Precinct Voters Support Smith

Olton Republicans backed Paul Eggers in his bid for Governor with 19 votes. John R. Trice and Wallace T. Sisk each received one vote.

All other spots on the Republican ballot were unopposed. They also defeated the referendum with 16 votes against the liquor by the drink and pari-mutuel betting bills to six for each proposal.

The milk pricing referendum was soundly beaten 20-1. Republican voters approved three resolutions to be presented to the county convention.

In the local Republican convention, three resolutions were adopted to be submitted to the county convention.

One calls for an Amendment to the Constitution of the U. S. to be submitted to the people for vote, that a Federal Court be established in each county in the U. S. with officers of the said courts to be elected by the people.

Also included in this resolution is the proposal that all Federal Office Holders, with the exception of Cabinet members, be elected by the people. Another resolution asks that authorities in power take more drastic action in enforcing our laws against riots and civil disorders.

The third resolution endorses John Tower to head the Texas delegation to the National Convention and that he be nominated as Favorite Son Candidate for President of the U. S.

Delegates named to the county convention were Mr. and Mrs. James Speer, Mr. and Mrs. W. E. Thomas Jr., Mr. and Mrs. Arthur Nafziger, Mr. and Mrs. Earl Robertson, Mrs. and Mrs. J. W. Dear, Mrs. Buddy Hedges, Mrs. Fred Pennington, and Mrs. R. V. Allcorn.

Olton voters who cast their

ballots in the Democratic Primary Saturday went along with their county and state in supporting Preston Smith for governor but favored Waggoner Carr above Don Yarborough as their number two choice. Yarborough and Smith will battle it out in a run-off election June 1.

Ballots cast in the Olton box gave Smith 356 votes followed by Carr with 168. Other hopefuls were Yarborough with 119, Dolph Briscoe 98, Eugene Locke 31, Pat O'Daniel 19, John Hill 8, Ed Whittenburg 5, Al Veloz 3 and Johnnie Mae Hackworth 1.

Ben Barnes took an easy victory at the local level with 631 votes, Gene Smith polled 73 and Don Gladden 45.

Robert Calvert's bid for reelection to the Comptroller's office drew 479 to Dallas Blankenship's 192.

For Place 1, Supreme Court it was Sears McGee 249 and Matt Davis 299, James Denton's 345 topped Tom Reavley's 159 for Place 2.

All three referendums were defeated at the Olton box although liquor by the drink was okayed state-wide with about 40,000 vote margin before the American party county was announced.

Olton voters cast 578 votes against the liquor referendum to 150 for.

Pari-mutuel betting was defeated 549 to 176.

The milk-pricing referendum was downed 535 to 117.

Incumbent Alva J. Spain was re-elected County Commissioner of precinct 1, Spain led Elmo Bryant 491-323.

In the sheriff's race, Don Hatley's 263 edged over the 257 racked up by E. M. McNeese, W. A. Hatfield drew 189 and Stillwell Russell 75.

In an American Party convention Saturday, 28 registered for Alabama's George Wallace.

A county convention is slated for May 11 at 10 a. m. in the XII Room of Security State Bank for the purpose of electing delegates to the state convention. The state convention is to be June 8 at 10 a. m. in the Will Rogers Memorial Center in Ft. Worth.

Delegates will meet in state conventions for the purpose of nominating candidates for presidential electors and for transacting such business as may properly come before the convention.

A Democratic precinct convention Saturday chose Glen Exter, Mr. and Mrs. W. P. Sampler, Mr. and Mrs. Raymond Cooper, Mr. and Mrs. Robert Dennis, Mrs. Eloise Galloway, Mrs. Everett Lovelless, Mr. and Mrs. Wilton Bodkins, Mrs. Lem Roberson, W. K. Britton, Carl Hooper, Fred Hicks and Clovis Poteet as delegates to the County Democratic convention to be held May 11.

The precinct convention adopted by majority vote the "favorite son" resolution as presented for Gov. John Connally.

Delegates were also discussed. Continued on page 3

Four Olton Piano Students Earn High School Diplomas

Four Olton high school piano students who entered auditions sponsored by the National Guild of Piano Teachers have been awarded their High School Diploma by their teacher, Harold Carson, who is chairman for the Olton center.

Each girl passed an extensive test given by Jerry Gannaway of Brownfield who was the Guild adjudicator. The test included playing of four pieces by Baroque composers such as Bach, Scarlatti and Handel, the performance of a complete sonata on the senior level, at least three standard pieces from the Romantic literature and three from Contemporary literature, including one by an American.

In addition they were asked to play major and minor scales, chords, modulations, and transcribe a third grade piece into several keys, and sight read

third grade compositions brought by the judge.

Sue Church, daughter of Mr. and Mrs. M. C. Church, Barbara Cowart, daughter of Mr. and Mrs. James Cowart, Barbara Galloway, daughter of Mr. and Mrs. Charles Galloway, and Jackie Harrod, daughter of Mr. and Mrs. V. O. Harrod made high ratings on the tests.

Their records were sent to Guild headquarters in Austin, Texas, and their diplomas were mailed.

Barbara Cowart received her eleven year pin, having received the Paderewski Medal for entering the National Auditions for ten years in 1967.

Sue Church received her Paderewski Medal.

In addition to entering the auditions the girls have been presented in public recitals.

Funeral Services Conducted For Former Resident Today

Funeral services were held at 10 a. m. today for James Monroe Lain, 78, of Dimmitt, former resident of Olton, in the East Street Baptist Church in Dimmitt.

The Rev. Don Cass, pastor, officiated. Graveside services were conducted at 4 p. m. in Panhandle Cemetery with the Rev. Raymond Hall, pastor of the First Baptist Church of Panhandle, officiating.

Arrangements were under the direction of Dennis Funeral Home.

Lain was born July 23, 1889 at Weatherford. He died May 7 as the result of an automobile

accident in Dimmitt.

A retired farmer, he had been a resident of Dimmitt for three years. Prior to that time he farmed near Olton.

Survivors include his wife, Cora; one son, Ford Lain of Panhandle; three daughters, Mrs. Ruby Tow of Amarillo, Mrs. Nadine Hamm of Dalhart, and Mrs. Evelyn Burleson of Amarillo; four stepdaughters, Mrs. Ruby Sargor, Mrs. Alice Manley and Mrs. Clara Dunn, all of Lubbock, and Mrs. Mary Woods of Weatherford; one step-son, Russell Bales of Floydada; a sister, Mrs. Eva Anderson of Panhandle; 21 grandchildren and 24 great-grandchildren.

Last Rites Held Sunday For J. Hubbard Moore

Funeral services for Jesse Hubbard Moore, 63, were held Sunday at 3 p. m. in the First Methodist Church. The Rev. R. H. Campbell, retired Methodist Minister, and the Rev. Billy Burton, pastor of the Church of the Nazarene, officiated.

Burial was in Olton cemetery under the direction of Parsons Funeral Home.

Moore was born June 14, 1904 in Celina, in Collins County. He was married to Evelyn Crawford, Sept. 14, 1921 in Haskell County.

A resident of Olton since 1923, he moved in 1950 to Sem-

inole. He returned to Olton in 1965. He was a Baptist and a retired oilfield worker.

Survivors include his wife, Evelyn; a daughter, Mrs. Earl McClain; three sons, Lowell and Joe, both of Seminole, and Tommy of Oklahoma; his mother, Mrs. Annie Moore; a sister, Mrs. Temple Doggett of Lubbock; 17 grandchildren and two great-grandchildren.

Three sons preceded him in death, Allen, Jack and Jesse (Cotton).

