COG Committee Supports Area Vocational School

The North Central Texas Council of Governments planning and research committee Tuesday gave its support to efforts by Colorado City schools to receive federal funding for a new vocational school.

A vocational facility is to be included in the new high school complex to be built on 17th Street with funds approved by local school district voters in September.

The COG committee which met with Colorado Schools Superintendent Lloyd McKee, Colorado High Principal Bill Everett and two representatives of the education service center in Abilene, said they firmly believed there is a need in this area for an area vocational school for school aged youngsters as well as for persons out of school.

COG's executive committee was to discuss the proposed vo-

ational school in a meeting Wednesday morning and were expected to give their approval and forward their recommendation to the Texas Education Agency which will have final say in the matter.

At the present time, funds for such schools have been in-pounded by President Nixon but those funds are expected to be released by the time the local school will be ready to be designated as an area vocational school.

Being designated as an area vocational school would mean the local school district would receive as much as \$150,000 to \$175,000 to help in building and furnishing the vocational facility.

Plans for the vocational facility as well as educational specifications were among a number of items to be discussed at last night's (Wed-

nesday's) school board meeting. The board was to meet with the architect and educational

consultant to discuss plans for the new high school. During the past month, the

architect has been working closely with teachers to design the kind of classrooms and fac-

ilities that would be best suited for local needs.

The architect is to complete plans for the new high school facility by late January and then the project will be put out for bids. Construction is expected to get underway by March 1.

The board also was to discuss the effect of the energy crisis on the operation of the schools. Daylight savings time, which will come back into effect Jan. 6 also was to be discussed and the board was to determine if classes should be continued as they are from 8:30 a.m. to 3:30 p.m. or if classes should begin at 9:30 a.m. and end at 4:30 p.m.

Riding Club Sets Events

The Western Riding Club of Colorado City is planning a very busy year.

At the present time the club is giving the club arena west of Colorado City a face lift. Members are moving the bucking chutes from the east end of the arena to the north side. Part of the grandstands are being torn down and moved. This remodeling is in an effort to give the spectators a better view of the activities going on in the arena.

Nearly all of the remodeling work is being done by members and anyone wanting to give a helping hand should come out to the arena on Saturday afternoon about 2:00 p.m.

A Christmas covered dish supper was held Saturday December 15 at 6:30 p.m. in the Lone Wolf Electric Medallion Room. About 100 people attended this supper which featured a main dish of barbecued deer and goat. Mrs. Lance Walker and Mrs. David Scott did an outstanding job of organizing the supper. On December 30 at 1:30 p.m. a playday is scheduled for the club arena. Events for the play-

day are barrel racing, flag race, pole bending and goat tying. Ribbons will be awarded 1st through 6th place. American Junior Rodeo Association Rules will be used in all events. Entry fee is 50¢ per event. No admission will be charged and all spectators are welcome. Bumper stickers which read "I support the Western Riding Club of Colorado City" are being printed and will be sold by members of the club to help raise funds for the upcoming activities and to gain attention for the club.

Some of the coming activities for the club are: a series of playdays, county horse show, junior rodeo, jackpot ropings, a Mitchell County Roping and a polo game. For any additional information about any of the events contact David Scott, Lance Walker, Sue Guelker or Shirley Bradbury.

Merchants have been pleased with the number of shoppers they have had for the Christmas season, reported Sefton Pickett, executive director of the Chamber of Commerce.

The downtown promotion has been successful this year, he added, with the parade and Christmas dollars drawing bringing people to the downtown area to do their shopping.

In addition to the merchants cash give away, a number of merchants will be staying open late this week for everyone's Christmas shopping convenience.

STATE CAPITAL Highlights AND Sidelights

by Bill Boykin

AUSTIN, Tex. — Hearings will be held soon by the State Insurance Board to see if misleading or deceptive "sales pitches" are being used by the insurance industry in Texas. Joe Christie, Chairman of the Texas Insurance Board, says the goal of the board is to protect the consumer and build confidence in the insurance industry.

"People need insurance. The Board wants to make certain they are getting good information about the product," he told the Austin Ad Club, last week.

"Some of the troubles of the insurance industry are caused by failure to communicate properly with the buyer. We are not getting life insurance rates, and we will hold hearings to compare rates. The Board will issue comparisons on life insurance policies and rates for the buying public."

Insurance is the largest industry in Texas, he added, and a difficult industry to regulate. "The board started publishing names of agencies and agents who have been found guilty of abusing the public, and we have seen a decrease of complaints," Christie continued.

