the money needed for the license.

Miss Baer approached Justice C. F. Hammond. Could he, she asked, arrange for them to spend the night in the warm jail?

He could and did. Came the dawn, they were married.

Incomes Said To Be Decreasing

(By The Associated Press)

LOS ANGELES, Feb. 26. — The office of President Samuel T. Bledsoe of the Atchison, Topeka and Santa Fe railway, announced today the line operated at a deficit of $866,641 during January, 1938.

Gross operating income for the system was $11,124,601, the statement said, a decrease of $1,837,434 or 14.18 per cent, from January 1937. Operating expenses increased $86,405 over the same month a year ago.

Missouri Pacific Reports Decreased Revenues

ST. LOUIS, Feb. 26. (AP) — The Missouri Pacific railroad reported today operating revenues of January, 1938, decreased 13.6 per cent as compared with the same month in 1937, dropping to $6,527,091.

The January, 1937, figure was $7,554,597. The decrease was 35.6 per cent under January, 1930, when operating revenue was $10,131,231, the road reported.

The road reported a net operating deficit for January, 1938, of $65,944 compared with a deficit of $17,301 for January, 1937, and a net operating income of $5,423 in January, 1930.

Chicago Utility Company Has Lowered Income

CHICAGO, Feb. 26. (AP)—Standard Gas and Electric company and subsidiaries, billion dollar utility organization, today reported consolidated net income for 1937 of $3,337,170 compared with $3,571,406 in 1936.

wondering how to get rid of the old lady. She looked like that was her last ten-spot.

"We gabbed awhile. Suddenly she sez: 'You know Senator Clark?'

"'Seen him, but know his son Charles better,' I sez.

"'I loaned him forty million,' she sez. I looked hard at her and we gabbed some more. Then I shot out:

"'Did yuh get yuh money back?'

"'Yep,' she sez, 'and I loaned him $20,000,000 more.' Wal, I stoked my pipe, looked at her old black hat and dress and just smoked. Finally she sez: 'He paid it all back when they sold the Salt Lake-Los Angeles railroad.'

'I jumped up and grabbed her hand. 'Ah, I got yuh now lady,' I sez. 'You're Hetty Green.' She jist smiled and nodded. She stayed quite a spell and we talked and talked."

Scotty said years later he looked her up in New York, finding a shabby two-story house. "She was glad to see me. Said she didn't have any grub in the house so we'd go out to lunch," Scotty mused. " . . . We got lunch for two. She paid 30 cents. Wanted me to stay over. Didn't have enough room but got me one across the street. She paid 50 cents for it."

Scotty's eyes narrowed into slits as he mused.

"I asked what she was worth, and she sez she didn't know, but mebbe if she had to cash everything in she could raise a hundred million.

"Yep! I think she was the most interesting woman I ever met."

Crack Santa Fe Train Strikes Car, Wrecked; No One Injured

ALBUQUERQUE, N. M., Feb. 26. (AP)—An automobile bearing four persons was struck by the Santa Fe's fast westbound Chief at a crossing near here last night.

A locomotive truck wheel was derailed, delaying the passenger train an hour and 13 minutes.

The automobile was demolished.

Mrs. W. M. Agnew and her three children, Ilene, Jane and Billy, climbed from the wreckage uninjured.

On a crowded business block, two gaudily dressed young women transferred water from one bucket to another with eavedroppers Saturday afternoon.

In the Texas Technological college administration building, one co-ed attacked the tedious job of washing steps leading from one floor to another with a toothbrush.

Others combed the campus for cigaret stubs, and placed them in gallon buckets.

"Hell week" time has rolled around again among social clubs at the college, and co-eds usually smartly dressed are braving the grins and stares of students and townspeople with their quaint clothing and eccentric actions.

Clubs set down the rules of conduct pledges must live by for a week before they can be initiated. Some clubs already have concluded "hell week."

Black stockings have disguised many a well-turned ankle, and tossack lingerie has scratched tender skin. Hairribbons have appeared off-color with other campus clothing. Pledges have provided feats for club members, have served as maids and errand runners in their fulfillment of pledge duties. They have one glory to look forward to: Initiation and the prospect of commanding other pledges.

Third Trial To Be Sought For Wair; Given Life Sentence

DALLAS, Feb. 26. (AP)—Counsel for Charles Wair said late today a third trial would be asked for the 34-year-old Longview oil man convicted earlier in the day on charges he criminally assaulted a 13-year-old Longview crippled girl two years ago.

A Dallas county jury this morning returned a verdict of guilty and gave Wair life imprisonment for the offense Joy Frazer testified occurred at her Longview home Feb. 13, 1936, while her parents were away. The girl was 13 at the time.

Wair previously had been convicted at Marshall and given the death penalty, a verdict reversed by the court of criminal appeals. A change of venue brought the second trial here.

Potential Recovery Of East Texas Field Is Said Increased

WASHINGTON, Feb. 26. (AP)—Cooperation of the federal government and Texas has increased the potential recovery from the East Texas field 30 per cent, or 600,000,000 barrels, an interior department official told congress Friday.

Ray W. Stull, of the petroleum conservation division, made the statement in explaining to a house appropriations sub-committee why his agency sought $285,000 in the next fiscal year for administration of the Connally "hot oil" act.

In answer to Rep. Scrugham (D-Nev) who said that "you ought to make a pretty good showing of the benefits" from the proposed expenditure, Stull said:

"The principal merit of the act is that it supports the state oil and gas conservation laws and thereby increases their effectiveness."

He told Schugham the Connally act had almost stopped the bootlegging of oil.

Fort Worth Man Is Named Head Of Federal Probation Group

SAN ANTONIO, Feb. 26. (AP) — John Alderman of Fort Worth was elected president of the newly organized southwestern states conference of federal probation and parole officers Friday.

The convention did not act on invitations from Little Rock and Hot Springs to hold the next conference in one of those cities.

R. A. Chappell, probation supervisor, Washington, explained the new probation officers' law which goes into effect July 1. The law raises requirements for the service.

Paul Seidler, New Orleans probation officer, stressed the wisdom of social work agencies in obtaining aid for the families of parole and probation violators.

Italian Tenor Faints On Met Stage In New York Saturday

NEW YORK, Feb. 26. (AP)—Giovanni Martinelli, tenor star of the Metropolitan opera, fainted on the opera house stage today while struggling to complete a love song.

He fell to the floor after trying to fight off an attack of acute indigestion.

While the audience sat in stunned silence, the famous Italian tenor kept his feet until the curtain touched the floor. Then he dropped into the arms of waiting stage-hands who carried him to his dressing room.

CLEAN-UP WEEK SET

AUSTIN, Feb. 26. (AP) — State clean-up week, beginning April 3, was proclaimed by Governor James V. Allred today. The governor asked all citizens to cooperate in a spring clean-up campaign in the interests of public health and fire prevention.

HOUSTON BOY KILLED

HOUSTON, Feb. 26. (AP) — Lloyd Land, 14, was killed today when he was struck by a light delivery truck while he was riding a bicycle.

The Ohio river flood of last year affected 243 counties in 10 states and left 648,000 persons homeless.

BURTON K. WHEELER

Winners In Judging At Show Revealed

RALLS, Feb. 26. (Special)—Although official results of the seventh annual Poultry show here were not available tonight, unofficial winners of judging contests for chapters of Future Farmers of America were announced.

The Lorenzo team took first with 1,409 points. Others in order were: Floydada, 1,362; Spur, 1,355; Ralls, 1,298; Crosbyton, 1,265; McAdoo, 1,247; and Patton Springs, 1,169.

Lorenzo's winning team was composed of Henry Stence, Paul Ben Scoggins, and H. T. Rounsaville.

Individual winners were Charles Mitchell of Ralls, 505 points; Jack King of Spur, 496; Stence, 486; and Scoggins, 480.

The two-day show closed tonight after exhibits of prize chickens and turkeys.

L. A. Coward of the chamber of commerce here was superintendent and W. H. Murphy Byrd and Herbert Hannz, assistants.

Two Laborers Killed And Third Injured In Cave-In At Seguin

SEGUIN, Feb. 26. (AP)—Two laborers were killed and a third severly injured when they were buried under falling gravel at a gravel pit near here today.

Five other workmen escaped injury and possible death when the three men working under an embankment were caught when the upper bank, softened by recent rains, caved in.

Otto E. Ermel, 31, and Milton Stautzenberger, 21, were instantly killed. Hyno Rheinlander, 22, was rushed to a Seguin hospital suffering from severe lacerations about the face and legs.

White Rajah Restores Annual Allowance Of His Daughter

SINGAPORE, Feb. 26. (AP) — Charles V. Brooke, white rajah of Sarawak, said today he had restored to his daughter, the princess Baiduri, the $3,000 annual allowance he stopped when she married the wrestler Robert Gregory, last November.

Sir Charles said the allowance was cut for three months "but I did pay a great number of her bills. I bear nobody ill will and hope to see my daughter and husband in England. I met Gregory last June, but I was interested in him merely as a wrestler."

Gregory and his bride were said now to be in New York.

GOING BIT ROUGH

NEW YORK, Feb. 26. (AP)—Stocks found the going a bit rough in today's brief session but leaders finished with sizable net gains for the week.

Closing prices for the 2-hour proceedings mostly were a shade under those of Friday.

The Associated Press average of 60 issues was off .2 of a point at 46.1, but, for the week, registered a net gain of 1.5 points. It was the fourth consecutive week's advance. Today's transfers totaled 303,230 shares against 295,950 a week ago.

NEW ORLEANS REPORT

NEW ORLEANS, Feb. 26. (AP)—Buying and selling orders about balanced in the cotton market here today and last prices were unchanged to 2 oints higher compared with the previous close.

Overnight selling orders depressed most months slightly at the start and initial transactions were unchanged to 1 point lower. Prices recovered slightly but encountered additional selling later.

Trade calling increased in the last hour, however, and shorts covered moderately for over the week-end. Early declines of 3 to 4 points were cancelled and last prices were at or near the highs.

March contracts closed at 9.36, May at 9.39, July at 9.35, Oct. at 9.42, Dec. at 9.42 and January at 9.42.

NEW YORK REPORT

NEW YORK, Feb. 26. (AP)—Cotton fluctuated irregularly today in a quiet weekend market. May sold off from 9.18@9.11 and then recovered to close at 9.16, with final prices 1 point net higher to 3 lower.

Opening quotations were 2 points higher, reflecting improved moisture conditions trade buying and later positions lower under commission house and foreign liquidation. A little local reactionary selling late in the session carried the list off to net losses of 5 to 8 points but prices turned steadier at the close on covering.

AVERAGE PRICE

NEW ORLEANS, Feb. 26. (AP)—The average price of middling cotton today at ten southern spot markets was 9.20 cents a pound; average for the past thirty market days 8.82 cents a pound.

Grains . .

CHICAGO REPORT

CHICAGO, Feb. 26. (AP)—The majority of grain brokers stood idle on the rim of the wheat pit during most of today's short session and watched prices drift slightly lower.

There were no trade developments to stimulate speculative interests and as a result trading was slow and prices fluctuated within a narrow range of ¾ cent. Quotations slid off as much as ¾ cent in the first 15 minutes but then scattered buying, some of which was credited to milling interests, brought about a slow recovery in the May contract which rallied at one stage to ¾ cent above the previous close.

The new crop deliveries, July and September, showed less recuperative power, however, reflecting improved moisture conditions Southwest. The result was an irregular close, with wheat ⅝ lower to ⅛ higher compared with yesterday's finish, May 94⅛@94¼, July 89⅛@89⅝, September 89⅜; corn ⅜ to ⅝ down, May 59¼@59⅝, July 60⅝, September 61⅛; oats unchanged to ⅛ lower, May 31⅛; rye ⅛ off to ¼ up, May 75⅞; lard unchanged to three cents lower.

Lubbock . .

The prices are furnished by the following Lubbock firms: Poultry—Lubbock Poultry and Egg company, delivered Lubbock Grain—S. E. Cone Grain and Seed company. Following prices being bid by Lubbock grain dealers. Cotton—Blocker Cotton company. All prices subject to change during day.

Drilling On Lamb County Test Is Nearing Contract Depth

AMHERST, Feb. 26—Drilling on Lamb county's deep oil test, located three and one-half miles northwest of Littlefield, was expected to reach the contracted depth of 5,500 late today or Monday by crew members who said that a depth of 5,176 was reached Wednesday after repairs were made on a twisted drill stem. Drilling is now with a five inch bit in place of the four inch size formerly used.

Oil Production Booming Again

HOUSTON, Feb. 26. (AP)—Oil production from lime formations in Central and West Texas is booming again with the payoff coming from shallow depths, which operators consider profitable under stringent proration regulations.

The comparatively new acidizing process, which is being used extensively where lime formations are encountered, is bringing in wells in areas previously considered unproductive.

New Fields Found

New fields have been found recently in Brown and Stephens counties and a half dozen other wildcats scattered over Central and West Texas are being watched for possible production.

Much wildcat drilling is underway west of the Balcones Fault zone, line that runs irregularly northeastward from Medina to a point south of Texarkana. Much oil has been found on both sides of the Fault and both sand and porus lime formations have been productive.

Five tests are being made in McLennan county with the Horstmann No. 1, a wildcat near McGregor, expected to hit pay dirt after a good showing.

Two Gassers Found

Westward in Hamilton county, the Lone Star Gas company is reported ready to start the first of 12 tests with an independent scheduled to begin drilling also. Two big gassers have been found in Hamilton county and a third test showed oil. The Seaboard Oil company drilled the three tests last year.

Much activity in Stephens and Brown counties is expected with leasing picking up substantially after wildcat wells began flowing. Other counties where wildcatting is underway are Bastrop, Caldwell, Colorado, Lee, Williamson, Comanche, Wilbarger, Jones, Wichita, Young, Throckmorton, Shackelford, Eastland, Archer and Coleman. New production in many of these counties is expected from depths of 2,000 to 2,500 feet, which costs much less than wells penetrating to the 6,000 foot level.

New Locations Made

Down in southwestern Texas, Duvall, McMullen, Jim Wells, Brooks, Zapata, Webb, and Jim Hogg counties report wildcat drilling in addition to attempts to extend known fields. Around the Laredo and Corpus Christi areas new locations are being made almost daily.

Drilling in South and East Texas has been keeping pace with the balance of the state, particularly in Galveston, Harris and Brazoria counties. Drilling on submerged lands in Galveston bay is expected to spurt during the next 60 days.

Waller and Montgomery counties northeast of Houston have drawn some attention, while the old Humble field has begun to yield crude from a new sand, between 800 and 1400 feet.

In County Tax Race

A. G. Hunt, (above) pioneer Lubbock resident, Saturday announced he was again a candidate for the office of county tax assessor-collector of Lubbock county, subject to action of the Democratic primaries. Hunt was an unsuccessful candidate for the post two years ago. Hunt, a resident of Lubbock since its founding in 1890, was formerly in the grocery business for more than a score of years. He is at present connected with a local wholesale grocery house.

Barkley Maps Regular Tour Of Area On Income Tax Work

L. B. Barkley, United States deputy collector of internal revenue, will go to Post Tuesday on first leg of the annual visit to South Plains towns for collection of income taxes.

Further itinerary includes Tahoka, Wednesday and Thursday; Brownfield, Friday and Saturday; Littlefield, March 7; and Plainview, March 8 and 9.

Barkley will be in Lubbock March 10-12 and 14 and 15.

Meeting To Arouse Interest In Safety School Is Slated

In order to organize representatives of women's groups toward speeding more interest and obtaining a greater membership in the approaching safety school to be conducted one night a week beginning March 7, a meeting will be conducted at 1:30 o'clock Monday afternoon in the library of American Legion hall.

Mrs. H. F. Godeke, woman member of Lubbock Safety council, said O. B. Conley, council head, would speak and that the meeting would "last only one hour."

Appointment of hostess groups for the eight meeting nights will be made and enrollment cards distributed. Civic clubs have taken the lead in spurring interest among men, and Boy Scouts will distribute membership cards, said Mrs. Godeke.

In eight years the Tulsa, Okla., municipal airport has accommodated 613,000 persons—coming and going—in 140,000 planes without a casualty or minor injury.

Seven-Year-Old Girl Is Pneumonia Victim

Patsy Williams, 7-year-old daughter of Mr. and Mrs. L. P. Williams of 2406 Avenue T, died at a hospital here at 4:40 o'clock Saturday afternoon of pneumonia after a brief illness. She had been admitted to the hospital about noon that day.

Funeral arrangements late Saturday night had not been completed, relatives said, but rites probably will be conducted about 3:30 o'clock this afternoon and burial will be in a Lubbock cemetery with Sanders Funeral home in charge.

Other than her parents, the child is survived by a brother and a sister, Paul and Norma, twins.

Jed Rix of Abilene, assistant manager of the West Texas Chamber of Commerce, was in Lubbock on business Saturday.

Arkansas Sweeps SMU Series To Win Southwest Conference Basketball Crow

Lockard Pilots Razorbacks To 34 To 26 Win

(By The Associated Press)

FAYETTEVILLE, Ark., Feb. 26.—Arkansas university returned to the summit of Southwest conference basketball tonight by defeating Southern Methodist university, 34 to 26, for the championship.

The victory was Arkansas' eleventh of twelve games played and meant that no other team had a chance to cateh it.

Southern Methodist, the defending champion, lost last night, 32 to 23.

Lead Change Frequently

Arkansas has won or shared the title eight out of 15 years. Seven times it has won undisputed possession and once was in a three-way tie with Rice and Southern Methodist.

Both teams started slowly tonight as they did last night, but this time the Razorbacks kept pace with S. M. U. The lead changed five times in the opening ten minutes of play.

Brady of Arkansas sank a free throw for the first point of the game and then the teams see-sawed, as the result of free throws, until midway of the first half when Arkansas took a slight lead and held it until the game's end.

Lockard Gets Going

At the half, the Ozark hillsmen were ahead, 15 to 11.

Coming back in the second half, Arkansas widened the lead to 10 points at 24 to 14, with only eight minutes of the half gone. Norton, S. M. U.'s star forward, got hot, however, and closed the margin to 24 to 20 with six minutes to play.

Martin and Lockard sank goals to give Arkansas a more comfortable lead, and S. M. U. in the closing minutes tried desperately with long shots which were out of line.

The Mustangs' defeat left Baylor securely entrenched in second place. Baylor has won eight games and lost two, and Southern Methodist has won six games and lost four.

