POLAR FLIERS AND INVENTOR IN CRASH

GEO. A. FIELD QUITS POSITION AS CITY MANAGER OF LUBBOCK

QUITS PLACE FOR ENGINEERING JOB IN DALLAS FIRM

NO OFFICIAL ACTION IS TAKEN AS YET BY COMMISSION

TO CONSIDER MATTER

EXCELLENT CONTRACT IS OFFERED HIM BY COMPANY

Geo. A. Field, former division engineer with the State Highway department in divisin 5, with headquarters here, who recently accepted the position as City Manager of Lubbock, succeeding W. H. Perkinson, whose resignation is to become effective May 15, has resigned the city post to accept a place with Nagle, Witt, Rollins and Gilchrist, general and consulting engineers, of Dallas, it became known here Saturday.

No official action has yet been taken by city authorities in connection with resignation, and it is not known when such action will be taken. Mayor Pink L. Parrish, speaking for the commission, said Saturday that the city has nothing to say at the present.

Was To Start April 15

Mr. Field was to have begun his duties with the city April 15, in the capacity of consulting engineer with Martin R. Smith, city engineer, on the paving program now under way, and was to have officially taken over the duties of city manager May 15, when Mr. Perkinson's resignation takes effect. He, however, closed a tentative contract with the engineering firm Thursday night of the past week after long deliberation over the proposal, the contract, contingent in a measure on action of the city commission, he said Saturday.

He said further that under present circumstances, considering the fact that the offer of the engineering firm brings an opportunity to continue directly in the line of his chosen profession, and the increase in financial remuneration, he felt he could not turn down the proffered contract. He said

See FIELD RESIGNS Page 4.

LEMOND CHECKS FORCE

All Officers Turned Loose and Then Re-employed To Check Badges Now Outstanding

In checking up on the personnel of the city police force, present chief John Lemond has issued a call for the return of all commissions and badges issued by former chief, T. E. May. These have been cancelled, Lemond said yesterday that new commissions would be issued to the men and he was sure that there were several badges which Chief May had issued to special officers that he knew nothing of.

He stated that no changes would be made in the present force. His object in calling for the return of the badges is to determine how many special officers still have badges, Desk Sergeant J. T. Inmon will receive the badges, Lemond said.

McKINNEY OF AMARILLO WINS DECLAMATION CONTEST

AMARILLO, April 16 (AP)—Robert McKinney of Amarillo high school won frem Wichita Falls and Abilene contestants in the tri-city declamation contest here today. The girls declamation contest was a three-cornered tie and will be held over. Opal Longan of Wichita Falls won the ex-tempore speaking contest. Wichita Falls and Abilene boys and girls teams entered the debating finals tonight.

The Weather

WEST TEXAS: Sunday and Monday partly cloudy, cooler in north portion Monday.

"Christ, The Lord, Is Risen Today. Glory Allelujah!" — An Editorial

THE lily is called the Easter flower. White and slim and fragrant as the incensed candles of the altar it is the living symbol of the day's peace and purity.

But Easter is even more than a church festival. It is a great human festival known to people of all climes, all races, all creeds, all nations. Easter is infinitely older than Christianity. It is as old as the world itself—as old as sun and moon and star.

Easter as we know it today is only the fitting Christian version of the century-old pagan spring festival when Druids gave thanks to whatever God they knew for mellow, warming sun, for bird and bloom, for leaf-veiled trees, for breezes sweet and warm.

The flowers of Easter, [illegible] lilies of the altar, but all the bloom [illegible] meadow that blanket the earth in loveliness when the spring again comes and tells the story of life everlasting as surely and sweetly as the surplited choir.

[illegible] what priest, what creed, can say more loudly than Easter. There is no death [illegible] than the bare brown bough [illegible] which, [illegible] within the crucible of the sun alchemizes [illegible] into living, breathing, swaying blossom—life from death?

We live in a day of "so many Gods, so many creeds, so many roads that wind and wind." We are baffled in mind and spirit. We grope for one light and are handed a hundred from which to choose, alone and unaided, our own light. Sometimes we feel that even darkness is more honest, safer.

But on the mountain slopes where the mountain laurel grows pink today, there is only one creed—

In the woods where anemone and hepatica and wind flower sway on slender stalk today, there is only one creed—

And in the meadows beside the still or moving waters where the violet grows purple and big, there is only one creed—

A creed which says man believes that life is good and sweet to taste, and that as a man sows in his own heart so shall he reap the bounty of this teeming world.

Blast Takes Lives Of Eight Persons In Chicago When Buildings Are Wrecked

(By The Associated Press)

CHICAGO, April 16—Desire for a bath in a tub for Easter, and a rain that followed, saved the life today of fifteen-year-old Anna Sokolsky, whose family was snuffed out by an explosion that took the lives of eight persons.

The blast wrecked a row of small stores and dwellings on the west side and fire completed the destruction. A gas pocket, a liquor still, a quantity of cleaning fluid in a tailor shop, and a bomb were blamed for the explosion, but authorities were still at sea as to the cause, after a day of investigation.

The eight persons were members of two families, that of Leonard Levin, a tailor, and Abraham Sokolsky, a dry goods merchant. Both families lived above their shops.

"We had no tub in the house", Anna told a corner's jury between sobs, "and I went to a friend's house to get ready for Easter. When I got ready to go home, it was raining, so mother gave me permission to stay for the night."

Four hours later Anna's parents, her sister and her brother, were dead.

Levin's wife, Rose, and their two sons, Albert, 20, and Leonard, jr., 14, were killed with him.

Joseph Romano, owner of a fish store in the building, was the only other survivor. He was seen running from the falling structure, his face covered with blood.

In hurried Italian he explained "I don't know what happened."

Both Romano and Andrew Cardinelli, said to have been an employe in a grocery store, in the row of buildings, were taken into custody and brought to the inquest.

THEFT OF AMERICAN DOCUMENTS RELATED

CLOSE INVESTIGATION MADE OF FORGERIES IN OLD MEXICO

(By Associated Press)

WASHINGTON, April 16.—Widespread published reports of wholesale theft and forgery of government documents at the American embassy in Mexico City were given official recognition today by the state deprtment.

Departing with a guarded announcement from the rigid silence it has observed for weeks concerning the reports, the department late today admitted that for some time an investigation had been under way "with a view to arriving at the facts and satisfactorily clearing up the situation."

The announcement followed a conference between Assistant Secretary Olds nd Lieutenant Colonel Edward C. Davis, military attache at the Mexico City embassy, and from whose office secret documents are said to have been stolen.

It disclosed that the officer is here in response to a state department request, although as late as yesterday department officials disclaimed any interest in his visit, declaring it was a war department matter. The announcement revealed also that the Consul General Alexander W. Waddell at Mexico City and members of Ambassador Sheffield's embassy staff also had been questioned concerning the theft and forgery stories.

Colonel Davis visit, the statement said, "is incidental to the investigation with the state department and the war department are carrying on with a view to arriving at the facts and satisfactorily clearing up the situation.

COOLIDGE RE-ELECTION

Senator Predicts That President Will Be Again Chosen to Head American Nation

WASHINGTON, April 16 (AP)—The flat prediction that President Coolidge will be re-elected was made today by Senator Fess, republican, Ohio, who said, in a formal statement, that the third term issue could not legitimately be raised against him.

The fear of electing a president for a third term has long ago passed, he declared, predicting that Mr. Coolidge would be the first to be nominated and elected to the presidency to serve longer than eight years.

KNIGHT TEMPLARS TO ATTEND LAMESA EASTER SERVICE

Members of the Lubbock commandery, numbering sixty Knights Templar will go to Lamesa today where an Easter service will be held there this afternoon at the high school auditorium. Rev. Jack M. Lewis, pastor of the First Presbyterian church will deliver the sermon. A large number of local Masons are to make the trip.

SCOUTS WORKING HARD

One Boy Is Awarded Eagle Badge While Many Earn Merit Badges In Past Few Months

Since January the first the Boy Scouts in this city have shown their interest in scouting by their diligence and scoutwork.

Out of a membership of one hundred and eighty six registered scouts, two hundred and sixty four merit badges have been given. One boy was awarded the most coveted rank in scouting, the Eagle badge. Thirty two second class badges, nine first class, a number of stars and four life badges have been awarded before the Court of Honor. Former scout executive Palmer, who left for the border, was a fine leader and the council that gets him will sure get their money's worth, according to the boys. Scout Executive Webb has taken his position. While the boys say that he can't take Mr. Palmer's place they are sure that he will make a place of his own in the hearts and thoughts of the scouts of the South Plains council.

Troop four, the winner of the recent Jamboree, went to Canyon Friday to compete against the "crack troop of Canyon," and the boys believe that they will win. The outcome of the contest will be announced Monday.

LIEUT-GOV. BARRY MILLER AND TWELVE STATE SENATORS TO BE GUESTS OF LUBBOCK TOMORROW

MEMBERS OF UPPER HOUSE FINANCE COMMITTEE TO TO BE ROYALLY ENTERTAINED AS THEY INSPECT TEXAS TECHNOLOGICAL COLLEGE HERE

Headed by Lieutenant-Governor Barry Miller, of Dallas, and Chairman E. A. Wood, of Granger, twelve members of the Senate Finance committee will reach Lubbock about 11 o'clock tomorrow morning to inspect Texas Tech and to be the guests of the City of Lubbock. The visitors, many of whom are accompanied by their wives, will be met in Sweetwater early Monday by Senator W. H. Bledsoe, of Lubbock, and at Post later in the morning by local boosters, who will bring them from the Garza county capital to Lubbock by automobile.

From the time they arrive in Lubbock until they leave Monday night for Austin the visiting officials will be entertained and feted by the Lubbock chamber of commerce, the citizenship and college faculty members and students.

The party will attend a meeting of the Tech student body at eleven, will be guests of the college at lunch, will inspect the college plant during the afternoon and will be guests of the citizens of Lubbock at a banquet at Hotel Lubbock Monday night.

In addition to the distinguished visitors from Austin, the entire board of directors of the Tech will be here for a meeting and to assist in entertaining the senate finance committee.

Members Are Listed

Members of the party who will be here are: Senator and Mrs. E. A. Woods, Granger; Senator and Mrs. Eugene Miller, Weatherford; Senator and Mrs. H. L. Lewis, Navasota; Senator and Mrs. R. S. Bowers, Caldwell; Lieutenant Governor and Mrs. Barry Miller, Dallas; and the following senators, unaccompanied: I. D. Fairchilds, Lufkin; Gus Russek, La Grange; John Bailey, Cuero; Charles R. Floyd, Paris; Julius Real, Kerrville; A. J. Wirtz, Seguin; Edgar E. Witt, Waco; Ed Westbrook, Sherman; and Bob Barker, of Fort Worth, clerk

See STATE SENATORS Page 4.

LEVEES CRUMBLE AS MISSISSIPPI FLOODS

WORKERS FIGHT TO DEFEND EMBANKMENTS AGAINST MIGHTY RIVER

(By Associated Press)

MEMPHIS, Tenn., April 16.—The mighty Mississippi, testing the strength of levees throughout its more than 1,200 miles from Cairo, Ill., to the sea, found additional weak spots today, despite the combined efforts of thousands of men and mules.

Here and there the sweeping waters claimed additional lives and tonight the death toll stood at eleven for the week. Seven deaths were reported today. Thurman Burris, 17, was drowned at Atkins, Ark., while trying to rescue his father and mother; a baby fell into the water at Paragould, Ark., and died; Ray Rogers, 12, was drowned in Illinois; a negro woman and her new born babe died in a refuge wagon en route to Hickman, Ky., and two negroes were drowned at Dardanelle, Ark. Four persons had lost their lives earlier in the week.

More Levees Break

To the thousands of acres of land already flooded were added a greater and heretofore untouched territory today by breaks in levees at Dorenó, Mo.; in Faulkner county and at Big Lake in northeastern Arkansas and at White Hall Landing, Ark., at the St. Francis river.

Hundreds of persons were driven from their homes or marooned in them, railway, highway and telegraph services were disrupted and unestimated property damage done as the mud-laden waters spread out.

While men worked unfalteringly to halt the devastation the weather bureau here tonight issued a special river warning, advising that additional rainfall in the Missouri and upper Mississippi valleys threatened even higher stages. Rain along the river added another hazard by softening the embankments, making them more susceptible to the restless movement of the impounded stream.

Arkansas Doubtful

Along the tributaries in Arkansas varying conditions prevailed. The White river, relieved by breaking levees, was falling, while the Arkansas and St. Francis were rising. The smaller streams also were threatening to follow the larger ones out of banks.

Hickman, Ky., where more than 800 refugees were being cared for, seemed after the break across the river at Doreno had eased the strain by permitting the water to spread over the Missouri lowland. Little Columbus, Ky., forsaken when the river took possession Thursday was without railroad facilities tonight.

While Kentucky, Missouri and Tennessee had plenty of water where no water ought to be, Arkansas was the hardest hit. Somebody's house passed through Memphis today en route to the Gulf of Mexico. Other houses were seen floating down stream at various places in the widely flooded areas.

ALMEDIA IS IMPEACHED

Mayor of Juarez Also To Be Ousted As Step In Curbing New Revolution In That Country

CHIHUAHUA CITY, Mex., April 16. (AP)—Governor J. A. Almeida of Chihuahua has been impeached by the state congress and his brother, Mayor A. B. Almeida of Juarez will be impeached. Manual Mascarenas, jr., has been elected governor by a majority of congress. Socorro Garcia, mayor of Chihuahua City, who was arrested in Juarez yesterday, will be brought here to be tried for attempted revolutionary activities. Governor Almeida has fled from town with one of his brothers and ex-chief of police, Major Tena.

The city is quiet, the changes in the government being dut to civil opinion and not to federal pressure.

General Caraveo has not yet resigned from his military position but has very strong support if he should decide to be a candidate for governor.

CLUB MEET HELD HERE

One Hundred Members From County Are Guests Of Chamber of Commerce in Gathering

Receiving recognition for their year's work, more than 100 Lubbock county club boys and girls, all honor members, gathered at the court house yesterday in their first general meeting of 1927 as guests of the Lubbock Chamber of Commerce. Sixteen clubs were reprsented at the meeting.

The opening session was held at 10 o'clock and the meetings lasted throughout the day. Sterling C. Davis, state club leader of Dallas, was the principal speaker of the morning and gave a discussion of the work as outlined for the clubs during the year. Following the morning session the visitors were served with a lunch by the Lubbock Chamber of Commerce.

In the afternoon session, a number of speakers were on the program. Miss Opal Wood, county home demonstration agent of Hale county, spoke on "The Possibilities of Club Work." while Mrs. S. M. Gordon, Hale county club leader, gave a talk on "Club Leadership." Dean James M. Gordon, of the Tech, spoke on "Citizenship." His speech was followed by County Judge Charles Nordyke who presented the certificates to the members who had completed their work for the year.

Announcing the winners of the junior Lubbock county farm contest, H. D. Woods presented checks from the Lubbock Chamber of Commerce to the following boys: Willie Wilke, $100, with a record of 14,199 pounds of milo maize heads grown from three acres of land; $75 to W. J. Grimes, who grew 14,105 pounds of milo heads from three acres; $50 to Ernest Schroeder who had a total of 10,845 pounds and $25 to Jimmy Potts who grew 10,134 pounds of maize heads on his three acres.

Carroll Doesn't Appear Ill

Here's Earl Carroll, of 'Bathtub fame' as he boarded his train at New York, bound for the Federal penitentiary at Atlanta. Before he reached Atlanta he became terribly ill and was taken from the train and lodged in a hospital at Greenville, S. C. He doesn't look very sick in this picture.

SLAMS UPON TEXAS DRAW C. OF C. IRE

BITTER PROTESTS MADE OVER ATTACKS ON STATE BY MINNESOTA MAN

DALLAS, April 16 (AP)—Vigorous protests are being lodged by many Texas Chambers of Commerce against a bulletin issued by the immigration department of Minnesota attacking Texas lands and land owners.

Joining South Texas chambers, the Dallas chamber of commerce Saturday announced that a protest against the "inflamable" and "insulting" bulletin written by the Minnesota commissioner immigration would be lodged with the governor of Minnesota.

The offending bulletin was issued by Oscar H. Smith, immigration commissioner of the Northern state under the caption "land gamblers preparing to boom Texas lands."

The affair promises to become an acute interstate controversy. Governor Dan Moody of Texas having taken up the cause at the request of numerous chambers of commerce.

John Boswell, manager of the Southwestern Development department of the Dallas chamber, denounced Smith's written statements.

BURTON ESTATE GOES TO MYERS JOHNSON OF STRAWN

FORT WORTH, April 16. (AP)—The bulk of an estate of $100,000 left by Mrs. Clara L. Burton, who died last February, will go to Myers Johnson, of Strawn, under the terms of a will filed for probate here today. Mrs. Burton's home was given as Johnson county.

Willard Burton and John L. Jackson, Fort Worth, are named as executors.

Six Borger Deputies Ousted From Office

(By the Associated Press)

BORGER, April 16 — Six deputy sheriffs were indefinitely suspended today by Sheriff Joe Owenby of Hutchinson county, following a visit of rangers to Stinnett, the county seat.

B. L. Milhollon, Clint Milhollon, W. M. Jones, M. K. Brown, Bess Webb and Tom Wilson are the deputies who left the force.

Policemen Denny Cherry, Hemmer and Jones left the Borger police force today, making a total of 14 resignations from city offices, which with the six county resignation brings the total for this county since the arrival of the rangers to twenty.

Rangers continue to make arrests and raids.

Glenn Pace, defeated candidate for commission in the last election here was named as city commissioner today to succeed I. Fleig resigned.

C. G. Purcell, eight years sheriff of Deaf Smith county and 14 years a peace officer, was made chief of Borger police today, taking the place vacated by Fred Williams. Williams resigned at the request of Governor Dan Moody. Purcell was recommended by Texas rangers here and Governor Moody to the city commission.

NEW TYPE PLANE TIPS OVER WHEN LANDING IS MADE

FOKKER, BYRD, BENNETT AND ANOTHER ARE INJURED

WERE TESTING SHIP

FLIGHT TO PARIS HAD BEEN PLANNED BY EXPLORER

(By Associated Press)

HACKENSACK, N. J., April 16. (AP)—The monoplane America, in which Lieutenant Commander Richard E. Byrd planned a dash to Paris in competition for the Orteig prize turned over this afternoon at Hasbrouck Heights after an hour's test flight and injured Anthony Fokker, Floyd Bennett, Lieutenant Commander Byrd and George Noville, a mechanic of New York.

Of the four, Bennett was the most seriously injured. He suffered a fractured thigh, a fractured rib and a fractured left shoulder. Lieutenant Commander Byrd suffered a fractured left wrist, and the other two escaped with slight injuries. Bennett and Commander Byrd were brought to the Hasbrouck hospital. Mr. Fokker, the airplane inventor, was not brought to the hospital.

Lieutenant Commander Byrd, in describing the accident, said it occurred after the plane had landed and was travelling along a runway. The tail of the craft persisted in rising, he said, and after about 100 yards it turned the ship over, Bennett being crushed against the engine.

The plane was not greatly damaged and can be repaired speedily, it was said. It is a 700 horse power craft with three motors.

It was said at the hospital that Lieutenant Commander Byrd would be unable to use his wrist for six weeks and that Bennett's injuries would lay him up indefinitely.

Noville, according to later diagnosis may have internal injuries, but he escaped fractured bones as far as surgeons could ascertain in their first examination. He also is a patient in the hospital in this town.

The accident will cause indefinite postponement of Commander Byrd's plan to attempt to fly from New York to Paris under the auspices of the America Trans-Oceanic company of which Rodman Wanamaker is president. The company was organized in 1914 with an ultimate trans-Atlantic flight as its objective.

It was said at the hospital that Bennett's injuries would keep him from the air indefinitely and that Commander Byrd would be unable to use his wrist for six weeks.

Tentative plans called for the "hop" across the Atlantic ocean in May.

NOVEL EASTER-EGG HUNT

Hundred and Eight Golf Balls Found In Water Hazard of Local Country Club

Starting out early on his Easter hunt, Hershel McFarland, Tech student employee of Bowen's drug discovered a rather productive "nest" in the Country club grounds, north of town, yesterday afternoon. The "nest" however, happened to be the club lake which yielded a total of 108 golf balls with the aid of Mac's wading and fishing.

According to McFarland, the water hazard has been rather hard on the members as his search only lasted slightly over an hour. He brought the balls to town in a tub and is thoroughly equipped to enter a tourney or go into the second-hand golf ball business. His findings, if they were sold at the regular club price, would net him $21.60.

Not so bad for one afternoon.

ATTENTION BOOSTERS!

Everyone who expects to attend the banquet Monday night when the Senate Finance committee will be honor guests at a Tech faculty-Lubbock citizens get-together party is urged to get his tickets early Monday morning.

A limited number that can be cared for at the Hotel banquet hall. The committees are anxious to have the maximum number in attendance. A majority of the tickets have already been sold.

Tickets can be secured at the following drug stores: City Drug, Lubbock drug, Hotel drug, and Bowen's drug. They can also be secured from the Chamber of Commerce offices or from any of the following individuals: L. C. Ellis, J. A. Raley, G. P. Kuykendall, F. A. Norman, Paul Sherrod, W. W. Rix and Walter Gillon.

TECH NOSED OUT BY BUFFS IN CANYON MEET

HORNSBY HITS FOR CIRCUIT AS GIANTS DEFEAT BRAVES

REDS GO INTO WIN COLUMN AS CARDS ARE BEATEN; CUBS WIN FROM PIRATES AND LOWLY PHILS DEFEAT BROOKLYN

(By the Associated Press)

BOSTON, April 16—Rogers Hornsby's clout that glanced off Smith's glove in centerfield for a home run, with Tyson on base in the seventh inning today gave the Giants a 7 to 6 win over the Boston Braves in their first meeting of the season. Although the Braves connected safely 16 times from McQuillan's delivery, hits were scarce in the pinches. Score:

Kelley's Bat Is Potent

CINCINNATI, April 16. (AP)—Cincinnati won its first game by beating the Cardinals 5 to 4 today. It was a nip and tuck game down to the finish as St. Louis threatened in the ninth and Adolfo had to be relieved by Red Lucas, with two men on base and only one out.

George Kelley, finally broke into the hit column. The first time up he drove out a two base hit to the center field wall and in the eighth he cleared the left field fence for a home run.

Wilson Scuttles Bucs

CHICAGO, April 16 (AP)—The Pittsburgh Pirates suffered their first defeat of the season today when Chicago bunched hits in the seventh inning to win the first game of the series, 5 to 2. Cooney started a fifth inning effort which netted one run and also led off the seventh inning rally which produced three. Wilson's two-bagger drove in the last two runs. Bush's steady pitching held the former world's champions to six scattered hits.

YOUTH SETS SWIM RECORD

IOWA CITY, Iowa, April 16 (AP)—A 19 year old swimming star from Georgia Tech, K. D. Young, established a inter-collegiate in the 150 yard back stroke in the finals of the national collegiate swimming meet tonight when he slashed off the distance in 1:44.

McManus Will Aid Tigers In Being Flag Contender

MARTY McMANUS

Marty McManus should prove the factor to make Detroit a real pennant contender in the American League. His acquisition from St. Louis gave Detroit what that club has needed in years—a good second baseman. Not only will McManus bolster the infield in general, but he will aid in making little Jackie Tavener a greater shortstop.

Cats Claw Steers, 5 To 3 As Spudders Beat Sports; Exporters And Cubs Win

(By the Associated Press)

DALLAS, April 16—The Fort Worth Panthers turned on the Steers of Dallas Saturday and before a home crowd of 6,000 or more took the fourth game of the series, 5 to 3. The teams have won two games each, with the victories registered on the home field of the opposition in each game.

Score by innings—

Ft Worth	040 001 000	5	9 1
Dallas	000 000 300	3	9 1

North, Burns and Bischoff; Love, McColl and Billings.

Wichita Sweeps Series

SHREVEPORT, April 16—The Spudders made a clean sweep of their series with Shreveport beating the home club 12 to 3 here today in a game that was marred by ragged fielding of the local club and several mental lapses of the infield and outfielders of the Phelan gang.

Score by innings—

Wichita Falls	030 400 022	12	13 1
Shreveport	000 020 000	3	7 6

Steengrafe and Lapan; Adkins, Clark Polvogt and Ritchie.

Waco Even Count

WACO, April 16—The Waco Cubs evened the count with the San Antonio Bears here today by a score of five to four. Freeze, Cub hurler, was hit on his left hand by a liner which put him out of the game. Miner, Waco rightfielder continued his batting streak and put his second homer out of the park.

Score by innings—

San Antonio	110 100 010	4	12 0
Waco	022 010 00x	5	10 1

Ward, Newman and Wirz; Freeze, Caldwell and Wolgamot.

Buffs Lose Swatfest

BEAUMONT, April 16.—Bolstered by heavy clouting Sad Sam Ross went eight and two thirds innings against the Buffaloes today and left-handed them out of the final game of the series, 10 to 8. Shelberg was touched freely during the four innings he worked, the Exporters getting 10 hits for nine runs during this time. Vache and Galloway poled homers out of the park.

Score by innings—

Houston	004 001 120	8	17 1
Beaumont	203 040 01x	10	14 2

Shelberg, Wiseworth, Carlton, and Burns; J. Robertson and C. Robertson.

RANCH POLO DRAWS HOST OF SPORTSMEN

FOARD COUNTY TO BE HOST TO MANY FAST TEAMS IN SPRING MEET

CROWELL, April 16.—One of the outstanding sporting events to be held in the Southwest this year will be a nine day polo tournament starting April 23 and ending May 1 at the Minnick ranch nine miles south of Crowell with polo teams entered from the University of Oklahoma; Crowell, Texas, Dallas, Fort Reno, Okla., Ponca City, Okla., Wichita Falls, and very probably army teams from Fort Sam Houston at San Antonio and Fort Sill, Okla.

In addition to the regular polo games steeple chase and quarter mile races will be held on each of the two Sundays of the tournament. Probably the outstanding feature outside of the regular polo games will be the steeple chase races covering a two mile course with over six jumps, three feet and six inches in height. Twenty starters for this event are practicaly assured including six horses from Oklahoma and other entries from many other sections of the Southwest. Every horse entered thus far is over sixteen hands in heights. This event is open to every body and will be conducted on a strictly sporting basis and a large loving cup will be given as a prize to the winner. Entries in the quarter mile races include some of the fastest horses in the Southwest and the races are expected to be among the most thrilling ever held in West Texas.

Jim Minnick, nationally known polo player, started the tournament for the first time last year and the event is said to be the only ranch polo tournament held in the United States. Approximately five thousand people were attracted to the tournament each of the two days that it was held last year when teams from Dallas, Wichita Kansas, Tulsa, Wichita Falls and Crowell, Texas, were entered. With prospects for a much larger and more successful tournament this year it is expected that the attendance for this affair will break all records for a sporting event held in West Texas. According to present indications and the results of the tournament last year there will be visitors in attendance from great distance and various sections of the United States.

El Paso Captures District Contest

ALPINE, April 16.—El Paso high school won the annual track and field meet of district seventeen comprised of 12 counties here this afternoon with 69 points. Fort Stockton was second with 31. The other teams trailed far behind. Scott Walker of El Paso was the big star of the Pass City entry, winning the century and 220 dashes. Handily Walker Smith of Alpine broke the district shot put record with a heave of 166 feet and 5 inches. The meet was sponsred by the Sul Ross State Teachers College and a record crowd attended.

Forest Avenue Wins Tenth Track Crown

DENTON, April 16 (AP)—Forest Avenue high school of Dallas piled up 48 points and won the district 10 interscholastic league field and track meet here Friday and Saturday. Oak Cliff with 17½ points was second while Weatherford was third with 14½ points.

In tennis McAfee and Lunt, North Fort Worth entrants in the girls' doubles had little trouble in winning, while Minnie Johnson of Bryan high, Dallas, won the girls singles. Barr of Oak Cliff took off the boys singles, and McDiarmid and Smith of Central high, Fort Worth, took the boys doubles.

MEXICANS PAID OFF IN ONE DOLLAR CURRENCY

RAYMONDVILLE, April 16 (AP)—Sixty one thousand eight hundred one dollar bills were paid out here Saturday by the Harding Gill company to 7,000 Mexicans clearing land near Hargill. The money represented a two weeks' payroll. The thousand acres have been cleared. Hargill is 17 miles west of here.

Former O. U. Grid Star Visits Here

'Big Bill' McKinley, former All-Missouri Valley guard while a member of Coach Bennie Owens' University of Oklahoma football team, hove into town last night from his home in Amarillo. McKinley is now in the scouting department of an oil company.

In 1921 and 1922, his last two years on the Oklahoma eleven, McKinley was placed on the All-Missouri Valley team and the latter year was frequently mentioned as an All-American forward. He is regarded as some of the best line men in Oklahoma football history.

Colored Ball Boys To Play O'Donnell

The Lubbock Sluggers, masterful colored baseball delegation under the regime of Bob Johnson, veteran colored manager for the Hubber black crew for the past ten years, will clash with the O'Donnell Cats here this afternoon at Merrill Park at three o'clock. According to Bob the Lubbock Sluggers are in prime condition and will give the O'Donnell black nine a hard battle.

This is the opening game for the Sluggers and Bob states that his crew plans to have numerous games with colored clubs on the South Plains from time to time.

A movement is under way in Japan for the passage of a law to permit women to take the bar examination.

Longhorns Sweep Triangular Meet

AUSTIN, April 16 (AP)—The University of Texas today ran off with the triangular track meet with Southern Methodist University and Baylor University, the score being 94½, 46½ and 22, respectively.

Cockrell of Texas reeled off the 100 yard dash in 9.7, two tenths of a second better than the conference record he holds jointly with Landa of Texas and Poth of Texas A and M. college.