Another goal is to clean up deceptive advertising, he told the ad group.

Christie asked the ad leaders to help the Board make certain the buying public knows about deviating rates in fire and casualty insurance.

"Shop for your insurance as you would groceries or any other product. You can get a 10% reduction on your automobile insurance for example if you take the defensive driving courses. Watch for optional coverage on personal injury insurance. It will be on your bill if you do not specify that you 'do not' want it."

"We are going to study 'no-fault' insurance and health care in Texas too. We want to know if 'no-fault' will lower our insurance rates, and what the buyer might have to give up in rights to get the lower rates."

"The Board plans to set up a Health Maintenance Organization to see how health care is delivered in Texas."

"We do not question the quality of health care in Texas, but we want to know the quantity of health care," he concluded.

DEMOCRATS CRANK UP — Texas Democrats are looking down the road to 1974 and 1976 national party conventions.

They set for December 15 here a State Democratic Executive Committee rules panel hearing to consider delegate selection procedures for the December 1974 "mini-convention" or policy conference.

State party officials must, by resolution, provide for compliance with rules on delegate selection and "affirmative action" to assure wide open participation in lower-level conventions.

The party must take steps to encourage convention activities by youth, minorities, women and others traditionally underrepresented in its conventions. The same requirement carries over to the 1976 national presidential nominating convention process.

Gordon Wynne Jr. of Wills Point described the "mini-convention" full-participation program to be agreed on by SDEC here next month as the "forerunner" of the 1976 concept to be followed in presidential nominating procedures.

SDEC's resolution on delegate selection and affirmative action must be submitted to the Democratic National Committee prior to Feb. 1, 1974.

HOSPITAL PROGRAM CHANGED — The Governor declined to sign an agreement with the Department of Health, Education and Welfare to implement state and local review of health care facility construction in Texas.

His action left hospitals and nursing homes eligible to participate in federal programs without getting a state certificate of need.

Aides to Briscoe said the Department of Health, Education and Welfare in Washington has assured them there is no penalty to the health care industry if a state does not participate in the review program.

Briscoe advised new construction proceed cautiously so as not to build a facility where it is not needed.

struction proceed cautiously so as not to build a facility where it is not needed.

COURTS SPEAK — A three-judge federal court here heard arguments over whether state House members should be elected from individual districts in nine metropolitan counties.

The court will rule in January whether Travis, Nueces, Tarrant, McLennan, Lubbock, Jefferson, Galveston, El Paso and Hidalgo counties should have single-member districts. Bexar, Dallas and Harris counties already have such districts.

A divided Court of Criminal Appeals held marijuana offenders convicted before April 23 and appealing for lighter sentences cannot be resentenced under the new Texas drug act.

The State Supreme Court refused a motion for rehearing in Toyah school district's fight to avoid annexation by Pecos-Barstow Consolidated Independent School District.

A Deaf Smith County man lost an appeal from a 99-year sentence for rape — for holding his own wife while another man attacked her.

APPOINTMENTS — L. D. Whitehead of Del Rio was named by Gov. Briscoe to the Advisory Council on Community Affairs.

Briscoe appointed Robert R. Ashworth of Amarillo, Leon Stone of Austin and Dr. W. T. White of Dallas to the board of trustees of the teacher retirement system of Texas.

Named to the board of directors of Brazos River Authority were W. C. Wiese Jr. of Calvert, Clint M. Walker of Tahoka, Kermit Ashby of Plainview, Billy Joe Wilson of Hamlin, Harry H. Moore of Nava-

sota, Lyndon Olson Sr. of Waco and Don Coppedge of Waxahachie. Moore, Olson and Coppedge are reappointees.

Briscoe placed on the Youth Camp Safety Advisory Council Raymond B. Bean of Dallas, Paul L. Bisenherz of Austin, Mrs. Garza A. Boggs of Austin, Miss Louise Fargher of Fort Worth, Hugh Hornsby of Austin, Rodney James Kidd of Dallas, Tom Manison of Friendswood, Miss Alice H. Mulkey of Dallas and Silas B. Ragsdale Jr. of Hunt.

SHORT SNORTS

Harrison Vickers of Houston resigned as executive director of the State Democratic Executive Committee.

Lee Godfrey of Austin has been named state campaign manager for Lt. Gov. Bill Hobby.

Revenue from cigarette sales increased from \$19.8 million in November 1972 to \$20.1 million last month.

