UNDULANT AND MALTA FEVER SEEN AS HEALTH PROBLEM FOR TEXANS

AUSTIN, Sept. 15 — Undulant fever or Malta fever, a disease contracted from cattle, goats or sheep which are infected with contagious abortion, is being reported sporadically throughout Texas and the nation, according to Dr. Geo. W. Cox, State Health Officer. This indicates Malta fever to be a public health problem and the attendant need of more general recognition by the public to the disease.

Undulant fever is so called because of the wave-like variations in temperature. The symptoms include rise in temperature, loss of weight and strength, chills, sweats and joint pains. The disease has rather a low mortality rate, but important because symptoms may persist for a number of weeks and even months before normal health and strength are restored.

In Texas, the goat, horse and cows are the usual spreaders of this disease. The germs of undulant fever enter the body through the mouth or skin. Therefore, care should be used in handling animals known to be infected and dairy products from the same sources should be pasteurized, if used. More men acquire this disease than women and adults seem more likely to have it than children. More cases are found in the rural areas than in the cities.

The true prevention of undulant fever is based upon the detection of the disease in livestock and the elimination of infected stocks from the herds.

Dairy herds should be tested for Bacillus abortus. This is a task that cannot be accomplished in a short time. Pasteurization of milk will prevent the spread from this source.

Billie Burke Back From Polio Center

Billie Burke, four year old daughter of Mr. and Mrs. Charlie Burke of Cisco, returned to the family home Tuesday after spending several weeks in the Tarrant County Polio Center in Fort Worth.

She was released from the center after receiving treatment from specialists and pronounced healed. There were no noticeable defects caused by her illness and doctors said her recovery was complete.

She gained statewide publicity when her picture appeared in several leading newspapers.

Loboes Crippled For Game With Big Spring's Steers Friday Night

Brunkenhoefer Heads Freshmen

Freshmen at Cisco High School named Ervin Allen Brunkenhoefer as president for the 1949-50 school year at an election held Wednesday. Young Brunkenhoefer is the son of Mr. and Mrs. I. A. Brunkenhoefer and is a member of the 1949 Lobo football squad.

Elected to serve with the president were Max Poyner, vice president; Allen Clark, secretary treasurer, and Mack McCaulley, reporter.

The Freshman Class this year is one of the largest in recent years and the officers and class sponsors have planned a full year of activities.

Class sponsors are V. C. Overall, Mrs. E. L. Hazlewood and Miss Marie Winston.

Cotton Quarantine Regulations For County Changed

Cotton quarantine regulations for Eastland County have been amended to allow growers to gin at Brownwood.

E. L. Wilde, Abilene, with the quarantine section of the U. S. Bureau of Entomology and Plant Quarantine, informed County Agent J. M. Cooper of the change this week.

Under the new regulation, cotton growers in the southwest part of the county may take their cotton to Brownwood for ginning. Until the new regulation went into effect, all cotton producers had to gin at the Gorman gin, only one in the county.

The cotton quarantine has been imposed in attempting to prevent the pink boll worm from spreading northward.

TO ADVERTISE SHOW

A plane from Abilene will fly over Cisco sometime Saturday and drop pamphlets advertising the air show scheduled in that city for Sunday, Sept. 18. Officials of the show wrote for permission to drop the advertising and the request was granted by Mayor Rosenthal.

MAKING TURNS—Mary and Tubby, King penguins at the London, England, Zoo, are taking turns in hatching the egg they created. Right now papa is taking his turn sitting on the future heir, anxiously tucking it in a little more. Mama stands nervously by, for baby will be the first penguin hatched in London.

GENERAL RAINS SLOW HARVEST

Harvest of matured crops was temporarily interrupted by rain and showers except in counties south and west of San Antonio. Heavy rains in northern Plains and most Low Rolling Plains counties and scattered showers and rains in other areas benefited pastures and late feed crops. Continued hot, open weather in the extreme southern counties favored rapid harvest of peanuts and cotton.

Wheat seeding in the northern High Plains continued until interrupted by heavy rains. Some early seedings are up to a good stand. In other areas a small acreage was seeded, primarily where early grazing was desired.

Good peanut yields were reported in all areas as harvest of the early crops became more general in the northern counties. Digging of the commercial sweet potatoes in east Texas continued in full swing and most fields were yielding exceptionally well.

Cotton was maturing rapidly in the High Plains and Low Rolling Plains with harvest just begun in the more northern Low Rolling Plains counties. Showers benefited late dry land cotton, but slowed harvest in some southern Plains and Cross Timbers counties. Cotton picking was also interrupted by showers over part of the Blacklands and in east Texas but harvest for the most part made rapid progress.

