COMPLIES WITH CODE

Senior Returns To Classroom

By DORIS E. WILSON
News Staff Writer

Pampa High School senior Jon Whitsell, 18, on suspension from school because of violation of an adopted dress and grooming code, was re-admitted to classes this afternoon.

Assistant school principal Marvin Bowman said young Whitsell applied for re-admission to classes mid-morning, following a telephone conversation with the youth's father.

Bowman said the senior had complied with the grooming code approved by school officials and had been reinstated with full student privileges.

"It is my judgement, he (Whitsell) has complied with the dress and grooming code adopted by school officials," Bowman said.

Whitsell had been on suspension from school since Aug. 31, when he reported for classes with hair described by school officials as "an excessive length."

The youth's father, Dr. W.R.

Whitsell Jr. had challenged the school officials' right to decree the length of hair his son should wear and had sought an injunction in the U.S. District Court in Lubbock restraining the school board from enforcing the Code adopted by them last June.

District Judge Halbert O. Woodward Monday upheld the school board's right to set guidelines for school dress and grooming. He had issued an oral judgement that was to be followed by a written judgement "soon." The written judgement has not been made.

Following his son's reinstatement in school, Dr. Whitsell issued the following statement:

"I wish to acknowledge my abiding interest in the Pampa School System. In that system I acquired my elementary, junior and high school education, which formed the background for my graduate and post-graduate studies. I share the hope with others for the continuation of the high stature of training in the Pampa system and earnestly desire that its capabilities to educate its students continue to be enhanced.

"My son, Jon, shares these hopes with me, and his conduct and scholastic achievement mirror those feelings.

"We have no desire to eliminate any useful meaningful code. Disruptions were said to have been noted after relaxation of a previous code; however, we didn't attack the whole code, just the hair clause. If disruptions occurred because of the relaxed code, the testimony of the defendants offered no evidence that the length of hair caused it. So this part of the code is superfluous and should be eliminated.

"My son has not encroached upon the rights of others by any of his actions.

"Throughout the controversy between my son, myself and Pampa High School, we have insisted only on the right of privacy guaranteed by the bill of rights.

"Until forced to do so, we made no public action.

"We have had no desire for publicity.

"The contention of my son and myself has been and still is that length of hair has no relationship to good or to evil.

"According to Pampa High School, its status of discipline has deteriorated. Realistic administration correctly applied the greatest step in attaining good discipline.

"We would like to see more effort expended to keep students in school, rather than to waste education time measuring lengths or style of hair.

"My son is not a statistic, an animal, nor an object. He is a human personality. If you insult him he is hurt. If you break his bones he has pain. If you cut him he bleeds. He is as well as everyone else should be treated with the dignity due a human being.

"Our decision on whether to appeal the ruling in Federal Court has not been made at this time."

IT'S UNDISGUILLED
CAMBRIDGE, England (UPI)—An official of the English Heraldic Congress thinks Union Jack panties should be dropped. John Brooke-Little, chairman of the heraldry society, told congress delegates Thursday the British flag on underwear was undignified. He called on the government to state how and where the Union Jack can be displayed.

Cambodians Consolidate New Gains

PHNOM PENH (UPI)—Cambodian government troops who broke the 60-day siege of Kompong Thom are prepared for a counterattack by Communist forces, a high command spokesman said today.

He said the troops also have opened the waterways to the southwest of the city without resistance and they now are "completely secure." The lack of resistance probably was because of high flood waters, which enabled the gunboats to reach the besieged city and to open the flooded area between Kompong Thom and the lake on Tonle Sap, 30 miles to the southwest.

Intelligence reports indicated "an unknown percentage" of the 2,000-man Communist force around Kompong Thom had withdrawn toward Siem Reap, 60 miles to the northwest, the spokesman said. Siem Reap was the scene of a Communist attack earlier this week.

Despite the lack of resistance so far, the spokesman said, "We are prepared for an attack—in fact we are trying to draw them (the Communists) out so that we can kill them."

U.S. military spokesmen in Saigon said two American 4th Infantry Division troops were killed and two wounded Thursday morning in a bitter 20-minute firefight in the Central Highlands about 262 miles northeast of Saigon. The Communists withdrew before reinforcements arrived and it was not known whether they suffered losses.

The U.S. Command said Communist mortar fire directed at a U.S. Marine position in the mountain country about 342 miles north-northeast of Saigon landed in the nearby village of Hoan, killing three Vietnamese.

Hardin Names Campbell To 2 Aggie Posts

Announcement came from Washington today that Jim Campbell of Pampa has been appointed by Secretary of Agriculture Clifford Hardin to serve on two agricultural advisory committees — one national and one regional.

He was assigned to the National Cattle Industry advisory group and to the Southern Regional Farmer advisory committee.

Campbell, 38, is a graduate of Oklahoma State University. He resides at 1330 Williston in Pampa and is active in the Gray County Farm Bureau and Texas and Southwestern Cattle Raisers Association.

He is 31st District Committee member in the Panhandle and deputy state chairman of the Republican Party in Texas.

The Pampa man also has been active in the election campaigns of Congressman Bob Price, Senator John Tower and other local and national candidates.

THE TIPS come from the horses mouth for Marty Mim Mack of Santa Clara, Calif. Nine-year-old Marty is March of Dimes Foster Boy and his buddy, Arnold Palmer, is honorary national chairman of the 1971 drive. The golf champion's father had polo as a child.

Simon Named Candidate For County Office

Vincent Simon has been appointed Republican candidate for the office of Gray County treasurer, according to an announcement today by Ben Sturgeon, chairman of the Gray County Republican executive committee.

He fills the vacancy created by the resignation of Jerry Carver, who has moved from the city.

In announcing the appointment of Simon, Sturgeon said, "Vincent Simon is an honest, capable and qualified man, and when elected to the county treasurer's position, will most certainly serve the people of Gray County well."

Simon was raised in Elk City, Okla., where he graduated from high school and later attended Frank Phillips College, where he majored in accounting and economics. He served with the United States Armed Forces during the Korean conflict.

Blast Planes Threat Stands

By United Press International

Arab guerrillas today released some 60 women and children held in Amman and said they would "immediately" transfer the more than 250 other hostages still aboard three hijacked jetliners from a desert air strip into the Jordanian capital.

The hostages released in Amman were scheduled to depart for Nicosia, the capital of the Mediterranean island of Cyprus, aboard a chartered Jordanian airlines plane about 11 a.m. EDT.

The freed hostages departed from the hotel for the Amman airport in a cavalcade of taxis and private cars, all of them waving to the hotel staff and the newsmen gathered outside to see them off.

One unidentified mother remained behind even though she had gotten back her passport from the guerrillas. She said her 5-year-old daughter had not received her passport and she would remain with her daughter.

"I feel fine except I hope we don't get another hijack," said one of the freed hostages, Yvonne Addassi of Hayward, Calif.

The hostages released by the Arab guerrillas were in ebullient spirits at Amman's International Hotel, but the situation remained unclear as to Arab guerrilla plans for those still aboard the TWA, Swissair and British Overseas Airways (BOAC) jetliners parked on an air strip in the desert northeast of Amman.

The guerrillas said earlier today that they would "immediately" transfer the hostages in the planes to Amman but threatened to destroy one or more of the planes later to demonstrate that "we mean business."

A spokesman for the International Red Cross, which is negotiating with the Arab guerrillas for release of the hostages, said in a news conference at the hotel that he did not know when the passengers aboard the planes would be released.

"I cannot answer that, but I can say that negotiations are still going on and have not broken down," the spokesman said.

The Red Cross spokesman

also said that the five nations whose citizens are held hostage have pledged not to intervene with military means in an attempt to free them. The five nations involved are Britain, Israel, Switzerland, the United States and West Germany.

In Washington, however, the White House announced that armed guards would be placed on U.S. airliners on both domestic and international flights beginning Saturday as a means of deterring air piracy.

Approximately 150 persons from the three hijacked airliners were held hostage in Amman, but there was no immediate breakdown of who had been released and who would remain. Guerrillas began returning passports to some of the hostages in the hotel earlier today.

The Middle East News Agency, in a dispatch from Amman, said the Jordanian government had intervened with the guerrillas to urge release of the hostages.

As for the approximately 250 persons at the desert air strip, the Red Cross spokesman said he knew nothing except that they were still aboard the planes at midday.

The Palestine Liberation Organization (PLO), a large central body of Arab guerrilla groups, said in Amman the hostages would be moved "for humanitarian reasons." However, a broadcast over Baghdad radio quoted PLO spokesman Abu Nidal as saying the decision was taken "so international imperialism, led by the United States, cannot use the holding of the hostages as a pretext to intervene in the Arab area."

RUNNING LIKE CRAZY

Brownsville Girds As Ella Speeds Up, Menaces Coast

BROWNSVILLE, Tex. (UPI)—Hurricane Ella, a small but swift storm, gathered speed and strength today in a push toward the Texas coast, battered only a month ago by the most destructive hurricane in the state's history. Thousands fled.

The U.S. Weather Bureau said the season's fifth hurricane would hit the shoreline later today at Brownsville.

"The rapid forward speed of Hurricane Ella and its present course will bring the center across the coast near or a little south of Brownsville early this afternoon," the Weather Bureau said.

Tides of eight feet and six inches of rain were forecast for coastal areas in south Texas and northern Mexico.

"I am concerned, you ain't kidding," said T. W. Anderson of Corpus Christi, Tex., where Hurricane Celia struck 39 days ago, killing 11 persons and causing a billion dollars damage.

Ella, spinning off winds of 85 miles an hour at her center, churned through the Gulf of Mexico at 20 miles an hour. The storm's speed was unusually fast, the Weather Bureau said.

At 9 a.m., Ella's center was estimated at about 200 miles east-southeast of Brownsville. Gale winds extended out 150 miles to the north and east of the center and 75 miles to the southwest.

"Everybody's running around like crazy," said Marvin Brown, who runs an auto shop in Brownsville. But no, man, I'm not doing anything and I'm not afraid of it. I'm three-quarters Indian and if the Devil himself

came down here I wouldn't budge."

Schools, courthouses and shops closed. Lumber yards sold out of plywood as residents boarded up their homes and left.

Shelters were set up in schools and churches to house

and feed families leaving homes. Gale warnings were hoisted along 150 miles of the Texas coast from Brownsville north along Padre and Mustang islands to Port Aransas. A hurricane watch was in effect along the entire Texas shore.

Texas In Path Of Ella

NEW ORLEANS (UPI)—Just before Hurricane Celia struck Corpus Christi, Tex., on Aug. 3, it had winds about the same as Ella's early today. But when it struck the Texas coast, Celia gained in force until it reached maximum winds of 161 miles an hour. In 13 hours, Celia killed nine persons and three others died of heart attacks in Corpus Christi.

If Ella strikes the Texas coast it would be the first time two hurricanes have hit Texas in the same year. Before Celia, the last hurricane to hit the state was Beulah and if Ella maintains her present course she will hit the same spot Beulah did on Sept. 8, 1967.

Price In Paris Seeks News From Reds Of Ex-War Buddies

Pampa Congressman Bob Price was scheduled to confer in Paris this forenoon with a North Vietnamese peace delegate in the hope of obtaining information about five of his former flying buddies now held prisoners of war in North Vietnam.

Price recognized one member of his former Korean War flying team in motion pictures recently released by the North Vietnamese and shown in the United States.

The congressman flew to England last weekend as a member of the U.S. Science and Astronautics Committee.

On Tuesday Price hopped the English Channel to Paris, at his own expense, to confer with U.S. Ambassador Bruce at the Paris peace talks about chances of getting a meeting with the North Viets.

Bruce arranged a conference for 10 a.m. today (Texas time) 4 p.m. in Paris.

Price's Washington office said the Pampa congressman hoped to learn details about the captivity of his five friends with whom he flew as a U.S. Air Force first lieutenant in the Korean War. None of the five is from Texas.

Forrest Reece, the congressman's aide in Washington, said Price flew back to London from Paris Tuesday night and returned this morning for a meeting with North Vietnamese ambassador Vee, assistant chief of the North Vietnamese

Little City With Big Heart To Have Rodeo

MIAMI (Staff) — The "Little City With A Big Heart" will open its rodeo gates Saturday for the Miami-Roberts Co. Community sponsored by the Miami Chamber of Commerce.