Estimated total value of construction authorized in October by Texas communities that issue building permits increased 17 per cent over September, according to the University of Texas Bureau of Business Research.

Texas Rehabilitation Commission has been credited with leading the nation in successful rehabilitations in fiscal 1973.

The state has issued its last old age assistance check in a \$4 billion program. The federal government will take over the Supplemental Security Income program January 1. Hazel G. McKinney, 76, of Smithville got the last state check before the switchover.

McAdams Named As Employee Of The Week

Sid McAdams of Spearman was named "Employee of the Week" by Baker and Taylor Drilling Company for whom he has worked as a driller the past 21 years.

Sid is the son of Mrs. McAdams of Lorraine. His wife, Jo, is the daughter of Mrs. Hays and the late H. H. Hays of Lorraine. They have three children, Je-

anette, who is married, Kirby 19, and Lori 13, who is a member of the 8th grade basketball team. The McAdams enjoy all sports, football and basketball and Sid especially likes fishing and hunting.

The company congratulated the family for their contribution to their home town and community and for being selected as "Employee of the Week".

Colored Flames Add To Fireplace

"Fireplaces are a source of pleasure year round, but at Christmas they seem to have a special glow," Patricia A. Bradshaw, housing and home furnishings specialist, observed.

A "different" glow can come from colored flames, according to the Texas Agricultural Extension Service, Texas A&M University System, specialist.

"To have beautifully colored flames in your fireplace there are a number of chemicals which may be used.

"First, select bits of wood, bark, driftwood, pine cones, sweetgum balls or similar materials. Then secure appropriate chemicals from a local hardware store or a manufacturing chemist.

"Colored flames can be produced by chemicals such as strontium nitrate or chloride, green with Borax, blue with copper sulphate, orange with calcium chloride, and yellow with common table salt.

"Caution should be taken when

using copper salts since they will stain brick, tile and concrete--so be careful in placing the colored objects to avoid permanent stains."

To treat the materials, either dissolve the chemicals in a wooden pail or earthen crock--the chemicals will destroy metal containers, she warned.

"Use about one pound of chemicals to one gallon of water to treat 1/2-3/4 bushel of material.

"Dip the material, which has been placed in a basket or porous bag, in the solution.

"Remove the container, let drip, and then spread materials on paper to dry.

"After drying overnight, dip again and dry. They are now ready to use."

There are also several dry

methods of treating the material, Miss Bradshaw noted.

--Dissolve one tablespoon of glue in one gallon of boiling water. Dip the cones or other material in this solution. Remove with a metal skimmer. Sprinkle with the chemicals while the cones are hot. A salt shaker with large holes makes a satisfactory utensil for the chemicals.

--Pour melted wax over the material. Before the wax hardens, sift the chemical onto the cones. The chemical will adhere and will produce a very pleasant effect when burned. Remember to use wax sparingly with this method.

--Mix the chemicals and shellac with saw dust and sprinkle on the wood in the fireplace as desired.

Patricia Winn Becomes Bride Of Keith Parker Saturday

Miss Patricia Winn became the bride of Keith Parker Saturday evening in the First United Methodist Church.

The Rev. Billy Wilkerson, of Andrews, officiated in the 6:00 p.m. double ring ceremony.

The bride is the daughter of Mr. and Mrs. Francis A. Winn of 545 Chestnut, Colorado City and the groom is the son of Mrs. Betty Parker of 1040 Pine, Colorado City.

The altar was flanked on both sides with poinsettias and Christmas greenery and red bows.

Wedding music was presented by Mrs. Frank Deregibus, organist. Selections were themes from "Love Story," theme from "Romeo and Juliet" and the traditional wedding march.

The bride given in marriage by her father wore a formal length gown of ivory satin with a scoop neckline and lace falling from the waist. The skirt formed a chapel length train and was accented by four satin roses at the waist line.

Her fingertip veil of illusion fell from a lace band trimmed in sequins. She carried white carnations on her Rainbow Bible.

For something old the bride wore a pin belonging to her great great grandmother Wulfin. The pin is around 200 years old. Something new was her dress and veil, something one was her garter belonging to her aunt Mrs. Serge Helfer and something borrowed was a handkerchief belonging to her great great grandmother Kinnison.

The attendants wore long gowns with empire waist lines accented with a flat bow in the back. The maid of honor's dress was made of red satin and the bridesmaids' were made of green satin. They carried white candles with red carnations and green holly leaves with red velvet streamers.

