5 Records Fall

Junior Wolves Win Freshmen, 8th Grade Claim Trophies

The Junior Lone Wolf Relays concluded Friday afternoon with both Colorado City teams, 8th and 9th, winning first place and both home mile relay teams setting new records.

The Freshman team earned a team total of 93 1/2 points with the relay team of David Ornelas, Danny Torrez, Ed Adams

and Blake Hammond breaking the old mark of 3:50.8 set by Slaton in 1974. Their new record is 3:47.1.

The Eighth grade team total was 236 points as they garnered most of the points in the five-team field. A new mark in the mile relay was set by Selvera, Franco, Rudy Gar-

cia and Ruben Garcia at 2:42.9, breaking the old record of 2:44.0 set last year by the C-City team of Selvera, Adams, Ornelas and Sanchez.

Other Freshman Wolves setting new records include Blake Hammond's new mark in the 880-yard dash, breaking the old record set by Valdez of Slaton

in 1972 of 2:10.9. Hammond's time was 2:09.1. Adams also set a new 16.1 record in the 120-yard High Hurdles. The old record was set by Smith of Slaton in 1972, 17.1.

A new record was also set by Hamlin's Lee in the 100-yard dash, timed at 10.3, bettering the time set by Maines

of Colorado City in 1969, 10.6. Freshman team totals were as follows:

--Colorado City, 93 1/2 for First place.
--Hamlin, 87, second.
--Sweetwater, 86 1/2, third.
--Slaton, 86, fourth.
--Ballinger, 79, fifth.
--Merkel, 64, sixth.
Eighth grade team totals were as follows:

Marijuana Plants Found By Police

Two Colorado City men, Ronnie Claxton and Robert Bell, were arrested Tuesday night by Colorado City policemen and have been taken to Snyder on charges of burglary.

Bell was also charged with misdemeanor possession of marijuana, under four ounces. When city policemen L. C. Devore, Jerry Cowin and Wendell Bryant made the arrests and recovered about \$1,600 worth of stolen merchandise, they also found 32 thriving marijuana plants in a couple of planters used to start garden seedlings. The plants allegedly belonged to Bell.

Colorado City Police Chief Jesse Browning said Patrolmen Jerel Lynch and Roy Calhoun learned of burglaries from cars parked at Western Texas College in Snyder while they were attending classes at the college Tuesday night. Among items reported missing were chrome wheels and tires which they remembered seeing on a car in Colorado City earlier that afternoon.

When they returned to the city from their college classes, they reported to the police station and the three men on night duty made the arrests and recovered the stolen items.

Recovered were two CB radios and an antenna reported stolen from Big Spring residences, a stereo, two 8-track players and two speakers, a CB radio, 28 tapes, a CB antenna and the wheels and tires, all reported stolen from cars parked at the Snyder college.

Both Claxton and Bell have been charged with burglary in Snyder and Big Spring, with Bell facing the additional misdemeanor charge here.

Running & Field Events

The Junior Lone Wolf Relays were held in Colorado City Friday afternoon despite cold, gusty winds. Both Colorado City teams, 8th and 9th grade trackmen, won their divisions and the important running events, both mile relay teams setting new meet records.

Perry's Set To Open

Craig Meglasson, Verna McGee and Doris Graham, from left, are three of the nine local employees of Perry's who are ready for the Monday opening of the new business location in Colorado City in the old Berman Building.

Meglasson is store manager, having moved here recently with his family. They are standing by the candle and flower display, part of the Arts and Crafts Department of the store.

Perry's To Open Here Tomorrow

Monday's opening of Perry's in Colorado City will be the latest expansion of the Perry Brothers Company which began back in 1914 with their first acquisition of a 25 x 70-foot store in Center, Texas.

Renovation of the Berman Building has been underway since the latter part of January and has been extensive, including

an almost completely new interior and exterior.

The outside of the building looks quite different as the east side windows have been closed off with gray-painted plywood, a new awning will go up over the main south entrance and beige-colored siding has been installed where the old shiny black siding was falling apart. A

new sign, Perry's in big red letters, has also gone up.

The interior contains about 7,200 square feet of floor space, is completely carpeted and has a new heating-air conditioning system and lowered ceilings with new lighting. Also, the entire furnishings of the store.

"Night Watch" Opens

Curtain Time 8 p.m. Tues.-Sat.

The mystery-suspense thriller, "Night Watch," opens Tuesday night at the Opera House, curtain time, 8 p.m.

Preceding the play's opening, a dinner has been planned at the Civic Center. Only a limited number of tickets to the opening night dinner-theatre are available at \$7 each, but there are still seats available for the Wednesday through Saturday performances at \$2.

Tickets may be reserved by phoning or going by the Opera House box office, 728-3491.

"Night Watch," written by Lucille Fletcher, who also wrote "Sorry Wrong Number" and "Dial M For Murder," stars Bobbie Steakley and Kent Womack as the Wheelers, ordinary people who are caught up in a chilling suspense drama when Elaine Wheeler sees the body of a dead man from the window of her Manhattan townhouse.

The mystery and suspense bu-

ild toward a climax, with other members of the cast adding their sinister notes.

The complete cast includes: --Elaine Wheeler, Bobbie Steakley.

--John Wheeler, Kent Womack.