Miami's Main Street between Commercial and Wichita will be blocked and will become a Fair Showcase for the day. It will be the "biggest fair" for the smallest populated town in the area.

Agricultural, commercial, antique, as well as works of art, produced in the Miami area, will be on display in the Community Center, American Legion, Dale Low Bldg., Masonic Hall and the City County Bldg.

Railroads Now Face Second Strike Threat, Zero Hour Near

WASHINGTON (UPI)—The nation's railroads now face a double strike threat, and it appears Congress may have to settle both disputes.

The issues involved are demands for a 40 per cent wage hike by four unions representing 500,000 of the 600,000 railroad workers, and a dispute over whether firemen should be used on diesel engines.

The railroads were already under a Monday midnight strike deadline over the wage

issue when, on Thursday, the United Transportation Union (UTU) served notice it would free to strike over the fireman issue any time after midnight Sept. 23.

President Nixon could use the Railway Labor Act to call a 60-day delay in the wage strike, but Nixon already has used the delay provision and all other legal remedies in the firemen dispute which stretches back to the 1950s.

Nixon called a 60-day cooling

off period in July and appointed an emergency board to report on the fireman issue after the UTU briefly struck three of the country's railroads.

The emergency board echoed several other neutral panels in recommending that the fireman's job be eliminated.

A source close to the negotiations said the railroads hoped to force Congress to settle both issues. They could then use the "excessive" wage increases as a lever to force passage of their request for

\$750 million in loans and subsidies for modernization of equipment and tracks.

In the wage dispute, there were reports the railroads would make a wage offer before the strike deadline Monday night. The unions claim the railroads have refused so far to make a counteroffer.

The four unions involved represent most train operating personnel, clerks, track maintenance and dining car workers.

Governor Wants Diphtheria Inoculation Made Compulsory

SAN ANTONIO, Tex. (UPI)—With the number of persons having contracted diphtheria nearing 100, Gov. Preston Smith says he will call for a law requiring all Texas school children be immunized against diphtheria and five other diseases.

Health officials reported three more confirmed cases of diphtheria Thursday. Since the first of the year, 93 diphtheria cases have been confirmed, 63 since Aug. 1.

City Health Director William R. Ross ordered quarantine signs posted on the homes of all persons having diphtheria or who are known carriers of the disease. Anyone leaving the homes are subject to \$1,000 fines.

Ross said the public is not cooperating with attempts to control the epidemic and many known carriers refuse to stay in their homes. The yellow international quarantine signs will be posted as soon as they are printed.

San Antonio health officials were checking 13 suspected new diphtheria cases, and one person in Big Spring, 300 miles northwest of San Antonio, is suspected of having the disease.

The city began a mass immunization drive just before the schools opened for the fall term in an effort to stop the spread of diphtheria. The second shot in the series was to be administered later this month.

Smith said Thursday he will ask the Texas Legislature to make such immunizations mandatory for all Texas school children. The law now says only smallpox vaccinations are required. Smith plans to make diphtheria, smallpox, measles, polio, whooping cough and tetanus immunizations mandatory.

Court Rejects Watson Plea For Stay Of Extradition

WASHINGTON (UPI)—Supreme Court Justice Hugo Black today denied a stay of the extradition of Charles D. Watson, one of four persons indicted in the Tate-LaBianca murders, from Texas to California.

He took the action without comment.

Watson, 24, a former high school honor student and star athlete, was accused of carrying out most of the killings under the direction of cult leader, Charles Manson, with the aid of

three young women members of the nomad group.

Watson was named in an indictment Dec. 8, 1969, on seven counts of murder and one count of conspiracy to murder in the Tate killings last Aug. 9 and those of Leno and Rosemary LaBianca the following day.

Watson was ordered extradited to stand trial with the others but appealed on grounds that extensive and prejudicial publicity in California had hindered his constitutional right to a fair and impartial trial.

A Texas federal court denied Watson's appeal, stating that he must seek redress for the allegedly prejudicial publicity in California courts.

Area Museum At McLean To Note 1st Anniversary

The Alanreed-McLean Area Museum will celebrate its first anniversary Saturday and Sunday with an open house. Area friends are invited to visit the museum at anytime between the hours of 9:30 a.m. and 5 p.m. Saturday and from 2 p.m. to 4 p.m. Sunday. Music will be provided by the McLean High School Band under the direction of Jerry Jans.

Mrs. Vera Black is museum curator.

Mainly About People

The News invites readers to phone in or mail items about the comings and goings of themselves or friends for inclusion in this column. A indicates paid advertising.

Season football tickets now on sale. School Business Office \$7.50 per book. 669-2531.

Material and Trim Sale only, Saturday, September 12, 7:30 to 4. Marie Foundation Pampa.

Garage sale. Carpet, stove, clothing, all sizes. Thursday till Garage Door, 625 N. Carr.

Annual yarn sale. Ends Saturday, September 12. Lib's Knit Shop.

Plant Pampas grass and grapevine now. Butler Nursery 111 E. 28th.

Garage sale: Saturday and Sunday. 1304 E. Foster.

Dord Fitz art classes — oils, beginner and advanced students — start September 21, 9:00 a.m. Cal 669-3931.

Garage sale: 1128 Cinderella. Friday-Saturday, Sunday, furniture, miscellaneous.

Garage sale: Saturday, Sunday. 203 N. Faulkner. Large assortment.

Garage sale. 600 N. Dwight. Saturday, Sunday.

Weight Watchers: classes beginning at 2:00 and 7:00 p.m. Monday, Sept. 14, First National Bank, Heritage Room, Panhandle, Texas.

Garage sale: clothes, bottles, dishes, miscellaneous. 620 E. Foster.

Antique sale: 300 N. Ward. Saturday, September 12th. 2 until 10 p.m. also Sunday evening.

Large yard sale. Antiques. Lot of goodies. All week. 720 E. Murphy.

Missing Billfold Told To Police

A black and white billfold containing \$50 in cash was taken from a purse belonging to Louise Dunn, 1300 Garland, while her car was parked on a downtown parking lot around 2 p.m. Thursday, according to police reports.

The billfold also contained her driving license, police said.

Seven stereo tapes, valued at approximately \$49, were taken from a car belonging to Ronald L. Haire, 709 Lefors, while it was parked in the 200 block of Decatur, according to police reports.

Presbyterian Services Told

Rev. Martin Hager, First Presbyterian Church pastor, will use "How Much Can We Take" as the topic for his sermon at both the 8:30 and 11 A.M. worship services, this Sunday. His text will be taken from Matthew 18:21-35. Ruling Elder Bill Ellison will serve as pulpit assistant at both services of worship.

Mrs. Fidelia Yoder, church organist, will present "Glory Be to God" as the Offertory and also prelude and postlude selections.

The Senior Fellowship will meet in the Youth Lounge, 5 p.m. Sunday to plan the coming year's program. The Junior High Fellowship will meet in the new Junior High Lounge, second floor of the Educational Building, 6:00 p.m. Sunday. This coming Wednesday the Elder's and Deacon's of the Church will meet for their monthly meeting 6 p.m. at Furr's Cafeteria.

A two-way radio was removed from a Santa Fe Railway Co. caboose, while it was parked on a siding in the 200 block of E. Atchison. The theft was reported to city police shortly after 2:30 p.m. Thursday.

DWI Fine Levied

A charge of driving while intoxicated, lodged against Beltran J. Velasquez of Wheeler, was heard in Gray County Court Thursday afternoon.

Judge S.R. Lenning Jr. fined Velasquez \$75 and costs, levied 30 days in jail and six months' probation.

Driver Cited For Speed

A two-car collision shortly after 8 p.m. Thursday in the Coronado Center netted extensive damage to one car and a citation to the driver of the other car, according to police reports.

Mrs. Norma Whiteley, 1610 N. Russell was cited for failure to control speed when the car she was driving was in collision with a car driven by Danny Ray McCaskill, 1701 Dogwood.

The McCaskill auto incurred approximately \$450 in damages, while the Whiteley auto had an estimated \$40.

Pampa Named To School Staff

Dr. William G. Waggoner, son of M.F. Waggoner, 432 Hill St., has been named to the faculty of Southwestern State College Pharmacy School in Weatherford, Okla.

He attended Pampa schools until his sophomore year when he enrolled in the Claremore Military School. After graduating from Texas Tech in 1949 with a B.S. Degree in chemistry, he was graduated from Southwestern State College with a B.S. Degree in Pharmacy. He obtained his PhD in pharmacology in June, 1970.

Since 1947, he has been an undergraduate teaching assistant in general chemistry, owner Midwest Chemical and Processing Co., in Pampa, held an undergraduate teaching assistant in Pharmacy preparations at SWSC, was a graduate teaching assistant in dispensing pharmacy, and instructor in pharmacy calculations and physical pharmacy.

Funeral services for the youth will be held at 3 p.m. Saturday in the First United Methodist Church in White Deer with the Rev. Marvin L. Roark, pastor, officiating. Burial will be in White Deer Cemetery directed by Carmichael-Whitley Funeral Directors.

Wakefield was born Oct. 23, 1951, at Quanah and attended schools at Lamar Elementary School in Pampa before the family moved to White Deer in 1961.

Survivors are his parents, Mr. and Mrs. F.H. Wakefield of White Deer; one sister, Regina Gayle Wakefield of White Deer; one brother, Gary Randal of White Deer; grandparents, Mr. and Mrs. W.E. Whitmire and Mrs. Ruth Wakefield, all of Quanah.

Approximately 180 workers from all city departments, along with members of their families, are expected to attend.

Festivities begin at 10:30 a.m. and will be highlighted by a barbecue dinner at 12 noon.

Mayor Milo Carlson will preside at the luncheon program and present service pin awards to 49 employees who have been with the city 10 years or longer.

George Campbell, personnel director in charge of arrangements for the affair, said games and contests are on the afternoon program which is expected to end around 2:30 p.m.

George Campbell, personnel director in charge of arrangements for the affair, said games and contests are on the afternoon program which is expected to end around 2:30 p.m.

Funeral services for the youth will be held at 3 p.m. Saturday in the First United Methodist Church in White Deer with the Rev. Marvin L. Roark, pastor, officiating. Burial will be in White Deer Cemetery directed by Carmichael-Whitley Funeral Directors.

Wakefield was born Oct. 23, 1951, at Quanah and attended schools at Lamar Elementary School in Pampa before the family moved to White Deer in 1961.

Survivors are his parents, Mr. and Mrs. F.H. Wakefield of White Deer; one sister, Regina Gayle Wakefield of White Deer; one brother, Gary Randal of White Deer; grandparents, Mr. and Mrs. W.E. Whitmire and Mrs. Ruth Wakefield, all of Quanah.

Approximately 180 workers from all city departments, along with members of their families, are expected to attend.

Festivities begin at 10:30 a.m. and will be highlighted by a barbecue dinner at 12 noon.

Mayor Milo Carlson will preside at the luncheon program and present service pin awards to 49 employees who have been with the city 10 years or longer.

Skellytown Gas Line Explosion Claims Its Third Victim

A gas pipeline explosion north of Skellytown Sept. 2 claimed its third life Thursday night when Michael Harold Wakefield, 18, of White Deer, died of injuries he sustained in the explosion near the Skelly-Watkins Plant.

Two other victims were James Franklin Hawkins, 29, of White Deer, an employee of K and K Construction Company of White Deer, and Dean Dalton, 49, of 729 Bradley Drive, an employee of Skelly Oil Company.

Hawkins died in High Plains Baptist Hospital Sept. 4, two days after the explosion. Dalton, a Pampa resident since 1946, died Sept. 8 in the same hospital.

Wakefield died at 9:13 p.m. Thursday at High Plains Baptist Hospital in Amarillo where he had been hospitalized since the explosion.

Officials who investigated the accident believed the explosion and flash fire were caused from dead gas remaining in the line igniting when a welding torch was applied. The White Deer construction firm had contracted to repair the line.

Funeral services for the youth will be held at 3 p.m. Saturday in the First United Methodist Church in White Deer with the Rev. Marvin L. Roark, pastor, officiating. Burial will be in White Deer Cemetery directed by Carmichael-Whitley Funeral Directors.

Airlines Seeking Anti-Hijack Confab

DALLAS (UPI) — The Airline Passengers Association has asked President Nixon to call an international conference to outlaw the hijacking of airplanes.

