CLERKS AND CUSTOMERS LOCKED IN VAULT EARLY TODAY

(By Associated Press)
VALERA, Dec. 20.—Locking two clerks and a customer in the vault, three unmasked men robbed the First State Bank of Valera of approximately \$5,500 this morning. The alarm was not spread until twenty minutes later.

The holdup occurred just after 7:30 o'clock as the bank clerks were preparing to open for business. The vaults had just been opened and currency prepared for the day's routine. One customer had gone in with the clerks.

The three men, entering with pistols in their hands, ordered the clerks and the customer into the vault, scooped up all available currency and closed the vault door. Twenty minutes later other employees of the bank opened the vault, and the alarm was spread.

Bystanders who saw the three robbers leave the bank said they headed toward Coleman in a coupe. Coleman is a few miles northeast of Valera.

They left only about \$15 in the bank.

A bus driver between Coleman and San Angelo reported meeting the car near Valera. Officers in the surrounding territory have been advised to watch for the automobile and its occupants.

Castle for \$450,000 will be entered after 20 days in favor of Miss Bertha Clevenger in a breach of promise case. EXCITED PASSENGERS BREAK WINDOWS TO GAIN FREEDOM

(By Associated Press)
NEW YORK, Dec. 20.—Caught in a subway train during the rush hour, in a tunnel under the East river, while great clouds of smoke rolled up around them, several hundred men and women today trampled each other in their excitement and smashed the windows with their fists.

Police estimated 80 were injured, many of them cut and bruised and all suffering from smoke inhalation.

Suffer from Smoke
Thirty-five were taken to St. John's hospital in Long Island City, where it was said they all had acute bronchitis from the smoke.

The accident occurred when a six-car Brooklyn-Manhattan Transit subway train ran into a grounded third rail in the tunnel under the East river connecting Manhattan with Queens.

In efforts to escape from the train excited passengers broke windows in some of the cars, cutting themselves with glass.

Many Cut and Bruised
Meanwhile fumes of burning insulation seeped into the cars with the result many passengers became excited and began to fight their way out. Windows were broken, and many passengers were cut and bruised.

When the power was turned off, the passengers rushed from the cars to the road bed of the tunnel. Some walked to Queens Plaza station.

CANVASS OF VOTES IS SET

COMMISSIONERS ARE TO MAKE COUNT OF VOTES MONDAY

Date for sale of the \$991,000 bonds, voted here Tuesday for hardsurfing of Highways 53, 9 and 7 in Lubbock county, has not been determined. County Judge Robert H. Bean announced today.

County commissioners will probably set date for the sale when they convene here Monday to canvass returns of the election.

To Sell in Lots
"All the bonds will be issued at once, but will be sold in lots of \$200,000 at a time," said Judge Bean.

"When we get ready to sell any particular lot, the sale will be duly advertised. These bonds will bear not more than 5 per cent interest, and will be issued serially."

Assessed valuation of Lubbock county for 1929 is \$24,012,070. Of this, more than \$18,000,000 is on land and city property, exclusive of personal and railroad properties.

Total bonded and warrant indebtedness of the county at this time, exclusive of the amount of the road bond issue and \$21,500 now outstanding against district 1, is \$211,805.53.

"JEALOUS SPAT" OF FORMER FOLLIES STAR AND HUSBAND

REVEALS HIM A NEGRO; COLOR NOT BARRIER, SHE SAYS

(By Associated Press)
LOS ANGELES, Dec. 20.—Helen Lee Worthing, former New York stage beauty, resumed her place today as mistress of her home in the negro section of Los Angeles after effecting a reconciliation with her husband, Dr. Eugene C. Nelson, from whom she had separated because of a "jealous spat."

The reconciliation followed a meeting in an attorney's office. Both the former actress and her husband said their differences had followed a dispute over another woman and "all has been forgiven."

Airing of Dr. and Mrs. Nelson's marital troubles not only explained the disappearance two years ago of Miss Worthing, but also brought the first intimation to friends here that Dr. Nelson was not entirely of caucasian blood.

"To me he is not what the world would call a negro," Miss Worthing said of her husband. "He is not black in skin or black in heart. I believe he loves me better than anything else in the world, and I know that I do him. No social or racial barrier can separate us."

The former Ziegfeld Follies girl, who dropped from sight in 1927, said she was married to Dr. Nelson in Tijuana in June of that year. For a time they lived in an exclusive Hollywood neighborhood, but later moved to the negro section of Los Angeles.

GOOSE CREATES NEWS ALSO

SIoux CITY, Iowa, Dec. 20

(AP)—When a goose bites a Christmas shopper, it is also news. A live goose was carried along a street in a paper sack, only its neck and head protruding.

A woman shopper brushed against it. The goose, indignant at such behavior in the season of good cheer, hissed and retaliated with a snap of its long beak. The victim screamed and looked around to see who had pinched her.

"You goose," she remarked to the woman carrying the sack. "Yes, my goose," the owner admitted, pointing to the fowl.

GRiffin CASE IS UPHELD BY COURT TODAY

APPEALS COURT HOLDS WESLACO BOX MUST BE COUNDED

(By Associated Press)
AUSTIN, Dec. 20.—The third court of civil appeals today affirmed the Travis county district court in holding that Gordon Griffin of McAllen had been elected district judge of Hidalgo county over Judge J. E. Leslie of Edinburg, incumbent.

The trial court found the county commissioners court of Hidalgo county acted unlawfully in rejecting returns of the Weslaco box and refusing to include the results there in the canvass.

Returns as canvassed by the commissioners gave Judge Leslie the office by a majority of a few votes, but it was alleged the Weslaco box had voted overwhelmingly for Griffin, swinging the election to him.

Didn't Count Votes
The commissioners claimed they did not count the Weslaco votes because the envelope bearing them was unsealed and because of alleged irregularities in the voting.

Leslie, judge of the 33rd judicial district, was the democratic nominee, and Griffin ran on the independent ticket in the general election of 1928.

Griffin sought an injunction in the Travis county district court to enjoin Mr. Jane Y. McCallum, secretary of state, from opening the returns from Hidalgo county, claiming they did not reflect the true result. The court granted the injunction and the case was appealed.

CONGRESSMAN KAYNOR OF MASSACHUSETTS AND FOUR OTHERS ARE KILLED IN CRASH

(By Associated Press)
WASHINGTON, Dec. 20.—Five persons, including a member of congress and his secretary, were hurled to death today in the worst air crash in the history of Bolling Field.

Representative William Kaynor of Massachusetts, en route by air to his home in Springfield, along with Stanley B. Lowe, his office associate, were passengers in the plane.