--Helga, Martha Bisnette.

--Vanelli, Ken Love.

--Curtis Appleby, Don Delaney.

--Blanche Cooke, Ann Morgan.

--Lt. Walker, Mel Palmer.

--Dr. Tracey Lake, Rochelle Smith.

--Sam Hoke, Tandy Curlee.

"Night Watch" Scene

A scene from rehearsal of the Playhouse production of "Night Watch" shows Don Delaney, center, in the part of Curtis Appleby, a neighbor of the Wheelers, played by Bobbie Steakley and Kent Womack. The play, directed by

Gwen Wistrand, opens Tuesday and plays each night at the Opera House through Saturday. Box office at the Opera House will be open from 1-5 p.m. each day this week. Tickets are \$2 each and reservations must be made.

Teachers CPR Course

Teachers in Colorado City schools will have a scheduled work-day Monday as students get a holiday after taking their nine-week tests during the past week.

Teachers will put the time to good use as they update their records and also take a special training course under the direction of Keith Hill, Respiratory Therapist at Root Memorial Hospital.

The CPR (Coronary-Pulmonary-Resuscitation) course is being sponsored by Mitchell County chapter of the American Heart Association and arrangements were made by Mrs. Fern Brown, chapter president.

The CPR training schedule is as follows:

--8:30-11:30 a.m., High School cafeteria session for high school and junior high teachers.

--12:30-3:30 p.m., Kelley Cafeteria session for elementary teachers.

Used during the training sessions is the "Res-Aid" dummy which has gauges and dials indicating pressure applied to the chest and respiratory system.

Not Garden Bound

Colorado City Police Chief Jesse Browning shows the 32 marijuana plants which were recovered by city policemen last week, along with about \$1,600 in stolen merchandise from Snyder and Big Spring. Charges have been filed in Big Spring and Snyder in the burglaries and misdemeanor charges of possession of marijuana filed here.

Show's Goal \$2,500

Funds Will Go To Pay Off Bus Note

A "Pay Off the Bus" campaign is underway by persons interested in helping Woodland School pay off the note on their bus and a goal of \$2,500 has been set.

In order to raise the money and have some fun at the same time, Campaign Chairman Eddie Swinney says that a Musical Benefit Show will be held in the

Civic Center from 8-10 p.m. Monday, March 24.

Entertainment will be provided by the Country Corporation, a Colorado City based Nashville group, along with the CBS Stage Band and a professional comedian acting as Master of Ceremonies.

Contributions will be solicited during the program and Woodland teacher Janie Rodriguez will be in charge of "raising the temperature" on a gigantic thermometer to show the amount of contributions as they come in.

Swinney, preacher at Northside Church of Christ where the Woodland School is located and a volunteer worker with the school, says that phones in the Civic Center office and the adjacent Chamber of Commerce office will be manned during the "telethon" type entertainment so that persons wishing to phone in their contributions may do so. The local cable television channel will be used to inform persons watching as contributions mount.

Tickets to the live performance are now on sale at \$1 each from members of the TARS (Teens Aid the Retarded). Swinney said that a note for \$5,000 was taken out about six

months ago to pay for the bus and about half has been paid. Funds raised during the Musical Benefit Show will go to pay off the note and any left over will go to purchase playground equipment for the school.

Additions To Bank Advisors

Election of three new advisory directors to the Board of Directors of the City National Bank of Colorado City was announced by Charles C. Thompson, Board Chairman and President.

The newly elected advisory directors are Mrs. Charles C. Thompson, Mrs. George O. Witten and George Womack, all of Colorado City.

"Election of these new directors should be very helpful to the board in conducting policies of the bank," said Chairman Thompson in announcing the action.

"All three have considerable background in the bank and we are happy to welcome them to the board," Thompson said.

Town Talk

By MAC McKINNON

Out of the minds of politicians come the weirdest ideas.

Can you imagine anybody considering cutting Texas -- OUR TEXAS -- into five separate states? Now that's just about the most ridiculous idea I've ever heard. The state legislature is actually considering such a proposal.

It would seem that the state legislature and others in state government would learn by examples set by the Railroad Commission and Insurance Commission that state agencies such as this are a farce. You can blame those commissions for the high costs of natural gas and insurance.

So why should the state consider creating another monster, such as a utilities commission? The answer to that is, of course, that they shouldn't be. Such a commission could only regulate rates and couldn't prevent any of the alleged scandals in the telephone company. They haven't worked in other states, either.

Too much control has already been taken away from local officials. We can deal much better with utility companies on an individual basis as long as they have to come to local governmental agencies to seek rate changes. Local complaints can be handled at that time. If utility companies have to go only to the state, they don't have to answer to the local customers.

This applies to comments I heard Ronald Reagan make Thursday on the Tonight Show. He pointed out that people are looking to the government for answers and solutions to problems and expecting too much out of government. The answers to current problems are with the individual.

Government has gotten too big, spends too much and Congress actually has little control, Reagan pointed out. Deficit spending is not the answer as it only adds to the fires of inflation, Reagan said.

It's my feeling that the government has too many irons in the fire, irons that could and should be solved by capital enterprise -- our system. Our system is rapidly changing to socialism, as the initiative of the individual is being hampered and limited. THERE'S TOO MUCH GOVERNMENT.