Fall and winter range feed and small grain pasture prospects were improved by heavy rains in the important northwestern wheat area and scattered showers and rain in most other areas except the extreme southern counties. Cured range feed was generally plentiful even in the dry counties.

Schools Start — Be Careful About Driving Your Car

AUSTIN, Sept. 10. — Reading 'ritin' and 'rithmetic time is here again for Texas youngsters.

"This is 'Back to school Safety' month in Texas and in Texas once again we must increase our vigilance while driving." This was the warning issued today by Ross Rommel, who heads the school program of the Texas Safety Association.

"School time," Rommel said, "takes the child away from his mother's apron strings for a few hours a day and during part of the time he is a potential accident victim unless we adults protect him.

Emphasis on child safety is particularly in September, according to the Texas Safety Association, because at no other time of the year are so many young children exposed for the first time to the dangers of our streets.

Death today claimed W. R. Rutherford of Terrell, father of Mrs. Austin Flint of Cisco. The Flints left for Terrell immediately upon learning of his death. Funeral services will be held at 2 p. m. Friday.

MARINES TO THE RESCUE—Fire fighters and equipment rendezvous in a clearing near Camp Pendleton, Calif., preparing to fight forest fires in the Santa Ana Mountains. August timber losses from fires in National Forests in Montana, South Dakota and California may total 100,000,000 board feet.

Coaches Everett and Overall will send their light Lobo eleven on the field Friday night against their heavier opponents, the Big Spring Steers, somewhat below par. With Quarterback Hub Harwell and End Buz Sawyer on the ailing list as doubtful starters the coaches were a little pessimistic.

Big Spring will come to Cisco with a team averaging 166 lbs. per man and with a line average of 172 pounds. The Loboes will enter the fray with team average of 150 pounds per man. The Lobo line, with Sawyer at end, averages about 15 pounds per man lighter than the visiting Steers.

The Steers boast a 193 pound tackle and a 214 pound guard and in their game with Plainview last week these two men played a large part in holding the highly touted Plainview club to one touchdown.

Standing out in the backfield for the Steers in the Plainview game was A. Jones, 166 pound halfback, who was not listed as a starter. He is a scat back who goes for yardage on every play. The Steers passing attack against the Plainview team was negligible but the Lobo coaches have spent much time this week in sharpening up on pass defensive tactics.

Everett and Overall have also worked extensively on offensive blocking and in shaping up the ground and pass plays. Much time has been spent in perfecting plays that worked against the Nocona team last Friday. With Harwell on the sidelines most of the week, suffering from an ankle injury, Johnson has been shifted to the signal calling position. Farley will probably see action at a halfback position in place of the ailing Harwell.

Being groomed to go in at left end position to replace Sawyer are Emmett Graham and Pippen. Both men should see some action.

The Big Spring game Friday will be the last time the Loboes play on home soil until Nov. 4. Next week, the team journeys to Grand Prairie where they play one of the state's highest rated teams.

First Christian Church Minister Arrives Tuesday

M. D. Swisher of Craig, Colo., arrived in Cisco Tuesday to assume the ministry of the First Christian Church. He was selected by church officers after he spoke before the congregation recently. He replaces Rev. R. W. Crews, who resigned to accept a pastorate at Denison.

Rev. Swisher will speak at both the morning and evening services of the local church Sunday. Following the services Sunday night there will be a reception in the basement of the church and friends of the church as well as members have been invited to attend.