Captain Harry A. Dinger, pilot of the plane, Arthur A. McGill, civilian air employee, and Private Valdemar Kizma, mechanic, were the others who lost their lives.

The big plane had just taken off from the field and had reached a height of about 400 feet when it seemed to hesitate. It then turned downward, striking the ground with a tremendous crash.

Inquiry Pending
Bolling Field officers immediately closed sources of information pending an inquiry, but news of the accident reached the capitol first from a woman who made the trip by automobile. She was in a hysterical state and could not immediately identify any of those killed.

Reports then spread like wildfire over the city, highly exaggerated in most instances, some of them placing the number of congressional victims as high as five.

Representative Kaynor, of Michigan, was first listed with the dead, but his office quickly disposed of this erroneous report.

Was First Journey
Lowe, who is also a resident of Springfield, and McGill were requested by Representative Kaynor to accompany him on the flight to Massachusetts. Kaynor only recently had been placed on the house military committee, and today's tragedy ended his first journey in an airplane.

Captain Dinger was considered one of the most expert aviators in the service.

LUBBOCK MEN TO AID BONDS

LOCAL BOOSTERS WILL ATTEND MEETING IN LAMESA TONIGHT

Five Lubbock county good roads boosters, smiling over victory of a \$991,000 road bond election here last Tuesday, will attend a mass meeting in Lamesa tonight of highway enthusiasts who seek the success of a \$1,250,000 road bond election at the polls in Dawson county tomorrow.

"After success of our own campaign," said Charles F. O'Neill, who will head the representatives from this city, "we feel that Lubbock should give every cooperation possible to the adjoining counties of the South Plains and support any project for road development. We have only just started on a program of development which eventually will end in a great network of paved highways extending throughout this region."

Henry J. Price, president of the Chamber of Commerce expressing a desire for a return of friendly relations and regretting on behalf of the "commercial interests of Laredo, the unfortunate incident that has prompted the Mexican government to remove its consular office," Governor Moody told the secretary he hoped the policy of the government at Washington with reference to foreign relations would permit "the Mexican government to profess friendliness toward the United States and at the same time offer the affront of closing the door at one of the principal ports between the two nations."

Feel Place Not Safe
Secretary Stimson in answer to the Governor's first telegram said he understood that the action of the Mexican government "was not in any sense an attempt at retaliation for a single incident, but because the Mexicans feel that from several incidents lasting over a considerable period of time Laredo is not a safe point for their public citizens to pass in traveling."

He added that "Mexicans find it

GRAND JURY REPORTS CRIME WAVE IS ON INCREASE IN LUBBOCK

RECOMMENDATIONS GIVEN OFFICIALS, ASK BETTER JAILS

Twelve men pointed fingers scornfully at crime in Lubbock county late Thursday.

Such was revealed in a report of the grand jury for the October term of the 99th district court, filed yesterday. The jurors urged that a systematic record be kept of all facts dealing with every offense.

"In our investigations," reads the report, "we find that the numerous cases on the docket of the various justice courts for grand jury investigation, and all the information, witnesses names and addresses, etc., cannot be kept up with from memory. Therefore, we recommend for the use of the district attorney and grand jury that arresting officers keep written notes regarding the facts of each case he is concerned with. We believe this practice will save time, eliminate duplications and lessen the chances of omitting some things that the grand jury should investigate."

Ask Drinking Cops.

The report further reads: "The jury rooms, grand jury rooms, and other public places in the courthouse are not equipped with sanitary drinking cups as required by law, and we recommend that such

places be equipped with such cups.

"Prior to a recent jail break in this county it seemed to be the custom for any number of visitors to visit prisoners at the jail, such visitors in some cases being both men and women, and young boys and girls. We are informed by the sheriff that such custom has been discontinued and we commend his action and recommend that strict rules be referred to visitors at the jail be continued."

Jail Inadequate.

"Our inspection of the county jail shows it to be in reasonably good condition considering the crowded space and the fact that it is now inadequate to fill the needs of Lubbock county."

"We have investigated all matters that have been brought to our attention and herewith submit 10 felony indictments, making a total for the term of approximately 17."

In connection with its regular report the grand jury made a recommendation to the mayor and city commission of Slaton regarding the condition of the city jail there. Stating that it was not in their province to order improvement, members of the grand jury explained that it was their legal duty to make recommendations. These follow:

Recommend Improvements.

"It is hardly deemed necessary to call your attention to the legal duty of the city to see that reasonable effort is made to protect the health and well being of the prisoners in custody of its officers, and if, as in such a case as this, no facilities for heating the jail are provided and a

prisoner should die or contract disease as a result, it is the opinion of the grand jury that not only would the arresting officer and his bondsmen be liable in damages, but the city of Slaton and the mayor and commissioners would probably share in that liability. It would seem that the cost of such improvement would be nominal.

"It might also be mentioned that the location of the present jail in Slaton is such as to constitute a hazard to the arresting officers in that its location makes it easily accessible to anyone who might desire to convey to a prisoner a pistol or other instrument useful in making an assault upon an officer in effecting a jail delivery."

The report was signed by Marvin E. Hibern, foreman of the grand jury.

MAN GETS 5 YEARS IN STABBING CASE

STINNETT, Dec. 20. (AP)—Blackie Greer of Borger today was convicted by a jury here of the fatal stabbing of Homer L. Brown in Borger last August. His punishment was assessed at five years in prison.

This is the last week of this term of court here. District Attorney Clem Calhoun, sent here to clean up alleged lawlessness by Governor Dan Moody, has secured more than a score of convictions, a record for this district.

OWENS LOSES HIS APPEAL

TULSA LEGISLATOR AND OIL MAN MAY HAVE TO SERVE TERM

(By Associated Press)
OKLAHOMA CITY, Dec. 20.—O. Owens, Tulsa legislator and oil man, who led a movement which eventuated last winter in the impeachment of three justices of the State Supreme Court, lost today in his effort to obtain his freedom from a jail sentence imposed by the Supreme Court, for alleged contempt.

W. L. Murphy, assistant attorney general, received a telegram from the clerk of the United States Circuit Court of Appeals at Denver, saying the court had handed down an opinion upholding the State Supreme Court's verdict sentencing Owens to 12 months in the Oklahoma county jail and fining him \$5,000.

Affirms Order
The court affirmed an order of the United States District Court in discharging a writ of habeas corpus and held the State Supreme Court judgment was not void and not in violation of federal rights.

Unless further legal steps are taken, Murphy said, Owens will have to pay the fine and serve out the sentence of which he already has served about one month.

The contempt proceedings arose from a petition filed by Owens with the State Supreme Court for a rehearing in a case involving the Riverdale Oil company of which Owens was vice-president and general manager.