Why should the government bail out companies such as aircraft manufacturers, railroads and airlines that are having financial trouble? If these companies fail, it is of their own doing and let them bail themselves out or else sell out. If they fold, there will be someone willing to take over and operate the business.

There was encouraging word from Washington Friday as the Senate finance committee dropped the matter of ending the oil depletion allowance. However, there is expected to be a Senate floor fight over the matter. Hopefully, enough Senators will realize that the allowance is needed in order to help solve the energy problem.

If Congress wants to pass something to help our country, how about a bill keeping the Russian fishing fleet a long way from our shores and away from fish that the United States depends on for food and that our fishermen depend on for a living?

ATTENTION Gardeners:

Did You Know?
MICRO-MIN
Is Strictly Organic!

It Contains No Man Made Chemicals!

MICRO-MIN does a good job in all types of gradening...fruits, vegetables, grass, flowers, shade trees, shrubs or house plants. Whether you are interested in hundreds of acres or just in the beautification of your home, or getting better tasting and more healthful vegetables out of your garden... MICRO-MIN does a good job on such a wide variety of endeavors because it does one basic thing, it helps build healthy soil so that you can have healthy plants growing in that soil, and for the best results you can't beat healthy plants growing from healthy soil.

ORCHARDS: Sprinkle MICRO-MIN over the area covered by the farthest edges of the branches. This will probably require 10 to 15 pounds per tree. A good rule of thumb is 1 lb. Micro-Min per inch of trunk size of tree. You should see quite an improvement on the yield and quality of the fruit because of healthier soil. It goes without saying that we do not approve of spraying fruit trees. Users have also told us that they find far less worms in fruit when they use MICRO-MIN. Try MICRO-MIN and enjoy the natural goodness of naturally growing fruit.

MICRO-MIN is a natural material believed to be millions of years old. According to the belief of our scientific staff it is a material composed of essential trace elements plus millions of bacteria. The trace elements, we are realizing more and more, play a major role in the health growth of plants, animals and human beings. The bacteria are in the soil. They transform food in the soil into a form that can be readily used by the plant; then make it available, as needed to the food roots. MICRO-MIN also reactivates the bacteria in the soil very vital to growth. MICRO-MIN is non-toxic; will not burn plants, when used as directed, or harm humans or animals.

MSWCD Makes County Awards Nominations

Mitchell Soil and Water Conservation District nominations in the 30th Texas Conservation Awards Program were recently

announced by Jimmy Harrison, Mitchell SWCD chairman. Nominations include:
- Anastacio Alvarez, Outstanding Conservation Farmer-Rancher.
- Troy Powell, Outstanding Absentee Conservation Farmer-Rancher.

★ Talk From Page 1

The controversy about the county schools superintendent office is still not over, apparently.

Rep. Wayne Peveeto of Orange has introduced a bill that would abolish the county superintendent post, effective at the end of 1978.

Olson Sweet, unsuccessful candidate this past year for the local county superintendent office, recently returned from Austin where he was told that the county school superintendent office takes away \$10.56 from every student in Mitchell County schools.

However, that figure is debatable, according to local school officials, as they say local school districts are receiving all the money from the state that is possible. State aid is based on school costs.

Recent articles in the Abilene and San Angelo papers have irritated local residents.

In a report on a hearing in Austin regarding a proposed branch office here for Sweetwater Savings & Loan, a Snyder man was quoted making several disparaging remarks about Colorado City.

The stories said, "Many buildings in the downtown (Colorado City) area are vacant and closed up, Martin Brooks of Snyder, president of the West Texas State Bank said.

"Brooks said due to the declining economy of Mitchell County, he could foresee 'no astronomical increase in savings accounts in the near future to justify the proposed \$650,000 in deposits the Sweetwater Savings and Loan has projected for a branch in Colorado City.'"

I talked to Brooks about his remarks and he noted that he was quoted out of context and apologized for his "poor choice of words" about the "declining economy of Mitchell County."

Brooks said his remarks concerned the general economic situation and did not reflect a situation that exists just in Mitchell County.

It seems to me that the Mitchell County economy is far better than in most areas of the country and although there are some vacant buildings downtown, Colorado City is no different from any other town in Texas, or the nation for that matter.

In fact, Colorado City has fewer vacant buildings and fewer so-called slum areas than you'll find almost anywhere in Texas and most of the nation.

Colorado City Record, Newspaper for support of conservation in Texas.

Catherine Meadows, Junior High School student at Loraine for her prize-winning essay in the district sponsored essay contest.

Mitchell Soil and Water Conservation District was entered for Outstanding District, said Soil Conservation Service director Van Mills, citing the leadership it has taken toward promoting conservation projects during the past year.

"This is the 30th consecutive year the Texas Conservation Awards Program has been in effect," Mills said. "It is now being sponsored by the Fort Worth Area Chamber of Commerce and a loyal group of sponsors, with the assistance of the Texas Soil and Water Conservation Board and the 192 local SWC Districts in Texas."

Local winners were judged locally and will be eligible for awards at the Region II Awards Banquet to be held May 7 in the Houston Harte University Center at Angelo State University in San Angelo.

