### TWENTY OTHERS ARE INJURED

### Celluloid Mixture Is Set Off Early Today

LYNN, Mass., Nov. 8.—(AP)—At least twelve persons were killed in an explosion which wrecked the shoe plant of the Peble Box Toe company in East Lynn today. The building was enveloped in flames.

Of the twelve bodies up to 9 a. m. four were occupants of a dwelling close to the factory—a mother and three of her eight children. The others were believed to be those of unidentified factory employees.

The woman killed was Mrs. Harry Blaney. She and her husband with their children were at the breakfast table when the explosion came. Instantly a shot of flame leaped from the factory twenty feet to their home, bursting through a window and enveloping the family. Mrs. Blaney and three of the children were burned and smothered to death. The others in the family escaped with comparatively minor injuries.

At least twenty persons were injured. There was a series of explosions in a celluloid mixture used in the manufacture of box toes for shoes. The first came at about 7:35 o'clock. Half a minute later there was another and later there were two or three more minor explosions.

One end of the one-story concrete block building was blown out and two bodies were hurled into the street with it. The flames which followed the explosion scorched many nearby buildings and the heat and the force of the explosion broke a large number of windows.

The factory adjoined a district largely made up of two-family farm dwellings. Occupants of these homes in many cases were shaken from their beds.

### Local Scouts to Attend Meet at Panhandle Soon

Members of both local Boy Scout troops will make the trip to Panhandle Saturday morning to take part in the Scout field day among troops from the Adobe Walls council. Troops will be represented from White Deer Panhandle, Groom, Borger, Phillips, Canadian, and Pampa.

There will be thirteen events on the list and the troop winning the most points will be declared winner of the meet. There will be a total of 145 points for first prize. The Borger troop No. 1 (Phillips) was the winner of the first council meet held in Lefors in October.

Included in the event will be fire by friction and with flint and steel, signaling, tent pitching, wall scaling, relay race and other contests of speed and skill studied by Boy Scouts.

A special invitation has been tendered parents and friends to attend the meet and see for themselves what Scouting means to a boy and the benefit he derives from the activity.

The meet will be supervised by E. D. McIver, Scout executive of the Adobe Walls council and scout masters from the various towns represented.

Starting with a flourish that presages an interesting and exciting campaign, contestants now participating in the Daily News big \$5,000 automobile and prize campaign are beginning to make things hum in their race for the \$1550 Buick sedan, the \$778 Whippet Sedan, the \$736.50 Chevrolet coach and the other handsome awards to be made just a few weeks hence.

This week has witnessed a remarkable speeding up all along the line. New starters are plunging in every day and in almost every case they occupy an advantageous position in the vote columns. Miss Arlyne Rasor, of Miami, who started only yesterday, and Mrs. W. D. Benton, of Rt. 1, Pampa, who started only this week furnish excellent examples of what energetic ladies can do when they make up their minds to get busy. All of which goes to prove that it isn't when you start in the race that counts—it's when you start working.

In Alanreed, McLean, Jericho, Skellytown and Kingsmill there are doubtless other men and women who could do the same thing if they would only start. Today in an acceptable time to get in and get busy. There are no contestants whatever from any of these towns, and there ought to be three or four from each of them. A new contestant starting in from any of the towns mentioned would have the same chance as she had if she started the very first day, for the good reason that votes are still there undisturbed, so to speak.

Voting was assuming increased proportions every day this week. The special cash prize offer of \$25.00 for the contestant who scores the highest number of points for the week is doubtless responsible for the increased activity. Points are given in addition to the regular votes, which are issued as usual. A year's subscription counts a point, 2 years 2 points, and so on. While they were winning points to secure the \$25 cash prize, contestants were also running up a bigger score.

### WURZBACH RACE YET IN DOUBT

### No Armistice as Party Leaders and Anti's Clash

DALLAS, Nov. 8.—(AP)—Although his lead rose or fell a few hundred votes with each tabulation by the Texas election bureau, Herbert Hoover today continued to hold a good majority over Gov. Alfred E. Smith.

Last returns showed the Republican presidential majority had risen to 17,296, nearly 1,000 more than when tabulation ceased last night. Of the 253 counties in the state, 251 had made returns, 102 complete.

Hoover's vote in the last count was 331,518 to 314,222 for Smith.

Result of the race in the fourteenth congressional district, where Representative Harry M. Wurzbach, Republican, was running for re-election against August McCloskey, Democrat, remained in doubt, totals by the election bureau disagreeing with those made by the newspapers. In the other seventeen districts, Democrats were elected.

DALLAS, Nov. 8.—(AP)—Opposing factions of both political parties in Texas, well warned to their work by the campaign which closed Tuesday, caught their second winds today and refused to recognize Tuesday's election as an armistice.

In Hidalgo county, where the Democratic party was opposed by the Citizens-Republican ticket, also known as the "Independents", made up of both Democrats and Republicans, the excitement attendant upon tabulation of the vote continued. Reports this morning said that the "Independent" faction had wired Governor Moody asking that martial law be declared in the county. It was said that a meeting of the "Independents" would be held some time today to consider a proposal to contest the election upon grounds of alleged irregularities in McAllen and Mercedes.

