Tornadoes Play Steers In Big Spring Friday Night

Plans For Future Activities Are Made By Legion

Approximately forty were present for the regular American Legion meeting which was held Monday night, October 8, at the recreation hall at 7:30 p. m.

G. K. McDonald, commander, presided at the session and W. T. Webb acted as adjutant in the absence of F. M. Stovall, who was out of town.

An interesting program was enjoyed and many plans for future activities of the legion were made.

R. L. Price, who was selected as the local delegate to attend the Ft. Worth convention on September 24 and 25, gave an interesting, informative report on the state convention.

Succeeding his remarks, it was moved that all ex-servicemen be sent an invitation to attend the legion meetings regularly. This motion carried.

The group also discussed the possibilities of forming a permanent entertainment program to be sponsored by the legion. It was decided to arrange a program and feed for November 12, in observance of Armistice Day. All servicemen, and ex-servicemen and their families are invited to attend the entertainment. Mess Sgt. Eugene Barrett will furnish the meat for the event, and ladies are asked to bring covered dishes.

Among those attending the American Legion meeting for the first time Monday night were A. J. McDonald, G. C. Clift, Jr., Guy Cope, Bill Weaver, Chester Runion, Arnold Thorp, William S. Land, W. C. Teague, Leroy Teague, E. L. Nolan, and John Scoggin. H. Bland Taylor was also in attendance at the meeting for the first time in several weeks, having been hospitalized in the Waco Veteran's Hospital for a period.

Lamesa I. O. O. F. Delegation Goes To Seminole

Vernon Adeock, J. D. Dyer, Bob Huff, and C. D. Applegate attended an I. O. O. F. meeting in Seminole Thursday night, October 4. These men served as the delegation from the local lodge to help form the inter-state association of the I. O. O. F. Lodge, and to assist in the arrangements for the first program.

Practically all cities from Odessa to Lubbock and from Lamesa to Morton were represented at the meeting.

The first session of the inter-state organization will be conducted during the latter part of November and will be held in Seminole. Details of program will be announced later.

Pupil Enrollment Continues To Grow

Some changes in the Lamesa School enrollment have been reported by local school officials.

V. Z. Rogers, superintendent, stated Wednesday that 5 pupils had been added to the roles at the Lamesa High School. These pupils enrolled Monday.

Officials at the elementary school stated that 2 were added in that institution this week, and stated that others would probably have enrolled if weather conditions had been better.

Twelve new pupils were accounted for in the colored school this week.

Mrs. Mable Munroe Resigns At School

Mrs. Mable Munroe tendered her resignation this week at the local schools in order that she may join her husband who is in the Norman, Oklahoma Naval Hospital.

Mrs. Munroe was an instructor in the elementary school. No successor has been named to date, according to Superintendent V. Z. Rogers.

Milton Weaver Gets A Navy Discharge

An announcement received from the Eighth Naval District Branch Public Information Office of Dallas stated that Milton Weaver, whose home is on Route C in this county, has received his honorable discharge from the United States Navy. Weaver served as a motor machinist's mate first class.

Bad luck and the law of averages ganged up on the Golden Tornadoes this week to lessen perceptibly their chances of starting off their district 3-AA schedule with a triumph when they clash with the Steers on the Big Spring gridiron Friday night at 8 o'clock.

Tickets for the game have been received by principal Fitzgerald, and will be on sale at his office in the high school until 5 p. m. Friday. Reserved seat duets for adults are available there for seats in the special sections set aside for local fans. Band director Richard Young announced that the high school band and pep squad would accompany the team to Steer stadium.

The injury bugaboo, willing to lay off the small Lamesa squad for the most part during a four-game practice grind, struck with a vengeance Monday as Coach Sanders and his lads launched intensive preparations for the conference opener.

Hamer Rippey, regular halfback playing his first year of football, came up with a bad knee. Billy Merritt suffered a severe knee injury that may keep him out of the line-up for several games; and Marshall Helms, freshman back who displayed fine defensive form against Lubbock and has the potentials of an offensive ace, sprained his back.

Sanders said Wednesday after the Tornadoes had scrimmaged to top off a hard work-out that the injuries to these three backs would make it necessary to juggle the line-up considerably for the melee with the Steers. It is possible but not at all probable that Rippey will play as soon Friday.

The locals worked hard Monday, looked at Big Spring plays inside on rainy Tuesday, scrimmaged on offense and defense Wednesday, and planned to taper off Thursday. Bill Fortenberry, tackle letterman, is still slightly below par with a bruised shoulder to complicate matters. He will more than likely get into the game however.

Big Spring, although walloped by number one Odessa 52 to 0 in the 3-AA opener last week, rates the role of a slight favorite to blow the Tornadoes over since injuries have riddled the Lamesa secondary. Critics point out that in Odessa the Steers met one of the top clubs in West Texas and perhaps the best running back in the state in the person of Broncho J. W. Thompson.

Cochran, veteran Steer backfield star, led his club's attack against Odessa and reeled off several long runs. Assistant Lamesa mentor "Gob" Fitzgerald, who scouted the Big Spring-Odessa meeting, reported that Cochran speed 27 yards early in the fray. Fitzgerald furnished proof of Cochran's title as a triple-threat, adding that the Steer back passed and punted well against the Bronchos.

Lamesa's passing defense has been far from perfect at times and the Big Springers may give the home club plenty of trouble on the air lines. An inexperienced and juggled backfield will make it easier for Steer passes to connect.

Big Spring uses the T formation to a great extent, and employed a box formation a good portion of the last half in the Odessa game. The Tornadoes have stuck to the T, with rate use of the punt formation, since the start of the season.

Bud Eudy, big Tornado guard and line-backer, will probably start at fullback. He played in the secondary in several games for the "B" team last year. Jim Rowbottom, 15, a promising prospect with a lot to learn, will be at fullback. He has looked good on the reserve team. The twin offensive threats of the Tornadoes, Orville Nieman and Pappy Patterson, are ready. Nieman will likely move up to a defensive halfback's role, and the inexperienced Rowbottom will play Nieman's customary safety position.

John Tankersley, 14, freshman lineman, will start at a guard position. The rest of the forward wall is fit and ready.

Big Spring, off to a good start this year, has hit the skids in recent encounters. The Steers began their campaign by dumping Tahoka 37 to 0. Then Coach Dibrell's men fell before Cisco 12 to 0, lost to Lubbock 27 to 0, and then came the Odessa disaster.

Three district 3-AA games will be played Friday in the second week of the conference race. Odessa will get a test at Abilene, and Sweetwater meets mediocre Mid-

(Continued On Back Page)

S-Sgt. Euel L. Davis, son of Mr. and Mrs. W. C. Davis, and a veteran of 21 months of service in the European War Theatre, is currently visiting his parents on furlough in this city. He recently returned from Europe and will be here until he reports to Camp Grant, Illinois on November 10. While overseas, Sgt. Davis was attached to the 1st and 9th Armies and saw service in England, Scotland, France, Belgium and Italy. He served with a camouflage engineer unit. He entered service approximately 32 months ago, prior to which time he was enrolled at A.M. College. He expects to receive his discharge in December and will then re-enter college.

Legion Auxiliary To Meet Here Monday Night

The American Legion Auxiliary will meet Monday night, October 15, at 7:30 p. m. according to an announcement received this week from the association's president, Mrs. Jeff Smith. The meeting will be held in the city recreation hall, and all members are urged to be present.

Official report that there are a number of business items to be brought up for discussion at the session.

It is further stated that new officers for the 1946 term will be installed. Mrs. J. D. Dyer, unit past president, will install the new officers.

In addition, Mrs. R. L. Price will give a report on the Department Convention held in Fort Worth on September 24 and 25.

Paper Drive To End Friday

Please do not forget the paper drive, Friday at two o'clock p. m. Mrs. C. P. Gowen and Mrs. J. H. Adkins, co-chairmen of the drive, have a letter from the American Paper Stock Company in Dallas stating that the paper is badly needed now.

Please your paper on the curb by 2 p. m. Friday afternoon. The newspapers in bundles about 12 inches high. The books, magazines, and catalogues together. Please tie them securely enough to stand loading into the car that picks them up, unloading into the building at the Pair Ground, two handlings as they are loaded into the freight car and then one more at Dallas. Only bundled, boxed or baled paper is accepted. Mixed paper doesn't sell for as much as paper that is separated. Mrs. Gowen says to put in all those old catalogues. They go as magazines. The big mail order houses both have issued new fall catalogues and she thinks there should be enough old ones in the city of Lamesa to finish filling the car.

Place bundles of paper on the curb by two o'clock p. m. Friday. If it is raining put it on the front porch or if you have no front porch, put out a white flag and some one will knock on your door and ask for it. Let's finish filling the car Friday.

S. Clement Has Army Discharge

Stansell Clement has returned to this city, after serving with the armed forces for an 18 month period. Clement received his discharge from service at Ft. Custer, Michigan, on Friday, October 5.

For several months Clement was attached to the Air Corps, and at the time he received his discharge he was in Officers Candidate School.

He stated this week that he will resume his law practice here, and plans to open his office prior to the first of next month.

Mr. and Mrs. Clement and two children, Patricia and Bob, reside at 204 South Bryan Street.

New Contributors To The War Fund Drive Are Named

Tire Certificates Were Issued To Sixty-Seven Here

Members of the local tire board met October 9, and issued tire certificates to the persons named below:

Those who were granted passenger type tire certificates included Mrs. Mattie Thomas, G. Shires, E. H. Rodgers, Delbert Rodgers, Jasper White, Lonnie Freyberger, James C. Cox, D. B. Chiles, Mrs. Myrtle Negy.

Herbert Green, P. D. Gilbert, H. M. Spencer, L. A. Scott, Allen Vandiver, R. Sealy, J. Osburn, E. V. Ray, A. O. Read, J. B. Pipes, V. Z. Rogers, W. E. Peterson, Floyd Spencer, Sterling Stovall.

H. H. Heffernan, Hubert Watkins, W. W. Beeman, Monroe Davis, C. R. Buleson, Emmett Peterson, P. H. Nelson, Verlis Latham, H. B. Miller, J. L. Mundell, Jess Marks, C. B. Walton, Guy V. Cope, Richard Crawley, James Price.

Hiram L. Vaughn, Jimmie Belt, Edward F. Kunkel, Loyd Carter, E. L. Craddock, C. B. Grisson, R. E. Parker, R. Barkovsky, Clyde Edwards, R. A. Beckham, Ped Aldridge, James Crumley, W. R. Cates, Lee Hudson, W. W. Stogner, and W. M. Spence.

Truck type tire certificates were issued to R. H. Strickland, I. L. Ashley, George F. Hogg, R. A. Pounds, V. N. Flenniken, Clyde Wyatt, T. B. Holt, W. Tuttle, W. Holliday, J. P. Jackson, Farmers Co-op Gin, C. E. Mahan, and W. L. Gilliam.

Fire Program Is Success Because Of Unit's Work

This has been designated as fire prevention week throughout the nation. Officials have been stressing ways to prevent fires at various local programs and through the Lamesa Schools, listing fire hazards and reminding citizens to strive to wipe out all hazards.

Always serving an important purpose in this area is the volunteer fire department, which at all times answers calls promptly and extinguishes the fires in a quick, efficient manner.

Officials comprising the fire department include W. T. Webb, fire marshal, J. W. Hildreth, fire chief, Davis Jones, assistant, J. B. McAmis, secretary and Luther Stander, drill master.

Men serving on the fire department include Blaine Wiggins, Paul Oswald, Shorty Corbett, Howell Corbett, Ray Ireton, Hiram Vaughn, James Sumpter, Leslie Pratt, Rube Kelly, Junior Hornbeck, Billy Fortenberry, Arthur Morrow, J. B. Magill, T. J. Middleton, Jack Cousins, John Hurley, Jack Mitchell, James Crumley, Pete Carnes and Lloyd Cotten.

Editor's Note: Due to the concentrated efforts and alertness of the above mentioned men, Lamesa is now enjoying a minimum fire rate. They currently have a rate of 31 cents for fire protection on a \$100 basis, which is a reduction of 40 per cent over the past year.

Dr. Layton Here To Make Tests For Bang's Disease

Dr. F. C. Layton, of the Bureau of Animal Industry, is in Lamesa and will start testing cattle for Bang's disease the first part of next week. He is finishing up some work in Brown County right now. Dr. Layton states that farmers in Dawson County who want their cattle tested should go to the County Agent's office right away and sign contracts. The contracts have to be sent into the Fort Worth office and approved before the work can be done.

"B" Team Plays Stanton Here

The Tornado "B" team plays a return game with Stanton's eleven on McCollum Field tonight (Thursday) at 7:30, assistant coach Fitzgerald announced Wednesday.

Lamesa's reserves and the Stanton club fought to a scoreless tie earlier in the season at Stanton. The locals have since won their first game, a 19 to 6 victory over Seminole.

Eight women were present at the breakfast which was held Monday morning, October 8, at the Plaza Hotel in connection with the current United War Fund Drive.

J. R. (Dutch) Leuenberger, over all chairman, president at the meeting, and discussed the need for a successful war fund drive. He also gave instructions to the women concerning a business house canvas for the campaign.

Women attending the breakfast included Mesdames Wright Boyd, Weldon Lindsey, Frank Barkhurst, C. A. Hollingsworth, J. P. White, J. R. Leuenberger, Kenneth Esmond, and Marshall Crawford. These ladies have already contacted a number of employees in this city to secure donations for the United War Fund and will continue their efforts throughout the week.

A list of recent donations to the United War Fund was obtained this week from Don Emory, who fills the post of treasurer of the campaign in Dawson County.

Those contributing funds amounting to \$5 or more which are included in the special gifts division of the campaign are as follows: W. F. Wacker Store \$100, Robert C. Koger, \$50, R. F. Nix \$50, E. R. Yates \$50, Davis and Rhodes \$50, Lamesa Tire & Battery \$50, Modern Cleaners \$50, Morris Pharmacy \$50, Randalls Hardware Company \$50, Randalls Lumber Company \$50, Lamesa National Bank \$200, Dr. J. C. Loyless \$50, Walter H. Collins \$50, Hurts \$50, J. M. Harrington \$50, Holt Tire Company \$50, Allen Implement Company \$50, G. B. Mayfield \$50.

