VICTORIES IN ELECTIONS CLAIMED

SHOUSE AND WOOD ARE CONFIDENT IN THEIR STATEMENTS

WASHINGTON, Oct. 20.—Spokesmen for both major parties were out today with flat predictions they would control the house after the November election. J. P. Shouse, chairman of the Democratic national executive committee, for the first time yesterday placed his formal declaration beside the optimistic pronouncements of other members of his party.

Wood Replies
Representative Will R. Wood of Indiana, chairman of the Republican congressional committee, immediately replied: "The next house of representatives not only will be Republican, but safely Republican."

Shouse predicted a minimum gain of 60 seats and added he firmly believed the overturn would be closer to 70. He counted at least seven seats in New England, at least 15 in new Virginia, New Jersey, Delaware, Maryland and West Virginia, and all districts in the southern states two years ago.

Adde 30 Seats
To these he added 30 seats in the middle west from Ohio to Kansas.

Wood replied: "The Republican landslide of 1923 is not going to be followed by a landslide in the opposite direction on November 4."

Generally we will hold our own in the November elections; we also

SHRINERS MEET ON FRIDAY

HALLOWEEN PARTY TO BE OBSERVED HERE IN BANQUET

Shriners from several South Plains cities, all members of the Lubbock Shrine club, local members and guests will gather for a Lubbock Shrine night for the annual Shrine Halloween party and banquet, according to announcement this morning by C. E. Hunt, president of the club. The affair will be held in the ballroom at Hotel Lubbock, starting at 7 o'clock.

Plans are being made for accommodation of between 150 and 175 club members and their guests, according to Mr. Hunt.

Program Prepared
With Millard F. Swart as chairman, a program committee, composed of R. D. Woods, Rev. J. M. Lewis, A. D. Montgomery and C. A. Sheffler, has charge of arrangements for that portion of the evening. The program probably will be completed within the next few days, the chairman indicated.

Tickets, selling at \$1 per plate, are now available and members are urged to buy them before Thursday noon when a checkup will be made of the attendance. Gerald C. Wren is chairman of the ticket committee with other members including Bob Hester, C. A. Sheffler, Walter Alderson, Nell H. Wright and Amos Howard.

Garrard To Be Presented
While no details of the program are as yet available, it has practically been assured that Tom Garrard, candidate for the Shrine title, will be presented the winning candidate at the November Shrine ceremony at Khiva Temple in Amarillo, which will make his announcement speech.

In addition to local members other Shriners from Tahoka, Levelland, Lorenz, Amarillo and Slaton are expected for the occasion.

Special Matinee Of Orchestra Arranged

Because of the many inquiries coming in from out-of-town schools concerning the matinee performance of the Lubbock orchestra, the committee of the Technicians' course has decided to invite all the teachers who so desire to bring their pupils to this performance.

The Lubbock schools are planning to make of this performance a really big thing in education, not only from the standpoint of music and language, but from the geographical and historical angles. Because of this, many of the schools in nearby towns desired to attend. They will be extended the same matinee rate of twenty-five cents admission as the Lubbock schools are receiving.

This performance will take place at the Tech gymnasium at 8:45 Thursday afternoon.

SUTTON'S CAR IS FOUND

RENEW PROBE INTO DEATH OF AGENT

FORMER AGENT IS HELD UNDER BOND; BODY IS NOW SOUGHT

RATON, N. M., Oct. 20.—Clues to the apparent slaying of a federal prohibition agent unearthed almost two months after his disappearance, today spurred government and state authorities to a hunt for his body and evidence that might throw some light on the identity of his assailant.

Ray Sutton, on the trail of bootleggers in this section, dropped from sight August 28. No trace could be found of either him or his car, although hundreds of men combed the mountain fastnesses for days and an airplane scoured the countryside.

Last night the reason for their failure became apparent. His car had been hidden carefully in an arroyo between two pinon trees and covered with brush. The rear seat bore bloodstains. His body remained to be found, and authorities today planned to continue the dragging of a lake near Taylor, N. M., in the belief that it might have been thrown there.

Ferry Caldwell, former federal prohibition agent, is held under bond on a charge of cashing expense vouchers of Sutton by forging his endorsement, using Sutton's initials and ring and a Masonic emblem of the room and escaped with cash totaling approximately \$18, according to a report at police headquarters this morning.