Slaton Has Strong Track Aggregation

Coach Bivens, of the Slaton high school track and field club, was a visitor in Lubbock yesterday and stated that he would be here strong for the coming track and field meet for the Lubbock district to be held here on the 22nd and 23d of this month. Coach Bivens says that he is quite confident that Splawn, 880-yard man of his club, will make some lad hustle for first place in that event. Coach Bivens, while he has been handicapped with an inexperienced crew, has produced a goodclub.

SHE "NECKS" A ROBBER

PEORIA, Ill.—Hearing a noise in her kitchen, Mrs. George Thomas investigated, found a burglar in the act of crawling through a window. She swung a broom in righteous wrath, caused him to withdraw his hands—but not his head. For the window came down on his neck and held him fast while his own agonized cries brought neighbors and police.

The Chinese can tell time fairly accurately by looking at a cat's eyes. The pupils become more perpendicular as noon approaches and dilate as the afternoon wears on.

MATADORS SCORE 51 POINTS TO END IN SECOND PLACE IN GREAT PLAINS CLASSIC; WALKER SECOND IN POINTS

(Special to Avalanche)

CANYON, April 16.—The Texas Tech Matador track and field club won second place in the seventh annual Great Plains Intercollegiate track and field meet held here this afternoon. The Buffaloe crew, under coach Sam D. Burton, carried away the honors of the meet with a total count of 58, while the Matadors chalked up a score of 51. Montezuma fell third with 23. Southwestern Teachers college of Weatherford, fourth with 19, and N. M. M. I. fith with 1 point.

Greecy, hefty New Mexico lad of the Montezuma college, of Las Vegas, won high point honors by defeating the field. Walker was second with 16 3-4 points, while Creecy had 17. Walker, Texas Tech scintellent track and field performer, was more an all-around track man than was Creecy for Walker took part both in the track and field events while Creecy participated only in the field events. Creecy scored 17 of the 23 points made by his club.

Christian Off

Clarion Christain, Matador hurdler, while showing good in the high hurdles fell short in the 220 low hurdles and was defeated. In the recent Buffalo-Matador duel meet Christian easily outtimed Bennett, but it was reversed today.

Lowes, Buff vaulter, soared through the air here this afternoon to clear the bar at twelve feet two inches to take first.

The Buffs defeated the Matadors in their distant entries. In every distance race the Buffs scored a big majority of the counters while the Matadors were pitifully weak in the distance events.

Keith defeated Walker in the 100 yard dash; but the big lad in Scarlet hit the tap first in the 220 yard dash on Keith.

Events

120 high hurdles—Christian, Tech, 1st; Tadlock, Tech, 2nd; Jones, Wayland, third; Fowler, W. T. S. T. C. 4th; time 16 2-5 seconds.

100 yard dash—Keith, W. T. S. T. C., 1st; Walker, Texas Tech, 2nd; Aiken, Southwestern, 3rd; Kent, Clarendon, 4th; time 10 seconds.

One mile run—Anderson, Southwestern, 1st; Garrett, W. T. S. T. C. 2nd; Turned, W. T. S. T. C. 3rd; Elliott, N. M. M. I. 4th. Time 4 minutes 42 2-5 seconds.

440 yard dash—Pipkin, Montezuma, 1st; Burroughs, Texas Tech, 2nd; Cannon, Texas Tech, 3rd; Aiken, Southwestern, 4th. Time 52 3-5 seconds.

220 yard low hurdles—Bennett, W. T. S. T. C. 1st; Dixon, W. T. S. T. C. 2nd; Pace, Texas Tech, 3rd; Christian, 4th. Time 27 4-5 seconds.

880 yard run—Barwell, W. T. S. T. C. 1st; Reagan, W. T. S. T. C. 2nd; Pearson, W. T. S. T. C. 3rd; and Elliott, N. M. M. I. 4th. Time 2 minutes 4 2-5 seconds.

Running high jump—Creecy, Montezuma, 1st; Davis, N. M. M. I. 2nd; Brown, Tech, 3rd; Trejillo and Tadlock, 4th.

Javelin throw—Camel, W. T. S. T. C. 1st; Reynolds, Southwestern, 2nd; Creecy, Montezuma, 3rd; Pearson, W. T. S. T. C. 4th.

220 yard dash—Walker, Texas Tech, 1st; Keith, W. T. S. T. C., 2nd; Kent, Clarendon, 3rd; Aiken, Southwestern, 4th. Time 23 1-5 seconds.

Two mile run—Anderson, Southwestern, 1st; Crain, W. T. S. T. C., 2nd; Ramsey, W. T. S. T. C., 3rd; Webb, Texas Tech, 4th. Time 11 minutes 21 2-5 seconds.

Broad jump—Walker, Texas Tech, 1st; Lee, Texas Tech, 2nd; Kerr, N. M. M. I. 3rd; Burroughs, Texas Tech, 4th. Distance 22 feet 8 inches.

Discuss throw—Creecy, Montezuma, 1st; Payne, Texas Tech, 2nd; Pearson, W. T. S. T. C., 3rd; Sanders, W. T. S. T. C., 4th. Distance 116 feet 2 inches.

Pole Vault—Lowes, W. T. S. T. C., 1st; Deynolds, Southwestern, 2nd; Davis, Texas Tech, 3rd; Dean, Texas Tech, 4th. Height 12 feet 2 inches.

Shot put—Creecy, Montezuma, 1st; Walker, Texas Tech, 2nd; Trejillo, N. M. M. I., 3rd; Davis, Texas Tech, 37 feet 8 inches.

TECH MATADORS ARE TO INVADE SIMMONS BALL PARK MONDAY

The Matadors will leave today for Abilene where they will engage in a twin bill with the Cowboys of Simmons university. The first game will be played Monday afternoon at the Simmons Park. Coach Ewing Y. Freeland took a final workout preparatory for the Abilene jaunt and pronounced his club in good shape, with the exception of his weakness in pitchers.

"Bib" Ray Waller, veteran right-hander of the Matador pitching staff, will start the initial game with the Cowboys and either Atkinson or Eddleman will assume duties on the mound for the last game. Atkinson, hefty lad from Tom Green county, has plenty of smoke, and stuff but is greatly inexperienced in fielding his position. With constant workouts with the hefty Matador flinger he will soon develop into an efficient hurler for the Tech line.

In the four games the Matadors have worked in, the N. M. M. I. series and the W. T. S. T. C. series the hitting is rather good on an average. Early season swings have been taken and the lads of the scarlet clad nine are crashing out harder and better placed attempts on each trip. In reviewing the hits of the four games it shows:

	AB	R	H	Pct
Kaufman, rf	17	4	6	.353
Nicklaus, ss	9	2	3	.333
Rigney, 2b	18	2	4	.222

Marketer Speaks At Canyon School

CANYON, April 16—James W. Jones of the division of co-operative marketing of the department of agriculture addressed meetings at Canyon today, discussing the question of co-operative marketing as found in the United States. The students of the teachers college heard his forenoon address.

Jones was introduced by Judge L. Gough of Amarillo, president of the Texas Wheat Growers association.

ENDURANCE GOLFER STILL SWATTING LITTLE PILL

SAN ANGELO, Texas, April 16 (AP)—Doc Grahame, endurance golfer, put 34,941 strokes behind him Saturday afternoon at six when he entered Sonora to remain over Easter. He has lost 138 balls, 32 since leaving San Antonio.

COLLEGE BASEBALL

COLLEGE STATION, April 16. (AP) The Southern Methodist university Mustangs defeated the Aggie baseball team here Saturday by bunching hits with the Aggie errors. They scored twice while Hume was holding the Farmers to a single counter.

FREELAND BUSY ON FINAL PLANS FOR MEET

RED SOX ROOKIES SILENCE YANK ARTILLERY BUT LOSE, 5 TO 2

PREPARATIONS FOR 500 ATHLETES ARE NEARLY COMPLETED

Final preparations are being made by the athletic department of Texas Technological college for the annual district meet of Interscholastic League members, to be held here on April 22 and 23. Some twenty counties constitute the Lubbock Interscholastic League district and according to Coach Ewing Y. Freeland, director of athletics, there will be more than 500 high school athletes entered in the meet.

Due to the fact that the district is so large and a great number of athletes will be here two full afternoons will be used to run off the meet. The plans are somewhat reversed from the usual manner of conducting the program. This year, according to new rulings made by the executive board all places are eligible to take part in the meet, first, second, third and fourth places in every event. Where heretofore, only those participants, who won first and second in the county meets have been allowed to go into the district meets. This year it will be necessary for preliminaries in every event to be held Friday afternoon and the finals Saturday. Heretofore, the meet has been run off in one afternoon.

Many Stars Coming

Some of the best athletes in the state will be here for the meet. The strongest high schools that will be represented are: Plainview, Floydada, Lockney, Ralls, Crosbyton, Slaton, Post, Snyder, Lamesa, Tahoka, Brownfield, Littlefield, and other numerable schools. Each county will send on an average of thirty or more athletes. The twenty counties that are included in thte Lubbock district are: Andrews, Borden, Gaines, Martin, Yoakum, Hockley, Lamb, Bailey, Hale, Lubbock, Floyd, Crosby, Dawson, Terry, Lynn, Motley, Dickens, Garza, Scurry and Cochran.

The Lubbock high school alone will send in twenty-seven athletes. Coach Pinky Lowery states that every boy entered will take part in his respective contest. Among the scintellant performers that are entered for the Westerners are: Cyrus Leland, Smythe Reynols, Wilson, Dollahite, Garland Morton Smith, K. Smith and others.

Tennis will be played at the college courts and private courts over the city, according to Freeland. Several teams will be here for the meet—four teams from each county—which will be eighty teams.

Order of Events

The order of events are as follows in the track and field events: 120 high hurdles, 100 yard dash, 1 mile run, 220 low hurdles, 440 yard dash, 220 yard dash, 880 yard run, 1 mile relay. Field events: pole vault, running broad jump, discus throw, running high jump, and twelve pound shot.

Officials for the meet are announced as the members of the faculty and the Texas Tech Matador trackmen as assistants, Coach Grady Higginbotham, track and field mentor will start the races, according to Mr. Freeland.

"We are looking forward to a bigger and better meet," Coach Freeland stated in commenting on the coming track and field classic.

YOUTH SMASHES SPEED RECORDS

Frank Lockhart Sets 171.02 M.P.H. Mark As Best For Any American Driver

(By The Associated Press)

LOS ANGELES, April 14.—Race officials here announced today that Frank Lockhart, 24 year old Los Angeles pilot, attained a speed of 171.02 miles an hour, the greatest ever made by an American driver in a "baby" 91.5 cubic inch displacement car, on a dry lake bed at Muroc, Calif., north of here last Monday.

Lockhart hung up the mark while attempting to better the world's record of 203.79 miles an hour made in March at Daytona Beach Fla., by Major J. O. D. Segrave, British driver, in his "Mystery Sunbeam."

Racing north across the hard packed sands of Muroc lake, Lockhart was timed for one mile in 21.05 seconds, or a speed of 171.02 miles per hour. Piloting his car in a southerly direction against a slight breeze, the youthful driver ripped off a mile at the rate of 157.55 miles per hour. The attempts were timed by Fred J. Warner, official automobile association race starter.

The best recognized speed made by an American driver was that of Tommy Milton, 156.47 miles an hour, set by the veteran pilot, now retired, in 1919 at Daytona Beach. Milton, piloting a 183 cubic inch displacement motor car, made 151.3 miles an hour on the Muroc lake course in 1924.

In a Paris ball room the musicians must keep their eyes on a big dial like a clock face which indicates how many beats are allowed to the minute. It is controlled by the orchestra leader.

The New York Y. M. C. A. has given 2,000 bachelors quartered in its buildings a year in which to find a wife and home.

At the time of Henry VII, bailiffs were sent to collect debts. One of these was John Dun, who was so active that his name finally became synonomous with the word "bill."

Hornsby Homers To Beat Boston

Hornsby's homer, which bounced off outfielder Smith's glove in the 7th inning of the Giant-Brave game yesterday and scored Tyson ahead of him, gave his team a 7-6 victory. The Rajah hit a circuit clout on opening day against the Phillies. He is shown in the picture above denting home plate for his first four-ply swat of the season.

CONSTRUCTION OF NEW GULF PIPELINE TO BE HURRIED

FORT WORTH, April 16 (AP)—Construction of the Gulf's new pipeline to the West Texas plains district, involving the laying of 400 miles of new line and an expenditure of about $9,000,000 will begin immediately, it was definitely learned today. The $9,000,000 will include radiating lines, pump stations and tank farms.

The line will serve as a central point for pools in Pecos, Upton, Crane, Ector, Winkler and neighboring counties from Midland, and will pass enroute the Mitchell-Howard-Glasscock area, and the Jones-Taylor-Nolan-Fisher area.

Mail service in Austria recently was suspended because a postoffice employe failed to doff his hat to the postmaster. Fellow employes, offended at the postmaster's reprimand, declared a strike.

Sad Sam Jones Hurls Browns To Win Over White Sox; Latent Rally Puts Macks Over Sens; Rain Halts Tigers

(By Associated Press)

NEW YORK, April 16.—Charlie Ruffing and Tony Welzer, young Boston twirlers, put a stop to the wild slugging of the New York Yankees today, holding them to six hits, but the Yanks managed to put out a 5 to 2 win with the aid of nine passes. Urban Shocker kept the Red Sox in hand throughout, although touched for ten hits.

Sisler Is Active

ST. LOUIS, April 16 (AP)—Pitcher Sam Jones, making his debut with the St. Louis Browns, today held the Chicago White Sox to four hits and St. Louis won 3 to 1. The former Yankee moundsman was in excellent form. With two singles, George Sisler, Brown first sacker and former manager, figured heavily in the scoring, as he did yesterday in the season opener.

The box score:

Among some Indian tribes it is regarded as improper for a mother-in-law to speak to her daughter's husband.

Numerous kinds of leprosy curing trees grow in Brazil; one species is believed to be more effective than the chaulmoogra tree of Hawaii.

Boynton And Higginbotham, Slaughter And Harrott, Meet In Tourney Finals

The Lubbock Country club finals will be played off today with Coach Higginbotham and Ben Lee Boynton battling for the championship of the first division and John Jarrott and Joe Dick Slaughter playing the game for the second division.

Some fifty local golfers qualified for the meet and through a week's playing all have been eliminated down to the finals. Some of the best shooters in West Texas and the Panhandle have taken part in the meet and the tourney has been a success from every standpoint.

The match between Higginbotham and Boynton will be one of much interest as both men are consistant shooters and play a splendient game. Boynton's strong feature is with his wooden clubs, while Higginbotham is excellent on his irons. Coach Higginbotham is as good if not the best mid-iron golfer in the Panhandle, he usually gets as much distance with his iron as he does with his driver and brassie. In putting, both Boynton and Higginbotham will take sinkers on long puts, from the opinion that Coach Higginbotham will be hard man.

In the second division, Jarrott vs. Slaughter, Jarrott is figured to take the match with a good margin. While Jarrtot is a veteran tournament player he will encounter a good game in the shooting of Slaughter. Slaughter, when right, crashes them from "town to town."

It is thought that one of the greatest galleries ever to follow match players in Lubbock will witness the finals in both divisions at the country club today.

Huge Inheritance Tax On King Lands

AUSTIN, April 15. (AP)—Inheritance tax on the Henrietta M. King estate, consisting largely of 1,000,000 acres of ranch land in ten lower gulf coast counties and the adjacent Padre Island, probably will reach the highest sum of that sort ever received by the state, S. H. Terrell, state comptroller, estimated today, returning from a tour of appraisal of the property.

The largest inheritance tax ever paid into the state treasury was received today by Comptroller Terrell, in the form of a remittance of $543,540.86 from the Taylor county tax collector for the estate of the Morgan Jones, railroad builder, of Abilene.

Jones, an 80 year old bachelor when he died, left tht bulk of his estate to four nephews, and the remainder to charitable institutions in a few minor bequests.

Promoter and financier of the Abilene southern railway, Jones had relatively few real estate holdings at the time of his death. Most of his fortune was invested in stocks, bonds and other securities.

After serving a 50 day term in the county jail, a Los Angeles man found that he had been sentenced to the city jail and has to serve the sentence again in the proper place of confinement.

Your Boy

What About His FUTURE?

YOUR Life Insurance—you say—will take care of his complete education. But chances are you'll live to see him through prep school and even college. What then? Will the money be there to meet his needs?

A Saving Account Started for him New will solve that problem. Added to regularly and with the interest we pay, it'll soon amount to a tidy sum.

Mayor Parrish Issues Proclamation In Request For Rock Springs Relief Fund

Following a request from Mayor Pink L. Parrish for contributions to a fund to aid the suffers of the Rock Springs storm, Miss Mae Murfee, local Red Cross secretary, announced last night that Lubbock's part in the statewide drive had netted only $37. Cities over the state are aiding the people of Rock Springs who will attempt to build the town back following the storm of last week.

Governor Dan Moody issued a proclamation asking for aid for the sufferers and since then many cities have sent funds and supplies to the scene of the disaster.

The collections in Lubbock are to be purely voluntarily and may be sent to the Red Cross secretary, Miss Murfee.

Those contributing to the fund yesterday were: Lubbock fire department $15; Mayor Parrish $5; Miss Mae Murfee $2; W. B. Atkins $2; Miss Alleen West $7.50; Masonic Scottish Rite club $5.

A Request from the Mayor

Whereas, the recent cyclone not only destroyed the property of the little town of Rock Springs, Texas, but took the lives of many of its citizens, leaving the people of that little town in distress, and

Whereas, the governor of this state has asked the people to render financial assistance in this hour of need, and knowing that the people of Lubbock desire to play a part in the rebuilding of that city, and furnishing the necessities to its people while in destitute circumstances, I therefore, as mayor of the city of Lubbock, ask that each citizen that feels financially able, to make a contribution, though ever so small to this cause, which you can do by delivering to Miss Mae Murfee, who has charge of the Red Cross work in Lubbock, and you can rest assured that the funds will immediately be sent to the people of Rock Springs who are in need of same.

Given under my hand, this the 16th day of April, A. D. 1927.

PINK L. PARRISH,
Mayor.

STATE SENATORS

(Continued from Page 1)

of the committee.

The above senators together with Senator W. H. Bledsoe of Lubbock compose the finance committee.

All Regents to Be Here

The Tech directors who will be here for the board meeting and to help entertain the visitors include: Col. E. O. Thompson, Amarillo; John W. Carpenter, Dallas; C. G. Comegys, McKinney; Mrs. F. N. Drane, Corsicana; Clifford B. Jones, Spur; H. T. Kimbro, Lubbock; C. W. Meadows, Waco; Mose Newman, Sweetwater; R. A. Underwood, Plainview.

Tentative plans of the entertainment committee of the chamber of commerce are to meet the party at Post at 9:23 in cars and bring them into Lubbock in order that they may see the Plains country to better advantage. At eleven o'clock the party will be taken to the assembly hall at the college to attend a student's convocation. The public is also urged to attend the convocation. At noon the party will be guests of the Tech faculty at a luncheon at the Tech cafeteria when students of the home economics school will prepare and serve the food.

Will Inspect School

The entire afternoon will be spent in inspecting the Tech plant and getting information on the needs of the college and instudying the needs of the college here.

Late in the afternoon the party will be taken for a visit to the agricultural experiment station.

The entire citizenship of Lubbock coupled with the Tech faculty, will join hands Monday night to entertain the visitors at a banquet at Hotel Lubbock, Senator W. H. Bledsoe will make the welcome address to the visitors. Members of the Tech directors and the senators will make talks. Arthur P. Duggan, president of the West Texas chamber of commerce will speak on the subject of "What the Tech Has Meant to West Texas." Tickets are in the hands of committees for the banquet and can be had at drug stores and at the chamber of commerce office.

The visiting ladies will be entertained with a tea Monday afternoon at the home of Mrs. W. H .Bledsoe, who will be hostess to the visiting ladies.

FIELD RESIGNS

(Continued from Page 1)

that it is with full appreciation of the confidence of city officials and other citizens of the city expressed when he was selected for the city post that he is filing his resignation.

Action At Regular Meeting

City officials Saturday intimated that no official action will be taken by them on the resignation before the next regular meeting, but would make no definite statement in the situation.

The firm with which Mr. Field is contemplating to align himself is one of the best known engineerng organizations in the southwest, its work embracing such projects as water supply, irrigation, reclamation, sewers disposal, highways, paving, bridges, reports and appraisals. Particular attention is now being given to highway construction, and in view of the large amount of highway construction work in this section of the state, it is understood that it is to planned to open a branch office in this immediate section, with headquarters probably at Lubbock.

Mr. Field will be located with the firm in this immediate section, and said that he is not contemplating moving his family from this city. He will be gone a large portion of the time for a while, he said, but will call Lubbock home. He expects to be located here permanently.

U. S. SHIPS FIRED ON

Gobs Return Attack With Four Inch Guns and Rout Chinese From Their Trenches

SHANGHAI, April 16 (AP)—Both British and American warships have been made targets for Chinese guns. The United States destroyers Preble and John D. Ford have been subjected to machine gun fire on the Yangtse river, while the British gunboat Woodcock came under attack from the Cantonese troops entrenched on the south bank of the Yangtse below Chinkiang. All three boats replied with such vigor that the Chinese fusillade ceased in short order.

The Woodcock used her three and four inch guns and drove the Cantonese out of their trenches.

With no new developments so far as is known between the Cantonese and northern forces, the campaign headed by General Chiang Kai-Shek, the Cantonese generalissimo to oust the communists from the Kuamintang or Cantonese political organization was in progress today.

Armed with machine guns and supported by armored cars, white (moderate) members of the Kuomintang have carried out raids against communist labor unions in Canton in which, according to official advices hundreds of Chinese communists were arrested and about 100 "reds" were killed or wounded. This was described as the biggest house cleaning of radicals since the Cantonese revolution was started.

GERMAN CITIZEN SLAIN IN MEXICO REPORTED

MEXICO CITY, April 16 (AP)—The killing of Leon Showeitzer, said to be a German citizen is reported by a dispatch to Excelsior from Cordoba.

Showeitzer, a ranchman, was killed near Acatlan, while returning to his ranch. The dispatch indicates that the crime was committed by robbers as the victim carried a considerable sum of money.

SPLAWN WAGE ARBITER

University President Selected To Be On Federal Rail Wage Group To Settle Squabble

AUSTIN, April 16. —Dr. Walter M. W. Splawn, University of Texas president, appointed today as one of the federal rail wage arbitrators, was one of the Texas railroad commissioners in 1923 and 1924.

At that time, he was on leave from the University of Texas faculty, of which he was professor of economics of transportation. He is author of a treatise entitled "consolidation of railroads," treating particularly of federal control during war time, and also of a text book on economics.

Dr. Splawn tonight had no knowledge of when his services will be required or for how long. He understands, however, that the post will be such as not to interfere with regular duties here.

DEATH RESTORES FRIENDS

Men Who Were Boyhood Pals Meet At Coffins of Sons to Renew Acquaintance

BORGER, Texas, April 16 (AP)—Two boyhood friends, long separated, were reunited here Saturday at the coffins of their sons.

Johnson Workman and C. H. Sparks, old men now, had been playmates in a small town in Kansas. Many years had passed since the two had seen each other.

Then there was an explosion of nitro glycerine at Oil City near here a few days ago, and Roy Sparks, 19, son of one of the former companions, and Fred Workman, 24, son of the other, were killed. The lads, companions like their fathers had been, came to Borger last May to seek their fortune in the new oil fields, hoping to return to their homes in Kansas with substantial savings.

WOODS, DICKINSON AND MOWERY ADDRESS SOCIALOGICAL CLUB AT HOME OF DR. GRANBERY

On the topic "What Fraternal Orders and Luncheon Clubs have to Offer the Social Problem," H. D. Woods, B. C. Dickinson, Ray Mowery proved to be interesting and profitable speakers. Mr. Woods represented the Kiwanis club and Mr. Dickinson the Benevolent and Protective Order of Elks and Mr. Mowery the Masonic Orders. Question specially considered were: To what extent do the organizations promote human brotherhood relations.

A letter from J. L. Duflot, head of the Socialogy club at W. T. S. T. C. at Canyon was read inviting the Tech Socialogy club to meet at Canyon with them. It is expected that the trip will be made in the near future.

The club is to have the pleasure of meeting with Dr. Zimmerman, President of New Mexico University at the hom of Dr. and Mrs. Granbery on next Tuesday afternoon at 4 o'clock. An educational program will be held at the college on April 28, with Dr. Paul W. Horn as principal speaker for the evening.

HOME EC OFFICERS ARE RE-ELECTED FOR TERM

At a business meeting of the Home Economics club, Friday afternoon all the old officers were re-elected to serve again for the spring term. The officers are Faye Brooks, president, Frances Ferguson, vice president, and Lila Allred, secretary, and Paulint Roach, treasurer. A very interesting program was the feature of the meeting. Since the Home Economics club is affiliated with the National Home Economics club, it has been decided to assist in getting money for the Eleanor H Glen fund. A picnic has been planned for the club sometime this term.

APRIL BIRTHDAY PARTY SCHEDULED FOR TUESDAY

The birthday party for these students who were born in the month of April will be held Tuesday, it was announced today by Miss Katherine Harper, director of the cafeteria. The Easter motif will be carried out in the decorations while real Texas Bluebonnets are to adorn the tables, Miss Harper says.

The parties have been very popular with the students in the past and indications point toward a larger attendance than ever. No individual invitations are to be sent out as all students who were born in April are invited.

PRELIMINARY SUMMER BULLETINS ARE RECEIVED BY OFFICIALS THIS WEEK

The First Preliminary Bulletin of Courses to be offered in Summer school has ben received. The summer school is to be divided into two sessions of six weeks each and many new courses are to be offered in practically every department. The Department of Education is to be especially strong during the summer months.

ANNUAL STAFF TO BEGIN WORK SOON IS PLAN OF NEW EDITOR AND MANAGER

Ferrell Roark, newly elected editor of La Ventana, announced last night that he wished to see al students who wished to try out for position for the staff of La Ventana for the coming year. He sated that he wished to start o work at once on the organization of the book as an enlargement is to be made next year.

It is the plan of the publication committee to select an asistant editor and manager in future elections.

"T" CLUB DANCE WILL FEATURE SOCIALS SAYS COMMITTEE ON AFFAIRS

The T Club dance promises to be one of the high spots on the social calendar. In that it is going to be a annual affair the first one will no doubt be a good one.

The dance is strictly an invitation affair and no one may gain admittance without an invitation. Invitations are being sent out by the letter men to their friends. The committee on finance is composed of "Red" Hamilton and Dennis Vinzant. The committee on decoration is composed of Weaver, Hunter, Reed and Hemphill.

Small "T's" will be worn by the letter men throughout the evening to distinguish them from the other boys present. The dance will be given the night of April 21, 1927, just before the two-day holidays.

FIRE RATE AWARDS MADE

AUSTIN, April 16 (AP)—Corpus Christi, Eden, Seagoville, have been awarded credits of 15 percent on their final fire insurance rates up to next March 1, because of good records during the past three years, the state fire insurance commission announced today.

In a wire received by Louie F. Moore, yesterday from Dr. Scott, of the Scott & White hospital Temple, Texas, it was stated Mrs. Moore would be dismissed from the institution today. Mrs. Moore entered the hospital there some five weeks ago and two weeks ago underwent a very serious operation, and due to its major nature, it will be necessary for her to remain in that city under treatment of physicians for at least another month, before she will be physically able to return home according to advice from attending physicians.

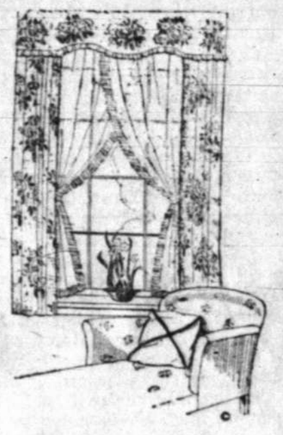

YOUR HOME
Ready for Spring!
Brighten It With
New Furniture

Spring, with its gay sunshine and budding foliage, imbues us with a new spirit which should be reflected in our homes. New furnishings must create new interest there, too.

We suggest such things as those pictured here to replace pieces worn by the long indoor season, and to make comfort on porch and lawn.

Let Your Windows Reflect Spring with Bright New Draperies and Fresh Curtains from Our Stock

How important your windows are—they formulate through hangings the passerby's opinion. If they are in good taste, you are more highly regarded. Now—at springtime—it is increasingly important that they be bright and fresh.

Undoubtedly you will find just what you had in mind among the extensive selection of drapery fabrics and curtains we now present. All the newest effects. Expert counseling too on such problems.

There is no charge for making up drape materials bought here.

An attractive fiber suite would add a great deal to the comfort and refinement of your home.

We are showing some of the newest finishes and designs in fiber furniture. Our stock consists of both bed and plain davenport suites.

FIBER FURNITURE
—is durable
—is attractive
—is economical.

"If ye then be risen with Christ, seek those things which are above, where Christ sitteth on the right hand of God. Set your affection on things above, not on things of the earth. For ye are dead, and your life is hid with Christ in God. When Christ, who is our life, shall appear, then shall ye also appear with him in glory." (Col. 3: 1-4)

AT EASTER TIME

At this time of the year millions of minds turn their thoughts to the stories of Easter. They think more soberly of the Christ. They meditate over the surrounding and conditions that prevailed in the days and hours that composed the period of time, from the crucifixion till the resurrection. The resurrection of Jesus Christ like all other great, outstanding events, is best understood and appreciated when its backgrounds and antecedents are considered. The outline and beauty of a picture are preceived against its back grounds.

