ONE CHARTER MEMBER OF CENTENARY M. E. CHURCH TO ATTEND CELEBRATION

Mrs. J. E. Wenkler of Phoenix, Arizona, Arrives For Church Jubilee

From among the small band of Methodists who fifty years ago elected to organize "Centenary Methodist church, South," at Colorado, only one has lived through the intervening half century to come back "home" for the golden jubilee next Sunday. This remaining charter member of the church is Mrs. J. E. Wenkler of Phoenix, Arizona.

Mrs. Wenkler, nee Miss Griffin, became a citizen of "Colorado City," the booming frontier city, in 1881. It was not long after she had elected to make her home here that she interested herself in organization of a church. The result was that Miss Griffin and a few other Methodists called in the assistance of the Rev. R. F. Dunn of Sweetwater and perfected organization of the church.

Mrs. Wenkler left Colorado some twenty-five years ago and has since made her home in Arizona. Several years ago she returned for a visit with the family of Judge A. J. Cox and from here went to Cisco to visit her friend, Mrs. Clara Smith. She is to arrive in Colorado Friday and while here will be a guest in the home of Mrs. Smith.

The meeting of these two estimable ladies on such an occasion brings Mrs. Wenkler to Colorado is of special interest. Mrs. Smith, herself a resident in Colorado for fifty years or more, was the first bride to be married in Colorado, the wedding being solemnized by her father, a minister who came to Colorado soon after the town was founded.

A few other charter members were living when Mrs. Wenkler moved to Arizona. Today they are all dead excepting her. She writes friends here that this home coming is anticipated with great pleasure.

The structure, built of native brick manufactured in Colorado, was accepted as one of the most imposing edifices of public worship in West Texas. The Rev. John R. Wallace, who later became the first presiding elder of the Colorado district, was pastor during the time the building was financed and built.

"UNION DEPOT" WITH DOUG FAIRBANKS, JR., AT PALACE APRIL 28-29

The breath-taking action of this romantic comedy-thriller takes place in and about the confines of a vast railroad station, whose ever-changing throngs creates atmosphere rich in drama and human interest. Against this picturesque background the vivid personalities of the star and leading lady are placed with brilliant effectiveness.

Even the likeable young Doug has never been quite so ingratiating as in the role of the imprudent and penniless adventurer who gets his

miraculous chance to be a millionaire for a day—rescuer of maidens in distress—discoverer of dark-browed villains—hobo and hero—game loser—and gallant winner. "Union Depot" also gives the vivacious Joan her big opportunity, enabling her to display new phases of her individual talent.

Mrs. Raymond Gary has as her guests, her mother, Mrs. Humphrey, and her little niece, Wanda Sue Humphrey, of Stamford.

GEORGE BARBER BACK -IN JAIL FOLLOWING ARREST LAST SUNDAY

George Barber, youthful bandit, well known in Colorado, was back behind the bars again, following his arrest in Dallas Sunday. Barber escaped the Nolan county jail at Sweetwater a few weeks ago where he was being held on the charge of kidnapping and robbery. He is charged with robbing A. V. Hale and John Eldson, Sweetwater taxi drivers.

Charges are pending against the man here. On the same night he is alleged to have robbed the Sweetwater taxi drivers, Barber was wounded in the exchange of shots with Night Chief Homer Key, as the officer sought to place him under arrest on the charge of highway robbery near town.

Bill and Luke Thomas announce they have taken over management of the Gulf Refining Company retail service station formerly operated by Jim Cantrell at Walnut and Third streets. The place is to be operated under the firm name of Thomas Brothers. Both boys have been employed by Mr. Cantrell since the opening of the station.

selections. Tears of joy and happiness were seen when our leader, Bro. Lambert sang, "Is He Satisfied With Me," also when Mrs. Flora Brown sang "Will the Circle Be Unbroken." We feel that this hour of spiritual feast helped us all and especially was a great help to our choir.

Sunday was a joy to us all. There were about 175 people present, including visitors from Big Spring, Knox City and various other parts of the State. Some of the visitors were: Mrs. E. B. Denton, Knox City; Mr. and Mrs. Bullock, Mrs. H. L. Mays' father and mother, Mr. and Mrs. Allen of Big Spring and others.

The pastor used as his theme, "The Church." Then, in the afternoon, that beautiful, but solemn ordinance was observed when the pastor buried five grown-ups in baptism.

Next Sunday our pastor will go to Pilgrim Baptist church, near Brownfield, to help in the ordaining of a young minister, Mr. Joe Bowlin. The Rev. Mr. Bohm having been called to pastor the Pilgrim church, where pastor C. A. Allen resigned to come to Westbrook.

Be sure and attend Sunday school Sunday morning at 10. After Sunday school we will dismiss and go hear Rev. Ray Lee, the Methodist minister.

The pastor will use for his subject next first Sunday, "The Lord's Supper."

We are anxious that everyone feel welcome at our church and we are asking you to come. You don't only need to come, but we need you.

To the Sheriff or any Constable of Mitchell County—GREETING:

You are hereby commanded, That you summon, by making Publication of, this Citation in some newspaper published in the County of Mitchell, if there be a newspaper published therein, but if not, then in a newspaper published in the nearest County to said Mitchell County, for four consecutive weeks previous to the return day hereof, Ruth Moeser, whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Mitchell at the Court House thereof, in Colorado, Texas on the thirteenth Monday after the first Monday in January, A. D. 1932, same being the 23rd day of May, 1932, then and there to answer a Petition filed in said Court, on the 20th day of April, A. D. 1932, in a suit numbered on the docket of said Court No. 5281, wherein W. W. Moeser is plaintiff and Ruth Moeser is defendant.

The nature of the plaintiff's demand being a follows, to-wit: Being a suit for divorce. That plaintiff and defendant were married on or about September 26th, 1926 in Scurry County, Texas and continued to live together as man and wife until about December 20th, 1926 at Colorado, Texas, when the defendant without any provocation on the part of the plaintiff left his bed and board and voluntarily abandoned him, with intention to finally separate and live apart from him and has continued so to do to the present time; plaintiff further alleges that he has lived in Texas for a period of twelve months and in Mitchell County for a period of six months next preceding the filing of this petition. That while married to this defendant he conducted himself with propriety, and has at all times treated this defendant with kindness and forbearance and that defendant's actions and conduct toward him generally are of such a nature as to render their living together as husband and wife insupportable.

Herein fail not, and have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Colorado, Texas this, the 20th day of April, A. D. 1932.

GEORGE ARLISS IN THE MAN WHO PLAYED GOD

This picture, which will probably be one of the most outstanding pictures of the year both artistically and at the box office, is the answer to the prayer of exhibitors for a good picture. If George Arliss isn't well known yet in the largest and smallest spots in the country, and he ought to be, this picture will surely establish him as one of the greatest luminaries ever to grace the screen. The story is beautifully told with its mingled comedy, pathos and love interest all contributing in a large measure toward its artistic merit. The picture shows Arliss first as a well known musician receiving the adoration of his public and his protegee, played by Bette Davis.

Hyman Happenings

By MRS. I. SMALLWOOD
Mrs. Ray Lane, one of the teachers at the Hyman school, has been ill for the past week. Miss Mozelle Williams of Sterling City came in Sunday afternoon to fill Mrs. Lane's place until she recovers. Miss Williams is staying with Mr. and Mrs. A. J. Roach.