Jack Cox, president of the Airline Passengers Association (APA), said Wednesday such an international agreement would be signed by virtually every country including Russia and Cuba because it would be in their own best interests.

Cox said the request to Nixon was sent by telegram.

"The APA believes that sanctions must be taken against countries which refuse to sign such an agreement," the telegram said. "Airlines cannot survive if air piracy continues."

Cox, a former state legislator and unsuccessful Republican gubernatorial candidate, announced 12 recommendations the APA believes would end aerial hijackings. The recommendations

Talkative So-Called Democrats Hit By O'Brien

CHICAGO (UPI) — Democratic National Chairman Lawrence F. O'Brien said today "extreme and irresponsible statements" on the part of some "so-called Democrats" might hurt the party in the fall elections.

Without identifying those he said were making party-damaging statements, O'Brien said extremists claiming to be Democrats "have the potential to alienate voters who normally associate themselves with the Democratic Party."

"It is easy for a few so-called Democrats on the far left or far right to win considerable public attention through their extreme and irresponsible statements. But they do not speak for the party. They speak for themselves."

"As workers within the party, we must oppose extremism of all kinds from those who are a vocal but tiny minority of Americans. They do not decide the policies of our party nor do they represent the mainstream of thought within our party. They are destructive and negative people who in some instances are working to defeat Democrats."

O'Brien, appearing at a rally in behalf of the campaign of Adlai E. Stevenson III to unseat Republican Sen. Ralph T. Smith,

Girls' GI May Wear Wigs Off Duty-That Is

WASHINGTON (UPI) — Girls their own time, complaining are free to wear wigs that conform to usual hair regulations while on duty, and to wear any type they like of their own time, the Pentagon said Thursday.

A spokesman said there is no written policy on the subject but that a search of regulations showed nothing that would bar the wearing of wigs.

Soldiers and cadets have been reported for some time to be wearing long-haired wigs on

Gov. Dedicates New School

CONROE, Tex. (UPI) — Gov. Preston Smith dedicated a new \$1.5 million vocational high school today with a call for renewed efforts to see that all Texas students receive "the educational opportunity to succeed in the real, working world."

"It is my firm belief that in this important, and too often neglected, area of education lie the keys to reducing crime, mounting welfare rosters, technological displacement of workers and erosion of the family unit," Smith said.

Smith said an estimated 750,000 new jobs will be available in Texas by 1975 for persons with more than an elementary school education but less than a college degree.

Washington Window

WASHINGTON (UPI) — The debate in Congress over efforts to build new barriers against imports has obscured the basic fact that the U.S. economy is a net winner in international trade.

In the first seven months of this year, the value of U.S. exports exceeded the value of imports by more than \$2 billion. In the 12-month period ending in July, exports topped imports by more than \$3 billion.

The nation's "favorable balance of trade" is helping offset the dollar outflow resulting from overseas military spending, tourist expenditures and other transactions. Without export-import trade, the U.S. balance of payments would be much worse, possibly threatening the international position of the dollar.

U.S. restrictions on imports probably would result in retaliatory restrictions on U.S. exports. In such a trade war this nation has more to lose than win.

However, recent sharp increases in imports of some goods have damaged competing domestic industries and have cost some American jobs. The textile industry has been particularly hard hit with imports from Japan, Hong Kong, Taiwan, and Korea.

It is not hard to understand why congressmen from textile-producing areas—mostly in the South—are pressing for restrictions on imports. The same goes for lawmakers represent-

ing shoe-making and steel-producing areas.

The Nixon administration's approach has been more political than economic. As a candidate in 1968, President Nixon promised relief to the South from textile imports. When efforts to negotiate voluntary quotas with the Japanese fell through, the administration endorsed legislation to set mandatory restrictions on textile shipments.

SPEED READING COURSE SET FOR PAMPA

One Million Words? In a Single Week? CAN YOU handle that?

Yet, if you are a student or an average person in a position of average responsibility you are expected to read up to, and in many cases even more than, one million words in a single week. Think of the flood of printed material you must cope with daily. There is more and more material in print every day — and more and more people, including you, have read it.

How rapidly DO you read? And more importantly, how well do you understand and retain what you have read? Is it a chore for you to read a book? Do you back-track repeatedly? Let your mind wander to other things? Silently pronounce words to yourself as you read? If you do any of these, chances are that you not only need but would profit greatly from the Speed Reading Academy's course in Rapid Reading which is set for discussion in Pampa.

Mr. Wayne D. Scott, SRA president, said arrangements have been made to offer SRA's exclusive 7-week, 21-hour Rapid Reading course to a limited number of students in Pampa.

The course is designed primarily for the college-bound high school student, the college student and professional — but anyone over 13 years of age of average intelligence, and without visual weaknesses can quickly master the speed reading

Jet Crash Kills Pilot

TURKEY, Tex. (UPI) — A jet trainer aircraft from the Dallas Naval Air Station crashed during a thunderstorm Wednesday in Hall County in the Texas Panhandle killing the pilot. His identity was withheld.

A spokesman at the Dallas Naval Air Station said the F8K Crusader was one of two on a night training mission. The planes became separated in a thunderstorm. The second plane returned to Dallas safely.

Officials at Reese Air Force Base at Lubbock ordered the crash site, 10 miles northeast of Turkey in the southwest corner of Hall County, roped off pending the arrival of Air Force investigators.

By Abigail Van Buren

DEAR ABBY: If you could see my home, my clothes closet and my car you would probably think me the luckiest woman in the world, but here is my problem: I am so hungry for a reassuring word and a little affection. I could just die. John doesn't kiss me "hello" or "good-by."

I know he loves me, but he doesn't show it. Our sex life is satisfactory, but it's routine and wondrous.

We have a little poodle which John cuddles and plays with. When he reads the newspaper the dog snuggles in his lap while he scratches his neck and pets him. That pup gets more affection than I do. Tell me, Abby, is it normal for a wife to be jealous of a family pet?

Sometimes I get so hungry for a little sweet talk, a compliment, the feel of his arm around my waist while I'm cooking — or a chance to sit in his lap, I'd trade all the material things I have for one affectionate squeeze.

When he's asleep he wraps his long arms around me and I enjoy it so much I hate to fall asleep. He's so good and dear, and I'm so frustrated.

DEAR ABBY: I don't sit around waiting for your hormones to dry up. Make your husband notice you. You may have to shove the poodle out of his lap, but you can make it up to him (the dog) come "Be Kind to Animals Week." Greet him at the door with a kiss that has a future in it. Compliment him. Be aggressively affectionate and if nothing happens, well, you haven't lost anything. But I'm betting you wake him up.

DEAR ABBY: What do you think of a minister who stands outside the girls' shows during the week of a local fair to see how many people he knows go in?

DEAR DISGUSTED: He's not very bright. Some of the people might see him standing there and think he just came out.

DEAR ABBY: After 15 years of a "basically sound and seemingly happy marriage, my wife has decided she would like to sleep with another man. She says she hasn't anyone particular in mind, but, of course, he must be "special."

Apparently this idea has been simmering for several years and has only just come to light recently.

My wife is a bright woman and believes in total honesty. She says she hates to grow old never experiencing anyone but me.

Now I am confused. Is this kind of honesty necessary? And if so, should I be able to accept it, laugh it off, or would you say our marriage is in serious trouble?

DEAR ANONYMOUS: I would say your marriage is in serious trouble. Your wife wants more than "total honesty," she wants "permission." No matter how she slices it, it's still baloney.

DEAR ABBY: Our next door neighbor is a relatively pleasant person, but on two occasions recently, when he was high, he came over here and got belligerent and profane toward my wife and children.

I am entering my dotage (64) and abhor violence. However, I was boxing champ of my World War II outfit. If this neighbor acts up a third time, I may find the overpowering urge to skip over there and give him the "old one-two." Should I?

DEAR CHAMP: A man of your obvious intelligence shouldn't have to resort to the old "one-two."

Tell your neighbor (when he's not high) that you resent his vulgarity toward your family, and tell your family to stay away from him. That falling sign a complaint charging him with invasion of privacy (or worse, if possible).

POLLY'S POINTERS

Women Offer Methods For Stringing Pearls

By POLLY CRAMER

DEAR POLLY — I have help for Mrs. C.P. as I work in a jewelry store and have strung many pearls. We do it the following way: Start with nylon bead cord and very pointed tweezers. The first knot is made about three inches from the end (to allow for putting the catch on), then place the first pearl on the cord. Tie a very loose knot in the cord, insert tweezers through the center of the loop, grasping the cord where it comes through the pearl as close as possible. Work cord gently until tight on the tweezers, remove tweezers and push tight from the front of the knot. This method is quite simple after some practice.

DEAR POLLY — After watching a professional string pearls, I wondered why I had never thought of that method. Use TWO threads, preferably nylon, which is easy to run through the bead without a needle, then it is easy to tie a knot securely and close to the bead. Thread another bead, tie another knot, etc. Simple!

DEAR GIRLS — Both of these ideas are good and not too difficult IF the cord will always go through the bead. That has always been my biggest worry. Anybody have an idea for safely enlarging the holes? Also, I am sure some readers are wondering about the best and neatest way to attach the clasp.

DEAR POLLY — I accidentally overheated my iron while lightly pressing a new dress made of a polyester material. This left a shiny spot on the material which I have not been able to remove. I hope someone will come up with a suggestion

that will solve this problem.

Child Psychiatrist Labels 'School Phobia' As Tension

BROOKLYN, N.Y. (NEA) — Several years ago curly haired Janie came home from school one evening and was taken to stay with relatives in another section of town while her home was being remodeled.

The next morning Janie got up, dressed for school and began a tree blocks' walk to meet her third-grade friends. Shortly after leaving her home, Janie's case is familiar to a majority of parents. According to Dr. Norman Sher, father of two small children, school

phobia is increasing. "It reflects the tension of our times," he says quietly. "I do not consider such behavior a true phobia, though, and it touches youth from 5 to 18 but you see it mainly in children entering kindergarten and first grade."

Although Sher suggests parents relax when a child comes up with the school-dodging symptoms most adults remember using, he urges them to treat the problem quickly. The child who uses a headache, stomachache, actually gets nauseous and vomits to avoid a day or two of classes or runs home from school and refuses to leave home is to Sher a reasonably healthy child.

Why, then, does he refuse to go to school? Sher explains that his actions show an apprehension about leaving home. "I differentiate this behavior, often after a vacation, on Mondays or at the

start of a new semester, from out-and-out truancy, from schizophrenia or mental illness where the child actually withdraws from life."

The child in most cases isn't afraid of school but of leaving home, he repeats. This is why it is necessary to get the youngster back in school immediately and then try to find out what is wrong.

"Don't treat school phobia like the measles and expect it to go away. It will go away but the underlying cause needs to be brought to the surface or deeper troubles may result."

Sher points out that a healthy child may hide out during the day and then go out to play when friends come home. Behind the problem may be the child's sense of tension within the family.

"A mother," Sher explains, "may be afraid that something will happen to the child while he is away from home. Or she may get particularly angry with one child in the family, feel guilty about this and repress the feelings. A death in the family, an auto accident, an elderly person living within the home may bring counter concern for the youngster. This puts him in a bind and makes him reluctant to leave home."

Sometimes a child is a borderline retardant or is having reading difficulties that disturb him, but Sher does not put a child with these problems in his "school phobia" group.

Pampa DAR Chapter Studies Constitution

In the Las Pampas Chapter Daughters of the American Revolution luncheon recently in Furr's Cafeteria, Mrs. Henry Merrick, regent, presided and announced the theme "Where Law Ends, Tyranny Begins," by William Pitts was chosen for the year 1970-71.

The Ester McCrory and the Liano Estacado Chapters of Amarillo will host a luncheon to observe Constitution Day Sept. 17 at noon in the Amarillo Country Club. Dr. A.B. Martin, president of Amarillo College will be speaker. Chapter members are invited to attend. Reservations must be made with Mrs. W.S. Dixon by Monday. The Division meeting will be held Sept. 21-22 in San Angelo.

In Miss Mellic Bird Richey's program on the Constitution of the United States of America, she mentioned "the Constitution is 183 years old and is the product of some of the best minds of that time. The 55 men who met for that convention in May 1787, in Philadelphia were men of character and determination. They spent a long hot summer arguing each point and finally the end was reached. On Monday, Sept. 17, the members of the convention met and signed the Constitution. So well was the work done that there have been only 25

amendments in nearly two centuries."