### Noted Surgeon to Arrive on Monday to Hold Free Crippled Children's Clinic

Dr. Earl D. McBride, crippled children's specialist of Oklahoma City, will be in Pampa Monday morning to conduct a free clinic for crippled children. Local medical doctors are giving their time free of charge for the clinic, which is being held through the efforts of the local clubs and Rotary clubs.

Committees are anxious to have all crippled children in this territory brought to Pampa Monday for the examinations, which will begin at 10 o'clock at the Methodist church. There is no charge or obligation of any kind, and anyone who knows of a crippled child is asked to telephone Mrs. M. P. Downs, at 605. Cars will be sent to bring the children who have no means of transportation to the clinic.

All equipment for examinations is being provided, and all children will be given expert attention. This is an opportunity to know what can be done for the crippled children. Dr. McBride is an orthopedic specialist, operating his own hospital in Oklahoma City, and is able to advise whether curative measures can be given. Bringing a crippled child to this clinic will save the necessity of taking him to Oklahoma City, or some other city, involving large expenses.

### Hit-and-R n Car Sought Following Accident Here

A hit-and-run driver is being sought by officers of the sheriff's department following an accident in front of the Daily News office yesterday afternoon about 5 o'clock.

Little Geraldine Smith, 11 years old, daughter of Mrs. Lillian Smith, is suffering from severe bruises and a cut over her right eye.

The little girl was crossing West Foster avenue from the lunch shop, owned by her mother, to the M-System store for some groceries when she was struck by a car driving west. According to witnesses, it was a Chevrolet coupe and thought to contain two women. The license number is in the hands of officers and notices are being sent out to officers in neighboring towns.

The car was followed for several miles down the Clarendon road by a witness of the accident, but it succeeded in outdistancing the pursuers.

CHILDRESS, Nov. 8.—(AP)—Harby Brown, 45, farmer, was shot and killed at the farm of Absalom Gossett near here last night. Gossett was held for examining trial today after he had surrendered to officers at Kirkland.

### CAFE MANAGER IS BADLY HURT EARLY TODAY

"Blackie" Lander Shot  
by Officer Jeff  
Guthrie

### CHARGE LAID BEFORE JUSTICE

### Policeman Thought He Was Going to be Shot

Shot by City Officer Jeff Guthrie when he drew a Colt .45 automatic pistol while arguing with the night policeman, B. "Blackie" Lander, manager of the Night and Day cafe on South Cuyler street, is in a critical condition at Pampa hospital today.

The shooting occurred about 2 a. m. today when Lander objected to being arrested on a complaint filed by a woman he is alleged to have ejected from his cafe earlier in the night.

Officer Guthrie was arraigned before Justice C. E. Cary this morning and charged with assault with intent to kill. He waived examining trial and his bond was fixed at \$1,000.

Guthrie said he shot from the hip, intending to stop Lander's arm as the latter is alleged to have drawn the automatic pistol. The officer's fire went to the right of his intent, the bullet striking the cafe man in the abdomen. The wounded man dropped his pistol as he fell, according to witnesses. The Malone ambulance was called and he was rushed to the hospital. Although conscious, Lander said he would delay his statement.

Guthrie and Bud Cottrell, another night officer employed by the city, went to the cafe following filing of a complaint against Lander by Mrs. Bill Stinson, wife of an employee of the cafe. Frank Camp, dish-washer, and Mr. Stinson were witnesses to the affair.

Lander based his objection to being taken to the police station on the ground that the altercation he had had with Mrs. Stinson and her husband was an insignificant one. While standing behind the counter, arguing vehemently, he is said to have drawn the pistol. Whether this motion was a hostile one or merely one to place the pistol on a shelf had not been definitely decided upon by investigators this afternoon.

### Marmon Starts Endurance Drive

Dick Marmon, international endurance and speed driver, commenced a 125-hour non-motor-stop drive yesterday afternoon at 2 o'clock from in front of the Culberson-Small Chevrolet company. Marmon is driving a Chevrolet 1928 coach.

During the endurance drive Marmon will neither sleep nor eat solid foods. He will drink coffee, malted milks, and coco-cola. He was accompanied on the first leg of the drive by Miss Delma Miller, actress from Oklahoma City, who is here to take part in a vaudeville attraction. During the drive Mrs. Frazier and Mrs. Marmon will make the rounds, which include all towns within a radius of 50 miles of Pampa.

Owing to the absence of Chief of Police J. I. Downs, Harry Hoare, city editor of The News, handcuffed Marmon to the wheel. The key will be in his possession until Monday night at 7 o'clock, when Marmon will be unlocked from the wheel in front of the Culberson-Small Chevrolet company headquarters on Kingsmill avenue.

Towns visited in the drive include White Deer, Panhandle, Borger, Stinson, Canadian, Miami, Mobette, Wheeler and his headquarters at Pampa.