Lonnie and Gladdy Kirby, children of Mr. and Mrs. Kirby, who have located on the Murphy place, entered school last week.

Otis Chalk of Chalk was a guest in the Hyman home one day this past week.

Next Sunday, our presiding elder, Dr. O. P. Clark of Sweetwater, will fill the pulpit. It is hoped that a good crowd will turn out to hear Bro. Clark and enjoy his able sermon.

Messrs John and Frank Cole of Sterling City, were up to Hyman Sunday to see Mr. Hyman on business.

The Magnolia oil men of Colorado were out last week, transacting business with Mr. and Mrs. Roach.

The county demonstration exhibit gotten up by Miss Sevier, the representative of the county, and held in Colorado last Saturday, was a success and Miss Sevier is to be congratulated. The men were interested in the farm products. A chart showed the proper way to cut up pork and a great difference was shown between the modern and the old way. And two dresses on exhibit showed equally as great a difference. The old fashioned dress was loaned by Mrs. Lay Powell and belonged to her mother. The modern dress was loaned through the courtesy of Max Berman department store. The old fashioned alpaca dress created much comment, especially from the younger generation. Though the announcement of this exhibit was only given a short time before, some thirty-nine quilts were brought in dating from many years back to the modern quilt. Hyman had some five or six quilts; two of old times, the others newly made. The crazy quilt of Mrs. Hyman's, which was started over 45 years ago and just finished was one which attracted much attention, work on it having been done by many Colorado friends with names and initials of others of some forty years ago. Among them were J. W. E. Gilliland, Mary Gilliland, W. T. Scott, C. A. O'Keefe, Mrs. J. B. Slaughter, Mrs. Harry Smoot, Miss Alice Crawford, afterwards Mrs. John T. Johnson, Mrs. C. A. O'Keefe and others. The quilt of silk and velvet and literally covered with stitches, won a blue ribbon. Hyman was so proud of it that the Sunday school turned out en masse to see it. Three others, which drew blue ribbons are to be taken to San Angelo and placed on exhibition. One especially beautiful was shown by Mrs. Lee Jones and pieced by her mother. Hyman is hoping that at least one of the three quilts will bring a prize to Mitchell county.

Roy Davis Coles, our principal, chaperoned Hoyt Andrews, M. C. Lowry, Johnny Smallwood, E. B. Van Winkle and Harold Duke to Abilene Saturday for the district track meet. In the mile race, with 34 contestants, Hoyt Andrews won sixth place. The other boys did fine work and Hyman is proud of the record they made, even if they did not win a blue ribbon.

Miss Mira Smallwood entertained Miss Dorothy Dawson and Miss Elsie VanZandt with a picnic supper at the A. P. Well Saturday evening. Henry Woodard, Herman Minor, Hoyt Andrews, J. D. McCullough, Billie Woodard and Dorthae Dawson, visited in the home of I. Smallwood Sunday.

Mrs. Roy Davis Coles spent the week-end in Colorado, visiting her Mother, Mrs. D. T. Bozeman and sister, Mrs. John Brown, returning home Sunday afternoon.

The Home Demonstration club of Hyman met at 2:30 Friday at the home of Mrs. Carl Lowry, all members being present, except one. Mrs. Dawson, who was ill. Mrs. Porter Hammond, a new member, was present. The afternoon was spent sewing quilts. The hostess served apricot custard pie and coffee. The next meeting will be with Mrs. I. Smallwood.

A good part of the population of Hyman, both men and women, were in Colorado Saturday, among those being Mesdames Coles, Smallwood, Van Zandt, Andrews, Minor, Hyman, T. P. Smallwood and Miss Dorthae Dawson.

Mrs. Roy Coles and Roy, Jr., spent last Tuesday afternoon visiting Mrs. Jim Black.

J. T. Vickery and J. W. VanZandt were guests of Riggle and Joe Smallwood Sunday afternoon.

Billie Woodard entertained the following young people at his home Sunday afternoon after Sunday school and all returning for singing Sunday night: Florice Andrews, Mira Smallwood, Elsie VanZandt, Edna Duke, Ruth Geffs, Dorthae Dawson, M. C. Lowry, Johnnie Smallwood, J. D. McCullough and Herman Minor.

Farmers Assured Higher Prices On Certain Products

The James, Russell Co., Inc. John
Deere dealer, advises that they have
received authorization from John
Deere Plow Company to put into
effect immediately an offer that
guarantees a higher scale of prices
on varying quantities of corn,
wheat, and cotton, in the purchase
of John Deere tractors, combine,
windmills and line-shed.

Many farmers, according to T. B.
Russell, manager of the company, are
in need of new machines in order
to produce their crops economi-
cally. They are hesitating about
buying new equipment because of the
fear that prevailing low prices of
farm products will continue.

To meet this situation, John Deere,
through its local dealers, offers guar-
anteed prices. If the price of corn,
wheat or cotton does not reach the
guaranteed price at the time pay-
ment becomes due, the motor given
and maturing this fall, farmers buy-
ing machines, included in the offer,
will receive a credit to make up the
difference.

The James, Russell Company is in
position to explain in detail the work-
ings of this offer and invites farm-
ers to see them at their earliest con-
venience, in order that they may take
advantage of this plan so that their
production costs can be kept down to
the minimum this year.

We have as good raw milk as you
will find, so our friends tell us, and
that is what counts with us. The only
way it can be made better is by
pasteurization, which we do free of
charge for you. Phone 20.

Golden Jubilee

(Continued From Page One)

ing of San Antonio, a former pastor,
is among the ministers who are ex-
pected to have a part in the program.

The special observance is to be for-
mally opened at 9:45 Sunday morn-
ing with all classes in the Sunday
school cooperating in special drive to
register 500 members present, es-
tablishing a new high attendance
record there. A few weeks ago an
attendance of 481 in Sunday school
was reported. Last Sunday the num-
ber was 418.

Dr. J. W. Hunt, president of Mc-
Murry college, Abilene, is to deliver
the principal address at 11 o'clock.
He will speak from the subject,
"When Methodism Came to West
Texas." Dr. Hunt is well known in
Colorado and recognized as an out-
standing speaker.

A special chorus and orchestra is
being marshalled by Sam J. Smith,
musical director for the Young Bu-
siness Men's Bible class in the Sun-
day school. These groups are to fur-
nish music for both the morning and
afternoon programs. Smith has
urged that musicians of the commu-
nity accept invitations to assist in
this feature of the jubilee.

Following sermon by Dr. Hunt, all
visitors are to be guests of the host
church at luncheon in the American
Legion hut. Ladies from among the
church membership have been re-
quested to prepare and furnish a well
filled basket. The afternoon pro-
gram will begin at 2 o'clock.

It is during the afternoon service
that reminiscences of Methodism here
in the years of long ago are to be
protrayed. Among the members—
either present or past—attending
will be several men and women who
worshipped in the church many years
ago. They are to have part in an
old fashioned Methodist love feast
beginning at 2 o'clock.

"We have every reason to believe
not less than 1,000 people will join
in this jubilee celebration Sunday,"
a member of the special arrange-
ments committee stated Monday.
"We are receiving communications
from scores of former Colorado
Methodists who state they will re-
turn to the old home town for the
occasion. Certainly, presence of
these veterans who have pioneered
Methodism in West Texas should add
much to impressiveness of the day."