Pallbearers were Elmo Bryant, Jack Allcorn, Parley Myers, A. M. Kelley, Loyd Blackwell and David Maxey.

Red Cross Fund Campaign Report Given At Meeting

The Lamb County Chapter Board of the American Red Cross met Friday, May 3, in Littlefield.

Wayne Cole of Olton and Mrs. Lyle Brandon of Littlefield were announced as new board members.

The annual meeting was set for June 7, at 4 p. m. in the Red Cross office. Officers will be elected. Anyone joining the

Red Cross in 1968 will be eligible to vote.

Stan Harrell of Littlefield was presented an Instructor Life-Saving Certificate.

A report was given on the Fund Campaign as follows: Olton \$1093.44; Fieldton \$100; Hart Camp \$103; Spade \$302.25; Pleasant Valley \$150.75; Littlefield \$2534.81; Amherst \$219.29; Sudan \$311.35 and Earth \$515.70. Total for Lamb County \$5330.59.

Need Blood Donors For Two Aven Boys

There will be a blood drive for Brett and Matt Aven, sons of Mr. and Mrs. Melvin Aven of Hart, Friday, May 24.

A Mobile Blood Unit from Blood Services of Lubbock will be at the Methodist Church in Hart from 10 a. m. to 4 p. m.

The blood from this drive is to help replace the 100 pints of plasma the Aven boys have used in the past 18 months.

The Aven boys have Hemophilia, known as "bleeders" disease. Because of a defect in the clotting mechanism cuts and bruises cause severe bleeding.

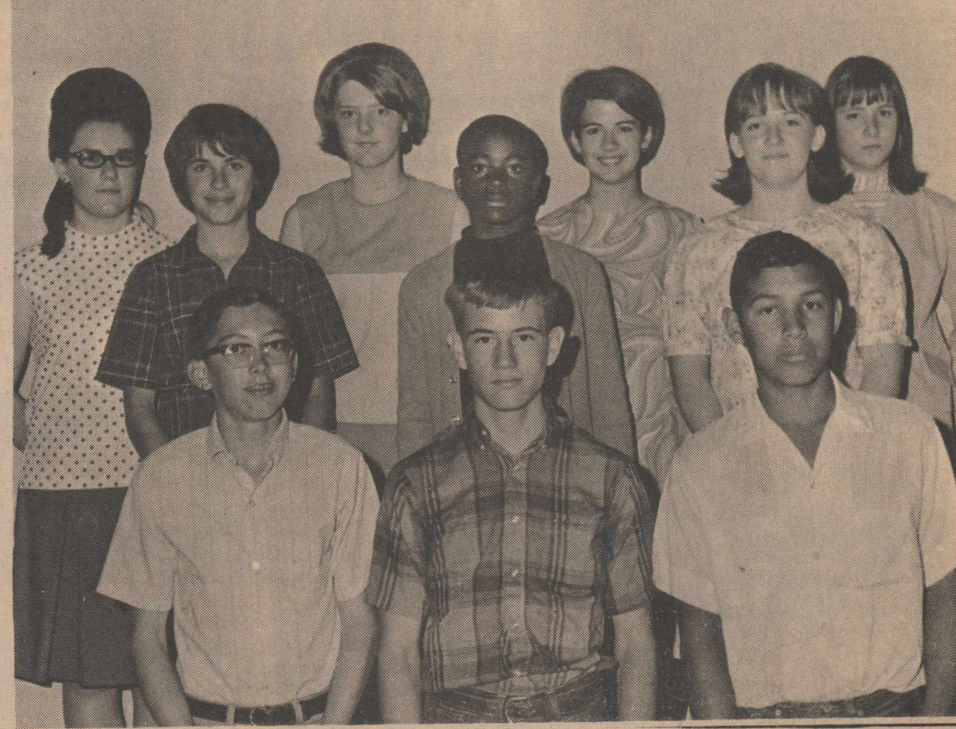

Anyone wishing to donate should call 938-2212. Appointments will be made for the donors convenience. A donor should not be over sixty years of age.

STATE Capital NEWS

By VERN SANFORD

Texas Liquor Control Board is heading for an early showdown test of its new get-tough policies on subterfuge private clubs.

In a surprise order, the Board outlawed cash sales in all bottle clubs.

Some club operators, who already were complaining mightily about an earlier LCB directive prohibiting managers from issuing guest cards to walk-in customers, were hard hit. One promptly filed a lawsuit here to enjoin the board's regulations.

Net result of the cash sale requirement will be to eliminate the casual guests, since operators wouldn't want to run the risk of granting total strangers a month's credit for a highly-perishable commodity.

Hotel-motel clubs who expect to solve the problem by putting club charges on room tabs may find the Board's definition of a cash sale quite restrictive: "It shall be deemed that a cash sale has been made if payment for a service or commodity is made on the same date or within eight hours after the occurrence of such service or the delivery of such commodity."

Clubs also received a long list of new instructions for keeping records and running their affairs according to by-laws and through boards of directors.

More rules are expected to be forthcoming from the LCB. Times may be hard for all but strictly-private and proper clubs in the near future.

LCB Attorney Lynwood Elliott said he thinks the cash sale directive will restrict clubs: "I feel, quite frankly, that when you prohibit a club from making a cash sale it will be less inclined to serve the public at large and will start serving properly screened members."

Situation is expected to bring new pressure for liquor-by-the-drink legalization. Club owners claim they are being made political footballs.

ATTORNEY GENERAL RULES--Atty. Gen. Crawford C. Martin has held invalid an appropriations bill rider

attempting to set up priority for restoring historical sites. This since the Parks and Wildlife Department is otherwise authorized to use its discretion in acquiring and rebuilding such sites.

In other new opinions, Martin held that:

* Proceeds received by the Armory Board of the Texas National Guard in exchange for land near Camp Maxey must be deposited in the state treasury, and cannot be spent for purchase of land. However, other Board funds not in the treasury can be spent to buy land.

* County clerk of Parker County may accept for filing a city subdivision plat of property in an area overlapped by extrajurisdiction of two cities in the county if approved by the largest city's planning commission.

* Although dedicated for a 120-acre park in Colorado County, Hill Memorial Park Foundation is not exempt from ad valorem taxes.

APPOINTMENTS -- State Liquor Control Board named Homer M. DeGlandon of Austin as its chief of staff services and Donald R. Fishel of Boerne its director of special investigations. New LCB district supervisors are Haskell H. Hall, transferred from Amarillo to San Antonio; T. L. Baker, transferred from Beaumont to Amarillo; Henry C. Knowles, transferred from Austin to Victoria; and Doyle E. Davis, transferred from Wichita Falls to Beaumont.

Bruce B. Conway of Houston is the new director of manpower and communications for the Texas Department of Mental Health and Mental Retardation.

State Bar of Texas appointed Leon Jaworski of Houston and W. O. Shafer of Odessa to the governing house of delegates of the American Bar Association. Rupert N. Gresham of San Antonio was reappointed to the ABA house for two years.

VETS BONDS SOLD--Texas veterans land bonds worth \$30,000,000 sold for an average interest rate of 4.33 per cent.

First National Bank in Dallas, Harris Trust and Savings

Bank in Houston, and First National City Bank of New York and Associates were successful bidders on bonds.

Land Commissioner Jerry Sadler, chairman of the Veterans Land Board, said the sale was necessary to continue purchase of land for the Texas program recently revived by constitutional amendment.

Before used for buying veterans land, money will be invested in short-term government securities to offset any interest costs accruing against the Veterans Land Board. Sadler said AAA bond rating and the excellent pay record of the Veterans Land Board made it possible to sell bonds below market.

SHORT SNORTS--Rep. Gus Mutscher of Brenham not only is assured of election as Speaker of the House of Representatives next January, but reportedly has a second term as speaker virtually nailed down.

