Thousands Of Dollars Flow Into Hockley County Monday

First Payment For Cotton Is Given Farmers

More Than $43,800 Received In Neighboring County And Checks Are Believed To Be First On Plains

Largest Is $1,800

Total Payment To Farmers Of Hockley County To Be Near $600,000; About 1,400 Are To Be Benefitted

(Special To The Avalanche)

LEVELLAND, Sept. 11. — Cotton money—more than $43,800 of it—was flowing in Hockley county today, the earliest date farmers ever have received material benefit from their lint crop.

But it was not money received for cotton grown to maturity, picked, and ginned. It came from Uncle Sam, and was in payment for a part of the cotton plowed under in the acreage reduction campaign.

Receives 128 Checks

County Agent W. T. Magee said he received 128 checks, totaling more than $43,800. By late Monday more than half of the checks had been distributed, and others were being given to farmers. The news spread rapidly to farmers, bankers, doctors, merchants.

The largest check — for $1,800 — went to R. O. Hammill, living about nine miles northwest of here. Hammill will have another check for about $1,700, it was reported.

Total To Be High

Total payment to Hockley county farmers will approximate $600,000, Mr. Magee said. About 1,400 farmers will be benefited.

The checks received here today were believed to be the first sent to any South Plains county.

Former Constable Given Heavy Fine

LEVELLAND, Sept. 11 (Special) Fred Hoover, former constable at Littlefield, was fined $100 by Judge Homer L. Pharr of 72nd district court today when Hoover failed to appear as a witness.

Judge Pharr issued a warrant for Hoover's arrest and commanded that he be placed under $1,000 bond to appear as a witness at the next term of court. Hooter had been summoned to testify in the case of Jim Douglas, charged with automobile theft. Citation had been served, said District Attorney Daniel A. Blair.

Because Hoover is a material witness in the case, Blair asked a continuance of the case.

Case of John Carr, charged with liquor law violation, was continued until Sept. 21 on motion of the defendant. The case was a transfer suit from Cochran county.

Trial of V. L. Bradley for murder is scheduled for Monday, Sept. 18.

WARNING IS GIVEN

WASHINGTON, Sept. 11. (AP) — The weather bureau tonight issued the following storm warning:

"Advisory 9:30 p. m. tropical disturbance of considerable intensity central about 24 north 63 west moving northwestwart about 12 miles per hour. Minor disturbances still central between Belize and Tela, Honduras."

SKIRMISH IS LOST

SAN JOSE, Sept. 11. (AP) — The defense lost a major skirmish today in the murder trial of David A. Lamson when the court virtually barred all projected testimony by Dr. E. O. Heinrich, noted criminologist, as his interpretation of blood spots in the bath room where the accused man's wife, Allene, died.

Tech Dormitory Program Is Discussed By College Officials In Fort Worth

Application For Construction As Public Works Project Now Is Being Considered

(By The Associated Press)

FORT WORTH, Sept. 11.—On a swing-over the country to speed up the public works program, Col. H. M. Waite of Washington, deputy administrator of the federal emergency administration of public works, will be in Fort Worth Sept. 19, officials of the P. W. A. here were advised today.

Waite and the members of his group will confer with Clifford B. Jones, regional director; the state advisory board, headed by Col. Ike Ashburn, and R. A. Thompson, state public works engineer.

Twelve applications already approved by the advisory board are on the way to Washington. Other applications will be considered jointly by the advisory board, Jones and Thompson, Thursday and Friday.

Contemplated application for the construction of two dormitories was discussed at a conference between Dr. Bradford Knapp, president of Texas Technological college; Roscoe Wilson, Lubbock, member of the board of regents, and Jones, chairman of the board of regents.

An application by Rosque county for a loan to remodel the court house was docketed today. The amount asked is $44,475. San Patricio county requested $223,482 for lateral roads. Other docketings are: Tom Bean school district, high school, ward school and gymnasium $40,000; Lott school district, new school, $40,125; Valley Mills, ice and cold storage plant $22,100; Wells, water works system $20,000; Meridian, sewers and disposal plant $20,000; Grand View, improve water system, $8,000.

Friendship Of United States Asked By Cuba

Labor Troubles Plaguing Two Important Cities; Officers Of Army Demand New Leader Step Out Of Office

(By The Associated Press)

HAVANA, Sept. 11. — The new Cuban government, beset by a number of problems as it attempted to orient itself, today frankly expressed a desire for friendship with the United States, but warned that the regime also is anti-imperial.

Meanwhile labor trouble plagued two important Cuban cities as the new president Dr. Ramon Grau San Martin considered the demand of 300 former army officers that he step aside for Carlos Manuel De Cespedes the former provisional president.

Set Up Bureau

The officers who were removed from office by last week's coup which unseated De Cespedes had established headquarters at the Hotel National, armed themselves and formed a press bureau of their own.

All the employes of the hotel walked out tonight leaving the guests, including United States Ambassador Sumner Welles, and the officers without service. There was no announcement concerning the reason for the movement.

Makes No Answer

The action of the employes came an hour or so after the time President Grau San Martin said he would reply to the demand that he retire in favor of De Cespedes. As far as could be determined, the president had not made his answer.

"We desire American friendship," said the new president in a statement to the press, "based on the absolute liberty of Cuba. We never forget that American soldiers fought for our independence, and we are grateful.

"We are not anti-American, but we are anti-imperialism in all its forms."

Honor All Obligations

Grau San Martin declared Sunday following upon his inauguration that his administration would be friendly to America and would honor all obligations "to the last penny." In his oath of office he promised the

Dismembered Body Of Woman Found; Husband Faces Charge

DETROIT, Sept. 11. (AP)—The dismembered body of a woman, believed to be that of Mrs. Aurore McCann, was found in a ditch in Oakland county today, while authorities here swore out a warrant charging her husband, Edward McCann, with her slaying.

The body was unclothed and the head as well as the arms and legs were missing. A woman's legs and arms, subsequently identified by fingerprints as those of Mrs. McCann were found a week ago in a field in the northwestern outskirts of Detroit. The limbs had been roughly hacked from the body.

CONVICT CONFESSES

SUGARLAND, Sept. 11 (AP)—Before he died in a prison hospital here yesterday, Beaumont King, 26, Wilbarger county convict, who engaged a prison guard in a duel to death in an attempted break, revealed the names of outside aides and prisoners plotting to escape, Captain Buck Flanagin said tonight.

Five Jurymen Are Selected In Tulia Case

Sixty-Six Veniremen Examined Monday; Additional Men May Be Summoned; Death Penalty To Be Asked

(By The Associated Press)

TULIA, Sept. 11.—The examination of 66 veniremen today resulted in the selection of only five jurors for the trial of Ed "Perchmouth" Stanton, charged with the slaying in January of Sheriff John C. Moseley of Swisher county.

With more than half of the venire of 108 eliminated, there was a possibility that the panel might be exhausted before the jury box is filled. In that event, additional men will be hastily summoned, said L. G. McDonald, chief deputy sheriff.

Feeling Runs High

District Attorney Meade Griffin said there was no doubt that a jury could be obtained in Swisher county, although feeling against the accused slayer of the popular officer has been at a high pitch.

The state will ask for the death penalty and quite a number of the veniremen had disqualified themselves because of convictions against capital punishment.

Stanton's attorney, E. A. Watson, of Crosbyton, who entered into the trial without an effort for a change of venue, questioned the prospective jurors regarding the law of "reasonable doubt" and their attitude toward the defendant taking or not taking the witness stand. His line

Mob Of About 400 Members Repulsed By Utah Deputies

PRICE, Utah, Sept. 11. (AP) — A mob of some 400 members which stormed the Carbon county jail here today in an effort to liberate two leaders of the National Miners' Union was repulsed by sheriff's deputies with tear gas bombs and fire hose after more than an hour's resistance.

No one was reported seriously injured, although many free-for-all fights resulted among officers and union sympathizers, but many persons, including bystanders, suffered from effects of the gas.

The National Miners' Union called an abortive strike of coal miners of Carson county, which was ended after some 300 strike pickets and sympathizers were rounded up by deputy sheriffs. Four mines in the county were closed for a week as a result.

Green Threatens To Demand Shorter Hours Under Codes

WASHINGTON, Sept. 11. (AP) — An open threat to go before the country and demand shorter hours from industrial captains under NRA codes was made tonight by President William Green of the American Federation of Labor as he charged Washington was filled with "agents and lobbyists of great manufacturing enterprises."

Asserting in a statement that "reemployment has not been what it should have been," Green said that "if we enter the coming winter with the seven or eight millions of unemployed now indicated the labor movement cannot guarantee that stability necessary to orderly industrial recovery."

Carload Rates On Cotton Now Are Permanent

Emergency Order Of August 7 Made Permanent By Railroad Commission; Will Apply To Three Groupings

Effective Monday

All South Plains Points Are The Same; Lubbock Rate To Vary From 62 To 48; Shippers Pay For Loading

(By The Associated Press)

AUSTIN, Sept. 11. (AP)—The Texas railroad commission today made permanent, with slight exceptions, its emergency order of August 7 prescribing interstate carload rates for cotton with minimum loadings of 25,000, 50,000 and 75,000 pounds.

The permanent rates, which will become effective at midnight tonight and expire July 31, next, observe a maximum spread of 14 cents per 100 pounds between the 25,000 and the 75,000 pound minimums.

Should Be Greater

R. I. Wells, chief intrastate rate expert for the commission, said the commission found in deliberating the cost figures that the spread should be greater, but refrained from increasing the spread out of consideration for carrier revenues.

The order requires that the shippers pay for loading at country points of origin when moving into concentration points, the railroads heretofore having performed this service free.

Provision Eliminated

The provision in the emergency order requiring shippers to concentrate cotton in 15 and 25 bale lots for shipment into compress points has been eliminated and any quantity bale shipments will be permitted.

Galveston, Houston and Texas City were equalized at points 100 miles beyond.

The rates on 25,000 pound shipments were the same as those prescribed in interstate traffic in tariffs published by certain carriers.

The 50,000 pound rates average twelve and one-half per cent lower than the interstate rates published by the carriers on 25,000 pound shipments and the 75,000 pounds rates are approximately 22, per cent

Body Of McAdoo Man Is Located

McADOO, Sept. 11 (Special) — Body of H. F. Harris, 65, with head mangled by a shotgun charge, was found near the home of a son about 8 o'clock this morning. After an inquest, Justice of the Peace J. M. Greens held the wound was self-inflicted, accidentally.

Mr. Harris left his son's home, six miles north of here, at about 6:30 o'clock. An empty shell was found in a 12-gauge shotgun near the body. Bits of flesh were found as far as 40 feet from the body.

San Saba Lad Badly Injured By Discharge Of A Shotgun

TEMPLE, Sept. 11. (AP) — W. E. Hamilton, jr, 11-year-old San Saba lad, was shot accidentally through the left eye yesterday while he slept at the home of a friend.

He was brought to a Temple hospital for treatment. Shot from a .410 gauge shotgun struck him just back of the eye and passed upward above the bridge of his nose, blinding him in one eye.

Hamilton was asleep at the home of a friend, with whom he occasionally visited, when M. L. Bagley, 15-year-old brother of his companion, accidentally discharged the shotgun.

List Of Hurricane Deaths In Valley Mounts To 29 As Bodies Are Located

(By The Associated Press)

BROWNSVILLE, Sept. 11. — The list of hurricane deaths in the devastated lower Rio Grande valley was increased to 29 tonight by the finding of the bodies of four unidentified Mexicans crushed under a shack and a fisherman who drowned in Red Fish bay.

Meanwhile, two hundred men were rushed to a break in the Willacy county floodway levee, which threatened to inundate several hundred acres of farm land unless the flow through it was checked, sand bags were being dumped into the crevasse. Water in the floodway, built to drain off overflow from the Rio Grande, was six inches higher than the same place last year when a costly flood put 130,000 acres under water.