The host pastor, Sunday school
superintendent and other church
leaders are making special effort in
a cooperative way to make this anni-
versary outstanding in history of the
church. Commemorating this half
century of service to the community,
these leaders hope that such initia-
tive as will result in a greater Meth-
odist church here is to result. Geo.
H. Mahon, superintendent of the
Sunday school, announced Sunday
that if 500 people were not regis-
tered in the school for that date he
would be keenly disappointed.

Members of the congregation hav-
ing relatives and friends elsewhere,
who in the past, were identified with
the church membership are urged to
extend them invitation to attend.
Every hospitality will be accorded
visitors by members of the host
church.

COL. TEX BASEBALL BENEFIT DANCE VOTED AMUSING SUCCESS

By I. C. EUBAULTZ

All's well that ends well, or possi-
bly, a good beginning also indicates
a similar ending. Nevertheless, like-
wise, notwithstanding, methinks, it
is a fact that the Col-Tex Athletic
association spent its baseball sea-
son last Saturday night, when a suc-
cessful and amusing dance was given
at the Legion hut. Hot, peppy, and
excite-inspiring tunes were poured
forth plentifully by the famous in-
talent Koon Kreek Orchestra.
The broadcast was begun on their
assigned frequency of one station-
ery, which was later increased by one
reduplication through authority of the
Federated Radiator Commission.
Their announcer, Mr. Harry Ramblin-
gton, also efficiently directed the or-
chestra's rendition. Enough peppy
were cleared to provide photos for
quite a few games. Many thanks to
all Coloradans who in any way as-
sisted in making the dance a success.

Tuesday afternoon, a business
meeting of the advisory council re-
solved in the nomination of four men
who are to stage a tough fight for
possession of baseball manager. Of
course, it is understood that the sal-
ary is less than nothing, which is
similar to being a partner in almost
any kind of business these days.
However, there is one consolation,
and that is the manager always has
at least nine men to blame if the
game is lost. Judging by the vote and
efficiency, who of the candidates is ex-
pected to be the victor in this oppo-
sition.

Big league managers say their
toughest job is knowing when to
"pull a pitcher." Now, that is one
item that never worries the manager
of our team. We only take one
pitcher along, because Mr. Tenner
Dorn or Wilson is just like Old
Ironides, all metal, and if they don't
win, it just ain't the pitcher's fault.

YOUTHS ARRESTED AFTER SOUTHSIDE WAREHOUSE IS BROKEN INTO AND ROBBED

Jack Miller, Dean Shoemaker
Jailed Saturday Morning
By Chief Hickman

Within two hours after D. M. Moore, operating a grocery store at 500 South Conch street, had reported to police Saturday morning that his warehouse had been broken into and robbed the night before, Jack Miller and Dean Shoemaker, local youths, were under arrest and charged with the offense.

As Mr. Moore opened his store Saturday morning he noticed that the warehouse nearby had been broken open. Lock on the front door had been forced and flour, canned vegetables, peanuts and probably other items of merchandise taken. He immediately notified Dick Hickman, police chief. Hickman, after a brief investigation of the burglary, found that the flour had been carried across the street from the warehouse and stacked on the ground and from there loaded into a motor car. Spilled flour from a burst sack left a trail that was easily followed.

Getting into his car Hickman trailed the burglary car north through the business district and out northwest toward the Colorado river. Eight 50-pound bags of flour, a 50-pound bag of peanuts and four cases of tinned tomatoes were found hidden in a canyon three miles northwest from town. It was the same place where loot stolen from the Gulf Refining Company station here a few months ago had been cached.

Returning to Colorado, Hickman soon located the motor car of Jack Miller parked in front of a residence in South Colorado, not far from the warehouse that had been burglarized. The official found a considerable amount of flour in the car. Going inside the house he found Miller and Shoemaker asleep. They were taken into custody and locked up.

Both of the youths charged were literally covered with flour, according to Hickman. They had gone to sleep with their clothing and the telltale evidence was on their coats, hats and even in their eyebrows. Shoemaker, already facing two criminal counts in district court here, was given a penitentiary sentence in Judge James Brooks' court a few weeks ago following conviction on a burglary charge. The verdict was later set aside and the case continued to October on plea of the boy that he "be given a chance to make good." Miller is a brother of Newt Miller, charged with the murder of "Slim" Davis here recently.

Play Tournament At Colorado High Opens April 26th

The annual class play tournament, sponsored by the high school classes, will begin Tuesday night, April 26, when the Seniors present "The Toastmaster." The Juniors will present their play the following Friday night, and the Sophomores and Freshmen will present their plays during the following week.

A new trophy is to be given the winning class this year, as the senior class of last year won the trophy three years in succession, and the trophy became theirs permanently. Much enthusiasm is being manifested by the several classes, and each class feels certain that their play will win this year.

Mr. Coffman is directing the play to be presented by the seniors. Mr. Coffman directed the play presented last year by the juniors, and the play last year was well received, playing to the largest crowd of any of the plays. Miss Barrett is directing the junior play, Mrs. Cantrill the sophomore play, and Miss Whitmore the freshmen play. All of these teachers have had much experience in directing plays, and everyone is assured that a good play will be presented.

The admission for the plays this year will be 15 cents for all school children and 25 cents for adults.

The senior play, "The Toastmaster," will be given Tuesday night, April 26, starting promptly at 8:00 p. m., with the following cast of characters:

Bill Morgan Carey Prude
"Towel" Fairfax James Bodine
Bob Kenmark Carl Harkins
Henry Reed Sherman Hart
Tom Ripley Hunt Guitier
George MacIntosh Arvol Colson
Prof. Reed John Prude
Mrs. Reed Francis Ann Beal
Cynthia Nina Lee Rogers
Buzzer Porter Richardson

Here is a brief synopsis of the play: The freshmen kidnap the sophomore the day before the "Big Event." The sophs find where the toastmaster is hidden—in the home of Prof. Reed, whose son is a freshman. In the attempt to rescue their "silver-tongued" spokesman, "Bill" Morgan assumes the role of Maggie and secures a position early the next day at Prof. Reed's, as a cook. Well, well of all the mix-ups. See how it ends!

WORLD'S LARGEST TIRE WILL BE IN COLORADO MONDAY, APRIL 25TH

You'll probably never need to buy a tire 12 feet high and four feet wide, but you ought to see the big Goodyear tire, weighing more than a half ton, with an inner tube weighing an additional 125 pounds, which will be in Colorado on Monday, April 25.

This tire is inflated to a pressure of three pounds for travelling light, but if it were carrying the 25 ton load for which it is built it would be inflated to six pounds pressure.

"We asked Goodyear to bring this tire here to Colorado because it is such an unusual sight," says Allen Connell, of the firm of Connell and Beal, Goodyear dealers in Colorado. "The tread is three inches thick so there isn't much danger of puncture. About the only real evidence of wear and tear is the number of pieces of rubber cut off by souvenir hunters."

"Goodyear has built three of these tires. Two of them are on the road and the third one is at the Goodyear factory in Akron, Ohio, as a spare. This 12-foot tire ought to run several hundred thousand miles. Nobody knows for sure just how far it will run."

Ralph Beal says "the tire isn't just a stunt, it is rather an engineering and experimental development looking years into the future. Some day huge airplanes may land on tires patterned after this one."

The giant of the highways will be on exhibition at Connell and Beal's Goodyear store sometime Monday.

LORAIN YOUTH WINNER IN 4-H CLUB CONTEST FOR WEST TEXAS DIST.