Norton High Scorer

Norton led the scoring with 14 points, followed by Lockard, the great Razorback forward and captain who finished the season with a total of 168 points, his bid toward retaining the season scoring championship.

Lockard scored 12 points. The rest of the scoring was divided evenly.

Dewell, S. M. U. center, played a fine floor game, handling the ball the majority of the time.

Both teams were off their shooting, but showed exceptional defensive work.

The game was the last appearance in conference play for the entire Arkansas starting team of Lockard, Benton, Hamilton, Robbins and Brady, and two reserves, Donaldson and Chambers.

The box score:

SMU (26)	FG	FT	TP
Norton, f	5	4	14
Cannefax, f	1	1	3
Crouch, f	0	0	0
Jones, f	0	0	0

Half-time score: SMU 11, Arkansas 15.

Personal fouls: Lockard 2; Benton, Hamilton 2, Robbins, Brady, Chambers 3, Norton 3, Cannefax, Dewell, Acker 4, Barnes 2.

Free throws missed: Lockard 3, Brady, Norton, Cannefax 2, Dewell.

Officials: Curtis (Texas), and Olds (Tulsa).

Cards See Catcher In Don Padgett

WINTER HAVEN, Fla., Feb. 26. (AP)—Don Padgett of the St. Louis Cardinals, in the process of being converted from an outfielder into a catcher, believes the experiment will work.

"I'm only learning and I've never caught before," he declared, "but this much is certain—I won't be content with being an ordinary catcher. I'll either be a good one or I can still play outfield."

Padgett is working out at the Cards' baseball school under the tutoring of Joe Sugdon, St. Louis catcher of 15 years ago. Club officials said he already has exceeded their expectations in adapting himself to the receiver's role.

Vice-President Branch Rickey and Manager Frankie Frisch hit upon the idea of trying out Padgett behind the plate in an effort to develop more batting punch in the catching department. He hit .329 last year.

Padgett entered organized baseball in 1935 with Columbus of the American Association. He was farmed to Houston of the Texas League that year and was recalled in 1936.

Anton To Conduct Amateur BasketBall Tournament

ANTON, Feb. 26.—An annual independent basketball tournament will be conducted here for three days beginning March 3. About 20 invitations have been sent, 20 teams being expected to participate.

Prizes amounting to $30 are offered, going to the three leading teams. 15 managers have sent in acceptance for their teams.

That Old Southern Hospitality On Way Out In Southern Association As Players Warned Not To "Pal"

(By Associated Press Feature Service)

ATLANTA, Feb. 26.—That southern hospitality among rival baseball players is on the way out in the Southern association.

Instead of brushing up on etiquette the boys are sharpening spikes and toughening knuckles to get ready for the 1938 campaign.

It looks like an old time baseball war among the eight clubs of this Class A1 circuit.

The league directors started things off by voting to pin a $10 fine on any player caught fraternizing with a member of an opposing team. They decided some of the boys had been carrying their hospitality too far in back-

slapping, hand-shaking and bat-swapping.

The fans notice these things and the directors seemed to think they might get an idea the boys were out for a pink tea.

To make sure the new rule is enforced, the directors voted to have umpires out an hour before game time to see that some friendly guy does not amble over to the dressing room or dugout of the opposing team.

Seabiscuit Nosed Out By Aneroid In Anita Race

LOS ANGELES, Feb. 26. (AP)—Seabiscuit came back to the racing wars after a three-month lay-off today and was beaten by a nose by Aneroid in the fourth running of the $7,500 San Antonio handicap in a battle between a splendid field of candidates slated to race in the $100,000 Santa Anita handicap next week.

Indian Broom, running for Major Austn C. Taylor, finished third. The stretch struggle between Aneroid and Charles S. Howard's Seabiscuit brought a deafening roar of excitement from the 42,000 fans at Santa Anita.

The mighty Biscuit, ridden for the first time by Jockey Sonny Workman, trailed the leaders until after the last turn, and then made his move.

Betting favorite in the $100,000 race next Saturday, Seabiscuit's race today was his first since last November.

Claude Jonnard Is Nominated Sport Field Manager

SHREVEPORT, La., Feb. 26. (AP)—J. Walter Morris, business manager of the Shreveport Sports, announced today he had nominated Claude Jonnard, pitcher, for the position of player-manager of the local Texas League team.

The selection will have to be given approval by the club officials who recently gave Morris power to find a field leader. Jonnard served as pitcher for the Galveston Bucs last year and had been promised the position of pilot for 1938.

Shreveport recently purchased the Bucs franchise, that included Jonnard and 13 players. Jonnard has been in organized baseball 17 years and was a member of the pennant winning New York Giants of 1922, 1923 and 1924.

Henry Armstrong's Next Case Is Charley Burns, Monday

CHICAGO, Feb. 26. (AP) — Henry Armstrong, boss of the world's featherweights, moved on today to Minneapolis, the next stop on his busy schedule, leaving Chicago fight fans, 8,042 of them, with the impression that he is likely to hang on to his title for a long time.

Armstrong, one of those guys whose style of battling—busy, busier and busiest, as he warms to his work—gave Chicago its first sample of his prowess last night, by racking up a three round technical knockout triumph over Everette Rightmire, game Sioux City, Ia., youngster, in what was scheduled as a 10-round non-title fight.

The crowd in the international amphitheater paid $18,040 gross. The triumph, the 33rd in 34 fights in which Armstrong's opponent failed to go the route, was accomplished as predicted—without doubt at any stage.

Monday night the champion will take on Charley Burns, of Johnstown, Pa., in a non-title affair at Minneapolis.

RED FREEMAN WINS

GATWICK, Eng., Feb. 26. (AP) — W. U. Goodbody's Red Freeman, a seven-year-old, today won the 1,000 pound sterling ($5,000) National trial handicap steeplechase of three and a quarter miles. Pet Son, owned by H. B. Brandt, was second, and E. T. Hunt's Red Knight II taking third place.

Emery, McClure Meet In Final At Houston

By FELIX R. McKNIGHT
Associated Press Sports Writer

HOUSTON, Feb. 26. — Strapping Walter Emery, the man with the big cigar and bulldog golf game, stepped into the finals of the Houston Country Club's invitation golf tournament today with Ed McClure, the defending champion.

Nonchalantly, with only an occasional puff on his inseparable cigar to show emotion, Emery eliminated Willie Maguire, jr., of Houston and long hitting Harry Todd of Dallas, to gain the titular round.

McClure Beats Dawson

McClure first disposed of John Dawson, dapper Chicagoan, 5 and 4, and then carried out Ed White of Houston, tournament medalist and former intercollegiate champion, 3 and 2.

Thousands tramped at Emery's heels during his semifinal match with Todd, former Texas titlist and Western junior champion, to see the nerveless man who had to win a four-hole "swatfest" to even get into match play, close out the match at the seventeenth green, 2 and 1, with a 40-foot putt for an eagle.

Emery, 1934 National amateur finalist, won three of the first four holes against Todd and appeared headed for an overwhelming triumph, but the Dallas youngster found himself at the seventh with a remarkable brassie shot that won back a hole and then dropped an 18-foot putt at the ninth green to cut Emery's lead to one hole.

Putting Does It

Todd's tremendous tee shot at the 285-yard, par fourth twelfth hole, a booming drive that landed on the green and skittered over into the rough, cost him another hole. He chipped back across the green and lost to Emery's par four. Todd won the thirteenth hole, however, to nip Emery's lead, but immediately dropped the fourteenth. He halved the fifteenth, sixteenth and seventeenth, missing his big chance at the sixteenth hole when he topped a tee shot after Emery's drive had strayed into trouble.

Forty feet from the hole on the seventeenth, and dormie two, Emery stroked a putt that stopped on the lip. Todd's 35-footer skimmed past. Emery was two over par while Todd was three over.

Emery defeated Maguire in the morning round on the 19th hole.

White Weakens

McClure, who warned of his strength in the morning match with Dawson, whom he had down all the way, traveled through the first nine holes all square with White. The Houston youth then collapsed, losing the tenth, eleventh, twelfth and thirteenth holes with a string of bogies.

White rallied breifly at the fifteenth, cutting McClure's lead to three holes when the Lousianan three putted, but McClure's lead came back on the sixteenth with a magnificent niblick recovery shot after his drive had found the rough to eke out a halve when White, in the middle of the green with his tee shot, three-putted from 15 feet.

Todd Beats Welch

Todd, who held the Texas title in 1935, played flawless par golf in a stiff wind to eliminate Bill Welch of Austin, husky young Southwest conference champion who defeated Johnny Goodman, National amateur champion, yesterday. Todd's fine birdie at the seventeenth hole closed out Welch, 3 and 1.

Nelson Remains Out In Front

THOMASVILLE, Ga., Feb. 26. (AP) Although competitors closed in around him over Glenn Arven's fairways, young Byron Nelson of Reading, Pa., remained out in front today in the $3,000 Thomasville Open golf tornament.

The 26-year-old Texan, winner of last year's Augusta National tournament, paced the field by two strokes through the halfway point with a 36-hole total of 139, five under par.

Close on the heels of Nelson was another young member of golf's money players—Dick Metz of Chicago, winner here last spring. Metz had put together two consistent subpar rounds for a 141 total.

Dark Horse Next

A stroke back of the Chicagoan was Felix Serafin, "dark horse" threat from Scranton, Pa., who stripped two strokes from the regulation card to add to his par of 72 yesterday.

Lighthorse Harry Cooper, the English born professional from Chicopee, Mass., stroked the course in a three-under-par 69 and was in fourth place with a half-way total of 143 and within striking distance of the top prize of $700.

The field shaped up for a spectacular finish in tomorrow's 36-hole final, with only four strokes reparating a quartet of leaders and a half dozen other prominent golfers near enough to the pace setters to take advantage of any miscues.

Reds Won't Be Last Says McKechnie

TAMPA, Fla., Feb. 26. (AP)—Bill McKechnie, dean of National League baseball managers, sprang the barrier today for his new charges, the Cincinnati Reds, to hit the comeback trail and emerge from the league's cellar.

Most of his squad has arrived at Plant Field and a light workout was on schedule as the veteran pilot took first stock of the material from which he hopes to mould a winning aggregation.

McKechnie, who came to the Reds from the Boston Bees, was a little scant on predictions. He avoided most questions on the outcome of the National League's pennant race, but he did say this:

"I'll guarantee that the Reds won't finish in the cellar again."

"I know," he continued, "there are many capable ball players on the squad. I've met them during past seasons' playing. Most of the rookies, though, are unknown to me, but scouts reports show there is a lot of good talent available. Your guess is as good as mine whether any of them will make the grade."

CUNNINGHAM WINS

NEW YORK, Feb. 26. (AP) — The great Glenn Cunnngham romped off with the National A. A. U. 1,500 meters championship tonight with a world record-shattering performance. A near-capacity crowd of 15,000 spectators in Madison Square Garden gave Cunningham an ovation as he raced to triumph in 3 minutes, 48.4 seconds for the "metric mile," beating Gene Venzke by 35 yards and wiping out the latter's former mark of 3:49.9, set in 1936.

Colleges Turn On Pro Ball By Hiring Star Gridders

By ALAN GOULD
Associated Press Sports Editor

NEW YORK, Feb. 26.—Looks like the colleges now have the professionals worried, instead of vice versa . . . Columbia signed up the best running back on the pro gridirons, Cliff Battles, for its coaching staff and now an "ivy league" affiliate, Navy, has grabbed Keith Molesworth of the Chicago Bears as backfield tutor . . . Last season the Green Bay Packers couldn't use the ex-Nebraska all-American fullback, George Henry Sauer, until he finished his coaching chores at New Hampshire. . . .

Lou Little considered Red Grange, the old galloping ghost, before signing Battles, who will give the Columbians some first-hand demonstrations on how to run through broken fields this spring . . . Next to Yale's Earle (Greasy) Neale, Battles will be the highest paid backfield coach in the Eastern college belt this year. . . .

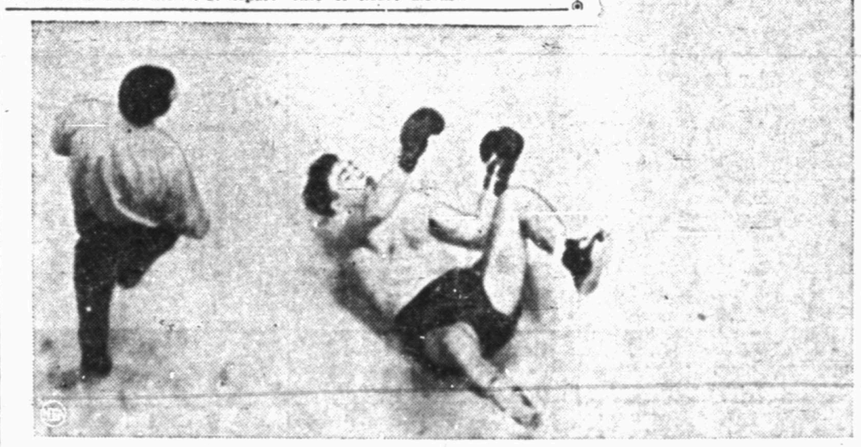

Keeler Gives Lowdown

O. B. Keeler's "Golf In North Carolina," a journalistic gem, can be obtained from the N. C. department of conservation and development at Raleigh . . . The man who traveled 120,000 miles with Bob Jones, only one to witness the Georgian's 13 National title triumps, reveals: That Duke's Wallace Wade, grid coach, cracks 80 at Hope Valley, where he's club president; that Judge K. M. Landis, back in 1929, used up 17 blows on the 165-yard hole at Greensboro (Sorry, Judge!); That Slammin' Sam Snead overshot the 600-yard seventh at Starmount with a drive and brassie; and that Beaver Lake claims the world's longest hole, 639 yards . . . or one of the longest. . . .

Received and contents noted: Telegram from Jane Dixon Wells reports her hubby, Major Walter (Cappy) Wells, received official O.K. from medical board after checkup at Walter Reed hospital and soon will return to duty . . . in time, we hope, for Kentucky Derby . . . From Jack Doyle, the old Broadway betting man: "No doctor compares with Dr. Miami. For real enjoyment there's nothing like good case of heart disease."

The End Of Mann!

We mean Nathan Mann. This is what is meant when they say that a fighter has been knocked kicking. Joe Louis stands under the microphone as though to stress his authority. The referee is Arthur Donovan. A fine shot and an unusual view of a fight, looking down on the ring.

Sampson To Vie With Cummings

Dandy Dick Sampson, having proved himself worthy of main event bouts by vanquishing the burly Bulldog Bill Venable in last week's principal joust, comes back this week to meet Bob Cummings, the Frisco Cowboy, in the headliner at Sled Allen's Auditorium.

Cummings stayed with Sailor Moran for 30 minutes last week, and might have won the match except for disturbing influence on the part of the official. Cummings looked better than ever, and appears qualified for main event consideration. Against Sampson, he'll fight a rather clean battle, it is expected, but either of them may touch off fireworks that will set the other going.

Clingman Vs. Venable

The supporting card is promising, with Otis Clingman trying Bill Venable, in the semi-final, and Tex Hager challenging Gorilla Pogi in the curtain raiser.

Clingman, held to a draw by Pogi last week, figures to take Venable, but the latter is tough, and he takes his wrestling seriously. He's due to give the Amarillo boy a battle. It may be Clingman's final match here for a spell, since he is planning to leave for the West Coast after this week's match here.

Pogi, the Argentine ape-man, looked better than ever last week, although outweighed by Clingman. The Gorilla, one of the first professionals to grapple here, should take Hager in less than 20 minutes, but until it's over it should be interesting.

This 'n' That In World Of Sports

By EDDIE BRIETZ
Associated Press Sports Writer

NEW YORK, Feb. 26.—Some fight managers we know could tell interesting if not amazing stories of how a certain young heavyweight is being built up . . . Every ball and strike thrown by pitchers trying out for the Michigan State college baseball team is tabulated by Coach John Kobs . . . Joe Medwick will be back in the Cardinal fold within two weeks . . . Alabama is said to have "out-talked" Georgia in recent "conferences" with an end named Burt from Macon, Ga., who already has moved to Tuscaloosa.

Tip-Off On Gehrig

Don't forget that back in the summer of 1936, wise old Jack Blackburn said Joe Louis would not reach his peak for two years . . . So watch out, Dr. "Smellin' " (as Joe would say) . . . When asked about the nonsigning of Lou Gehrig, Joe McCarthy winked and said: "Well, we haven't reported to St. Pete yet" . . . Which is the tip-off, boys . . . Same goes for "Der Mug" . . . Jimmy Braddock's new wining and dining spot will open in a month . . . The Olsen Redheads pro basketball team is negotiating for Mildred Campbell, Charlotte (N. C.) high school sensation who scores 30 and 32 points in a game just like nothing had happened . . . Spurgeon Chandler, young Yankee hurler, has sent back two unsigned contracts.

Amherst Plans Big Baseball Season

AMHERST, Feb. 26. — Prospects for a winning baseball club in Amherst this season are seen by D. L. Britt, who was elected to lead and manage the Amherst Reds at a meeting in the Legion Hall recently. The large attendance of players, business men and fans indicated beyond all doubt that the old-time interest in the club is present this year, Britt says. An assistant to Britt was not decided on at the meeting, but several indicated willingness to do their part if called upon.

As a preliminary to the coming season a dance was played in the Legion Hall Friday night by Ned Bradley, proceeds of the $1.00 ticket charge going to the baseball fund.

New Arizona Mentor Looks To Opening Breather With SMU

LONG BEACH, Calif., Feb. 26. (AP) Orian Landreth, newly named head football coach at University of Arizona, plans to leave here for Tucson Monday night to open spring grid practice.

Landreth, successful mentor at Polytechnic High school here for 12 years, said he wanted to get a look at the Wildcat squad before commenting on the 1938 prospects.

"I have my fingers crossed," he said. "We open the season with a nice little 'breather' — Southern Methodist. Did I say 'breather'?"

Gassers Retain Bowling Lead

Lubbock Tailoring company team moved up a bit toward the leaders, West Texas Gas company, in last week's Lubbock Bowling league standings, but the Gassers, by sweeping a match with American Optical company, still held a long lead.

Match games are played each Monday and Tuesday night at the Lubbock club alleys, supervised by "Sudan" Davis. In last week's games, Lubbock Tailoring defeated American Optical by three points, winning two games and the total, 2443 to 2363, and the Gassers swept a match with Lubbock Printing company, compiling a total of 2611 to 2350.