"There are those who would destroy our Constitution. There are detractors who say the Constitution is obsolete. Even though it has never been revised it has continued to develop in response to demands of our ever growing society," she said.

"The great principles of the Constitution have been in tune with the beliefs and hopes of an expanding democracy. These principles include the sovereignty of the people, supremacy of our National Government, respect for the States, and division of power among the three equal and independent branches of the government, separation of church and state, and rule by a clear cut majority," Miss Richey said.

Visitors introduced were Mrs. Thelma Hopkins and her sister, Mrs. Clara P. Smith of Altus, Okla. Other members present were Mmes. W.S. Dixon, J.B. White, John McKenney, P.R. Britton, W.A. Rankin, J.M. Daugherty, Katie Vincent, John Skelly, Turner Kirby, A.D. Hill, John Lantz and Norma Lantz.

District Board Of PTA Leaders Slates Meeting

The Board of Managers of the 19th District of the Texas Parent Teachers Association will meet at 9 a.m., Monday, in the Hospitality Room of the Citizens Bank and Trust.

Mrs. J.B. McCray of Panhandle district president, will preside at the meeting. A nominating committee to select a slate of officers for Spring election will be elected at this meeting. Plans will be discussed for the District Workshop to be held in Phillips, Oct. 6.

Board members from Pampa, Panhandle, Spearman, Wheeler, Borger, Quilgate, Phillips, Morse, Childress, Gruver, Allison, Perryton, and Waka, will attend.

Arrangements for the meeting are being made by the Pampa City PTA Council, Mrs. M.E. Courtney is council president.

NEW WAY TO BE SUDDENLY SLIM

Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim and yet completely comfortable. If you're more than 15 pounds overweight, or your waistline is larger than 32 inches, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.

Suddenly Slim is an all-new kind of 4-oz. girdle constructed of science fibers. One startling innovation is the sheer nylon front panel. This is permanently stiffened by a science process, and cannot give or sag. It's surrounded by a slimming action border. A feather-stitched panel down each side of this girdle will contour your hips if they are a problem.

The girdle itself is of a "wonder" Lycra spandex blend. It's a new power net consisting of nylon, acetate and spandex. It is so comfortable, but has such slimming strength, it gives your figure everything that's possible with a foundation.

"Suddenly Slim," in both girdle and panty versions, is the peak achievement of the California designer-genius, Olga. They are available at . . .

Local Church News

First Christian Church

Rev. Shelly H. Anglemeyer will deliver the Morning Message for the Worship Hour this Sunday. He has chosen for his Sermon Topic "How Great Thou Art" with Scriptures selection from Psalms 48.

The choir, under the direction of Miss Rosemary Lawlor and accompanied by Mrs. John Gill, will present the Anthem.

During the Morning Worship Hour there will be a special Commissioning Service, duly electing Mr. and Mrs. Charles Stowell to represent the First Christian Church, Pampa, to delegates to the World Convention of Christian Churches to be held in October in Adelaide, Australia. Mr. David Holt, Outreach Chairman, will make the presentation of the credentials.

Sunday Evening we will have a "Back To Church School" program to allow the parents to come to the Church and meet their child's new Church School Teacher and view the curriculum to be taught. This Sunday, during the Morning Church School Hour, will be Promotion Sunday. A reception will follow the Program which will begin at 7 p.m. Refreshments will be served by the Fellowship.

Jehova's Witnesses

Lyman Pinard, the presiding minister of the Pampa Congregation of Jehovah's Witnesses, has announced the Watchtower Society will sponsor its next semi-annual circuit assembly at the Perryton Senior High School, Oct. 9-11. It is expected 50 delegates from here will be attending.

The highlight of the assembly, a discourse by L.M. Dugan on "Who Will Conquer the World in the 1970's?" certainly will emphasize God's taking a hand in man's affairs.

All sessions are free and will be open to the public.

First United Methodist Church

Services will be held at 8:45 and 11:00 a.m. in the Sanctuary. Dr. DeWitt Seago, pastor, will preach on the topic "Living On the Margin." His Scripture lesson will be taken from the book of Mark 12:24-36.

Special music for the morning services will include a solo by Mrs. Malcolm McDaniel. She will sing "Hear My Cry" by Milligan. The Sanctuary choir, under the direction of Mr. Morris Kille, will sing "God Is the Light of the World" by Haydn Morgan. Mr. Tracy Cary, organist, will play the Prelude, Offertory and Postlude.

Evening Vespers will be held at 6:00 p.m. in the Chapel with Dr. Seago preaching. Youth meetings will follow Vespers.

This week Children's Choirs will resume their regular schedule and the Women's Bell Choir will resume their regular rehearsals.

St. Vincent De Paul Church

On Sunday, Sept. 20, a Pallotine Father who has spent over twenty years in Africa will be here to speak at all the Masses.

Miss Plants addressed the Home and School Meeting on Tuesday evening, Sept. 8th, recounting her experiences in dealing with the children of St. Vincent's school in assisting them in the reading program.

At the same meeting Oct. 31 was set for the date of the annual children's carnival, on which more details will be given later.

Confraternity of Christian Doctrine Classes will start on the 27th of Sept. in the school from 10 to 11 o'clock. This will include all classes from the first through fourth year high school. Registration will take place after all the Masses on Sept. 13th and 20th.

Make certain your children are registered in this program.

Church Of Christ, Scientist

Standards for judging the true value and substantiality of the things mankind desires are set forth in the Lesson-Sermon on "Substance" to be read in all Christian Science churches on Sunday, Sept. 13.

One of the Bible quotations is from "Paul's" letter to Timothy, in which he wrote, "Charge them that are rich in this world, that they be not highminded, nor trust in uncertain riches, but in the living God, who giveth us richly all things to enjoy."

A citation from Science and Health with Key to the Scriptures by Mary Baker Eddy, Discoverer and Founder of Christian Science, reads: "To himself, mortal and material man seems to be substance, but his sense of substance involves error and therefore is material, temporal. On the other hand, the immortal, spiritual man is really substantial, and reflects the eternal substance, or Spirit, which mortals hope for. He reflects the divine, which constitutes the only real and eternal entity."

Bethel Assembly Of God Church

Rev. Roscoe Leach, an Assemblies of God missionary to Holland, will be guest speaker Sept. 13 at the Bethel Assembly of God, 1541 Hamilton, said R.C. Van Amber, pastor.

Mr. Leach was sent by the Assemblies of God to Holland upon the request of the Brotherhood for someone to aid them in organizing their fellowship and setting up a Bible school to train leaders.

Through the guidance of Leach, a Bible-based fellowship was organized, a constitution and bylaws adopted, and a ministerial list created.

Leach and his wife, Lena Mae, are active in Bible school work, literature distribution, evangelism, and operate a Teen Challenge Coffee House in The Hague, Holland. Leach serves as the Assemblies of God representative for The Netherlands and also serves on the Executive Board of the Brotherhood of Pentecostal Churches in Holland, a sister organization to the Assemblies of God, U.S.A.

Mr. Leach is currently traveling among the Assemblies of God churches in the United States in the interest of the Bible school. Slides, curios, costumes, and a stirring missionary message will be featured during this special missions rally.

First Baptist Church

The First Baptist Church, Pampa, will have Mr. Bob Sarpalius for their guest speaker in the 11 a.m. morning worship Sunday. Mr. Sarpalius, of Amarillo is a senior in Hardin-Simmons University, Abilene, Texas. He is a speech major, and has been active in church work at Hardin-Simmons and has led several youth revivals on the campus.

Mr. David Campbell, Minister of Music, will sing a solo and direct the Sanctuary Choir in the Choral Worship. "Here is My Life," by Reynolds. Miss Eloise Lane, organist, will play "Adagio" by Mendelssohn for the offertory.

The pastor, Dan B. Cameron, will preach for the 7 p.m. Evening Worship, and he will announce his sermon topic. The Sanctuary Choir will occupy the choir loft and sing the hymn-anthem, "We Have an Anchor" arr. by Davis. "In Times Like These" is the selection Miss Lane has chosen for the organ offertory.

The program of activities for the week includes the Week of Prayer for State Missions which is sponsored by the W.M.U. Meetings will be held at 10:00 a.m. on Monday, Tuesday, Thursday, and Friday mornings. The ladies who wish to visit during the day can pick up prospect cards from the office, and the men will visit at 7:00 p.m.

Prayer Meeting begins at 6:15 Wednesday evening when the pastor will continue teaching the book of Matthew.

Prayer Meeting is preceded by the fellowship supper at 5:30.

The Weekly Message of Inspiration...

FIRST BAPTIST CHURCH, LEFORS

Rev. DUDLEY BRISTOW

Pastor - First Baptist Church
Lefors

The TWO Ways - WHICH WAY SHALL IT BE?
You do the Choosing - You are IN one of these ways.

"Enter ye in at the strait gate: for wide is the gate, and broad is the way, that leadeth to destruction, and many there be which go in thereat: Because strait is the gate, and narrow is the way, which leadeth unto life, and few there be that find it." Matt. 7:13-14.

The cross on which Jesus died is at the fork in this road. It stands like a sentinel, pointing to the way of life. "Christ died for our sins, according to the scriptures," 1 Cor. 15:3.

The only choice any one has, who is in the Broad Way, to change his eternal destiny is to feel his need - go back to the cross - accept Jesus as Saviour, and enter the Narrow Way. It is at the Cross when our sins are blotted out. My friend, today exercise faith in Jesus - enter into life eternal. "For by grace are you saved through faith; and that not of yourselves: it is the gift of God: Not of works, lest any man should boast," Eph. 2:8-9.

Reader, you are now in one of these ways. You should know which one. God knows. He wants you to choose Jesus, and eternal life today. Now, Will you do it? "Him that cometh unto Me I will in no wise cast out," Jno. 6:37.

The Pampa Daily News

**A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE
Our Capsule Policy**

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

The News believes each and every person would get more satisfaction in the long run if he were permitted to spend what he earns on a volunteer basis rather than having part of it distributed involuntarily.

Hooked By U.S. Handouts

Recently there was something of a flap over the congressional money bills for schools. The controversy has been intense and bitter, but the point of it seems to have been missed.

The provisions of the appropriation bill are of less significance than the bill's implications. Judging from the shocked and frightened outcry, "local" school systems already have begun to depend seriously on funds from the national treasury.

It used to be they were called local schools; and some folks said they were responsive to the people of the community. Then rather suddenly, it was discovered in California and other states that local schools had become, in actuality, state schools. A hefty percentage of the money came from Sacramento. Currently, there are cries on all sides that the state tax payers should pay 50 percent of the cost of the entire local schools.

As Sacramento has been financing much of California's school costs, Sacramento has had more and more say on how the money is to be spent. Teachers must be approved by the state; textbooks must be approved by the state; curricula must be approved by the state; school buildings must be approved by the state; transportation facilities must be approved by the state.

What one, single educational function lies within the discretionary powers of a local school board? None. Local school boards shuffle the cards in a hand dealt them by the state.

Free Trade Must Endure

There never has been a war in which both sides did not suffer, and this would certainly apply to the kind of "trade war" that is threatened by the protectionist philosophy now gaining ground in Congress.

If some members of Congress are blinding themselves to the dangerous implications of enacting broad, mandatory restrictions on imports, President Nixon, to his credit, is not. This is what lies behind his threat to veto any trade bill that goes beyond the limited controls, bad enough in themselves, he has requested, mainly for relief of the U.S. textile industry.

The original bill already has been amended and expanded to include import quotas on shoes, another industry hurting from foreign competition. Lobbyists for other industries are trying to get their own interests protected in the bill. With labor unions joining in to argue that imports are taking jobs away from American workers and with an election only months away, the temptation is great for members of Congress to succumb to the protectionist fever.

For the United States of America to abandon its position as a champion of free trade for the sake of easing competitive pressures on its domestic economy would be woefully shortsighted. We are an exporting nation selling more than we buy on the world market, and aiming to sell even more. We have more to lose than to gain if economic warfare fought with tariffs and other impediments to free trade should break out among our trading partners.