Travis Hallmark, Loraine 4-H club member, won third place in the West Texas division of cotton growing contest sponsored by a San Marcos seed breeder and is to receive a watch for having attained that distinction.

The boy devoted one acre to his contest crop. He harvested 800 pounds of seed cotton from which he ginned 360 pounds of lint. The bale sold at 6 cents a pound or \$23.75 for the bale. Production cost was \$9.90, leaving a net profit of \$13.85. The crop was planted May 16 and Travis began picking on September 20th.

The club member is a son of Mr. and Mrs. Earl Hallmark of Loraine.

'CENTENARY METHODIST CHURCH, SOUTH'

Former pastors and members of the church will be guests of honor for an all-day meeting. Dr. J. W. Hunt, president of McMurry College, is to deliver principal address.

BURT SMITH ENTERS RACE AS ASPIRANT FOR OFFICE MITCHELL DISTRICT CLERK

Candidate Has Resided Here
Twelve Years; Is Well
Known To Public

Burt Smith, Colorado barber, Wednesday afternoon authorized The Record to announce his candidacy for nomination to the office of Clerk of the Mitchell county District court, subject to action of the Democratic primary election July 23.

Mr. Smith has resided in this and Scurry county for twenty-six years. He came to Colorado 12 years ago and has made his home here continuously since. He has been engaged in the barber business during the time.

"I am not entering this campaign as the candidate of any special group or organization," Mr. Smith stated. "I am running solely upon my individual qualification and merits, believing that I am amply qualified to fill the responsible office to which I aspire."

Smith is assistant superintendent of the First Methodist Sunday school and for many years has been active in religious work.

Investigation of his record as a private citizen during the several years he has lived in this section of West Texas and of his educational and other qualifications to render dependable and accurate service as District clerk are all that the candidate asks of the voters. He pledges to devote his very best attention to the office if elected.

REGISTER JERSEYS AT HALF PRICE OF \$5.00

There are a number of these individuals in Mitchell county. In order to take advantage of this special offer, the animal must be two years of age.

Romance of Spring Overcame Editor as He Wrote of Flowers and Other Beauties

The editor of The Record twenty-one years ago was evidently overcome with the romance of Spring as he transcribed his thoughts into "copy" for current edition of the paper. Three inches of rain had fallen during the past week and everywhere people were enthused over prospects for a bounteous crop yield.

"Mitchell county is a dream just now," to quote from editorial column of The Record for April 21, 1911. "The hillsides are bedecked with flowers of every hue, while the valleys look like rivers of green and gold. While all this is pleasant to look upon, it also has the backing in the way of herds and farms that challenge the admiration of the world. The man with the hoe will soon transform this garden spot into Elysian fields where singing birds, poetry and contentment makes the life one sweet song. Come to Mitchell county."

Fishing in the Colorado river was reported by local Isaac Walton adherents to be unusually attractive. Large catches were being reported to the editor daily.

Plans for the annual summer normal, to open in Colorado in June of that year, were being concluded. B. M. Harrison, director of the normal, in an interview published that week, urged local citizens to extend full cooperation. It was especially urged that adequate boarding facilities be offered the visiting teachers at a nominal charge.

WILL ROGER'S NEW PICTURE OPENS TODAY

Starting today, April 21 and showing tomorrow, Will Rogers, internationally famous comedian and humorist, makes his initial bow on the Palace Theatre screen in defense of the American "Babbitt." His newest starring vehicle is "Business and Pleasure," adapted from the best selling novel, "The Plutocrat," by Booth Tarkington, written as an answer to writers of the Sinclair-Lewis school who have consistently poked fun at Americans abroad.

Rogers, in the role of Earl Tinker, Middle West razor blade manufacturer, goes on a Mediterranean cruise with his wife and daughter. Incidentally, he has a business scheme in mind, and also is anxious to get his daughter away from an unhappy love affair at home.

METHODIST CHURCH HOLDS UNIQUE RECORD THAT HAS LASTED HALF A CENTURY

Congregation Never Failed
To Pay Financial Dues
As Were Assessed

First Methodist church, that on next Sunday is to arrive at its first half century of religious activity in this community, is credited with a unique record among Southern Methodist units of the Northwest Texas Conference, in that from year to year, in prosperity and in adversity, the congregation has never failed in paying every budget assessment in full.

During the past two years, when finances were distressed officials of the church were at times confronted with the perplexing problem of "making both ends meet," so to speak. Another conference year was coming to a close and some one or two thousand dollars remained to be raised if the congregation should maintain its record. But, the membership, as ever in the past, rallied and the last dollar was subscribed and paid into the church treasury.

And First Methodist church has done that in years when assessments aggregated as much as \$14,000 annually. The church budget is below that amount now, but it has been but recently that the latter sum was required in order to pay out in full.

Sunday, when the congregation comes to celebrate fiftieth anniversary of organization of the church, it is sure that record standing back of those years will bring added inspiration to every parishioner, an official stated Wednesday afternoon. "First Methodist church should be proud of its record," he declared, "but we should not allow ourselves to be satisfied with whatever achievement that has been attained in the past. The future is before us and it is to a greater First Methodist church that we are setting our goal."

HIGH SCHOOL TOPICS

EDITORIAL

At last the season of all our high school careers has arrived. It is the season for entertainment, including the banquet and reception.

While passing for a moment, let us consider our attitude in a place of pleasure. These entertainments are being given for happiness and joy, and order to create that atmosphere, we must spread happiness among the guests and host while there.

Have the school spirit. Do not be stiff and formal but radiate your youth and happiness through your natural simplicity. Then, above all attitudes, keep everything lively and jolly and it will mark a date never to be forgotten in your school day memorandum.

Consider the position of the host or hostess. Realize the happiness she is receiving by having the privilege to entertain her school chums and

then make a determination to give your best in making the event one to be remembered among the social activities of the school.

Let those who are guests remember that once they were hosts. In order that they can more fully realize all included in the undertaking of an entertainment.

Let those who are hosts or hostesses remember that next year they will probably be guests, so that they can better understand the position of guests at a school reception.

Everyone, wear your true school spirit. Juniors, let us do our best by the seniors in the annual banquet. Keep your natural simplicity, happiness, and friendliness and then plunge into the social event of the year of Colorado High School.

At 7 A. M. May 9, 1932, the Colorado Band, which has been chosen as the official band of the American Band, will join the marchers for the convention to be held in San Diego, California. This band was selected as the best band in West Texas last year and has made considerable improvement since then in preparation for this trip. The band has been practicing for the last seven months. The members of the band wish to express their appreciation to the citizens of Colorado, who have assisted them in all their undertakings.

Farmers May Swap Cotton For Tools Under New Method

CHICAGO, APRIL 22.—Higher prices for wheat, corn and cotton are guaranteed by the International Harvester Company in an offer to this year's purchasers of certain important crop-producing and harvesting machines. The higher prices guaranteed are 70 cents a bushel, Chicago, for wheat, 50 cents a bushel, Chicago, for corn, and 8 1/2 cents a pound, New Orleans, for cotton.

George A. Baesley, vice president in charge of sales, said today: "We are convinced that the reluctance of farmers to buy implements needed for the economical production and harvesting of their wheat, corn and cotton crops is due to the present unsatisfactory prices of these commodities, and we believe that if they were assured of higher prices for their products they would not hesitate to purchase the new cost-reducing machines that they need."