Arrangements were made to keep the crew of men steadily at work fighting the high water rushing through the break. The city commission of Raymondville sent out food supplies and established field kitchens near the floodway to care for them.

The levee gave way near the Willacy county line, endangering lands in the vicinity of Raymondville and possibly Lyford and Sebastian.

Cash Registers Of Refiners And Marketers Play Merry Tune On Higher Price Scale In Midcontinent

(By The Associated Press)

TULSA, Sept. 11.—Cash registers of refiners and marketers played a tune on a higher price scale in the midcontinent today.

At stations another full cent advance was posted, bringing retail prices in Tulsa to 17 1-2, 19 1-2 and 21 1-2 cents a gallon. Prices varied as much as 4 cents a gallon elsewhere, but the cent increase was general. Points in Kansas, which is considered Standard Oil of Indiana territory, sold the middle grade for around 15 to 15 1-2 cents, motorists reported.

Tank Car Prices Up

Tank car prices rested at 5, 5 1-2, and 6 cent for the low, middle and premium grades of gasoline, a gain of a full quarter of a cent over the week end.

By-products received first attention of refiners and marketers for the first time in many months as prices for kerosene, gas oil and furnace oil moved up one half to threefourths of a cent above quoted trade journal figures.

HEMPSTEAD, Sept. 11 (AP)—Marshall Williams, 29, negro charged in the murder of Miss Elsie Jones, 22, of Brookshire on August 17, was held in the county jail here tonight after his arrest in Rayville, La., last Friday by Louisiana officers.

Drys Concede Defeat Late Monday With Margin Mounting

(By The Associated Press)

MAINE, stronghold of prohibition since the middle of the last century, swept into the repeal column last night to make the 26th in the march of states for overturning of national prohibition.

With slightly more than four-fifths of the precincts reported, the vote showed a little more than two to one margin which repeal leaders had predicted.

Drys Concede Defeat

The vote from 512 of the state's 632 precincts was: for 91,809, against 45,124.

The wet victory was conceded by the Rev Frederick W. Smith, superintendent of the dry forces, in a statement issued shortly before 1 o'clock this morning.

A fight over the state's own prohibitory amendment was seen in the offing with Mr. Smith's assertion that:

"We shall continue to fight. We are not beaten."

Others Vote Today

Today three more states will vote —Minnesota, Maryland and Colorado. The campaigns of the wets and drys were wound up in those states last night.

It was understood that efforts would be made to have Governor Louis J. Brann, a wet, call a special session of the legislation to resubmit to the people that amendment which was written into the state constitution in 1884. Mr. Smith was believed to refer to this possibility.

Although the governor declined to commit himself, he did say that if 36 states voted for repeal of federal prohibition and the matter of

Crop Forecast Given A Boost

Corn And Wheat Are Sharing In Improvement; Estimate On Wheat Up Four Per Cent Over Last Month

(By The Associated Press)

WASHINGTON, Sept. 11. — Good weather raised crop prospects during August, but the improvement came so late that the government crop reporting board said today yields this season still would be very low.

Both corn and wheat shared in the improvement. The forecast for the former, based on September 1 conditions, indicated a yield of 2,284,799,000 bushels, an increase of approximately 12,000,000 over July.

Increase In Wheat

The indicated production of all wheat showed a 7,000,000-bushel increase, the forecast being 506,557,000 bushels. The forecast for spring wheat was 166,202,000; durum wheat 18,475,000, and other spring wheat, 147,727,000.

The board said the improvement in wheat prospects raised the estimated crop about 4 per cent over last month's indicated yield, but still was far under the 726,283,000 bushels produced in 1932, and the five-year average, 1926 to 1930, of 861,167,000.

Oat Condition Low

The amount forecast indicated the oat crop would be 687,648,000 bushels, an increase of nearly 21,000,000 bushels over the indicated yield a month ago. Even so, oats showed

Roosevelt Turns His Efforts To Releasing Credit To Aid Employers; Strikes Loom As Threat In Mines

By JAMES P. SELVAGE
Associated Press Staff Writer

WASHINGTON, Sept. 11.—Direct action to curb "profiteering" and compel compliance by employers with the NRA program of more jobs for the unemployed was planned tonight by the directors of the Roosevelt administration's emergency program.

Hugh S. Johnson, the NRA chief, pounded away at the soft coal controversy, still hopeful of a substantial agreement by mid-week that would permit the promulation of a code without it's bein "imposed" by the government.

To Halt Violations

While concentrating on this troublesome situation, however, he told newspapermen that within the next day or two he would announce plans for ending violations of codes and agreements by employers who display the Blue Eagle.

At the agricultural adjustment administration, meanwhile, George N. Peek, the director, gave emphatic warning that he intended to "safeguard the farm recovery program from being jeopardized by unreasonable prices to the consumer."

Textile Industry Cited

Referring specifically to charges of profiteering within the textile industry, the first group to come under an NRA code, Peek said in a statement that he and his associates "had a keen interest in searching out and preventing unjustifiable increases on manufactured products."

This declaration by Peek was supplemented by a statement by Fred C. Howe, consumer's counsel for the agricultural administration, that

Seven Miners Are Killed In Blasts

NEW KENSINGTON, Pa., Sept. 11. (AP) — Laboring 80 feet underground, seven miners were killed and one was injured by explosions in the Barking mine of the Hillman Coal and Coke company today.

Warned by the blasts, which occurred three miles from the mouth of the mine, 300 other miners rushed to the surface where many were greeted by anxious wives and children.

Coroner W. J. McGregor said tonight the two explosions, 20 minutes apart, were due to gas, pointing out that only three of the victims were burned.

Pastor Claims His Enemies Attempted To Burn His Home

JONESBORO, Ark., Sept. 11. (AP)—The Rev. Dale Crowley, whose contest with the Rev. Joe Jeffers over the pastorate of the Jonesboro Baptist tabernacle has involved the congregation in a bitter factional dispute, in a statement today charged his "enemies" attempted to burn his residence last night.

Mr. Crowley, who under a court order retains the pastorate of the tabernacle pending a vote by the congregation on the question of who shall be the pastor, said that clothes were set fire during his absence from home and two holes burned in the floor. The fire was smouldering when he returned home, he said.

McAdoo Woman Is Recovering From Effects Of Poisoning

McADOO, Sept. 11 (Special)—Mrs. H. P. Edwards, elderly McAdoo resident, tonight was recovering of effects of acid believed to have been mixed with coffee and drunk.

The woman became violently ill early this morning, and a Crosbyton physician was called. Mrs. Edwards refused to cooperate in the doctor's treatment, he said. Sufficient antidotes, however, were administered to cause the physician to believe Mrs. Edwards would recover.

Hundreds Of Church Women Meet Monday Afternoon For Mission And Bible Study

The Woman's Angle

BY BLANCHE BEAN WILSON
Avalanche Woman's Editor

There seems to be plenty of young men who believe that requisites for wives include such abilities as sewing, canning, managing homes, cooking and child care, if one may judge by the way home demonstration agents have offers of marriage.

• • •

One doesn't have to be particularly observant to know that Lubbock County agents usually marry after a few months of service. The same thing happens in other counties. Miss Myrtle Murray, the district agent for this section, which is the largest extension district in the state, has a yearly marriage average of 25 per cent of her agents. So far this year she lacks one having that 25 percent and there are yet several more months in the year.

• • •

NEW ORLEANS COFFEE

WHAT coffee for which New Orleans is famous isn't made from the same sort of coffee you buy in Lubbock stores. This kind we have here doesn't make that thick sirup that the natives of New Orleans love so well. They have a brand all their own.

• • •

Miss Hazel Brantley, the new home demonstration agent, observed the coffee-drinking habits down in Southern Louisiana while she lived there but she came away without the coffee-drinking habit.

• • •

That thick coffee is made by the drip method, she says, and the water is allowed to seep through the grounds only once. People who claim to know good coffee down in there believe they can tell if the water passes over the grounds more than once, she says. The coffee is never allowed to boil, but is placed in a pan of hot water to be kept warm. It takes about 20 minutes for the dripping process and, because the water is not boiled, it is claimed that the caffein is not extracted from the coffee. That is why, the people of New Orleans claim, they are able to drink so much coffee without ill effects.

• • •

There is another thing, too. They do not fill their cups and they do not ordinarily use cream or sugar.

• • •

Every one in Southern Louisiana has his coffee at 10 o'clock in the morning, she discovered. Whole office forces either go out for coffee or brew it in the office at that hour. It's one of these old Southern customs.

HELP NEEDED

IF IT IS so easy to make the school child's lunch attractive, how about some recipes for sandwiches, one of the customers calls in to ask.

• • •

That's because of that letter from A School Marm telling about the need of better lunches for children. Good lunches can be prepared without much trouble, of course, but how it is done is something that this mother doesn't know. Since I haven't tried preparing any lunches it wasn't so easy to tell her.

• • •

If you have some simple sandwiches or simple combinations of ordinary foods for school lunches, help us out. This mother wants to feed her children right but doesn't have many ideas.

SHE STILL SINGS

PERHAPS you remember Topsy Ottinger and the way she used to sing. She's Mrs. Emmett Porter now—has been for a number of years—and lives in Austin. She's still singing.

• • •

Women who attended the American Legion convention in Wichita Falls the other day heard her there. She was singing in a trio that was selected as the official Texas Legion Auxiliary trio and this selection entitles the trio to sing in a national Legion auxiliary contest in Chicago in October. The winning singers in this latter contest will be the official trio for the national society.

Other singers in the trio are Mrs. Warren Freund and Mrs. Elaine Strom.

Baptists Have Business Hour

Catholic Auxiliary Members, St. Paul's Society Begin Work For New Church Year Monday Afternoon

Hundreds of church women met in circle and group gatherings Monday afternoon for business sessions and discussions of missionary projects and Bible characters. For two societies, the Episcopal auxiliary of St. Paul's church and Saint Anne's altar society of St. Joseph's Catholic church, the church year was started.

Societies that met in unit gatherings were from First and Asbury Methodist, First Presbyterian and First Christian churches. Members of four Baptist societies, namely the First, Calvary, Central and College Avenue, met for business meetings and talks by study leaders and their assistants.

Social Is Planned

Twelve members of Saint Anne's society met with Mrs. Harry Roberts, 2415 Twentieth street, for a business session conducted by Mrs. J. L. Ryan. Tentative plans were made for a social for Catholic students who will attend Texas Technological college this fall. This was the first meeting of the organization since June. Meetings are to be on second Mondays.

Mrs. J. A. Alred was leader of a program from Royal Service at a meeting of the Calvary Baptist society at that institution. Mrs. C. D. Puckett led a devotional. There were 19 women present.

This society is to meet in circles next Monday

Twenty members and one visitor attended a meeting of the Central Baptist Women's Missionary society at the church. Mrs. J. M. West gave a historical background of the book of Corinthians and Mrs. J. D. Welch taught a Bible lesson. Mesdames H. B. Benedict and Henry McMinn were received as members.

In Stewart Home

Circle 1 of the First Methodist Mary Helm auxiliary met with Mrs. Allen T. Stewart. There were seven present. Mrs. Stewart led a devotional. Mesdames R. S. Williams and C. G. Stinson presented the lesson.

Circle 6 of this auxiliary met with Mrs. Herbert Maxwell. Mrs. I. F. Kennedy was lesson leader. Mrs. William Dingus led a devotional. There were eight members and two visitors present.

Members of Circles 2 and 3 of the Mary Helm auxiliary met in the church parlors. Mrs. R. F. Dunn led an opening prayer. Mrs. Tom J. Foster told stories of Christians in Japan and Mrs. J. R. B. Cooper led a devotional. Miss Mary Alice Walden read and Mesdames O. B. Trinkle and J. V. Reynolds sang. There were 23 women present.