Of course there are a great many people who think really more about the dress they will wear the hat they will have and the suit they will wrap themselves in than about the risen Christ, but the more sober minded class of people think of the Christ the redeemer of the world, and his cruel crucifixion and his glorious resurrection. As we study of the life and the ministry of our Lord we find that the period of His earthly ministry was brief. Rev. Thos. G. Jones in a well written interpretation of the Eternal Easter says that John the Baptist, a very picturesque personality, heralded the Messiah's coming. The manner and content of John's preaching produced a mighty awakening among all classes of people.

Israel had long since lost her political independence and at this time was under Roman control, a hardship grievous to bear. Of all the burdens borne by the honest, sincere Jew of that time, none was so irksome as the galling yoke of Roman depotism exercised over him. Prophecies uttered centuries before, in which a deliverer was promised to God's people, were interpreted as the Lord's promise to restore Israel's political independence. Faithful Israelites hoped and waited for such a restoration. Centuries of waiting had dragged their weary feet along the pathway of Jewish history. The people were sick at heart, but hope was not dead, and under the preaching of John the Baptist it was kindled into a flame of high expectancy. Many thought the deliverer, the Messiah, had come and inquired of John if he were not that one. In contrast to his spectacular forerunner our Saviour began his ministry gently. He first made close, vital personal contacts. He then widened his scope by preaching, teaching, traveling, visiting, and working miracles. In the short space of a few months many thousands accepted him as the Deliverer promised of God by his holy prophets centuries before. The people followed his leadership, believed what he taught, and trusted in him. Naturally the Jews who accepted him were of the most sincere, honest type. Jesus increased in power and popularity until multitudes streamed after him and with open ears and open hearts listened to his words. His popularity reached its climax in his triumphant entry into Jerusalem, the city of the King. He did not enter in the wake of an advancing army which had cleared the way for him. His was a conquest of love and tender ministrations. He had fed the hungry, healed the sick, cleansed the lepers, pardoned sinners, consoled the sorrowing, and raised the dead. Thus he had won his way into the hearts of the masses. And now he rode forth into the royal city to be crowned king, as they thought. Not king merely of the aristocratic and learned classes, but of the masses of humble and poor people.

When Christ entered into the city hope revived and a new light shone into devout hearts They believed the end of the long wait was near. No wonder shouts of deliverance filled the air. Even little children took up the glad hosannas and swelled the chorus. The Jews believed Jesus was to deliver Israel from the Roman yoke, that he was to sit on a temporal throne in David's stead and restore the former glory of the empire. To his reign, they believed, would be added the vast resources of his spiritual supremacy over men and nature.

Within a few days, however, this Jesus, who had been acclaimed Israel's Deliverer, was in the hands of Israel's enemies. And yet within a few days more he was adjudged a criminal imposter, convicted, executed, and buried. Imagine the disappointment! The sun of his glory had set, and the night of despair settled upon those who had believed and trusted in him. They were scattered like afrighted sheep whose shepherd had been slain. In their gloom they were blinded, as most men are in such a dark hour, and they forgot their Lord had told them he would rise again in three days. Against his background the glory of Christ's resurrection shone like a new light from heaven, and indeed it was a new light from heaven, Hope revived in the hearts of God's faithful children. When they learned that their Deliverer was not dead, an inspired joy again leaped into their souls. They were "begotten again into a lively hope by the resurrection of Jesus Christ from the dead to an inheritance, incorruptable and undefiled and that fadeth not away." This "lively hope" was never to die again. And it has never died. Through all the lights and shadows of the intervening centuries it has remained alive in the hearts of his disciples. It will never die. It cannot die. On the other hand, it has lived and multiplied until millions of the children of men have lived and walked by its light. It will live until it is lost in a blissful fruition in heaven. He is the hope of not only the Jewish race, but the hope of all the races of all the men of all the ages. He does not merely deliver Israel from Roman despotism, but after his resurrection he lives to deliver the whole human family from the despotism of sin. This is our eternal Easter. William E. Gladstone said: "He is the only hope of our weak and erring race." This hope is as real and lively now as it was on that eventful morning when the women sped away to bring the disciples news of a risen Lord, and it lighted up the future like a divine beacon.

PATIENCE

"Let patience have its perfect work."—James 1:4.

If there is any grace that is really beautiful it patience. And its cultivation is producitve of contentment and peace.

Jesus of Nazareth of all men had a right to be impatient. Surrounded by ignorant, stupid listeners who "having ears heard not," heckled by carping scribes, intrigued by questioning politicians—he would have been justified, according to our standards, in breaking forth into indignation. But he is gentle with the hungry-minded people, knowing that they were sheep without a shepherd, and even in the face of open condemnation he maintains his spiritual poise.

Someone has said that "discouragement is disenchanted egotism." How true it is that we may so set our hearts upon certain objects that seem eminently desirable as to become impatient when the coveted things exceed our grasp We make our plans and lay out our work not considering oftimes whether it is the wisest or not and grow quite irascible if our plans are interfered with. Some times it is our best friend that feels the sting of our hasty and ill-chosen word.

God has been infinitely patient in bringing this world into form and beauty. He is patient with us when we have proven to be dull students in the school of life. He has given us new chances. Surely we can take time to build this element of patience into the fabric of our character.

It is a swift, electric, intensive age. We want to do things quickly. But the best things come through patient plodding and careful planning. "They also serve who only stand and wait."

We may find need for this in the midst of our fretful days when chafing has only brought an impoverished spirit. It is quieting and comforting to reflect that after all, it is God's world, that our times are in his hands. For us it is to do our best, letting "patience have its perfect work."

BRANCH BANKING NATIONWIDE

The underlying purpose of the McFadden national branch bill is to modernize charter powers of national banks that they may be placed on an equal footing with state banks and help put the Federal Reserve System on a firmer foundation. Twenty-two States have adopted the features of this bill, and there are 167 cities in the United States where national banks can establish branches under McFadden act and present state laws. It will permit existing national banks to establish branches in their home cities in those states permitting state banks to have branches, as follows:

In cities of 100,000 population, the number of branches established must be approved by Comptroller of Currency MacIntosh who says it will be a constructive measure of benefit of every national bank; two branch banks can be established in cities of less than 100,000 but over 50,000 population; in cities of less than 50,000, but over 25,000, one branch. The branch banks and the powers granted them by Congress are necessary, if the national banking system is to continue to hold its enviable position and render the services that the banking system is called upon to render to the community. Furthermore, the branch banking system means enormous advantages in the development of the younger states. It means that no development or industrial enterprise entitled to bank credit, irrespective of size or scope, need hesitate for lack of proper financing. To illustrate, there is probably no single development in recent years that is of greater value to California, from an industrial standpoint, than the nationalization by act of Congress of the Bank of Italy and all its branches.

Looks Like They Might Be Right, After All

REJOICING ON EASTER SUNDAY

The heart of Christendom rejoices on Easter Sunday.

The entry into Jerusalem on Palm Sunday, the agony of Christ in the garden, the crucifixion and burial on Good Friday—all these are past. Death is swallowed up in victory. Christ the Lord is risen today!

If, as has been suggested, the word Easter is derived from Oster, which signifies rising, then is Easter Sunday, both in name and reality, the feast of the resurrection.

It is more probable, however, that Easter gets its name from Eostre, a Saxon deity, whose feast was celebrated every spring about the time of the Christian festival. A compromise was thus effected, Christians accepting the pagan name and pagans accepting the Christian significance of the day.

Easter is a movable feast. It falls on "the first Sunday after the full moon which happens upon or next after the twenty-first of March, and, if the full moon happens upon a Sunday, Easter day is the Sunday after."

In earlier days Easter was called the Paschal feast, for it was kept at the same time as the Pascha, or Jewish Passover.

So much for the origin of the name. Easter Sunday today is celebrated by young and old alike.

For the children there are rabbits and Easter eggs—and the unrestrained joy of egg hunts in back yards and in public parks.

For the grown-ups there are new suits, new hats.

But surely Easter holds more than this for us. It is not a day of happiness alone, nor of outward show alone. It is a day of victory.

Just as our Saxon forefathers celebrated Eostre and the victory of things physical, so we celebrate Easter and the victory of things spiritual. The heart of man is filled with the beauty of spring's flowers that have sprung from death to life.

Christ the Lord is risen!

SO THINK WE

We think it a shame to refer to a cheap actor as a ham. At the present price a ham is high class stuff.

—o—

We think this day and time is little child shall lead them, but most of the time to the movies.

—o—

We think that modern sayings are not so modern after all. Take for instance the phrase "modern youth must be served." This was an order given by the cannibal host to his cook many years before civilization was known.

—o—

We think that garden hose and silk hose very seldom ever work together successfully.

—o—

We think that the card parties are about the only place where people really lay the cards on the table, and we have been told that they do not lay them all on the table there sometimes.

—o—

We think the open door in China should be a very popular place these days, and we hope it will at least stay open till all the missionaries get out, and then they can close the thing up and fight it out.

—o—

We think it bad enough to sacrifice the lives of several hundred missionaries in China but it would be still worse to sacrifice several thousand lives of the flower of the land by sending soldiers to China to protect the missionaries there. Get them out and make China pay is our idea in the matter.

—o—

We think that East Texas editor who says the cockroaches have eaten his tobacco, is simply mistaken, for we have never known any animal except a man and a billy goat that would eat tobacco or even chew the stuff.

—o—

We think there are some boys in school who play half back on the football ground and fall back in school.

IT IS REPORTED

It is reported that quite an improvement might be made in the looks of the school grounds. We believe that the trees need better attention. Trees are trees in this country, and no one should let any of them die.

—o—

It is reported that they want to put Dan Moody on the speaking program over in Ohio. Dan can do the work all right, if he will only consent to. However, Texas is big enough to keep him speaking if he really wants to do the platform act very badly.

—o—

It is reported that a politician tried to straddle the wet and dry question and it proved disastrous. They are pretty far apart.

—o—

It is reported that old battle axe has renewed operation on the corner of the street since spring weather has opened up, so that the corners are more comfortable.

—o—

It is reported that there are so many detours on the highway of life that it is very hard for people to stay on the straight and narrow road.

—o—

It is reported that something good has been found about a lazy person.

It has been suggested that he will never be guilty of a sin of commission no matter how sinful he may be by sins of ommission.

—o—

It is reported that hazing is forbidden in high schools and colleges, but they do the same old things just the same, but have it under a different name. The schools are just about as modern as the manufacturers.

—o—

It is reported that business men and bankers report business better this month than it was at the same time a year ago.

—o—

It is reported that an investigation reveals the fact that an exceptionally large number of boll weevils have survived the winter and will be rearing to go when the cotton gets to the proper stage. This is not printed however, to encourage Lubbock county farmers to increase their cotton acreage.

—o—

It is reported that a number of farmers of this section are paying all of the operating expenses of the farm, feeding and clothing the family with the profits from the cows and the poultry.

SACRED THINGS

By DR. J. W. HOLLAND

When I was a child I thought that sacred things were all inside our little church. We were taught that certain furniture and objects there were different from the same things elsewhere.

I am glad that we were so taught, yet the more deeply one gets into life the more he finds that sacred things are everywhere. There are many shrines, temples, and sacred places where we delight to go for the thrill that comes to us when we stand where some great thing was done.

Have you ever thought that we can have the spirit of those sacred places right where we are? I was thrilled at the sight of a sunrise in the Alps. Upon reflection I knew it was the same sunshine that warms my own door yard. At Kenilworth Sastle we were shown the very wall where the poet saw the sunlight and wrote, "The sunlight falls on castle walls," yet it is the same sunshine that tints the peasant's cottage.

For centuries men hunted for the Holy Grail—the cup used at the Last Supper. I will tell you where it is. It is any cup that bears a drink to a needy one. It may be the gourd at the old well sweep or the tin cup beside the water bucket in the kitchen.

It is great to go and stand where noted people did their duty, and died gloriously. And yet, do you know that many thousands of people have shown the spirit of gods amid the poverty and trials of life for forty years, and have never whimpered.

Heroic beauty is always honest duty.

I am sure that I have seen a good half mile of pictures of the Holy Child. They are wonderful, and I would travel far to see them. Just now I am thinking of the millions of happy children who are also sacred little beings. In their bright faces God is, and in their faces is a beauty that artists cannot paint.

Children are never brats to me, but souls capable of divine things. Think of children as possible angels rather than as probable devils, and we can make a better world.

Love, friendship, hope, faith—these are all possible for us right where we are. These sacred things are all around us, and may be a constant part of us. Well does the poet Riley say, "Right here at home is where glory is."

"Loving God With Our Minds"

"Thou shalt love the Lord, thy God, with all thy heart, and with all thy soul, and with all thy mind."—Matthew 22:37.

BY CHARLES HAVEN MYERS, D. D.
Plymouth Church of Shaker Heights Cleveland, Ohio.

We are accustomed to thinking of love as an emotion generally expressing itself in some form of affection. But the word that Jesus here employs means a deep-reverent love—a dedication, as it were, of the whole personality. It is the same word that the Master used in asking Peter—"Do you love me?"

Worship is often expended in religion may become, because of an excess of feeling, very vapid and superficial. The saving element is the consciousness that our intellectual life is an important part of religion. For we can not maintain our spiritual integrity by breaking our life up into compartments—reserving certain thoughts for the hour of worship and certain other ideas which we are pleased to call secular. No. Our minds must be completely devoted to the highest good—or God.

Loving God with our minds implies inquiring minds. If we close our minds, feeling satisfied over what we have learned, we shall soon cease to grow.

Loving God with our minds insures noble thinking. There is so much that is pitched upon a low plane—sordid, tawdry and cheap. It is a responsibility that every Christian man and woman assumes—to enrichen life. "High thinking" is a part of true religion.

Loving God with our minds means to think hopefully. Otherwise we may become a prey to cynicism or sterile pessimism. The future awaits with blessing the one who realizes the gift of God—a sound mind—and uses it to glorify Him.

Loving God with our minds brings us, inevitably, into asociation with the noblest thinkers of all ages. The richest and best in poetry and philosophy becomes our possession.

Without this employment of our mind the Bible becomes a confusing book. But with this high motive to guide us the Spirit of Truth interprets the hidden meanings. It is a part of the great command of Jesus—"Thou shalt love the Lord, thy God, with thy mind."

TORNADO VICTIM DIES

Rock Springs Man Dies of Injuries Received in Storm; Forty-Ninth Victim of Distaster.

SAN ANTONIO, April 16 (AP)—John McKinney, 58, died in a local hospital today, the forty-ninth fatality in the Rock Springs tornado and the tenth to die in San Antonio hospitals or enroute to them.

McKinney was badly mangled in the storm and suffered internal injuries as well as a number of serious cuts and bruises.

Rock Springs will collect only $28,-600 in tornado insurance to cover damages of Tuesday's twister which claimed 49 lives and did damage estimated at $1,218,500. The estimate was made today after a survey by business men and city officials there, assisted by American Red Cross representatives.

Most of the damage was to personal property, the committee found the damage to public buildings amounting to only $146,000, most of this damage was suffered by the public school and courthouse. The public buildings were the only ones that carried any tornado insurance and this amounts to only $20,000.

O. U. STUDES VISITING

Journalism Class Inspects Newspaper Plants in Texas and Will Cross Border.

FORT WORTH, April 16 (AP)—Following an inspection of a newspaper plant here today, twenty-three journalism students from Oklahoma City university, Oklahoma City, left for Dallas to continue their examinations about newspaper making. The visit here was part of a ten day Easter tour which will take the embryo journalists to several Texas cities and across the boundary to Monterrey and Saltillo.

The students, under the supervision of Gilber I. Garretson, head of the journalism department of the university, were scheduled to leave Dallas tonight for San Antonio.

Today's Poem

A SONG FOR EASTER
By MRS. J. L. CUNINGGIM

Through morning clouds fair Easter breaks,
And universal life awakes.
Arise, O sod-wrapt seed, at last,
The darkness of your light is past!

Burst ye the cerements of earth!
For fettering bonds find spirit birth!
Cast off death's somber shroud and pall
And spring triumphant over all!

For blade and bud now drink their fill
Of life's new wine on mead and hill.
While bloom and bird alike declare
Of all earth's days this is most fair.

'Tis sunrise. Eastern gates unfold,
And lo! the risen Lord behold.
Lift weary eyes where teardrops brim
And voice thy soul in choral hymn.

Let glad hosannas rend the air,
In joy's triumph let men share.
Break forth, O earth, in glad acclaim
To praise the risen Saviour's name!

No human lip should silent be
When nature swells its minstrelsy.
For life's great crowning day has come.
Should any mortal tongue be dumb?

Swell, music, all your sweetest strain,
And, love, dictate the glad refrain!
Let joy pour forth the breath of song
And swee pin swelling tide along

Till every nation, every clime
Unite in melody sublime.
For earth has caught heaven's fairest ray.
Joy is abroad. 'Tis Easter Day!

THE SUNDAY AVALANCHE-JOURNAL

SECTION TWO SOCIETY AND LOCAL NEWS

VOL. 1, NO 31. LUBBOCK, LUBBOCK COUNTY, TEXAS SUNDAY, APRIL 17, 1927 (AP) MEANS "BY ASSOCIATED PRESS"

TEXAS PLAINS WILL SEE ADDED OIL ACTIVITY

EVEN WITH TWO DISTRICT COURTS IN SESSION LUBBOCK DISCOVERS DOCKET GROWS FASTER THAN CASES ARE TRIED

Two district courts in Lubbock county, although one of them is not confined entirely to the county, apparently are finding all the legal business that both can care for, judged by the number of cases, both civil and criminal, facing them, and the amount of time required by many of the more important cases.

The docket of the 72nd district court the older one of the two now in operation, became crowded to such a stage of congestion, that in the opinion of those in touch with the situation it would have been impossible for it to keep abreast of demands, and consequently, at the last regular session of the Texas legislature, the 99th district, which is confined wholly to Lubbock county, was created, with all powers and jurisdiction of a district court machinery.

There are at the present on dockets of the two courts more than 450 cases, both civil and criminal, of which 117 are criminal. Of this total 297 are docketed on the books of the 72nd district, including 96 criminal, leaving 156, including 21 criminal for disposition in the new 99th. Just prior to the opening of the two courts here two weeks ago, more than 100 cases were transferred from the docket of the 72nd to the 99th, of which 22 were criminal.

99th Gets Some Hard Ones

Both courts have been in operation since April 4, with the 99th on its initial voyage, but the new court apparently has reached its maturity even in this short time, for on the docket of the 99th are to be found some of the hardest and most technical cases ever filed in either court, including eight more similar to the criminal case disposed of during the past week. The docket for the present term of the 99th includes also one civil case involving title to two blocks of property in Lubbock, the value of which property is estimated at approximately $75,000.

A court is not through with its labors by any means when it disposes of criminal matters before it, judges of the two courts and the bar agree, for as a rule civil suits involve more questions of law than do criminal cases, and according to Judges Clark M. Mullican and Homer L. Pharr, several civil cases facing their courts at this term involve practically every phase of legal proceedings known to the court system.

Apparently many people have the idea that highly colored criminal cases alone have a tendency to tax both the court and counsel, so far as physical and mental strength is concerned, but such is not the case, in the opinion of court officials. In fact, it is agreed that many times trial of civil matters is much more straining than criminal. This is not true in all instances.

Lawyers Work Hard

Another phase of court activity that draws much comment is the spoken opinion of spectators as to "what a good time these lawyers have in trial of some cases when they occasionally break out into fits of laughter, or deride each other as the case might be depending upon the nature of the case on trial." Other comment is added to this that many times opposing lawyers in certain cases appear to be on the verge of physical combat while in actual trial of a case, then when they leave the court room, they link arms and jovially "kid" each other while leaving the building.

Such activity is necessary, at least so far as the fun is concerned, court officials and lawyers say "in order to break the monotony and take the mind momentarily from the strain of its labors." Otherwise, they say, they would soon lose all semblance of mental ability, for they agree that the strain is "something terrible."

The new court was created in an effort to take the load off the 72nd and to relieve its congested docket, so that legal matters may be more readily disposed of. This after all is the primary function of a court system, which is designed to settle differences of opinion between individuals, and on the speedy settlement of these differences depends the success of the court.

72nd on Civil Work

The 99th district court the past week has been engaged with criminal proceedings, and this nature of business will face it the coming week, while the 72nd is confining its efforts to disposal of civil business.

The coming week, however will see the close of criminal cases in the 99th, and it will turn its attention to civil matters, while the 72nd devotes three weeks of its term to trial of criminal cases, not on the same docket, but cases that in the opinion of some people are just as important as those that have been on trial are important to other people. The end of these three weeks closes the spring term of the 72nd, but the 99th will continue to grind away for six more weeks on civil matters.

During the coming ten weeks of operation of the two courts, the dockets of both are expected to be very materially changed, as regards number of cases, though officials have no hope of even disposing of the major business slated. While the courts are in operation, differences between individuals or groups continue, and these difference sare given voice in the filing by contesting parties of more law suits for action of the court.

Many Suits Are Filed

During the 106 days, including Sundays, since the first of January, a total of more than 125 civil suits alone have been filed, or an average of more than one per day, the most of which will require from one to three days for trial on an average. This does not take into account any criminal cases, which usually are smaller in number, but require a longer time for trial.

Faced with these facts and the already congested condition of dockets on both courts, it could hardly be disputed that the need exists for the two courts, in the opinion of judges in charge, and since creation of the new court, officials are looking forward to a much more speedy disposition of cases.

He Will Welcome Lubbock's Guests

SENATOR BLEDSOE

When members of the Senate Finance Committee are feted by the Board of Regents of Texas Tech and the Lubbock chamber of commerce at Hotel Lubbock tomorrow night they will be welcomed in the program's opening address by one of their own colleagues, He is Senator W. H. Bledsoe, of Lubbock, one of the powers of the legislature.

FIRST RUBY TRIAL COMING UP MONDAY

FORMER CITY MANAGER TO BE TRIED FIRST ON CHARGE OF MISAPPROPRIATION

The first of three charges against Martin S. Ruby, former city manager, of Lubbock, two of them charging embezzlement and one forgery is scheduled to be called in 99th criminal district court here Monday morning before Judge Clark M. Mullican. The charges grew out of alleged irregularities and his application of funds during Mr. Ruby's administration as city manager in 1925.

A total of $321.19 is involved in the three charges, the first of which probably will be called charging misappropriation of $147.81 on December 2, 1925. Four counts are included in the first charge.

The second indictment involves $21.81, charging forgery, when the defendant on November 24, 1925, is alleged to have raised the amount of a city voucher from $1.81 to $21.81 in payment of a shipment of express. The third indictment, charging embezzlement in four counts, involves $152.13, alleged to have been committed December 22, 1925.

The law firm of Pierce and Triplett, of Lubbock, has been retained by the defendant, while Lockhart and Garrard of Lubbock, will assist Durwood H. Bradley, district attorney, with the prosecution. The case is scheduled to be called at 10 o'clock Monday morning.

Mr. Bradley Saturday issued a warning to all regularly subpoenaed witnesses, not only in this case, but in all other criminal cases, to appear ready for service at the time called for when subpoenaed, or they will be subject to a fine. He explained that witnesses sometimes are prone to pay little attention to subpoenas, and that some trouble has been experienced in trial of recent cases, but that all witnesses under subpoena are subject to heavy fine for non-appearance.

Duplicate License Costs Are Slashed

The fee for issuance of duplicate license receipts by the state highway department has been reduced from the former price of 51 to 25 cents, according to advices received by I. F. Holland, county tax collector here Saturday. The reduction applies only to receipts, and not to new plates, Mr. Holland said.

TWO FINGERS SAVE LIFE

NEW YORK—Two severely strained fingers are all that James Connolly ironworker, had to show for a fall from a 13-story building here. As he plunged downward, he caught at a projecting platform on the tenth floor and checked his fall. Fellow workers said that nothing but great fear could have prompted such a superhuman display of strength in his fingers.

TUNISIANS TURN TO TIPPLING TEA

By NEA Service

TUNIS.—A mania for tea-drinking has become a social menace here that physicians are trying to combat. Tunsains are rapidly becoming lazy and losing their sleep and appetites because of the habit, medical authorities claim. One doctor says he found cases of nervousness and eye disorders known to have resulted from the constant consumption of the leaf. Last year Tunis used 1,100,000 kilos of tea, compared to almost none before the war. Natives are said to be spending their entire incomes and even pawning their possessions to get it.

Redhead Queen

Last summer Miss Catherine Wallace won the title of Queen of Wichita (Kan.) Redheads. She recently was picked from among eight co-eds at the University of Wichita as the school's most beautiful girl. Cecil B. DeMille, film producer, being the final judge. She is to be offered a chance in the movies.

Two Lawyers Form Partnership Here

Jno. L. Ratliff, prominent attorney of this city for several years, and W. M. Petticolas, who recently came to Lubbock, have formed a partnership for the practice of law, it was announced Saturday, with offices in the Brown building where a suite of four rooms has been retained.

Mr. Petticolas is a graduate of the law department of the University of Texas, and has had several years' experience in actual practice, it was announced.

BANDIT SLAYER DIES

COFFEYVILLE, Kan.—John Joseph Kloehr, who became famous in 1892 when he shot and killed three members of the notorious Dalton gang of bank robbers, has died of old age. When the Dalton gang raided the two banks of the city, Kloehr established himself behind a fence and sniped away at the bandits until he had killed three and the rest had fled.

PERSIAN WOMEN FREE

PARIS.—Although women of Persia still wear the veil, symbol of slavery, they are among the freest and happiest in the world, according to Mme. Dalatabadi, Persian feminist leader who is studying here. They have educational facilities equal to men, she says, as well as economic and industrial independence.

Small Cast Will Present Picture

The smalles cast yer filmed on the DeMille lot! But—it is one of the most expensive.

There are only five members of importance in the cast of the Lenore J. Coffee original screen play, "For Alimony Only," which was directed by William De Mille, and which comes to the Lindsey theatre next Monday, but the combined salaries of the players amounts to as much as that of a larger cast.

Leatrice Joy plays the starring role of Mary Martin Williams; Clive Brook supports Miss Joy as Peter Williams; Lilyan Tashman has the second feminine lead as Narcissa Williams; Bertie Waring is played by Casson Ferguson and Toby Claude is the maid.

It's an old adage that "good goods comes in small packages," which applies to "For Alimony Only," apparently.

NO TAXES; LOST WEALTH

WELLINGTON, Kan.—Seventeen 2-acre tracts of sand to which the owners lost title when they failed to pay taxes of 98 cents several years ago, now are worth more than $100,000. Benjamin Reitz, pioneer, "had a feelin'" that it would be valuable some day and kept up his payments. There is a 1200 barrel oil well on his plot today.

AT LEAST 15 NEW TESTS PROMISED WITHIN NEXT FEW MONTHS; TRIO OF OPERATIONS SET FOR HALE COUNTY

At least fifteen new oil and gas test wells are virtually assured this section of West Texas within the next few months with operations scheduled to be begun in at least seven different counties, a representative of one of the largest independent oil firms in the nation told the Avalanche-Journal last night. Counties affected by the operations will be Castro, Hale, Floyd, Motley, Cottle, Lynn and Terry, he said.

Working along a program heretofore uninstituted the Exploration Oil company, a "mystery firm" known to be made up of geologists representing twelve major companies, will attempt to find oil and gas in eleven locations, distributed as follows: One in the southeast corner of Castro county; one each in the east, central and west portions of Hale county; one each in the east, central and west portions of Floyd county; three in the central part of Motley county and one in the central portion of Cottle county.

Three Locations Are Made

Of the total number of wells to be drilled three locations have already been made and the others are in the process of blocking. The locations mad include one just west of White Flat, and another just west of Matador, in Motley county; and one just east of Paducah, in Cottle county.

The Texas and Pacific Coal and Oil company will drill two tests each in Lynn and Terry counties providing landowners will furnish four blocks of at least 10,000 acres each. One location, north of the city of Tahoka, in Lynn county, is practically assured. This company is also considering a similar proposition in Hockley county.

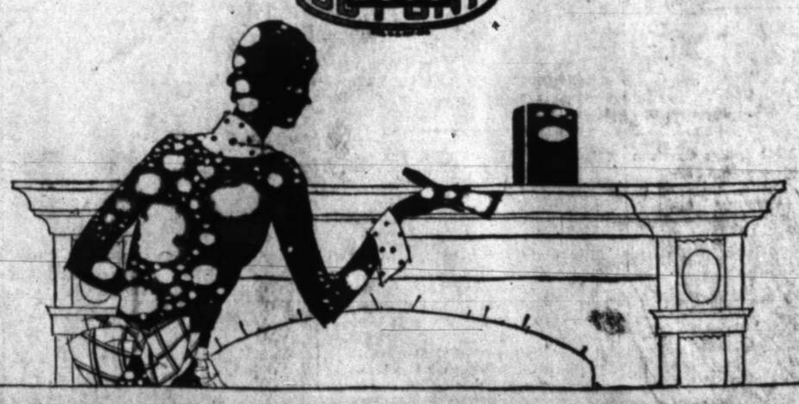

Just how Lubbock county and the immediately adjoining section will fare in future developments is a matter for conjecture. The El Capitan Oil company's Robertson No. 1, located in the extreme southwest corner of Crosby county on the Gus Robertson ranch near Slaton, has been shut down at 3,510 feet, wire line measurement, and contractor Dan Lewis, of Corolado City, is awaiting further orders. The contract depth on the well was 3,500 feet and, due to the general depression in the oil industry at present it may be that the well will not be drilled any deeper. The bit encountered lime at about 2,900 feet and was still in the formation when the contract depth was reached. It ran norm-

What one woman did with Duco!

MRS. F... got a can of Duco Ivory and painted the mantel, the book-shelf, and Baby's crib—all in one afternoon. And Baby slept in the crib the same night, and the books were put back after the dishes were washed!

Duco comes in a wonderful range of colors and stains. It is amazingly easy to use, and dries quickly. Come in and get a color card, free.