The Christian Family

Bob Grayson
Pastor
Calvary Baptist Church
Colorado City

There is no institution more important in the world than the home. God has ordained the home as the foundation of all society and He has given us definite guidelines on the role of each member. These guidelines can only be adequately followed when the individual has become a new creation in Christ. Corinthians says that the wisdom of God is foolishness to the world. Therefore if we dismiss or disagree with God's principles we show our lack of spiritual birth or failure to allow the Holy Spirit to teach us God's truth as Christians. Only the Christian has the ability to be the right kind of husband, wife, parent, or child; but that doesn't mean that every Christian is becoming in their home what God has intended. In fact this is the very problem, that in the home we as Christians have failed to apply God's principles, and it has had some devastating effect upon our society.

doing. That is why we need God's power in our life to experience His best in our home.

In Ephesians 5:22-6:4 the Bible gives us some definite principles for a Christian home. The key principle for a wife is submissiveness. The wife is to submit herself unto her husband as she would unto God. In fact the husband is God's divinely appointed head over her and she can't be obedient and submissive, to God without being submissive to her husband. She is to respect, appreciate, honor, praise, obey and accept her husband. Her conduct is much more effective than anything she says. Now it becomes more obvious why we can't be what we should without a personal relationship with Jesus. When a wife demonstrates this attitude in a marriage it is a strong influence upon the husband becoming what he should be as a husband and a father. So a wife's greatest source of power for influencing her husband and family is to be what God has instructed her to be and to do it in the power of God living within her.

Now the key principle for the husband is love and the key role is as the head of the family. The husband is to love his wife as Christ loves the church. How much does Christ love the church? He laid down His life for the church and no man has greater love than that. The husband is to love, care for, protect and encourage his wife. Now a wife finds it much easier to submit to one who loves her unconditionally and demonstrates it. It isn't enough for a husband to tell his wife that he loves her, but it is essential that he frequently does tell her that he loves her. We are told in Corinthians that love is patient, kind, never jealous or envious, never boastful or proud, never haughty or selfish or rude. Love does not

demand its own way, is not irritable or touchy, does not hold grudges and hardly even notices when others do it wrong.

Children are instructed to obey and honor their parents, and God promises His blessings daily and a long life to those who do. Children are to have an attitude of respect and be obedient in all things in their relationship with their parents. The Bible tells us that a sign of the last days and something that characterizes the world system in rebellion and opposition to God is disobedience to parents. A child who disobeys his parents is in rebellion against God and has no grounds for rationalization or excusing his conduct. A child needs to realize that his parents are God's authority over him and God can work through them even if they aren't Christians or following God's Word. Now once again we see how important it is for a person to be a Christian in order to function in the family as God intended. Therefore the best thing you can do for your children is train them according to God's principles and lead them into the decision to invite Jesus into their lives at an early age. A person's actions are a result of what he is on the inside, therefore we need to become new people in Christ - not improved people.

One final point we as parents should keep in mind is that the most important thing a child wants to know is not that you love them but that Mommy and Daddy love each other. If they know and sense love between their mother and father they will feel loved and the security and joy of living in a home full of love. There are many children who are loved by their parents or a parent but they suffer from the lack of love being felt and expressed by Mom and Dad.

We had the pleasure of a visit from our registered professional nurse consultant, Raymon P. Tanis.

Harvey Harden went to spend the weekend with his brother.

Emstey Kinman was transferred to the Veterans Hospital in Big Spring this past week.

We now have 10 volunteers to come once a month to mend clothes. They will meet Tuesday morning from 9 until 11.

At Claxton Lodge, we have church every Sunday morning, afternoon and mid-week services.

Quilla Long's grandson, Charles Sanders of Calif., took her out for the day.

Jessie White took Harvey Hardin out for the weekend.

Mrs. Curtis Lemons was out for the weekend with her grandson who took her to Abilene.

Some church women come to the lodge and serve us juice about 10 a.m. every day except over the weekends.

Mrs. Herman Miles visited Mrs. E. M. Carpenter this week.

Doris Clawson and Elaine Fugate will go to Abilene to attend school the 14th and 15th to finish their activity course.

Mrs. Willie Moody's daughter, Mrs. N. L. Fusom of Big

Gandy's gains international recognition and a new symbol

We're mighty proud! After 41 years of consistent quality and service, Gandy's has been honored with international recognition! Aware of Gandy's high standards, the Quality Checkd people invited Gandy's to join their international association of more than 100 independent dairies. To become a member of the Quality Checkd group, Gandy's products underwent 38 rigid "special exams" for everything from cows to cartons. Gandy's products passed with honors; therefore, Gandy's only changed its carton designs. The same high standards of quality, freshness and service which have made Gandy's Texas' largest independent dairy REMAIN THE SAME. You will receive the same great Gandy dairy products produced by the same Gandy people right here in West Texas. Look for our new Quality Checkd cartons at your grocers. We look forward to sharing our honors with you!

Sancap

for cotton.

Stops problem weeds on sandy soils.

Sancap® was developed to solve your weed problems on your soils. Sand, loamy sand, fine sandy loam.

It stops problem weeds like carelessweed and Russian thistle.

And Sancap stops them when your cotton needs protection most, when it's just starting out.

Stops them without hurting your cotton. And without loss of soil moisture through incorporation.

Just apply Sancap preemergence, at planting or within two days after.

Then watch your cotton come through. Clean and strong.