Circle 1 of the First Presbyterian auxiliary met with Mrs. D. F. Wulfman with 11 women present. Home missions were discussed by Mesdames Ed Ainsworth, H. F. Godeke and C. A. Bruner. Mrs. J. S. Johnson, circle chairman, presided for a business session.

Members of Circle 2 met with Mrs. A. H. Leidigh for a program directed by Mrs. J. S. Johnson. Mrs. D. T. Jennings, Mrs. S. C. Wilson and S. L. Miller made talks. There were nine women present.

Plan For New Year

There was an attendance of about 40 women at a business meeting of the First Baptist Women's Missionary society at the church. Work was planned for the new church year.

The vice-president, Mrs. O. J. Hull, presided in the absence of the president, Mrs. Tom Campbell, who is ill. Mrs. H. A. Burrus led a devotional.

Re-organization of the society into circles for the church year that began this month was discussed. Leaders have not been named for two or three of the units.

Twenty-four women attended a meeting of Circle 4 of the First General Aid society with Mrs. W. L. Harbison. Mrs. Roscoe Cowart was the assisting hostess. Mesdames N. L. Benson and L. W. Squyres talked on women of the Bible

Mrs. J. L. Barstow, president of the Episcopal auxiliary, presided at a business meeting attended by that society at Seaman hall. Plans were made for the convocation that is to be conducted here next January.

Members of the Belle Bennett and Jane Bickley circles of the Asbury Methodist church met at the church for mission study.

Circle 2 of the First Christian General Aid society met with Mrs. G. W. Hazelwood. Mesdames Joe Coursey, O. A. Terry and J. S. Rogers presented a lesson on women of the Bible. There were 13 members and six visitors present.

Ban On Child Labor To Give Schools Task

Thousands And Thousands Of Children All Over Nation To Be Released For Enrollment In Schools

By ALEXANDER R. GEORGE

WASHINGTON, Sept. 11. (AP) — The nation's school system, already crippled by lack of funds and facilities to care for normal educational needs, faces an extra burden this fall.

Thousands of children, released from the wage earners' ranks by elimination of child labor under the various industrial codes, will be seeking their places in schools where classes have been overcrowded and where educational services have been eliminated or drastically curtailed.

Shorter Sessions Likely

Officials of the National Education association predict that owing to the shortage of funds and to wide-spread retrenchment, the average school year of 1933-1934 will be shortened two months, a curtailment double that of the preceding year.

Dr. William G. Carr, assistant director of the research division of the association, says that in the last school year more than 250,000 children were allowed to attend school only on a part-time basis and an additional 150,000 were housed in portable shacks.

Last Year's Schooling Inadequate

The records indicate, he says, that an exceedingly inadequate and brief educational opportunity, and in some cases no education at all, was offered last year to about 500,000 American boys and girls.

The number of children who will be released from child labor to return to school under the industrial codes cannot be determined definitely, educators say. Dr. Carr has estimated that roughly 2,100,000, out of 31,000,000 children from 5 to 17 years of age, are employed.

What would normally happen if some 2,000,000 young Americans were taken out of factories, mills and mines and from behind store counters and placed in school?

New Teachers, Buildings Needed

Dr. Carr says that in addition to the opening up of their jobs to unemployed adults, at least 80,000 additional teachers and 20,000 new school employes of other types would be required adequately to instruct this new army in the schools. Hundreds of new school buildings would be needed.

Yet, owing to the lack of funds and to drastic economies in school expenditures, there has been delay, he says, in the construction of some 4,000 needed rural schoolhouses while more than 18,000 rural school districts are not making the necessary minor repairs to keep their buildings and equipment from deterioration.

Enrollments Rising

He points out that while the supply of educational opportunity is diminishing, the demand continues to increase. Each year there have been approximately 200,000 more children enrolled in the public schools than the year previous.

Meanwhile, there has been a decreasing number of teachers, which combined with the increasing number of pupils means a higher pupil-teacher ratio and in most schools an increased size of class. There was a general tendency, however(to increase class size in city school systems before the depression.

With the prospect of a greatly increased enrollment and a further retrenchment in expenditures, educators are apprehensive that the school crisis this year will be even more acute than it was last year when teachers in several states worked without pay and thousands of schools were closed months before the expiration of their regular terms.

Release Of Child Labor In Nation To Crowd Schools

With adoption of NRA codes child labor is passing more and more out of the industrial picture, while hundreds of thousands of young people thus released turn toward the country's schools, already heavily burdened. It is estimated that there are about 2,000,000 children under 17 employed in American industries. Educators are considering the prospect that school enrollments might be increased by that number.

"I WAS driving to Chicago with my family to attend the World's Fair," says the Rev. J. F. Hutchinson, minister of the Methodist Episcopal Church in Storm Lake, Iowa, "but near Fort Dodge, another car suddenly cut across our path, forcing us into a deep ditch.

"My Dodge Six went down the embankment, turning over several times, struck a telephone post, breaking it off, then landed in the ditch rightside up.

"I feel certain that had it not been for the steel body of my Dodge car, my entire family would have been killed. The Dodge car saved us. We came through with no serious permanent injuries, miraculous as it seems.

"I have my dear family all with me, alive and getting well. My gratitude is deep and moving."

Texas Golfer Leads National Amateur; Senators, Giants Practically "In"

Munger Shoots Under Par To Tie Somerville

Gus Moreland Fires 72 And Is Tied For Fourth Place As Field Of Stars Set Hectic Pace First Day Out

BY ALAN GOULD
Associated Press Sports Editor

KENWOOD COUNTRY CLUB, CINCINNATI, O., Sept. 11. — The steaming battle for the amateur golf championship of the United States began today with a record-smashing outbreak of low scoring, paced by C. Ross (Sandy) Somerville, doughty Canadian holder of the title, and an 18-year-old standard bearer of the younger generation, Jack Munger, jr., of Dallas, and Hill school, Pennsylvania.

Somerville and Munger, each negotiating Kenwood's 6780-yards in 70, one under par, were deadlocked for a one-stroke lead over a field of 152 starters in the first 18-hole round of the 36-hole, two day qualifying struggle.

Dunlap Shoots Par

Only one other player, George T. Dunlap, Jr., of New York, who occupied third place with a sparkling 71, was able to touch par for the opening round, but the rush to the low-scoring brackets was otherwise so thick and fast that the carnage may be terrific by the time the last shot of the qualifying round is fired tomorrow.

Only 32 can qualify for the match play, starting Wednesday with two 18-hole rounds morning and afternoon, but no less than 45 players had scores of 75 or better today.

It seemed likely tonight that at least 151 and possibly 150 would be required to have even a chance to play off for the last qualifying positions.

On top of the prespective scramble for the honor positions, there was the possibility that Somerville, Munger, Dunlap, or even some other shotmaker in the closely bunched field might set a new low record for the medal. The present mark is 142, held jointly by D. Clarke Corkran, Bob Jones and Johnny Fischer.

Moreland Tied With Six

Tied for fourth place were no less than seven players, including such favorites as Fischer, Johnny Goodman, of Omaha, the National Open champion, Gus Moreland, the Walker Cup star from Dallas, and a quartet of newcomers to such altitude—Pat Sawyer, of Minneapolis, Willie Turnesa, youthful member of the noted Turnesa clan of Elmsford, N. Y., William R. Long, Jr., of Austin, Tex., a bank clerk making his debut in national competition, and Don Edwards of San Jose, Calif.

Four more were bracketed at 73, including Gene Homans, of Englewood, N. J., one time runner-up for the title. At 74 were such campaigners as Frank Dolph, of Portland, Oregon, Charley Yates, youthful Atlanta star whose fortunes were being followed closely by the great Bob Jones; Jack Westland of Chicago, 1931 runner-up, who is distinctly "on" his game; William Lawson Little, Jr., San Francisco star, and Boston's Bill Blaney.

Chick Evans, of Chicago, staged a comeback with a 75, the best score turned in by any of the small competing group of ex-champions. Behind him trailed Jesse Guilford of Boston with 76, Max Marston of Philadelphia and Chandler Egan of Del Monte, Calif., champion in 1904-05, each with 77, and Jess Sweetser of New York, with a 79 that left him slim chance of qualifying.

Jack Munger, National interscholastic champion and one of the youngest players in the National amateur golf championship, bounced into the lead first with a 34 and a 36, after Gus Moreland and Pat Sawyer led the early finishers.

Moreland, three times Texas champion and holder of the Trans-Mississippi title, got away to a bad start when he took a 6 on the first hole. He turned in a birdie four on the third, however, and finished the first nine one over perfect figures.

His card:

Par, out ---------- 435 436 444—36.
Moreland, out ---- 634 435 444—37.

Starting on the homeward trip, the Texan shot par on every hole and narrowly missed several birdies.

Par, in ------ 443 444 354—35—71.
Moreland, in ..343 444 454—35—72.

Munger Fairly burned up the course on the first nine, making the turn in 34, two strokes under par.

He held this advantage through the twelfth and then dropped a stroke on the thirteenth where he had a bad lie for his second shot. He parred the fourteenth but gained the stroke back on fifteenth with a birdie three. A trap caught his drive on the 244-yard sixteenth and he lost another stroke, but finished the last two holes in even figures.

His card:

Out ---------- 433 525 555—34
In ---------- 443 543 454 —36—70.

Georgia Tech plays a long home schedule this football season. Only three of its 10 games are abroad, at Nashville, Lexington, Ky., and Chapel Hill, N. C.

Select Group Of Matador Gridsters Open Training Camp In Two Workouts

Two-Score Gridmen Report Monday In Opening Drill

The back door of Texas Tech's football field house swung open. From it emerged a crimson-jerseyed figure, followed by another, and another, and two-score more—all of them yelling, yipping and yowling.

They took to the heavily turfed rectangle like jackrabbits to a cabbage patch, only there was a lot more noise. They circled the field twice, some of them tossing inflated leather spheroids at each other, or kicking them. They gathered in a huge circle, surrounding two of their company who gave orders. They lay on their backs, rolled over, fell down hard on their tummies, kicked the air, turned somersalts, shadow-boxed, shimmied, shook and squatted. Then they breathed heavily, moved to various parts of the field.

Signals Practiced

There was kicking and running and catching and touch-tackling. Signals were called. Plays were run from dummy scrimmage. There was speed, there were barked orders—and barked shins. A couple of hours of this and there was a rush for the same back door amid more howling and hollering. And the first day of the fall training camp had come and gone at Texas Tech.

That was the second workout. The first was held in the morning. It was along the same lines and left the Matador candidates steaming and stewing. "Boy, WHAT a workout!"

They'll be that way twice a day all this week, and one of two days next week.

"Not so bad," grunted Coach Pete Cawthon late in the afternoon. "Not so good, either. Some of 'em have got a lot to learn. Some of 'em are pretty soft . . . been working inside this summer . . . not much exercise . . . but maybe they'll come through . . . yeah, maybe."

Fullback Needed

One of Cawthon's first duties is to locate a fullback to replace the departed Harold Critts, hard blocking, fast charging all-conference man of last year who graduated and will play professional football at Chicago this year. At the same time, the coach will be seeking a quarterback to take the place of Speedy Moffett, who also graduated. Mainstays of the Tech backfield for at least two full seasons, Crites and Moffett are due to be missed.

A tackle to replace Truett Owen, a guard to fill in where Captain Ross Ayers played, and a center to occupy the place filled by Big Ben Anthony and Lester "Terrible" Tribble, alternate centers last year, are the troubles facing Line Coach Smith.

The Matadors have less than three weeks in which to get ready for the invasion by the Southern Methodist university Mustangs, who come here September 29 to open the playing season.

