3 Held In Kidnaping

DESOTO, Tex. (AP)—Two adults and a juvenile were in police custody today for questioning in connection with the kidnaping of a 77-year-old woman Tuesday.

The three were seized at two locations late Wedneaday "after we got enough information to bring them in," Police Chief Steve McFadden said.

The kidnap victim, Mrs. Lilly Kirkland of Joaquin in Shelby County, was held for $100,000 ransom for more than 10 hours after being abducted shortly before midnight Teusday.

One Held In Slaying

AMARILLO, Tex. (AP) — Two Amarillo detectives were in Albuquerque, N.M., today questioning a 19-year-old woman in connection with the Tuesday night slaying of an Amarillo restaurant manager.

Police said the woman's husband, a 23-year-old New Mexico man, is wanted for questioning in the case. They said a small blue foreign car sought in the investigation was spotted outside an Albuquerque motel about 7:30 p.m. Wednesday.

Albuquerque police said they took the woman into custody about two hours later as she left the motel.

She is being questioned in connection with the robbery-slaying of Mrs. Mary Janette Powers, 30.

Gas Sales Pondered

WASHINGTON (AP) — The Federal Power Commission is deciding whether to allow emergency natural gas sales to two pipelines that are short of gas and that have cut back service to customers in a number of states.

The action by the commission is being watched closely because the way could be cleared for gas-starved pipelines to buy fuel from sources not subject to federal price regulations.

The SDN Column

Dr. Tom Scannicchio, assistant superintendent-curriculum, believes test scores of public school pupils can be and will be improved, especially in Snyder Public Schools. Educators, parents and others have been jolted recently by reports that products of public schools are falling down on college entrance exams and in achievement tests given in their own schools.

It will require a concerted attack by school people and parents, he believes, but Dr. Scannicchio feels that there is no question that it can be achieved.

The situation apparently is nation-wide in scope, and many factors undoubtedly have contributed to it. And undoubtedly various school systems will attack it in various ways. Dr. Scannicchio said he was surprised to read an Austin columnist's reference to the problem there. The columnist noted that the Austin School Board had adopted a resolution that students there would be required to read and solve problems in mathematics at the eighth grade level before they could receive high school diplomas.

Since public schools operate through the 12th grade, the question immediately arises, "Why not on the 12th grade level?" It is a pertinent question and one that should get a lot of attention.

Of course reading per se is not normally taught in the higher grades, unless it is in the remedial field, but the fact remains that a student has little chance of achieving much in any subject if he cannot read and he may expect even more difficulty achieving much following graduation if he cannot read.

★ ★ ★

Bill Gilliland, the telephone man, said he was startled recently while in Houston when he saw scenes from the Diamond M Museum flash on the television screen. It was a segment of a program called "The Eyes of Texas," and this particular installment devoted a few minutes to Snyder, the late C.T. McLaughlin and the Diamond M Museum.

Gilliland said he understood that several television stations over the state carry this program regularly, but none in this particular area.

WEDNESDAY NIGHT FIRES—Two mobile homes received heavy damages in fires last night. The fires occurred within a 25-minute time span. The first fire was at 7 p.m. at the Avenue M and Texas Avenue residence of Don Fink. Heavy damages were reported to the mobile home, but no one was injured. (SDN STAFF PHOTO)

Three Major Chairmen Retain Posts

By JACK KEEVER
Associated Press Writer

AUSTIN (AP) — Speaker Bill Clayton is keeping old hands at the wheel of the three top House committees, but said today he is deposing three other major committee chairmen.

Reliable sources said he is returning Rep. Tom Uher, D-Bay City, as chairman of the State Affairs Committee, Rep. Bill Presnal, D-Bryan, as head of the Appropriations Committee; and Rep. Joe Wyatt, D-Bloomington, as chief of the Ways and Means Committee.

But Clayton said he is replacing Rep. Fred Head, D-Athens, as chairman of the Higher Education Committee; Rep. Craig Washington, D-Houston, as chairman of the Criminal Jurisprudence Committee; and Rep. Luther Jones, D-El Paso, as head of the Elections Committee.

Rep. Lyndon Olson, D-Waco, will be higher education chairman; and Rep. Lynn Nabers, D-Brownwood, will lead the criminal jurisprudence panel.

Washington was appointed chairman of the House Committee on Social Services, a vacant chairmanship because Rep. Lane Denton, D-Waco, did not return to the House.

Clayton said Rep. Tom Massey, D-San Angelo, will return as chairman of the Education Committee; and Rep. Jim Nugent, D-Kerrville, again will head the House Committee on Transportation.

Head obtained his chairmanship in 1975, after dropping out of the speaker's race and swinging to Clayton the votes he needed to win the election as speaker, but Clayton has made no secret of his dissatisfaction with Head's performance as chairman.

Jones is a liberal with views on such things as presidential primaries that are out of step with Clayton's own.

Washington, a black criminal defense lawyer, is believed to disagree with many of the key provisions of Clayton's package of anti-crime legislation.

Lt. Gov. Bill Hobby released his committee appointments Wednesday, moments after the Senate had rejected an attempt by Sen. Oscar Mauzy to allow senators to elect their own committees.

"It's easier to curry one man's favor than 30," said Sen. A.R. Schwartz, D-Galveston, in protest of Mauzy's proposed rule change.

Icing Hazards Ease Over Area

With timely cooperation from the thermometer, a slippery weather situation was eased Wednesday night and hopes were raised that sunshine would return to the area, possibly late today.

Nobody was complaining about the moisture received Wednesday and early today, however. The mist and drizzle accounted for .35 inch in the official gauge at the Snyder water plant.

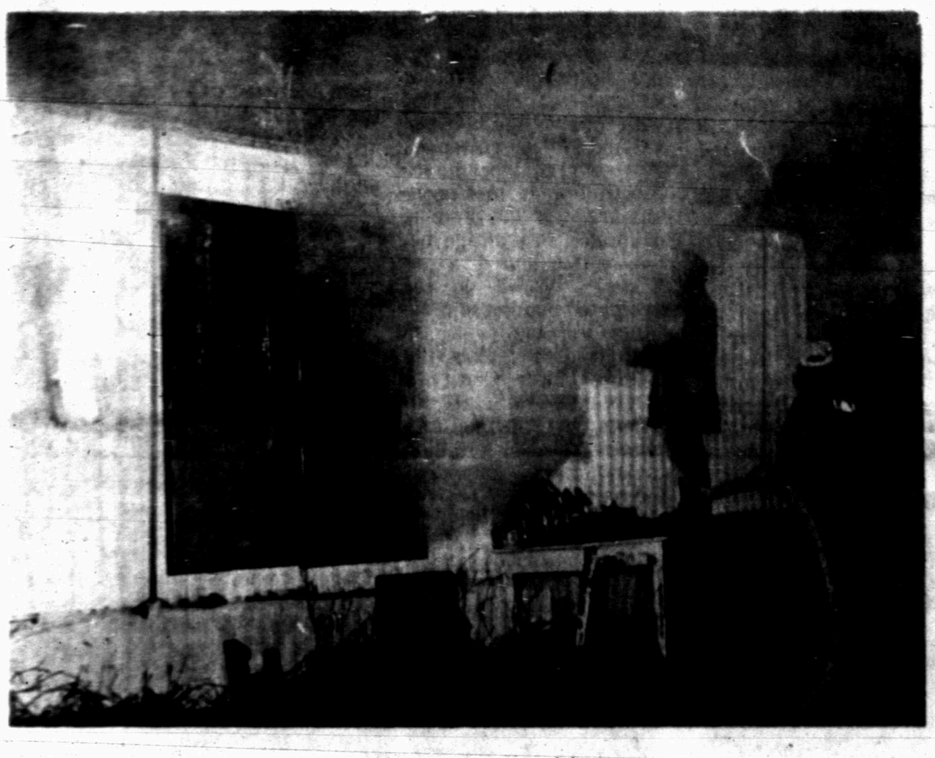

Freezing mist, which hampered vehicular traffic and resulted in some highway mishaps Wednesday morning, abated as the temperature edged above the freezing mark. The precipitation continued, breaking into a full-scale drizzle occasionally to bring some welcome moisture. The thermometer remained in the low thirties over night, but not low enough for ice to form.

This morning, light rain, drizzle and fog were the rule along and east of a line running from Childress and Plainview in the Panhandle south to Marfa in the West Texas Mountains. For the second day in a row, Dalhart in the northwest corner of the Panhandle, was the only station reporting clear skies.

More rain was in prospect for Central, East and South Texas into tonight, weather forecasters said. It was expected to become clear and cooler in West Texas, turning warm tomorrow.

Temperatures were relatively mild in early morning with Dalhart's 22 degrees the only freezing reading reported. Most other points ranged from the low and middle 30s to the 50s.

The overnight temperature range in Snyder was only a couple of degrees, with a high Wednesday of 35, a low of 33 and back to 35 by 7 a.m. today.

SECOND FIRE—The second fire occurred at 7:25 p.m. at the 2008 Avenue O home of Ronnie Williamson. In each fire, large portions of the mobile home were gutted by flames with heavy smoke and water damage reported to the remainder of the structures. Cause of the fires is still under investigation. (SDN STAFF PHOTO)

No New Taxes Is Popular Here

"No new taxes" is an admirable goal, but Gov. Dolph Briscoe could find it a difficult one to achieve over a period of years, many Snyder residents believe, according to a sampling of public opinion here. The Gov. yesterday pledged that there would be no new taxes while he is governor and also indicated that he would run for another term.

The idea of no new taxes is popular, and the idea has broad support, judging from the informal survey here, but some foresee needs that might require additional revenue sources, especially highways.

When Bonnie Brooks, District Clerk, was asked her reaction to Gov. Briscoe's vow not to raise taxes she replied, "I think this is an admirable goal, one that will please the voters. Making the promise good may be the real question, however."