Ask your dealer about Sancap for your sandy soils.

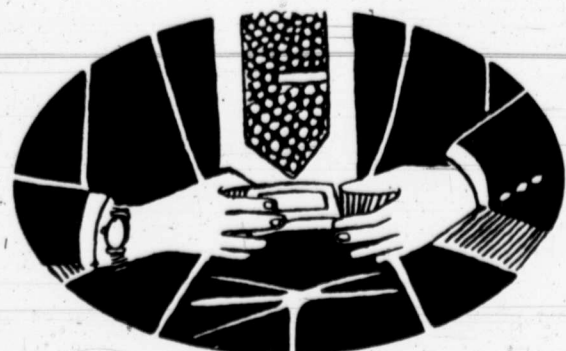

Or ask us.

Senior FHA Sponsors Muscular Dystrophy Drive

The Senior Chapter FHA at Colorado City High School will be sponsoring a Shamrock Against Muscular Dystrophy drive beginning Monday.

Long a symbol of the spirit of Saint Patrick, the shamrock will be used again this year to symbolize help and hope for those stricken with muscular dystrophy and related neuromuscular disorders. "Shamrocks Against Dystrophy" tags will be given out as symbols of the helping hand you extend to kids with dystrophy when you give a little "green" to the fight against these tragic diseases.

Money collected during the drive will help support the vital research and patient service programs of the Muscular Dystrophy Association.

The girls of the Senior FHA will be set up at Ben Franklin, Fullers, Safeway, City National Bank and the Colorado Drug. They will also be going from door to door to collect donations for this cause.

Golf Team Places 3rd

Colorado High School's golf team earned a third place win in their first golf tournament played in Ballinger Tuesday afternoon.

Seventeen teams entered the tournament, which Ballinger won with a team score of 333, followed by second place Coleman, 340; third, Colorado City, 341; with Stamford and Merket tied at 342.

Hobie Bolin, scoring a low 79, was defeated in the second hole of a sudden death playoff for medalist honors.

Team members and their scores follow:

- Hobie Bolin, 79.
- Wayne McKee, 80.
- Bobby Rogers, 91.
- Steve Morris, 91.
- Scott Weaver, 92.

Church League Winners Named

Church League Basketball action has begun, with the following winners:

--March 6, Loraine A won over Loraine B, 48-32; First Baptist won over Church of Christ, 44-41.

--March 11, First Methodist won over Church of Christ, 46-36; First Baptist won over Loraine B, 58-16.

--March 13, First Baptist won over Loraine A, 65-46; First Methodist won over Loraine B, 66-35.

Games coming up this week include the following:

--March 18, Loraine B vs. Church of Christ; First Methodist vs. Loraine A.

--March 19, First Methodist vs. First Baptist.

--March 20, Loraine A vs. Church of Christ.

Games start at 7 p.m. in the junior high gym.

Attends CD Seminar

James Campbell, left, city manager of Colorado City, attended the Local Civil Defense Directors' Seminar at the Department of Public Safety's Emergency Operations Center in Austin last week. With Campbell is Parks Bowden, state Civil Defense Coordinator. The seminar was designed to provide local Civil Defense directors and coordinators with the latest information and guidance concerning the disaster preparedness effort. Directors from some twenty locations in the state attended.

New Food Stamps To Be Issued

Effective March 1, food stamp recipients will be using new coupons, according to the U.S. Department of Agriculture (USDA).

The coupons will be of \$1, \$5 and \$10 denominations. The 50-cent and \$2 coupons will be discontinued.

USDA's Food and Nutrition Service said the larger denominations were prompted by the volume of coupons needed to meet increased food stamp allotments, paper shortages and increased production and shipping costs.

The new food stamps -- brown (\$1), purple (\$5), and blue-green (\$10) -- use a more sophisticated design to deter counterfeiting.

FNS said that food stamp users must spend their current

food stamps by June 30 of this year since retailers will not accept any old coupons after that date.

Authorized food stamp stores will use the \$1 coupon for making change instead of the current 50 cent coupon and credit slips of 99 cents or less for change under \$1. Books will be signed by the food stamp customer on the inside front cover, instead of on the back of the book.

The ivory-colored coupon books are in amounts of \$2, \$7, \$40, \$50 and \$65.

FNS advised retailers to redeem the current food coupons as soon as possible. Banks will continue to accept them for redemption until August 1 of this year.

CHS 9th Wins 3rd

Volleyball action at CHS continues, the latest triumph a third place in the Snyder Freshman Tournament earned by CHS 9th graders, with three players, Irene Rivera, Beverly Fuller and Myrtle Scott gaining spots on the All-Tournament team.

The varsity players also won over Big Lake in an away-from-home game Tuesday night, winning games of 14-12 and 15-6. Jeanne Hudson was high point for the match with 10 points.

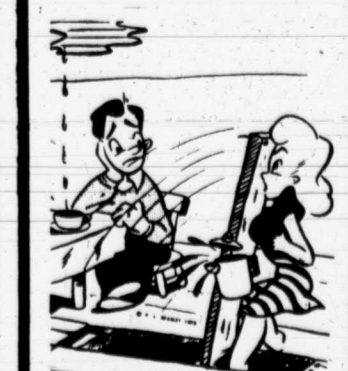

Junior Varsity suffered defeat in Big Lake, losing 8-15 and 4-15.