Mrs. W. B. Price And Four Delegates Leave Tuesday To Attend Conferences Of District Clubs Meeting In Quanah

With Mrs. W. B. Price, district president, and four club delegates of Lubbock are to attend the meetings of the seventh district federated clubs in Quanah Wednesday, Thursday and Friday of this week.

Mrs. J. F. Hankins is representing the City Federation of women's clubs, of which she is president, Mrs. Gus L. Ford is delegate from the Athenaeum club, Mrs. J. R. B. Cooper is to represent the Sorosis club and Mrs. W. H. Meador is delegate from the Junior Twentieth Century club and Mrs. O. L. Peterman was elected to represent the Child Study club but each of these two indicated yesterday that she would not attend.

President Leaves Early

The women are to leave here Tuesday or Wednesday, Mrs. Price going the earliest and leaving Tuesday morning. Plans for the convention are included in the weekly news letter from district clubs sent out by Mrs. Meade F. Griffin of Plainview.

Mrs. Price has been president of the district for the last two years and her present term of office will close in November. She will preside over all sessions of the conference this week. During her administration 18 additional clubs have entered the state federation in addition to additional growth in the district.

News has just been received in the office of the publicity chairman of the seventh district that the Pierian club of Amarillo has announced Mrs. F. T. Collins of that club for the candidacy of the seventh district, T. F. W. C., subject to the election to be held at Quanah during the sixth annual convention of the district April 20 to 22, according to Mrs. Griffin, whose letter follows:

Active In Club Work

This announcement will be received with interest and pleasure by members of the district everywhere. Mrs. Collins is a club woman of much experience and of wide interests. She has been a faithful and active member of the Pierian club for a number of years, and has always taken part in work of civic and cultural development, not only in her club but in the city of Amarillo, as well. She is endorsed by the Amarillo clubs and club women, and will receive their warm support in her candidacy.

Mrs. Collins is at present chairman of the department of applied education and has some very excellent work to her credit in that department. Accepting the appointment late, she has, with the assistance of her energetic, able division chairmen, accomplished much that is noteworthy. The work of this department, indeed, has been outstanding.

Her gracious, cordial personality and poise, her ability, experience, and interest in club work will all go far in securing her the support of the district in the event of her election to this important office, and will in turn, assure the district of having a wise and capable leader.

Business Starts Thursday

On the eve of the Quanah meeting, clubs are busy with last minute work, getting reports in shape, electing delegates and attending to the thousand and one details necessary; officers are working on reports, and individual club members are making their final arrangements. Transportation has been secured on the fare and a half certificate plan, which club women are asked to take advantage of whenever possible.

Business sessions begin Thursday morning at the First Methodist church. All delegates are requested to meet the credentials committee as early as possible that the business sessions may begin promptly.

Clubs are asked to prepare their reports in triplicate, retaining one copy, and handing two to the secretary.

Executive Board Meeting

Chairmen are asked to have a brief report ready for the business sessions, and a more complete, detailed summary of work ready for the board meeting, that there may be full discussion of the work and problems of each department in the board sessions. The executive board will be called to order at 10 a. m. Wednesday morning, and the greater part of the day will be given over to the work of the various departments and divisions.

Social events will break the monotony of the business sessions, and will prove most pleasant to those attending. A reception will be given officers, delegates and visitors Wednesday afternoon, and other social occasions are also planned.

It is hoped that this convention will break all previous records in point of attendance. An excellent program has been prepared, it is election, for district and state, and advance work on the great biennial meeting will also be discussed.

Flapper Fanny

A husband owes much to his wife, but more to her dressmaker.

The Social Calendar

MONDAY

The American Legion auxiliary is meeting at 8 o'clock at the home of Mrs. N. L. Peters, 2421 13th Street, with Mrs. H. L. Allen as joint hostess. Following the business session, games of bridge will be played.

A tea will be given in the home of Mrs. W. H. Bledsoe from 3 until 5 o'clock for wives of senators who will be here.

Mrs. R. H. Martin is calling a joint meeting of all Camp Fire girls at the club house at 4 o'clock.

The Mary Helm auxiliary meets at 3 o'clock with Mrs. Allen Hill, 1903 16th street, with Mrs. Hill, Mrs. C. P. Carlock and Mrs. D. D. Cross as hostesses.

TUESDAY

The Technological college faculty club meeting for April will be held at 8 o'clock in the college cafeteria with Dr. J. F. Zimmerman, president of the University of Mexico as the honor guest and speaker.

The Junior Twentieth Century club is to meet at 3:30 o'clock at the Methodist church.

The daleth Delphian chapter is meeting at 2:30 o'clock at the First Baptist church.

THURSDAY

Misses Stella Singleton and Louise Adkisson are entertaining mothers of the Toykajo Camp Fire troup in the evening at the home of Mr. and Mrs. H. A. Lattimore.

Mr. and Mrs. W. O. Stevens will be hosts to the Town and Gown club at 8 o'clock in the evening at their home.

Misses Mamie Wolfforth, Mary Louise Middleton and Maurine Hughes are entertaining at bridge at 2 o'clock at 1216 14th Street.

FRIDAY

Mrs. F. V. Brown and Mrs. J. C. McCoy will entertain and 1916 Needle club at the home of Mrs. Brown.

Misses Mamie Wolffarth, Mary Louise Middleton and Maurine Hughes are giving a second bridge party at 2 o'clock at 1216 14th Street.

There will be no meeting of the City Federation as the president and members are to be in Quanah attending the district meeting. The meeting will be on the following Friday.

SATURDAY

The Pan Hellenic club luncheon will be at 1 o'clock at Hotel Lubbock.

Miss Glenda Crawford Hostess To Sunday School Class

Miss Glenda Crawford entertained members of her Sunday school class Friday evening with a party at the home of Mr. and Mrs. J. A. Hughes, 1815 15th street, with Mrs. Hughes assisting in entertaining. Games were played in which Nannie Marie Williams and Jewell Henson received prizes. At 10 o'clock, ice cream sandwiches were served. Favors were card board Easter eggs filled with candies.

Guests at the party were Jewell Henson, Rachel Campbell, Josephine Young, Evelyn Doak, Alice Vista McCoy, Madeline Hughes, Samie Marie Hitt, Mary Nell Keithley, Kathryn Royalty, Ethel Murray, Evelyn Beard, Gwendolyn Thompson, Hazel Harris, Elizabeth Montfort, Ruth Magee, Katherine Leidigh, Sybil Cope, Leola Wofford, Nannie Williams, Doris Shields, Florene Ames and Grace Ratliff.

Loyette Lindsey Gives Easter Party Saturday

Loyette Lindsey, small daughter of Mr. and Mrs. Clifton Lindsey, as hostess at an Easter party yesterday afternoon at her home, 2015 Main street. Games were played, the children sang songs and various ones gave readings, after which an Easter egg hunt was staged with Janet Barnett finding the most eggs. She was awarded with a candy Easter bonnet. Frances Dawson found the golden egg.

Eskimo pies were served to Jane Wilson, Mollie Davis, Betty Jones, Janet Barnett, Jacklyn Davis, Frances Dawson, Betty Dawson, Anseth Jones, Rose LaNell Williams, Pauline Barrier, Nannie Mrgaaret Overton, Margaret Cosby, Mary Louise Bradshaw and Betty Smith.

Gloves Tell The Tale Of Easter-Tide

THEY ARE THE FINISHING TOUCH OF THE CHIC COSTUME—SUPPLYING THE ARTISTIC TOUCH

Typical of the ornately trimmed and novelty cuffed gloves to complete the Easter costume: 1—banana kid, back stitched in green, the cuff of contrasting pastel shades; 2—for dress, white glace kid with red stitching and red and black embroidered cuff; 3—French suede, stitched in lime green, with green and black suede-bound cuffs; 4—rose French knots on the back and suede rose cuffs beautify this glace kid, for formal wear.

BY JULIA BLANSHARD
NEA Service Writer

NEW YORK, April 16.—Fashion, today feels her way to chic in a thousand and one kinds of novelty gloves. For style in gloves, you know, is a matter of individual taste—like gowns, homes and husbands.

As a jewel is precious because of its rareness, gloves this season commend themselves to the smart woman by their exclusive touches. A novelty for every occasion and a different novelty for every woman seems to have been the glove-makers spring ambition.

Two-tone Colors

By color combinations, by decorative trimmings, and by novelty cuffs—some of them gorgeous affairs—do the new gloves show their chic. The two-tone color scheme is taken over bodily by glove artists. Gloves are no longer just something to cover the hands. They have achieved the position of being the final, competing touch to a costume—the cherry on top of the sundae.

As such they step out in all the colors of the silks, the chiffons, the wools and even the furs that make milady's costumes this spring. The color combination, are achieved by a variety of things. Leathers themselves run the gamut of the spring color card. Two kinds of leather also combine as French glace kid and a deeper shade of suede for the cuff, to get contrast. In sports we see pigskin, and calf, doe-skin and alligator.

Gaudy Stitching

Or a kid glove of the new string shade—a light neutral color between beige and fawn—may be positively gaudy with brilliant stitching on its back and a gay novelty cuff of a dozen colored flowers that tone with the costume it completes.

Embroideries lead in glove decorations. Every possible type of embroidery is utilized—from simple hand-stitching or delicate traceries to heavy all-over patterns for turn-back or stand-up cuffs in rich silks or gold and silver threads.

Laces, appliques of self materials in futurist motifs or tiny nosegays have been deftly adapted for these dressy affairs this spring. Silk ribbons, flowers of French knots, flowers of appliqued bits of colored suede—all these can be found fashioning the cuffs on the new gloves.

Contrasting Kid

Or we have the gloves that get their color contrast by combining two tones may come with blue stitchings and a blue cuff with inserts of flag-blue and piped with gold. Lavender glace kid gloves often call for purple or even blue kid cuffs. Banana, chartreuse, and all the other light tints can be found in gloves, most of them with delectable color, in their trimmings.

All dress gloves have the cuff. And it is only the smart street glove for strictly tailored wear that foregoes the pleasure of having that cuff richly colorful. Plain slip-on gloves take their chic from their smooth stitchings in self color and the texture of the soft suede or chamois from which they the fashioned.

But even for cape gloves the novelty cuff shows its influence in the trick fastenings that this type often employs. Few of them just button or snap shut. They have buckles, rings and some of them have small leather loops on one side and a loose band of leather on the other which slips through to hold the glove shut.

Reach New Peak

Detailed trimmings, and range of color are cited to prove the peak of importance to which gloves have ascended this year. Colorings, artists in design and decoration and masters in the leather business have all been called in to evolve the creations that bear the name of gloves this spring, and even a cursory inspection of this Easter's glove array makes it quite convincing that their effort was not in vain. Veritable works of art are this season's distinctive modes in gloves—well calculated to stir a responsive longing in the heart of every woman who see them.

Miss Louise Garrison Hostess At Dance Friday Eve.

One of the happiest events of the week was a dance that was given Friday evening by Miss Louise Garrison at the home of her sister, Mrs. F. H. Sawyer, 1204 15th street. In addition to the dancing, there were games, Punch and cake were served.

Guests were Misses Elizabeth Camp, Evelyn Wilson, Reba Wayne Williams, Maxine Clark, May Tom Simmons, Melba Mae Tatom, Lois Morrison, Leesle Bullock, Edith Waters, Laverne Garrison and Messrs. Hilton Martin, Orvel Marshall, Elbert Neal, Frank Neal, Frank Maddox, Floyd Gunn, Bob Pressley, Billy Murray, Carroll Weaver, Mark Welch, Wilbur Watson and Davis Vaughn.

Rev. J. G. Thomas, pastor of the First Methodist church of Brownfield, was in Lubbock yesterday.

The Woman's Day

By Allene Summer

If you get tired of the eternal round of dinner-eating," with soup, meat, potato, vegetable, salad, and dessert to prepare, listen a moment to a word from Samuel Pepys's diary about the supper that his wife had prepared for him when he returned from the day's arduous labors:

"My wife had got ready a very fine dinner—viz.: a dish of marrow bones, a leg of mutton, a loin of veal, a dish of fowl, three pullets and two dozen of larks all in a dish, a great tart, a neat's tongue, a dish of anchovies, a dish of prawns and cheese." We will sing now the chorus of that grand old song entitled, "Praise Be, I Was Born Years Later!"

WOMEN BANDITS

An 18-year-old boy, arrested in St. Louis last fall for his discovered plans of robbing Queen Marie of Rumania, has just been re-sentenced to a reformatory on another charge. He explained that he wanted to rob Marie, "just so's I could say all my life that I'd robber a queen."

The boy is not so different from many women we all know who make homes miserble for their families as they moan about what they don't have, and inflate the home standard of living, run into debt, and put the emphasis on the inane thing of life just so that they may say "I entertained Mrs. Boom-Boom."

* * *

"KITCHEN BESSIES!"

Another "kitchen Bessie" got into trouble. He was a 66-year-old Spanish-American war veteran. He was shot and killed by an 86-year-old Civil War veteran, "because he was always botherin' the women folks in the kitchen and talkin' too much and too fast."

The moral of the tale is that the sooner men learn that a kitchen is the woman's domain, the better off they'll be!

* * *

WOMEN "FIGGERS"

Figures ordinarily are not interesting. But anyone who finds interest in the advanced and present status of women may enjoy these. Eight million and a half women are gainfully employed in this country right now. This does not include the millions of women who work harder in their own home than any of the eight million, but who are not paid a wage. More than 22 per cent of this number hold manufacturing or mechanical jobs. There are only 35 occupations not open to women. There are 127,000 fewer women in domestic work than there were 17 years ago.

It would be interesting to see the figures for 1947. Will the pendulum have swung backward, and will women be back in the home or will none of them be there, and where will they and their husbands and families, if any, be?

* * *

TOO BAD

Mrs. Ruth Snyder, accused of helping kill her husband, complained that among the many ills she suffered at the hands of her mate was the fact that out of his weekly salary of $115 he gave her only $85 for the upkeep of the home and to save. "I could not keep up my end on that," she said. I am sure that she will have the intense sympathy of thousands of women who manage to keep up homes very nicely on $25 a week!

Organizations Foster Band Concert For Next Friday

A band concert that is to be given on Friday evening at 8:45 o'clock at the high school auditorium is being fostered by the Girl Reserve and Hi Y organizations of the high school. Proceeds from the affair are to go into a fund to send the high school band boys and their director, J. W. Crowley, to Fort Worth to broadcast radio music there in May. Tickets will go on sale tomorrow.

The high school band is to play in Wichita Falls this spring at the West Texas Chamber of Commerce convention. It is from Wichita Falls that the two high school organizations are planning to send the boys to Fort Worth to play. Miss Margaret Cooper is the Girl Reserve president and Mansell Hall is the Hi Y president. Mrs. Vaughn E. Wilson and R. W. Mathews are sponsors of the organizations.

Characters Selected For Camp Fire Play

Characters for a play, "How Beth Won the Camp Fire Honor," were selected at a meeting of the Toykajo Camp Fire troop, Thursday afternoon at the club house. Plans were made to organize a tenns club within the troop and to have a council fire soon.

Those who were in attendance at the meeting were Mrs. H. A. Lattimore, guardian, Miss Lucille Moses, assistant guardian, and Misses Alice Rachel Jones, Lillian Bryett, Cleo King, Wavis Bragg, Jennie Mae Whitaker and Louise Adkisson.

Cantatas To Be Given In Presbyterian Methodist And Christian Churches This Evening; Simmons Choral Club To Sing

They Accompany Easter Cantatas

MISS MARGARET HUFF

MRS MAMIE I. NEAL

Two of Lubbock's widely known musicians will accompany Easter cantatas today. Miss Margaret Huff will play a piano accompaniment at the First Presbyterian church and Mrs. Mamie I. Neal will be at the organ at the First Methodist church.

Three Easter cantatas are to be given tomorrow evening in Lubbock churches in the place of the regular Sunday services and the choral club of Simmons University is appearing at the First Baptist church.

"From Death to Life," is to be rendered at the First Christian church at 8 o'clock under the direction of C. A. White with members of the choir singing and Mrs. Paul Morian accompanying.

Carlock is Solist

The cantata opens with a baritone recitative by Herbert Carlock and continues with solos and chorus singing. The personnel of the choir is as follows:

Sopranos—Mrs. C. C. Lindsey, Mrs. Earl Barrier, Mrs. D. W. Robertson, Mrs. Joe Coursey, Miss Helen Robertson and Miss D'Aunn Simmons; contraltos—Miss Louise Jennings and Mrs. Hazel McClure; altos—Miss Grace Jennings, Mrs. R. A. Mills, Mrs. Mary Hinton and Ronald Shepherd; tenors—D. W. Robertson, J. E. Hartley, C. P. Collier and J. R. Greene; baritone—Herbert Carlock; bassos—Fred Ray, E. C. Young and Donald Shepherd.

Blocker Directing

H. E. Blocker is director of the "The Greatest Love," which is to be given at the First Presbyterian church by the singers there, and Miss Margaret Huff is accompanist. This program is composed of trios, duets, solos and chorus singing with Miss Mary Meador playing a violin offertory during the interlude.

Singers for this include: Sopranos—Mrs. Josephine Ballenger, Mrs. I. C. Dunbar, Mrs. J. W. Gillon, Mrs. J. M. Lewis, Miss Ruth McCorkle, Mrs. A. W. McKee, Mrs. Elmer Stotts and Mrs. L. A. Williams; tenors—H. E. Blocker, S. T. Cummings and J. H. Murdough; altos—Mrs. H. E. Blocker, Miss Nannie Rush Cooper, Mrs. Raymond George, Mrs. L. J. Von Tungeln and Mrs. Charles J. Wagner; bassos—L. C. Ellis, W. R. Waghorne, S. C. Wilson and R. D. Woods.

Easter Vesper Service Of Y. W. C. A This Afternoon

The first joint Easter vesper service of the Technological college Y. M. C. A. and the high school Girl Reserve organization is to be given at 4 o'clock this afternoon at the First Methodist church and the public is invited to attend.

Mrs. W. P. Jennings is to be the speaker for the afternoon, college girls are to furnish special music and the candle-lighting ceremony identified with Y. W. C. A. work is to be given. Miss Bernard Davis, president of the junior high school Girl Reserves; Miss Margaret Cooper, president of the Senior high school Girl Reserves, and Miss Dorothy Rylander, vice-president of the Senior high school organization are to make short talks. Mrs. Mamie I. Neal is to be at the organ and the congregation is to join in singing hymns.

Miss Ivo Wilson, Y. W. C. A. secretary at the college, is to preside at the program.

The Girl Reserve organization is the junior organization of the National Young Women's Christian Association. Miss Vaughn E. Wilson, teacher in the high school, has general superintendency of the work here.

Martha Alice Penny Is Hostess At Dance Last Evening

Miss Martha Alice Penny was hostess at a dance last evening at the home of her aunt, Mrs. R. G. Wilkinson, 1910 Avenue Q. Cut flowers were used as decorations in the home and punch and cake were served throughout the evening to the guests. Games of forty-two were played in addition to the dancing.

Guests were Misses May Tom Simmons, Melba Mae Tatom, Leslie Bullock, Ada Ruth May, Clara Paul Chauncey, Elizabeth Camp, John Anna Boyd, Frances Snyder, Louise Garrison, Maxine Clark, Reba Wayne Williams, Evelyn Wilson, Ruth Mildred Rylander, Georgia Lee Boles and Messrs. Billy Murray, Frank Easley, Frank Maddox, Murray Ballenger, Marie Welch, Edgar Neal, Bob O'Hair, Carroll Weaver, Hilton Martin, Orval Marshall, George Glover, Roscoe Bayless, V. R. Dockray, R. E. Hardberger and Richard Harrison.

Merry Bidders Club Is Entertained In G. Gregg Home

Mrs. Quien Gregg and Mrs. A. W. Barnes were hostesses to the Merry Bidders club Friday afternoon at the home of Mrs. Gregg, 1901 19th street. Games of forty-two were played during the afternoon after which grape sherbert was served with angel food cake. Sweet peas were plate favors.

Mrs. Reeves Catt was a tea guest and other guests were Mesdames Sam T. Davis, John Moore, O. L. Nislar, H. P. Bradley, E. P. Norwood, Norton Baker, E. C. Wedemeyer, J. T. Orr, Fred Spikes, E. M. Smith, H. D. Chipley, K. Carter, W. E. Cravens, Gus L. Ford, J. L. Dow, J. H. Hankins, R. Q. Pierce, John H. Pierce, C. B. Powell, C. C. Wolfarth, W. H. Meador, R. H. Moore, C. E. Roberts, L. A. Howard, W. C. Gregg, of Fort Worth, and J. E. Garrison.

Federation Women To District Town For Clean-up Drive

A representative of each club represented in the City Federation of Women's clubs is to meet at 2 o'clock tomorrow afternoon at the First Baptist church to district the town for the clean up campaign that is being fostered by the federation. Mrs. J. F. Hankins, president, said yesterday.

Mrs. W. H. Trice Is Hostess To Needle Club Friday

Mrs. W. H. Trice, 2208 14th Street, was hostess Friday afternoon to the L. T. D. club and visitors. The afternoon was spent doing embroidery and other needle work, after which the hostess served an ice course, giving rabbits as favors. An all-day meeting was planned for May 6 with Mrs. A. L. Hawkins.

Members and guests in attendance were Mesdames A. H. Travis, J. C. Levens, W. A. Childers, J. G. Biffle, Claude Gray, J. Clements, J. R. Pendleton, J. C. Hornsby, D. H. Mansell and A. L. Hawkins.

Turquoise

Fashioned of gold filigree flowers with turquoise centers, this earring is typical of the very smart turquoise spring and summer jewelry.

Lubbock Clubs Are High In Drive For Speech Betterment

Miss Elora Metier, chairman of better speech in the seventh district of women's federated clubs, is reporting a splendid response on the part of club women in fostering programs in the high schools of the Panhandle and in the encouragement of speaking without notes in the various clubs.

Miss McGee has throughout the year encouraged the giving of prizes in high schools for extemporaneous talks on civic problems, for essays written along the line of current problems of a civil nature, the writing and dramatizing of better speech plays and the exhibition of better speech posters.

Outstanding Clubs

As outstanding examples of the results of her work, Miss McGee mentioned a few of the clubs and told of their work.

The Twentieth Century club here gave two $2.50 prizes in the junior high school for the best essays written by a girl and a boy on civic questions. Plans have been made, also, in this club, to give a negro boy and a negro boy in the local schools each a prize for $1 for the best essays on similar subjects.

Mrs. Sid O'Keefe, president of the Fine Arts club, of Panhandle, has sent a newspaper clipping to Miss McGee telling of the awarding of two medals to students making the highest grades in English, one in the senior and one in the junior high school. She reported, also, that 90 percent of the club members are speaking without notes.

Amarillo Club Reports

The Pierian club, of Amarillo, has reported that 100 percent of the members are speaking without notes and that the club has fostered the better speech movement in several ways, on of them being to presen; a loving cup to the girl winner in a declamation contest in the high school.

The local Athenaeum club has reported that 80 percent of the members talk without notes.

These are only a few of the clubs of the district, many of which are responding to Miss McGee's outlines of work that may be done in encouraging better speech.

Large Bridge Party Is Given At Country Club Friday

The Country club was the scene of a merry party Friday evening when Mr. and Mrs. Byron C. Dickinson entertained the 1921 Bridge club and other guests. Eight tables were arranged for bridge and after five games had been played, an "Ask Me Another" contest was held with Dr. Sam Dunn scoring.

Miss Mary Meador and W. B. Powell made top counts among the guests in the bridge games, and Mrs. Hurd Jones and Ernest Conely scored high among club members. Cut flowers were used in decorating the club halls and delicious refreshments were served.

Party guests were Messrs. and Mesdames Ernest Conley, Hurd Jones, C. L. Quillin, Houston Spikes, D. K. Bondgrant, W. B. Powell, Lawrence Bacon, J. T. Krueger, J. A. McCelvey, H. D. Erwin, A. V. Weaver, Mrs. Roy N. Hagerty of Minneapolis, Miss Mary Meador, Miss Irma Dalrymple, Herbert Street, Ross McWhorter and Dr. Sam Dunn.

Misses Mitchell And Hamilton Give Egg Hunt Yesterday

Misses Marjorie Mitchell and Mary Hamilton were hostesses at an Easter egg hunt yesterday afternoon at the home of Mr. and Mrs. G. E. Hamilton, 1511 Avenue R, for pupils in two classes at the First Methodist Sunday school. Games were played before the hunt was staged and the children were served refreshments.

Those who were in attendance were Thelma Lois Allen, Robert Tuve, Helen Ruth West, J. C. Powell, Jr., Mary Alice Mangen, Harthalea Montfort, Betty Jane Cross, Aurora Grisham, George Rufus Rush, George Henry Reeves, Jr., Frances Pase, Marilyn Riggs, Ruth Oberton, Maudena Earl Kelm, Jo Billy McKastill and Joe Edwin Baldridge.

Mothers who were at the party were Mesdames J. C. Powell, West, Rufus Rush, George Henry Reeves, Kelm, Joe Baldridge, C. M. Mitchell and G. E. Hamilton.

Camp-Fire Girls Have Easter Party At Club House

The Tanda and Toykajo groups of Camp Fire girls were entertained with an Easter egg hunt and party yesterday afternoon at the club house. Hostesses were Misses Evelyn Garlington, Margaret Smith, Elizabeth Conner and Ruth Simpson. The girls ran races, sang Camp Fire songs and played games after which they were served lunch.

Mrs. R. H. Martin, Tanda guardian, and Miss Lucile Moses, assistant guardian of the other group, were present with the following girls: Stella Singleton, Louise Adkisson, Ruth Reed, Wavis Bragg, Alice Rachel Jones, Leesie Bullock, Clara Paul Chauncey, Margaret Smith, Cleo King, Myrtis Gibbons, Douglas Doyle, Lorandean Allen, Evelyn Garlington, Juanita Mills, Elizabeth Conner and Ruth Simpson.

"Kid" Party Is Given For Church Young People Friday

Young people who attend the Church of Christ Sunday school were guests at a "kid" party Friday evening in the home of Mr. and Mrs. J. B. Hancock, 2105 9th street. About sixty attended and played numerous games, after which lollypops and ice cream cones were served.

Milady's Best Foot Comes Forward And Shoes Like These Are Boon To Her Style

As Easter lilies bloom thus will Milady's foot be dressed. Left to right: glazed gingham pumps, lavender, with patent trimmed vamp and heel; elk skin golf tie with alligator sandle; sport slippers of cocoa kid with simulated tongue of beige, and snake skin opera pumps with novelty tip and spike heel.

BY JULIA SLAUGHARD
NEA Service Writer

NEW YORK, Apr. 16—When Milady puts her best foot forward in the fashion parade today, it is nine chances to one that the shoe that foot wears will reflect most of the following style points:

It will be fashioned from two kinds of leather.

The two-toned color idea will be emphasized.

A fancy strap, a bow, a buckle, intricate stitching or an ornate cut-out or overlay pattern will decorate it.

Its heel will be a spike—either a modified one for wear with the tailleur or a real spike that is a spike and lifts the foot proudly from the ground, for semi-formal and evening wear.

Last and probably most important, in color and design it will be a part of the whole ensemble, and probably will match the purse Milady carries.

But, sum up the styles as one may, words fail to convey the wide range of novelties displayed this spring as the latest words in chic. Individuality in shoes now can be a reality to the woman of taste.

Shoe men have outdone themselves in number of designs and in the novelty ideas executed in the widest variety of skins ever utilized to fashion the footgear of the feminine world.

Varied Leathers

While glazed kid, calf-skin and patent leather predominate in forming the quarters of the new shoes, the vamp, trimmings and pipings may be made of anything from gold and silver lames for evening wear, to glazed ginghams for street costumes.

Cut-out or novelty designs in contrasting kid which gives the two-toned note to footgear, have replaced the interwoven leather that gave a basket weave effect last season. Many of the so-called sports shoes, designed to be worn with costumes that take the wearer near the tennis court and golf links but never on them, are positively ornate with intricate two-toned cut-outs or overlay patterns.

Sharkskin is the latest addition to the long list of skins pressed into service for women to walk in. Blue is the color sharkskin usually takes for daytime wear and at night it changes to blonde. Snakeskin and lizard still lead in popularity, however, for nothing is lovelier than the browns of all shades that the former comes in and the soft silvery grays that synchronize with the pastel shades of spring attire.

Alligator is also in high favor. Nothing is trimmer than a smart two-strapped slipper of this that fastens with little mannish buckles instead of buttons. By their fastenings, incidentally, can the smart shoes be known.

A tricky scalloped strap, an entwined strap, or a twin-strap may meet the other side of the shoe with a bow, a buckle, a jeweled pin or a button of unusual cut or color.

One of the most interesting and most important developments this spring is the new pastel colors shoes step to chic in. Kids and other skins now fashion dainty slippers of the most delectable yellows, greens, blues and lavenders. The Nile green or shell pink ensemble can be a perfect symphony now with matching dainty slippers. Lizard comes in pastel tones, too, but more gray lizard is used.

More Comfortable

To look at some of the new slippers, one might think that shoes have been reduced to a minimum, like the length of skirts and bobbed hair. But, as is true in the last two cases, the new styles are far more comfortable than the clumsy old high shoes women of a decade ago bought for their Easter parade. Scientific design and artistic decoration have united to make the new works of art absolutely comfortable.

Shoes this Easter merely are one more example of the tendency of the age to beautify and compliment women. The new styles all have slenderizing lines, achieved by their cut and their decoration. Even brogans and gum-soled sports ties are designed so that their saddles of contrasting leather, their fancy tips and stitchings give the foot that desired slender look.

The biggest problem this spring is not to find footgear that suits, but too many styles to choose from. Any costume can be matched in footgear and any occasion, be it daytime or night, has its own style. Footgear is really much too pretty and irresistible! For it is not pains but pangs that the new slippers will give women this year, pangs of desire to own at least a dozen pairs!