"I think it is great," said Joan Cantrell, secretary for County Attorney George Killam. "I think we have enough taxes as it is," she added.

Newly installed Scurry County Tax Assessor and Collector Clarence Minton said, "I appreciate Gov. Briscoe's policy of no new taxes, but I think it is a rather long range forecast for him to say he is not going to raise taxes if he is seeking re-election."

Other comments in Snyder:

John Portis (retired): "It looks like we can't keep out of a tax increase. The highway fund is short. A lot of agencies are going to suffer if he doesn't raise taxes. Several highway projects have been held up such as the Austin to Amarillo Highway. Also, I'd like to see the state spend some money on water development in West Texas. A lot of our water wells in West Texas are going bad. We need to spend more money on highways and water development in West Texas, and I don't

See Taxes, Page 2

T. B. Knight Dies; Service Set Today

Funeral service was set for 4 p.m. today at the Bell-Seale Chapel for T.B. (Biskie) Knight, 74, a former Scurry County Commissioner. Mr. Knight died Wednesday at 10:30 a.m. in Cogdell Memorial Hospital.

The Rev. Clarence Minton and the Rev. David Robertson were to officiate at the funeral service, and burial was to be in Snyder Cemetery, under direction of Bell-Seale Funeral Home.

A native of Mount Ida, Ark., Mr. Knight had lived in Scurry County since 1914. He was married to the former Rosie Lee Beazley, who preceded him in death, and in 1940 was married to Verna Pippin in Sweetwater , who survives.

He was elected County Commissioner in Precinct No. 1 in 1954 and served on the commissioners court for 14 years. During that time he was instrumental in paving a number of county roads in Precinct No. 1, and in the development of North Park.

He was a 32nd-degree Mason, a member of the Scottish Rite and was a Shriner.

T. B. KNIGHT

In addition to his wife, survivors include two daughters, Mrs. Bobby Jo Davidson of Houston and Mrs. Bobbie Joyce Rose of Snyder; a son, Gene Knight of Houston, three sisters, Mrs. Clyde Brown, Mrs. George (Rachel) McDonald and Mrs. Walter (Frankie) Wall, all of Snyder; a brother, Sylvester Knight of San Diego, Calif.; nine grandchildren and five great-grandchildren. Two sons, Charles and Melvin Knight, preceded him in death.

Mrs. Norman Found Dead

Mrs. Sammy Lou Norman, 55, who lived at 1802 Thirty-ninth Street, was found dead at her home this morning by her father, Sam Tibbets.

Mrs. Norman, who had been ill, was pronounced dead at about 10 a.m. by T.E. Shelburne, justice of the peace. Shelburne said that Mrs. Norman had told a friend last night that she was "sick enough to die," and that her father had visited her last night and she had refused to go to the hospital.

A native of Abilene, Mrs. Norman was a beauty shop operator here.

Funeral arrangements were pending at Bell-Seale Funeral Home. In addition to her parents, Mr. and Mrs. Sam Tibbets, she is survived by a daughter, Mrs. Gus Tolleson of Enid, Okla., and two grandchildren.

"Mysterious" Object Probed

CONCORD, N.H. (AP) —National Guard and state Civil Defense authorities were dispatched today to a small New Hampshire farm where a mysterious object broke a hole in the ice of a pond.

One or two representatives of the Guard were to join the Civil Defense authority farm of William McCarthy in Wakefield, a National Guard spokesman said.

Deputy Atty. Gen. Thomas Rath said tests have been made on the object, which is still in the pond. Rath said he hoped to issue a statement on the results later.

Rath also said the pond may be drained later today.

Meanwhile, a spokesman at the North American Air Defense Command in Colorado Springs, Colo., said "no artificial satellites have fallen into the area."

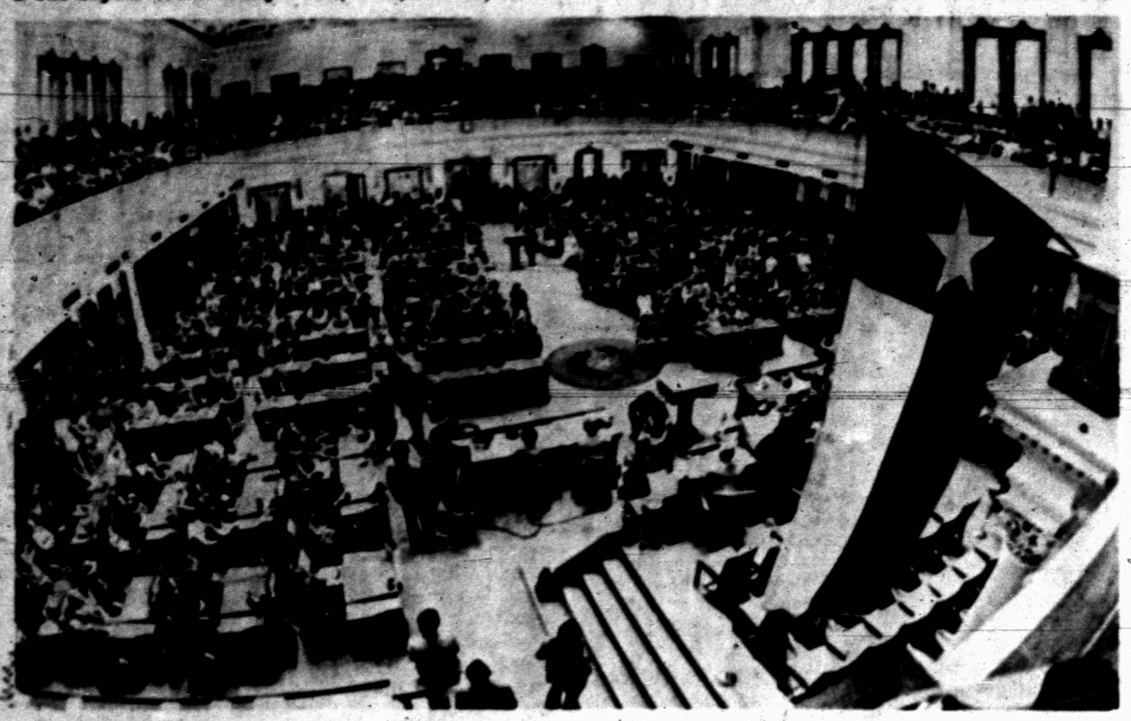

Most inquiries were referred to Gov. Meldrim Thomson. A spokesman for the governor said Thomson was receiving reports from the scene in Wakefield, a small town on the Maine-New Hampshire border. The spokesman said he would issue no statement until some facts were available.

McCarthy, who owns the farm, said officials had told him not to discuss the object. He termed the attention given to the hole in his ice "ridiculous."

COLDER WEATHER

SNYDER TEMPERATURES: High Wednesday, 35 degrees; low, 25 degrees; reading at 7 a.m. today, 35 degrees; precipitation, .35. Total precipitation for 1977 to date, .40.

West Texas: Clear and cooler tonight. Sunny and warmer most sections Friday. Low tonight near 20 north to mid 30s southeast. High Friday near 50 north to near 60 south except near 70 Big Bend valleys.

BY FOES, AND BACKERS

Ford's Farewell Praised

By JIM LUTHER
Associated Press Writer

WASHINGTON (AP)—Even to those in Congress who had fought him, it was Gerald Ford's finest hour. To his backers, it was a reminder of what might have been.

Following the President's farewell State of the Union address Wednesday night, there was not a discouraging word from the lawmakers, many of whom had fought the 38th President on policy issues.

House Majority Leader Jim Wright, D-Tex., apparently spoke for the bulk of his colleagues in calling the speech "an appropriate valedictory of a thoughtful, good and decent man."

Sen. Charles H. Percy, R-Ill., said that "if he had made that speech during the campaign, he would have won the election."

Sen. Barry Goldwater, R-Ariz., agreed: "If he had been that forceful during the campaign, he would have been better off."

There was widespread approval of Ford's call for continued attention to improved military strength and a warning against cutbacks in weapons and defense spending.

Senate Republican Leader Howard H. Baker of Tennessee, who earlier in the day had attended a congressional leadership meeting to discuss defense policy with President-elect Carter, said he is heartened by what he saw as considerable similarity between what he heard from Ford and his successor.

Ford's admonition on national security "was the highest responsibility he could discharge," said Baker. "He was heard and understood by the Congress and I think it will have an effect."

The President even got some nods of approval when he critized the growing cost of running the Congress. "He ought to know - he's one of us," said Baker of the man who spent 25 years in the House.

Rep. Robert McClory, R-Ill., was even kinder than most to his old colleague, comparing the Ford address to George Washington's farewell because "it set forth principles that are to guide us."

House Republican Leader John Rhodes of Arizona called the speech a 'benchmark.'' Sen. Frank Church, D-Idaho, said it was well done and predicted Ford "will be remembered for bringing the country back together again."

Sen. Daniel P. Moynihan, D-N.Y., who worked under Ford as United Nations ambassador, termed it "a lovely speech by a great man."

"It is time to be happy and proud that we had Gerald Ford for president," said Moynihan.

Four Die In Pampa Air Crash

PAMPA, Tex. (AP)—Four people were killed Wednesday night when their private plane crashed while trying to land at the Pampa airport in the Texas Panhandle.

Authorities said the twin-engine Beechcraft plowed into the ground nose first about three-quarters of a mile from the runway.

Pampa Police identified the dead as Glen Ray Howell, 37, of Arlington; his daughter, Jaymie, 14; Mrs. Diane Morgan, 36, and Mrs. Barbara Devers, 37, both of Greenville.

Police said Howell, the pilot, radioed the Pampa tower about 8:30 p.m. They said he reported making two passes over the field but was unable to see the runway lights. Dense fog was reported in the vicinity of the airport Wednesday night.

Police said airport officials told them all runway lights and the airport beacon were operating at the time. They said Howell told them he was going to attempt a third landing when radio contact was lost.