### New Bridge Across Famous Grand Canyon

Three of the West's most famous national parks, Grand Canyon in Arizona; Zion in Southern Utah, and the new Bryce Canyon Park, also in Utah, will be connected by direct highway as a result of the construction of the first highway bridge over the great gorge of the Colorado river. The bridge, some 70 miles by air or 140 miles by road northeast of El Tovar and the Grand Canyon Station, is pictured above. The bridge opens a vast area of scenic wonders now seen by few transcontinental motorists.

### Rotarians Working to Make Clinic Here Success

The principal interest at the Rotary luncheon at the Methodist Church yesterday was the free clinic to be held here Monday when local medical doctors will co-operate with the Rotary and Lions clubs in examining crippled children. Dr. Earl McBride, noted specialist of Oklahoma City, will be here for the clinic which will begin at 10 o'clock.

The fellowship program was in charge of Joe Smith. Several numbers were given by members of the high school and College of Music teachers.

Governor R. P. Barrells will be a guest of the Rotary Club at the next meeting, which will be held Wednesday evening at 7:30 at the Methodist church. Rotary Annas are invited to attend the meeting.

Mrs. Leona Rusk Ihrig, Al Duer, and E. D. McIver were guests and H. F. Lauder, of Amarillo, was a visiting Rotarian.

## Looking Backward

The election result is startling, and yet it should not be to those who are close to the heart and spirit of America. It would take a set of Babbitt-like volumes to expose all the elements which entered into the final result.

It is superfluous to mention that Governor Alfred E. Smith was not the man of the hour; the returns are eloquent of that. He was the victim of an avalanche of prejudices, or leanings, good and bad. The bigger principles he stood for were overshadowed by other ideas which are more influential in turning the public mind.

As an issue, prohibition was explosive in its destructiveness to normal ballot trends. It was regrettable that the religious question should enter into a political proposition. But it did, and to an extent hitherto unheard of in American government. The old-time issues of tariff reduction, states' rights, and the like aroused cheers but got few votes. Public scandals were dismissed as impermanent and less important than other political evidence.

The cry for reorganization of the Democratic party arose before election day was over. It is a logical suggestion, but the movement really got under way several years ago. The party must not become identified with the issues which resulted so disastrously in this campaign. No candidate, however great, can cope with the prejudices which swamped Al Smith. In the future these issues must be divided with the other parties and relegated to a less significant position.

Dependence of the South upon the codes and truisms of the past does not avail much in the present. The South has reached a new era of development. Its achievements are growing more and more similar to those of the Middle West, Northwest, and Western areas. The common interests should engender new issues and new alignments of a non-sectional, non-religious, but especially economic nature. It was unfortunate for the South that her alignment in this campaign was with the East, New York and Tammany—upon which the electorate looks with some jealousy, suspicion, and distrust—while Hoover claimed allegiance with the far West.

It need not be so in the future. The West has more in common with the New South than any other section. Under present conditions, there is no working basis for the working out of common problems on a progressive scale. But there are many indications that old party alignments are going to break under readjustments which ultimately will work out beneficially to the territory which for half a century have looked only to a rockbound line-up for favors.

The old order is changing, not because old principles were not and are not good, but because conditions have shifted. The historians of the future will seek in this decade the threads of many new trends in American politics. We are gravitating toward the time

when ultra-conservatism will clash strongly enough with progressive policies to form an issue without territorial or other significance as now understood.

WASHINGTON—Now that bunk and blarney are off the air, how that leaders of the politicians' union are rising from the depths of hypocrisy and dishonorable tactics to reassume their shoddy mantles of statesmanship, it may not be amiss to tell what all the shooting was for.

One of the Republican leaders—Senator Moses, if memory serves—let the smelly little cat out of the bag in a publicity release a few weeks ago wherein he said that the only motive of the Democrats in making a campaign was their greed for some 50,000 federal jobs.

That was right as far as it went. But there's a lot more to it than that. In the first place, something more than 150,000 federal jobs were at stake in the election, wholly aside from the tens of thousands of state, county and municipal jobs involved in the general campaign.

And it would have been only fair to say that if the Democrats were clawing greedily at the door for those jobs, then by similar token the Republicans were using feet, nails and teeth in a savage, selfish fight to hold onto them for another four years. Anyone will fight just as bitterly and just as unfairly to hold his job as another will to get it.

That, of course, is what it all boils down to. That is what most politicians really mean when they roar in righteous wrath or beat piously of law enforcement, the poor farmer, the peril to prosperity or the sins of the opposition.

It is not fair to say, of course, that every politician active in an election is merely worrying about his job. Some hold their jobs securely and merely want more power, though power and patronage are almost inextricably bound together. Some of the more puissant gents merely want to stand in a little stronger with selfish interests on whom they depend for support or even to erect new bulwarks for the politico-economic system with which their own interests and those of their friends are identified.

And goodness knows how many of the dirty little boys of politics, unknown to fame, are in the business not for jobs, but simply for cold cash. Here and there are even some who yearn to serve first of all the best interests of common, ordinary people, though of these one cannot recall more than

a few.

Nor is it necessary, in questioning the professed motives of the politicians' union, to ascribe rottenness. The fact is that the people sometimes get a break. That is, there is always a chance that an election result will make life a little happier and easier for many of them. Furthermore, politics is not a closed corporation; anyone can enter it and there is abundant evidence that it takes very little intelligence to succeed.