SIR BOUNTIFUL APPEARS

ALBANY, N. Y.—When his car failed him on an isolated road in the northern part of New York State, a motorist, found he was out of gas, cursed his luck, hailed an approaching truck. The driver of the larger vehicle slowed down just enough to hand him an envelope, then sped on. The envelope contained $200. Police sought a liquor runner.

Music Club And Schools Co-operating In Presentation Of Programs During Spring; Music Week Events Included

A series of musical and dramatic programs are being planned for this spring by the Music club and the schools of the city to begin within the next two weeks and close near the end of May. Within this series will be included the National Music Week program.

Among the things that are being planned at present are a cantata, "Childhood of Hiawatha," to be given in costume within the next two weeks by the junior high school students; an operetta, "In Little Folks' Town," to be presented on the evening of April 29 by about one hundred and fifty children of the K. Carter ward school; a twilight May fete to be given on May 13 by the Sanders school children; an operetta, "The Stolen Flower Queen" to be given by about two hundred children of the central ward school on May 20.

Schedule Many Events

The music week programs, which fall between May 1 and May 7, have been scheduled as follows: Sunday, special music in the churches; Monday, orchestra and band program under the direction of Miss Annis Owens and J. W. Crowley; Tuesday, program by junior pupils of the public schools, prepared by Mrs. John L. Ratliff and Miss Daisy Baskin; Wednesday, a program by music students of the Technological college, prepared by Miss Margaret Huff and A. G. Pfaff; Thursday, a program by senior music pupils of the public schools, prepared by Mrs. Mamie L. Neal and Mrs. Carl Scoggin; Friday, public school music program, showing the music work from the kindergarten through the high school, directed by Miss Louise Ocker; Saturday, a luncheon at Hotel Lubbock honoring Lubbock composers, with an installation ceremony for new officers of the Music Club.

Girls Will Sing

Miss Ethel Rives and the Junior high school girls' chorus are to present "The Childhood of Hiawatha" and the following girls are cast in the performance:

Misses Mary Alley, Mary Ansley, Coleta Baker, Katharine Baskin, Leona Bennett, Lucille Bowlin, Maxine Clark, Veda Davis, Ethel Green, Waurika Hanley, Geraldine Kirkpatrick, Mary Leidigh, Ada Ruth May, Martha Alice Penny and Ruth Mildred Rylander. Miss Alice Claire Teague is the pianist.

To Stage Operetta

Miss Stella Thurman, Carter school principal, and teachers in that school are cooperating in directing the operetta, "In Little Folk's Town." This fantastical program presents a carnival in the imaginary town of little folk with the children of long ago, fairy land characters, carnival features, drills, songs and other numbers. Characters in this are to wear picturesque costumes.

Fete Out of Doors

Mrs. V. N. Schultz and Miss Blanche Fann are preparing the Twilight May Fete which is to be presented by the Sanders school. Unlike the other performances, this one is to be staged out of doors.

Eva Richardson has been chosen the queen and B. C. Mathaney the king by a vote of the school children. The king is to crown the queen and there are to be drills and marches before the queen's throne by the little children in costumes, the performance emulating the traditional European May fetes.

Mrs. L. J. Von Tungeln and Miss May Cravens are directing the operetta, "The Stolen Flower Queen," an elaborate performance in which children will reflect the color and grace of a fairy flower land in their costumes.

The Music week program is under the direct sponsorship of the Music club members and the luncheon feteing composers, is to be attended by members of this club.

Tortoise

The spring costume is incomplete without a tortoise shell accessory such as this bracelet of tortoise and gold links.

Society Briefs

Mrs. J. C. Hornsby is leaving this morning for Waco where she expects to visit for about two weeks.

Mrs. O. E. Sears and daughter, Jane, and Mrs. L. H. McLarty returned Friday night from Dallas and Leonard where they have been visiting.

Mrs. A. H. Thornton, of Floydada, mother and Mrs. J. M. Elliott, r., of Dallas, sister of Mrs. Charles Whitacre, are visiting Mr. and Mrs. Whitacre, 2614 10th street. Mrs. Whitacre is recovering from an illness.

Mr. and Mrs. J. B. Peters are visiting in Cuthbert during the week-end. Mrs. Peters is to go to Abilene Sunday where she will attend a Methodist missionary conference this week.

Mrs. Phil Williams, who was before her marriage Miss Lois Long of this city, is resting well in a Corpus Chrisiti hospital following an emergency appendicitis operation last week according to word received here by her parents, Mr. and Mrs. J. A. Long.

Miss Sallie Jackson, of Pampa, is visiting in the home of her brother, A. C. Jackson, 1914 15th street.

Mrs. Sam Lightfoot Is Hostess To S. S. Class Saturday

Mrs. Sam Lightfoot, assisted by Mrs. A. W. McKee, took members of her Sunday school class of the First Presbyterian church to an Easter egg hunt in the canyon yesterday afternoon. After the eggs had been found, sandwiches, pickles potato chips and punch were served to Frances McKee, Emily Davis, Katherine Barr, Mary Virginia Ballinger, Jean Ory Eaton and Eleanor Hodges.

Mr. and Mrs. Fry Are Hosts To Sunday School Class

Members of the Baptist Faithful Workers class attended a slumber party Friday night at the home of Mr. and Mrs. Alfred Fry in the Ellwood addition.

Various features of entertainment were enjoyed during the early evening, including the popping of corn. A three-course breakfast was served yesterday morning by Mrs. Fry to Misses Helen Welch, Helen Woods, Virginia Mathis, Inez Law, Myrtis Gibbons, Verna Mae Cloninger and Mr. Fry.

Delegates Are Leaving For Abilene W. M. S. Annual Meet

Delegates to the annual meeting of the Woman's Missionary society of the Northwest Texas Methodist conference are leaving for Abilene where conferences will be held for three days.

Mrs. H. T. Kimbro, vice-president of the conference, and Mrs. J. D. Peters, superintendent of supplies, will attend as officers of the society. Delegates from the First Methodist W. M. S. are to be Mrs. A. W. Evans, president, and Mrs. W. W. Royalty, Mrs. C. E. Moreman, Mrs. C. H. Smith, Miss Annette Newell and probably Mrs. John Richards are to attend as delegates from the Mary Helm society. Mrs. W. S. Mead will go as delegate from the Nineteenth Street church.

Newly Married Couple Return To Lubbock To Make Home

Mr. and Mrs. Don Mitchell, who were married Thursday at noon in Honey Grove, arrived here yesterday to make their home. At present they are at the home of Mr. and Mrs. Harry E. Blocker, 1515 15th street, and have not decided where they will live.

Before her marriage, Mrs. Mitchell was Miss Anne Self, daughter of Mr. and Mrs. J. A. Self, of Honey Grove. Mr. Mitchell is associated with Mr. Blocker in the cotton business here.

Easter-Egg Hunt For Sunday School Classes

The Sunday school classes of Mrs. Roger Pierce and Misses Donna Lee Allison and Katherine Baskin attended an Easter egg hunt at the First Methodist church yesterday afternoon. Lawn games were played by the thirty children in attendance before the hunt was started.

FORGOTTEN SOMEONE?

SEND FLOWERS

Women whether sixteen or sixty always like to be loved and appreciated and remembered. Don't forget her Easter—send her flowers!

Wives Of Senators Will Be Guests At Lavish Tea Monday

As a courtesy to wives of members of the Senate investigating committee who are to be here Monday, a tea is to be given in the home of Senator and Mrs. W. H. Bledsoe, 1304 Broadway.

Mrs. E. S. Woods, of Gruver, Mrs. Eugene Miller, of Weatherford, Mrs. H. L. Lewis, of Navasota, Mrs. R. S. Bowers, Caldwell, Mrs. Berry Miller, of Dallas, and possibly other women will be in the party. Mrs. Bledsoe has invited Mrs. R. A. Underwood, of Plainview, wife of a Technological college regent, and Mrs. H. T. Kimbro, of Lubbock, to appear in the receiving line also.

Senator Bledsoe is a member of the committee that is coming to Lubbock and during the seasons that Mrs. Bledsoe has spent with her husband in Austin she has become friends with the women who are to be her guests tomorrow.

Among those who are to assist Mrs. Bledsoe as members of the house party are Misses Margaret Weeks and Jonnie McCrery. Mesdames W. J. Miller, Mary W. Doak, A. H. Leidigh, Roscoe Wilson, Jed A. Rix, A. V. Weaver, M. B. Hilburn, W. H. Meador, J. S. Johnson, W. O. Stevens and W. A. Bacon. Mesdames E. E. White, Jack M. Lewis, W. P. Jennings and W. A. Bowen are to pour tea.

Episcopal Easter Egg Hunt Scheduled

An Easter egg hunt is to be staged at 3 o'clock this afternoon for the Sunday school of Saint Paul's Episcopal church. Parents and children are invited to attend and are to meet at the church. There will be cars to take the group to the place of the hunt, Rev. L. G. H. Williams announced.

PALACE NEWS AND COMEDY

'Tis Easter Sunday

FIRST CHRISTIAN CHURCH
16th Street and Avenue J.
REV. W. P. JENNINGS, Pastor

The greatest festival of Christendom is the glorious Eastertide. It does not come just to remind us that Jesus Christ died and rose again hundreds of years ago, but it comes to tell us that Jesus still lives. This is the trumpet call of Easter, Jesus lives, hallalujah, Jesus lives.

Let us thank God for the gladness of the new life—and the victory of Easter. Let us declare how great things God has done for us, and let us publish the tidings everywhere, "The Lord is risen indeed. "Jesus lives—and because he lives, we shall live also."

Let every body show their appreciation of this glad Easter tide by attending Church today.

We are planning and expecting a great High, Busy Day at First Christian Church. Beginning with a Sunrise Prayer meeting at 6:30 A. M. Then at 9:45 A. M. our Bible School convenes—we expect to have the largest attendance at the Bible School in the history of the church.

At 11:00 A. M. the pastor will have for his sermon Theme: The Empty Tomb—the Assurance on An Endless Life. The Choir will furnish special Easter Music. The Junior and Intermediate Societies meet at 6:00 P. M. The Senior Endeavors at 6:30 P. M.

At 8:00 P. M. the evening service will be in charge of the Choir. They are giving an Easter Cantata, entitled "From Death To Life." This is a wonderful Story in song of the Resurrection of Christ. You will want to hear this message of song by our splendid Choir, directed by Mr. C. A. White.

We extend a most cordial welcome to the general public to all services.

"I was glad when they said unto me let us go into the house of the Lord."

FIRST BAPTIST CHURCH
Special Program

During the past week the Choral Club of Simmons University, Abilene, Texas, has been making a tour of northwest Texas. The Club will arrive in Lubbock Sunday afternoon from Floydada and will render a musical program at 8 p. m. at the First Baptist Church. This Choral Club has commanded favorable attention and commendation for its splendid, high-class programs and we are sure that those who come this evening will not be disappointed.

The Sunday school services are well attended and are being held up to a high standard by an efficient staff of officers and teachers. We would like to have every member of the church enrolled in the Sunday school and present at 9:30 a. m.

The pastor will speak at 11 a. m. A cordial invitation is extended the stranger and visitor in our midst to attend the services of the day.

FIRST PRESBYTERIAN CHURCH
Easter Cantata Sunday 8:00 P. M.

The public is most cordially invited to hear the rendition of the beautiful Easter Cantata, "The Greatest Love," words by Bronner and music by Petrie, which will be sung by the choir of the First Presbyterian Church Sunday evening. This will prove to be a very inspiring service especially to all music lovers. H. E. Blocker is director of the choir.

CUMBERLAND PRESBYTERIAN
C. E. Society, April 17

Topic, Christ in Us, Power for a New Life. Eph. 2:1-18.
Leader—Leona McClellan.

Scripture Lesson—Eph. 2:1-18.
Song—The Old Rugged Cross.
The Meaning Of Spiritual Power—Claude Peek.
Christs' Promises—Golda Campbell.
How May I Imitate My Master—Dimple Ford.
Sentence Prayers.
Song—Jesus Paid It All.
Paul's Experience—Gal. 2:19-21—Sue Alva Poynter.
Behold I Stand At The Door Of This Society—Coy Cowan.
Business Session.
Dismissed with consecration prayer by pastor.

FIRST METHODIST CHURCH
Ave. M. and Broadway
REV. E. E. WHITE, Pastor

A large crowd is expected at the First Methodist Church today. The Pastor will deliver a special Easter sermon at the morning hour and there will be a baptismal service for infants. At the close of the service, new members will be received and no time could be more appropriate for such a decision than this Easter morning. Tonight the Choir will render an Easter Cantata and the public is invited to come and enjoy this program.

Sunday School at 9:30 this morning with classes for every age. Preaching at 10:55. Junior Church at the same hour. The Junior League for children from 8 to 13 meets at 3:30. The Intermediate League for young folks from 13 to 16 meets at 5:50. The Senior League meets at 7 o'clock. Supper for the Senior Leaguers is served at 6 o'clock at the Church. All the Leaguers are invited to come to the Church early and visit together or read.

EPISCOPAL CHURCH SERVICES

CATHOLIC CHURCH

Those of the Catholic faith in Lubbock will observe Easter services at the First Catholic church, in the northwest part of the city, with regular services. A Sweetwater father will be in charge and high mass will be said at 9:00 o'clock this morning.

THE NEW BAPTIST CHURCH

Our membership has grown nearly three-fold since we organized a few Sundays ago. We will meet from now on in our new house of worship on Avenue Q and 19th Street.

Sunday School at 9:45 a. m.—J. A. Ritchie, Supt.

Preaching at 11 a. m. by W. A. Todd, the pastor.

Evening services at 7:45.

Sunday morning our Easter program will consist of old fashioned Easter songs and a sermon on: "Why Christ arose from the Grave."

You are invited to meet with us this Easter which will be the opening services in our large new building.

CHRISTIAN SCIENCE SOCIETY
1411 Fourteenth Street

Services are held regularly each Sunday at 11:00 a. m. and the Wednesday evening services at 7:30 p. m. Sunday school is held at 9:45 a. m. for pupils under the age of twenty. The Subject of the lesson for today is "Doctrine Of Atonement" and the Golden Text is from "I Corinthians 5:18." "All things are of God, who hath reconciled us to himself by Jesus Christ, and hath given to us the ministry of reconciliation."

Reading room is maintained at the church which is open on Tuesday and Friday afternoons each week where all authorized Christian Science literature may be read, borrowed or purchased. The public is cordially invited to attend the services, and enjoy the reading room.

Royal Kiddies

The pride of their regal grandparents, King George and Queen Mary, are Masters Gerald and George Lascelles (front and rear), children of Princess Mary and Viscount Lascelles. Here they are out for a morning airing in a country lane at Goldsborough.

DOG ENDS OWN LIFE

NEW YORK.—One of the first dog suicides on record was committed here when Jack Gilbert, a Scotch terrier belonging to a hotel manager, climbed to the roof and leaped to the street below. He was a great favorite with the hotel guests and was given a funeral with flowers.

Tire Magazine Lauds Lubbock

"The U. S. Tire Retailer', a trade publication of the United States Rubber company, has climbed on the bandwagon along with other publications of the nation in singing the praises of West Texas and, in its April issue, has devoted much art and space to Lubbock.

The Super-Service station, property of D. H. Mansell, Ed. F. Howard, and Mrs. J. T. Ashford, U. S. Tire retailing agency here, is pictured on the front page of the magazine in three colors and practically a whole page in the magazine is devoted to Lubbock, the South Plains and the Super-Service station.

COST FAITH IN EYES

SILVERTON, Col.—When two members of the Colorado National Guard flew over the Continental Divide to this snowbound town recently, they gave it the first glimpse of an airplane it ever had. Mrs. Mary Cura, 75, had never seen a plane and she didn't believe men could fly. When she was coaxed out of the house to see the ships, she took one look and turned back, saying "They just ain't."

ELECTION ORDER

THE STATE OF TEXAS,
CITY OF LUBBOCK,
COUNTY OF LUBBOCK.

The City Commission of the City of Lubbock, Texas, met in regular session on the 31st day of March, A. D. 1927, all members thereof being present, to-wit:

Pink L. Parrish, Mayor
W. S. Posey,
J. O. Jones,
A. V. Weaver,
J. H. Hankins, Commissioners

and G. W. McCleary, City Secretary, when the following proceedings, among others, were had, to-wit:

Upon motion made by Commissioner Posey, seconded by Commissioner Weaver, the following ordinance was read by the City Secretary and ordered passed by unanimous vote of the Commission:

ORDINANCE NO. 370

An Ordinance by the City of Lubbock, Texas, calling an election for the purpose of voting on the proposition for the issuance of the bonds of the City of Lubbock, Texas, in the principal sum of $650,000.00, bearing interest at the rate of 5 per cent per annum payable semi-annually, for the purpose of funding certain outstanding indebtedness of said city, and for the levy of a sufficient tax to pay the interest on said bonds and the principal thereof at maturity; fixing the date and place of such election; providing for notice thereof; appointing the officers to hold the same; and declaring an emergency.

WHEREAS, the City Commission of the City of Lubbock, Texas, deems it advisable and to the best interest of the City to issue bonds of the said City for the purpose of funding certain valid outstanding indebtedness of said City, thereby reducing the rate of interest and extending the dates of maturity;

THEREFORE, Be it ordained by the City of Lubbock, Texas, that an election be held on the 3rd day of May, A. D. 1927, at which election the following proposition shall be submitted:

"Shall the City Commission of the City of Lubbock, Texas, be authorized to issue bonds of the City of Lubbock, Texas, in the sum of Six Hundred Fifty Thousand Dollars ($650,000.00), payable serially over a period of forty years from their date, maturities to be fixed by the City Commission, bearing interest at the rate of five per centum (5 per cent) per annum, payable semi-annually, and to levy a tax sufficient to pay the interest on said bonds and create a sinking fund sufficient to redeem them at maturity, for the purpose of funding certain valid outstanding indebtedness of said City, as authorized by the Constitution and Laws of the State of Texas and the City Charter of the City of Lubbock, Texas, said outstanding indebtedness being described as follows, to-wit:

15 and 16,	May 20th, 1951,	$2,000.00
17 and 18,	May 20th, 1952,	$2,000.00
19 and 20,	May 20th, 1953,	$2,000.00
21 and 22,	May 20th, 1954,	$2,000.00
23 and 24,	May 20th, 1955,	$2,000.00
25 and 26,	May 20th, 1956,	$2,000.00
27 and 28,	May 20th, 1957,	$2,000.00

said warrants having been authorized by Ordinance No. 369, adopted by the City Commission on the 31st, day of March, 1927, and recorded in Book 1, Page 284, et seq., of the Minutes of the City Commision."

The said election shall be held at the City Hall in the City of Lubbock, Texas, and the following named persons are hereby appointed managers of said election, to-wit: R. T. Penny, W. E. Ballew and J. W. Gillon.

The said election shall be held under the provisions of the Special Charter of the City of Lubbock, Texas, adopted on the 27th day of December, 1917, and amendments thereto, and the Constitution and laws of the State of Texas, and only qualified voters, who are property taxpayers of said City, shall be allowed to vote.

All voters who favor the proposition to issue the bonds shall have written or printed upon their ballots the words "FOR THE ISSUANCE OF THE BONDS AND THE LEVY OF A TAX IN PAYMENT THEREOF".

And those opposed shall have written or printed upon their ballots the words:

"AGAINST THE ISSUANCE OF THE BONDS AND THE LEVY OF A TAX IN PAYMENT THEREOF."

The manner of holding said election shall be governed by the laws of the State regulating general elections.

A copy of this order, signed by the Mayor of the City of Lubbock, attested by the City Secretary of the said City, shall serve as a proper notice of said election.

The Mayor is authorized and directed to cause said notice of the election to be posted up at the City Hall and at two other public places in said City for at least thirty full days prior to the date of said election.

The Mayor is further authorized and directed to have said notice of election published in The Lubbock Morning Avalanche, a newspaper of general circulation published in said City, and which notice shall be published once each week for four weeks.

The fact that the City of Lubbock deems it advisable and to the best interest of the City to fund the outstanding indebtedness above set out and described, thereby reducing the rate of interest and extending the dates of maturity, creates an emergency and an imperative public necessity that the rule requiring ordinances to be read at more than one meeting of the City Commission be suspended, and it is so ordained, and this ordinance shall take effect and be in force from and after its passage and approval.

Passed and approved, this the 31st day of March, 1927.

PINK L. PARRISH,
Mayor, City of Lubbock, Texas

ATTEST:
G. W. McCLEARY,
City Secretary, City of Lubbock, Tex
(CITY SEAL) (Adv.)

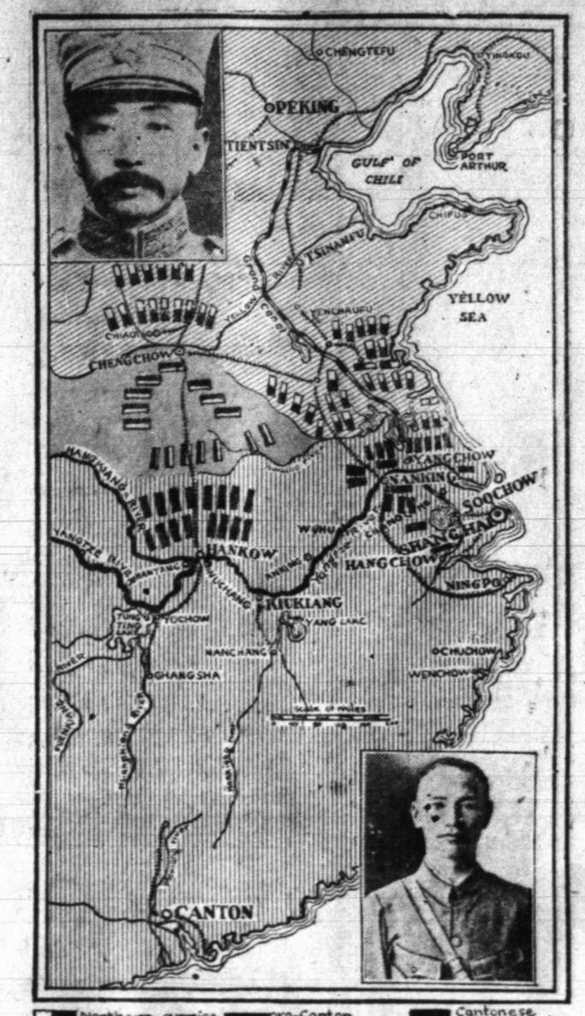

A Cook Honored

Tom Stevens, who is paying his way through college by cooking in his spare time, has been elected president of the University of Oklahoma student body. His pretty wife, pictured with him above, is one reason for his victory—she swung a lot of votes.

On To Peking

Map Shows Future War Area in China and How Victorious Nationalists Have Marched Northward from Canton

Sweeping northward toward Peking, the Nationalist armies in China have met with little resistance thus far. Northern armies have retreated before the victorious march of Chang Kai-chek's Cantonese. The map shows the present positions of the fighting forces in China and gives a relative idea of how far the southern troops have progressed, with Canton the general starting point. Above is Chang Tso-lin, Manchurian war lord, in command of the Pekingese troops that have been retreating. Below is Gen. Chang Kai-chek, marshal of the southern armies. The armies between the northern and southern forces are pro-Cantonese, and not expected to stand in the way of the Nationalist advance.

RIVET POOR LOZENGE

PUXICO, Mo.—Solomon Johnson, Jr. farmer, swallowed a rivet from a mowing machine. His condition puzzled physicians for 16 days, as his fever was extremely high and he refused food. Finally he gave a mighty cough and the rivet was thrown from his lungs.

FIND ANCIENT BONES

TASHKENT, Turkestan.—The skeleton of a gigantic animal that lived about 3,000,000 years ago has been discovered by engineers who are building a railroad between Turkestan and Siberia. The beast is believed to have been a saurian.

Lon Chaney To Be At Palace Monday

The inscrutable Oriental—enigma of the ages—this is the latest role of Lon Chaney, "man of a thousand faces"—who had literally to learn a new psychology to play his latest part on the screen. This is the mysterious mandarin, Wu, in Metro-Goldwyn-Mayer's new drama of Oriental intrigue and revenge "Mr. Wu," which comes Monday to the Palace Theatre.

Although not his first venture into Oriental roles, it is the first picture in which Chaney played an Oriental clear through the picture, and the first in which he was allowed full sway in plumbing the depths of such possibilities.

The character is that of a powerful mandarin, third man of power in the Empire, whose uncanny lore of centuries is augmented by the knowledge of Oxford, whose strange power almost suggests sorcery, and whose character is both lovable and sinister.

"For years," says Chaney, "I have longed to play the real Oriental—the actual product of China's countless ages of introspection. In this story I was given the opportunity. Written by an author who knows every intricacy of the Orient and its psychology, it is the most nearly perfect pen-picture of mysterious China ever done—although the story is laid in ultra-modern times."

The play deals with the uncanny revenge plot of the mandarin when a member of an English family in the Orient dishonors his daughter. It illustrates perfectly the strange code of morals of the Orient, wherein life of a human being is held absolutely valueless against the traditions built up through centuries of custom.

The play is staged on a gorgeous scale with a cast that includes Renee Aderee as the mandarin's daughter, Louise Dresser as the English mother, Gertrude Olmsted, Claude King, Ralph Forbes, Anna May Wong and others of note. William Nigh, the director of "The Fire Brigade," directed the new story.

Chaney's facial disguise is one of the most intricate he has ever attempted and Miss Adoree wears a make-up no less difficult as his daughter in the strange play.

Several Attorneys Exchange Offices

With the transfer of the offices of Honor L. Pharr, newly appointed judge of the 72nd district court to the new quarters in the Lubbock county court house from the Temple Ellis building, two or three moves were occasioned, or have been made.

The law firm of Loveus and Bradley, the latter member of which is now district attorney, has moved into the quarters formerly occupied by Judge Pharr in the Ellis building. Vaughn E. Wilson has moved his offices from the second floor of the Ellis building to the Lubbock National bank building, where he will handle a portion of the legal business of the banking institution.

A classified ad in the Avalanche and Journal at one price is a sure fire result getter.

Pretty Mildred Seeba, Jacksonsville, Wins Caruso Foundation Scholarship

Oh, Lady! Lady! where did you get that looks and those voice? Something like that must have been the exclamations of the Italian opera lovers who witnessed the debut at Perugia, as Santuzza in "Cavalleria Rustican," of Mildred Seeba, of Jacksonville Fla., first winner of the Caruso Memorial Foundation scholarship. No need to tell you that a bright future awaits Mildred in the world of arias. She is the daughter of Mr. and Mrs. William F. Seeba, now residents of New York, and is to return to the United States in July.

C. I. A. Girls Remember Parents With Choice Boquets As Easter Greetings

DENTON, April 16.—Seventeen hundred girls want to remember father and mother on Easter with a choice bouquet of flowers! A certain greenhouse, none too spacious but with its interior packed with varieties of flowers most appealing to feminine hearts, stands as a mute provider for the sentiments tugging at the heart-strings of the aforesaid 1700 girls. Result: outgoing mail trains Friday and Saturday are flower laden for homes in practically every section of the state.

The C. I. A. greenhouse was built in 1918. Since that year it has done thousands of dollars worth of business in catering to the craving for blooms and blossoms at the College of Industrial Arts.

It is not a commercial enterprise. Sales to students are made when there is an excess of institutional wants, at about two-thirds of the regular commercial price. In addition to the cut flowers which supply the dormitories for table decorations, administrative offices, and cafeteria, plants for the campus are started in the greenhouse. Between 5000 and 6000 plants, set out on the C. I. A. campus this spring, had their origin under the care of the green house gardener.

Unusual Plants

Among the unusual ornamental plants to be found in the greenhouse are Pandanus Veitchii and Dracaena Massangeana, both native to West Indies, and a rubber tree, native to Malay peninsula.

About fifty dozen calendula are sold each week to the college dormitories. These are used as table decorations. The same number of sweet peas is also supplied. Last summer the greenhouse supplied over a quart [illegible] almost $150 worth of roses, a student plant sells in the flowering classes and then transplant them to pots. They are to be used to augment the regular production of the greenhouse.

Thousands of blossoms from the C. I. A. greenhouse will greet the Easter morning. Hundreds of parents — [illegible] north, south, east and west — will greet the [illegible]

el throughout, reports indicate.

Ellwood-Myrick At 1,100

El Capitan's Ellwood-Myrick No. 1, in Hockley county, located about 19 miles northwest of Lubbock, is drilling at about 1,100 feet with operations not yet far enough along to tell much about the prospects.

It is the opinion of geologists that oil or gas in paying quantities—if such exists in Lubbock county—will not be found at a depth of less than 1,500 feet. It may be, geologists say, that shallow production in the red beds may be found, but the real pay, if any, exists deeper than 4,500 feet. These opinions have been formed as a result of the drilling of the Yellowhouse and Robertson tests.

The custom of having distinguished men as pall bearers comes from the Romans. The pallium was a piece of cloth used to cover the shoulders. This was [illegible] and [illegible] the ground by the [illegible]

Olney, Bolstered By Oil And With One Of Best Farming Sections, Prospering

OLNEY, April 16.—The Olney of today represents a true spirit of progressiveness typical of growing West Texas cities. Three years ago Olney was a town of only about 1,000 inhabitants, but today there are approximately 3,000 persons. Schools and practically all of the conveniences found in the larger cities are now within the limits of the city.

Oil was discovered in the Olney territory in 1925 and today there are more than 1,700 producing oil wells within a radius of fifteen miles from town. All these are shallow producers ranging from 500 to 1,400 feet. Every week witnesses more producers with new pools opening up with regularity. There are approximately thirty-five separate and distinct pools.

In addition to oil, some of the most fertile soil in the state is located in Olney territory. Cotton, wheat, oats and barley are the principle crops grown. During the 1926 season the Olney gins handled 10,000 bales of cotton.

