You've all had time to get the new telephone bills from the post office. Please note the end of the third paragraph of the sheet titled "To Our Sonora Customers." We quote: "... the company is willing to give the new rates a trial." The truth is, friends and neighbors, the present rates are the legal rates and the company must abide by them whether willing or not. And the city rate ordinance says nothing about a trial basis. Those ARE the rates and the only way to change them is for the city commission to pass a new ordinance. The company could have graciously accepted the rates, but evidently corporate thinking today is done completely with the head rather than partly with the heart.

Miss Dorthea Caskey, high school science teacher, was in the other day, and asks that ranchmen call her at the school should they notice any colonies of small yellowjackets. Miss Caskey wants to know what time of the year these yellowjackets appear and the relative location of their nests.

It seems the U.S. Public Health Service sponsors research on venoms and in order to do yellowjacket research the insects must be raised in a laboratory. To do this, a study of life habits of the jackets must be undertaken and this is where Miss Caskey enters the picture. She is also working on her master's thesis, "Study of the Life and Habits of Polistes exclamans." We don't know Latin like Howard Espy does, but the "exclamans" sounds very appropriate when applied to yellowjackets.

Several have expressed the desire to number their homes. Please leave your name at City Hall and a number will be assigned.

We were poking around on City Hill Wednesday morning looking at the weather recording equipment in charge of Mrs. R. M. McCarver. The government has recently installed a hygro-thermograph, recording relative humidity and air temperature, a barometer which incorporates use of human hair, and another rain gauge which measures rate of fall as well as total fall.

Looking at the temperature charts, we saw that a high of 96 was recorded here last Friday. Tuesday the high was 90, dropping to 48 Wednesday morning when the norther blew in.

Manager Pat Lyles of the Sonora baseball team claims his "team" will play the Sonora Rebels, teen age ball club here Sunday afternoon. We doubt that Pat's team can give the Rebels any competition, but it will be nice to see the young guys get a workout. "Fireman" Jim Skinner will probably burn 'em by Pat's crutch and caners for a few innings.

From the Sutton County Amateur Golfing Association comes the following announcement: "Our Mr. Louis Davis defeated our Mr. Lea Roy Aldwell two consecutive days in nine hole matches. Mr. Aldwell states that Mr. Davis will probably be happy to have the publicity."

Special Services Slated At Baptist Church

A week of special services will be held at the First Baptist Church beginning Sunday, March 20, according to the Rev. J. E. Eldridge, pastor. Services will be held twice daily, at 10 and at 7:30 o'clock including Sunday, March 27, Mr. Eldridge said.

Preacher will be the Rev. H. Marshall Smith, pastor of the Kerville Baptist Church. Don Berry, Baylor University student, will be in charge of music.

March Of Dimes Nets \$1,872

The Sutton County March of Dimes realized a net contribution here of \$1,872.51 according to H. M. Smith, drive chairman. Smith said he was gratified with results and wished to thank all those, particularly the mothers, who had a part in putting the campaign over.

Largest contribution was \$553.14 and came from businessmen and ranchmen. The public schools were close behind with a total of \$506.98, and the Mothers' Drive netted \$345.74. Coin collection was \$240.80 and coin cards brought in \$277. Expenses were \$51.15 Smith said.

IT'S IN WEST TEXAS—not Frenchman Flat; it's a peacetime sign—not hydrogen bombs. It's a Shell Oil Company seismic crew using a new shooting method in their constant search for new oil reserves. The inset shows a crew member setting one of the 5-pound dynamite charges that, when exploded, sends up an ominous-looking column of dust. The explosion also sends miniature shock waves down into the earth. These waves bounce back from underlying strata and are picked up on sensitive recording instruments. Interpretation of these records give clues to where structures which may contain oil are located.

Plans Underway To Give Polio Vaccine To First, Second Graders

Detailed plans now are being worked out for the possible administration of polio vaccine to 210 Sonora children who will be eligible to receive it if it is licensed, Dr. J. F. Howell, Health Officer, said today.

As was announced today by state health officials, all first and second grade pupils in public, private and parochial schools in the state, are included in the planned program. It also will be available to others through physicians at the same time.