"In order to meet this situation, and to evidence our faith that prices of farm products must soon improve, we are now offering growers of wheat, corn and cotton assurance of higher prices with which to pay notes when hereafter and maturing this year for purchase of certain machines most vitally needed in making and gathering these crops."

The list of machines to which this offer applies includes farm tractors, harrow-trashers or combines, windrowers, harrows and stationary threshers. The higher prices which these new terms guarantee are 70 cents a bushel, Chicago, for No. 2 hard wheat, 50 cents a bushel, Chicago, for No. 2 yellow corn, and 8 1/2 cents a pound, New Orleans, for middling cotton.

"On notes maturing in 1932, given hereafter in payment for the machines, and representing not more than 40 per cent of the purchase price, there will be endorsed the equivalent number of bushels of wheat or corn or pounds of cotton computed at the prices named. If the average market quotation for the 3-day period prior to and including the maturity date of the note is less than the price named, the purchaser will be credited with an amount representing the price differential multiplied by the number of bushels or pounds endorsed on the note."

"For example, if the note due in 1932 amounts to \$420, it will require 600 bushels of wheat at 70c Chicago, to meet the obligation. Should the price of wheat at maturity be less than 70 cents, say 60c per bushel, Chicago, the purchaser's note will be according reduced \$60."

"I take this opportunity of reiterating what the company said in its farm products could not long prevail: recent annual report for 1931—that the present abnormally low prices of also that only a slight improvement in prices for farm products would have an important effect in correcting the vicious circle into which all business has been forced in the period through which we are now passing."

Healthy As Well As Sick Should Use

CRAZY CRYSTALS

I have used Crazy Crystals only a short period, but have come to the conclusion that the healthy as well as the sick should use CRAZY CRYSTALS. Not only the sick and run down system should have it; but also the healthy ones who are interested in saving their health. I noticed the first few days I started the treatment that it refreshed my kidneys. Second, I noticed it took effect on the bladder. Third, it works the bowels gently and freely. I also find that it clears a person's complexion.

SOUTHLAND GREYHOUND

"Sure" WE'VE BEEN BUYING~ *we can't afford not to~*

Louise and I feel quite satisfied with ourselves. We've just said goodbye to that ponderous old dining room set and bought a handsome new suite. We've turned in our old car and purchased a new one. Louise got herself a complete new outfit. I've just picked out a suit and a lot of furnishings I've been needing . . . even little Jimmy has new clothes to replace those he's growing out of . . .

You see, it all started the other evening. Out of a clear sky Louise laughed and said "That old saying about a penny saved is a penny earned, ought to be changed today to a penny spent is a penny saved." Of course I bit and asked why. "Come here and take a look," she said. "Did you ever see such low prices in your life? Everything you eat, wear or use, seems to have hit rock-bottom." Every ad played up new low prices!