In keeping with the growth of the community, civic progress has kept pace. In 1925 there were forty blocks of pavement laid. Since January of this year 50 more blocks of brick pavement has been laid and at least the same amount of sidewalk. A new $30,000 sewage disposal plant was completed a few months ago. A $50,000 municipal building is now nearing completion, as is also a $60,000 sanitarium and hospital. A number of brick business buildings have been erected during the past year and residences have been completed at the rate of more than one a day. During the twelve months of 1926, by actual count there were 147 homes erected that represented an expenditure of from $2,000 to $35,000 each.

Free delivery of mails was established in November, 1926. At that time there were only enough sidewalks and pavement to furnish a route for one delivery man. Since that date now ten there are enough territory opened up by additional sidewalk and pavement, that at the present time at least one if not two more carriers are needed and the postal department has already been petitioned for same.

The Olney Country club organized a year and a half ago, located one mile south has one hundred acres, a nine hole golf course, sand greens, tennis courts, and a fine club house. Practically everything that can be found in the larger cities in the state can now be had in Olney. All modern conveniences with the exception of natural gas are obtainable, and according to present indications this convenience will be in operation within a short time. Surveys are now being made for supplying Olney with natural gas, and it is very possible that within another year gas will be piped in every home in Olney.

Slaton C. C. Has Successful Meet

SLATON, April 16.—An attendance record of 80 per cent was established at the second monthly luncheon of the Slaton Chamber of Commerce. The president, J. W. Hood, presided as toastmaster. The program was directed by the publicity committee, composed of these members: A. J. Payne, chairman; S. E. Staggs, Alex DeLong, R. W. Collier, jr., and S. A. Baldwin. The next meeting comes on May 10.

Feeding Them on the Hoof

Couples are getting into training for a 1s-mile dancing marathon in April on the Loui's yard between Venice and El Patio in Los Angeles. The contestants are not allowed to stop for food, so this couple is practicing eating on the hoof.

LINDSEY

MONDAY AND TUESDAY

"SO THAT'S WHAT YOU MARRIED ME FOR—ALIMONY! YOU SHAMELESS HUZZY!"

TO help her husband pay alimony to his ex-wife, this brave girl got a job, then—A delightful picture.

EXTRA
FOX NEWS EVENTS AND COMEDY

"Take off them whiskers --you ain't Santa Claus"

WE FORGOT now just who the fellow was who trimmed the Indians out of Manhattan Island for a couple of quarts of rum and some shiny beads.

But We're willing to bet the biggest Goodyear balloon we have in stock that some of his descendants are in the tire business.

Just read the ads. Just listen to the old soft talk. You'd think these birds were going to be unhappy the rest of their lives if by some mischance they sold you a tire at a profit.

We hate to be a kill-joy, but that stuff is the bunk. You know, and we know, that in the tire business as in any other business, Christmas comes but once a year.

Why Not Be Frank?

Maybe we're slow, but we make no pretense of being 100 per cent philanthropists. We don't try to tell you we're selling tires below cost, and we don't think you expect to buy them that way.

What you want, if you're like other sensible people, is known and reptuable merchandise at a fair price—the same fair price that everyone else pays. You buy clothes and shoes and other things on that basis—why not tires?

Well, right or wrong, that's the way we run this business. We sell Goodyear Tires, the best that money can buy. Our prices are based on costs, and our costs are low. The values you get are dependable and good.

There's no guess about those values. They have been tested time and again. As a result, some of the smartest "low cost per mile" buyers in this section, including many business concerns, get tires from us. They've proved by experience and careful figuring that Goodyears are cheapest in the end.

The best buy for you

Of course, we could do it the other way. It's no difficult trick to fatten up retail prices on inferior tires in order to "discount" them down so the proposition would look good to you.

But we have no burning desire to make ourselves good fellows at your expense. And we are sure if we tried it, instead of a steadily growing business as we have now, we'd eventually lose both the friendship and the trade of our customers.

No; we're satisfied the best deal for us is to continue to sell Goodyear Tires on a legitimate, aboveboard basis, because that is the best deal for you. So we'll keep on doing this, and you do your part by telling the dealer who offers you something for nothing:

"Take off them whiskers—you ain't Santa Claus!"

Police Hunt For Young Miscreants

A truant boy or a band of them, is being sought by special watchmen and police officers here in connection with the disappearance from places of danger about construction work on storm sewers, of lighted lanterns that are placed by workmen as warnings to autoists and pedestrians who might be entrapped by the deep ditches where storm sewer pipe is being laid.

Several lanterns disappeared from various places of the construction work a night or two ago, according to reports to police headquarters, since which time guards have been placed near lanterns which have been replaced. The truants, however, have not returned since guards took their places.

Such a situation not only is an injustice to the individual in charge and under bond to keep lights at the places of danger, police said, but creates a big hazard to life and property. Some of the ditches are as deep as eight or ten feet, and being in the center of the street as most of them are, creates a danger zone and hazard that is bad enough at the best, but when lights placed there as a warning to passers-by and stolen, the situation is much worse, it was said. Guards are now maintaining close watch in an effort to apprehend the truants.

ROLLS UP VOTES TO NAME SMITH

NEW YORK—Even if Abraham Apfel, local fur dyer, has to hold up 100,000 pairs of stockings and socks to do it, he's going to see that Al Smith gets the Democratic presidential nomination. Apfel has purchased 100,000 pairs of garters, 50,000 fancy ones for the ladies and the same number for men, and is distributing them over the country. Each garter is stamped with the slogan: "U garter vote for Al for President. By their garters ye shall know them."

How Easter Lilies Grow

They know their onions in Bermuda, but they know their lilies, too. Easter lilies grow as thickly and wildly in these isles as dandelions at home. It looks more like Christmas time than springtime, for the fields are as white as though covered with snow. But by Easter Sunday Christmas will be past in Bermuda, for most of the lilies will have been shipped to decorate our altars and homes on Easter Day.

New Oil Bearing Sand Is Located By Stebbins Well 20 Miles From Abilene

ABILENE, April 16.—A new oil bearing sand was discovered 20 miles north of Abilene this week by the Stebbins Oil & Gasoline company's No. 1 Higgs, W. T. Scott survey No. 12, three miles northwest of the little town of Nugent in east central Jones county.

A pure oil sand was topped at exactly 1,590 feet in this hole. After the drill had gone 4½ feet 700 feet of 41.2 gravity oil rose in the well. The well was put on the swab Wednesday of this week and in three hours swabbing produced 40 barrels of oil. Following the swabbing oil rose again 500 feet in the well in a few hours. Owners of the well have announced that they will drill several feet deeper in order to ascertain the thickness of the sand.

Even if no better production is found in the deeper drilling it is admitted that Stebbins has an oil well in purely wildcat territory and the action surrounding the location of the new producer will be given heavy play shortly if the statements of numerous operators are bore out by action.

Others Interested

Roxser-Pendleton, one of the best known independent operating companies in Texas, own a large block of acreage, offsetting the new well to the north. Roxana and Humble acquired drilling blocks offsetting the Higgs well sometime ago. Midwest Exploration company has been leading the other operators in acquiring loose acreage in the vicinity of the new strike the past week. $40 and $50 has been paid for leases on tracts close to the new strike.

Nearest commercial production to Stebbins' new well is in the T. K. Simmons' Burnett Harvey, No. 1, section 8, block 12, T. & P. survey, Shackelford county, nine miles east, which is pumping 25 barrels daily from 1,727 feet. Stough and others' No. 1, four miles west is shut down, but drilling will likely be resumed shortly.

NEW PAY SAND

The pay sand found in the Higgs well is entirely different from anything uncovered heretofore in Jones or Shackelford counties, according to geologists. It is higher, geologically, than the sand from which the wells in the Cook pool of Shackelford county are producing and is also higher than oil bearing sand recently found in the Gillette & Hickey-Evans wildcat on the King ranch, eleven miles southwest. Careful checks of the log of the new producer lead operators to believe the pay is just above what is known as the upper Tannehill.

The well has considerable gas pressure and this is expected to increase with deeper drilling. The splendid sand, high grade of oil and shallow depth at which it is found are all factors which are considered sure to bring intensive developments in this area. This discovery further substantiates the predictions made last year by leading oil men that 1927 would see new oil bearing areas opened in the section adjacent to Abilene as a result of the extensive wildcatting campaign started about a year ago.

Boundary Set

Mid-Kansas Oil & Refining company's No. 2 Goodwin-Walker, northwest offset to the same company's No. 1 Goodwin-Walker, southwestern Shackelford county, has apparently defined one edge of a structure in which production was found in No. 1 and the White Eagle Oil & Refining company's No. 1 Gorsuch, south offset to No. 1 G.-W. After drilling three feet in the sand, topped at 1,555 feet, and in which a small showing of oil and gas was found, a water strata was penetrated and the hole is now full at a total depth of 1,558 feet. It is probable that further development of this well will be impossible. Several other tests are drilling in the vicinity of the two producers. Goodwin-Walker No. 1 has been pumping 25 barrels daily for several months and No. 1 Gorsuch, which was completed about two weeks ago is making 50 barrels a day pumping.

Atlantic Oil & Refining company and Landreth Production company's No. 2 Howell, west offset to the same owner's No. 1 Howell, in the south end of the proven area of the Noodle creek field, is reported dry at the bottom of the 2,500 foot line from which the production in all wells in the pool but one is coming. More than 20 feet of lime was drilled through in the No. 2 Howell, but no production was found.

Hurley Well Tops Sand

Hurley Oil company's No. 2 Sears, section 35, block 12, T. & P. survey, three miles northeast of Noodle creek is down 2,479 feet, on top of lime. It should reach the depth of the Noodle producers during the next few days. Small pipe has been run in the Sears well. This is the only well holding any interest in the Noodle creek sector. No new developments have been started during the past several weeks.

Hart & Cole's No. 1 Cranston, section 10, block 17, T. & P. survey in central Jones county is shut down at 3,262 feet. Operators of the test say it will be drilled deeper. After drilling through several hundred feet of shale, the bit is still in the same formation.

Gibson & Johnson's No. 1 Largent, three miles east of the Noodle creek field is shut down for pipe.

Midwest Exploration company's No. 1, Mrs. Ibey Smith, three miles northwest of Tye, north central Taylor county, is drilling at 1,860 feet.

Midwest and others' No. 1 Toombes, three miles west of Abilene, Taylor county, shut down at 1,585 feet, waiting for fishing tools.

Preserve Your Health for Your Children's Sake!

Texarkana, Texas.—"About four years ago my health was very poor and had been so for a long while. I suffered with pain in my side, back and head and nothing gave me any permanent relief until I took Dr. Pierce's Favorite Prescription. A few bottles of the 'Prescription' relieved me of these distressing aches and pains and my general health became good. I am glad to recommend the 'Favorite Prescription' to other sufferers."—Mrs. F. S. Ray, 1315 Nolthenius St. All dealers.

Visitor and Customer Welcome

Large numbers of new faces are seen daily in our Store. Many come to buy; not all of them. Those who come to look while we are celebrating our 25th or Silver Year, tell of their pleasure and assure us we may expect them again.

This would not be so generally accepted as "a friendly store" were we less zealous in keeping the latch-string on the outside to both customer and visitor. We would feel the unworthiness of our trust were we to regard this only as a place to leave money.

After all, the greatest thing this Store can have left with it is the confidence and the good will of every person who passes through its door.

The far-reaching buying resources of the Nation-wide Institution of which this Store is a part, were created by these acts of friendliness.

Both visitors and customers are always welcome here.

J. C. Penney Co.

Gingham Kid

Steps Into Style

Patent leather is always suitable, but this shoe is delightfully different as well. It has the stylish side Cut-Out and new gingham kid trim to lift it away from the commonplace.

Comes in all patent too, with metal strap fastener. Only

$4.98

Child's Oxfords

Very Sturdy

Mothers—if you want real footwear value for the children, ask to see our 5130, a patent oxford with fancy grain calf overlay. Broad toe and leather spring heels. Low priced

Mme. Toutchi Nemeth Leads Women Of Hungary To Newer Heights Of Honor

Intellectual distinctions are not Mme. Toutchi Nemeth's only claims to fame. In addition to being a lecturer and one of Hungary's most active feminist leaders she is noted in her native heath for her beauty. Why, this latest portrait plainly shows.

Miss Lorine Medley Is Wed to R. E. Ellison

Miss Lorine Medley and R. E. Ellison were married about 9:30 o'clock last evening by Rev. E. E. White, pastor of the First Methodist church, at his home in the presence of a few friends of the couple.

Mr. and Mrs. Ellison will live at 1407 Avenue, N. The bride is the daughter of Mr. and Mrs. J. S. Medley, who live southwest of the city about six miles. Mr. Ellison, is the son, of Mrs. C. L. Hamlett, is an employee of the Midlecoe creameries.

Misses G. Rankin And C. Adcock Hostesses At Egg Hunt

Misses Grace Rankin and Clarice Adcock were hostesses at an Easter egg hunt in the canyon yesterday morning. After the eggs had been found, sandwiches and candies were served. Those who enjoyed the occasion were Doris Helton, Bobbie Lee Crawford, Kathryn Beasley, Julia Morrison, Juanita Hutson, Allene Law, Doris Law, Florence Ann Clarice Adcock, Grace Rankin and Mildred Dunn. Miss Juanita Law was chaperon.

Banquet Is Served To Public Speaking Class

Public speaking students of the high school and their guests gathered at Hotel Lubbock Friday evening for a banquet at which Miss Opal Crawford was toastmistress. An enjoyable program was given, a feature of which was an after dinner talk by Jess McIlhaney, following the recent study of after dinner speaking by the class. Mrs. Wanda Barkley is the public speaking teacher.

A short talk on "Girls" was made by Superintendent H. H. Duncan, a talk on "Boys" was given by R. W. Matthews, high school principal, and Miss Ruth Pirtle, of the Technological college faculty made a general talk on public speaking. Miss Helen Jones made a talk on a history of the public speaking class.

Have Musical Numbers

As other parts of the program, Misses Marjorie Mitchell and Frances Stahl sang a duet, accompanied by Miss Lois Love; Miss Halcyon Campbell gave a reading, a violin trio was played by Misses Frances Larmer, Mary Bowles and Lois Love, accompanied by Miss Marjorie Mitchell.

The table for the course dinner was pretty in colors of purple and gold and violets were favors at each plate.

Those who attended the banquet were Misses Jessie Walker, Geraldine Smith, Mildred Buckingham, Gladys Harkey, Dorothy Knipp, Bernice Dean, Lucille Jordan, Sallye Dean, Ruby Arrel, Margaret Cooper, Opal Crawford, Frances Stahl, Latrille Bishop, Frances Gunn, Lois Noble, Annie Lee Owens, Vera Stafford, Marjorie Mitchell, Frances Larmer, Lois Mangum, Mary Bowles, Lois Love, Ruth Pirtle, Quita Terrell, Corene Ratliff, Lorne Bentley, Lena Seale, Halcyon Campbell, Helen Jones, Mabel Long, Lelesse Hays, Faye Dumpass, Bertie Aldrich, Mary Edna Parker, Mr. and Mrs. R. W. Matthews, Ted Sims, Sy Williamson, Paul Mason, Jess McIlhaney, Farren James, Orville Brothers, Gibson Pender, Jimmie Kennedy, Troy Phillips, Mrs. Barker and Mr. Duncan.

... has received a complete line of Lee Puncture-Proof Balloons. Oakland Sales No. 2, 501 Broadway, phone 823.

Menu for the Day

BREAKFAST—Steamed figs with sliced lemon, cereal, cream, creamed dried beef with toast cubes, crisp graham toast, milk, coffee.

LUNCHEON—Stuffed eggs in tomato sauce, hearts of lettuce with French dressing, graham bread, quick cake and maple frosting, milk, tea.

DINNER—Broiled salmon steaks buttered potatoes, dandelion greens, stuffed celery, rhubarb betty with hard sauce, rye bread, milk, coffee.

Quick Cake

One whole egg, 2 yolks eggs, 7-8 cup granulated sugar, 1-3 cup butter, 2 cups flour, 4 teaspoons baking powder, ½ teaspoon salt, 1 teaspoon vanilla, 1 cup milk.

Save whites of two eggs for frosting. Put egg yolks into mixing bowl and beat until very light. Beat in sugar, continuing to use egg beater. Gradually beat in milk and butter which has been melted. Beat very hard with egg beater. Remove beater and add flour mixed and sifted with baking powder and salt. Add vanilla and beat the mixture until perfectly smooth using a wooden spoon. Turn into an oiled and floured dripping pan and bake 30 minutes in a moderately hot oven.

Let cool slightly and cover with maple frosting.

Whites 2 eggs, 1¼ cups maple syrup.

Put syrup in good sized sauce pan and bring to the boiling point. Put egg whites in a bowl and beat with a dover beater until stiff. Add 4 tablespoonfuls syrup, beating each tablespoonful thoroughly into whites. Let syrup cook until it holds its shape when tried in cold water but is too soft to pick up with fingers. Gradually add about one-third of the hot syrup, beating hard. Let syrup cook until a firm ball is formed when a few drops are tried in cold water and slowly add to frosting beating hard. Beat until frosting is cool and spread on cake. This makes a thick frosting that does not "cake" and dry out. You will soon tell by the "feel" of the frosting when beating the right time for cooking the syrup.

(Copyright, 1927, NEA Service, Inc.)

Hay Ride And Weiner Roast Attended By Young Folk

About 60 young people went on a hay ride to Buffalo Springs Friday night and enjoyed a weiner roast and picnic there. Members of the Tech Berean class were hosts with young people of the First Baptist church as guests. Mr. and Mrs. Fred Sparks and Rev. and Mrs. W. A. Bowen accompanied the group.

Methodist Mission Program Is Announced

A program to be given at 2 o'clock tomorrow afternoon at the First Methodist W. M. S. meeting has been announced as follows:

Subject, "Woman's Responsibility and the New World"; devotional, Mrs. Maggie Hussey; leader, Mrs. C. Y. Curtain; topic discussions by Mrs. Harry Hall, Mrs. J. C. Hardgrave and the leader.

ICWA MUD COSTS $96

SECTION THREE AUTOMOBILES GENERAL NEWS

VOL. 1. NO 31. LUBBOCK, LUBBOCK COUNTY, TEXAS SUNDAY, APRIL 17, 1927 (AP) MEANS "BY ASSOCIATED PRESS"

BETTER ROADS IN MANY SECTIONS OF THE COUNTRY WILL CARRY THRONG OF TOURISTS TO ALL CORNERS OF U. S. A.

By NEA Service

WASHINGTON, April 16.—Concrete highways, wider and more inviting than those of former years, will speed millions of tourists this year over America's varying landscapes.

This year, for the first time, motorists will find their way across country as easily as going downtown. All important highways under federal aid have been numbered systematically, and all marked uniformly for the guidance of tourists.

There are eighty thousand miles of such highways. The entire government and state system of surfaced roads covers more than 200,000 miles. This year nearly 30,000 miles will be prepared for driving.

Most of these roads are of gravel and macadam, but they are well packed, smooth and generally well maintained. The concrete roads cover more than 30,000 miles.

Turn Back To America

Over this network of improved highways will travel a host of motorists larger than any in former years. Last year, it has been estimated, more than 15,000,000 campers alone enjoyed the country's scenery over these highways. These took from five to fifteen days to stay at a single camp, and many extended their tours for more than a month.

Many more millions burned up the roads for weekly and week-end trips. Practically every motorist shared with others the pleasures of short tours lasting no longer than a day.

This year this summer pleasure is expected to increase with the growth in the number of motorists, the improvement of highways and touring facilities and a general awakening to the attractions America has to offer. Thousands of tourists, it is believed, who otherwise would seek vacations by a tour through Europe, will turn their backs on that continent to "See America First."

The result will be a general quickening of motoring activities all over the United States. The national parks will swarm with thousands of visitors. Some 2,500 tourists' camps will be packed with transients. Summer hotels and cottages will be filled. Business will rake in millions from the passing strangers.

Billion Is Spent

How enormous this touring activity is expected to become may be estimated from the expenditures of tourists last year in certain parts of the country. Figures collected by Frank E. Brimmer for the American Automobile association show that motorists must have spent well over a billion dollars last year over the whole United States.

In Michigan alone automobile campers left more than $44,000,000 during the touring season, and that doesn't include the sums spent by those passing through the state or taking short trips into it.

The number of motor tourists in this state's parks exceeded 2,500,000, nearly three-fourts of which stayed at hotels, and spent an average of 18 days there.

Every midwestern and western state reported an increase of visitors during last year's touring season, and expect even more this year. The American Automobile association alone routed more than 50,000 cars into New England, bringing about 150,000 visitors into that territory.

Motorists in Majority

For the first time, says Brimmer, motor tourists last year exceeded rail visitors to the Grand Canyon National park. Yosemite National park was visited by nearly 275,000 tourists, a large increase from their former numbers, largely due to motor traffic.

Sequoia and General Grant national parks reported a 60 per cent increase in travel there over 1925, and all the other national parks reported similar increases.

Only Florida showed a decline last year in the number of motor visitors, but that is due practically entirely to the drop in the Florida boom. Those that did come, and there were many thousands, were considered of the more highly desirable class of tourists which well overbalanced the decline in numbers.

The amount of money spent by the tourists ranged from almost $2 to as high as $10 a day. In one case the value of each visiting automobile to the state was estimated at more than $10 a day while there.

General Motors Hit New Record

Sales of General Motors cars to users established a new high record in March with 146,275 cars, compared with 141,651 in May 1926, the previous record month. General Motors sales to dealers in March also established a new high record, being 161,910 cars, compared with the previous record, 138,360 in September last year.

CRIMINAL DOCKET IS FACING PHARR

72ND DISTRICT COURT STARTS ON THREE WEEK GRIND OF LAW VIOLATIONS

The 72nd district court will begin a three weeks grind on criminal cases Monday morning, April 25 after the 99th closes its criminal matters the coming week for the term, having on the docket a total of 54 cases for disposition, the most of which charge violation of the pro law. Other charges in the 54 cases are forgery, swindling, disposition of mortgaged property, assault, burglary, and driving car while intoxicated.

The following cases, which will be heard this week by Judge Homer L. Pharr, are on the docket, in the order slated for trial:

C. L. Langford, forgery (three cases); J. W. Dillon, violation of pro law (two cases); H. B. McKinley and P. D. Kenley, swindling; Walter Kemp, Frank Hewett, and John Batty, disposition of mortgaged property; Mrs. B. Schallart, violation of pro law (two cases); S. A. Hamilton, assault; Grady Burch, assault; Joe Allgamie, burglary; Don McCombs, violation of pro law (three cases); Tom Elliott, violation of pro law (two cases). Cases docketed for the week total 20.

DISPLACEMENT IN PISTONS SMALLER

WHIPPET ESPECIALLY BETTERED IN THIS WAY; AVERAGE CAR IMPROVED

Conspicuous among the changes which have been made in motor car construction during the past year is the decrease in average piston displacement.

The trend in this direction started early last year and was freely discussed at the time Willys-Overland appeared on the market with the Whippet which was a car with notably small piston displacement yet with the greatest developed horse power in the light car field.

The average piston displacement of all American built cars this year is 3 cubic inches smaller than last year.

This is not a marked reduction and yet it establishes the direction in which motor car engineers seem to be moving.

Power Is Increased

An interesting phase of this reduction in cylinder dimensions is the fact that motor power as indicated by the developed power at the point of maximum efficiency has not decreased but has shown an upward tendency.

Motor car authorities are of the opinion that this establishes the American motor car engineer on the basis of going out after a fuel economy and a general motor efficiency which will result in more generally satisfactory operating costs.

Leading factors in developing increased power from decreased dimensions are the trend toward higher compressions and greater speed of piston travel. With modern force feed lubrication, modern bearing construction, and the modern method of suspending the crank shaft in the motor with extra large bearing surfaces, the increase in piston travel becomes a feature of marked advantage so far as operating economy and efficiency are concerned.

A notable feature of the Whippet is the fact that it is the one American built light car in which the compression ratio and rate of piston travel per cylinder are equivalent to those of the modern six cylinder motors.

Floydada Produces Record Cotton Crop

FLOYDADA, April 16.—Although it was a known fact that the Floydada territory produced a large amount of cotton and wheat it was not thought that this territory would produce twenty thousand bales of cotton. The public weigher in this precinct has already weighed 23,078 bales and every day a few more come in. Recent increase in price of the fleecy staple put the farmers to gathering it off the ground where the sleds had ridden over it. Many fields can yet been seen that are still white where the cotton either blew out or where the sleds passed it up.

SOUTH AFRICA BUYS

South Africa is one of America's best customers. Last year's count of automobiles there showed that three-fourths of its cars had been imported from the United States and Canada.

A Hindu artist is planning a world tour, during which he will pay expenses by writing on grains of rice. He is able to write 400 letters on a single grain in four hours.

Dr. Barker Is To Lecture At Olney

OLNEY, Texas, April 16.—The schedule for the lectures to be given next Tuesday by Dr. Charles E. Barker, noted Rotary speaker, has just been announced. Dr. Barker will deliver an address to the high school students on Tuesday morning; a short address to the Rotary club at the regular luncheon meeting; a talk to the ladies of the community at three o'clock in the Palace Theater; and an address to the men in the evening at the Palace Theater at eight o'clock.

Dr. Barker is a man of wide experience on the public platform, and from all reports his addresses are of such inspiring character that all who have the opportunity to do so should hear him.

The local Rotary club is bringing Dr. Barker to Olney on this occasion, not only that the individual members of the club may have an opportunity of hearing him but that the entire community may enjoy the privilege.

The Kind of Good Roads That Beckon to Autoists

No veteran tourist can escape the lure of such roads as these. At the left is part of a road through Essex county, Massachusetts, while the one at the right shows a tempting stretch of smooth concrete along the Lincoln Highway in Allegheny county, Pa.

A man in South Africa has papered his room with 500,000 used postage stamps.

TOTAL OF AUTO TAXES IN 1927 MAY REACH A BILLION DOLLARS; THREATS OF STATE LEVIES CAUSES INCREASE

WASHINGTON, April 16. — More than $750,000,000 was paid out by American motorists in the form of federal, state and municipal taxes last year.

This is an increase of $83,000,000 over the total of taxes paid in 1925.

Threats of increased gasoline taxes and promise of another record in automobile sales this year, point to approach of the billion mark in taxes by the end of this year.

Figures showing this great revenue from motorists have been issued by the Department of Agriculture and have been obtained from other sources.

Ten Per Cent Gain

The Department of Agriculture announces that the total motor vehicle registration in 1926 was 22,001,393 vehicles, which included 19,237,171 passenger cars and 2,764,222 trucks and tractors. This is an increase of more than 10 per cent over the 1925 registrations.

Receipts from registration fees, licenses and other state annual taxes were 288,282,352, as compared with $260,619,621 in 1925. Receipts from gasoline taxes in 1926 totaled $187,603,231. In 1925 they were $146,028,940.

Proportionately, federal excise taxes on passenger cars and truck vehicles for hire and on parts, tires and accessories, it is estimated, have brought in $155,000,000, as compared with $145,296,000 in 1925.

Local Taxes Help

Personal property taxes in 1925 were well over $100,000,000 on automobiles alone, and municipal taxes the same year have been estimated at a total of $15,000,000.

Figuring only a slight increase in these local taxes, puts the motor tax bill for 1916 past the total of $175,000,000.

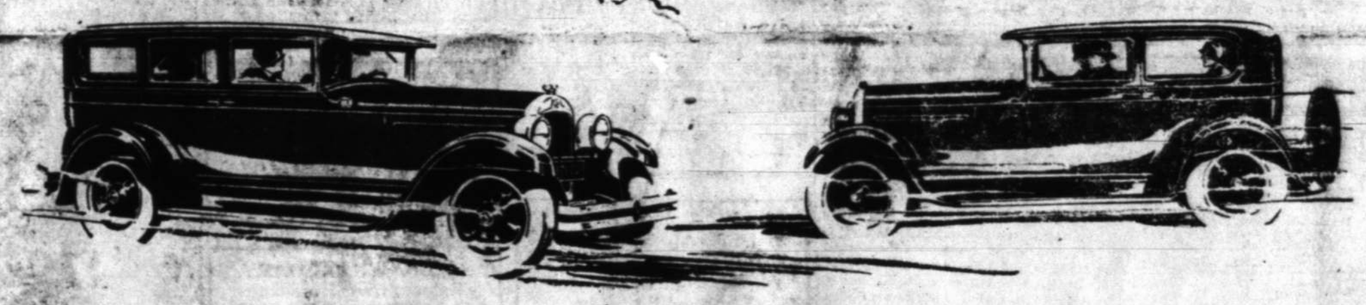

Most of the money derived from this source is put back into public roads. Motorists therefore may expect a wide expansion of the road building and improvement program henceforth.

RUN BOTH WAYS

Two double-headed electric fire and wrecking trucks will safeguard the lives of motorists going through the new Holland tubes in New York. The trucks are made with drivers' seats, steering apparatus and cranes at both ends, so they can be driven back and forth without turning.

The first real circus, aside from the games of the ancient Romans, was the show started by Phillip Astley in London in 1770.

19 Distinctive Body Styles Set a New Pace in Quality

BEAUTIFULLY designed and appointed, the nineteen individual body types on the Hupmobile Eight and Six chassis fittingly match the brilliant performance of these fine cars.

HUPMOBILE EIGHT

Fourteen Distinguished Body Types
Priced from $1945 to $2795
f. o. b. Detroit, plus revenue tax

Five-Passenger Sedan: Roomy comfort for five without bulky, unwieldly appearance characterize this smart closed car. Both beauty and good taste are revealed in its unusually complete equipment. Price $2345.

Seven-Passenger Sedan: Added body length serves to accentuate the attractive lines of this impressive sedan and to provide complete riding ease for two extra passengers. Price $2495.