Morrison Smiles As Mustangs Work Out

DALLAS, Sept. 11. (AP)—Rain that forced the Southern Methodist university Mustangs to take their first workout of the year under Ownby Stadium failed to take the smile off Coach Ray Morrison's face today as he sent his young charges through a snappy signal drill featured by the manner in which Paul Briggs and Tommie Field, a couple of junior college transfers, took to their assignments. Briggs is a tackle from Paris Junior college, while Field, a husky guard, hails from Weatherford college.

The workout put one sophomore on the hospital list and another was added in the afternoon drill. Robert Wilson, Corsicana ball carrier, became ill and will be confined to his bed for the next three days. Maco Stewart, an end and also from Corsicana, was ordered to take some rest after being forced to sidelines by a spell of weakness. Stewart is not fully recovered from an operation for appendicitis under gone five weeks ago.

The squad was cut to forty-three when Whitey Baccus and Smokey Zachary basketball stars, turned in their uniforms, declaring that they would confine their future athletic activities to the maple court.

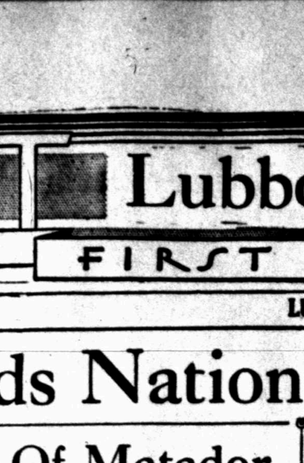
Curly Woodward, star of the 1931 freshman club, out of school last year, reported for the afternoon session and took his turn in the backfield.

Barney Ross Meets Canzoneri Tonight With Title At Stake

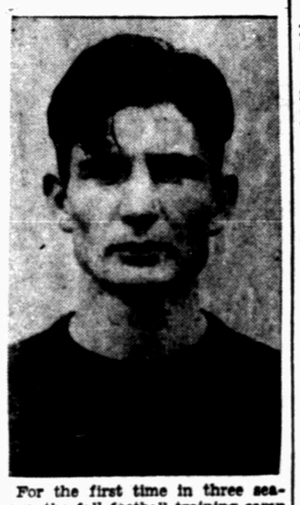
NEW YORK, Sept. 11. (AP)—Barney Ross, sturdy, swift little fellow from the battle lands of Chicago, swings tomorrow night, with the superstitious citizens of the boxing world pointing warning fingers at him.

Barney will tackle Tony Canzoneri, the brilliant Italian boy, a bit shopworn now after eight years of warfare, but made more dangerous than ever by the rancor that has gripped him since June 23 when he lost the championship to Ross in a 10-round bout he thought he had won easily in Chicago.

Missing



TRUETT OWENS® TACKLE



For the first time in three seasons, the fall football training camp at Texas Tech started yesterday without Truett "Juicy" Owen, top, valiant tackle, and husky Harold Crites, charging all-conference fullback. Owen was out there, but not with the gridsters. A serious operation this summer has not been overcome in time for Juicy to play. Crites, probably the hardest man to replace, has graduated and gone in for professional football.

BASEBALL'S BIG 6

(By The Associated Press)

Al Simmons was out of baseball's Big Six again today while Heinie Manush held undisputed possession of third place in the American League's half of the sextet. With the National League members rained out, Manush was the only one of the group to gain yesterday with two hits in four times at bat, the Washington outfielder boosted his average one point to .331. Jimmie Foxx lost four points while Lou Gehrig dropped two.

Ray Doan To Manage Babe Didrickson's Cage Outfit

ST. LOUIS, Sept. 11. (AP) — Ray Doan, sports promoter and operator of the House of David baseball team, announced here today he had signed a contract to manage Mildred "Babe" Didrikson, star girl athlete of Beaumont, Tex., as leader of a girl's basketball team.

Doan said he will conclude his House of David baseball season in Milwaukee, Sept. 24, and expects to assemble the girls' basketball team immediately.

The promoter said he has guaranteed her a "large sum of money" to lead the all-star team for three months, beginning the latter part of November. It is Doan's plan to have the team play outstanding teams, either men or women, in all parts of the country.

He said he would also have charge of Miss Didrikson's athletic activities after the basketball season ends.

Missions Get Set For Texas League Play-Off With Bucs

SAN ANTONIO, Sept. 11. (AP) — The San Antonio Missions had a light practice drill today, awaiting the call to arms against Galveston here tomorrow night in the first game of the Texas League playoff. The entire club was in good condition, with no injuries or sore arms.

Manager Hank Severeid said he would start Fabian Kowalik tomorrow night and follow with Hal Wiltse on Wednesday. Abe Miller will open the third game, to be played in Galveston.

Weaver Tosses Washington To Big Advantage

Lead Now Is Nine And A Half Games As Yankees Lose To Detroit; Athletics Sweep Double Bill With White Sox

(By The Associated Press)

WASHINGTON, Sept. 11.—Monte Weaver, the scholarly right hander, polished the Cleveland Indians off in handy fashion today and led Washington's pennant-bound ball club a step nearer the World Series pot of gold.

By beating Cleveland 5-1, the Senators increased their American League lead to 9 1-2 games over the second place Yankees who were trounced by the Detroit Tigers in New York.

With nothing more than an even break in their remaining sixteen games, the Senators now would win the pennant even though the Yanks should sweep victoriously through the eighteen contests left on their schedule.

Weaver gave up eight hits to Cleveland, but he kept them well scattered.

Mel Harder started for Cleveland, yielding six hits and three runs in six innings. Willis Hudlin relieved Harder and was nicked for three hits which helped to produce two more runs for Washington.

TIGERS 5; YANKEES 1

NEW YORK, Sept. 11 (AP)—With Fred Marberry pitching four-hit ball, the Detroit Tigers staged a three-run uprising in the seventh inning today to defeat the New York Yankees 5 to 1 and break the champions' winning streak, which had extended to six games.

The Yanks' lone run came in the first inning, when Earl Combs tripled and scored on a single by Joe Sewell.

The Tigers led by Fox, who connected with a triple, double and single, collected 11 hits off Charlie Ruffing.

A's WIN TWO

PHILADELPHIA, Sept. 11 (AP) — Johnny Marcum, rookie righthander from Louisville, who broke into the big leagues with a shutout win last week, duplicated the feat today in the Athletics' double header victory over the Chicago White Sox.

Boosting his big-league record to 18 scoreless innings, the newcomer to the majors hurled the A's to an 8-0 triumph in the nightcap after Lefty Grove turned in his 21st win with a 5-3 victory in the opener.

The double conquest pushed the Athletics into third place over the Cleveland Indians, the first club to fall victim to Marcum's slants.

Cotton McAfee Wins Over Allen For Right To Play For Country Club Throne

Edmisson, McAfee To Play Title Match Sunday

For the third time in as many important tournaments held here this summer, W. L. "Cotton" McAfee will play in a final and championship golf match.

McAfee defeated Manson Allen, young ace who took McAfee out in the final match of the Country club invitation tournament, in a one-hole match yesterday to win his way to the finals in the Lubbock Country club championship tournament. McAfee will meet John Edmisson, former holder of the City Open title, next Sunday in a 36-hole match for the championship.

McAfee Takes A Par

Allen and McAfee finished their scheduled 18-hole semi-final match Sunday afternoon with neither man having the advantage. Darkness descended as the 18th hole was finished, and the players elected to play the extra hole or holes yesterday. McAfee, on the green in three, took two putts for his par, and Allen went one over to lose the hole and the match.

In the other semi-final Sunday, Edmisson put away T. H. Buckingham, 2 and 1.

Because of business activity this week, the finalists agreed to postpone the final match until next Sunday, when they meet for a 36-hole duel for the Country club championship.

Windy Watkins Wins

Windy Watkins won the first flight championship yesterday by defeating Jess Lockhart, 3 and 1, in the final. The flight consisted of only eight players and the final was played in regular turn. Watkins defeated Dick Mims in his semi-final match and Lockhart won over A. C. Jackson.

Bays Bryant, who was ousted by W. D. Girand, Sr., in an upset first round match, took championship flight consolation honors yesterday by defeating Bob Harvey, 6 and 4. Bryant defeated Lee Jones and T. E. Patterson in consolation preliminaries, while Harvey was defeating McAllister and McRee.

In a play-off yesterday for medalist honors, JoDick Slaughter fired a 75—three over par—to Manson Allen's 76 to claim the medalist prize. They tied in their qualifying round with par 72's.

All-Stars Lose To Hubber Team In Benefit Tilt

In what may have been the final baseball game of the season at the home field, team representing the Lubbock Hubbers pounded two of their own pitchers hard Sunday to win an 18 to 14 victory over the Junior League All-Stars.

The contest, played at College Avenue park, was advertised as a benefit game, proceeds of which were to apply on a hospital bill incurred by one of the Junior league diamonders who was injured during the season. The "gate," it was reported, took care of the greater part of the account.

Hambright Hits Homer

For nine innings the contest was fast and furious, each side scoring steadily and evenly. It went into the tenth frame all square, 14 to 14. Ed Hambright's home run with two on base followed another tally which gave the Hubbers the edge of victory.

Raymond Marshall started on the mound for the Juniors, the batteries being switched in order to make the contest more even. The Hubbers battered Marshall hard in the early innings and "Bull" Thompson took the mound.

The Hubbers used three Junior pitchers, who held their own against former mates with just fair ability.

Forty-Four Men Report To Jennings For Baylor Team

WACO, Sept. 11. (AP)—Forty-four candidates for the 1933 Baylor university football team were on hand for the initial training session today. Coach Morley Jennings said he had what appeared to be a splendid array of material.

A part of today's practice was devoted to a new shift which the Baylor mentor intends to use this season. It is similar to that used by Howard Jones of Southern California. Special attention was given to tackles and guards by Bochey Koch, line coach.

Columbus And Minneapolis To Meet In Association Play-Off

COLUMBUS, O., Sept. 11. (AP)—Favored by statistics and backed by the vocal support of an estimated crowd of 10,000 home fans, Columbus will meet Minneapolis here tomorrow afternoon in the first game of the playoff for the American Association pennant.

The first three games of the series will be played here, one at 3 o'clock Tuesday and two others at night, Wednesday and Thursday. The teams will carry on Saturday at Minneapolis, playing until one wins four games.

Lubbock-Ranger Game Shifted To Afternoon Hours

Two football games will be played in Lubbock September 29, it was revealed yesterday.

Lubbock High school, who originally had the night of September 29 as the date for a game with Ranger High school, will play the game on the afternoon of that day instead, Coach Chapman announced yesterday.

Change in the time of the high school game was necessitated because the Texas Tech-Southern Methodist university game has been moved up from September 30, date of original schedule, to the night of September 29.

Since the high school makes use of the Texas Tech field for its games, the Westerner date had to be moved up or postponed until next day. Rather than take chances on Saturday, Chapman announced that his game would be played in the afternoon.

The Westerners, who entered the third week of fall training this week, open their playing season a week from this Friday night when they meet the Big Spring High school Steers.

Icemen Win Over Quicksall-Pryor

Loyola university in Chicago will continue to get along without varsity football under its new president, the Rev. Samuel Knox Wilson, S. J. The game was dropped after the 1931 season.

Giants Follow Carl Hubbell To 3 To 1 Win

Cubs And Pirates Are Idle As Leaders Increase Advantage With Win Over Reds; Braves Defeat Cardinals

(By The Associated Press)

CINCINNATI, Sept. 11. — Carl Hubbell, ace of the National League southpaws, stepped forth as a rescue pitcher again today and, hurling scoreless ball for three innings, saved a game for Herman Bell as the New York Giants won their fourth successive game from the Cincinnati Reds, 3 to 1.

In winning their fifth straight game, the Giants increased their lead over the idle Cubs and Pirates to eight and eight and one-half games, respectively. The Giants now need only 10 more victories in their remaining 19 games to gain the pennant, even if the Cubs win all of their remaining 16 contests.