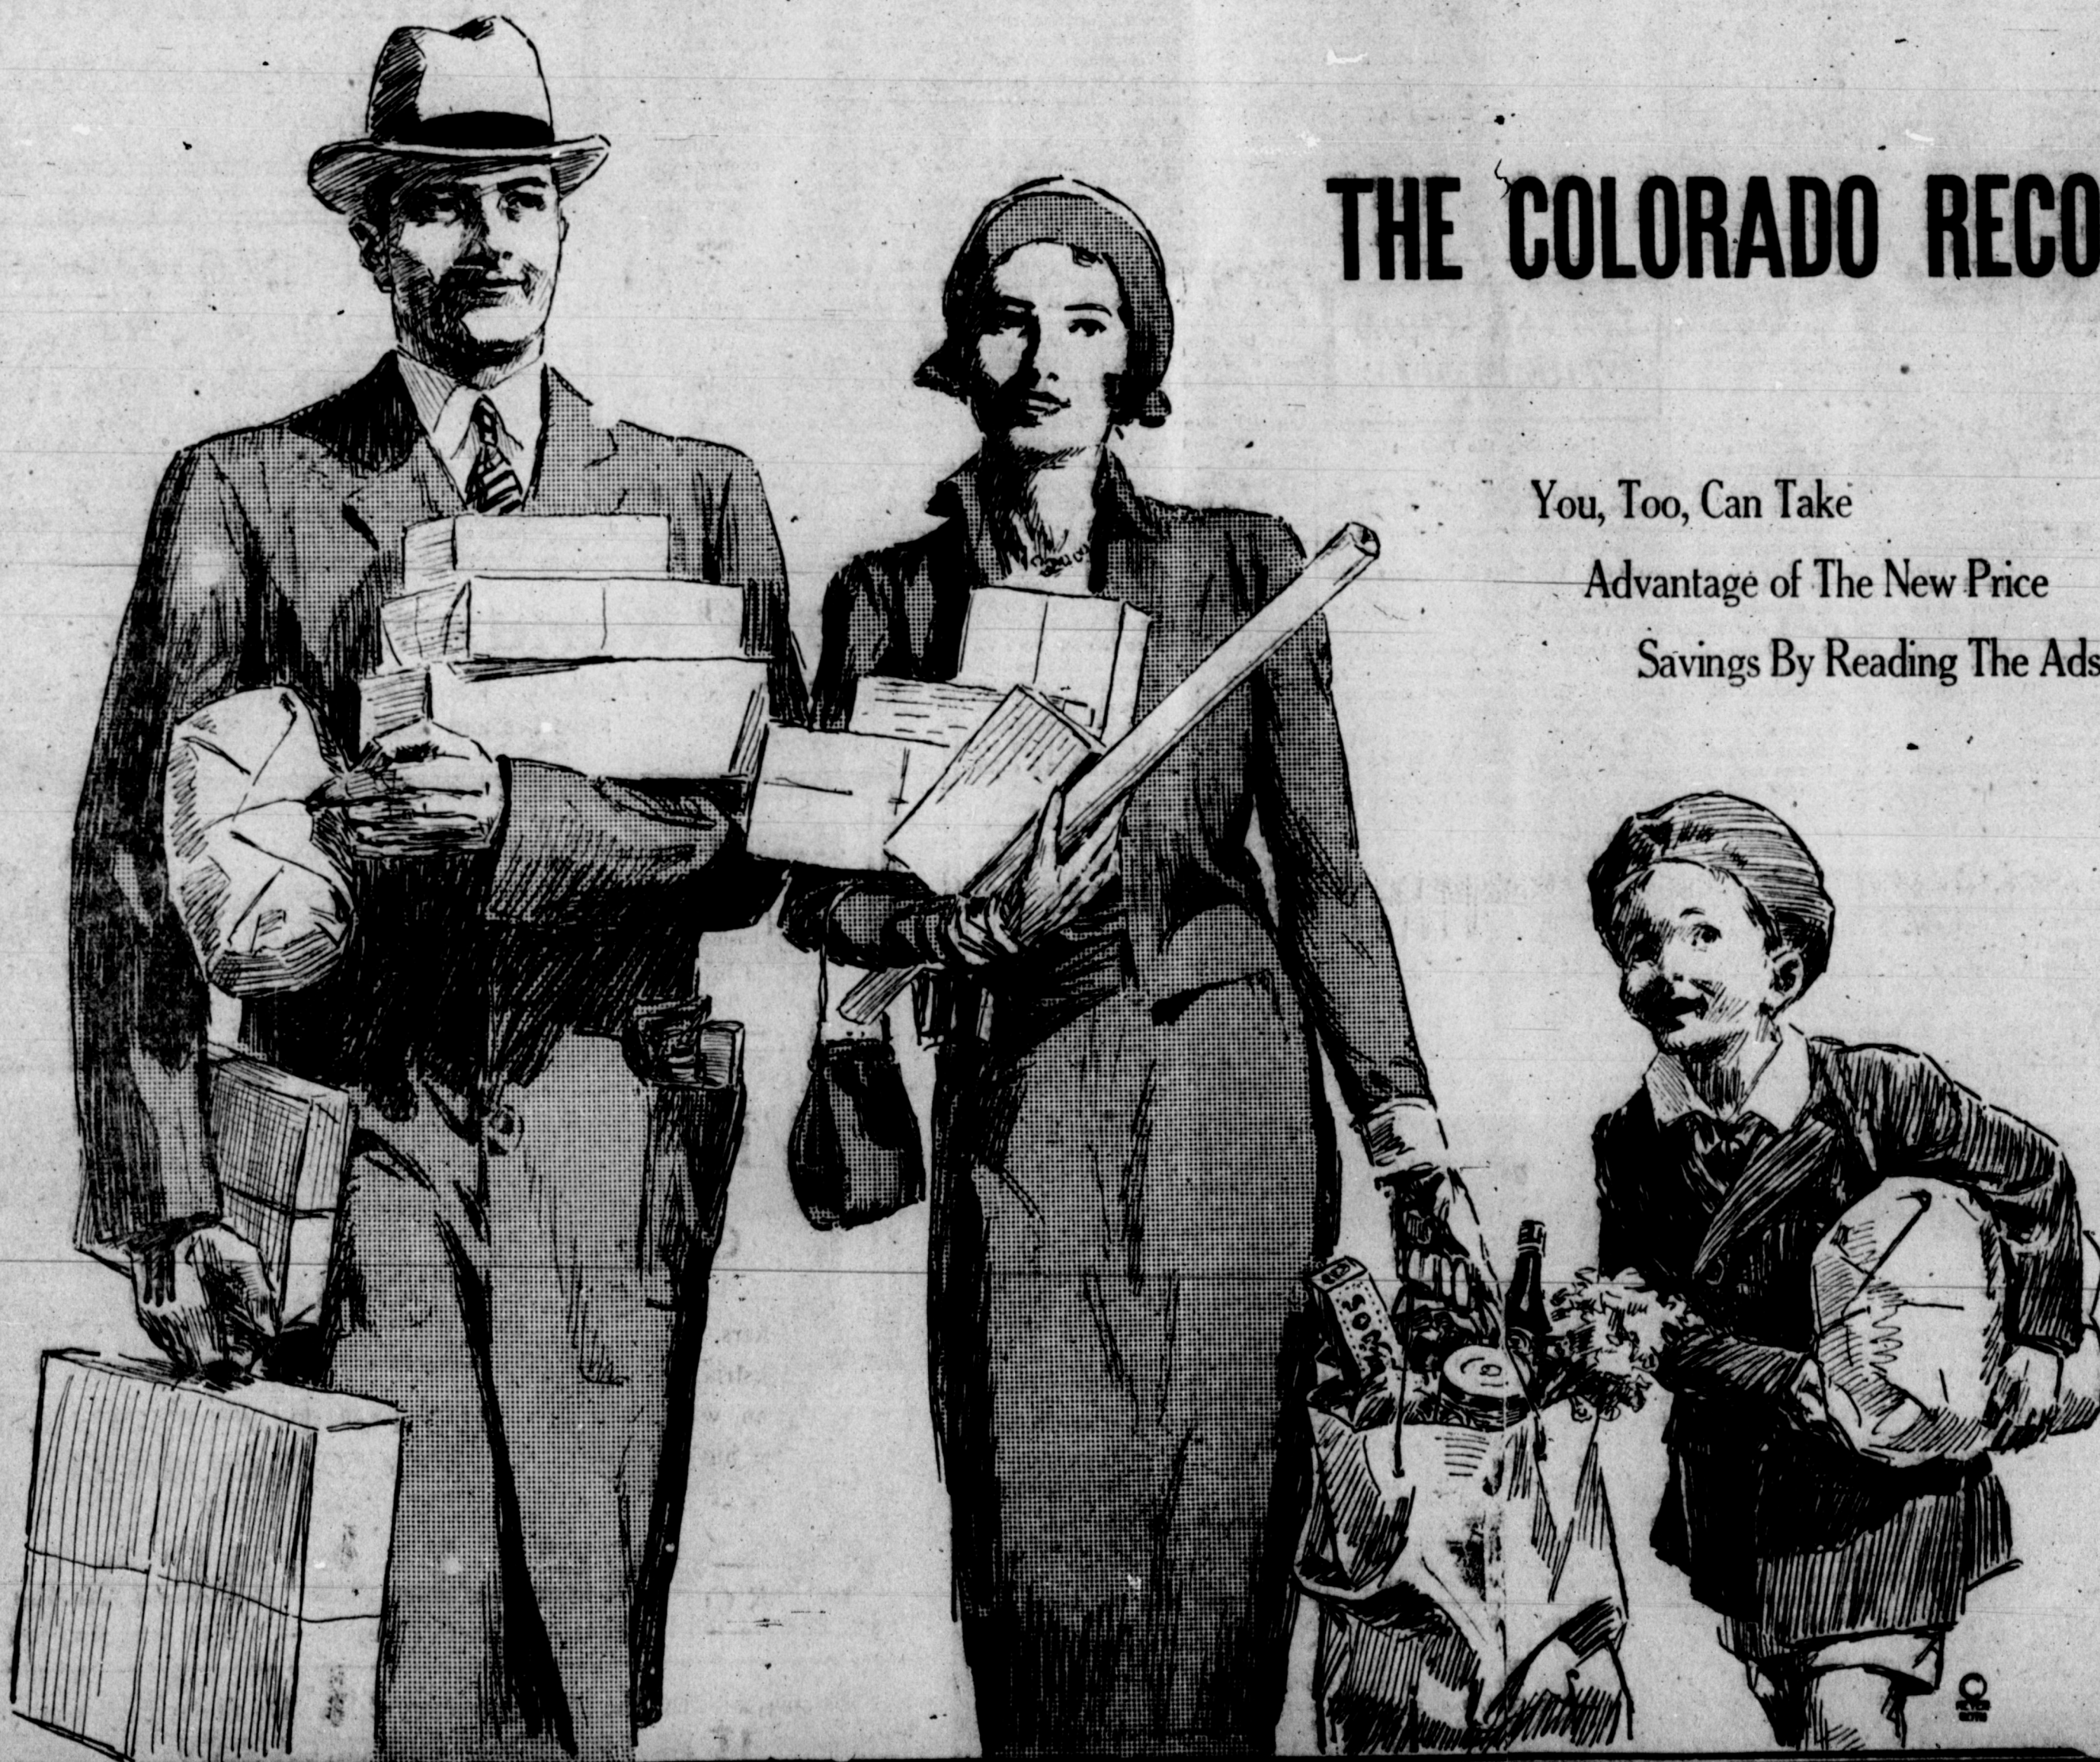

Well, that just got us thinking. A fellow puts his money away to save against the future purchase of necessities and luxuries. If he has it in the bank he gets three or four per cent on his money; from investments he may get a little higher return. All went well and

good in ordinary times. But . . . Louise and I found by a check-up that commodity prices today are from twenty to thirty per cent lower than they were a year ago! We found that by buying NOW we're saving money . . . we're getting an average greater return out of twenty per cent out of our dollar. It's like putting out money at interest.