Texas Aeronautics Commission certified King Flight Services, Inc. of Wichita Falls for scheduled service with Dallas.

Number of draft delinquency cases in Texas decreased from 1,028 to 970 in first quarter of 1968, State Selective Service Director Col. Morris S. Schwartz reports.

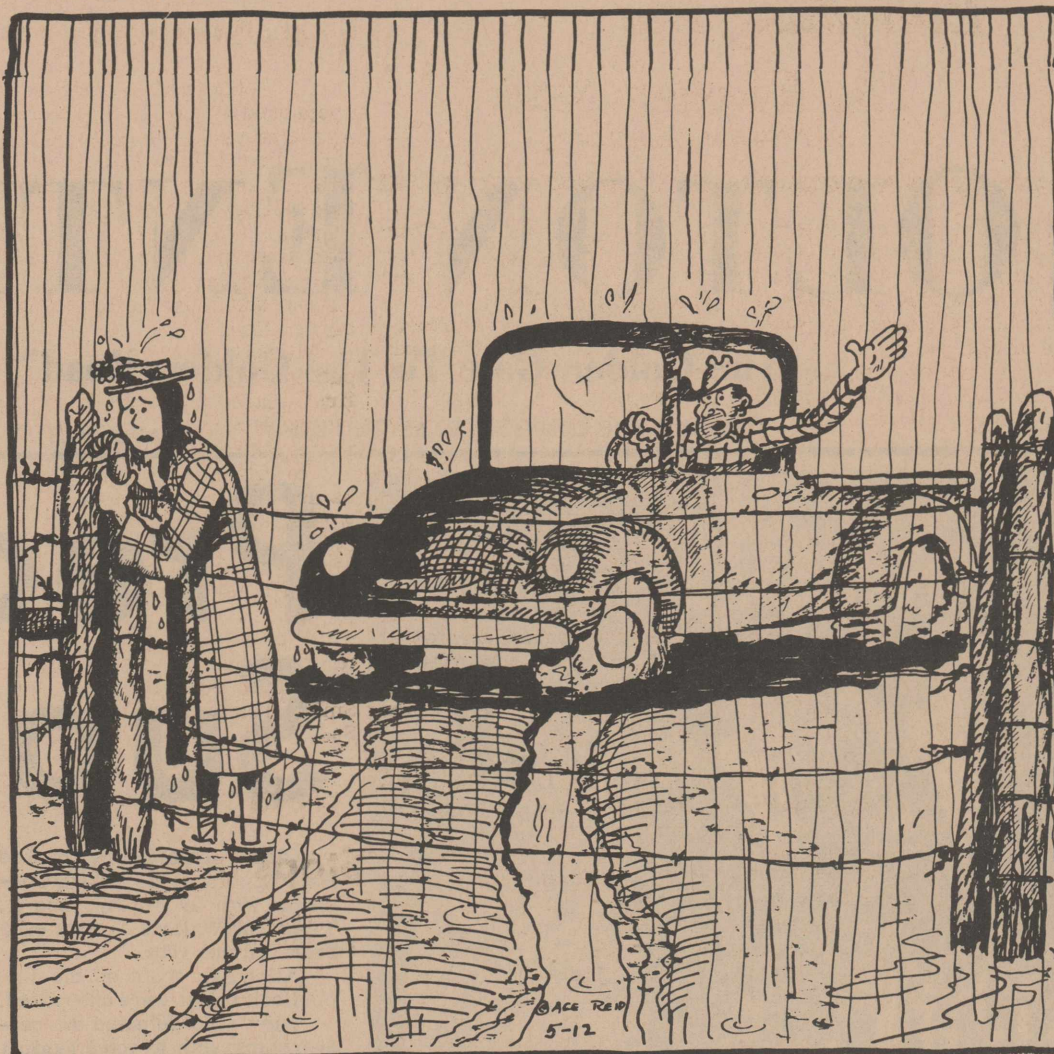

As a part of the new Texas Hill Country Trail, Texas tourist Development Agency has arranged for President Lyndon Johnson's boyhood home, located 13 miles west of Johnson City, to be open through June 9 from 1 to 5 p. m. Tuesdays, Wednesdays, Thursdays and Sundays except when the President is in residence at the ranch.

Water Development Board has contributed \$1,750 to an experimental project to be conducted by Dr. Horace R. Byers, dean of the College of Geological Science at Texas A&M University, to employ modern rainmaking techniques to storm clouds which develop within a 200-mile radius of the University between now and August.

Supreme Court will license 222 new lawyers, who passed bar exams, here May 13.

Dear Editor

Hometown Paper

Dear Sue, "The Editor"

Just a line to say hello. Keep the good work up, with "The Home Town Paper".

We enjoy it so very much every week. Its so nice to be able to keep up with the activities of the Home Town, friends and neighbors.

We want to tell you how proud we are of the Olton Band. So many times people take their school for granted and don't appreciate what they do for their children. We as ex "Band Parents" from Olton, for about 12 years, know what the band, as well as many other subjects, can do for our

children. We salute all the teachers at Olton, and say Thank You, for a job well done.

Some of our sons' friends, tell them that you send them the Olton Enterprise each week. They want to know if they can get one paper, since they are at the same Army Base.

We have moved since they went into the service, so if they aren't eligible, send the statement to us for a years service. Thanking you in advance, Herman and Loraine Meyer 2912 S. Browning Amarillo, Tex. 79103

No Ideas

BY SUE CANNON

Horrors of horrors! Here it is Thursday morning and not a idea one of a subject for a column.

I kept thinking maybe one of the kids might say something that would give me an idea but all they can think of and talk about is the fact that school is just about out.

None of the gals up here at the paper were any inspiration this week and I don't dare mention my flight to L. A. or my sister is going to back out going with me entirely! (I've been bugging her about not wanting to get on the airplane -- not her, ME.)

"The fear of the unknown" is what someone said was wrong with me, since I've never flown.

Well, so much for that. We are just about ready to take off next week.

All I have to do is finish making a couple of dresses, get a week's family washing done, enough clothes ironed for four kids in school, see that the kids are all lined up as to where

they are going to stay, get the paper ready for next week, get my graduation gifts bought and a million other things I could name.

But I guess somehow at the last minute maybe it'll all fall into place we'll get off to L.A. and to the Newspaper Convention. I still don't know what award we will receive. Guess I won't know until I get out to California.

I think it's just wonderful how thrilled all you people are about the award, too. I sure am glad I live in a small town where people are interested in the paper. I have had so many nice things said about the paper since I announced about the award.

The girls in the office are getting kinda panicky about the thoughts of putting the finishing touches on next week's paper. They may decide to keep me here at the last minute. Nope, after I've gone to so and am so excited about going -- I think it would take more than four girls to keep me here.

4-H's Boost Home Sewing

Home sewing may no longer be a necessity, but it is one of the fastest growing home arts. Making one's own clothes is a favorite hobby of more women today than ever before. What's more, there is a certain prestige attached to home sewing.

The machine itself has been so greatly improved during the past decade that it can do almost anything -- from embroidering and darning to buttonholes and invisible stitching.

Choice and design of fabrics provide a kaleidoscope of color and textures. Trimmings, fastenings and patterns help make home sewing easier, and give clothes the "custom-made" look.

Into this exciting world of fashion have come young 4-H girls just learning to sew, and their older sisters who are well on their way to becoming amateur couturiers. Under the guidance of well qualified volunteer clothing leaders, some 700,000 girls between 9 and 19 years of age are turning out school clothes, sports attire, formals and even suits and coats.