The three supreme court justices, J. W. Clark, Charles M. Mason, and Fletcher Riley, against whom impeachment charges were preferred, were exonerated. Only two of them were tried.

NEW METHODS IN STEEL MANUFACTURE SEEN IN \$350,000,000 COMBINATION

(By Associated Press)
CLEVELAND, Dec. 19.—Revolutionary developments in the steel industry through the unified application of many kinds of the newest scientific processes of steel production is the outcome foreseen here today of the \$350,000,000 Republic Steel merger which was consummated yesterday under the leadership of Cyrus B. Eaton.

New kinds of steel and new ways of making them will be among the important results which hitherto have been had separately.

By means of the merger Mr. Eaton intends to make developments in the steel industry within a period of months that otherwise would require years and among the most important use of these will be the adaptation of stainless steel for extensive use in the manufacture of automobiles.

FOG HALTS SHIPPING

HEAVY CURTAIN HOLDS BOATS FROM LEAVING NEW YORK BAY

(By Associated Press)
NEW YORK, Dec. 20.—Shipping was at a standstill in the New York harbor Thursday as the heavy curtain of fog, which was blamed for the collision of two ships in the lower bay Wednesday, continued to hold the coast line in its grip.

Fifty vessels were fog-bound, unable to either leave or enter the harbor, the Clyde line Argosquin which rammed and sank the Bermuda-bound Fort Victoria without loss of life, was still anchored near Ambrose Lightship, unable to penetrate the dense mist back to her pier. The Argosquin's commander reported to his offices here that his passengers were comfortable and he

would not venture up the harbor until the weather cleared.

Only two vessels left the bay Thursday, the Dominion liner Madison with 27 passengers bound for Norfolk, and the pilot boat New York, returning to her position at the harbor entrance after aiding in the rescue of the Fort Victoria's passengers and crew. No ship have been reported arriving at the channel entrance in the last 24 hours.

Eleven out-bound ships, including two Trans-Atlantic liners remained at their piers.

More than 20 in-bound passenger ships were anchored outside of the harbor.

EARLY REPORT TO BE ASKED

SENATE DRYS INITIATE DRIVE TO FORCE STATEMENT

(By Associated Press)
WASHINGTON, Dec. 20.—Some Senate drys began a drive today to force an early report on open hearings by President Hoover's law enforcement commission.

Two Democratic drys—Senators Harris, Georgia, and Glass, Virginia—gave notice that "not another dollar" will be appropriated to the commission unless it submits some sort of report on its first eight months of work.

Senator Glass, author of the \$250,000 fund for the commission charged the commission had "shunted aside the original purpose—investigation of prohibition."

Senator Harris said "every enemy of the prohibition bill wants to keep the commission there without any report. He said he would propose an amendment to the next bill appropriating money for the commission requiring it to have open hearings."

However, it was another dry—Senator Jones, republican, Washington—who blocked action today on the resolution of Senator Harris requesting President Hoover to have the commission submit a preliminary report to the senate to be used in connection with dry law enforcement appropriations.

GOLFDOM'S BIG SHOTS SEEK PRIZE IN PASADENA OPEN

IN THE REALM OF SPORTS

WITH ALLAN CARNEY
Journal Sports Editor

Selection of all-state football material is absorbing much of the time for the grid enthusiasts throughout the state and high school players from this section are getting their share of honorable mention. Lubbock High school boys at least three outstanding gridiron stalwarts who demand the attention of the critics making the all-star selection.

W. D. Lawson, the Westerner field general, is beyond a doubt one of the best all-around quarterbacks in the state, and in a season that lacks brilliant signal barbers, should make a strong bid for the post on the mythical eleven. Besides being an extremely capable field general, Lawson is a passer that few can surpass and can carry the mail through the line with the best of them, not to mention his value as a defensive back.

Yancey Price, Lubbock's star wingman, would be an excellent figure on any high school team in the state. A pass snatcher of rare calibre, Price rates with the strongest defensive ends and in speed he stands out above the majority of gridiron players. Yancey's ability to do his share of the leather tuck has made him even more valuable to the 1929 Westerners. Despite the current demand here that Price be shifted to the backfield, we believe that the average coach who watched his performance at end during the past season would think several times before removing him from his present position.

The other Westerner that deserves consideration is Moody Smith, the leading ground gainer for Lubbock during the past two seasons. Moody isn't the flashy streak that we hear so much about on the championship teams, but as a blocker and runner he has proven his equal. His uncanny ability to follow interference and pick his holes has enabled Smith to "go to town" against the majority of the teams the Westerners have met. An effective side-step and spin has made him unusually hard to tackle. Both Lawson and Smith gained consistently against Amarillo and Cleburne—two teams that are ranked among the strongest clubs in the state and their full-season performance certainly stamps them as all-state calibre.

Freddie Nicklaus of Amarillo is mentioned along with the strongest centers in the state, although there is some stiff competition for this post down in Central Texas. The sandy pivot man was a tower of strength in Amarillo's defensive wall and is an excellent snapper-back. Hagler of Cleburne was the all-district center in Waco's section and appears to hold the edge for the position.

A disorganized crew of college basketball candidates made a remarkable showing at the Tech gymnasium Wednesday night when Coach Victor Payne sent his charges through their second practice session in two weeks. The session was in the form of a practice game with the Lubbock Hornets and the city team was smothered under a 52 to 11 count. Whether this can be taken as an indication of the club's strength remains a question; several regulars were missing and many on the floor were playing strange positions. The cagers had been given a chance to practice since the break before because of the numerous social meetings at the gym and the formations used in the game were given them as the contest progressed.

Coach Payne has discovered some promising basketball material from the ranks of last year's freshman squad. Among these Grimes, Maxwell and Stockwell are the shining lights. By getting down to serious training immediately after the holidays the Matadors should be able to get going at top speed when their first regularly scheduled games come around in January. Several shifts are due to be made with the veterans on the squad. Fisher, last season's pivot man, will go to forward center, and Tacklock will be held at center, but will drop back to a defensive guard position. Guards are at a premium, but the Vincent brothers and Stockwell will likely settle this problem.

RALLS CAGERS WIN OPENING CONTEST

(Special To The Journal)
RALLS, Dec. 20.—Ralls Jackrabbits opened their basketball season with a bang here Thursday night by trouncing the Plainview Bulldogs 23 to 16.

Piling up a commanding lead in the first half, the locals easily outclassed the cagers from the Hale county capital. Coach Leveaux used two complete teams in the game. The score at the half stood 19 to 9, favoring Ralls, and the Bulldogs came back in the closing period to outfight the Rabbits, but were never able to over come the long lead. Richardson, Ralls center, carried off high point honors with eight counters. Perrell, forward, and Tison, guard, led the scoring for the invaders with six points each. Tonight the Jackrabbits will meet the Floyd quintet.