But parents were warned by Dr. Howell not to jump to the conclusion that the current planning indicated the vaccine already had been proved effective.

"The vaccine which will be furnished by the National Foundation for Infantile Paralysis is the same vaccine that was given to 440,000 children last spring," he said. "We do not know yet whether it really prevents paralytic polio. Until April, when we will learn the results of the evaluation study now being conducted at the University of Michigan, we cannot know if the vaccine is effective."

"But we cannot wait until then for planning for the protection of as many of our children as possible. Vaccinating large numbers of children is a big and important job, entailing many procedural tasks that can't be performed over-night."

"If the license is granted in April, we must be ready to start vaccinating at once, so that if possible, we can finish before our schools close and the polio season starts. We want to give the vaccine early so that many children can be protected before polio appears in their communities."

"This program would not be another test but the first use of a newly established preventive measure."

Under the direction of the State Health Department, Dr. Howell has been conferring with school authorities and physicians who have pledged their full cooperation.

The polio vaccine will be furnished from a supply being purchased by the National Foundation with March of Dimes funds. It will be made available by the National Foundation with charge for the product to State Health Officers for use in the above groups, if licensed by the Federal Government. Supplies also will be distributed through usual channels at the same time.

The National Foundation has financed the development and production of the Salk vaccine. Contracts were made with manufacturers for a supply of vaccine costing \$9,000,000 in March of Dimes funds. This enabled manufacturers to keep their production facilities in operation during the waiting period and be ready to go into full production as soon as the vaccine is licensed.

"Vaccine would be given by the Health Department this spring

only to those eligible children whose parents sign forms requesting it," Dr. Howell added. "It is a completely voluntary program. The forms will be distributed through the schools beginning Monday. We should like to know as soon as possible how many eligible children we must provide for, if the vaccination program is carried out. If the vaccine is not licensed, there will be no program."

Abilene, Denton Sonora Take Speech Honors

Abilene, Denton and Sonora dominated the Eighth Annual Sonora Invitational Speech Meet held here Friday and Saturday of last week.

The Abilene speakers took eight first places, six seconds and five thirds. Denton had four winners, seven seconds and eight thirds, while Sonora won seven contests, placed second in five and third in two.

Shannon Radloff, son of Mr. and Mrs. Tom Radloff, was high individual winner for Sonora, winning boys declamation, boys radio speaking, and best actor in the one-act play contest which Sonora won.

Other Sonora winners included Jim Baker, boys poetry reading, Jan Keng, girls poetry reading, Robert Hardgrave, boys impromptu speaking and Marilyn Valliant, girls after dinner speaking.

The highly-coveted boys debate trophy was won by the Alice High School team of John Rader and George Hoag. Roger Whitehurst, an outstanding schoolboy speaker, and Ed Wheeler of Abilene, were second.

Girls debate was won by the Abilene team of Jean Swilling and Clara Ann Bennett. Sonora's Martha Jean Villiant and Cynthia Hall were second in this event.

Sonora won the one-act play contest with its presentation of "Judge Lynch" with Radloff, who played Ed Joplin, as best actor. Second boys acting prize went to Larry Buchanan. Best actress award went to Delores Chapa and Nancy Hunt won second.

ROGERS RITES MONDAY

Funeral services were held Monday afternoon from the Doran Funeral Homes for Albert Brown Rogers, 70, father of Mrs. Glen Crowell of Sonora. Rogers died Saturday in a Del Rio Hospital. A retired contractor, he had lived in Del Rio for the last six years.

Born in Bosque County, Rogers spent most of his life in San Angelo and Quemado Valley. He is survived by his wife and his daughter.

The Rev. Charles Cash, pastor of the Comstock Baptist Church officiated at services.

FORMER RESIDENT BURIED HERE MONDAY

Graveside services for Mrs. Sid Martin, 83, a Sonora resident from 1909 until 1920, were held here Monday afternoon with the Rev. W. H. Marshall in charge. Mrs. Martin died in a Del Rio Hospital Saturday and services were held at the Doran Funeral Home Monday. The Rev. Paul Weiss, Del Rio Methodist pastor, officiated.