These girls represent every state, and annually compete for award provided by Coats & Clark Inc., national sponsor of the 4-H Clothing program.

How do they qualify for an award? By making a garment or garments of their choice, keeping in mind suitability of pattern and fabric to the individual figure. Sewing construction also is a very important part of the project.

Garments are inspected for straight seams, proper stitching, fit, overall finishing, and accessories. Oftentimes, the older girls judge younger members' garments and their own, as well.

They exhibit their work at local 4-H events and at the county fair. The four highest ranking members in the county receive a handsome gold-filled 4-H Clothing medal.

The best ones usually have a chance to show their outfits at the state fair where final judging is done for the state award: an expense paid trip to the National 4-H Congress in Chicago.

If you don't want to pay the price of America's roomiest car - try the second roomiest:

'68 Chevrolet Impala 4-Door Sedan

a new Chevrolet like this

If things like head, shoulder and leg room are important to you, take a close look at the new Chevrolet.

Automotive News did--and its 1968 Roominess Index shows Chevrolet is the second most spacious of all American sedans.

The roomiest? That distinction, we're not at all embarrassed to admit, goes to America's most popular luxury car.

Based on the Roominess Index, which totals seven key interior dimensions to the fraction of an inch,

Chevrolet's 4-door sedan scored 290.7. A tenth of a point behind the 4-door luxury model.

A pretty good showing when you consider how much more the expensive model sells for. And some of the other cars Chevrolet topped carry just as impressive price tags.

But that's just a sample of the pluses you get at a Chevrolet price. You'll find a lot more of them in the fine things Chevrolet has designed around all that space.

Drop down to your dealer's and bring the family. This one's a real crowd-pleaser.

GA'S HONORED as Miss GA are Paula and Relda Strain and Kim Barnett as Miss Junior GA are pictured in the photo above. The twelve members of the GA's are pictured below.

Baptist GA's Observe Focus Week Ending May 5

The Girl's Auxiliary of First Baptist Church, Olton, observed Focus Week April 27 through May 5.

The week began with a weiner roast at the home of Mrs. Russell Strain, G. A. Director, Saturday, April 27. This was attended by 10 of the 12 active members of the Auxiliary.

The Junior group gave a choral reading on the Bible to the Adult I Sunday School Department Sunday April 28. The Intermediate group presented a devotion about the value of family worship to the Married Young People's group.

Each girl attended her regular meetings for the week. The group had charge of the Prayer Meeting services on Wednesday night. A devotion was given on the Holy Spirit, showing the many ways people depend on Him. Narrator was Mrs. Russell Strain, and those reading Scriptures were: Jennie Lynn Gunter, Lisa Duncan, Brynna Allcorn, Kim Barnett, Debbie

Vaughn, Donna Hodges, Melanie Cowart, Rebecca Hodges, Paula Strain, Cynthia Johnson, Chesna Dickenson, and Relda Strain.

During April, each group participated in a contest to select Miss Junior GA and Miss GA. Each girl earned points by doing their jobs properly, being on the program, passing Forward Steps, and attendance at meetings.

Kim Barnett, Debbie Vaughn, and Lisa Duncan each passed a step.

Miss Kim Barnett earned the most points and was named Miss Junior GA. She was presented with a GA bracelet with a charm for each step she has passed.

Paula Strain and Relda Strain tied for the honors of Miss GA. Each girl was presented with inspirational books.

Each GA was presented with the GA pin for the work she had done during the month. Presenting these awards were Mrs. Chuck Saul and Mrs. Buddy Brock, Intermediate coun-

Everything But The Kitchen Sink

BY MOZELLE TROTTER

Wouldn't it be nice if wishing really made it so? It would be even nicer if household chores were done as easily as television commercials would have us believe!

I'm a dreadful manager, I'll readily admit. But I'd be a whiz if my bottles, boxes, tubes or cans held such wonder-working marvels as those used by the television announcers.

The commercials that get me the most upset are the ones on floor care. That's my sore spot! I cared for hardwood floors for almost 10 years and I don't believe these wax commercials!

There's nothing prettier than freshly waxed and buffed hardwood floors. Then let a couple of little boys walk through the rooms a couple of times. What have you got? Wall-to-wall scuffs.

And then there are the cooking commercials. Have you ever tried that product that just compels you to kiss your butcher?

Say, do you know any housewives who'd go through sewer tunnels to get ANYONE'S fried chicken?

It doesn't really matter if you can cook good or not. If you wash your dishes the way you should your guests won't even notice the food!

Detergent commercials also irritate me! Remember that old commercial where the deter-

gent is so powerful your washer becomes 10 feet tall? I used box after box of that stuff and mine just sat there!

I don't know about you housewives but if one of MY friends comes over and shoves MY refrigerator out to see if MY house is clean, I might just clean it up with her!

I rather doubt if smokers would agree with me but cigarette commercials bug me, too. Especially the one that has so much difficulty because it's so long.

It's a bit far-fetched to think a professor would react the way the television one does when his little girl comes running in from her visit to the dentist. Come to think of it, it's a wonder we have anyone new beginning to study dentistry. That tooth-paste should almost put an end to the demand.

I wonder if I put Brand X on my hair if Gene would bring me roses.

Wonder how many rolls of paper towels you'd have to drop in the Mississippi to absorb its waters - say, three or four?

My house usually looks like the one in the tonic commercial - remember that one? I've been thinking that maybe I'd try the stuff but I'm afraid Gene couldn't stand the shock!

I'm not really too bothered about television commercials though, I admit the boob tube gets a good work-out at our place.

Wearing cotton may be one way to keep well! Medical researchers have discovered that viruses do not live as long on cotton as they do on other fabrics. While a virus may live for three months on some fabrics, it will only last about three days on cotton. If the cotton fabric is treated with a wash and wear chemical, the virus only lives one day.

Mrs. C. S. Silcott presented each counselor with a GA pin.

Miss Debbie Vaughn presented Mrs. Silcott with a book on behalf of the GA's for all her help given during the month. This book will be placed in the church library shelves in honor of the WMS.

Thursday night a Father-Daughter banquet was held in the fellowship hall of the church. After the meal was served, relay games were played with the girls competing against their fathers.

A slumber party was held on Friday night in the Mrs. Russell Strain home. Those attending were Chesna Dickenson, Cynthia Johnson, Relda Strain, Paula Strain, Lisa Duncan, and Kim Barnett.

These girls attended the Associational Meeting at Plains Baptist Assembly on Saturday morning. The missionary speaker was Mrs. Marilyn Mc Millon of Tanzania East Africa. She presented a style show and then told of her work.

The group held a picnic lunch before returning home. The GA's were recognized as a group during morning church services on Sunday May 5.

Safeguards Can Help Prevent Food Poisonings

Food poisoning can dampen a picnic spirit quickly—and the only safeguard against it is caution.

Poisoning can be caused by handling food too much, improper cooking and leaving food exposed for several hours.

Foods prepared in advance and left outside can be infected with organisms which multiply quickly and do not affect food taste, smell or appearance, according to Francis Reasonover, Extension foods and nutrition specialist at Texas A&M University.

Since you can't tell if a food is safe to eat, extra precautions are necessary. Foods most vulnerable to poisoning are potato salad, egg products, fish, ground beef, poultry, pork products, sauces, dairy products and pastries, especially custard and cream pies.

Miss Reasonover said that food definitely should not be kept at room temperature more than three to four hours. It may be cooler or warmer, she advised, but room temperature is critical.

Principal cause of food poisoning, staphylococcus bacteria, can be spread by unclean hands and utensils. The cook can spread the bacteria by a sneeze or cough.

Flies, which spread salmonella infection, are another major source of contamination. But when spraying for insects, be sure to cover all food and dishes, cautioned the specialist.