HOME ROBBED HERE SUNDAY

BURGLAR GETS \$18 IN CASH FROM WORLEY RESIDENCE

While occupants of the house were asleep, a burglar entered the home of D. F. Worley, 234 Avenue U, Sunday night, ransacked two rooms and escaped with cash totaling approximately \$18, according to a report at police headquarters this morning.

The burglar was thought to have first entered an east room of the dwelling where he took what money belonged to a boy who occupied the room and a pair of trousers. From this room he went to another in the west wing of the home.

Neighbors who gave the alarm to police stated that they saw a man leave the house and described him as short, heavyset and bare-headed.

One other theft was reported at police headquarters this morning: A Columbia bicycle, belonging to Truman Hutson, was stolen from the boy's home, 1418 13th street, Sunday night.

WHAT AMARILLO'S NEW COURTHOUSE WILL LOOK LIKE!

Not long ago, while Lubbock county voters were debating a courthouse bond issue, Potter county, where Amarillo is located, was approving a similar expenditure. The bonds for the Potter county courthouse have been sold at nearly two points above par—at a premium of \$2,500—and construction will start soon. The structure will cost \$429,800 and will be eight stories high, overlooking a beautiful park.

SCIENTISTS TO SEE ECLIPSE

U. S. EXPEDITION AND ONE FROM ZEALAND STUDY ECLIPSE

NIAUPOU ISLAND, Oct. 20.—Weeks of preparation for observation of the total eclipse of the sun here tomorrow brought announcement from members of scientific expeditions today that all equipment was ready for the event and weather conditions appeared favorable.

Expeditions from New Zealand and the United States naval observatory had cameras and spectrographs ready for the 90 seconds during which the sun will be in total eclipse. The solar orb was observed today in 45 and 49-foot cameras, insuring exact alignment for the work the scientists have traveled thousands of miles to accomplish.

The U. S. S. Tanager arrived here at daylight with the last unit of observers who will participate in the work. The ship also had seven women aboard, more than twice the number of white women ever before on the island at one time.

The weather for the past four days has been good, and indicated the scientists will have a strong chance of a clear sky to view the eclipse.

CASHIER AND GUARD ARE SLUGGED

BETWEEN \$16,000 AND \$17,000 TAKEN IN DOWNTOWN AREA

DALLAS, Oct. 20.—Three men slugged B. W. Moore, cashier for the Union Terminals, and C. H. Murray, special guard, as they were on the way to a bank with between \$16,000 and \$17,000 in cash today and departed in an automobile with the money.

The robbery occurred at the corner of Austin and Commerce streets in a busy shopping district. The cashier and his guard were walking along the sidewalk when the men drove up in an automobile and accosted them.

Wielded Black-Jacks
Two of the men wielded improvised black-jacks, pieces of hose loaded with shot. Moore was taken to a hospital in a serious condition. Murray was merely stunned.

A fourth man occupied the rear seat of the fleeing automobile brandishing a shot gun, witnesses told police.

The man who struck Murray dropped his club and snatched the policeman's pistol from his holster.

NEW ORGANIZATION IS NOW IN OPERATION IN DISTRICT

R. D. Moxley was named to head the district committee of Lubbock scout boys at a meeting held Sunday afternoon at the First Methodist church for the purpose of electing officers and further completing organization under the new plan of operation adopted by the South Plains Area Council. Under this plan the council has been divided into five district committees.

Other officers elected at yesterday's meeting, which was attended by approximately 25 business and professional men of the city, included Vaughn Wilson, vice-chairman, and A. C. Jackson, secretary.

"Why yes," the judge answered, "and do you have your certificate?"

"Si—we are ready," and Juan reached into an overall pocket to proudly produce a slip of paper.

"But—the license? Where is it?" the judge continued after glancing at the proffered paper. "This is only your health certificate."

An expression of doubt crossed the two young faces. "No? But it ees all-they geeve me."

Trio Charged In Axe Slaying Of Texas Paralytic

FORT SAM HOUSTON SOLDIER CONFESSES TO THE KILLING IN STATEMENT; SAID HE WAS TO HAVE RECEIVED \$500 FROM INSURANCE

SAN ANTONIO, Oct. 20.—Complaints charging three persons with the murder of Daniel H. Uhr, 50, paralytic, who was killed with an axe while he slept at his home, Saturday morning, were filed in justice court here this morning.