Mrs. Martin is survived by a daughter, Mrs. Paul Arney of Clifton, Arizona, and three sons, 18 grandchildren, 17 great-grandchildren and one great-great-grandchild.

TS&GRA Seeks Aid In Fight Against Scabies

Prompt action to completely eradicate scabies from the state of Texas has been asked by the Texas Sheep and Goat Raisers Association.

In quarterly meeting at Texas A. & M. College this week, the association passed a resolution for submission to the state legislature requesting the appropriation of \$125,000 per year for the next two years for the program of the Livestock Sanitary Commission, to enable the commission to eradicate scabies.

Existence of scabies in the state puts Texas lambs in an unfavorable competitive position with lambs from other areas, the association said.

Among other resolutions passed by the association during the two-day meeting were: one requesting approval of a bill now pending in state legislature prohibiting geological surveys of any type without the land-owner's consent;

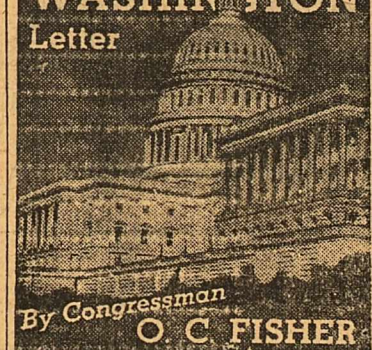

One urging legislative representatives to act favorably on a request for \$35,652 annually for mileage asked by the Predatory Animal and Rodent Control Service;

One to retain full rights of the land-owner to water on his land; One opposing pending U. S. action to remove tariffs on wools entering this country for use in carpets, rugs and certain other articles;

And a request for increasing the present legal limit of truck length on the state's highways to 65 feet.

More than a hundred members of the association and its auxiliary attended the meeting.

E. A. Brodhead, superintendent of schools, returned Wednesday from Denver, where he attended the annual meeting of the American Association of School Administrators.

THE PROBLEM of getting men in military service to reenlist was aired in the House last week when a new career incentive pay bill was approved and sent to the Senate.

It costs Uncle Sam a lot of money to train a person to be a soldier and it is therefore to the interest of the Government to have that person reenlist. More than \$6,000 is spent on training a GI the first year he is in. But in specialties the training cost is really high. For example it takes \$120,000 to train a jet pilot, and \$275,000 to train a jet bomber pilot.

In the old days before World War II officers were attracted to the service and remained in it voluntarily because of the prestige involved and the security. Officers could look to retirement with 75% of their regular pay, and many fringe benefits.

President Eisenhower, with all his ability, chose to make the military a career. He stayed on duty from July 2, 1920 to July 1, 1936, as a major, a period of 16 years. General Omar Bradley likewise served 16 years as a major without a promotion. And Admiral Nimitz remained a captain in the Navy from 1927 to 1938, a period of 11 years.

But in this time when private industry offers more and more retirement and pension plans and social security and other benefits and attractions are available, it is increasingly difficult to keep people in the military service. The more the turn-over, the more the cost of Government.

For example, taking the regular only the reenlistment rate dropped from 59% in 1950 to an average of 24% from July to December, 1954. The Navy reenlistment rate is still decreasing from a high of 66% in 1950 and 21.8% in the period from October through December, 1954. In the

Neil Roueche Dies Wednesday Of Heart Attack

Funeral services for Neil Roueche, 62, veteran groceryman, were held here at 2 o'clock yesterday afternoon from the First Methodist Church. The Rev. W. H. Marshall, pastor, officiated, assisted by the Rev. J. E. Eldridge, pastor of the First Baptist Church.

Roueche was stricken by a heart attack Wednesday morning while on a delivery and died instantly.

A native of Sutton County, Roueche was born December 13, 1892. He attended local schools and went to work in the grocery business at the age of fourteen. He and a brother, Lewis Roueche, opened their own business about 1940 and acquired the Cosden dealership here. Later he bought out Lewis Roueche and built a new store, service station and wholesale oil products warehouse on a large property near the Del Rio highway.

On June 10, 1921, he married Mrs. Lottie Moore in Sonora. Roueche was a Mason, member of the Woodmen of the World and charter member of the Sonora Lions Club.