B. F. Painter \$50, Russell B. Kerbow \$50, M. C. Lindsey \$50, Higginbotham Feed & Elevator Company \$100, Lamesa Gin \$50, Higginbotham Bartlett Company \$75, Higginbotham Funeral Home \$25, Audrey Cox \$150.

Others contributing to the fund and the amounts of the donations are as follows: Jobe & Earnest \$25, O. L. Mellrow \$35, M. Q. Martin \$10, E. L. Allen \$2, Heffernan Gas Equipment Company \$2, Sam Richardson \$25, Gambill & Company \$40, Irvin Wright \$20, Wright's Conoco Service \$25, Jones-Cotten Buick Company \$35, McCall-Parsons Drug \$25, Clegro Plumbing Company \$25, Clegro Smith Lumber Company \$25, Ray Albaugh \$10, J. R. Flanken \$25, Lamesa Compress \$25, Gordon McGuire Jr. \$25, Thomas E. Conner \$15, J. H. Barron \$25, McPhaul Motor Company \$25, Green Hut Cafe \$25, Boone Drug \$5, Bryant Drug Company \$25, Marshall Furniture Company \$10, The Vogue \$25, Carl Rountree \$25, Howard Humphrey \$5, P. K. Humes \$7.50, Bernice Gilmore \$1, Nellie Martin \$1, A. M. Bennett \$5, Louis B. Reed \$5, Buster Herndon \$7.50, Joe Medlin \$3, J. E. Burton \$2.

C. E. Sumner \$7.50, D. O. Blackwood \$10, Owen C. Taylor \$10, Lex L. Brock \$5, H. B. Glover \$5, Rae Davis \$5, Oscar McKenney \$5, Mrs. Louise Mears \$5, J. H. Adridge \$5, Dixie Kilgore \$25, Dawson School Teachers and pupils \$35, Lamesa Lions Club \$25, L. Cason \$1, Jack Cathey \$5, Mrs. Joe E. Harrell \$1, Cocoa Cola Bottling Company \$25, Cecil Speck \$1, Eugene Barrett \$2.50, George Parrott \$5, Mrs. Inez Lewis \$1, Wheat Hatchery \$2, Conner A. Taylor \$5, Mrs. Hamilton \$1, Ann Beason \$1, Clark-McDonald Drug \$2, Mrs. Roy Addison \$1, E. Gambill \$1.

Mrs. Kline \$1, Mrs. W. T. Webb \$2, Mrs. Eugene Cox \$1, Mrs. Grant \$1, Mrs. Leona Cox \$1, Moore's Radio Shop \$1, Viola Caldwell \$1, Ocie Yeater \$2, E. L. Craddock \$1, John Tarter \$5, E. E. Wright \$1, Mrs. Jim Waltrip \$2, Mrs. Glen Esmond \$1, Mrs. Alpha Dugger \$1, C. C. Costin \$1.

George Hart \$5, Clayton Jay \$2, Park Inn Grocery \$25, Friendly Shoppe \$1, Mr. Gilbert \$2, Harry Lee Taylor \$2, Townsends \$2, Mrs. R. E. Simpson \$5, Ben Dopson \$25, M. V. Smith \$10, P. M. McLendon \$7.50, Jack Melvin \$5, C. Woods \$1, Western Auto \$10, Mrs. Kelsey Firestone \$10, I. V. Middleton \$2.50, Mrs. C. R. Baird \$2.50, C. V. Boldin, \$2.50, Mrs. B. W. Fields \$5, Lamesa Furniture Store \$10, J. E. Garland \$10.

Officials report that the courthouse employees contributed \$74, and that the post office workers donated \$79.50. Some of their donations are mentioned individually above.

According to the heads of the current drive, many more contributions are needed to complete the \$10,371 quota which has been assigned Dawson County for the October War Fund Drive. You are asked to make your donations as generous as possible, to help complete the quota.

Another of Mr. and Mrs. W. C. Davis's sons in service is Cpl. Ray Davis who is currently stationed in La Harve, France, where he serves with a harbor craft company. He entered service 36 months ago, and received military police training at Ft. Riley, Kansas. He then transferred into a harbor craft company and was sent to Camp Edward, Mass., and later to Camp Gordon Johnson in Florida. He has been overseas 21 months during which time he has been stationed in England, France, and Ireland. Cpl. Davis was wounded in January 1944, suffering injuries in the knee, and was hospitalized for a 6 weeks period. His wife resides in Winneconne, Wisconsin.

Additional moisture was received over the Dawson County area this week. The rains were reported generally over the county with approximately the same amount of precipitation being received throughout the district.

Mrs. Roy Speck, official keeper of the government gauge here, reported that 70 of an inch of rain was received Tuesday and that on Wednesday 40 of an inch was received. Total moisture amounted to 110 inches.

C. E. Tarter, administrative officer of the AAA office, stated Wednesday that he felt that this additional moisture would not further harm the crops, reporting that it will do no more harm than cloudy weather. He feels that the feed crops will be good if they receive a sufficient amount of sunshine, and if the frost is late this season.

Oil Well Here Has Potential Production Of 218 Barrels Daily

It was reported this week that the Number 1, W. T. Webb Magnolia Petroleum Company well is a producer.

After the head was pumped off the well an official test was made, and it was found that the well has a potential production of 218 barrels per day.

The well is located 660 feet east of the west line and 660 feet south of the north line of the southeast quarter of section 48 in block "M".

Residents Invited To Attend Locker Meet In Patricia

Persons interested in securing a cold storage locker in Patricia, are invited to attend an organization meeting to be held Friday October 12. The meeting will be conducted at the church in Patricia at 8 p. m.

If you are interested in this matter, you are urged to attend the Friday night session. Further details about the cold storage locker can be found in an ad in another section of this paper.

Rupert Austin, Pacific Vet, Gets Discharge

Rupert Austin arrived here Monday, October 8, from Fort Douglas, Salt Lake City, Utah, where he had received his discharge from the Army, Air Corps after three and one half years of service.

Having been a Sergeant at the time of his discharge, he had spent eight months in the South Pacific, returning to the States in May of this year. While overseas he contracted a paralysis and upon his arrival in the States was interned in the Bushnell General Hospital in Brigham City, Utah. He received a furlough in July and spent 45 days in this city.

Mr. Austin received his training for service at Brooks Field in San Antonio and at Kerans, Utah.

Prior to entering the service, Mr. Austin was employed by the West Texas Gas Company.

His wife, the former, Miss Ella Stuart has made her home in this city while Mr. Austin was in the service.

Highway Association Was Formed Monday; Plans For Superhighway Were Laid

Forty delegates were in attendance at the U. S. Highway 180 organizational meeting which was held in this city Monday, October 8. The group congregated in the dining room of the Presbyterian Church where they were served a luncheon.

M. C. Lindsey, prominent in road activities in this district presided at the session. The Rev. David J. Murray, Presbyterian minister here, delivered the invocation, and three vocal numbers were rendered by Mesdames N. H. Price and Weldon Lindsey.

The purpose of the Monday meeting was to organize a highway number 180 association and to formulate plans for a proposed superhighway to run through Texas and into New Mexico and across the mountains to link up with the old Spanish Trail on Highway Number 90 at Las Cruces. Preliminary plans call for the highway to pass through the central part of the Pecos Valley. This would call for the highway to branch off from the Bankhead highway this side of Dallas, and then extend west through Breckenridge, Snyder, and Lamesa and on into New Mexico and across the Pecos Valley over the mountains and down the other side of Alamogordo and to Las Cruces.

Many of the visiting delegates gave their opinions concerning the proposed superhighway, indicating that they favored such a project. Officials pointed out that the highway would form the shortest route from Dallas to El Paso and on to the West Coast. They reported that the American Telegraph and Telephone Company were now making an across the nation survey, following the proposed route, which is another factor favoring the superhighway route.

Following preliminary remarks at the opening of the Monday session, A. H. Hoyer of Artesia indicated his approval of the proposed superhighway by stating among other well chosen remarks, "This highway would be a simple route for the transportation of materials from the east coast to the west coast, if we should ever become engaged in another war—which we hope we will not—at least in the near future."

Following his brief message, Dawson County Judge Kilmer Corbin discussed the project and stated, "We feel that this is really the most important road we have in the county, especially looking toward the tourist traffic."

Other delegates pledged their support and cooperation in the project included Nolan Brunson of Hobbs, A. H. Gunn of Mineral Wells, N. T. Underwood of Snyder, Floyd Jones of Breckenridge, Alton Freeman of Seminole, Bill Stevens of Borden County, Frank Harris of Lovington, and Mayor Sam Richardson of Lamesa.

Succeeding their well chosen comments, Ralph Petty of Artesia suggested that the group elect an over all president "to hold every thing in line."

Mrs. Matt McCall, local Chamber of Commerce secretary, then related and outlined the plans used by residents who formed the U. S. Highway 87 Association.

Frank Roberts, Breckenridge delegate, then moved that the group proceed to form the highway 180 organization, and proposed that those present elect an over all president and two vice presidents from the two states represented at the meeting, including New Mexico and Texas.

A. H. Hoyer of Artesia was elected by acclamation to serve as over all president of the organization. Arlo Green of Artesia was named to serve as secretary-treasurer of the organization, and C. N. Von Roder of Snyder and A. H. Gunn of Mineral Wells were elected as presidents of the organization to represent the state of Texas. A meeting will be held in Artesia to elect the two vice presidents to represent New Mexico in the organization.

Arlo Greene of Artesia made the motion that the highway 180 association adopt the by-laws observed by highway number 87's association and adjust them to fit their plans. The motion was seconded and carried.

Frank S. Roberts of Breckenridge then made the motion that an additional vice president for Texas and New Mexico be elected to aid to governing the organization. After the motion carried, Floyd Jones of Breckenridge was elected to serve in that capacity for the state of Texas.

Lamesa's mayor, Sam Richardson, then made the motion that the or-

Stage Equipment Is Installed At Local High School

V. Z. Rogers, Lamesa School Superintendent, reports that new stage equipment was installed in the Lamesa High School auditorium last week under the direction of Oklahoma City Scenic Company.

The superintendent states that the new cyclorama and wings are light blue in color and are so made that the usual stage pieces including the fireplace, windows and doors may be placed in a wide variety of locations to gain the desired effect.

The Senior classes of 1945 and 1946, combined with some help from the school board provided the new equipment.

The stage is now modernized so that it is similar to those found in the newest and largest high schools.

AAA Office To Close Saturdays

C. E. Tarter, administrative officer at the local AAA office, stated this week that the office here will operate on a forty hour a week basis.

This new working schedule was authorized by the county committee, after they received an announcement from the state office informing them of the change.

Henceforth the Dawson County AAA office will remain closed on Saturdays. You are asked to transact your business to conform with the new working schedule.

Knight Of Page Bestowed On Three At Monday Meeting

Officials reported this week that the rank of Knights of Page was bestowed on Richard Young, Charles Worthan, and Jack Cathey at the regular meeting of the Knights of Pythias on Monday night, October 8th.

At the next session the rank of Esquire will be given. This meeting will be held Monday night, October 15, in the lodge at 7:30 p. m. All members are urged to be in attendance.

DISCHARGE GRANTED TO GEORGE STEELE

Receiving an army discharge Friday at noon, George Steele and his family arrived here Tuesday night, October 9. Steele was distributed his discharge at Camp Atterbury, Indiana.

In service for a period of 3 1-2 years, he was stationed at Ft. Knox, Kentucky, throughout that time, where he was an instructor in the armored school. He served in the capacity of technician fourth grade.

Mr. and Mrs. Steele and two children are presently making their home with his mother, Mrs. Luke Steele.

Miss Myrtle Henderson was a Lubbock visitor Tuesday.

Following the opening of the Monday session, A. H. Hoyer of Artesia indicated his approval of the proposed superhighway by stating among other well chosen remarks, "This highway would be a simple route for the transportation of materials from the east coast to the west coast, if we should ever become engaged in another war—which we hope we will not—at least in the near future."

Following his brief message, Dawson County Judge Kilmer Corbin discussed the project and stated, "We feel that this is really the most important road we have in the county, especially looking toward the tourist traffic."

Other delegates pledged their support and cooperation in the project included Nolan Brunson of Hobbs, A. H. Gunn of Mineral Wells, N. T. Underwood of Snyder, Floyd Jones of Breckenridge, Alton Freeman of Seminole, Bill Stevens of Borden County, Frank Harris of Lovington, and Mayor Sam Richardson of Lamesa.

Succeeding their well chosen comments, Ralph Petty of Artesia suggested that the group elect an over all president "to hold every thing in line."

Mrs. Matt McCall, local Chamber of Commerce secretary, then related and outlined the plans used by residents who formed the U. S. Highway 87 Association.

Frank Roberts, Breckenridge delegate, then moved that the group proceed to form the highway 180 organization, and proposed that those present elect an over all president and two vice presidents from the two states represented at the meeting, including New Mexico and Texas.

A. H. Hoyer of Artesia was elected by acclamation to serve as over all president of the organization. Arlo Green of Artesia was named to serve as secretary-treasurer of the organization, and C. N. Von Roder of Snyder and A. H. Gunn of Mineral Wells were elected as presidents of the organization to represent the state of Texas. A meeting will be held in Artesia to elect the two vice presidents to represent New Mexico in the organization.

Arlo Greene of Artesia made the motion that the highway 180 association adopt the by-laws observed by highway number 87's association and adjust them to fit their plans. The motion was seconded and carried.

Frank S. Roberts of Breckenridge then made the motion that an additional vice president for Texas and New Mexico be elected to aid to governing the organization. After the motion carried, Floyd Jones of Breckenridge was elected to serve in that capacity for the state of Texas.