BRAVES 3; CARDS 0

ST. LOUIS, Sept. 11. (AP) — Ed Brandt of the Boston Braves blanked the St. Louis Cardinals with six scattered hits today and Boston took their last encounter of the season with St. Louis 3-0.

The defeat of the Cardinals gave Boston fifteen victories in twenty-two games with the Cardinals this season.

The Braves gathered two runs in the first inning by bunching three hits, including a triple by Berger. Again in the fourth a triple by Lee and a long fly brought in the third.

MARY LOU
GOES SHOPPING

SHE is only eight, but, even at this tender age Mary Lou is a daily customer at the neighborhood stores. Perhaps it is a package of crackers, and a pound of coffee at the grocer's. Perhaps it is some tooth-paste or toilet soap at the drug store.

Of course Mary Lou doesn't decide on what she is going to buy. Her mother writes a list—this brand of crackers, this brand of coffee, this make of tooth-paste, this kind of soap. She knows the prices, and gives Mary Lou just enough money, with an extra penny or two, perhaps, to spend for herself.

Buying is just as simple and easy as that because of just one thing—Advertising.

Advertising has given all of us a lot to be thankful for.

Because of advertising, people in Texas know about and buy Michigan motor cars. People in New Hampshire buy oranges raised in Florida and California. Because of advertising, merchants and manufacturers are forced to improve their products. It has standardized quality. It has increased consumption and thereby lowered costs. It promotes competition and thereby keeps dealers and merchants wide awake to secure for you the most for your money.

But best of all it writes "Finis" on the business career of any merchant or manufacturer who attempts to fool the public or give them less than value received.

Missing American Balloonists Are Found In Canadian Wilds

Two Men Are Worn By Trip

Van Orman And Trotter Both Ill; Suffer Poisoning And Have Lived On Berries; All Clothes Badly Torn

SUDBURY, Ont., Sept. 11. (AP)—Ward T. Van Orman and Frank A. Trotter, James Gordon Bennett cup balloonists missing more than a week, were found today, ill and their clothing torn, after they had cut down a telephone pole in the Canadian wilds to make sure that searchers would come and get them.

They had lived on berries, suffered from ptomaine poisoning, worn through their shoes and cut their clothes to ribbons in the brush.

Yell With Glee

"I never saw two men in my life who were so glad to see another human being," said James Barrett, lineman for the Ontario Hydro-electric company, who found them. "They hollered with glee and hugged me as soon as they saw me."

With Van Orman and Trotter found, all the Bennett cup racers, who took off from Chicago September 2, have been accounted for. Apparently the winners are Captain Franciszek Hynek and Lieutenant Zsygniew Burbynski of Poland, who landed near Riviere A Pierre, Que., 812 miles from Chicago. Van Orman and Trotter made about 500 miles.

Note Is Found

Trouble with a telephone line was what led to the discovery of the two balloonists, and they had caused the trouble for exactly that purpose.

When Repairman Barrett reached the cut-down pole, between Sudbury and Abitibi canyon in northern Ontario, he found this note:

"This telephone pole was cut Sept. 10 by U.S. Goodyear balloon team of W. T. Van Orman and Frank Trotter in the hope that repairmen would aid us in getting to civilization from here. We will continue south along the high voltage line. Please come after us. We have a gun and some food, but are both sick, evidently from ptomaine poisoning. Fire your gun three times and we will answer. Please hurry.

(Signed) F. A. Trotter."

Found In Camp

Barrett forgot about the pole and continued along the high voltage line for about five miles. In a camp at tower No. 38, a lineman's outpost, he came upon the worn-out aeronauts. Arrangements were rushed through to get them transported to Sudbury as quickly as possible.

Their bag, descending from a height of 8,000 feet around 4 p. m. Sunday, September 3, struck a pine more than a foot in diameter, and snapped it in two.

The balloon was destroyed when it crashed into the tree, but Van Orman and Trotter were only slightly injured. Their troubles were to come in the trek toward the camp. They ate sparingly and suffered from cold during the chill nights.

If the Americans are unable to walk, they will be carried through the woods on stretchers to the Canadian National Railway's main line six miles from the camp. There they will be put aboard a train for this place. No word reached here as to when the start will be made.

New Bus Schedule For City Started

A new schedule to Spur with connections for Stamford and Abilene, having Lubbock in the afternoon, has announced yesterday by Alton Abbott, manager of the Westex Stages. This gives two through schedules to Spur with connections for Abilene and Stamford, daily.

The car, a radio equipped Cadillac, leaves Lubbock at 3:45 p. m. with return from Spur at 7 p. m. Schedule is as follows: Leave Lubbock, 3:45; Idalou, 4; Lorenzo, 4:15; Ralls, 4:35; Crosbyton, 4:50; Dickens, 5:35; arrive Spur, 5:50. Return, leave Spur 7 p. m.; Ralls, 8:40 and arrive Lubbock 9:30.

Connections are made at Ralls for Floydada where connections are also made for Vernon and Wichita Falls. The car from Floydada connecting at 8:40 at night at Ralls, also has a connection with a west bound bus from Floydada.

Passengers leaving Lubbock at 3:45 connecting at Spur arrive in Stamford at 8 p. m.

State Certified Seed Men Gather In Session Monday

Growers of state certified seed met yesterday with R. V. Miller, Austin, secretary of the state plant and seed board, to discuss plans for the coming year's work. The session was held in the assembly room of the federal building.

Those present included: W. H. Cunningham, Littlefield; W. M. [illegible], Muleshoe; J. W. Hammock, Dean; W. E. Goeth, Abernathy; J. Dunn, Lamesa. Mr. Pool is president and Mr. Cunningham, secretary of the local group.

Growers report no carryover from last year's crop except some seed. The 1933 crop is not expected to be very large, owing to drouth conditions that have prevailed over most sections of this section, according to growers.

Science Provides Hidden Cameras For Automatic "Shots" Of Hold-Ups; Pictures Taken Of Bandits During Robbery

Here's how science's new device for bank safety works. When a hold-up threatens, the cashier steps on, or presses, a button, which starts an automatic camera hidden in the wall. This takes pictures at the rate of 20 a minute for 12 minutes even in poor light, giving a permanent record of the scene, as sketched in the strip to the left. At the top is a photograph of the camera.

BY HOWARD W. BLAKESLEE
Associated Press Science Editor

NEW YORG, Sept. 11. (AP)—Add to the bank bandit's worries the probability that soon cameras hidden in the walls will be taking pictures of him at the rate of 20 per minute.

The new device making this possible is reported by the Underwriters laboratories, which has approved its burglar protective qualities. It is a battery of concealed cameras operated from a control box in a cashier's cage.

The cashier sets the cameras in operation by pushing a finger button, or by stepping on a button on the floor. He may, if he has time, turn a dial resembling a radio knob, which will set the cameras for fast work or time exposures over a fairly wide range.

Operate Automatically

Once the push button moves, the cameras continue automatically to open and close their shutters, and replace their film for a long series of pictures. The laboratories' testers reported that this operation is silent.

The maximum string of pictures possible is 240 taken over a period of 12 minutes, or at the rate of one each three seconds.

In laboratory tests recognizable pictures have been taken with one-half second exposure under artificial lights about as dim as anything to be found in the average electrically lighted office. With good artificial illumination very clear pictures have been taken in eighth-second exposures.

Telephoto Lenses Provided

The pictures vary in distance from 10 to 30 feet. Telephoto lenses are provided for specially long shots.

The idea is to focus the cameras upon the locations where hold-up men would be most likely to work.

A motor-driven mechanism turns gears which operate the camera. Each one has its own "power-pack" containing sufficient electrical energy to insure operation for at least three cycles of 240 exposures each.

There is a trouble light which glows when a camera needs to be reset, but it is hidden from sight in the control cabinet in the cashier's cage.

The laboratories' statement says that this remote control can be placed wherever wished, under supervision of any desk occupant and that it has possibilities for theatre ticket booths, postoffices and stores.

Mary Nolan Will Again Seek Fame

LYNN, Mass., Sept. 11 (AP)—Her marriage behind her, the blonde Mary Nolan is bent once again upon a career on screen and stage. A Connecticut divorce ended her marriage to Wallace McCreery eight months ago, she said today.

"I am free of romance now; free of any thought of marriage," she said. "I have only one objective: To win back my place in my profession."

As Imogene Wilson she was a popular beauty of the Follies. Later, in Germany, she became prominent in the silent pictures and returning to America became a featured performer under the name of Mary Nolan.

Miss Nolan, who is appearing at Lynn theatre, said she is under contract to resume work in Hollywood in November.

Political Parties Still In The Red

WASHINGTON, Sept. 11 (AP)—The Democratic and Republican national committees reported to congress today that with the exception of small cash balances for operating expenses, their respective treasuries continued deep in the red.

In the third quarterly report filed with South Trimble, clerk of the house, under the corrupt practices act, Frank C. Walker of New York, treasurer, listed unpaid outstanding obligations of the Democratic committee at $524,292.

J. R. Nutt of Cleveland, treasurer of the Republican committee, reported a deficit of $186,464.

23 GRADS IN EVERY 1,000

There are 250,000 varieties of flowering plants on the British Isles.

Woodson Armes Missing As Horned Frogs Start Work

FORT WORTH, Sept. 11. (AP)—Developing a center is going to be the biggest problem of Coaches Francis A. Schmidt and Raymond "Bear" Wolf in their efforts to build another Southwest conference championship eleven at T. C. U. The search for center was started today when Woodson Armes, Slaton, was absent from the opening day's drill, adding credence to the report that he would withdraw from school to study ministry at Baylor university.

Armes was being counted upon to be the first string center this year, having been under-study to J. W. Townsend of the Frogs' 1932 championship team. The absence of Armes throws the Frogs without a capable pivot man for the first time in several years.

Dick Allmon has been shifted to center from tackle to compete for the position along with Heard Floore, reserve center of last year, and Jimmy Sinpson, graduate from the freshman team.

Armes and Adolph Dietzel, who it also is reported will withdraw from school, were the only members of the squad missing today.

William Guidry of Breaux Bridge, La., is the champion farm boy orator of Louisiana.

Six Of 19 Persons Named By Grand Jury Not Yet Caught

Six of 19 persons named in 24 indictments returned last week by a 99th district court jury had not been arrested last night, the sheriff's office said. Five arrests were reported Saturday night.

Additional arrests made during the week-end were: Nyal Trotter, Tim Castle, M. W. Kerr, Burton Houston, Demp Cannon, all charged with burglary, and all free in bail; Grady Lambright, charged with chicken theft, on bond; Lloyd Demock, charged with forgery, held in jail; Leon Stanley, charged with burglary, held.

The grand jury continued its investigations yesterday. About 70 cases were in the files of the district attorney's ofice when the grand jury was impaneled by Judge Clark M. Mullican last week.

Babbitt metal obtained its name from Isaac Babbitt, who invented the alloy.

Jack Meagher Sends 39 Owl Candidates Through Drills

HOUSTON, Sept. 11. (AP)—With the opening game against Coach "Bud" McCallum's formidable Texas A. and I. Javelinas only 12 days off, Coach Jack Meagher here today bore down on 39 Rice institute football aspirants. The Owls went through two stiff practice sessions.

The squad is probably the smallest numerically in the Southwest conference.

One of the livest scraps is certain to be for the starting job at right tackle, which is open. Captain Fred Lauterback played right tackle last season but this fall will be shifted to left tackle, where he will get more action on defense.