How many federal jobs did we get on a presidential election? Well, one starts with the cabinet and diplomatic service and works down. There are, of course, some pretty swell jobs and some pretty soft ones; rewards of every degree. In fact, for the type of service rendered. But let's take the big bulk.

The president appoints 60,000 first, second and third-class postmasters, internal revenue collectors and deputy collectors, marshals and deputy marshals, collectors of customs and similar officials. Their salaries amount to nearly \$130,000,000 a year. Then there are 80,000 fourth-class postmasters and rural mail carriers, who in almost every case get their jobs through politics. They are paid more than \$100,000,000 a year.

Pampa women are making valuable additions to their cook-books this week, as each afternoon they take home from The Pampa Daily News cooking school two or three interesting new recipes and numerous suggestions for improving old ones and making well-known dishes more tempting.

Mrs. Leona Rusk Ihrig, who is in charge of the school, is a noted culinary expert. She knows many fascinating ways of beautifying every-day food and has a perfect store house of original recipes. Some of particular interest that she has given her classes in the past three days of the school are printed below.

# The Way to Win Made Easy

## Daily News \$5000 Prize Voting Contest

### CAMPAIGN JUST STARTING

The great race for the three big automobiles and other handsome prizes just starting, just beginning, just commencing. A few contestants have already begun to gather subscription votes, but the majority of them are starting, out now determined to make this offer count as much as possible for them. There is absolutely no limit to the number of times any contestant may earn the bonus. Two \$20 clubs would mean 200,000 extra bonus votes and so on. Subscriptions may be of any length, just so the total amount in cash is \$20. All portions of a club will receive pro rata number of extra votes.

Thus far no one has accomplished anything that YOU couldn't duplicate in just a few moments of your spare time. The weather has been too bad. But realizing that after Saturday night, November 17, only four weeks remain of the race, contestants are planning to get busy and accomplish everything possible before the clock strikes 9 Saturday night, Nov. 17. More new entries are wanted everywhere. There are lots and lots of towns not yet represented in the published list of contestants. The automobiles MUST be won by subscription votes secured anywhere.

No matter where you live, your chance to win is as good as anybody else's right now. Don't let this opportunity slip by without TRYING it, anyway. It costs nothing to enter, nor will it cost anything later. If you want a big brand new automobile for EFFORT, send in your entry today. You will find entry blank elsewhere in today's paper. Besides bringing you full and complete information, it counts 2,000 free votes as a starter.

## NOW

—is the time to  
get busy!

# 100,000 EXTRA VOTE OFFER

## YOU Can Enter Now And Win Big

### The Biggest Offer

This great offer is positively the biggest and best vote offer that will ever be made during the entire campaign. After Saturday night, November 17, at 9 o'clock, subscriptions will positively count LESS in votes, so it behooves the ambitious ones to accomplish everything possible before that time. The offer will not be duplicated nor repeated in any way. Subscriptions will count MORE in votes between now and 9 o'clock Saturday night, November 17, than they ever will later. Contestants who expect to get a bigger offer to come later will be disappointed.

The offer will close promptly on the stroke of 9. The door of the campaign office on the second floor of the building will be locked at that time, and no one will be allowed to enter with subscription votes to be applied on the offer after that. However, all those inside the main office at that time will be waited upon, and the subscriptions they turn in counted.

## Hoover Moulded by Influences Seen In the Lives of His Home Town Folk

WEST BRANCH, Ia., Nov. 8.—(AP)—Yellow leaves swirling down in the autumn sunlight, oaks and maples on the hillside a blaze of gold and red. Everybody at home enjoying their yards from the chimneys of which comes little puffs of smoke.

To understand Presidential-Elect Herbert Hoover's character and achievements one must go to his early environment. Here, as nowhere else in the world, one comes into contact with that simple but staunch and rugged Quaker lie from which he comes.

Whether one looks on the picture face of Great-grandfather Jesse Hoover who started building a meeting house in the wilds of Iowa in 1853 before he even cut any timber for his own home; or whether one chats comfortably with little Mrs. O. O. Yoder, Hoover's cousin, in her cherry home the influences and background which contributed so largely to the making of Herbert Hoover are here.

It's a home town and it explains largely why Herbert Hoover is a home man. This little village of 700, with the yellow and red foliage stretching away in the autumn sunlight and the people staying contentedly here year after year is Home, Sweet Home to Mr. Hoover perhaps more than any spot in the world.

West Branch understands Herbert Hoover. Many thought it strange that this little place should have been chosen for one of the most important speeches of his campaign. But thoughts of serenity and peace and early home ties drew him back, traveled and rich and famous though he was. His voice choked with emotion when, standing before a crowd of twenty thousand people, he said: "I speak for twenty-three million homes!"

And how they cheered.

"Home" is a word that West Branch and Iowa understands. Herbert Hoover comes from a part of the country where home ties are strong. Here the first words, after formal greetings exchanged by strangers are not on the order of "Did you visit Naples or Algiers when abroad?" but "Did you know Tom Jones down in Appaloosa county? His wife was a cousin of mine."

