HEAVY SNOWFALL PROVIDES NEEDED MOISTURE IN AREA

Fooling everybody, including the weathermen, old man winter took another solid whack at Texas yesterday and hung up a new record, at least for three decades, with a March snow in this section.

And it wasn't just a flurry, it was a whopping snow which, in spite of a warm ground and a not too low temperature, piled up around five inches of snow in a frenzied fall starting before daylight and intensifying in the later morning and continuing without letup until shortly after the noon hour.

The snow was a wet one, too, which was all to the good of a parched West Texas, without moisture of any consequence since late last summer. The snow was melting as it fell most of the day and the warm ground gave assurance that it will not long lie on the ground but will melt to go into the thirsty soil to bring up green feed on West Texas ranges and possibly bring to a halt heavy feeding of livestock which is under way throughout this area.

Temperature early Wednesday morning was around 28 degrees and later warmed up to around freezing and a little above. Although some newborn lambs and freshly shorn goats may suffer from the cold and moisture, the snow's benefits to a drouth stricken livestock industry will far outweigh these losses.

Laymen's Revival Services Slated At First Baptist Church

All of the major details are in order for the Layman's Revival set for April 6-8 at Baptist Church, Gordon Aikman, Brotherhood president, reported this week. Three local men will speak at each of the evening services. Dr. Raymond Cavness, president of San Angelo Junior College, will bring the message at the Sunday morning service. The theme for the three-day meeting will be "Laymen Laboring for the Lord." Each evening, there will be an approach from the standpoint of a man's work, his home, and his church.

This meeting is the realization of several years work. Harry Trulove, pastor added. Definite plans were formulated immediately after the very successful Layman Day meeting last October.

The complete project has been the responsibility of the laymen. Plans were made by the executive committee of the Brotherhood. This committee is composed of Gordon Aikman, Jim Donhan, Buster Loudamy, Ted Lewis, Bob Turner, George Glynn, W. C. Smith and C. O. Poindexter. Each service will be led by the laymen as they assume the responsibility for the music and the message.

The recorder purchase was financed by receipts from the Birthday Calendar sales last fall.

Annual Lions Club Broom Sale Slated For Next Thursday

Items Made By Blind To Be Offered In All-Day Sale Here

The Ozona Lions Club will stage its annual broom sale for the Light House for the Blind in Ozona next Thursday with plans being laid for a house-to-house coverage of the city.

Lion President Woody Mason urged Ozona housewives to make plans now to purchase brooms, mops, door mats, and a number of oher household articles manufactured by Texas blind.

The Light House for the blind provides jobs for the blind and Texas Lions Clubs in turn provide a market for the products which enable the blind person to earn his own living at a worthwhile job and at the same time the project gives Texas Lions Club a fund raising activity.

Plans call for the town to be divided into districts with Lion members being divided into teams which will in turn be assigned these districts for canvassing next Thursday.

The business district will be covered during the day with the house-to-house campaign getting under way after 4 p. m. and running to around 7 or 8 p. m.

"The products for sale are of top quality at reasonable prices. Many customers over the town have been buying these items for years, and they have always felt they got quality for the price paid," stated one veteran of a number of the Lions drives in recent years.

Volleyball Team Faces Decider In Big Lake Meeting

Reagan Girls Coming Here For Crucial Game Fri. Night

By Ernie Boyd

The Ozona High School girls volvelball team chalked up its third district win over the Sonora team in Sonora last Thursday. Then Tuesday someone got their signals crossed and Iraan and Ozona each waited at their own gymns for the other team to appear, resulting in no contest.

The Ozona team will face one of its biggest hurdles in a number of years in district play Friday when they entertain the Big Lake team in a crucial district contest.

The Big Lake girls won a narrow decision over the Ozona girls in the Big Springs tourney, but since then the young Ozona team has improved and has also gotten help from the basketball team in the form of two of last year's regulars.

A loss to Big Lake Friday night would be serious since in the double round robin of play the next Big Lake game would be in Big Lake and neither team is likely to lose to any other team in the district if they play near their ability.

The Sonora contest was decided in two games without the third being played as were the other two district wins setting the stage for a possible decision in the district race in the Friday night contest. A B game is slated for 6:30 with the A game set for 8 p. m.