The flower girls were Tracy Lea Winn and Le Anne Parker. They wore long red dresses and carried baskets of red net and ribbons.

Serving as best man was Jerel Lynch of Colorado City. Groomsmen were Randy Cooper of Da-

las and Jay Burny of Snyder.

The ushers were Claton Watkins of San Angelo and Rodney Merket of Colorado City.

A reception was held in honor of the couple following the ceremony in the Fellowship Hall of the church.

The bride's table was covered with a white taffeta cloth draped with white chiffon. Silver appointments accented the table. The bride's bouquet and the attendants' bouquets made up the floral decor.

Members of the houseparty were Elaine Winn, sister of the bride, Toni Wulfin, Debi Hartfield, Penny Cooley, Phyllis Cooper and Sally Smith.

For a honeymoon trip to Lubbock the bride wore an off white pant suit with navy accessories.

The couple will make their home in Colorado City.

Out of town guests were from Odessa, Abilene, Dallas and New Orleans, Louisiana.

The Last Noel

The angels didn't have anything to do with this one. A yield sign that was just a blur of yellow did. And before that, more than one too many glasses of holiday cheer helped things along.

It's a proven fact that one or two drinks are enough to slow many people's reaction time appreciably. And slowed reactions are nothing to have when you're driving in holiday traffic. Take it easy this year. Or the holidays may be over before you know it.

Question:
Will you have enough natural gas for your home this winter?

Answer:
Yes!

Let's lay this question to rest once and for all. Lone Star Gas Company has enough natural gas reserves under contract to adequately supply our residential, commercial and other higher priority customers for many winters.

To be sure we have enough for these consumers, we will make some extensive curtailments of service to our large volume customers during extreme cold weather this winter. In fact, our contracts with large volume customers anticipate the need to curtail up to 100% of their needs during these cold periods. This allows us to assure service to residential, commercial and other higher priority customers.

We're taking major steps to make sure you have gas for the future. New gas we're buying costs more than four times the price we paid just a few years ago. This is an astonishing amount of money! But it's the price all of us must pay for a continuing supply of natural gas energy.

This winter, and in the future, natural gas from Lone Star will continue to be your best method of home heating, water heating and cooking... just as it has been for more than 40 years. But we all must remember to help conserve this precious energy fuel.

A home economist tells how to make electricity work more efficiently for cooking.

To get the most value from your electric range, follow these tips:

1. Use flat-bottomed pans for better contact with the electric unit. Also, use tight-fitting lids to reduce cooking time and moisture loss. And match pan size to unit size to avoid heat loss.
2. Don't open oven doors unnecessarily, since this causes heat loss and extends cooking time. It also can result in under cooking.
3. Use a minimum amount of water. The more water you use, the longer it takes to get hot. Many foods can be cooked with little or no water.
4. Bake two cakes or pies, or make double recipes of foods like stews and spaghetti sauce. Then freeze one for future use.
5. Thawing meats before cooking reduces cooking time. When recipes call for a pre-heated oven, don't turn it on too far in advance — usually 10 to 15 minutes will do.

For more tips, get our free booklet. "Tips to help you use electricity more efficiently throughout your home." They're available in our office, or you can request one on the comment portion of your electric service bill.

Coach Mike Hart is the Junior High boys' P. E. teacher and really does a great job. He was born in Colorado City, Texas on May 24, 1945 and is married to the former Jennifer Holbert.

As almost everyone knows, Coach Hart's hobby is fishing. He really is a great fisherman and has several awards to his credit.

Coach Hart coaches more than one sport and likes them all, but he enjoys playing basketball the most. This is his fourth year to teach here at Junior High School.

Coach Hart is really well-liked around school and helps to make everyone happy just seeing his happy face.

On Monday the 10th of December, the seventh grade basketball team traveled to Coahoma where they played the Bulldogs, 7th A and B teams. Our B team lost a real heartbreaker-10-12. High point man was Mike Womack with 8 points; next was John Alvidrez with 2 points. Leading rebounders were John Alvidrez, Mitch Hamer and Alton Ausbie.

The A team had better luck, winning 27-22, in this game even-

rybody played well; although some had more chances to score. High point man was Robert Parker, next was Earnest Agullar with 4 points to their credit. Leading rebounders were Rick Sanchez, Robert Parker, Kirk Stubblefield, Ruben Garcia, and Johnny Garcia. Both teams did real well, but they would play better with a little more support. Come out and help us back all our teams.

