Talco State Bank Hit By Burglars

Talco State Bank was hit by burglars Monday night, but they failed to gain entrance into the bank's vault. Nothing was reported missing nor tampered with, according to Jerry Jones, Talco State Bank President.

The break-in was discovered by Ronnie Logan, an employee of the bank, when he went to work about 8 a. m. Tuesday morning.

The would-be thief or thieves gained entrance into the building by the east rear door, and left the same way, leaving the door open.

In an effort to get into the vault an electric drill was used by the thieves. The time lock and the door were badly damaged, making it necessary to secure a representative of the Mosler Safe Co. in Dallas to unlock the vault. It was reported it was necessary for Buck Stansell, Talco welder, to cut a hole in the vault before repairs to the lock could be made. Repairs to the damaged vault were completed Tuesday evening.

Investigating the break-in are Titus County Sheriff's Department, the FBI and Texas Rangers. It was assumed the burglary occurred after 11 p. m. Monday, as a deputy was on duty in Talco until that time.

Austin. — Texas Department of Public Safety has issued a grim warning that 45 people will die in state traffic accidents during the Labor Day week end.

DPS will make an all-out effort to curb wrecks and to stop reckless and illegal driving on the highways, says Col. Homer Garrison Jr., veteran director of the law enforcement agency.

Approximately 150, uniformed officers from other services will supplement the regular highway patrol force for the long holiday period—Friday, Sept. 1 through Monday, Sept. 4.

In addition, a coordinated effort involving several state agencies and private organizations will be directed toward holding down the fatality and injury list.

Texas Safety Association will conduct a public information program stressing the need for courtesy and caution on the road and urging drivers to remain alert. TSA Vice-President W. F. Leonard will coordinate efforts of 12,000 Junior Chamber of Commerce members operating 200 rest stops which will serve free coffee to tired drivers.

DPS plans to carry on its educational program via newspapers, radio and television and will distribute maps showing construction sites.

A fleet of 34 to 40 cars to assist stranded motorists over the state will be operated by Texas Council of Safety Supervisors and Texas Motor Transportation Association. Purpose of the "holiday road patrol" is to relieve highway patrolmen for enforcement work.

"There is always the possibility that the estimate of 45 deaths for this period can be proved to be too high, but only if all drivers put forth every effort toward avoiding traffic accidents," Col. Garrison said.

Meanwhile, DPS has announced radar sets will be placed in every patrol district over the state to aid in enforcing highway speed laws. Sets capable of accurate readings on vehicles at distances up to 1,500 feet will be carried in patrol cars.

Speeding figured in 41 per cent of last year's fatal accidents and 29 per cent of non-fatal accidents.

SMITH IS RUNNING — Lt. Gov. Preston Smith broke open the 1968 political season by telling reporters he will run for governor next year regardless of whether Gov. John Connally plans to try for a fourth term.

"I want to make it clear once and for all that I am running," Smith said. "I have absolutely no idea what Governor Connally will do, and it doesn't make one iota of difference."

However, the Lieutenant Governor insisted that he would not make a formal announcement of his candidacy, complete with definition of issues, until Connally returns around Labor Day from his African Safari.

House Speaker Ben Barnes has indicated he will run for lieutenant governor if Connally seeks a fourth term.

Former Atty. Gen. Waggoner Carr also expressed some interest in the lieutenant governors race.

COOPER DAM — Texas Water Development Board is moving to end a squabble delaying the \$24,000,000 Cooper Dam development on the Sulphur River near Texarkana.

Argument has been over a federal requirement that 63,000-acre-feet of water annually be discharged from Lake Texarkana below the proposed dam. This to curb pollution in Red River.

TWDB has proposed that Cooper Reservoir provide about half the pollution control water, with reductions permitted if water quality improves.