In 9th grade matches played Monday night in Wolves Gym, the Black team won over Big Spring Gold, games of 15-7 and 15-10. Mary Devorce and Vanessa Lindsey were high with 8 points each. The Red team was defeated by Big Spring Black, 4-15 and 14-16, with Leticia Martinez high point with 7 points.

Both Varsity and Junior Varsity lost matches with Crane in Wolves Gym last Thursday. Varsity score was 1-15 and 11-15 with Jeanne Hudson high point with 5 points. Junior Varsity score was 2-15 and 12-14, with Dondi Merket high with 7 points.

The teams are entered in the Howard College Tournament this weekend.

Zeta Delta Club Met Tuesday

The Zeta Delta Club met Tuesday with Mrs. Adele Wilkinson as club hostess.

Mrs. Dorothy Fowler presented a program about 80 John Wallace, an early rancher in the Colorado City area. Mrs. Fowler, whose husband is the grandson of 80 John Wallace, spoke and then answered questions as club members paused to honor the early efforts of minority education led by this Mitchell County pioneer.

Members present were Mrs. Brenda Sparks, Janet Stockton, Jennie Wright, Pat Geiger, Barbara Corbell, Brenda Tarter, Nancy Hamner and Adele Wilkinson.

The club's next meeting will be Tuesday, March 25 in the home of Mrs. Brenda Tarter.

Poison Prevention Week Begins

(Editors Note: March 16-22 is National Poison Prevention Week. The following information was provided by the Fisher - Mitchell - Nolan - Scurry Counties Pharmaceutical Association and is being presented as a public service.)

It is the young, the innocent, the toddler who are most often the sad victims of accidental poisonings. More than 100,000 accidental poisonings occur in the United States each year. Almost three-fourths of the victims are children under five years of age. For several hundred, the accidents are fatal.

Many thousands of other teenagers, adults, oldsters - are injured annually because of accidental poisonings. In today's

chemical society, potent agents of death and injury are all around us. Recently, a news article reported the agonizing story of a 12-year-old girl and her 15-year-old friend who swallowed a number of pills left lying around by a relative of the younger girl. One of the girls died shortly after being admitted to the hospital; the other was unconscious from the overdose.

It was found that the poisonings were caused by a left-over prescription drug that had not been used for some time.

Adults also make mistakes - the wrong medicine taken, the car not adequately ventilated, a garden spray inhaled or left on the skin. There are no age limits in poisonings. The pharmacists of our community urge everyone to join them in observing National Poison Prevention Week from March 17 to 23.

This Week is an annual national observance proclaimed by the President in an effort to awaken the public to the dangers of accidental poisonings and to publicize methods for reducing the tolls of injuries and deaths.

This week and every week, follow these suggestions for the prevention of accidental poisonings:

- Store all medicines, insecticides and rodenticides in locked cabinets. If a locked cabinet is not available, use a suitcase with a lock.
- Never leave lye, polishes, kerosene and other household chemicals on a low shelf or on the floor.
- Never leave dangerous solutions in drinking glasses or beverage bottles.
- Adequately vent all combustion engines.
- Prevent inhalation of spray or fumes when painting and applying insecticides.
- Unused medicines should be discarded by flushing down the drain and rinsing the container before throwing it away.
- Read the label of any medicine before taking it or giving it.

CHS Tennis Team Attends Tournament

Colorado High School tennis contenders were hampered by cold weather in the Sweetwater Tennis Tournament but managed to amass 44 points during the competition.

Big Spring team finished first with 98 points, Snyder, 82; Abilene Jr. Varsity, 78; Coleman, 71; Brownwood, 64; Sweetwater, 61; Colorado City, 44 and Rotan, 32.

Tennis Coach Ken Burnham said that the CHS team of Craig Carter and Chop Love have been trading out with teams from Snyder and Big Spring and "it's real exciting to watch them play," he said.

This time it was Snyder's time to win over the C-City team.

Total points were picked up by these team members: Craig and Chop, 12 points; Jackie Palmer, 17; Tony Love, 7; Leslie Greenlee, 5; Alan Marcom and Ivy Johnson, 4; Terry Culbertson, 3 and the team of Karen Thomas and Cheryl Sawyer, 2 points.

Harlow Hosts Lake HD Club Tuesday

The Lake Colorado City Home Demonstration Club met in the home of Mrs. Bea Harlow Tuesday, with six members and two visitors present.

Mrs. Jan Lemons spoke on Cancer and stressed to everyone that they read the cancer pamphlet given to each of them particularly on the cancer danger signs. Mrs. A. V. Nixon spoke on the subject of Retired Senior Veterans Program (RSVP).

TO GET TO YOUR FAVORITE VACATION SPOT

SAFELY, ECONOMICALLY AND RELAXED

Sometimes the hassle of getting to your vacation site can be enough to make you really need a rest. That's why you should install a set of Michelin steel-belted radials on your camper or travel trailer. They're designed to deliver safety - puncture protection, all-weather traction, excellent braking ability and firm road holding. They run economically - reduced rolling resistance as compared with conventional bias ply tires can mean genuine gas savings up to 10%. And they do all the work - their smooth, easy-handling ride mean you don't wear yourself out getting to your vacation spot.

