Personally Yours

By ANNELLE HOLMAN
Record Women's Editor

We used to have a Wolverine yell that began something like this, "Are you satisfied? I said satisfied? Real satisfied?"

Well, are you satisfied? No, I don't guess any of us are really "like us." Funny, how we always have something to gripe about.

I suppose that nobody likes to be as she is—too tall, too fat, too skinny, too short, straight hair, shy around the opposite sex, not enough income, house too small—something is always wrong.

If we are tall, we gripe because we can't wear three-inch heels or think we look like a beanpole in certain clothes.

Or maybe our hair never seems to look right—why couldn't we have curly hair like sis?

Maybe our gripe is that this house is too small to entertain guests—or if it is large enough, it is too hard to keep clean.

If we are short (and I can elaborate on that), we feel rather silly when we get placed as a member of the seventh grade Sunday School Class—rather than as the teacher; we don't particular care for peeping through the steering wheel to drive—but who wants to be restricted to sitting on a cushion—and we feel sort of like a flag flying at half mast when we dance with a basketball player!

Why can't we be satisfied in our "natural habitat"? Don't guess anybody is really pleased with his looks, or life in general.

But if we had the privilege to change, I just wonder what we would look like.

Mrs. Jack Johnson and daughters, Lincy Ann and Billie Jean, returned last week after enjoying a two-week visit with relatives in Bertram, Houston, Newgulf, and Palacios.

Mrs. Jody Simpson and her two children, Sherry and Ken, returned to Wichita, Kansas, Sunday after a three-week stay in Colorado City with Mr. and Mrs. O. L. Simpson and friends.

CARDS DROP TO 3RD

White Sox Move to 2nd In Pony League's Race

Both the Cardinals and the White Sox fattened their win records in Pony League against the cellar dwelling Braves.

But the Cardinals also collided with the undefeated league leaders, the Athletics.

And the result is that the White Sox gained ground in their neck-and-neck battle with the Cardinals for the No. 2 Pony League spot behind the Athletics. In fact, the Sox moved into undisputed possession of second place with three wins and three losses, while the Cardinals—formerly tied for the spot—now sit third with three wins and four losses.

The Athletics, by virtue of their Thursday night 12 to 9 triumph over the Cardinals, kept their perfect mark and extended their unblemished record to six straight wins.

It was the same night that the White Sox tripped the Braves, 9 to 6, the important victory which moved them into undisputed runner-up.

The Cardinals recovered from their Thursday night loss and returned to winning ways Monday night with a 12 to 7 success against the Braves.

Athletics and White Sox were matched in an important tilt as the final of the Monday night schedule—which would have had important bearing on both first and second places. But the weatherman dumped rain on the field, and the contest was called after only two players had gone to the batter's box.

Trailing 3 to 7 through the fourth inning, the Cardinals finished strong to gain their 12 to 7 triumph over the Braves Monday night.

Six runs in the fifth and three more in the sixth accounted for the victory spurge in the late innings for the Cards. A couple of doubles by Freddie Fox and Harry Johnson, a single by Danny Gale plus walks by Fisher and Bill McGuire did the big damage in the fifth.

Scoring in the sixth to definitely put the game on the victory shelf for the Cards were McGuire, Darrell Davis and Lee Schafer. Davis with a triple and Schafer with a single supplied the bat power as McGuire reached first on a center fielder's error.

Tommy Lindsey's booming

home run with Danny Ken-nemur and Centerfielder Free on base sent the Braves into a 3 to 2 lead in the second inning.

Four more tallies in the fourth by Free, Breeden, Lindsey and Moore shoved the Braves farther out in front, 7 to 3.

But in the final two innings the Braves were without power as five batters struck out.

White Sox scored once in the first, once more in the third, splurged for five in the fourth and two more in the sixth for a 9 to 6 verdict over the Braves in last week's Thursday night schedule.

After being held scoreless

in the first three frames, the Braves came to life with six runs scattered over the fourth, fifth and sixth innings. But they couldn't overcome the deficit.

League-leading Athletics scored in every inning the same night for their 12 to 4 triumph over the Cardinals.

And the Cards couldn't break the scoring column until the sixth, and then for only one run. Three more tallies in the seventh weren't near enough.

PERFECT MARK GOES

Teens Trim Team, Lose First Game

Colorado City's perfect record has dropped by the wayside in the Double Mountain Teenage League.

Shackling the first defeat upon the local club was Sweetwater, 5 to 2, last Thursday night in Sweetwater.

Ronnie Turnbow beat the highly regarded Steve Hillhouse in a mound duel that saw both pitchers go the entire distance.