Bell of the Gassers had a high single game score of 259 and a total of 606, tailed by Crites with a total of 556 and Parker, 525. High man for the Printers was Begey with 536.

Bell Leads Individuals

In the other game, Rhea led the Tailors with 525, followed by Hardy with 509. Hughett with 530 led the Opticians.

Lubbock Printing company plays American Optical company Monday night and West Texas Gas meets Lubbock Tailoring company Tuesday night in this week's matches.

Bell of West Texas Gas continued to lead individual players with a total of 4215 pins in 21 games, an average of 174. Laverty of the Printers followed with a 168 average.

The team standing:

Teams—	Won	Lost	Pct.
West Texas Gas	23	5	.820
Lubbock Tailoring	13	15	.470
Lubbock Printing	10	18	.357
American Optical	10	18	.357

Lefty Blanchard Is New Property Of Oklahoma City

OKLAHOMA CITY, Feb. 26. (AP)—The Oklahoma City Indians of the Texas baseball league will have five lefthanders on their pitching staff when they leave next Sunday to establish their spring training camp at Jacksonville.

Tribal officials announced acquisition today of Jerry Blanchard, big southpaw from the Tyler club of the Feast Texas league in a trade. Other portsiders in the Indian fold are the veteran Jack Brillheart, Frank Lamanske, a newcomer, and Rookies Lester Lowery and Mike Schroeder.

To promote a program of safety in the streets of Kansas City, Mo., a safety slogan-writing contest was held among the people. The city has established a record of 14 months without a child fatality in a traffic accident.

Wayne Sabin Leads Favorites In Men's National Net Tournament

NEW YORK, Feb. 26. (AP)—Wayne Sabin, 21-year-old Davis Cup candidate from Hollywood, Calif., today inaugurated his career as an indoor tennis campaigner by leading the parade of seeded contenders into the second round of the men's national singles championship.

Sabin, fresh from the Florida winter circuit, stroked his way smoothly and impressively to a 6-1, 6-0 triumph over Armand Bruneau, New York veteran of sixteen indoor championships.

The opposition was not too strenuous, but the performance turned in by Sabin, No. 6 in national ranking, was eminently satisfactory to the opening-day gallery.

Five of the six other seeded players also advanced into the second round with straight-set triumphs. Only Bernard Coghlan, sixth seeded entrant from Pacific Palisades, Calif., had to go three sets, being carried to 6-3, 2-6, 6-3, by Frank Salichs, members of the Seventh Regiment club.

While Don McNeill of Kenyon college and Oklahoma City, No. 9 nationally and seeded second, delayed his start until Monday, the other seeded players to advance today were Gregory S. Mangin of New York, No. 3; Frank Bowden of New York, No. 4; J. Gilbert Hall, South Orange, N. J., veteran, No. 5; Leonard Hartman, another New Yorker, No. 7, and George B. Dunn of Narberth, Pa., No. 8.

McNeill and three of his Kenyon college team-mates will catch up with the field on Monday when, in addition to second-round men's singles matches, the first round of women's singles also will be played.

Schumacher To Defend Title At Longview Golf Tourney

LONGVIEW, Feb. 26. (AP)—The Pinecrest Country club here announced today its annual golf tournament had been set for July 1-4. Don Schumacher, of Dallas will defend the title he won last year by beating Reynolds Smith, Dallas.

The club announced that David (Spec) Goldman of Dallas Smith, Ed McClure of Shreveport and other top-notchers would contend.

AGGIES SHOW STUFF

COLLEGE STATION, Feb. 26. (AP) More than 500 visitors today watched the Texas Aggies romp through scrimmage in winter football practice as a feature of the second annual Aggie sports day program sponsored by the "T" club, the lettermen's organization.

The program also included special exhibition track races and motion pictures of the 1937 Aggie grid games.

Carey Wins In Regional Meet

(By The Associated Press)

Eight teams paced by Carey's repressible Cardinals, staging a determined bid to retain their state title, remained in the battle for the Texas Interscholastic league basketball championship Saturday night.

Champions of regional tournaments, these teams will go to Austin Friday to contest in the state meet.

Carey, defeated in the opening game of the Region 1 tournament, came back to win the next three, the last being a 39-35 victory over Pampa, which had been made the strong favorite for the title after first round results were analyzed.

Abilene Easy Winner

Abilene, long a favorite to go in the state tournament, came through in Region 2, defeating San Angelo 38-21 in the finals.

John Reagan of Houston, another strong favorite, won the Region 4 tournament, downing North Zulch 30-14, in the finals.

The dope was upset in Regions 3 and 8. In the former a highly favored Laredo team was nosed out by Kingsville in the first round and Kingsville went on to win the title by dropping San Perlita 29-20 in the finals. In Region 3 an unheralded Bowie (El Paso) quintet blasted Iraan 48-21 for the championship.

The major upset, however, came at San Marcos where Belton's Tigers downed the powerful Thomas Jefferson (San Antonio) team.

Bailey nosed out Kilgore for the Region 4 title. It required an overtime period but Lloyd, rangy center, shot two goals with two minutes left to play to knot the count and then sank a crip shot to bring his team victory in the extra period. The final score was 26-25.

The high-stepping Woodrow Wilson team of Dallas ran off with the Region 3 title, mashing Vernon, 50-26, in the finals.

Slaton Oilers Win From SFASTC Five

SNYDER, Feb. 26. (Special)—The Slaton Oilers, 1937 Southwestern AAU cage champs who will defend their title in Dallas next month, bumped the powerful Stephen F. Austin State Teachers college quintet here tonight, 40 to 35, in a warm-up game.

Jack Miller scored 14 points to lead the Oiler attack, and Alvin Crews was next with 8. Olin and Leroy Crews and Jim Neeley were other Oiler starters, the club playing without two of its stars, Hugh Snodgrass and Wilson Gilmore.

The Oilers jumped off to a 12-point lead early in the game, and never were behind.

Manager Joe Bob Stephens' team goes to El Paso to compete in the Southwestern invitation amateur tournament starting Monday. The Oilers are paired against the Eighth Cavalry unit of Fort Bliss in the first round.

Baylor Defeats Rice To Take Second Place

WACO, Feb. 26. (AP)—Rice's de trodden Owls staged a sensati rally in the closing minutes of here tonight after the Baylor apparently had the game on ice a nine-point lead and it was all Bruins could do to fight off Rice assault and gain a 47 to 45 dict in a thriller equalled only by Baylor-Texas tussle here this

The victory only gave Baylor possible chance of finishing in ond place as Arkansas drubbed 34 to 26 to clinch the champion By defeating Rice again Mo night and SMU in Dallas Satu the Bears can finish in se place.

Kirkpatrick Is High

Lanky Hubert Kirkpatrick, shooting wizard of the Bruins, sured himself individual sco honors by looping the basket fo points. This gives him a total of for the season. Don Lockard, Ari sas ace, was limited to a d points by the Mustangs, the ending his final year with 168 po

He Knows Football, Too!

By Collier Parris

HARRY FAULKNER, jubilant over prospects of his baseball club in Lubbock and highly gratified at the reception tendered him by local fans and business men on his "get acquainted" visit here, left yesterday for New Mexico to do a little "good-willing" in Clovis and Roswell, other West Texas-New Mexico league centers, at the suggestion of President Milton Price.

But the big, genial generalmanager of the Lubbock entry in the league will return Monday for another couple of days mixing with potential fans.

Every one who has met and talked with Faulkner seems to like him fine, as predicted herein the other day. He has big plans and high hopes for baseball in this city, details of which will be forthcoming from time to time.

One of his early plans concerns the improvement of the ball park. He hopes to bul'd another grandstand section ,more bleachers, a clubhouse for players and an office.

Box Seats Are To Be Installed

Enlargement of the grandstand plans call for installation of a number of box seats. This should meet with approval of the dyed-in-the-wool fans who want the same seats for every game and know it'll be waiting for them. The boxes will be sold for the season.

The playing field is to be improved, of course, and maybe sodded in Bermuda, although it is not likely the grass will be ready this season.

LIKE OTHER baseball men, Faulkner will tell you that baseball is the most entertaining and fascinating game ever invented, and he is a former football man! Still "works" a lot of grid games, and thinks a lot of football. But he turned down some good football coaching opportunities to stay with baseball. He is exceptionally broadminded, for a baseball man, regarding other sports. Has played practically all sports except golf, and likes to watch golf.

A four-letter man at college—football, baseball, basketball and track—Faulkner should know whereof he speaks.

After college he coached football for 17 years. His teams lost exactly 17 games during that time, tied 12 now won 122. That's a pretty decent record, should you ask us. His teams went undefeated eight years, not consecutively, and none of his clubs ever lost more than three games in one season—and that happened only twice.

How Obie Bristow Got His Start

Harry likes to reminisce over his football playing and coaching days. After graduating at Oklahoma's Southeastern State Teachers' college, Durant, where he played a lot of football, he served a term in University of Chicago, majoring in psychology.

His coaching days started at Pryor, Okla. He was hired as an instructor, not as a coach, because Pryor didn't have a football team his first year.

IT WAS at Pryor that Faulkner coached Obie Bristow, the Big Spring favorite, and one of Faulkner's best friends now. And he tells a pretty fair story about Obie.

It seems that, after a year of cajoling and begging, Faulkner induced the superintendent at Pryor to let him try coaching football. No boy in school had ever seen a football nor a football game, and didn't know a touchdown from a kick-off. It's the kick-off we're interested in here.

He took his backs and ends over to Wagoner one day to see a game. But the referee failed to show up and Faulkner was asked to officiate. He had little time to explain the intricacies of the game to his boys, but brought them home, taught them all he could, and they opened the season the following Saturday, playing Wagoner.

In those days, they "teed up" the ball for the kick-off.. Obie Bristow was called upon to kick off. Just as he started running for the ball, a puff of wind blew it off the tee and it feel to the left. Obie was too far gone to to stop, so he lashed at the ball with a left-footed swipe. The pigskin skittered off, Obie followed up, lashed at it with his right foot, and it spun off to the left. The ambitious Obie kept after it, kicking it first with his left, then with his right, and was doing a good job of "soccering it" down the field, never hesitating when the referee whistled. The ref finally had to brave Obie's flying feet, rush in and grab the ball before it went over the goal line.

That was Obie's first game, the first for any boy on the Pryor team. But they won that game, 6-0, and Wagoner was considered pretty good, thanks to Obie's masterful work.

"The best football player I ever saw or heard of," is Faulkner's thought of Bristow, and the latter's record just about bears out Harry's statement. "He was absolutely the most natural, best equipped and best spirited player ever to play ball," Faulkner says.

Anybody Got A Spare Dormitory?

IT IS BARELY possible that Faulkner will go into the dormitory business in Lubbock.

He is having a tough time locating a suitable boarding house, or hotel with boarding house rates, in which to quarter his squad here this summer.

If the classified ad department will pardon us, Faulkner particularly desires a house capable of accommodating from 20 to 25 men for two weeks. Maybe three, in April. He'll bring that many here for conditioning and training following the regular spring training camp at Longview, and he is wondering where he'll keep 'em, and feed 'em. He was all over town Friday trying to find a place, but none large enough could be found.

"We may just have to draw on the White Sox cash box and build us a dormitory," Faulkner said, "if we can't find a suitable place."

The squad will be brought here about April 5 or 10. The club pays the freight during the pre-season camp here, after which each player will be "on his own." But if a suitable boarding house is found for the training camp, the boys may stay on after the regular season opens.

Golden Glovers Of Texas Off For Chicago

FORT WORTH, Feb. 26. (AP)—A Texas Golden Gloves team seemingly as strong as the one that won 10 of 18 fights last year left Fort Worth today for Chicago and the Tournament of Champions next Monday, Tuesday and Wednesday.

Personnel of the team was completed when Wayne Templeton, Fort Worth High school student who won the district championship, accepted an invitation to go as a flyweight in the place of state champion Dick Menchaca of Port Arthur, who withdrew.

Following is the team that left here this afternoon:

Heavyweight—Babe Ritchie of Lubbock.

Light heavyweight—Beaner Garland of Burkburnet.

Fiddleweight—Carl Hilger of Dallas.

Welterweight—Arthur Dorrell of Tyler and S.M.U.

Lightweight—Matt Martinez of Austin.

Featherweight—Fernando Vargas of San Antonio.

Bantamweight—Noah Valdez of San Angelo.

Flyweight—Wayne Templeton of Fort Worth.

Hilger and Ritchie are the only two repeaters on the team of 1937.

Bigger, stronger and generally improved the left handed Hilger is regarded as one of the best bets on the team to survive the three days of fighting next week.

Ritchie has improved some.

Next to Hilger, Dorrell figures to have the best chance to go places in the tournament.

Indians Of U. S. To Cost $100 Each In Next Fiscal Year

WASHINGTON, Feb. 26. (AP)—All the Indians in the United States—about 330,000—will cost the federal government a little over $100 each, or about $38,707,676, during the 1938-1939 fiscal year.

Appropriation of $31,707,676 from the general treasury and a distribution of $1,504,909 of tribal funds was authorized for all the tribesmen by the budget bureau, according to a published report of hearings by a house appropriations subcommittee on the interior department supply bill.

Platt National Park Earns $2 Last Year; Carlsbad $238,705

WASHINGTON, Feb. 26. (AP)—Platt National park in Oklahoma earned exactly two dollars in the year which ended last June 30.

A tabulation submitted to a house appropriations subcommittee by Arno B. Cammerer, park service director, showed Platt's two dollars came from "sale of government property."

Carlsbad Caverns earned $238,705.

The park service told congress today visitors to the national parks reached a new high of 15,133,432 last year.

Browns Knew All Along About Colonel Bus Mills

* * *

ST. LOUIS, Feb. 26. (AP)—To the casual fan "Buster" Mills may have been just another guy tossed into the trade that sent Buck Newsom and Ralph Kress from Boston to the St. Louis Browns for Joe Vosmik. But don't doubt the Browns didn't know Colonel (that's his Christian name) Mills was the second-best batter among American league rookies who played regularly last season. He hit .295 as a Red Sox outfielder and only Detroit's Rudy York beat that figure.

St. Louis expects even better performances from Buster. He's a speedy fly-chaser and should develop into a pretty fair batter.

Mills, a right-handed thrower and swinger, is another of the fugitives from the St. Louis Cardinals' chain-gang.

He was born in Ranger, Tex., Sept. 16, 1908, and entered baseball seven years ago with Bartlesville of the Western association. The Cardinals seasoned him at Elmira and Rochester and then called him in. His hickory average slumped and the Red Birds shunted him to Rochester again.

The Dodgers took a chance on him in 1935 but his hitting didn't suit Casey Stengel and it was back to Rochester, Buster hit .331, led the International league in runs batted in—134—and the Boston Red Sox gobbled him up.

The Browns figure he'll team up with Sammy West and Beau Bell.

What, No Trout In Washington? We'll Just See About That! Veteran Fisherman About To Realize Aims Of Two-Year Campaign

By EDDY GILMORE
Associated Press Sports Writer

WASHINGTON, Feb. 26.—Sixty-eight year old Benjamin Franklin Stiffler predicted today that his one-man campaign to bring trout fishing to the capital is about to bear trout.

A piscatorial zealot if there ever wes one, Stiffler launched his project about two years ago—simply because he thought it a shame there wasn't a place near the nation's capital where folks could catch trout.

In two years he has:

Taken the temperature of more than 500 Maryland creeks, brooks, streams and ponds.

Invented a portable hatchery.

Built five ponds with his own hands.

Dug a quarter mile ditch through underbrush.

Played foster-father to 4,000 fish.

Constructed five dams.

Had a whale of a lot of fun.

An impassioned trout fisherman, Stiffler came to Washington from Michigan and to his great disappointment found no place to carry on his hobby.

"Authorities," he explained, "discouraged me. They said the waters were not cold enough. I though differently and I took it on myself to prove it."

Out in nearby Maryland he has his ponds which are crammed full of trout of all sizes and ages.

In another year or so, he believes he'll be able to loose his strong young trout in the streams.

The Texas Planning board is cooperating with the U. S. war department in locating "war materials," such as manganese and beryl.

NOTICE
CHANGE OF OWNERSHIP

There has been a change in the ownership of the Texas Auction and Comm. Co. H. G. Lawson, J. M. Mullins and H. L. White are now the sole owners of the firm and the business.

Some of the checks have been returned which were issued at the last Friday sale, due to the fact that a Receiver was appointed until the matter could be straightened out. If any of our customers have a check that has been turned down, bring it by and we will make out a duplicate to cover. The money is waiting at the bank. None will have trouble getting their money.

General Motors To Reduce Pay

(By The Associated Press)

DETROIT, Feb. 26. — Alfred P. Sloan, chairman of the board of General Motors corp., has announced a series of graduated reductions in pay for all General Motors salaried employes.

Sloan's statement follows:

"Recognizing the drastic reduction in the volume of business now being experienced, it becomes necessary to give consideration to adjusting the compensation of salaried employes.

Working Hours Decreased

"Our wage earners are receiving substantially less than formerly as a result of the decrease in the number of working hours.

"In view of these circumstances it appears fair and equitable at this time to all concerned to make the following adjustments, to become effective as of March 1, 1938:

"Salaried employes will receive a reduction of 10 per cent in salary up to $10,000. Executives receiving salaries of over $10,000 annually will receive a reduction of 20 per cent additional on any excess over $10,000 and up to $50,000. Executives receiving over $50,000 annually will receive an additional reduction of 30 per cent on the excess over $50,000 annually.

Affects 40,000 Workers

On the basis of employment figures in the corporation's 1936 annual report, the latest available, it was estimated the cut would affect around 40,000 workers.

It was figured the pay slash would reduce expenses around $7,500,000, assuming there was no wide change in number of salaried employes.

Top executives like Alfred P. Sloan, jr., chairman, and William S. Kundsen, president, received total compensation of several hundred thousand dollars each. But their base salaries were understood to be between $100,000 and $150,000.

Father Of Unique Boys Town Discovers How Movie Is To Tell World Of Life's Work

HOLLYWOOD, Feb. 26. (AP)—Father E. J. Flanagan, who founded a unique boys town in Nebraska 20 years ago, discovered this week how a movie will tell the world of his life's work.

A round of conferences with executives, a tour of sound stages, saw the tall, erect, kindly-faced priest set the pace for his hosts at M-G-M studio.

Carefully, he went over the plans for filming "Boys Town" and, with especial interest, met the two actors who will take the leading roles, Spencer Tracy and Mickey Rooney.

