Registration For $300 Rotan Grand Prize Begins Thursday

A total of 19 Rotan businesses are planning a giant $500.00 "Rotan Bucks" give-away set to begin on Thursday, August 2nd and continue through Friday, August 16th. This is being staged in an effort to encourage area residents to shop in Rotan for back-to-school bargains and other specials in August.

The nineteen participating businesses will be providing registration cards for shoppers to register for the $300.00 grand prize of $300.00 in Rotan Bucks to be spent at any participating merchant. Area shoppers can begin registering for the $300.00 grand prize on Thursday, August 2nd and can register each time they visit a participating merchants through Thursday, August 15th. No purchase is required to register, however, registration is limited to those age 18 ad over. The grand prize drawing for $300.00 in "Rotan Bucks" will take place at 1:00 p.m., Friday, August 16th in the center of town in front of the H.L. Davis Department Store. Those registering for the $300.00 grand prize must be present at the drawing to win the $300.00 in Rotan Bucks.

Participating merchants will also have many other prizes, donated from their stock of merchandise, to be given to shoppers on Friday afternoon.

In addition to the $300.00 grand prize of $300.00 in Rotan Bucks, participating merchants will be employing a "mystery person" to hand out $1.00 and $5.00 "Rotan Bucks" to shoppers during the period August 2nd to August 15th. A total of $200.00 in $1.00 and $5.00 "Rotan Bucks" will be given away by the 'mystery person" to shoppers in participating stores during this period. Rotan Bucks can be spent like cash at any of the 19 participating merchants to purchase merchandise or pay bills.

There will be several specials offered by merchants in full page ads in next week's paper; a sidewalk sale is being planned on August 16th and 17th and other promotions are being planned to be coordinated with the $500.00 give-away by merchants.

The 19 participating merchants are: H.L. Davis & Co.; Farm Tractor & Service; City Auto Supply; Landes Furniture; Summers Pharmacy; Glen's Thriftway; Rotan Flower Shop; First National Bank; M & C Lumber and Hard ware; Western Auto; Martin Feed and Seed; F & M Chevrolet-Buick; White Auto Store; Casa Morales Restaurant; Winn's Variety Store; Teague Grocery; Sweet Temptations & Garcia's Flowers and Gifts; Texanna's Second Glance and The Newspaper Office.

Plan on shopping in Rotan for "back to school" bargains and fantastic bargains during August Sale days by the 19 participating merchants. Register for the $300.00 grand prize of $300.00 in "Rotan Bucks" and be on the look-out for the "mystery person" who will be handing out $200.00 in $1.00 and $5.00 Rotan Bucks at all of the participating locations during the period August 2nd through August 15th.

Medicare Inspection Underway

Administrative officials at the Fisher County Hospital are preparing for the annual Medicare inspection scheduled to be conducted on Wednesday and Thursday of this week, according to Gary McGee, Fisher County Hospital Administrator.

"The inspection conducted last year showed the local hospital in fine shape," according to McGee, "however, we understand that Medicare is digging a lot deeper this year." McGee indicated that he is expecting Medicare to go from the bottom up in their inspection.

A total of 6 hospitals have been closed by Medicare this year. Although Medicare doesn't actually close hospitals they discertify the institutions causing them to have to close as a result of the Medicare decertification.

Preliminary results of the Medicare inspection will be known on Thursday afternoon at the conclusion of what Medicare officials call an "exit conference". At this conference Medicare will give preliminary indications o . .he outcome of the annual inspection.

Terri Whitefield

Terri Whitefield Attends FHA Leadership Meeting

Terri Whitefield, a Senior at Rotan High School, was one of the 1,500 teenagers from 390,000 home economics students nationally to attend Future Homemakers of America's annual leadership meeting, July 16-19 in Chicago, Ill.

The four day meeting, with the theme "Dynamic Dimensions:Confronting Challenges," was designed for youth, by youth, and focused on developing leadership skills and planning take-home projects that could benefit attendants' classmates, family and community members.

Terri participated as a voting delegate from Texas to the House of Delegates. She also attended leadership meetings to train her as a chapter and area officer. Terri will use the skills she gained to coordinate school and community projects and organize the House of Delegates meeting for Area II this February.