But it was big James Parker, the Sweetwater High all-state fullback, who really powered the victory. He collected four of the eight hits given up by Hillhouse.

And one of those was a triple with bases loaded in the third inning—enough for the triumph right there.

Colorado City managed nine

hits off Turnbow, a hurler the

Local Claims Expected in Retirement

Several hundred social security beneficiaries in and around Colorado City, who have continued working after filing their claims for retirement benefits, are expected to file new claims in July to permit a recomputation of their benefits to include 1958 earnings, according to R. R. Tuley Jr., district manager for the Social Security Administration in Abilene.

He suggests that all who can answer the following two questions with a "yes" make arrangements to file new claims, either by writing the Abilene office, P. O. Box 5168, or meeting the representative of that office when he visits this area.

1. Did you file a retirement claim before 1958?

2. Did you have earnings creditable under social security of more than \$1200 in 1958? Unless both the above questions can be answered "yes," he states the benefit amount now being received will continue unchanged.

However, anyone who feels that perhaps some other recomputation of benefits might be possible is urged to write the office and ask about his own situation, Tuley said.

Giants, Indians Keep Little League Leads

Five games with every team within the league playing at least once.

And the Little League's season standings look just like they did. Just a little more of the same.

The Giants keep their unmarred record at first place with triumph No. 4. Close behind with only one defeat are the Indians.

In third place with a 50-50 mark now with three wins and three losses are the Yankees. Tied for fourth with a 2-3 record are the Tigers and Pirates.

At the bottom, just as before, are the Dodgers—now with five losses and still not a win.

Sparkling baseball opened the Little League's schedule this week with the Tigers

edging the Dodgers, 5 to 2, and the Pirates nosing out the Yankees, 5 to 2.

Three runs in the fifth inning by Jones, Beazley and Sweat broke a 2 to 2 deadlock and produced the Pirates' triumph over the Yankees.

Previously, the Yankees had pushed across one run in the first and another in the second as the Pirates had scored twice in the bottom half of the second.

Beazley and Taylor were on the mound for the winners while Noble and Millsap divided hurling chores for the losers. Leading the Pirates' victory attack was Sweat, who singled in all three appearances at the plate.

Bum weather cut the Dodger-Tiger contest short in the fifth inning, but the Tigers already

had a 5 to 2 lead without counting another run they scored in their half of the fifth before the game was called.

Victory margin for the Tigers was a four-run spurge in the third. The Dodgers scored lone markers in the first and third.

Gaining the pitching triumph was Bearden who scattered five hits over the rout. Nicked for the loss was the Dodger's Ramage.

One of the season's finest games was the 2 to 0 thriller the Indians won over the Pirates Saturday night.

The Indians' McAdams limited the Pirates to only two hits. And the Indians were able to touch the Pirates' mound combination of Beazley and Taylor for only

three hits. But Melvin Williams' home run, with McAdams on base by virtue of a single, did the big damage in the fourth for the Indians.

Pirates had runners on first and third in the bottom half of the sixth, but couldn't push across a score.

Yankees w n a m m e d the Dodgers, 13 to 3, in one Thursday night game last week.

Eight runs in the fourth inning were enough for the triumph, but the Yanks also scattered five more runs across the second, third and sixth frames.

Even more lopsided was the other Thursday night contest in which the league-leading Giants blasted the Tigers, 22 to 5.

Fourteen runs were scored by the Giants in the fifth inning. And the big spurge ate up the time limit.

New Palace Movie Slaps at Society

Richard Powell's powerful best-selling novel, "The Philadelphia," has been brought to the motion picture screen by Warner Bros. in the daring production, "The Young Philadelphians," which shows Sunday, Monday and Tuesday at Palace Theater.

An equally powerful cast, headed by Paul Newman, Barbara Rush, Alexis Smith, Brian Keith and Diane Brewster, enacts the story of a brilliant young lawyer who is forced to claw every inch of the way to the dizzy and precarious heights of wealth and power, against the handicap of poverty and the prejudice of Philadelphia's Main Line society.

For Paul Newman, the role of Anthony Lawrence, illegitimate son of Diane Brewster and Brian Keith, marks a move away from the rough and tough parts he has played in such pictures as "The Helen Morgan Story," "Somebody Up There Likes Me," and "Cat on a Hot Tin Roof," for which his performance earned him an Academy Award nomination this year.

Barbecue for Guests

Mr. and Mrs. W. H. Jeans were hosts for a barbecue supper on their lawn Saturday night, honoring their daughter and family, Mr. and Mrs. Merlyn Bruce, Debbie and Charla Jean from Midland.