His little village at Omaha, he said, has 200 boys varying in age from 5 to 20 years, who govern themselves, elect their own mayor, city council, police officers and other officials.

"During the years the plan has been in existence, we have sent 4,500 boys out into the world to make their own way. Not a single one of those boys has run afoul of the law."

Connally Urges Laboratory Aid

(By The Associated Press)

WASHINGTON, Feb. 26.—Senator Connally (D-Tex) urged all Texas organizations interested in securing for their state a proposed federal cotton use laboratory to cooperate in the cause.

"Texas, by all means, should be the site of the laboratory," Connally said. "However, other cotton states will, no doubt, make a determined fight for it location.

"I desire to urge that organizations in Texas, chambers of commerce, the agricultural and mechanical college, and warm associations cooperate actively with each other in a movement to bring the location of the laboraatory to the state.

"Perintent data, the proposal of a site or location, and all related matters will be of tremendous value in presenting this matter to the secretary of agriculture. The Texas delegation in congress will actively and aggressively press the matter before the secretary."

Manufacturing Plant Is To Be Opened Under New Management

SPRINGFIELD, Mo., Feb. 26. (AP) — The Oberman manufacturing company plant here, closed for the past three months, will re-open "when business warrants" under the "sole direction" of Ben Harrison, owner of a dozen Springfield grocery stores, T. R. Oberman, owner of the plant, said here today. The garment factory, normally employs approximately 1,000 men and women.

Oberman closed the plant following a business slump and labor difficulties.

"Mr. Harrison came to me and offered to put up his own money—$150,000 of it—and in view of his interest we were willing to let him re-open the plant."

Oberman said his company, which also has plants in Jefferson City and Waco, Texas, will "contract with Harrison to furnish us finished products."

A new mirror especially for women motorists is an illuminated vanity mirror for the car. One type is mounted on the rear of the glove compartment and automatically lights when the lid is opened.

Extensive Drilling In Gulf Is Looming

HOUSTON, Feb. 26. (AP)—Extensive drilling on submerged leases off the Texas Gulf shore loomed today as major companies moved to hold leases.

The state law requires that leaseholders of state owned lands must offset new wells within 60 days after production.

Discovery of oil in the state land No. 1 well, owned jointly by the Salt Dome-Standard of Texas companies, has forced the Humble company to move a rig out in Galveston bay and start operations on an offset well.

The Salt Dome-Standard of Texas interests have asked the war department for permission to drill 22 more wells in Galveston bay, off marshy points.

The Sun Oil company is preparing to drill a wildcat on Bolivar peninsula in Galveston bay. The company is now dredging a 12,000-foot canal from the intracoastal canal.

Geophysicists report numerous salt domes have been found off the Texas shore in the Gulf.

Indians of Kingcome Inlet, British Columbia, will unveil on May 12 one of the finest totem poles ever carved as a memorial to King George V.

FOR PWG'S BENEFIT

CLEANSING pads in small compacts are something girls with oily skins are finding to their liking now-a-days. Several firms are making pads of this type, they are not expensive and neatly solve all cleaning-your-face-during-the-day problems.

One manufacturing company features a small kit containing a plactic compact that holds 12 pads, a large container of extra pads and a bottle of cleansing lotion with which to moisten them. The refilling job is easy. Simply pour a teaspoonful of cleansing lotion in the compact, put in a dozen pads, press down on the top one until all are saturated. They may be purchased in Lubbock beauty shops.

ROAD SONG

THE most appealing poem we read last week was written by Margaret E. Sangster. It has an appealing suggestion. Who of us wouldn't like to follow a road?

AN open road and a wide road
That leads, at last, to the sea—
This is the meaning of summertime,
And the meaning of life, to me!

GIVE me the dust of the highway
And a breeze that kisses my face—
For, oh, I am tired of hurry,
Of traffic and market place!
Give me a spring by the wayside,
Give me a tree for shade—
An open road and a wide road,
And a heart that is unafraid!

GIVE me the courage for tramping,
And a soul that bids me follow
The path that winds to the hilltop
After it leaves each hollow.
Give me a glimpse of ocean,
Blue as the gleam of truth—
Give me the urge to follow a world
Before I have lost my youth!

AN open road and a wide road—
And somewhere the far-flung sea!
This is the meaning of summertime,
And the meaning of life to me."

SCATTERINGS

WHERE were several beautifully frocked damsels at the Junior Welfare League ball Tuesday night. Mrs. Martin H. Benson and Mrs. William H. Evans were visions of loveliness in their white frocks. We wonder who the girl was who wore a white dress girdled with three bands of gold. It's hard to get used to watching demurely dressed maidens trying their hand at the Big Apple . . . D. A. R. members had opportunity to see the Big Apple danced at their patriotic luncheon Tuesday. It seems to include many of the games we played as a child.

MRS. Lonnie Langston was a college classmate of Ruth Millett, columnist for the NEA service, whose writing we often quote. In fact they were sorority sisters and correspond at intervals. Miss Millett's father, R. H. Millett, is editor of the Press Scimitar in Memphis, Tenn., and Mrs. Langston said the Iowa City students nicknamed Ruth "Memphis." . . . Did you ever hear of anyone getting hurt while skiing? And yet the spills, according to the movie scenes, are terrific . . . These socks all the boys are wearing now-a-days, the ones with the loud combination of colors, are string woven . . . A New York paper which has a large circulation in Harlem refers to negro women as brunettes.

MIDSEASON HATS

SMART Fifth Avenue shops show early Spring millinery which will give a life to mid-season costumes and can be worn well into the Spring with your Easter suit: a buccaneerish beret of black milan straw flares wide and high above the forehead; a tailored hat of fine navy felt bound with gros grain, brim rolled at the sides, wide band and bow of sheer veiling at the back, is reminiscent of postillion days; a bowl brim roseberry felt model has a shallow crown, dips rakishly over the right eye, rolls high toward the back and finishes with a clever cockade; a small gay sports hat of Indo Clay felt has a slanting medium height crown, twisted wool band and Tyrolean brush at the side.

Four Ways To Meet Spring In West Texas Are Discovered

BY MARY BETH CLARK

FOUR ways to meet spring in West Texas — with a costume suit, with a three-piece suit, with an all-silk ensemble, or with a topper suit—are greeting women shoppers of Lubbock.

Brilliance in color and diversity of combinations available are some of the reasons why it is easy this spring to "champagne-ize" one's appearance and wardrobe at little expense, a "shopping" reporter has discovered.

A soft woolen dress of navy with a white pindotted top, jacketed with a reversible navy coat interlined with the pin-dot material, adds allure via the route of costume suits.

Exciting is a three-piece suit consisting of a tailored, luggage-tan tweed suit and topped with a harmonizing tan, brown and yellow tweed coat of bracelet length. The bosom-brief bolero, bell-hop, button classic and single button of men's suiting combine excellently with contrasting top-coats.

Full-length silk coats smartly top silk dresses of the same material. A dark, tailored dress and coat with a divinity-white trimming gives an assured feeling of correct grooming. Silk suits blended in the latest shades are refreshing. Blue is fashion's "pet" this season, and "liberty" blue, "concord" blue, jonquil yellow, copper clay and wood violet receive special favors.

Vivid woolen toppers over printed or plain silk dresses shout practicability and youthfulness. Three patch pockets are stitched on many. A pink dusty to strawberry topper of soft rabbits hair worn over a simple navy silk frock can be accessibly interchanged with other suits, saleswomen suggest.

And if your suit is a "shrinking violet," lift it up with a striking hat, they advise.

Abilene Visitor To Be Honored At Breakfast

Silver Offering Tea Sponsored On Saturday

Lubbock Girl Scout troops held their annual Juliette Low memorial celebration in the music room of the Senior high school Saturday evening, approximately 80 attending.

The girls and leaders were honored by a visit from Mrs. Bradford Knapp, regent of the Nancy Anderson Chapter of the Daughters of the American Revolution who presented the Girl Scouts with an American flag given them by the chapter.

Mrs. H. F. Godeke gave an inspiring talk on the Juliette Low Memorial awards. Mrs. Godeke is the Regional Juliette Low Memorial committee chairman and has done much toward this movement in arousing interest and giving information throughout this section.

Countries Represented

The girls carried out the international motif in their program by each troop representing a different country.

The Minnie Ha Ha troop represented the United States by giving an Indian Peace pipe dance. Marilyn Claiborne gave a talk on the Indians of the Southwest. Miss Elise Tucker is troop leader.

The Madrona troop presented interpretive dancing. Miss Tina Mae Wright is leader.

Troop 5 represented the Netherlands. The girls came out of a Dutch windmill effect and did folk dancing and singing. Mrs. A. H. Maas is leader.

The Ellwood troop represented Argentina. Doris Crim gave a talk on that country giving a vivid description of the Argentine pampa. The troop staged an Argentine gaucho camp scene. Martha Hughes and Martha Jean Elliott gave a demonstration of the Argentine Tango and Ouida Risinger sang the "Gay Caballero." Mrs. Sam Newman is leader.

Is Held Each Year

This Silver Offering celebration is held annually among the Girl Scouts of the United States in commemoration of their founder, Juliette Low, who was interested in international work of Girl Scouting. One of her dreams was to have an international camp where girls of every nationality could know and value one another.

In 1927, a few years after the death of Mrs. Low, the Juliette Low Memorial fund was begun.

In July 1932, Our Chalet was opened in Eggetli, Adelboden, Switzerland. The Chalet was gift of Mrs. James J. Storrow of Boston and was furnished by gifts from many different Girl Scout and Girl Guide organizations.

Annual CMA Drive Will Be Held In March Instead Of Fall Of Year

In order to give an earlier opportunity for advance selection of talent for South Plains Civic Music association concerts for 1938-39, an annual membership campaign will be conducted the week of March 7-12.

Memberships may be renewed within the next week or during that time, according to Dr. Fred W. Standefer, association president. The memberships are $5 for adults and $2.50 for college and public school students, as customary in the past two campaigns.

The committees engaged in preliminary work have announced they will appreciate early cooperation to not only make the next year the best they have had but to reduce as much as possible the necessary details for making the campaign a success.

Invitations to membership are being extended to several South Plains towns.

The next number on the current course will be the appearance of Trudi Schoop and her Dancing Comedians March 10 at the Senior High school auditorium.

Miss Merle Peden Of TSCW Gets Cottage Experience

Miss Merle Peden, daughter of Mr. and Mrs. O. D. Peden of 1909 Eighth street and senior home economics major at Texas State College for Women at Denton, has moved into the Beecher cottage at Pilot Point for six weeks.

She will obtain practical experience in home-making and home demonstration work at the cottage, and will live with six other senior home economic majors.

Shakespeare Club To Meet At Pettigrew Residence

Mrs. L. R. Gamble will be hostess to the Shakespeare club at 3 p. m. Tuesday in the home of Mrs. G. H. Pettigrew, 1406 Avenue T. A discussion of stage setting and poetic moods will be given by Mrs. J. A. Raley. Mrs. A. C. Jackson will give a talk entitled "Sheaf of Goodly Words". General linguistic questions is the general topic for discussion.

Betsy Ross Needle Club Has Meeting In Ragland Home

Betsy Ross Needle club members were guests of Mrs. Oscar Ragland, 2110 Ninth street, Friday afternoon.

Thimbles were favors on refreshment plates in the club color scheme, pink and white.

Club members attending were Mesdames R. E. Gee, E. E. Brock, W. M. Cheaney, C. W. Trippe, Watson Wilson, E. L. Rabun, Carroll Allen, J. A. Peel, W. L. Logan, J. A. Roberts, and T. J. Rodgers.

Guests were Mrs. C. C. Ragland of Mena, Ark., Mesdames O. D. Peden, Ed Summers, Lee Ragland, and C. A. Gammill, and small Elaine Summers, Janet Ragland, Betty Sue Rabun and Mabry Peel.

Next meeting will be conducted March 11 in the home of Mrs. Rodgers, 2107 Eighth street.

Children's Division Council To Hear Miss Dysart Talk

"Emotion and Emotional Control" will be discussed by Miss Bonnie K. Dysart, associate professor of education and psychology at Texas Technological college, at the regular meeting of the First Methodist children's division council Friday at 7:30 p. m. The meeting will be held in the Wesley class room of the church, and parents as well as teachers and officers are invited to attend, the council chairman said.

Records In 4-H Club Contest Must Be Filed By March 15

March 15 is the deadline for filing of records of county 4-H club girls who seek the Gold Star pin honor, Miss Elizabeth Brooks, assistant home demonstration agent, said.

Last year Miss Lillie Gentry, Posey, was the only Lubbock county girl to win a star pin. "We hope to have several other entrants this year," Miss Brooks added.

Miss Bonnie K. Dysart To Address Madonna Circle

Miss Bonnie K. Dysart, associate professor of education and psychology at Texas Technological college, will be guest speaker at a regular meeting of Madonna Circle of the Child Conservation league Wednesday at 3 p. m. in the home of Mrs. Ralph Bedford, 2212 Thirteenth street.

Mrs. Jenkins To Give Party For Bridge Club On Monday

Mrs. J. D. Jenkins will be hostess to Rendezvous club with a bridge supper at 8 o'clock Monday night at Mexican Inn.

Annual Quilt Show To Be Held Soon

The seventh annual quilt show sponsored by Hodges Brothers Hardware in Lubbock will be March 7-19. Entries will be accepted beginning Monday, Feb. 28 through March 19 and will be on display throughout the period.

Only quilts will be accepted. Three prizes will be awarded according to public voting. Only one quilt per family may be submitted, Mrs. J. A. Hodges, in charge of arrangements, said. Prizes will be awarded March 19.

All types of quilts, old baby, fancy or otherwise may be submitted, Mrs. Hodges said. They will be exhibited in both Hodges stores although voting may be done in either store, she explained. The quilts will be hung carefully and will not be subject to damage.

Prospective entrants may telephone Mrs. C. D. Keever at 644 for further information, Mrs. Hodges said.

Music Contests To Be Held Saturday

Between-The-Pages Club To Meet With Mrs. White

The Between-the-Pages club will meet with Mrs. C. A. White of 1810 Avenue R at 3:15 o'clock Thursday afternoon.

from Lou to Louella . . .

DEAR Louella: Here's my friend's latest letter:

"Did you have a chance to see the art exhibit of the E. Martin Hennings paintings Tuesday and Wednesday on the Hilton hotel mezzanine? There were some gorgeous sage brush scenes and one good painting of an Indian head which portrayed all the vivid coloring and stoic qualities of the race. Mr. Hennings, who is from Taos, N. M., says his favorite subject is birchen landscapes. He has a daughter, a shy little girl of about seven, who wears her hair in pigtails.

Mrs. Cox Is Ill

"Mrs. Vincent Cox of Little Rock, Ark., who is visiting her parents, the John T. Lokeys, for two weeks, is sick in bed.

"I imagine Leona Allen has departed by now for New Orleans and the Mardi Gras.

"Judge McAdoo, I'm embarrassed to report, decided to move to Nevada instead of Lubbock. I found out immediately after mailing my last letter to you."

That's all right, make many such errors. I, too, learned last Monday that "Judge" McAdoo moved to Las Vegas, Nev., when he couldn't find office space in Lubbock. Incidentally, he is married.

SPEAKING of "judges," have you heard of DeWitt Landis' rising fame as a banquet speaker? I don't know just what the secret of his popularity is, but his services seem greatly in demand. Perhaps, it is because he takes ribbing as well as he can rib.

For instance, recently he was waxing warmly as a banquet speaker when an amateur ventriloquist

For instance, recently he was new needle!" Laughter that followed was so uproarious that "Judge" had to take his seat, doing so good-naturedly.

A New Card Trick

There's a new card trick going about town that I'm very curious to learn. Perhaps, someone can tell me about it. Dr. and Mrs. Rex Greer of Denver—she is the former Blanche Fann—were its victims one night last week in the Richard Heineman home. Each was asked to pull a card from a deck, then each was told to call a number (by telephone; separate numbers were given) and ask for "Jack, the Card Shark." "Jack," who must have had quite a rush getting to two telephones within a second or two of each call, obliged by describing the card in each of the Greers' hands.

By the way, the Greers say the Big Apple is passing in Denver where now everyone is doin' The Shag.

RUSSELL STANLEY (CURLY) WILKINSON, Lubbock lad and former basketball star at Tech is about to become the bridegroom of Priscilla Davis of Fort Worth, also a former Tech student. The date is April. I haven't learned the day.

Do you remember Lyall Pickett of Post who used to go to Tech? For years she has been engaged to someone else and now I learn she is to wed Bill Davis of Austin in June. Her former fiance, a former Tech student who is now at Texas U., introduced them. The bridegroom-elect will receive a master's degree from the University in June.

Joe Rosenthal Christened

Joseph Soloman Rosenthal, highly important son of the Sam Rosenthals, was christened one day last week at the hospital where he was born. An elaborate ceremony with imported rabbi, etc., was performed in the presence of hundreds of guests. Joe—as surely they will call him—was named for his paternal grandfather, according to a Jewish custom for naming a first son.

Soon, I'm going to visit Lubbock's child wonder, Ned Hardin, 4-year-old son of the Russell Hardins and see and hear for myself some of his unbelievable musical accomplishments. He has studied piano only a year, yet last Tuesday I heard him play six or eight different compositions from the classical and romantic periods, describing them in detail beforehand. He pronounced names of composers that I can't begin to spell.

A DAR Luncheon

The occasion was a beautifully appointed luncheon given by the Daughters of the American Revolution. Among the guests was Miss Madge Mulkey of Fort Worth and China who was visiting Mrs. O. D. Hargis. She looked very much like attractive Mrs. J. E. Vickers, also a guest.

After March 1, Mr. and Mrs. Elsmer (Susie) Cone will be at home at the Fickas apartments. The past two years I have prided myself on being able to spell Adeline Ziegenhals and that is the only objection I had to Adeline's and Susie's marriage. I can't show off anymore.

Your, Lou.

H. C. Pender Addresses Group Of Club Women On Friday

H. C. Pender, acting head of the government department at Texas Technological college, spoke on "International Good Will" at a meeting of the City Federation of Women's clubs Friday afternoon at Hotel Lubbock. Mrs. E. L. Banks, president, presided.

Plans were made to conduct an annual achievement day tea in April. The tea will take the place of the monthly meeting.

Artists Course Is Presenting Guest

Frank Bauer—rated by Julien Paul Blitz, head of the Texas Technological college department of music, as one of the world's three greatest pianists—will be presented in concert at 8 o'clock Wednesday night in the Lubbock High school auditorium by the Tech Artists Course.