Terri also participated in the election of national officers, and a Discovery Tour to the "Lamb Farm"- a town for handicapped individuals, who have the responsibility to run the stores in the town and care for all the animals. Altogether, students at this year's Future Homemakers of America annual meeting had over 50 hours of leadership skill building events to choose from geared toward helping them strength and expand their abilities as public speakers, project planners, team builders, fundraisers and chapter organizers. Also offered were topical information sessions addressing issues such as future careers, intercultural relations, teen alcohol and drug abuse.

One of the highlights of this year's national meeting was the kick-off of Future Homemakers of America's 40th anniversary celebration. Chapters nationwide will celebrate throughout the year with special events, publicity campaigns and membership drives.

Rotan Young Homemakers donated $75.00 toward Terri's national meeting expenses. The Rotan High School FHA had a car wash and bake sale to help with a portion of the expenses. Terri worked to raise the remaining funds baby sitting, cleaning homes, and at the Hatahoe.

Terri Whitefield has been a member of the Rotan Chapter FHA for 3 years. She is the daughter of Mr. and Mrs. Tommy R. Whitefield.

Winning 4-H Record Books To Make State Competition

Winners in the Texas Agricultural Extension Service Rolling Plains III, 4-H Record Judging were selected July 26, when screening groups met at the Texas A&M University Research and Extension Center at Vernon, according to Ed Garnet and Elaine Houston, District Extension Directors for the twenty-one Rolling Plains counties.

From the 79 Senior Records entered for judging, first place winners were named in 26 various programs and Fisher County winners are as follows:

Agriculture-Jennifer Wright; Beef (10 head or more), Todd Matthies; Charla Wiley; Range Management, Greg Gruben; Santa Fe, Rickey Spencer, Swine, Gary Teague.

First place district records will be submitted for State Juding, where they will compete for thousands of dollars in educational trips to the National 4-H Congress, as well as other various scholarships and awards.

Approximately 135 Junior records and 79 intermediate records also were scored in 22 different subject matter areas. "These records were placed in blue, red, and white groups with no specific winners in first place categories", said Mr. Garnett and Mrs. Houston. Junior and intermediate winners will be announced later.

Tax Planning

THE KEY TO TAX SAVINGS;
GOOD RECORD KEEPING

The best way to beat taxes is to keep good records of your transactions. Until a few years ago, you could get away with sloppy record keeping. No more. More accurate information reporting by payers of taxable income and IRS computer surveillance have made it imperative that you know what you're doing.

Proof the 1099's for services, interest and dividends that you receive by keeping a detailed record of the checks received and deposits. Keep your check stubs on payments received for wages and verify total wages, taxes and social security withheld.

Always write checks for deductible items. Don't pay in cash. Get receipts for deductible items.

Keep a diary to record deductible expenses. If you do not have business or farm records to keep, set up an envelope system to keep track of your personal deductions. Keep individual envelopes for each major category of itemized deductions listed on Schedule A of Form 1040. Include: medical expenses, taxes, interest expenses, charitable contributions, casualty and theft losses, miscellaneous deductions. Break miscellaneous into appropriate envelopes, such as home-office deductions, investment expenses, education expenses, employee business expenses.

This record keeping system works. It will save you tax preparation costs or time and help you get through an audit.

FINANCIAL FOCUS

BY Gayle Morgeson

In continuing our discussion on securities (stocks and bonds) it is essestial that we point out regardless of what security we select it should meet our goals.

One of the major factors about investing is that it should not be a field of impulse shopping. Know what you want before you buy. Now determine if your selection will do for you what you want-in short, will it meet your need?

If, for example, you wish your investment to give you income then you must expect your choice to provide suitable dividends (stocks or equity investments give dividends) or interest (bonds or debt securities produced interest) to meet your needs. In addition, you must be reasonably convinced that this income will be paid to you regularly and dependably.

In past discussions we pointed out that whether or not you get your income will depend on the ability of that particular corporation to pay it. It is generally true that the higher your yield or return, the more risk you are assuming.

A U.S. Government guaranteed bond will not bring you as much income as an unsecured note of some small corporation. On the other hand, the government bond will afford you a lot more safety and peace of mind. So if you're aiming for maximum income on your investment, chances are you're going to have to sacrifice a bit of safety. To put it another way, "There's no such thing as a free lunch."

Now, if income to you is secondary and you're after capital appreciation, then you will probably be seeking securities that you think may eventually be sold for more than you paid for them.