Mahon House Guests

Mrs. J. C. Rickman and children, Karen, Mark, Scott and Tim, of Lubbock are visiting at Loraine this week with her parents, Mr. and Mrs. John Mahon and other relatives.

In "The Young Philadelphians," Newman plays a Princeton graduate, an Army Officer in the Korean War and finally, an extremely successful corporation lawyer.

In Barbara Rush, Warner Bros. obtained a young actress who has been steadily moving up in public appeal since her portrayals in "The Young Lions" and "Harry Black and the Tiger."

Alexis Smith returned to Warner Bros., where she became a star, to enact the role of the wife of Philadelphia's most important lawyer, played by Otto Kruger. Brian Keith, a respected actor in Hollywood, on Broadway and on television, plays Mike Flanagan, a self-made building contractor.

Probably the most difficult role to cast in the film was that of Kate Lawrence, Paul Newman's mother. The difficulty arose because the actress had to be more than 30 years. Warner Bros. and director Sherman chose 27-year-old Diane Brewster for the role. Miss Brewster has already gained considerable attention for her portrayal of Samantha Crawford in the "Maverick" television series.

Barbara Rush's costumes are among the most expensive ever designed by Howard Shoup. A conservative estimate places their value in the neighborhood of \$25,000. They consist of furs, suits, evening gowns, cocktail dresses, hats, gloves and even white fur muffs.

Cinematographer was Harry Stradling who also photographed "Auntie Mame." The sets were designed and constructed under the supervision of Malcolm Bert. Film editor was William Ziegler and the music was composed by Ernest Gold.

Screen Lovers

Paul Newman and Alexis Smith are lovers in "The Young Philadelphians," Warner Bros. production at Palace Theater Sunday, Monday and Tuesday. Film is based on the best-seller novel.

77 CHILDREN, GRANDCHILDREN

Richburgs Make Father's Day Extra Special with Reunion

By MRS. C. C. HAMILTON
Record Correspondent
LORAIN — Sunday was a fine day for John C. Richburg, who lives 1½ miles east of Loraine, when he had 16 of his children, 34 of his 40 grandchildren and 22 of his 31 great-grandchildren home for a reunion and Father's Day dinner.

He is father of 87 direct descendants. Richburg, a pioneer of the Loraine area, and his late wife, came to Mitchell County in the early 1900's and reared their eight daughters and eight sons here.

The 16 children and the eight daughters-in-law and all the living sons-in-law except one and the 56 grandchildren, and great-grandchildren and other relatives who gathered here from over the state and other states had lunch at noon at long tables under shade trees after invocation was given by the 86-year-old honored father.

The son and daughter-in-law coming the farthest were Mr. and Mrs. Furman (Judge) Richburg, who arrived recently from Spinard, Alaska. Other sons, daughters and in laws present were Mrs. Stacy Pendergrass of Alhambra, Calif.; Mr. and Mrs. James Watkins, Morenci, Ariz.; Mr. and Mrs. Winston Wilson, Alpine; Mr. and Mrs. Lester Richburg, Earth; Mr. and Mrs. Edgar Herm, Ackerly; Mr. and Mrs. Homer Richburg, Mr. and Mrs. J. Nothing else but a dyed-in-the-wool sports car like the Corvette can take a turn with such solid assurance!

It's easy to see where Chevrolet gets its road sense. With big coil springs at every wheel, a firm, wider stance and all of its pounds distributed with painstaking care, Chevy's born with it.

The only thing that may be hard to understand is how it can offer the ride it does, along with so many other luxury-car virtues, and still compete in the low-price field.

We use the word *compete* only in the sense of price. For with a ride as special as Chevy's, real competitors are hard to come by. There's a world of difference between Chevrolet's coil springs at all four wheels and the leaf springs that most other cars still use. Take a Chevy down a snaky back road and you'll feel the difference in the sure way it holds through curves and shoots over rough spots with hardly a ripple.

TESCO Head At Atomic Dedication

J. B. Thomas, president of Texas Electric Service Company and a director of the Texas Atomic Energy Research Foundation, is attending the dedication of the new John Jay Hopkins Laboratory for Pure and Applied Science of the General Atomic Division of General Dynamics Corporation in San Diego, Calif.

The Texas Atomic Energy Research Foundation, an organization composed of 11 investor-owned electric utility companies operating in Texas, is joint sponsor with General Atomic of the world's first and largest privately-financed program in controlled fusion research, which is seeking to develop methods which may make possible the economical generation of electric power through controlled fusion energy.

The foundation and General Atomic are sponsoring a four-year controlled fusion research project, one of several important research programs being carried on at the new laboratory.