Another local connoisseur of classical music and its presentation — Don Murphy, also of the Tech faculty — has heard Mr. Bauer several times, always in a packed house. Once when Mr. Murphy heard him at Carnegie Hall, encores were so persistent the artist was obliged to play a full hour after his program had been completed. Statements of Mr. Blitz and Mr. Murphy were made to R. A. Mills, head of the Artists Course.

Mr. Bauer, who was born at Malden, near London, of German and English parentage, first studied violin and piano under his father. When still a boy he played in Paris to be heard by Paderewski who advised him to concentrate on piano, rather than violin. He then studied under Paderewski a year.

With a technique that is original, limpid and clear, he is known also as a pianist with a velvety tone, his sponsors say.

Program Announced

The artist will play the following program:

Handel, three sets of pieces with original arrangements: overture, allemande, sarabande, courante, piece, air with variations.

Beethoven, sonata Op. 27, No. 2 (Moonlight).

Schumann, Papillons, Op. 2; Brahms, rhapsody in E flat, Op. 119.

Debussy, "The Sunken Cathedral"; Chopin, scherzo in C sharp minor.

The program was chosen by the pianist to illustrate various aspects of music which he will touch upon during his visit at Tech college.

Mr. Bauer has sent for information regarding the college and has expressed that he is particularly interested in meeting teachers, art students and attending classes, other than music classes, while at the college. He expects to visit classes unobtrusively. Taking a seat in the rear of the room, he will listen to the lecture or discussion, then ask questions to stimulate further discussion. Making himself known, he will come to the front and take charge of the class.

Likes Class Discussion

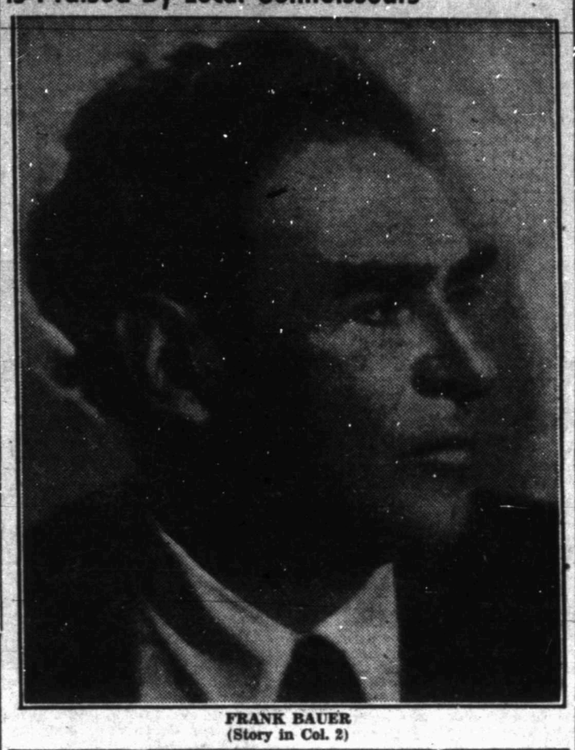

Class discussion of that sort is his hobby, but he refuses positively to deliver formal lectures, Mr. Mills has been informed. He also refuses to give music lessons to teachers of students regardless of the price offered.

As guest of the Artist Course committee, he will arrive here at 8:30 a. m. Wednesday and leave at 2:15 p. m. Thursday. He is coming under the Association of American Colleges which sponsors leading American artists at prices which college committees can afford, Mr. Mills explained.

Because there is not a Baldwin concert grand piano — used exclusively by Mr. Bauer — available in the state, a 9-foot piano of that type is bein gshipped here from Oklahoma City at the expense of the Baldwin company, its vice-president, Philip Wyman, has written Mr. Mills. The artist's own tuner, a Mr. Portune, will accompany him here.

Admission to the concert is one dollar a person, Mr. Mills announced.

FOR SMOOTH MUSH

To prevent cornmeal from becoming lumpy in making mush add one cup of cold water to a cup of meal. Mix the two well. Then add four cups of boiling water and one and a half teaspoons of salt. Mix thoroughly and add the meal slowly. Let boil for two minutes. Then allow to boil an additional hour in a covered double boiler placed over a low heat. Stir frequently and serve hot with milk. The mush may also be poured into a mold, chilled, cut into slices and browned in hot fat.

Anniversary Is To Be Observed

Revival services will be started tonight at Foursquare Gospel church, 1006 Avenue Q, in commemoration of the sixth anniversary of the church. Rev. Floyd Dawson, pastor, founded the church Feb. 27, 1932.

Membership has grown from members of the Dawson family to 100 during the six years, and attendance has increased to 150. Present building is an outgrowth of several temporary meeting places.

Plans Were Discouraged

Mr. Dawson came here with his wife and three children in January, 1932, from Los Angeles after a brief visit with his mother in Wilson. Plans for foundation of a church of his denomination here met with discouragement from relatives.

First buildings were a vacated store building and an oil station, each of which was rented "from under" the minister after less than 30 days. A piano was loaned the small congregation by a music company, and benches were borrowed at Wilson and Slaton. Another month was spent in the Dawsons' Sixth street residence.

Arbor Is Constructed

During the spring, 1932, an arbor was constructed and covered with tow sacks. A revival increased attendance, necessitating additions to the arbor. A tent replaced the tow sack arbor in August, at which time Mr. Dawson initiated radio broadcasts that continued for four months.

Services were held in the C. A. Anderson home, 1420 Eighth street during the winter.

In January, 1933, Mr. Dawson was given second vendor lien notes worth $320 with suggestion that he provide a building for the congregation. Present structure was completed in April that year from receipts on the notes. An addition was made in 1935.

The church, now owner of a pastor's home valued at $4,500, is planning a new $5,000 building.

Three divinity students from the church who are studying at Angelus Temple in Los Angeles will attend anniversary services and the revival. They are Weton Parrish and Mr. and Mrs. Willard Tucker. Mrs. Tucker formerly was Miss Wilma Martin.

Twenty-four young persons have attended the denomination's Bible college in Los Angeles, 11 of whom are licensed preachers.

Two Ministers From Lubbock Are To Speak At Brownfield

Next Sunday Brownfield Methodists will hear about the coming John Wesley Aldersgate commemoration program of Northwest Texas, with two ministers from Lubbock discussing the work.

Dr. O. P. Clark, presiding elder and Rev. W. E. Peterson, pastor of Asbury Methodist church, are to speak. The program is one of a series being held over the district, with Dr. Clark in general charge. Missions to be held the following week will be at: March 8 at Post; March 9 at Lorenzo and March 10 at Shallowater.

Regular Workers' Meeting For Dickens County Is Slated

SPUR, Feb. 26. (Special)—Dickens county Baptists will hold their regular worker's meeting in the Steel Hill Baptist church on Thursday. Rev. E. Denton is pastor.

Lunch will be served in the church at noon. A business session is planned for the morning and the afternoon.

Speakers include Rev. Wayne Grizzle, Rev. C. R. Joyner, Rev. Victor Crabtree, Rev. L. G. Crabtree, Rev. H. L. Burnam, Rev. B. B. Huckabay and Rev. J. V. Bilberry

Amarillo Bishop Will Conduct Ash Wednesday Service Here

Rt. Rev. E. Cecil Seaman, of Amarillo, bishop of the missionary district, will conduct Ash Wednesday services at 5 p. m. in St. Paul's-on-the-Plains Episcopal church.

Ash Wednesday, the first day of Lent, is so called from a custom in the Western Church of sprinkling ashes that day on the heads of penitents, then admitted to penance. The period at which the fact of Ash Wednesday was instituted is uncertain.

PASTOR TO PANHANDLE

Rev. H. B. Strickland, Baptist pastor of Woodrow and Morgan communities, has gone to Panhandle to fill the pulpit this morning in absence of the Baptist pastor there. He was pastor at Panhandle 17 years ago.

Founders Of Foursquare Gospel Church

Rev. and Mrs. Floyd Dawson, above, are founders of the Foursquare Gospel church in Lubbock. The church, located at 1006 Avenue Q, will start a revival today to celebrate its sixth anniversary in the city.

Followers Of Sport Find Cockfighting Is Exciting Pastime And In Some Areas Rich Purses Are Offered During Tournaments

"In this corner we have the challenger, a Mug, weight 6 pounds 1 ounce. (Applause). And in this corner de champ, a Warhorse, weighing 6 pounds 2 ounces. (More applause).

"For two weeks these boys have been in their respective training quarters, conditioning for this fight. The champ tapered off yesterday with corn, oats and barley and today partook of four swallows of water."

It's a cockfight.

Staged In Secrecy

Although law does not condone cockfighting in Texas, those who follow the sport here say one can get his gamecock matched in a main, concourse or hack fight without trouble, but the match is staged in deepest secrecy and may be held several counties removed from here.

"I like the sport better than any I have ever watched," said one Lubbock enthusiast.

At Orlando, Fla., this winter the "world series" of cockfighting was held, with $4,500 awarded owner of the winning flock. Entries represented all parts of the United States, including Texas. But all tournaments are not so remunerative, followers say.

Most fights have as stakes only bets, though those often leave the range of coffee money.

Bred To Be Fighters

Cocks are "bred up" just as show fowls and animals. They are bred to make the fighting instinct outweigh all others. That, after all, is their stock in trade. What the Percheron is to horse breeders, Holsteins and Jerseys to milch cow breeders, Whitefaces to beef breeders, Duroc-Jersey and Poland-Chinas to hog raisers, Mugs, Warhorses, Claret Roundheads, H. D.'s, Allen Roundheads, Wactor's Niggers and other breeds are to gamecock breeders.

Stags are started fighting at six months of age. A stag becomes a cock after first molting, at ten to twelve months. The fighting season lasts from "about Christmas until the last of June." A battle-scarred gladiator of the cockpit usually retires at four years if he is fortunate enough to attain that age, an informant said.

Conditioning Important

Conditioning is an important factor in cockfighting, although a cock requires little or no training. A two-week conditioning period includes feeding of balanced ration, usually dry; watering correctly; and exercising the bird. Care is taken to keep the cock's weight within a certain point. A fine point in weight is necessary in matching of fowls.

Cocks must be matched within two ounces of equal weight. A stag is allowed a four-ounce handicap over cocks and a blinker—a one-eyed cock—four ounces over a normal cock. Overindulgence, then, may wreck the career of a potential champion gamecock.

"Boxing gloves" for cocks are known as gaffs, which require expert workmanship to construct, since strict regulations are placed upon them. They must be smooth, absolutely rounded, substantial, and can not be gapped. Once a cock is "pitted", a broken gaff can not be replaced.

Gaffs Cost $100

Gaffs are needlepointed, from 1 1-2 to 2 5-8 inches long and cost to $100. They are attached to the cock's legs, held in place by a leather socket, tied securely with waxed cord.

Baseball minded might call it an inning, but in cockfighting each round is a pitting. It lasts until one cock hangs the other or one is disqualified.

Matches are classified as tournaments, mains, concourses, and hackfights. A tournament is conducted round robin fashion among several entries, a main is staged between an equal number of cocks owned by only two men, a concourse is conducted between only a few entries in round robin style, and a hackfight consists of matching of cocks at random with whomever an owner wishes.

Before taking up the sport seriously one should study the rule book carefully. Yes, there is a rule book, and it contains nearly as many words as the official baseball or football rule book.

Congregational Meeting For Presbyterians Slated Today

Annual congregational meeting of the First Presbyterian church will be held this morning, with six elders and six deacons to be selected for three year terms each. It will be held after the morning service.

Elders whose terms expire are: H. E. Blocker, J. M. Gordon, G. W. McCleary, E. L. Reed, R. S. Rodgers and C. J. Wagner. Deacons are: W. L. Hester, R. P. Hule, P. H. Laverty, S. L. Lightfoot, E. J. Parsons and N. H. Wright.

CHIP PREVENTION

To prevent chipping or cracking dishes and glassware when they are being washed, place a folded towel in the bottom of the dish pan and lay another one in the rack used for rinsing.

MOISTEN POPCORN

If popcorn does not pop easily it probably needs moisture. Place the corn in a strainer and run hot water through it for about a minute. Shake the corn well. Then put it in the pan to be used in popping.

FREEZELESS LAUNDRY

It is said that a handful of salt dissolved in the last rinse water will prevent clothes freezing on the line in cold weather.

A WINTER SUNDAE

Mix half a cup of strained honey with half a cup of broken pecans, sliced cashews or shredded almonds. Heat. Serve warm, poured over chocolate, strawberry or caramel ice cream.

COOKY TIME-SAVER

Spread or roll out soft cooky dough and put it on greased baking sheets or large, shallow pans. Cut into square or bar-shaped cookies as soon as the pans or sheets are removed from the oven.

Never melt fat to be used in cake or cookies. Cream it by pressing it against the side of a bowl with a large spoon. The process may be hastened by allowing the butter to stand until it is slightly soft. Select a spoon that is easy to hold so that the hand will not tire. Long, round-handled metal or wooden spoons with large, slotted bowls are best.

Make a cherry cake for February serving. Cut plump, candied cherries in half. Arrange them, hollow sides down, on top of a white-frosted cake —to simulate a bunch of cherries. Place green leaves cut from angelica along chocolate stems. The stems may be made by dipping a wooden pick into melted, sweet chocolate.

To Take Over Lubbock Post On March 3

Adjutant Thomas B. Gregory, with Mrs. Gregory, above, will arrive here Thursday to assume command of the Salvation Army post, after serving two and one-half years in the same capacity at Galveston.

Adjutant Gregory succeeds Captain John G. Churchill, who left early last week for Harlingen to command posts there and at McAllen. Capt. Churchill was associated with the Lubbock post four years.

Announcement of Adj. Gregory's transfer here was made Wednesday. Capt. Churchill was notified of the change early this month, and took command at Harlingen Wednesday.

Lt. Zada Koehler will be in charge here until Adj. Gregory arrives.

World Prayer Day To Be Observed At Presbyterian Church Here Friday

World Day of Prayer, celebrated annually by all Christian denominations, will be observed in Lubbock at 3 o'clock Friday afternoon at the First Presbyterian church. Mrs. J. H. Cox, jr., president of the Church Women's Federation will preside for a program in which women of various Lubbock churches will take part.

Mesdames Vaughan Wilson and G. W. McCleary are arranging the program. Mrs. McCleary, describing history of the observance, provided information that:

"As far back as 1887, Presbyterian women in the United States gathered at the suggestion of Mrs. Darwin R. James, president of the Women's Board of Home Missions of the Presbyterian church, to pray for home missions. Interest in the Day of Prayer increased and through the efforts of Mrs. Henry W. Peabody and Mrs. Helen Barrett Montgomery, the foreign mission forces chose a day for united prayer in the early nineties, and in 1920, both in Canada and the United States, church women of all denominations united in prayer, the first Friday in Lent being selected as the 'Day of Prayer for Missions'.

"In numberless places around the world, from missionaries returning from the homeland, the thought of a day of prayer spread until at the request of many far-away friends, a World day of prayer was first observed in 1927. In 1936 Christians of more than 50 countries kept the day together."

Doctors Will Help With Baby Show

A total of 225 babies has been entered in the Pythian Sister Baby show which will be conducted in Junior high school auditorium at 2 o'clock Saturday afternoon.

Babies chosen Saturday will be presented at a coronation pageant at 7:30 p. m. March 14 in Senior High school auditorium. A small Miss and Master of Lubbock will be chosen, as will infant, junior and senior kings and queens. Two awards have been added to the list. They will be given to the baby with the "brightest red hair" and to a set of twins. Six sets have been registered.

Physical examinations are being given for babies entered in the show. The examining doctors are Drs. Pauline Miller, M. H. Benson, Allen T. Stewart, Ewell Hunt, O. W. English, Olan Key, M. M. Ewing, Arthur Jenkins, and M. C. Overton. Slips entitling babies to free physical examinations will be given at the studio where they are photographed.

COOKY FROSTING

Mix peanut butter with a little hot cream. When it is thin enough spread the mixture over cookies or drop cakes for the children's lunch boxes.

DUSTY ROSE AND DUBONNET

For a striking evening costume select a dress of dusty rose chiffon, with hair ornaments, slippers, bag and large chiffon kerchief of Dubonnet.

SEAGRAVES, (Special)—B. H. Turner, a pioneer of Gaines county has begun erection of a brick building here for business purposes. He expects to have it all rented by the time it is finished.

To Incorporate

The George R. Hart Marriage Parlors, Inc., soon will make it possible to be married by a corporation in St. Charles, Mo., if plans of Mr. Hart, above, go through. The "Marrying Justice," who has united more than 5000 couples in the last three years, says St. Louis business men will give him financial aid in incorporating. He recently had his justice license revoked but continues in business because he is also an ordained minister.

Call For All Warrants Against Fifth Class Fund Is Issued

DICKENS, Feb. 26. (Special)—County Treasurer Mrs. Alice Murphree has issued a call for all warrants issued against the fifth class fund. Other warrants called include:

All warrants up to and including register 343, issued against the third class or general fund; warrents up to and including register 99, against the sixth class fund, or road fund.

MACHINERY PLACED

SPUR, Feb. 26. (Special)—Machinery for the Bryant-Hagins test on the D. D. Hagins farm, southwest quarter of section 118, block 1 H. & G. N. R. R. survey, is being placed there in preparation for drilling. Rains the past week kept the machinery at Rotan.

Star's Debut At 13 In Films Duplicated By Sister But Loretta Doesn't Like It

BY ROBBIN COONS
Associated Press Staff Writer

HOLLYWOOD, Feb. 26 — Loretta Young's little sister, 13-year-old Georgianna Belzer, is making her first picture as one of the school girls in Deanna Durbin's "Mad About Music."

Loretta doesn't approve. Georgianna's so young," she says, "to be starting. . . ." And she frowns, perched on a high stool on the set of "Four Men and a Prayer."

"But you were 13 when you began," we remind her.

"Yes," says Loretta, "and I don't regret it—for me. But that was in silent pictures. All you needed was a passable face. Why, for a long time my picture work was nothing more than play and more fun than play. Herbert Brenon was the first director to make me realize it was work—he put me through 16 weeks of torture on 'Laugh, Clown, Laugh.' But it's all different now. It's all hard work—and for Georgianna, just a child. . . . Oh, I wish she weren't. . . . ."