The wreckage was not spotted until 2:30 a.m. today. Police said all but the young girl were thrown free on impact. The plane did not burn.

The victims were reportedly en route to Pampa to visit Mrs. Devers' brother.

Small Car Sales Drop

DETROIT (AP)—Plagued by a year of lagging sales of subcompact cars, the nation's auto makers are receiving early signals that sales of compact models may be eroding as well.

Compacts, sized between sub-compacts and intermediates, grabbed a strong 32 per cent of the domestic market last August and September. But their share fell to 24 per cent in December, while bigger models continued to sell at a snappy pace.

And, as the compact market ebbed, inventories of some unsold models have risen to abnormally high levels that could trigger new plant shutdowns.

Prostitution On Rise In Texas

AUSTIN, Tex. (AP)—Texans may be contributing as much as $137 million annually to prostitutes, says a report received by the Texas Organized Crime Prevention Council.

And where there is prostitution there generally are other types of criminal offenses, said the report made by Peat, Marwick, Mitchel and Co. The report was delivered this week to the council.

"Prostitution in a community is generally followed by the presence of other types of criminal activities," the report said. "The control of prostitution and the commission of these other crimes by criminal elements poses significant problems to both law enforcement and the community in whose area these activities occur."

The report added that 60 per cent of law enforcement officials interviewed said prostitution had increased in their areas over the past five years.

The amount charged by prostitutes per customer varies from $20 to $250 with the average between $35 and $70 per customer. The report said income for prostitutes in metropolitan areas of the state is estimated to average between $450 and $775 per week. "Based on the estimated number of prostitutes working for organized groups in Texas, the dollar volume that law enforcement officials attribute to this activity ranges from $96.5 million to $137 million annually" the report said.

In 1973, latest figures available, there were a total of 5,958 persons arrested in Texas for all offenses of prostitution. About 92 per cent of these occurred in cities with 100,000 or more population. Twenty-nine percent of those arrested were white while 70.7 per cent were black.

The report said that most of those arrested posted a bond and then failed to appear for trial.

"Time in jail is seldom given as a sentence for those offenses," the report said.

Hermleigh Supt. Gets New Contract

HERMLEIGH — The board of trustees of the Hermleigh Independent School District renewed the contract of Supt. Ray Simmons for two more years at its January meeting Tuesday night.

Hiring of two teachers was approved. Cheryl Hines is a new migrant teacher, and Harold Fick is a new math teacher.

TAXES

(Continued from page 1)

see how we can do this without raising taxes."

Carl Whitfield (businessman): "I think he's a little premature. He might do it, but it could make it hard on the next governor. The Highway Department has suffered the last two or three years."

Bill McCormick (businessman): "I think it would be foolish to let them increase taxes with the big surplus the state has now."

Eloise Morgan (county employe): "I think he needs to have a wait and see period."

June Bellamy (county employe): "If he plans to do everything he wants to do, he can't do it without increasing taxes."

Mrs. Dennis Gulseth (owner of the Cubby Shop): "I think it is just a political statement and doesn't mean anything."

Mrs. H.E. Underwood (housewife): "We need lower taxes. We don't need them increased."

Danny Fenton (Fenton's Dad and Lad): "I think he can make a lot of promises that he can't keep. It sounds like a political statement to me."

Mrs. Vernon Young (emloye of McCullough Services): "I like the idea of not having to pay more taxes."

Paul Nixon (retired): "Just so he doesn't increase taxes. I think we have enough taxes as it is."

Karen Elder (employe of Western Auto): "I think they are high enough without raising them."

Two Mishaps Are Reported

Two traffic accidents have been reported by city policemen.

At 8:57 a.m. today, a 1969 Rambler driven by Jack Martin was in collision with a 1976 GMC driven by Charles Robbins. The mishap occurred in the 2500 block of Avenue J. Only minor damages were reported to the two vehicles.

Wednesday, a minor two-car colliision occurred in the parking lot of Snyder High School.

A 1972 Pontiac driven by Gary Miller was in collision with a 1968 Oldsmobile driven by Anabelia Lopez. The mishap was reported to officers at 4:07 p.m.

Taxes Taking Bigger Bites

WASHINGTON (AP)—If your salary is just keeping up with inflation, your spending power actually isn't keeping pace because federal taxes take bigger and bigger bites of your earnings.

That is the conclusion of a new government study which notes that income tends to rise to keep up with inflation. But the bad news is that taxpayers are moved to constantly higher tax brackets while, at the same time, the inflation erodes the real value of tax exemptions, credits and standard deductions.

The study said this problem may continue to plague American taxpayers through 1981 if there is no change in tax law and if inflation grows at an annual rate of 5 to 6 per cent between 1977-81 as forecast by the Congressional Budget Office and the executive branch.

The report by the Advisory Commission on Intergovernmental Relations recommends changes in federal and state tax laws to soften this impact. One solution set forth is to tie the amounts allowed for personal exemptions, the standard deduction and some credits directly to each year's rise in the Consumer Price Index, the inflation indicator.

As inflation rose, so would those tax return items that lower a person's taxes.

Similar proposals have been made by a number of congressmen and senators. Several countries, including France, the Netherlands and, since 1974, Canada, already are using this type of a tax system.

The commission said that such a revision of U.S. law, known as indexing, would work to wipe out any unintended tax increase caused by heavier than normal inflation.

The report said the country since 1972 has been experiencing an average annual inflation rate of 9.6 per cent, "a clear departure from the historically mild 2-3 per cent for the U.S. since 1950." The rate for 1976 was around 6 per cent.

Burleson Is Returned To Budget Panel

WASHINGTON, D.C.—The Democratic Caucus of the U.S. House of Representatives voted Congressman Omar Burleson (D) of Texas to a second term on the Budget Committee as a representative of the House Ways and Means Committee.

Terms to the House Budget Committee are normally limited to one session of Congress. Although Burleson has already served for one Congress (the 94th Congress, 1975-76) he was one of seven Members of Congress designated for consideration to serve on the Committee for four years to maintain continuity.

Under the system of assigning Members of Congress to the Budget Committee, Ways and Means and Appropriations have three designated Members by reason of the importance of these committees. Even though the Committees may recommend the election of their Members to represent them in the budget process, they must be elected by the Caucus.

State Rests In Trial Of Rape Case

The prosecution has rested its case in the 132nd District Court trial of Antonio H. Martinez.

Martinez, 33, is accused of raping a 15-year-old girl Oct. 7 in a deserted rural area south of Snyder.

After the prosecution rested its case yesterday afternoon, the defense presented its first of several witnesses. The defense was expected to continue its presentation of evidence and witnesses this morning.

An 11-man, one-woman jury was chosen Wednesday morning to hear the trial. Jurors in the case are J.C. Williamson, Dalton Walton, Arthur Kane, W.W. Brown, E.J. Bergeron, Wright N. Womack, Irene W. McFarland, Fred F. Costillo, Robert O. Bowlin, Avon Rushing, H.L. Holladay, and John E. Lacik.

Class Piano Is Offered

Class piano will be offered for students during the spring semester at Western Texas College.

This course is designed especially for those in the community who never had the opportunity to learn to play the piano, or for those who studied piano in the past and would like to brush up on their skill.

Students use electronic pianos equipped with earphones so that each student hears only his own instrument during the class sessions. Individualized instruction enables each student to progress at his own speed and to devote additional time to areas of special interest or need.

Prospective students may call the Fine Arts office at WTC, 573-8511, extension 234, for additional information.

YOUR NEIGHBOR'S KITCHEN

Mrs. Jessie Grizzle Enjoys Baking, Decorating Cakes

Mrs. Jesse Grizzle, who resides at Ira, has an interesting and profitable way to spend her time. She enjoys making cakes and decorating them for any occasion.

Interested in baking all her life she has been decorating cakes for about 20 years. She attended the cake decorating course offered at Western Texas College in 1973, instructed by Carol Kozelsky. Mrs. Grizzle has taught five such classes and plans to instruct one next semester at WTC. She prefers her classes to be limited to 16 to give ample instruction.

Following are Mrs. Grizzle's basic cake and icing recipes including a coating for cake pans.

MRS. JESSIE (GENIE) GRIZZLE
....thumbs through scrapbook

COATING FOR CAKE PANS

9 tablespoons flour
9 tablespoons cornstarch
1¾ cup plus 2 tablespoons Crisco

Mix with hand mixer and store in covered container in refrigerator.

BUTTERCREAM ICING

Put one 2 lb. package of powdered sugar in large mixing bowl
Add: 1 1-3rd cup Crisco
Slightly less than ¾ cup milk
1 teaspoon salt
2 teaspoons vanilla

Beat with portable mixer until very fluffy.

Store in airtight container in refrigerator. Will keep for a week in refrigerator or you may freeze it and keep indefinitely. Always thaw and whip up again before using.

WHITE CAKE

Preheat oven to 350 degrees.
Measure in mixing bowl-
2 cups sifted flour
1 1-3rd cup sugar
½ cup Crisco
1 teaspoon salt
1 cup sweet milk
1 teaspoon vanilla

Blend and beat with electric mixer on high speed for 2 minutes. Stir in 3 teaspoons baking powder. Add 4 egg whites unbeaten and beat on high speed for 4 minutes.

The batter may be thin-be sure to level your batter into the corners. Bake in 350 degree oven for 25 minutes. Some ovens may vary.

CREAMY FUDGE CHOCOLATE CAKE

Preheat oven to 350 degrees.
Mix to a smooth paste
2 squares unsweetened chocolate
½ cup boiling water
set aside

Sift together:
2⅛ cup flour
1 1-3rd cup sugar
1 teaspoon soda
½ teaspoon cream of tartar
1 teaspoon salt

Add 1-3rd cup Crisco to dry ingredients
2-3rds cup milk
1 teaspoon vanilla
Beat for 2 minutes.
Add 3 egg whites. Beat one more minute.
Add chocolate paste. Beat one more minute

Pour into prepared pans and bake for 25 to 30 minutes in 350 degree oven. Some ovens may vary.