Well, we just got busy right away. For the next few weeks we kept our eyes peeled for ads in the Record featuring these new low prices. And then we all went on a shopping tour. Buy? I'll tell the world we did . . . we found we couldn't afford to do otherwise in these times!

YOU ARE RIGHT, MR. GREENE

Announcement was made from the Chamber of Commerce Tuesday afternoon the organization would have no part in protest against the construction of proposed highway through Sterling and Glascock counties. A few days before articles published in certain West Texas newspapers indicated that Colorado would join with Sweetwater in registering vigorous demand that such a highway be not constructed, on the contention that the State highway commission would, in the act, be squandering large sums of money to build an expensive road through "a townless area of West Texas."

The Colorado Chamber of Commerce was right in refusing to have any part in such a protest. If Sterling City and Garden City are interesting themselves in the project of obtaining highway facilities, it is their own affair and an outsider has no rightful occasion to meddling in the premises.

If, in the event, Snyder, Colorado and Sterling City should some day be successful in seeing their dream of a north and south paved highway, connecting those three county seats, realized and then find that Sweetwater and Big Spring, for example, should rise up in indignation and inform us we could not have the road, what would be our attitude?

The Colorado Chamber of Commerce, in accepting to keep hands off in this highway fuss, is not detracting anything from its active work in popularizing the Broadway of America. The local organization, according to statement from headquarters in El Paso, is doing as much or more than any similar organization between San Diego and New York City to build up traffic over the transcontinental route. But the organization does not accept to attack the rights and privileges of adjoining friendly communities in attaining that goal.

You are right, Mr. Greene, in informing Sweetwater that Colorado would have no part in protest against construction of highway to serve our neighbor counties to the south.

WE REJOICE, TOO

The Record rejoices with members of First Methodist church upon the occasion of its golden jubilee celebration to be observed Sunday. But for the influences ever carried into the ideals and purposes of citizenship by the church, this or any other community would soon become nil.

May this occasion be all that you have hoped for. May First Methodist church continue to merit its commendable standing among her sister churches in this city and West Texas.

HICKMAN ON THE JOB

Within three hours after a Colorado merchant reported to the police chief Saturday morning that his warehouse had been burglarized the night before, the official had recovered the stolen loot and placed two men under arrest. Another instance of the fact that Dick Hickman is on the job.

A couple, far over the mean line of life, sat on a lichen-covered rock. Holding hands, unseen, save by nymphs, they wandered again along youth's happy highway. Sentiment was an elixir warming their hearts, discounting the unbeckoned crosses that oftentimes cumber the way. Such companionship was titanic in its hold, shaping their course, soothing every doubt and solving the mystery of being. Below the projecting rock, a mountain brook, its singing, its placidity symbolizing life. The little silvered fishes sporting through the water were the vivid thoughts of childhood, knowing no obstacle. The dark phantom-like bodies moving slowly in the deeper pool recalled ogress of the night. The noisy cascades were ill-winds roaring, buffeting along, inate in their teasing chatter to wondering eyes. The tiny whirlpool emeshing drifting leaves to fling them outward was a caldron of fearsome thought striving to hold the good and to spurn the invidious. The face of the rifted stream was passion on which glinted ambient lights and these were the blushes of a maiden, her ador confessing. The steady draft of the current sweeping on to its goal was the tramp of the hero coming to claim his own. The turbid waters in the lower levels was the throb of heartstrings by care distraught—torn. The cooling shades of evening falling, the couple bade goodnight to the wondrous panorama below and slowly homeward-wended, happy of the communion, joy disinting.

The little things are often the most potent. On to join the mighty rivers the purling brook shall go unseen, lost mayhap, racing to the sea, some troubled ship to help "over the bar."

Most of our troubles are brought about by worrying, by our little worries. Scientists tell us the universe goes on expanding at a terrific rate, and give no more heed to our little worries—that the world is coming to an end, than the embryo microbe. They tell us the Nebula spiral and quadrangular are getting away from us at a rapid rate—then why should we continue with our little worries when the unsearchable amplitude of infinity affords so much more space to turn our minds in.

Last week we wrote as a boy entitled "red haw." A reader from Abilene writes to say it was not "red haw" at all, but was the red bud tree. Now, if you will follow my confusion thumaturgy I'll postulate that there is no such tree as red-bud. We know it as cerise occidentalis—a close reading of the Bible we learn that Judas hanged himself on a tree whose blossoms turned red, perhaps in shame by reason of his choosing it. So the people in that day called it the "Judas Tree." Somehow we feel better from calling so soothing a tree by its most dignified denomination. Long ago, before quinine was invented, the aztec-american people were wont to make a brew of the Judas tree bark and drink it to cure their malaria. They did not know they had malaria. They thought they were possessed of devils, and possibly imagined the blood of the Judas tree would counteract the imp of hades.

Last week in this column we had something to say about the mothers of this country and now a lady reader writes in from Midland and says: "What about the wives?" We can only advise that wives, and we think we are capable of advice as we've had the second trial. In an interview on this subject with a lady living with her second husband, she said: "A wife should be absolutely true and loyal to her husband, but she should never let him know he can trust her, that 'was my mistake.' She said, 'I let him know he could have all the confidence in the world in me, so, of course, he immediately began neglecting me. I was safe, so why should he put himself out any to please me and keep me in good humor. If I had my married life to live over, I would begin by making him distrust me just a little. If a man thinks his wife hasn't a very strong character he will buy her everything in the world to get her to

act right, but if he thinks he can depend upon her to remain true and faithful under any circumstances she will have trouble getting even plain house dresses."

Where is the depression? Last week a Mr. Hall of Dallas returned from New York where he purchased a \$4,000 hairless dog.

Where is the depression? Week before last \$60,000 was paid in at the gates to a ball game.

Where is the depression? The filling stations report a 10 per cent increase of gasoline over the previous month.

Speaking of hard times—here is a family in bad. Only a few weeks ago the father sent the boy across the street to borrow The Colorado Record to save a nickel—the boy upset a hive of bees and soon was covered with lumps, the father ran to help him, caught his chin under a clothesline, sprained his back and fell breaking a \$50 watch, the clothes pole fell crushing the top of the family car, the mother rushing out to see what occasioned all the excitement upset a five gallon churn of cream into a basket of kittens and drowned all of them. The electric iron set fire to the ironing board and to the house and firemen chopped a hole in the roof, the baby ate a jar of pickles, got cholera morbus and the doctor's bill was \$15. The daughter ran away with the hired man, the dog bit a neighbor's kind and the calves ate the tails off four night shirts.

Over at the Historical Association in Sweetwater we heard one old timer say that when he first came to this country the Double For Mountain was just a little hill; the seven stars shone only one hour each night; there was no moon; and the sun was no larger than a silver quarter. One fellow told of the early days in Colorado—in the saloon days—a drunk cowboy got on that train at Fort Worth and went to sleep. The conductor waked him up and asked, "Where do you want to go?" The cowboy said, "To Hell," and the conductor put him off at Colorado.

We asked Dr. Ratliff what was a true specialist, he said, "Just a common doctor that sits in a swivel chair, wears a white coat and has a bank account."

We asked Supt. Watson the real meaning of the word "Mortatorium," he said, "It is derived from the Greek word 'Morrow' meaning 'Tomorrow,' and 'atorium,' meaning 'hah! hah!'"