There's a difference, however, in their respective beginnings Loretta, at 13, took a bus to the studios or caught rides with friends. Georgianna sets forth in town car, with chauffeur, and arrives in state!

Facts You Might Not Know

UNREEL parade: Mr. Moto has rushed into the breach left by the uncertain status of Mr. Chan. . . . As soon as 20th Century-Fox and Warner Oland hit a snag, Peter Lorre got word that he would make four Mr. Moto's instead of three this year. . . . Studio would be hard hit by a cessation of the Charlie Chans, which have been kicking in a profit of a million and a quarter a year. . . . Mr. Moto has not done so well, but there are hopes.

True and fitting: Harry Loud works in Metro's advertising department. . . Dolly Tree is never up one for a dress design. . . . Bob Burns seldom does. . . Isabel is a Jewell. . . Harry Peel peels the RKO bankroll to meet the payroll. . . . But Jane Withers blooms, and the Lanes, who are not long, have plenty of turnings, meaning curves.

Some Quick Glances

IN Brief:

"A Yank at Oxford" establishes Robert Taylor's claim to he-mannishness in a nice, hokumish bit of painless education abroad, expertly done and a sure-fire winner. Maureen O'Sullivan is the girl, and there's an English actress, Vivien Leigh, who ought to be in Hollywood. Jack Conway directed.

"Walking Down Broadway" tells what happens to six chorus girls who pledge to hold a reunion. Lynn Bari, with a movie contract, gets killed by a truck, Phyllis Brooks dies in a fall. Leah Ray goes to jail. Jayne Regan has to flee the country with her absconding husband. Dixie Dunbar, dumb but nice, weds an old roue. Which leaves Claire Trevor with Michael Whalen, and virtue triumphant. Moral: Don't sign pledges, even under Norman Foster's direction.

Romero's A Satirist

TEN years ago Cesar Romero's tall Latin type would have bracketed him as a Great Lover, or else. . . Great Lovers of the Valentino school are out of style now . . . But Romero is right in style. . . . because he kids the Grand Passion, he survives as a comedian. . . . In "Happy Landing" he is so obviously and willingly pushed around by the director that he scores a peculiar hit of his own!

The Marathon race was so named because after the battle of marathon a messenger ran 22 miles to Athens to announce the victory of the Greeks.

"The Buccaneer" Tops All Movie Attractions Here During Week

'On The Avenue' Is At Broadway

PALACE — Sunday, Monday, Tuesday and Wednesday: "The Buccaneer" (Paramount). Fredric March, Franciska Gaal, Akim Tamiroff, Margot Grahame, Ian Keith.

Swashbuckling saga taken from a little known page of American history The film attains moments of greatness, particularly in the magnitude of its depiction of the battle of New Orleans.

BROADWAY—Sunday, Monday and Tuesday: "On The Avenue" (Fox). Madeleine Carroll, Dick Powell, Alice Faye.

Here's a musical comedy with an unusual twist. A young producer has plenty of trouble when his star burlesques the life of the society girl with whom he believes he is in love.

LINDSEY—Sunday, Monday and Tuesday: "Everybody Sing" (MGM). Judy Garland, Fanny Brice, Allan Jones, Lynne Carver, Billie Burke.

The maddest family yet to hit the screen springs into being here. And little Judy Garland sings her way to stardom, ably aided by a large group of the finest comedians.

LYRIC—Sunday, Monday and Tuesday: "Stowaway" (Fox). Shirley Temple, Robert Young, Alice Faye.

A little girl refuge of an American missionary wins the heart of a young playboy when he picks her up in China during an uprising. But in order to adopt the child he must be married. He finds a girl and later in reality falls in love.

TECH—Sunday and Monday: "Dangerous" with Franchot Tone and Bette Davis.

This girl was branded as a dangerous woman but in fact she was misunderstood. Her life was filled with men but her own love affair was a disappointment.

TECH—Tuesday: "Racketeers In Exile" (Columbia). George Bancroft, Evelyn Venable, Wynne Gibson.

A top racketeer flees the big city when things get too hot and takes his gang to his old home town. There they get the idea of a racket with evangelis... and build a huge temple. The money rolls in but in the end he becomes a convert to his own preaching.

TEXAN—Sunday and Monday: "Vogues Of 1938" (Wanger). Joan Bennett, Warner Baxter, Helen Vinson, Mischa Auer, Alan Mowbray.

The head of a famous fashion salon helps a young penniless society girl escape from her loveless marriage. He hires her as a model. Her suitor seeks revenge by opening a rival concern and troubles begin to mount. But she comes to his rescue.

PALACE—Thursday, Friday and Saturday: "I Met My Love Again" (United Artists). Joan Bennett, Henry Fonda, Dame May Whitty.

A romantic New England school girl returns home after 10 years to the sweetheart she jilted. But numerous obstacles present themselves before they are able to recapture the past.

BROADWAY — Wednesday: "There Goes My Girl" (RKO-Radio). Ann Sothern, Gene Raymond.

Rival reporters are very much in love. The girl's city editor wants to keep her on the job so he wrecks her romance at all times. The lovers turn bitter rivals on a big story.

BROADWAY — Thursday: "The Girl On The Front Page" (Universal). Gloria Stuart, Ed-

(Continued on Page 7)

Lovely Franciska Gaal, star of the Hungarian stage and screen, makes her American debut in "The Buccaneer," which opens today at the Palace. The story deals with the amazing Jean Lafitte, pirate king, played by Fredric March.

Alice Faye is not worried about her overhead here, for Robert Young finally wins her in "Stowaway," Shirley Temple's starring picture which is on at the Lyric today.

Not only did the Mohammedan pasha, Keritli Oglu, prince of tyrants, wrest his food from his subjects; he made them pay a "tooth tax" for the wear and tear on his teeth in eating it.

Bette Davis, shown here with Franchot Tone, is a dangerous woman in "Dangerous," opening at the Tech today.

Here are members of the original group of "Arkansaw Hill-Billies," who will appear on the stage of the Lindsey theater Wednesday and Thursday of this week.

Fanny Brice, Allan Jones and Judy Garland make harmony in "Everybody Sing," now showing at the Lindsey.

Dick Powell and Madeline Carroll are starred in "On The Avenue," current attraction at the Broadway.

Farmers Hope To Escape Dust Storms

More Moisture Being Required

SPRINGFIELD, Colo., Feb. 26 (AP)—The flat lands of southeastern Colorado that have cradled many a severe dust storm in recent years were moist and partly covered by snow today, but agricultural leaders were guarded in their predictions that the dust threat had been whipped. Wind, tumble-weeds and moisture were the three factors that farmers were counting on to help them hold down their soil this spring.

Land Back To Weeds

"We are turning 200,000 acres of rough land back to weeds this spring, but we'll need more moisture by June 1 to get the weeds—especially Russian thistle or tumble-weed—started," said Raymond H. Stitt, county agent of Baca county, in southeastern Colorado county. "And we'll need spring moisture to help winter wheat and row crops," Stitt said.

At present, there is more moisture in the soil of this area than in any February of the last six or seven years.

Amarillo, on the southern fringe of the Texas Panhandle section of the southwestern dust bowl, reported 2.82 inches of moisture in February—the third greatest in 46 years of weather recording, and enough to hold wheat until the middle of April.

Only Temporary Relief

Kansas reported this week's rains and snows had provided only temporary relief in western counties. The Oklahoma Panhandle also needs more moisture.

Northeastern New Mexico had 10 to 12 inches of snow last week—the heaviest fall in that section of the dust bowl since 1926.

C. S. Benson, a farmer near Two Buttes, Colo., expressed the consensus of dust bowl farmers when he declared, "we can still have dust storms, but the danger of them has been cut down a lot."

Gulf Oil Test On The Swenson Ranch Has Been Spudded In

SPUR, Feb. 26. (Special)—The Gulf oil test on the Swenson ranch properties in the northwest quarter of section 25, block 2, H & G. N. survey has been spudded in. It is located 15 miles southwest of spur.

W. J. Walsh, Odessa, is the driller. Test is to go 8,500 feet, it is said. It is just over the Garza county line.

District Homemaking Meet Is To Be Held Here Saturday

Lubbock Senior High school will entertain the District Homemaking meet Saturday. Fifteen schools will be represented, from 300 to 400 girls attending.

"Seven Lamps Of Homemaking" will be the theme of the all-day program. Ruth Jacobs, president of the Mary-Emma club, will preside.

Eighty thousand bales, or 40,000,000 pounds of American-grown cotton are consumed annually by one American tire company in the making of cord for use in the manufacture of tires and other products.

ADDS SEED STORAGE

SLATON, (Special)—Sam Skaggs, of the Plains Grains Heads Handling Co., here, reports one of the new buildings his firm has erected will be used to store pummies for feed rations. He also has cotton in another building. The structures are 60 by 110 feet.

Edmund Lowe.

A pretty girl inherits a newspaper and her managing editor is a woman hater. The fireworks start when she overhears him airing his views about women in journalism.

LINDSEY—Wednesday and Thursday: "Love On A Budget" (20th Century-Fox). Shirley Deane, Russell Gleason, Alan Dinehart, Jed Prouty, Spring Byington.

Another in the series of Jones family pictures. Daughter and her new husband have financial worries and to complicate matters, their uncle, a ne'er-do-well promoter, arrives on the scene.

On the stage in person will be the original "Arkansaw Hillbillies."

LYRIC—Wednesday: "Call It A Day" (Warner). Olivia de Havilland, Ian Hunter.

The lives of an ordinary family are almost disrupted by arrival of the first day of spring. Father nearly strays into an affair, mother likewise and the children even have their troubles.

LYRIC—Thursday: "I Cover The War" (Universal). John Wayne, Gwen Gaze, Don Barclay.

A devil-may-care cameraman and his partner are sent to Samari to cover a native uprising and uncover a gun smuggling plot with plenty of action.

TECH—Wednesday and Thursday: "Thunder In The City" with Edward G. Robinson, Lull Deste.

TEXAN—Tuesday and Wednesday: "Second Honeymoon" (20th Century-Fox). Tyrone Power, Loretta Young.

Husband number one makes friends with husband number two and the wife has her hands full in keeping them apart. It's another of those society comedies.

TEXAN—Thursday: "This Way, Please" (Paramount). Charles "Buddy" Rogers, Betty Grable, Mary Livingstone, Reid Sparks, Fibber McGee and Molly.

An unemployed singer and dancer gets a job as an usherette and then becomes a star. Troubles arise with the male star but they are brought together and everything is okay when they have a big wedding on the stage.

BROADWAY—Friday and Saturday: "Golddiggers Of 1937" (Warner). Dick Powell, Joan Blondell, Glenda Farrell.

LINDSEY—Friday and Saturday: "Partners Of The Plains" with William Boyd.

LYRIC—Friday and Saturday: "Sing, Cowboy Sing" (GN). Tex Ritter.

TECH—Friday and Saturday: "They Gave Him A Gun" (MGM). Spencer Tracy, Gladys George, Franchot Tone.

Two buddies in France fall for the same girl. She promises one to marry him but later believes he has been killed. After the war she weds the other and the first one arrives on the scene to find that his buddy has become a gangster. But the gangster finally sacrifices his own life that his pal and wife might find happiness.

TEXAN—Friday and Saturday: "Dead End" (United Artists). Sylvia Sidney, Joel McCrea, Humphrey Bogart, Wendy Barrie, Claire Trevor, Allen Jenkins.

The popular stage play portrays the lives of those who live in the squalor of the city and pictures what certain youths of the neighborhood have grown up to be in a lifetime.

Getting After The Problem

ENCOURAGING it is to note the dispatch employed by the City commission in taking steps to immediately solve what might otherwise become a serious water problem. Letting of contracts for two additional wells during the past week, and further study being directed toward eventual reservoir possibilities, will meet with approval of everyone able to see further than his nose. Drilling of a third well, in the near future, also was agreed upon.

Nothing can handicap a city like lack of sufficient water supply.

San Angelo, Sweetwater and Abilene —neighbors to us—can attest to that. All three of them one time found themselves short of water and had to spend much money and much thought to correct the condition.

Big Los Angeles, to the west, finally had to build a great and expensive acqueduct for use in piping water from many miles away. Tulsa, to our northeast, literally "drowned a town to get a drink" when it established a great reservoir around where the town of Spavinaw once stood and then piped the life-giving fluid to its city network for a distance little short of 100 miles.

Lubbock has never—unless it was in its early, struggling days — had a serious threat of water shortage.

Lubbock has none now.

But as Lubbock goes ahead with new wells and enlarged plans for more water, it is "locking the barn door while the horse still is there."

That's good judgment.

Mrs. Roosevelt's Appearance

A NUMBER of Lubbock and South Plains people who are anxious to see and hear Mrs. Franklin D. Roosevelt when she lectures here on March 8 are wondering if, after all, the wife of the President of the United States will really be in Lubbock as advertised.

The answer is:

"Mrs. Roosevelt will be here, barring, of course, an intervening illness or accident as yet entirely unanticipated."

Only an act of Providence will keep Mrs. Roosevelt from appearing at Senior High school auditorium a week from Tuesday night. On a cross-country lecture tour, Mrs. Roosevelt is as fully contracted here as she is anywhere else. True, accident or illness could convene—but is not any more likely to interfere in the case of Mrs. Roosevelt than in the case of a lesser attraction.

And, by the way, if you're planning to hear Mrs. Roosevelt, better get your tickets at Avalanche-Journal offices tomorrow. They're going like hotcakes!

Game Kurt Schuschnigg

KURT Schuschnigg sounds like a sneeze to a lot of people and means about that much to a lot more, but Thursday he attracted the attention and a great deal of admiration of most of the world.

With his country facing a crisis on the Nazi question, the Austrian chancellor declared "Austria must remain Austria" and proceeded to read the riot act to Der Fuehrer Hitler and his mob in their efforts to make a one-party state out of Austria. He pledged his efforts for Austrian independence in the face of all odds.

With Great Britain 'giving in' to the dictators and France almost in readiness to follow suit, the Austrian's move took courage.

It is about time somebody started talking back to the boys with the colored shirts. It's about time someone started telling them they can't invade just any territory they choose and get away with it, else the entire world will come under their domination and feel the crush of their iron heels.

Schuschnigg's 'snubbing' of Hitler has stirred indignation among the Nazis of Hitlerland and they have decreed he must go. They have branded his speech Thursday as his swan song.

But before he goes, The Avalanche-Journal predicts the Austrian will give 'Little Pants' Adolf and Nazidom plenty of trouble that may bring a showdown once and for all on this goose-stepping 'heil' grandstanding.

We repeat, Schuschnigg may sound like a sneeze to a lot of folks but millions of others, after his stand this week, will more than likely repeat, some under their breath, when they hear his name, that well-known Teuton expression, "Gesundheit"!

The One-Minute Sermon

The righteous is more excellent than his neighbour: but the way of the wicked seduceth them.

The slothful man roasteth not that which he took in hunting: but the substance of a diligent man is precious.

In the way of righteousness is life; and in the pathway thereof there is no death. —Proverbs 12, 26 through 28.

Charles Allen Smart Jots Down Record Of Farm Life In "R. F. D."; Milton Wright Publishes Book On How To Enjoy Yourself Which Also Includes Explanation Of Fine Art Of Self-Improvement

"R. F. D.", by Charles Allen Smart; (Norton).

CHARLES ALLEN SMART is continuing an effort begun a great many years ago in America — in every county which boasts a literature, to be more accurate. This is an effort to put on paper the fundamental things about the actual people and their actual lives, to form a record which though regional in detail, may be unlimited in its meaning and implications.

Smart is an Ohioan; he was, just before he began his adventure in Ohio, a reasonably pointless literary man about town—town being New York, of course. Because he inherited a farm (really two of them) on the bluffs of the Ohio river he decided to try to make a go of farming. This he has done, within certain limits.

Week By Week Record

"R F D" is the week by week record of the venture. It is written as amusingly as such a record could safely be written. His life is not a lark indulged by a young man with more money than brains; Smart inherited some money too, but not enough to make him a gentleman farmer in the current sense of the term. Something had to come out of the dirt, and getting it out makes the adventure, not writing about the process.

Three years or more past he came into his inheritance. The farms were family farms, and although he does not believe in the institution of inheritance, Smart took advantage of his because he discovered it was not so easy to abolish an institution as it looks on paper. A few months after he took over, he went to Massachusetts and married, although neither he nor his bride believed one should marry without a couple of years of trial and error together. There too, Smart found it was not too easy to rid oneself of an institution.

What makes Mr. Smart's dirtdiary so attractive is that he has told the truth about his adventures —the failures with the successes, the ridicule with the praise. And in addition he has been trying to build a satisfactory life of the mind and the spirit all the while, a rounded and lasting life that will in the end justify the effort spent. This is understanding observation, superbly put down.

Tips For Better Life

"MANAGING YOURSELF," by Milton Wright; (Whittlesey House).

IF most Americans, like the bee, aren't improving each shining hour, it isn't the fault of the nation's authors and publishers, for the trend toward books on self-improvement shows no sign of diminishing.

The latest such work is "Managing Yourself," by Milton Wright. In previous works by this erstwhile newspaperman and magazine editor, Wright has endeavored to teach his reader audience the arts of conversation and getting along with people. His stated object, in his latest opus, is to tell you how to get along with yourself.

Reader Gets Pointers

From the new Wright book, the reader who is incompatible with himself gets pointers on how to overcome the mental and physical obstacles that bar his path to successful living.

If he is an incessant reader of inspirational works, he will find in "Managing Yourself" many facts that he has learned before, together with a lot of new ones presented in lucid, compact and sensible fashion.

Is Told Magic Formula

The reader who succumbs easily to fatigue learns that he must quit coddling himself; that striving for that "second wind" helps strengthen his character. He is told the magic formula for strengthening his power of concentration. The recipe is nothing new — practice, and more practice—but Wright's plausible arguments sell the reader on its efficacy.

There are other instructive and interesting chapters on how to develop the memory and imagination; some horse sense on how to keep physically fit; tips on straight thinking and managing other people, and some concluding advice on how to get things done.

Swindling Still Profitable

"ROBBERY BY MAIL." by Karl Baarslag; (Farrar & Rinehart).

P. T. BARNUM'S famous estimate of the birthrate of suckers — one a minute—seems like a shocking understatement after you read "Robbery by Mail," by Karl Baarslag.

Mr. Baarslag here tells the story of that amazingly capable and relentless group of officers, the post-office inspectors, and of the frauds which they uncover and break up; and in the course of telling about those frauds he indirectly sheds a revealing light on the stupendous gullibility of the great American public.