DAIRY CATTLE

Six breeds of dairy cattle are important milk producers in this country. Holstein-Friesian which came from Holland in 1857; Ayrshire from Scotland in 1822; Brown Swiss from Switzerland in 1869; Jersey and Guernsey from the English channel islands around 1815; the Milking Shorthorns which are used for both beef and milk production.

SERVICEMEN DRINK MILK

Members of our armed forces prefer milk. A recent survey of returnees from Viet Nam indicated that soldiers and sailors ask for milk the minute they get home.

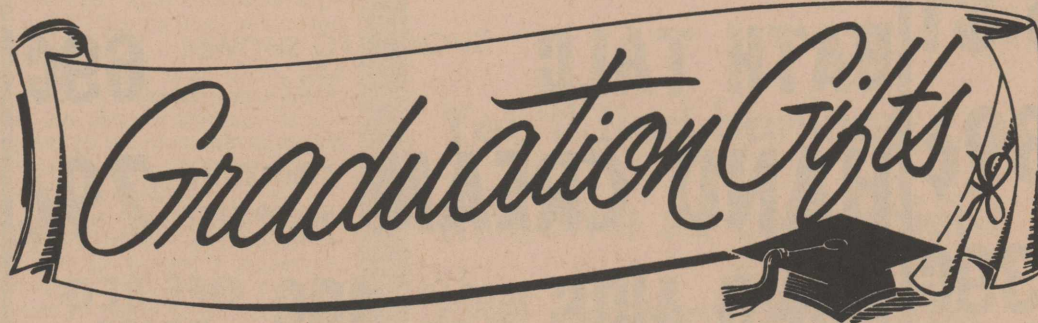

MILK IS VITAL FOOD

Milk is the best source of calcium essential for building bones and teeth, required for proper functioning of muscles and nerves and the normal clotting of the blood. Many researchers have indicated these important nutrition essentials as they have reviewed the many values of milk in the human diet.

Congressman Price Sets Town Hall Meetings Series

Congressman Bob Price has scheduled another series of Town Hall meetings in Panhandle and South Plains communities during the coming weekend.

Price will begin a busy schedule Thursday evening at a Western barbecue supper in the Palo Duro Canyon amphitheatre and participate in Helium Centennial ceremonies at Amarillo Friday.

The Helium ceremonies in Amarillo include an 8:30 breakfast at Villa Inn, dedication ceremonies of the Time Columns and Helium Pavilion at 10:30 and a luncheon at Amarillo Country Club.

That afternoon Price will attend a Hale Center Town Hall meeting at the City Hall there at 4 p. m. At 6:30 he meets with his Southwest Agricultural Advisory Committee at the Alcove Restaurant in Hale Center.

The 18th District Congressman begins his Saturday schedule with a 9 a. m. Town Hall meeting at the American Legion Hall in Abilene, an 11 a. m. Town Hall meeting at the Community Center in Petersburg and then will participate in the 40th Annual Pioneer Roundup in Plainview. Plainview Roundup activities include a 3 p. m. parade, a 6 p. m. supper at the Hale County Agricultural Center, evening program activities and a square dance.

On Monday, Price will be in Perryton for the annual Ochiltree County Soil and Water Conservation District field day,

a luncheon at Fellowship Methodist Church and a 1 p. m. Town Hall meeting. Monday evening he addresses the graduating class at Claude High School before returning to Washington.

RIOT CONTROL TRAINING

All Department of Public Safety officers have undergone an intensive, accelerated riot control training program. Plans are drawn for maximum assistance to local authorities. State also is buying \$200,000 worth of anti-riot equipment for use of National and State Guards.

DPS reported it stands ready to make "major commitment" of personnel and equipment on request from a local law enforcement agency--although it hopes none will be necessary. **COURTS SPEAK**--Supreme Court held taxable natural gas used as fuel for engines that pump oil.

In a variety of other opinions, High Court ruled as follows:

* Lower courts were right in concluding that a Houston fireman was suspended improperly for buying two mink stoles and a color tv set (believed to have been stolen) from another fireman. (Suspended firefighter denied any knowledge of stolen goods.)

* Women should be enjoined from operating an alleged house of prostitution near Brenham.

* American Travelers Insurance Company, Ltd., a Bahamas-based corporation, cannot do business in Texas without a state permit.

ELEVEN YEAR OLD WINNERS in the grade school track and field meet are left to right, back row - Alan Carson, 100-yd. dash, broad jump; Randy Adrian, 50-yd. dash, low hurdles, shot put; Monte Chitwood, high jump. Front row - Mark Gunter, chinning, Lee Warren, 220-yd. dash.

40th Pioneer Round-Up Slated For Saturday

Complete plans for the 40th Pioneer Round-Up to be held on Saturday, May 18, are taking shape, according to Miss Doris Hoke, president of the sponsoring organization, the Plainview Business and Professional Women's Club.

The square dance on Saturday night following the program is always of much interest to local and area square dancers. Miss Lou Ella Scarbrough is chairman of this activity. Guest caller this year will

be Buddy Jones of Lubbock. He received his initial training from a Callers Institute in Colorado.

Jones was born in Bonham, Texas and moved to Dallas at the age of fifteen. He was introduced to square dancing in 1957 and started calling in early 1958. He called and taught two clubs in the Dallas area for six years each and for the last ten years has called for various weekend institutes and festivals in Texas, Oklahoma, Arkansas and Louisiana.

He moved to Lubbock in 1965 and is currently calling and teaching for two clubs in the Lubbock and Brownfield areas. He taught the last two classes in Plainview and has called for various clubs in Lubbock, Amarillo, Muleshoe, Bovina, Morton, Vernon, Wichita Falls and Clovis, New Mexico. Miss Scarbrough and Mr. Jones cordially invite all square dancers to attend the Pioneer Round-Up and participate in the square dance which will begin at approximately 9 p. m. on Saturday night at the Hale County Agriculture Center.

The price of the ticket covers all activities beginning with the supper at 6 p. m., the program at 8 and then the square dance to conclude the evening.

Miss Vaneta Cross, chairman of the ticket committee, states that the ticket sales are progressing nicely. She also stated that tickets may be secured from any member of the Plainview Business and Professional Women's Club. Tickets are \$1.50 (tax included).

Add a scoop of vanilla ice cream to each glass and fill to the top with ginger ale.

BUILDING, BUSINESS DROP OFF--Both building and business activity dropped off sharply in March, according to the University of Texas Bureau of Business Research barometer.

Construction index fell almost 31 points from the previous month and was eight per cent below March, 1967. However, the January-March overall average of index this year still is 12 per cent above that for the first three months of 1967, due to the record February bulge.

March business index was eight per cent below the February value but was 3.3 per cent above March 1966, Bureau reported.

Veterans Often Neglect Change Of Beneficiary

Six out of ten veterans may need to change the beneficiaries listed on their government life insurance to make sure that the right person gets the money, Jack Coker, Manager of the Veterans Administration Regional Office in Waco estimated today.

The VA must pay the proceeds of the insurance policy to the last beneficiary designated by the veteran even though it might be a divorced wife or a wealthy parent.

In far too many cases, the status of the original beneficiary is changed by marriage, divorce or death, and the veteran neglects to make the change in his insurance.

In a recent sampling it was found that six out of ten veterans probably need to update beneficiary information on their policies, Coker said.

Kenneth Prestridge Applies For Degree

Kenneth W. Prestridge of Olton, is one of 1,120 students applying for spring graduation at Texas A&M University, announced Registrar H. L. Heaton.

Prestridge, who resides in Olton, is seeking a master's degree in range science.