TILT BETWEEN SCHOOLS TOPS CLOSE SCRAPS

PORT ARTHUR IS BY NO MEANS UNDERDOG IN CONTEST

Throughout the length and breadth of the vast expanse of the state of Texas, there is no team to dispute the right of the Breckenridge Buckaroos and the Port Arthur Yellow Jackets to fight it out for the interscholastic League football crown.

From an annual aimless scramble in which sometimes like a dozen teams ended up with a claim to the title, the Interscholastic League has advanced to its present efficient status. The state race has been transformed into a closely-knit affair, with the winner recognized as champion.

Celebrates Tenth Year
Saturday on the Cotton Palace gridiron at Waco, the league, said to be the largest and most compact schoolboy athletic organization in the country, will celebrate its tenth year of existence when the rampaging Buckaroos from the Oil Belt of West Texas tangle with the fighting Jackets of Tom Donlin from the Gulf Coast region that has yet to produce a high school champion.

The race just coming to a close has been the most successful in the history of the state league. Not a school that entered the chase was forced to withdraw for any reason and eligibility rules of the league are notably strict.

In only one year since the league was organized did the football race fail to produce a recognized champion. That was in 1920, its first year, when Cleburne and Houston Heights battled to a scoreless tie at Austin. The game was not played off.

Big Crowd Expected
Waco is all set for the title scrap and when the time comes for the final curtain to drop Saturday, the Cotton Palace is expected to be filled to capacity. Some 3,000 visitors from the two contending clubs alone are expected at the McClellan county capital for the contest. A delegation of Wacoans, including the high school band and pep squad, the fireman's band, chamber of commerce and city officials, are to meet both special trains into the city.

Sentiment, as applied to the prospective winner of the coming high school classic, is built upon the sands. Five days ago, when it became known that Port Arthur and Breckenridge had met for the state schoolboy title, there was a disposition among fans and critics alike to consider the hard-riding Buckaroos as good as "in." Breckenridge had met its toughest opposition, and consensus said: its grapple with Port Arthur would be in the nature of an anti-climax.

Shift In Sentiment
That, however, was five days ago. There has been a remarkable shift in sentiment since then. It has become noted about that after all Port Arthur has quite a football unit and has no intention of offering itself as a sacrifice for a Breckenridge holiday. The state has discovered that the Jackets have eight men in their line who played against the Abilene Eagles in the finals last year and that the 1929 Port Arthur eleven is at least fifty per cent stronger than the team that lost 38-0 to Abilene last year.

The South Texas team is right now at the top of its playing form and is certain to give the Buckaroos a close call for the championship.

HELEN SILENT ON MARRIAGE

HONEYMOON OF COUPLE IS UNANNOUNCED; WED MONDAY

(By Associated Press)
BERKELEY, Calif., Dec. 20.—Helen Wills, world tennis champion whose ability to conceal her emotions on the tennis court has earned her the sobriquet of "Little Poker Face" had one secret the world was anxious to know today—and she was keeping a "poker face" on that in answer to all questions. The question was where are Helen Wills and Frederick S. Moody, Jr., her husband to be, whose wedding date was announced yesterday, going to spend their honeymoon? Rumors that they would sail down the Mexican coast on a private yacht were denied by Mrs. C. A. Wills, mother of the tennis champion. Mrs. Wills said the bride would not wear the conventional white at the ceremony which will take place Monday noon in the Little St. Clements Episcopal chapel in Claremont, Berkeley. She hinted her daughter would wear an afternoon dress.

Smad Jolly is making his new owners, the Chicago White Sox, happy if they've been reading of his exploits in Coast League winter play. The big outfielder recently purchased by the Sox is hitting the apple at a .850 clip. In one stretch of five games he poled seven home runs. Joe Smith, mid-get manager of that handsome Philadelphia, Tommy Loughran, is on the warpath because Mr. Tunney said "Loughran lacked knowledge of the finer points of boxing." Smith

wants to know why Gene avoided Tommy after receiving a boxing lesson in the "Phil's" ball park in 1922.

"Tunney is a bum sport when he tries to cast any reflection on Loughran's ability," declares Joe. Three rifle volleys were fired over the grave and taps were blown on an Army bugle as the casket bearing the body of "Puzzy" Woodruff, noted sports writer of Atlanta, was lowered in Crestlawn Cemetery, Atlanta. "Puzzy" was buried in a blood-stained overseas uniform that he brought back. The blood on the uniform was not his own but that of a foreign youth who died in his arms as "Puzzy" led his men over the top at Soissons. "He was a nice boy and I liked him," declared "Puzzy" in explaining the attachment to the uniform.

TECH CAGE OUTLOOK IS EXCELLENT

PROMISING PLAYERS TO BE IN LINEUP; WILL START DEC. 30

Candidates for the Texas Tech basketball quintet will be given a full week of the Christmas holiday see on in which to back in the war with their family firesides, but at ten o'clock on Monday morning, Dec. 23, Coach Victor Payne will expect the full squad back on hand to inaugurate an intensive period of training prior to the opening of the school's schedule on Jan. 7.

The college dribblers looked the part of champions Wednesday night when they handed the Lubbock Hornets a sound trouncing to the tune of 52 to 11, despite the fact that several regulars were missing and others were playing out of their regular positions. Coach Payne's charges, getting their signals as the game progressed, completely smothered the city club under an avalanche of baskets that Jack Hays and his mates were never able to overcome.

From present indications the hot shots of the Matador five will be a pair of flashy cagers from last year's freshman squad. Grimes at forward is practically certain of filling one of the forwards and Maxwell, frosh center last season, is me too a strong bid for the other. Fisher and Hodges are the veteran basket tossers that will be counted upon to do their share of the scoring.

Tacklock, another veteran from last year's varsity, will likely draw the center assignment this season, dropping back to a guard post on the defense. The Vincent brothers and Stockwell, another graduate from last year's freshman team, will probably carry the burden in this department. If Coach Payne can develop a high-powered scoring machine, his defensive game will take care of itself.

A practice game with the Littlefield city team will give the Matadors their first test after the holidays. Andy Hemphill's crew has won the majority of its games this year, one of which was from Tech early in the training season. The first game on the regular schedule comes on Jan. 7 when the Matadors go to Plainview to meet Coach Frank Kimbrough's Wayland Jackrabbits.

A return game with the Baptists will be played here January 16. Practice twice daily will begin when the college basketball resume training here December 30. This program will last on through January 2, the day for registration.