Mrs. Clara Uhr, 45, widow of Uhr, Leola Jones and D. D. Walker, Fort Sam Houston soldiers, were named in the complaints.

Less than 13 hours after the report of the killing, the three were under arrest and had made statements to police.

Widow Reports Killing
Report of the killing was made to officers shortly after six o'clock Saturday morning. The widow first told officers that some one had cut the screen and killed Uhr while he slept. She did not discover the murder until six o'clock Saturday morning, she said.

Grilling by police, who discovered discrepancies in her story, led to her making a statement Saturday afternoon that a soldier had been at the house Friday night. Walker first was arrested by police and implicated Jones in the killing.

All Make Statements
Subsequently all three made written statements to police. Jones admitting that he did the actual killing. He claimed that Walker had introduced him to Mrs. Uhr and that Mrs. Uhr had promised to pay him \$500 out of her husband's \$1,500 insurance money to kill her husband. Both Mrs. Uhr's statement and Walker's corroborated this fact.

District Attorney Walter Tynan said today he would oppose the granting of bond for either of the trio and will present his evidence to the grand jury immediately.

According to Jones' statement, he killed Uhr with an axe which he found in the back yard. He told officers he first threw the axe away near a garage, but went back and got it and threw it in a patch of weeds about two blocks away. Officers later recovered the weapon, which was bloodstained.

LEGION PLANS PROMOTION

"BUY TEXAS PRODUCTS" CAMPAIGN PLANNED THROUGHOUT STATE

AUSTIN, Oct. 20.—Plans for the creation of a state-wide industrial committee, along chamber of commerce lines, to work out a "Buy Texas Products" movement were being laid here today by state American Legion officers.

Decision to launch the movement was taken at a meeting of the state executive committee yesterday. At the meeting notice was taken of unemployment conditions and adoption of a resolution urging the Texas legislature to attempt to reduce unemployment.

The committee went on record as favoring revision of textbooks in public schools to eliminate inaccuracies and more adequately treat the history of the World war. Two new inner legion projects were launched—formation of a Texas "musical corps" to attend every national convention, and adoption of a state uniform for legionnaires.

HUNDREDS OF MOTORISTS MAROONED IN NEW YORK AS FREAK SNOWSTORM HITS SECTION; FARMS HAVE GUESTS

Buffalo, N. Y., Oct. 20.—Hun-

dreds of automobiles were in snowdrifts in western New York today, abandoned by tourists who left home in Indian summer.

Snow from nine inches to four feet deep mantled the ground all the way from Buffalo to Erie, Pa. The storm over Lake Erie was accompanied by a gale, which drove freighters to shelter.

The chamber of commerce of Silver Creek today took steps to find accommodations for 1,300 persons marooned at that hamlet. These people mostly were motorists from many states. Their cars were caught in drifts, which in some places rose as high as ten and twelve feet. About 400 cars were plucked in and near Silver Creek.

The unreasonable snow storm was of freak variety, in this city snowplows plunged through a nine inch depth in the southern part, while in the central and northern portions the ground showed not even a trace.

In places it was reported that thunder and lightning accompanied the snowfall.

REVEAL THREAT ONLY AS BLUFF

FORT WORTH, Oct. 20.—(AP)—A 33-year-old woman walked into the Union Bank and Trust company here today, asked Cashier C. M. Pearce for \$1,000 and threatened to "blow up the place" if he did not give her the money. In her hand was a small bottle containing a colorless, colorless liquid.

At that moment Policeman Dollar, off duty and dressed in civilian clothes, entered the bank. Dan Lohdy, bank president mentioned to the officer.