One thing you can be certain of, however, is that no stock or bond can simultaneously offer you minimum risk, attractive income, and good potential for growth. If a security features one ofthese, the others will be secondary or perhaps practically nonexistant. However, at certain times it may be possible to obtain securities which over a period offer potentially some modest combination of these features.

INVESTMENT TERM OF THE WEEK

Bond-Basicaly an IOU or promissory note of a corporation, usually issued in mulitples of $1,000 or $5,000. In every case a bond represents debt-it's hold is a creditor of the corporation. In most cases bonds are secured by a mortgage.

Worship This Week At A Fisher County Church

Read Luke 11:5-10

[Jesus] told them a parable, to the effect that they ought always to pray and not lose heart. —Luke 18:1 (RSV)

THERE is an art to knowing when to quit. Sometimes we continue too long and ruin a good thing. An artist needs to know when a painting is finished; a speaker must sense when it is time to sit down.

But most often we stop too soon. We give up without knowing that we are but a short distance from triumph. Jesus repeatedly emphasized the importance of continuing to pray even when it seems that God is not listening. He counsels us to go on knocking and pounding even when we receive scant encouragement.

Hopeless situations exist, but there are fewer of them than we think. Sometimes we give up entirely when all we need is a rest.

There can be a purpose to the testing of our endurance. Far from merely proving what is in us, it actually stretches us, increases our capacity to endure, and gives us strength that was not there before. To quit is to stop growing, to settle for less than what could be ours.

PRAYER: **Eternal Love, help me to distinguish between what needs more of my attention and what has already consumed too much of me. Amen.**

County Agent Report

By Richard Spencer

As a result of the drought, much cotton will be "zeroed out" and destroyed in August. Most of this land will be fallow until the 1985 cotton crop is planted. On many of these fields, silverleaf nightshade (whiteseed) and devilsclaw are thriving. This might be an opportunity to get these problem weeds under control.

Silverleaf Nightshade is a perennial. It spreads by both deep creeping rootstocks and seed. Controls are best administered at the early berry stage of growth. On land that is to remain fallow until spring of 1985 and returned to cotton at that time, there are three possible alternatives.

1. One of the most economical means of silverleaf nightshade control is control with a wick or wiper applicator. Use a mixture of one part Roundup (glyphosate) to two parts water. Treat each time silverleaf nightshade reaches the berry stage of development. Operate the wick low enough to come in contact with most of the leaves of the plant. Drive no faster than five miles per hour. For most effective control, make two applications in opposite directions. Do not add a surfactant to the solution.

2. Spot treat with a 2% Roundup solution (one gallon of Roundup per 50 gallons of water). If weeds are under drought stress, add a nonionic surfactant at the rate that is suggested on the surfactant label. Mix only enough Roundup for one days operation at a time.

3. As a broadcast treatment, a mixture of one quart of Roundup plus one quart of Banvel (dicamba) plus ½% by volume of a nonionic surfactant in 10-20 gallons of water per acre has been effective.

This treatment is most applicable for fall application, or if no cotton or other sensitive crops are near. Treatment should definitely be by ground rig any time sensitive crops are in the vicinity. Do not apply Banvel by either ground or air if air temperature on the day of application is expected to exceed 85% F. or if wind speeds exceed five miles per hour, if sensitive crops are near. One major point. This treatment may be too expensive for this season for most producers.

If wheat is to be seeded this fall, the safest approach is to use the Roundup treatment, as suggested above. Roundup has no soil activity. Banvel has a 90 day waiting period before seeding for each one quart per acre used.

Some producers would still like to use Banvel, but at a reduced rate and mixed with 2,4-D. The commonly used rate, with this approach, is one pint of Banvel plus one quart of 2, 4-D per acre in 10-20 gallons of water. This would reduce the Banvel waiting period for planting to 45 days and would allow wheat seeding in late October or November.

There are two problems with this treatment. First, 2, 4-D is much more volatic and likely to drift and cause damage to sensitive crops. Secondly, if drought continues, the Banvel residue may carry over much longer than the 45 days. So be careful.

As for devilsclaw, the timing for control is a different story. Devilsclaw is an annual. The smaller the weed the better the control. In any case, treat devilsclaw before seeds pods mature, to avoid viable seeds.