The Department of Commerce estimates that 2.6 million American jobs exist because of overseas markets for our products. These include the jobs of 400,000 persons in agriculture and related fields. Our ability to sell surplus farm products abroad is already encountering resistance by protectionist forces in other countries, even without the added provocation of new trade restrictions on our part.

It is clear that "casualties" in the form of unemployment would run high if a tariff war should curtail our export markets — higher than those that some industries now are experiencing because of competition of foreign goods in our domestic market.

Space Slowdown

The 15th and last Saturn V moon rocket booster has been completed at NASA's Michoud Assembly Facility in New Orleans.

Not scheduled to be used in a mission until 1974, No. 15 will join seven other boosters and their second and third stages waiting in storage for assignments.

The \$9.3-billion Saturn-Apollo program begun 11 years ago has virtually ground to a halt. At its peak, NASA employed more than 125,000 engineers, scientists and technicians. Today, only 10,000 of them are still with the space program.

H. L. Hunt Writes

FOREIGN OIL NO LONGER CHEAP

Those who were eager to put U.S. defenses at the mercy of foreign oil obviously didn't expect their theories to be refuted so suddenly by economic realities. Why anyone would imagine that foreign owners, even socialist and other government owners, would sell oil cheap to U.S. consumers is beyond understanding. Governments like U.S. money, too.

Nearly two-thirds of the residual fuel oil used in the U.S. is imported. Now it is costing more than "expensive" domestic residual, due to Middle East disruptions, skyrocketing tanker prices and heavy worldwide demand, along with what amounts to some price-gouging by some socialist-oriented governments in some producing countries.

Residual fuel oil importation is not affected by U.S. government controls, so quotas can't be blamed; neither can domestic oil producers. Foreign residual fuel oil has risen from about \$2 per barrel to \$4 per barrel. Domestic producers, despite heavy demand, have held their price down to \$3.60 per barrel. Domestic oil had been 25 per cent higher than foreign residual but in recent days the foreign fuel has stayed at 11 percent higher than the domestic price.

This oil fuels heavy industry and electric utility generators. Heating, both home and commercial, requires electric power for circulation blowers and thermostatic controls. Pollution control adds heavily to demand for residuals, since they can be refined to a low sulphur content, a major pollutant. Declining domestic discovery and exploration, caused by political demagoguery and bad policies, diminished domestic firms' ability to fill the gap quickly when "cheap" foreign sources dry up. The consumer pays for the misguided who would depend on "cheap" foreign oil.

Question Box

QUESTION: — Where do you draw the line between community planning or the future — recreation, parks, and so on — and interference with private property and individual freedom?

ANSWER: — The only moral line that can be drawn is between owners of property. Every individual plans for himself and his future. He therefore, if unimpeded, will plan for the most beneficial use of his property. His life is his most important property. Any honest acquisition of physical possessions are natural extensions of his life.

When a community (city, county, state or national government) attempts to plan, it has a legal right to plan for development of what it legally owns. It has no moral right to plan and control the development of the lives and property of individuals.

If a group of people get together and form a voluntary association and agree to hire a planner and to abide by his decision, this is a moral action. But in government planning, a decision is based on what a majority of the city council or planning or zoning body determines is best for the people. The legal owner then is forced to conform, regardless of his own desires and his own plans.

As to planning for recreation, harbors, beaches and parks, those are logically functions of private enterprise and not of government. To the extent that political government gets into these business activities, that government is promoting more socialism.

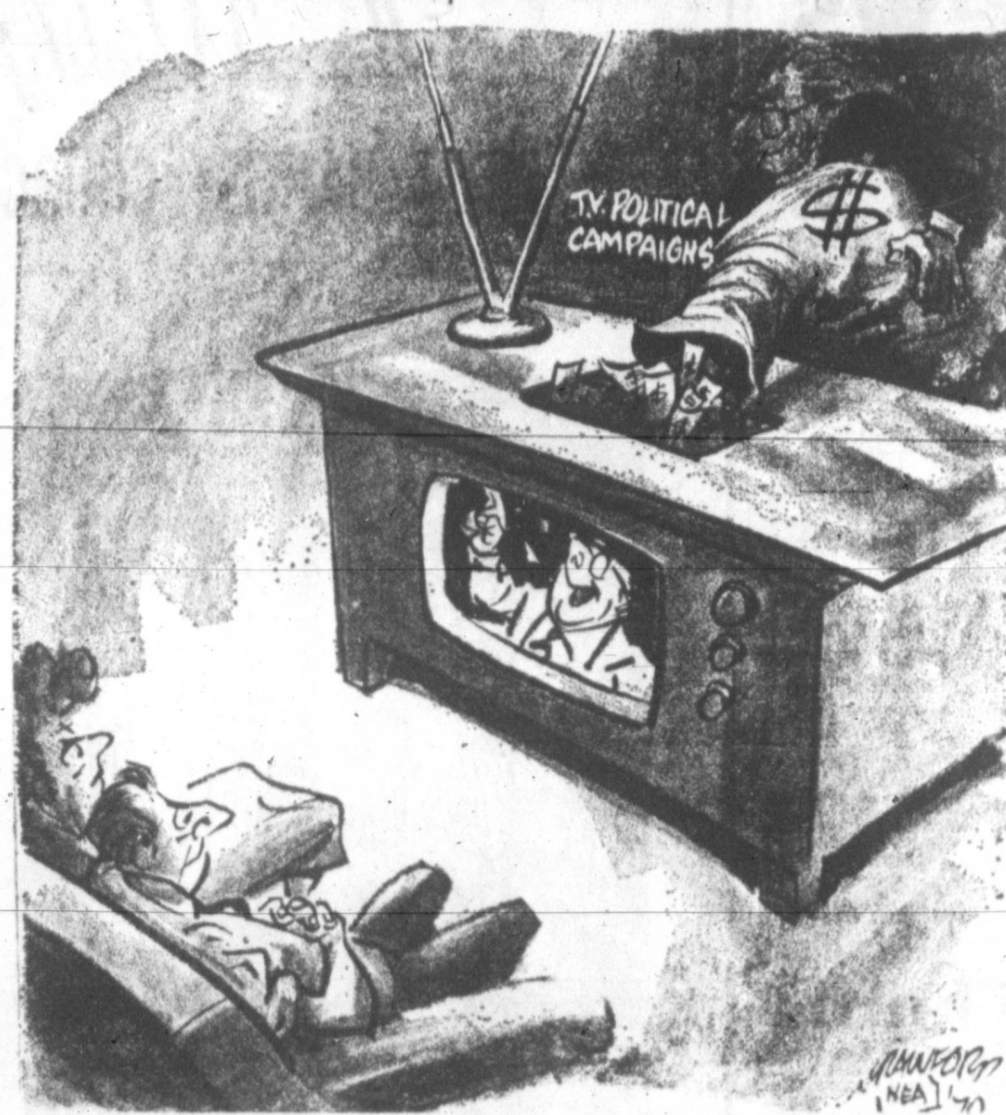

Wit And Whimsy

Ever notice? The person with the darkest tan seldom is the one who earns his or her living by working in the sun; the most stickers on baggage seldom go with widely travelled people; the loudest mouth seldom brings a great message.

This may be the machine age, but love is still man-made.

One-cylinder minds seem to enjoy using eight-cylinder words.

The People's Choice?

STRAIGHT TALK:

Pornography Gates Open

By TOM ANDERSON

The President's Commission on Pornography has concluded that pornography is all right. "There is no evidence to suggest that exposure of youngsters to pornography has a detrimental impact upon moral character, sexual orientation or attitudes.... Research indicates that erotic materials do not contribute to the development of character defects nor operate as a significant factor in antisocial behavior or in crime. In sum, there is no evidence that exposure to pornography operates as a cause of misconduct in either youth or adults," the Commission reports.

No, dear reader, the members of the Commission are absolutely not deaf, dumb and blind eunuchs. They are politicians. Politicians are themselves so polluted that nothing is pornographic to them.

"Freedom of Speech" and "academic freedom" now include the right of "performers" in the night clubs and bars to simulate sex acts. In Hollywood and San Fernando Valley night spots, "performers" now "communicate" acts of sex, natural and unnatural, with complete immunity from arrest.

Why? The Supreme Court is guilty. In the "Barrows Decision," lewd conduct can no longer be applied to a "theatrical presentation" because the theater is protected by the First Amendment, guaranteeing free speech and the "right to communicate." The same Supreme Court decision also made it legal to say the most vile words—anything.

One of the most vile phrases in American usage today is "Supreme Court."

A Gallup poll reports that 3 out of 4 people think religion in the U.S. is losing ground. Good. What we need is less "religion" and more Christianity. The poll says that the Church is losing influence too. Naturally. Too many churches have been preaching social gospel instead of Christ.

"Stop the war in Asia in order to save America!" the "liberal" columnists cry. "Putting aside the merits or demerits of the Vietnam intervention, all can agree that it has provoked a cruel war in the U.S. that cannot be stopped until the war in Asia is stopped," pontificates leftist writer Clayton Fritchey.

Fritchey is either stupid, completely misinformed on the communist conspiracy, or lying. Maybe all three.

The unswerving 50-year goal of all Communists everywhere has been and is to destroy capitalism and the U.S. If there were no such thing as a Negro, or Vietnam, or a campus, or a misguided minister, or NEC or CBS, comrades would be using the next available vehicles to bring down the "Establishment" and bring about Civil War II.

Keep your powder dry — and your eye on the "Liberals."

As you probably know, Congress recently voted to raise their own salaries from \$30,000 a year to \$42,500 a year. As you may not know, a Congressman can now retire (after 32 years) at \$34,000 a year for life. Or, at age 50 and after 20 years of "service," they can retire with half pay. They voted that steal for themselves and the best recourse we have is to vote them who voted it OUT.

In case a man is not a good enough liar and TV performer to get ELECTED, he can work for a Senator as his Number One aide at \$31,317 a year. Senators can pay two other assistants as much as \$30,000 each. A Representative's chief aide knocks down, legally, \$25,795 annually. And secretaries get from \$6,000 to \$12,000.

Now do you understand inflation a little better?

Should we taxpayers save the Penn Central railroad? It will probably take \$500 million. If the railroad goes under, it is predicted that hundreds of businesses the Penn Central owes money to will also go under.

The government (taxpayers) should NOT save the Penn Central — or other railroads, airlines, airplane manufacturers, or any other business. There are some things worse than bankruptcy. One of them is subsidy. Subsidy breeds and perpetuates inefficiency, fosters inflation, invites controls, and undermines capitalism. The government has no constitutional authority to use your money to bail out any business.

PREDICTION: — 1971 will bring higher taxes, more inflation, less profits, more "recession," increased campus revolution, and more promises by the Nixon Administration about how well its economic policies are working. 1971 COULD bring an all-out depression. Wall-to-wall bankruptcies. Monetary collapse. Wholesale unemployment. Revolution.

WORLD ALMANAC FACTS

James Whistler is noted for his painting, "Portrait of My Mother," originally entitled "An Arrangement in Grey and Black," on display in the Louvre, Paris. The World Almanac notes that his first drawing lessons were in the Academy of Fine Arts at St. Petersburg, Russia. Whistler's father was in charge of building a railroad from St. Petersburg to Moscow.

Copyright © 1970, Newspaper Enterprise Assoc.

JOHN GOLDSMITH

Inside Washington

Moscow Pressing Brazil
For Air Network Link

ROBERT ALLEN

WASHINGTON — Russia is secretly pressuring Brazil for commercial air landing rights in that country.

So far, the Brazilian government has been unresponsive.

This is the latest significant development in the Soviet's aggressive drive to establish an extensive network of commercial air routes on the western coast of South America. Two principal objectives are behind that:

(1) Establishing bases from which to press a vigorous economic, military and ideological penetration of South America.

(2) Making it possible for Aeroflot, Russia's commercial airline, to fly routes from Africa direct to South America without being subjected to U.S. surveillance. At present, all Soviet planes flying parallel to the U.S. coast from Newfoundland to Cuba are carefully scrutinized.

Meanwhile, Moscow's loudly fanfared airlift of relief supplies to Peruvian earthquake victims has come a cropper.

It has been quietly abandoned after delivering only 21 plane loads — instead of the much-advertised 65 plane loads. Further, the 21 planes that did arrive were only partially filled.

U.S. authorities attribute several reasons for this resounding flop.