We suppose you have heard of the Scotsman who chastised his son by slapping his face—so's not to wear out the seat of his trousers. FOLK, The Plainsman is having a big time with his reducing program. It is doubtful if any event since the signing of the armistice and Lubbock's securing Tech college, has attracted so much public interest. People have phoned my house and the office. Others have written sympathetically, while some have not been so sympathetic. At any rate, everybody is getting some kind of a reaction out of it, which suits me exactly. Over in columns 7 and 8 of this page you will find a couple of letters bearing on The Plainsman's efforts to regain his boyish figure. To Mr. Walter Smith, of the Spikes Brothers and Smith's The Plainsman says "Thanks for the Chestnuts." To the "Lubbock Housewife" we are similarly thankful for the raspberries! In New York With Swab Gilbert Swan NEW YORK, Oct. 20.—Introducing some of our better-known side-walk personalities— He has a large newstand in Longacre Square. Each day the papers from every small and large town in the land are placed meticulously in his rack. For several hours a day he cuts the strings of bundles that bear such far-away names as Kalamazoo, Pittsburgh, Topeka, Chicago or way points. And during the course of a day, folk from every conceivable town come up and ask for their home town paper. In fact, Joe encounters them by chanting their names after hour—"Buy 'r home town papers." Detectives, looking for runaways and erring husbands and crooks wanted hither and yon, lean against nearby buildings disguised as loafers. They figure that sooner or later every vagrant soul far away from home will be sure to come to know what the home town is saying about him—or her—and will come up to buy a paper. Very well—the world comes into Joe every day. It comes in and sits upon his sidewalk and finally enters upon his wooden stool. All America speaks its mind through its editorial columns— And yet— The other day I fell to talking with Joe. "No," said Joe, "I've never been further away than Flatbush. Never been up to Harlem. No, I never saw any of the towns that send papers here. I'm a New Yorker." And there's an old fellow they call "Oletto Gus." As a matter of fact, most of the Broadwayites call him "Crazy Hen." He appears in mid-afternoon of each day. At this season of year he still wears a summer linen suit; a faded blue affair that flaps like spent sails against his legs. His beard is more patriarchal than any of the patriarchs. He wears a skull cap of faded blue, upon which is sewed, in gold six, the seven-starred cross to be found upon the synagogues. He carries an old soap box. In this are strangely assorted articles from a spoon, to a button badge. Altogether there are probably no dozen different bits of merchandise. But as he walks from person to person, holding this little box before him, he executes a half-kick. One knee and one foot lifts and he goes into a fantastic dance step. Attracting attention, he immediately calls attention to his wares. And when he wanders on to the next, a blue suit and salted peanuts and chocolate bars in "theater alley." For years he has been one of the mid-town's best known characters. Always a walking man, he invariably deposits a nickel or a dime in his cup. A couple of years ago, a daughter who had been given every opportunity for education and advancement offered by such an income, married a wealthy man. Within two months she had completely disappeared—far as recognition is concerned—her peddler-mother. Not long ago the mother fell ill and was taken to a public hospital. The daughter did not so much as go to see her. The mother, broken-hearted, is still selling her wares. The daughter brushes by, after leaving a taxicab. Restricted building and construction activities in the Philippines is causing unemployment.

(READ THE STORY, THEN COLOR THE PICTURE) "Let's buy those hens and turn them loose," said kindly Scoupy. "What's the use of leaving them just to be sold for someone's chicken stew? They'd be as happy as could be if, suddenly, they were set free." "All right," replied the Travel Man. "That's just what we will do. "But someone's sure to catch the bunch and then, I have a certain hunch that they'll be eaten anyway. But your wish shall come true." He paid the chicken man his price. The man just said, "You're very nice." And then he let his chickens out and off they promptly flew. "Let's follow and see where they go," said Scoupy. "I will be right with you. Right in the farm they came from. Gee, I hope it's right near by. Won't they be glad to once more play around a barn and in the hay?" And then he added, "Listen, I can hear a small duck cry." And, sure enough, a "quack, quack, quack" from up ahead. "Let's follow and see where they go," said Scoupy. "I will be right with you. Right in the farm they came from. Gee, I hope it's right near by. Won't they be glad to once more play around a barn and in the hay?" And then he added, "Listen, I can hear a small duck cry." Thought For Today For the love of money is the root of all evil. —1 Timothy 6:10. The covetous man heaps up riches, not to enjoy them, but to leave them.—Tillotson.

The Inn In the old days when people had some traveling to do climbed onto enormous, slow-moving stage coaches and moved along with endless grandeur, the roadsides were dotted with inns and taverns, which provided food, shelter and a picturesque and anticlimactic charm. Then the railroads came, people got to their journeys' end in quicker style, and the inn went the way of all out-moded institutions. But now it seems to be coming back. Old institutions are seldom related just as they were, however, and the roadside inn is no exception. It is returning to us in a form that is convenient and often very comfortable, but never in the least picturesque. Its signboard, instead of being a gaily painted head of a swagging pirate, is a neatly lettered "Tourist's Rooms"; and the inn itself is either a private home with one or two rooms set aside for wayfarers, or an incredibly cheap, dingy and repellent roadside place with tin advertisements for chewing gum, cigarettes and soft drinks. All of this is rather a disappointment. The development of the automobile has put travelers back on the open road once more, in a manner scarcely new development. Cross-country touring on a really large scale is only a few years old. Right now we are using such makeshift accommodations as could be devised on the spur of the moment. Things will be different.