Five-Passenger Brougham: A refreshing departure from ordinary body types, combining the graceful lines of an extra-passenger coupe with the generous carrying capacity of a sedan. Price $2245.

Custom Victoria: Body by one of America's foremost custom builders. Seats five with the individual luxury of a chair car. Ample luggage space in rear deck compartment. Price $2345.

Rumble Seat Coupe: Lithe and low in appearance, the coupe combines dashing performance and good looks. Room for two or three in front, two more on wide rumble seat, in rear. Price $2345.

Seven-Passenger Sedan Limousine	$2595
Five-Passenger Touring	1945
Five-Passenger Sport Touring	2045
Seven-Passenger Touring	2045
Two-Pass. Roadster (rumble seat)	2045

Four Closed Custom Bodies by Dietrich priced from $3395 to $5795.

Here are smart sport roadsters with dashing lines and shimmering colors—entirely in spirit with the fleet six and eight cylinder Hupmobile motors with which they are powered. Rumble seats, of course, steel disc wheels, and durable upholstery of genuine Spanish leather.

On up through the range of desirable closed styles, appear the Broughams and Sedans—each far removed from the stereotyped in appearance and distinguished by their rich interiors, low graceful lines and clear-vision bodies.

And for those desiring the utmost in motoring, there are luxurious custom bodies by Dietrich, created exclusively for the magnificent Hupmobile Eight chassis.

In completeness and quality of engineering and accessory features, Hupmobile Eight and Six stand without a rival at their price.

Up to six color options, genuine mohair upholstery, beautiful hardware, all instruments indirectly lighted under one glass, tilting-beam headlights, manifold and thermostatic heat control, dash gasoline gauge, special vibration damper, four-wheel brakes and many other items emphasize the truly modern design of these cars.

Hupmobile Eight, offering new distinction, quality and surpassingly fine performance, has made it increasingly clear that comparable or higher price for lesser types cannot return anywhere near full value.

As the closest-priced Six on the market, the new Hupmobile Six is sweeping ahead in the forefront of public preference among sixes around its own price and even up to $1750.

We invite you to see and ride in these refined and beautified Hupmobiles, with their generous roominess, to realize for yourself the beauty and luxury now surrounding these outstanding values.

HUPMOBILE SIX

Five Popular Body Styles $1325 to $1385
f. o. b. Detroit, plus revenue tax

Five-Passenger Sedan: Four wide doors open into spacious front and rear compartments. Seats and backs of advanced design and uncommonly well cushioned. Exceptional vision front and rear. Price $1385.

Rumble Seat Coupe: Affording ample capacity for even three passengers inside with a rumble seat for two more on occasion. Powered by the smooth and flexible Six engine. Price $1385.

Two-Passenger Roadster (Rumble Seat) Snap and dash for the youthful driver—sensible comfort for the conservative. Room for two additional passengers in wide rumble seat at rear. Price $1385.

Five-Passenger Brougham: Graceful, low and compact, yet seating five adults in comfort, this Six Brougham has many distinct advantages over other two-door types. Price $1385.

Five-Passenger Touring: Easily maneuvered in traffic and in parking; it quickly reaches and maintains high speeds. Carries its passengers in restful comfort. Price $1325.

The "Plus" in Hupmobile Manufacture

Hupmobile has raised the quality standards of its Six a further 10 per cent—insisted on even finer quality materials throughout, even more precise workmanship and even more exacting tests and inspections. But not one cent has been added to the purchase price. As a result, the Hupmobile Six is acknowledged to be the closest-priced Six in the industry

THIS HAS HAPPENED

BILLY WELLS, pretty, impudent, and head of the glove department of the big Curtis store, hurries to the auditorium in answer to a summons from old T. Q. CURTIS issued to all women employes.

Just prior to closing time, Billy has had a private session with the old man. He has asked her about his son, CLAY CURTIS, who has disinherited himself and found a room in her home in the poorer section of the city, because he wants to work up from the bottom of the ladder as his father has done. Clay, a student of music and ambitious to become a composer, and Billy, who longs to be a concert violinist, have found much pleasure in each other's company.

In the store auditorium old T. Q. tells the girls he wants them to answer a questionnaire headed: "Why I Work in the Curtis Store." He names a list of prizes for the best answers. Many of the girls scorn the questionnaire, but Billy and three of her friends, Nyda Lomax, Winnie Shelton and Leila Sampson resolved to answer the questions. When Billy gets home and shows the questionnaire to Clay, Clay strangely recalls words he had spoken to his father just before he left: "You ought to have a daughter, Dad." Billy, too, wonders what Old T. Q. is up to.

NOW GO ON WITH THE STORY

CHAPTER VII

"You say that only women employes were given this questionnaire?" Clay asked Billy when, with Mrs. Wells, they were seated at the cleared dinner table.

"That's the ticket," Billy chuckled. "The men are being pacified by some other stunt which T. Q. neglected to mention. All set now? Let's go—Name?—do I have to put Thelma, "That's your baptismal name, honey." Mrs. Wells rocked placidly, her eyes beaming with pride upon the chestnut head bent over the unaccustomed labor of composition.

"Billy Wells," Billy wrote in her large, vigorous backhand. "How long have you been employed in the Curtis store?"

"Too long," Clay answered for her. "You ought to be spending six hours a day with your violin instead of right hours selling gloves to women who think they're better than you because you wait on them."

A shadow passed over Billy's bright, impudent little face, but before she could speak her mother interrupted with unusual spirit: "Now, Clay, don't you go putting ideas in Billy's head. Heaven knows I'd have kept on working myself if the doctors hadn't forbid it. I worked till Billy was fifteen," she explained in a hurt voice.

"I'd rather never touch a violin again than have you kill yourself in a store," Billy told her with such passionate sincerity that Clay looked at her with new respect in his soft black eyes. "But just for fun, I'm going to put your answer down, Clay: 'Too long.'"

"Oh, Billy child!" Mrs. Wells cried out in real distress. "He'll fire you sure, and I don't know what will become of us—"

"Oh, all right," Billy conceded, erasing the lightly pencilled line and writing in ink, "Two years and three months."

"I tell you, Billy, you've got to make it original if you expect to catch Dad's eye. If I know the old boy—and I think I do—Miss Simmons and Mr. Hoskins will have precious little to say about the judging. Make it snappy, let the chips fall where they will, and I'll bet you snare a prize."

"Say," Billy accused him impudently, "I believe you want to get me in Dutch with T. Q. But maybe you're right." She bent her head over her work again and did not see the flush of guilt that dyed T. Q.'s son's face. "Let's get ahead—Do you like your work? Now, since every other girl that answers that question will say 'yes,' I've got to be different. And I honestly don't like it. I loathe it. Smiling till my face aches, taking snubs from nine till five-thirty, forcing fat old hands into gloves too small for 'em, because the vain old idiots won't acknowledge they aren't Cinderellas—"

"Cinderella had small feet," Mrs. Wells corrected amiably.

"Granted then, that I really don't like my work, what am I to say?" Billy laughed and sucked the end of her pencil.

"Say, I could think of happier ways to employ my time," Clay responded promptly.

Billy wrote obediently, her face lit with wicked enjoyment. "I've added, 'But ladies must live!'" Her mother groaned aloud.

"Wait! That trespasses on the next question," Clay reminded her. "'Do you work because you have to earn a living or for the sake of a career?' Gee! That calls their bluff, doesn't it?"

"I can't answer that flippantly," Billy discovered, frowning slightly. "I'm going to tell the truth," and she wrote, firmly, "Both, but the career is very remote from the Curtis store. As for the present, it's 'the better 'ole,' and I'm glad to have the job."

"There, mother, rock in peace! Your Sassy Susie has saved the old homestead. And my answer, by the way, neatly paves the way for the next question—'What is the chief ambition of your life?' That's easy—'To be the greatest woman concert violinist in America'."

"Cross out 'woman'," Clay ordered her. "I won't adapt another song for your beggily little fiddle if you're planning to let any man beat you at your game."

"Done!" Billy looked up with shining eyes. "Thank you, Clay. Now for the next—oh, say, this a hot one!—'If you were general manager of the Curtis store for one day, with absolute authority, what is the first improvement you would make?'

"No, don't say a word!" She waved the ink-laden pen at him as he started to speak. "Nothing you could say could change me; this matter lies too near my heart!"

"Now, what are you up to?" Mrs. Wells demanded, hitching her rocker close to the table.

"I'm sure you will agree with me," Billy laughed, reading aloud. "'Fire every girl that called a customer 'dearie.'"

Mrs. Wells laughed, then shook her head despairingly. "You'll lose your job, honey. You're having a bad influence over her, Clay."

"Who made pop-overs for his breakfast?" Billy jeered. "Who cleaned and pressed his tweed suit? Who—"

"Shut up, or I'll spank you and send you to bed!" her mother commanded. "I don't do half as much for him as I do for you washing your collars and cuffs and your silk underwear and your stockings—"

"All right, all right!" Billy conceded hastily. "Let's get on with this priceless prying into my private passions. Passions," she explained to Clay, "was the only word I could think of beginning with P, and I couldn't bear to spoil the alliteration. I pause for applause. Well, all right, if you haven't a sense of humor—maybe this will get a laugh: 'What additional service, both for your good and the good of the store, would you suggest that the Curtis store inaugurate?'"

"A five hour day and a five day week," Clay supplied promptly.

"No, I've already thought of something better than that." Billy began to write rapidly. "Free, twice-a-month beauty parlor service, for shampoos, haircuts, manicures, marcels or finger waves, with two permanent waves a year thrown in for the sake of the straight haired girls. The high cost of beauty and bobbing is driving me mad.' Now, that's what I call a sensible suggestion," she applauded herself. "Think how much more attractive the store would look if every girl could be as well groomed as to hair and nails as a society girl. Thank heaven, I have naturally curly hair, but trims alone cost me a dollar and a half a month, and my Sundays are absolutely ruined by having to shampoo my hair and fuss with my nails."

"That will get a laugh from Dad all right," Clay chuckled. "He hates bobbed hair—and a store rule against it until he had to give in. But I bet it will be unique, that suggestion, and that's the main idea. What's next?"

"What is your present salary?" Billy read. "Shall I put, 'A joke,'"

"Oh, Billy!" Mrs. Wells moaned stretching out a hand to stay the rash pen in her daughter's hand. "Please, honey!"

"I'll be good, mother!" Billy promised. "Here's the bitter truth—twenty-two bucks. You don't mind if I underline the figures with my pen dipped in vitriol, do you, darling?"

"Twenty-two dollars a week!" Clay cried, aghast. "For two people to live on! How on earth do you do it?"

"The Curtis store doesn't pay me for supporting my mother," Billy pointed out. "It pays me for selling gloves, and, if you ask me, I'm probably the champion glove seller in Colfax."

"Then your answer to the next question ought to be a pipe," Clay pointed out.

"Umm! 'Do you consider that you are underpaid for your services?' What a poser that'll be for Winnie and Nyda and Leila and the rest. I'd give my new spring hat to know what they're writing. Winnie's getting their school teacher boarder to help her, and Nyda and Eddie—her sweetie, Eddie Banning, you know, mother—are conspiring together tonight to knock old T. Q. for a goal—first prize, at least. Scratch your head, mother," Billy suggested wickedly.

"Goodness me, I don't know what to say! Let me think. Which she did, with much frowning and rocking. "I know, Billy! Say 'I expect to earn each raise before I get it, and I've just been begun to open my weekly pay envelope with confidently expectant fingers.' How's that?"

"Darling, you're a born diplomat!" Billy jumped up and flung herself into her mother's lap, causing the rocking chair to perform violently. "If that isn't expert fence straddling, I'd like to know what is. I wouldn't sell that answer for ten dollars!"

"You'll win the prize," Clay answered soberly, almost gloomily, as if he had some secret reason for not wanting her to. But Billy was in much too high spirits to notice his gloom.

"Now, all I've got to do is to write not more than 200 words on the general subject, 'Why I work for the Curtis store.' She reached for the questionnaire and read the last printed line. "Two nice blank pages for my ecstatic thoughts on that burning question. I'm going to my room and court the muse, Clay. Your playing won't bother me a bit; maybe it will inspire me. I promise to join you by 10 o'clock to try out that song of yours. It had better be good, after all this pressagenting you've done for it. Say," and she stooped to peer into his troubled face, "why all the gloom? Sulking like a spoilt baby because I won't play with you now?"

"Billy!" He caught her hand, and at that first intentional touch of his the color flamed up in her cheeks. "Billy, please don't turn in that questionnaire! Tear it up! Don't try to win a prize! I—I can't explain, but—but—we'll, I don't want you to!"

Billy drew her hand away sharply and glared at him out of amazed outraged blue eyes.

"I wish you wouldn't—for your sake," Clay persisted doggedly, though her anger and suspicion made him look miserable and guilty.

Billy took up the questionnaire, held it uncertainly between her hands as if she were half persuaded to destroy it.

(To be Continued)

Excitement and suspense buzz through the Curtis store, and Clay Curtis arouses Billy's resentment. Read the next chapter.

Just Like T. R.

Emulating her illustrious father-in-law, Mrs. Theodore Roosevelt, Jr., wife of the former assistant secretary of the navy, has distinguished herself in politics. Unopposed, she won her first elective office, that of treasurer of her home town, Cove Neck, Long Island. "I haven't thought much about a policy," she said as the twelve votes were counted. "You see, it's a very small affair."

SMALLEST AUTOMOBILE

The smallest practical automobile in the world is a two-passenger electric roadster weighing only 200 pounds, having a wheelbase of 62 inches and a speed of 10 miles an hour. It is owned by the New York Edison company.

LIGHT BEAMS USED IN BUILDING CARS

OAKLAND FACTORY PIONEER IN ADOPTING MANY SCIENTIFIC INSTRUMENTS.

Instruments, once confined to the laboratories of the scientists, are now found as every day working tools in some of the finer automobile factories, so exacting have become their measurement and fit requirements, in their endeavor to whip vibration and lengthen the life of wearing parts.

With higher standards have come closer limits of fit and balance. The ten-thousandth of an inch supersedes the thousandth and the thousandth replaced the hundredth which has necessitated new scientific instruments to gauge the finer limits and assure the results expected.

One among the many scores of scientific devices used in measuring the close limit operations in Oakland Six factories is the crankshaft vibration balancing machine, an instrument which uses a light beam under octagonal prism glass to measure the unbalanced condition and to indicate its location and amount at any point on the crankshaft.

Used For Years

For years the light beam has been used for experimental work in fine limits in the scientific laboratories because a light beam will pass through the most minute opening—an opening which can neither be seen nor determined by any other type gauge.

Thus as the crankshaft spins in its testing machine, the operator detects the exact point where the vibration is set up and by grinding a few minute grains of steel from the point indicated brings the crankshaft into almost vibrationless travel.

This balance testing instrument is a development of the General Motors Research Division and the Oakland Division is pioneer in its use in factory production.

Some idea of the ruthless demand of engineers for more severe limits may be appreciated when it is told that 33 operations in Oakland Six engine parts are rigidly held within three ten-thousandth of an inch, 30 operations within five ten-thousandths, more than 100 within one thousandth and more than 200 within two thousandth of an inch.

Buick
A 37-30

How far will your car go *before* the miles begin to tell?

If you buy a new car every 10,000 miles or so, almost any car will give you satisfactory results.

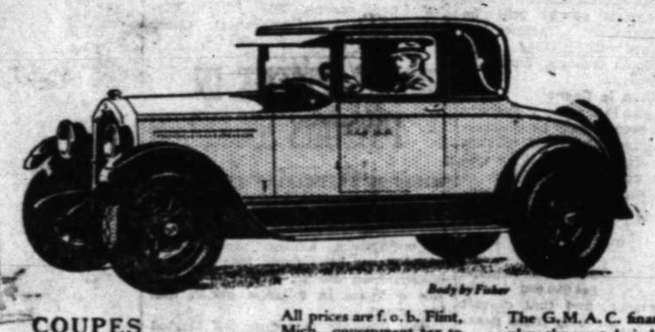

But if you want the same fine service on through the second, third and the many following tens of thousands of miles, buy a Buick?

Accurate tests at the great Proving Ground of General Motors, where all cars are driven and examined, show Buick's sturdy structure and powerful Valve-in-Head Engine still gaining in efficiency at the point in miles where other cars are distinctly on the down grade.

The unremitting care in Buick design, the constant tests at the Proving Ground, the unceasing quest for better performance—these are responsible for Buick's superior efficiency.

Savings resulting from enormous volume production make possible this extensive research as well as the superior construction for which Buick is internationally famous. Buick cars are built for greater satisfaction to their owners.

Buy a Buick for years of exceptional service.

BEST IN THE WEST" "THE BIGGEST, THE

Dry Law Booster Talks At College

CANYON, April 16—Granville Jones, noted prohibition advocate for thirty years in Texas, is spending the week in Canyon. On Tuesday he addressed an enthusiastic audience of 1000 students of the West Texas State Teachers college, taking as his subject "Making a New Heaven and New Earth."

On Friday he spoke before the Canyon Commercial club where he discussed the resources of Texas.

While in Canyon he has been the guest of his daughter and son-in-law, Mr. and Mrs. O. W. H. Cook. Mr. Cook is president of the First National bank.

How's She Hittin'? Hints on Car Care

BY ISRAEL KLEIN
Science Editor, NEA Service

ENJOYMENT of the summer tour depends on the performance of your car. This performance depends on its rehabilitation after the harsh treatment it has gotten under the rough wintry weather.

The car is grimy, it rattles, it clanks and squeaks, so that pretty nearly every part of it needs readjustment. Winter has been hard on it. It has been too cold to get out and tune it up or adjust its parts every once in a while. It has been too muddy to think of giving it a cleaning and oiling.

Now the streets have begun to clear up and the road is calling.

* * *

A THINNER mixture of gas and air than that required over winter will result in more economical driving as it warms up. Therefore the screw that controls this mixture should be turned while the engine is running slowly, until it begins to sputter. Then just the slightest turn back, and the carburetor is ready for the summer's driving.

Thinning the mixture means letting less gas enter the cylinders in efficient proportion to the air, reducing carbon deposit and crankcase dilution, and resulting in more mileage.

* * *

THE radiator, still reeking with alcohol or an anti-freeze compound, should be flushed thoroughly.

The bottom stop-cock should be opened and all the water in the cooling system drained out. Then, while the engine is running slowly, new water should be added while the stop-cock is still open.

Water should be kept flowing thru the system until it comes out as clear as it is poured in.

Then the stop-cock may be closed and the system filled with fresh water.

* * *

ALL bolts on the chasis, body and engine should be tightened. Winter driving has been hard on the car. It has been shaken up to such an extent that many parts of it are loose. Tightening of the bolts will prolong the car's life.

* * *

THE car needs fresh oiling and greasing, as has been explained before, from the crankcase to the rear springs.

The engine, at the same time, may be flushed out with a thin oil before the kind of oil recommended by the manufacturer is put in.

Kerosene should not be used for this purpose, because not all of it can be drained out of the crankcase after flushing. The remainder is not at all helpful to the oil put in later.

* * *

THE engine might need tuning up after four to six months of hard driving. That's the job of a practiced mechanic.

It includes grinding the valves, cleaning out the carbon, replacing the spark plugs where necessary and timing the ignition.

In the same process, the carburetor can be adjusted for warm weather driving.

* * *

THE battery should be charged, if it is below normal density, and it should be filled with pure water.

The short days and long nights have been hard on this part of the car so that very likely it is run down. Once recharged, there will be no trouble with it for the rest of the year.

* * *

AFTER these preparations, and cleaning the body, the car is ready for the vacation tour.

Canyon Teachers Are Coming Back

CANYON, April 16.—Miss Tennessee Malone, librarian at the West Texas State Teachers college, has been on leave of absence during the regular session. She will return to Canyon in time for the opening of the summer session July 7.

Miss Hattie M. Anderson of the department of history has been studying for her doctorate at the University of Chicago but will return to her work in Canyon this summer.

Miss Mary E. Hudspeth, head of the Spanish department, will sail about the first of May from Spain where she has been studying during the past nine months at the University of Madrid. Miss Hudspeth has been with the teachers college at Canyon 17 years.

Miss Agnes Charlton will return to her work in the Spanish department at the beginning of the summer school after an absence of nine months during which she has done graduate work the University of Texas.

The faculty of the West Texas State Teachers college is being greatly increased for the summer session by President J. A. Hill in order to take care of the large enrollment of students.

We have just received a complete line of Lee Puncture-Proof Balloons. Oakland Sales No. 2, 601 Broadway, phone 828.

OL' TRUSTY By Swan

Lady Luck Steps In Man Misses Tornado

The guardian angel does not appear on highways to direct her subjects; nor does the god of fate beacon its victims.

W. F. Bertram of Snyder, who was recently in Lubbock, tells an interesting story of a choice of route which probably saved his life. He, in company with W. R. Cleavenger of Abilen, and Will Black of Snyder, was returning from a business trip to south Texas last Sunday afternoon. Arriving at a fork in the road, two signs offered places for shelter for the night. One read "Rock Springs, 42 miles;" the other "Fredericksburg, 57 miles." Since the road to Rock Springs offered the advantage of a nearer route one would ordinarily be influenced to stop in that town for the night. However, the party had previously spent a night in Fredericksburg. After pausing a while the decision of the three was to drive into the latter town. That night Rock Springs was swept away by one of the most deathly tornadoes in the history of Texas.

Mr. Bertram reports that Fredericksburg, 65 miles from the path of the storm, showed little evidence of the nearby twister.

Careless drivers who smash fire plugs cost the city of Philadelphia $6,000 a month.

We are The Exclusive MAYTAG Dealer for LUBBOCK

WE are pleased to announce that we have secured the exclusive franchise for the sale of the Maytag Aluminum Washer in this city. We are fortunate in obtaining this dealership for the fastest selling washer in the world—the washer that won World Leadership in less than 600 days. The Maytag has proved conclusively that it washes cleaner, faster and easier.

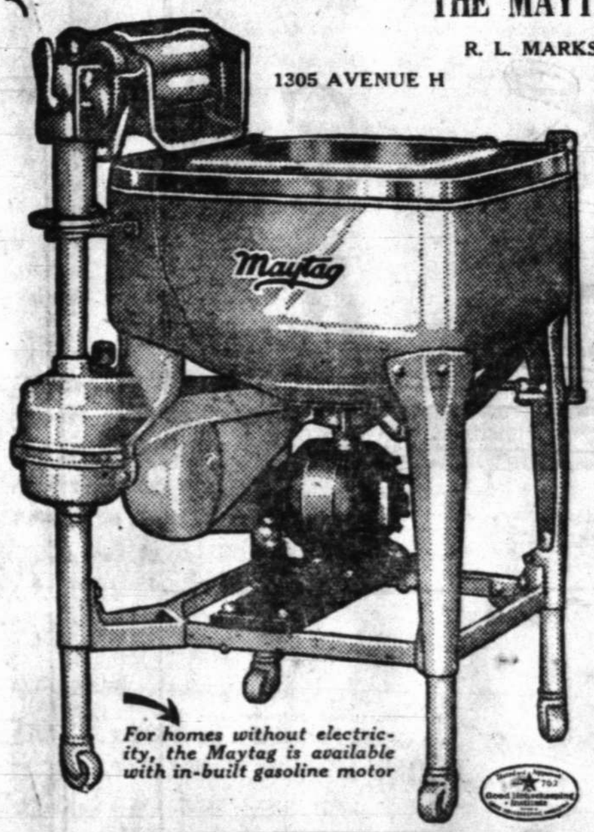

The Maytag is the ONLY washer with a cast-aluminum tub that is life-lasting because it will not corrode, rot, rust, split, crack nor break. The tub holds more clothes than ordinary washers, is heat-retaining, and drains and cleans itself in 30 seconds after the washing is done.

In spite of its big tub capacity, the Maytag is so compact that it can be used in any space that will accommodate a chair. Through adjustable legs the Maytag is easily raised or lowered to suit your height. The famous Maytag wringer automatically and instantly adjusts itself to a handkerchief or a blanket and wrings both equally dry.

THE MAYTAG SHOP

R. L. MARKS, Manager

1305 AVENUE H PHONE 110

For homes without electricity, the Maytag is available with in-built gasoline motor

Phone Us

Let us send a Maytag to your home to do a whole washing FREE. There is no obligation nor expense. In your own home you can test each Maytag feature that makes washday so much easier and shorter. You can wash big tubfuls in 3 to 7 minutes. Wash even collars, cuffs and wristbands without hand-rubbing. Try the Maytag—if it doesn't sell itself, don't keep it.

SAINT AND SINNER

By ANNE AUSTIN COPYRIGHT 1926 NEA

"Well, Cherry made some dirty crack—" Flo began, squirming a little uncomfortably in her chair.

Banning did not contest Churchill's objection to the witness' choice of words, but instructed her to stick to an answer to his question.

"Well, Cherry said something like this: 'So this is what you meant by saying you was out of town! I admire your taste in girl friends!'" Flo admitted, flushing.

"Then what happened, Miss Ripley?" Banning urged her on.

"Well, I—I wouldn't let her get away with nothing like that and I—I pulled her red hair for her. Bob Hathway tried to get her off the floor, but I held on to her hair and she fought back, and then Chris yelled out, 'Cheese it, Flo! There's a cop at the door!' and in a minute the cop pinched us both, me and Cherry, for disturbing the peace and took us all—"

"Were you all under arrest?"

"No, just me and Cherry. We was the only ones fighting," Flo explained.

"Now, Miss Ripley, this fight between yourself and Miss Cherry was caused by what?" Banning asked.

"Because she was jealous of me being out with Chris, like I told you," Flo stated, with a vindictive glare at Cherry, who was regarding her with blazing eyes.

"Your witness," Banning waved toward Churchill, who, nothing loath, jumped to his feet and towered over the pert little flapper in the big witness chair.

"Miss Ripley, where did you live before you moved to the West Tenth Street address?" was Churchill's first question.

"I lived on North Second Street," she confessed.

All who heard appreciated what stamp the witness had put upon herself by admitting residence in this unsavory section.

"Is it not true that you attacked Miss Cherry because she referred to your place of residence, and not because she was jealous of your association with Mr. Wiley?" Churchill asked sternly.

"She taunted me with living in North Second Street," Flo admitted sullenly.

"Now, Miss Ripley, you referred to Sam Lee's place as 'Sam Lee's Chop Suey Joint.' Is that the correct name of the place?"

"It's called 'Sam Lee's Oriental Palace,'" Flo answered sulkily.

"It's a respectable dining and dancing place, popular with young people of good families, is it not?" Churchill persisted.

"Yeah, I guess so," Flo admitted.

"That is all, Miss Ripley," Churchill dismissed the witness contemptuously.

But Banning was not through with her.

"Miss Ripley, do you recall the evening of Monday, September 26, the evening before the events you have just related?"

"Sure I do. I was at Tony's speakeasy, on Pearl Street, with a boy friend of mine." Flo revived under the more kindly treatment of the district attorney.

"Did you see [illegible] there that evening?"

"Sure, I did. She was there with Chris Wiley, in a booth in the back room, drinking—"

"That's a lie!" Cherry cried out indignantly, and again the court room was thrown into a turmoil.

TOMORROW: Vindictive Jealousy.

Floydada Boosters Plan C. of C. Trip

FLOYDADA, April 16.—One hundred delegates from Floydada, headed by the thirty piece Floydada band representing that romantic country of Hawaii, will invade Wichita Falls for the annual convention of the West Texas Chamber of Commerce convention, according to the present plans of the convention committee. This will be the first chamber of commerce convention that the Floydada band has ever attended and the delegates are expecting them to "strut their stuff." They will be entered in the third year class.

Floydada will also be represented in the "My Home Town" contest. A Floydada high school girl will be selected to represent the home town and the local Chamber of Commerce will bear all the expenses of the speaker. Interest in this contest will make it necessary for an elimination contest to be held before a speaker can be selected. Between ten and fifteen boys and girls will try for the honor.

Entry will also be made in the essay contest. The convention committee selected the nation of Hawaii because of the interest taken by the United States in that country lately. An essay on Hawaii will create more interest among the students of the local school, it is believed.

A sponsor and escort will also represent Floydada at the convention although she is yet to be selected.

The delegation from here will probably leave on the 15th, stopping in the towns between Floydada and Wichita Falls on the way down and returning Tuesday evening.

Your ad in two papers for the price of one will bring sure results.

GREAT WIND LOSS

The average car, travelling 15 miles an hour, uses one-half horsepower to overcome wind friction. When its speed is doubled, however, the wind friction takes five horsepower, or 10 times as much.

Kilts cost three times as much as a pair of trousers, thus proving that they were not adopted in an economy campaign.

VIBRATIONS CAUSE OF DEEPEST STUDY

UNUSUAL PROBLEMS CONFRONT ENGINEERS IN DESIGNING KNIGHT-ENGINED CARS

The expression of the "tail wagging the dog" may be applied aptly to certain problems confronting engineers in designing cars powered with Knight sleeve valve engines. Due to the unusual silence of the Willys-Knight engine, the chassis of this car abounds with special features to insure the silent operation of the entire mechanical assembly under all conditions.

In usual practice, automotive engineers in striving to secure silent operation of the car have devoted considerable time in reducing noises arising from the engine. With poppet valve-engined cars slight mechanical noises arise sooner or later from the engine and these tend to drown sundry other noises which develop in the chassis or other units.

New Problems Faced

With cars powered with Knight type engines, the designers are confronted with a totally different problem. In their care, the engineers have had to eliminate all possible sources of noises arising from the chassis and units as the sleeve valve engine actually gets quieter as it is subjected to wear and therefore sounds from the chassis tend to become more noticeable.

It has been found with Knight engined cars that the majority of mechanical noises arise from the chassis and not from the engine and therefore one finds special features of design on Knight-engined chassis to insure silent operation of the entire car during its entire life.