The project will be featured in a symposium on fusion research as part of the dedications program. Success in bringing about a controlled, sustained fusion reaction would mean that man has tamed the hydrogen bomb for peaceful purposes and reproduced on earth the energy process of the sun and the stars.

The Texas Atomic Energy Research Foundation was formed two years ago by the 11 utility companies, one of which is Texas Electric Service Company.

"The Place To Go For The Brands You Know"

You get the BIG comfort dividends in your 59 FORD...

Some car's door openings aren't shaped to fit people! So you have to squirm and wiggle... make your body conform to the car when getting in and out.

NO SQUIRM

Doors in 59 Fords are wider — up to six inches wider — and door openings are contoured to fit you! You get in and out of a Ford with greater ease and comfort. The girls really like Ford's doors... for more graceful entries and exits.

To gain a low roof line, some cars end up with higher floor "humps" and thinner padded rear seats... a combination that's mighty rough on the middleman.

NO SQUEEZE

Fords have useable space for six big people. The driveshaft tunnel is lower and rear seats are deeply cushioned all the way across. This means more comfort for all passengers... especially for the man in the middle.

The squeezed-down, shifty seats of some cars aren't comfortable even for hard-headed riders. And they don't keep out excessive sunlight and glare.

NO SQUASH

See how much more head room Ford has. Even big six-footers sit up straight without touching the roof. And Ford's big roof protects all passengers, in both front and rear seats, against the discomforts of excessive glare and heat from the sun.

Greater comfort is only the beginning of the dividends you get in a Ford. You get the World's Most Beautifully Proportioned Car. You get a big dividend in Ford prices... the lowest of the best-selling three. And you get saving dividends that cut costs every mile you drive. See and Action Test a new Ford at your Ford Dealer's. See how you can go finer... with more comfort... for less... in a new Ford!

FROM WASHINGTON

Mahon Reports on Agriculture Policy

By GEORGE MAHON
U. S. Representative

COTTON: There are several items of interest. Certain railroads have instituted action to reduce freight rates on cotton. I have joined with others in asking that this benefit be passed on to cotton farmers in slightly higher purchase and loan rates than those announced by the Department. I believe this will be done in the near future. This may mean about a million dollars to West Texas producers.

GOVERNMENT LOAN LIMITATIONS: Amendments to farm bills have passed both the Senate and the House which would fix limitations on government loan and purchase programs at \$35,000 to \$50,000. I have opposed these provisions. If these provisions should be enacted into law as now written, all farmers, in my judgment, would be affected as a result of the over-all consequence of such action. Quite a large number of West Texas farmers would be affected adversely on a direct basis.

Compromises are being sought which would soften the limitation proposals. One proposal would give any farmer unlimited access to the loan, but would provide that the limitation could not be exceeded at the time the title to the pledged crop is taken over by the government. Details of what may happen are not yet clear, but there is every indication that some limitations on loans and payments will be provided by law.

WHEAT: The House and Senate have passed wheat bills. Agreement between the House and Senate on a final version of the legislation has not been reached. A compromise version raising the support level from 75% of parity to 80% and providing for an acreage cut of 20% has been voted down by the House.

Further efforts to agree on a bill to send to the President are under way. The outcome is uncertain. There is the threat of a veto by the President if the support level is increased,

even if accompanied by a sharp acreage reduction.

MILO: There is nothing new on the grain sorghum front. There is still no limit on plantings and the announced support level is 60% of parity, 10 parity points below the support of last year. The support price will be about 31 cents per hundred below last year.

GENERAL FARM LEGISLATION: Everyone seems to agree that the entire farm program needs to be substantially overhauled. It now appears that this will not be done at this session. The groundwork is being laid and agreements are being sought which would make possible a major overhaul job next year.

FARM LABOR: Hundreds of letters from West Texas farmers indicate serious concern over the proposal that minimum wages be established for farm labor. Farmers complained that they cannot raise wages in the face of dwindling income. Their concern is well-founded.

It continues to be true that there is no likelihood that Congress will pass at this session any of the pending bills fixing minimum wages for farm labor. However, the Secretary of Labor advocates minimum wages for farm workers and he has not backed down from his position that he can, under existing law, in effect fix minimum wages and establish standards of employment for farm labor recruited through the United States Employment Service across state lines. He has referred the issue to the Attorney General. Briefs have been filed in opposition to the Secretary's contention. The matter has been before Attorney General Rogers for many weeks, but he has not acted.

As to Bracero labor, indications are that the program will operate about as it did last year. Final negotiations on the new agreement with Mexico are now underway. The two-year extension of the law becomes effective July 1, 1959.