Inability to overcome numerous technical and other difficulties: in moving large quantities of material halfway around the world in a short time; Russian ignorance of air routes and flight conditions; inadequacies of the giant turboprop Antonov AN-22, the Soviet's largest transport. An AN-22, carrying a field hospital to Peru, was lost in the North Atlantic in July.

After this disaster, Moscow stopped further relief flights for a week. When they were resumed, the smaller AN-12 was used and only nine of them arrived before the whole venture was dropped — far short of its hooped goal.

However, U.S. intelligence is convinced that while the Russians lost considerable face throughout South America, they didn't come out wholly short-handed.

There are important reasons to believe the Reds used the flights to amass valuable flight and other information of military as well as commercial moment. It's pointed out the

AN-22 and AN-12 are commercial versions of military transports.

Evidence of this direct relationship is that the refueling fittings of the two types of planes are identical.

There's also good reason to believe that the crews of the relief planes were from the Russian Air Force and not from Aeroflot. Significant information on this revealing clue was obtained as a result of AN-22 and AN-12 refueling stops in Iceland and Newfoundland.

The planes also made refueling landings in Cuba. There are reports that military equipment was unloaded at these stops. There's no authoritative confirmation of that.

SLAMMING THE DOOR — While Moscow is conniving and maneuvering to gain air landing rights in Latin America, Fidel Castro is barring Cubans from emigrating to Mexico and Spain.

Permits to go to those two countries are being flatly denied.

Reported purpose of this unannounced ban is to halt the loss of doctors, scientists, engineers and other professionals, and technicians.

Mexico and Spain are the only two non-communist countries with regular commercial flights to and from Cuba. Last year an estimated 5,000 Cubans migrated to the U.S. via Spain, and about half that number through Mexico.

State Department authorities estimate around 7,000 Cubans now in Spain are waiting for visas to come to this country. Another estimated 2,500 are in Mexico.

Castro's crackdown on migrating to Mexico and Spain is not affecting the twice-daily airlift from Havana to Miami that has brought more than 40,000 Cubans to the U.S. annually since 1965. That U.S.-financed program is still continuing without hitch.

Cubana de Aviacion, the Castro airline, has two scheduled flights a week to Mexico City and one to Madrid. Iberia, the Spanish airline, has one flight weekly from Havana to Madrid.

The Cuban airline has no jet planes. All its transports are old-type propeller-driven, among them DC-3s, DC-4s, and DC-6s.

PAUL HARVEY NEWS

On 'Pulled Punches' Wars

By PAUL HARVEY

Some of us are fed up with pulled-punches wars. Granted, it makes no sense constantly to harangue the President who obviously feels he is getting us out of this mess as fast as he can.

Meanwhile, however, ignored in the backwash of this dead-end war, are American sons awaiting trial for doing their duty.

This is unprecedented in the annals of war, ancient or modern. From the Roman legions through the Prussian general staff there has never been a soldier forced to defend himself in court for killing enemies in combat.

I've heard the hairsplitting attempt to make a distinction between "combat troops" and "civilians" in Vietnam. In war there are no civilians. Further, some American sons right now awaiting court martial were on a night mission in a free-fire zone.

The hypocrisy of our prosecution of this war was never brought into sharper focus than by this: that when our men destroy enemy villages with bombs we decorate them; when they do it with guns, we court martial them.

And I'm not through. The men of Company B, 1st Battalion, 7th Marines, clipped in dimes and quarters and dollars to an American lawyer to try to rescue one of their buddies — a Pvt. Michael Schwartz — who has been convicted of premeditated murder and sentenced to life imprisonment.

With proper legal representation some accused have been sprung. Pfc. Tom Boyd has been acquitted of a similar charge because an attorney went all the way from Indiana at his own expense to fight for that lad's freedom.

But others have been found

guilty and are appealing. Others face trial.

And the embarrassed military and the sensitive Congress and the aloof White House are double talking and hairsplitting and nit-picking over who gave what orders to whom and meanwhile I have letterstom men in themud who are scared to follow orders and kill an enemy and take a chance on going to prison for life.

President Nixon jumped to a premature conclusion in the Manson case and opened the possibility of a monumental legalistic snafu.

That's not the first time. Last December Mr. Nixon jumped to the conclusion that it "appears there was certainly a massacre at My Lai and under no circumstances was it justified."

I mention both only to show that we are all subject to being carried away by the prevalent public penchant for preoccupation with the rights of bad guys at the expense of good ones.

Sixty Americans including several officers stand accused of killing civilians or prisoners in Vietnam; 21 of them at My Lai.

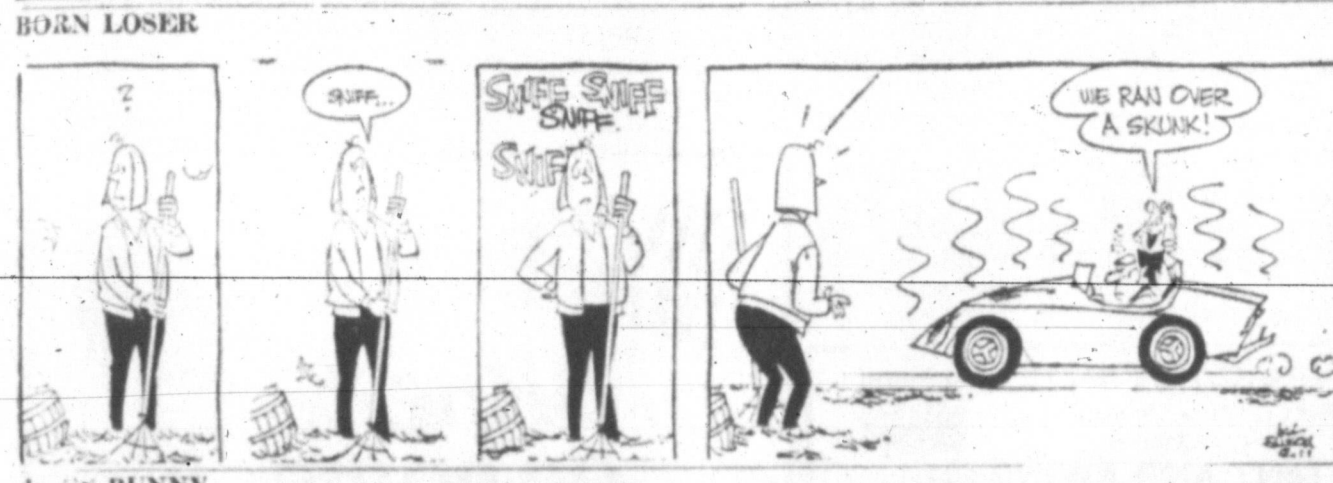

A three-judge federal panel in Atlanta, Ga., is right now preparing a ruling on whether our Constitution protects our soldiers while they wage war.

If it does not, God help them — and us.

HOW TO ADDRESS OUR LAWMAKERS
You may want to write your senators and representatives. A Washington and Austin Here are their addresses:

Your Horoscope

SATURDAY, SEP. 12
PAMPA, TEXAS
Friday, September 11, 1959

JEANE DIXON

YOUR BIRTHDAY, SEP. 12: You are going to really stretch yourself to cope with the complex situations of the year ahead. There are so many things to attend to, so many adjustments, the year will be past before you realize it. Take on a self-improvement program that will have immediate application in your regular work, or add a profitable sideline. There will be deepening ties of affection. Saturday's natives are hard workers who use their talents well. If there is anything to gain.

ARIES (MARCH 21-APRIL 19): — Keep your close associates in mind as you pursue new opportunity. New people are generally helpful. Keep track of details, as there are no short-cuts today.

TAURUS (APRIL 20-MAY 20): — Major changes are indicated now. You'll find finer details, small improvements. It's a happy day of adjustment and explanation of good friendship.

GEMINI (MAY 21-JUNE 20): — Your curiosity brings off to a good start and get busy and find out the answers you need. Creative enterprises thrive; serious study brings you perspective.

CANCER (JUNE 21-JULY 21): — Everything gets off to a good start and keep going well. Attend the many little chores you've put off for the weekend, so you're free to enjoy the evening.

LEO (JULY 22-AUG. 22): — Make a day of gentle exercise. Find the subtle nuances of communication with people you care about. Take pleasure in doing neglected routines.

VIRGO (AUG. 23-SEPT. 22): — Your early feeling is that this is an unsatisfactory day; but if you busy yourself with what has to be done, it all levels out very nicely. Then you can make optimistic plans.

LIBRA (SEPT. 23-OCT. 22): — Attend your weekend chores, actions on behalf of children and family. Much is to be gained later by completing everything you can now.

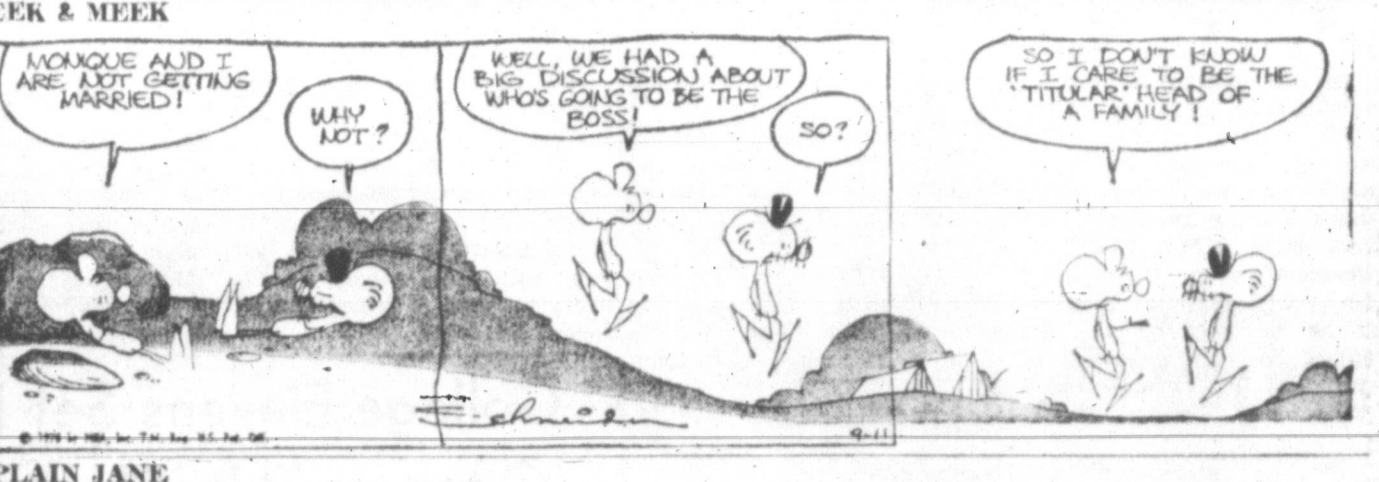

SCORPIO (OCT. 23-NOV. 21): — Put your original ideas into operation, making few changes. Improve your property, get rid of useless possessions, so you can enjoy what you do want to keep.

SAGITTARIUS (NOV. 22-DEC. 21): — Expand your horizons, seek new sights, new people. Using your mind turns out to be profitable. With your friends, find pleasant entertainment this evening.

CAPRICORN (DEC. 22-JAN. 19): — Stay busy with an overhauled campaign. Get all your projects started so you are free for bigger schemes this coming week. Plan to improve your resources.

AQUARIUS (JAN. 20-FEB. 18): — Everybody wants to be helpful and noticed. Be sociable as you clear away clutter. New ideas in the midst of your efforts bring impatience to get finished.

PISCES (FEB. 19-MARCH 20): — Begin early with a list of what is to be done, starting with the most neglected. Be selective, as this opportunity is not likely to return.

McKeithen Addresses Baptists

NEW ORLEANS (UPI) — Gov. John McKeithen has reaffirmed his faith in the Democratic system, admitting that changes may be needed, but maintaining they can still be accomplished within the framework of the U.S. Constitution.

In his opening remarks to 20,000 National Baptist Convention delegates here Wednesday, McKeithen denounced all would-be anarchists, challenging them to "go to Russia and see how they like it there."

The governor also told the organization he has "every confidence in the black man," and he feels Negroes have every confidence in him.

Joseph H. Jackson, president of the six-million-member group, reassured McKeithen that "blacks or whites who urge racial separation do not speak for black America."