Those chestnuts Mr. Smith sent his the spot. They are, the first chestnuts. The Plainsman has seen or eaten since one fall he spent in the Blue Grass region of Kentucky. It was mighty fine of Mr. Smith to think of this column and his kind act sure was appreciated. MR. HENRY W. DIEBEL, of 1938 Avenue E, seems to think a diet of vegetables, such as he raises, might help The Plainsman shove his chest back into place and correspondingly out down his waistline. Mr. Diebel, who is 51 years old, has favored this column with two giant carrots and a big potato, all raised by Mr. Diebel at his residence. In his note Mr. Diebel said the vegetables were presented. The Plainsman because of their novelty and he didn't miss it.

There is one prominent society woman in Lubbock who told The Plainsman confidentially that she wanted all the information on reducing that this column was able to furnish. She says sitting at a bridge table as just as hard on the figure as sitting at a desk—if not more so!

A WELL-KNOWN professional woman in Lubbock knows him in a minute even if I only give his initials. Why? Because of some intense restlessness? Possibly; but it's more likely that the real reason is the lack of any good inducements for him to moderate his pace! Once six things so that he will encounter, every dozen miles, a well-attending sleeping place, pleasant to look at, restful to enter and equipped with good food and moderate price lists, and the motorist will stop before a speed demon. He will take his time, see more of the country he traverses, rest his nerves and enjoy himself much more than he does now. Leisure, in the old sense, will come back. This may be a long way off, but it is coming. The present period is just of transition.

That Man on Avenue Q says you can't make a silk purse out of a sow's ear but a thick furrier seems to be able to make a mink coat out of rabbit skins!

Sea-Going Race The fishermen's schooner races off Gloucester, Mass., did not draw the usual wide publicity that attended the recent America cup races, off Newport, but from almost any angle you would care to take, they were better races and better sport. The America cup was sought by two extremely costly yachts, built and owned by multi-millionaires, and fit for nothing on earth but racing. The fishermen's races, on the other hand, brought together two commercial fishing schooners, owned and manned by men who get their living from the sea, capable of combating anything in the way of weather. The race, a side-issue, a part of recreation indulged in by two groups of artists in a very old and honorable profession. The yachtsmen got the long stories and the photographs in the newspapers, but the fishermen's race, in my opinion, made a more appealing contest. Widespread Application Of Shorter Working Day May Be Aid To Decreasing Unemployment, Rodney Dutcher Avers

BY RODNEY DUTCHER, NEA Service Writer. WASHINGTON, Oct. 20.—The exact extent of the business depression and resultant unemployment upon the wage and working hours of labor cannot be surveyed until the depression is over, but experts on labor conditions report that there have been marked changes in the previous trends both as to wages and hours. Prior to the past year there was a slight but steady average increase in wages and hours. There was also a small gradual increase in working hours and the trend in that direction has been accelerated.

Attention on the growth of all its organs and tissues is progressive, and much more rapid. During the 20 weeks of pregnancy the expectant mother's weight should increase a little over half a pound a week. It used to be said that the expectant mother should "eat for two." If this means she should force her appetite it is a false doctrine. On the same basis the expectant dog or cat mother should eat for six or eight. Stuffing and over-eating is certainly a far more real danger to the expectant mother than under-feeding. During the early period of pregnancy, nature seems to have actually provided, in the nausea and vomiting phenomena, for a reduction in the amount of food taken in. The appetite in this early stage is likely to be capricious and under normal.

Flapper Fanny The building trades were found to show a general tendency toward the five-day week with 68 and 65 per cent of painters and plasterers, respectively, working the short week. Only a very small percentage of the other trades reported any five-day week. Some of the increases from previous weekly wages of 1913 were shown as follows: Bakers 160 per cent, bricklayers 128, carpenters 148, hod carriers 172, painters 148, plumbers 90, teamsters 147, longshoremen 90, newspaper carriers 108, pressmen 128, stereotypers 56. The greatest increase listed since 1913 is 198 per cent for steam and sprinkler fitters' helpers in the building trades, which means that that group received practically three times as much per hour in 1929 as in 1913. The average union worker, on the basis of the bureau's statistics, worked only 91.5 hours in 1929 for every 100 hours of work in 1913. He received \$2.40 on a weekly basis for every dollar earned in 1913 and on the basis of wages per hour he received \$2.62 for each 1913 wage dollar.