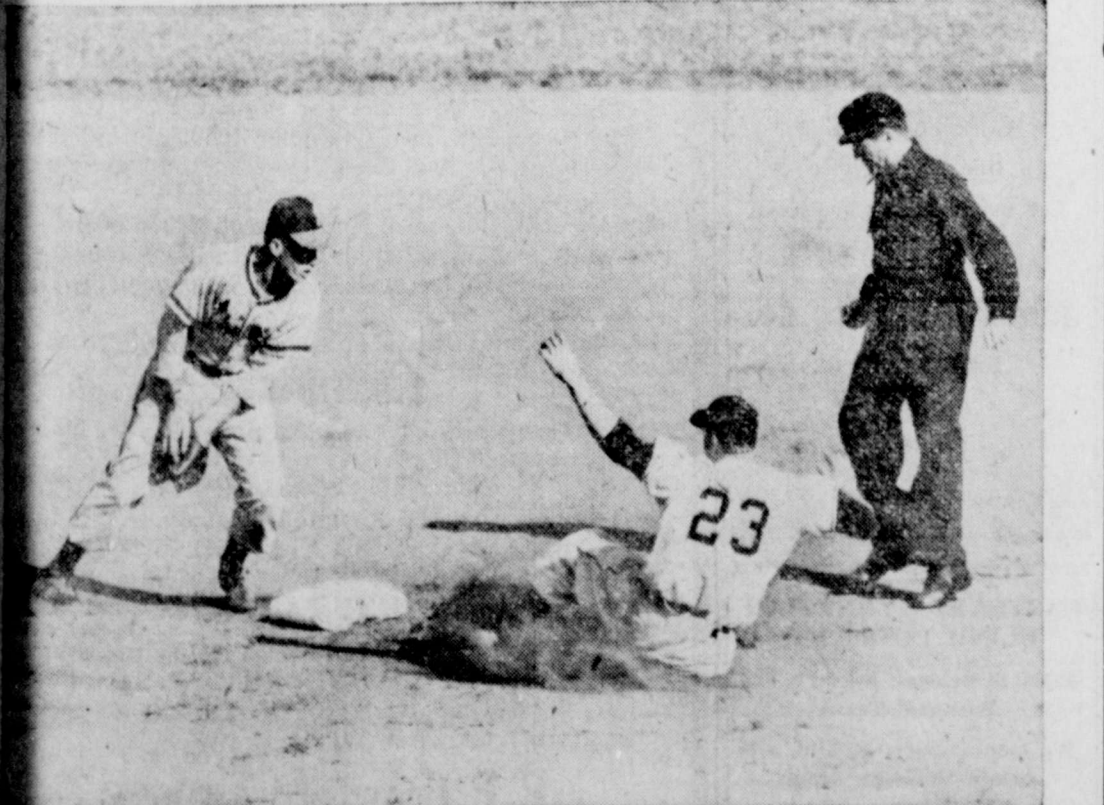

Rev. Swisher is a graduate of Johnson Bible College at Kimberlin Heights, Tenn. He did post graduate work at Butler University, Indianapolis, Ind. His home is in Dowagiac, Mich.

During World War II, Rev. Swisher was a chaplain in the United States Army. He was discharged as a captain. After leaving the service, he entered his work at Craig and was there for more than two years.

He has held pastorates in Columbus, Miss., Center Point, Iowa and Craig.

He and Mrs. Swisher have moved into the First Christian Church parsonage at 1112 West 7th, where they will reside. They have no children.

Fred M. Manning of Manning's Inc., was host to officials of the company with a three day entertainment from last Friday over Sunday at the Herring Hotel in Amarillo. F. M. Wright reports a very enjoyable time which included a base ball game between Texas and Colorado divisions at which, incidently, the Texas division won. A barbecue at Amarillo Country Club and several informative speeches. Mr. Manning also gave his guests a trip by train to the Helium Plant near Amarillo. About 100 officials were present.

Mr. and Mrs. G. M. Beene accompanied their son, Charles, to Abilene Sunday where he will attend McMurray College as a freshman. He will be a member of the Indian Band of McMurray College.

Mr. and Mrs. F. M. Wright and Buddy have returned from a vacation trip on which they visited at points in Kansas, Nebraska, Yellowstone National Park and Colorado.

Miss Katy Lou Atkins left Monday for Fort Worth where she will begin the fall semester as a sophomore at TCU. She is the daughter of Mrs. George Atkins of Cisco.

Mr. and Mrs. Sam Kimmell

Speaking on the Subject of Quality —

... It is always an appreciative compliment when so many of our customers tell us they like our abstracts. They must for many of them have been doing business with us for more than a quarter of a century, and still are. There is no secret attached to this expression of confidence. A quality product produces confidence. And we are proud that we have both — the confidence of a host of customers and a quality product to sell them.

HUNTERS PUH-LEASE!

HERE I WAS, SITTING ON A TELEPHONE WIRE, MINDING MY OWN BUSINESS, WHEN ALL AT ONCE A BLAST FROM A SHOTGUN KNOCKED ME RIGHT OFF MY PERCH

WELL, SIR, I CAME OUT PRETTY GOOD — ONLY A FEW TAIL FEATHERS MISSING — BUT THE HUNTER THAT MISSED ME CLIPPED A COUPLE OF TELEPHONE WIRES. ONE WAS MY FAVORITE ROOSTING PLACE, TOO.

THAT "ROOST" WAS ALSO CARRYING AN IMPORTANT LONG DISTANCE CALL. THAT'S WHY WE ASK HUNTERS: PLEASE DON'T SHOOT AT BIRDS ON TELEPHONE WIRES OR POLES. THANK YOU.