LETTERS FROM THE PEOPLE

Balancing the Budget

Mr. Editor:
The other day, while I was working on my terrace, I got to studying about this budget business that is worrying the daylight out of everybody. Congress is having a heck of a time trying to find something to tax to balance the government's budget. When they get the gold standard balanced Mr. Hoover appoints another investigating committee or Congress creates another bureau and get it unbalanced again.

This whole budget trouble started in the garden of Eden, when Adam and Eve ate those apples and had to wear clothes and go to work. For the worst case of unbalancing the budget we will have to hand the cake to old Joseph—He took all the people's land and money and gave it to Pharaoh. Another case when the Roman empire fell and the people drifted into barbarism—The cause of it was an unbalanced budget. For ten years we bought on the installment plan, we piled bond issue on top of bond issue, tax on tax—We got gloriously drunk and we have a "ding-busted" headache.

We farmers have an unbalanced budget. I have been trying to balance mine. I cut out my telephone; I did away with my carbide lights; I let my fire insurance go; I cut my coffee allowance half into; we have been eating bran, shorts and flour mixed together; I have gone to bed early and slept late to save fuel; my neighbor and I have gone in cahoots in running one car to save gas; I have eliminated so many clothes it would make old Ghandi blush to see me after doing all that my budget gets more lopsided. I will never get it balanced with 5 cent cotton, so maize and 6 cent eggs. It can't be done!

This budget business is causing lots of separations and court proceedings—A woman tries to balance her budget, hunts up her husband and shoots him down; a man tries to balance his budget, goes out, robs a bank, bootlegs some booze, goes crazy or commits suicide. This balancing the budget is a terrible thing. It has got among the chickens. Yesterday I went out to the barn, two old roosters were fighting. All at once they quit. One of them reared back and said, "coo, coo, coo, bud-him," the other one said, "ca, ca, ca, can't get her balance," and then the two old cusses went "at it agin." I went back to the house, Martha

MITCHELL COUNTY FARM NOTES

V. R. Drake of Valley View reports that his farm is producing double what it did six years ago when he first terraced it. His terraces are level and he says they practically flood the field.

Farmers in Oklahoma are pleased with the showing of Chiltepec, a new grain sorghum developed by the Chillicothe Experiment Station by crossing kaffir and feterita.

Pecan trees have been budded to improve varieties at the R. L. McMurry, J. D. Harvey and Riordan homes. Now is the time to bud native-pecans to make them bear larger pecans.

Plans for self-feeders for hogs have been furnished M. A. Dunahoo, Earl Brown, James Barnes and L. M. Jones recently.

Marion Hamerick, J. J. Payne and James Barnes will try demonstrations with the new grain sorghum, Chiltepec.

"There are no ifs and ands about terracing," declares George Plaster, who says that this practice pays big dividends. "The rows on each side of the terraces produce more than twice as much wheat they are terraced. My home place would have been ruined by now if I hadn't terraced." Mr. Plaster has around 800 acres in cultivation and all but 85 acres are terraced. "I am going to terrace that 85 acres just as soon as I get to it," he says.

GOVERNMENT SPECIFICATION GASOLINE PLACED ON SALE

A new gasoline, produced according to government specifications for use in ambulances, fire-engines and other emergency vehicles, was on retail sale here this week.

Announcement of the new fuel was made by local officials of The Texas Company who said the product, to be known as Texaco Fire-Chief Gasoline, would replace the original "dry gasoline" introduced by them in 1926. The new gasoline sells at no extra cost.

"The original 'dry gasoline,'" The Texas Company announcement said, "was a revolutionary step forward in the development of motor fuels. Motorists were quick to recognize its properties: Easy starting, snappy acceleration, maintenance of power, freedom from crankcase dilution, complete combustion, greater mileage and high anti-knock rating."

"The Texas Company, however, continued its efforts to develop an even better motor fuel, a fuel which under the most adverse conditions imaginable could be relied upon to the utmost. The result is Texaco Fire-Chief, as great an improvement over the original Texaco 'dry gasoline' as the latter was over the motor fuels generally marketed in 1926."

"In Texaco Fire Chief all of the superior qualities of Texaco 'dry gasoline, have not only retained but intensified. The octane number of the new fuel has been materially improved so that it is now an outstanding product in anti-knock quality among non-premium gasolines."

"For use in emergency equipment, such as fire engines, ambulances and military vehicles, the United States Government has specified since 1931 a gasoline known as 'Motor Fuel V.' An advanced process, developed and perfected by The Texas Company, made possible the production of this 'ideal' gasoline on a commercial scale and made it practicable to offer it for retail sale at no extra price."

"The Texas Company will continue to market Texaco-Ethyl Gasoline which is now a blend of Texaco Fire Chief Gasoline and Ethyl brand of anti-knock compound, making it a outstanding premium-priced motor fuel."

J. Brown, local Texaco agent, advises that Fire-Chief gasoline will be available at the following Texaco dealer stations: S. M. McElhatten, Jatan; D. W. Cleveland, George Dawson and J. R. Horner, Westbrook; P. G. Fuller, Cuthbert; O. E. Allen, Silver; Ben Cooper, Connell & Beal, Henry Vaughn, J. B. Morgan, Marvin Moore, J. M. Rice, and Will Ledbetter, Colorado; J. L. Pratt, Homer Richards, C. H. Manly and R. F. Trott, Lorraine.

Office Supplies, Whipkey Ptg. Co. "Say it with a Want Ad."

wanted me to tinker with the cannon. She was trying to balance another budget.

This budget business is awful. Budgets to the right of us—Budgets to the left of us.

Budgets to the back of us—Budgets to the front of us.

H. L. HARRELL, Lorraine, Texas.

Compliments City Dads.

Much honor to the city administration for its good work in slashing salaries. They have set a noble example. Why can't the county authorities do likewise? Is there any reason why they cannot? There is none, except the will to do it. Anxious taxpayers will bless the name of the one who is brave enough to strait the ball rolling, and relieve this ever-increasing tax burden. Who will be the first man at the bat? TAXPAYER.

At Left—Burgess Darrow, Manager of Goodyear's Development Department, and R. S. Wilson, Vice-President in charge of sales, inspect the largest tire in the world, at Akron, Ohio; twelve feet high and four feet wide.

Below—Car equipped with the new Goodyear Air-wheels—those big pillow-like balloons which make automobiles look and feel as though they were riding on comfortable rubber doughnuts. Air pressure in the 9.00-13 size ranges from eight to 12 pounds. These tires are a direct development of the same tire that Goodyear introduced into aviation some years ago and revolutionized the tire equipment for airplanes.

PANAMA FLO

Helen Twelvrees in another "Her Man" characterization goes through "Panama Flo" as a biting, scratching, clawing, shooting tough baby. She's not a bit tougher than red-headed Charlie Bickford who has the featured part opposite her. Never noted for pulling his punches, Charlie hands "Flo" Twelvrees as good as he receives.

The result, it was generally thought by a Hollywood audience, is thrill-packed with fast action, suspense and good drama of the sort the fan public is reputed to be crying for.

Jungle scenes weren't always convincing, comment indicated, but the photography handled by Arthur Miller measured up generally well. Ralph Murphy shows a flair for directing the Twelvrees brand of stuff. Musical and sound effects weird and effective provide many unusual and lifelike touches to the unfolding of the story.

Don't miss this wonderful picture to be shown at the Palace Theatre April 26th and 27th.