The best treatment for devilsclaw, according to Dr. John Abernathy, Texas A&M University Weed Researcher at Lubbock, is a spot treatment with one pint of Banvel plus two gallons of Roundup in water to make 100 gallons of mix.

The same precautions in the use of Banvel would apply here as mentioned for the nightshade treatment. Rotation to wheat also helps in devilsclaw control.

Since devilsclaw needs to be treated before it is fully mature, those old plants need to be destroyed to allow treatment of newer growth. This means that if your field contains both silverleaf nightshade and devilsclaw, you may be looking at separate applications to control these two weeds. Hit devilsclaw while it is young and wait until berry formation to treat nightshade.

One final point on control of perennial weeds as silverleaf nightshade. You do not get 100% control in one year. Plan on coming back for two to three years with spot treatments.

Show "Texas" Playing In Palo Duro State Park

There is no other place like it, and there is no other show as spectacular, as moving, and as entertaining. There is no other "out-of-the-way" attraction that is so appealing.

The name of the show is "Texas," and it plays nightly, except Sunday, in Palo Duro Canyon State Park. It is different from the ordinary in many ways.

First, the backdrop is a 600 foot cliff...Not many theatres can boast huge boulders, living juniper trees, covered wagons and trains as props.

And the cast...Not only are the eighty performers swallowed by the vast expanse of stage area, but there is also plenty of room for horses, cows, and an Indian tribe.

The special effects do indeed make "Texas" unique. Nowhere else on Earth is struck by lightning six nights a week at 9:47 P.M. No place else is beset by prairie fire each evening. There are other places that have fireworks, but rarely do those explosions raise the "goose bumps" like the pyrotechnics at "Texas."

"Texas" is a most special place. Visitors in 1984 have discovered it to be the ideal place to celebrate anniversaries, birthdays, holidays, and family reunions. Senior citizens, girl scouts, conventioneers, and foreign exchange students have all thrilled to the show's excitement.

There is still time to see "Texas" in 1984. The show plays until August 25 near Amarillo and Canyon. Tickets are reasonably priced and can be reserved by calling 806-655-2181 or writing P.O. Box 268, Canyon, Texas, 79015.

Weekly News From Rotan Nursing Center

Everyone here has been enjoying the showers, but we sure wish we would get a good rain. We have been out walking more since the days have been cooler. Russell's flowers and roses are looking pretty with a lot of blooms. Evidently the plants are enjoying the showers too. Some of the sweet potato plants that we have growing in the rooms are doing real good while others don't have too many sprouts yet.

The residents enjoyed the songs that Derryl Munday's girls sang for us Wednesday. Donnie Nelson and family also sang several songs and his wife played the piano for the residents Sunday. Donnie is the grandson of Frank Faulkner. Tuesday Johnnie Trejo went to Abilene to have eye surgery on her left eye. She came home Thursday and is doing real good.

Ernest Adams went out Saturday to spend some time with his son Roy Adams. Mrs. Bagwell had a surprise visitor, her grandson, Craig Bagwell and his wife came by to visit with her on their way back to Adkins. Jack Wisener of Washington, a grandson of Frank Faulkner also was here to visit with Frank this week, Jim and Jean Huckaby of Big Spring visited with Clarence Huckaby this week.

Helen Warner has started painting pictures again and we keep one in the lobby so everyone can see how good she is doing with her paintings. Mrs. Kersh and Mrs. Bagwell along with Emily Garrett are always busy with their hand work. Johnnie Trejo also stays busy quilting. If we took all of the quilt pieces and yarn we have up here, I think that we could cover this side of town.

I would like to thank the aids for all the time they have helped with all the activities we have had this month. It has been a busy, but fun month but it wouldn't have been possible without the help of the aids and Virgil.

Art Exhibit Scheduled For County Fair

For the third year an Art exhibit will be held at the Fisher County Fair, with paintings being judged by an accredited art show judge. This division had added greatly to the Woman's division, and has attracted artists from all over the County.

Each artist may enter as many as four paintings with an entry fee of one dollar being charged for each entry.

Classes are as follows: Landscape-Seascape-Snowscape-Still Life-Wild Life-Portraits-Contempary-and Tele.

divisions-Professional: (One who demonstrates, teaches or holds workshops. Amateur and Novice, ones taking lessons less than two years.