YELLOW CAKE

Measure into mixing bowl:
2 cups sifted flour
1 1-3rd cup sugar
½ cup Crisco
¼ cup Crisco oil
1 teaspoon salt
1 cup milk
1 teaspoon vanilla

Blend and beat with electric mixer (medium speed) for two minutes. Stir in 3 teaspoons baking powder. Add 3 eggs (unbeaten). Beat for two more minutes.

Pour into two 9 inch layer pans or a 9 x 13 oblong pan that has been rubbed with Crisco and floured or rubbed with coating mix. Bake at 350 degrees for 25 to 30 minutes.

Loosen with knife around edges and turn out on rack while still hot. Don't let sit in pan for more than 5 minutes. When cool, ice as desired.

CHOCOLATE ICING

¼ cup Crisco, melted
½ cup cocoa
¼ teaspoon salt
1-3rd cup milk
1½ teaspoon vanilla
3½ cups powdered sugar.

In a saucepan, melt Crisco. Remove from heat and add cocoa and salt. Stir in milk and vanilla. Put powdered sugar in bowl and add chocolate mixture. Beat until smooth. Add 1 tablespoon more milk, if needed for good spreading consistency.

Opening lead — 7 ♠

By Oswald & James Jacoby

Here is a hand that decided a team match when the declarer at one table and a defender at the other went wrong.

Both South players arrived at the normal three-notrump contract. Both Wests opened the seven of spades and both declarers won with the jack.

At table one South promptly planked down the queen of clubs. West played low and East was in with the king. East led his last spade to clear the suit and declarer could only come to eight tricks.

At the other table South led his jack of hearts to dummy's queen and played the deuce of clubs. East played low and South's queen took care of West's ace. This left West with no way to bring home his last two spades. South ran off with his game contract with three diamonds and two tricks in each of the other suits.

East criticized his partner's opening lead and it is quite true that if West had opened any suit except spades South's contract would almost surely have wound up in the ashcan, but East was the real culprit. All he had to do was to hop up with his king of clubs when the suit was led and knock out the ace of spades while West was still in control of the club suit.

Ask the Jacobys

Here is another question about a revoke. This reader wants to know if the penalty must be claimed at the first opportunity.

The answer is that it may be claimed at any time before the score for the hand has been agreed on. On the other hand, it is best to establish your claim immediately since otherwise there may be an argument about whether or not a revoke has actually been committed.

Sr. Citizen Luncheon Is Set Friday

Senior Citizens are invited to attend a covered dish luncheon in the Senior Citizens Center at Western Texas College at noon on Friday.

Persons who need transportation may contact the Senior Center by calling 573-0441 by 4 a.m. Friday.

A covered dish luncheon has been planned on the last Friday of each month in the Senior Center throughout the fall, and the good response has prompted the addition of a second luncheon each month, Mrs. Kay Albin, Senior Center director, said. Table games will begin at 10 a.m. and continue until about 11:30, and blood pressures will be checked by a nurse during the morning.

The Senior Center is located on the first floor of the Learning Resource Center, and all Senior Citizens are invited to participate in the activities scheduled there each week. Persons who need directions to the Center may inquire at the information desk in the Museum Building near the West Parking Lot.

Guitarist Is Fined $1,275

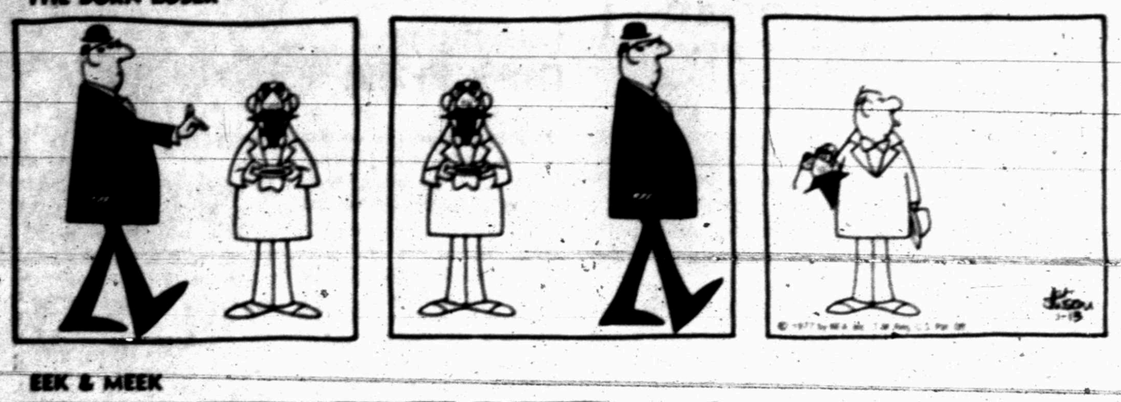

AYLESBURY, England (AP) — Keith Richard, 33-year-old lead guitarist for the Rolling Stones rock group, has been fined $1,275 after being convicted in Aylesbury Crown Court of possessing cocaine.

But Richard, convicted on the cocaine charge Wednesday, was found innocent of possessing the hallucinatory drug LSD.

Mexico Will Seek To Certify Oil Reserves

MEXICO CITY (AP)—Mexico announced Wednesday that is has proven oil reserves of 11 billion barrels and will seek to have the figure certified by international experts.

The figure was revealed by Hector R. Lara Sosa, a chemical engineer and deputy director of industrial production for the state-owned oil monopoly Petroleos Mexicanos PEMEX.

"The current administration has decided that the Mexican Petroleum Institute, in collaboration with a specialized firm that enjoys prestige among the most important banks of the world, will certify the figure of 11 billion barrels that Petroleos Mexicanos has noted," Lara Sosa said in a speech delivered to the Mexican Institute of Chemical Engineers in Monterey and distributed to the press here by PEMEX.

Lara Sosa did not name the firm which will be asked to confirm the reserves.

Mexican officials have been reluctant to disclose how much petroleum the country has, leading to speculative estimates varying from 6.3 billion barrels to a 75 billion figure that Washington columnist Jack Anderson reported was included in an alleged super-secret Central Intelligence Agency report.

Lara Sosa noted that PEMEX had announced in December that its budget during President Jose Lopez Portillo's six-year term of office would be $45 billion, of which $15.5 billion would go into new investments.

He said this compared with a budget for the 1971-76 administration of President Luis Echeverria of $10.3 billion and $2.88 billion in investments.

"Such a high investment is due to a radical change in petroleum policies," he said, based on the proven reserves, a short-term outlook for increasing them, and recently discovered oil fields.

Lara Sosa said PEMEX has set a goal of producing 2.243 million barrels of crude oil daily by 1982, compared with this year's estimated production of 953,000 barrels. He said Mexico expects to have 1.1 million barrels daily left over for export by 1982, after satisfying the country's needs. This year's exports are estimated at 153,000 barrels daily, most of it going to the United States.

He said the 1982 goal is $41.4 billion worth of oil production, with $21.4 billion in exports of crude, refined oil and petrochemical products.

PEMEX reported last summer that petroleum exports went up from near zero dollars in 1974 and $450 million in 1975. Production rose during that time from half a million to 80,000 barrels a day.

INSTANT LIGHT—Model shows off General Electric's new Bright Stick, a one-piece portable flourescent light which needs no special wiring or fixtures and comes ready to plug in and turn on. The new unit, according to a company release, produces as much light as a 50-watt bulb and lasts from three to five years in normal use. (AP Wirephoto)

Texas Revenue Up 11%

AUSTIN, Tex. (AP) — Comptroller Bob Bullock said Wednesday state revenues climbed 11 per cent in September, October and November, compared with the record-setting figure for that same period last year.

Revenue totaled $1.6 billion during that period, Bullock said. Sales tax collections jumped 15 per cent, and natural gas production tax zoomed 36 per cent, he said.

"Meanwhile, state expenditures during the first three months of fiscal 1977 totaled $1.7 billion, only $4.5 million more than was spent during the first three month of fiscal 1976," Bullock said. "Partly as a result, the state closed out its books at the end of November with a cash balance of $1.4 billion."

The Nobel Prize is actually five prizes given annually by the Nobel Foundation of Stockholm, Sweden. The prizes are given in the fields of chemistry, physics, medicine, literature, and world peace. They were established by Alfred Nobel, the inventor of dynamite.

Met Auditions Are Set For February

The Metropolitan Opera National Council Auditions for the Southwest Region, which includes Texas and New Mexico, will be held for the 18th consecutive year. The Junior Leagues of San Antonio and El Paso will sponsor the auditions in cooperation with San Antonio College and The University of Texas at El Paso.

Preliminary auditions will be held for the West Texas-New Mexico District in El Paso on Feb. 5, and for the Central Texas District in San Antonio on Feb. 17 and 18. The Regional Finals will be held in McAllister Fine Arts Center at San Antonio College on Feb. 19.

Applications must be mailed no later than Jan. 21. Application blanks for the Central Texas District may be obtained by writing the Metropolitan Auditions, c-o The Junior League of San Antonio, 819 Augusta Street, San Antonio 78215. For the West Texas New Mexico District, the address is the Junior League of El Paso, 520 Thunderbird, El Paso 79912.

The first place regional finalist will receive a trip, paid for by the Metropolitan Opera National Council, to compete in the National Semi-Finals to be held in the Metropolitan Opera House in New York City on March 13, 1977. The first place winner will also receive the $300 Mrs. Frederick K. Weyerhaeuser award. Second and third place winners will receive the April Axton Award of $200 and $100 respectively.

Rockefeller Guest At Peking Banquet

ARIES (March 21-April 19) You're not looking for what you can get in return, but don't go overboard for one who never reciprocates. Unnecessary heartaches will result.

TAURUS (April 20-May 20) Give your associates credit today for having at least as much common sense as you do. Close scrutiny might show their ideas are even better than yours!