"I only wish they would not use our name," Jackson added. "If there are those who wish to depart from the United States—leave and God bless you. But don't try to speak for us." He said "blacks love this nation. It's their home."

Danes Locate Missing Sub

COPENHAGEN (UPI) — The Danish Naval Command said early Thursday it had sighted one of its submarines missing since Wednesday. All 21 men aboard were safe.

The command said the submarine, the diesel-powered Narhvalen, was located by a Danish depot ship southwest of Stavanger on the west coast of Norway. It had a broken antenna, which prevented the submarine from reporting it had surfaced following a 60-hour dive.

Tonight Kicks Off Season For Area High Schools - Comments Of The Coaches

Compiled By
News Staff Writers
HARLAND HYSMITH
and **STEVE BOHLANDER**
Tonight will start telling the story for High School coaches in the Top 'O' Texas area.

After many days of putting their squads through the paces, the true test commences this evening.

Last minute changes have been made in starting rosters, some due to injuries while others have just plain beat out the competition.

In talking with coaches the past few days, Pampa Daily News staff writers have been compiling coaches' comments. These range in school size from Perryton in district 1-AAA down to Miami's 5-E eight man team.

The following is a scrap of the action that starts tonight.

McLEAN—The McLean Tigers are looking forward to bettering their 2-3 record for the 1969 season. Coach Bob Langford expressed great optimism in his junior quarterback Tommy Duniven. "The Tigers have shown great improvement over last year's team," according to Langford and he went on to say his greatest concern was lack of depth. The Tigers will kickoff their 1970 season tonight

against the Shamrock Fighting Irish.

GROOM—Pre-season injuries have really hurt our chances at the top," Groom Tiger Coach Roger Arnold said. "We have lost four of our top boys. Our top player from last year, John Crowell, developed a case of mononucleosis, he called our defensive plays, played inside and did all of our kicking. Two of our players tore knee ligaments in practice and I don't know when they will be back in the line up." Mark Brittan was the Class-B lineman of the year and Mike Ollinger was called Grooms best running back. "We lost a fourth member of the Tiger team when John Brittan broke his arm last week," according to Arnold. The Tigers are going to have a rough schedule and have had the smallest turn-out (3) in the five years Arnold has been coaching at Groom. The Bengal's open their season against Vega at Vega tonight.

WHITE DEER—An 8-3 record from 1969 and 14 returning lettermen make White Deer the team to beat in 1-A District.

The Bucks have seven returning lettermen that can play both the offensive role and the defensive role. The Bucks are being led by a new head coach, J.T. Hill. Hill says the only problem he can see at hand is the lack of dazzling speed but he said, "We are strong with our experience, available talent, and above all our winning tradition."

Coach Hill said, "We may not win all of our games this season but we may not lose any."

The Bucks will start their season against Memphis tonight at White Deer.

LEFORS—High School Coach Scott Dunnham has high hopes for his predominate Jr. team. Coach Dunnham said "Lefors' chances are better than good at getting a shot at conference this year as all of my players have good potential."

The Tigers open this season against the Wheeler Mustangs tonight at Wheeler.

Average weight for the Tigers this year is about 150 pounds. According to Dunnham, Lefors finished third in conference last year with a 2-7 record. He expects to have a better district record this year.

Dunnham said, "Our non-conference schedule for the 1970-71 season is the roughest we have had in years. Our toughest game will probably be against Claude Oct. 3."

CANADIAN—Head coach James Anglin has hopes of improving on the Wildcats' 1969 record of 3-6-1. Canadian could do very well this year as they have 13 lettermen returning to the ranks. Inexperience and lack of weight in the offensive line are the two question marks.

Lost to injuries are Joe Cross, with torn ligaments in his shoulder, Earl May, with a jammed neck, and Robert Dillman, who recently underwent brain surgery. Canadian starts off against Booker in Canadian tonight.

MIAMI—The Miami Warriors will play their first game this season against the first of three Oklahoma teams. The game, against Forgan, Okla., will start at 7 p.m. tonight in Miami.

Miami plays a different kind of football. In the well-regimented world of eleven-man

football, Miami plays with eight men. Coach Eddie Wilt will field a relatively healthy team.

WHEELER—An early summer of car wreck and a recent shoulder separation have diminished the hopes of the Wheeler Mustangs for the 1970 football season. David Britt, ace running back, was in the car wreck. Roy Don Chick, another fine running back, suffered a shoulder separation.

The Mustangs this year are not as strong as they were last year when they marked up a 7-3 record. They lack both size and speed. The Mustangs play Lefors, tonight in Wheeler to start the 1970 season.

SHAMROCK—The Shamrock Fighting Irish look extremely good in the 1970 football ratings. Topped only by Childress in pre-season predictions, coach Colie Huffman has six offensive and

five defensive returning lettermen.

Coming from an 8-2 season last year, the Irish will depend on Lynn Ramsey, a junior, to provide the offensive spark. Seniors Charles Franks and Ricky Gragg will carry the mail for Shamrock.

PERRYTON—"If we can keep everyone healthy we will have a good shot at our district. Our chances would be better if

principal this morning about the 1970 Perryton Rangers season. The Rangers have lost their number one quarterback due to a gasp in his leg received earlier in a tie scrimmage against Vernon. Danny McWhorter will be replaced by last year's B-team QB Tom Slaughter Jr.

Other Rangers on the injury list include David Flowers (1951 fullback with a bad ankle, and Craig Zoller (190) tackle, out with encephalitis.

Injuries may make the difference in tonight's opening game with Forgan at Forgan.

American Hopes Down To One In U.S. Open Play

FOREST HILLS, N.Y. (UPI)—Cliff Richey of San Angelo, Tex., is the lone American man remaining in the U.S. Open tennis championships. Today, his sister Nancy will try to bring the family name into the finals of the women's division. Nancy faces a formidable task. In her semifinal match, she opposes Margaret Court, the Australian great who has her sights firmly set on becoming only the second woman to register the grand slam of Australia, France, Wimbledon and Forest Hills.

Nancy's brother came through on Thursday against fellow-American Dennis Ralston, winning 7-6, 6-3, 6-4. Americans who challenged the Australian contingent went down to defeat. Arthur Ashe of Gum Spring, Va., rallied too late to upset second-seeded John Newcombe, who used the sudden death weapon in a 6-1, 7-6, 5-7, 7-6 victory.

Stan Smith of Pasadena, Calif. could do nothing with third-seeded Ken Rosewall, going out meekly when his service deserted him, 6-2, 6-2, 6-2.

A third Australian, fourth-seeded Tony Roche had a satisfying workout in eliminating Brian Fairlie of New Zealand, 6-3, 7-5, 7-6. Tony said he didn't mind meeting Richey in Saturday's semifinal. Cliff lost to Tony in their only 1970 encounter, in the Philadelphia indoor event in February.

Exhibition Season Wraps Up

By United Press International
Every follower of pro football is familiar with the saga of George Halas, Owner, Coach. One of the founding fathers of the professional game.

But Halas has taken on yet another dimension. Would you believe riverboat gambler?

Halas, whose Chicago Bears meet the Minnesota Vikings tonight in the 25th annual Armed Forces game at Soldiers Field in Chicago in the exhibition season's wrap-up weekend, said Thursday he is ready to wager \$15,000 on the 200-1 odds against his team winning the National Football League's Central Division title. Halas said he asked NFL Commissioner Pete Rozelle for permission to bet the \$15,000 with the provision that if he wins, the \$3 million payoff will be divided among three cancer research foundations—the Vince Lombardi Cancer Fund, the John V. Mara Cancer Fund and the Brian Piccolo Cancer Fund.

Rozelle, however, turned down with "regrets" the 75-year-old Halas's wagering scheme.

In tonight's other clash, Denver (2-2) meets Boston (0-3) at Salt Lake City.

On Saturday, Buffalo (1-4) is at Green Bay (2-0-3), San Francisco (1-3) is at Los Angeles (5-0), Baltimore (4-1) tussles with Washington (4-1), Kansas City (4-2) meets St. Louis (2-2), Detroit (3-2) visits Cincinnati (2-2-1), Atlanta (3-1) plays Miami (4-1), Cleveland (1-4) tangles with the New York Giants (2-2-1), San Diego (3-2) is at New Orleans (3-2) and Oakland (2-3) hosts Pittsburgh (3-1).

The New York Jets (2-3) and the Dallas Cowboys (1-4) clash in Sunday's nationally televised contest (CBS 9 p.m. EDT) Houston (1-4) at Philadelphia (0-4) meet in Sunday's only other game.

College Elevens Set For Openers This Weekend

By United Press International
Coach Bear Bryant isn't happy with the way things have been going lately at Alabama and he isn't likely to get much comfort looking ahead to the Crimson Tide's first opponent.

Alabama opens the new decade on Saturday at Birmingham against Southern California, considered a prime contender for the national championship.

Alabama led the 1960s in defense against scoring, but the 1969 Crimson Tide team gave up more points and more yardage than any team Bryant ever coached. During the regular season, Alabama gave up 22.1 points per game and an average of 395.6 yards—horrendous totals for a Bryant crew.

The meeting between Alabama and Southern Cal features a duel between two of the nation's leading coaches. Southern Cal's John McKay's 10-year record as head coach is 76-25-4 while Bryant's 25-year record is 193-61-15, including a 96-17-7 mark at Alabama.

The major college season actually gets started tonight with Missouri meeting Baylor at St. Louis, North Carolina A&T facing Southern U. at New York's Yankee Stadium and Alcorn A&M facing Tennessee State at Los Angeles.

In other Saturday action, Idaho is at Air Force, Holy Cross at Army, Duke against Florida at Jacksonville.

Pampa Travels To Hereford Tonight

By HARLAND HYSMITH, Hereford Whitefaces. Game time is 7:30 p.m.

DALE AMMONS, 15, will lead the Harvesters in their season opener against Hereford tonight. Drawing the starting quarterback assignment, Ammons will also show off his talents in the punting department. The Green and Gold will be on the road this evening. (Staff Photo)

Hereford is out to prove it belongs in 4-AAA competition. The Whitefaces returned only nine lettermen from last year's 8-2 season.

Head coach Larry Wartes does however have a good signal caller in Sr. Mike Wartes. He also has a balanced set of backs and an enthusiastic defense. Hereford would like to continue their winning ways and they could start with Pampa.

Pampa, however, needs to maintain the momentum started last week when they beat Vernon 22-21. Even though the Vernon game was only a scrimmage, the Harvesters proved that they can win.

Dale Ammons gets his first starting nod against Hereford. The 6'2", 175 lb. junior is better known for his kicking ability, but, he does well in the passing and running departments.

Johnny Clark looks good in the fullback spot. He broke through for some sizable gains against Vernon.

District 3-AAAA satisticians will be checking numbers closely when they watch halfbacks McCarroll and McCarrell. John McCarroll, 84, and Garvin McCarrell, 45, have similar duties in the Wishbone T. Both are starting for the first time in the right halfback and left halfback positions, respectively.

Mentally, coach Swede Lee's team is ready for the game. One thing that always helps, though, is to have a lot of Pampa fans traveling to the games.

HOOPLE KICKS OFF

Major Likes USC, Razorbacks Sees So. Carolina Over Tech

By MAJOR AMOS B. HOOPLE Peerless Prognosticator

Egad, friends, the moment of truth is rapidly approaching for the collegiate football squads, their coaches, fellow students, parents and friends!

On Saturday afternoon 68 of the major college teams will get their 1970 baptism under fire. And the firing — heh-heh — promises to be hot and heavy!

It is with a great deal of pleasure I now report to you that all the Hoople System field agents have completed their studies and funneled the resulting information to our computers in time to have it properly programmed before the season kicks off. Some of our predictions will amaze you.

Two of the big games on opening day are intersectional affairs with defending Rose Bowl winner Southern California invading Birmingham, Alabama, to take on the Crimson Tide and Arkansas hosting powerful Stanford.

Bear Bryant's 'Bama Boys will give it a good go but my calculations show the Tocjans of John McKay will prevail, 33-22. Picking a winner in Arkansas-Stanford meeting was a difficult chore. With Bill Montgomery at the controls for the Razorbacks and Jim Plunkett directing the Indians attack it should be a TV night spectacular. I predict a thrilling, last period victory for Montgomery and his mates, 27-22.