Mediums: Oil-acrylic-watercolor, pen & ink-and graphic art. Paintings should not be over two years old and winning no previous awards.

Originals and copy or classroom work will be accepted, and judged in their respecgtive categories.

Paintings will accepted all day Wednesday, August 22 and each must be labeled, with name, medium, class, ready to hang or display on easels. Labels may be picked up at the County agents office or at the Fair building up on entry.

August Preparation For Dove Hunting Can Pay Big Dividends

Early August preparation for dove hunting can pay big dividends in September, Charles Black, district conservationist for the USDA Soil Conservation Service in Rotan said this week.

"Although most farmers consider sunflowers to be a nuisance, they provide excellent food for dove," Black said. "Wildlife biologists rate native sunflower seed as one of the best mourning dove foods in Texas. One reason is because sunflowers produce seed earlier in the summer than many plants."

Doves are almost exclusively seed eaters. They have been feeding on weed and grass seed produced last fall or this spring. Sunflowers are a fresh food supply, usually beginning in July. But seed in the seedheads are not available to the birds. Shredding can solve the dove's problem.

Black said doves do not have feet adapted for climbing or clinging to standing sunflower plants. They are strong fliers, good walkers, adequate perchers, but poor scratchers. This is why dove feed should not be covered with litter, debris, and thick vegetation. The birds should be able to walk about looking for seed with relative ease.

Doves can find plenty of open ground to feed in shredded sunflower fields.

"During the first week of August, shred those areas in your sunflower field where most plants have produced seed, because all the plants in the same field do not always produce seed at the same time, Black suggested. "If seed production is uniform, shred one-half of the field, up to five acres.

This first shredding will make your field more attractive than unshredded fields. Concentrations of birds will begin using shredded areas. About one week before the opening of dove season, which is September 1st, shred the remainder of your field not exceeding five acres. Unless you're planning for an unusually large number of hunters, 10 shredded acres is sufficient.

Mrs. John Hooser

Cynthia Williams, John Hooser Exchange Wedding Vows

Cynthia Suzanne Williams and John Henry Hooser exchanged wedding vows at 7:00 p.m. Saturday July 28th in the United Methodist Church of Rotan. Rev. Fred Brown of Rotan officiated.

The bride is the daughter of Mr. and Mrs. Dave Williams of Rotan. The bridegroom is the son of Mr. and Mrs. Dewayne Stembridge of Granbury, and Mr. and Mrs. Jim Hooser of Perryton, Texas.

The bride was given in marriage by her father. She wore an original gown of white embroidered organza by Phyllis for Bianchi. The enlongated, fitted bodice was of shiffli embroidery with a bateau neckline and brief sleeves.

The bouffant skirt of shiffli embroidery fell into a chapel train. The bride's head was adroned with a wreath of silk flowers which held a long veil of imported English illusion. She carried a bouquet of white mini-carnations and baby's breath.

Mrs. Monte Morrow, sister of the bride, was matron of honor. Bridesmaids were Tammi Sparks of Abilene and Myra Adams of Rotan. The bridesmaids wore identical dresses of aqua taffeta with scoop necklines and puffed sleeves. The dropped, asymetric waistlines were accented with self-bows. The full skirts were intermission length. They carried bouquets of blue mini-carnations and baby's breath.

The flower girl was Stacy Morrown, neice of the bride. She wore a white lace dress and carried a basket of flower petals.

J.P. Hooser, nephew of the groom, was the ring bearer. He wore a black tuxedo and white shirt identical to the ushers and groomsmen.

Paul Dempsey of Granbury was the best man. Groomsmen were Rick Hawes and Ken Stanton of Abilene.

Monte Morrow, brother-in-law of the bride, lighted the candles. The ushers were Monte Morrow of Rotan and Gary Gray of Abilene.

Terrie Morrow of Rotan sang "Up Where We Belong" and "Theme from Ice Castles" accompanied by pianist Janis Collins.

Julie Bibb of Abilene registered guests.

The reception was held in the Fellowship Hall of the church. The bride's table was decorated with a four-tiered wedding cake with fresh flowers. A centerpiece of candles, surrounded by the bouquets of the bride and bridesmaids and sivler appointment accented the white lace tablecloth. Serving cake, punch and coffee were Monica Buck of San Antonio and Terrie Morrow of Rotan and Julie Bibb of Abilene.