He is survived by his wife; a daughter, Mrs. R. S. Teaff of Sonora; two step-sons, F. L. Moore of Sonora and J. S. Moore of Fort Stockton; a step-daughter, Mrs. F. J. Ross of San Antonio; two sisters, Mrs. Jim Wilson of Sonora and Mrs. Minnie McCoy of Burnet; two brothers, Lewis Roueche of Conway, Arkansas and Raymond Roueche of San Angelo; one step-brother, Mel Valentine of Eden; 14 grandchildren and six great-grandchildren.

Pallbearers were S. H. Karnes, Libb Wallace, Jack Wardlaw, Byron Newby, George H. Neill and Clyde Hill.

Honorary pallbearers were Bryan Hunt, J. A. Ward, Jr., John Fields, Jack Drennan, Wes Hill, Louie Trainer and W. D. Kring.

DELAWARE, OHIO — Mrs. Bernard Schnees, 35, has achieved the unique record of having baby in January and anticipating another in March. Already the mother of three small children, she gave birth to a fourth, prematurely in January. However, the twin of the latest arrival seems destined for normal birth in March. Fore she is pictured with her husband, holding Roger, 14 months, and Beverly Karen, 2. The new addition, Douglas Lee, is still in a hospital.

Personals

Mrs. John Bell and Mrs. Harold Saunders spent the weekend in Austin attending the design school of Easter work given by the Allied Floreists, at the Stephen F. Austin Hotel.

Mr. and Mrs. G.H. Davis had as their guests over the weekend their son-in-law and daughter, Mr. and Mrs. Harold Wagner of Houston. Their grandson, Danny, who has been their guest for the past three weeks, returned to Houston with his parents.

Air Force, reenlistments dropped from 55% in 1950 to 21.8% during the October - December period, 1954.

So in an effort to turn this trend and to attract more young men to make the military a career, the incentive pay bill was approved by the House. Examples of how it applies: A 2nd lieutenant who has completed 3 years' service including his enlisted period will get an increase from \$297.12 to \$296.40 per month. The 1st lieutenant: \$274.18 to \$335.40.

The higher increases will go to those who have served for at least 3 years—those in whom the government has a sizeable investment in training costs.

Finals Under Field Lights Saturday Night

The Sonora Relays, attracting eight of the top Class A teams of West Texas, will be run here Saturday, with the finals being run Saturday night under the lights. The running of the finals under the lights will be first such venture by a small school in this area and should attract a sizeable group of fans. The track is being set up so that all the races except two will finish in front of the stands.

Teams entered include Bandera, Iraan, Menard, Ozona, Melvin, Big Lake, Eldorado, Bronte and Sonora.

Preliminaries will begin Saturday afternoon at 1 o'clock and the finals will begin at 7:15 o'clock Saturday night.

Menard, with the jet-like Hooten and good relay and field teams, and Big Lake are favored in this meet. Big Lake has a large team in numbers and a very good mile relay team. Ozona has numbers, a good field team and Showbrock, a top middle distance runner.

Sonora, which finished second to Andrews, state defending AA champion, at the Comanche Relays, will depend on a squad of 14 to 16 boys, featuring Joe Renfro, one of the top hurdlers in the state. Rus Chalk will team with Renfro in the hurdle events.

George Johnson and Albert will handle the dashes for Sonora. Johnson will also compete in the broad jump, shot put and spring relay.

The quarter mile will be handled by lanky Preston Love, who, Coach Joe Turner believes, will be the top quarter miler in the state before he graduates. His team mate will be Frank Joe Potmesil, a freshman who shows definite promise.

Chris Hernandez, Sonora's crack half-miler, will be moved to the mile for this meet and turns his specialty over to Shannon Radloff and Alfonso Reyna.

Sonora's field team will be in the capable hands of George Wright, James McLaughlin and Little Pete Badillo, the pole vaulter.

Vivian Vasquez, another of Sonora's good quarter milers, will move to the 880-yard relay to add speed in this event. He will team with Wright, Adams, Eubank or Garrett. The sprint relay will be run by George Johnson, Preston Love, Wright and Garrett.

But Big Lake will give Sonora plenty of trouble in the mile relay, though the Sonora team waltzed the mile at Fort Stockton in 3.39.