It was to the friendly shelter of the modest Yoder home with its flowers and its comfort and the appetizing odors emanating from the shining kitchen that Mr. and Mrs. Hoover retired for a few hours that August day of his campaign speech.

"It's good to get into a home away from the crowds," said Mr. Hoover as he sang into an easy chair. Little Mildred Yoder had the privilege of entertaining Mrs. Hoover for a good part of the afternoon while crowds sought vainly for a glimpse of her.

Again that evening after the "tumult and the shouting had died" the Hoovers retired to the blessed silence and rest of another cousin's home—Mrs. Ralph Bramon, on the outskirts of town. The last of the home-going motorists speeding out the gravelled road saw their light shining out from the second story of the neat farm house and people said comfortably of speak for twenty-three million homes!"

## Lengthening Skirts Proving Tedious

By HAZEL REAVIS  
PARIS (AP)—The gradualness with which skirts are being lengthened, as well as some women's flat refusal to lengthen them at all, indicates the old days of overnight style revolutions are over.

The stylenmakers are contenting themselves with easing skirts down inch by inch on daytime clothes. So far, their tactics of dropping evening skirts to any level that happens to suit their idea, has not resulted in the lengthening of street skirts.

Skirts are a few inches longer, to be sure, than they were six months ago. They now cover the knees entirely at all but one or two of Paris' fashionable dress houses. But the fashion creators are repeatedly asked to shorten the street models as they are duplicated and time after time hear their clients say:

"The long skirts are all right for the mannequins, but they don't look smart on the street."

## This is the Sketch he made

HE IS a draftsman—makes plans for an architect. "Yes, I own Cities Service Preferred Stock—thank Heaven!" he said quietly. "It was what gave me the idea I could amount to something. I don't make a big salary, but I'm living happily now—I've learned how to save and gradually build up my finances."

"I inherited some money—didn't know how to take care of it—spent it right and left and was headed down hill. Fortunately I had put \$1000 in Cities Service Preferred and when everything else was gone that investment was a Rock of Ages for me. I finally got straightened up, changed my habits and began buying more Cities Service Preferred on the partial payment plan. I am still buying it."

"I have often thought that if I were selling this stock I would make a drawing to show people what I think are the four biggest points about this investment—like this—" Then he made the sketch shown above.

"I'd want to impress people with the

great importance of having their money and dividends well protected—as we have in Cities Service—with as much as \$2.70 in assets behind every invested dollar and over \$3.50 earned for each dollar needed to pay Preferred dividends—the big privilege of being able to sell the stock readily if they need money, or to borrow money on it—and the benefits of getting monthly dividends regularly—and of getting a good yield. I put those autos and people in the sketch small, to show by contrast how big and important these four points really are."

So the draftsman who has learned a lesson from Life, wrote this advertisement for us. We have nothing to add except that an investment in Cities Service Preferred Stock has many other points of advantage besides the four mentioned. Any employee of our company can tell you about them.

## INTIMATE GLIMPSE OF HERBERT HOOVER

Here are intimate glimpses of Herbert Hoover, caught by the ever-ready newspaper cameramen at various times during his public career. The picture in the center was taken in the midst of a campaign tour as a mother offered her baby to be kissed by the candidate, which Mr. Hoover declined to do. In the upper right is Hoover with a group of child refugees during the Mississippi valley flood. The other pictures speak for themselves.

### Texas 4-H Club Boys to Receive Trips to Chicago

COLLEGE STATION, Nov. 7.—Twenty-three Texas 4-H club boys will receive free trips to the International Livestock Exposition at Chicago during the early part of December as the result of awards in three state wide contests, winners of which have just been announced in the Extension Service of the A. & M. College of Texas. Nineteen of the boys will go as guests of the Santa Fe Railroad which, in keeping with custom followed for several years, is awarding the trips to boys in counties traversed by its lines who have made outstanding records in crop and livestock production. Outstanding baby beef club boy of the state will go as the guest of Armour & Company which makes such award annually and the Educational Bureau of the Chilean Nitrate of Soda, Dallas, will send three boys who have made the best corn club records with the use of its product, one boy from each of the three Extension Service districts in East Texas.

This group of prize winning Texas boys, each equipped with a smart-looking uniform hat which will be the Texas badge at the National 4-H Congress to be held in connection with the International Exposition, will assemble in Fort Worth Nov. 30 and leave that night for Chicago. E. R. Budaty, swine specialist of the Extension Service, will have charge of the group during the trip.

Winners of the Santa Fe trip awards and their prize winning projects include: Richard Selz, Marshall Harrison County, Jersey calf; Hollis Dickerson, Broadus, San Augustine County, cotton; L. T. One boy with sweet potato project, gathered 220 bushels to the acre, a grain sorghum club member produced nearly three tons of threshed seed to the acre, the pig club

### Hoover Turned to Group of Friends for Advice in His Political Drive

WASHINGTON (AP)—Small indeed is the coterie of men to whom Herbert Hoover turned for political advice as he drove forward in his career. Singularly enough nearly all are personal friends of long standing, some of whom were associated with him in his work overseas during and after the world war.