Make things easier on yourself. Stop in and have Michelin 'X' steel-belted radials installed.

Texas Day Program For Atheneum Club

The Atheneum Study Club of Loraine met in the home of Mrs. B. H. Johnson, Wednesday, March 5.

Mrs. C. E. Green led the pledge to the Texas Flag.

A patriotic program on Texas Day was well rendered. The state song, "Texas Our Texas," was sung by Mrs. James Watkins and Mrs. Woodrow Pratt. The roll call was on "Famous Texas Women," gave a variety of interesting facts about the role of pioneer women in the history of our great state.

Mrs. Pratt gave an illustrated talk on Texas flowers, birds and exotic animals. She stated that Texas, because of its vast area and wide range of soil and climate, produces a greater variety of wild flowers than any other state. Many kinds of birds are also found over the state, including the mockingbird, which was adopted as our

state bird in 1927 by the Texas Legislature. Texas Federation of Women's Clubs promoted this idea.

A wide variety of wild animals are also prevalent over the state.

Mrs. C. E. Green told of the various ethnic groups of people who contributed to the early development of Texas. There were 24 ethnic groups who helped to influence the development of the state. They came from various areas of the world to settle in a strange land. There were Dutch, Chinese, French, German, Jewish, Polish and Russians and many others among these ethnic groups who braved the broad wilderness to find a new way of life in Texas, USA.

The hostess served refreshments to thirteen members. Plans were made to attend a Mesquite District meeting of Federated Clubs in Abilene on March 25-26.

Don't Gamble on Low-Germination Seed!

We have High-Germination FUNK'S Sorghum-Sudangrass Hybrid Seed

83F

Low germination seed and poor quality hybrids can't match the performance of our Funk's 83F because it tests 90% or better germination. Read the tag on the bag!

Produce high yields of top quality forage - with high-germination Funk's 83F seed. We have it - so call or come on in!

Funk's 83F Gives You:

- High-germination seed. You get a good stand from fewer pounds of seed per acre... more acres planted per bag of seed
- More leaves, longer leaves, better leaf/stem ratio than low-quality sorghum-Sudangrass
- Fast regrowth after grazing or clipping
- Drought tolerance
- Juicy stalks for palatability

Kincaid Named To Honor Roll

Robert L. Kincaid of Colorado City has been named to the Dean's Honor List for the 1974 fall semester at Texas Christian University.

To be eligible for this honor, students must be enrolled for at least 12 semester hours' credit. For that work, freshmen must have achieved a 3.4 or higher grade point average, sophomores a 3.5 grade point average, juniors a 3.6 grade point average and seniors a 3.7 or above grade point average. A total of 687 students were named to the TCU lists for the fall semester. Three hundred sixty-three of those were from AddRan College of Arts and Sciences, 125 from the School of Fine Arts, 65 from the M. J. Neeley School of Business, 69 from Harris College of Nursing and 65 from the School of Education.

Bell Hosts J.O.Y. Class Monday

Members of the J.O.Y. Sunday School Class of the First Baptist Church in Westbrook met Monday afternoon in the home of Mrs. W. A. Bell at 3:30 p.m.

Mrs. Emory Sweatt voiced the opening prayer. Mrs. J. K. Williamson presented a devotional thought, "Do Not Be Afraid To Speak" from Acts 18:9 and from "Open Windows" of whom one of the authors, John W. Bullock, is a former resident of Westbrook. The author's mother, Mrs. Sam Bullock, resides in Colorado City.

Mrs. Sweatt conducted a Bible drill and Mrs. Bell read an article on "New Words For An Old Story" about the author of the Living Bible.

Refreshments of soft drinks, coffee and cookies were served to Mmes. Dalton Conway, J. K. Williamson, Sweatt, Alts Clemmer, D. J. Barber, C. E. Ranne and Rex McKenney, teacher of the class and hostess Mrs. Bell.

Mrs. Clemmer gave a report on cards and gifts sent through the month.

Mrs. Barber will host the class in April.

B&PW Club Plans Spring Fashion Show

The spring happening of the Business and Professional Women's Club of Colorado City will be "Colorado City On Parade," Sunday, April 20, from 2-5 p.m. in the Civic Center, with admission at \$1.50.

The B&PW club members says that this will not be just another style show. The members think that this will be an excellent way to prove to the residents of Colorado City that they can buy anything they want in the way of clothing locally.

Mrs. Bob Dennis and Mrs. Stephen A. Smith are in charge of lining up models and contacting merchants. Their present plans include having the entertainers in period costumes. A few of their models to date include Jon Shamburger, Jody Neff, Mac McKinnon, Pam and Jennifer Beasley and Margie Ballard.

The style show will be a fun, entertaining afternoon with models showing dress, vacation and swim wear from our local stores. A few children's things will also be on display.

The entertainment committee is composed of Mrs. Loyd Ledbetter and Mrs. Stephen A. Smith. Mrs. Ledbetter designed the

posters which will be seen in all windows about town.

Jolyn Mikow will be singing folk music, Margie Ballard will do her "Chicken Fried Soul," and Trina Taylor of Snyder will be singing a medley of spring songs. The club also hopes to be able to reach the Colorado High School stage band and have some piano music.