Minimum Tillage Is Fuel Conserver

A new conservation farming technique saved an estimated 1.8 million gallons of tractor fuel in Texas this year, reports an official of the U. S. Soil Conservation Service.

E. M. Fisher Dies; Rites Thursday

E. M. Fisher, 75, of 937 Vine in Colorado City, owner and operator of Fisher Grocery, died at 7:45 p.m. Tuesday at his residence of an apparent heart attack.

Funeral services will be at 2 p.m. today (Thursday) in First United Methodist Church, officiated by the pastor of the church, Rev. Davis Edens, assisted by Rev. Caddo Matthews, pastor of Plainview Baptist Church. Burial will be in Colorado City Cemetery under direction of Kiker-Seale Funeral Home.

Fisher was born in Lee County, Texas and moved to Mitchell County in 1926 and to Colorado City in 1948. He worked for Standard Oil for 18 years before going into the grocery business.

He was a member of First United Methodist Church and the Mitchell Lodge #563.

He was married to Ora Carter, April 11, 1925 in Lee County.

He is survived by his wife; one daughter, Mrs. Bob Murray of Lovington, N. M.; two sons, Dean Fisher of Archer City and Danny Fisher of Brownfield and three grandchildren.

Also surviving are two sisters, Mrs. Gertrude Nance of Lee County and Mrs. Jodie Barker of Kermit; four brothers, Mack Fisher of Merkle, Louis Fisher of Abilene, Leon Fisher of White Oak and Homer Fisher of Calmesa, Calif.

Buckalew Rites Held Monday

Mrs. Susan Milinda Buckalew, 82, died Sunday morning in Sid Peterson Hospital, in Kerrville. Services were held at 4 p.m. Monday in the Plummer Funeral Home Chapel in Kerrville.

The Rev. W. F. Hathaway, pastor of the First United Methodist Church officiated. Burial was held in the Garden of Memories Cemetery under the direction of Plummer Funeral Home.

Born October 22, 1891, in Jackson County, Texas, Mrs. Buckalew moved to Kerrville from California in 1957, where she was employed by the Douglas Aircraft Corporation until her retirement in 1957, when she moved to Kerrville.

She was a member of the First United Methodist Church.

She was preceded in death by her husband Nancy Buckalew in 1961.

Survivors include a son, Alvin Buckalew, three sisters Mrs. Swink of Kerrville; Katherine Shurtliff of Colorado City and Mrs. Louise Standefer of Stanton. Also one brother Frank Harper of Colorado City.

Edward E. Thomas, state conservationist for SCS in Temple, said minimum tillage farming systems eliminated an average of five tractor trips per acre during 1973 on about 354,000 acres of cropland.

"A tractor burns about a gallon of fuel per acre for the average farming operation," Thomas said. "Eliminating five tractor trips per acre reduces fuel consumption by five gallons of gasoline or diesel per acre."

To haul 1.8 million gallons of fuel in railroad tank cars would require a train nearly two miles long.

Thomas predicted even greater fuel savings in the future as more farmers turn to the new system.

"The practice is still a long way from being perfected," Thomas admitted. "But we've come a long way in the last 3 years. If similar gains can be made in the next few years, conservation farmers will be able to make a major contribution in helping ease the energy crunch."

With minimum tillage, crops are planted directly into the stalks and leaves left over from the previous crop without prior land preparation. Herbicides are used to control weeds, cutting out several tractor trips over a field. Some farmers report minimum tillage saves as many as 10 to 12 tractor trips per crop. A statewide average is about half that amount.

The surface cover of dead leaves and stems greatly reduces wind erosion, dust storms, and air pollution. The practice is equally effective in preventing water erosion and sedimentation from cropland.

Thomas said one of the big problems with minimum tillage is that surface-applied herbicides used to control weeds don't always work properly on all soils in Texas. He said better, more dependable herbicides adapted to much farming are needed.

Thomas credited the state's conservation farmers with helping develop minimum tillage farming systems.

"This practice has evolved by trial and error during the last few years," Thomas said. "SCS agronomist, researchers, chemical companies, conservation district leaders, and innovative farmers have all had a part in developing the measure. We only hope continued progress can be made in this field."

With 20 million acres of cropland in Texas, long-term fuel saving possibilities by improved methods of minimum tillage are huge, Thomas pointed out.

Track Workouts Underway

"Track workouts are now under way," says Coach Dell Riley.

The few boys who are now working out are strong runners and will give competition to competitors, he noted.

The workout schedule is posted in the field house so the boys can look at it and then get on with their daily "dreads" of running.