Officials for the meet will include Jimmy Jacks, starter, Joe Turner, referee, Norman S. Davis, announcer, Harry J. Walter, Clerk; Rip Ward, head timer; Jack Fry, timer; and Tom Radloff, Bill Tittle, Tommy Thorp, James D. Trainer and John Bell, Finish judges.

DUNNAM FUNERAL HELD

Last rites for William Dunnam, 81, were held at the Alamo Funeral Home in San Antonio March 8. Dunnam was the father of Mrs. A. M. Cunningham of Sonora. He died in a San Antonio Hospital March 7.

Cunningham lived most of his life at Brady and was a retired railroad section foreman. He had lived in San Antonio the past nine years.

He is survived by his wife, three daughter and four sons.

SONORAN'S FATHER DIES SUNDAY IN SAN ANGELO

Funeral services were held Monday in Menard for Marion S. Whitley, 78, father of Mrs. Ed Grobe of Sonora. A retired ranchman and a resident of Menard since 1907, Whitley died Sunday afternoon in a San Angelo hospital.

Services were held in the Menard Methodist Church with the Rev. Robert Nuart, pastor, officiating.

Whitley was born March 7, 1877 in Milam County. In 1907 he married the former Miss Alice Striegler of Menard, who survives him.

Also surviving are two other daughters, Mrs. Walter Menzies and Mrs. Lonnie Pollard, both of Menard and a son, Malcolm Whitley of Fort Worth; three daughters and two sisters.

Libb Wallace, Mr. and Mrs. Gene Wallace and Libb Mills were in Odest last week attending the Sand Hills Stock Show.

SONORA DRUG CO.

Your Health

A man's best friend can often be his headache, according to Dr. Henry A. Holle, State Health Officer. This is hard to believe when your head is throbbing with pain, but the truth is that a headache is most often Nature's signal that all is not right in your little world.

That's because a headache is not an ailment itself, but a symptom of something else. That "something else" may be as simple as a problem as too much food and excitement the night before; it may, on the other hand, be a serious threat to bodily health. In either case, it is a warning that you should act immediately, in the one case by slowing down the tempo of your social life, in the other by seeking the advice of your physician.

Headaches can be caused by fatigue, by infection, by allergy, by an injury or by an emotional disturbance. But all of them fall into three categories: mechanical, toxic and functional.

A headache from eyestrain, overwork or inflammation of the sinuses is a mechanical one; headache caused by too much acid in the body, by constipation, by over-indulgence in alcohol, by inhaling certain gas fumes, all of which slow up the blood circulation, are toxic headaches. Functional headaches include the oft-mentioned migraine and those caused by high blood pressure.

Most headaches need not cause over-alarm. If they occur infrequently, the trouble is often the "morning after" type, which

should, of course, call for the obvious remedy—eliminate the night before. Or is your office or bedroom improperly ventilated. That could be the cause of the trouble.

If headaches recur frequently and under the same conditions and in the same areas of the head, heed the danger signal your own body is giving you. Consult your physician. And don't lean too heavily on the support of aspirin and similar patent remedies. Their aid is only temporary at best and does nothing to effect the real seat of your trouble.

LET'S TALK LIVESTOCK BY TED GOULDY

Fort Worth—Fed steers and yearlings were weak to 50 cents lower and cows also sold around 25 to 50 cents lower at Fort Worth Monday. Yearlings and heifers sold mostly at the longer end of the decline. Fat cows were under more pressure than boning classes.

Stocker trade gained strength with the greening pastures and both calves and older replacement cattle were selling actively at strong to 50 cents higher prices. Bulls sold steady.

One of the largest runs since early last Summer was at hand Monday in the sheep barns at Fort Worth and prices held steady. Top milk fat lambs topped at \$23.50, and old crop shorn fat lambs sold from \$20.50 down. Woolled fat lambs topped at \$21, and feeders cashed at \$16 to \$20. Slaughter ewes sold for \$8 to \$9, and old bucks sold from \$5 to \$6. Slaughter yearlings were quotable from \$12 to \$17, and old wethers at \$10 to \$14.