Heaton said 779 students

have filed for baccalaureate degrees and 341 for advanced degrees, including 90 Ph.D. candidates.

The 1968 graduating class will be the largest since immediately after World War II, Heaton noted.

Commencement exercises will be conducted May 25.

Amarillo Minerals, Inc. Plans Uranium Exploratory

Amarillo Minerals, Inc. today announced that they have explored by drilling about five percent of approximately 100,000 acres of leases in the Texas Coastal Plain area owned either wholly by Amarillo Minerals or jointly with Continental Oil Company.

Four uranium deposits have been outlined, the total of which contain a sufficient amount of recoverable ore to supply a mill. Detailed marketing, economic, and engineering studies are under way to determine the feasibility of constructing a mill.

Exploratory efforts in the general area are being increased.

No definite plans have yet been formulated as to an exploratory effort in connection with the Wyoming acreage held by Amarillo Minerals but since a portion of it is in a very active area, the company may be able to get exploratory work done by others to earn an interest in portions of Amarillo Minerals' acreage.

In connection with the uranium exploration permits previously applied for by Amarillo Oil Company on State of Texas mineral classified lands, the first permits have been issued to the company by the General Land Office, Geophysical reconnaissance of these lands has been in progress for some time, and detailed ex-

Pioneer Gas Co. Shows Increase In Net Income

C. I. Wall, chairman of the board and president, told the Board of Directors at a meeting held here today that the net income of Pioneer Natural Gas Company and subsidiaries for the first quarter of 1968 was \$2,945,987, as compared to \$2,675,615 for the same period of the prior year.

Current earnings amount to \$.41 per share on the 7,181,155 shares outstanding during this period. This compares with \$.37 per share for the first quarter of 1967 on the 7,173,028 shares outstanding during that period.

The Board of Directors declared a regular quarterly dividend of 20 cents per share on the outstanding common stock, payable June 6, 1968, to stockholders of record on May 24, 1968.

The first quarterly report to the stockholders will be mailed about May 14.

Notice Of Call For Bids

The Hart Independent School Board of Trustees call for separate sealed bids for complete repair and remodeling on each of three houses, located one block south of First Baptist Church. Bids are to include all labor, carpentry, plumbing, wiring, and installation of one (1) 60,000 BTU panel wall heater, and addition of service porch equivalent to that of rent house # 12. BY SANDEE GREGORY AND JANE ANN DUNCAN

REMEMBER?? Only 48 hours of school left... or 2880 minutes... or 172,800 seconds... As for seniors, 24 more hours at the most, and 3 hours at the least. MY!! Time sure flies fast!

***** IF... one of the most useless and harmful words of our language. Why? Because it causes regret... but it's always regret? This is what we wanted to find out this week.

Because of our deep curiosity, and maybe for the good of some freshmen, we asked this year's seniors not only what event or experience in their school life had meant the most to them, but also what they would do differently if they were a high school freshman again.

Carl Roberts: The things that have meant the most to me are my three years on the golf team. I have learned what it is like to be a team member and the pride that comes from being on a team that has won a district championship for three years.

I guess the thing I would do over - if I could - would be to put a little more time in studying. I guess that is the only thing I would change.

Barbara Gallaway: The events which I am proudest of

are when salesmen, speakers, and just people in general tell the student body or individuals that they think Olton High School is one of the best schools in the area. I am proud of OHS and wish other students would show their pride much more than I do.

If I were a freshman again, I would make better use of the good teachers in Olton High School and try to learn more. One teacher - especially has made me realize how little I know and study. I appreciate him above all others for this.

Carol Hicks: I have enjoyed all four years in OHS, and all the events, not just one, have created one thing in me - pride in OHS.

I don't think I would do anything different except maybe study a little bit more.

Paul Cox: The experiences which have meant the most to me were those in which I added a few more gray hairs to my teachers' heads. If I had my high school life to live again, I wouldn't change a thing.

Jackie Harrod: I can't truthfully say that one experience has meant the most to me. If I had to pick, I would pick the great progress our choir department has made these last

four years. Being a part of the annual staff has been an enjoyment. The football wins and losses have meant much to me. Yet, I'm really just proud to have worked in the programs of our school. Even though our school has more rules than other schools, I feel that I can proudly say, "I am a graduate of Olton High School."

If I were a freshman again, I would take a greater advantage of the knowledge available of the school, and be more considerate of others. I feel that I would do more for the school - but now it's too late.

Danny Dial: Being part of the main activities - mainly athletics - of OHS have meant the most to me. This has been especially so my senior year.

If I were a freshman again, I wouldn't go to school!

Glenda Turner: I don't see how you can pick just one experience from four years and say that that is the one that meant the most to me. Each year has so many rewards if you just look for them. Some of the experiences I remember most are the football games, especially those with Memphis and Denver City. I guess the most important experience of my high school days was when our choir got Sweepstakes. That is a day I will never forget.

If I were just a freshman, I think I would try to be more active and to try harder to make the four years in OHS four of the greatest years of my life.

real good.

If I were a freshman again, I would probably do as lousy as I did the first time.

Lynn McGill: Basketball has been a very important part of my life these last three years that I lettered. If I were beginning my freshman year next fall, and I felt I had a chance to make varsity, I would spend my summer working to reach that goal - varsity! I wouldn't give anything for the memories and experiences I have cherished with the Fillies and Coach Meadows!

Considering my grades, I would begin my freshman year learning how to really study and obtain as much as possible each day. I would make every year seem as important to me as my last.

During my sophomore year in choir, I would boost the spirit and maintain it throughout my senior year. I would give more to the choir and realize the importance of Sweepstakes from the beginning.

For the entire student body and throughout my activities in OHS, I would try to be a better example and really give all I could to make OHS a wonderful memory. The spirit we had during football season this year was beyond words, and if I were a freshman, I would try to make all four years as important as winning district was this year.

Basically, I enjoyed all four years and I'll never forget the good times, but I wouldn't waste a minute and I'd enjoy living no matter what. I'd try to be happy all the time and make others happy around me because I thought I'd never become a senior - and now my future lies before me. Grad-

uation is near, good-byes are here, and I have a small fear.

Approximately 100 girls and mothers attended the last FFA meeting of this school year Tuesday night.

The interested eighth grade girls were recognized and the junior chapter officers of '67-'68 were also recognized.

Jeanna Chester narrated a style show given by the Freshman Homemaking class. They modeled spring outfits they had made in class and at home. Several girls who went to the FFA State Convention gave their reports of the trip. Then the big event, the installation of the '68-'69 officers got underway. Betty Long the president of the '68-'69 Chapter and her other officers were installed.

Refreshments were served.

Don't forget to mark your calendar!! Awards assembly is 10 o'clock tomorrow morning in the auditorium. Baccalaureate is Sunday night at 8 o'clock in the auditorium. Six weeks test for the seniors are next Monday and Tuesday; for under-grads, next Wednesday and Thursday. And by all means, Graduation is the 17th of May at 8 o'clock.

What: FTA Salad Supper Where: School Cafeteria When: Last Monday night at 7:30 p. m.

Parents and teachers were special guests at the FTA Salad Supper highlighting the installation of the newly elected officers. Outgoing president, Jane Ann Duncan, gave her reigniting gavel to Jeanie Gardner. Other officers installed were: Jan

Carson, vice-president; Letha Estes, secretary; Leslie Holladay, treasurer; Helen Smith and Kathy Norfleet, historians; Lucy Gunter, reporter; Cheri Dorris, parliamentarian.