Lamesa's mayor, Sam Richardson, then made the motion that the or-

MYRTLE DICKIE NEGY
County Home Demonstration Agent

OVERSEAS PACKAGES

Remember that October 15, is the last day for mailing packages to the boys and girls overseas. Fruit cakes, cornbread, hot tamales, chicken, cheese and candies were among the most popular foods sent last year. A lot of the most successful recipes used this last two years have been compiled into manuscript form. Come by the County Agent's office for recipes, packing instructions and cooking time. Some of the Southern boys have wanted cornbread "like mother used to make." If your boy is one of them try this recipe:

- Steamed Cornbread**
- 8 cups corn meal
 - 12 cups milk
 - 2-4 cup shortening or butter
 - 8 eggs
 - 4 tablespoons baking powder
 - 1 tablespoon salt
 - 1-2 cup sugar
- Scald milk and pour over cornmeal and shortening. Cool. Add beaten eggs, baking powder, salt and sugar. Mix well. Line cans with butter paper. Fill No. 2 cans 3-4

full. Steam 75 minutes and process at 10 pounds of pressure for 30 minutes.

SALVAGE STILL NECESSARY

Salvage is still necessary. Fats and paper seem to be the things housewives can help with in the County. Saves your waste fats and take them to the same dealer you have been taking it to. The drive next Friday is expected to finish filling the freight car of paper the home demonstration council is collecting. Paper is still the number one article on salvage collectors lists. The Army says our boys in the Armies of Occupation cannot be supplied with the things they have to use unless we have more paper. Won't you take one final check and see that every old book, magazine and paper is on your curb (or front porch if it is raining) next Friday at two o'clock p. m.? Please separate magazines and books from newspapers, and do tie your packages securely. I believe if the housewives could know how many long hours a few club women have spent separating newspapers from magazines and retyping poorly tied bundles that some of the paper would be put on the curbs in better condition.

PURSES

Club women all over Dawson County are still making purses. Mrs. Pilant of the Ackerly club and Mrs. Leith Higginbotham of the Central Home Demonstration Club have each worked out new patterns in crocheted Cordie purses. Mrs. Pilant's purse is navy blue and is very tailored and smart looking. Mrs. Higginbotham's is an elaborate purse that could be carried with very dressy costumes. The two club women got together in the home demonstration agent's office last Saturday and exchanged patterns.

FALL GARDENS

Mrs. Ross Hillman of the McCarty community has canned 80 containers from volunteer tomato vines that came up after the rain early in July. She says she is gathering ripe tomatoes every day and that her vines are heavily loaded with green tomatoes.

ROSES

Mrs. G. B. Johnson of the Midway club has planted shrubs, grass and roses around her new home this year. Her rose garden is beautiful. She has her bed mulched with grass clippings and has put moss around these individual plants.

FOOTBALL GEAR SAVED FROM FIRE—Football gear (foreground) was rescued by Coach J. A. Adelman and his football team during the fire which destroyed the Holliday, Texas, school building. The Wichita Falls fire department arrived after the Holliday volunteer's engine had broken down. Two typewriters were all that remained of the school's equipment, but classes continued.

Well, Well—The Well Was There

NEWPORT, Tenn. (AP) — Ever lose your well? Edd Simmons bought a house supposed to have a well under it,

but couldn't find it until a howling dog kept him awake one night. Simmons started searching under the house without a light. He found the dog — and the well. Neighbors pulled him out.

Dan Y. Davis to C. A. Hollings-

Betty Crocker says:

"Syrup can pinch-hit for 1/2 the sugar in this cake!"

...and our New Method cuts mixing time 1/2!"

YOU DON'T CREAM SHORTENING:
Save time, labor. Yet cakes are far finer!

YOU DON'T BEAT EGGS:
Imagine! Eggs are mixed in with other ingredients.

USE ONLY 1 BOWL:
Fewer dishes to wash. A wife-saver!

EXPECT MUCH... our New Method with Gold Medal Flour won't disappoint you! Expect a cake that's finer-textured, lighter, more deliciously moist than even the Gold Medal cakes you've known before!

You'll get these superior results without creaming shortening... without beating eggs! In less than half the mixing time!

And you can be confident of successful results! Here — at last — is an exact, foolproof method of cake-mixing... with the proportions given just right for the superb baking qualities of Gold Medal "Kitchen-tested" Enriched Flour.

The delicious "2-in-1" Cake at right is a real pleaser! Do try it!

Betty Crocker
of General Mills

Warning! Recipe at right has been developed by the Betty Crocker Staff only for Gold Medal "Kitchen-tested" Enriched Flour. Don't attempt to use it with another flour! Measurements given are "tailored" especially for Gold Medal! Remember, Gold Medal is truly an all-purpose flour—splendid for all your baking!

See recipe folder in sack for other Betty Crocker tested recipes for pies, rolls, cookies, etc. Recipes are changed frequently. Start collecting these valuable illustrated folders now!

Betty Crocker

"NEW METHOD" 2-IN-1 CAKE

IMPORTANT:
Use only Gold Medal "Kitchen-tested" Enriched Flour with this recipe.

Have all ingredients room temperature (70°-75°). (Shortening should be soft, not melted.) Pre-heat oven to 350° (mod.). Grease and dust with flour one 8 1/2" square pan (1 3/4" deep) or one 8" x 12" oblong pan (2" deep) or two 9" round layer pans (1 1/4" deep). Sift GOLD MEDAL "Kitchen-tested" Enriched Flour before measuring. Measure all ingredients accurately (level) before mixing.

- | | |
|-------------------------------|---|
| Sift together into bowl . . . | 2 cups plus 2 tbsp. sifted GOLD MEDAL "Kitchen-tested" Enriched Flour |
| | 1 1/2 cups sugar |
| | 3/4 tsp. double-action baking powder |
| | 1 tsp. salt |
| | 1/2 cup high grade vegetable shortening |
| Add | 1 tsp. flavoring |
| | 1 cup milk |

Beat vigorously with spoon for 2 min. by clock (about 150 strokes per min.). You may rest a moment when beating by hand; just count actual beating time or strokes. OR MIX with electric mixer on slow to medium speed for 2 min. Scrape sides and bottom of bowl frequently.

Add 1/2 to 3/4 cup unbeaten egg whites (4 large)

Continue beating 2 more min., scraping bowl frequently. Pour about 2/3 of the batter into prepared pan or pans.

To remaining batter add . . . 1 sq. (1 oz.) unsweetened chocolate, melted
1/4 tsp. soda
2 tsp. warm water
1/4 tsp. red food coloring, if desired

Mix until well blended (about 1/2 min.). Pour chocolate batter here and there over white batter. Cut through batter several times with knife for marbled effect. Bake square cake 50 to 55 min., oblong cake 35 to 40 min., layers 25 to 30 min. in mod. oven (350°). (Square cakes of this type often rise slightly in center and "crack".) Delicious served uniced... warm from the oven... or frosted when cool with Glossy Chocolate Icing (recipe in Gold Medal sacks).

SAVE ON SUGAR: Use 3/4 cup sugar and 1/4 cup white corn syrup in place of 1 1/2 cups of sugar in the cake. Reduce milk to 3/4 cup plus 1 tsp. Add syrup with milk to dry ingredients.

Army Discharges Are Distributed To Twelve Men

Several men have been released from the military service and have again returned to a civilian status. Men having their discharges recorded at the county clerk's office recently include Felix B. Boyd, Sammie E. Ansley, Lester J. Ansley, Louis L. Speck, Arnold Henderson, Harold R. Scott, Alvie C. Taylor, James L. Clements, Loyd C. Cochran, Warren M. Richardson, Leslie H. Williams, and Lonnie J. Stephens.

Felix B. Boyd, who entered the service October 12, 1942 at Camp

Wolters, received his discharge at the Separation Center in Amarillo October 3.

He is an overseas veteran having participated in the Ardennes, Western Europe, Rhineland, Central Europe, Normandy, and Northern France Campaigns. He also had part in the air offensive over Europe and for his services has been awarded 2 overseas bars, the EAME Service Medal, 7 Battle Stars, and the Good Conduct Medal.

He was stationed overseas from March 23, 1944 until July 14, 1945. Another man to have been released from service is Sammie E. Ansley, who filled the post of sergeant with a malaria control unit. He was discharged at Ft. Bliss on October 2.

Entering the service October 30 at Ft. Bliss Ansley received an overseas assignment and left for the Southwest Pacific on April 28, 1943. He went through the Luzon and Northern Solomons Campaigns, and was awarded the Good Conduct Medal, Philippine Liberation Ribbon, Asiatic-Pacific Service Medal, and the American Defense Service Medal.

Ansley returned to the States September 26, 1945. Lester J. Ansley was granted his discharge at the Amarillo Field September 30, after serving as a corporal with the 1508 Army Air Forces Base Unit.

Entering the service April 14, 1943, he spent 1 year and 7 months overseas. He took part in the Northern Apennines, Central Europe, Rome Arno, Northern France, Southern France, and Po Valley Campaigns, as well as taking part in the air offensive in Europe.

Medals awarded him for his services include the EAME Service Medal, 7 Bronze Stars, the Good Conduct Medal, and 2 Overseas Bars. He returned to the States August 24, 1945.

September 28 was the date that Louis L. Speck was granted an army discharge. He received his papers at Camp Lee, Virginia.

Possessor of the EAME Theatre Ribbon and Good Conduct Medal, Speck had part in the Southern France, Northern France, and Ardennes Campaigns, as well as had part in the air offensive over Europe. Speck spent 1 year and 7 months overseas, returning to the States July 13, 1945.

Fred Dossey, who was a private first class with headquarters of an engineer construction command, was released from service at Ft. Bliss on October 2.

Entering the military service in Lubbock September 18, 1942, he left for duty overseas May 6, 1943.

Battles which he took part in included the Luzon, New Guinea, and Southern Philippine Campaigns. He has been granted the Good Conduct Medal, and the Asiatic-Pacific Service Medal.

A technical sergeant with headquarters and headquarters squadron of the 63rd Service Group, Arnold Henderson was dismissed from service October 3 at Ft. Bliss.

He entered service April 6, 1942 in Lubbock and filled the post of a technical sergeant.

Going overseas June 27, 1943 he went through the New Guinea, Southern Philippines, Luzon and Ryukyu Campaigns. For his services he was awarded the Asiatic-Pacific Theatre Ribbon, Philippine Liberation Ribbon and Good Conduct Medal.

After serving overseas 2 years and 2 months, he returned to the States September 25, 1945.

Discharge papers were issued to Harold R. Scott, a private with the 301st Engineer Battalion at Fort Sam Houston, September 28.

Scott, a veteran of the Normandy Rhineland, Ardennes, Northern France, and Central European Campaigns, was wounded twice. He suffered wounds on October 3, 1944 and on January 15, 1945 in Europe. Scott possesses the Bronze Star, EAME Campaign Medal with 5 Bronze Stars, and the Purple Heart with an Oak Leaf Cluster.

He was overseas 1 year and 7 months prior to being returned to the States.

Alvie C. Taylor is another man who was recently returned to a civilian status. A private with the 417th Infantry, he was granted a discharge October 5 at Brooke Convalescent Hospital.

Entering the service July 7, 1944 at Ft. Bliss Taylor was overseas from February 19, 1945 until July 21, 1945.

Taylor was in the Rhineland and Central Europe Battles, and was awarded the EAME Service Medal.

A technician fifth grade with headquarters battery of the 466th Parachute Field Artillery, James L. Clements was granted a discharge September 28 at Camp Gordon, Georgia.

He is possessor of the Purple Heart, the EAME Service Medal, Good Conduct Medal and the Bronze Star, having had part in the Sicilian, Rome Arno, Naples-Foggia, Ardennes, Rhineland, and Central Europe Campaigns during the 2 years and 3 months he spent overseas.

Lloyd C. Cochran received his discharge papers September 22, at Ft. Sam Houston. He was a technician fifth grade with the 752nd Field Artillery Battalion and completed a tour of duty in the European War Theatre.

Entering the service December 26, 1942 in Lubbock, he participated in the Sicily, Naples-Foggia, Rome Arno, Southern France, Rhineland, and Central Europe Battles.

Cochran was awarded the EAME Campaign Medal, 6 Bronze Stars, and the Good Conduct Medal.

He was returned to the States September 11, 1945.

September 29 was the date on which Warren M. Richardson was distributed his discharge papers. Richardson, a corporal with headquarters of the 3035th Army Air Forces Base Unit, was discharged at Ft. Sam Houston.

A veteran of foreign duty, he had part in the air offensive over Europe, the Normandy, Northern France, Rhineland, Ardennes, and Central Europe Campaigns.

He is possessor of the EAME Campaign Medal, 6 Bronze Stars, the Good Conduct Medal, as well as the Distinguished Unit Medal.

After spending 1 year and 8 months, across he was returned to the States June 2.

A private first class with the 193 Quartermaster Gas Supply Company, Leslie H. Williams was discharged at Ft. Sam Houston October 6.

Inducted into the service April 6, 1942, he left for an overseas assignment July 1, 1944, going to Europe.

While across he took part in the Central Europe, Northern France, Rhineland and Ardennes Campaigns, and was awarded the Good Conduct Medal, and EAME Campaign Medal with 4 Bronze Stars.

Williams was returned to the States September 28, 1945.

Lonnie J. Stephens, a technician fifth grade with a service company of the 35th Infantry, received his army discharge October 5, at Ft. Bliss.

He entered service February 10, 1942 at Ft. Bliss and left for overseas June 7, 1942. He returned to the States September 24, 1945.

Stephens is a veteran of the Luzon, Guadalcanal, and Northern Solomons Campaigns. He wears the Good Conduct Medal, Asiatic-Pacific Theatre Service Medal, and the Philippine Liberation Ribbon.

CLEAN AS A HOUND'S TOOTH!

That's
Phillips 66

THE HONEST OIL—FROM DEEP IN THE HEART OF OKLAHOMA!

Brother, if you want a clean, sweet, protective oil for your car—lay your dough down for Phillips!

It's clean because it starts clean, and we refine it cleaner. Yessir, we've got a grudge against sludge—and the greatest cause of engine gunk and muck is an oil that isn't as clean as it ought to be.

And the greatest thing about Phillips 66 is—all its God-given lubricating qualities are unimpaired.

We don't claim the credit for this wonderful oil. We just had enough sense to recognize a great job by Mother Nature—to take it out of the ground—and not to fool with it too much!