Frauds Equally Cock-Eyed

For it seems that no swindle is too bare-faced to succeed. People don't sell gold bricks or title papers for the Brooklyn bridge any more—at least not very often—but frauds equally cock-eyed are put over every day.

There was the great "Drake estate" fraud, for instance. Many thousands of people fell for this utterly preposterous swindle; indeed, after its perpetrator had been tried and convicted, they kept on falling for it, sending good money in after bad as hopefully as so many bumpkins at a county fair shell game.

The postal inspectors must lead a discouraging sort of life, protecting people from their own folly. But they do an excellent job — do it without fanfare of publicity, incidentally — and Mr. Baarslag has written a highly entertaining and informative book about them.

Thumbnail Reviews

"LOST ATLANTIS," by James Bramwell, is a strange study of the fabled land under the sea; Bramwell more than half believes it existed, and even if it did not, he sees the myth as the "classic example of spiritual adventure," and in that sense believes it may be recovered (Harpers).

• • •

THE "Collected Poems" of E. E. Cummings are the embodiment of our modern Puck, the crystallization of heart-breaking nonsense, a collection of unnecessary difficulties which perhaps could be met no other way. Cummings is Cummings and, we might add, Cummings is you even though you don't think so. (Harcourt, Brace).

• • •

ONE might read Josef Ranald's "How to Know People by Their Hands" and then be the life of almost any masquerade party. Ranald can glance at your hand and see your soul—or at least that is the general idea. He should try it on Cummings. (Modern Age).

IF one must collect something, coins are as good as anything, and perhaps better than stamps and street car transfers. Joseph Coffin's "Coin Collecting" is a small book written for average people with average pocketbooks. It tells how to clean and care for the collection, as well as how to assemble it. The News Behind The News

WASHINGTON
By Ray Tucker

THOSE hard-riding Hoosiers—Messrs. McNutt, McHale and Minton—may form the spearhead of a political phalanx that will smash Roosevelt defenses in 1940. The President's repeated rebuffs of the handsome Paul's candidacy have infuriated the latter's followers.

Mr. McNutt, a brash fellow, won't slow down simply because President Roosevelt and "Jim" Farley have expressed their displeasure at his crowding tactics. The Indiana gang will shove ahead, defy the political powers, if necessary, and form alliances wherever they can in the early stages.

Mr. McNutt seems destined to play the role which Herbert Hoover did during Coolidge's second term. Every anti-third-termite will rally around McNutt—not because they love him, but because they dislike Mr. Roosevelt. Thus the Adonis from Indianapolis may become the original stop-Roosevelt man.

• • •

CULPRIT: The disciplinary transfer of the air corps colonel who ferried Mr. McNutt from San Francisco to Denver has been blamed on President Roosevelt. It has been cited as evidence of presidential vindictiveness against potential rivals.

What the long-range dopesters forget is that Mr. McNutt's particular enemy at Washington is Harry Woodring, Secretary of War. Time and again it has been suggested that the President would rob Harry of his post to pay off Paul. Mr. Woodring shudders every time the mighty name of McNutt is mentioned in his presence.

• • •

WANTS: Sponsors of the American Youth Congress to be staged here early in March have dealt a subtle snub to Mrs. Franklin D. Roosevelt, although perhaps unconsciously.

Mrs. Roosevelt has been listed as the principal speaker in a symposium dealing with the general question of "What does youth want today?" She recently informed the executive committee that she would answer that question with a speech entitled, "Youth wants peace."

Maybe Youth does. But the more practical members of the organization have scheduled for themselves orations proclaiming that "Youth wants jobs" and "Youth wants security." The First Lady's address, however, in view of the crises in Europe and the Far East, will probably steal the show from the bread-and-butter orators.

• • •

VICTORY: The taproom strike at the National Press club demonstrates how noble principles can go to pot under the pressure of a deep thirst. Communists and economic royalists—New Dealers and anti-New Dealers—C.I.O.-ers and A. F. of L.-ers lined up against an excessively finicky Board of Governors.

When the board suspended the bartender for serving a drink without collecting a quarter, the "liberal" element struck. With the slogan of "Free drinks for free people," they refused to buy at the bar, brought in their own liquor and established a picket line against "scab" purchasers. Tom Girdler's lobbyist and reporters for radical newspapers linked arms as they sang the drinkers' "Internationale." The only newspapermen allowed to buy at the bar during the three-day strike were two Japs. Nobody would give them free drinks.

The board eventually capitulated, granting the revolutionary strike committee the right to police the taproom. It was a victory for something and somebody, but nobody knows just what it was all about.

• • •

DWARFS: President Roosevelt recently told a friend that he will miss "Joe" Kennedy chiefly for the latter's funny stories. The serious financier and trouble-shooter often brightened a White House evening with humorous anecdotes.

Just before he left for London "Joe" regaled the President with a yarn that rocked White House guests with laughter. "I was so surrounded by Senators at yesterday's committee meeting," said the ambassador, "that it reminded me of the time when I was head of Keith's. Sophie Tucker was the headline attraction, but the number before her was a dwarf act.

"I went backstage just as Sophie was coming on, fighting her way downstairs through a storm of midgets. She flung up her arms and screamed at me: 'Mr. Kennedy, how can I perform when I am up to my neck in dwarfs?' I didn't know the answer then, but I do now. Senators are worse than dwarfs."

• • •

UNPOPULAR: When prospective senatorial victims of the "purge" which Joseph Guffey proclaimed at the close of the Supreme court fight heard that he was facing stiff opposition over control of the Pennsylvania machine, they threw their hats in the air.

"I hope," said one, paraphrasing a famous reporter's line, "that his troubles are not trivial."

"Joe" would win easily if the Senate ever staged an unpopularity contest—among New Dealers and antis alike.

NEW YORK
By James McMullin

A FEW weeks ago, when the Democratic party in New York state seemed hopelessly split into half a dozen embattled factions, Republicans were licking their chops in anticipation of an easy victory this November. Now that the draft-Lehman movement is gaining headway behind the Democratic scenes G.O.P. leaders recognize that they may have a far tougher scrap on their hands than they expected. They are therefore giving much thought to the selection of an outstanding candidate for governor who can capture more than a merely partisan vote. Strong backstage sentiment is developing for Congressman Bruce Barton in this connection.

Mr. Barton is an amateur at politics, but he has assets which few men of purely political background possess. One is his expert knowledge of public relations. Another is his very wide range of contacts outside of political circles. He has a refreshingly original approach to current problems. It is figured that such a personality might have much more voter appeal than someone more closely identified with politics.

Certainly there will be opposition to this idea from old-line G.O.P. politicos, who would resent such rapid promotion of an "amateur" when there are so many professionals available. But powerful elements are likely to get together to try to put Barton over, which would mean a significant change in the character of G.O.P. leadership.

• • •

COMERS: The four midwestern Republican Congressmen whom Mr. Barton recently named as potential Abraham Lincolns have two common denominators. All are young (from 37 to 42,) and all are World war veterans and members of the American Legion. As up and-comers who may play a large part in shaping tomorrow's political history, their individual backgrounds are worth noting.

• • •

HALLECK: Charles A. Halleck is Indiana's lone Republican Congressman. He won a special election to fill a vacancy in 1935 and was reelected in '36, despite the strenuous efforts of the potent McNutt Democratic machine to beat him.

He has been a Hoosier all his life, taking both his college and law degrees at Indiana University. While still in his twenties he won fame as a county prosecuting attorney. He is an attractive, approachable person and has cultivated an effective style of homely oratory.

• • •

WHITE: Dudley A. White of Norwalk, Ohio, is another Barton nominee for tomorrow's hall of fame. He's associate publisher of the Norwalk Reflector-Herald and vice-president of Sandusky Newspapers, Inc.

Mr. White is an aggressive, energetic young man with intelligent ambitions and a very quick mind. He isn't quite so much a "man of the people" as Halleck and is definitely more conservative. Insiders believe he may go farther in the end.

He has built up his political career with care and skill via the American Legion, of which he was Ohio State commander in 1929-30, and his connections with the Mack family, which is very influential behind the Ohio scenes.

Training For Future "Brain Trusters"

"Easy Learning" Kids Pushed Ahead By Teachers

Playing chess is only one of the things the Speyer School childr do at the ages of nine and ten. Other activities include individ research in the library, building reproductions of primitive shelte speaking French, reading informative adult publications, findi errors in encyclopedias, wiring a room and embarrassing their tea ers with their erudition.

BY PAUL ROSS
NEA Service Staff Correspondent

NEW YORK, Feb. 26—When the work being done in a little school on 126th street here is finished, America will be assured of a supply of Brain Trusters, forevermore.

At the Speyer School, better known as P. S. 500, there are fifty children whose average ages are 9 and 10. They read the most highly informative magazines and newspapers. They do their regular school work in the first two hours of the morning session and devote the rest of the day to research and study on subjects like sanitation, transportation, shelter and lighting. Each child reads an average of three books a week besides his regular school texts and the volumes run the gamut, from novels to scientific works.

The children speak French, play chess, find errors in standard encyclopedias and do hard work like wiring a school-room, cooking and wookwork. Their I. Q.'s range from 130 to 200 and they come from families in all economic groups.

A New Kind Of School

Are they prodigies? "No" say Professor Leta Hollingsworth, of Columbia Teachers College, and Dr. Benjamin B. Greenberg of the Board of Education.

They are "rapid learners." 50 of the close to 300,000 children in the U. S. A. who are capable of unlimited education. Until very recently, public school systems which wrestled with the problem of backward children did practically nothing for the superior child. The Speyer experiment is the first attempt by a publicly-financed school system to develop a long-range program for the education of the exceptional child. The fifty youngsters are the happy and brilliant subjects of an experiment, conducted by Columbia Teachers College and the Board of Education, that is designed to revolutionize the country's educational system.

The experiment began in February, 1936. The children were selected from among 600 applicants represented every section of York City. They were divide cording to their average ages two groups of 25 and each selected a subject to study for semester.

British Fliers Now Launch One Big Plane Off Bigger C

(By The Associated Press)

ROCHESTER, Eng., Feb. 26.—Two aviators heaved a sigh of relief after a trial flight here in which their plane took off in one piece and came down in two.

They were John L. Parker and H. L. Piper, and the plane they were testing was Britain's new composite transport ship.

Sometimes called the pick-a-back plane, it is a two-in-one contraption designed to solve the problem of getting a heavily-loaded craft into the air.

Designer's Dream

Because water is sticky, it often is hard for a seaplane to take off with a load which it easily can carry once it gets in the air.

So, reasoned Major R. H. Mayo, designer of the two-in-one plane, why not get around that problem by giving it a boost?

Mayo, accordingly, designed two planes—a 36,000-pound flying boat and a 20,000-pound seaplane—which fit together with the smaller the larger.

The small plane with fuel eno for an ocean journey would w less than just fuel alone for a s lar flight by the big plane.

Thus the big plane, fueled only a short flight, would be abl take off with the little one, hea loaded, on its back.

And It Works

Then the little plane, its mo purring, too, could unhook in air and make off with a hea load than it alone could lift f the water.

And it worked. In a trial h the two planes took off togeti parted at 700 feet and came do separately.

Imperial Airways and the Brit air ministry have a joint interest the composite plane.

In peacetime the smaller pla could carry a 2,000-pound load mail non-stop to America or Orient. For war it could be c verted into a long-range bomber.

Swung from a crane, the smaller plane is lowered into place atop the larger. The larger then takes off from the water, helping boost up the smaller, which later disengages in midair.

Must Standardize Products

was pointed out that in or- to make the proposed truck ing project most profitable and to minimize marketing cost, arrangements must be made to standardize the products, to plant them at the same time so that the crops will be ready for marketing in large lots at the same time, and farmers must otherwise cooperate.

In information released this week-end to irrigation farmers, it was explained that the purpose of the association is to "help its members make as much profit as possible from irrigation farming."

"The only way irrigation truck growers can expect to produce profitable cash crops is for a sufficient number of them to grow a sufficient acreage of certain crops to produce sufficient quantities to market in carload lots," irrigation farmers were told.

Can Be Grown Successfully

"Truck crops can be grown successfully here—that is a proven fact. Our crops mature and are ready for market at times when supplies from other sources are short. Our vegetable products will be on the market after exhaustion of the South and East Texas crop and before the Colorado crop is matured.

"Our irrigation truck farmers have every natural advantage to make money—provided they will take it."

The pamphlet concluded with: "It is probable that the marketing of these crops would be handled through a home-owned, home-managed cooperative marketing association."

A committee member pointed to the probability that with sufficient production of truck crops the marketing problem would take care of itself, possibly not within a year, maybe not two, but in three or four. After the section has proved it can produce truck crops in sufficient quantities to warrant investments in canning factories and storage and curing plants, those things will come, he said. That is the procedure the trucking industry in other sections of this area has taken.

All irrigation farmers interested in truck crops are asked to attend the Monday night meeting so that they may take advantage of the present season if plans are worked out.

BRUNSON IS FEEDING

SLATON, (Special)—W. W. Brunson of Midland, a well-known West Texas cattle feeder has about 1,000 head of cattle on the ranch of Mrs. A. D. Robertson here. He also has some on feed at the Corn ranch in Crosby county.

Poplars Keep Wind From Windmill But They're To Stay

There's nothing wrong with George D. Whiting's windmill—except that there is no wind to turn its fan.

Considering the fact Whiting lives on the South Plains, that is news.

A great border of 40-foot Lombardy poplars around his earthern tank shoulders the wind aside, and Whiting has to pump with a gasoline engine.

"Some of my neighbors want to know why I don't use an ax on the trees," said Whiting, whose farm is a half mile east of Becton, "but I tell them I'd rather use it on those who would cut them down."

He explained he had lived in the timbered sections of the northwest and that the trees "help some" to banish nostalgia.

Moisture in the Becton section "probably is better than at this time since I can remember. Farmers can't work their land because of it."

He has farmed in that section most of the last 24 years.

The poplars he planted in the summer of 1913, from "switches" cut on the farm of "Uncle" Jimmie Reid.

McDonald Gives Data On Texas

AUSTIN, Feb. 26 (AP)—To a claim by Agriculture Commissioner Harry Wilson of Louisiana the Pelican state raises a "larger diversity of crops than any other state in the union," Texas' Commissioner J. E. McDonald had this to say:

Texas has more than 500 different kinds of soils and practically every vegetable grown in the United States can be profitably produced in Texas the year 'round.

It produced last year 72,000,000 bushels of corn (compared with Louisiana's 25,000,000).

One Texas county produces more spinach than any single state outside of Texas.

It grows more than 50 per cent of the nation's entire sorghum grains, raises more turkeys than any other state, produces more than 75 per cent of the country's mohair and its truck and fruit crop last year brought more than $30,000,000.

Last year's cotton crop was 5,230,000 bales (compared with more than 1,000,000 in Louisiana) and its citrus fruits totalled 10,000,000 crates.

It has the largest number of commercial rose gardens.

"Besides that," he concluded, "we have enough blue bonnets to deck the yards and gardens of the entire world and enough birds to sing to the earth's teeming millions."

Crop Loans Are To Be Available

Farmers who want to borrow money from the Emergency Crop Loan service of the Farm Credit administration, may make applications for loans beginning Monday, Fred N. Warren, supervisor, has announced. Warren's office is in the federal building.

Little change in the regulations for 1938 loans from the 1937 loans have been made. Limit of borrowing is $400.

Excellent collection records were established by South Plains supervisors for the 1937 loans, said J. Edwin Brown, Amarillo, field supervisor.

Warren, who has Lubbock, Lynn, Swisher and Hale counties, made collections here of 99 per cent, with corresponding records in the other counties, according to reports by local committeemen. Hockley county reported over 93 per cent collections. L. B. Wright is collector there.

Floyd, Crosby, Dickens, Dawson, Terry, Yoakum, Bailey, Lamb, Castro, Garza and other counties did equally as well. Cotton farmers and wheat farmers paid out on their loans.

Back loans for years prior to 1937, were also collected.

Chappelle To Be Superintendent Of Vocational Judging Tests

Ray L. Chappelle, head of the department of vocational agriculture at Texas Technological college is to be superintendent of vocational judging contests at the Tri-State fair grounds in Amarillo, March 7.

Vocational teams from a wide territory have entered the annual contest of the Amarillo Fat Stock show. Prizes will be awarded winners.

PARMER WHEAT ACREAGE

FARWELL, (Special)—Parmer county's wheat acreage this season is estimated by County Agent Jason O. Gordon at 150,000 acres. Stand is good and February rain and snow has helped the stand. Farmers indicate they expect a good crop this summer, based on present indications.

Area Is Supplied With Hatcheries

Forty-two hatcheries in Lubbock's territory are now operating this season, with a capacity of 2,500,000 eggs hatched every three weeks. The number represents five new plants and the egg capacity of several times that number increased.

The season started in January, although it was the last of the month before all of the plants were in operation.

Abundance Of Feed

Hatcherymen report a change in the demand for the heavier, meat type of chickens. Owing to large grain crops of last year there is an abundance of feed and farmers prefer the meat type rather than the egg production type.

The demand for the smaller, egg producing strains, has fallen off considerably. Some of this is due to the fact that the price of eggs is down.

Season of the hatcheries will close before summer, with some of the plants operating until around the first of July. Capacity of all the plants this year is considerably above that of previous seasons.

Shallowater Grange Chapter Is To Be Host To County Tuesday

Shallowater National Grange chapter Tuesday night will be host to the county Grange chapter beginning at 7:30 o'clock in the community club house.

Earl Davis of Roosevelt, is county master.

Officers will be elected and a plan of work for 1938 drafted, said Glenn Blackmon, assistant lecturer of the Shallowater chapter.

BUILDING WAREHOUSE

SUDAN, (Special) — The Sudan Warehouse and Storage Co., is building a new cotton warehouse here. It will house about 1,500 bales.

Wheat Prospects On South Plains Greatly Improved After Recent Rains And Snow

Wheat prospects on the South Plains have been greatly increased by the snow and moisture of the past week or ten days and it is believed that enough moisture is available to last until in April.

Northern sectors of the South Plains area, heretofore dry, received moisture. Hart, Dimmitt, Kress, Tulia, Happy, Sterley, Edmondson and other towns had several inches or more of snow, where there had been but little moisture during the winter.

Some farmers reported that there had been enough moisture to bring up dry planted wheat, sown last fall but which had not had any moisture since planting.