Mrs. H. Jene Steakley, Mrs. Francis Dereghibus and Shirley Delaney will introduce the models and describe their outfits.

The program committee is made up of Mrs. Mildred Free, Mrs. Kent Womack, Mrs. Etta Jones and Mrs. Jon Shamburger. They will be contacting all merchants for advertising in this program. They anticipate complete co-operation from our local merchants in helping them to make the "Colorado City On Parade" a huge success.

Refreshments prepared by the B&PW ladies will be on hand for intermission.

Plan to attend and mark your datebooks now.

Ladies Fire Auxiliary Met Thursday

The Ladies Auxiliary Post #9178 met for their regular meeting Thursday at 7:30 p.m.

Hudson And Lightfoot Attend Conference

C. T. Hudson, Junior High School principal, and Preston Lightfoot, counselor of Loraine High School were participants in the biannual Administrators-Counselors Conference held at Cisco Junior College Tuesday, March 4.

The conference was held for the purpose of better acquainting high school principals, counselors and superintendents with the various programs of Cisco Junior College in both academic and vocational areas, and it also included a workshop in helping prospective college students secure financial aids.

The conferees were guests of the college at a luncheon at the Corral Room of the College Hotel Annex. Speaker for the luncheon was George Brazell, head of the Behavioral Sciences Department of Cisco Junior College and a well-known banquet and assembly speaker.

Eris Ritchie, Cisco Junior College Public Relations Director, was in charge of arrangements for the conference, and Ralph Glenn, the college's Administrative Dean and Financial Aids Director, presented the afternoon workshop on financial aids.

Welfare Office Offers New, Extended Services

A new service has been started by the State Welfare Agency in order to benefit citizens throughout the state and Kay Feagan is in charge of the program in Mitchell County. Working from her office at 136 East 3rd Street in Colorado City, Miss Feagan's concern is for children suffering from neglect or abuse and she strongly urges everyone who knows about such cases to report them to her and she will counsel with the families involved.

"Some people think that these things are only what they hear about on a state or national level, never realizing that there are children in Mitchell County suffering from either neglect or abuse."

"I can be reached at my office during daytime hours at either 728-2618 or 728-2619 and at night at 728-5277 or through the police department, 728-2311," Miss Feagan stressed.

The services provided by the Protective Services were available formerly through the Welfare office but with the state's drive to really publicize and help children suffering from either abuse or neglect, the new office was created specifically for this purpose.

"My job is to make sure children are protected and to work with families toward that end," Miss Feagan explained.

She has been on the job here since January 1, moving to Colorado City from Sweetwater and has made a number of talks with slide showings to civic groups.

Another new face at the Welfare office is Cathy Dudley, in charge of the county's Food Stamp program.

"Some Food Stamp customers have gotten the mistaken idea that Food Stamp prices are frozen and cannot be either

raised or lowered, but this is a mistaken notion," Miss Dudley said.

"Food Stamp prices fluctuate according to family income and size," she emphasized, "and a change in those indicators would mean a change in the price of the stamps to a family purchaser."

Miss Dudley has been in charge of the Food Stamp division of the county office since October 1 of last year and says that one of her main problems is getting proper identification of Food Stamp purchasers since a new ruling went into effect that Social Security cards are no longer acceptable as proper identification.

"Most of the men work during the daytime and the wives come to the office to buy the stamps," she said. "They need to bring a legal paper with their name on it, either a voter registration certificate, driver's license, or some other legal means of identification. A birth certificate is not acceptable since it doesn't have the woman's married name on it."

She said several bills with the legal name on them would even be accepted as proper identification.

Amelia Garcia, secretary to both Protective Services and Family Services offices in the Welfare office is also new on the job, starting January 27.

New Faces

Kay Feagan, center, is heading the Protective Services office benefiting Mitchell County citizens through the Welfare offices located at 136 East 3rd Street in Colorado City. Cathy Dudley, right, is in charge of the Food Stamp program in the county and Amelia Garcia is secretary to both Protective Services and Family Services offices in the Welfare offices.

Conservation--Key To The Future

Conservation means using our national resources in the wisest and most protective way possible. We cannot control our air or sunshine, but we can influence the supplies of our other natural resources such as soil, water, forests, minerals, and wildlife. The supply of most resources is limited and many of them can be easily damaged or destroyed. Whenever possible we must replace the resources we use. Conservation is concerned with both resources now and for the future because our future will be determined by our wastefulness or our usefulness of these resources.

In each generation, every person's share of the world becomes smaller because our population is growing rapidly. We have to use our resources wisely so that the people succeeding us will be able to use them too.

To each of us conservation means personal responsibility for the wise use of natural and human resources in our homes and communities. Because of this conservation should be everybody's business. It is not something that can just be turned over to the government. Individuals can do much to promote conservation, but people have to work together in order to care for our natural resources properly.

In some cases the harm already done cannot be undone. But much can be done to prevent waste in the future and some of the damage done can be repaired.

We have only one earth and the increasing population and consumption of energy are limiting our future world. We are responsible for the effects of our own environmental problems and we must learn ways to inhibit those problems. Restoring the environment of the carelessness we have already produced will cost billions of dollars but we must "clean-up" our earth if we are to survive. Conservation is surely the key to the future and the better the developments, the better the future.