You Get Headlines That Way —

The good doctor may have said something worthwhile in his talk to a "near capacity" audience at the First Methodist Church in San Angelo Sunday night, but an attack on the conservatives in the John Birch Society, a reference to "extremists" and a negative sort of statement about communists in the Methodist church was enough to get front page headlines in San Angelo's morning daily Monday for Dr. Douglas Jackson, a professor in the Perkins School of Theology at SMU.

"In a question session after his talk," the reporter wrote, "Dr. Jackson said he believes the only thing the John Birch Society accomplishes is to pay its founder a high salary, about $2 million a year." (This statement was denied in a back page, second section, story in the following days' paper.)

We don't know what the founder of the Birch Society makes a year, but then we're not a professor of Christian Social Ethics at Perkins School of Theology. But if, as the good doctor says, he makes two million dollars a year, the United States treasury is geting about 91 percent of it, which is 1,782,480, and which, of course, still leaves a neat little sum — but not two million dolars.

We don't know, again, what the John Birch Society is acomplishing, not being a member of it, nor yet a professor of Christian Social Ethics, etc. And we are not particularly concerned about what the John Birch Society, as such, is accomplishing.

We are, however, deeply concerned that the conservative, anti-socialist, anti-communist, anti-one world, anti-big government, philosophy of the individuals who are members of the society is expanded and expounded by whatever means these people may find available. Of all them we have known of, most are good, solid, successful business men, professional men, ranchers etc — all just good citizens, dedicated to the preservation of the system under which the United States has become the greatest nation on earth, with the greatest degree of individual freedom and opportunity and the highest living standards the world has ever witnessed. And they are that not because they are John Birchers but because they are patriotic Americans. And we believe in that cause whether the founder of the John Birch Society makes two million or ten million dollars a year.

Dr. Jackson made the black headlines with the statement that "not one complaint that a Methodist layman or minister is Communist has been made to the bishop of the Methodist church since he asked that any such complaints be made to him." Come to think of it we haven't complained to the ADA, nor the CIO-AFL lately.

It's not the card-carrying communist who is our greatest present danger. It is those in places of trust who contribute to the communist campaign of ridicule for everything patriotic, those who give them expression and those who headline and front-page them. They are the Kremlin's lackies who will dig and then pull the grave in on themselves and us.

THOUGHTFULNESS MOLDS CHARACTER

By Pam Perner

Thoughtfulness in important things is not unusual; however, in little incidents of life it is a rare quality. Our lives are made up of little things, and by these our character is tested. Little duties that are carefully discharged, such as remembering to congratulate a friend on having a birthday or making an A in English, are the things that help form our character.

Being thoughtful of others is much easier said than done: however, if we can remember one thing it will help. Do for others, deeds which you would like done for you.

The worth of any action depends upon its motive. Our conscience knows no such words are "large" or "small", but two words, "right and wrong". The least act of thoughtfulness of other prepares us to establish this trait as a part of our character. To have a sense of value and to be honest makes a person worthy of being a friend.

THE LINES MAKE THE COLUMN

There was no school last Friday, but there was no time off for the juniors who worked 2 days preparing the banquet for the privileged seniors. It seems that no one wanted to get the grass for decorating. I wonder why?

Saturday, the boys won third in the track meet, losing out to Eldorado and Junction. Phillip Carnes was outstanding individual at the track meet. Congratulations!

The volleyball team will play their fourth district game here Friday night with Big Lake, their biggest rival. So far, our team has an undefeated record in district plays, so let's all be there to support them!

Patty Henry, one of our juniors, left Ozona for Kingfisher, Oklahoma where she will live. We will surely miss her.

Over the weekend, many went to the San Angelo stock show and rodeo.

Pierce Miller, Reid Holmsley, Mary Lou Zunker, and Roy Neil Killingsworth were among the exes home this weekend.

More than $50,000 in deposits poured into the vaults of the Ozona National Bank Wednesday on the first day of the bank's opening following the ten-day banking holiday proclaimed by the federal government. New Texas Highway Map Now Available; 'See Texas' Is Theme

Austin, Texas — The pioneering Texas Highway Department — originator of a proposal to standardize symbols on state maps for easier understanding by motorists — features some of the new symbols on its 1962 Official Highway Travel Map.

A four-color beauty with "See Texas" as its theme, the new map is now available free to the public.