So when you change your oil every two months (as you should if you want to keep a car under you) just tell that man—"Fill 'er full o' Phillips!"

You won't find a more honest, natural lubricating oil in America!

"Fill 'er Full o' Phillips!"

**DON'T BE . . .
DISAPPOINTED
CHANCES ARE VERY POOR FOR DELIVERY OF NEW TRACTORS IN TIME FOR THE 1946 CROP**

All farmers are urged to IMMEDIATELY REPAIR their tractors and farm equipment, as present indications are that all new tractor production WILL GO TO VETERANS ON PRIORITY CERTIFICATES.

FARMERS ARE URGED TO PURCHASE USED MACHINES OR TO REPAIR THEIR PRESENT EQUIPMENT.

THIS SHOULD BE DONE NOW WHILE PARTS ARE AVAILABLE AND SHOPS ARE NOT CROWDED!

Farmers who delay their tractor repairs until late winter or into spring may find parts stocks depleted and service shops with more work than can be handled.

With the possibility that strikes may spread, the outlook on production of new tractors and farm equipment is not at all encouraging—therefore this word of caution is being given by the farm equipment dealers of Lamesa to farmers of Dawson County that equipment should be repaired NOW!

Girl Scout Ass'n Discussed Plans For Coming Year

The regular council meeting of the Girl Scout Association of Lamesa met at the recreation building at 7:30 p. m. October 9th, with Mrs. Leslie Pratt, a member of the nominating committee presiding.

Mrs. Pratt called for a report from the secretary-treasurer which was given by Mrs. C. A. Hollingsworth in the absence of Mrs. Don Emory. A report from the treasurer was given by Mrs. W. H. Collins. This was followed by a brief history of the importance of the board and council and the work and help they would give troops and leaders by Mrs. Pratt. Mrs. Pratt also stated that program material, funds and literature can enlarge the organization, and that one-half of the girls between the ages of 7-18 who are not getting this training need it.

Judge Louis Reed, president of the board, gave an interesting talk and renewal on the Lamesa Charter of Girl Scout Association.

Mrs. Roscoe Holton, organization chairman, gave a report on troops and their work. She reported ten active troops and stated that many girls are on the waiting list. She said that the need of leaders is great.

Mary Miller, field adviser, reported a training course for mothers and leaders which is to be held November 5th through the 9th. Troop committee members are urged to attend.

J. R. Leuenberger, chairman of finance, with Blaine Wiggins discussed finance and reported a finance campaign for November 5th.

Mary Miller in the absence of Mrs. L. P. Houston, gave a report of the day camp held here in June. It was agreed that each first Monday night of the month would be the date for council meeting. To be held at 7:30 p. m., at the recreation building.

Plans were made for "Girl Scout Week" to start October 28th, with every troop and member participating.

Chairman for the Association are J. R. Leuenberger, Finance Chairman; Mrs. Carl M. Cox, Public Relations Chairman; Mrs. C. A. Hollingsworth, Program Chairman; Mrs. Guy Orr, Training Chairman; Mrs. Roscoe Holton, Organization Chairman; Mrs. W. H. Collins, Treasurer; Mrs. Don Emory, Secretary; Mrs. S. Z. Frazier, vice-president; Judge Louis Reed, president. Committee members at large are, Mrs. J. R. Leuenberger, Mrs. Matt McCall and Mrs. S. M. Roberts.

Coaches' Lament

ALTON, Ill. (AP)—William G. Moss, Navy veteran who wants to settle down to live in one town, gives this reason why he quit as football coach at Western Military Academy to enter the box business:

"If you loose you usually have to go some place else. If you win, somebody offers you a better opportunity. So one way or the other you're always on the go."

Local Boys On H-S. U. Committee

In a move to meet the growing demands for university training brought on by the ending of the war, the board of trustees of Hardin-Simmons University of Abilene has named a general committee which includes W. J. Beckham and Harold Fitzgerald of Lamesa to study and present the school's building and rehabilitation needs.

Scope of the effort, labeled as the Greater Hardin-Simmons University development program, is indicated in that representative men and women from 60 towns and communities of Texas and a number living in other states are on the enlarged committee of 130 persons. Goal of the drive is completion of a million dollar fund to be used in erecting the Sandefer Memorial building, badly needed dormitories and a student center.

Rev. Maule To Hold Revival At Nazarene Church

The Rev. Alvin C. Maule, who resides west of this city, will conduct a one week revival at the Church of the Nazarene in Lamesa. The revival will open Sunday, October 14, and continue through Sunday, October 21.

It is reported that Rev. Maule is a licensed minister in the local church. He is a veteran of World War II, having received a medical discharge from the Marine Corps on August 10, of this year. Rev. Maule enlisted in the Navy September 2, 1942 and was assigned to the Medical Corps. Later, on October 28, 1943 he was transferred to the Fleet Marine Force. He served with the First Marine Division and was wounded September 15, 1944 and was awarded the Purple Heart.

It is stated that Rev. Maule is a very talented and forceful preacher, and it is believed that his messages will be of benefit to all.

All the people of Lamesa and the surrounding territory are invited to attend his services and to enjoy his timely messages. The young people of the Lamesa Church of the Nazarene are sponsoring this revival effort and desire to invite all the young people to hear Rev. Maule.

Mr. and Mrs. Stanley Wilkerson of San Diego, California, spent Tuesday visiting the Earl Goen's. The Wilkersons are enroute to San Antonio.

Miss Faye Littlefield, student at Texas Tech, spent the week end here visiting her parents, Mr. and Mrs. Jim Littlefield.

Mrs. Slater Wilson and daughter of Rochester are visiting her grandmother, Mrs. A. L. White and other relatives in this city this week.

Mr. and Mrs. Floyd H. Heck and Mr. and Mrs. H. G. Cook and children all of Wilson were the week end guests of Mr. and Mrs. D. Freeman.

Lamesan Tells Reaction Of Jap Prisoners

Editor's Note: The following letter was written by Andrew Cornelius Hornbeck, the son of George Hornbeck of this city. Cornelius is a member of the United States Navy and has been stationed in the Pacific for a number of months. He is a Quartermaster Second Class, and has been in service over 2 years. He recently spent a month's leave in this city, after which he returned to the Pacific.

September 5, 1945.

Dear Folks:

Today's story has its setting in a Japanese Prisoner of War Camp, here on the island of Guam. For almost a week now, the construction of this POW camp has been zooming at top notch speed, making ready a place for some fifteen hundred Japanese, in anticipation of the formal surrender of the Japanese Garrison on the island of Rota. Rota is a small island north of Guam, which, like many other islands in the Pacific, has been by-passed.

Upon surrender of these garrisons, they were placed aboard an American ship and transported to Guam.

The camp was finished yesterday and the Japs started arriving at seven o'clock this morning. The first few trucks were loaded with officers, who, in the military uniforms, looked like dignitaries, yet the grim expression on their faces showed signs of defeat. Most of them wore high leather boots and carried leather brief cases. Some of them carried rather expensive looking walking sticks and a few brought along pieces of luggage. But for the most part, they traveled light.

The enlisted men traveled with only the clothes they had on, and were issued extra clothing on arrival. Some of them carried water canteens, and one, who amused me very much, had brought along an aluminum tea kettle. It must have been the only one on the island.

Truck load after truck load of Japanese troops, guarded by U. S. Marines, pulled up to the main gate, stepped out of the trucks and marched into the camp, enclosed by a high barbed wire fence, with machine guns located at each corner. The area covers about a city block. At night the fence is lighted with flood lights in order that the guards will be able to see anyone trying to escape.

As the Japs were marched through the gate they were searched for concealed weapons. Once inside, they were taken to the galley, where they were issued mess kits and canteens, and then had breakfast. I don't know what they had for breakfast, but probably the menu was on the same order as ours.

They are housed in army tents and sleep on cots with thick mattresses. The Japanese people sure don't have any room to kick, as to the treatment we give their prisoners, I've seen some of our guys who didn't live as well as these Japs are living.

After having had breakfast, they congregated around the camp area in small groups. Although I didn't say their lingo, it was really amusing to watch them. A lot of them returning from breakfast, as they approached a group of their buddies, would come to a snappy American salute. Some would then raise their hand over their heads as if they were going to be searched. This

Mrs. T. B. Fulkerson and daughter, Addie Ruth of Hobbs, New Mexico spent Monday in this city enroute to Fort Worth.

Mr. and Mrs. Dolph Wyatt left Monday for their home in California after a 10 days visit here at the William's Hotel.

fun making continued throughout the day.

I was standing near a group of them, when a young looking Jap walked up and rendered the group a snappy salute. I couldn't keep from grinning at this, and as I did, the group looked over to see if I had been watching and then they broke out with laughter. One of them gave me a couple of Jap coins which I shall enclose in this letter. Please put them with my other findings.

I suppose you are wondering what I was doing there? I was one of the guards. All of the guards are made up of Sailors and Marines and are armed with rifles. I don't know how long they will keep me on it but it doesn't matter to me. It is rather interesting.

During the day we work them loading and unloading trucks, digging ditches, or whatever work there is to do. Each guard is assigned ten or twelve Japs to work. They are very stupid when it comes to understanding our language, and we guards work harder than they do. Sometimes I get so mad I want to give one of them my rifle and do the work myself.

One of my working parties consisted of five Chinese and two Japs. How the Chinese got mixed up as prisoners, I don't know. They look like Japs anyway. They were fishermen and were picked up somewhere along the coast of China. We don't have to watch them so closely though as they are hard workers, and we can make them understand us easier than the Japs. They could be turned loose and wouldn't harm anyone.

I had the night duty last night. There are four of us on watch at one time—one being at each corner of the camp, and being armed with a rifle and machine gun.

Personally I don't think the Japs would leave if the gates were left open and unguarded. There is no other place they could get food, clothing and shelter like they get here.

Love,
Andrew Cornelius Hornbeck.

ATOM BOMB: A FAIRYLAND OF INDUSTRIAL PROBLEMS

By HOWARD W. BLAKESLEE
AP Science Editor
NEW YORK — The secrets of the atomic bomb are more fascinating than fairy tales and will remain secret for some time; what has been told in the official release of Maj. Gen. L. R. Groves and Dr. H. D. Smyth, concerns only the principles of the bomb.

But this same report, without divulging how the seemingly impossible feats were done, tells what a few of them were.

In the Tennessee plant the heavy metal, uranium, is converted into gas by mixing it with fluorine, the yellow gas used in the non-poisonous cooling system of most household refrigerators. This metallic gas is filtered through membranes called barriers, and in that process some of the uranium 235, which makes bombs and atomic fires for power, is separated from the common form of uranium 238.

The holes in these barriers must not average greater than 1-250,000,000th of an inch. There must be billions of these incredibly small holes in each membrane. And the barrier material has to be manufactured in large quantities of uniform quality. In Tennessee there are many acres of such barriers filtering out uranium 235.

In this same filtering process pumps must be used to produce partial vacuum in the chambers holding the metallic gases. But never did pumps have to be as perfect as these. There must be no leaks and no corrosion.

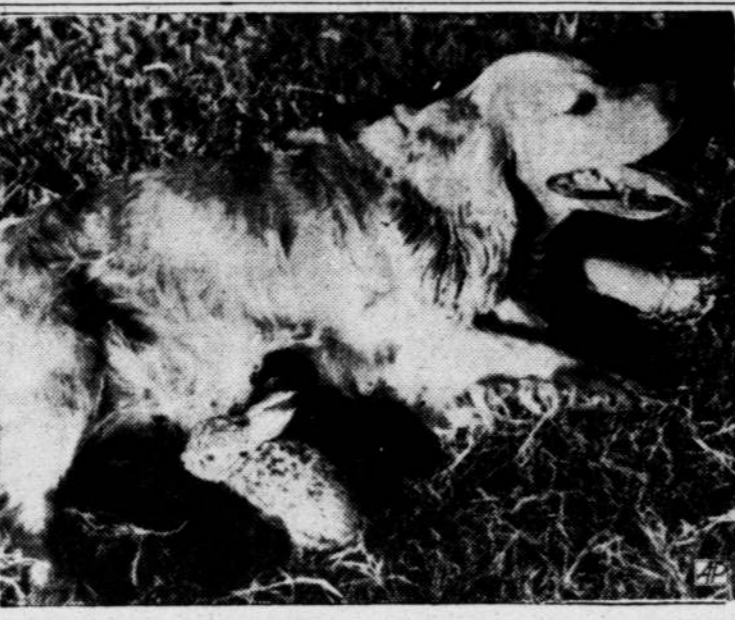

One of the pumps made to meet these requirements runs by induction. It is completely enclosed, sealed so tightly that neither air nor any other gas can enter or get out. There are no wires and no connections whatever with outside power or supply sources. The pump motor starts or stops by electronic controls. In fact it would be easy with this kind of control to arrange a tube so that a person could start the motor by saying the word, "Go," and stop it by saying "Stop."

In this single method of separating uranium 235 from 238, new lubricants had to be invented. New cooling substances or new cooling methods had to be devised. Ordinarily it would have taken the industrial power of the United States many years to discover how to make these processes work. Those named in the Smyth report are only a few among scores of such inventions.

No matter if no atomic power ever is used, the public will benefit in many ways from the pro-

TIMBERWOLF CHIEF SPEAKS — Maj. Gen. Terry Allen, commander of the 104th (Timberwolf) Division, addresses his 15,000 battle veterans at review on Sept. 15 at San Luis Obispo, Calif., honoring the unit's third year. (AP Photo).

TRIED TO SAVE SMALL MASTER—The tar-smearred coats of these little dogs shows that they tried in vain to rescue their small master, 3-year-old James Douglas Pearson, who was found smothered in a pool of asphalt at Amarillo, Texas. Their whining drew the attention of the men who found the body. (AP Photo).

cesses like filters, pumps, lubricants and coolants discovered to make bomb production possible. These new methods are answers to many of industry's problems in producing new consumer goods. About 10,000 industrial plants worked on the processes of one or another of the hundreds of atomic bomb problems.

Stretching The Uses of Rubber

By HOWARD W. BYAKESLEE
AP Science Editor
BATON ROUGE, La. — Rubber with a memory is made here at one of the huge synthetic plants of the Standard Oil Company of New Jersey.