Three-Minute Relief From Your Headache

Realising that no one drug can relieve all headaches, as they come from so many causes, a North Carolina pharmacist has developed a combination of several ingredients, so blended and proportioned as to relieve almost any headache in a few minutes. You can get this formula wherever drugs are sold under the name "B. C." 10c and 25c packages, and when you have one of those violent nerve-racking headaches, from inorganic causes, "B. C." will give you soothing relief in three minutes. "B. C." should also be used for the relief of muscular aches and pains, common colds and neuralgia, reducing fever, and for quieting a distressed nervous system without opiates, narcotics or such habit forming drugs. Mountains

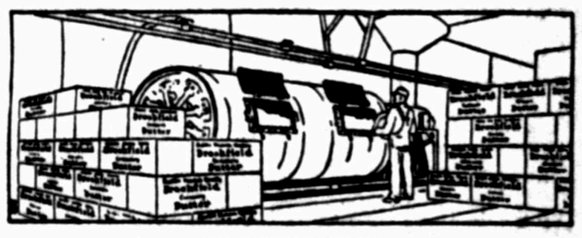
(of Butterfat)

Must Be Moved

THE MOUNTAIN

Hundreds of thousands of farmers daily have butterfat to sell. In the counties, even the states, where most is produced, there is surplus. This surplus must be sold to faraway consumers in the cities.

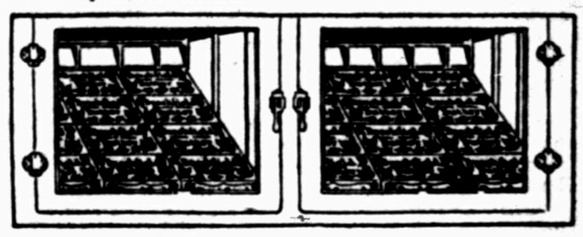


MANUFACTURE

Swift & Company, with its more than 100 produce plants and many buying stations, buys for cash. The next step is processing in a modern churn. Swift makes the finest grades of butter and packs them in attractive style.

TRANSPORTATION

Then distribution. Butter often rides a thousand miles to reach a purchaser. Swift & Company ships in carload lots to a nation-wide market, in which thousands of salesmen dig up and foster demand.



READY BUYERS

So to the retailer. He may be in any one of many thousand cities. Butter goes wherever demand is keen. Swift & Company has hourly information on market requirements—and is able to serve them quickly.

MOUNTAINS of butterfat in the producing areas must be taken care of without delay; else they would lose value. There must be a connecting link between the producer of butterfat (and poultry and eggs as well) and the retailer and consumer.

Swift & Company is a vital link. With a minimum of lost motion and expense, it sends the surpluses to places where shortages would exist without a steady flow of produce.

Swift & Company undertakes all the work of processing, shipping and of selling to a nation-wide market, an essential service which farmers can not perform.

Cash prices paid to producers by Swift & Company are competitive and are based strictly on what consumers, through retailers, will pay for the entire supply offered. Sell your poultry, butterfat, and eggs to Swift & Company.

Discipline Needed In Jails

OFFICERS and jailers in Lubbock and all over Texas will do well to put a heavy foot down upon the old "hoosegow" custom of permitting "kangaroo" courts to operate in city and county prisons. Ft. Worth is considerably embarrassed over death in its city jail of T. E. Barlow, former candidate for lieutenant-governor and more recently a Communist agitator, in a jail fight and followers of Communism in that city are working day and night to "build up" the dead man as a martyr to their cause.

A jail is supposed to be one place where discipline of the strictest kind is exercised; if discipline cannot be enforced in jail, certainly it can be enforced nowhere else. Just why prisoners should be so handled to permit fights between them, or that they may engage in the pastime of holding "kangaroo" court, is something hard for the uninitiated to understand.

It is true that Barlow was a worker in an organization for which The Morning Avalanche has no sympathy or respect. But the man was charged with disturbing the peace, certainly no crime serious enough for his life to be endangered or taken, and, as The Ft. Worth Star-Telegram remarked editorially, the incident is "much to be regretted."

It is the duty of officers to protect, as nearly as possible, citizens from attack at the hands of others. That duty is incumbent upon them whether the citizen happens to be in jail or out; in fact, a person in jail is admittedly more under the wing of the officer than his fellow on the streets, the highways or the byways, all of which cannot possibly be under official surveillance all the time.

One of the best ways to keep peace in jails and to protect prisoners, one from the other, is to put a stop to commingling of any appreciable number of prisoners and summarily halt any effort on the part of inmates to hold "kangaroo" court.

Such a move is not only in keeping with justice and common sense. The Ft. Worth incident proves it to be necessary.

THE WORST PART ABOUT IT

Lubbock school teachers and officials, like those in practically every city in the land, have started their work for the 1933-34 terms under a tremendous handicap.

And, what should be of interest to all of us, Lubbock school children, like those of cities the nation over, will not this year receive as good training as has been offered in previous years, simply because of financial conditions.

Half a loaf, we are told, is better than no bread at all and we may suppose that public education, even though it be badly handicapped because of lack of funds, is better than no instruction. But that does not alter the fact that our vaunted American system of "education for all" has hit a serious obstacle, brought on by the depression and added to by a "strike" on the part of many who could pay their school taxes if they wanted to do so.

It isn't that fewer teachers with more pupils will handicap many children during the next nine months alone.

If it stopped there, none of us would need to worry.

But the trouble is, children not receiving the best of instruction this year will find in the years to come that the condition of today has handicapped them in the days of the future.

That's the worst part of it all.

"Spinach," asserts a packer, "is good for the nerves, the teeth and the complexion." While pie is good to eat.

"Britain needs fewer slogans and more hard work," says Ramsay MacDonald, whose slogans, as in this instance, seem to be unintentional.

Be good and you'll be happy—maybe.

An alibi is like a jewsharp. You can have the best one that ever was and who wants to hear it?

RELIGION: A SONG

"How shall we sing the Lord's song?" Psalms 137:4.

You cannot appreciate a song simply by analysing it and tearing it apart. Only as you hear the music played by some musician can you fully appreciate it. In this respect religion is like a song. "If you would know God be not therefore a solver of riddles. Rather look about you and you shall see Him playing with your children. And look into space; you shall see Him walking in the cloud, outstretching His arms in the lightning and descending in rain." (Gibran).

The News Behind The News

WASHINGTON
By George Durno

THERE is a rumor going around that Prof. James M. Landis is packing up his bags and heading back to Harvard.

Don't misunderstand this exit. It doesn't mean the Professor is going what seems to be the way of the Brain Trust.

It merely signifies Landis thinks he just about has a job well done behind him.

* * *

NOWHERE: Lest you should never have met the gentleman, Prof. Landis was the guiding spirit behind the writing of the Securities act. You know this is the Act designed to put truth in securities advertising and end "blue sky" practices.

After Congress adjourned the Federal Trade commission suddenly began to get nowhere fast in putting the new law into effect. Along about the latter part of July Landis was sent for to do a little trouble-shooting.

He served without portfolio but it was he who drew up the regulations that have fetched such a wail from banking and brokerage houses.

* * *

MOANS: The moans from Wall Street deterred Landis not a bit. If the law required publicity for everything standing back of a stock or bond issue he was going to see they got it. Or they weren't floated.

In the beginning he had rows with some of the banks and other institutions that claimed exemptions in connection with refinancing moves.

Accordigly the governing regulations were made plenty stiff.

* * *

There was method back of this apparent madness. Prof. Landis decided if he had enough rules there wouldn't be any loopholes for phonies to crawl through. On the other hand when a legitimate firm had trouble meeting the requirements they could be slackened.

At the Federal Trade commission end things are now beginning to tick. After any number of houses said they wouldn't get their ears burnt in such a fiery furnace several big companies floated big stock and bond issues under the new rules.

Laclede Power & Light and Laclede Light & Gas took the dive for $5,000,000. Lockhead Aviation was another.

* * *

BONANZA: But don't try to convince a lot of Washington lawyers the Securities act hasn't flopped. A partner of a present Cabinet member holds such views and he has plenty of company.

The reason is of course they thought it was going to be a bonanza for them.

One firm ordered a lot of stationary for correspondence with the officials charged with enforcing the act. Designed to save stenographic work the letterheads were done up in G. H. Q. style reminiscent of wartime.

The printer is demanding his bill now while the letter heads gather fungus.

* * *

CLASH: Some of the insiders are wondering whether there may not be a final repercussion to that disagreement between General Hugh Johnson and Dudley Cates which forced the latter out as Chief Deputy Administrator of NRA.

Both Johnson and Cates are proteges of Bernard M. Baruch. All three got their start back in Moline, Ill.

There are those here who say Cates' views on non-unionization of industry fit in with Baruch's better than do Johnson's.

Baruch is now vacationing in Europe with Senator Carter Glass of Va., Rear Admiral Cary T. Grayson, the old Wilson physician, and Frank Kent, the Democratic columnist.

This quartet would be a tough outfit if they ever went gunning.

NEW YORK
By James McMullin

FROM now on the fate of the Blue Eagle is largely in the hands of the consuming public.

New York regards the organization job as practically completed although there is a lot of mopping up to be done. Even its critics admit it was a darn good job under the circumstances. Capital and labor are still making faces at each other over the open-shop issue fight. Credit expansion to meet code costs is a vital problem yet unsolved but the betting is heavily odds on that the Government will find a way to cut that knot.

That leaves one major question as the keystone of the whole recovery arch. Has enough new purchasing power been created—and will it be used—to offset the additional costs which industry has assumed? If so old man depression is licked.

The answer is up to Mr. and Mrs. Consumer in person. Especially Mrs. Consumer. Nobody else can spend their money for them.

That's the urgent motive for the national "Buy Now" campaign. It's the reason why banks are hesitant about making loans to cover increased costs. They would ladle out credit fast enough if they were sure the loans would be covered by fresh sales volume. The whole of industry is waiting with bated breath for the vedrict.

Of course the re-employed will buy. But for some time their purchases will be confined to necessities. That will help a few industries only. The rest are dependent on those who have been able to buy all along but have thought it more prudent to hang fast to their money.

So when General Johnson talks about the necessity for consumers cooperation he isn't kidding.

The public can feel confident that their government will do its best to protect them from profiteers. That won't be any simply job—human nature being what it is—but New York thinks that F. D. R. and General Johnson can do it if anyone can.

* * *

UNFREEZING: The need to swell purchasing power to make NRA work has given great impetus to the move for Government action to unfreeze deposits in closed banks. There has been a marked change in New York sentiment on this subject just in the last week. Several staunch conservatives have privately added their voices to the demand that at least a portion of the deposits be thawed even at the risk of straining the Government's credit. The actual mechanics as to how it can be done are not yet clear but you can expect important action along this line before the end of the month.

* * *

BUY NOW: Colloquy between the owner of a motor truck fleet and an NRA official: side of a road in the wilds of New Jersey."

"That's all right. Put two men on each truck. They can alternate driving and sleeping and it will help employment."

"But we can't do that either. Our trucks aren't built that way."

"O. K., go buy some new trucks. That will help the cause along too."

The truckman's final remarks are censored in the interest of pure reading matter.

Bodies Of Two Men And Woman Who Plunged Into Lake Are Discovered

* * *

MISS MAJENTA GERARD

INDIANA HARBOR, Ind., Sept. 11. (AP)—The bodies of two men and a woman who plunged into Lake Michigan with their autogyro Wednesday were recovered on the Indiana harbor shore today.

A wrist watch bearing the initials "C. T. O." bore witness that the bodies taken from the lake were those of Charles T. Otto, pilot, of Haverford, Pa.; H. W. "Spud" Manning, of Pico, Calif., world's champion parachute jumper, and Miss Majenta Gerard of River Forest, Ill.

The girl's body was borne in by the waves and discovered by workmen at the Youngstown Sheet and Tube company mills. Shortly afterward the bodies of the two aviators were seen floating off shore, and police and workmen recovered them.

The men were partly unclad, leading the police to believe they had tried to divest themselves of clothing and swim ashore after their autogyro, flying from South Bend to Chicago, dropped into the lake.

The 22 year old girl who accompanied Otto and Manning on the fatal flight was attired only in underclothing. She wore a diamond ring.