The rehearsal dinner was hosted at Casa Morales Restaurant by the groom. The bridesmaids luncheon was held in the home of Mrs. Roy Adams. The wedding party was honored with a Mexican dinner hosted by Mr. and Mrs. Bynum Miers in Abilene at the Casa Herrera Restaurant.

After a wedding trip the couple will reside in Abilene.

Hustling Around Hobbs

By Joy Walker

Well, another dry week, and everything sure is beginning to look dried up and almost like Winter. I think this is the worst our pastures have looked since we moved out here in 1951.

We did get a light shower Wednesday, but as it is so dry, just a light shower last about 5 minutes in the ground, and you can't hardly tell it rained. Sunday and Monday though was nice and cool and in the mornings, it looked almost like Fall.

We are pleased to hear that Mary Boydstun returned home from the hospital in Abilene last Monday, and seems to be doing fine. We hope that she will continue to improve and will soon be able to come back to Church; we sure do miss her and Frank when they aren't there.

Also good news from Jim Armendariz who is now home from the hospital in Abilene. He also seems to be getting along just fine, and we hope that he will continue to improve.

Jeffrey Martinez, son of Mr. and Mrs. Rudolph Martinez, is visiting in Fort Worth with Mr. and Mrs. Darrell Gay. He will be there for a week.

Mr. and Mrs. Wayne Jones from Big Spring visited with the Porters and family during the week end. They visited with Mrs. Opal Phillips Saturday night. Mr. and Mrs. Walter Cave and little daughter from Midland were also here visiting over the week end. Sunday Opal went to the Mike Porters for lunch, and that evening she visited with the Gary Hyers.

Jim and I went to Snyder on Tuesday, but apart from that, we have been staying close to home, in the cool house. We watched the opening ceremonies of the Olympic Games Saturday night and it was a wonderful show. Of course, we plan on watching all of the events, that is all that we can, but will probably have to miss some, especially during the mornings. Los Angeles is really going to be crowded for the next two weeks, and Jim's sister and her husband told us they were going to leave town and take their vacation then. If we lived there or even near, I am sure we would be at every event.

Mr. and Mrs. J.D. Kincaid attended the wedding of Cindy Williams and John Hooser on Saturday night at the Methodist Church in Rotan. J.D. and Lucy ate dinner on Sunday with the Dutch Parks family. Congratulations to Cindy Williams and John Hooser on their marriage Saturday.

Well, I know that I missed some this week, seems like everyone was out of the house this morning, so will try you next week.

Henson Family Reunion Held

The family of late Mr. and Mrs. W.L. Henson met the weekend of July 20, 21 & 22 for their annual reunion at the Llano Show Barn and Community Center. There were 62 people registered.

Those attending were from Pecos; Odessa; Big Spring; San Angelo; Sylvester; Abilene; Arlington; Canyon; DeLeon; Reagan; Austin; Georgetown; Houston; Marlin; Llano; San Antonio; Brownwood; and Springdale, Ark.

There may be a fire hazard in your home that you are not aware of. Recent testing indicates that lined draperies often burn faster than unlined draperies, even when made of the same fabric.

For the test, researchers bought lined and unlined draperies at random, hung them from metal rods, and touched the hems with a match for three seconds.

Unlined draperies burned rather slowly, generally because of the bulk of the fabric. But the flames soared through the light lining and caused the fire to kindle all parts of the lined draperies more quickly.

A fire-retardant label does not offer the protection you expect, since the federal standard cited (CS 191-53) refers to clothing, not furnishings. However, most hospitals and government buildings use material that complies with a higher standard of the National Fire Protection Association.

What can you do about it? Choose unlined draperies or, better yet, opt for curtains or liners of fabric that will not support combustion, such as fiberglass.

Fire protection includes insurance, too. Talk to us about it at:

Mr. & Mrs. Kirk Williamson

Kristi West And Kirk Williamson Are United

Kristi Michelle West and Louis Kirk Williamson ex changed marriage vows on Friday, July 6, in the home of the groom's grandparents, Mr. and Mrs. Kermit Terry of Roby. Wardell Halliburton, Church of Christ minister, officiated.

Kristi was given in marriage by her parents. Kirk's parents were married in the same location twenty-one years ago.