GEMINI (May 21-June 20) You can be of great help today to a pal who doesn't know how to manage the good things she has at hand. Step in. Offer a few pointers.

CANCER (June 21-July 22) Just because someone has a high-sounding title, it doesn't necessarily follow their advice is the best. A person of lesser rank may offer you more wisdom.

LEO (July 23-Aug 22) The temptation will be great today to play the game of one-upmanship with a boastful person. Stand tall. Espouse humility.

VIRGO (Aug 23-Sept 22) Be very careful today what you sign, especially if it's of a legal nature or something that obligates you later.

LIBRA (Sept 23-Oct 23) Your material prospects look very good today, but one you're closely associated with could deplete what you acquire faster than you take it in.

SCORPIO (Oct 24-Nov 22) Your judgment is a bit keener than your mate's today, so don't be overly influenced by his or her opinion. Be tolerant, but see to it that your ideas prevail.

SAGITTARIUS (Nov 23-Dec 21) Responsibilities should not be taken lightly today. Honor your promises. Live up to that which is expected of you.

CAPRICORN (Dec 22-Jan 19) Being with friends is important today, but if the group is too large it takes the edge off your enjoyment. Confine your companions to a select few.

AQUARIUS (Jan 20-Feb 19) Timing is crucial for you today. You don't want to tip your hand prematurely. Keep your heavy ammunition in reserve till it is needed.

PISCES (Feb 20-March 20) Ask questions if something complicated is being explained and you don't understand at first. Just because you didn't grasp it quickly is no disgrace.

Your Birthday

Jan. 14, 1977

Dan Cupid is working overtime this year to strengthen your ties with a loved one. If there's no one in the picture now, chances are there will be.

Humans May Now Help Guinea Pigs

PHILADELPHIA (AP)—Guinea pigs traditionally have been used for testing new medical techniques. Now a device used first on humans may wind up helping guinea pigs.,

Dr. Charles Reid, a veterinarian and associate professor of radiology at the University of Pennsylvania's veterinary clinic, recently found that the xeroradiography process, which has been used for a number of years to aid in the early detection of breast cancer in women, also does an excellent job of spotting hairline fractures in animals.

Over The Area

Sunday Beer Is Approved

BIG SPRING — Beer and wine will soon be available on Sundays at Big Spring grocery stores. The city council Tuesday approved the second and final reading of an ordinance allowing off-premises sale of beer on Sunday.

The action was taken following pleas for several owners of small grocery stores. The council took the final action after Roy Ford, attorney for the grocers, said that all discussion on the issue had been rehashed at the last meeting of the council and he had nothing more to say.

C-City Okays Gas Rate Hike

COLLORADO CITY — A split decision at the Colorado City Council meeting here Tuesday night granted a rate increase to Lone Star Gas. Co.

The raise will amount to about eight per cent, or about $1.02 per month for the average residential customer. The new rates will go into effect on April 1 when bills are sent out for gas used in March.

Dr. Elton Berkman, mayor, cast the deciding vote after four councilmen split, 2-2. J.O. Dockery and Marion Bassham voted for the rate increase, and J. Lee Jones and Jody Neff voted against it. Councilman Larry Hamner abstained and Councilman Rick Perkins was absent.

Superintendent Of Lake Quits

COLORADO CITY — Joe Robinette, 29, superintendent of Lake Colorado City State Park, has resigned.

He said he planned to take early retirement and will continue to live in Mitchell County about nine miles northwest of Colorado City.

Post Hospital Has Deficit

POST — Garza Memorial Hospital directors are concerned the hospital's financial situation and spent most of their last meeting discussing the annual audit.

The audit showed an operating loss of $124,151.54 for the year, including tax support in the amount of $70,861.13. Without the tax money, the deficit would be $196,122.08.

Perry Hunsaker, hospital administrator, said the hospital started the New Year with only $800 in the bank. Hospital officials are hoping that more doctors will move to Post, which would increase the use of the hospital. A one-year contract with Dr. H.S. Park was approved, and two more doctors are expected to arrive and begin practice here as soon as they can get Texas medical licenses.

Sweetwater Grant Due

SWEETWATER — The Sweetwater City Commission has indicated that it will provide a share of matching funds needed to qualify for a $220,537.73 federal grant for the Sweetwater Day Care Center.

The city participation is contingent upon Nolan County provides an equal share of the matching funds. Gladys Gerst, director of the Nolan County Community Action Council, told the city that CAC would need $38,000 in matching funds, but only $11,500 from both the city and county. The remainder will be raised elsewhere, she said.

Dr. Lamb

Pellagra caused by vitamin lack

By Lawrence E. Lamb, M.D.

DEAR DR. LAMB — Can you tell me something about a disease called pellagra? Does it cause the mouth to be sore? What causes it? Is there any cure?

DEAR READER — Pellagra is a rare disease in our society. It is a good example of how our nutrition has improved over the past 50 years.

Pellagra was widespread among the poor in the United States in the 1930s, particularly in the South. It is a vitamin deficiency caused by lack of niacin in the diet. People who subsist on a corn diet are particularly apt to get it. Much of the world escapes pellagra because the people eat corn and beans in combination, and the beans provide sufficient niacin and protein to prevent pellagra.

Pellagra has been known to exist for at least 250 years. An old dermatology book from my library refers to it as a disease from fermented maize (corn), and notes it was especially common in the chronically insane (no doubt some of the insane were that way because of the pellagra). The text goes on to state that of 258 cases in the Peoria State Hospital, 50 per cent died. We now know that pellagra is caused by a lack of niacin. Niacin and other vitamins were not even known to exist when that text was written in 1923. I mention this only to point out that despite all the concern about our modern food, our nutrition is far superior to what it was a short 50 years ago.

Yes, it can make your tongue sore, but so can other vitamin deficiencies and other diseases. A person with pernicious anemia may develop a sore tongue.

Pellagra causes a wide variety of symptoms, including skin changes, usually of the parts exposed to the sun, inflammation of the lining of the mouth and entire digestive system — which leads to diarrhea and weight loss. It can cause psychic and emotional disorders including hallucinations. It is an outstanding example of how nutrition can be a factor in mental diseases.

Niacin is essential in forming enzymes that the cells use in complex chemical reactions to metabolize your food. The disease is still found in some parts of the world where the people live on corn and corn products and have a protein deficient diet.

You can cure or prevent the disease by eating a healthy diet. A diet with enough good proteins is important. Niacin is in enriched flour and bread making it almost impossible for anyone who eats bread to become deficient in niacin and develop pellagra. Niacin is found in lean meats, poultry, liver, whole wheat cereals, peanuts and mature bean seeds. Anyone who takes a standard daily vitamin preparation which you can buy in most grocery stores will not have pellagra.

Balanced diets certainly are important to your health and will prevent a host of illnesses. To give you more information on what is included in a balanced diet, I am sending you The Health Letter number 4-6, Balanced Diet, Recommended Daily Dietary Allowances (RDA). Others who want this information can send 50 cents with a long, stamped, self-addressed envelope for it. Just send your letter to me in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

(NEWSPAPER ENTERPRISE ASSN.)

WITH 'GASIFICATION'

Scientists Hope To Retrieve Lignite Coal

COLLEGE STATION, Tex. (AP) — Texas scientists hope to retrieve some of the mass deposits of lignite coal in the state this year by using a process that was unknown at the beginning of the decade.

Texas A&M University sits in the middle of a giant triangle of lignite coal deposits that contain the energy equivalent of half the world's known coal reserves, but up until now 90 per cent of the coal has been largely inaccessible.

Dr. Jim Jennings, a petroleum engineer at A&M, said the location of the deposits is widely known, but the problem is in getting the coal to the surface.

"The power companies here in Texas, I would say, are almost exclusively using the conventional mining of lignite" he said. "But only about 10 per cent can be mined and burned in a plant. The other 90 per cent is below 200 feet."

The recovery process is known as "gasification," in which the lignite coal is burned while it still is in the ground and then the resulting gas is piped to the surface. From there it is transported to nearby plants where it is converted to a usable fuel in the production of electricity.

Jennings said almost all of the near-surface lignite deposits have been claimed by Texas power companies but the deep deposits have gone pretty much ignored because of the mining problems.

Jennings said gasification experiments have been going on in the United States since early 1972. He said the Soviet Union has used gasification to produce energy for the last 30 years.

If the Texas A&M experiment starting in May is successful, Jennings said the test results and methods will be made available to the public. The $275,000 experiment is financed by A&M's engineering experiment station and a consortium of energy-related industries including Alcoa, General Crude Oil, Dow Chemical Co., Shell Oil Co., Phillips Petroleum Co. and Sun Oil Co.

"...With the gasification process, it's estimated we can produce gas at a $1.50 to $2 per million BTUs," said Jennings.

"Since 1,000 cubic feet of natural gas produces one million BTUs and already sells for $2 or more, the economics of the project looks favorable."

But Jennings doesn't see the project as an answer to reducing natural gas prices.

"I see this as providing a more plentiful supply of energy at today's prices," he said.

The state flower of New Jersey is the purple violet.

Dear Abby

Don't Take Chances With This Sickness

By Abigail Van Buren

© 1977 by Chicago Tribune-N.Y. News Synd. Inc.

DEAR ABBY: Reading about the father who molested his daughter has given me the courage to write.

Quite a few years ago, when my daughter was 12, I learned that her father had been bothering her. (She finally got scared and told me.) It happened over several months. It was only serious foreplay, but I felt it would lead to the final act sooner or later.

I confronted her father, and he admitted it. I told him he was sick, and he had to either see a doctor or leave. He refused to see a doctor, so needless to say, he is not with us any longer.

I should have realized something was wrong sooner because my daughter never wanted to be left alone with him. She begged to go with me everywhere I went.

My daughter feels that I did the right thing in giving her father an ultimatum. However, my doctor told me I handled it badly. He said that sort of thing is quite common and had I let it go, it probably would not have gone any further. He said most mothers just put a lock on the girl's door.