As an example, on both Willys-Knight chassis, Belflex shackles, former of rubber impregnated are used to anchor the chassis springs to the frame in place of the usual style of shackle bolts. This arrangement prevents any metallic contact between the springs and the frame and also provides for a much quieter chassis, for these devices are not subjected to wear and therefore cannot rattle after having been in service for a long period. In addition to this feature, the riding qualities of the car are improved as the Belflex equipment provide a more flexible and cushioning effect between the springs and frame than the steel type of shackle bolts.

Furthermore, by using these rubber connections in place of the shackle bolts, the frequent necessity of running the car up on the greasing rack for chassis lubrication is eliminated.

An Indian prince has his private train equipped with a huge tobacco pipe mounted in the locomotive, from

the aid to summer comfort and health

Picture What Summer Without Ice Would Be!

There are countless times during the summer when ICE brings comfort at a time when Old Sol's rays are beating down and there isn't a breath of air stirring. Then it is that most of us figure ICE to be the greatest boon of Man.

Too many homes however, do not have ice service as early as they should, and consequently there is a loss of food and resultant waste sustained. Now, is the time that ICE should be delivered to your home every day, to protect health and provide comfort.

Think what an important part Ice plays in the lives of all of us in the summer. Try to think what it would be if you were some place where ice was not available — where there was no ice to cool your water—no ice to keep delicious fruits and vegetables fresh—what butter would look like on the table if there were no ice to preserve it.

Our ice can be used with the utmost safety for it is of unquestioned purity, and you'll find that the saving it will effect in preserving foods, will more than make up for its cost.

Order it now, and let us tell you about our Coupon-books system.

How Kerr County, Texas, Improved Its Yards

A kitchen improvement contest had been carried on most successfully, but when the final scoring was being done it was found that although the kitchens were beautiful and conveniently arranged, the outlook from the kitchen window was often one to cast a damper over the feeling of pleasure gained upon entering the kitchen. Here were beautiful interiors, surrounded by a wire fence and cedar posts; here and there a bucket, a tub, a barrel, a hoe, an ax, an unstacked wood pile,—all essentials but in utter disorganization. Sometimes it was a gate which needed rechanging, or window pane replacing. Occasionally a few flowers and trees were found but seldom any permanent flowers and shrubs near the house.

All this furnished food for thought. Not that Kerr county yards were any less beautiful than the average farm or ranch yard, but perhaps a little more fortunate than some sections for they are surrounded by beautiful hills, green valleys and clear sparkling streams which give to the home and grounds an artistic setting which lacks only a few finishing touches to unfold them into perfect completed home pictures.

These reasons were factors which helped to make us decide to have a yard contest and devote time and expenditure to exterior as well as interior home improvement.

Fifteen women enrolled in the contest and got the county home demonstration agent to plan a special series of lectures to be given by a landscape gardener. The rules were definitely formulated and the time of the contest fixed. Cash prizes were offered by the chamber of commerce, business men and local nurserymen.

Nine of the 15 enrolled improved their yards in some way. Nine cleaned up yards and put them in order. One cleared the whole grounds surroundings wards of old plowshares, broken down buggy, sticks, trash and stones and other rubbish collected. Two gates were rehung, one new gate was hung, one iron fence built in a cement foundation, three walks were laid—one of cement, one of gravel and one of flagstone—one driveway was changed, two built window beds, four planted permanent trees, vines and shrubs; nine planted perennials and annuals; five planted some of our old wild flowers, such as blueboppets, bluebells, verbenas and fire wheels.

These improvements were made by contestants. Fifteen yards other than those in the contest reported having made improvements also.

A picture was made of one of the outstanding yards which was not in the contest. This yard was surrounded by the usual wire fence and cedar posts. This fence was not over 10 feet from the edge of the porch. There were a few rose bushes and annuals in the yard. The front fence was removed and replaced with a rock fence or wall built out about 30 feet from the porch. A cement walk was laid and an iron gate hung. The front yard was terraced, sodded and some shrubs planted.

Some of the greatest results of the contest are that the women have become closer observers of this phase of home improvement and have developed a deeper appreciation of the the natural beauty and resources and are utilizing them in the development of their home grounds. The influence has spread among more women than any other project undertaken and it has carried the extension program into a greater number of communities than any other project.

MISS ALTEE SMITH.
Dist. Home Dem. Agent, College Station, Texas.

A NOTABLE INSTANCE OF PROFITABLE PRODUCTION

As a striking example of the value of the practice of a system of sane methods of crop diversification, intensive cultivation and fertilization, perhaps the accomplishment of Mr. J. A. Payne, Columbus, Mississippi, recently reported by the Mississippi Agricultural Experiment Station in News Letters No. 448, would be hard to beat. If similar principles were more generally practiced undoubted benefits would result.

Mr. Payne, who was a contestant in the 3-acre state cotton contest of 1926, planted three acres to Irish potatoes in rows 6 feet apart and fertilized with 700 pounds per acre of a fertilizer analyzing 10 per cent phosphoric acid, 4 per cent nitrogen and 4 percent potash. He later planted cotton between these rows using the same amount of fertilizer per acre and in addition side dressing the cotton with 100 pounds per acre of Nitrate of Soda.

From the three acres 7410 pounds of seed cotton were picked, which at 5 cents per pounds was worth $370.50. In addition $316.00 worth of No. 1 Irish potatoes was harvested and sold and 100 bbls. of other grades. The total cash value obtained from the three acres was $686.00. Allowing for fertilizer $30, planting and cultivation $25, picking and ginning $25, or a total of $80 for the cotton crop, the total expense of producing both crops was $240, leaving a net profit of $446.00 or $148.33 per acre.

Remember that you are going to live between the foundation and roof of your new house. You will be just as happy as they are permanent.

The sheep industry has emerged from the pioneer stage and can no longer be shunted off to the poorest lands but must have a definite place in the agricultural scheme."—U. S. Department of Agriculture.

In Mississippi, according to the experiment station, "We recommend from three to four stalks (of cotton) per foot in a three-foot row for hill land, and from two to three stalks per foot on a three and a half-foot row for valley land."

A bushel of Lespedeza seed to the acre sown in March on oats is a mighty easy and a mighty satisfactory way of getting a good hay crop under way. A still smaller amount per acre on pasture will add much to its value.

"The Cotton Selling Associations will accomplish great good if they can do no more than get for the grower the premium his cotton is actually worth to the spinner, and certainly they should be worth much more in bringing about the orderly marketing of the crop."—J. R. Hicks, Mississippi Experiment Station.

Of the three million cases of eggs carrying a value of approximately thirty million dollars marketed cooperatively in the United States last year, only a few were handled co-operatively here in the South. Of the total number of eggs handled cooperatively, California associations handled approximately thirty per cent.

In the car-load shipment of eggs in North Carolina the Extension Service tells us that they have found out that a case of eggs contains 30 dozen eggs, that the case weighs approximately 53 pounds and that it takes 20,000 pounds to load a car. All of this was discovered in the cooperative car-lot disposition of the heavy egg surplus of those sections of the state from which solid cars were shipped.

On a plot of land at the North Mississippi Experiment Station which had had no fertilizer for seven years 156 pounds of lint cotton were produced to the acre last year, which according to the government figures would cost about 12 cents per pound. Beside this plot where fertilizer has been used every year at the rate of 600 pounds of 8-4-4 per acre, 402 pounds of lint cotton per acre were produced at a cost of 10 cents per pound.

The last year saw the foreclosure of 123,000 farms in the United States, reports the Department of Agriculture. This was at the rate of 21 farms for every thousand, most of them in the mountain states.

Two members of the bureau of chemistry of the U. S. Department of Agriculture have invented a process for effectively removing maggots, debris and unfit berries from the blueberry crop. As a result of its use, last season, a large part of the Maine crop has been saved from destruction.

The Japanese beetle, like the European corn borer, is going to face its native enemy in a battle for its life in this country. Nine different species of parasites of this insect pest have been brought to this country to combat it.

The number of hogs purchased and brought to farms as stockers and for feeding purposes has increased considerably from year to year according to Department of Agriculture reports.

Poultry

By F. J. Marshall

Keep the Practical Pure-Bred Fowls

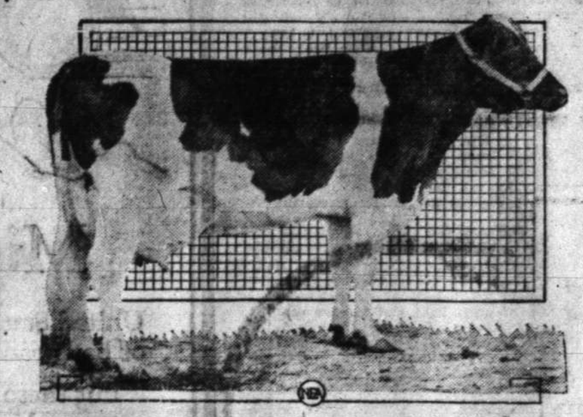

One of our most enterprising of the old-time successful poultry raisers says we have always stuck to the practical fowl, in the list of our standard bred fowls, not losing sight of course of the good points they possess. In flush times when business is booming in all lines and trades one can sell all kinds of fancy and ornamental fowls at high prices to fill the fads and fancies of people. But when hard times come, as they do periodically, the fowls bred primarily for their beauty and ornamentation sell slowly while those known and bred for their useful qualities sell readily and are always in fair demand.

In view of these facts it is not the part of wisdom for the young breeder who is just starting in the business of breeding good fowls to sell for stock as well as for commercial purposes, to make his start with the practical fowl and to stick to it, and one good breed alone, specializing in his breed to give the public only the best by his best efforts?

What is the reason that the practical fowl sells better in close times than do the ornamental ones? In hard times money can not be spent lavishly upon ornamentation, but must go for the necessities. Most of the poultry raisers of the country are not rich, but in good comfortable circumstances and depend upon their own efforts for the support of themselves and families. These people, knowing their limited incomes, very naturally turn to poultry keeping as an additional income if they have spare time to look after poultry. They are not looking for fancy things but for bread winners. They want the useful fowls, the ones that will lay eggs and produce good sized bodies in a reasonable time, so they are looking for the practical fowl.

If a man is breeding the everyday practical fowl he need not fear about a market even in dull times. Indeed, we believe hard times in other lines of business prove to be a real stimulus to poultry raising. While we are not wishing for a catering to dull times, yet when they come let us make the most of them. People must eat, and it is a pretty hard matter to find any good substitute for good quality poultry and eggs.

Pity the Poor Milkmaid

Side Hill Ormsby Segis, purebred Holstein, has produced 2,910.6 pounds of milk and 158.3 pounds of butter in 30 days. This is more than twice her weight. Her owners, John R. Logan and son, of Seward, Ill., say an official test credits her with 941.6 pounds of milk and 159.3 pounds of butter in seven days. Her record for one day is 137.4 pounds of milk and 5.93 pounds of butter. University of Illinois observes attribute her good showing to her appetite, which has reached as high as 36 pounds of grain in one day.

Texas State Board of Health Weekly News Letter

Safe Milk Lessens Typhoid Menace

Safe milk supplies should be one of the first considerations of any town or city, according to Dr. J. C. Anderson, state health officer, who stresses the necessity of safe milk in lessening the typhoid menace and in safeguarding babies and children from such intestinal troubles as diarrhea and dysentery.

"For several years," Dr. Anderson stated, "milk sanitation has been one of the major activities of the state board of health, and it has been successful in securing the adoption by 28 municipalities of the standard milk ordinance recommended by the United States Public Health Service. This ordinance is the best insurance for safe milk and every town should have it."

How Typhoid Germ is Transmitted

"As milk i so favorable medium for multiplication of germ life, more care should be exercised in its handling than any other article in order to keep it free of disease producing germs. Some of thew ays by which the germs of typhoid as well as other diseases may gain entrance into milk are:

By milkers or milk handlers who are "carriers."

By flies that have had access to insanitary closets or sewage.

By washing milk vessels with contaminated water.

By unwashed udders of cows.

Pasteurization

If your town does not have the standard milk ordinance and you the in doubt as to the safeness of your milk supply, practice safety first and pasteurize it before using. This can be done at home by keeping milk at a temperature of 142 degree F. for 30 minutes. This precludes the possibility of typhoid infection as no typhoid epidemic has ever been traced to a pasteurized milk supply.

Child Health Day, May 1

Child health programs and special health sermons by ministers will be leading features in the state on child Health Day, according to Dr. H. S. Barnett, director of the bureau of child hygiene and state chairman of May Day.

"Reports received," he stated, "show cooperation in thi swork by public health nurses, parent-teacher associations, home demonstration agents, teachers, ministers, and the Woman's Auxiliary of the State Medical association.

"More than 6,000 pieces of literature have been mailed out by the child hygiene bureau on child health, including several hundred pamphlets of health plays. All town and communities sponsoring outstanding May Day festivities, are asked to kindly send us a detailed report of same.

This country isn't yet so fully congested as some persons might believe. A survey made by the forest service of the Department of Agriculture shows that one-third of the gross acreage of the national forests is still untamed and there are large areas that won't for quite some time come under the encroachment of gasoline fumes, locomotive smoke or other signs of civilization.

INSURANCE MAY FORCE GAS TAX

BOSTON, April 16.—The high cost of the compulsory insurance law in Massachusetts, the first state to adopt legislation, may force the authorities to offset this by a gasoline tax.

Massachusetts is one of the four remaining states that are still free of the gasoline tax.

Now a bill, that has great promise of passing, proposes a uniform registration fee of $2 on every automobile and a tax of 3 cents a gallon for the gas he uses.

CLUB POSTS MANY SIGNS

More than 6500 temporary detour signs were erected in four days by the Automobile Club of Southern California during the recent heavy rains in the club's district. This is an average of more than 1500 signs daily.

A wrist watch serving as an alarm clock has been invented. A revolving unit with protruding points which touch the skin serves as the alarm.

DODGE POPULAR IN NEW GOLD FIELDS

AUTOMOBILE TAKES PLACE OF BURRO IN SEARCH FOR VALUABLE GOLD

Gold—$50 to the pound of dirt—riches for the lucky—only another disappointment to the less favored of Fortune.

This is Nevadas latest romance of treasure, Weepah, yesterday only a pin point of desert and waste land—today a tented city about which, for miles and miles, stakes mark the spots where fickle Dame Fortune will reveal her treasure trove—or bring disappointment to those not destined to find the pot of gold at the rainbow's end.

Such is the story of Nevada's new gold field as told by a representative of Dodge Brothers, Inc., who was one of the first on the scene after the news of the "strike" was published. Journeying from Los Angeles to Weepah in Dodge Brothers Scout Car "Old 1,500,000," he swept over four mountain ranges and passed hundreds of loaded cars and trucks toiling up the passer toward the land of treasure.

"Life is fast and high in Weepah. Men live at the top of their lives. All are potential millionaires. Sums into the hundreds of thousands flip easily from tongue to tongue.

Car Very Popular

"The motor car rather than Maude, the mule, is today the chief transportation unit. In the desolate stretches of desert and wasteland around Weepah, more famous than all of the rest of the West for barrenness and desolation, water has to be hauled long distances by trucks. It sells for $2 a barrel. Gasoline is 50 cents a gallon. Ham and eggs are 80 cents.

"Like all mining towns Weepah has its gamblers, its grifters and its grafters. White mule is 50 cents a drink, chaser free.

"Fabled desert characters are appearing in person at Weepah these days. A gambling house is running full blast and stud, faro and roulette are being dealt in true Wild West fashion. Many well-known characters are already on the ground. Among them are 'Mulepad John,' 'Seldom Seen Slim,' the 'Tungsten Kid' and 'Hardrock Jack' O'Brien."

As the Dodge Brothers party was leaving a battered car, minus front tires, came creeping along. "Guess this is my hard-luck day," was the plaintive wail from the dust- stained driver. "Never did have no luck, nohow."

The Smithsonian Institute has listed about 5,700 plants and trees growing in Mexico.

WESTEX COTTON SCHOOL
Will Open Its Summer Term in Abilene, Texas
Course covers six weeks, thorough work in classing and stapling cotton, also routine cotton office work. The tuition is reasonable. Can take State Examination in our class room.

CHEVROLET
for Economical Transportation
1-Ton Truck Complete with Stake Body $680 f.o.b. Flint Mich

Quality Features of the world's most popular gear-shift truck

Chevrolet is the world's most popular gear-shift truck because it offers, at amazingly low prices, scores of quality features not found on any other haulage unit in the low price field.
Included in this list are numerous recent mechanical improvements of the utmost importance, such as—AC oil filter and AC air cleaner to protect the motor from excessive wear and to maintain at its peak efficiency the smooth, effortless power for which Chevrolet's motor has long been famous. Other new features are an improved transmission and new gear-shift lever; a new and more conveniently located emergency brake; crowned fenders; a new radiator of greater cooling capacity; a new 17-inch steering wheel—and even bullet-type headlamps to give a distinctive touch of smartness!
If you want the utmost in commercial transportation combined with true economy, come to our salesroom and see the improved Chevrolet Truck!

1-Ton Truck with Stake Body $680 | 1-Ton Truck with Panel Body $755 | 1-Ton Truck Chassis with Cab $610
1-Ton Truck Chassis $495 | ½-Ton Truck Chassis $395 | All prices f. o. b. Flint, Mich.

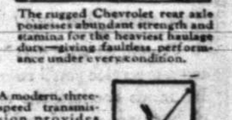

In addition to these low prices, Chevrolet's delivered prices include the lowest handling and financing charges available.

The famous Chevrolet valve-in-head motor has been made even more dependable—with even greater operating economy.

Heavy, extra-leaved semi-elliptic springs—set parallel to the frame—effectively cushion the load and chassis against road shocks.

The rugged Chevrolet rear axle possesses abundant strength and stamina for the heaviest haulage duty—giving faultless performance under every condition.

A modern, three-speed transmission provides proper gear ratios for maximum power under every condition.

A husky, 6" channel steel frame is a contributing factor to the long life and faultless performance of Chev-

Kuykendell Chevrolet Co.

MOTOR CAR FACING BRIGHTEST FUTURE

REAL PROGRESS SEEN BY HUPP PRESIDENT IN ADAPTING THE COUNTRY TO MOTORS

By DUBOIS YOUNG
President of the Hupp Motor Car Corporation.

Just what is the future of the automobile business? It is a question easily asked and not so easily answered. The man capable of answering it accurately and with certainty could fix his own salary in the automotive industry.

But there are influences at work which enable one to make some sort of an attempt to reply to the question.

The man who lives in our great cities, like New York, Chicago or Philadelphia, might easily get the impression that street saturation of vehicles is going to stop the automotive industry from enjoying continued growth. Street traffic does offer serious problems. But they are not at all insurmountable. Our great cities are making genuine progress in adapting themselves to the requirements of motor vehicular traffic. Then too, it must be remembered that but 12 per cent of all the registered vehicles in the United States are in cities of 500,000 and more. Fifty-five per cent of the country's total registered motor cars are in cities of 10,000 and less.

Road Building Increases

The man in the country may have the impression that our highway system is inadequate to permit continued growth of the automobile business. But our road-building program continues at a rapid pace. Our Federal-aid program of trans-continental highways, and highways extending from Canada to Mexico, is an ambitious one. It will do much to provide the system of highways this country needs as the number of motor vehicles increases.

The annual replacement market is growing. More than 1,500,000 motor vehicles were scrapped last year.

The export market is growing. Countries throughout the world are rapidly comprehending that as a country makes it easier to own and operate motor cars, that country progresses economically and socially. Prohibitive tariff barriers may be erected against American motor cars, but this is unlikely because of the realization that automobiles contribute materially to prosperity.

Last year 4,480,000 cars and trucks were produced in the United States, bringing the number of registered vehicles to 22,330,000. What 1927 holds in store for the automotive industry is a matter of prediction. But there is every reason to believe that the year will be even better for several of the larger companies than 1926.

The plain truth is that the American people have become absolutely dependent on the motor car. We are living in a motor age. That's literally true. In the years to come we will witness even greater use of automobiles. Colleges may prohibit undergraduates from using motor cars, as has been true in a few isolated instances. But that is of no great significance. Facts showing how families are requiring two cars and three cars for their use are really significant.

Garage Is Necessity

When a house is built today a garage is, of course, included. Take notice of the number of such garages that are large enough to house two and three cars. That's significant. Incidentally, it offers a solution, in part, to the used car problem.

I believe that within the next ten years we will see 30,000,000 passenger cars on our streets and highways. What is equally important is that our cities will be able to care for what additional traffic, and our highways will be adequate. To be sure, there will always be a gap between the public's capacity to buy automobiles and the ability of cities to adapt themselves to the requirements of motor vehicular transportation.

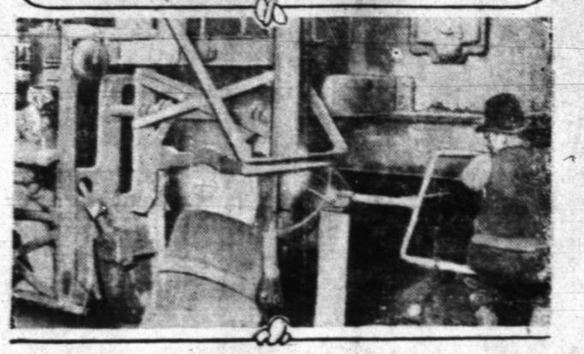

Can anyone imagine a more interesting age in which to live? We will have motion pictures coming through the air, electrical refrigeration in the kitchen, oil heaters in the basement and two cars in the garage.

We have every reason to believe that the automobile business faces the brightest kind of a future.

King George of England has revoloted the style of wearing violets in his lapel, held in place by an elastic band sewed to his coat.

Foundry Is the First Step in Mass Production of Modern Car

Quality and quantity production in the modern auto plant include an experimental foundry, as in upper view, where new alloys and methods are tested, and the massive handling of tons of red-hot metal, as shown below.

(This is the fourth of a series of articles on teh making of the modern automobile.)

By ISRAEL KLEIS
Science Editor, NEA Service

From the beginning, quantity production takes hold of the automobile industry.

Practically every automobile plant today, no matter how costly or how fine the product, has its chain and roller conveyors, improved machinery that replaces gangs of men and systematized methods that save time and labor.

Quality, however, is not assured through faultless machine methods and greater precision instruments. Every step in the process of manufacture is checked up and tested, after which an entire assembly is tried out and checked again.

To insure this quality, however, one step in the manufacturing process has to be so precise as to forego the advantages of quantity production. That is in the design of parts and the making of patterns.

Design covers every single part of the machine, down to the last nut and bolt. For this purpose the automobile shop has a large room where a score or more of mechanical engineers contstantly work on plans and the improvement of their design.

"Drop Forgings" First

With blue prints of approval plans made, those requiring forging of parts, such as the crank shaft, the camshafts, connecting rods and axles go down to the forge shop. Here these parts are pounded out of bars of red-hot steel—the kind that's strong, tough and not brittle—by an electric drop hammer. Only the rough shape is attained, for machines later mill these parts down to the proper measurements.

Other plans go to the pattern-making department for the casting operations on crankcases, engine blocks and other parts.

Wood patterns aren't used in modern foundry practice, for they wouldn't last long under the stress of quantity production and constant use. So molds are made from them and aluminum patterns are cast. These may be used time on end, or until a change is made in the design.

In the foundry modern efficiency and systematic methods begin. But the very first step consists of a highly important test on which depends the success of the casting operations. That is a check on the sands used in the molds.

Proper Packing Needed

Each batch is tested to see whether it has the proper amount of binder to keep it firm and whether it will still permit the escape of the gases that form when the molten metal is poured into the mold. If the gases can't escape freely, blisters and holes form in the casting and render the parts useless.

Large overhead electric conveyors carry the sand to hoppers over the spots where the molds are poured. The pattern is set on a permanent base, a wooden box is placed around it and the sand is dropped in.

Holes are gouged out for pouring the metal, the mold is tamped down or packed in by an electric vibrator or pounding machine, it is smoothed off at the top, turned over and the pattern is lifted off.

That leaves a smooth, clean mold, half of the crankcase or other part to be cast. The other half is molded in the same way. The two are put face to face, to form an entire mold, and they are ready for casting.

Rows of Castings

Once done, the molds are lined up in a double row between which a crane travels. A large bucket of hot metal taken from the cupola is conducted down this line, stopping for a moment at each mold and pouring a quantity of the metal into it. One man does the work, sitting in a hanging cage that precedes the metal and controlling the entire operation by electricity.

The metal is allowed to set and cool. Then the molds are taken up and the sand shaken out. That sand, having undergone a chemical change under teh heat of the casting, is sent through a cleansing and retreating process that makes it fit for further use.

The castings are cleaned of the sand that sticks to them. Extraneous metal is knocked or cut off, while other sections are built up by electric welding, so that the entire part may roughly fit the dimensions of the original pattern.

Electric Furnaces

Small brass parts are cast in a separate foundry, in a smaller way. Here, in the more modern plants, electric cupolas or furnaces heat the metal.

In the case of the engine block, the better plants set this part out under the weather for as long as a year to season it thoroughly. Thus this part which has to withstand the strain of great heat and intense cold in one winter day goes through a warping and shrinking process under all condition of weather.

By the end of the year, it is considered seasoned and its cylinders can be bored and ground down to size without fear of their changing under ordinary conditions of weather.

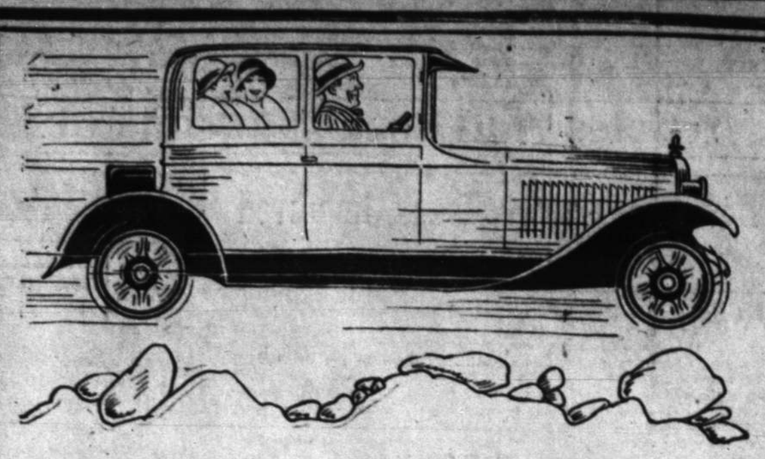

NEXT WEEK—Klein will tell how the intricate moving parts of the car are made.

Canyon Student Given Fellowship

CANYON, April 16—Dr. C. A. Pierle, head of the chemistry department of the West Texas State Teachers college here, has announced that Preston Wohlford, a senior student in the Canyon college, has been elected to a teaching fellowship in the University of California where he will do graduate work next year. Wohlford, who is 21 years old, is a chemistry major and will continue his work in that field. The California fellowship pays $700 for the session.

THEY TAKE THE RISK

Insurance figures show that of 20,000,000 motor vehicle owners in this country, 16,000,000 carry some form of insurance but only 4,000,000 carry liability insurance.

R·P·M· & Power

YOUR motor is designed to deliver a certain number of revolutions per minute to give maximum power and response under all conditions.

But as carbon forms, that "knock" occurs. The motor revolutions drop—and you lose power on hills and pick-up in traffic.

Conoco Ethyl Gasoline knocks out that "knock." What's more, the carbon (which causes the "knock") becomes a means of power because carbon increases pressure—and increased pressure means increased power. Conoco Ethyl Gasoline performs perfectly under this increased pressure.

So fill the tank with this revolutionizing fuel at the nearest sign of the Continental Soldier—and get extra *knockless* miles in spite of carbon.

CHRYSLER "60"
Built to Give Superior Performance Results

60 miles plus—with exceptional ease
7-bearing crankshaft
4-wheel hydraulic brakes

Chrysler "60" prices—Touring Car, $1075; Club Coupe, $1125; Coach, $1145; Roadster, (*with rumble seat*), $1175; Coupe, (*with rumble seat*), $1245; Sedan, $1245

F. O. B. Detroit, subject to current Federal excise tax.

Chrysler dealers are in position to extend the convenience of time payments. Ask about Chrysler's attractive plan. All Chrysler cars are protected against theft under the Fedco System.

Walter P. Chrysler and his engineers, in designing and developing the six cylinder Chrysler "60", strove for a quality of road-ease and road-readiness and supreme comfort which would at once set it apart as a car among cars, unprecedented at its price and its class.

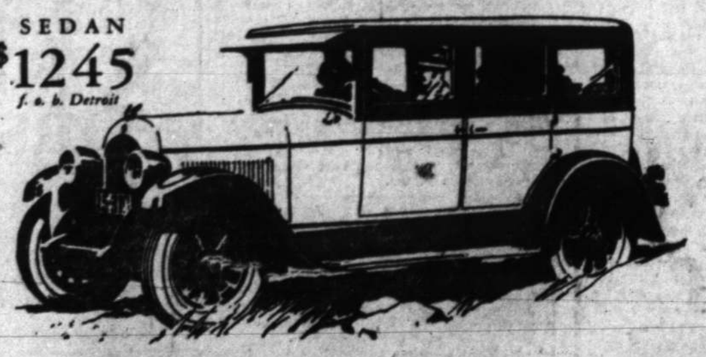

The extent to which the Chrysler "60" is dominating its own field, is thus a dream gloriously realized and an ambition splendidly fulfilled.

Mechanically, the "60" has many of the very same features to be found in the higher-priced Chrysler "70" and Chrysler Imperial "80" which include seven-bearing crankshaft, invar-strut pistons, impulse neutralizer, manifold heat control, air cleaner, oil filter, full pressure lubrication, hydraulic four-wheel brakes and shock absorbers.

Come, see the Chrysler "60"—and note the essential fineness of its Standardized Quality manufacture.

You'll recognize it, especially after driving it, as a value utterly unapproached by any other six of medium price.