Jimmie Mattern Returns To Home

SAN ANGELO, Sept. 11 (AP)—Jimmie Mattern, round-the-world flier, came back home yesterday for his first visit since he completed his luckless circuit of the globe.

With the same whistles blowing which told San Angelo on July 5 that he had been brought back to civilization by Eskimos, he landed at the municipal airport here at 5 o'clock, with a crowd of several thousand West Texans to welcome him.

Pneumonia in Siberia, three weeks without food, coupled with a hard round of receptions had cut Mattern down until about the only thing that looked natural about him was his red hair and his sunny smile.

Mattern developed a deep cough last night and this morning physicians recommended that he be taken to a local hospital for several days rest and recuperation. He will be here the rest of the week.

Tech Freshman Plows For Ride Here To Enter School

Buster Graves, 200-pound freshman student from Plano, plowed two days for his ride to Lubbock to attend Texas Technological college.

Driver of a car Graves hailed at Richardson told the young man he could ride, but he must have "fare." Buster said he was "just out of fare." The farmer's counter-proposal was two days of plowing. After two days in the farmer's field near Plainview, Buster came to Lubbock Sunday. He will be a candidate for a guard position on Coach Del Morgan's freshman squad.

Texas Allotment On Pigs Boosted

WASHINGTON, Sept. 11 (AP) — Marvin Jones, representative from Texas, was advised today that plans had been worked out by the department of agriculture to increase by 10,000 the number of pigs allocated to the Fort Worth market in the government's slaughtering campaign.

Originally, the Fort Worth allocation was to have been virtually exhausted Saturday and numerous pig raisers had protested that they still had stock on hand, temporarily withheld from a market at the government's request.

Jones believed that the increased allocation would "take care of the Texas situation."

Houston, San Antonio and Dallas also are pig centers but, so far as could be learned, they had not asked for increased allotments.

Two Negroes Sentenced To Death For Brutal Slaying Of Dallas Girl

Blame Shifted In One Trial

rst Defendant Repudiates Confession And States His Brother Was To Blame For The Whole Affair

DALLAS, Sept. 11. (AP)—Thurman urkley, 18-year-old negro who eaded guilty to a murder charge r the brutal killing of Miss Kathyn Prince, was convicted and senced to death by a jury tonight. rlier in the day his brother, Bluit urkley, 19, was convicted of the me offense and given the death nalty.

Miss Prince was shot to death d her escort, Mace Carver, was tically wounded by two negroes o accosted them as they sat in automobile parked on a lonely untry road near Dallas the night August 30. Officers who found ss Prince's body in a cotton patch d she had been beaten and atked. Carver, left to die in a tch of woods, was found next rning and brought to a hospital, ere he is still in a serious condion.

Repudiates Confession

Officers obtained statements from h negroes in which they purtedly admitted shooting the uple. When Bluit Burkley was ought to trial today he repudiated confession, saying it was wrung m him after arresting officers reatened to open the doors of the l and turn him over to a mob of ry citizens.

Bluit Burkley also attempted to ft the entire blame for the crime on his brother. He swore Thurn Burkley killed Miss Prince and unded her escort. He claimed brother forced him to drive ir car to the point where Carver s shot and then to the field re the girl was abused and ed. Bluit pleaded not guilty to murder charge, while his ther pleaded guilty.

The negroes were closely guarded the packed courtroom as the ls proceeded rapidly today. wever, there were no demonstrans by spectators and the negroes re sent to their cells immediately er the verdicts were returned.

WALL STREET REPORT

By JOHN L. COOLEY
Associated Press Financial Writer

NEW YORK, Sept. 11 (AP)—Stocks and commodities advanced in more active trading today, departing from the slow downswing that had characterized last week's markets.

Fresh inspiration for the rise was given by a revival of inflationary sentiment, partly as a result of remarks on the subject attributed to a cabinet member. Wheat pushed up 4 cents a bushel in lively dealings and held three quarters of its rise. Stocks closed with gains of 1 to around 5 points, while cotton was up a dollar or slightly more per bale. In bonds, U. S. governments were strong and domestic corporation issues hardened.

On the stock exchange, buying for the rise seemed to be largely in professional hands. Group movements were especially noticeable in alcohol and motor shares, though the last half hour, which witnessed the day's best display, saw all divisions moving ahead. Sales totaled 1,910,920 shares.

"Wets" came back to active favor presumably on expectations that this week's balloting would add to the list of repeal states.

NEW ORLEANS REPORT

NEW ORLEANS, Sept. 11 (AP)—Cotton advanced smartly today in moderately active trading when stocks and wheat turned upward and new inflationary reports were circulated among traders. Continued hedging was easily absorbed and the close was 21 to 25 points net higher.

The opening was quiet and narrow although Liverpool cables were better than due. Manchester said the market there was quiet and featureless.

During the early afternoon prices reacted 2 points, but rallied sharply in late trading owing to strength of stocks and to inflationary talk. October advanced to 8.94 and December to 9.15, or 31 to 33 points above the close of Saturday. Prices eased 8 to 10 points at the end on realizing and some hedge selling. October closed at 8.88 up 25 points net, and December at 9.05, up 21 points net.

Liverpool is due on New Orleans tomorrow 6 to 7 penny points up.

Port receipts 42,547, for week 48,794, for season 849,338, last season 696,961. Exports 34,849, for week 49,793, for season 764,351, last season 733,580. Port stock 3,064,685, last year 3,308,348. Combined shipboard stock at New Orleans, Galveston and Houston 121,308, last year 82,836. Spot sales at southern markets 46,339, last year 36,308.

NEW YORK REPORT

NEW YORK, Sept. 11 (AP)—The cotton market closed barely steady today at net advances of 20 to 30 points after moving upward in sympathy with wheat final prices were 4 to 11 points off from the best.

Covering combined with a renewal of trade and commission house buying sent the price of December contracts up to 9.18 or 39 points above Saturday's closing quotations. That delivery closed at 9.09 or 9 points off from the best under realizing.

The opening was barely steady at a decline of 1 point to an advance of 3 points. There was considerable selling but offerings were soon absorbed due to renewed talk of inflationary possibilities, and a more favorable view of the statistical outlook. Buying was stimulated to some extent by the action of the grain and stock markets and prices reached the best levels of the day in the late trading. May sold at 9.61 with active months showing net gains of 28 to 33 points. A renewal of hedging in the last half hour checked the advance and brought out some realizing.

Reiterated reports concerning the prospects for continued control of cotton production next season helped the advance, while the relatively small offerings during the middle of the day were regarded as indicated an improvement in the technical position following the selling last week. The New York cotton exchange service has increased its estimate of last season's world's consumption to 14,405,000 bales and reduced its estimate of the carryover at the beginning of this season to 11,736,000 bales. Exports today 34,849 making 709,743 so far this season. U. S. port stocks 3,043,238.

Crop Forecast

the lowest September 1, condition on record.

By comparison with estimates a month ago, the greatest improvement shown was in grain sorghums, buckwheat and tobacco. Fruit prospects declined in August, because of storm damage in eastern apple orchards and in South Florida and Texas.

Exclusive of cotton, crop prospects improved about one per cent in August, but yields are expected to average nearly 7 per cent below those last year and approximately 10 per cent below 1931.

The first patented invention of the modern incubator was in 1647.

Grains

FORT WORTH REPORT

FORT WORTH, Sept. 11 (AP)—Fair demand for very light offerings was reported Monday as the new week started on the Fort Worth cash grain market.

Prices ranged as follows, basis car loads on track at Fort Worth, freight paid to destination:

Delivered Texas gulf ports, export rate, or Texas common points: wheat No. 1 hard 95-96; Barley No. 2 nominally 60-62; No. 3 nominally 59-60. Sorghums No. 2 milo per 100 pounds 1.25-1.30; No. 3 milo 1.20-1.25. No. 2 kaffir 1.13-1.15; No. 3 kaffir 1.11-1.13

Delivered Texas common points or group three: Corn No. 2 mixed 64 1-2@65. No. 2 white 68@68 1-2; No. 2 yellow 65@65 1-2.

Delivered Texas common points Oats No. 2 45-46; No. 3 red 44-45.

CHICAGO REPORT

CHICAGO, Sept. 11 (AP)—In the most active speculative buying witnessed for weeks, all grains kited toward the zenith today, wheat up a maximum of 4 1-8 cents a bushel.

Rumors of France going off the gold standard accompanied the upward flight of prices. Chiefly, however, traders found purchasing incentive in remarks credited to Secretary of Agriculture Wallace that the so-called commodity dollar appealed to Washington administration officials as the best if not the only means of controlled inflation, and suggesting that there might be a strong dose of inflation within the next three months.

Profit-taking led to something of a reaction in the late dealings, and wheat closed unsettled, 2 7-8@3 1-4 cents above Saturday's finish, corn 1 3-8@1 5-8 up, oats 1 3-8@1 3-4 advanced, and provisions varying from 15 cents decline to a rise of 10 cents.

Extortion Plot Against Oklahoman Confirmed; Intended Victim Wears Gun As Precaution Against Bandits

(Special To The Avalanche)

MARLOW, Sept. 11.—Wearing a pistol as a precaution, David M. Montgomery, jr., son of a pioneer physician prominent in south central Oklahoma, today confirmed a reported attempt to extort $5,000 from him.

Montgomery, manager of a Marlow clothing store owned by his father said he received a telephone message at the store August 30. A white man instructed him to prepare to pay the money within a week. The call was made from a Marlow phone, but its location was not determined, the young merchant said.

Whim Of Crank

Awaiting instructions, Montgomery received none. Decided the demand, to which he said no threat was attached, was the whim of a crank or a jokester, Montgomery nevertheless prepared to defend himself. A former member of the Marlow police department became his bodyguard, keeping him in view at the store, on the streets, and the golf course.

Arrival of the deadline last Wednesday night brought no further developments and none had occurred since, Montgomery said. He intimated he had no knowledge of possibility of a revengeful motive. Montgomery and his wife have no children.

Parents In Marlow

Montgomery's parents and a sister, Miss Mary Montgomery, live in Marlow. He said no attempt had been made to exact money from other members of the family here and none had been threatened, although a cousin, Randolph Montgomery, a Lawton banker, had been the central figure in a case similar to the one here. The Lawton man's mother, Mrs. Minnie Montgomery, also is a Marlow resident.

Dr. David M. Montgomery, sr., is reputed to be one of tht wealthiest men of Stephens county. He donated the money expended in erecting Montgomery hall, a dormitory at Oklahoma Baptist university at Shawnee, about six years ago. He is prominent in otner activities of the Baptist church.

Direct Action Being Planned Against Violators Of NRA Codes; Names Will Be Made Public In Communities

manufacturers and dealers "who represent an unjustifiable share of increased prices for cotton oods as due to the cotton processing tax are exposing themselves to prosecution."

Coordinate Programs

Peek and Johnson, who are old business associates, have been coordinating their programs as closely as possible, but there are no indication whether their present moves to obtain compliance with the spirit of the agreements by employers were planned jointly.

Johnson declined to elaborate with regard to his plans for proceeding against employers who avoid taking on more employes.

At the White House during the day President Roosevelt and his financial advisers canvassed carefully the credit situation of industry and agriculture, but no statement of results was made.

Credit Problem Studied

There were indications that Mr. Roosevelt was attempting to coordinate closely the policies of the agencies which control the billions of dollars of federal credit available so that the needs of the recovery program might be met. He has taken cognizance previously of the stringent credit situation which officials believe has prevented some business houses desirous of cooperating with the recovery administration from obtaining funds.

Still confident that a substandal agreement might be had from the disturbed mine operators, Johnson tomorrow will air their grievances over the code has drafted for the industry. Then, section by section he will take the charter up with spokesmen for the various fields in quest of an accord.