In 1956, Texas recommended that a standard set of symbols be adopted for use on all state maps — to make the maps easier to read for motorists crossing from one state into another. This proposal was eventually adopted by the American Association of State Highway Officials and within the next few years all official state highway maps will be using these accepted standard symbols. When this standardization is effected, none of the road symbols should be "foreign" to a motorist traveling anywhere in the United States.

Multilane - divided highway miles now completed and shown on the new map total 2,131 miles. They include the finished sections of the seven National Systems of Interstate and Defense Highways throughout Texas.

This year's map has more than 698 Farm to Market and Ranch to Market road miles added. Approximately 20,848 miles of the state's more than 33,000-mile Farm to Market road system now under maintenance are shown on the map. So are the 26,921 miles of Interstate, U. S. and State highways.

The 1962 map has a map-on-a-map feature on its colorful reverse side. This is a caricature map that plays up "Things to Do. . . Places to Go . . . Things to See . . . in Texas!"

A section underneath the caricature map tells about the vacation activities in Texas that are "as varied as the landscape of the Lone Star State itself." In another section, entitled "Good Highways: A Texas Tradition, "the map reader is told about the state's" vast 62,000 - mile highway network which offers the maximum in safety, comfort, and convenience for all types of motor travel.

Texas — in all its panoramic grandeur — is illustrated in eleven full - color photographs of scenes the motorist may view from his car window as he travels on the more than 62,000 miles of the Texas Highway System "engineered for safety, comfort, and pleasure." These pictures were selected to get a geographical cross section of the Lone Star State, and they depict the different types of highways and special traffic facilities offered motorists by the Texas Highway Department.

The 4 that goes around acting like a V-8...Tempest!

Used to be that people swore by V-8's and V-8's alone. And then along came Tempest's spunky 4 to steal their thunder. The hottest version* of this 4 (166 hp) puts out more horsepower than any other production 4 in the world. More torque, too. And every version, standard 110 hp on up, is smooth and silent and effortless. About the only thing Tempest doesn't share with the big boys is its appetite for gasoline and spare parts. Try a drive in a Tempest 4 soon, hear? You might as well save while you're swinging! Pontiac Tempest

Crockett Sent 44 To Prison In 40 Years

Huntsville — During the 40 year period from 1920 through 1959 a total of 109,949 individuals were committed to the Texas Prison System, according to a study of crime in Texas, recently completed by Dr. R. C. Koeninger, director of the Department of Sociology, Sam Houston State Teachers College, Huntsville.

The study was made by Dr. Koeninger, a sociologist and criminologist, to show the trends in prison committments for the State and for each county in Texas.

Crockett county committed 44 persons to the prison during the period studied, and ranks 227 in the state for the number of persons committed during the 40 year period.

The annual meeting of the Ozona Cemetery Association was held Monday. Mrs. J. C. Montgomery of Fort Stockton was re-elected chairman, and Miss Leta Powell of Ozona, secretary-treasurer.

Garden Reminders

From Garden Club Reporter

Ozona citizens are being urged by the Ozona Garden Club to beautify around their homes and business buildings.

March 19-24 is Texas Garden Club Week. Members of the Ozona Garden Club are cooperating in the program and are suggesting that thiss is a good time to take inventory of their home or business premises with a view to a good clean-up and beautification program.

The Ozona Garden Club was organized in 1955 and adopted the creed: "I believe in trees, God's first temple; grass instead of ash heaps and tin cans; and flowers instead of weeds, and

"Whereas, it chose to promote City Beautification and Community Pride through its course of study and many projects, and

"Whereas, its organization is endeavoring to interest more people in its objectives, the club would, therefore, ask the citizens of Ozona to cooperate with them by renewing their interest and their efforts in gardening, recognize their responsibility in community improvements and that they take inventory of their home grounds, streets and alleys and organize a definite plan to achieve within this year at least one improvement that will contribute to a more attractive, more livable and more useful community."

"Meet a friend of mine who- owns a share of my company!"

...He's an investor

This friend of mine is a pretty good auto mechanic. He worked hard and saved some money. He wanted to invest his money in a privately-owned company. Lucky for me he picked my company. He bought some shares of stock. So this friend became one of the thousands of people who own my company. AND THIS IS WHAT WE MEAN WHEN WE SAY — "We are an investor-owned company."