I would like your comments on this.

NO NAME, NO CITY

DEAR NO: I think you handled it exactly right. I disagree with your doctor. Your husband is SICK! And for you to have "let it go," or simply put a lock on your daughter's door, instead of insisting that your husband either get help or get out, would have made you as guilty as he, had his molesting continued.

DEAR ABBY: My husband and I just returned from Las Vegas, where we married off our 17-year-old daughter to her boyfriend of two years. (No, she's not pregnant.)

Our daughter had been the ward of the court for two years because she had repeatedly run away from home. She had been placed in I don't know how many places, but she managed to escape from all of them.

The court released her to marry because they ran out of places to put her.

My question: Should I give her a reception, send out marriage announcements or just forget it?

MOTHER OF THE BRIDE

DEAR MOTHER: Disregard her hectic record and treat her as you would a loving daughter who had just married. But consult her first.

DEAR ABBY: How would you define old age?

GETTING THERE

DEAR GETTING: To recycle an old cliche, old age, like beauty, lies in the mind of the beholder.

But I would say that you've reached it when:

You need your glasses to find your glasses.

You walk into another room and wonder what you went there for.

People start telling you you're looking good, but no one says you're good-looking.

You pass up a romantic encounter because you're worried about your heart.

Washington Now Land Of Dixy

OLYMPIA, Wash. (AP) — Washington state has become the land of Dixy - Gov. Dixy Lee Ray, that is.

"Baby, you've come a long, long way!" Lt. Gov. John Cherberg told the former head of the Atomic Energy Commission and assistant secretary of state as she was inaugurated Wednesday.

Miss Ray's Fox Island compound was bustling by 6:30 a.m., with all four of her sisters, plus 27 other family members, on hand to see the ceremony. A caretaker will live in the Ray home and take care of the governor's goats and chickens.

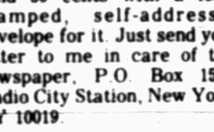

Connecticut's Ella Grasso is the only other woman elected governor whose husband had not previously held the post.

The name of Yugoslavia's capital city, Belgrade, means "white castle" in the Serbo-Croatian language.

LET'S JUST PRAISE THE LORD.

YOUR CHAMBER IN ACTION

By W. R. (Bill) Henry
Executive Director

INDUSTRIAL DEVELOPMENT

How will Snyder fare as it competes with other cities for new corporate plants and facilities in 1977? A nation-wide survey conducted by a national management magazine indicate the priorities and techniques executives are now using in choosing new locations.

Their responses reinforce our belief that Snyder will be a strong entry in the competition for new companies. The only area where we fall short concerns our population. Forty-two per cent of corporate executives who are in charge of locating additional plant facilities prefer to locate in an area of between 25,000 and 100,000. Their second choice, 20 percent, perfer to locate in communities under 25,000.

In answer as to where in the U.S. they would probably locate their next plant, West South Central placed first to eight regions with 21 per cent. That's us again. And a surprising majority (70 per cent) would locate in a rural, non-metropolitan area.

The optimum preferred employment size for most new plant locations is indicated by the survey at between 250-500 employes. The second most desired size is between 100-250. Another interesting response indicated the average length of time between first consideration of a new plant site and the final decision is 6-12 months. The longest indicated was 36 months while the shortest was three months.

This survey, along with the Fantus Study which ranks Texas as having the nation's Number 1 business climate, certainly shows the age of economic and industrial development in our area is upon us. To remain competitive with other Texas cities, we must continue to make strides in making Snyder ready for industrial development.

HOUSING

One of these keys in getting ready for industries is providing housing for our newcomers. It also means keeping the recreational and commercial climate on the increase and making sure Snyder remains the "All America City" it was tabbed eight years ago.

New companies, as well as new employes for existing industry, are recruited more by the "quality of life" in an area than by any other means. These new folks want a clean, progressive and enjoyable place to live and raise their children. They want things to do in their spare time and avenues of entertainment for their youngsters.

Snyder remains a top contender for expanded business opportunities, but we can't sit on our laurels. We must continue striving for a clean, progressive and enlightened community. Many communities which have held a back seat to us in a number of areas, such as Sweetwater, are catching up rapidly and diminishing our competitive edges.

Please take time to fill out your "Goals for Snyder" survey form and let us know how you would improve Snyder. Your input and involvement does make a difference. You're the best judge of what you feel Snyder and Scurry County needs to remain the best little town in Texas.

TAX SEMINAR

Be sure and make your reservation for Jan. 25's free "Tax Strategy Seminar" to be held at the Western Texas Science Lecture Room beginning at 7 p.m. Only 160 will be able to attend because of the limited space and reservations are coming in rapidly. If you'd like to take part in this very informative and important seminar, call the chamber office today.

Al Langford Demands Resignation Of AD

MIDLAND, Tex. (AP) — Midland College President Dr. Al G. Langford charging a basketball player now at Oklahoma State was given an "A," in a three hour physical education course he didn't take, has demanded the resignations of three school employees including the athletic director.

OSU is currently investigating the matter.

In a copyrighted story Wednesday the Midland Reporter-Telgram quoted Langford as saying Athletic Director Chester Story, assistant basketball coach J.D. Menasco and tennis coach Neill McClung were involved in giving Ricky Daniel the needed grades and credits in order to be eligible to play basketball at the Big Eight school.

The newspaper said Daniel played for Midland College last year. He was recruited from Kentucky by Oklahoma State and sent to Midland for a year before going to OSU. But it was discovered that Daniel didn't have the grade point average to play at the NCAA school.

"When we found out Ricky didn't have the required grade point average, I called Oklahoma State and informed them," Story told the Reporter-Telgram. "They decided to send him to summer school here so that he could raise his grade point average and paid his way. At first, I thought he was going to come on and get his three one-hour courses. Then, Oklahoma State asked if he had to come. I said no. He enrolled and received credit for the courses."

The Reporter-Telegram said since McClung and Mensaco taught the courses Daniel needed, their resignations were sought as well.

"It was wrong, very wrong judgment on my part," said Story. "I didn't think of the ramifications. I thought we were helping a kid but it wound up costing three men their jobs."

The newspaper quoted Harvey Griffin, assistant athletic director at Oklahoma State, as saying he knew nothing about the arrangement Story alluded to in his account. Griffin said there would be no official comment by school officials until they had time to study the matter. He added that whatever games Daniel played in would probably have to be forefeited if the charges are true.

Story and Menasco will take the basketball team to Clarendon Thursday for a Western Junior College Conference game. But it will be their last as coaches. Story indicated someone else will be appointed to coach the team by the time the Chaparrals go to South Plains for a game Monday.

Records Falsified?

OKLAHOMA CITY (AP) —Guy Strong, basketball coach at Oklahoma State University, said he talked with Oklahoma State sophomore basketball player Ricky Daniel Wednesday and "told him he would not be able to play any more," after allegations were made about falsified academic records.

Strong said he has never talked with the athletic director at Midland, Tex., Junior College about the alleged falsification of Daniel's grade reports.

Strong said if allegations about the falsification are true, Oklahoma State would have to forfeit any games in which Daniel has played.

A story in the Midland Reporter-Telegram Wednesday quoted Midland athletic director Chester Story as saying someone at Oklahoma State asked if Daniel had to actually attend three one-hour summer-term physical education courses he needed to bring up his grade point average to allow him to transfer to Oklahoma State.

Story said in the article that he told whoever it was he talked to that Daniel need not attend.

Daniel reportedly received an "A" in each of the three courses and transferred to Oklahoma State last fall.

Now Story, assistant basketball coach J.D. Menasco and tennis coach Neill McClung all plan to resign on request from the school president. Menasco and McClung reportedly taught the courses in which Daniel, of Louisville, Ky., received the "A" grade.

SMU Off Probation

DALLAS (AP) — Southern Methodist is off probation and football Coach Ron Meyer says that's the way it's going to stay.

"Our objective is to stay off probation," says Meyer. "In fact, it's something that we insist on."

SMU president Dr. James Zumberge got the news in Miami Beach Wednesday that the Mustangs' two-year probation in football and a one-year basketball penalty had been lifted by the National Collegiate Athletic Association.

The probation excluded the Mustangs from postseason and television appearances.

Meyer said "We are quite pleased. It's always good to have a clean bill of health."

Former SMU football Coach Dave Smith gave dollars for tackles which caught the eye of the NCAA. Meyer came from Nevada-Las Vegas last year to replace Smith and the Mustangs, stripped bare of talent, posted a closing victory over Arkansas.

Grigg Gets Probated Sentence

GILMER, Tex. (AP) — Forest "Chubby" Grigg, former Cleveland Browns football player and East Texas restaurant owner, has received a five-year probated sentence after pleading guilty to charges he killed his 20-year-old son.

State District Court Judge Virgil Mulanax pronounced the sentence Wednesday night after Grigg pleaded guilty to a reduced charge of voluntary manslaughter in the shooting death of Mike Grigg last Oct. 19.

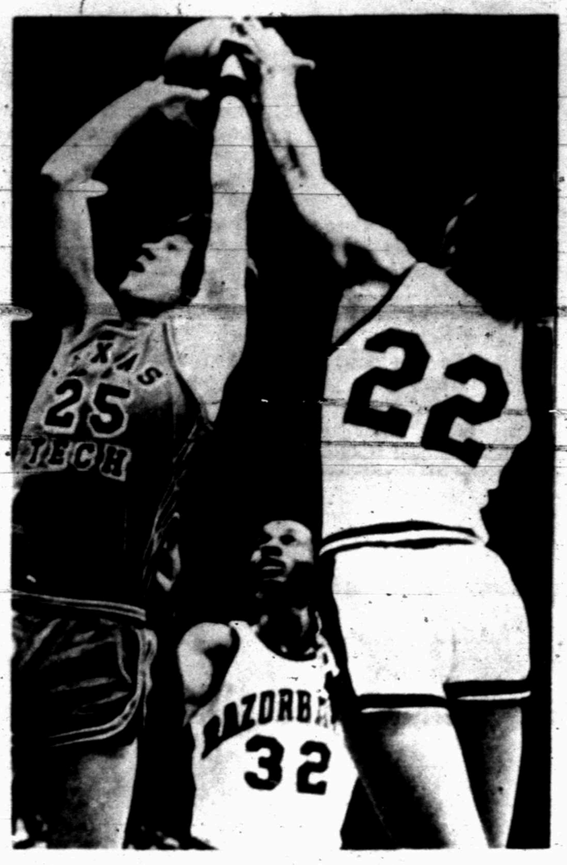

Grigg earlier had pleaded not guilty by reason of insanity to murder charges.