Strikes Threatening

However, it was said authoratively today the code would be completed before many more days and when another deadlock occurs in the rewriting, Johnson is prepared to dictate that section.

The threat of strikes by impatient miners was reported to be spurring ahead both operators and the administration.

Negotiation of union contracts between the operators and John L. Lewis, president of the United Mine Workers of America, was resumed today while William Feeney of Charleoroi, Pennsylvania, district president of the Lewis union, sent an appeal to Fayette and Green county miners to stay at work until the code was finished.

Employment Increased

The administrator today received reports of increased employment by the railroads, the interstate commerce commission announcing that on August 15, workers employed by the carriers totaled 1,014,879, the first time the million mark has been topped since October, 1932, when the total was 1,016,951.

At the direction of President Roosevelt, a check is to be made soon by cabinet officers and Johnson to determine the amount employment has increased as a result of the NRA program. Upon this showing was said to depend the next move in the anti-depression offensive.

Many complaints have reached the administration of employers shortening store hours, giving employers longer lunch hours, calling for voluntary contribution of hours to avoid employing additional help.

To Announce Names

Johnson is expected to announce soon a plan for making public the names of violators in each community as a lever of enforcement.

At a White House conference between President Roosevelt, Secretary Ickes and Johnson the oil situation was canvassed today, and amendments to strengthen the code now in effect were discussed. Ickes said as he departed that the price fixing provisions would be kept, but not utilized until "necessary." The amendments which were considered were not disclosed.

Luke Trammell Is Sentenced To 45 Years By Coleman Jury

COLEMAN, Sept. 11. (AP)—Luke Trammell, one of three brothers blamed for a West Texas crime wave in July, was sentenced to a total of 45 years imprisonment today by a jury which convicted him of robbery with firearms in two cases.

He was found guilty of robbing A. D. Baker, Glencove farmer, of an automobile July 4. He was given a 25-year sentence in this case and 20 years in another, to which he pleaded guilty.

Dave Trammell, a brother of the defendant, was believed to be at large in this section. Dic Trammell, the third brother, was killed on the Abilene highway several weeks ago by a posse which captured Luke Trammell.

Renewal Of Inflation Talk Sends Stock Prices Higher

NEW YORK, Sept. 11. (AP) — Renewal of inflation talk in Wall Street circles today brought stock rises of from 2 to 10 points. Commodities also were higher, wheat going up more than three cents a bushel. Trading was active in all quarters.

Alcohol stocks were prominent in the upswing, led by National Distillers, which was up more than 11 points at one stage. Rails participated in the improvement, registering gains of from 1 to 3 points in some cases.

United States Steel and other leaders were strong. Chrysler motors struck a new high, going above 48.

Mae West Gives Some Advice On How To Succeed

HOLLYWOOD, Sept. 11 (NEA)—Mae West, that winsome and buxom lady with the tantalizing air, has gone in for giving a little advice.

Here's Mae's advice on how to hold your man:

1—Be patient.
2—Give him plenty of love.
3—If he likes garlic, let him eat garlic.
4—Don't domineer him.
5—Praise him when people are around.
6—Look beautiful at the breakfast table.
7—Tell him you love him, often and loud.

And here are her ideas of how to be "a lady":

1—Even if you aren't a lady, act like one.
2—Don't attract attention by being boisterous.
3—If you must drink, don't get pie-eyed.
4—Don't eye other men when you're with an escort.
5—Don't rave about yourself.
6—Act your age.

Beer Election Not Protested

Littlefield Merchants Plan Applications To Sell Beer While Drys Remain Silent On Protest Plans

(Special To The Avalanche)

LITTLEFIELD, Sept. 11.—While eight or more merchants here today were planning applications to sell beer, drys, defeated in Saturday's local option election, had made public no plan to contest the election as their leaders had announced.

Commissioners court, at Olton, today canvassed the returns. After reporting the wets won 214 to 117, or by a majority of 97 votes, the court entered into its minutes a statement simply saying the election carried in favor of the sale of beer. T. Wade Potter, a Littlefield attorney, said he understood there was no protest at the court's meeting.

No Applications

Although in other Texas sections where beer has been legalized, sales will be permitted starting Friday beer cannot be sold legally here until Monday. No applications had been filed today. After filing, five days must elapse before a hearing by the county judge to determine whether the license shall be issued. Since the brew cannot be sold on Sunday, Monday may be the first day of open sale.

J. T. (Jess) Elms, banker who headed the dry forces, was out of town tonight, as were Rev. Joe Grizzle, Baptist minister, and Rev. P. H. Gates, Methodist minister. Mr. Gates, this morning, said he knew of no plans to contest the election. Another man identified as a dry suggested that any information on the reported contest be obtained from one of these three men.

Mr. Elms, after the election Saturday night, said "we will seek a court injunction to restrain the issuance of licenses for the sale of beer."

Mr. Potter, who said he supported the sale of beer, said he knew of preparation of several applications to sell the brew.

Sudan will vote on the sale of 3.2 beer Wednesday.

Gas Prices

(Continued from Page One)

kerosene was quoted at 3 3-4 cents and 42-44 at 3 7-8 cents a gallon. Furnace oil of 38-40 gravity was quoted at 3 1-4 cents, and 36.0 gas oil at 3 1-8 cents

English Gentleman Is Fined For Kissing Girl On Train

EPSOM, ENGLAND, Sept. 11. (AP)—Sir Leo Chiozza Money, fellow of the Royal Statistical society, fellow of the Royal Geographical society, eminent economist and former member of parliament, was fined £2 10s today for annoying a young lady by kissing her.. At current exchange £2 10s is about $11.25.

Sir Leo said he would appeal, and departed from the police court. Outside a crowd received him with hoots and boos. Police protected him.

The complaint, Miss Ivy Ruxton, testified that the kissing occurred a month ago in a compartment of a southern railway car.

Wheat Allotment Deadline Is Set For September 25

WASHINGTON, Sept. 11. (AP)—A September 25 deadline was set today by the agricultural adjustment administration for receiving applications for wheat-allotment contracts in the effort to reduce the 1934 production.

In making the announcement, Chester C. Davis, director of production, said preliminary reports showed more than 100,000 had signed up in nine states and that favorable progress had been reported in more than a score of others.

Federal Regulations Given For Duck Hunting In Texas

AUSTIN, Sept. 11. (AP)—W. J. Tucker, state game, fish and oyster commissioner, today received federal regulations for duck hunting from Secretary Wallace of the agriculture department.

The same season as prevailed last year with reference to duck shooting will obtain, but the number of ducks a hunter can kill in a single day was reduced from 15 to 12.

Duck shooting will be permissible in the north zone during November and December and in the south zone from November 16 until January 15.

Total valuation of property in Utah for assessment purposes was decreased more than $48,000,000 or 8.4 per cent for 1933.

THE RETURN OF TARZAN, No. 26

By Edgar Rice Burroughs

Tantor, the elephant, was yet six or eight paces behind his prey. As from the heavens, a sinewy white warrior dropped almost directly in his path. With a vicious lunge he swerved to dispose of this new foeman. But he had not reckoned with the lightning quickness of Tarzan's steel muscles.

And so it happened that before the elephant realized that his new enemy had leaped from his path, Tarzan had driven his iron-shod spear from behind his massive shoulder, straight into that fierce heart. And with such marvelous swiftness that the colossal pachyderm toppled to his death at the very feet of the ape-man.

Then Tarzan leaped upon the carcass of his mighty kill and gave vent to his weird cry of victory. The old chief and the warriors gathered about him, their admiration mixed with a certain awe. For they attributed supernatural powers to this man who fearlessly fought with Numa, the lion and Tantor, the elephant.

Nor could they understand this strange creature who ran through the trees as quickly as Mana, the monkey. The hunt after the retreating herd once more began when, behind them, faintly sounded a strange popping. "Guns! . . . guns," cried the chief, "the Arab raiders have returned for our ivory and our women!"

United States Is Awaiting Developments Over Islan

New Ruler To Be Recognized

Informal Assurance Of Recognition Given; Proof Must Be Given Of Ability Before Action Will Come

WASHINGTON, Sept. 11. (AP)—Relaxing into an attitude officially described as watchful waiting, the United States today gave informal assurance that Cuba's fourth regime in as many weeks would be recognized formally if it could pass the high test of stable government.

From both President Roosevelt and his chief diplomat, Secretary Hull, came intimations that recognition by this country depended directly upon whether the government headed by Dr. Ramon Grau San Martin gained the support of the Cuban people and could demonstrate its ability to protect life and property and meet its obligations.

Await Developments

The administration thus apparently sat back to await developments. But with its ring of warships still drawn around the island and with troops prepared for instant movement should American life and property be considered threatened.

Tension at the state department had let down but was not absent. Diplomatic officials kept in almost constant touch with island developments. Early reports were that conditions generally remained quiet, save for what were termed sporadic instances of agitation and disorder.

Ambassador Welles prepared to remain at his Havana post indefinitely should there be need. Secretary Hull said Welles was continuing for the present at least, under what he described as a tacit understanding. He indicated there was little likelihood Welles would return to this country on September 15, as originally planned.

The new revolutionary government during the day put out its first feeler toward setting up diplomatic relations with the United States. The acting counselor of the Cuban embassy here brought to the state department a message from the new regime saying the name of the new secretary of state would be forwarded as quickly as possible.

At the White House, meanwhile, protest against the presence of American warships in Cuban waters and against any step hinting at intervention was made by William Simons, national secretary of the anti-imperialist league of the United States.

Louis M. Howe, secretary to the president, received Simons, telling him the United States had no intention of intervening in Cuba and that naval vessels were there only to protect American life and property if need be.

Use Of Local Men Is Asked

Lubbock County Farmers Who Are In Need Of Laborers To Aid In Gathering Crops Are Urged To Cooperate

Lubbock county farmers who are in need of help for picking cotton or gathering row crops, are asked by the state welfare board to use local men, W. E. Inmon, manager of the local board, said late yesterday.

The Lubbock County Board of Welfare and Employment stands ready and willing to cooperate with farmers in securing needed men. "Give us a little time, a day or two, and we can secure any number of men for almost any kind of a job," he added.

"We urge farmers to give preference to local men," said Mr. Inmon. "There are enough unemployed men in Lubbock county to gather the crop, without going outside the county for men. I think it is right that our own men in the county should be given preference.

"We urge farmers to call at our office, 1312 Avenue G, where we have a long list of men who need work. We can get in touch with them within a short time."

There are about 1,200 men on the relief rolls, Mr. Inmon added. In addition there are about 600 men registered for the public works program. Within a short time this program is expected to start on the Idalou highway between Lubbock and Idalou.

Majority Of 112,000 Votes Given Pro Repeal In Texas

AUSTIN, Sept. 11 (AP)—Texas voted a majority of about 112,000 for repeal of national prohibition, according to unofficial figures compiled in the secretary of state's office today, as the official canvassing board reviewed the returns.

There were a little more than 500,000 votes marked in the special election of August 26, when repeal of the eighteenth amendment and four amendments to the state constitution were submitted.

The proposal to issue $20,000,000 in bonds for unemployment relief was given the largest majority of any proposition. It went over by a majority of 161,000. The proposal to legalize the manufacture and sale of 3.2 per cent beer was favored by a majority of 129,000 votes.

Daredevil Being Sought In River

NEW YORK, Sept. 11 (AP)—The Hudson river was searched today for Dan Carone, who died in a stunt leap from the George Washington bridge.

Carone, a beer parlor owner in Mt. Vernon, N. Y., by profession and a daredevil by choice, stripped off his clothes yesterday on the great span, 250 feet above the water. He tossed his clothes gaily down toward friends waiting in a boat and, clad in a bathing suit, jumped.

His body shot down, head foremost. Then it somersaulted and he struck the water flat on his back. Observers believe his spine was broken.

He had previously made leaps from Brooklyn bridge and London bridge—just for fun.