1 MINUTE INTERVIEW

Ty Cobb, back from a four-month visit abroad, is ready to resume an active interest in big league baseball. Cobb admitted as much at the series, which he attended as a newspaper expert. Cobb is willing to again take a whirl at managing, if the salary is right, but would prefer buying an interest in a big league club and directing its policy as general manager, rather than bench leader.

Of the foreign countries Cobb visited he liked Italy best. Being of the Mussolini temperament himself, he is keen for the leader of Italy and the great progress the country has made under him.

"Everyone is working in Italy," says Cobb, "because Mussolini doesn't tolerate loafers and the country is making great strides industrially. I got a great kick out of walking on the Appian Way and recalling that the famous highway was used in the days of Caesar. I liked Rome and Venice better than any cities I visited while abroad. Mark's Square in Venice, about eight in the evening, is all too wonderful to describe. It was the big thrill of my trip."

London is a beautiful city and England a great country but industrial unrest appears everywhere in Great Britain. I never saw so many unemployed people. Like Italy, everything is all business in Germany.

France was the big disappointment to me. The French look on the Americans as a lot of "hicks" and if you can't speak French, be prepared to be taken for a rough ride. "Japan is making the greatest strides in taking up baseball and England is showing considerable interest. In Italy and Germany they hardly know such a game as baseball exists."

Cobb, prior to the series, picked the Athletics as the winner and said Connie Mack's strategy would be the dominating factor.

FOUR FREED OF CHARGES

FRANKLIN CASE CLOSED
WITH JURY VERDICT
LAST NIGHT

(By Associated Press)
MOUNTAIN VIEW, Ark., Dec. 20.—A jury's verdict has wiped away charges of murder against four mountaineers, whose chief witness testified he was the Con- nile Franklin they were accused of slaying.

Acquittal after a trial which added \$8,000 to Stone county's already heavy debt offered an expensive answer to the question of the identity of the 33-year-old farm hand upon whom the defense based its case.

Judge Steps Applause
Judge S. M. Bone, who estimated the cost of the trial, stopped a burst of applause after the verdict. He asked the community to forget the bitter feelings which arose when the man appeared to challenge the story of Tiller Rummier, 17, who said Franklin, her lover had been kidnapped by nightriders and presumably slain.

The jury received the case late Wednesday night, and its deliberations were extended until late yesterday at the insistence of Judge Bone, who said the county could hardly afford the expense of a retrial. Its citizens will pay in taxes almost one dollar per capita for the trial as the last census listed 8,877 inhabitants.

A murder indictment against a fifth man, Alex Pulks, was dismissed. Those on trial, Bill Younger, Joe White, Herman Greenway and Hubert Hester, were freed, but the latter two were placed under \$2,500 bonds to answer charges of attacking the Rummier girl.

Serving First Term
Representative Kaynor was serv-

ing his first term in Congress, having been elected in November a year ago. First arrivals at Bolling Field after the accident were met at the gates by sentries who had orders to allow no one to enter, but even these precautions failed to prevent news of the accident from leaking out.

The assistant secretary of war in charge of aviation, P. Trubee Davison, was one of the first to be informed, but in the confusion which ensued even he had only incomplete information. Likewise word was transmitted to the White House, but with the exception of names of those killed, no details were available.

Weather Conditions Perfect
Weather conditions were perfect for flying, with hardly a cloud in the sky when the plane ascended. Cause of the accident, therefore, must be attributed to other than atmospheric conditions.

Captain Dinger was a resident of Mayport, Pa., while McGill, said to be a close friend of Kaynor, left his forwarding address, always taken at the field when civilians go into the air, as in care of Mrs. Sullivan Burgess of Scarsdale, N. Y.

The crash occurred, some ground observers said, when Captain Dinger attempted to bank his plane with the wind. It seemed to come down as if such a maneuver was intended, and then it failed to rise at the proper time.

Was A Tri-Motored
The wrecked machine was a Fokker tri-motored plane known as the "C-5." This ship has unusual power.

Those aboard were killed instantly. Their bodies were removed without difficulty, and the wreckage was burned within an hour after the big machine struck the ground.

News of the crash threw a dampener on activities of the house, where Kaynor, although a new member, had become popular. The house decided to adjourn out of respect for him.

An immediate investigation was begun by Secretary of War Davison, who had traveled thousands of miles in the plane, known as one of the best in the Army.

Mechanics at Bolling Field said the big plane warmed up perfectly before it started on its journey. The machine was not fully loaded and Army officers believed it could have continued on two motors if only one had failed.

difficult to understand that you have not found it possible in the past, either by your authority or by your advice, to ameliorate the conduct of the lagel offices of the county.

Hinting that probably only removal of District Attorney John Valls of Webb county, whose threat to arrest General Calles, former Mexican president, on an indictment pending in his court charging the leader with conspiracy to murder two Mexican generals whose bodies were found in the Rio Grande, would satisfy the Mexicans, Secretary Stimson suggested it might help "if we were in a position to make clear that the idea which the Mexicans seem to entertain about Laredo not being a safe place for its public citizens to travel is erroneous."

GIL LEAVES CASE TO FOREIGN DEPARTMENT
LAREDO, Dec. 20 (AP)—President Emilio Portes Gil of Mexico today had referred their request for reopening of the Laredo consulate and customs house to his department of foreign affairs.

In a telegram, replying to one sent Wednesday by the Laredo chamber of commerce, President Gil said:

"I have taken note of the contents of your wire, which I am transmitting to the department of foreign relations for its information and for the purpose of deciding on the petition you make regarding the closing of the Mexican consulate there. Emilio Portes Gil."

Valls Is Busy
District Attorney John A. Valls, whose attempted arrest of former President Calles led to the Mexican government's action, was asked today whether he would comment on the stagnation in business suffered by Laredo business men due to the ban on Mexican trade.

"I will be too busy the next few days answering letters and telegrams," he said, "to comment. Most of them, including one from Paris, commended my conduct, and I also have received a number of commendatory letters from Mexico."

Mrs. Cope, Of Breckenridge,
Says That It Has Completely Relieved Her Digestive Troubles

"I have been bothered by digestive troubles for about a year but Orgatone is entirely relieving my ailments," said Mrs. Charles Cope, wife of a well-known farmer who lives on Route 1, Breckenridge, Okla., while talking to an Orgatone representative. "I had a bad taste in my mouth every morning when I first got up," continued Mrs. Cope. "I was often inclined to be bilious and had a burning pain in my stomach and throat. I frequently had palpitation of the heart caused by gas on my stomach and had some trouble with constipation."

"I saw in the paper where so many people were finding relief for their troubles through Orgatone that I bought a bottle and after taking only two bottles I am more than pleased with it. I have no more trouble with the burning sensation in my stomach and the bad taste in my mouth is entirely gone. I am not bothered with the gas on my stomach and my heart does not palpitate as it did. The constipation is entirely relieved. I think Orgatone is fine and I am glad to tell others about it."