The ceremony took place in front of a brass archway entwined with greenery and roses. Lighted brass candelabra were on both sides of the archway. The bride carried a fresh bouquet of white and pink daisies atop a white bible and carried out the traditions of something old, new, borrowed and blue.

Kelley West, sister of the bride, was maid of honor. Best man was Tony Terry, cousin of the groom. Candles were lighted by Chad Terry and Heath Dickson, cousins of the groom. Ushers were Jeff Morton and Jason Terry, cousins of the groom.

Music was provided by Thomas Dickson, the groom's uncle, Deana Williamson, sister of the groom, and Trevor Dickson. The trio sand "The Rose" and "Let It Be Me" to guitar accompaniment. Organ music was provided by Miss Charla Wiley who played "Brian's Song" and "The Wedding March."

The reception followed the ceremony, hosted by the bride's parents. Assisting in the reception were Miss Jana Jennings and Miss Rachel Rasberry. Mrs. Kathy Terry registered guests and Nick Dickson and Jeremy Terry, cousins of the groom, distributed rice bags. The rehearsal dinner was hosted by the groom's parents in their home.

Kristi is a 1982 graduate of Roby High School, attended Angelo State University, and is currently employed in the Nolan County Juvenile Office in Sweetwater. Kirk is a 1983 graduate of Roby High School, attended Western Texas College, and is currently employed by the Texas Highway Department. Following their honeymoon, the couple is at home in Roby.

Kristi is the daughter of Mr. and Mrs. Aubrey Burrows, and the granddaughter of Mrs. Minnie Burrows of Sweetwater and Mr. and Mrs. T.B. Morgan of Nocona. Kirk is the son of Mr. and Mrs. Larry Williamson, the grandson of Mr. and Mrs. Kermit Terry and Mrs. W.M. Williamson, all of Roby.

Final Services Held For Mrs Lois Deel

Mrs. Lois Deel died at 12:10 a.m. Wednesday, July 18 in the Leisure Lodge Nursing Center in Weatherford, Texas after a lengthy illness. Services were held at 2:00 P.M. Friday, July 20 in the Rotan CHurch of the Nazarene with Rev. Fred Brown and Rev. David Combs officiating. Burial was in the Rotan Cemetery.

Mrs. Deel was born Jan. 13, 1898 to the late Rev. and Mrs. Thomas Bigham. Her family moved to the Pleasant Valley community southeast of Rotan when she was 16 years old.

She married Ivan Deel, son of early Fisher County pioneers Mr. and Mrs. G.W. Deel, Nov. 19, 1916. They made their home in Fisher County until his death March 27, 1961. She remained in Rotan until her illness 12 years ago.

Mrs. Deel was a member of the Church of the Nazarene since childhood, where she was active in the Missonary Society and served as Sunday School teacher for many years.

She is survived by 4 children, Mrs. Mamie Gene Strickland of Clearlake Oaks, Calif., Mrs. Melba Dean Youngblood of San Angelo, Weldon Deel of Milsap, and Mrs. Ava Nell Crawford of Rotan; one sister, Miss Mary Bigham of Hamlin; 13 grandchildren and 21 great grandchildren.

Rural Wren Homemakers Conduct July Meeting

The Rural Wren Extension Homemakers met July 23 at the Courthouse Annex.

Cindy Lewis presided.

Plans for the upcoming Fisher County Fair and Rodeo were made at this time.

Refreshments were served to Cindy Lewis, Karan McClure, Cynthia Gaona, Tempie West and hostess Kay Moore.

A special thank you to Terry, Inc. Gin and County Commissioners for their help in the Food Commodity Program.

Also we would like to thank the City Commissioners for cleaning up the park.

Food Assistance Nutrition WIC Available

More women, infants and children who are at nutritional risk will be receiving food assistance and nutrition education in Texas this year, as a result of the Jobs Bill recently passed by Congress.

Local officials of the Texas Supplemental Food Program for women, infants and children (WIC) are encouraging those who feel they may be eligible to apply for WIC services. The office is located at 12th and Elm Streets in Sweetwater. The next Clincis are the 6th, 10th & 28th of August. Begins at 8:30 a.m. Please be there as early as possible. The phone number is 235-8368.

WIC participants receive a monthly supply of nutritious foods such as milk, eggs, fruit juice, iron-fortified cereal and iron-fortified infant formula.