Following the installation ceremony, Sponsor Linnie Campbell was honored for all the time and effort she has given to the growth of the Future Teachers. Others recognized were the graduating seniors and the Students of the Month. Those chosen - based on friendliness, neatness, courtesy, and for each month were: Sherry Moss, September; Donnie Fancher, October; Jane Ann Duncan, November; Jeanie Gardner, December; Stacy Pennergrass, January; Glenda Turner, February; Mary Smith, March; Carol Hicks, April; Connie Brown, May.

Two members to be recognized not only for being an FTA member for four years but also for attending the State Convention each year in high school are Dale Gabehart and Mary Smith. They have been to Austin, Dallas, Houston and San Antonio.

At the State Meet journalism contest Friday in Austin, Sandee Gregory won state in feature writing, second in editorial writing, and fourth as an individual.

Olton High School will hold its annual "Awards Assembly" Friday May 10, at 10 a. m. in the auditorium. All parents and friends are invited to attend the assembly. This assembly is held to recognize outstanding students in the various school subjects.

FTA STUDENT OF THE MONTH-- Connie Brown, daughter of Mr. and Mrs. George Brown Jr., has been an active member of FTA for four years. She has served as reporter this year and attended the State Convention her Junior year.

The results from the State FFA meet have not been received yet, but the boys were

reported to have had a groovy time. The teams were as follows: Dairy products, Joe

Luera, Steve Burleson, and Johnny Fenton (Johnny was unable to attend the meet, so Rickey Smith went as an alternate); Dairy cattle, Mickey Crowder, Terry Snider, and Ronnie Key.

Senior Drivers Present Problems

Being 65 or more years old does not automatically throw a person into the "unable to drive" category. In one test an 82-year-old woman showed faster driving reflexes than an Air Force cadet similarly tested. "Senior drivers are, as a class, vastly superior to drivers 25 or less," Judge Sherman G. Finesilver, Denver, a nationally traveled safety expert, says his studies demonstrate.

Individuals in the 65 years and more age bracket scored higher on knowledge of driving rules on a recent television driving test, according to Minnie Bell, Extension family life specialist.

They present a problem, however, because they don't like seat belts and won't use them; won't yield to right-of-way; drive too slow; and don't like to change lanes, said the Texas A&M University specialist.

Judge Finesilver recommended safety driving training for this group.

A special need exists in Texas because of the change in driver's licensing now done on an individual basis, says Miss Bell. She reported that 211 counties in Texas have local committees on aging.

Many of these committees have sponsored a Drivers' Refresher Course conducted by the Department of Public Safety.

Based on defensive driving techniques on multiple-lane highways in heavy traffic and for night driving and advances in automobile construction, the course was first designed in cooperation with the Governor's Committee on Aging.

About 7.5 percent of American drivers are 65 or more years old.

Lake Greenbelt Dedication Set

CLARENDON-- Lake Greenbelt, a blue oasis in a sea of picturesque rolling green hills and cottonwoods will become the mecca for an estimated 25,000 visitors from a two-state area expected to visit Texas' newest lake in the eastern Panhandle soon.

The occasion will be a five-day celebration marking the grand opening and formal dedication of the lake during the Memorial Day weekend, May 29 through June 2.

Greenbelt Lake--owned and operated by the Greenbelt Municipal and Industrial Water Authority--will be open to the public for fishing on May 29. A three-day fishing contest will follow with a colorful Greenbelt Queen Contest on Saturday night and formal dedication and nationally sanctioned boat racing on Sunday afternoon.

Mike McCully, Clarendon postmaster, heads a special Greenbelt Celebration committee which will help sponsor the affair in cooperation with other Greenbelt member towns, Hedley, Memphis, Childress, Quanah and Crowell. The celebration is being underwritten by the Clarendon Chamber of Commerce.

The lake, already half of its total 60,000 acre feet capacity, is now open for boating, swimming and picnicking. The Texas Parks and Wildlife Department, which recently authorized its first expenditure for improvements at the lake, has set May 29 as the first day for fishing. In addition to such popular game fish as bass, crappie and catfish, Lake Greenbelt is the only public lake in Texas where northern pike is stocked.

Located four miles north of Clarendon on the Red River, Lake Greenbelt features deep, blue waters and white sandy beaches. Already half full, the lake will be some 88 feet deep at the dam and back up water for some four miles when filled. Sherwood Shores No. 9, a fabulous lake-side resort on the north side of the lake was opened last September and hundreds of lots have already been sold with home construction underway. George D'Armond, developer of the Greenbelt resort, said plans call for several swimming pools, parks, and paved streets, water and utilities over the some 700-acre estates. Sherwood Shores will be adjacent to the new 18-hole Clarendon Country club to be constructed on the lake shores beginning in the near future.

More than 1,000 dollars in prizes will be awarded to visitors during the grand opening weekend. Prizes will go to winners in the fishing contest with door prizes to be presented at intervals during the celebration.

Beauties from the six Greenbelt towns will compete in the beauty contest scheduled for Saturday night, June 1 in the Clarendon Junior College Gymnasium. Contestants will be unmarried, from 17 to 22 years of age and sponsored by a civic or social club. The young ladies will be judged in formal gowns and bathing suits

EIGHTH GRADE BANQUET was enjoyed by all eighth grade students in the fellowship hall of the First Methodist Church Friday night. Scenes from the banquet show students exchanging booklets which they are autographing.

Special Program Slated Marking Helium Centennial

The lights will go on in the Pioneer Amphitheatre in the Palo Duro Canyon State Park on Thursday evening, May 16, at 8 p. m. and the public is invited. The occasion is entertainment of the visitors who will be in Amarillo at that time for the dedication of the Helium capsule which is an event of national significance. In order to honor the three hundred leaders of business and industry who will be in the Panhandle on that date, the Board of the Texas Panhandle Heritage Foundation has arranged a special program in the amphitheatre which will enable the visitors to enjoy some of the accomplishments in this area and to experience the impact of an evening in the theatre.

During the first section of the program, the West Texas State University Chorale will sing under the leadership of the distinguished composer of this area, Houston Bright. Some of their selections will be accompanied by brass instruments in very stirring arrangements. As the shadows lengthen, the second section of the program will draw in the Kwahadi Indian Dancers of Amarillo, well known for their colorful and exciting portrayals of Indian days. The Kwahadi last danced on the stage in the Canyon at the national convention of the Men's Garden Clubs of America.

HEMIS FAIR HEADLINES

HemisFair '68 has set up special guided tours for the convenience and comfort of handicapped visitors to the international exposition.

The special tours are held 9:30 a. m. and 4 p. m. each Tuesday and Sunday. They originate at the Gate 3 entrance, which may be approached from Commerce or Durango Streets or Interstate Highway 37.

The handicapped were given consideration in overall planning for the World's Fair. All pavilions, both governmental and private, are easily accessible by wheelchair, and most other facilities on the site have ramps instead of stairs.

Wheelchairs may be rented from booths near the Lake Pavilion and Goliad Food Plaza on the HemisFair grounds.

Numerous special services are available at HemisFair. Baby strollers can be rented on the grounds, tourist information is available at several locations, and public lockers may be rented to store personal items while enjoying a tour of the Fair.

The third part of the program, after darkness has come, will be a short sound and light demonstration showing the history and development of the Canyon itself and ending with horses and flags in a grand finale.

Two of the functions in the program of the dedication of the helium capsule are open to the public. The first will be the program in the Palo Duro Canyon at 8 p. m. The second will be the dedication itself at 10 a. m. on Friday morning May 17. This will take place at the intersection of Interstate 40 and Nelson and will include many interesting attractions. There will be a transportation exhibit, helium exhibits, shows, Don Piccard will be there with balloons for transporting riders and the Goodyear blimp will also be in evidence.

Join in these two celebrations of the helium centennial, and welcome the visitors!