Genuine Orgatone may be obtained in Lubbock at Bowen's Drug Store.

Under the direction of Mrs. L. J. Von Tungen, boys and girls choral clubs of the high school passed through the halls of that building shortly before noon singing Christmas carols to officially usher in the season.

TWO NATIONS IN AGREEMENT

JAPAN AND U. S. SEEK TO CUT COMPETITION IN NAVAL WORK

(By Associated Press)
WASHINGTON, Dec. 20.—A common Japanese-American objective to halt competition in naval building was said by Secretary Stimson today to have been revealed during conversations between the Japanese delegates to the London naval parity and the United States officials. Simultaneously, Stimson issued a formal statement defending the conduct of the American-Japanese conversations and censuring the Washington Post for an editorial characterized by the secretary as having "the deliberate intention to discredit our government before the Japanese delegation."

Adams Has Statement
A similar statement was issued by Secretary of the Navy Department Adams.

A final joint statement by Hideo Watazaki, chief Japanese delegate, and Stimson, concerning an hour and a half meeting at the state department Thursday morning, was issued shortly before the Far Eastern mission left for New York on the Congressional Limited at 4:25 p. m. The delegation embarks for London Monday.

This joint statement read: "The discussion, like that at Woodley (secretary Stimson's home where the first meeting occurred), was concerned with the general philosophy underlying naval agreements and the opportunities of the coming conference. It took up the good results between the United States and Japan of the Washington conference and the possibilities of continuing and increasing these results."

"The agreement in the objectives of both countries was established. Then, in a very frank and friendly way, each delegation presented the board outlines of its position. This discussion did not go into details or figures, which is the province of the conference (London naval) and should be done there where all the participating nations will be represented."

The Washington Post editorial had commented unfavorably upon the fact that Secretary Adams had been omitted from the conference with the Japanese and urged that it was "highly advisable" that the naval secretary should have been present at Thursday's final meeting between the Japanese delegates and American officials.

HOSPITAL BILL IS GIVEN APPROVAL

WASHINGTON, Dec. 20. (AP)—By accepting senate amendments to the Rogers bill authorizing \$15,000,000 for construction of new veterans hospitals, the house completed legislative action today and the measure awaits the signature of President Hoover to become law.

The action met the approval of O. L. Bodenhorn, national commander of the American Legion, who said in a statement that it "shows a genuine spirit on the part of congress to do the right thing by our disabled comrades." He described it as a "fine Christmas gift."

The bill was amended yesterday in the senate to raise the figure from \$14,000,000 to \$15,000,000 to provide for additional hospital facilities.

The funds will be expended in many sections of the country. Texas was allotted \$1,500,000.

MUTUAL WELFARE LEAGUE IN AUBURN PRISON CAUSE OF RIOT, REPORT SAYS

(By Associated Press)
ALBANY, N. Y., Dec. 20.—Colonel George F. Chandler, in his report made public last night the Auburn riot of last week, says "that a veritable reign of terror was obtained in this prison through the machinations of criminals in control of the Mutual Welfare League." He recommended to Governor Roosevelt the abolishment of that organization.

The report also recommended employment of at least 50 more guards, immediate relief of overcrowding, segregation of incorrigible prisoners, withdrawal of special privileges, increase of allowance for prison food,

and the employment of a sufficient civilian staff to handle lines of communication from the institution to the outside world.

This report was based on an intensive investigation by the organization of the state police into all circumstances attending the outbreak at the Auburn institution.

A woman recently died in a hospital at Zurich, Switzerland, just a year after a fete was held to mark her fortieth year in the institution where she was confined because of a mysterious malady.

WISCONSIN'S REALTY MOVE IS EXPLAINED

REAL ESTATE CHIEF TELLS WHY TEXAS LICENSES FAILED

(By Associated Press)
MILWAUKEE, Wis., Dec. 20.—With no intent of discrimination against geographical sections of Texas, or against legitimate business operations, the Wisconsin Real Estate Board has denied licenses to three Texas firms desirous of operating in Wisconsin. John L. Newman, secretary of the board, said today.

Texas firms already licensed in Wisconsin are being heard prior to a renewal or rejection of licenses for 1930.

Protecting Buyers

The board, he said, was authorized under state law as a license granting body for the sole purpose of protecting Wisconsin buyers and legitimate realtors, whether from Texas or any other state. The board under the law has definite obligations, Newman said, when presented with convincing proof of trustworthiness and competency of a petitioner firm, to grant licenses permitting operation in Wisconsin.

Unfortunately, Newman said, the impression has been given erroneously in Texas that Wisconsin discriminated against Texas realtors and has the intention of "passing a law" to forbid Texans from land operations here. No such law, he said, was contemplated.

Cites Florida Case

In dealing with the present hearings which resulted in licenses being denied three Texas firms, Newman cited the case of the Durham Tropical Land company of Florida, which was refused a license and took recourse to the state supreme court in 1928. The court upheld the board's refusal on the ground that the company failed to demonstrate "competency and convincing trustworthiness."

While telegrams pour in from the board's headquarters from Texas chambers of commerce protesting the "discrimination" Newman said he welcomed outside enterprises when carried on in the state in the same manner as by other reputable firms. The present cases of refusal, he said, were based upon findings of the board as a result of study of the firm's operations.

The purpose for which the land was to be sold, the methods of sale, the price at which the land was to be offered, "dangers" concurrent with the purchase of the land, and the fact that the land was offered for "investment" rather than residence, entered into details of license, he said.

It was found, he said, that some claims relating to quality of the land offered for sale could not be substantiated. W. E. Webster, vice-president of the board, went to the field to study the problem, and the board's position was influenced by his findings, Newman said. The firm's in some cases, he said, resorted to "bally-hoo" salesmanship, not compatible with good business.

The Wisconsin board, he said, desired nothing more than did similar bodies in Texas—to encourage without discriminatory laws or regulations, business enterprise beneficial to the residents of the state and to protect them from possible hazardous enterprise.

Farmers' Union Is Loser of Warehouse

YOAKUM, Dec. 20. (AP)—Fire of undetermined origin destroyed the Farmers' Union Warehouse here last night. Fighting the fire was dangerous because of the explosion of sulphur barrels. Firemen also were hampered by freezing weather. The loss was estimated by owners at \$50,000.

Petroleum produced in Venezuela last year totaled 108,000,000 barrels which is more than five times that of 1925.

Rushing to the truck to answer the second alarm, they found the truck ablaze.

BAND REAPS \$75 IN ITS CONCERT

Proceeds of the concert of the Lubbock high school band totalled approximately \$75. The fund to be used in the purchase of new uniforms, school officials announced today following a program rendered last night under direction of H. A. Anderson.