In the forefront of this little circle stand William J. Donovan, of New York, assistant to the attorney general, and James Francis Burke, of Pennsylvania, general counsel of the republican national committee. Both are Catholics.

The others are George Barr Baker, director of publicity in the Coolidge campaign four years ago; George Akerson, personal assistant to the republican presidential candidate; Mark L. Requa, California business man, and Thomas T. C. Gregory, San Francisco lawyer.

Hoover and Donovan met overseas, where each attained to fame, one in humanitarian enterprises and the other as "the fighting colonel" of the famous old Sixty-ninth regiment of New

York. They continued the friendship in this country and when the then secretary of commerce began his active campaign for the republican nomination, he frequently called upon the assistant to the attorney general for counsel. Burke has his office just outside of that of the republican standard bearer and they confer many times during the day on legal matters as well as on those strictly political. Burke has been helping to steer the political ship of the republican party in presidential campaigns for more than 30 years.

The association between Hoover and Eskey began back in the days when the republican candidate was chairman of the Commission for the Relief of the Belgians. Baker served as secretary to the commission and subsequently as personal secretary to Hoover at the Paris Peace Conference. He, too, has had long experience in politics and is adviser in matters of public as well as in dealing with the foreign language press. Requa and Hoover are friends of many years standing, the California oil man having been assistant to Hoover as Food Administrator during the war. He now is looking after the battle for the republican candidate in California.

"Tom" Gregory and Hoover met during college days at Stanford University and have been close friends since

that time. Gregory, who observe in the World War, was one of Hoover's chief lieutenants in the task of feeding the enemy countries after the war and performed several delicate diplomatic negotiations for Hoover in Australia during that period.

George Akerson, former Minneapolis and Washington newspaper correspondent, has been personal assistant to Hoover for a number of years and beside lending valuable counsel on many matters political, he has been "the Chief" of a mass of detail connected with the campaign. He had a prominent role in the pre-convention fight at Kansas City as well as in the earlier days here in Washington.

#### HOOVER'S TEACHER USED OLD FASHIONED METHODS

WEST BRANCH, Ia., Nov. 6.—Herbert Hoover's school teacher says she used old fashioned methods when the Republican standard-bearer was a member of her classes.

"I expected them to get their lessons and I exacted obedience from them,"

says Mrs. Mollie Brown Carran, the teacher, who still lives here. "When Mr. Hoover was here in August, Bert Coons, now mayor of Wichita, Kas., brought his wife to see me, as she said she wanted to see the woman who had once licked Bert."

"None of those boys ever got the best of me, I remember one who would not behave, so I caught both of his hands behind him, tripped him up so he lay on the floor and I put him there."

# ROGERS HORNSBY WILL WEAR CHICAGO CUB UNIFORM

**Deal Completed  
Last Night—Price  
Is Over \$150,000**

CHICAGO, Nov. 8.—(AP)—Roger Hornsby, the transient star of National League baseball, will next be seen in a Chicago Cub uniform.

Five players and a large sum of money, perhaps the largest amount ever involved in a baseball deal, will go to the Boston Braves in exchange for the "Rajah," who has worn the uniforms of three clubs in the past three years.

The long rumored deal, which gave the Cubs the National league's leading hitter, was completed last night in a telephone conversation between President W. L. Veech of the Chicago club and Judge Emil E. Fuchs, president of the Braves.

President Veech refused to divulge the exact sum of money involved, but intimated it was between \$100,000 and \$200,000.

True to President Veech's statement that the Cub team would not be wrecked to get Hornsby, only two regulars were included in the transaction. One was Freddy Maguire, moved to make room for Hornsby at second base, and the other was Percy Jones, veteran southpaw. The other three players were Louis Leggett, rookie catcher recalled from the Cubs' farm at Reading, Pa.; Harry Seibold, a recruit hurler who starred with the Reading club last season, and Bruce Cunningham, a pitcher acquired from Los Angeles.

## Resignation of Owen Roberts Is Accepted Today

WASHINGTON, Nov. 8.—(AP)—President Coolidge accepted today the resignation of Owen J. Roberts, special counsel for the United States in the oil cases, effective immediately.

In his letter of accepting the resignation, president Coolidge expressed gratitude on behalf of the government "for the fidelity and energy with which you have prosecuted these cases, which have returned to the United States all the property in question and many millions of dollars in money."

Roberts tendered his resignation because under the Senate joint resolution calling for his appointment he was prevented from taking up any cases of his own which had any connection with the government. Atlee Pomerene, with whom Owen Roberts was associated in the prosecution of the cases, will continue in his present position and conclude the remaining work.

### COTTON ESTIMATE RELEASED

WASHINGTON, Nov. 8.—(AP)—The department of agriculture announced today that a cotton crop of 14,133,000 equivalent-500 pound bales is indicated for this year.

WASHINGTON, Nov. 8.—(AP)—Cotton of this year's crop ginned prior to November 1 totaled 10,160,997 bales, counting round bales as half bales, the census bureau announced today. This compared with 9,920,846 for 1927 and 11,253,873 for 1926.