Virtually a plastic, it is made into sheets which you can mold in your hands. But when molded, the plastic tries to return to its original shape. Its memory is a remnant of the stretch in rubber, which always tends to snap back into its original length and form.

The plastic is one of many rubbers made by the scientists of the Esso Laboratories under direction of Dr. C. L. Brown. The specialty expert is H. J. Rose.

The plastic with the memory is made either hard or soft, more rubbery or less, and has some secret uses in insulation of the very short wave electrical currents in military equipment.

Another special rubber, a spongy material, will provide the ever-clean postwar mattress. The lady of the house can pick up this mattress and wash it with cleaning fluids. Seat cushions of the rubber will have the same advantage.

One specialty rubber will not crack or even harden at temperatures down to 100 below zero. This one has uses for windshield wipers in cold weather, and for airplane parts and defrosters.

There is a specialty rubber that looks exactly like cream. This is a dipping rubber, to make by the dip method articles difficult to mold. The cream makes rubber gloves for use in handling oil and gasoline.

There are many other specialty

rubbers, each adapted for some particular industrial use. All of them are modifications of Perbunan, which is a buna synthetic rubber, modified by another compound, acrylonitrile, a liquid which boils at about 175 Fahrenheit.

Nature makes a thousand different kinds of rubber in plants. The

chemists can make ten thousand kinds synthetically. Nature's rubbers all are very much alike, while the chemists produce differences

More than one-tenth of the output of sulfuric acid in the United States is produced in the New York City area.

Two-thirds of the 37,000,000 occupied dwelling units in the United States had private bath or shower in 1944.

The Eiberian-Manchuria boundary is marked for nearly all of its course by the rivers of Argun, Amur and Ussuri.

DEAD CALM IN A HURRICANE ? YES NO

In the very midst of a hurricane you'd be safe! Its center is sort of "hollow" . . . calm. All weather packs surprises, you bet—especially Winter weather. Yet you can bet on having your aging car face it safely, with the engine's insides under guard of OIL-PLATING!

Changing to Conoco Nth motor oil is all it takes for an OIL-PLATED engine—fortified throughout with lubricant bonded to metal direct, by the magnet-like action of Conoco Nth oil's added ingredient! OIL-PLATED metal defies corrosion and other wear. Surfaces kept OIL-PLATED during long cold waits have protective lubricant ready in advance to minimize starting wear. And always—the less wear, the less reason for carbon, sludge, and breakdown. You bet you want Conoco Nth oil for Winter. Change today.

For Station Identification!

The big red Conoco triangle identifies Your Mileage Merchant's Conoco station. There's where to get good gasoline today. But look for new hushed power—new high-octane—in his NEW-DAY GASOLINE! It's coming quick! —WHERE YOU SEE THAT RED CONOCO TRIANGLE! Continental Oil Company

Two Veterans Are Back—

SINCLAIR H-C

and

SINCLAIR ETHYL GASOLINES

Better Than Ever

Sinclair H-C and Sinclair Ethyl Gasolines are back from the wars . . . BETTER than ever before.

BETTER because of improved refining processes developed in producing 100-octane gasoline for warplanes.

BETTER because Sinclair is now able to put into Sinclair Gasolines certain important components heretofore used exclusively for fighting gasolines.

As a result, the new, higher-octane Sinclair Gasolines will give you better mileage, speedier take-offs and less ping or knock in your motor.

SO drive in for Sinclair H-C or Sinclair Ethyl Gasoline today and notice how much better your car performs.

80,000 TRIPS around the WORLD

80,000 times around the world—2 billion miles. That's the distance civilian trucks and buses travel every year on Sinclair Lubricants.

Truck and bus operators select Sinclair Lubricants because they can be counted on to save wear and help prevent breakdowns in the tough grind of hard war duty. Sinclair Lubricants of the same high quality that safeguard fleets of trucks and buses are sold by your Sinclair Dealer to protect your car.

So see your Sinclair Dealer and let him lubricate your car regularly to save wear and breakdowns. Stop where you see the Sinclair H-C Gasoline sign.

SINCLAIR LUBRICANTS

GENERAL AVERAGE
 NEW YORK (AP) — The average of the 1,500 generals who commanded the 8,000,000-man American Army in May of 1945 was 51.4 years, says the Metropolitan Life Insurance Company. Almost 35 per cent the generals were under 50.

Set Aside Order On Turkeys Has Been Abolished

After September 24, the government will buy in the open market any additional turkeys required for the armed forces.
 This intention ended a war food order requiring turkeys to be set aside for government procurement, according to a statement from the Production and Marketing Administration of the U. S. Department of Agriculture received by the A. and M. College Extension Service. It explained, however, that pri-

ties will be extended if open market procurement does not furnish the quantity needed.

The set-aside order, which went into force on April 8, last, was for the purpose of aiding the U. S. army quartermaster corps in obtaining turkeys to provide holiday dinners for men and women in the armed services both at home and abroad. Purchases of turkeys under this order as well as those set aside but undelivered as of September 24, it also was explained, are expected to be sufficient to furnish holiday dinners for most of the armed services.

Many Advantages Offered Men In Peacetime Army

In support of the "Guardians of Victory" campaign, the governors of the states of the Eighth Service Command—Texas, Oklahoma, Louisiana and Arkansas have already issued proclamations with pleas for service addressed to men in the Army, those discharged, and those soon to be eligible for service.

Men discharged under the "point system" who have intentions to reenlist in the U. S. Regular Army are reminded that they have only until October 20, 1945 to reenlist and retain their temporary grade.

The army is offering many advantages to new enlistments and reenlistments alike. Some of these advantages are:
 1. Good pay and allowances.
 2. Higher ratings in the post war army.
 3. Technical schools and training.
 4. Enlistees may select the theater or arm or service in which they wish to serve — European, Middle Pacific, Pacific, China, Caribbean Defense Command, African Middle East Theatre and Alaskan Department.

Branches of the Army in which men may reenlist for service are: Army Air Forces, Field Artillery, Engineers, Armored Command, Ordnance, Quartermaster, Infantry, Signal, Finance, Cavalry, Coast Artillery, Medical, Chemical Warfare, Military Police and Transportation.
 The U. S. Recruiting Station is located in the Post Office Building in Lubbock. The Big Spring station is to be opened in the post office building soon.

Cpl. Tommie Kelly, WAC, Pacific Vet To Arrive Soon

Far East Air Forces, Philippines — Corporal Tommie F. Kelly of Lamasa is a member of a contingent of Womens Army Corps veterans in the Southwest Pacific being returned to the United States under the demobilization plan. She has a total of 48 points, seven more than the critical score of 41 required for Wacs.

A veteran of 10 months overseas, Cpl. Kelly was assigned to the headquarters of General George C. Kenney's Far East Air Forces in the Philippines. Her service in this theatre extended through the Philippines campaign for which she has been awarded two battle stars on the Asiatic-Pacific ribbon and the Philippine Liberation ribbon with one star.

Market Puzzle Of Muscadine Grapes Solved In Georgia

ATLANTA — The muscadine, a tangy grape with a rare bouquet, grows wild in Southern woods, and is cultivated, too.

But it's tied close to home. It loses its flavor and bouquet to overcooking when canned. It mashes too easily to be shipped.

But soon you may be eating muscadine ice cream, muscadine pies and shortcakes, or any number of other foods flavored with muscadine, for a way has been found to process these grapes on a commercial scale.

The answer is blanching and quick-freezing, and agricultural experts say the raising of muscadines for market may not become a profitable source of income for southern farmers.

As far back as 30 years ago Dr. H. P. Stuckey, director of the Georgia Experiment Station, began plant breeding work to improve the quality and productivity of native muscadines.

This has resulted in a heavy-bearing plant which is now being distributed to the state's farms.

MOVE OVER PENICILLIN

WASHINGTON — Streptomycin—new rival to penicillin in the "wonder drug" class — is being studied by the Army Medical Department as a possible aid to sick and wounded war veterans.

"The new drug shows possibilities which may prove as important to the medical profession as was the discovery of penicillin," says an Army statement.

"Streptomycin is a killer of 'gram-negative' bacteria, such as tuberculosis, cholera, dysentery, typhoid. Penicillin is a killer of 'gram-positive' bacteria, such as pneumococcus, streptococcus, staphylococcus ('pus-formers'), gonococcus and syphilis."

Brigadier General Hugh J. Morgan of the Surgeon General's Office says that while the new drug is still in the laboratory stage, some is being produced and small quantities are being made available to the medical department for experimental purposes.

As was the case with penicillin, production of the drug is slow and tedious, and it will be some time before it is available in any quantity.

Pvt. Henry Marshall Bennett and wife of Corpus Christi spent the week end here with the Dixie Killgore's.

Miss Willie McKutchen spent Monday and Tuesday in Big Spring and San Angelo attending to business.

Ways To 'Perk Up' Fall Felt Hats Are Listed

Felt hats which are tired and limp can be rejuvenated with the use of felt sizing, an excellent stiffener. The sizing can be obtained from millinery supply houses, according to Mrs. Doia R. Barnes, clothing specialist for the A. and M. College Extension Service.

Before the sizing is applied, the hat should be "perked up" with cleaning, brushing and steaming. Mrs. Barnes says. The hat should be brushed first, then steamed in accordance with these directions: Place a small amount of water in a teakettle and bring it to a boil. Hold the hat over the spout, and as the steam comes through brush the dirt off with a soft brush.

A hat also can be gotten back into shape while it is being steamed. Finally, the limp hat can be stiffened with the felt sizing. If veils are droopy, they can be refreshed and stiffened. Press them between layers of waxed paper, using a warm iron.

The treatment works equally well for men's hats as well as women's. Mrs. Barnes says.

THREE CHECKING COUNTERS...LESS WAITING

Wesleyan Guild Has Program On Latin-America

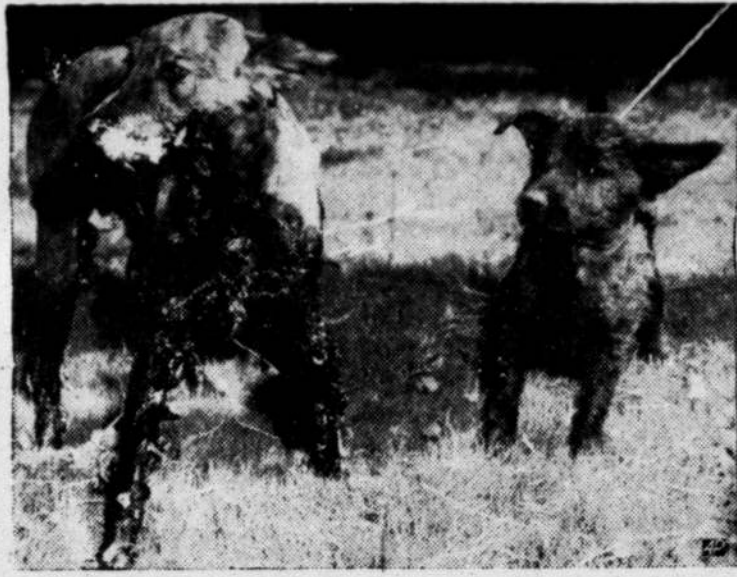

The Wesleyan Service Guild of the First Methodist Church met in its regular monthly meeting in the auditorium of the church, Tuesday evening, October 9th, at 7:30 o'clock.

As the guests arrived they were registered, then served a refreshment of tea and cookies. As Mrs. Carl Rountree gave several organ selections, the guests viewed the curios from the Latin-American countries.

A very interesting program on "Methodist Cooperate in Latin-America" was given by several members of the Guild. The pro-

gram opened with a hymn, then Mrs. Cal C. Wright offered a prayer. Mrs. L. W. West, the leader, read the scripture and introduced the guests from the Lamesa First Baptist Church who were, Mrs. Clarence Morton, Mrs. Owen Taylor, and Mrs. R. F. Nix. Mrs. L. C. McMullen, Mrs. B. P. Middleton, Mrs. Ed Tinsley, and Mrs. Clyde Branon gave interesting talks on the conditions and needs of the Latin-American countries. Mrs. Tom Conner rendered a vocal solo with Mrs. Carl Rountree accompanying on the organ. Members from the Methodist Guild of Tahoka and O'Donnell were invited. About thirty guests registered during the evening.

Mrs. W. K. Crawley and son, Richard returned Tuesday from Throckmorton and Seymour where they had been for the past several days visiting relatives.

DOG ADOPTS RABBIT—This cocker spaniel owned by Vernon Witkowski of Plainview, Texas, is shown with the young jackrabbit she adopted after her master picked on his farm and brought it to town. She weaned the rabbit along with her pups and play together as one happy family. (AP Photo).

Army Air Forces who is spending a furlough with his parents in the Union community was a visitor in our community Sunday.

Mrs. Ralph Quest and little son of Lubbock is visiting in the home of her parents, Mr. and Mrs. J. T. Pruitt.

Mrs. V. E. Gordon who has been visiting her daughter and family in Hobbs, New Mexico, returned to the home of her daughter, Mrs. J. D. Smith on Friday.

as her son Pfc. Herschel Rains and wife had arrived for a visit.

Mr. and Mrs. Alvin Menix were Sunday dinner guests of Mr. and Mrs. Rains.

Mr. and Mrs. Clyde Nichols of Biedsoe are visiting Mr. and Mrs. W. E. Nichols for a few days.

Born to Mr. and Mrs. Earl Roper, the fifth daughter.

Alvin Kemper left Sunday to return to his station in San Antonio.

Dawson McCoy, recently discharged from the Navy is here visiting Mr. and Mrs. Roy McCoy.

Mr. and Mrs. Dud Arnett left Wednesday for Albuquerque, New Mexico to visit their daughter, Mrs. Dick Bennett.

Sgt. and Mrs. Ray Noret of Tyler are here visiting their parents, Mr. and Mrs. C. A. Eiland and Mr. and Mrs. Ed Noret this week.