A jury deliberated about four hours before reporting it was hopelessly deadlocked. Then both sides in the case agreed to a joint motion for a mistrial, after which Grigg entered his guilty plea.

Earlier, Dr. Charles Armistead, a Shreveport, La., psychiatrist, testified that Grigg killed his son out of "an act of love."

"It was almost delusion that he was doing something for his son," Armistead testified.

Grigg played professional football for the Cleveland Browns in the late 40s and early 50s.

GETTING TOO CLOSE—Ray Buckner (22) gets a foul called on him here as he attempts to block a shot by Kent Williams (25) of Texas Tech. Watching the play is Sidney Moncrief (32) of Arkansas. (AP Wirephoto)

Mustangs Take Over SWC Lead

By DENNE H. FREEMAN
AP Sports Writer

Southern Methodist dodged a last second bullet and the Baylor Bears caught one smack between the eyes Wednesday night, giving the Mustangs the Southwest Conference basketball leadership by a half game over Arkansas.

SMU outlasted Texas 74-73 as the victorious Mustangs watched helplessly as the Longhorns missed a free throw and three field goal attempts by the losers in the last six seconds.

Baylor Coach Carroll Dawson suffered what he called "the hardest loss I've had since I've been a coach here four years" when Texas A&M senior Steve Jones canned an arching 30-foot jump shot with two seconds left for a 60-59 victory.

SMU is now 4-0 just a shade ahead of 16th ranked Arkansas which is 3-0 in league play and idle Wednesday night.

Baylor tumbled to 3-1 while the defending SWC champion Aggies improved their ledger to 2-1.

In other games, Houston 1-1 blasted cross-town rival Rice 106-56 behind Otis Birdsong's 25 points and Texas Tech 2-2 stayed alive in the league race with an 87-68 victory over Texas Christian.

"It's tough on the coaches when it goes down to the wire like it did tonight," said SMU Coach Sonny Allen.

T.J. Robinson made a free throw with 17 seconds left for a 74-71 lead but Texas' Gary Goodner was fouled as he sank a basket with six seconds to go. Goodner, a poor free throw shooter, tried a jumpt shot for his charity toss and it missed everything.

However, Texas stole the inbounds pass and shot three times and missed before the final buzzer.

"Goodner hadn't made a free throw all year why did you think he was going to make this one?" queried Texas Coach Abe Lemons. "He tries but he just can't shoot free throws."

Asked why he didn't go to his bench in the latter part of the hard fought game, Lemons replied "because I'm a rookie and I don't know a player when I see one. All I know is our first team beat our second team 47-12 in a scrimmage the other day."

Dawson had the postgame shakes after the Aggie victory.

"I still can't believe Jones made those last two shots," said Dawson.

Little Dribblers Elect Officers

The Little Dribblers held an organizational meeting and re-elected the same officers that served last year. The meeting was held last night at the high school.

The officers include Ira Riggs, president; Grady Gafford, vice-president; Jack McGlaun, secretary-treasurer; and, Ted Hanson, player agent.

The group voted to hold sign ups during the week of Feb. 7-12. The first game will be held Feb. 21. Boys eligible to sign up for the Little Dribblers program are 11 and 12 year olds.

Westerners Host Texans Tonight

The Western Texas College Westerners host the South Plains Texans in a Western Junior College Athletic Conference basketball clash at 7:30 tonight in the Scurry County Coliseum.

Six teams are tied for the lead in the WJCAC, each with 3-2 conference records. They are WTC, Odessa, Midland, Clarendon, NMMI and Amarillo. NMC, Howard and South Plains are 2-3 and Frank Phillips is 1-4. WTC is 16-2 for the season while South Plains is 10-4.

"It will be like all of the league games, it will be a tough game," predicted WTC Coach Mike Mitchell. He pointed out the Texans are a high scoring team. They have scored over 100 points seven times this season.

"They shoot well and run up and down the floor," said Mitchell, adding, "We'll try to slow the game down."

Mitchell listed probable starters, as follows: Allen Corder, 6-3 sophomore from Lake Charles, La., and Lawrence Butler, 6-3 sophomore from Glasgow, Mo., at guard; Darryl Smith, 6-8 sophomore from College Park, Ga., at center; and, Butch Person, 6-5 sophomore from Brooklyn, N.Y., and Larry Orton, 6-8 sophomore from Portsmouth, Va., at forward.

Mitchell said probable starters for the Texans include Ron Daughterty, 6-7 center; Donnie Thompson, 6-5 forward; Andre Hickman, 6-6 forward; Stewart Shoemaker, 6-1 guard; and, Don Rucker, 6-2 guard.

The Westerners have several other lads they can call on including Wayne Jamison, 6-1 freshman guard from Washington, D.C.; Charles Gipson, 6-6 freshman post from Brooklyn, N.Y.; Lonnie Nichols, 6-6 freshman forward from Buffalo, N.Y.; Doug Worthington, 6-5 freshman guard from Buffalo, N.Y.; Robert Brown, 6-7 freshman post and forward from Baltimore, Md.; Jon Moorehead, 6-8 freshman forward from El Paso; and, Walter Benjamin, 6-4 sophomore guard, from Richmond, Va.

NCAA In Trouble?

MIAMI BEACH, Fla. (AP) — The executive director of the National Collegiate Athletic Association says the organization "may go into convulsions" before resolving its restructuring problems.

Walter Byers said Wednesday that failure to reorganize the various divisions "could be destructive, but I don't think it will be."

Reorganization probably was the key issue that faced the NCAA during its 71st convention which ended Wednesday, and it was defeated.

"I see it as both necessary and inevitable," Byers said at a news conference. "I don't minimize the problem. The NCAA was born in crisis and has survived with considerable turmoil."

There was speculation following defeat to the Division I reorganization proposal that danger existed that the larger football-playing schools which provide most of the financing for the NCAA might leave and form a College Football Association.

Proponents of the CFA have repeatedly insisted that they want to resolve their problems within the NCAA.

"I have reservations about the CFA as a solution to the problem," Byers said, because it deals only with one sport. "I will say they have further reasons to pursue it now."

There are 247 schools in the highest classification; 137 participating in football.

Byers said it is difficult for the division to come to grips with a reorganization proposal because of extreme interests involved - football powers wanting one thing, schools with only major basketball programs wanting to retain their rights. As a result, he said, those that take a modest course down the middle decide the issue rather than those at the extremes.

Directory Assistance Charging

We don't want your 20¢

Directory Assistance charging is now in effect statewide. As part of the plan, the local Directory Assistance number has been changed to 1411.

Basically, the plan calls for charging 20 cents for every call to Directory Assistance over the first 10 made during a monthly billing period.

Quite frankly, we don't want your 20 cents.

Our objective in charging for Directory Assistance is to reduce the spiraling cost of providing the service — a cost that has skyrocketed due to misuse rather than wise use.

Studies showed that some customers call Directory Assistance 25, 50 or 100 times a month from their homes. Some businesses called more than 2,000 times a month! And yet, 75 percent of the numbers requested were in the telephone directory.

Yet, the cost of excessive use of Directory Assistance was borne by all telephone rate-payers. Thus, we introduced the charge because it is the only way we can handle the rising costs of Directory Assistance fairly. The people who use Directory Assistance the most will now pay the most.

Here's how the plan works:

Customers with single-line basic service who call Directory Assistance (1411) more than 10 times during a monthly billing period will be charged 20 cents for every call after their tenth. A maximum of two numbers may be requested during each call to Directory Assistance. Multi-line customers will have an additional allowance of one call for each line, up to 25 lines.

The Directory Assistance charge also applies to calls for numbers in other towns within your home Area Code — with one important exception. You won't be charged for calling Directory Assistance in another town that has the same Area Code as yours provided you make a corresponding Long Distance call within your home Area Code. That call has to be placed from and billed to your own phone within the same monthly billing cycle.

To request numbers in other towns with the same Area Code as yours, continue to dial 1-555-1212.

There is no charge for requesting numbers that have a different Area Code than yours. Just dial 1, plus the Area Code, then 555-1212.

Also, there is no charge for Directory Assistance calls from coin telephones or from hospitals.

Some customers not charged.

Visually and physically handicapped people who are unable to use the directory will be exempt from the charge. If you think you, or someone in your family, or a friend may be entitled to this exemption, please fill out the coupon below for more information.

If you're like most people, you'll never be affected by the Directory Assistance charge. In fact, in cities where Directory Assistance charging was already in effect with a **five-call allowance**, only 5 percent of customers were ever charged each month.

More importantly, 95 percent were not. This certainly indicates that 10 free calls a month will more than meet your needs if you can't find a number in the directory.

So look in the book before you call. It will save you 20 cents that we don't want.

IN VIRGINIA, NORTH CAROLINA

Government To Launch Boll Weevil Offensive

ATLANTA, Ga. (AP) — The federal government will launch a major offensive against the boll weevil this spring on 45,000 test acres in Virginia and North Carolina, a U.S. Department of Agriculture scientist says.

Dr. E.P. Lloyd said the three-year trial program will use conventional insecticides, chemicals which prevent boll weevils from preparing for winter and sterile boll weevils which interfere with the normal mating process to eradicate the insect which eats cotton.