Card of Thanks

N.G. and I would like to thank everyone who helped us in the search for our puppy. We did find her and thank each of you.

Information about your changing telephone service from Jim West, Manager-Community Relations

New "Premises Work Charges"

There has been an important change recently regarding telephone wiring. The change involves the installation and repair of jacks and "inside wiring."

Inside wiring is required from the point where our lines end in a "network interface." On most new homes, this interface — a large plastic box — is usually installed near the power meter. (In new apartments, it's usually located near the circuit breaker box.)

If you don't have a new home, you probably don't have a network interface (we just started installing them in 1982). Instead, you have a similar device called a "protector."

Like a network interface, the protector is the point where our line ends and your inside wiring begins.

Until recently, we did all the installation and repair of wiring inside our customers' homes. We will still perform that work if you ask us — but the way the work is charged has now changed.

If we do the wiring, we'll now bill you "Premises Work Charges." These charges are billed for each 15-minute period required on the job. Charges cover all costs associated with the work, including materials, but costs differ for installation and repair.

Here's how the charges break down if we do the work for you:

PREMISES WORK CHARGES FOR JACKS AND INSIDE WIRING				
			Other Times	
		8 a.m.-5 p.m. Monday-Friday	Monday-Friday All-day Saturday	Sundays and Holidays
Installation	Initial 15 Minutes	$18.50	$22.75	$27.00
	Each Additional 15 Minutes	$10.50	$12.50	$14.75
Repair	Initial 15 Minutes	$28.25	$31.75	$35.25
	Each Additional 15 Minutes	$10.50	$12.75	$15.00

If you don't wish to have Southwestern Bell Telephone perform the work, you now have two other options. Those are hiring someone else (such as an electrical contractor), or doing it yourself (materials are available from many retail stores).

New rates — Small increase to you

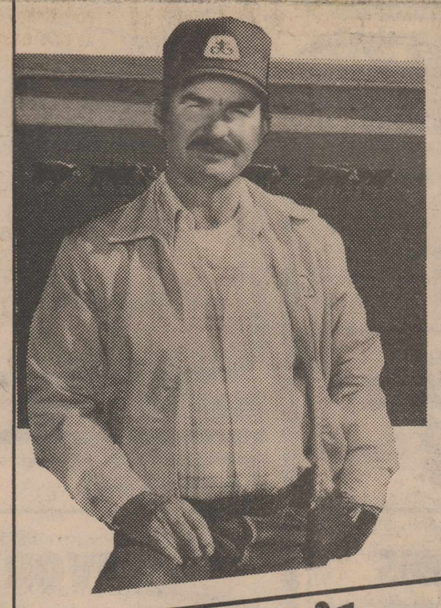

By now, you are probably aware that Southwestern Bell Telephone received final approval for a rate increase effective June 1, which included the change in Premises Work Charges. I say you are "probably aware," because most customers will hardly notice it on their local exchange phone bill.

The rate award sounds like a lot of money — and it is, but the increase for residence flat-rate local exchange service is only 30 cents per month, or less.

Most of the increase (about 89%) was put on one group — Texas' long distance companies (who pay for access to Southwestern Bell Telephone's network).

"I was surprised how quick the variety was ready to graze."

"In fact, some of my neighbors tried to rent my pasture when they saw how much better established it was than others all around us."

Pioneer® variety 2157 gets off to a fast start, quickly establishing the kind of healthy, vigorous growing stand so necessary for good pasture. Its upright growth habit helps provide maximum available grazing.

And because 2157 has proven to be such a good yielder, you can count on it to deliver top-quality wheat at season's end.

If pasture is part of your wheat program, new 2157 should be, too.

New Wheat Variety 2157

Superior Yield • Excellent Standabilty • Outstanding Grazing

"When I pulled my combine into the field, I knew for sure this wasn't an ordinary wheat crop."

"That 2157 was standing out there good and straight. And when I moved down the rows, I could hear the cylinders running full."

Farmers who've seen this impressive new high yielding variety like its standability and tolerance to dry growing periods and severe weather. It has excellent resistance to leaf rust, stem rust, fungal leaf blights, soil borne mosaic virus and the Hessian fly.

In side-by-side comparisons, Pioneer® brand 2157 wheat has consistently outyielded other popular varieties. And it has shown consistently high test weights.