Pythian Sisters Met October 4th

The Pythian Sisters met in their regular meeting Thursday evening October 4, at the K. P. Hall, with the following officers in their stations: Bernice Harwell, P. C. protom; Katie Lou Ashley, M. E. C.; Clara Mae Wilson, E. S.; Burma Pruitt, E. J.; Katherine Henderson, Manager; Dee Wiggins, Guard; Loretta Davis, protector protom; Stella Todd, M. R. C.; Mary Hurley, M. F.; Nelva Jones, pianist; and Joe Carnes, reporter.

After the business session, a very interesting founders day program was enjoyed by all.

Other members present were Mmes. Ruth DuBoise, Dorothy Hildreth and Bert Eudy.

Bridges Family Have Reunion

The family of Jim Bridges of this city held a one day family reunion in Merkel Sunday, October 7, with dinner being served at 12 noon to all those present.

Those attending were Mr. and Mrs. H. S. Bridges of Rotan, Mrs. Ida Campbell of Roby, Mr. and Mrs. Jim Bridges of Lamesa, Frances Holt of Hobbs, New Mexico, Mr. and Mrs. Verna Bridges and Joyce Ann of Odessa, Mrs. A. J. Colburn of Lamesa, Mr. and Mrs. James Colburn and Jimmy Lou, Mr. and Mrs. A. C. Lyles of Savoy, Mrs. M. H. Jones of Thalia, Mr. and Mrs. Wayne Smith, Nancy and Kathy of Abilene, Mrs. Fred Lundberg and Pat of Abilene, Mrs. S. R. Swiggins, Mr. and Mrs. Earle Watts and Ned, Mrs. Lucy Ford, Mrs. Alvin Wozencraft and Mrs. Russell T. Blair and Judy all of Merkel.

Dinner was served in the home of Mrs. Lucy Ford.

Family Reunion At J. D. Dyer Home

Members of the Dyer family met at the J. D. Dyer home, 812 South Fourth Street, Sunday, October 7, for their annual family reunion.

Luncheon was served to those attending in the Municipal Park building.

Members of the family present were Mr. and Mrs. C. N. Kennon of Lubbock; Mr. and Mrs. J. I. Dyer and Mr. and Mrs. John St. Clair of Hale Center and the J. D. Dyer family. Due to bad weather conditions the rest of the Dyer family were unable to attend.

The reunion will be held in Lubbock next year.

NOW 4 POINTS FOR USED FATS

Help Increase Supplies of Soap and Other Peacetime Products By Saving More Used Fats

Industrial fats far short of last year! We are almost down to the bottom of the barrel. The nation's industrial fat supply is millions of pounds less than it was in 1944. We need fully as much as last year to help make the soaps and other civilian goods you want and need so badly. So . . .

If you want more soap and soap flakes . . . if you're dreaming of nylons, sheets, cotton fabrics and want them to hurry back to the store counters . . . you can help by saving those used kitchen fats as you never saved before! Save every drop, every day!

These fats are vitally necessary to help speed greater supplies of soaps and hundreds of other things—like new cars, electric washers, irons, refrigerators and tires. Industry must have these fats . . . to help get to you more quickly the peacetime products you've been longing to have for years!

So skim and scrape and scoop just as you did so faithfully before V-J Day. To prove how important it is, your government has increased the point bonus. So help meet this nation's need by continuing to save used fats. If you can't find a store that accepts used fats, call Home Demonstration or County Agent.

Chemistry Offers New Field For Career Girl Today

By ADELAIDE KERR
AP Newsfeatures Writer

The early postwar world, now present, offers women great career opportunities in chemistry, says the first woman chairman of the New York Section of the American Chemical Society.

She is Dr. Cornelia T. Snell of Foster D. Snell, Inc., (consulting chemists and chemical engineers of Brooklyn, N. Y.) and author of a number of books on chemistry.

"We are going to be short of chemists for several years, even though the war is over," said Dr. Snell a pretty, fair-skinned blonde as she sat in her Park Avenue apartment the other day. "Our young chemists were taken by the military services unless they were doing essential war work. There have been almost no young men graduates in chemistry during the last few years."

"There is going to be a big post-war gap and some one must fill it. Most women think of a career in chemistry as meaning laboratory work, but there is a wide field outside of that. Literature searches which have to be made before new products are developed, patent searches, library work are included in it. There also is a great need for chemical secretaries who can help the busy executives of chemical companies."

Dr. Snell, who, in her soft colorful frocks and hats looks nothing like the average man's mental picture of a woman chemist, has had a distinguished career in the field, which she never dreamed of entering in her youth. She was born in Binghamton, N. Y., taught high school mathematics two years, married her girlhood sweetheart, Dr. Foster Snell, in 1921, and since then has devoted her working life to chemistry.

Young Mrs. Snell went back to school at Columbia University and emerged with a Ph.D. in 1930. Since then she has been most active in her husband's company, which develops chemical formulae for cosmetics, household products and other things manufactured by industrial companies. Mrs. Snell's job is largely literature research.

"Women generally have a greater social sense than men, but we always have let men be the leaders in fields which affect life everywhere," she said. "Women have worked too much from the ivory tower. They have failed to see that when their household duties were done, their part was not preaching, but getting out and helping men by working beside them. Chemistry will offer some very interesting postwar opportunities with social significance."

"Take the question of animal research to find out what foods best nourish man."

"Cosmetics is another interesting field. We are still working on the problem of the 'indible lipstick.' Liquid lipsticks have been introduced, but more work needs to be done."

"Women generally have a greater social sense than men, but we always have let men be the leaders in fields which affect life everywhere," she said.

"When the kernels are full grown and the inside of the pods begin to color and show darkened veins, peanuts are ready to be dug. The simplest device for cutting off and lifting the vines out of the ground is an ordinary sweep, says E. A. Miller, agronomist for the A. and M. College Extension Service.

The sweep or other implements used should be run slowly to prevent jarring peanuts loose from the vines. In the main commercial growing areas of central and south Texas, the vines often are placed in windrows with a side delivery rake. The rake may be attached to a tractor, thereby plowing up and windrowing two rows in one operation. Afterward the windrows are put into medium sized piles with forks, allowed to cure and then threshed. Usually, four rows, or two windrows, are put into pile rows.

Another method is to place the vines in windrows, or small piles, by hand after they are shaken clean of dirt, Miller says. A less hazardous method, without stacking around poles is to shake the dirt from the vines by hand and place them bottom upward in rows instead of throwing them into piles. Miller says the peanuts which have been windrowed and placed in small piles usually are ready to be threshed in about one week after digging if the weather is dry. In shocks, they should be allowed to cure at least three to six weeks and, if threshing machinery is not available, may be left in that form

two or three months. Unless peanuts are sufficiently dry at threshing more pops and thrash will develop. If the vines are too green or damp the hay may become moldy.

Peanuts usually are not dry enough to take from the thresher to the warehouse, especially if they are threshed soon after harvesting. In that case they must be dried further in sacks. An effective way to do this is to make a rick, one sack length in thickness. It should run north and south, so that the sun may shine on one end of each sack in the morning and the other end in the afternoon. The sacks should be piled loosely to permit air circulation around them, and supported off the ground on poles.

'ON SECOND THOUGHT,' SAID THE SERGEANT—

BASEL, Switzerland (AP)—When Sgt. Rogers Raymond, formerly of Detroit, Mich., stepped into Switzerland from France on furlough, a welcoming committee greeted him.

"You're the ten thousandth American furlougher to pass through Basel," the Swiss informed him. "Let us give you a watch."

"No, thanks," Raymond said absent-mindedly. "I've already got a watch."

watch really belongs to the Army. I'd better take it."

He took it.

Millions of years ago, much of Australia was beneath the sea.

Columbus first stopped at Santa Maria after his discovery of the western world.

ADAMS JEWELRY
... HAS ...

For The Bride
A KEEPSAKE DIAMOND RING AND A WEDDING BAND
Matched Sets
Treasures for a life time.

For The Groom
HEAVY CARVED WEDDING BAND
Or we can match his to the Brides Set.

For the Boy
Fitted Cases to give him that tidy look.
Signet or Stone Rings. All boys like them.

For the Girl
A Beautiful Birth Stone Ring.
A Compact—just the right size and color.
Bracelets to Match. Any costume or mood.
Pearls for her Sweater or "To Dress-up."

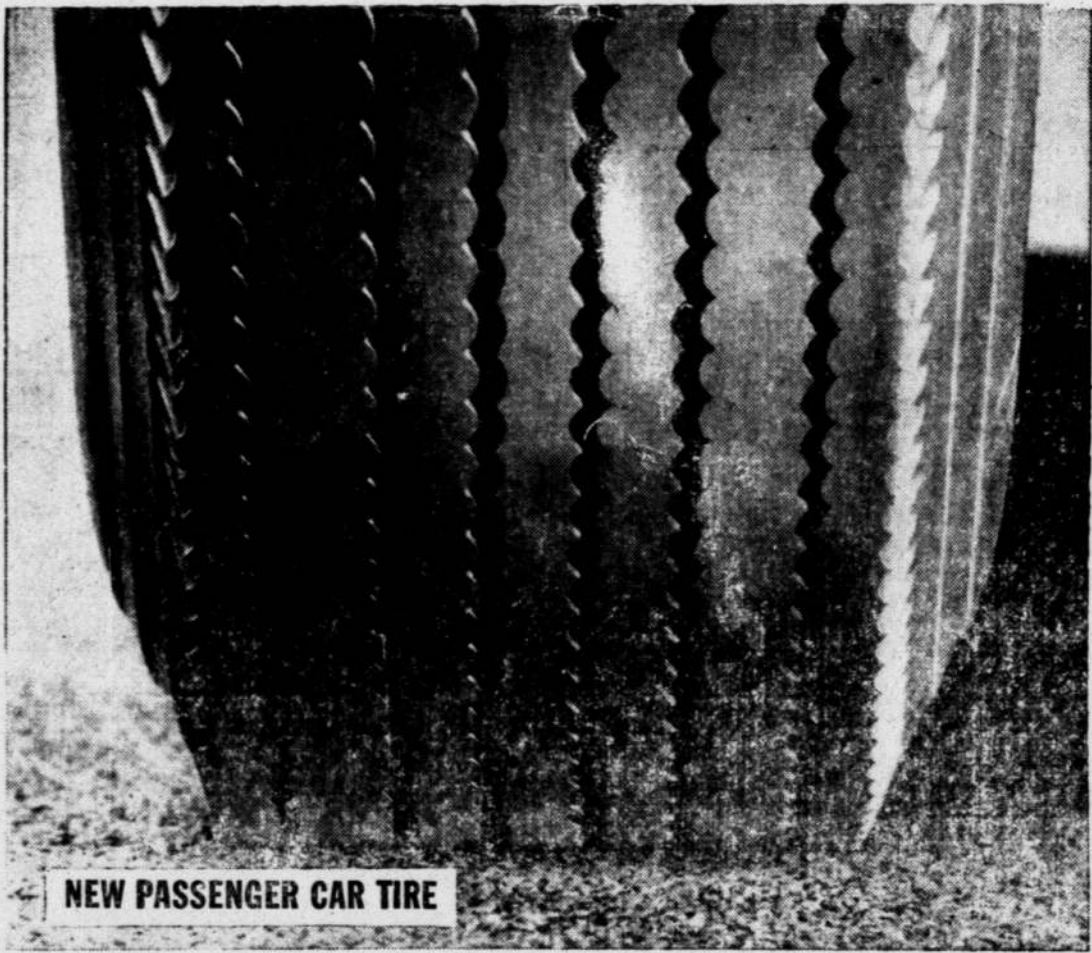

For the Baby
Sterling Silver Mugs, Lockets, Bracelets . . . Tiny idents, like Daddy wears.
And the Soldier Boy, let's send him a Water Proof Watch. We have some good ones.

FOR THE LADY
Lapel Pin with matching Ear Screws, for that new fall coat or suit.
Jewel Pendants and Bracelets, that will lend the right color note to that basic black dress.
Watches made for beauty, but are dependable time pieces.

FOR THE MAN
In his first civilian clothes, a 10K Gold Tie set or a really good Chain he has always wanted, or to prove to himself that he is really home. One of our western Buckle Sets — sterling silver of course.

We will have American Made Watches just as soon as they are available. We have orders out for Sterling and Silver Plate Table ware Expect some soon.

ADAMS JEWELRY

NEW PASSENGER CAR TIRE

COMING SOON! NEW B. F. GOODRICH TIRE THAT OUTWEARS PREWAR TIRES

THIS isn't a guess. A new kind of tire has been developed, and tests show that it outwears prewar passenger car tires.

It is made of a new kind of synthetic rubber developed by B. F. Goodrich—different from the ordinary synthetic rubber in general use by the tire industry. It helps the new tire run cooler—wear better.

The new tire has had more than 2,000 laboratory tests. Taxicab fleets, state police departments and the B. F. Goodrich test fleet have run it 16,800,000 test miles. Not only does it give longer tread wear than prewar tires, but it has more resistance to bruising or damage from accident.

A new, slightly different shaped tread—we call it the "road level" tread—is another feature that means longer wear. Engineers had wished for

years to make a tread just slightly flatter. But that more desirable shape always set up strains in the tire body, or "carcass," as it is called. B. F. Goodrich developed an entirely new and stronger cotton cord, designed it into a 35% stronger carcass that stands all these strains and permits the use of the new flatter, longer-wearing tread.

The tread design is new. It is made up of hundreds of skid-resisting curves for quicker stops, surer starts—safer driving.

In a few weeks these new tires will begin to be produced in large volume, but supplies may be limited for quite a while. We have placed our order, and hope to have our shipment shortly. Watch for our announcement. And in the meantime, take good care of the tires you have—make them last until you can replace them with these new, better B. F. Goodrich Silvertowns.