USDA announced last week that wool growers could assign their incentive payments to financing and marketing agencies, and thus get funds for current operations pending government payment. It requires that growers make only one assignment, and that a record of it must be filed with the growers county Agricultural Stabilization and Conservation office.

QUESTIONS AND ANSWERS FROM VETERANS ADMINISTRATION

Q - As a result of my service in World War II, I am receiving monthly disability compensation payments. Would it be possible for VA to deduct the amount of my GI insurance premiums from my compensation, so I won't have to bother making out a check every month?

A - Yes. Your compensation payments, however, must be large enough to take care of your premium payments each month.

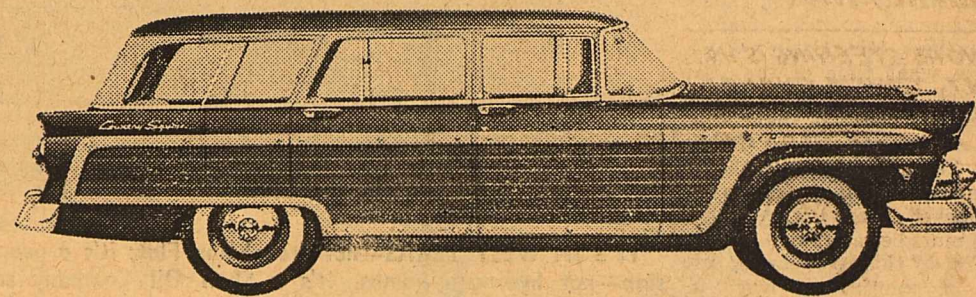

Q - I am a World War II veteran and I have gone back on active duty. My National Service Life Insurance premiums are being waived while I am in uniform. Even though I am not paying premiums, will I collect dividends on my policy?

A - No. During the period of waiver, GI insurance dividends are not payable.

Q - I am studying for a graduate degree under the Korean GI Bill. I have to satisfy a foreign language requirement, but my school does not offer foreign language courses. May I take such a course in a different school?

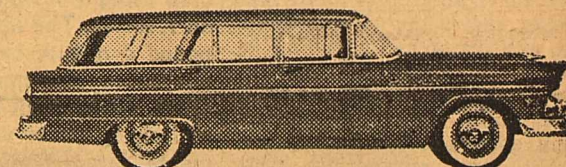

A - Yes, provided your school does three things: (1) certifies to VA that you are a graduate student; (2) designates the subject you are to take at the second school, and (3) agrees to allow full credit for your language course in partial fulfillment of your degree program.

Southwestern Life Sets Sales Records

Again in 1954, Southwestern Life Insurance Company set new records in insurance sales and payment of policy benefits during a calendar year, it has been announced by President James Ralph Wood in his annual report on the Company's business operations.

L. W. Elliott A. C. Elliott

New paid-for life insurance issued in 1954 totaled \$228,345,382, a 48 percent increase over the 1953 total of \$153,680,329.

This unusual gain is primarily accounted for by \$69,020,786 of group insurance on federal employees underwritten by the company. Excluding this sum, new insurance sales amounted to \$159,324,596. It was the fifth consecutive year in which the Company's agency force had set a new mark in producing new business.

PLAYING THE GAME FAIR

By W. H. Marshall

Dear Sirs:

Enclosed please find \$10 to pay for some towels, about eight or ten, that I stole from you about ten years ago. Hoping this will pay for my mistake, I beg to remain,

Sincerely yours,
Anonymous

This man wanted to get right with the world and especially his own conscience before he landed on the battle field. His letter was bearing evidence to the truth that you cannot do wrong and feel right.

Look at this fact. You cannot do wrong and feel right because doing wrong brings with it fear of discovery. To do things that we know deep down we should not do may for a moment bring a sense of exultation, but sooner or later a hang-over will come. This fear of discovery can haunt us during restless days and sleepless nights.

To live in conscious dread of failing to measure up to what is expected, of being proven guilty, of its being known that you committed a deed unworthy of your name and heritage-such fear can tear your inward parts and sap

THE DEVIL'S RIVER NEWS

your energies needed for labor and service.

A great American said it like this: "To keep clear of concealment, to keep clear of the need of concealment-that seems to me to be the glory of a young man's life."