We have often wondered just what the "Typo" you were, and how that you know it should not be very hard to advise, inasmuch as you have asked the weaker sex to rally to your aid. All kids are taught by nature to howl for their mother when their tummy hurts them, and so it seems to be your nice little 200 pound tummy that's bothering you, possibly a little manual labor of helping the Mothers or Fair Sex of our good city do some of the things that should be done for the betterment of all mankind. Well, help reduce the ever expanding waist line you are howling about. First, we would suggest you get out of your dimky little office and hustle around and get some exercise for your papers, instead of sitting at the table eating "bone steaks" and clipping the news from other papers, after it is two or three days old, and feeding it to your subscribers. The readers are entitled to some news of the "bone" type or in other words something worthwhile and then don't make HASH out of it by running it over and over the third and fourth time until it's as stale as the old boarding-house dish. Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified croscin that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs croscin is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritation. Creomulsion contains, in addition to croscin, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the croscin goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble, and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritation, and is excellent for building up the system after colds or flu. It is not refunded if not relieved after taking according to directions. Ask your druggist. (adv.) CREOMULSION FOR THE COUGH FROM COLDS THAT HANG ON

Small Events Will Predominate Society In Lubbock During The Coming Week

Hallowe'en Motif Favored In Events

Although few large events of a purely social nature have been scheduled in Lubbock for this week there is to be a series of small bridge parties, luncheons and similar occasions.

Regular meetings of study, needle and social clubs supplement these smaller affairs to promise busy afternoons and evenings for this city.

The approach of Hallowe'en is stimulating entertaining among youngsters and high school boys and girls have planned a number of parties for the coming week-end and the one which includes all Hallowe'en eve. Ghosts, witches and other symbols of the season, with the favored colors of orange and black, have furnished the motif for the majority of the parties given during the last week. This theme promises to be more popular during the coming days.

Several events are planned this week as courtesies to Miss Catherine Bailey, of Jackson, Miss., who is the house guest of Mr. and Mrs. I. C. Enoch. Platform Work Of Mrs. Leona R. Ihrig Has Characteristic Of Concentration

One of the most unusual instances of concentration in platform speaking, is to be found in the lecture routine of Mrs. Leona Rusk Ihrig, noted domestic science expert, who will conduct a series of free cooking school lectures under the auspices of the Avalanche-Journal at the Uptown Dance Palace, October 27 to 30.

Many women who fly into tantrums in their cooking routine, when interrupted by the jangling of the telephone, ringing of the door bell, or the intrusion of members of the household, have marveled at the ingenuity of this woman who, facing an audience of hundreds of women, her every movement subject to the invited scrutiny of her onlookers, proceeds to handle the most intricate of cookery details in orderly sequence, paring, kneading, mixing, peeling, and at the same time lecturing in detail regarding the very operations which she is demonstrating.

"I early found," says Mrs. Ihrig, "that if I was to continue the same procedure followed in my own home kitchen—that of not permitting outside intrusions to interfere with a well-formed plan. While my lectures are not memorized and there is only a general uniformity in the program I followed at each day's demonstration, I have long since formed a habit of arranging my work so that when I take the platform, I begin my lecture and my demonstration work with a preconceived plan of just exactly how I'm going to demonstrate first—which items I am going to permit to cook while I prepare others, and I allow the general inspiration from my listeners to stimulate the course of my remarks, outside of the definite specifications as to products and recipes.

"In this capacity, I claim no particular ingenuity. Before I took the

Membership Of P.T.A. Is Greater

AUSTIN, Oct. 20. (Special)—An increase in membership of 10,189 in the Texas Congress of Mothers and Parent-Teacher associations is reported over last year. At that time 60,888 members had paid dues and this year 70,789 have paid dues for the current year. State office officials say that every mail brings in checks with twenty-five cents per capita dues for from ten to one and two and sometimes three hundred members. This is the busy time of the preferable time for the payment of 1930-1931 dues.

Organizations that expect to be standard parent-teacher associations must get their per capita dues in by October 31, to have even a chance at the standard rating. Mrs. J. M. Loving, state treasurer, Austin, explains that this means that associations will make an effort to enlist as many people as possible at the very beginning of the school year, but it does not exclude people who for various reasons are prevented from joining at the first but who join the associations later, as dues on additional members may be sent in at any time.