The military academies — Army, Navy and Air Force — will launch their seasons in victorious fashion. Watch for Army to level Holy Cross, 36-12. Navy to still past Colgate, 17-10, and Air Force to smash Idaho, 31-12!

Most of the favored teams should prevail Saturday, but the day will not be without a few surprises. The Hoople Formula has pegged a trio of upsets for you. The first shocker will find South Carolina edging 10-point favorite Georgia Tech by a 14-8 count. Equally as astonishing will be Kentucky's 19-17 triumph over North Carolina and Tulane's hard-won 24-21 victory over Texas Tech. Remember you read these first in Hoople — har-rumph!

Two contests of more than passing interest to football scholars pit Oklahoma against Southern Methodist and West Virginia against William and Mary. I look for the Oklahoma Sooners to win a bruising battle from SMU by a 21-14 score and for the West Virginia Mountaineers to spank William and Mary, 35-15. These West Virginia lads will bear wat-

The Old Boy Himself

ching, folks, as they are on their way to big things.

Now go on with the forecast: Air Force 31, Idaho 12 Southern Cal. 33, Alabama 22 (N)

Razorbacks, Longhorns Prove Teams To Beat For Conference Title, Arkansas Picked Number One

By MIKE RABUN
UPI Sports Writer

The Southwest Conference embarks on a new decade of football Friday night, with one new head coach, four new playing surfaces, a longer season, visions of new offensive heights and the same old favorites.

The 1970 season begins at 8 p.m. CDT when Baylor, on the verge of establishing the longest losing streak in conference history, kicks off against

the University of Missouri in St. Louis' Busch Memorial Stadium.

Five other conference clubs open their season Saturday. Arkansas will perform before national television cameras against Stanford in Little Rock. SMU tries its aerial game against Oklahoma in Dallas. Texas A&M unveils its youth movement against Wichita State in College Station. TCU unleashes its new found speed against Texas-Arlington in Fort

Worth and Texas Tech presents its new coach against Tulane in Lubbock.

The defending national champion Texas Longhorns and the Rice Owls wait until Sept. 19 to start their campaigns. They are the only two clubs not to take advantage of new NCAA regulations and schedule an 11th game.

conference title nine of the past 11 years.

This year brings the debut of Jim Carlen as coach at Texas Tech. Carlen comes to Lubbock from West Virginia, where his Plainsmen put together a 10-1 record last season. He is the fourth new coach to hit the league in four years—TCU's Fred Taylor and Rice's Bo Hagan having begun in 1967 and Baylor's Bill Beall having arrived last year.

home games on AstroTurf for the first time this year, an experience shared by SMU, Texas A&M and Rice. Arkansas and Texas installed artificial surfaces last year, leaving only TCU and Baylor with real grass.

Teams moved the ball with increasing suddenness during the 1960s. The eight conference teams scored 600 more points in 1969 than they did in 1959, an increase of more than 50 per cent. High scores should again

be the rule this year, particularly with a crowd of pass-minded quarterbacks and with most clubs lacking in defensive secondary depth.

One long pass play could decide the conference championship, just as it did last season when James Street's 44-yard pass to Randy Peschel brought Texas its 15th win against Arkansas and the national title.

1-Arkansas ... 2-Texas

It is probable the conference crown will be decided in 60 minutes of football Dec. 5 in Austin. A lot can happen in the next three months that could affect those 60 minutes of football, but if the two teams were to play today Arkansas would rate the nod.

to be sure. But he never was faced with the "must" situation as Street was in the Oklahoma, Arkansas and Notre Dame games. Until he is, Texas' hopes for another championship are clouded.

Arkansas, on the other hand, has a proven quarterback in Bill Montgomery to guide the most balanced attack in the league. And the revenge motive is running high in the Ozarks this year, something Texas might find out in December.

TV LOG SEPT. 11-SEPT. 17, 1970

Mets, Pirates Deadlocked

By STU CAMEN
UPI Sports Writer

The Pittsburgh Pirates have their own Cool Hand Luke and they are mighty thankful.

Luke Walker posted his 12th triumph, a personal high for him in pro ball, Thursday night as he stopped St. Louis on two hits in the Pirates' 2-0 victory over the Cardinals which kept Pittsburgh tied for first place with the New York Mets and one game ahead of the Chicago Cubs.

Walker helped the Pirates snap a three-game losing streak and, as Pittsburgh Manager Danny Murtagh said, "It was his (Walker's) second straight great game and it came when we really needed it."

The Pirates knew they had to win to remain tied for first since the Mets had beaten Philadelphia, 3-2, in 14 innings in the afternoon while the Cubs defeated Montreal, 9-3, also in a day contest. Elsewhere in the National League, San Francisco

sacrifice fly for the Pirate runs.

Cleon Jones' triple scored Tommie Agee with one out in the 14th inning to help the Mets past the Phils. Ron Herbel, who pitched the final inning for the Mets, got the win and Joe Hoerner took the loss.

Ernie Banks batted in four runs with a three-run homer and a single to lead Chicago over Montreal. Banks' homer was his 12th and snapped a 2-2 tie in the fourth. Milt Pappas, with seventh inning relief help from Juan Pizarro, won his 12th game. Rusty Staub slammed his 30th homer for the Expos.

Gaylord Perry of San Francisco threw a four-hit shutout against Houston for his 20th victory. Jim Perry of Minnesota already has won 22 games this season and thus the Perrys became the first brothers in big league history to each win 20 games in the same season. Willie Mays sparked the Giants' attack with his 27th homer, a single and a double.

Al Ferrera's two-run double highlighted a three-run fifth inning that gave San Diego its win over Atlanta. Southpaw Dave Roberts, who had lost 10 straight games, gained his sixth victory with relief help from Gary Ross.

Legal Publication

The City Commission of the City of Pampa, Texas, will receive sealed bids in the City Commission Room, City Hall, Pampa, Texas, until 2:30 p.m. C.D.T., Tuesday, September 22, 1970, for the following:

CONSTRUCTION OF PAVED PATH ALONG AND THROUGH CITY PARK, PER SPECIFICATIONS.

Bids may be delivered to S. M. Chittenden, City Secretary, City Hall, Pampa, Texas.

Proposals, specifications and bid forms may be secured from the office of the City Engineer, City Hall, Pampa, Texas.

The City reserves the right to reject any or all bids submitted and to waive formalities and technicalities.

S. M. Chittenden
City Secretary
September 4, 11, 1970

NOTICE TO BIDDERS

Sealed proposals addressed to the Mayor and City Council of the City of Lufkin, Texas, will be received at the City Hall, Lufkin, Texas, until 2:30 p.m. C.D.T., September 23, 1970, for furnishing all necessary materials, machinery, equipment, labor, and other items necessary to construct a Sewage Treatment Plant.

Bidders shall submit their bids on the forms attached to the Specifications and must submit therewith a Cashier's or Certified Check issued by a bank satisfactory to the Owner, or a Proposal Bond payable without recourse to the order of Carl Wall, Mayor of the City of Lufkin, Texas, in an amount not less than five per cent of the bid.

The successful bidder must furnish performance and payment bonds on the forms attached to the Specifications in the amount of 100% of the total contract price from a Surety Company approved by the Owner, holding a permit from the State of Texas to act as Surety or other acceptable to the Owner.

All lump sum and unit prices must be stated in bids and figures. The Owner reserves the right to reject any or all bids and to waive formalities in case of ambiguity or lack of clearness in stating the price in the bids. The Owner reserves the right to consider the most advantageous construction thereof, or to reject the bid. The contract will be awarded to the lowest responsible bidder.

Bidders are expected to inspect the site of the work and to inform themselves regarding all local conditions under which the work is to be done. The Contractor shall comply with all state and federal regulations regarding wages and conditions of employment. Including but not limited to those rules and regulations set forth or referred to in the specifications. The Department of Labor has made a determination of the minimum wage scale for this project and the Owner has approved and adopted said wage scale. Said scale of prevailing minimum rates of wages is set forth in the attached.

NON-DISCRIMINATION IN EMPLOYMENT

BIDDERS ON THIS WORK WILL BE REQUIRED TO COMPLY WITH THE PRESIDENT'S EXECUTIVE ORDER NO. 11246, THIS REQUIREMENTS FOR BIDDERS AND CONTRACTORS UNDER THIS ORDER ARE EXPLAINED IN THE SPECIFICATIONS.

Information for bidders, proposal forms, specifications and plans are on file with the City Secretary of Lufkin, Texas, and copies may be secured at the office of the Consulting Engineers, Merriam and Barker, 111 N. Frost Street, Pampa, Texas.

Balky Sirhan 'Gassed' From Cell In San Quentin

SAN QUENTIN, Calif. (UPI)—Sirhan B. Sirhan, convicted assassin of Robert F. Kennedy, was routed from his death row cell with teargas after refusing to return a food tray, San Quentin prison officials said Thursday.

The incident Wednesday followed several days of increasing tension on Sirhan's part because of the Middle East situation, Associate Warden James Park said.

He said Sirhan asked to send a telegram to his lawyers. Park refused to divulge the contents except to say it was on "the general subject" of the Middle East.

"The staff made the judg-

ment that the contents of the telegram were not legally urgent and told him if he wanted to write it in a letter he could send it but that he could not send the telegram," Park said.

"This made him very angry and apparently added to a certain amount of tension he has been under in the last few days," Park said. "Yesterday afternoon, Sirhan refused to give up his food tray when it was to be picked up after the afternoon meal."

"Persuasion did not work. He would not come out of the cell. A fairly small amount of gas was used and he came out without any violent incident and

is now locked up in an isolation cell awaiting a disciplinary hearing.

Park said it was "standard practice" to use teargas on prisoners who refused to come out of a cell.

"There are only two ways," he said. "You can use gas or you can go in with batons or something and try to force the prisoner physically. We feel gas is much more desirable."

Park said Sirhan had been particularly tense in the last few days, following reports from Palestinian guerrillas—later disavowed—that his release was one of their demands for the safe release of three hijacked airliners and 250

passengers in Jordan.

Sirhan's mother Mrs. Mary Sirhan tried to fly from Los Angeles to Jordan to talk to the guerrillas but she and two of his attorneys were barred by the State Department from making the trip.

UNGER HOSPITALIZED

DETROIT (UPI)—Garry Unger, 22-year old center of the Detroit Red Wings, has been hospitalized with a back injury suffered in a swimming accident on Labor Day.

Unger, who scored 42 goals and added 24 assists last season, suffered a badly bruised back and bone contusion.

Paris Peace Talks Produce 'Nothing'

PARIS (UPI)—Allied and Communist negotiators Thursday cut short their weekly session after accusing each other of blocking the Vietnam peace talks. They said they could agree only on one thing—getting together again next Thursday.

At a three-hour session, the 83rd since the Paris conference began in a flush of hope and one of the shortest meetings on record, North Vietnamese and Viet Cong delegates put forward an insistent new demand for a unilateral U.S. military withdrawal from South Vietnam and a new government in Saigon.

U.S. Ambassador David K. E. Bruce and South Vietnam's Pham Dang Lam rejected the demands. Bruce, who at 72 is

handing perhaps the most difficult diplomatic assignment of his long career, told Hanoi's Xuan Thuy and the Viet Cong's Nguyen Van Tien their attacks on the Americans were merely leading to a "sterile and endless debate."

Bruce said he was not prepared to accept the Communist warning that serious talks could begin only if the United States agreed to pull out and overthrow South Vietnam's president, Nguyen Van Thieu.

"Unfortunately, your statements here last week and again today are disappointing to those who are hoping for a new and more productive phase of these talks," Bruce said.

"A precondition is defined as something that must exist before something else can come

about. I believe it is clear which side is insisting on preconditions to serious discussions here."

Bruce said the United States sought a negotiation "in the true sense of the term—that is, one in which both sides are moved by the spirit of Thursday."

reasonable discussion and compromise, and one that can lead to a settlement taking into account the legitimate concerns of both sides."

Thuy later told newsmen, "The only agreement reached today was to meet again next Thursday."

Newsprint Prices Go Up

NEW YORK (UPI)—The rise set by a Canadian firm, Richard H. Blackledge, publisher of the Kokomo (Ind.) Tribune, warned that an industrywide \$10 per ton price increase would contribute to higher prices for both readers and advertisers.