In the second place, doing wrong carries with it an uneasy conscience; and a man cannot feel right with a disturbed conscience. Man was made to do right. That is how much God he has in him. When he fails God, he fails the common-sense purpose of his life.

Shakespeare was thinking of this when he wrote:

A peace above all earthly dignities,

A still and quiet conscience.

Paul was thinking of the peace and satisfaction which come with honest living when he wrote: "Finally, brethren, whatever things are true, whatever things are honest, whatever things are just, whatever things are pure, whatever things are lovely, whatever things are of good report; . . . think on these things. . . And the God of peace shall be with you."

A LOOK AT THE BOOK

By DR. BOB JONES, JR.
PRESIDENT OF BOB JONES UNIVERSITY
GREENVILLE, SOUTH CAROLINA

God never commands us to do something without making it clear how it is to be done and without giving us strength to do it. We are told to "resist the Devil" (James 4:7); but that we may not be left in any doubt as to how we are to fight against him, God tells us in another place, "For the weapons of our warfare are not carnal, but mighty through God to the pulling down of strong holds" (2 Corinthians 10:4), indicating that it is not in our own physical strength or powers of will that we defeat him. The Lord Jesus sets us the example of how to meet Satan when He defeats him with the Word of God as He resists the temptation to turn stones into bread by saying, "It is written, Man shall not live by bread alone, but by every word that proceedeth out of the mouth of God" (Matthew 4:4); the temptation to cast Himself down from the temple by saying, "It is written again, 'Thou shalt not tempt the Lord thy God' (Matthew 4:7); and the temptation to bow the knee to Satan and receive all the dominion of the world by saying, "Get thee hence, Satan: for it is written, Thou shalt worship the Lord thy God, and him only shalt thou serve" (Matthew 4:10).

Mr. and Mrs. A. W. Awalt and Randy spent the weekend in Killean visiting Mrs. Awalt brother and family, Mr. and Mrs. Preston Prater, and her sister, Mrs. Hayden Jackson.

Elsewhere, God tells us to believe not every spirit, but try the spirits whether they are of God: because many false prophets are gone out into the world" (1 John 4:1). Certainly this command is needed in our day when on every hand are heard the clamoring voices of false cults and all sorts of religious systems and isms and when many are being led astray by Satan through them. "How may I test the spirits?" many are asking. "How may I know whether a religion is true or false?" The answer is found in 1 John 4:2,3, "Hereby know ye the Spirit of God: Every spirit that confesseth not that Jesus Christ is come in the flesh is not of God."

This verse means simply this: It is not enough to admit that there was a Man named Jesus Who at one time lived on the earth, Who was a great Teacher, and a great Miracle Worker. Almost all religious systems admit the fact of Jesus, the unusual and good Man. On the basis of history, they must; but the test of a religious system is this: "Does it admit that Jesus is the Christ? That is to say, does it admit that He is the Son of God, the Incarnate One, God come in the flesh, the Only Begotten Son of God, Lord, Saviour, Redeemer? If there is any uncertainty in the position of any cult or sect or religion on this great central fact, it is not of God. "Try the spirits"; that is, test them. Test them by this standard: Do they recognize the deity of the Lord Jesus and His identity as the Living God?

Traveling Salesman of Democracy

WASHINGTON WAS HAPPY last Spring when a foreign visitor "talked turkey" for a change—Adnan Menderes, shown above with President Dwight D. Eisenhower. Since then, Mr. Menderes, Turkey's Prime Minister, has been flying all over the globe making new friends for the democracies, armed with nothing more lethal than a brief case. This energetic 55-year-old statesman can truly be called the "traveling salesman" for democracy. Unflinchingly on the side of the U.S.A., he has visited 10 countries in 8 months selling the "democratic way" from western Europe to the Middle East.

IT'S THE LAW in Texas

A public service feature
of the State Bar of Texas

INSURANCE QUESTIONS ANSWERED

One of the most familiar types of contracts is the insurance policy, as nearly everyone carries some sort of insurance protection. Yet, few people take the trouble to read their policies and lawyers have to answer many questions regarding insurance generally.