"Membership dues are coming in to the state office, Capitol Station, Austin, Texas," Mrs. Loving stated, "every day in the year nearly, but there are two special dates by which

Miss Doss Married To Mr. A. Eakins, Jr.

A story in Sunday's Dallas News carries announcement of the marriage of Miss Vivienne Doss, daughter of Mr. and Mrs. J. F. Doss, of near Lubbock, to Allen Eakins, Jr., son of Mr. and Mrs. Allen Eakins, of Dallas. The ceremony took place Saturday at the home of the bride's sister, Mrs. D. L. Evans in Dallas, with Dr. E. V. Wood officiating.

Miss Billie Doss, sister of the bride, who has been ill in the Lubbock sanitarium for some time and who underwent an operation on Saturday was resting well this morning. Mr. Roberts reported.

local parent-teacher associations should make every effort to have in their membership dues. October 31 is one of these dates. The treasurer's books close then and a report is made to the annual convention of the total membership of the Texas Congress of Mothers and Parent-Teacher associations. To have the organization properly rated loyal associations hasten to collect and send in dues, twenty-five cents for every member.

The other date is March 31 when all dues must be paid or the associations will be listed as delinquent. Five cents of the 25 cents per capita is remitted to the national treasurer as national dues, thus making every member of the Texas Congress a member of the national congress of parents and teachers.

Mother and the Maytag have become great friends

MOTHERS with small, hard-playing youngsters are particularly grateful for Maytag helpfulness. They don't worry if play clothes become badly soiled because the New Maytag washes them clean, and in marvellously quick time... washes them carefully, without hand-rubbing. The new-type roller water-mover spaces the buttons... there is less mending and the clothes last longer.

You will find the New Maytag a real friend, and it keeps the clothes at home where you know conditions are safe and sanitary. Nearly two million Maytag owners have become great friends of the Maytag.

TECH PREPARING FOR T. C. U.

MATADORS TO BATTLE 'EM SATURDAY

The craftiness of Coach Francis Schmidt, the kicking and passing of Vance Woolwine, the swiftness of Cy Leland, backfield ace, and the great offensive play of Captain Noble Atkins of the T. C. U. Horned Frogs will be factors in the Frog machine that the Texas Tech Matadors will have to overcome Saturday at Fort Worth to keep the score down to a reasonable total, if hope runs true to form. According to the past games, T. C. U. has an advantage of from three to five touchdowns over the Matadors but it is likely that Coach Pete Cawthon will spring a surprise in the Frog ranks, if they play the game too lackadaisically.

WESTERNERS STAY AT HOME AWHILE

The Lubbock High school Westerners who have just made a clean sweep of all of their out of town games, returned home to stay there until Thanksgiving and the last game of the season, perhaps in the district. They will not play this week, but spend the week-end at home in a welcome rest. For one week from next Saturday the Amarillo Sandies, conceded the championship of the district in most circles, will come to Lubbock for what is expected to be the most important high school game of the district this season.

BOXER HELD AFTER OPPONENT'S DEATH

MISSEOLA, Mont., Oct. 20 (AP)—Eddie Foy, Chicago negro, was held by police today pending investigation of the death during a boxing bout last night of his opponent, Nick J. Ponzio, 19, Deer Lodge middleweight.

McCamey, Crane and Big Lake Questioned

MIDLAND, Oct. 20 (AP)—Head Coach L. K. Barry of Midland high school was informed by telephone today that the football committee of district eight met at Fort Stockton and voted to recommend to the state committee of the intercollegiate league in Austin that McCamey be suspended from the league in football for two years that Crane be given one week to file eligibility blanks and to forfeit all games played to date, and that Big Lake be placed under probation for the remainder of the season. Flagrant violations of the eligibility rule was given by members of the committee as reason for the action.

REVISED FIGURE GIVEN

WASHINGTON, Oct. 20 (AP)—The census bureau today gave out the revised population figures for the city of Houston, Tex., to be 222,349 for 1930 as compared with 128,278 in 1920.