D. O. Wiley, director of the Simmons University Cowboy band, who attended the concert here, directed one of the numbers. He praised the band as one of the best high school organizations of its kind in the state. A letter was read at the concert by M. H. Duncan, superintendent of public schools, in which Charles F. O'Neil, chairman of the Lubbock County Good Roads association, expressed thanks for the part the band played in Tuesday's election. A check for \$25 toward the uniform fund also was endorsed as the road organization's contribution.

Local Officers Back After Trip To Pen

Deputy United States Marshal Oscar Brothers and J. P. Edgar, both of Lubbock, returned yesterday from Chillicothe, Mo., where they delivered a prisoner to the Federal penitentiary.

Dodson, San Angelo oil operators, have sold their interest in the Black Arrow oil company, which they and a group of California oil men organized two years ago with offices in Los Angeles and San Angelo, it was learned here today. Purchases were Ray D. Robinson, Loren L. Hillman and Carl T. Long, all of Los Angeles, who will become stockholders and directors.

HIDALGO TO AID IN PROBE

**BAKER SAYS FEDERAL
GRAND JURY WILL
BE GIVEN HELP**

(By Associated Press)
EDINBURG, Dec. 20.—A. Y. Baker, sheriff of Hidalgo county, and other members of the county administration, will welcome another probe of affairs in Hidalgo county by a federal grand jury, and will lend all possible aid to such an inquisitorial body. Sheriff Baker said today after being informed of reports from Washington that a second federal grand jury investigation of the county's affairs will be instituted at Houston.

"We will welcome another investigation," the officer said. "In fact, we are anxious to cooperate with the federal district attorney and the grand jury in any investigation they care to make."

"Grand jurors in the first investigation at Brownsville the other day heard only one side of the evidence. It is our purpose if another investigation is opened to offer testimony dealing with reported intimidation and other acts of the organization which has been so active in the denunciation of the present Hidalgo county administration."

**BAKER SAYS HE IS
UNDECIDED ON RACE**

EDINBURG, Dec. 20.—A. Y. Baker today refused to comment on a statement made in Austin by J. D. Moore, Jr., in which he said he understood Baker would not be a candidate for re-election as sheriff of Hidalgo county.

Baker said he had not made up his mind just what he would do next year so far as politics were concerned. He said he had been busy attending to personal interests which had suffered from the lack of personal attention.

"I have been in politics for many years and it is hard for me to step out," he said. "However, I have not considered next year's race. Some of my friends have been wanting me to make the governor's race, and naturally I feel highly complimented with their faith in me. I may have some announcement after the first of the new year."

Has New Plan

NEW YORK.—Fourn's method of unbecoming speechmaking at a banquet, Alfred E. Smith, Mayor of New York, and others saw themselves talk at a dinner given by Joseph Johnson, commissioner of public works, to Winfield Sheehan, film executive. All the vocalization came from film.

STATION HELD UP

**Bandits Take
Prisoner From
Police**

PITTSBURGH, Dec. 20.—Two gunmen last night held up the police station in Wilmerding, near here, relieved Chief of Police J. B. McGuire of his revolver and locked him in a cell, then released a prisoner and fled.

The man released was docketed as Steve Mocham, alleged bandit, arrested Thursday afternoon.

Fearing the gunmen would attempt to free Thomas Miker, arrested with Mocham, Miker was rushed under heavy guard to the Allegheny county jail here.

Railroad Strike In Mexico Ends Today

MEXICO CITY, Dec. 20.—The strike on the Mexican railway which lasted ten days, ended Thursday when train service was resumed between Mexico City and Vera Cruz.

The strikers won their points. President Portes Gil, as arbitrator, gave a verdict obliging the road, which is a British-owned concern, to sign a collective labor contract as demanded by the employees. He also held that the strikers should be given wages covering the entire time they were idle.

There are fewer bathtubs in the United States than there are automobiles. But then of course Saturday night comes only once a week.

SIGNIFICANT SOCIAL LIFE CHANGES OF AMERICA TO BE STUDIED BY NEW COMMISSION SELECTED BY HOOVER

(By Associated Press)

WASHINGTON, Dec. 20.—Significant social changes in American life over recent years will be studied by a committee appointed today by President Hoover and headed by Wesley C. Mitchell, of Columbia university.

The work is expected to parallel an investigation of economic changes made some time ago by a commission appointed by Mr. Hoover when he was secretary of commerce.

The funds for the research have been provided by the Rockefeller Foundation.

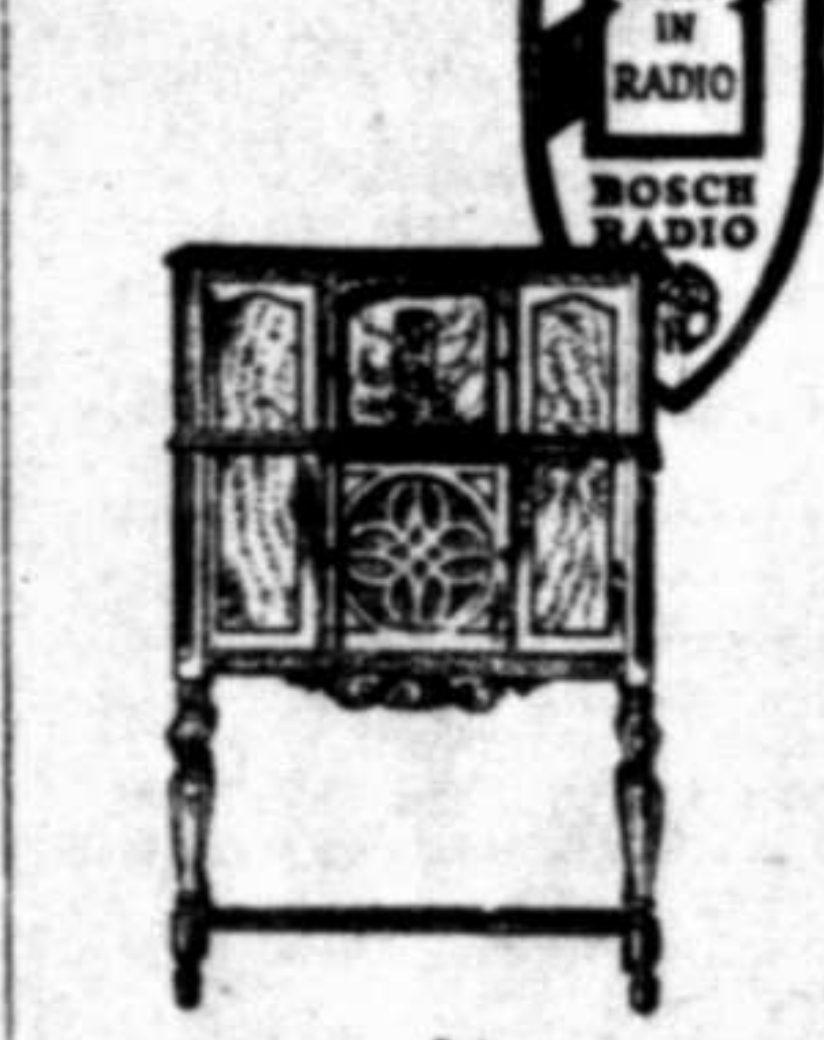

"The survey," the White House statement said, "will be a strictly scientific research, carried out by trained technicians, and will require about two or three years to complete. It is believed that it will produce a body of systematic fact about social problems, hitherto inaccessible, that will be of fundamental and permanent value to all students and workers in the field of social science."