Here is a problem frequently presented: "I have a hospitalization insurance policy. Will the company pay all of my hospital bill if I become ill?"

It may or may not. Insurance is a contract between the insurance company and the policy holder. In the usual contract the policy holder agrees to pay a certain sum of money for the policy of insurance, and the insurance company agrees that should the policy holder incur hospital expenses that the insurance company will make payment to the policy holder of stated sums, as set out in the policy of insurance.

The insurance policy itself must state the complete contract between the parties. The oral statements of agents not in harmony with the policy are not binding on the company. The company is bound to pay only such sums as are specifically set forth in the policy of insurance.

Practically all policies have a section called exceptions and exclusions. The policy holder should particularly read this section before purchasing a policy of any kind of insurance. It would be possible for a policy of insurance to have so many exceptions and exclusions as to practically nullify any benefits under the policy.

Another question often asked is: "Can I sue the insurance company which issued a liability policy covering the car of someone who runs into and damages my car?"

For all practical purposes you

may not sue the insurance company which carries insurance on the other fellow's car to protect him from suits in case of his negligence. You must look to the owner or driver of the other vehicle for your damages. Upon his becoming liable to pay those damages to you, then he in turn looks to the insurance company to make the settlement for him, or to reimburse him for the settlement which he has made.

If the case goes to trial before the jury, even though you may know that the other party carries insurance, if there arises any discussion of the fact that insurance is carried by the other party, then the courts have held that it is the duty of the trial judge to declare a mistrial.

This means that you will have to start all over again and try your case from the beginning before the jury at a later date. Your case is not dismissed, and you do not lose your rights to be heard on your case because of the word "insurance" coming into the case, but it does mean that the trial then in progress must be dismissed and you must start all over again before a new and different jury.

The theory of the appellate courts is that the mere introduction of any evidence or any testimony to the effect that there is an insurance company involved in any way in the case, is highly prejudicial to the Defendant and his cause of action.

The appellate courts further say that it is reversible error, that is, such error as will set aside the finding of the jury, if the jury is retiring to consider their verdict discuss whether or not either or both of the parties might or might not have insurance to back them up or protect them.

144 Miles Up!

LAS CRUCES, NEW MEXICO — Bound for the ionosphere the Navy's Viking Rocket #12 blasts off the floor of the New Mexican desert at White Sands proving ground near here. A blast of steam is created when the rocket engine's exhaust hit a deep cement pit (partially filled with water) near the launching stand. This Viking soared 144 miles during a primary experiment conducted to investigate the thermal barrier, which has succeeded the sound barrier as a major problem in supersonic flight.

HOTTEST BUICK IN HISTORY

No wonder you see so many 1955 Buicks on the highways — they're rolling up bigger sales than ever before in history — topping the popularity that has already made Buick one of the "Big Three" in total national sales.

**A "Small Car" price
makes it yours
—delivered and ready to roll**

WE keep coming across a good many people who still are surprised when they see the low delivered price of the Buick shown here.

They're surprised because they know that this price is just about what a lot of the smaller cars are asking—if not more.

But that's just the point.

What's making the 1955 Buick the hottest one in all Buick sales history is the simple fact that its low delivered price buys so much more automobile.

Much more automobile when it comes to the lift and life of great V8 power—Buick power in record might.

Much more automobile when it comes to style and size and room and ride steadiness—and the integrity of construction that comes of Buick building.

Much more, too, when it comes to matching your motoring needs to the simple practicality of your budget—because Buick offers you

DID YOU KNOW—

—that the Buick SPECIAL is priced below any other car of 188 horsepower and 122-inch wheelbase?
—that the Buick SPECIAL is priced below some models of the three best-known smaller cars?
—that the Buick SPECIAL gives you more pounds of automobile than any other car at its low price?

a stunning choice in just about every price class...

Like the rock-bottom-priced SPECIAL—the high-powered CENTURY—the extra-spacious SUPER—the magnificent and custom-built ROADMASTER. Each is a Buick through and through—and each is a big reason why Buick sales are soaring as never before.

Why not drop in on us this week and see how much your new-car dollars can really buy—in thrills and fun and comfort and deep satisfaction—when you buy Buick.

Thrill of the year is Buick