Purling-Putting, The Nelsons Make A Fine Team

By WILL GREMSLEY
AP Newsfeatures
NASHVILLE, Tenn. — The Byron Nelsons — she purl while he puts. He is the world's greatest golfer. She is not even a lukewarm fan. Yet it's been Byron and Louise — in that long rocky road to the top. "She's been wonderful," says Byron. "I don't know what I would have done without her." Mrs. Nelson, petite brunette and pretty, never watches her husband play. She generally stays at the hotel, knits, chats with other golfers' wives and performs necessary secretarial work. "Golf is my husband's business," she explains quite logically. "Other women don't go down to their hus-

bands' offices and worry them. Neither do I." Mrs. Nelson handles the family finances. She still washes her husband's socks and shirts. She handles much of his fan mail and business correspondence. The Nelsons have been married 11 years. They've been 11 years of almost constant travel — penny pinching at first, hamburgers at the corner stand, lean budgets and then increasingly better days. Now they're putting all their extra money into a farm at Denton, Texas, which will be stocked with white-faced Herefords. Last season the 35-year-old stroking master set an all-time mark by dragging down \$47,600 in War Bonds. This year he has topped that figure. On golf alone he stands to earn close to \$100,000 — more than the President and more than Babe Ruth dragged down in his most fabulous home run days. He also reaps a harvest as an executive for a Toledo, Ohio, umbrella concern. Born on a farm in Denton, Texas, Byron earned nickels caddying in nearby Ft. Worth. He turned pro in 1931, won exactly \$12 during his first year in tournament competition. He became pro at a little club in Texarkana, Texas, and met his future bride at a Sunday School there. They wanted to get married but Byron didn't have enough money to buy a ring. Early in 1934, financed by friends, the blond Texan hit the fast California circuit. He made just enough to pay off his backers and buy a ring. "Then I was broke again," he declares. In 1936 Byron first struck big chips, winning the Metropolitan Open and the Masters Tournament in Georgia. Since 1937 he has never finished out of the "first five" in big time competition. Nelson is something of a rarity among the barnstorming pros. He follows a rigid schedule, is in bed

Infant Death Rate High In Holland

THE HAGUE (AP) — Effects of malnutrition are keeping the infant mortality rate in Holland at a high level, although the overall death rate has been declining steadily. In this city alone, deaths among children less than a year old during April represented 6.5 per cent of the total deaths, while in June the figure rose to 14 per cent. Incomplete reports for July show an even higher percentage.

GROUNDHOG DAY(s)

BIG SPRINGS, Md. (AP) — What may be a new record in groundhog extermination was established here by Walter W. Suffecool, who bagged 100 of the animals in one season and on one farm, blasting away with a 22 rifle at distances of 40 to 200 yards.

Patronize The Advertisers

by 10:30 every night and dodges clubhouse parties, hotel lobby "bull sessions." Neither he nor his wife drinks or smokes. On the course he is cold and methodical. Because of his intense concentration and the perfection of his play he lacks color and gallery appeal. Off the course, he is loose, affable, obliging. Autograph-seekers find him one of the most courteous of the pros.

Well-liked by the touring shot-makers and their wives, the Nelsons nevertheless are seldom seen in the golfing groups. They seldom talk golf. Byron never replays his round at home—a habit of many of the pros—and Mrs. Nelson never asks him to do so. "Louise is fine about that," says Byron. "Good rounds or bad she takes without any concern. And you don't realize how much that helps a guy."

Cattle Thrive On Crab Grass

There's always room for another legend of the wonders of Texas. In Eastland County, for instance, folks have found a use for crab grass other than employment for small boys with hoes during the gardening season. County Agricultural Agent J. M. Cooper says that cattle are getting fat on it. Here are the details: When a 50-acre field of peanuts on the farm of Dr. George Blackwell near Gorman became heavily infected with the grass to be hoed out it was turned over to 100 cattle to graze more than a month ago. Dr. Blackwell told Cooper that the cattle not only are thriving on the crab grass, but are growing fat. They are not eating the peanuts down to the grass, nor have they approached a nearby field of clean peanuts. Dr. Blackwell said. The cattle seem to relish the crab grass.

New Wool Product Can Be Laundered

Woolens which can be laundered at home, without shrinkage, will be available for consumers within the next few months. A newly patented process for controlling wool shrinkage will make it possible for the homemaker to toss a treated woolen skirt into a tub and wash the garment repeatedly, says Mrs. Dora R. Barnes, clothing specialist for the A. and M. College Extension Service. This new wool product will not shrink, mat, fuzz, or lose its normal absorbency.

Dutch Collaborators Get Dangerous Jobs

THE HAGUE (AP) — Members of the former Dutch Nazi party and others awaiting trial on charges of treason for collaboration have been put to work in the meantime removing mines and booby traps, and clearing debris in devastated communities. A camp will be set up at Duijndorp, a suburb of The Hague, to house 40,000 collaborators who will rebuild the community. Most of the area's houses were leveled by V-2 robot bombs. Many of the collaborators also were given the job of removing 1,500 tons of explosives left behind by the Germans.

DEALT RARE '29' HAND TWICE IN 45 YEARS

SOUTH WINDSOR, Me. (AP) — George T. Foster's second perfect "29" cribbage hand turned up 45 years after the first, which occurred when he was in the Philippines during the Spanish-American war as a U. S. Army corporal. Foster, who has played thousands of games since, was dealt the five of clubs, the five of spades, five of hearts, and jack of diamonds, with the five of diamonds turned up on the pack, for his second "29."

The Smithy Stood And Stood And Stood

DANVILLE, Ill. (AP) — Under the spreading chestnut tree the Deickmiller have stood — figuratively, of course — for a total of 135 years. Adam Deickmiller, now dead, was a blacksmith for 55 years. His son, William, 69, has been a horse-shoer for 55 years and still is in the business. William's son, Fred, 45, has been following the same trade for 25 years.

Angel's Flight Makes the Grade

By RALPH M. DIGHTON
AP Newsfeatures
LOS ANGELES — Angel's Flight Railway Company, unique among public-conveyance corporations, has added another to its long list of singularities: It does not plan any post-war improvements.

R. M. Moore, its elderly president, is a shrewd businessman, and Angel's Flight is a reflection of the way he likes to do business. The railway is making money, so why change it? The railway runs up and down a steep grade (33 per cent) between Hill and Olive streets in downtown Los Angeles. Its two rail cars are secured to opposite ends of a seven-eighths inch wire cable. Carrying an average of 6,000 persons daily, they travel the 340-foot distance in 50 seconds, one going up as the other comes down. A mechanical marvel when it was built in 1902, Angel's Flight now is an anachronism. City fathers have offered to build and deed to Moore's company a big elevator in exchange for the right to tear down old Angel's Flight. But Moore won't hear of it.

Even in this age of 90 m. p. h. autos and 400 m.p.h. planes Angel's Flight is fun. A bell rings and the car starts its grind up the hill. Before you can count to ten thousand you're halfway to the top. When you reach the top you step off and pay your fare—five cents for the trip.

Eighty-five miles of Russo-Japanese frontier cross the jointly-owned island of Soviet Sakhalin and Japanese Karafuto.

MISS LARUE FORD BECAME BRIDE OF T-5 JEWELL FRANKLIN SEPTEMBER 29

13th Birthday Is Celebrated

Mr. and Mrs. B. W. Fields of 901 North Third Street entertained with a party Wednesday, October 3, honoring their daughter, Bonnie, on her 13th birthday, from 7:30 to ten o'clock p. m.

Places for the guests were laid at a lace covered table which was centered with a white birthday cake adorned with 13 pink candles. Plate favors were small glasses filled with candies. Cocoa was served by Mrs. Fields.

Before and after being served different sorts of games were enjoyed.

Guests were Nancy Pace, Jack Prather, Kenneth Medlock, Nancy Scott, Yvonne Hollis, Mary Ellen Casey, Yvonne McDonnell, Peggy Ryan, Henry Montgomery, Paula Kethly, Coy, Ray Anderson and Oral Spence.

Stephenville Couple Are United At Home Of Mr. and Mrs. Lloyd Thompson

In a candle light service at the home of Mr. and Mrs. Lloyd Thompson, 202 North Lincoln Street, Charles L. Thompson and Nattie Lee Stanford, both of Stephenville, were united in marriage late in the evening, October 8, by the Rev. Cal C. Wright, pastor of the First Methodist Church, who officiated with the single ring ceremony.

The bride was married in a blue suit with black accessories. As something old she carried a white Bible belonging to Mrs. A. J. Townzen and as something borrowed, a strand of pearls belonging to Lloyd Ola Thompson.

Attending the couple were Mr. and Mrs. H. L. Bostick of Fort Worth. Mrs. Bostick is a sister of the groom.

Following the ceremony a supper was served to those attending, and a large white wedding cake was cut.

Guests were Mr. and Mrs. Lloyd Thompson, Olevyne, LaVera and Lloyd Ola Thompson; Mr. and Mrs. A. J. Townzen, Mrs. Faye Boyer and those in the wedding party.

Immediately following the supper the couple left for a short wedding trip in New Mexico.

Former Lamesan Weds October 7

In services held at 12:30 noon at the First Baptist Church of Big Spring, Miss Clarinda Mary Sanders, daughter of Mrs. Annie Lea Sanders of 505 Nolan, Big Spring, became the bride of Capt. T. A. Harris, Jr., son of Mr. and Mrs. T. A. Harris of Sinton and formerly of this city, Sunday, October 7. The pastor of the Big Spring Church of Christ performed the double ring ceremony.

The bride wore a white satin gown with a sweetheart neckline and long sleeves pointing over the hands, fastening with tiny covered buttons. Her illusion veil fell from a small crown fitting snugly over the head. The bridal bouquet was a fan shaped arrangement of net and white gladioli with streamers of white satin and orange blossoms.

The three bridesmaids and maid of honor wore matching gowns of pink satin and net with head pieces similar to that of the bride. The two little flower girls wore short dresses like those of the bridesmaids.

Following the ceremony a reception was held at the home of the bride's mother where a four tiered wedding cake was cut by the bridal pair and punch was served from a lace covered table by Mrs. Harris, Sr., and Mrs. Sanders.

Miss Edith Harris, sister of the groom presided at the guest book.

Immediately following the reception the couple left for Austin, Mrs. Harris was wearing a brown gabardine suit with brown accessories and a white orchid corsage.

Those attending the wedding from Lamesa were Mr. and Mrs. C. E. Sumner, Mrs. Holly Meyers, Mr. and Mrs. Joe Spikes, Mrs. Tracey Campbell and daughter and Bart Alsbrook.

25th Anniversary Is Celebrated

Mrs. Roy McKinnon, Mrs. Harley Meyers and Mrs. Bob Martin honored Mr. and Mrs. C. E. Sumner with a 42 party on their silver wedding anniversary at the Sumner home, 301 North Bryan Street, Friday evening, October 5.

Guests were served from a table covered with a crocheted cloth and centered with a large arrangement of painted daisies. Apportioning both ends of the table were silver coffee services presided over by the hostesses. The large anniversary cake was cut by Mr. and Mrs. C. E. Sumner.

Gifts presented to the honorees were silver dollars, a silver cake server sent from Germany by Sgt. Bob Martin and a silver vase.

Mr. and Mrs. C. E. Sumner were married in Big Spring October 5, 1920 and have made their home here for the past 21 years.

Guests were Mr. and Mrs. Oscar McKenney, Mr. and Mrs. Jack Ladd, Mr. and Mrs. Frank Barkhurst, Mr. and Mrs. Bert Olsbrook, Emory Edwards and Mrs. T. A. Harris.

Mrs. Bob Wade is in Jayton visiting relatives this week.

Dinner Party On 16th Birthday

Mrs. J. D. Dyer entertained with a surprise dinner party at her home 812 South Fourth Street at 6:30 p. m., Monday, October 8, honoring her daughter, Jean, on her 16th birthday.

Places for eleven were marked by cards bearing the names of the guests and a birthday wish, on a table covered with a sea green linen cloth and centered with a large white birthday cake decorated in pink and bearing white candles. The table was appointed with china, silver and crystal candleabra hold-white tapers. The house was decorated with fall flowers.

Guests were Wilma Robertson, Sue Pope, Ruth Blakey, Drucilla Hardwick, Bobbie Waldrip, John Leuenberger, Keith Kennedy, Tommy Allen, Toby Reed, Truitt Jones and the honoree.

Following dinner different indoor games were played by those attending.

Miss Helen Pope, Tech student, visited her parents, Mr. and Mrs. George Pope over the week end.

Misses Dorothy Ross Gibson and Betty Williams visited friends in Lubbock over the week end.

Local Creamery Strives To Supply Public's Needs

As unsettled as the country now is the Lamesa Creamery manager, E. W. Renner, doesn't see much relief in store for the dairy situation for this district.

He reports that some restrictions have been lifted on the sale of cheese, cream, and other dairy products, and that the point value has been reduced 12 points on butter. The cream, milk, and cheese situation is still suffering hardships in Dawson County, and shortages are being experienced.

Mr. Renner states that at the present time, they have enough butter to supply their patrons with sufficient quantities.

"Although restrictions on delivering dairy products have been lifted, it is still impossible to get tires to make deliveries daily," stated Renner last week. For this reason the Lamesa Creamery is continuing

Lamesa Business and Professional Review

Presenting each week news about live, progressive firms and individuals of Lamesa

MT. OLIVE

Those who visited in the Alvin Middleton home Sunday were Mr. and Mrs. Hazel Hancock and children from Fairview, Curtis Richerson from Fort Sam Houston and Mr. and Mrs. J. A. Richardson of Lamesa.

Mrs. Olin Nix and Hazel and J. D. Nix and children visited in Lubbock Wednesday.

Mr. and Mrs. J. L. Wilcher and daughter, Billie, of Lamesa visited in the Alvis Lisbee home.

W. M. Buchanan has gone to Sulphur Springs to bring grandma Rushin to his home. He will come by Dallas and Mrs. Buchanan will accompany the pair back.

Mr. and Mrs. W. P. Stovall and children visited Sunday with Mr. and Mrs. Sterling Stovall in Lamesa.

Rex Dunn, S-1-c of San Diego, California, is visiting his parents here, Mr. and Mrs. J. T. Dunn. Joyce Johnson and Mr. and Mrs. J. W. Howell of Lamesa visited Mr. and Mrs. Lee Cooper Sunday.

Ham's Helpy-Selfy Laundry Will Continue To Operate In The Same Location On North Houston

Clarence Ham, who purchased the helpy-selfy laundry which was owned by Cicero Arnett September 15, reported last week that he will keep the building located at 206 North Houston Street for another year, and continue his laundry operations there.