Special Biology Course Offered At South Plains

A special summer course in Biology, including a field trip to Puerto Rico, is being offered at South Plains College.

The course, which will follow the normal Summer School schedule, June 17 through July 26, will offer eight hours credit for Biology 141 and Biology 142. Mrs. Gail Burrier of the South Plains College Science Department who studied in Puerto Rico last summer will conduct the course and accompany students to the foreign country on the field trip. Enrollment is limited to 16 students.

The cost of the entire course will be \$400 which will cover tuition and expenses. Requirements will be high scholastic ability, letter of recommendation from the student's science teacher or the principal and the approval of the instructor.

This special course is available to anyone interested in the study of Biology who is a full time South Plains College student and meets the requirements.

The course will include four weeks of intensive lecture and laboratory work on South Plains College campus and two weeks field work in Puerto Rico.

In Puerto Rico a survey of both plant and animal kingdoms will be made with emphasis on tropical ecology and marine

NEW PTA OFFICERS were installed in the last meeting of the organization which was held last Thursday night in the high school auditorium. Left to right are Mrs. C. M. Moss, Mrs. Martell LeVeque, Mrs. Oliver Rose, Mrs. Dewayne Wilks, Mrs. Royce McFadden, Mrs. Burley Faver, Mrs. Garland Rose and Mrs. Don Spain.

DAIRYING INCOME

Dairying is the largest single source of farm income in the United States, involving about one-fifth of our agricultural economy.

Headlines From HemisFair

It may be Arthur Fiedler conducting an orchestra of automobile parts or a multi-talented musician playing a one-inch long harmonica, but visitors to HemisFair have learned to expect the unexpected.

Fiedler used an oil dipstick to conduct the auto orchestra at the Ford Pavilion during a walk around the grounds before a recent concert appearance at the Theatre of Performing Arts.

He called the unusual combo "the best disciplined orchestra I ever conducted."

Unlike Fiedler's surprise appearance, the harmonica-

playing musician is among the scheduled attractions. He is Bernie Burns of San Francisco, appearing from 6:30 p. m. to 10:30 p. m. nightly through the end of May at the Amphitheatre.

During the free 20-minute comedy musical, Burns performs on five instruments. Besides the tiny harmonica, he plays a 12-string guitar, a "mini-cellophone," and both the blues and "barrelhouse" piano.

The master of the Star-Ravi Shankar-- will bring his "Festival From India" to HemisFair Sept. 20-21.

THANKS

I want to thank the citizens of Lamb County for the confidence which you have placed in me by your votes this past Saturday.

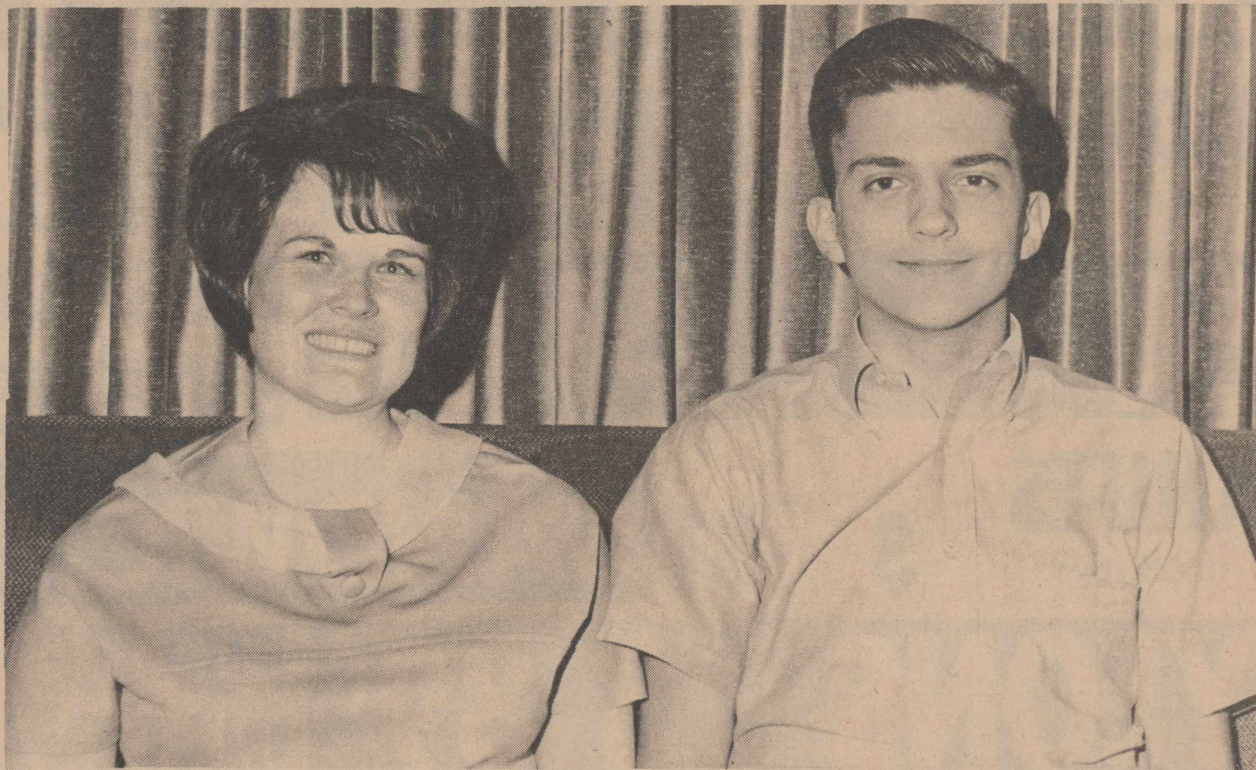

I will try to be worthy of your confidence by doing my best to make you a sheriff you'll be proud of.

Again, my thanks to all my friends for their support.

**NEW! For clean Sorghum...
spray weeds when you see them!
with BANVEL®**

HERBICIDE

Velsicol announces Banvel herbicide for control of all hard-to-kill weeds of major importance in grain sorghum. This includes carelessness (pigweed), sunflower, lambs-quarter, purslane, morning glory and other annual broadleaf weeds. Banvel herbicide is applied post-emergence, so there are no wasted sprays in years when rain is scarce and weeds are not a problem. With Banvel you see your weed problem and then spray—all in plenty of time to give young sorghum plants plenty of opportunity to grow.

Banvel is sprayed onto weed leaves and translocates to the roots... for new, total control of weeds. Just apply Banvel between the 10th and 25th day after emergence of grain sorghum (approximately 4 to 12 inches tall).

Banvel is not dependent on soil moisture for its effectiveness, so its results are dependable. And it's a liquid that won't clog your sprayers; nor does Banvel need constant agitation.

Banvel increases yields. It's excellent for use on grain sorghum, wheat, barley, oats and field corn. Order Banvel herbicide to get full potential from your valuable, high-yielding sorghum seed.

See your dealer today. You'll be glad you did!

Velvet Finishes Aid Performance

Finishes being applied to conventional velvets add performance characteristics such as stain and spot resistance, crush resistance and water repellency, according to Graham Hard, Extension clothing specialist.

Velvets are treated to add new surface interest. Chemically quilted velvets take on an unusual textured interest, says the Texas A&M University specialist. They are bonded to polyester ninn.

Velvets may be made of silk, wool, mohair, rayon acetate or nylon, with plain, twill or satin weave background.

Basic construction dictates performance. Dr. Hard advises consumers to examine the background fabric. A twill weave, recognized by the diagonal lines, is more serviceable than a plain weave.

IMPROVED PROCESSING
Today's dairy food processing industry preserves nature's goodness in milk and dairy foods better than ever before.
