Sales Gain

Detroit, March 6.—Retail sales of Chevrolet passenger cars and trucks continued in large volume throughout the second 10 days of February, totaling 21,523 for that period and 46,608 for the month to date, it was announced at the company's headquarters here today.

This is an increase of 12,957 units or 38.5 per cent over sales for the first 20 days of February 1939. Sales in the second 10 days increased by 4,985 units over those for the same period last year.

Used car volume also gained, both over the preceding 10 days and over the same period of 1939, according to the report. Used car sales for the second 10 days were 43,535, making a total for the month to date. Used car sales in the same period for 1939 were 71,524 units.

New Legislation Extends Benefits Of FHA-Insured Mortgage Plan to Farms

Farmers may now use an insured Mortgage to build or repair houses, barns, sheds, poultry houses, silos, put up windmills or other farm structures.

As much as 95% of appraised values can be loaned in some cases, and may be either bought or refinanced on this plan when 15 per cent or more of the loan is used for materials and labor on the construction or repair of buildings. These loans are made by lending institutions, they are not government loans, but private capital insured by FHA.

The interest is 4 1/2 per cent, payments can be made monthly, semi-annually, or annually, in equal installments, depending upon the distribution of the farmer's income throughout the year.

At the discretion of the lender the loan may be paid over a period of 20 to 25 years.

This means that the responsible farmer can provide his family with a modern, attractive home without waiting years to accumulate the cash—a tenant farmer can buy his own farm—and the farmer burdened with short-term high-interest mortgages can replace them, modernize his farm, and clear the debt completely in convenient payments.

YOAKUM COUNTY TO BUILD NORTH-SOUTH HIGHWAY

By a vote of 295 to 104, the voters of Yoakum county voted bonds in the sum of \$260,000 Saturday to build a hard-surfaced road north and south through the county, extending from the Cochran county line southward through Plains to Denver City, which is on the south line of the county.

Highway No. 380 has been paved as far west as Plains. The new asphalt paving from Brownfield to Plains is about the best of its kind apparently, in all this section of the state. It is expected that this highway will be paved from Plains to the New Mexico line at Bronco during the current year.

Jerry Sadler In Governor's Race

Austin, Texas, March 6—Jerry Sadler, young, dynamic and colorful member of the Texas Railroad Commission, this week threw his broad-brimmed hat into the ring for Governor. In his opening announcement, Sadler said that he would have plenty to say later on about the issues in the coming summer primaries.

"The day of pussy-footing and wild promises is over," Sadler declared. "The folks now want something definite. I propose to pay pensions aid for the blind and needy children, with 2 1-4 cent additional tax on oil and 1 cent per thousand tax on natural gas at the well. I promise to pay the school teachers their money for teacher retirement by tightening the corporation franchise taxes and taxes on pipe lines. As is well known, I am unalterably opposed to sales tax. This will be a

campaign of issues and not of personalities."

"This tax program is in keeping with the well-known Democratic theory of taxation based on the ability to pay. Eighty per cent of the oil and gas produced in Texas is sold outside of this state. It is high time that Texas began to profit from her natural resources rather than to permit them to be dissipated for the benefit of other sections," Sadler said.

Sadler, a political unknown two years ago, has amazed the veteran political observers by his quick rise in public affairs in Texas and his grasp of public issues.