The firm which uses the name of Ham's Helpy-Selfy Laundry is conveniently located to service the public in the downtown section of Lamesa, being situated in a location which offers plenty of parking space to patrons.

The owner of the business reports that he is happy to announce that they are now able to secure new parts for their washing machines, and states that new machines are again becoming available.

At the present time Ham's Helpy-Selfy, operates 18 Maytag machines, which are kept in A-1 condition at all times, in order that patrons can secure the best of service. Each

to deliver every other day to their retail trade, working various sections of the city on their designated route days. The company attempts to deliver products daily for wholesale purposes.

Mr. Renner states that at this time it is impossible to predict the outlook for the dairy business. He says, "Conditions might arise which will force further restrictions to be placed on milk, cream, cheese and other dairy products, but at all times the Lamesa Creamery will be working from day to day to serve the public in a satisfactory manner."

The Lamesa Creamery has been in operation here for a number of years. It is owned by the Spur Creamery which purchased it in 1939 and products sold there are manufactured under the brand name of Espuella.

The manager of the firm has been located here for a number of years and has had much experience in this field, enabling him to serve the public in a capable manner.

machine is surrounded by 3 tubs for rinsing and soaking purposes. Soft water and cold water, hot water and cold water, in addition to starch and good brands of granulated soap are stocked at the laundry for the convenience of the public. Patrons can bring their own washing materials, or secure them at the laundry, whichever they choose.

A good drainage system has been installed at the laundry to keep the floors dry, and when water is spilt, workers quickly clean the floors.

Mr. Ham estimates that 550 women take advantage of the helpy-selfy laundry each week. Mr. and Mrs. Ham, and four employees form the staff at the business, to help care for your needs and to serve you in anyway they can. Heavy laundry loads are brought to and from your cars by the personnel there.

The building is kept at a comfortable temperature at all times for the patrons.

Mr. Ham invites the public to visit the laundry, which is open each day from 7 a. m. to 5 p. m., except Saturdays. Ham's Helpy-Selfy Laundry maintains convenient facilities for the public, and executives and workers there strive at all times to aid the customers and to serve them in a capable, efficient manner.

C. L. Bankhead Jr. Of Lost Battalion Here This Week

C. L. Bankhead, Jr., a 1939 graduate of Union High School, spent a short time here this week. He is enroute to California where he will visit his parents, who are former Dawson County residents.

Bankhead, a Japanese prisoner for a period of 43 months, was captured in March of 1942 in Java. He is a member of the famous Lost Battalion.

After being taken prisoner, Bankhead was kept in Java for a time, then transferred to Singapore, Molay, Burma, Thailand and French Indo-China. He was liberated on September 6, of this year by the American O.S.S. in French Indo-China. Immediately after his liberation he left Indo-China and landed in Washington, D. C., on September 21, and arrived in this city October 8.

Bankhead stated that 33 1-3 per cent of 500 who were taken prisoners with him died. Although he escaped torture, Bankhead reported that he saw many undergo punishment. Throughout the time he was overseas and a prisoner, Bankhead saw no one from this vicinity.

He reported that during his imprisonment, rice, pumpkins, fish heads, python snakes, and dogs constituted his diet.

Bankhead says hello to his friends in this county, and reported that he will return in six weeks.

Lt. Bub Barnard spent several days this week with his parents, Mr. and Mrs. A. G. Barnard, enroute to Amarillo Army Air Field to receive his discharge.

Mr. and Mrs. Leon Ranson and son of Levelland spent the week end here as the guests of Mr. and Mrs. J. M. Ranson.

Ham's Helpy-Selfy will continue to operate in the building pictured above, which is located at 206 North Houston Street. Clarence Ham purchased the firm on September 15, and is offering a complete helpy-selfy laundry service to the residents of this area. The laundry is open five days each week from 7 a. m. to 5 p. m. and remains closed throughout Saturday. The public is invited to visit the business and to make use of the services offered there.

FIRST BAPTIST CHURCH

801 South First Street
Clarence A. Morton, D.D., Pastor
Sunday, October 14—Laymens Day

Sunday School—9:45 a. m.
Sunday morning sermon—11 a. m.
Pastor's sermon topic will be "Bands of Men."

Baptist Training Union—6:15 p. m.
Ebbie Lee, director.
Evening sermon—7:30 p. m. Music will be rendered by the mens choir and the pastor's sermon topic will be "A Nourisher of Dying Fires."

Opportunities of the Week—
Monday—The Womans Missionary Society will meet at 3:00, 4:15, and 5:30.
Wednesday—All Church Night. S. S. Midweek Service and choir.

Special for the Week—
Baptist Training Union Study course directed by Miss Marjorie McKenzie will be featured Monday through Thursday night.

The public is invited to worship at the First Baptist Church.

Mrs. Henry Stafford and Mrs. J. Clark left Wednesday by train for New Jersey to spend the next two weeks visiting Lt. and Mrs. Jim Neill and Lt. Homer Simpson.

Laymens Day To Be Observed By Baptists Oct. 14

The First Baptist Church of Lamesa will observe Sunday, October 14, as Laymens Day in keeping with the Baptist Brotherhood of the Southern Baptist Convention, according to an announcement received from the church office.

Attention is to be given to the attendance of the men of the church in Sunday School, the Baptist Training Union, the mens choir and at both preaching hours, when the pastor, Dr. Clarence A. Morton will deliver messages concerning men in the church.

It is further announced that on Sunday evening at 6:15 p. m., the Baptist Training Union of the church will open a study course to be directed by Miss Maurine McKenzie, who is church secretary. She will be assisted by Ebbie Lee, general director, as well as Mrs. Ray Hollingshead who will sponsor the study hour period.

Junior Union leaders will be Mesdames Bob and Phillip Brown. The Intermediate Union will be taught by Miss McKenzie. The pastor, Dr. Morton, will teach the Young Peoples Union, using as his topic "What Baptist Believe," and the Adult Union will be directed by Mrs. Clarence A. Morton.

There will be session each night of the week, Monday through Thursday, beginning at 7 p. m. and closing at 8:45 p. m.

Sixty Local Art Students Will Enter Contest

Art students of Lamesa High School will compete for the 1946 Michael J. Dowling Memorial Awards in a national Easter Seal Contest, according to an announcement from V. Z. Rogers, superintendent of the Lamesa Schools. Superintendent Rogers has notified Martin M. executive secretary of the Texas Society for Crippled Children, sponsors of the contest, that 60 art

students will participate in the event.

Winners of the Texas contest will be awarded war bond prizes of \$100, \$75, \$50, and \$25 in addition to the opportunity to win the Dowling awards of \$850.

The humanitarian programs of the Societies for Crippled Children are financed through the annual sale of Easter Seals. Winning design of the 1946 Dowling will appear on more than a billion 1945 Eastern Seals.

G-Scout Leaders Of This Area To Meet October 12

Mrs. Gretchen Kidd, West Texas Girl Scout Field Adviser, announced this week that Girl Scout leaders of the Brownwood, San Angelo and West Texas Areas will gather at Camp Luis Farr, Mertzon, Texas, Friday, October 12th for a training course in troop camping. The course will include menu planning, outdoor cooking, camp craft, skills, campfire programs, camp management, folk dancing and singing.

The course will open at 5:00 p. m. Friday, October 12th and close after lunch on Sunday October 14th. The staff of instructors will include Miss Alyce Nelson, Mrs. Gretchen Kidd, Miss Sarah Bowman, Miss Mary Miller, Girl Scout Field Advisers of Region 9 and Mrs. P. V. Thorson is accepting registration for the course.

This course is made possible under the Area development programs of West and North Central Texas and is sponsored by Girl Scouts, Region 9, in an effort to train adult leadership in camping skills and techniques, thereby making it possible for more girls in Texas to have a camping experience.

Band, Pep Squad To Go To Game

Approximately one hundred forty pep squad and band members of the Lamesa School will attend the football match between Big Spring and the Golden Tornado team in Big Spring Friday night, October 12. This announcement was made by Richard Youny, band director.

These units will perform during the half at the Friday night match, and will have a yood exhibition for you to view.

This is the second out-of-town football match which the band and pep squad has been able to attend thus far in the season. They were present for the Lubbock-Lamesa game last week.

Sgt. L. V. Carruth is home on furlough.

Where Is Italy's Small Arms? The AMG Is Wondering

By GEORGE RHEA
AP Newsfeatures

ROME — Thousands of partisans who fought the Germans and Fascists in Northern Italy with arms supplied by the Allies or captured from the enemy have given up only part of the weapons and authorities are frankly worried.

Shotguns, pistols, knives and museum battle pieces comprised the major part of the arms turned in by the patriots in accordance with Allied Military Government proclamations. Subsequent raids have shown the partisans kept the machine guns and submachine guns, and still possess even mortars and anti-tank guns.

"The partisans are much better armed than the Italian police in Northern Italy," a high Allied public safety officer said. "What's more, they are taking care of their arms. We recently seized a machine gun cache. The weapons were carefully oiled and crated. We also have had reports, never confirmed, that weapons are being moved to Central and Southern Italy."

National police forces in Italy now total approximately 106,000, roughly one-third of the number employed during Mussolini's "police-state" regime. Police morale is questionable. The Carabinieri, Italy's elite police corps, have been subjected to constant left-wing attacks as "monarchist tools." While the officers are generally believed to be monarchists, the political sentiments of the ranks are an unknown factor.

Political allegiance of the common cop obviously will be a vital factor in controlling any disorders which may break out when general elections are held. Concern over the political role of the police in the next few months was expressed by Pope Pius XII in an audience granted to 600 graduates of the Royal Technical Police School in Rome.

MEDAL TO FORMER LEGISLATOR'S WIDOW—Mrs. Vivian C. Ragsdale receives the bronze star, awarded posthumously to her husband, Lt. Bailey B. Ragsdale of Austin, in a ceremony in the governor's reception room at the state capitol. The medal is awarded by Col. O. P. Houston (left), Camp Swift post commander, while Gov. Coke Stevenson (right) looks on. Lt. Ragsdale, former Texas legislator, was killed in action near Velletri, Italy, June 3, 1944, while serving with the 91st Division. (AP Photo).

SCHOOLS MUST SOLVE PROBLEM OF RISING U. S. DIVORCE RATE

By FRANK FRAWLEY
AP Newsfeatures
LOS ANGELES—America must look to its schools to solve the problem of increasing divorces, says Dr. Paul Popenoe, nationally re-

cognized authority on domestic relations.

Schools can and should provide a thorough education for marriage, he says, but the chief difficulty is that "nobody is willing to take initiative in finding a place for this education in our school curriculums. Administrators, generally, are from the old school of thought, and are unaware that the home pattern is being destroyed."

Dr. Popenoe, who founded the American Institute of Family Relations back in 1930, pointed to the mounting divorce rate in Los Angeles as an indication of the trend in marital relations.

For the first six months of this year 17,488 marriage licenses were issued here and 15,216 divorce suits filed. The divorce rate: 87 per cent. Last year it was 84 per cent, and the year before 74 per cent.

When demobilization is completed, Dr. Popenoe believes, the divorce rate is quite likely to exceed that of marriages.

Divorce is on the increase everywhere except in South Carolina, where the state constitution forbids it. Parents, in failing to solve their own domestic problems, are disqualifying themselves as counselors for their children, and the churches, Popenoe points out, do not reach enough people.

"If other states want to reduce divorce," Popenoe advises, "they can do so, not by copying the constitutional prohibition of South Carolina, but by adopting an attitude which South Carolina does possess, an attitude of determined idealism, a belief that family life is so important as to justify a real effort for its success."

The schools, Popenoe declares, can inculcate this idealism, and provide education for marriage. Sex education is only a part of the program, but an important one. Pittsburgh's public and parochial schools, he said, provided voluntarily-enrolled classes in sex education, and four years later illegitimate preg-

nancies had been reduced 50 per cent. There still is some discrimination nationally against married women teachers, but California, which once frowned upon them, now has as many married as single women in its schools. "And," Popenoe believes, "there are sufficient teachers of both sexes capable of preparing young people for marriage."

Dr. Popenoe, a prolific writer on social biology and a lecturer at the University of Southern California, was asked by the Y.M.C.A. to write a booklet for service men and their wives on how to make the war strengthen their marriages. More than 400,000 copies were circulated. This cautioning advice broadly sums up the problem:

"If you seek to attain individual happiness at the expense of the marriage, then the marriage will fail, and you will suddenly discover that you have lost your only chance of real and complete happiness."

"If you are willing to sacrifice anything and everything else for the success of the marriage, then it will be a success, and you will discover that you have not had to sacrifice anything of value because, in your marriage, you will have found happiness."

"In attacking any problem, neither husband nor wife can afford to ask: 'What's in it for me?' The question is: 'Will this strengthen our marriage?'"

Ensign and Mrs. Herman Harrold Heffernan and baby of Corpus Christi spent the week end here visiting his parents, Mr. and Mrs. A. B. Heffernan.

Yessir! We Use GENUINE FORD PARTS in servicing your car!

They Fit Right—Last Much Longer

It's our wartime responsibility to keep your Ford car rolling. The best way we know to do this is to give your car genuine Ford service regularly and to use *Genuine Ford Parts* whenever it's necessary to replace any part.

To Be Sure—See Us!

You can bring your car to us with perfect confidence—because we'll give you *Genuine Ford Protective Service* and use *Genuine Ford Parts*.

Automobile parts may look alike but they are not alike. Ford manufactures parts only for Ford-built cars—every part is precision-built exactly like the original part which came with your car—it's made of the same identical material under strict laboratory control—and will perform right. Don't take chances—see us for *Genuine Ford Parts*.

HOW TO GET RID OF A MAN

Well, we're not giving advice to the lovelorn. But we do know that good coffee makes a world of difference in the homelife. A flat, wishy-washy cup can drive a man away just about as quick as a plague. Men like full-flavored, rich-tasting coffee—the kind of coffee you'll find in every pound of Admiration. We know that from experience. If your family gently screams as soon as the coffee is served, better take the danger signal to heart. It's time to change blends. Buy a pound of Admiration and one or two other blends. Then compare them all. It's pretty certain Admiration will be the family's choice — and yours too.