No Acreage Abandoned

As far as has been reported, no acreage has been abandoned. It was believed that the dry planted wheat would have to be abandoned, but moisture came in time. There has been no winter-killing as far as reports show.

Floyd, Hale and Swisher counties are the heaviest in acreage. They have received plenty of rain or snow.

General conditions on the South Plains now are estimated at from 90 to 100 per cent of normal. The latter percentage holds good up to north of Plainview, while from that section to Happy the condition is about 90 per cent. Crosby and Floyd counties are in the 100 per cent grouping. Castro is probably 90 per cent, or better.

Conditions Are Good

Lamb, Lubbock, Hockley, Lynn, Scurry, Dawson and Dickens counties are not large producing areas. Their conditions are good also.

Reports from railroad agents of the area give the following:

Floydada: wheat is looking good; irrigation farmers have watered crop before late moisture.

Lockney: enough moisture in the ground to carry wheat until in April, at least.

Wheat In Good Shape

Amherst: what little wheat there is in this area in good shape. Recent moisture a big help.

Lamesa: Dawson county wheat is in good shape; acreage small but the conditions are excellent.

Abernathy: wheat condition 90 to 95 per cent of normal; acreage is large; some growth reported.

Crosbyton: wheat has sufficient moisture to last until April; about 900 cars shipped the past year and more will be before summer.

In Excellent Condition

Ralls: wheat in excellent condition; acreage of the area larger than last year.

Muleshoe: Bailey county wheat crop is good.

Hart: snow and moisture of the past few weeks enough to get the crop started. Some dry planted wheat in this territory.

Snyder: Scurry county crop is in good shape; Snyder expects to ship 150 to 175 cars this season.

Swisher Wheat Looks Good

Kress: Swisher county wheat looks good. Enough moisture to last for several weeks been received.

Shallowater: Northwest Lubbock county wheat in good condition.

Dimmitt: Castro county has best wheat crop prospects for this season of year for several years. Acreage may not be as large as was planted a year ago.

Hale Center: 80,000 acres of wheat here in excellent condition; has not been suffering for moisture; enough February rain to carry the crop along.

GOOD SEASON REPORTED

BROWNFIELD, (Special)—A good season for Terry county farmers is reported in all sections of the county. Land preparation will begin again as soon as farmers can get into the fields.

NEW SEAGRAVES PAPER

SEAGRAVES, (Special) — Amos Harper, an attorney, has begun publication of the Seagraves Reporter here. It is the second paper for the oil field town.

Fruit Trees Have Apparently Not Been Damaged By Freeze

Fruit trees, aside from apricots, apparently have not been injured by freezing weather during February, according to reports here. Only apricot trees were in bloom when the first snow fell.

Pear trees have not shown much indication of buds swelling in anticipation of blossoming out. Plums and cherries follow pears. Apple trees likewise are apparently dormant.

Grapes are the last to bloom. They generally do not bloom until later in the spring.

STILL BUYING GRAIN

LITTLEFIELD, (Special)—Peyton Packing Co., of El Paso, owners of a large cattle feeding project here, are still buying grain for feeding their livestock. They shipped out all the cattle here just before the first of the year and have not restocked the pens. Numerous changes in equipment and methods are planned.

WORKING ON PROJECTS

ROPESVILLE, (Special)—On at least 41 out of the 48 houses to be erected on the Ropesville Community project this year, work has been done. Some of the houses are about complete.

Crosby County Is In Good Shape

(Special To The Avalanche-Journal)

CROSBYTON, Feb. 26—Crosby county is in the best shape it has been in, from an agricultural standpoint, in many years, with prospects of improved conditions for 1938.

Three record crops were grown here during 1937: wheat, cotton and grain sorghums.

Cotton acreage, estimated at 110,000 by County Agent Ralph Howe, produced over 80,000 bales, an average of 380 pounds of lint per acre.

Much Wheat Shipped

Last year from 80,000 acres in the county, well over a million bushels of wheat was harvested. Railroads have shipped out over 800 cars of wheat and a large number of cars from the East Plains, went to Floyd and Dickens county points for shipment.

Grain sorghums acreage was estimated at 90,000. The crop exceeded an average of a ton of heads per acre.

This year at least 100,000 acres will be planted to grains.

Wheat acreage is estimated at 90,000 or better. Conditions are about normal and no acreage has been abandoned.

The Brontosaurus of prehistoric times attained a length of 70 feet and weighed up to 30 tons. It live don a vegetarian diet.

know it exist before Man came along?" "No," choruses the class. So a study of shelter from the most primitive forms is begun. The children take collective jaunts to museums and do individual research. In the classroom they build models of the various kinds of shelters.

Since study of any large subject like shelter or lighting must inevitably involve study of related subjects the children store up a tremendous volume of information. Professor Hollingsworth and Dr. Greenberg state, with proud yet somewhat apologetic smiles, that one must get accustomed to hearing from these children about every fifteen minutes some fact one never knew before.

In classes, teacher's question elicits none of the pause-to-think characteristics of the ordinary school. On any question, most of the hands are up instantly. And they know when the right answer is given, too, for the hands drop just as quickly.

The writer asked one boy what he reads in his spare time.

"Books on teeth," the boy replied.

"Why, teeth?"

"Because I want to be a tooth scientist."

"What do you propose to do for teeth," the writer asked.

"I'm going to find a serum," the boy said, "to inject in gums to make new teeth grow by stimulating the nerves. I read in a newspaper that a man of 70 had four sets of teeth. I think anybody should be able to grow new teeth like that."

"But where will you find your serum?" we asked.

"In vegetables. That serum is in some vegetable and I'm going to find out which one."

TARZAN THE MAGNIFICENT No. 37 By Edgar Rice Burroughs

Stanley Wood shivered—not from fear, but from the shock of Queen Gonfala's words. A few moments ago her eyes had spoken to him of love, and now she had condemned him to death. A wave of hatred surged up in his mind—but in his heart he still loved her.

A mocking laugh rolled from the lips of Mafka. "Captive, you sought to escape; but my power brought you back—the supreme power conferred upon me by the mystic diamond. In seven days you shall die!" Gonfala, staring blankly, gave no sign of sorrow. . . .

. . . Wood's plight seemed hopeless, but no less so than the plight of Tarzan, who was imprisoned with the man called Lord in the land of the Zuli. Tarzan walked to the window and tested the bars; then he looked into the courtyard and saw a weird, slinking shadow.

"It's no use thinking about getting away," Lord advised; "it just can't be done. Woora's a wise old owl, and he can think of more devilish tricks than the Devil himself. We're finished — you and I. I'll be thrown to the lions; you'll be tortured to death!"

Heaviest Natural Oil Production Reported For Seminole Pool In Gain

Promise For An Extension Of Pool Eastward Being Offered

BY JOHN B. BREWER
Special Oil Writer

Development by Ohio Oil Co.'s No. 2 S. J. Averitt of the heaviest natural oil production—315 barrels in 24 hours—in the Seminole pool in Gaines county, bottomed below the point at which other wells in the area struck water, was perhaps West Texas' outstanding development this week. Amerada No. 1 R. W. Robertson gave further promise of extending the Seminole field 1 1-2 miles east. Shell No. 1-C George Baumgart, 1 1-2 miles northeast of production in the Denver pool in southwestern Yoakum county, was swabbing slightly in excess of two barrels of oil hourly, with the total depth 5,018 feet.

Both locations and completions showed a decline from the preceding week. Locations were staked for 41 field tests and six wildcats in 12 counties compared with 45 and six, respectively, in 10 counties during the preceding week, while 35 producers were completed and five failures abandoned in a dozen counties, six producers and four dusters less than the number in 12 counties the week before.

Makes Natural Flow

Ohio No. 2 Averitt in Gaines county drilled from 5,060-89 feet at the rate of one foot per minute and at a total depth of 5,089 feet, 1,739 feet below sea level, made a natural flow of 315 barrels of fluid in 24 hours through 2 1-2 inch tubing, 97 per cent oil, three per cent basic sediment and no water. Gas was estimated at 200,000 cubic feet daily. A quarter-mile southwest extension, the well is 1,980 feet out of the northeast corner of section 228-G-WTRR.

Amerada No. 1 Robertson, 1 1-2 mile east outpost and 660 feet out of the southwest corner of section 196-G-WTRR, flowed 58 barrels of oil through choked tubing in two periods totaling 19 hours, bottomed at 5,082, after treatment with 3,000 gallons of acid. It was killed for cementing preparatory to completion of sidetracking tools lost at 5,115 feet. Much of the pay remained to be redrilled.

The week's abandonments included Plymouth, Carter and Continental No. 1 H. Giesecke, southwestern Gaines county wildcat, in the northwest corner of labor 1, league 296, Reagan county school land. It drilled to 5,800 feet without striking oil, gas or water.

Conditioning Not Complete

Conditioning of Shell No. 1-C Baumgart, northeast outpost to the Denver pool in Yoakum county, had not been completed, 15 barrels of new oil being recovered in seven hours swabbing. Location is 1,320 from the north, 2,200 feet from the east line of section 866-D-John H. Gibson.

Ohio No. 1 Clawater, slightly more than one mile southeast of Bond & Bohago No. 1 West, a discovery well eight miles north of the Denver pool opener, shut down at 5,268 feet for orders after swabbing 25 barrels of fluid daily, half oil and half basic sediment and water. It had been treated with 12,000 gallons of acid. Gulf No. 1 Dixon, wildcat in the southeast quarter of section 609, about mid-way between the Bond and Bohago producer and the Bennett pool to the east, tested dry at 5,265 feet and prepared to core ahead.

The Bennett pool added two producers in Honolulu 3-677 Bennett, flowing 998 barrels of oil in 24 hours at 5,249 feet after shooting and acidizing, and Mid-Continent No. 1 Bennett, in section 678, flowing 1,424 barreis at 5,240 feet after shooting.

Tubing Is Run

Sid Richardson's No. 1 E. S. Slaughter, which the week before marked a 2 1-2-mile north extension to the Slaughter pool in southwestern Hockley county, flowing 239 barrels of oil in 10 1-2 hours following a shot, ran 2 1-2-inch tubing to test further at 4,994 feet. It is 440 feet out of the southwest corner of labor 39, league 39, Maverick county school land. Gulf No. 1 Gordon, one-half mile southeast of production, cemented 7-inch casing at 4,757 feet and Gulf No. 1 Mallett, two miles southwest of the Slaughter pool, cemented 7-inch pipe at 4,775 feet. Both were changing from rotary to standard tools.

P. N. Wiggins and others' No. 1 Dean, four miles northwest of the Duggan pool in southeastern Cochran county, failed to flow when opened, swabbed six barrels of oil hourly and was installing flow valves. Bottomed at 5,078 feet, it recently was treated with 3,000 gallons of acid. Location is in the center of labor 26, league 92, Lipscomb county school land. George Livermore No. 1 Wright, five miles north of Wiggins and others No. 1 Dean, flowed 27 1-2 barrels of fluid, 62 per cent oil, 30 per cent basic sediment and 8 per cent water, in 24 hours after treatment with 8,000 gallons of acid at a plugged back depth of 4,987 feet. It is in the southeast corner of labor 26, league 96, Mills county school land.

The Texas Co. was digging cellar and pits for No. 1 Mallett, a wildcat in extreme southeastern Cochran county, 440 from the north, 660 feet from the east line of section 7-G-psl.

C. R. Mallison and others' No. 1 Brown, Reeves county wildcat six miles northwest of Pecos, was fishing for tools blown up the hole by an increase in gas at 4,478 feet, 216 feet in the Delaware sand. Barnett and Hill No. 1 Ely, Reeves wildcat eight miles southwest of Toyah, shut down for orders at 4,223 feet, 346 feet in the Delaware sand, having had no shows.

Magnolia and Tex-Mex No. 1 McKee, northern Pecos county wildcat, which headed oil from Simpson sand at 5,271-80 feet, and ran pipe at 5,330, had drilled to 5,354 feet in shale, unchanged. Stanley Thompson No. 1 Elsinore, south central Pecos county wildcat, had reached 7,134 feet. Floyd Dodson's No. 1-A Texas American Syndicate, northern Brewster county wildcat, had passed 7,400 feet. Humble No. 1 Lewis & Wardlaw, seeking Ordovician production in western Tom Green county, had drilled to 6,678 feet in lime and shale.

Citizens Of Communities Are Hauling Gravel For Roads

SPUR, Feb. 26. (Special)—Citizens of the Red Mud and Kalgary communities have banded together to haul gravel on highways in their communities, after recent snows had kept them at home because of bad conditions.

County and city of Spur graders were used to level off the road. The commissioner's court and the Spur Chamber of Commerce bought oil and gas for the trucks, which residents of the community furnished to haul gravel.

Dr. Doyle D. Jackson Will Speak To School Gathering

DICKENS, Feb. 26. (Special)—Dr. Doyle D. Jackson, Texas Technological college, Lubbock, will speak Thursday night to school patrons, trustees and teachers of Dickens county in the high school auditorium here.

Several questions including the elimination of the county superintendent's office and the unit system, are to be discussed.

Dickens County Vote Strength For 1938 Is Near 2,800

DICKENS, Feb. 26. (Special)—Dickens county voting strength in the 1938 primaries and elections will be approximately 2,800 it is indicated, after Collector-Assessor J. L. Koonsman reported 2,284 poll taxes and 116 exemption certificates issued.

There are about 400 persons who are above the poll tax paying age, entitled to vote.

North Texas Teachers College Favorites Are Selected

—Portraits by the Doherty

DENTON, Feb. 26—This year's balloting for favorites to be honored in the "Yucca", student annual at the North Texas State Teachers College, has seen the selection of the five prettiest examples of feminine pulchritude in the history of the school, says Harry Black, "Yucca" editor.

Black offers the pictures above as proof that the public places beauty high on its list of traits that determine popularity. Traditionally North Texas elects favorites rather than beauties, and hence includes two men among the seven students honored by the "Yucca."

Miss Mary Green, junior from Rosebud, was the only blonde among the seven Teachers College popularity aces. Miss Evelyn Hunt, junior from Denton, ranked first among the girls.

Other favorites: Miss Sylva Barnes, sophomore from Munday; Miss Mary Kendrick, sophomore from Dallas; Miss Elmo Joy Wilson, junior from Hamlin; Clyde Heath, senior from Venus, and Bowen Evans, senior from Denton.

In New Field

Harley D. Woods, above, former insurance man and mayor of Lubbock, will return to the insurance business beginning March 1, becoming associated with the Aetna Life Insurance company's office here, said Rayford B. Hills, assistant district agent, yesterday. For the past several years Mr. Woods has been associated with Texas-New Mexico Utilities company in an executive capacity.

Of the 3765 persons lynched in the United States since 1889, all but 749 were negroes.

Dr. J. O. Ellsworth Is Speaker At Hale Center F. F. A. Banquet

HALE CENTER, Feb. 26. (Special)—Ninety boys and their parents and friends attended a dinner program of the Hale Center chapter of the Future Farmers of America Friday night at the Hale Center High school.

The program's opening ceremony was conducted by the club officers: Kenneth Hammitt, president; Robert Heath, vice-president; Jack Faver, secretary; Ralph Brock, reporter; Olag Earl Swenson, treasurer and W. T. Rogers, adviser.

Dr. J. O. Ellsworth, head professor of economics at Texas Technological college, was principal speaker. Others on the program were W. T. Rogers, vocational agriculture teacher; J. E. Miller, superintendent of schools; Frank Weil, Tommy Applewhite.

Dinner was served by the home economics department.

RALLS, Feb. 26, (Special)—Ralls voters will hold an election April 5 to select city officials for the next two years.

Outgoing officials are: Will Marr, mayor and Roy Cooper and Dr. E. L. Haney, commissioners.

The camel was not the first pack animal of the Sahara. Elephants were used for this purpose in the days of Carthage.

There are at least 2,000,000 solar systems similar to our own, according to astronomers.

TO PLANT OATS SOON

TULIA, (Special)—Planting of oats and barley for the summer crop will start in this section of Swisher county as soon as farmers can get into the fields. There is enough moisture to bring up the crops. Several thousand acres of each crop will be planted.

Texas Exes Are To Gather Here

Ex-students of the University of Texas will hear members of their group on program at a banquet at 7:30 o'clock Wednesday night in Lubbock hotel, A. V. Weaver, jr., president, said.

Tentative program outlined by Weaver will include: "The Eyes of Texas," sung by E. L. Klett, C. D. Eaves, Miss Billie Bob Jones, and Mrs. Tom Duggan, jr.; talk, "Four Years on Forty Acres," by Mrs. George Langford; talk, an explanation of the university endowment and permanent fund and how it is being used to make the university one of the leading schools of the nation, by William H. Evans.

Standefer Is Toastmaster

Dr. Fred Standefer will be toastmaster and tell "Why I Left Baylor."

A committee, appointed by Weaver, is selling tickets for the dinner. The committee is composed of Miss Jones, Ralph Trolinger, Connor Cole, Miss Mary Jo Cole, Mrs. Paul Graham, Campbell Elkins, and Mrs. Richard L. Douglas.

Wednesday noon is deadline for ticket sales. Tickets will go on sale Tuesday at Mark Duncan Drug and Wylie's Drug, Weaver said.

WILL SHELL CORN

BLEDSOE, (Special)—Local grain buyers have about 1,500 tons of ear corn that they are now starting to shell. The market has been a little low, but it is indicated the price tone is better. Farmers will sell more corn when the price is right.

TO INCREASE COTTON

FARWELL, (Special) — Parmer county farmers will probably increase their cotton acreage according to County Agent Jason Gordon. Farmers who have not planted the crop for several years expect to get back into the growing again.

One American tire company produced 18,000,000 miles of tire cord during 1936. This is enough to stretch 730 times around the earth at the equator.

The redhead duck often lays its eggs in the nests of other ducks. The incubation period of the redhead is short, and its youngsters get a head start over the rightful nestlings.

DEMONSTRATION SCHEDULED

SPUR, Feb. 26. (Special)—G. G. Gibson, dairy specialist of the extension service, will hold a dairy demonstration at the Methodist church here March 7, County Agent Grady Lane announces.

Cheese making and scoring will be demonstrated in the morning and quality milk, cream and butter in the afternoon.

SHOW IS PLANNED

COLLEGE STATION, Feb. 26. (Special)—"A New Dawn for the Cotton Industry" will be the general decorative theme for the seventh annual Cotton Show and Pageant to be sponsored Friday night, April 8, by the Agronomy Club at Texas A & M College.