## Policeman for Whom Girl Says She Burned Self

Charles Hitchcock, policeman of Lake Bluff, Ill. is the man for whose love Elvieda Grace Knaak claim she burned herself for in the furnace of the village hall. The girl, badly burned about the arms and legs, was found unconscious near the furnace. Later she told police that Hitchcock's spirit ordered her to take this "fiery test" of love. Hitchcock is shown above as he appeared in bed at his home, where he has been confined with a broken leg, which police say was sustained several days before the girl's ordeal.

## Nebraska Star

Walter Varner, pride of the Roxana Oil company, meets Speedy Sparks in a ten-round exhibition at the Ple-Moratorium tonight. The two boxers are evenly matched and the fastest bout of the season seems assured. The local boy has been going good this season, while Sparks has a win over Warrin Smith and Jack Malone to his credit.

In the semi-final Speedy Snow, local youth meets Fighting Joe Lamb of Houston, in a six-round event. Both

boys are fast, clean boxers and should put up a speedy match.

A four round bout between Calvin Jones of Fort Worth and "Dog Face" Ed, local negro, should be the sensational bout of the evening. The Fort Worth boy is expected to show up good in his first encounter here.

The opening preliminary will begin at 8:15 o'clock.

## Geese Bagged by Two Local Hunters

When it comes to hunting, H. R. McDonald of the Gulf Production company, and Harry Gould, of Sykes, Merrick and Boyd Lumber company, are in a class by themselves and are willing to give local hunters advice. This morning the two hunting enthusiasts decided to go after ducks. They motored to a nice quiet spot all their own and were successful in bagging a few ducks when above them sailing gracefully were some fine geese.

Bang, and a few more bangs, and Mr. Goose came down while the rest flew away. But to the surprise of the hunters, they found four large Canadian Honkers instead of the one they expected. The geese averaged fifteen pounds and seemed to be well fed.

According to the hunters, the large ducks coming over means some cold weather and plenty of geese and mallards.

## Strong Perryton Team Will Play Here on Nov. 12

After seeing Perryton defeat Follett, 14 to 0, yesterday at Perryton, Coach Odus Mitchell of the Harvesters arranged to bring the play-off to Pampa next Monday afternoon.

The Armistice holiday game, beginning at 2:30 o'clock will decide whether the Harvesters will go further in the Interscholastic League. Coach Mitchell returned with a deep appreciation of the ability of the Perryton team. Only fumbling deep in Follett territory prevented a much greater score. The winners used a varied style of play, and showed much more finish than in the previous game between the two teams, which resulted in a scoreless tie.

The Perryton team is said to outweigh the local squad considerably. The game here probably will be a clash of strong offenses, as both squads are best in that style of play.

## Talk of Another Dempsey Battle Will Not Dawn

(By The Associated Press)  
NEW YORK, Nov. 8.—(AP)—Talk of Jack Dempsey returning to the ring seems to most observers to be inspired largely by efforts to brace up the sagging fortunes of the fistie game.

They have sagged, especially from the boxoffice viewpoint, this year to a marked degree by comparison with the heyday of the era that started in 1923. That was the year Dempsey and Firpo fought their memorable battle at the Polo Grounds.

By a strange, if not ominous coincidence, Firpo also figures in the comeback talk. It would be an odd turn of circumstances if both the Argentine Bull and the Old Manassa climbed back through the ropes next year. It probably also would furnish and odder comparison with their fighting powers of 1923.

There appears little question, on the other hand that Dempsey's return to the ring would stimulate lagging interest in the heavyweights. No new figures have come along to capture popular imagination as the former champion did. The ring-around-the-rosy appears to be on again in much the same fashion it has been going on for the past few indoor campaigns.

It is a secret that ex-Rickard would have much preferred last summer to have staged a third and final Tunney-Dempsey fight than the Tunney-Henney match that proved a financial as well as artistic flop.

So long as Dempsey is around the borders of the "racket" there will be insistence that he take "one more" fling. It is a business proposition, and the punch is the main factor involved. It disregards entirely the fact that two additional years of idleness will take just that much more toll of Jack's old ring assets—speed and stamina. These waned rapidly after the one big shot in Chicago in the seventh round.

Dempsey says he won't fight again and he may mean it. But it is just as well to note that if he said anything else now the winter's ballyhoo would be sadly handicapped. Come-backs always start in the winter. Whether they actually bloom in the spring is something else to guess about.

Just when things look a trifle dull in the ring racket, however, some first usually bobs up in the west to administer a few resounding wallops.

In recent years K. O. Eddie Roberts and Jimmy McLarnin, the Baby-faced kid, have come east in answer to promoters' prayers for "gate" attractions—otherwise known as boys with a sock. Now Jackie Fields is in the limelight and apparently headed for the welterweight title if he can get Joe Dun-dee, the champion, into the ring with him. Fields has the punch that made Roberts and McLarnin stand out.

county recently sent 2,000 telegrams to President Coolidge asking federal supervision of the election and last night threatened to deluge the White House again because of dissatisfaction with methods used by election officials. In the meantime the wounds which the campaign opened in the Democratic party, traditional ruler of the state, festered instead of healing in the post-campaign relaxation.