"Such subjects will be studied as the improvement of national health and vitality, its bearing upon increased number of persons of old age, and other results; the changes in maladjusted, such as insane, feeble-minded, and so forth; the effect of urban life upon mental and physical health; the institutional development to meet these

UP FRACTION

NEW YORK, Dec. 20. (AP)—Mixed price movements again characterized the opening of today's stock market, with most of the low priced issues showing moderate recessions while several of the high grade divided paying issues improved. Renewed weakness cropped out in International Combustion, and Fox Film; Combustion sank 1 3/8 points to a new low at 4 3/8, or nearly 100 points below the high of the year, while Fox dropped a point to 24 1/4.

Others Go Lower

COTTON PRICE
STEADY TODAYGINNING REPORT IS
ABOUT AS LOOKED
FOR BY MARKET

NEW ORLEANS, Dec. 20. (AP)—The cotton market opened steady unchanged to 3 points up with Liverpool nearly as due. The census bureau report of 23,461,630 running bales ginned prior to December 13 was about as expected. January traded down to 16.51, March to 17.10 and May to 17.32, or 6 or 7 points below yesterday's close. The market was showing a disposition to work lower at the end of the first hour.

The market ruled quiet and rather easier most of the morning, due mainly to lack of support and disposition to trade in advance of the holidays. January eased off to 16.72, and May to 17.23, or 17 to 19 points down from opening highs. There was a little trade buying and a little better feeling around noon owing to more favorable cotton goods reports and rallied 3 to 6 points from the lows.

PRICES UNCHANGED
ON NEW YORK MARKET

NEW YORK, Dec. 20. (AP)—Cotton opened steady at unchanged prices to an advance of 3 points on reports of rallies from an early decline in Liverpool, some trade buying and covering.

The census report showing 23,461,630 bales ginned prior to December 13th compared with 13,144,333 to the same date last season appeared to be about in line with expectations.

January sold off to 16.56 and May to 17.45, with prices showing net losses of about 4 to 5 points. Offerings increased when the market seemed to be influenced by reports of weakening in grain and stocks. January sold off to 16.78 and May to 17.30, or within 2 points of last month's low price for January and into new low ground for May. Trade buying and covering was sufficient to steady the market and prices showed rallies of 5 or 6 points from the lowest with the market quiet around midday.

Tip From Prisoner
Averts Jail Escape

GEORGETOWN, Dec. 20. (AP)—A tip from a prisoner today averted an attempt at a jail break here Thursday.

The prisoner told officers that a man had thrown a string into the jail window and that a bundle of saws on the other end was pulled into the building.

The officers forced another prisoner to disclose the hiding place of the saws. They said they knew the identity of the man who threw the string and planned to arrest him.

NAVAL BASES PROVIDED FOR

BILL CALLS FOR TOTAL OF \$10,077,500 TO BE EXPENDED

(By Associated Press)
WASHINGTON, Dec. 20.—A naval shore construction bill calling for an expenditure of \$10,077,500 for improvements at naval stations along the continental coast, in Hawaii and the Panama Canal zone was approved Thursday by the House Naval committee.

The committee also made public the naval general board's recommendations that Camp Kearney, Calif., be selected in preference to Sunnyvale, Calif., as the site for the west coast airship base where the Navy plans to house one of its giant dirigibles being built at Akron, Ohio.

Bill Is Sponsored
The naval construction bill was sponsored by Secretary Adams, who also approved the general board's recommendation on Camp Kearney. The general board considered Camp Kearney "decidedly superior" to Sunnyvale for strategic purposes and for "contact and cooperation with the fleet" in time of peace and war. The general board overrode the majority report of the special west coast air base board which recommended Sunnyvale, and approved the minority report filed by Rear Admiral William Reeves.

The bill contemplates construction and improvements at Pearl Harbor, Hawaii, amounting to \$1,700,000, and other sums were allotted to San Diego, and Mare Island, California; Sound, Wash.; Canal Zone, Panama; N. J. Quantico and Norfolk, Va.; Anacostia, D. C.; Hampton Roads, and Philadelphia Navy yards.

Approval of a site for a naval air station at Guam also was approved.

(By Associated Press)
BARCELONA, Spain, Dec. 20.—A sleepy crossing watchman was blamed for a crash in which 15 persons were killed and sixteen injured when a passenger train and motor bus collided today at a grade crossing between Santa Sadurn De Noya and Gelida.

Every passenger in the bus was a casualty. Police arrested the watchman claiming that he was asleep on the job.

HUCKINS IS HELD TODAY

HEAD OF MYSTERIOUS FIRM IS ARRESTED IN MISSOURI TOWN

(By Associated Press)
EXCELSIOR SPRINGS, Mo., Dec. 19.—Identified by county officers as George E. Huckins, wanted at Cedar Rapids, Ia., on charges of obtaining money under false pretenses, a man registered at a hotel here as George Hood, of Cleveland, O., was arrested late Thursday.

Huckins and his father, Elmer S. Huckins, have been sought by Iowa authorities for several days on fraud charges instigated by William Spens, manager of the Cedar Rapids Baseball club, who also has brought a civil suit against the pair for \$70,000.

Sam At Liberty
Elmer S. Huckins is still at liberty. He is the head of a mysterious concern which is alleged to have obtained \$3,000,000 from investors in Iowa and Wisconsin on promises of dividends of 25 to 50 per cent.

No attempt was made to remove the prisoner here from his hotel room after service of the Iowa warrant. Dr. J. E. Baird, hotel physician, said the man was too ill to be moved and it would be several days before it would be safe to take him from the hotel. A guard was posted over the room.

Harmonica classes are sponsored by the Flint, Mich., Rotary club for boys and girls.

Construction projects planned for the Panama Canal Zone aggregate \$25,000,000.