Lloyd made his comments in the first of four speeches prepared for delivery today to the 1977 Beltwide Cotton Conference.

Lloyd said a similar eradication program, sponsored by the Mississippi Cooperative Extension Service, will begin this spring in Panola County, Miss.

In the first year, insecticides will be applied during the growing season and in the fall chemicals to prevent the insects from preparing for winter will be used, Lloyd said.

In the second year, sterile boll weevils will be released to interfere with the normal mating process, he said.

During the third year, weevils that survive will be the target of a "mop up operation," and scientists will study the fields to gauge the effectiveness of the program, he said.

Dr. Dan F. Clower told the conference cotton growers continue to have serious problems with bollworms and budworms which have developed resistance to some commiercially available insecticides.

Clower, a professor of entomology at Louisiana State University, said bollworm resistance to the chemical methomyl has increased up to ten times.

Researchers also found increased resistance to the chemical among tobacco budworms in Louisiana, he said.

PUBLIC NOTICES

IN THE COUNTY COURT WITHIN AND FOR SCURRY COUNTY, TEXAS
IN THE MATTERS OF THE ESTATES OF JIM GEORGE LIGHT, DECEASED, AND STELLA MAE LIGHT, DECEASED NUMBER 3484 IN PROBATE
NOTICE TO CREDITORS

Notice is hereby given that original Letters of Administration for the Estates of Jim George Light, Deceased, and Stella Mae Light, Deceased, were issued on December 27, 1976, in Cause Number 3484, pending in the County Court of Scurry County, Texas, to

VELMA TOLBERT

The residence and post office address of such Administratrix is

Mrs. Velma Tolbert
3822 Candy Lane
Odessa, Texas 79761

All persons having claims against these Estates which are currently being administered are required to present them within the time and in the manner prescribed by law.

DATED this 6th day of January, 1977.

Velma Tolbert, Administratrix of the Estates of Jim George Light, Deceased, and Stella Mae Light, Deceased.

IN THE COUNTY COURT WITHIN AND FOR SCURRY COUNTY, TEXAS
GUARDIANSHIP OF THE PERSON AND THE ESTATE OF GEORGE WADE LIGHT, A PERSON OF UNSOUND MIND NUMBER 3485 IN PROBATE
NOTICE TO CREDITORS

Notice is hereby given that original Letters of Guardianship upon the Estate and Person of George Wade Light were issued to me, the undersigned, on the 27th day of December, 1976, in the proceeding indicated below my signature hereto, which is still pending, and that I now hold such Letters. All persons having claims against said estate, which is being administered in the County below named, are hereby required to present the same to me respectively, at the address below given, before suits upon same are barred by the General Statutes of Limitations, before such estate is closed, and within the time prescribed by law. My post office address is

810 West 25th Street
Odessa, Texas 79760

Dated this 6th day of Jan., 1977.

Mabel Light Riggs, Guardian of the Person and Estate of George Wade Light, Number 3485 in the County Court of Scurry County, Texas

NOTICE TO BIDDERS

Sealed Proposals addressed to Mr. J.R. Anderson, President, Board of Trustees, Borden County Independent School District, Gail, Texas, shall be received in the Bronze Room, South Park Inn, 3201 South Loop 289, Lubbock, Texas, (Phone No. South Park Inn (806) 797-3241), until 7:00 p.m., Thursday, January 26, 1977, at which time they will be publicly opened and read aloud, for the furnishing of all labor, materials, equipment and performing all work required for School Plant Additions, for the Borden County Independent School District, Gail, Texas, in accordance with Plans, Specifications and Contract Documents as prepared by Riherd, Huckabee and Donham, Architects and Planners, Lubbock and Andrews, Texas.

Lump sum Proposals will be received for the General Construction which will include Plumbing, Heating, Air Conditioning and Electrical Work.

A Cashier's Check, Certified Check or acceptable Bidder's Bond payable to the Borden County Independent School District in the amount of not less than 5 per cent of the largest possible total for the bid submitted must accompany each bid.

Attention is called to the fact that the contractor must comply with all Federal, State and Local Labor Laws.

The successful bidder will be required to enter into a contract with the Borden County Independent School District, Gail, Texas, and furnish a Performance and Payment Bond in the amount of not less than 100 per cent of the contract price, conditioned upon the performance of the contract.

Attention is called to the fact that the Owner is exempt from the payment of the State Sales Tax normally levied against material costs. In order to take advantage of this exemption, materials and labor costs must be identified by the successful bidder. In developing this division of labor and material costs, the bidders are cautioned to include all costs and allowances not representing direct material costs with labor. The contract sum, as identified by the Base Bid shall not include any allowance for the payment of State Sales Tax on materials required to complete the work. The successful bidder, upon award of the contract, will be furnished with a permit number which will enable him to purchase the required materials without payment of such taxes.

Specifications and Plans may be obtained from the Architect in accordance with the stipulations set forth under Deposits and Refunds.

The bidder acknowledges the right of the Owner to reject any or all bids and to waive any informality or irregularity in any bid received. In addition, the bidder recognizes the right of the Owner to reject a bid if the bidder failed to furnish any required bid security, or to submit the data required by the bidding documents, or if the bid is in any way incomplete or irregular.

Betty Ford Is Saluted

WASHINGTON (AP) — Betty Ford says her biggest regret in leaving the White House is being parted from the staff, who, she said, "have become to close and so meaningful and so helpful to our family."

Mrs. Ford was saluted Wednesday by the American Newspaperwomen's Club and the American Women in Radio and Television for her efforts on behalf of the Equal Rights Amendment.

She also said she believes the American people accepted her outspokenness while First Lady, but even if they hadn't, she said, "I'm too old to change."

Old Man Finds Peace On His Remote Island

By JULES LOH
AP Special Correspondent

NAMAKAN LAKE, Minn. (AP) — Ingvald Stevens is one of those rarest of creatures, a man utterly at peace with himself and his world.

He has found it living alone on his own island in one of the most remote and untamed reaches of America. It has been his home the past 45 years, almost half his life. He is 91.

He lives in a cabin heated by poplar and birch felled and sawed by his own muscle. He grows his own vegetables and stores them in a root cellar he himself dug. He grinds his own wheat and bakes his own bread. He hauls his water from the crystal lake that surrounds him, in the winter chopping through thick ice.

At night, by gaslight, he writes in his diary:

"The weatherman is doing his level best to freeze me to death. Well, tomorrow at this time I shall know if he can out-maneuver this old Viking or not."

So far neither savage winter, which lays siege to this wilderness on the Canadian border with temperatures that plunge to 45 below, nor summer isolation, which requires him to travel eight miles in his boat to the nearest mail drop, has defeated that independent old Viking.

Visited recently, his voice was coarse and raspy. He hadn't used it in several months, he explained. "I talk to myself, but not out loud." After a few phrases it was back in shape, lubricated and ready to discuss his solitary existence and why he chose it.

"It shouldn't be hard to understand. I love solitude, I love the wilderness, I love the wildlife. The partridges are my pets; I have to be careful not to step on them.

"I do not like crowds. I do not like the city, where even the snow is dirty. What is there to miss? I like my own company. I don't want to live if I can't take care of myself. I have no fear of death."

A man whose life personifies simplicity, Ingvald Stevens insists that his name be reduced to a single syllable: Steve. Most of his friends in International Falls - the nearest town, 50 miles away, where he journeys two or three times a year for supplies - know him only by that informal name.

Steve came to America from Norway in 1904, when he was 19 and searched out friends and relatives in Minnesota, the destination of many Scandanavian immigrants.

He went to school, farmed, clerked in a general store, finally wound up as manager of a shoe store in Hibbing. After 14 years of that, like many another managerial sort, he got ulcers.

That's when he moved to his island, a spot he had discovered on fishing vacations. It has been headquarters for a logging company. Steve converted it into a fishing camp and catered, half-heartedly, to summer tourists. What he really wanted to do was live alone all year long.

So he did. Now his Social Security check and his savings buy the staples he needs and he counts himself rich. He says he is never bored, has plenty to keep him busy.

He did not quit the real world when he moved to his island, Steve said. He discovered it.

Hearings On Chemical Food Additives Opened

By JEFEREY MILLS
Associated Press Writer

WASHINGTON (AP) — A Senate committee is looking into whether the government is insuring the safety of chemical food additives before they are served to consumers.

The Senate Small Business Committee, chaired by Sen. Gaylord Nelson, D-Wis., opens two days of hearings today that will focus on the regulation by the Food and Drug Administration of three food additives, saccharine, Red Dye No. 2 and Aspartame.

Saccharine is an artificial sweetener allowed by the FDA, although studies since 1970 have raised questions about whether it could cause cancer. A study last year by the General Accounting Office of Congress questioned the wisdom of leaving saccharine in circulation while its safety is still being tested.

Red Dye No. 2 was banned last year, 15 years after its safety was first questioned. The FDA had repeatedly postponed its decision on the food coloring at the behest of the food industry to allow more tests.

Aspartame is another artificial sweetener. The FDA has approved it for use, though later the agency revoked its approval after discovering discrepancies in test data submitted by the manufacturer indicating the substance might not be safe for human consumption.

Nelson said in a statement released before the hearings, "Many chemicals long used in the food supply are being shown to be harmful under new scientific scrutiny.

"Many were never adequately pretested prior to widespread use.

"And the number of new chemicals or new uses for food chemicals continues to proliferate without a full assessment of the chemicals' real nutritional value or potential health hazard."

The chemicals are allowing consumers to obtain a wider variety of packaged and processed food products with a long shelf-life. The convenience food industry has grown rapidly in recent years and Americans now spend more money for processed, snack and franchised foods than for fresh foods.

Nelson cited an industry estimate that the average American eats five pounds of chemical additives per year.

Nestorianism was a 5th-century heresy which promoted the belief that the human and the divine aspects of Christ were, in fact, two distinct persons, one human, the other divine.