TOUGH GAME IS AHEAD FOR TECH

After a two-day rest period, the Matadors of Texas Tech were summoned to converge on the practice field this afternoon for the first practice toward the Tech-T. C. U. game next Saturday was called. With the freshman troops of Coach Dutchey Smith running Cy Leland and other T. C. U. plays every day this week against the varsity, the charges of Pete Cawthon should be able to throw up a good defense against the Frog attack.

Extensive plans are being made this week both on the field of the Matadors and in the offices and classrooms on the campus to make this week-end one of the greatest of the season. A special train will leave Lubbock at 9:30 Friday night bearing upwards of 1,000 fans to Fort Worth for the annual Frog-Matador tilt. Railroad officials and Tech Tech members believe that an even greater number will take advantage of the moderate rates and make the trip with the Tech band and student body.

According to R. E. Stroup, local agent for the Fort Worth and Denver company, round trip tickets will be available for \$5. The train leaving here at 8:30 will arrive in Fort Worth at 8 o'clock Saturday morning. The return trip will be made Saturday night and Sunday, the train leaving Fort Worth at 11:30 Saturday night. Special break plans call for a one hour stop at Childress on the return trip. The train will stop there at 6 o'clock where four hotels and cafes will be at the exclusive use of the local fans. Twelve pullmans, offering first class and standard pullman service at special rates will be included in the train.

The Matadors, somewhat taken aback by their one-sided defeat at the hands of the Texas Miners here last Friday, appear to be reviving the old fighting spirit and indications are that they will give the Frogs a hard fight next Saturday when they go to Fort Worth for the second game on the new \$350,000 stadium at T. C. U.

WALLACE HAWKINS WRITES ON WATER

Wallace Hawkins, Dallas attorney and son of Mr. and Mrs. W. P. Hawkins, of Lubbock, recently contributed an article to the Dallas News in which he declared that the present position of members of the American section of the International Water Commission of the United States reflects prejudice favoring the Colorado river projects and against development of the Rio Grande valley in Texas.

"It's Wonderful To Feel Like I Do"

Amarillo Woman Declares She Owes Present Good Health To Argotane; Gains Eleven Pounds

"For more than two years before I began taking Argotane, I suffered with stomach and kidney trouble," said Mrs. E. R. Pigg, who resides at 2403 Sanborn Ave., Amarillo, Texas. "When I began taking Argotane," Mrs. Pigg continued "my entire system seemed to be all run down. My back would sometimes hurt me so I could hardly stand up. I had no appetite and couldn't eat much of anything, and of course got badly run down. I also had a great deal of trouble with gas pains and would try everything I could hear of for these troubles, but kept on suffering just the same. My strength and general health was leaving me all the time. I felt tired and worn out from one day's end to the other and was hardly able to attend to my household duties.

"But it is all different now since I began taking Argotane. It is really wonderful the way it has built me up. Why, do you know I have already gained eleven pounds in weight on only three bottles and am strong enough to do my own housework with enough ease. I can get around now without those aches or pains and actually feel better than I have in years. It is certainly wonderful to feel well like I do now all the time and I am glad to have the privilege of making this statement because I believe it will be the cause of others getting relief.

Genuine Argotane may be purchased in Lubbock at the Bowen's Drug Store. Adv.

the facts he presents," said The News. "Further development on the Texas side of the Rio Grande valley apparently depends upon a division of waters upon a basis other than that laid down by the commission in the instance of the Colorado," concluded the editorial. the "hike" that Harry missed ...and the Cause thereof

Harry stopped raking to stare, as down the dusty street, before the house, swung a marching troop of scouts—his troop—off on a hike! He couldn't believe his eyes! His troop. And he not there.

Harry dropped the rake, took the porch steps three at a time. They couldn't—oh, they couldn't go without him!

"Why, I don't know, child," Mrs. Adams exclaimed, looking up blankly from her sewing. "Mr. Brenner, the scoutmaster, surely must have called you."

Harry from the yard, and Mrs. Adams from the porch, gazed sorrowfully after the khaki-clad marchers.

"So that was who telephoned this morning when I didn't get upstairs to the 'phone in time!" thought Mrs. Adams to herself, regretfully. "What we need, I guess, is an 'extension' telephone downstairs."

Telephones where you need them save time, steps—even play a part in preventing youthful heartaches.

An "extension" telephone downstairs might have made it easy for Mrs. Adams to reach the telephone in time.

Few know that the extra cost of one or two "extensions" is between two and three cents a day.

By a wisely-placed "extension" or two, an expert telephone man can often double the convenience of the telephones in your home.