Leaders of the Bolters, who have apparently thrown the state to the Republican column in national affairs for the first time in history, demanded the resignation of regular party leaders who, they charged, are "tainted with Tammany." The regulars replied that bolters would never run the affairs of the Democratic party in Texas and declared that they would rather lose with Democrats than win with Republicans.

**Quarantining of Contagious Diseases Urged by Manager**

It has been brought to the attention of the city manager that there are not quarantined. In one instance a girl not quarantined. In one instance a girl was attending school with three members of the family suffering from smallpox. Other cases of the same contagious disease have come to the knowledge of the city manager, who is mailing the following notices to all physicians in the city:

Dear Sir:—The season when contagious diseases are most prevalent is now at hand and it has been brought to the attention of this office that there is some lack of understanding regarding the identity of the City Health officer for the city of Pampa.

We presume this may be due to the fact that the health officer has not been active over the summer months and this letter is to advise you that Dr. Arche Cole has been appointed City Health Officer by the city manager of the City of Pampa, and the appointment having been confirmed by the city commission, is by virtue thereof the full qualified health officer for the City of Pampa.

We are further advised that there is a number of cases of contagious diseases now existent in the city that are not being reported by the physicians in charge, and we therefore call your attention to the State requirements as given under "Chapter Four" Sanitary Code, State Statutes, Art. 4477—Rule 1, which reads as follows: "Physicians to report. Every physician in this State shall report in writing or by an acknowledged telephone communication to the local health authority, immediately after his or her first professional visit, each patient he or she shall have or suspect of suffering with any contagious disease."

This rule further states: "The attending physician is authorized to and he shall place the patient under restrictions of the character described herein in the case of each respective disease."

Rule two, local health authority. For the purpose of these regulations, the term, "Local Health Authority" shall be held to designate the City or County

Health officer, or local board of health within their respective jurisdictions.

Unless your reports are being promptly made you are laying yourself liable to the penalties of this act and we respectfully urge that you immediately observe these requirements that the law may not only be obeyed, but that the health and welfare of the people of Pampa may be fully protected.

A copy of this letter is being mailed to all physicians in the City of Pampa whose address is known to this office, and we trust we may have the immediate and full cooperation of all. Sincerely yours,

F. M. GWIN, City Manager

**Big Election Is Making History**

(By The Associated Press)

The presidential election of 1928 was passing into history today leaving in its wake the greatest majority ever cast for any candidate.

Full measure of the overwhelming victory which sent even rockribbed Democratic states into Herbert Hoover's column was still to be completely ascertained, but from returns which rapidly were becoming complete it was evident that the new president will come into office with the greatest electoral majority in all history and with a popular vote exceeding any before.

Likewise the country has still to learn—and it no doubt will be days before the facts are known—how great the presidential vote played in giving presidential-elect Hoover a Republican congress. That there will be an appreciable increase in the Republican majorities of both House and Senate has been demonstrated but the returns still are incomplete in the case of numerous contests for membership in the House along the Mason-Dixon border line and in some other sections whose party lines are not frankly defined.

In Virginia for instance, two districts were still in doubt today with the chances leaning toward adding Republican congressmen to the state's roll. The Old Dominion already has contributed two Republicans definitely to the majority of that party in the House—men who were undoubtedly swept into office on the tide of Hoover sentiment which shook Virginia from

its Democratic moorings for the first time since reconstruction days

Kentucky's leap into the Republican column was whole-hearted and almost complete. In place of eight Democrats and three Republicans who represent that state in the house at present, the Hoover wave changed the representation to nine Republicans and two Democrats. Sweeping aside of Democratic congressmen was noted in various localities, although in two or three instances, Republicans were forced to give up their seats to Democrats.

The Senate Democrats also felt the blow of the Hoover landslide. Six of their places up for re-election went to Republicans whereas all of the thirteen Republican places were retained by the candidates of that party.

The only post-election contribution of Governor Smith has been an announcement that he is through with politics after a generation in public life. He expressed his gratitude to those who have stood with him and declared that never again would he run for public office.

President-elect Hoover has expressed his appreciation of the vote given him Tuesday and has replied to message of congratulation from President Coolidge and Governor Smith

**Cary Will Ignore Court Ruling Until Notice Is Received**

Justice of the Peace C. E. Cary said this morning that he would continue to assess fines in misdemeanor cases until he had received some definite notification on the action of the Court of Criminal Appeals yesterday. News stories stating that the fee system regarding fines in criminal cases was held unconstitutional because of the fact that Justices have "a direct personal and pecuniary interest in convictions" and "I do not believe the ruling has anything to do with a man's pleading guilty and having a fine assessed but if he pleads not guilty then a jury will decide whether he is or is not guilty and assess the fine." Justice Cary said this morning.

In commenting on the action taken by the court of appeals County Attorney John Studer said, "I have not seen the opinion, but I judge from the newspaper reports that it will be necessary, when the defendant does not plead guilty, that a jury be empaneled and his guilt passed upon by the jury. A party pleading guilty could also insist that a jury pass upon the amount of the fine, but I have not seen the opinion yet and this is only speculation upon my part."
